READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pacodeandbulletin.gov.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

GOVERNOR'S OFFICE

Proclamation; Senate Bill No. 1164, Printer's No. 2006

I, Tom Wolf, Governor of the Commonwealth of Pennsylvania, have caused this Proclamation to issue and, in compliance with the provisions of Section 15 of Article IV of the Constitution of Pennsylvania, do hereby give notice that I have filed in the Office of the Secretary of the Commonwealth, with my objections thereto, the following bill passed by both houses of the General Assembly at the Regular Session of 2019-2020:

Senate Bill No. 1164, Printer's No. 2006, entitled "An Act [a]mending the act of August 9, 1955 (P.L. 323, No. 130), entitled 'An act relating to counties of the first, second class A, third, fourth, fifth, sixth, seventh and eighth classes; amending, revising, consolidating and changing the laws relating thereto; relating to imposition of excise taxes by counties, including authorizing imposition of an excise tax on the rental of motor vehicles by counties of the first class; and providing for regional renaissance initiatives,' in coroner, further providing for coroner's investigation."

Given under my hand and the Great Seal of the Commonwealth, at the County of Dauphin, this third day of November, in the year of our Lord two thousand and twenty, and of the Commonwealth the two hundred and forty-fifth.

Governor

Attest:

KATHY BOOCKVAR,

GOVERNOR'S OFFICE

Notice of Veto; Senate Bill No. 1164, Printer's No. 2006

November 3, 2020

To the Honorable Senate of the
Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, Senate Bill 1164, Printer's Number 2006.

This legislation will add additional reporting requirements and cause delays in the reporting of public health information, which would jeopardize public safety. Currently, medical professionals are required to certify all natural deaths unless circumstances justify a referral to a coroner or medical examiner. Specifically, it is the responsibility of an attending physician who treated the last known illness of the decedent to certify a death, unless specified circumstances justify a referral. This bill changes this structure and adds an additional layer of reporting by health care facilities, nursing facilities, personal care homes, and physicians. Under this legislation, the requirement for coroners to investigate the facts and

circumstances of various types of death is broadened to include the requirement for coroners to investigate the facts and circumstances of every death suspected to be due to a contagious disease, including a disease constituting a health disaster emergency or pandemic. Given the substantial increase in confirmed COVID-19 cases and deaths, this bill will delay the reporting and the access to public health information needed to make timely public health and safety decisions, as well as the issuances of death certificates.

In addition, this bill grants electronic access to various databases, which contain individually identifiable health information. Providing access to this information does not assist in determining whether an autopsy or inquest should be performed, but instead, risks the release of highly sensitive personal information without the protections guaranteed by the Vital Statistics Law.

For the reasons set forth above, I must withhold my signature from Senate Bill 1164, Printer's Number 2006.

Sincerely,

A handwritten signature in black ink that reads "Tom Wolf". The signature is written in a cursive style with a long, sweeping tail on the letter "f".

Governor

(a) *General Rule.* The following are members of the bar of the courts of this Commonwealth and may practice law generally within this Commonwealth:

(1) Persons admitted to the bar pursuant to these rules.

(2) Persons heretofore admitted to practice before any court of record of this Commonwealth pursuant to former Supreme Court Rules 8 or 9 or corresponding provisions of prior law and registered under Enforcement Rule 219 (relating to periodic assessment of attorneys).

[(b) *Resignation.* An attorney who is not the subject of any investigation into allegations of misconduct may voluntarily cease to be a member of the bar of this Commonwealth by delivering to the Administrative Office a written resignation from the office of attorney at law.

(c) **[(b) *Changes in Status Under Enforcement Rules.*** An attorney admitted to the bar or issued a limited license to practice law as an in-house corporate counsel, military attorney, or foreign legal consultant:

(1) may be disbarred, suspended or transferred to inactive status and may be readmitted or otherwise reinstated pursuant to the Enforcement Rules;

(2) may have such admission to the bar or limited license to practice law revoked or another appropriate sanction imposed pursuant to the Enforcement Rules when the attorney made a material misrepresentation of fact or deliberately failed to disclose a material fact in connection with an application submitted under these rules that is not discovered prior to the attorney being admitted to the bar or issued a limited license to practice law.

[(d) *(c) Certification of Good Standing.* Upon written request and the payment of a fee of \$25.00 the Prothonotary shall issue a certificate of good standing to any member of the bar of this Commonwealth or limited licensed attorney entitled thereto. The certificate shall be one appropriate for admission to the bar of the federal courts and other state courts. A certificate of good standing shall not be issued to a member of the bar of this Commonwealth or limited licensed attorney who currently is the subject of:

(2) a petition for emergency interim suspension pursuant to Enforcement Rule 208(f) (relating to emergency interim suspension orders and related relief), or

(3) a petition for transfer to inactive status pursuant to Enforcement Rule 301 (relating to proceedings where an attorney is declared to be incompetent or is alleged to be incapacitated).

Official Note: 42 Pa.C.S. § 2521 (relating to office of attorney at law) provides that persons admitted to the bar of the courts of this Commonwealth and to the practice of law pursuant to general rules shall thereby hold the office of attorney at law. Subdivision (d) is based on former Supreme Court Rule 16.

If a person's admission to practice law or limited license to practice law as an in-house corporate counsel or foreign legal consultant is revoked for a material misrepresentation or omission, the person will be required to reapply *de novo*. Any such persons who are seeking admission to practice law must meet all of the requirements for admission to the bar, including the taking and passing of the current bar examination if more than three years have passed since the prior certificate recommending the person's admission to the bar was issued by the Board. At the time of reapplication, the Board will make a determination as to the applicant's character and fitness to practice law, taking into account all of the existing character issues, including the prior misrepresentation or omission.

(a) The exclusive disciplinary jurisdiction of the Su-
preme Court and the Board under these rules extends to:

* * * * *

(3) Any formerly admitted attorney, with respect to
acts prior to suspension, disbarment, administrative sus-
pension, **permanent resignation**, or transfer to **or

sion, temporary suspension, administrative suspension,

case of a respondent-attorney who holds a Limited In-
House Corporate Counsel License, expiration of that
license. A respondent-attorney whose Limited In-House
Corporate Counsel License expires for any reason:

(1) shall be deemed to be a formerly admitted attorney
for purposes of Rule 217 (relating to formerly admitted
attorneys); and

(2) shall not be entitled to seek reinstatement under
Rule 218 (relating to reinstatement) or Rule 219 (relating
to annual registration of attorneys) and instead must
reapply for a Limited In-House Corporate Counsel Li-
cense under Pennsylvania Bar Admission Rule 302.

Rule 217. Formerly admitted attorneys.

* * * * *

(d)(1) Orders imposing suspension, disbarment, admin-
istrative suspension or transfer to inactive status shall be
effective 30 days after entry. The formerly admitted
attorney, after entry of the disbarment, suspension, ad-
ministrative suspension or transfer to inactive status
order, shall not accept any new retainer or engage as
attorney for another in any new case or legal matter of
any nature. However, during the period from the entry
date of the order and its effective date the formerly
admitted attorney may wind up and complete, on behalf
of any client, all matters which were pending on the entry
date.

* * * * *

(3) In cases of disbarment, suspension for a period exceeding one year, temporary suspension under Enforcement Rule 208(f) or 213(g), or disability inactive status under Enforcement Rule 216 or 301, a formerly admitted attorney shall also promptly:

(i) resign all appointments as personal representative, executor, administrator, guardian, conservator, receiver, trustee, agent under a power of attorney, or other fiduciary position;

(ii) close every IOLTA, Trust, client and fiduciary account;

(iii) properly disburse or otherwise transfer all client and fiduciary funds in his or her possession, custody or control; and

(iv) take all necessary steps to cancel or discontinue the next regular publication of all advertisements and telecommunication listings that expressly or implicitly convey eligibility to practice law in the state courts of Pennsylvania.

The formerly admitted attorney shall maintain records to demonstrate compliance with the provisions of paragraphs (2) and (3) and shall provide proof of compliance at the time the formerly admitted attorney files the verified statement required by subdivision (e)(1) of this Rule.

Official Note: Paragraph (d)(3)(i) does not preclude a respondent-attorney who voluntarily assumes inactive or retired status, **permanently resigns**, is placed on administrative suspension, is temporarily suspended under Enforcement Rule 214, or is suspended for one year or less, from completing existing appointments and accepting new appointments of the nature identified in paragraph (d)(3)(i). Nonetheless, in order to comply with subdivisions (a), (b) and (c) of this Rule, the formerly admitted attorney who desires to complete existing appointments or accept future appointments must give written notice of the formerly admitted attorney's registration status or change in that status to appointing and supervising judges and courts, wards, heirs, beneficiaries, interested third parties, and other recipients of the formerly admitted attorney's fiduciary services, as notice of the formerly admitted attorney's other-than-active status gives all interested parties an opportunity to consider replacing the formerly admitted attorney or enlisting a person other than the formerly admitted attorney to serve as the fiduciary in the first instance. Although the formerly admitted attorney would not be precluded by paragraph (d)(3)(ii) from continuing to use a fiduciary account registered with the bank as an IOLTA or Trust Account, paragraph (2) of subdivision (d) and paragraph (4)(iv) of subdivision (j) of this Rule prohibit the formerly admitted attorney from using or continuing to use account checks and deposit slips that contain the word "IOLTA," "attorney," "lawyer," "esquire," or similar appellation that could convey eligibility to practice in the state courts of Pennsylvania. Notwithstanding the specific prohibitions of subdivision (j) of this Rule, the formerly admitted attorney is authorized to perform those services necessary to carry out the appointment with the exception of any service that would constitute the unauthorized practice of law if engaged in by a nonlawyer. In relation to formerly admitted attorneys who are disbarred, suspended for a period exceeding one year, temporarily suspended under Enforcement Rule 208(f) or 213(g), or transferred to disability inactive status, the requirements of paragraph (d)(3) continue throughout the term of the

disbarment, suspension, temporary suspension, or disability inactive status, thereby precluding any new appointment or engagement.

* * * * *

Rule 219. Annual registration of attorneys.

* * * * *

(b) The following shall be exempt from paying the annual fee required by subdivision (a):

(1) Justices or judges serving in the following Pennsylvania courts of record shall be exempt for such time as they serve in office. Supreme, Superior, Commonwealth, Common Pleas, and Philadelphia Municipal; and justices or judges serving an appointment for life on any federal court;

(2) retired attorneys; [and]

(3) permanently resigned attorneys under Enforcement Rule 404; and

[3] (4) military attorneys holding a limited certificate of admission issued under Pa.B.A.R. 303 (relating to admission of military attorneys).

Official Note: The exemption created by subdivision (b)(1) does not include Pittsburgh Municipal Court judges, magisterial district judges, arraignment court magistrates or administrative law judges.

PROPOSED RULEMAKING

STATE BOARD OF DENTISTRY

[49 PA. CODE CH. 33]

Fees

The State Board of Dentistry (Board) proposes to amend § 33.3 (relating to fees) and delete § 33.339 (relating to fees for issuance of permits) to read as set forth in Annex A.

Effective Date

This proposed rulemaking will be effective upon publication of the final-form rulemaking in the *Pennsylvania Bulletin*. The increased application fees will be implemented immediately upon publication. Thereafter the subsequent graduated increases for application fees will be implemented on a 2-fiscal-year (FY) basis on July 1, 2023, and July 1, 2025.

The increased biennial renewal fees will be implemented with the April 1, 2021—March 31, 2023, biennial renewal period.

Statutory Authority

Section 3(o) of The Dental Law (act) (63 P.S. § 122(o)), authorizes the Board to adopt, promulgate, and enforce such rules and regulations as may be deemed necessary by the Board and proper to carry into effect the powers conferred by the act. Section 4(a) of the act (63 P.S. § 123(a)) provides that the fee for an applicant for examination and licensure to practice dentistry or as a dental hygienist or certification for an expanded function dental assistant (EFDA) in this Commonwealth shall be fixed by the Board by regulation. Section 4(b) of the act requires the Board to increase fees by regulation to meet or exceed projected expenditures if the revenues raised by fees, fines and civil penalties imposed under the act are not sufficient to meet expenditures over a 2-year period. The Board's authority to impose an application fee for a restricted faculty applicant is section 11.11(a)(7) of the act (63 P.S. § 1301(a)(7)), which provides that an applicant for a restricted faculty license shall pay a fee in the same amount as is prescribed by the Board for licensure to practice dentistry. Additionally, under section 11.11(d) of the act, to renew a restricted faculty license, a licensee must pay a biennial renewal fee in the same amount as the fee prescribed by the Board for renewal of licensure to practice dentistry.

Background and Need for Amendment

Under section 4(b) of the act, the Board is required by law to support its operations from the revenue it generates from fees, fines and civil penalties. In addition, the act provides that the Board shall increase fees if the revenue raised by fees, fines and civil penalties is not sufficient to meet expenditures over a 2-year period. The Board raises the majority of its revenue through biennial renewal fees. A small percentage of its revenue comes from application fees, fines and civil penalties.

In March and November 2019, representatives from the Bureau of Finance and Operations (BFO) met with the Board and provided summaries of the Board's revenue and expenses through FY 2025-2026. The BFO reported that in FY 2017-2018 the Board began with a revenue balance of \$1,230,886.86; however, in this same fiscal year, the Board incurred \$2,175,906.70 in expenses, resulting in a deficit of (\$573,799.20) to carry forward to

FY 2018-2019. In 2019 (a "renewal year") the Board collected revenues totaling \$3,530,770.47 and incurred \$2,378,734.70 in expenses. This provided a positive balance of \$578,236.57 to carry forward to FY 2019-2020. However, the BFO anticipates that with FY 2019-2020 being a nonrenewal year, the Board will receive only \$346,314.44 in revenue, while continuing to accrue expenses totaling \$2,397,000. This will result in a deficit of (\$1,472,448.99) to carry forward to FY 2020-2021. Because FY 2020-2021 is a renewal year, the BFO projects that the Board will collect revenue totaling \$3,379,000. However, the Board's total expenditures for FY 2020-2021 are projected to be \$2,450,000, resulting in a deficit to carry forward to FY 2021-2022 of (\$543,448.99). With no change in the fee structure, the BFO projects that with projected revenue and expenses, taking into consideration renewal years, the Board will have a deficit of (\$2,666,134.55) by the end of FY 2021-2022; a deficit of (\$1,811,134.55) by the end of FY 2022-2023; a deficit of (\$4,007,820.11) by the end of FY 2023-2024; a deficit of (\$3,228,820.11) by the end of FY 2024-2025; and a mounting deficit of (\$7,797,505.67) by the end of FY 2025-2026.

Based on the BFO's summaries, the Board's revenue is insufficient to meet expenditures over a 2-year period. It is therefore necessary for the Board to raise fees to meet or exceed projected expenditures, in compliance with section 4(b) and (c) of the act. To accomplish that objective, the BFO recommended increased application fees that are reflective of actual costs to process applications in each biennium, and an 18% renewal fee increase for each renewal cycle beginning with the April 1, 2021—March 31, 2023, biennial renewal and continuing through FY 2025-2026. The last time the Board approved a renewal fee increase was in July of 2012, which was effective for the April 2015 renewal period.

Based upon the financial information that the BFO presented to the Board on March 15, 2019, and November 15, 2019, the Board adopted the new schedule of fees set forth in Annex A. The increased fees are projected to produce sufficient revenue to meet expenditures over a 2-year period through FY 2025-2026. In FY 2020-2021 through FY 2021-2022, with the fee increase, the Board's revenue of approximately \$4.764 million will be sufficient to meet its expenditures of approximately \$4.764 million. In FY 2022-2023 through FY 2023-2024, the Board's revenue of approximately \$5.571 million will be sufficient to meet its expenditures of approximately \$4.907 million. By the end of FY 2023-2024, the Board's deficit will decrease to (\$808,448.99). In FY 2024-2025 through FY 2025-2026, the Board's revenue of approximately \$6.518 million will be sufficient to meet its expenditures of approximately \$5.054 million. By the end of FY 2025-2026, the Board will have a positive balance of \$655,551.01. Thus, the proposed fee structure will allow the Board to meet expenditures over a 2-year period as required by section 4(b) of the act and will put the Board back on firm financial ground.

Description of Proposed Amendments

This proposed rulemaking will result in the following amendments to the Board's existing fee schedules in §§ 33.3 and 33.339.

This proposed rulemaking amends § 33.3 by increasing the application fees for dentists; dental facility fictitious names; dental hygienists; EFDAs; unrestricted, restricted

I and restricted II anesthesia permits; local anesthesia permits; public health dental hygienists practitioners; EFDA program approval; criteria approval—dentists; criteria approval—dental hygienists; and criteria approval—EFDAs to cover identifiable costs incurred by the Board to process these applications. This proposed rulemaking adds a graduated application fee for a restricted faculty license. In § 33.3 the Board includes the fee for verification of license, permit or registration fee—dentists, dental hygienists and EFDAs. This fee is an existing fee that the Board is carrying over to the proposed fee schedule. The Board is not increasing this fee, but rather, keeping the same \$15 fee that is currently charged for this service.

The Board’s proposed fee schedule deletes some application fees. In § 33.3, the Board proposes to delete the notification application—postgraduate training or faculty member fee. With respect to the postgraduate training notification application fee, the Board no longer requires an application for postgraduate training, but rather, only requires hospitals or training programs to submit a notification through the Board’s electronic application system for which the Board has determined a fee is unnecessary. In place of the faculty member fee, the Board proposes to add the restricted faculty license fee to align with amendments to the act. In July 2014, the act was amended by the act of July 2, 2014 (P.L. 828, No. 89) (Act 89) to require that the Board grant, without examination, restricted faculty licenses to qualified applicants. See 63 P.S. § 130l. Act 89 requires that qualified individuals submit a completed application and an application fee in the same amount as the fee prescribed by the Board for licensure to practice dentistry (current fee of \$200). *Id.* at 130l(a)(7). Additionally, under section 11.11(d) of the act, to renew a restricted faculty license, a licensee must pay a biennial renewal fee in the same amount as the fee prescribed by the Board for renewal of licensure to practice dentistry (current fee of \$263).

In § 33.3, the Board proposes to delete the fees for certification of scores, permit or registration fee—dentists, dental hygienists and expanded function dental assistants because the Board no longer issues certifications of scores. Board examinations are now administered by National or regional organizations who provide this service. The Board proposes to delete the application fee for dental radiology authorization in § 33.3 because there is no requirement in the act or the Board’s regulations to file an application or pay a fee.

The Board proposes to delete § 33.339. The initial application and renewal fees for the anesthesia permits (unrestricted, restricted I and restricted II) appearing in § 33.339 will be moved and combined with the schedule of fees in § 33.3 so that all fees charged by the Board are listed in one location. The Board proposes to delete fees for the temporary unrestricted permit, temporary restricted permit I and temporary restricted permit II (currently listed in § 33.339) because they are now obsolete. Temporary permits were issued for a short period when Subchapter E (relating to administration of general anesthesia, deep sedation, conscious sedation and nitrous oxide/oxygen analgesia) was first adopted by the Board in 2005 to allow existing practitioners to continue to administer deep sedation or conscious sedation, or both, while awaiting their scheduled evaluation and inspection, upon receipt of a completed application, fee and educational documentation. Because a temporary permit is no longer necessary, the Board proposes to delete this fee.

The proposed application fee increases occur on a graduated basis so that the application fees collected

during each biennium reflect the anticipated costs of processing applications for that biennium. These fees are designed to cover the cost to process applications and are borne by individual applicants. Actual cost calculations for application fees are based upon the following formula:

$$\begin{aligned} & \text{number of minutes to perform the function} \\ & \qquad \qquad \qquad \times \\ & \text{pay rate for the classification of the personnel} \\ & \qquad \qquad \qquad \text{performing the function} \\ & \qquad \qquad \qquad + \\ & \text{a proportionate share of administrative overhead} \end{aligned}$$

The application fees for FY 2020-2021 are based on time study reports created within the Bureau of Professional and Occupational Affairs giving each step in the process and the amount of time it takes to process one application. That amount is multiplied by the anticipated application requests for 1 year (times two since the increases are biennial). Increases which will be effective July 1, 2023, and July 1, 2025, are calculated at an approximately 9.5% increase as pay increases for staff that process applications are 2.5% in July and 2.25% in January or 4.75 % annually (9.5% biennially) and the fee is almost entirely dependent upon personnel-related costs.

The Board proposes to increase biennial renewal fees for dentists, dental hygienists, EFDAs, anesthesia-unrestricted, anesthesia-restricted I, anesthesia-restricted II, dental hygienist local anesthesia permits, public health dental hygiene practitioners, EFDA education program approval and restricted faculty licenses. The biennial renewal fees will increase by 18% for each renewal cycle beginning in the April 1, 2021—March 31, 2023, biennial renewal period and continuing through the April 1, 2025—March 31, 2027, biennial renewal period.

When considering this proposed fee increase, the Board conducted a comparison of application fees and renewal fees charged by surrounding states. The Board found that even by comparing the highest fee increases, which will not be effective until FY 2025-2026, the Commonwealth’s application fees and renewal fees are still among the lowest or are in line, or both, with fees charged in surrounding states.

Fiscal Impact

This proposed rulemaking will increase the application fees and biennial renewal fees for all license and permit types issued by the Board. The Board receives approximately 1,979 applications annually from its various licensee types. There are currently 29,911 licensees and permit holders who will be impacted by the fee increase. Existing licensees will be required to pay 18% higher renewal fees every 2 years beginning in the April 1, 2021—March 31, 2023, biennial renewal period and continuing through the April 1, 2025—March 31, 2027, biennial renewal period.

DEPARTMENT OF HUMAN SERVICES

**[55 PA. CODE CHS. 3041 AND 3042]
Subsidized Child Care Eligibility**

The Department of Human Services (Department) under the authority of sections 201(2), 403(b) and 403.1 of the Human Services Code (62 P.S. §§ 201(2), 403(b) and 403.1) proposes to rescind Chapter 3041 and adopt Chap-

ter 3042 (relating to subsidized child care eligibility) as set forth in Annex A.

Purpose of the Proposed Rulemaking

Subsidized child care is a benefit made available through limited Federal and State funds. The current subsidized child care regulations in Chapter 3041 provide the eligibility criteria a parent or caretaker must meet to obtain and maintain assistance with child care costs through the subsidized child care program. The regulations also set forth the procedures the eligibility agency shall follow in administering the subsidized child care program.

This proposed rulemaking proposes to rescind and reserve Chapter 3041 and replace Chapter 3041 with Chapter 3042.

This proposed rulemaking is needed to address the requirements set forth in the Federal Child Care and Development Block Grant of 2014 (CCDBG) (42 U.S.C.A. §§ 9857—9858r, as reauthorized by Pub.L. No. 113-186). The CCDBG, along with section 418 of the Social Security Act (42 U.S.C.A. § 618), authorizes the Child Care and Development Fund (CCDF). The CCDF is the primary Federal funding source devoted to assisting low-income families that are working or participating in education or training activities with paying for child care and improving the quality of child care for all children.

This proposed rulemaking is needed to ensure the Commonwealth's compliance with the CCDBG, which provides more than \$197 million in funding to support child care services in this Commonwealth. The original CCDBG authorized in 1996 included the first mandates for child care in the United States. The CCDBG provides assistance to low-income families by making funds available to child care providers that provide services to these families, establishing baseline health and safety protections for child care providers that receive funds, and requiring states to use a portion of the funds to improve the quality of child care services. The Congressional reauthorization of the CCDBG made clear the importance of continuity of child care in supporting a parent's or caretaker's ability to achieve financial stability and a child's ability to develop a nurturing relationship with the child's child care provider, which creates the foundation for a high-quality early learning experience.

Background

The Department has worked with child development and community service advocates, child care providers, eligibility agencies and other interested stakeholders in drafting this proposed rulemaking. The Department has also worked with the Federal Office of Child Care (OCC), Administration for Children and Families (ACF), Department of Health and Human Services (HHS) to understand the Federal requirements, as well as to obtain clarification about and ensure compliance with the CCDBG.

Requirements

This proposed rulemaking will comply with the Federal requirements set forth in the CCDBG and help low-income families more easily obtain affordable, accessible and high-quality child care. Compliance with the CCDBG will also allow the Commonwealth maximum flexibility in developing child care policies that best meet the needs of children and their families in this Commonwealth.

Section 658E(c)(2)(N)(i) of the CCDBG (42 U.S.C.A. § 9858c(c)(2)(N)(i)) requires extending children's eligibility for child care to a minimum of 12 months, regardless of temporary changes in participation in work, training or education. This requirement will enable parents to maintain employment or complete education programs, and supports both family financial stability and the relationship between children and their child care providers. A parent or caretaker will not need to report a loss of work or a decrease in work hours between 12-month redetermination periods. Subsidized child care eligibility and payment will continue for the full 12-month eligibility period.

Between eligibility redeterminations, a parent or caretaker will only be required to report when the family's annual income exceeds 85% of the State Median Income (SMI) (45 CFR 98.20(a)(2)(i) and (ii) (relating to a child's

eligibility for child care services)). A parent or caretaker will now only be required to report: a loss or decrease in hours of work, education or training; a change in the number of days or hours during which the child needs care; or a change in family size and composition at redetermination. Continuity and stability of child care contributes to improved job stability and is important to a family's financial health. Family economic stability is undermined by policies that result in unnecessary disruptions to receipt of affordable child care in the form of a subsidy. Removing policies that present administrative barriers and make it difficult for parents and caretakers to maintain their eligibility and thus fully benefit from the support subsidy offers is important.

The Department intends to create a child care system that not only supports families in their efforts to achieve and maintain financial self-sufficiency, but also promotes the healthy development of children. Continuity of care is of vital importance to the healthy development of young children. Disruptions in care can stunt or delay socio-emotional and cognitive development in children. Safe, stable environments allow young children the opportunity to develop the relationships and trust necessary to comfortably explore and learn from their surroundings. Research has demonstrated a relationship between child care stability and social competence, behavior outcomes, cognitive outcomes, language development, school adjustment and overall child well-being. Adams, G. and Rohacek, M. (2010). "Child Care Instability: Definitions, Context, and Policy Implications." *The Urban Institute*, page 6. Retrieved from <https://www.urban.org/research/publication/child-care-instability-definitions-context-and-policy-implications>.

According to the Economic Report of The President (March 2014), investments in early childhood development will reap economic benefits now and in the future. Immediate benefits include increased parental earnings and employment. Future benefits come when children who experience high-quality early care and education opportunities are prepared for success in school and go on to earn higher wages as adults.

A cost-savings study conducted by the Department of Education's Pennsylvania Build Initiative: The Cost Savings to Special Education (October 2005), concluded that if high-quality early care and education were made available to all children in this Commonwealth, the number of students requiring special education services would be reduced by 2,380, saving taxpayers in this Commonwealth between \$68 and \$102 million over the course of the children's Kindergarten through 12th grade education. According to the study, for every \$1 invested, the Department of Education will save \$0.16 to \$0.31 elsewhere in the school system, which could prevent as many as 1,700 children from committing crimes when they grow up. Additional future tax savings are possible because children who are better educated are likely to earn higher income as adults, likely to be healthier, pay more taxes and less likely to require public assistance.

In addition to making changes to the regulation as required by the CCDBG, the Department is proposing other changes to better ensure child care continuity and stability of care. The eligibility agency will continue child care eligibility and payment until the end of the child's 12-month eligibility period when a child's parent or caretaker loses employment, education or training, whether the loss is temporary or permanent. At initial and ongoing eligibility determinations, the parent or caretaker must work a minimum of 20 hours per week,

or work a minimum of 10 hours combined with a minimum of 10 hours of training per week. If a parent or caretaker experiences a loss of work, education or training between 12-month eligibility redeterminations, section 658E(c)(2)(N) of the CCDBG offers the Commonwealth some options.

States may discontinue subsidy due to a parent's or caretaker's loss of work, education or training that is not considered temporary, as long as the eligibility agency continues subsidy for a minimum 3-month period. The OCC has interpreted "temporary" to be, at minimum: (1) any time-limited absence from work; (2) any interruption in work for a seasonal employee; (3) any student or holiday break in a parent's or caretaker's education and training schedule; (4) a reduction in hours of work, education or training; or (5) any other cessation of work, education or training that does not exceed 3 months or a longer period of time determined by the Commonwealth (45 CFR 98.21(a)(1)(ii) (relating to eligibility determination processes)). This definition is in line with Congressional intent to stabilize assistance for working families as part of two-generational strategies. Two-generational strategies focus on creating opportunities for and addressing needs of both vulnerable children and their parents simultaneously, so the family can succeed together. Connecting low-income families with early care and education, in addition to opportunities to achieve financial stability, may help break the cycle of poverty.

States must consider all changes on this list to be temporary, but are not limited by this definition and may consider additional changes to be temporary, including longer periods of time for eligibility (45 CFR 98.21(a)(2)). Many low-income families likely do not have a consistent work history pattern, but many are also managing more than one job and experience significant fluctuations in schedules and work history. The Department originally contemplated the option of discontinuing child care if the parent did not find new employment, education or training within the 3-month period. However, a review for the period December 2015 through December 2016 showed that child care was discontinued for about 300 families, or 1% of all families being provided services in the program, each month because the parent or caretaker did not find new employment or training within the 3-month period.

The level of effort needed to track work history, job-search activity and the system changes needed to support it are not commensurate with the 1% of families affected by this requirement. Additionally, many of these families eventually returned to the program through new employment obtained after the 3-month period, or through receipt of Temporary Assistance for Needy Families (TANF) benefits. This change has the net effect of providing families the remainder of their 12-month eligibility period so the parent or caretaker may find other work that meets the requirement. Continuation of child care for the full 12-month eligibility period best meets the needs of the family during difficult times and provides stability for the child.

The Department also proposes changes that will allow an increased ability to align child care eligibility periods with other programs serving low-income children, such as Head Start and Early Head Start. Aligning these programs will allow the eligibility agency to continue child care payment for the child through the completion of the child's Head Start or Early Head Start program.

Additional proposed changes include provisions to allow a period of presumptive eligibility for a parent or caretaker experiencing homelessness. This period of presump-

tive eligibility will provide a parent or caretaker experiencing homelessness additional time to submit verification and secure work, education or training.

Historically, families cycle in and out of the subsidized child care program. Parents or caretakers find jobs, then lose jobs, resulting in loss of eligibility and subsidy. Children leave their early care and education program only to need early care and education again in a few months and be placed on a waiting list until funds become available. This cycling in and out is disruptive to a child's ability to learn and to a parent's or caretaker's ability to work and is not an effective use of taxpayer dollars. Stability of child care arrangements can affect children's healthy development, especially for vulnerable children who may be at special risk of poor developmental outcomes. Adams, G. and Rohacek, M. (2010). "Child Care Instability: Definitions, Context, and Policy Implications." *The Urban Institute*, page 6. New CCDBG Requirements

This proposed rulemaking will stabilize a parent's or caretaker's access to child care subsidy and, in turn, help stabilize the parent's or caretaker's employment or education, and the child's care arrangement. Section 658E(c)(2)(E) of the CCDBG expanded requirements for the content of consumer education available to parents receiving CCDF assistance, the public and where applicable, child care providers. By adding child care providers, Congress recognized the positive role trusted providers could play in communicating and collaborating with parents on a daily basis regarding their children's development.

This proposed rulemaking has the potential to stabilize the revenue of child care providers that receive subsidy payments, as they experience more predictable and reliable payments for services. Strengthening the stability of providers providing services to children is important. Provider instability can lead to instability in a parent's or caretaker's employment, which is an outcome that undercuts a core principle of the CCDBG to ensure children have access to child care that is comparable to the care available to unsubsidized families.

These requirements facilitate a two-generation approach that supports work, education and training for parents or caretakers, as well as access to high-quality, coordinated early care and education services for the children. This approach will maximize a parent's or caretaker's options; support a parent or caretaker in finding and maintaining employment; improve the development of participating children; and increase the number and percentage of low-income children participating in high-quality child care settings.

This proposed rulemaking also substantially reorganizes the existing subsidized child care chapter to meet the requirements of the CCDBG. Therefore, the Department proposes a new chapter to replace the existing regulations. In addition, simplification of regulatory language will make the eligibility process easier to understand. Proposed Chapter 3042 replaces Chapter 3041 in its entirety.

Following is a summary of the major proposed amendments required by the CCDBG:

§§ 3042.1—3042.4 *General provisions*

This proposed rulemaking complies with the CCDBG statute and regulation in section 658E(c)(2)(N)(i) and

45 CFR 98.14(a)(1) (relating to plan process) and 98.41(a)(1)(i)(C) (relating to health and safety requirements) by allowing a period of presumptive eligibility for a parent or caretaker experiencing homelessness. This proposed rulemaking defines “homelessness,” as well as a “period of presumptive eligibility.” “Homelessness” refers to an individual who lacks a fixed, regular and adequate nighttime residence as set forth in section 725(2) of the McKinney-Vento Homeless Assistance Act (42 U.S.C.A. § 11434a(2)). A “period of presumptive eligibility” means a temporary period not to exceed 92 calendar days, during which a family is eligible for subsidized child care under certain conditions. During the 92-day period of presumptive eligibility, a parent or caretaker in a family that is experiencing homelessness may substitute job search activities to meet the work requirement at the time of application or redetermination.

This proposed rulemaking includes procedures the eligibility agency must follow when granting a period of presumptive eligibility, which are discussed in further detail under §§ 3042.141—3042.147.

This proposed rulemaking defines “SMI” and ensures that a family shall remain eligible for subsidized child care following the initial determination of eligibility as long as the family’s annual income does not exceed 85% of the SMI, as required by the CCDBG regulation (45 CFR 98.20(a)(2)(i)). In addition, this proposed rulemaking ensures the family’s income shall not exceed 235% of the Federal Poverty Income Guidelines (FPIG) or 85% of the SMI at the time of the redetermination.

§§ 3042.11—3042.21 *General benefits*

This proposed rulemaking expands eligibility for a child who turns 13 years of age before the expiration of the child’s 12-month eligibility period, as required by the CCDBG regulation (45 CFR 98.21(a)(1)(ii)(F)). The CCDBG requires the eligibility agency to complete a redetermination of a child’s eligibility for child care services no sooner than 12 months following the initial determination or most recent redetermination. This proposed rulemaking complies with the CCDBG by assuring the child will remain eligible for the full 12-month eligibility period, unless the family’s annual income exceeds 85% of the SMI (45 CFR 98.20(a)(2)(i) and (ii)).

This proposed rulemaking restricts the types of child care providers that may receive payment to comply with section 658E(c)(2)(K)(i)(IV) of the CCDBG. The CCDBG requires licensing inspectors or qualified inspectors designated by the Department to perform an annual inspection of each provider in the state receiving payment under the CCDF, unless the provider is a relative. Section 658P(6)(B) of the CCDBG (42 U.S.C.A. § 9858n(6)(B)), however, defines a relative provider as being exempt from the inspection requirement.

All other providers receiving funding are certified child care providers subject to health and safety requirements, including the annual inspection. Congress established minimum health and safety standards, including mandatory criminal background checks, at least annual monitoring of child care providers, and health and safety training. Children in CCDF-funded child care will now receive care from providers certified by the Department and that have had basic training in health and safety practices and child development.

This proposed rulemaking attempts to bring a basic level of safety to all children whose care is supported with taxpayer funds. Health and safety is a necessary foundation for care that supports early learning and develop-

ment. It is critical that the support that the child care subsidized families receive is of sufficient quality. This proposed rulemaking supports this goal of ensuring quality of care by requiring that providers providing CCDF-funded services to children have background checks, receive basic training in health and safety and are monitored on a regular basis.

In addition, this proposed rulemaking restricts when the Department’s grantee may enroll additional children with a child care provider when the Department determines the provider is not meeting health and safety requirements and revokes or refuses to renew the provider’s certificate of compliance.

This proposed rulemaking allows continuity of care for the remainder of a child’s required 12-month eligibility period during a break in or following the loss of work, education or training, as required by the CCDBG regulation (45 CFR 98.21(a)(1)). The intent is to stabilize assistance for families through changes in circumstance, which allows a parent or caretaker time to resume work or attendance at a job training or educational activity.

Continuity of care will provide some measure of stability in instances where parents or caretakers, despite their best efforts, cycle in and out of employment. In these instances, when the home life may be in flux, a level of stability in the child’s care arrangement becomes that much more valuable. Instability in the child’s care arrangement further disrupts the parent’s or caretaker’s employment and education, harms children and runs counter to nearly all the purposes of the CCDBG regulation (45 CFR 98.1 (relating to purposes)). In addition, this proposed rulemaking allows continuity of care for the remainder of a child’s required 12-month eligibility period when there is a change in the child’s primary parent or caretaker, so long as the family’s annual income does not exceed 85% of the SMI.

This ensures continuity of care for children experiencing the trauma of a parent or caretaker leaving the home for reasons including death, inpatient treatment, incarceration or military deployment (45 CFR 98.1(b)(7)). The CCDBG regulation prohibits the Department from acting on information between 12-month redetermination periods that would reduce the family’s subsidy unless the information provided indicates the family’s income exceeds 85% of SMI (45 CFR 98.20(a)(2) and 98.21(e)(4)(ii)).

This proposed rulemaking also ensures continuity of care by expanding the reasons a parent or caretaker may request a child’s subsidy be suspended, rather than terminated by the eligibility agency. For example, a child’s subsidy may be suspended when the child does not need care for more than 5 consecutive days, but will return to care within the minimum 12-month eligibility period required by the CCDBG statute and regulation (42 U.S.C.A. § 9858c(c)(2)(N)(i) and 45 CFR 98.20(a) and (b)(4)).

In addition, this proposed rulemaking removes the restriction on the number of days during which the eligibility agency may suspend the child’s subsidy. This proposed rulemaking permits the eligibility agency to suspend subsidy for as long as needed. The eligibility agency can end the child’s eligibility before the expiration of the child’s 12-month eligibility period if the parent indicates there is no longer a need for care as permitted by the CCDBG regulation (45 CFR 98.21(a)(5)).

Despite the requirement to provide a minimum 12-month eligibility period following the initial determi-

nation of eligibility, the CCDBG does not require the parent or caretaker to continue receiving services nor does it force the child to remain with a provider if the parent or caretaker no longer chooses to receive such services. By allowing the eligibility agency to suspend care for a period up to the family's redetermination due date, the Department will not be obligated to pay for care that is not being used. Suspending care and not paying the provider permits the Department to use funds to provide subsidized child care to children on the waiting list.

This proposed rulemaking expands the total number of paid absences in a State fiscal year from 25 days to 40 days. After the child has been absent for 40 days, the child remains eligible, but the parent or caretaker is responsible to pay to the child care provider the provider's verified published daily rate for each day of absence starting with the 41st day of absence. The eligibility agency resets the number of absences accrued for each child to coincide with the beginning of the State fiscal year. This supports the intent of the CCDBG regulation to delink payment for child care from a child's occasional absences. See 45 CFR 98.45(1)(2)(iv) (relating to equal access). This proposed rulemaking allows the Department to address concerns from families receiving subsidy around absences for children with verified, significant illnesses, injuries and impairments.

This proposed rulemaking aligns payment practices for subsidized child care with those for other early care and education programs such as Pennsylvania PreK Counts, and provides child care providers greater financial stability. This proposed rulemaking aligns the number of paid absence days more closely with the number of paid absence days provided by other states and territories in the region; those range from 44 per year in Virginia to 240 in the District of Columbia. This proposed rulemaking follows the CCDBG that requires the eligibility agency to make multiple attempts to contact families and providers to determine a continued need for child care when the child has excessive unexplained absences (45 CFR 98.21(a)(5)). The eligibility agency may adjust the child's schedule based on the parent's or caretaker's request.

§§ 3042.31—3042.37 *Eligibility requirements*

This proposed rulemaking ensures that a family shall remain eligible for subsidized child care following the initial determination of eligibility as long as the family's annual income does not exceed 85% of the SMI as required by the CCDBG regulation (45 CFR 98.20(a)(2)). In addition, this proposed rulemaking ensures the family's income shall not exceed 235% of the Federal Poverty Income Guidelines (FPIG) or 85% of the SMI at the time of the redetermination (45 CFR 98.21(b)).

This proposed rulemaking permits a single parent or caretaker who experiences the onset of a disability following application to maintain eligibility for the remainder of the 12-month eligibility period as required by the CCDBG regulation (45 CFR 98.14(a)(1)). During the remainder of the minimum 12-month eligibility period, the CCDBG permits the eligibility agency to excuse the parent or caretaker from the work, education and training requirements until the family's 12-month eligibility period expires and the eligibility agency completes the family's annual redetermination (45 CFR 98.21(a)(1)).

§§ 3042.51—3042.57 *Eligibility determination*

As required by the CCDBG statute and regulation under section 658E(c)(2)(N)(i)(I) and 45 CFR 98.20(a)(2)),

this proposed rulemaking requires a parent or caretaker to notify the eligibility agency when the family's annual income exceeds 85% of the SMI.

§§ 3042.61—3042.74 *Self-certification and verification*

The eligibility agency will collect only the verification that is necessary to make an eligibility determination. To comply with the CCDBG regulation (45 CFR 98.20(a)(2)), a parent or caretaker will be required to submit verification during the family's 12-month eligibility period only when the family's annual income exceeds 85% of the SMI. Therefore, this proposed rulemaking reduces verification requirements for families and prevents unnecessary subsidy eligibility loss.

§§ 3042.81—3042.88 *Eligibility agency responsibilities*

As required by the CCDBG regulation (45 CFR 98.21(e)(4)), this proposed rulemaking allows the eligibility agency to act on any change reported by a parent or caretaker that benefits the family. A parent or caretaker has the option of reporting information on an ongoing basis, particularly information that would be beneficial to assistance, such as an increase in work hours that necessitates additional child care hours or a loss of earnings that could result in a reduction of the family co-payment. A parent's or caretaker's ability to report changes in circumstances will not be restricted, particularly in cases where a parent or caretaker may have entered into more stressful or vulnerable situations, or would be eligible for additional child care assistance.

Although the eligibility agency must act on reported changes between 12-month eligibility redeterminations if it would increase the family's benefit, the eligibility agency may not act on reported changes that would reduce the family's benefit, with the following exceptions:

- The family's income exceeds 85% of the SMI.
- The family moves out-of-State.
- The parent voluntarily requests discontinuance of service.
- The parent commits substantiated fraud or intentional program violations.
- The child has excessive, unexplained absences. The agency must make multiple attempts to contact the family and provider prior to terminating services.

These provisions comply with the Federal HHS recommendation to eliminate or reduce policies that result in unnecessary disruptions to receipt of a subsidy and make it difficult for parents and caretakers to maintain their eligibility. See Final Rule on CCDF Program Final Rule at 81 FR 67438, 67445 (September 30, 2016).

§§ 3042.101 and 3042.102 *Eligibility redetermination*

This proposed rulemaking requires the eligibility agency to complete a redetermination of eligibility no sooner than every 12 months as required by the CCDBG regulation (45 CFR 98.21(a)). At redetermination, families must meet all eligibility requirements with the exception of the circumstances under which the eligibility agency permits a period of presumptive eligibility. Income limits may not exceed 235% of the FPIG or 85% of the SMI.

As required by the CCDBG regulation (45 CFR 98.21(b)(1)), the Department must allow a phase-out period when income increases above initial eligibility limits. The Commonwealth provides this phase-out period by allowing families to enter the program at 200% or less of the FPIG and remain eligible up to 235% of the FPIG,

which allows parents and caretakers to accept raises or higher paying positions without immediately losing child care benefits.

§§ 3042.111—3042.122 *Former TANF families*

As required by the CCDBG regulation (45 CFR 98.14(a)(1)), this proposed rulemaking allows continuity of care for a former TANF family during the required 12-month eligibility period so long as the family's annual income does not exceed 85% of the SMI. Former TANF families have up to 183 calendar days following the date TANF benefits end to contact the eligibility agency for assistance with their child care costs. This proposed rulemaking will eliminate the need for the eligibility agency to complete an eligibility redetermination on the 184th day following the date TANF benefits ended. In addition, this proposed rulemaking ensures a former TANF family is not eligible if a parent or caretaker is disqualified from receiving TANF benefits as specified in §§ 255.1(c) and 275.51 (relating to restitution and disqualification policy; and imposing the disqualification).

The CCDBG regulation (45 CFR 98.21(a)(5)(A)(iii)) allows for the discontinuance of child care when there is substantiated fraud or an intentional program violation by a parent or caretaker that invalidates prior determinations of eligibility. It is important to ensure the Department uses CCDF funds effectively and efficiently targets the use of CCDF funds towards eligible low-income families.

§§ 3042.141—3042.147 *Waivers and periods of presumptive eligibility*

This proposed rulemaking complies with the CCDBG regulation (45 CFR 98.14(a)(1) and 98.41(a)(1)(i)(C)) by allowing a period of presumptive eligibility for a parent or caretaker experiencing homelessness. In addition, this proposed rulemaking allows a parent or caretaker who is experiencing homelessness to request a waiver of certain eligibility and verification requirements. This proposed rulemaking permits additional time to acquire documents that demonstrate eligibility, which allows a child experiencing homelessness to receive subsidy while allowing the child's parent or caretaker reasonable time to comply with immunization and other health and safety requirements.

The Department appreciates the extra assistance and support that may be necessary to help families experiencing homelessness to stabilize their living situations. This proposed rulemaking allows a parent or caretaker experiencing homelessness to substitute job search activities to meet work requirements for up to 92 calendar days from the date of application or redetermination. This proposed rulemaking also allows the eligibility agency to grant a period of presumptive eligibility at application or redetermination for a parent or caretaker who is experiencing homelessness.

The eligibility agency will ensure the parent or caretaker meets all eligibility requirements upon expiration of the period of presumptive eligibility. Upon expiration of the period of presumptive eligibility, the eligibility agency will complete a full redetermination to establish the 12-month eligibility period and reset the redetermination due date.

Additional Changes Proposed by the Department

This proposed rulemaking reduces reporting requirements, as permitted by the CCDBG, and allows additional options for a parent or caretaker when submitting acceptable eligibility verification. This proposed rulemaking will make it easier to coordinate child care

services with other programs serving low-income children, such as Head Start and Early Head Start. This coordination of care complies with the Federal HHS recommendation to promote stability of child care programs and allow for greater alignment between child care services, Head Start and Early Head Start for families in poverty that rely on child care subsidy to participate in work, education or training. See Child Care and Development Fund (CCDF) Program Final Rule at 81 FR 67438, 67450 (September 30, 2016).

Following is a summary of the major proposed revisions in addition to the Federal requirements. Some of the revisions are based on the intent of the CCDBG, while the remainder of the revisions clarify and support the subsidized child care program.

§§ 3042.1—3042.4 *General provisions*

This proposed rulemaking expands the definition of "caretaker who does not need legal custody of the child" and includes the child's great-grandparent and sibling who is 18 years of age or older. These individuals may be considered having care and control of the child without having a court order awarding them legal custody of the child. The current regulation limits individuals who can have care and control of the child without a court order to grandparents, aunts and uncles. Including these additional individuals aligns with the CCDBG definition of "relatives." This proposed rulemaking permits close family members to care for children without incurring additional expenses, such as legal and court fees.

This proposed rulemaking expands the definition of "education" to include charter schools, cyber schools and any other program approved by the school district or the Department of Education. The current regulation allows only for elementary school, middle school, junior high or a high school program including a general educational development program.

This proposed rulemaking defines "Head Start" and "Early Head Start." "Early Head Start" means a program that serves families with at-risk children from birth to 3 years of age. "Head Start" means a program designed to prepare at-risk children, 3 years of age or older but under 5 years of age, for school success. These definitions are critical to identifying the children who may qualify for subsidy under a special eligibility program.

This proposed rulemaking defines "owner or operator of a child care facility" as the legal entity or individual that owns the facility, or the legal entity or a person designated by the legal entity to serve as the facility director.

This proposed rulemaking allows a 92-day period of presumptive eligibility at redetermination for a family with a parent or caretaker who is on leave approved by the Department and who has verified work, education or training that will begin within 92 calendar days of the redetermination date. For example, a parent or caretaker who is on maternity leave or temporary disability leave at the time the family's redetermination is due will need to verify that the parent's or caretaker's work, education or training meets the work-hour requirement within 92 calendar days from the family's redetermination date.

This proposed rulemaking redefines self-employment as operating one's own business, trade or profession for profit. While earning a profit is required, this change removes the mandate that a parent or caretaker make a profit greater than or equal to the hourly State minimum wage. This ensures that a self-employed parent or caretaker shall meet the same income limits as a parent or caretaker who is not self-employed. At the time of initial

application and redetermination of eligibility, a family that includes a self-employed parent or caretaker is ineligible if the family's annual income exceeds 200% of the FPIG or 85% of the SMI, whichever is lesser. In between redetermination periods, a family that includes a self-employed parent or caretaker is ineligible if the family's annual income exceeds 85% of the SMI.

This proposed rulemaking defines "tiered-reimbursement" as an amount the Department sets and adds to a provider's payment rate if the provider meets additional quality standards.

§§ 3042.11—3042.21 *General benefits*

This proposed rulemaking expands the hours of uninterrupted sleep time during which a parent or caretaker is eligible for subsidized child care. This change will permit payment of subsidy when the parent or caretaker requires sleep time following the end of an overnight work shift and does not place limitations on the time the work shift must end. This change supports the needs of the child whose parent or caretaker works at night and must sleep after the work shift ends to be a productive caregiver and worker on the following day.

The Federal HHS encourages states to increase the quality of child care providers and set rates that consider the additional costs of higher-quality child care. See Child Care and Development Fund (CCDF) Program Final Rule at 81 FR 67438, 67440 (September 30, 2016). This proposed rulemaking permits the Department to direct and prioritize funding to child care providers that meet additional quality standards. The amount of the tiered-reimbursement is based on the level of quality the provider maintains and the amount of time the child receives care from the provider in a day. The Department provides tiered-reimbursement based on the availability of funding; therefore, the amount and availability of tiered-reimbursement is subject to change. Tiered-reimbursement, based on the Keystone STARS rating, recognizes providers that are Keystone STARS-certified and promotes continuous quality improvements in early care and education environments. This funding change includes paying tiered-reimbursement based on a child care provider's quality rating or, as recommended by the CCDBG, entering into contracted slots based on the child care provider's quality rating. See 42 U.S.C.A. § 9858e(b) and 45 CFR 98.53.

This proposed rulemaking restricts retroactive payment for child care to 30 calendar days, with the exception of former TANF families as specified in § 3042.119 (relating to retroactive payment for former TANF families). Former TANF families have up to 183 calendar days following the date TANF benefits end to contact the eligibility agency for assistance with their child care costs. This restriction allows the Department to better utilize funds for low-income families that have not received TANF benefits and are ready to enroll their children.

The CCDBG statute and regulation under section 658E(c)(2)(A)—(M) and 45 CFR 98.30 and 98.53, mandate quality child care settings. In the general comments section of the Federal implementing regulation, the ACF indicated that it can no longer "in good conscience" use Federal taxpayer dollars to support sub-standard child care for our nation's most vulnerable and disadvantaged children. See 81 FR 67438, 67446 (September 30, 2016). In response to this comment, this proposed rulemaking prohibits new enrollments of children receiving subsidy when the Department determines the provider is not meeting health and safety requirements, and revokes or

refuses to renew the provider's certificate of compliance. Private-pay parents and caretakers may decide to continue paying such providers; however, the Department intends to limit public funding to providers that are currently certified by the Department, but do not meet basic health and safety requirements. To provide continued stability and support already established staff and child relationships, the Department will continue to pay for children who are currently enrolled at the time of the sanction.

This proposed rulemaking provides low-income families the same rights as other families by permitting the parent or caretaker the opportunity to decide if a child is ready to start kindergarten. This allows a parent or caretaker to hold a child back from attending kindergarten for 1 year and continue to receive full subsidy payments. The current regulation requires a parent or caretaker who is receiving subsidy to enroll the child in kindergarten, if available, if the child will be 5 years of age before September 1 of the upcoming school year.

This proposed rulemaking permits families to postpone enrollment for more than 30 calendar days if the child does not immediately need care when funding becomes available. Historically, there have been a variety of circumstances in which a child may not immediately need care when funding becomes available and the current regulation resulted in ineligibility. Families experiencing these types of circumstances would be forced to reapply for services and the child would be subject once again to the waiting list. For example, if funding becomes available during the school year for a school-aged child who needs care only during the summer months, the parent or caretaker may postpone the enrollment and that child may remain eligible while in suspended status until the child needs care.

This proposed rulemaking allows a child to remain eligible for subsidy when the child is absent for more than 5 consecutive days; however, this proposed rulemaking also prohibits payment until the child returns to care following the absences. The eligibility agency will suspend payment when a child is absent for more than 5 consecutive days. This change will allow a child who is frequently absent due to illness or other reasons to maintain eligibility. Under the current regulation, the child would become ineligible after 5 consecutive absences, the parent or caretaker would be required to reapply for services and the child would be subject once again to the waiting list.

This proposed rulemaking expands the total number of paid absences in a State fiscal year from 25 days to 40 days. After the child has been absent for 40 days, the child remains eligible but the parent or caretaker is responsible to pay to the child care provider the provider's verified published daily rate for each day of absence starting with the 41st day of absence. The eligibility agency resets the number of absences accrued for each child to coincide with the beginning of the State fiscal year. This supports the intent of the CCDBG regulation to delink payment for child care from a child's occasional absences. See 45 CFR 98.45(l)(2)(iv). This proposed rulemaking allows the Department to address concerns from families receiving subsidy around absences for children with verified, significant illnesses, injuries and impairments. This proposed rulemaking follows the CCDBG that the eligibility agency shall make multiple attempts to contact families and providers to determine a continued need for child care when the child has excessive

unexplained absences. The eligibility agency may adjust the child's schedule based on the parent's or caretaker's request.

§§ 3042.51—3042.57 *Eligibility determination*

This proposed rulemaking permits the eligibility agency to substitute a telephone contact for a face-to-face meeting if the eligibility agency cannot schedule a face-to-face meeting without the parent or caretaker experiencing a hardship. The current regulation only provides this provision for former TANF families. In addition, this proposed rulemaking permits the eligibility agency to waive the face-to-face meeting if the parent or caretaker has completed a face-to-face meeting within the past 12 months.

§§ 3042.61—3042.74 *Self-certification and verification*

This proposed rulemaking allows additional opportunities for a parent or caretaker to self-certify information that is not likely to change within the 12-month eligibility period, such as the inclusion of an adult child in the family composition, and the days and hours for which the child needs care. The current regulation restricts the ability to self-certify the days and hours for which the child needs care to those parents or caretakers that have previously received TANF benefits.

This proposed rulemaking allows for additional options for a parent or caretaker when submitting acceptable eligibility verification. The CCDBG regulation (45 CFR 98.21(e)(2)) provides that the eligibility agency only asks for information that has changed and not require a parent or caretaker to resubmit verification if it has been collected in the past (for example, children's birth certificates, parents' identification and the like) or is available from other electronic data sources (for example, verified data from other benefit programs).

This proposed rulemaking expands verification of income from self-employment to allow a parent or caretaker to complete the Department's self-employment verification form indicating gross earnings minus allowable costs of doing business, which shows a profit. In addition, this proposed rulemaking requires verification of foster child status from the local children and youth agency or other government or social service agency.

§§ 3042.91—3042.99 *Co-payment and payment by the Department*

This proposed rulemaking removes the requirement for a parent or caretaker to pay an equivalent advance co-payment to the child care provider when the eligibility agency enrolls a child in care. The current regulation establishes a barrier to a parent or caretaker who is attempting to become more self-sufficient. The requirement is also difficult for the eligibility agency to enforce. Payment of an advanced co-payment is an issue between the parent or caretaker and the child care provider, and should not affect a family's eligibility for subsidy.

§§ 3042.111—3042.122 *Former TANF families*

This proposed rulemaking deletes the requirement for a parent or caretaker who previously received TANF benefits to pay an equivalent advance co-payment to the child care provider when the eligibility agency enrolls a child in care. As discussed in the previous section, the current regulation also establishes the same barrier to a parent or caretaker who is transitioning off TANF benefits and attempting to become more self-sufficient. Children whose parents or caretakers have received TANF benefits and are transitioning off those benefits are some of this State's most at-risk children. Many former TANF parents or caretakers are transitioning off TANF benefits

because the parents or caretakers found employment and the family's income exceeds TANF income limits. These families are already facing an adjustment to paying a co-payment toward their child care costs. To establish an additional barrier of requiring these families to pay an equivalent advance co-payment is unnecessary.

Requirements Maintained from the Current Regulation

This proposed rulemaking maintains the language and requirements of the current regulation with regard to the following sections:

(1) Sections 3042.141—3042.147 apply to individuals experiencing domestic violence.

(2) Sections 3042.151—3042.159 apply to notification and right to appeal.

(3) Sections 3042.161—3042.166 apply to appeal and hearing procedures.

(4) Sections 3042.171—3042.179 apply to overpayment and disqualification.

Affected Individuals and Organizations

This proposed rulemaking affects children who receive subsidized child care, parents and caretakers who apply for or receive subsidy, child care providers and eligibility agencies. Children and their parents or caretakers are affected by the requirements in this proposed rulemaking that specify the eligibility conditions, reporting requirements and verification requirements that they must meet to access subsidized child care. The longer, stabilized 12-month eligibility periods may, however, increase the number of children on the waiting list.

This proposed rulemaking may decrease the workload of the eligibility agencies, allowing more time for eligibility agencies to help families find child care and provide information about a parent's or caretaker's options regarding quality child care. Eligibility agencies will also be able to refer families to services that encompass the total family's needs, such as providing referrals to Medical Assistance, the Children's Health Insurance Program, Women, Infants and Children Program, and Early Intervention Services.

This proposed rulemaking affects child care providers because there are changes to the eligibility conditions for families currently provided services or that may be provided services in the future. In addition, children will remain eligible for a full 12-month eligibility period, so child care providers may experience stability in the monthly child care payment received from the Department for subsidized child care services. Providers that receive CCDF funds may also experience more predictable and reliable payments for services.

Accomplishments and Benefits

This proposed rulemaking benefits children and low-income families by allowing easier access to affordable, high-quality child care. This proposed rulemaking allows more families to be eligible for subsidized child care benefits for longer periods, and complies with the CCDBG, which requires a minimum 12-month eligibility period. This change will allow a family to remain eligible for an entire year before having to provide verification to establish continued eligibility, thus allowing for continuity and stability of care.

This proposed rulemaking further benefits children by providing stabilized, high-quality, learning environments that result in better outcomes for children, increase school readiness and provide steady, nurturing relationships for children for significant periods. This proposed rulemaking will provide support to a low-income parent

or caretaker who is working or looking for work by reducing unnecessary verifications.

This proposed rulemaking benefits child care providers by allowing stable, predictable income from the subsidized child care program. For every dollar the Commonwealth invests in early care and education, more than \$2 circulates throughout local economies through employment and purchasing of goods and services. Likewise, for every ten jobs created in the State's early care and education sector, three jobs are created outside that sector.

Fiscal Impact

The Department does not anticipate this proposed rulemaking will result in additional cost to the Commonwealth, local governments, the parents and caretakers receiving subsidized child care, the child care providers or the eligibility agencies.

Paperwork Requirements

This proposed rulemaking will result in reduced paperwork and recordkeeping for a parent or caretaker and the eligibility agency. A parent or caretaker will only be required to complete an eligibility redetermination every 12 months, instead of every 6 months. This proposed rulemaking also reduces reporting requirements for a parent or caretaker during the family's 12-month eligibility period; therefore, the need for a parent or caretaker to provide verification to the eligibility agency may also decrease.

Reduced reporting and paperwork requirements will remove unnecessary tracking of a parent's or caretaker's status by the eligibility agency. The reduction in paperwork and tracking may allow more funding for direct services and will provide stability and continuity in the program. Policies that result in unnecessary disruptions to receipt of a subsidy, or other administrative processes that make it difficult for parents to maintain their eligibility and thus fully benefit from the support it offers, undermine family economic stability.

Effective Date

This proposed rulemaking is effective 30 calendar days after final-form publication in the *Pennsylvania Bulletin*.

DEPARTMENT OF BANKING AND SECURITIES

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of December 2020

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of December 2020, is 3 3/4%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate

limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 1.23 to which was added 2.50 percentage points for a total of 3.73 that by law is rounded off to the nearest quarter at 3 3/4%.

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting

requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. In accordance with 25 Pa. Code § 92a.32(d), the proposed discharge of stormwater associated with construction activities will be managed in accordance with the requirements of 25 Pa. Code Chapter 102. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30-days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15-days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be

subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a

proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed Plan Approvals/Operating Permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

(10705 State Route 44, Watsontown, PA 17777) for the modification of the facility's bakery waste rotary dryer to reestablish emission limitations for nitrogen oxides, carbon monoxide and particulate matter, as well as for the installation of a cartridge collector and a regenerative thermal oxidizer, at their facility to be located in Lewis Township, **Northumberland County**. The Department of Environmental Protection's (Department) review of the information submitted by Renewal Processing, Inc. indicates that the air contamination source to be modified and control devices to be installed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed modification and installation. The emissions from the proposed source included in this project will not exceed the following limits: 22.50 tons of nitrogen oxides per year, 12.00 tons of carbon monoxide per year, 3.63 tons of volatile organic compounds per year, 2.50 tons of sulfur oxides per year, 7.25 tons of particulate matter (including PM₁₀) per year and 0.40 ton of hazardous air pollutants per year. In addition to the emission limitation, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: The rotary dryer shall not be operated more than 5,000 hours per year and the regenerative thermal oxidizer shall be maintained at a minimum operating temperature of 1,600°F at all times bakery waste materials are being processed. The facility is a State Only facility. If the Department determines that the source is modified and control devices are installed, and all operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 49-00063B, the requirements established in the plan approval will be incorporated into a State Only Operating Permit pursuant to 25 Pa. Code § 127.421. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570.327.3636.

10-00021: In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection (DEP) has made a preliminary determination to approve an alternative Reasonably Available Control Technology (RACT II) plan and seeks an approval of an amendment to the State Implementation Plan (SIP) for **INDSPEC Chemical Corporation**, 133 Main Street, Petrolia, PA 16050, Petrolia Borough, **Butler County**. And in accordance with 25 Pa. Code § 127.521, the Department of Environmental Protection intends to modify the facility operating permit. The facility's representative to contact concerning this application is Ned Palmer, Site Manager. His phone number is 724-756-9849. The facility was a major source of NO_x and VOC emissions. The facility's air emission sources previously included boilers, process heaters, kilns, dryers, reactors, tanks, emergency generators, control devices, and other ancillary equipment. On July 31, 2017 production ceased for all organic resin products at the facility, with all intermediate production and utility operations ending by September 22, 2017. Most of the sources were permanently shut down as of September 11, 2017. The facility is now considered a minor source of all air pollutants.

The modification includes the ERCs approved for the shutdown sources, the over control of Source 235, and removes two engines no longer in use (180 emergency generators and 180D air compressor). In addition, the facility requested removal of Source 169—Sodium Sulfate Product Loading at the Copeland; Source 238—Tank Number T-3069; Source 270—V-8 X-Factor; and, Source 280—V-9 X-Factor. These sources are no longer required, have been emptied, cleaned and rendered unusable.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997, 2008 and 2015 National Ambient Air Quality Standard (NAAQS) for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit (10-00021) for the facility. MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program man-

ager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

Northwest Region: Air Quality, 230 Chestnut Street, Meadville, PA 16335-3481, 814-332-6945.

10-00021: In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection (DEP) has made a preliminary determination to approve an alternative Reasonably Available Control Technology (RACT II) plan and seeks an approval of an amendment to the State Implementation Plan (SIP) for **INDSPEC Chemical Corporation**, in Petrolia Borough, **Butler County** and in accordance with 25 Pa. Code § 127.521, the Department of Environmental Protection intends to modify the facility operating permit. The facility is located at 133 Main Street, Petrolia, PA 16050. The facility's representative to contact concerning this application is Ned Palmer, Site Manager. His phone number is 724-756-9849. The facility was a major source of NO_x and VOC emissions. The facility's air emission sources previously included boilers, process heaters, kilns, dryers, reactors, tanks, emergency generators, control devices, and other ancillary equipment. On July 31, 2017 production ceased for all organic resin products at the facility, with all intermediate production and utility operations ending by September 22, 2017. Most of the sources were permanently shut down as of September 11, 2017. The facility is now considered a minor source of all air pollutants.

The modification includes the ERCs approved for the shutdown sources, the over control of Source 235, and removes two engines no longer in use (180 emergency generators and 180D air compressor). In addition, the facility requested removal of Source 169—Sodium Sulfate Product Loading at the Copeland; Source 238—Tank Number T-3069; Source 270—V-8 X-Factor; and, Source 280—V-9 X-Factor. These sources are no longer required, have been emptied, cleaned and rendered unusable.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997, 2008 and 2015 National Ambient Air Quality Standard (NAAQS) for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit (10-00021) for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal; this includes the provisions of the Department's presumptive RACT II requirements in ac-

cordance with 25 Pa. Code § 129.97, as they apply to existing sources at this facility.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

Source	RACT II Requirement
Source 106—# 1 Spry Dryer	Good Combustion Practices/Minimize Excess Air to control NO _x emissions with no change in the NO _x emission limit
Source 131—# 3 Spry Dyer	Good Combustion Practices/Minimize Excess Air to control NO _x emissions with no change in the NO _x emission limit.
Source 100—Copeland	Continue to use existing scrubbers C100A and C100B to control VOC emissions with no change in the VOC emission limit.
Source 135—Extraction Process	Continue to use existing condenser C135 to control VOC emissions with no change in the VOC emission limit.
Source 150—Reactor 507	Continue to use existing condenser C150 to control VOC emissions with no change in the VOC emission limit.
Source 164—Distillation Area	Continue to use existing condensers C164A, C164C, and C164D to control VOC emissions with no change in the VOC emission limit.
Source 165B—Components Subject to 25 PA Code 129.71—LDAR	Continue to use the existing LDAR program with no change in the VOC emission limit.
Source 179—Krystal #3	Continue to use existing condenser C179 to control VOC emissions with no change in the VOC emission limit.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Cancellation of Certificates of Public Convenience for Motor Carriers; Failure to Pay Assessment

Public Meeting held
September 17, 2020

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; David W. Sweet, Vice Chairperson; John F. Coleman, Jr.; Ralph V. Yanora

*Cancellation of Certificates of Public Convenience for
Motor Carriers; Failure to Pay Assessment;
M-2020-3021634*

Tentative Order

By the Commission:

The Public Utility Code requires that by March 31 each year, every public utility must file a report detailing its gross intrastate operating revenue for the preceding calendar year. 66 Pa.C.S. § 510(b). This report is essential for the Commission to fund its operations and to properly allocate assessment costs among the regulated utility community. Id.

For each fiscal year, the Commission determines the total assessment for regulatory expenses, which is allocated to, and paid by, public utilities pursuant to the methodology set forth in the Public Utility Code. 66 Pa.C.S. §§ 510(a), (b). The Commission provides notice of the amount lawfully assessed against a utility and requires the utility to pay that amount within thirty (30) days of receipt of the notice. 66 Pa.C.S. § 510(c). The Public Utility Code authorizes the Commission to revoke a utility's Certificate of Public Convenience (CPC) for failure to pay the assessment within the time prescribed. Id.

The Commission undertook a review of its records to determine whether various motor carriers have complied with the assessment payment requirements of the Public Utility Code. The Commission's review revealed that a number of carriers failed to pay their 2019-2020 assessments. Specifically, each carrier listed in Appendix A, attached hereto, has an outstanding assessment balance.

The Fiscal Office of the Commission's Bureau of Administration sent a letter to each carrier listed in Appendix A, notifying them of their outstanding assessment balance and requesting that they pay the past due balance within twenty (20) days of receipt of the letter. The letter warned that failure to comply would result in the Commission taking appropriate action to cancel the carrier's CPC.

None of the carriers in Appendix A submitted payment in response to the Commission's Bureau of Administration letter.

Additionally, Commission staff made two attempts to contact each carrier listed in Appendix A at the telephone number the carrier provided to the Commission but were unable to make contact.

Given these carriers' failure to respond to the aforementioned notices, the Commission tentatively concludes that the motor carriers listed in Appendix A are not in compliance with the assessment payment requirements of 66 Pa.C.S. § 510(c), and may no longer continue to operate in Pennsylvania as a motor carrier public utility. As a result, it is appropriate and in the public interest to initiate the process to cancel their CPCs;

Therefore,

It Is Ordered That:

1. Cancellation of the Certificates of Public Convenience of each motor carrier listed in Appendix A is hereby tentatively approved as being in the public interest.

2. The Secretary shall serve a copy of this Tentative Order upon the Commission's Bureau of Investigation and Enforcement, Bureau of Technical Utility Services, Bureau of Administration, the Pennsylvania Department of Revenue's Bureau of Corporation Taxes, the Pennsylvania Department of Transportation, and all motor carriers listed in Appendix A. The Tentative Order shall be filed at each carrier's assigned docket number.

3. The Law Bureau shall publish a copy of this Tentative Order in the *Pennsylvania Bulletin*.

4. To the extent that any of the motor carriers listed on Appendix A challenges cancellation of their Certificates of Public Convenience, they must file comments within thirty (30) days after publication of this Tentative Order in the *Pennsylvania Bulletin*. Comments shall be sent to the Pennsylvania Public Utility Commission, Attn: Secretary Rosemary Chiavetta, Commonwealth Keystone Building, 400 North Street, 2nd Floor, Harrisburg, PA 17120.

5. Alternatively, carriers listed in Appendix A may pay their outstanding assessment balance up to and within thirty (30) days after publication in the *Pennsylvania Bulletin*. Payment shall be sent to the Pennsylvania Public Utility Commission, Attn: Fiscal Office, P.O. Box 3265, Harrisburg, PA 17105. Checks shall be made payable to "Commonwealth of Pennsylvania."

6. Absent the timely filing of comments challenging the cancellation of the Certificate of Public Convenience or the timely payment of a carrier's outstanding assessment balance, the Law Bureau shall prepare a Secretarial Letter, for issuance by the Secretary's Bureau, canceling the Certificate of Public Convenience of each motor carrier that fails to respond.

7. Upon issuance of the Secretarial Letter described in Ordering Paragraph No. 6 above, the Certificate of Public Convenience of each non-compliant carrier shall be cancelled, and each non-compliant carrier listed in Appendix A will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Fiscal Office of the Bureau of Administration.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security, Insufficient Financial Security Amount or Language

Public Meeting held
October 29, 2020

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; David W. Sweet, Vice Chairperson; John F. Coleman, Jr.; Ralph V. Yanora

*Electric Generation Supplier License Cancellations of
Companies with an Expired Financial Security,
Insufficient Financial Security Amount or Language;
M-2020-3015227*

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA, 17120, prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferable in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

While we recognize that the COVID-19 pandemic has provided some challenges related to the continuance of normal business operations, it is imperative that the Commission have an approved financial security in place with each EGS to ensure compliance with 52 Pa. Code § 54.40(d). On March 25, 2020, Commission staff issued an EGS Financial Security Filing Guidance Memo (Guidance Memo) that stated the following:

- Where practical, EGSs should file an original bond, letter of credit, continuation certificate, amendment, or other financial instrument. These original financial instruments should display "wet" signatures or digital signatures, preferably in blue ink, and display a "raised seal" or original notary stamp.

- EGSs should email a copy of the original financial instrument directly to Secretary Chiavetta at rchlavetta@pa.gov. Secretary Chiavetta has waived the restriction on emailed filings that contain confidential and proprietary material. As such, financial security instruments will be permitted to be filed by email for the duration of the Commission's work from home order.

- If an EGS is unable to acquire a "raised seal" or original notary stamp on the financial security during the pendency of the COVID-19 emergency, the Secretary's Bureau will not reject the financial security.

- If an EGS has been granted a reduction in its financial security, and it is time to renew the annual reduction, please file an original annual compliance filing with the Secretary's Bureau and a copy via email at rchlavetta@pa.gov.

Please note that the requirement that EGSs maintain a valid financial security on file with the Commission, remains in effect.

Be advised that emailed financial security instruments—after review and acceptance of the Secretary's Bureau and the Bureau of Technical Utility Services—will be provisionally approved by the Commission until Commission staff resume working in the Keystone Building. EGSs must still mail the original bond with original signatures and notary stamp as per the Commission's normal practice.

On July 27, 2020, the Commission issued a Secretarial Letter which modified certain filing and service requirements.¹ Specifically, this Secretarial Letter amended the Emergency Order issued on March 20, 2020, at Docket No. M-2020-3019262 regarding the filing of certain confidential documents. At the time the Emergency Order was issued, the Commission did not have access to its physical location. However, since that time the Commission has secured limited access to its place of business. Under these circumstances and consistent with the authority provided to the Secretary by the Emergency Order, the Secretarial Letter requires that confidential filings made pursuant to 52 Pa. Code § 54.40(a) (EGS financial securities), must be filed with the Secretary by overnight delivery and are not to be filed electronically with the Secretary.

As of October 20, 2020, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount or language directed by the Commission, to replace a bond which is expired or which is non-compliant with Commission regulations.

*Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 90-day Security Renewal Notice email to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security in the amount or language directed by the Commission, must be filed within 30 days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for the EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier License of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and publish a copy of this Tentative Order in the *Pennsylvania Bulletin* with a 30-day comment period.

3. The Secretary serve a copy of this Tentative Order upon the Pennsylvania Department of Revenue—Bureau of Compliance, Business License Clearance Division.

4. Absent the filing of adverse public comment or the filing of an approved security within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary.

5. Upon entry of the Final Order described in Ordering Paragraph No. 4 above, each company listed in the Supplier Table will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribu-

tion companies in which the Electric Generation Suppliers are licensed to do business.

6. Upon entry of the Final Order described in Ordering Paragraph No. 4, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.

Secretary
