READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pacodeandbulletin.gov.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR
Title 4—ADMINISTRATION
PART I. GOVERNOR'S OFFICE
[4 PA. CODE CH. 5]
[EXECUTIVE ORDER NO. 2020-05]
Health Care Reform Council

October 2, 2020

Whereas, health care costs historically have outpaced the growth of the Commonwealth's economy; and

Whereas, the Commonwealth purchases health care for more than 3 million Pennsylvanians through the Medical Assistance program, the Children's Health Insurance Program, and other Commonwealth-administered programs; and

Whereas, the novel coronavirus (COVID-19) pandemic has underscored the importance of high-quality health care; and

Whereas, the pandemic has had a disproportionate impact on racial and ethnic minorities and underserved communities due to structural inequities in health, social and economic factors that preceded COVID-19; and

Whereas, the economic collapse caused by the COVID-19 pandemic has led to a large shortfall in the Commonwealth's 2020-2021 budget; and

Whereas, coordination among Commonwealth agencies is needed to most effectively manage costs and improve health care delivery; and,

Whereas, Pennsylvania has the opportunity to align Commonwealth health care payment and delivery systems to provide efficient whole-person care that also contains health care costs, reduces disparities, and achieves better health outcomes.

Now, Therefore, I, Tom Wolf, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws of the Commonwealth, do hereby establish the Interagency Health Reform Council and order and direct as follows:

Governor

Fiscal Note: GOV-2020-05. No fiscal impact; (8) recommends adoption.

GOVERNOR'S OFFICE**Notice of Veto; House Bill No. 2513, Printer's No. 4340**

October 16, 2020

To the Honorable House of Representatives
of the Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, House Bill 2513, Printer's Number 4340.

This bill jeopardizes public health and safety as it permits eating establishments, including restaurants, bars, clubs and banquet halls, to operate, up to 100% capacity, without having to follow any mitigation

guidelines of the Centers for Disease Control and Prevention (CDC) or the Commonwealth. These federal and state mitigation guidelines were established to reduce the risk of spreading COVID-19 because of the severity of this pandemic. These guidelines not only protect customers, they also protect employees and the community.

By eliminating these critical protections, in addition to removing certain limits related to bar service and purchasing of alcoholic beverages, this bill increases the likelihood of COVID-19 outbreaks. Currently, cases of COVID-19 have been rising, with 172,169 confirmed cases and 8,457 deaths to date. To the extent there is a resurgence of the virus this fall and winter, we need these critical mitigation guidelines to remain in place, and we need to retain the ability to implement further mitigation measures if necessary. As we learned this summer, the risk of spreading COVID-19 in restaurant settings is unique due to the length of interaction with others in proximity and the inability to utilize prevention practices such as wearing masks.

We have been able to re-open businesses and schools because of the success of our mitigation efforts. If we do not promote health and safety measures that reduce the spread of COVID-19, there will be a resurgence of COVID-19 cases, thereby ending our successes, and risking our health and our lives. Instead of removing mitigation guidelines and encouraging behaviors that increase the spread of COVID-19, we need to be focused on getting our children back to school, keeping our schools and businesses open, and taking precautions to keep our communities healthy. We also need legislation that: provides funding for small businesses and child care; adequately assists struggling renters and homeowners; and provides paid sick leave for employees.

Lastly, this bill contains constitutional infirmities, as it attempts to take away executive authority during the existing COVID-19 disaster emergency. The courts already have ruled that there is but one mechanism to alter the existing emergency proclamation—a concurrent resolution terminating it. This bill represents another meaningless attempt to change a necessary tool for fighting the pandemic. These bills that do nothing more than seek to distract from our focus on helping Pennsylvanians cope and recover from this emergency must stop.

For the reasons set forth above, I must withhold my signature from House Bill 2513, Printer's Number 4340.

Sincerely,

Governor

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT

[204 PA. CODE CH. 83]

Proposed Amendments to the Rules of Disciplinary Enforcement to Require Certain Attorneys Who Become Debtors in Bankruptcy to Provide Written Notice of the Bankruptcy Filing

Notice is hereby given that The Disciplinary Board of the Supreme Court of Pennsylvania (“Disciplinary Board”) is considering a recommendation to the Supreme Court of Pennsylvania that the Court amend Rules 208 and 218 of the Pennsylvania Rules of Disciplinary Enforcement (“Enforcement Rules”), as set forth in Annex A. In addition, the Disciplinary Board and the Board of The Pennsylvania Lawyers Fund for Client Security (“Fund”) are considering jointly recommending to the Court that the Court adopt new Enforcement Rule 532, as set forth in Annex B. The intent of the revisions is that the Disciplinary Board and the Fund receive timely notice of a bankruptcy filing in which either agency or both agencies have an interest in order that action can be taken to contest the dischargeability of the debt, thereby promoting the disciplinary system’s penal and rehabilitative interests, preserving the Fund’s interest in securing restitution, and helping to defray the expense of agency proceedings.

Amendment to Enforcement Rule 208(g) (Annex A):

Subsections (g)(1)–(5) of Enforcement Rule 208 provide for the taxation of expenses incurred in the investigation and prosecution of a proceeding that results in discipline, an administrative fee, and assessed penalties on unpaid taxed expenses and administrative fees. Attorneys with unpaid judgments under this Enforcement Rule who attempt to discharge the debt in bankruptcy should be required to give timely written notice of the attorney’s filing for bankruptcy protection to the Executive Director of the Disciplinary Board as set forth in proposed subsection (g)(6) of Enforcement Rule 208, for three reasons.

First, establishing a uniform procedure for notice eliminates any uncertainty about the person to whom notice is to be directed as well as any potential problems arising from a bankruptcy court’s sending notice of a bankruptcy filing to any one of a number of agency locations, such as a district office many years after the entry of the judgment. Designating the Executive Director, who oversees all agency operations and finances, as the recipient of the notice ensures that the agency will have an opportunity to adequately assess and take appropriate steps to protect the agency’s disciplinary and financial interests.

Second, prompt receipt of notice strengthens the Disciplinary Board’s ability to take timely action in the bankruptcy proceeding, when warranted, to contest the dischargeability of the debt in furtherance of the goals of discipline. The Eleventh Circuit Court of Appeals has held that the costs and expenses assessed against an attorney under Enforcement Rule 208(g)(1) are non-dischargeable in bankruptcy because they are in the nature of a fine or penalty, are “rolled into the overall sanction imposed against an attorney who engages in misconduct,” and promote the Commonwealth’s penal and

rehabilitative interests. *Disciplinary Board v. Allen L. Feingold (In re Feingold)*, 730 F.3d 1268, 1273-77 (11th Cir. 2013). See also *In re Lulo*, 564 Pa. 205, 214, 766 A.2d 335, 340 (2001) (“...Pennsylvania concerns itself with punishment as a prerequisite to rehabilitation.”) The rehabilitative component of Enforcement Rule 208(g) is further illustrated in D.Bd. Rules § 89.272(c), which provides that the Disciplinary Board will not entertain a petition for reinstatement filed before a formerly admitted attorney has paid in full any costs taxed in relation to formal proceedings.

Third, disciplinary enforcement and administration is funded almost exclusively through the annual attorney registration fees collected by the Disciplinary Board pursuant to Enforcement Rule 219(a). Collection of taxed expenses, administrative fees, and assessed penalties helps to defray the expense of government and to maintain the attorney disciplinary system’s self-sustaining status.

Amendment to Enforcement Rule 218(f) (Annex A):

The Board will also not entertain a petition for reinstatement filed before the formerly admitted attorney has paid in full any costs taxed under § 89.209 (relating to expenses of formal proceedings) or under § 89.278 (relating to expenses of reinstatement proceedings) with respect to any previous reinstatement proceeding and has made any required restitution to the Lawyers Fund for Client Security under Enforcement Rule 531 (relating to restitution a condition for reinstatement). Subsections (f)(2)-(3) of Enforcement Rule 218 provide for the taxation of necessary expenses incurred in the investigation and processing of a petition for reinstatement and the assessment of a penalty, levied monthly on the unpaid principal balance. Attorneys with an unpaid judgment under this Enforcement Rule who attempt to discharge the debt in bankruptcy should be required to give timely written notice of the attorney’s filing for bankruptcy protection to the Executive Director of the Disciplinary Board as set forth in proposed subsection (f)(4) of Enforcement Rule 218, as all three considerations identified in the previous discussion—establishing a uniform procedure for notice, enhancing the Disciplinary Board’s ability to contest dischargeability of the debt, and defraying the cost of government—apply with equal force to this proposed subsection. With respect to the second consideration, expenses taxed and penalties assessed under Enforcement Rule 218(f) further Pennsylvania’s rehabilitative goal and should not be dischargeable in bankruptcy because their payment is a logical extension of the rehabilitative process. *Cf.* D.Bd. Rules § 89.272(c) (providing in part that the Disciplinary Board will not entertain a petition for reinstatement filed before a formerly admitted attorney has paid in full any costs taxed in connection with any *previous* reinstatement proceeding).

New Enforcement Rule 532 (Annex B):

Proposed Enforcement Rule 532 applies to an attorney who is either the subject of a claim pending with the Fund or who has received notice that the Fund has made a disbursement in connection with a claim against the attorney and the attorney has not repaid the Fund in full plus interest (“Covered Attorney”). The new rule would require the Covered Attorney to give timely written notice of the Covered Attorney’s filing for bankruptcy protection to the Executive Director of the Fund.

The Fund’s receipt of the notice required by proposed Enforcement Rule 532 would allow the Fund to be

proactive in protecting the Fund’s ability to collect an existing obligation owed to the Fund, or to protect the Fund’s potential subrogation interest in a pending claim. A claimant who has a pending claim with the Fund may receive notice of the Covered Attorney’s bankruptcy filing and may not understand the significance of the deadlines set forth on the notice. A claimant may not be inclined, or may not have the financial resources, to discuss the bankruptcy filing notice with an attorney. If the claimant does not file a proof of claim in the Covered Attorney’s bankruptcy and an award is subsequently approved and paid, the Fund, by virtue of a subrogation agreement with the claimant, will stand in the shoes of the claimant and may have lost the opportunity to file a proof of claim or a Complaint in Nondischargeability. This lost opportunity may inhibit the Fund’s ability to recover the obligation that is owed to the Fund by the Covered Attorney.

By receiving a notice of the filing of a bankruptcy, particularly when a claim is pending with the Fund, the Fund may enter an appearance in the Covered Attorney’s bankruptcy as a party in interest in order to request an extension of the deadline to file a proof of claim or adversary proceeding. The Fund could also choose to expedite the review of the claim(s) pending with the Fund regarding the Covered Attorney who is now a debtor in bankruptcy, to be able to assess the Fund’s potential subrogation rights should the pending claim(s) appear to fall within the definition of a Reimbursable Loss.

Finally, recoveries obtained from Covered Attorneys increase the Fund’s available financial resources in order to accomplish the Fund’s mission of reimbursing misappropriated client funds to the victims. Restitution, which is a condition for reinstatement under Enforcement Rule 531, also furthers the disciplinary system’s goal of rehabilitation.

Interested persons are invited to submit written comments by mail or facsimile regarding the proposed amendments to the Executive Office, The Disciplinary Board of the Supreme Court of Pennsylvania, 601 Commonwealth Avenue, Suite 5600, PO Box 62625, Harrisburg, PA 17106-2625, Facsimile number (717-231-3382), Email address Dboard.comments@pacourts.us on or before December 4, 2020.

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT

[204 PA. CODE CH. 85]

Proposal to Amend the Disciplinary Board’s Rule of Procedure Pertaining to Stale Matters to Replace the Tolling Provision Applicable to Complaints Involving Civil Fraud, Ineffective Assistance of Counsel or Prosecutorial Misconduct

Notice is hereby given that The Disciplinary Board of the Supreme Court of Pennsylvania (Board) is considering amending Disciplinary Board Rules (“D.Bd. Rules”) § 85.10, as set forth in Annex A. Section 85.10, which is titled “Stale matters,” is the rule equivalent of a statute of limitations and, with limited exceptions, forbids the Office of Disciplinary Counsel (ODC) or the Board from entertaining any complaint arising out of acts or omissions occurring more than four years prior to the date of the complaint.

Historical backdrop.

At the inception of the current disciplinary system in 1972, the only exceptions to the four-year limitations period in D.Bd. Rules § 85.10 were “cases involving theft or misappropriation, conviction of a crime or a knowing act of concealment.” These four exceptions still exist and appear in subsection (b)(1) of the current rule.

In 1994, the Board created a fifth exception by adopting a tolling provision for any period when there is litigation involving allegations of civil fraud by the respondent-attorney. According to the publication of the adoption of the rule amendment, 24 Pa.B. 2693 (May 28, 1994), and the earlier Notice of Proposed Rulemaking, 24 Pa.B. 1281 (March 12, 1994), the Board was anticipating that the rule would be relevant principally in cases where the Board had deferred a disciplinary proceeding under Enforcement Rule 211 pending the outcome of civil litigation but would also capture complaints filed with the Board after the completion of the independent litigation. This tolling provision currently appears in D.Bd. Rules § 85.10(b)(2).

In 2002, the Board extended the tolling provision of subsection (b)(2) to include complaints alleging ineffective assistance of counsel or prosecutorial misconduct, 32 Pa.B. 1838 (April 28, 2002), thereby increasing the number of exceptions to seven. The Board recognized that it may take more than four years for some cases of ineffective assistance of counsel or prosecutorial misconduct to come to the attention of the Board. *Id.* See also 31 Pa.B. 6031 (November 3, 2001) (Notice of Proposed Rulemaking).

“Tolling” is ineffectual in cases of ethical misconduct.

The Board now believes that the tolling provision in subsection (b)(2) is an ineffectual method of determining when ODC and the Board are allowed to proceed with a complaint, for several reasons. One reason is that the limitations period runs from the time of the misconduct, which could be prior to or during settlement, guilty plea proceedings, or trial, irrespective of whether the client has *discovered* the misconduct. Thus, for example, if trial counsel in a criminal case is incompetent or ineffective at the pretrial or trial stage, and the defendant is represented by the same counsel on direct appeal, the defendant may not discover (and consequently will not raise) the issue of trial counsel’s incompetence or ineffectiveness until represented by competent counsel after the conclusion of the direct appeals, which could be years after the misconduct, when the four-year window to file a complaint has already closed. The Board has considered but rejected the adoption of a discovery provision because such a provision would likely spawn litigation over the precise date when the convicted defendant or civil client discovered or reasonably should have discovered the attorney’s misconduct. Putting the focus on the finding of fraud or other misconduct provides a definitive *objective* trigger for determining the date of the finality of the litigation in which the finding is made while eliminating the need for collateral litigation over the former client’s *subjective* state of mind.

Tolling is also inadequate to determine the viability of an ethics complaint because the lengths of time that are not tolled are dependent upon a number of fortuitous circumstances that vary from case to case and over which the client has little or no control. In the example where the criminal defendant is represented by incompetent or ineffective counsel on direct appeal, the four-year window for filing a complaint is closing during the appellate

process, the length of which is influenced by circumstances such as the ability to secure pre-trial and trial transcripts, counsel’s and the prosecutor’s ability to promptly generate an appellate brief, the presence or absence of oral argument or a remand for the taking of additional evidence, and the appellate courts’ grant or denial of a petition for reconsideration or review by the court *en banc*. There may be additional time that is not subject to tolling as a result of delays in sentencing or a hiatus between the exhaustion of the direct review and the commencement of a collateral proceeding for post-conviction relief. The same variables apply to the review of the conduct of the prosecutor, whose mishaps during pre-trial discovery or at trial may not be scrutinized until after the exhaustion of the direct and collateral state review process and the initiation of a federal habeas proceeding. Anecdotal evidence, which is confidential under Enforcement Rules 209(a) and 402, illustrates the existence of disciplinary complaints that warranted disciplinary consideration but were dismissed because they could not survive ODC’s preliminary review conducted pursuant to the current rule’s tolling provision. An effective attorney disciplinary agency must be in a position to thoroughly assess the need for disciplinary accountability for publicly adjudicated cases of unethical conduct.

Uncertainty can also arise in applying the tolling provision to a particular case, in that questions arise as to what proceedings or segments of sequential proceedings are to be tolled. Under the language of the current rule’s tolling provision, time is excluded during any period of pending litigation “*that has resulted in a finding that the subject acts or omissions involved civil fraud, ineffectiveness assistance of counsel or prosecutorial misconduct by the respondent-attorney.*” (Emphasis added). Hence, the tolling provision requires proof of a causal connection between the litigation and the finding of one of the three forms of misconduct. By way of hypothetical question, if state court review concludes without a finding of ineffective assistance or prosecutorial misconduct but such a finding is entered during subsequent federal review, does the state court review establish the requisite causal connection, such that the period of state court review is excluded when calculating the four-year limitations period? On the one hand, one could reasonably argue that the period of state court review should not be excludable because there was a break in the litigation chain and the filing of a federal habeas action was the commencement of a separate and distinct litigation. On the other hand, one could reasonably maintain that the period of state court review should be excludable time because the exhaustion of state court remedies is a necessary predicate of federal review, and *but for* the state court litigation, the federal remedy could not have been achieved. No clear rules guide the analysis.

Proposed amendments to D.Bd. Rules § 85.10.

To remedy the situation and capture those matters that would otherwise evade review, the Board proposes that the tolling provision in subsection (b)(2) be replaced with a provision that would allow ODC and the Board to entertain a complaint of civil fraud, ineffective assistance of counsel, or prosecutorial misconduct “if filed or opened within: i) four years of the subject acts or omissions; or ii) two years after the litigation in which the finding [of one of those three forms of misconduct] was made becomes final, whichever date is later.” Subsection (b)(2)(ii) provides a two-year window for any former client or complainant who successfully litigates his or her claim in a civil or criminal forum. Any ambiguity over the calculation of when the litigation “becomes final” is addressed in

new subsection (c) of the proposed rule, which definition borrows heavily from § 9545(b)(3) of Pennsylvania's Post Conviction Relief Act, 42 Pa.C.S. § 9541 *et seq.* ("PCRA"). To be clear, the language of the PCRA provision addresses when a "judgment" becomes final for purposes of initiating collateral review under the PCRA, and is therefore not on point, although the statutory language with some modification, as set forth in new subsection (c), is well suited to provide the required guidance. Moreover, the definition is sufficiently general to be adaptable to post-conviction and post-verdict civil court procedures in all state and federal jurisdictions.

Irrespective of subsection (b)(2)(ii)'s two-year window, subsection (b)(2)(i) ensures that the limitations period for civil fraud, ineffective assistance of counsel, or prosecutorial misconduct is not reduced to less than four years, in that subsection (b)(2)(i) guarantees that a complainant will have not less than four years from the date of the misconduct in which to file a complaint. Hence, if a complainant were to obtain a finding of civil fraud, ineffective assistance of counsel, or prosecutorial misconduct within six months of the misconduct and no additional litigation over that finding was forthcoming, under subsection (b)(2)(i) the complainant would have three-and-one-half years remaining in which to file a complaint with the Board.

Finally, neither litigation nor a finding of misconduct is a prerequisite to the filing or entertaining of a disciplinary complaint. The Board proposes the addition of a Note following the rule as a preemptive strike to any attempt by a litigant to construe new subsection (b)(2) as imposing a requirement that a complainant institute litigation in a civil, criminal or administrative forum and obtain a finding of misconduct before his or her complaint may be entertained by Disciplinary Counsel or the Board.

Interested persons are invited to submit written comments by mail or facsimile regarding the proposed amendments to the Executive Office, The Disciplinary Board of the Supreme Court of Pennsylvania, 601 Commonwealth Avenue, Suite 5600, PO Box 62625, Harrisburg, PA 17106-2625, Facsimile number (717-231-3381), Email address Dboard.comments@pacourts.us on or before December 4, 2020.

RULES AND REGULATIONS

Title 28—HEALTH AND SAFETY

DEPARTMENT OF HEALTH

[28 PA. CODE CH. 27]

Complete Reporting of CD4 T-Lymphocyte, Viral Load and Genotyping Test Results Relating to HIV

The Department of Health (Department), with the approval of the Advisory Health Board (Board), amends 28 Pa. Code §§ 27.1, 27.4, 27.21a, 27.22, 27.23 and 27.32a—27.32e to read as set forth in Annex A.

(Editor's Note: Exhibits A through C and Exhibit E referenced in this preamble are attached to the Department's Regulatory Analysis Form (RAF) relating to this final-form rulemaking. The RAF may be obtained through the contact information listed as follows, or by searching the regulation number, 10-209, on the Independent Regulatory Review Commission's (IRRC) web site at www.irrc.state.pa.us.)

I. Purpose and Background

This final-form rulemaking amends the Department's requirements for the reporting of HIV infection. Those requirements, which had included the reporting of CD4 T-lymphocyte test results with a count of equal to or less than 200 cells/ μ L or a CD4 T-lymphocyte percentage of less than 14% of total lymphocytes, will now require the reporting of all CD4 T-lymphocyte cell counts and percentages relating to HIV infection, as well as the reporting of all viral load test results, including detectable and undetectable viral loads, and genotyping results related to HIV.

The Department added the reporting of cases of HIV infection and CD4 T-lymphocyte test results to its communicable and noncommunicable disease reporting regulations in 2002. At the time, it limited the required reporting of CD4 T-lymphocyte test results to those results at or below a certain count or percentage and did not require viral load or genotyping test result reporting at all. Since that time, the manner and ability to detect and treat persons with HIV and to suppress the virus in persons with the infection has changed and improved, and the need for complete reporting, and complete reporting of viral loads and genotyping as well as CD4 counts, has become apparent. The Centers for Disease Control and Prevention (CDC) of the Federal Department of Health and Human Services has made it clear that reporting of all CD4 T-lymphocyte cell counts, viral loads and genotyping test results related to HIV is essential to early and appropriate treatment. To stop the spread of HIV, prevent the emergence of new cases and keep those living with HIV healthy, the National HIV/AIDS Strategy for the United States, updated for 2020, (National HIV/AIDS Strategy) has, as its critical foci, widespread testing and linkage to care, broad support for people living with HIV to remain engaged in comprehensive care, universal viral suppression among persons living with HIV, and full access to Pre-Exposure Prophylaxis services to prevent the spread of disease. See National HIV/AIDS Strategy (July 2015), at Executive Summary 3, at <https://files.hiv.gov/s3fs-public/nhas-update.pdf>. Accessed February 23, 2018.

To achieve these goals, the CDC recommends, among other things, the reporting of all CD4 test results (counts

and percentages) and all viral load results (undetectable and detectable specific values). See Letter from Kenneth G. Castro, MD, Assistant United States Surgeon General, United States Public Health Service and Amy Lansky, PhD, MPH, Deputy Director for Surveillance, Epidemiology and Laboratory Sciences, Division of HIV Prevention, CDC, a copy of which is attached hereto as Exhibit A. A letter directly to the former Secretary of Health, Karen Murphy, from the Director of the Office for State, Tribal, Local and Territorial Support and Deputy Director of the CDC, reiterated this position to the Commonwealth, as one of only six¹ states that did not collect all CD4 test results. See Letter from Jose T. Montero, MD, MHCDS, Director, Office for State, Tribal, Local and Territorial Support and Deputy Director, Centers for Disease, Control and Prevention, and Jonathan A. Mermin, MD, MPH, RADM and Assistant Surgeon General, United States Public Health Services, and Director, National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention to Secretary Karen Murphy, dated February 8, 2017 (Letter to Secretary Murphy), a copy of which is attached hereto as Exhibit B. The letter stated the following:

The updated National HIV/AIDS Strategy for the United States identifies primary goals to guide our collective national fight against HIV. The success in advancing several of these goals, ensuring sustained viral suppression for person living with HIV and measuring progress towards HIV care, relies on *laboratory reporting of HIV-related tests, including all CD4+ T-lymphocyte (CD4) and viral load test results, to local and national HIV surveillance systems*. Complete laboratory data are critical to identifying cases, measuring care and treatment outcomes, and measuring the effectiveness of public health interventions. Specifically, these data are often used to monitor disease progression, determine the stage of HIV infection, monitor receipt of HIV care and treatment, and make decisions about public health interventions. Both viral load and CD4 data are used to assess whether patients are responding to treatment: when treatment is successful, CD4 counts rise and viral loads fall. Current HIV clinical management guidelines call for CD4 and viral load testing at the time of diagnosis and regularly thereafter. When CD4 and viral load results are reported, public health agencies can determine access to care and treatment outcomes. For these reasons, CDC recommends complete state reporting of all HIV test results.

Letter to Secretary Karen Murphy, supra (emphasis added).

At the present time, Pennsylvania is one of only four states that do not collect all CD4 T-lymphocyte test results. See e-mail from Richard Selik (CDC/OID/NCHSTP) to Godwin Obiri, Epidemiology Supervisor, Bureau of Epidemiology, Department of Health, attached hereto as part of Exhibit C. In addition, of the 50 states, only Pennsylvania and Idaho fail to require the reporting of all viral load test results. See e-mail from Richard Selik (CDC/OID/NCHSTP) to Godwin Obiri, Epidemiology Supervisor, Bureau of Epidemiology, Pennsylvania Department of Health, attached hereto as part of Exhibit C. To appropriately protect the public's health by suppress-

¹ At the time the letter was sent, the Commonwealth was one of six states that did not collect all CD4 test results. That number has since fallen to four. ing the spread of HIV and provide better, more effective treatment for persons living with HIV, the Department is amending its regulations to require complete reporting.

The Department is also taking this step to ensure that, if, in the future, public funding is tied to disease burden, as has been suggested could occur, the Commonwealth will not be disadvantaged. Goal 1 of the National HIV/AIDS Strategy, which calls for reducing new HIV infections, see National HIV/AIDS Strategy at 1, sets forth as a recommended action the allocation of public funding consistent with the geographic distribution of the epidemic. *Id.* at 19. The National HIV/AIDS Strategy recommends a similar action with regard to Goal 4, achieving a more coordinated national response to the HIV epidemic. *Id.* at 43; see also 45 (“The Federal government should review the methods used to distribute Federal HIV funds and take steps to ensure that resources go to the States and localities with the greatest burden of disease.”) If, in the future, Federal funding is tied to disease burden, the Commonwealth would be at a disadvantage among other states with more complete verifiable data. See Exhibit B.

II. Summary and Overview of General Comments

The Department received four letters of comment on its proposed rulemaking in addition to comments from IRRC, one opposed and three in support.

Comments supporting the rulemaking

Three commentators supported the Department’s proposed rulemaking. Thomas A. Farley, the Health Commissioner of the City of Philadelphia, stated that the Office of the Health Commissioner of the City of Philadelphia was in “full support” of the Department’s proposed regulations. Thomas A. Farley stated that the spread of HIV was a serious issue, pointed out that the Commonwealth was one of only four states not mandating reporting of all CD4 percentages and counts and one of only two not requiring all viral load test results. Thomas A. Farley also referenced the National HIV AIDS Strategy and stated that the ability to meet the goals set out in that document depended upon comprehensive reports of all HIV-related tests. Thomas A. Farley noted that the City of Philadelphia already requires reporting of all CD4 and viral load test results. Thomas A. Farley stated that this allows the City to better track the epidemic, focus resources based on the needs of the impacted communities and improve the health of the City’s residents. Thomas A. Farley stated that the Department’s regulation would help to ensure persons living with HIV (PLWH) have access to care and are engaged in care and virally suppressed, facilitate the monitoring of the HIV epidemic in the Commonwealth and bring HIV reporting in the Commonwealth in line with National standards.

The Community Co-Chair of the Pennsylvania HIV Planning Group provided a letter of support stating that they hoped that the Department’s proposed rulemaking would be adopted, because the regulation would allow the pinpointing and accurate reporting of the epidemic in the Commonwealth and would allow the analysis of trends that would help to target treatment and prevention efforts. The Co-Chair stated that “[this] information is the primary base for all planned activities [aimed at ending the epidemic in Pennsylvania].”

Finally, ViiV Healthcare, a pharmaceutical manufacturer of HIV medicines, commented in support of the proposed rulemaking. The Director of Government Relations (Director) of that company stated that it was devoted exclusively to supporting the needs of persons living with or affected by HIV, and that its singular focus

was to improve their health and quality of life. The Director also stated that advances in the treatment of the disease has transformed HIV from a terminal illness to a manageable chronic condition, that effective treatment could help persons living with HIV (PLWH) live longer, healthier lives, and that effective HIV treatment could prevent transmission of disease. The Director cited a recent study in the British Journal, *The Lancet*, which found that when trading the HIV-positive partner in a serodiscordant couple with antiretroviral therapy, there were no linked infections observed with the infected partners HIV viral load was below the limit of detection. See Rodger A.J., et al., “Risk of HIV Transmission through Condomless Sex in Serodifferent Gay Couples with the HIV-Positive Partner Taking Suppressive Antiretroviral Therapy (PARTNER): Final Results of a MultiCentre Prospective, Observational Study,” *The Lancet*, (Published online May 2, 2019 at [http://dx.doi.org/10.1016/S0140-6736\(19\)30418-0](http://dx.doi.org/10.1016/S0140-6736(19)30418-0)). The Director went on to comment that an important component of public health initiatives, including U=U (Undetectable = Untransmittable), is that policy makers have access to performance related data indicating the quality of health care to promote and achieve viral suppression goals and to assist the Department to better identify and target funding programs. The Director noted that if Federal funding decisions become based on states that can demonstrate the greatest disease burden, the Commonwealth will lose a significant portion of valuable Federal dollars, because it will only be reporting a portion of the total HIV population. The Director encouraged the adoption of the proposed amendments because the Commonwealth would then be brought into alignment with the reporting requirements of the majority of other states, and would be better able to track new cases, monitor clinical results and make program decisions that would have the greatest impact on the lives of PLWH in the Commonwealth.

The Department appreciates the support of the City of Philadelphia, which has the highest HIV disease burden in this Commonwealth. The Department also thanks the HPG Committee for its support, particularly given its experience, and its knowledge of the funding decisions and issues facing this Commonwealth and the need for accurate data to inform those decisions to ensure the funding received targets the epidemic appropriately and effectively. Finally, the Department agrees with and echoes the comments of ViiV, particularly in regard to the need for accurate and complete data to ensure that PLWH are referred to treatment early, so that they may receive the most effective treatment, HIV transmission may be checked, and the spread of new infections blocked.

In addition, the Department is in agreement with the concerns expressed by ViiV regarding the risk of losing Federal dollars if Federal funding were to be targeted at states that can demonstrate the greatest burden of disease, and the Commonwealth were to lack the requirement for complete reporting that is created by this final-form rulemaking. Such an action is not beyond the realm of possibility; it would be in line with changes made to the Comprehensive AIDS Resources Emergency (CARE) Act (42 U.S.C.A. §§ 300ff-21—300ff-38) at the time the Department made HIV reportable by name in the Commonwealth, almost the last state in the country to take that action. At that time, the Federal agency that provides funding for HIV/AIDS services, the Health Services Resource Administration (HRSA), changed its rules to condition the apportionment of state funding upon the number of live HIV cases within a jurisdiction, rather than live AIDS cases, based on changes to the CARE Act.

See The Ryan White CARE Act: A Side-by Side Comparison of Prior Law to the Newly Reauthorized CARE Act, The Henry J. KAISER FAMILY Foundation, December 2006, at 3 (<https://www.kff.org/wp-content/uploads/2013/01/7531-03.pdf>), accessed October 28, 2019. Although the enforcement of this formula was delayed some years, HRSA eventually required all states to institute name-based HIV reporting to meet the level of accuracy for the data demanded to support a fiscal claim by the state. *Id.*, see also HIV Prevalence Estimates—United States, 2006, MMWR 57(39); 1073—1076 October 3, 2008), <https://www.cdc.gov/mmwr/preview/mmwrhtml/mm5739a2.htm>, accessed October 28, 2019. A similar circumstance could arise here, and states with more reliable data could receive the bulk, potentially all, of available Federal funding.

Comments opposed to the rulemaking

One commentator raised concerns that the Department's requirement to include hospitals among the reporters of all CD4 T-lymphocyte counts, viral loads and genotype testing was duplicative, and costly in time and money for a hospital, particularly when reference laboratories are providing these reports. IRRC echoed this comment and requested that the Department explain how the regulated community is to use the electronic reporting system, and that the Department work with the community to ensure they understand how the system will work, and the reporting options open to them.

The Department has not changed the requirements of the regulations that multiple persons report these, as well as all reportable diseases, infections and conditions listed in Chapter 27 (relating to communicable and noncommunicable diseases). The Department has received similar comments before when it has attempted to revise and update its reporting regulations. The Department considered and responded to the question of duplicative reporting when it last updated its regulations relating to communicable and noncommunicable diseases in 2002 published at 32 Pa.B. 491 (January 26, 2002) accessed October 28, 2019, and when it added the requirement that HIV test results, certain CD4 T-lymphocyte test results, and perinatal test results should be reported to the Department by name later that same year. See Reporting of AIDS, HIV Test Results, CD4 T-Lymphocyte Counts and Perinatal Exposure of Newborns to HIV published at 32 Pa.B. 3597, 3602 (July 20, 2002), accessed October 28, 2019. The Department's response then remains relevant today:

With respect to issues involving the requirement of multiple reporters, the Department requires reporting from all different types of reporters, including practitioners, facilities, laboratories, other providers and the public for several reasons. The Department does not want possible reporters to self-censor, based on their assumption that another person will make the report. That could lead to under-reporting, and jeopardize the ability of the public health system to positively impact the health of infected individuals and their contacts. If the Department and local health departments are unaware of cases, they will be unable to offer or provide follow-up, including counseling and referral information, and perform case investigation.

The Department also receives different information from different reporters. For example, a report by a laboratory is a confirmatory report of a disease or condition diagnosed by a health care practitioner. From heads of institutions the Department will re-

ceive information that is neither a diagnosis nor a confirmed report, but a suspicion that may help to identify a disease outbreak. The monitoring of the disease in the patient is dependent on receiving information from a practitioner as well as a laboratory, as is the monitoring of the disease in the population as a whole. Information relating to opportunistic infections, referrals, mode of transmission and treatment are not shared by a practitioner with the laboratory, and, therefore, the Department would not be able to obtain this type of specific information from laboratories if laboratories alone were to report. A provider would not release this type of information to a laboratory because of its confidential nature. A laboratory does not need to be aware of the mode of transmission of a disease or types of referrals made for the individual to perform its licensed function—conducting laboratory tests of specimens.

The more specific the information received by the Department from all reporters, the more likely it is that the Department will be able to match information obtained from other sources, sometimes incomplete, and obtain complete information on each reported case. The more complete the demographic picture of the individual whose results are being reported, the easier it is for the Department to track the disease in this Commonwealth for purposes of implementing prevention measures, including targeting funding to affected populations. Further, the more complete the information on a specific individual the Department obtains, the easier it becomes for the Department and local health departments to provide follow-up services to that individual. For example, with a case of infectious tuberculosis, the Department will provide treatment, including directly observed therapy, to ensure that the case is cured, and will also locate and test and treat contacts as necessary. In the case of sexually transmitted diseases, the Department and local departments locate and offer counseling and testing services to partners of individuals who test positive.

Reporting of Communicable and Noncommunicable Diseases, 32 Pa.B. 491, 492-493. At that time, and for those reasons, the Department declined to change the proposed regulations, which were ultimately approved as final without change, and implemented. They have been in effect for at least 17 years. Therefore, all existing hospitals, laboratories, other health care providers and practitioners should be supplied with the appropriate credentials to report the listed reportable diseases electronically and should be reporting regularly as required by law. The Department is simply asking providers and laboratories to report all rather than some of the CD4 counts and percentages already being reported and has added reporting of viral loads and genotype testing relating to HIV to the existing list.

In addition, the National HIV/AIDS Strategy acknowledges the need for duplicate reporting, stating: "Surveillance necessitates a complex system of reporting from providers, laboratories, and State and local health departments to coordinate accurate, complete, and timely reporting." See National HIV/AIDS Strategy, at 46. The Department again declines to limit the types and number of entities required to report, in the interest of ensuring the most complete reporting that can be achieved. Forty-six states mandate reporting of all CD4 and viral load tests, and many of those states ask for reporting by both laboratories and providers. This requirement, therefore, is within the bounds of accepted public health practices.

IRRC asked that the Department explain to the regulated community how the system is to work. Reports are sent to the Department's electronic disease surveillance system through either manual key entry, or in the case of some laboratories, through electronic batch reporting to the Department's electronic laboratory reporting system. In considering the issue of manual reporting, the Department reviewed data relating to reporting of CD4 and viral load test results from 2016—2019. Of the 175,965 HIV-related reports submitted by hospitals and laboratories to the Department, only 9,277, or roughly 5%, were reported manually. The data shows that hospitals and laboratories that report a relatively small volume of cases are the entities that are reporting by manual entry. Hospital laboratories and commercial laboratories with larger volumes are more likely to report through batch reporting to the electronic laboratory reporting system. Once the parameters for sending data are updated, adding more reports to electronic feeds does not pose an ongoing burden to the laboratory. The Department is continuing to work with laboratories that are interesting in sending data through the electronic laboratory reporting system; however, some laboratories prefer manual reporting because they feel that the resources needed to report manually are less than those needed to establish electronic batch reporting.

With respect that request that the Department explain the system to reporters, the Department would also note that most reportable diseases, infections and conditions have been reportable electronically since 2002, and that HIV was made reportable electronically by notice as provided for in the HIV reporting regulations in 2006. At the time electronic reporting was first implemented, some 17 years ago, the Department reached out to reporters, and conducted trainings and provided access to its electronic disease surveillance system. The regulated community has been using the existing electronic disease surveillance system and reporting diseases, including those CD4 T lymphocyte cell counts equal to or less than 200 cells/ μ L, or less than 14% of total lymphocytes for 13 of those 17 years. To the extent any member of the regulated community has questions regarding the Department's current electronic disease surveillance system and its use, the Department provides a number and a contact person to whom questions may be addressed, and help sought, when new reporters are credentialed to use the system.

The Department is sensitive to cost concerns of its reporters. The Department, however, must view the resources, time and costs needed for reporting in the context of the need to monitor and promote the health of the citizens of this Commonwealth. With respect to HIV, there is an urgent public health need to monitor the proportion of cases under care and the proportion of cases adequately treated. Adequate treatment improves the health of persons with HIV and reduces their need for more expensive medical interventions. Furthermore, at least four clinical trials published since 2016 have demonstrated that adequate treatment of cases (indicated by low or non-existent viral loads and normal CD4 counts) dramatically reduces transmission of HIV. See Rodger A.J., Cambiano V., Bruun T., et al., "Sexual Activity Without Condoms and Risk of HIV Transmission in Serodifferent Couples When the HIV-Positive Partner Is Using Suppressive Antiretroviral Therapy," *JAMA*. 2016;316(2):171—181, DOI:10.1001/jama.2016.5148 (July 12, 2016) (<https://jamanetwork.com/journals/jama/fullarticle/2533066>), accessed October 28, 2019; Cohen M.S., Chen Y.Q., McCauley M., et al., "Antiretroviral

Identifying populations or areas with substandard levels of treatment could lead to interventions, such as improving linkage to care in underserved populations, that could eventually significantly reduce the Commonwealth's burden of HIV. In 2010 dollars, the lifetime treatment cost of one HIV case is approximately \$379,668. See <https://www.cdc.gov/hiv/program/resources/guidance/costeffectiveness/index.html>. Prevention of new cases, by among other things continuing existing cases in treatment and suppressing viral load is an obvious cost savings to the Commonwealth. The cost savings of a case of HIV averted has been estimated at between \$20,000 to \$100,000 per case. See Woodak and Cooney, "Do Needle Syringe Program Reduce HIV Infection Among Injecting Drug Users: A Comprehensive Review of the International Evidence," *Substance Use & Misuse*, Vol. 41, 2006 (Issue 6-7) at 20—22; see also "Effectiveness of Sterile Needle and Syringe Programming in Reducing HIV/AIDS Among Injecting Drug Users," (Evidence for Action Technical Papers) World Health Organization (2004) ("WHO White Paper"), at 15-16. This Commonwealth saw 991 new cases of HIV in 2016. Pennsylvania Department of Health, Annual HIV Surveillance Summary (2016) <http://www.health.pa.gov/My%20Health/Diseases%20and%20Conditions/E-H/HIV%20And%20AIDS%20Epidemiology/Documents/Pennsylvania%202016%20Annual%20HIV%20Surveillance%20Report.pdf>, accessed July 2, 2018. Using these figures, the cost to the Commonwealth of those 991 cases could be as high as \$376,250,998. Preventing them from occurring could be a savings of as much as \$99,100,000. Although determining the actual cost that the final-form rulemaking will impose on providers and laboratories is not possible, it is extremely unlikely that this cost would outweigh the benefits of eventually improving the health of persons infected with HIV and decreasing the number of new cases of HIV.

Comments relating to specific sections

§ 27.4. Reporting of cases

IRRC raised several issues with sections of the Department's regulations relating to communicable and noncommunicable diseases that the Department had not originally included in the proposed rulemaking. Section 27.4 (relating to reporting cases), is one of those sections. IRRC specifically referenced subsections (a) and (e), and points out that the references to a forthcoming implementation of an electronic system in subsection (b) are outdated. In fact, those references did refer to the implementation of PA-NEDSS which occurred sometime after those regulations were promulgated in 2002. In addition,

IRRC pointed out that subsection (e) included references to multiple methods of reporting, which could cause confusion and raise issues of clarity. IRRC asked that the Department explain to the regulated community what reporting options are available and suggested that the final-form rulemaking be amended to reference other options for reporting, if paper reporting is acceptable.

In reviewing IRRC's comments, and the language in § 27.4, the Department determines that clarification of electronic versus paper reports is appropriate, and revisions to that section eliminating language that is outdated to specifically capture current reporting requirements is within the scope of this final-form rulemaking. The Department amends that section to clarify how reports are required.

By way of background, under current law and regulations, and not altered by this final-form rulemaking, reporters have a duty to report to the Department, and to report in the format required by the Department under section 4 of the Disease Prevention and Control Law of 1955 (act) (35 P.S. § 521.4). The Department first required electronic reporting of reportable diseases, infections and conditions in the final-form rulemaking published at 32 Pa.B. 491. To provide enough time for reporters other than laboratories to prepare for electronic reporting, (laboratories were required to report electronically immediately upon that rulemaking's publication), the Department, in § 27.4, set the implementation date of the electronic reporting requirement for most diseases, infections and conditions for 6 months after notice was published in the *Pennsylvania Bulletin*. See subsection (b). Because that language is no longer applicable, and electronic reporting has long been in place in this Commonwealth, the Department deletes this language from subsection (b).

The Department, however, exempted HIV, AIDS, CD4-T-lymphocyte test results for counts less than 200 cells/ μ L of less than 14% of total lymphocytes and perinatal exposure of a newborn, from electronic reporting under that notice. The Department did not make those diseases, infections and conditions reportable until 6 months after publication of a second notice at 35 Pa.B. 6192 (November 5, 2005). The Department waited several years after the institution of confidential HIV name-based reporting in 2002 to require electronic reporting of those specific items to ensure that certain data security requirements of the CDC were successfully met. By that date, the Department required that reports of all reportable diseases, infections and conditions were to be made electronically. That requirement remains in place. Paper reporting is slow and inefficient and requires resources for processing and key entry that the Department does not have. Amendments to § 27.4 included in this final-form rulemaking emphasize the Department's position.

The Department replaces concepts relevant to reporting in 2002 with language relevant to current electronic reporting requirements. References made to local morbidity reporting offices—the Department's district offices and the county/municipal health departments that partner with it in its disease control functions—which were necessary to manage work when reporting was on paper, but meaningless in the context of electronic reporting, are deleted. Subsection (c) removes references to hard copies and to the appropriate office being able to provide the form, since the form is now electronic in nature, all reports are made into the electronic system, and access is obtained from the Department upon request.

The Department notes, however, that a preliminary case report by telephone is still acceptable, an early warning to the Department in effect, but formal reports with all the appropriate information that make disease surveillance and control possible must still be made through the appropriate electronic surveillance system. See subsection (b).

The Department's interest is to obtain reports in a timely manner. Depending on the circumstances, a reporter may judge that some type of telephonic report is most appropriate. However, if a phone report is made, the reporter must still submit a formal case report to the appropriate surveillance system. As recommended, the Department eliminates the language from subsection (b) referencing the expectation that the electronic surveillance system will shortly be in place, and that reporters will be notified that electronic reporting has started. Subsection (e) is redesignated as subsection (c), and now refers to the content of the report as opposed to the method of reporting. The subsection makes it clear that assistance with reporting may be obtained by contacting the Department.

§ 27.22. *Reporting of cases by clinical laboratories*

IRRC commented that § 27.22(d) (relating to reporting of cases by clinical laboratories) includes a reference to electronic mechanisms, which could potentially create confusion with other references to electronic disease surveillance systems. The Department notes that while the Department proposed to amend subsection (b) of § 27.22, it did not propose revising subsection (d), although it should have done so. Section 27.22(d) did include a reference to CD4 T-lymphocyte counts and percentages and to HIV. That reference is deleted so that subsection (d) will comport with the rest of this final-form rulemaking.

At the time the regulatory amendment adding HIV and CD4 T-lymphocyte counts and percentages to subsection (d) was promulgated in 2002, the Department had not yet made HIV cases reportable electronically. The CDC had heightened security requirements relating to electronic reporting and storage of HIV information, and it was not until the Department received approval from the CDC to allow electronic reporting of HIV in 2006 that laboratories and providers began to report electronically. The Department revises subsection (d) in this final-form rulemaking to delete the references to HIV and to CD4 counts and percentages, as well as the reference to the specific section governing HIV reporting, which was a necessary reference in 2002, but is no longer required under the existing reporting requirements. The remainder of the diseases and conditions listed in subsection (d) are still reported through mechanisms delineated in the specific sections referenced in that subsection. The Department replaces the term "secure electronic mechanisms," with "electronic disease surveillance systems," to reflect the actual operations of the Department, and for the sake of consistency in the language of the regulation.

§ 27.32a. *Reporting AIDS, HIV, CD4 T-lymphocyte counts and percentages, HIV viral load test results, including detectable and undetectable viral load results and genotype test results, and perinatal exposure of newborns to HIV*

IRRC had several comments on this section. IRRC suggested that, because the Department refers to the electronic reporting system as PA-NEDSS in the pre-amble and in the Regulatory Analysis Form, the Department defines "electronic disease surveillance system" in

the regulations, and if appropriate, reference PA-NEDSS in that definition. The Department agrees that a definition of “electronic disease surveillance system” should be added and has added the term to § 27.1 (relating to definitions). After considering whether to continue to reference PA-NEDSS, and whether to add the term to the definition section, the Department decided that including the term would not be useful. While PA-NEDSS was the Department’s first electronic disease surveillance system, the Department has different electronic data collection systems for different program areas as well as an electronic system for submission of batch laboratory data. In addition, the Department may, sometime in the future, change or rename its electronic disease surveillance system. Therefore, while the Department provided a definition of “electronic disease surveillance system” that is broad enough to encompass all the systems that are used or will be used by the Department, including PA-NEDSS, the Department has chosen not to reference PA-NEDSS in this final-form rulemaking. The definition also includes, for purposes of this final-form rulemaking, electronic laboratory reporting systems. The Department provides a definition for “electronic laboratory reporting system” to help with the understanding of that term.

IRRC questioned the Department’s use of the word, “shall,” in this section, which makes reporting electronically mandatory, because the Department has stated that it will also accept paper reports. IRRC specifically referenced the regulation in § 27.4, which was not originally intended to be a part of this final-form rulemaking. IRRC suggested that the final regulation be amended to reference other options for reporting, if paper reporting is acceptable. Although § 27.4 was not originally included in the proposed rulemaking, the Department considered IRRC’s comments, and agrees, for the sake of clarity and to update the regulations to reflect current practices, it has made revisions to that section. For a fuller explanation, see Preamble, *supra*, at pp. 15–18.

§ 27.32c. Partner services relating to HIV and AIDS

IRRC commented that it understood the Department’s reasoning in deleting a reference to the Confidentiality of HIV-Related Information Act (35 P.S. §§ 7601–7612) (Act 148), from this section, and agreed with the Department’s analysis that it was unnecessary. IRRC requested, however, that the Department keep the language in the regulations as a clear notice to the regulated community. The Department agrees with the comment and adds the reference back into the section, but as new subsection (c).

Subsections (a) and (b) explain that a person providing testing services and giving diagnoses to an individual may ask the Department for help with counseling services. The regulation also makes it clear that the person providing those services must also tell the individual that the Department or a local health department representative may contact the person for a voluntary and confidential interview to discuss the services available to them. This is so the individual is kept informed and is not surprised by the potential contact from the Department. The reference to Act 148, pointing out the need to comply with the law relating to HIV confidentiality, fit more naturally following these subsections than at the beginning of the section. The Department therefore adds the reference in new subsection (c).

Finally, the Department changes the word “patient,” to “individual” and the phrase “who provides,” to “providing” to make the construction of the subsections parallel.

III. Cost and Paperwork Estimate

1. Cost

The amendments would have no measurable fiscal impact on the Commonwealth, local government, the private sector or the general public because the disease reporting system already exists in this Commonwealth. The financial and economic impact of this final-form rulemaking outside of healthcare settings is very minimal. Healthcare practitioners, health care facilities and clinical laboratories currently are required to have systems in place to report some CD4 T-lymphocyte and HIV viral load test results into PA-NEDSS, so although the new regulation would result in reporting of all CD4 T-lymphocyte and HIV viral load results, they will not need to develop new systems. Currently, healthcare practitioners and clinical laboratories must separate out the CD4 T-lymphocyte and viral load test results required to be reported from those not required to be reported, and this process takes time and adds cost. The amended change will allow reporters to report all the test results received and remove the need to separate the results into those reported and those not reported.

Healthcare practitioners and laboratories without the ability to send data electronically directly to the electronic disease surveillance system will be required to key enter these additional test results into that system. However, as noted earlier, most CD4 and HIV viral load information is received from hospital and commercial laboratories with Information Technology (IT) systems allowing batch electronic reporting. For these facilities, once their IT system is modified to capture the additional test results, the data would automatically be extracted and submitted to the Department’s system. There would therefore be no ongoing cost associated with the additional reporting requirements, and the cost of the additional reports required as a result of the proposed changes to the regulation would be negligible.

The costs to both the Commonwealth and to local governments would not increase because of these amendments. The Commonwealth, through the Department, and local health departments, already have infrastructure in place to accept reporting of diseases and conditions, and to carry out, as required by law, disease prevention and control activities relating to HIV and AIDS, among other things. The additional work and cost relating to the reporting of more cases would be minimal and is outweighed by the benefit accruing from better understanding of the epidemic that allows for more targeted intervention and prevention strategies. As noted above, in 2010, the cost per one HIV case in the Commonwealth over a lifetime was approximately \$379,668. See <https://www.cdc.gov/hiv/programresources/guidance/costeffectiveness/index.html>. The cost savings of a case of HIV averted has been estimated at between \$20,000 to \$100,000 per case. See Woodak and Cooney, at 20–22; see also WHO White Paper, at 15-16. The Commonwealth saw 991 new cases of HIV in 2016. Pennsylvania Department of Health, Annual HIV Surveillance Summary (2016) <http://www.health.pa.gov/My%20Health/Diseases%20and%20Conditions/E-H/HIV%20And%20AIDS%20Epidemiology/Documents/Pennsylvania%202016%20Annual%20HIV%20Surveillance%20Report.pdf>, accessed July 2, 2018. Using these figures, the cost to the Commonwealth of those 991 cases could be as high as \$376,250,998. Preventing them from occurring could be a savings of as much as \$99,100,000.

2. Paperwork

Because the electronic disease surveillance system that receives and stores reports of diseases and conditions is already in place in this Commonwealth, expanding the list to include mandatory reports of all test results for an existing disease or condition and additional testing relating to that disease or condition would create no measurable increase in paperwork. Healthcare practitioners, health care facilities and clinical laboratories currently are required to have systems in place to report some CD4 T-lymphocyte and HIV viral load test results into PANEDSS, so although the amendments to the regulation would result in reporting of all CD4 T-lymphocyte and HIV viral load results, existing reporters should not need to develop new systems.

The ongoing savings each year from more effective HIV disease control, prevention and timely treatment of individuals infected with HIV which would be expected to occur from this expanded reporting are immeasurable. All persons of this Commonwealth would benefit from these amendments as they will allow the Department to monitor the proportion of persons with HIV who are under care and the proportion adequately treated. Identifying populations or areas with substandard levels of treatment could lead to interventions such as assisting patients with linkage to care and treatment before those patients develop significant and expensive medical complications. Furthermore, when people living with HIV are in continuous medical care and have a suppressed viral load, the chances of those persons transmitting HIV to other people is tremendously reduced. These final-form amendments will help to protect citizens in this Commonwealth from exposure to HIV and subsequent hardship, disability or death. In addition, it would enable the Commonwealth to comply with the CDC's recommendations for effective HIV disease surveillance, control and patient management.

IV. Statutory Authority

The Department obtains its authority to promulgate regulations relating to reporting of communicable and noncommunicable diseases from several sources. Section 16(a) of the act (35 P.S. § 521.16(a)) gives the Board the authority to issue rules and regulations on a variety of matters relating to communicable and non-communicable diseases, including the following: the diseases that are to be reported; the methods of reporting diseases; the contents of reports; the health authorities to whom diseases are to be reported; the control measures that are to be taken with respect to different diseases; the enforcement of control measures; the immunization and vaccination of persons and animals; the prevention and control of disease in public and private schools; the treatment of sexually transmitted diseases, including patient counseling; and any other matters the Board may deem advisable to address for the prevention and control of disease and for carrying out the provisions and purposes of the act. Section 16(b) of the act gives the Secretary of Health (Secretary) the authority to review existing regulations and make recommendations to the Board for changes the Secretary considers to be desirable.

The Department also finds general authority for the promulgation of its regulations in the Administrative Code of 1929 (code) (71 P.S. §§ 51—732) Section 2102(g) of the code (71 P.S. § 532(g)) gives the Department this general authority. Section 2111(b) of the code (71 P.S. § 541(b)) provides the Board with additional authority to promulgate regulations deemed by the Board to be necessary for the prevention of disease, and for the protection of the lives and the health of the people of this Common-

wealth. That section further provides that the regulations of the Board shall become the regulations of the Department. Section 2106(a) of the code (71 P.S. § 536(a)) provides the Department with additional authority to declare diseases to be communicable, and to establish regulations for the prevention and control of disease.

Section 2111(b) of the code provides the Board with additional authority to promulgate regulations deemed by the Board to be necessary for the prevention of disease, and for the protection of the lives and the health of the people of this Commonwealth. That section further provides that the regulations of the Board shall become the regulations of the Department.

In addition, section 803 of the Health Care Facilities Act (35 P.S. § 448.803) provides the Department with the authority to promulgate regulations relating to the licensure of health care facilities, and allows the Department to require certain actions relating to disease control and prevention to occur within health care facilities.

V. Effectiveness/Sunset Dates

The amendments will be effective upon publication in the *Pennsylvania Bulletin*. The Department will continually review and monitor the effectiveness of these regulations.

VI. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.4(a)), on May 15, 2019, the Department submitted a copy of the notice of proposed rulemaking, published at 49 Pa.B. 2605 (May 25, 2019), to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Health Committee and the Senate Health and Human Services Committee for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the House and Senate Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P.S. § 745.5a(j.2)), on August 12, 2020, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on September 17, 2020, and approved the final-form rulemaking.

VII. Contact Person

Questions regarding these regulations may be submitted to Sharon Watkins, Director, Bureau of Epidemiology, Department of Health, 625 Forster Street., Harrisburg, PA 17108, Room 933, Health and Welfare Building, Harrisburg, PA 17120, (717) 787-3350, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE BOARD OF CERTIFIED REAL ESTATE APPRAISERS

[49 PA. CODE CH. 36]

Appraisal Management Companies; Federally Mandated Revisions

The State Board of Certified Real Estate Appraisers (Board) hereby amends § 36.401 (relating to definitions) to read as set forth in Annex A.

Effective Date

This final-omitted rulemaking will be effective upon publication in the *Pennsylvania Bulletin*.

Statutory Authority

Section 4(a) of the Appraisal Management Company Registration Act (act) (63 P.S. § 457.24(a)) authorizes the Board to implement, administer and enforce the act, including the power to adopt rules and regulations consistent with the act.

Omission of Proposed Rulemaking

Under section 204(3) of the Commonwealth Documents Law (CDL) (45 P.S. § 1204(3)), the Board is authorized to omit the procedures for proposed rulemaking in section 201 and 202 of the CDL (45 P.S. §§ 1201 and 1202) if the Board finds that the specified procedures are impracticable, unnecessary or contrary to the public interest. The Board has determined that publication of proposed rulemaking is unnecessary under the circumstances because this final-omitted rulemaking is merely amending definitions to comply with applicable Federal law.

Background and Need for the Amendments

Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (Pub.L. No. 101-73, 103 Stat. 183) (12 U.S.C.A. §§ 3331—3356) requires the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration Board, the Bureau of Consumer Financial Protection and Federal Housing Finance Agency (hereinafter collectively referred to as “Federal agencies”) to establish minimum requirements to be applied by states in the registration and supervision of appraisal management companies (AMC) at 12 U.S.C.A. § 3353 regarding appraisal management company minimum requirements. Under this authority, these Federal agencies jointly adopted regulations establishing the minimum requirements for appraisal management companies at 12 CFR 34.210—34.216, 12 CFR 225.190—225.196, 12 CFR 323.8—323.14 and 12 CFR 1222.20—1222.26. The Federal agencies defined “appraiser panel” to include “a network, list or roster of **licensed or certified appraisers** approved by an AMC to perform appraisals as independent contractors for the AMC.” See, 12 CFR

225.191(f), 12 CFR 323.9(e), 12 CFR 1222.21(e) and 12 CFR 34.211(e) (emphasis added).

When the Board originally promulgated its regulations implementing the act, the intent was to promulgate a definition of appraiser panel that comported with the Federal requirements. Upon further review, however, the Board has determined that it erroneously did not include “licensed” appraisers in the definition of appraiser panel. While the Real Estate Appraisers Certification Act (63 P.S. §§ 457.1—457.19) does not authorize a licensure category of “licensed appraisers” in this Commonwealth, the Board must include licensed appraisers in determining the composition of appraisal panels to comply with the Federal laws and regulations. For that reason, the Board is amending the definition of “appraiser panel” to include both licensed and certified real estate appraisers.

Federal law also sets forth registration limitations for owners of AMCs. Under FIRREA at 12 U.S.C.A. § 3353(d) regarding registration limitations, “[a]n appraisal management company shall not be registered by a State or included on the national registry if such company, in whole or in part, directly or indirectly, is owned by any person who has had an appraiser license or certificate refused, denied, cancelled, surrendered in lieu of revocation, or revoked in any State. Additionally, each person that owns more than 10 percent of an appraisal management company shall be of good moral character, as determined by the State appraiser certifying and licensing agency, and shall submit to a background investigation carried out by the State appraiser certifying and licensing agency.” While the act incorporates the Federal limitations regarding good moral character and appraiser discipline for owners, it did not provide a definition of owner within the act.

Therefore, the Board included a definition of the term “owner” in its regulations at § 36.401 as “[a] person that owns 10% or more of an appraisal management company.” In defining the term “owner,” the Board relied upon guidance available at the time from the Appraisal Subcommittee of the Federal Financial Institutions Examination Council (ASC), the Federal agency responsible for the oversight of the Board. Since the Board promulgated its regulations, the ASC has advised the Board that the definition in the Board’s existing regulations is inconsistent with Federal law because the 10% threshold is not applicable to the ownership limitation prohibiting an owner from having specific types of discipline against an appraiser license. Thus, the Board must amend the definition of owner because, except under certain limited circumstances, Federal law prohibits an AMC from being registered if any owner, and not just owners who own 10% or more of an AMC, has had an appraiser license or certificate refused, denied, canceled, surrendered instead of revocation or revoked in any state.

Description of the Amendments

The Board amends the definitions of “appraiser panel” and “owner” in § 36.401. The Board includes licensed appraisers in the definition of “appraiser panel.” The Board modifies the definition of “owner” to accurately reflect the Federal limitations for owners by removing the 10% threshold and amends the definition as follows: “A person that owns, in whole or in part directly or indirectly, an appraisal management company.” The ASC reviewed the Board’s regulations and Annex A and supports the Board’s amendments.

Fiscal Impact and Paperwork Requirements

This final-omitted rulemaking has a minimal fiscal impact on the regulated community. AMCs will incur

minimal costs relating to registration, paperwork, recordkeeping and reporting. All owners, even owners who own less than 10%, must be identified in applications and must submit to a criminal history information report as required by the Board's regulations in § 36.404(a)(6) (relating to content of application). The cost of the criminal history information report is minimal (\$22 in Pennsylvania). The Board estimates that it receives approximately seven AMC initial applications and five change of ownership applications each year. For initial applications, even if the Board assumes that three of the seven AMCs have owners who own less than 10%, the economic impact is only \$66 per year. For change of owner applications, if the Board assumes two of the five applications have owners who own less than 10%, the economic impact is \$44 per year. Thus, the total annual economic impact is estimated at approximately \$110 per year.

The costs to the Board include those associated with processing applications of AMCs with owners who own less than 10%. However, since the Board modified its applications in the fall of 2018 to include all owners, the Board has not experienced an increase in the number of criminal history information report reviews. To the extent that additional costs are incurred, it will be borne by the applicants through payment of the criminal history information report. Costs of enforcing the regulations are borne by the licensees/registrants through payment of biennial renewal fees and application fees, so there is no adverse fiscal impact to the Board.

This final-omitted rulemaking will not have a fiscal impact and will not create additional paperwork to the general public or the Commonwealth's political subdivisions.

Sunset Date

The Board continuously monitors the effectiveness of the regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P.S. § 745.5a(c)), on September 3, 2020, the Board submitted a copy of the final-omitted rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee (SPC/PLC) and the House Professional Licensure Committee (HPLC). On the same date, the Board submitted a copy of the regulation to the Office of Attorney General under the Commonwealth Attorneys Act (71 P.S. §§ 732-101—732-506).

Under section 5.1(j.2) of the Regulatory Review Act, on October 14, 2020, the final-omitted rulemaking was deemed approved by the SPC/PLC and the HPLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on October 15, 2020, and approved the final-omitted rulemaking.

Additional Information

Further information may be obtained by contacting Heidi Weirich, Board Administrator, State Board of Certified Real Estate Appraisers, 2601 North Third Street, P.O. Box 2649, Harrisburg, PA 17105-2649. Reference regulation No. 16A-7023 (Appraisal Management Companies), when requesting information.

Findings

The Board finds that:

(1) Public notice of the Board's intention to amend the Board's regulations under the procedures in sections 201 and 202 of the CDL has been omitted under section 204 of the CDL because publication of proposed rule-making and public comment is unnecessary in that the rulemaking merely amends definitions to comply with Federal law and regulations.

(2) The amendment of the Board's regulations in the manner provided in this order is necessary and appropriate for the administration of the Appraisal Management Company Registration Act (63 P.S. §§ 451.21—457.31).

Order

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board at 49 Pa. Code Chapter 36 are amended by amending § 36.401 to read as set forth in Annex A.

(b) The Board shall submit this final-omitted regulation to the Office of Attorney General and the Office of General Counsel for approval as required by law.

(c) The Board shall submit this final-omitted regulation to the Independent Regulatory Review Commission, the SPC/PLC and the HPLC as required by law.

(d) The Board shall certify this final-omitted regulation and deposit it with the Legislative Reference Bureau as required by law.

(e) This final-omitted rulemaking shall take effect upon publication in the *Pennsylvania Bulletin*.

Chairperson

(Editor's Note: See 50 Pa.B. 6096 (October 31, 2020) for IRRC's approval order.)

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may re-

quest that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Depart-

ment Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

28-03068B: Pennsylvania Cherry LLC (P.O. Box 269, Mercersburg, PA 17236-0269) for the construction of a new lumber drying kiln at the lumber manufacturing facility located in Montgomery Township, **Franklin County**. This equipment will supplement the existing lumber kiln. The new sitewide PTE is calculated as 17.63 tpy of VOCs, 36.34 tpy NO_x, 79.53 tpy CO, 8.82 tpy

of PM₁₀, 7.86 tpy of PM_{2.5}, 8.18 tpy of HAP and 3.16 tpy SO_x emissions. DEP's review of the information submitted by the applicant indicates that the air contamination sources as installed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code § 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval may be incorporated into a State Only Operating Permit pursuant to the provisions of 25 Pa. Code Chapter 127.

The actual emissions increase from the source, which is offset by the unit being replaced, and based on estimated 2,500 hours per year, is estimated at 0.027 tpy. The plan approval will include emission limits and work practice standards along with monitoring, recordkeeping, and reporting requirements to ensure the facility complies with the applicable air quality regulations. Among other items, the conditions include provisions for Federal 40 CFR 60 Subpart OOO—Standard of Performance for Nonmetallic Mineral Processing Plants. DEP's review of the information submitted by the applicant indicates that the air contamination sources as installed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code § 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into a State Only Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Compliance Monitoring Program Notes:

1. BET must provide a written request for the Compliance Monitoring Process if a discharge from a Mine Drainage Treatment Outfall shows a concentration greater than the Permitted Discharge Concentration Limits but less than the Never Exceed Concentration Limits at any Mine Drainage Treatment Outfall unless that outfall is operating under the Interim Discharge Limitations.

2. BET shall show that at all times there has been proper operation and maintenance of all treatment facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit to be eligible for the Compliance Monitoring Process. Proper operation and maintenance also includes adequate laboratory controls and appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems which are installed by a permittee only when the operation is necessary to achieve compliance with the conditions of the permit. BET's request and compliance with the Permit Limits will then be evaluated at the Department's discretion.

3. BET must notify the Department when Permitted Discharge Limits have been exceeded or flow exceeds 10,000 GPM and adjustments to Mine Drainage Treatment are necessary to remain under the TMDL Combined Average Mass Loading during extended periods of high flows and to show they have been duly diligent in their operation of treatment facilities.

4. The Panther Creek and Little Schuylkill River TMDLs have been revised and accepted by the U.S. Environmental Protection Agency ("EPA") which include a combined Waste Load Allocation for BET Associates IV, LLC Outfalls 001, 003—005 (also known as the "Mine Drainage Treatment Outfalls").

5. The "Average Mass Loading" is the monthly average of the calculated mass loading from each Mine Drainage Treatment Outfall. The "Combined Average Mass Loading" is defined as the sum of Average Mass Loading(s) of all Mine Drainage Treatment Outfalls.

6. The NOV Period Sampling is defined as the sampling for the month after a Notice of Violation is issued by the Department, in addition to the three-month sampling evaluated by the Department for Steps 3 to 5.

7. BET may request a compliance monitoring review period of up to six months if BET demonstrates that multiple or above average precipitation events have occurred, or that hydro-geological or water chemistry induced conditions have changed at the site, and that these events or changes have in turn created above average flows or conditions that result in an excursion above the Average Monthly Concentration Limit, and/or the EPA approved average daily TMDL Waste Load Allocation for the current reporting period. If BET requests such a review, they shall provide supporting data for the request, which at a minimum shall include the following: complete treatment facility operational and maintenance records, mass loading records, weather records, and an explanation of why this excursion is beyond the control of BET, within 30 days of the excursion. BET's request and compliance will then be evaluated at the Department's discretion.

8. Mine Drainage Treatment pH limits per Authorization of PA DEP Pottsville District Mining Office, Dated July 17, 2014 for Outfall 005 and May 29, 2018 for Outfalls 001, 003, and 004. (See Title 25, Pennsylvania Code, Section 88.92 (c)(1)(ii)).

9. Interim Discharge Concentration Limits apply to discharges from the proposed No. 14 Shaft Acid Mine Drainage Treatment Facility (Outfall 004) and to Outfalls 001 or 003 should they be activated and begin discharging to Panther Creek. These limits apply for the first 18 months after the end of construction and each new treatment system outfall becomes operational. This is in accordance with 2nd BET CO&A (5.i.) dated May 5, 2011 and all amendments thereto. Continuous or extended operation of the No. 14 Shaft Acid Mine Drainage Treatment Facility prior to the end of the Interim Discharge Limit Period at total flows less than 8,000 GPM (operations as described in the BET Mine Pool Management Plan) will require compliance with the Permitted Discharge Limits as shown Section A above and will allow eligibility to the Compliance Monitoring Program.

Subject to 25 Pa. Code §§ 88.92 and 88.93 (Surface Mine) and 88.187 and 88.188 (Bank Removal).

Note: The previously listed discharge limitations and monitoring requirements are based upon the presumption that the erosion and sedimentation control facilities will only discharge as a result of a "precipitation event". If the discharge occurs during "dry weather flow" conditions, then Group A limitations will apply (as defined in 25 Pa. Code Chapters 86—90). The previously listed discharge limitations (Group B and Group C) and monitoring requirements pertain to discharges which may occur unexpectedly, (i.e., were not originally anticipated when this permit was issued). The Department reserves the right to modify these limitations based upon the need to protect water quality in the receiving stream.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in

environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Environmental Cleanup Program Manager in the DEP Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone DEP through the Pennsylvania AT&T Relay Service at (800) 654-5984.

CORRECTIVE ACTION UNDER ACT 32, 1989

PREAMBLE 3

The Department of Environmental Protection (DEP) Has Taken Action on The Following Plans and Reports Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require DEP to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports.

A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, please contact the Environmental Cleanup Program Manager in the DEP Regional Office under which the notice of the plan or report appears. If information concerning a report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. DEPARTMENT OF ENVIRONMENTAL PROTECTION

Availability of Amended National Pollutant Discharge Elimination System General Permit for Operation of Concentrated Animal Feeding Operations (PAG-12)

The Department of Environmental Protection (Department) is announcing the availability of a final amended National Pollutant Discharge Elimination System (NPDES) General Permit for Operation of Concentrated Animal Feeding Operations (PAG-12) that will take effect January 1, 2021. To access the amended General Permit and related documents, visit www.depgreenport.state.pa.us/elibrary/ (select "Permit and Authorization Packages," then "Clean Water," then "PAG-12 NPDES General Permit for Operation of Concentrated Animal Feeding Operations 3800-PM-BCW0032," then "2021 Amended PAG-12 NPDES General Permit").

The PAG-12 General Permit is intended to provide NPDES permit coverage to persons operating Concentrated Animal Feeding Operations (CAFO) within this Commonwealth in satisfaction of State and Federal NPDES permit requirements, as established in 25 Pa. Code Chapter 92a (relating to National Pollutant Discharge Elimination System permitting, monitoring and compliance), where such CAFOs meet the eligibility requirements of the PAG-12 General Permit.

On March 31, 2018, the Department published notice of the availability of a final General Permit (2018 General Permit) at 48 Pa.B. 1898 (March 31 2018), with an effective date of April 1, 2018, and an expiration date of March 31, 2023. Since reissuance of the 2018 General Permit, the Department has become aware of several modifications that are necessary to correct errors and reduce administrative burdens associated with the 2018 General Permit. A description of the modifications to the amendment of the General Permit are as follows:

- *Coverage Expiration Date*—A specific expiration date is identified on the coverage approval page of the amended General Permit. This date coincides with the expiration date of the master PAG-12 General Permit. All coverage under the amended General Permit expires on the same date. CAFOs are expected to submit a timely Notice of Intent (NOI) for continuation of coverage under a reissued General Permit prior to expiration of their existing coverage. The Department will provide information on what will be expected of CAFOs for future permit coverage at a later date.

- *Annual Report Serving as NOI*—Under the 2018 General Permit, CAFO Annual Reports were considered NOIs to continue coverage under the General Permit. The

Department chose to utilize this CAFO Annual Report/NOI arrangement in an effort to reduce administrative burden while ensuring that permitted CAFOs continue to be eligible for coverage. In the Department's experience since the 2018 General Permit was issued, the CAFO Annual Report/NOI arrangement has not reduced administrative burden as intended. In addition, members of the public have expressed confusion over the role and function of CAFO Annual Reports. The amended General Permit no longer considers CAFO Annual Reports as NOIs. Permittees authorized to operate under the PAG-12 General Permit will continue to submit CAFO Annual Reports under Part A.III.D. However, as of the effective amendment date of the amended General Permit (that is, January 1, 2021), the Department will no longer consider the CAFO Annual Report as an NOI. The submission of a timely and complete NOI acknowledging coverage under the amended General Permit is required by January 1, 2021.

- *Removal of Automatic Expiration of Coverage Language*—The 2018 General Permit specified that failure to submit the CAFO Annual Report and the annual NOI installment fee payment by the due date constituted an expiration of coverage. The Department has determined that this language reduces the Department's discretion, produces an administrative burden, and is no longer necessary with the change to the role and function of the CAFO Annual Report as previously explained. The amended General Permit clarifies that failure to submit the CAFO Annual Report and the annual NOI installment fee payment may result in enforcement action or revocation of coverage. The Department will continue to take necessary enforcement action in the event a permittee fails to submit timely CAFO Annual Reports or annual NOI installment fee payments.

- *Daily Water Line Inspections*—The 2018 General Permit included a requirement from Federal regulations at 40 CFR 412.37 (relating to additional measures) that operations with at least 700 mature dairy cows or 1,000 cattle, or both, other than mature dairy cows and veal calves must inspect water lines daily, including drinking water or cooling water lines, for the presence of leaks. The 2018 General Permit inadvertently omitted other types of operations that must conduct daily water line inspections under Federal regulations. Those operations include all Large CAFOs except those with sheep, lambs, horses or ducks. This omission is corrected in the amended General Permit.

The Department has amended the 2018 General Permit as previously described. The amended General Permit will be effective beginning January 1, 2021, through the remainder of the current permit term. An NOI to remain covered under the amended General Permit will be due by the effective amendment date of the amended General Permit (that is, January 1, 2021). The Department will publish notice of the receipt of NOIs in the *Pennsylvania Bulletin* and will publish notice when actions are taken by the Department to approve or deny a CAFO's coverage under the amended General Permit.

Secretary

Proposed Conditional State Water Quality Certification under Section 401 of the Clean Water Act for the United States Army Corps of Engineers Nationwide Permits

The United States Army Corps of Engineers (Corps) has published its proposal to reissue and modify Nationwide permits (NWP), including the issuance of five new NWPs under section 404 of the Clean Water Act (act) (33 U.S.C.A. § 1344) and section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C.A. § 403) at 85 FR 57298

(September 15, 2020). The NWPs are listed as follows and would be effective for 5 years upon final issuance in the *Federal Register*. On October 15, 2020, the Corps Baltimore District requested State Water Quality Certification (SWQC) on behalf of the Baltimore, Philadelphia and Pittsburgh Districts under section 401 of the act (33 U.S.C.A. § 1341) from the Department of Environmental Protection (Department) for discharges of dredged and fill material into waters of this Commonwealth authorized by the final NWPs.

Consistent with section 401 of the act, the Department proposes to certify that activities authorized by the Corps under the final NWPs will comply with the applicable provisions of sections 301—303, 306 and 307 of the act (33 U.S.C.A. §§ 1311—1313, 1316 and 1317), provided the project applicant complies with the following SWQC conditions and constructs, operates and maintains the project in compliance with the terms and conditions of State law permits obtained to meet these SWQC conditions:

1. Prior to beginning any activity authorized by the Corps under a NWP, the applicant shall obtain from the Department all necessary environmental permits or approvals, and submit to the Department environmental assessments and other information necessary to obtain the permits and approvals, as required under State law, including The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.1—1396.19b), the Noncoal Surface Mining Conservation and Reclamation Act (52 P.S. §§ 3301—3326), The Bituminous Mine Subsidence and Land Conservation Act (52 P.S. §§ 1406.1—1406.21), the Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66), the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003), the Hazardous Sites Cleanup Act (35 P.S. §§ 6020.101—6020.1305), the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908), 58 Pa.C.S. §§ 3201—3274 (relating to development), the Air Pollution Control Act (35 P.S. §§ 4001—4015) and the regulations promulgated thereunder, including 25 Pa. Code Chapters 77, 78, 78a, 86—91, 92a, 93, 95, 96, 102, 105, 127 and 260a—299.

2. Fill material may not contain any waste as defined in the Solid Waste Management Act.

3. Applicants and projects eligible for these NWPs must obtain all State permits or approvals, or both, necessary to ensure that the project meets the state's applicable water quality standards, including a project specific SWQC.

The Department has determined that these proposed SWQC conditions are necessary to achieve the Commonwealth's water quality standards, which have been approved by the United States Environmental Protection Agency as compliant with the act. The proposed SWQC conditions achieve these standards through compliance with existing environmental programs administered by the Department under State laws and regulations.

This proposed SWQC would be subject to the Department's determination that the final NWPs are consistent with the Coastal Zone Management Act (16 U.S.C.A. §§ 1451—1466).

This proposed SWQC would only be available for projects that do not require any Federal authorization other than authorization from the Corps under section 404 of the act or section 10 of the Rivers and Harbors Act of 1899. Applicants seeking authorization for activities not eligible for coverage under the NWP, or for activities that require another Federal authorization (such as an interstate natural gas pipeline, a gas storage field or a nuclear or hydroelectric project requiring authorization by another Federal agency), must submit a request to the Department for a project-specific SWQC.

The Department will consider all comments received on or before November 30, 2020, before taking the final action on this proposed conditional SWQC. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the commentator's name and address. Commentators are encouraged to submit comments using the Department's online eComment tool at www.ahs.dep.pa.gov/eComment or ecomment@pa.gov. Written comments can be mailed to the Department of Environmental Protection, Policy Office, 400 Market Street, P.O. Box 2063, Harrisburg, PA 17101-2063. Use "Proposed SWQC" as the subject line in written communication.

Comments on regional issues relating to the proposed NWP and proposed regional conditions should be sent to the United States Army Corps of Engineers, Baltimore District, State College Field Office, 1631 South Atherton Street, Suite 101, State College, PA 16801, Attn: Amy Elliott or amy.h.elliott@usace.army.mil. Pennsylvania Gaming Control Board Regulation # 125-229 (IRRC # 3261)

Interactive Gaming October 21, 2020

We submit for your consideration the following comments on the proposed rulemaking published in the August 22, 2020 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Protection of the public health, safety and welfare; Implementation procedures.

Act 42 of 2017 amended Title 4 Pa.C.S., relating to Amusements, to expand gaming opportunities in the Commonwealth. As it pertains to this regulation, Act 42 provides the authorized Category 1, 2, and 3 slot machine licensees the opportunity to petition to offer three categories of interactive gaming: non-peer-to-peer interactive games which simulate slot machines, non-peer-to-peer interactive games which simulate table games, and peer-to-peer interactive games which simulate poker.

In order to implement interactive gaming, the General Assembly granted the Gaming Board (Board) authority to promulgate temporary regulations which would expire two years after publication in the *Pennsylvania Bulletin*. The temporary regulations were published in five packages as follows:

- Chapters 801—803 were published on January 6, 2018;
- Chapters 804, 811, 812, 814, 815 and 818 were published on May 5, 2018;
- Chapter 809 and Chapters 810, 813 and 817 were published in two packages on April 28, 2018; and
- Chapter 830 was published on March 9, 2019.

Chapter 830 is the only regulation which remains in effect, all others having expired between January and May of this year.

This proposed regulation begins the process of converting the Board's temporary interactive gaming regulations to permanent regulations. In response to Regulatory Analysis Form (RAF) question # 29, the Board indicates that the expected date of delivery of the final-form regulation is the third-fourth quarter of 2021. A cornerstone of the Pennsylvania Race Horse Development and Gaming Act (Act) (4 Pa.C.S. §§ 1101—4506) is the protec-

tion of the public health, safety and welfare and also the protection of the integrity of gaming. How will Board protect the public and also the integrity of the games it is charged with overseeing without temporary or permanent regulations in place? We urge the Board to return this regulatory package for final review to the Independent Regulatory Review Commission (IRRC) and the designated standing committees of the General Assembly as quickly as possible to ensure that interactive gaming is properly regulated.

2. Compliance with the RRA and regulations of IRRC.

Section 5.2 of the RRA (71 P.S. § 745.5b) directs IRRC to determine whether a regulation is in the public interest. When making this determination, IRRC considers criteria such as economic or fiscal impact and reasonableness. To make that determination, IRRC must analyze the text of the proposed regulation and the reasons for the new or amended language. IRRC also considers the information a promulgating agency is required to provide under Section 5 of the RRA in the RAF (71 P.S. § 745.5(a)).

There are several instances where the Board's responses to RAF questions are incomplete. In returning the final form regulation, we the Board to:

- Identify what other states allow interactive gaming and how those states administer interactive gaming in response to RAF question # 12;
- Categorize those entities mentioned in response to RAF question # 15, such as interactive gaming operators, interactive gaming manufacturers, interactive gaming suppliers, etc., as either small businesses or another size business; and
- Approximate the number of interactive gaming operators, interactive gaming manufacturers, interactive gaming suppliers, interactive gaming service providers, and the principals, key employees, gaming employees, and nongaming employees listed in response to RAF question # 16.

3. Section 811a.2. Internal controls.—Clarity and lack of ambiguity.

Paragraph (b)(13) states in part, "For the purpose of this paragraph, "personal identifiable information" means any data or information that can be used, on its own or with other data or information, to identify, contact or otherwise locate a registered player, including a registered player's name, address, date of birth and Social Security number." We note, however, that the term "personal identifiable information" is used elsewhere in the regulation. For example, Section 810a.6 (relating to software authentication) states in part, "(4) To prevent leakage of personal identifiable information, there must be a documented method to ensure that raw production data is not used in testing." We ask the Board to move the definition of the term "personal identifiable information" to Section 801a.2 (relating to definitions) of the final form regulation to provide clarity for the regulated community.

4. Section 812a.13. Dormant accounts.—Nonregulatory language.

Subsection (b) states, "An interactive gaming account will be deemed dormant if there is no activity (login, game play, withdrawal, *and the like*)" for [two] years." [Emphasis added.] "And the like" is nonregulatory language which does not provide a standard for the regulated community. We ask the Board to clarify this provision in the final-form regulation.

5. Chapter 815a. Interactive gaming self-excluded persons.—Protection of the public health, safety and welfare; Clarity and lack of ambiguity.

On January 29, 2020, IRRC submitted comments related to the Board's proposed regulation # 125-225 (IRRC #3246) entitled "Slot Machine Licenses; Accounting and Internal Controls; Compulsive and Problem Gambling Requirements; Casino Self-Exclusion; Table Game Equipment; Credit." IRRC's comment # 1 related to self-exclusion and raised several concerns regarding how the Board would handle the self-exclusion process as relates to the various forms of gaming, including interactive gaming. The Board has communicated with IRRC that the language included in Chapter 815a has been amended to align with the language in proposed regulation # 125-225. We ask the Board to ensure that the language in this final-form regulation mirrors, as appropriate, the language in final-form regulation # 125-225 in order to protect the public health, safety and welfare and to provide clarity for the regulated community.

State Architects Licensure Board Regulation # 16A-4111 (IRRC # 3263)

Digital Signature and Seal

October 21, 2020

We submit for your consideration the following comments on the proposed rulemaking published in the August 22, 2020 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Architects Licensure Board (Board) to respond to all comments received from us or any other source.

1. Clarity and lack of ambiguity.

In response to Regulatory Analysis Form (RAF) Question # 7, the Board states that one purpose of the proposed regulation is "to update its current regulation on seals to make them as consistent as possible with the other design professional boards in Pennsylvania, which are the State Registration Board of Professional Engineers, Land Surveyors and Geologist and the State Board of Landscape Architects." Additionally, the Board responds to RAF Question # 10 that "providing consistency regarding all seals will help eliminate confusion among clients in the public and private sector and those members of the public who may view documents prepared by design professionals." Insomuch that the Board, the State Board or Professional Engineers Land Surveyors and Geologists (regulation # 16A-4712: Digital Signature and Seal) and the State Board of Landscape Architects (regulation # 16A-6112: Digital Signature and Seal) each have nearly identical regulations addressing digital signature and seal, we ask the Board to work with the State Board for Professional Engineers, Land Surveyors and Geologists and the State Board of Landscape Architects to ensure that the final-form regulations of each are consistent and clear for the regulated community.

2. Section 9.140. Definitions.—Clarity.

"Digital seal"

The Board proposes to define "Digital seal" as "an electronic sound, symbol, or process attached to or logically associated with a document and executed or adopted by a person with the intent to seal the document." [Emphasis added.] The Board should revise this definition by deleting "person" and inserting "licensee" or "architect." This same comment applies to the use of "person" in the definition of "digital signature."

“Sole control”

Should this definition also include “signature” since the term is used in Sections 9.141a(a) and (b) that pertain to signatures and seals?

“Verification”

Should this definition also include “seal” since the term is used in Sections 9.141a(a)(2) and (b)(2) that pertain to signatures and seals?

3. Section 9.141. Requirement.—Clarity; and Implementation procedures.*Subsection (a)*

Section 9.141(a) of the Board’s rules and regulations require a licensee to obtain a seal authorized by the Board, which bears their name, license number and the legend, “Architect.” A stamp design identical to the prescribed seal may be obtained and used in lieu of, or in conjunction with, the seal. Is it the Board’s intent for the digital seal design and the Board-approved seal to be identical? Must a licensee apply for a traditional seal before using a digital seal? How does the use of an “electronic sound” or “process” satisfy the requirement in Section 9.141(a)? We ask the Board to clarify in the final-form regulation whether the digital seal and the Board-approved seal design are to be identical and whether a licensee must first obtain a traditional seal before using a digital seal. The Board should also explain how a digital seal in the form of a sound or process complies with this subsection.

Subsection (b)

Paragraph (2) is being amended to allow the use of digital seals to appear on all subsequent pages of plans. What is the Board’s intent with this amendment? Is it to require that a digital seal appear on all pages of final or complete documents that are digitally sealed or can licensees use a traditional seal on the first page, and use either a digital or facsimile seal on all subsequent pages of the plans? The Board should clarify its intent in the Preamble to the final-form rulemaking and amend the regulatory language in the Annex, if necessary.

Although the language in Paragraph (4) is not being amended by this proposal, it raises questions regarding the implementation of this regulation regarding violations. Section 12(c) of the Architects Licensure Law requires that upon forfeiture, revocation, suspension or annulment of a certificate, or upon expiration of a certificate without renewal, the architect must surrender his or her seal or stamp to the Board. How does the Board plan to address violations with regards to a licensee’s digital seal? What are the responsibilities and obligations of an architect whose digital signature or seal is compromised or stolen?

Section 9.141(b)(1) states that an architect may use their seal and signature only when the work being sealed and signed was prepared by the architect or under the architect’s “personal supervision, direction and *control*.” [Emphasis added.] For consistency, should “control” be “sole control?”

Section 9.141(b)(5) refers to “architectural documents” and in Section 9.141a “Drawings, reports and documents” is used. The Board should make certain that it is using terms consistently throughout the regulation or explain why it is unnecessary to do so.

4. Section 9.141a. Digital signature and seal.—Clarity and lack of ambiguity.*Subsection (a) and (b)*

Subsections (a) and (b) refer to “Drawings, reports and documents” and in Section 9.141(b)(5) the term “architectural documents” is used. The Board should make certain that it is using terms consistently throughout the regulation or explain why it is unnecessary to do so.

Subsection (c)

National Council of Examiners in Engineering and Surveying Model Rule 240.20(H) (relating to seals) contains the following sentence: “A digital signature that uses a process approved by the board will be presumed to meet the criteria set forth in Section H above.” This sentence is not included in the proposed regulation. Why did the Board omit this provision? For clarity, the Board should consider adding a requirement relating to the processes required under subsections (a) and (b).

Subsection (c) sets forth the technical standards of a hard copy printed from an electronic document. In reference to alterations to an electronic file, why is a digital seal not included? We ask the Board to add digital seals to the alteration provisions in this subsection.

5. Miscellaneous.—Clarity.

The Preamble of the proposed regulation cites the Digital Signature and Electronic Authentication Law, a bill introduced in the United States Congress that was not enacted. As this is not an enacted law, the citation should either be deleted in the Preamble to the final-form regulation or replaced with any successor legislation.

**State Registration Board for
Professional Engineers, Land Surveyors and
Geologists Regulation
16A-4712 (IRRC # 3264)**

Digital Signature and Seal**October 21, 2020**

We submit for your consideration the following comments on the proposed rulemaking published in the August 22, 2020 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Registration Board for Professional Engineers, Land Surveyors and Geologists (Board) to respond to all comments received from us or any other source.

1. Clarity and lack of ambiguity.

In response to Regulatory Analysis Form (RAF) Question # 7, the Board states that one purpose of the proposed regulation is “to update its current regulation on seals to make them as consistent as possible with the other design professional boards in Pennsylvania, which are the State Architects Licensure Board and the State Board of Landscape Architects.” Additionally, the Board responds to RAF Question # 10 that “[p]roviding consistency regarding all seals will help eliminate confusion among clients in the public and private sector and those members of the public who may view documents prepared by design professionals.” Inasmuch that the Board, the State Architects Licensure Board (regulation # 16A-4111: Digital Signature and Seal) and the State Board of Landscape Architects (regulation # 16A-6112: Digital Signature and Seal) each have nearly identical regulations addressing digital signature and seal, we ask the Board to work with the State Architects Licensure Board and

the State Board of Landscape Architects to ensure that the final-form regulations of each are consistent and clear for the regulated community.

2. Section 37.56a. Definitions.—Clarity.

“Digital seal”

The Board proposes to define “digital seal” as “[a]n electronic sound, symbol, or process attached to or logically associated with a document and executed or adopted by a person with the intent to seal the document.” [Emphasis added.] The Board should revise this definition by deleting “person” and inserting “licensee” or “registrant.” This same comment applies to the use of “person” in the definition of “digital signature.”

Further, the definition of “digital seal” provides for an “electronic sound, symbol or process” to seal a document. How would a digital seal in the form of a sound or process meet the requirements of Section 37.58 (relating to seal)?

“Sole control”

Should this definition also include “signature” since the term is used in Sections 37.60(a) and (b) (relating to digital signature and seal) that pertain to both signatures and seals?

“Verification”

Should this definition also include “seal” since the term is used in Sections 37.60(a) and (b) (relating to digital signature and seal) that pertain to both signatures and seals?

3. Section 937.59. Use of seal.—Clarity; Implementation procedures.

Paragraph (2) is being amended to allow the use of digital seals to appear on all subsequent pages of plans. Is the Board’s intent to require that a digital seal appear on all pages of final or complete documents that are digitally sealed, or can a licensee use a traditional seal on the first page and use either a digital or facsimile seal on all subsequent pages of the plans or plats? The Board should clarify its intent in the Preamble to the final-form rulemaking and amend the regulatory language in the Annex, if necessary.

4. Section 15.33a. Digital signature and seal.—Clarity and lack of ambiguity.

National Council of Examiners in Engineering and Surveying Model Rule 240.20(H) (relating to seals) contains the following sentence: “A digital signature that uses a process approved by the board will be presumed to meet the criteria set forth in Section H above.” This sentence is not included in the proposed regulation. Why did the Board omit this provision? For clarity, the Board should consider adding a requirement relating to the processes required under subsections (a) and (b).

Subsection (c) sets forth the technical standards of a hard copy printed from an electronic document. In reference to alterations to an electronic file, why is a digital seal not included? We ask the Board to add digital seals to the alteration provisions in this subsection.

5. RAF—Clarity.

In response to RAF Questions # 15, # 16 and # 19, the Board provides inconsistent numbers when identifying the various licensees. We ask the Board to update and correct the numbers provided in the final-form RAF.

6 Miscellaneous clarity.

The Preamble to the proposed regulation cites the Digital Signature and Electronic Authentication Law, a bill introduced in the United States Congress that was

not enacted. As this is not an enacted law, the citation should either be deleted in the Preamble to the final-form regulation or replaced with any successor legislation.

State Board of Landscape Architects Regulation # 16A-6112 (IRRC # 3265)

Digital Signature and Seal

October 21, 2020

We submit for your consideration the following comments on the proposed rulemaking published in the August 22, 2020 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Landscape Architects (Board) to respond to all comments received from us or any other source.

1. Clarity and lack of ambiguity.

In response to Regulatory Analysis Form (RAF) Question # 7, the Board states that one purpose of the proposed regulation is “to update its current regulations on seals to make them as consistent as possible with the other design professional boards in Pennsylvania, which are the State Architects Licensure Board and the State Registration Board [for] Professional Engineers, Land Surveyors and Geologists.” Additionally, the Board responds to RAF Question # 10 that “[p]roviding consistency regarding all seals will help eliminate confusion among clients in the public and private sectors and those members of the public who may view documents prepared by design professionals.” Inasmuch that the Board, the State Architects Licensure Board (regulation # 16A-4111: Digital Signature and Seal) and the State Registration Board for Professional Engineers, Land Surveyors and Geologists (regulation # 16A-4712: Digital Signature and Seal) each have nearly identical regulations addressing digital signature and seal, we ask the Board to work with the State Architects Licensure Board and the State Registration Board for Professional Engineers, Land Surveyors and Geologists Regulation to ensure that the final-form regulations of each are consistent and clear for the regulated community.

2. Section 15.32a. Definitions.—Clarity and lack of ambiguity.

“Digital seal”

The Board proposes to define “digital seal” as “[a]n electronic sound, symbol or process attached to or logically associated with a document and executed or adopted by a person with the intent to seal the document.” [Emphasis added.] The Board should revise this definition by deleting “person” and inserting “licensee” or “registrant.” This same comment applies to the use of “person” in the definition of “digital signature.”

Further, the definition of “digital seal” provides for an “electronic sound, symbol or process” to seal a document. How would a digital seal in the form of a sound or process meet the requirements of Section 15.33 (relating to seals)?

“Sole control”

Should this definition also include “signature” since the term is used in Section 15.33a(a) and (b) (relating to digital signature and seal) that pertain to both signatures and seals?

“Verification”

Should this definition also include “seal” since the term is used in Section 15.33a(a) and (b) that pertain both to signatures and seals?

3. Section 15.33. Seals.—Clarity and lack of ambiguity; Implementation procedures.

A landscape architect is required to obtain an authorized seal or stamp bearing the text listed subsection (c). We have three questions. First, do the requirements in subsection (c) also apply to a digital seal? Second, is a digital seal a facsimile of the authorized seal? Third, is a licensee required to obtain a traditional seal before using a digital seal? We ask the Board to answer these questions in the Preamble to the final-form regulation. In addition, the final-form regulation should be clarified so that the requirements “are as consistent as possible with respect to both traditional seals and digital seals” as stated in RAF Question # 10.

Further, the Board explains in the Preamble of the proposed regulation that the amendment to subsection (c) “aligns with the sample of the visual depiction of the seal.” However, the sample of the seal does not depict the required text. To improve clarity, we ask the Board to provide an accurate sample in the final-form regulation or explain why it is not necessary to do so.

4. Section 15.33a. Digital signature and seal.—Clarity and lack of ambiguity.

National Council of Examiners in Engineering and Surveying Model Rule 240.20(H) (relating to seals) contains the following sentence: “A digital signature that uses a process approved by the board will be presumed to meet the criteria set forth in Section H above.” This sentence is not included in the proposed regulation. Why did the Board omit this provision? For clarity, the Board should consider adding a requirement relating to the processes required under subsections (a) and (b).

Subsection (c) sets forth the technical standards of a hard copy printed from an electronic document. In reference to alterations to an electronic file, why is a digital seal not included? We ask the Board to add digital seals to the alterations provisions in this subsection.

5. RAF—Clarity; Economic or fiscal impact.

The following questions were not adequately answered in the RAF submitted with the proposed regulation. We ask the Board to update the RAF submitted with the final-form regulation to address the following:

- The response to RAF Question # 15 states conflicting percentages of self-employed landscape architects and does not include an estimated number of small businesses;
- The responses to RAF Questions # 20, # 21 and # 23 do not include costs estimates for local and state governments; and
- The response to RAF Question # 23 does not contain costs and savings for six fiscal years.

6. Miscellaneous clarity.

The Preamble of the proposed regulation cites the Digital Signature and Electronic Authentication Law, a bill introduced in the United States Congress that was not enacted. As this is not an enacted law, the citation should either be deleted in the Preamble to the final-form regulation or replaced with any successor legislation.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Review of Issues Relating to Commission Certification of Distributed Antennae System Providers in Pennsylvania; Doc. No. M-2016-2517831

I. Introduction

With this Notice, the Pennsylvania Public Utility Commission (Commission) advises that pursuant to the Pennsylvania Supreme Court's recent ruling in *Crown Castle*,¹ all neutral-host distributed antenna system (DAS) network owners or operators have been declared to be jurisdictional telecommunications public utilities under Section 102(1)(vi) of the Public Utility Code, 66 Pa.C.S. § 102(1)(vi) (relating to the definition of "public utility"). Specifically, the Commission issues this Notice to owners or operators of DAS networks² in Pennsylvania that are either (1) regulated Pennsylvania jurisdictional telecommunications public utilities already holding a certificate of public convenience (CPC) from the Commission or (2) currently unregulated de facto jurisdictional telecommunications public utilities that have not obtained a CPC from the Commission.

The Commission advises that all neutral-host DAS network services offered to the public for compensation in Pennsylvania fall under the regulatory jurisdiction of the Commission. Neutral-host DAS network owners or operators that are not currently certificated must immediately apply for a CPC from the Commission, if they have not already done so.

This Notice (1) provides an overview of the procedural background leading up to the Supreme Court's decision; (2) provides guidance to currently uncertificated neutral-host DAS network owners or operators for obtaining a CPC from the Commission and coming into compliance with their public utility status; and (3) reminds all neutral-host DAS network owners or operators of their statutory and regulatory obligations under the Public Utility Code.

II. Background

By Order entered February 23, 2016, the Commission initiated a formal investigatory proceeding in order to examine issues relevant to the jurisdictional status of owners or operators of neutral-host DAS networks as competitive access providers.³ After reviewing numerous comments and reply comments from various stakeholders, the Commission concluded in its DAS Certification Final Order that neutral-host DAS networks fall under the "wireless" exemption to the definition of a jurisdictional telecommunications public utility that is set forth at Section 102(2)(iv) of the Code, 66 Pa.C.S. § 102(2)(iv), and, therefore, are not public utilities subject to Commission jurisdiction and are not eligible for a CPC from the

Commission.⁴ The DAS Certification Final Order also directed Commission staff to conduct an investigation to identify all certificated neutral-host DAS networks, conduct a review of the services such entities provided to determine whether they provide services within the Commission's jurisdiction, and initiate a process to rescind the CPCs of entities that do not provide any jurisdictional services.⁵

Existing CPC holders appealed the DAS Certification Final Order to the Commonwealth Court, which by Order issued June 7, 2018, unanimously reversed the Commission's DAS Certification Final Order.⁶ The Commission petitioned and was granted allowance to appeal to the Supreme Court, which on July 21, 2020, issued an opinion unanimously affirming the Commonwealth Court.⁷ The Supreme Court found that neutral-host DAS network owners or operators are jurisdictional telecommunications public utilities under 66 Pa.C.S. § 102(1)(vi), and as such fall under the regulatory jurisdiction of the Commission. Accordingly, the Court overturned the Commission's DAS Certification Final Order at Docket No. M-2016-2517831.

III. Notice

As a result of the Supreme Court's ruling in *Crown Castle*, all neutral-host DAS network owners or operators that currently are operating in Pennsylvania without a CPC from the Commission are operating unlawfully as de facto telecommunications public utilities. Under *Crown Castle*, these de facto public utilities must obtain a CPC from the Commission to operate lawfully in Pennsylvania. With this Notice, the Commission hereby directs these de facto public utilities to apply for a CPC from the Commission within 90 days of this Notice. Instructions and forms for filing for and requesting a CPC to provide telecommunications service can be found on the Commission's website at the following webpage:

<https://www.puc.pa.gov/telecommunications/application-to-provide-telecomm-services/>.

Please contact Derek Vogelsong in the Commission's Bureau of Technical Utility Services at 717-787-3861 or by email at devogelson@pa.gov with any questions about the Commission's CPC application process.

Any non-compliant neutral-host DAS network owner or operator that does not apply for a CPC within 90 days of publication in the *Pennsylvania Bulletin*, as instructed by this Notice, is providing unauthorized service in violation of Pennsylvania law. Any such non-compliant entity will become subject to referral to the Commission's Bureau of Investigation and Enforcement for investigation and potential prosecution for providing de facto public utility service in violation of Sections 102(1)(vi), 502, 1101, and 1102(a)(1) of the Code, 66 Pa.C.S. §§ 102(1)(vi), 502, 1101, and 1102(a)(1).

With this Notice, the Commission also reminds currently-certificated neutral-host DAS network owners or operators of their statutory obligations as jurisdictional public utilities. Such statutory obligations include reporting gross intrastate revenues and paying fiscal assessments under Section 510 of the Code, 66 Pa.C.S. § 510. Failure to report revenues and/or pay fiscal assessments will result in referral to the Commission's Bureau of

² A DAS network transports the wireless traffic of its wireless service provider (WSP) customers, consisting of voice, data, and video traffic generated by a consumer's mobile device (smartphone), over terrestrial fiber optic lines between "nodes" and "hubs." The nodes are located on utility, streetlight, or traffic poles in public rights-of-way. They are comprised of small, low power antennae that receive radio frequency (RF) signals and additional equipment that converts the RF signals to optical signals. The optical signals are then transported over the DAS provider's fiber optic lines to a WSP's central hub, which is typically housed in a building on private property, where the signals are returned to the WSP customers. *Crown Castle*, 234 A.3d 665, ___, 2020 Pa. Certificated entities that did not report gross intrastate revenues and/or did not pay their assessments pending the outcome of the appeal of the DAS Certification Final Order and that wish to review the status of their assessments and pay any past-due balances should, within 30 days of the publication of this Notice in the *Pennsylvania Bulletin*, contact Amy Zuvich in the Commission's Fiscal Office at 717-783-6806 or by email at azuvich@pa.gov.

Additionally, the Commission reminds all currently-certificated neutral-host DAS networks that they must comply with all of the existing reporting requirements that are applicable to all other jurisdictional telecommunications utilities. A full list of telecommunications carrier reports required by the Commission can be found at: www.puc.pa.gov/general/onlineforms/doc/Telco_Reporting_Requirements.docx.
