DEPARTMENT OF AGRICULTURE

General Quarantine Order; Scrapie

Recitals

A. Scrapie is an infectious and progressive disease affecting the central nervous system (CNS) of ovine and caprine animals and belongs to a group of diseases called transmissible spongiform encephalopathies (TSEs).

B. There is no vaccine to protect animals against Scrapie, nor is there a known cure or treatment for this disease.

C. Scrapie is known to be transmissible from infected to uninfected ovine and caprine animals by birthing tissues and fluids.

D. Scrapie is specifically designated a “dangerous transmissible disease” of animals (3 Pa.C.S. § 2321(a)(36) relating to dangerous transmissible diseases).

E. The Pennsylvania Department of Agriculture (Department) has broad authority under 3 Pa.C.S. §§ 2301—2389 (relating to the Domestic Animal Law) to regulate the keeping and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases such as Scrapie.

F. The Department also has broad authority under the Domestic Animal Law to issue general quarantines with respect to any area or locality within the Commonwealth of Pennsylvania (Commonwealth) to exclude, contain or eliminate dangerous transmissible diseases such as Scrapie (3 Pa.C.S.A. § 2329(d)).

G. Scrapie is of particular concern to the ovine and caprine production industries, in that the presence of Scrapie may result in the Department ordering the condemnation and destruction of the entire affected flock or herd and may severely limit the market for ovine and caprine animal products from this Commonwealth.

H. Scrapie is known to be present in ovine and caprine animals in States, Commonwealths and territories of the United States and in foreign countries outside of the Commonwealth of Pennsylvania and is occasionally diagnosed among ovine and caprine animals within this Commonwealth. In August 2018, a Pennsylvania goat, which had been sampled at slaughter in July, was confirmed positive for classical scrapie. The goat was traced to a Pennsylvania herd that has both sheep and goats. The herd was designated as a source flock by the United States Department of Agriculture (USDA) in September 2018. An additional five sheep and one goat were confirmed positive for classical scrapie within that herd.

I. As a condition of maintaining this Commonwealth’s “Scrapie Consistent State Status” under the USDA’s ongoing Scrapie eradication effort, it is critical that the Department is able to promptly and accurately identify the source of a Scrapie-infected ovine or caprine animal originating or residing within this Commonwealth.

DEPARTMENT OF BANKING AND SECURITIES

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of October 2020

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of October 2020, is 3 1/2%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 1.05 to which was added 2.50 percentage points for a total of 3.55 that by law is rounded off to the nearest quarter at 3 1/2%.

Acting Secretary

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Pennsylvania Housing Advisory Committee Virtual Meeting and Virtual Public Hearing; 2021 Annual Action Plan

The Department of Community and Economic Development (Department) is preparing the Commonwealth's 2021 Action Plan of the Consolidated Plan for 2019—2023. The Consolidated Plan (Plan) is a document submitted to the United States Department of Housing and Urban Development (HUD) every 5 years analyzing the needs of the nonentitlement areas of the Commonwealth in the areas of housing including special needs, community development, homelessness prevention and economic development. From this analysis a unified strategy for housing, homelessness and community development programs, including the necessary linkages for building successful neighborhoods and communities is created. The Action Plan is the annual application to HUD for Federal funds administered by the Commonwealth for the nonentitlement communities of the Commonwealth. The HUD funding programs covered by the Plan and administered by the Department are the Community Development Block Grant (CDBG), the HOME Investment Partnerships (HOME), the Emergency Solutions Grant (ESG),

CDBG Disaster Recovery (CDBG-DR), CDBG—CARES Act, ESG-CARES Act and Neighborhood Stabilization Program (NSP 1) programs. The Plan also covers the following programs, which other state agencies administer: The Department of Health administers the Housing Opportunities for Persons with AIDS (HOPWA) and HOPWA—CARES Act programs. The Pennsylvania Housing Finance Agency administers the National Housing Trust Fund (HTF).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental

Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act, Act of January 24, 1966, P.L. 1535, as amended, 35 P.S. § 750.5.

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Cumru Township	1775 Welsh Road Mohnton, PA 19540	Berks

Plan Description: Approval is granted for a Revision to the Official Plan of Cumru Township, Berks County. The

project is known as the Vincent Giannotti Property. The plan provides for a proposed Small Flow Treatment Facility (SFTF) to replace a malfunctioning onlot sewage disposal system serving an existing dwelling on 0.5 acre. Total estimated sewage flows are 400 gallons per day, with discharge to an unnamed tributary of Wyomissing Creek, a High Quality water. The project is located at 291 Hunters Road in Cumru Township, Berks County. The Department's review of the plan revision has not identified any significant impacts resulting from this proposal. The DEP Code Number for this planning module is A3-06928-318-3S and the APS ID is 1018860. Permits for onlot sewage disposal systems must be obtained in the name of the property owner.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted Under the Pennsylvania Sewage Facilities Act, Act of January 24, 1966, P.L. 1535, as amended, 35 P.S. § 750.5.

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Plan Location:

Borough or Township	Borough or Township Address	County
Carroll Township	555 Chestnut Grove Road Dillsburg, PA 17019	York

Plan Description: The planning module for the Timothy Harrigan Property, DEP Code No. A3-67907-313-3s, APS Id 1018492, consisting of a one lot single-family residential development on 1.08 acre with total proposed sewage flows of 500 gpd to be treated by a small flow treatment facility is disapproved. The proposed development is located at 26 Jennifer Lane in Carroll Township, York County, and it proposed a discharge to an unnamed tributary of the Yellow Breeches Creek. This plan is disapproved because the point of first use (perennial conditions) is at the Yellow Breeches Creek, and the proposed discharge will be to a dry channel. The sewage planning module did not appropriately address dry stream discharge requirements, particularly Component 3s, Section H.2, Chapter 71, Sections 71.64(c)(2) and (3), and subsequently Chapter 71, Section 71.65(b).

BIOSOLIDS INDIVIDUAL PERMITS (PABIG, SSN AND PABIS)

The Department of Environmental Protection has taken the following actions on the previously received individual permit applications for the land application of treated sewage sludge (biosolids).

Any person aggrieved by these actions may appeal, pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A, to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape

from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge this action, the appeal must reach the board within 30-days. A lawyer is not needed to file an appeal.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site

investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. Grouted rip-rap will be used at the structure inlet. According to the hydraulic analysis, both the existing and proposed structures pass the 100-yr storm event with a reduction of 1.91-ft to the proposed conditions. A temporary pipe diversion system or temporary pump by-pass system are proposed to divert the stream around the work area. Traffic on T-657 will be detoured during construction.

A PNDI search determined no known impacts. A wetland delineation determined no wetlands at the project site.

To construct and maintain 295 ft of streambank stabilization along Pine Creek in Shippen Township, Tioga County. The purpose of the project is to stabilize the roadway slope along Owasssee Road, which is starting to fail. R-7 will be benched into the embankment. The road parallels Pine Creek, which is listed as a Keystone Select Trout Stocked and Special Regulation trout stream. It has an existing use of Exception Value (EV). It is also designated as a National Wild and Scenic Rivers as part of the Commonwealths Scenic River System. The total disturbed area along the embankment is 0.41 acre. Traffic will be detoured during construction.

A PNDI search determined several species of concern to be potentially present. Coordination for clearances was performed. A wetland delineation determined no wetlands at the project site.

2021 Environmental Education Grants; Notice of Availability

The Department of Environmental Protection (Department) announces the opening of a new round of Environmental Education Grants for 2021. The grant round is now open.

Two types of awards, mini grants and general grants, are offered for projects with special consideration given to projects that address the 2021 Environmental Education Grants Program (Program) priorities of water, climate change and environmental justice.

Mini grants of up to \$3,000 may be awarded for local (school, county, municipality or other defined area) environmental education projects. General grants may be awarded in amounts ranging from \$3,001—\$20,000 (Level I) for implementation of large scale regional or Statewide environmental education projects. A general grant may also be awarded in amounts ranging from \$20,001—\$85,000 (Level II) for nonformal education projects that widely engage youth and teachers at the local, State and National levels. Additionally, Level II projects must demonstrate at least 30% of program participants are members of an environmental justice area (as defined by the United States Census). For more information on environmental justice areas, visit <https://www.dep.pa.gov/PublicParticipation/OfficeofEnvironmentalJustice/Pages/PA-Environmental-Justice-Areas.aspx>.

The Program was established by the Environmental Education Act of 1993 (35 P.S. §§ 7521—7528), which mandates setting aside 5% of the pollution fines and penalties the Department collects annually for environmental education in the Commonwealth. In its 25-year history, the Program has funded more than \$11 million in environmental education projects. Awards have been given to schools, nonprofit organizations, colleges and universities, county conservation districts, and businesses.

The Environmental Education Grant guidelines and application instructions are available on the Department's web site at www.dep.pa.gov (select the "Grants" icon, and look for "Environmental Education—for educational projects in climate change, environmental justice, water quality, and other areas").

All applications must be submitted online through the Commonwealth's Electronic Single Application web site at www.esa.dced.state.pa.us/Login.aspx. The Department is now accepting applications. Applications must be received

by 11:59 p.m. on Friday, December 11, 2020. Hardcopy applications and late submissions will not be considered.

Availability of Watershed Planning and Restoration Grants through the Section 319 Nonpoint Source Management Grants Program

As part of the Department of Environmental Protection's (Department) Section 319 Nonpoint Source Management Grants Program, applications are now being accepted for watershed planning and restoration grants. Funded in part by the United States Environmental Protection Agency under section 319(h) of the Federal Clean Water Act (33 U.S.C.A. § 1329(h)), the Department administers a grant program to fund watershed projects that are part of approved watershed implementation plans (WIP). The grants are designed to improve and protect waters in this Commonwealth from nonpoint source pollution associated with agricultural activities, abandoned mine drainage (AMD), stormwater runoff, energy resource extraction, and streambank and shoreline degradation.

Eligible applicants include incorporated watershed associations, counties or municipalities, county conservation districts, council of governments or other authorized organizations including nonprofit organizations, educational institutions and municipal authorities.

The Department is focusing these grants on projects that reduce nonpoint source pollution in targeted watersheds with WIPs, especially projects that reduce nitrogen, phosphorous and sediment pollution from agricultural and stormwater runoff, along with AMD-related pollution from iron, aluminum and acidity. The Department is particularly interested in projects that implement effective Best Management Practices (BMP) that reduce or eliminate stream impairments within WIP areas, leading to local water quality improvements.

Examples of eligible projects include design and construction of BMPs, including: riparian forest buffers, streambank fencing and erosion/sedimentation/nutrient control practices on cropland; animal waste storage systems; and design and construction of stormwater management BMPs and AMD treatment systems and other projects that will reduce nonpoint source pollution in watersheds where streams are impaired.

Applications and all supporting documentation must be submitted online through the Commonwealth's Electronic Single Application web site at www.esa.dced.state.pa.us/Login.aspx. The Department is now accepting applica-

tions. Applications must be received by 5 p.m. Friday, October 23, 2020. Hardcopy applications and late submissions will not be considered.

Interested applicants with questions may contact Scott Carney at rscarney@pa.gov or (717) 783-2944. HOUSING FINANCE AGENCY

CARES Rent Relief Program Guidelines

The Housing Finance Agency (Agency) hereby provides notice of the CARES Rent Relief Program (CARES RRP). CARES RRP was established under the Federal Coronavirus Aid, Relief, and Economic Security Act (Pub.L. No. 116-136) (act). The act established CARES RRP as an emergency response to the novel coronavirus (COVID-19) pandemic to disburse funds to counties throughout this Commonwealth to provide financial assistance on behalf of low to moderate income renters experiencing difficulty making rent payments as a result of the COVID-19 pandemic. Assistance shall be made available in the form of a grant and funds will be paid directly to landlords or property owners.

This notice describes the eligibility criteria, as well as the application submission and evaluation process. In addition, this notice identifies the timelines applicable to application submission and funding disbursement. Applications will be available on the Agency's CARES web site at <https://www.phfa.org/pacares/>. Participating organizations will accept CARES RRP applications beginning July 6, 2020, until September 30, 2020.

The guidance contained herein supersedes any previously published CARES RRP Guidelines.

1. Eligibility Guidelines.

For purposes of determining what should be considered for a lessee's eligibility based on area median income, any compensation for services, including fees, commissions, fringe benefits and similar items are defined as income. Income also includes all gross income derived from businesses.

When calculating eligible assistance or household income, the combined incomes of lessees who reside in the same housing unit shall be used to determine eligibility, but each may individually be eligible for the maximum amount of monthly assistance, not to exceed their monthly rent amount.

CARES RRP funds that will be disbursed to participating counties may be used to assist lessees that became unemployed after March 1, 2020, due to the COVID-19 pandemic, or lessees that are experiencing at least a 30% reduction in annual income related to COVID-19. The term “Unemployed” shall have the meaning as set forth in section 4 of the Unemployment Compensation Law (43 P.S. § 753).

Assistance may be provided to support lessees who are at least 30 days past due on their monthly rent payments and can verify job loss or loss of income related to COVID-19 rendering the lessee unable to pay rent. All CARES RRP assistance is subject to the availability of funding.

CARES RRP funds may only be used to cover rent incurred between March 1, 2020, and December 30, 2020. Property owners are eligible to apply on behalf of lessees. The maximum amount of monthly assistance is \$750.

The maximum CARES RRP funding available is \$4,500 throughout a period of 6 months.

For eligible lessees with current income of less than the pre-pandemic level, continuing assistance may be provided for a total of 6 months or until such time as the household income increases to the pre-pandemic level or to an amount which is no longer a 30% reduction, whichever comes first.

Eligible lessees must have an annualized current income of no more than the upper limit of “median income” as defined in guidelines published annually by the United States Department of Housing and Urban Development. To find the median income for a specific county, visit <https://www.huduser.gov/portal/datasets/il.html>. Select 2020 as the year and choose the “Click Here for FY 20 IL Documentation” link to view the income limit per household size.

The CARES RRP income limit can be calculated by doubling the 50% limit (adjusted by household size), compared with the annualized current income amount. Applicant will not be eligible if the annualized current income exceeds that 100% median income amount.

Lessees will be required to provide documentation that accurately reflects income both prior to the pandemic-related loss of income and following the pandemic-related loss of income in order for the county designated organization to assess the pre-pandemic level and post-pandemic level of income so that a determination can be made as to whether there has been a 30% reduction in income. Documentation demonstrating Lessee’s current income must also be submitted. Income limits per household size may be found on the CARES RRP section of the Agency’s web site.

Lessees who became unemployed after March 1, 2020, must be verified with the Department of Labor and Industry’s Bureau of Unemployment Compensation. Lessees seeking CARES RRP assistance must be able to provide the following information to demonstrate CARES RRP eligibility, including but not limited to:

(a) Tenant pay stubs or income statements for the period beginning January 2020 until the date of application.

(b) A copy of the lease to verify rent and, in instances where the lease is a verbal lease agreement between the landlord and any lessee, third-party documentation verifying occupancy.

(c) Documentation to verify unemployment with the Department of Labor and Industry’s Bureau of Unemployment Compensation.

(d) Required CARES RRP executed documents.

(i) Landlord Application

(ii) Landlord/Property Certification Form

The Housing Finance Agency (Agency) hereby provides notice of the Pandemic Mortgage Assistance Program (Program). The Program was established under the Federal Coronavirus Aid, Relief, and Economic Security Act (Pub.L. No. 116-136) (act). The act establishes the Program to be administered by the Agency for the purpose of providing emergency mortgage assistance on behalf of homeowners who are delinquent in their mortgage payments and who have experienced job loss or reduced income as a result of the novel coronavirus (COVID-19) pandemic. Assistance shall be made available in the form of a grant and funds will be paid directly to lenders. The provision of assistance shall, at all times, remain subject to the availability of funding.

This notice describes the eligibility criteria, as well as the application submission and evaluation process. In addition, this notice identifies the Program timelines applicable to application submission and funding disbursement. Applications are available on the Agency’s web site at www.phfa.org. The Agency will accept Program applications beginning July 6, 2020, until September 30, 2020.

The guidance contained herein supersedes any previously published Program Guidelines.

1. *Program Objective.*

The purpose of the Program is to aid in foreclosure prevention by providing emergency assistance in the form of a grant on behalf of homeowners in this Commonwealth who are delinquent in their monthly mortgage payments due to job loss or reduced work hours and wages as a result of the COVID-19 pandemic.

2. *Definitions.*

The following words and terms shall have the following meanings.

“*Applicant.*” A homeowner or a lender applying on behalf of a homeowner.

“*Homeowner.*” The owner-occupant of a dwelling consisting of one or two separate units who became unem-

ployed after March 1, 2020, due to the COVID-19 pandemic, or who is experiencing a 30% or more reduction in annual household income due to reduced work hours or wages as a result of the COVID-19 pandemic. This term is interchangeable with the term “mortgagor.”

“*Income.*” Income will include compensation for services, including fees, commissions, fringe benefits and similar items. Income will also include all gross income derived from businesses.

“*Installment sales contract or agreement.*” An agreement or contract under which the seller of residential real property conveys ownership of or an equitable interest in real estate which constitutes the principal residence of the buyer wherein the seller finances the purchase by the buyer through contract, agreement, note or other security interest, if that contract or agreement does not constitute a default under the terms of a pre-existing mortgage between the seller and the seller’s mortgagee.

“*Lender.*” A mortgagee whose debt is secured by a first or second mortgage on the property of a homeowner. This term is interchangeable with the term “mortgagee.”

“*Mortgage.*” A lien, other than a judgment, on a fee simple or leasehold interest in real property which constitutes the principal residence of the homeowner, located in this Commonwealth together with credit instruments secured thereby. The term includes an installment sales agreement or installment sales contract. The term also includes an obligation evidenced by a security lien on real property upon which an owner-occupied mobile home is located.

“*Mortgagee.*” A lender whose debt is secured by a first or second mortgage on the property of a homeowner. This term is interchangeable with the term “lender.”

“*Mortgagor.*” The owner-occupant of a dwelling consisting of one or two separate units who became unemployed after March 1, 2020, due to the COVID-19 pandemic, or who is experiencing a 30% or more reduction in annual household income due to reduced work hours or wages as a result of the COVID-19 pandemic. This term is interchangeable with the term “homeowner.”

“*Unemployed.*” The meaning as set forth in section 4 of the Unemployment Compensation Law (43 P.S. § 753).

3. *Limitation on Assistance.*

(a) *Total funds available.* A total of \$25 million is available under the Program. The issuance of Program assistance shall at all times be subject to the availability of funding.

(b) *Covered timeframe.* Program assistance may be available to eligible applicants to cover mortgage payments due between March 2020 and December 2020 on homeowners’ first and second mortgages. Assistance may be provided on a first and second mortgage only, subject to all other eligibility criteria.

(c) *Types of assistance.* Assistance will be provided in the form of a grant, with no repayment terms and may be approved on either a continuing or noncontinuing basis depending on the homeowner’s current employment or income status at the time of application.

(d) *Assistance cap and applicability.*

(1) Assistance is limited to a maximum of \$1,000 per month, per mortgage for up to 6 months of mortgage

payments for mortgage payments due between March 2020 and December 2020. Assistance is available for a first and second mortgage on the property of an eligible homeowner, subject to all other eligibility criteria.

(2) Applicants may be eligible for assistance when the monthly mortgage payment exceeds \$1,000; however, the Program may only provide up to the maximum amount of assistance of \$1,000 per month, per mortgage. Lenders accepting the Program on behalf of any homeowner must agree to release the homeowner from any remaining obligation for any past due or future mortgage payment for which Program assistance is provided.

(3) Program assistance may be applied to mortgage payments included in a forbearance agreement.

(4) Assistance will include payment of the monthly amortized mortgage payment only and may not be applied to late charges, legal fees, property inspections or any other fees owed to the mortgagee before, during or after the covered timeframe.

4. *Eligibility for Assistance.*

(a) A property must be all of the following:

(1) An owner-occupied dwelling consisting of one or two separate units; and

(2) Secured by a mortgage or other security interest in cases where the property is subject to an installment sales contract or agreement; and

(3) Located in the Commonwealth.

(b) Assistance may be provided on behalf of a homeowner or to a lender applying on behalf of a homeowner when the following eligibility criteria have been demonstrated:

(1) The homeowners must have become unemployed after March 1, 2020, or had their annual household income reduced by 30% or more due to reduced work hours and wages as a result of the COVID-19 pandemic. A homeowner who became unemployed after March 1, 2020, must be verified with the Department of Labor and Industry’s Bureau of Unemployment Compensation.

(2) The homeowners must have an annualized current income of no more than the upper limit of “median income” as defined in guidelines published annually by the United States Department of Housing and Urban Development. Applicants may find the Area Median Income for a specific county by visiting <https://www.huduser.gov/portal/datasets/il.html>.

(3) The homeowners must hold legal or equitable title. In an effort to assist families with tangled titles and intergenerational family homes, as well as applicants with an installment sales contract or agreement, equitable owners, who are not the sole record owner or mortgagor, may be eligible.

(4) Mortgage payments for which assistance is requested must be due between March 2020 and December 2020.

(5) The mortgages for which assistance is requested must be a first or second mortgage on the property.

5. *Application and Review Process.*

(a) *Application process.* Applicants will be able to apply through a web-based application at <https://PMAP.phfa.org> or by mail utilizing a printable application, which is available on the Agency’s web site at www.phfa.org. The completed application, with all required supporting documentation may be mailed directly to the Agency. Appli-

cants may submit applications beginning July 6, 2020, until September 30, 2020. All owners of a property for which assistance is sought must complete and execute the application; however, a homeowner may be eligible if a co-owner is absent, unable or unwilling to complete the application. In addition to completing the application, to be eligible for assistance, an applicant must provide all of the requested documentation as applicable. The following must be included with the submitted application.

(1) *Required Documentation.* In addition to other documentation, as may be required by the Agency, the required supporting documentation shall consist of the following:

(i) A copy of any Act 6 Notice of Intent to Foreclose or Act 91 Notice if the homeowner has received such documentation. If the Act 6 Notice or Act 91 Notice is outdated, the applicant must provide a current notice that reflects the months and amounts owed on the mortgage for which assistance is sought.

(ii) If the homeowner has not received either an Act 6 Notice of Intent to Foreclose or an Act 91 Notice, the applicant must provide the most recent mortgage statement or a statement from the lender verifying the payments owed on the mortgage or in the case of a mortgage in forbearance the amount that would have been due had the forbearance not been put in place.

(iii) Verification that accurately reflects homeowner's household income prior to the pandemic-related loss of income and following the pandemic-related loss of income in order for the Agency to assess the pre-pandemic level and post-pandemic level of income so that a determination can be made as to whether there has been a 30% reduction in income. Documentation demonstrating homeowner's current household income must also be submitted.

(2) *Required Attestation and Certification.*

(i) *Homeowner attestation and certification.* In addition to certifying that the information provided on the application is accurate, the homeowner must certify that such homeowner, if approved for Program assistance, will not accept additional mortgage assistance for any mortgage payment amounts for which Program assistance has been provided.

(ii) *Lender attestation and certification.* In addition to certifying that the information provided in the application is accurate, any lender that applies for or receives the Program on behalf of any homeowner must agree to apply the Program funds to mortgage payments only and for the designated period, as approved by the Agency. The lender must also attest that the lender releases the homeowner of any remaining obligation for any past due or future mortgage payment for which the Agency pays the lender.

(b) *Application review.* The Agency will review complete applications to determine fulfillment of the eligibility criteria. As part of the application review, for homeowners

who were unemployed, the Agency shall verify homeowners' names with the Department of Labor and Industry's Bureau of Unemployment Compensation to ensure the homeowner became unemployed after March 1, 2020. Applicants must notify the Agency in writing of any changes in income or residence of the homeowner during the timeframe that the application for assistance is pending.

(c) *Disbursement timeframe.* All approved Program assistance, subject to the availability of funding, will be disbursed no later than November 30, 2020.

6. *Notice of Determination.*

(a) Within 60 days of receipt of a completed application, the Agency will provide written notice of its determination regarding eligibility.

(1) If the application for assistance is approved, an approval letter will be issued to the homeowner and each lender to which assistance funds will be provided.

(i) Applicants will be notified of the amount of assistance to be disbursed on the homeowner's behalf.

(ii) A Program Verification Form will be sent with the lender copy of the approval letter, which will request an updated verification of the months and amounts due on the mortgage. The Program Verification Form must be completed by the lender and returned to the Agency.

(2) If the application for assistance is denied, a denial letter will be issued to the homeowner. The denial letter will provide the reason for the denial.

7. *Acknowledgement.*

(a) *Homeowner acknowledgement.* If approved, all homeowners will be required to sign an acknowledgement regardless of whether assistance is approved as either continuing or noncontinuing. Any homeowner approved for Program assistance must agree to certain terms, including but not limited to, notifying the Agency in writing of any changes in income or residence during the period that Program assistance is being issued and that the homeowners have not and will not accept any other mortgage assistance from any other local, state or Federal program for the same amounts and time periods covered by any Program assistance paid by the Agency.

(b) *Lender acknowledgment.* Lenders that have agreed to accept Program assistance will receive an acknowledgment with the Program payment indicating that processing of the check indicates the lender's agreement to apply the Program funds to mortgage payments only and for the designated period indicated on the itemization provided with the check and affirming that the lender releases the homeowner for whom assistance was provided of any remaining obligation for the months for which Program assistance was applied.

STATE POLICE

Law Enforcement Officer Camera System Data Handling Requirements

The State Police, under 18 Pa.C.S. § 5706(b)(4) and (5) (relating to exceptions to prohibitions in possession, sale, distribution, manufacture or advertisement of electronic, mechanical or other devices), publishes this notice of the minimum standards to comply with the Federal Bureau of Investigation (FBI), Criminal Justice Information Service (CJIS), Security Policy, Version 5.6 (CJIS Policy) and 18 Pa.C.S. §§ 9101—9183 (relating to Criminal History Record Information Act) (CHRIA).

Camera systems used by criminal justice agencies in accordance with paragraph (2) of the definition of “oral communication” in 18 Pa.C.S. § 5702 (relating to definitions) have a high probability of capturing criminal justice information (CJI) and personally identifiable information. For these reasons, audio or video data, or both, (herein called “data”) captured by these camera systems are considered CJI and shall be handled in accordance with the CJIS Policy, CHRIA and Commonwealth Law Enforcement Assistance Network (CLEAN) regulations. *Reference:* CJIS Policy; 18 Pa.C.S. § 9106(b)(3) (relating to information in central repository or automated systems); and the CLEAN regulations, State Police, CLEAN Administrative Section.

Criminal justice agencies shall request approval from the State Police, CLEAN Administrative Section, prior to storing any data onsite or offsite. This approval will ensure compliance with CJIS Policy requirements and CHRIA. In accordance with 18 Pa.C.S. § 5706(b)(5), the following are the minimum requirements that must be met for any storage of an audio recording made in accordance with 18 Pa.C.S. § 5706(b)(4), or any accompanying video recording:

A. Camera system

1. While worn by the officer, a camera system shall be considered a physically secure location.

2. Upon removal from the officer’s body, the camera system shall be maintained in a physically secure location in accordance with CJIS Policy standards.

3. If a camera system is located in a criminal justice conveyance, it shall be considered located in a physically secure location. If the camera or hard drive is removed from the criminal justice conveyance, it shall conform with the CJIS Policy. A criminal justice conveyance is any enclosed mobile vehicle used for the purposes of criminal justice activities with the capability to comply, during operational periods. A physically secure location, as stated in section 5.9.1 of the CJIS Policy (relating to physically secure location) is as follows:

A physically secure location is a facility, a criminal justice conveyance, or an area, room or a group of rooms within a facility, with both the physical and personnel security controls sufficient to protect CJI and associated

information systems. The physically secure location is subject to criminal justice agency management control, State Identification Bureau control, FBI CJIS security addendum, or a combination thereof, and shall consist of the following:

a. Security perimeter—area that is posted, separated and secured.

b. Physical access authorizations—list of authorized personnel.

c. Physical access control—control all physical access points (AP).

d. Access control for transmission medium—control physical access to information systems, distribution and lines.

e. Access control for display medium—not visible to unauthorized personnel.

f. Monitoring physical access—monitor and respond to security incidents.

g. Visitor control—authenticate and escort visitors.

h. The agency shall authorize and control information system-related items entering and exiting the physically secure location (delivery and removal).

B. Data transfer or downloading the data

1. If accomplished through a wireless connection, agencies shall meet the CJIS Policy requirements, as stated in section 5.13.1.1 (relating to 802.11 wireless protocols).

Note: Wired Equivalent Privacy and Wi-Fi Protected Access cryptographic algorithms, used by all pre-802.11i protocols, do not meet the requirements for Federal Information Processing Standard (FIPS) 140-2 and may not be used.

2. Agencies shall implement the following controls for all agency-managed wireless APs with access to an agency’s network that processes unencrypted CJI:

a. Perform validation testing to ensure rogue APs do not exist in the 802.11 wireless local area network and to fully understand the wireless network security posture.

b. Maintain a complete inventory of all APs and 802.11 wireless devices.

c. Place APs in secured areas to prevent unauthorized physical access and user manipulation.

d. Test AP range boundaries to determine the precise extent of the wireless coverage and design the AP wireless coverage to limit the coverage area to only what is needed for operational purposes.

e. Enable user authentication and encryption mechanisms for the management interface of the AP.

f. Ensure that all APs have strong administrative passwords and ensure all passwords are changed in accordance with section 5.6.2.1 of the CJIS Policy (relating to standard authenticators), as follows:

(1) Be a minimum length of eight characters on all systems.

(2) Not be a dictionary word or proper name.

(3) Not be the same as the user ID.

(4) Expire within a maximum of 90 calendar days.

(5) Not be identical to the previous ten passwords.

(6) Not be transmitted in the clear, outside the secure location.

(7) Not be displayed when entered.

g. Ensure the reset function on APs is used only when needed and is only invoked by authorized personnel. Restore the APs to the latest security settings, when the reset functions are used, to ensure the factory default settings are not utilized.

h. Change the default service set identifier (SSID) in the APs. Disable the broadcast SSID feature so that the client SSID must match that of the AP. Validate that the SSID character string does not contain any agency identifiable information (division, department, street, and the like) or services.

i. Enable all security features of the wireless product, including the cryptographic authentication, firewall and other available privacy features.

j. Ensure that encryption key sizes are at least 128-bits and the default shared keys are replaced by unique keys.

k. Ensure that the ad-hoc mode has been disabled.

l. Disable all nonessential management protocols on the APs.

m. Ensure all management access and authentication occurs through FIPS-compliant secure protocols (for example, SFTP, HTTPS, SNMP over TLS, and the like). Disable non-FIPS-compliant secure access to the management interface.

n. Enable logging (if supported) and review the logs on a recurring basis per local policy. At a minimum, logs shall be reviewed monthly.

o. Insulate, virtually (for example, virtual local area network and access control lists) or physically (for example, firewalls), the wireless network from the operational wired infrastructure. Limit access between wireless networks and the wired network to only operational needs.

p. When disposing of APs that will no longer be used by the agency, clear AP configuration to prevent disclosure of network configuration, keys, passwords, and the like.

3. If the data is manually downloaded by an individual or retained outside of a physically secure location, it will need to be encrypted at rest and in transit, per sections 5.10.1.2.1 and 5.10.1.2.2 of the CJIS Policy (relating to encryption for CJI in transit; and encryption for CJI at rest).

C. Storage of the data

Storage of data on location, if considered a physically secure location, shall be treated the same as all CJI at the location. Storage offsite, or in the cloud, shall meet all the requirements of the CJIS Policy for encryption while in transit and at rest, if applicable. If encryption is not used at rest, any person with access to the data or systems storing the data shall be properly vetted with a fingerprint-based background check and Security Awareness Training; and required agreements shall be maintained.

1. As stated in section 5.10.1.2.1 of the CJIS Policy:

When CJI is transmitted outside the boundary of the physically secure location, the data shall be immediately protected via encryption. When encryption is employed, the cryptographic module used shall be FIPS 140-2 certified and use a symmetric cipher key strength of at least 128 bit strength to protect CJI.

2. As stated in section 5.10.1.2.2 of the CJIS Policy:

When CJI is at rest (i.e. stored digitally) outside the boundary of the physically secure location, the data shall be protected via encryption. When encryption is employed, agencies shall either encrypt CJI in accordance with the standard in Section 5.10.1.2.1 above, or use a symmetric cipher that is FIPS 197 certified (AES) and at least 256 bit strength.

D. Reviewing and release of data

1. Data from the camera system shall only be reviewed by authorized personnel; that is, personnel that have been cleared through a fingerprint-based background check, have received Security Awareness Training and have signed the appropriate agreements, if applicable. If required, the Management Control Agreement for local government IT, or The Security Addendum for private contractors, shall be completed and on file.

2. Prior to the release of data from the camera system, the data shall be reviewed and any areas containing CJI shall be removed or rendered unintelligible. Any data received from CLEAN or the National Crime Information Center in either video or audio format, or both, shall be removed or rendered unintelligible prior to release to any unauthorized or unintended personnel.

E. Retention of data

Data shall be stored for 60 days unless needed for prosecution, courts, litigation, appeals or other operational needs.

F. Destruction of data

The data, or the data storage devices that are to be destroyed, shall be destroyed in compliance with the CJIS Policy, and a written destruction procedure that complies with the CJIS Policy shall be maintained at the agency. As stated in section 5.8.3 of the CJIS Policy (relating to digital media sanitization and disposal):

The agency shall sanitize, that is, overwrite at least three times or degauss digital media prior to disposal or release for reuse by unauthorized individuals. Inoperable digital media shall be destroyed (cut up, shredded, etc.). The agency shall maintain written documentation of the steps taken to sanitize or destroy electronic media. Agencies shall ensure the sanitization or destruction is witnessed or carried out by authorized personnel.

Commissioner
