READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pacodeandbulletin.gov.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CH. 689]

Dreamcatcher; Table Game Rules of Play; Temporary Regulations

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1) and (2) and 13A03 (relating to regulatory authority; and temporary table game regulations), adopts the temporary regulations in Chapter 689 (relating to Dreamcatcher—Temporary Regulations) to read as set forth in Annex A. The Board's temporary regulations will be added to Part VII (relating to Gaming Control Board) as part of Subpart K (relating to table games).

Purpose of this Temporary Rulemaking

This temporary rulemaking will add a new table game to the compliment of games available for play in this Commonwealth.

Explanation

Chapter 689 contains the rules governing the play of Dreamcatcher, a wheel-based game where players place a wager on what number the wheel will stop on upon completion of the spin by the dealer. The provisions in this chapter address the physical characteristics of the wheel and the layout of the game, the procedures for the spin and any bonus rounds triggered, and the payout tables for the wagers.

In Dreamcatcher, the optimal theoretical return-to-player percentage is 96.58%.

Fiscal Impact

Commonwealth. The Board does not expect that this temporary rulemaking will have a fiscal impact on the Board or other Commonwealth agencies. Updates to Rules Submission forms and internal control procedures will be reviewed by existing Board staff.

Political subdivisions. This temporary rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. This temporary rulemaking will provide certificate holders with an additional table game option. If a certificate holder decides to offer Dreamcatcher within the licensed facility, the certificate holder will be required to train their dealers on the rules of play and purchase new equipment—specifically table layouts corresponding to the game and wagers offered. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

General public. This temporary rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

If a certificate holder seeks to offer Dreamcatcher, the certificate holder will be required to submit a Rules Submission form reflecting the choices in how the game will be offered. These forms are available on the Board's public web site and submitted to Board staff electronically.

Effective Date

This temporary rulemaking will become effective upon publication in the *Pennsylvania Bulletin* and will expire 2 years from the date of publication.

Public Comments

While this temporary rulemaking will be effective upon publication, the Board is seeking comments from the public and affected parties as to how this temporary regulation might be improved. Interested persons are invited to submit written comments, suggestions or objections regarding this temporary rulemaking within 30 days after the date of publication in the *Pennsylvania Bulletin* to Chad W. Zimmermann, Assistant Chief Counsel, Pennsylvania Gaming Control Board, P.O. Box 69060, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation # 125-236.

Contact Person

The contact person for questions about this temporary rulemaking is Chad W. Zimmermann, Assistant Chief Counsel, at (717) 346-8300.

Regulatory Review

Under 4 Pa.C.S. § 13A03, the Board is authorized to adopt temporary regulations which are not subject to the provisions of sections 201—205 of the act of July 31, 1968 (P.L. 769, No. 240), known as the Commonwealth Documents Law (CDL), the Regulatory Review Act (71 P.S. §§ 745.1—745.12) and sections 204(b) and 301(10) of the Commonwealth Attorneys Act (71 P.S. §§ 732-204(b) and 732-301(10)). These temporary regulations expire 2 years after publication in the *Pennsylvania Bulletin*.

Findings

The Board finds that:

(1) Under 4 Pa.C.S. § 13A03, the temporary regulations are exempt from the requirements of the Regulatory Review Act, sections 201—205 of the CDL and sections 204(b) and 301(10) of the Commonwealth Attorney Act.

(2) The adoption of the temporary regulations is necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

(1) The regulations of the Board, 58 Pa. Code Chapter 689, are amended by adding §§ 689.1—689.3 to read as set forth in Annex A.

(2) The temporary regulations are effective November 28, 2020.

(3) The temporary regulations will be posted on the Board's web site and published in the *Pennsylvania Bulletin*.

(4) The temporary regulations shall be subject to amendment as deemed necessary by the Board.

(5) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

Chairperson

PROPOSED RULEMAKING

GAME COMMISSION

[58 PA. CODE CH. 137]

Wildlife; Chronic Wasting Disease

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its September 26, 2020, meeting to amend §§ 137.34 and 137.35 (relating to Chronic Wasting Disease and emergency authority of Director; and Chronic Wasting Disease restrictions) to expand the authority of the Executive Director to issue executive orders to address additional diseases and species beyond only Chronic Wasting Disease (CWD) and cervids. The Commission is proposing to amend § 137.35 to enhance its CWD response capabilities within this Commonwealth by defining the term “Established Area,” restricting the movement of high-risk parts outside from Established Areas and further expanding the ban on importation of high-risk parts to all areas outside this Commonwealth.

This proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

This proposed rulemaking was made public at the September 26, 2020, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until January 18, 2021.

1. *Purpose and Authority*

The Commission is proposing two changes to address wildlife disease within this Commonwealth. With the first change, the Commission is proposing to amend §§ 137.34 and 137.35 to expand the authority of the Executive Director to issue executive orders to address additional diseases and species of wildlife beyond only CWD and cervids. Section 137.34 currently addresses only the emergency authority of the Game Commission’s Executive Director as it pertains to CWD and cervids. This section does not address any other diseases or the impacts of these diseases on other species of wildlife. The Commission has determined that a more comprehensive regulation capable of application to any number of wildlife diseases would provide the Executive Director with the necessary authority and flexibility to respond to additional wildlife diseases other than CWD that threaten human, domestic and wild animal, or environmental health and safety within this Commonwealth. The need for expanding existing regulatory language was recently recognized as a result of the ongoing rabbit hemorrhagic disease outbreak in the southwestern United States.

The changes to § 137.34 primarily consist of replacing the terms “CWD” with the term “wildlife disease” and “cervid” with “wildlife” to give the section an expanded application to additional diseases and additional species of wildlife, but also includes a number of other house-keeping changes, including the addition of a provision limiting the Commission’s ability to take action under this section involving wildlife species concurrently regulated with the Federal government (such as migratory

birds) without the concurrence of the Federal government. The related amendments to § 137.35 in this first change are limited to an update to the reference to the new title of § 137.34.

In a related, but distinct second change, the Commission is also proposing to amend § 137.35 to enhance its CWD response capabilities within the Commonwealth by adding and defining the term “Established Area,” restricting the movement of high-risk parts outside from Established Areas and further expanding the ban on importation of high-risk parts to all areas outside this Commonwealth. Established Areas will be defined as any geographic area of this Commonwealth that is within a Disease Management Area and has a higher concentration of disease prevalence that is targeted by the Commission for enhanced CWD management activities. Implementation of these new Established Area controls are intended to reduce CWD transmission risk factors. This change also replaces the prohibition of importation of high-risk cervid parts from only CWD endemic states and Canadian provinces with a general prohibition against the importation of high-risk parts from cervids harvested, taken or killed anywhere outside of this Commonwealth. These changes reflect the strategies described in the CWD Response Plan recently adopted by the Commission.

Section 2102(a) of the code (relating to regulations) provides that “The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” The amendments to §§ 137.34 and 137.35 are proposed under this authority.

2. *Regulatory Requirements*

This proposed rulemaking will amend §§ 137.34 and 137.35 to expand the authority of the Executive Director to issue executive orders to address additional diseases and species of wildlife beyond only CWD and cervids. This proposed rulemaking will also amend § 137.35 to define the term “Established Area,” restricting the movement of high-risk parts outside from Established Areas and further expand the ban on importation of high-risk parts to all areas outside this Commonwealth.

3. *Persons Affected*

Persons wishing to import high-risk wildlife parts into the Commonwealth or export high-risk wildlife parts of any area designated as a Disease Management Area or Established Area will be affected by this proposed rulemaking.

4. *Cost and Paperwork Requirements*

This proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding this proposed rulemaking, contact Jason L. DeCoskey, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

(b) It is unlawful for a person to violate a provision of an Executive Order issued by the Director under the authority of this section. A person violating this section will, upon conviction, be sentenced to pay the fine prescribed in the act.

§ 137.35. Chronic Wasting Disease restrictions.

(a) *Importation.*

(1) It is unlawful to import any high-risk parts or materials from cervids harvested, taken or killed [**within any CWD-endemic state or Canadian province**] outside of this Commonwealth.

(2) This subsection may not be construed to limit the importation of non-high-risk parts or materials from cervids harvested, taken or killed [**within any CWD-endemic state or Canadian province**] outside of this Commonwealth.

(b) *Exportation.*

(1) It is unlawful to remove or export any high-risk parts or materials from cervids harvested, taken or killed, including by vehicular accident, within any Disease Management or Established Area established within this Commonwealth.

(2) This subsection may not be construed to limit the removal or exportation of non-high-risk parts or materials from cervids harvested, taken or killed within any Disease Management or Established Area established within this Commonwealth.

(3) This subsection may not be construed to limit the removal or exportation of high-risk parts or materials from cervids harvested, taken or killed in any Disease Management or Established Area established within this Commonwealth if the parts or materials are transported directly to any location or facility designated and approved in advance by the Commission to receive high-risk cervid parts for waste disposal, taxidermy or butchering purposes. Locations or facilities designated and approved to receive high-risk cervid parts for waste disposal, taxidermy or butchering purposes will be made known through public announcement, web site and other means reasonably intended to reach the widest audience.

(4) All cervids harvested, taken or killed within any Disease Management or Established Area established within this Commonwealth are subject to disease testing. This testing may require hunters to present cervids, or cervid parts, for checking and sampling at prescribed locations under conditions in a forthcoming notice. The submission process, if any, will be made known through public announcement, web site and other means reasonably intended to reach the widest audience. The cost of testing, sampling and analysis will be borne by the Commission.

This prohibition may not be construed to apply to normal or accepted agricultural, habitat management, oil and gas drilling, mining, forest management, or other legitimate commercial or industrial practices. If otherwise lawful feeding is attracting cervids, the Commission may provide written notice prohibiting this activity. Failure to discontinue this activity is a violation of this section.

(8) The Commission will not issue any new permit to possess or transport live cervids within any Disease Management or Established Area established within this Commonwealth.

(c) *Nonapplicability.*

(2) Nothing in this section shall be construed to limit the Commission's authority to establish or enforce additional importation, exportation, possession, transportation, or testing requirements or restrictions on cervid parts or materials under the authority of § 137.34 (relating to [**Chronic Wasting Disease**] wildlife disease and emergency authority of Director).

(d) *Authority to designate.* The Executive Director has the authority to designate and publish [**a list of current CWD-endemic states and Canadian provinces and**] Disease Management and Established Areas established within this Commonwealth. Code Chapter 203. Act 165 was signed into law on October 24, 2012, and took effect immediately. On September 5, 2015 the Commission published a policy to provide guidance and allow the consideration of applications for reinstatement of certification of police officers and instructors.

The Commission's cheating policy, codified in 37 Pa. Code § 203.54, also applies to uncertified cadets participating in basic police officer training at certified municipal police academies. Cheating in the academy is grounds for expulsion from the academy and any cadet who is expelled for cheating is, based on the cheating policy, "barred from further participation in any Commission-required training and ineligible for certification." While the Commission's policy regarding consideration of applications for reinstatement of certification provided guidance for police officers and instructors seeking reinstatement, no such guidance was provided for uncertified cadets who find themselves permanently barred from training for a violation of the cheating policy.

This policy provides general criteria that the Commission may consider for the reinstatement of eligibility for training and certification of uncertified cadets who were expelled by an academy for cheating. This policy is not binding on the Commission, and the Commission may consider any and all relevant factors and circumstances with regard to a cadet's application for consideration for reinstatement of eligibility. A vote by the Commission to approve an individual's application for consideration for reinstatement of eligibility is not a waiver of any of the training or conditions for certification nor a Commission vote to certify an individual under 37 Pa. Code Chapter 203.

Definitions

For the purpose of this policy, unless otherwise defined herein, all terms shall be defined as stated in 37 Pa. Code § 203.1 Definitions.

School Director—The Commission-approved head of a certified municipal police school authorized by the Commission to conduct basic municipal police training.

Expelled Cadets

After one year from the date of expulsion for cheating in the basic police training school, the cadet may seek consideration for reinstatement of eligibility. The application for consideration for reinstatement of eligibility shall be submitted by a school director who intends to enroll the cadet in a basic police training class. The application will include the following:

1. A copy of the grade sheet documenting the previous expulsion.
2. A written conditional offer of enrollment from a training school (as defined by § 2162 of the Act).
3. A Pennsylvania criminal history check completed within the 60 days prior to submission of the application.
4. A Federal Bureau of Investigation criminal history check completed within the 60 days prior to submission of the application. (Refer to the following hyperlink for additional information about this criminal history check: <http://www.fbi.gov/aboutus/cjis/background-checks>).

Applicants may, and are encouraged to, submit the following as well:

1. Notarized affidavits testifying to the applicant's character and fitness for employment as a municipal police officer.
2. A personal statement from the applicant addressing the reason(s) for the applicant's revocation and reason(s) for which the applicant should be reinstated.

Application for consideration for reinstatement of certification shall be sent via certified mail to the Executive Director at 8002 Bretz Drive, Harrisburg, PA 17112-9748 who, within five (5) business days of receipt, shall present a copy of the application and all related materials, including records maintained by Commission staff, to the members of the Professional Standards Committee (hereafter "the Committee"). The Committee shall convene at a quarterly Committee meeting or such other time and place as they may designate and, with a quorum being present, review the application, and make a recommendation to the full Commission. The Committee may evaluate the applicant's suitability for reinstatement using the following criteria:

- The severity of the violation which caused the expulsion and any negative impact on the public trust, school, or political subdivision
- Notarized character statements submitted with the application by individuals not in the applicant's immediate family or household
- Previous disciplinary actions taken by the training school
- Previous suspensions or revocations by the Commission
- The applicant's acceptance or denial of responsibility for the violation which caused the revocation
- Any criminal convictions, accelerated rehabilitative dispositions (ARD), or arrests on, prior to, or after the date of expulsion
- Community or volunteer service conducted during the period of expulsion
- Endorsements by the school director or instructors
- Official statements made during the inquiry into the violation which caused the expulsion
- Statements made in letters or other correspondence sent to the Commission during the time of expulsion

A recommendation shall be made no later than the second full Commission meeting following the submission of the application. The Commission shall consider the recommendation of the Committee. The Commission may

request any information, review any document or require clarification from the Committee prior to any vote. These criteria shall not be deemed as exhaustive and the Commission may consider any other relevant factors and circumstances that may speak to the applicant's suitability to serve as a municipal police officer.

Upon hearing the recommendation of the Committee and considering all relevant factors, the Commission will generally approve or deny the individual's application for consideration for reinstatement of eligibility. This approval shall require an affirmative majority vote of a seated quorum.

Any approval of an individual's application for consideration of reinstatement of eligibility shall not be considered a waiver of any of the requirements for training or certification as stated in 37 Pa. Code Chapter 203, Subchapter B. The applicant must meet all physical, psychological, and criminal history requirements of that

subchapter and shall be required to complete the application process and all training then required by the Act with no credit granted for any training completed prior to the expulsion.

It is the policy of the Commission not to entertain repetitive applications for reinstatement. Upon the Commission's rejection of an application for consideration for reinstatement of eligibility, the applicant shall not be permitted to apply for reinstatement for one year from the date of the Commission's vote to reject. Individuals may only apply for reinstatement three times.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to

publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice

and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PA DOT propose to regrade approximately 150 L.F. of currently maintained stormwater ditch and install 56 L.F. of 18-inch Reinforced Concrete Pipe on each side of Hill Rd at the intersection with SR 4008. The pipes will convey stormwater to an existing pond on the other side of SR 4008. In addition, a 50 L.F. French Mattress will be installed within the limits of the stormwater ditch regrading. The French Mattress will allow any additional ponded water within the ditch to drain across the SR 4008 roadway. The outfalls and French mattress cannot be authorized under a general permit, due to the special protection receiving waterway. A detour will be utilized to convey traffic during construction. The project will not impact any jurisdictional wetlands. The stormwater ditch conveys to a pond which is an Unnamed Tributary to Elk Creek and is classified as an Exceptional Value Waterway by Title 25, Chapter 93 Water Quality Standards.

EROSION AND SEDIMENT CONTROL

The following parties have applied for an Erosion and Sediment Control Permit (ESCP) for an earth disturbance activity associated with either a road maintenance or timber harvesting operation.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices (BMPs) which restrict the rate and quantity of sediment discharged.

Persons wishing to comment on the proposed permit are invited to submit a statement to the appropriate Department Regional Office listed above the application within 30-days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address, and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department Regional Office during the 30-day public comment period.

Following the 30-day comment period, the appropriate Regional Office Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in

the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity are on file and may be inspected at the office identified in this notice.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified Regional Office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: The request for planning exception for the Dock Street LPSS Proposal (DEP Code No. A3-50920-81-3E; APS ID No. 1026474) has been disapproved. The proposed development—located on Dock Street in Oliver Township, PA—consists of sewage planning to connect three existing residential building lots currently utilizing on-lot disposal systems to the Oliver Township Municipal Authority and Newport Borough Municipal Authority public sewer system. This request for planning exemption has been disapproved because the submission does not qualify as an exemption from the requirement to revise the Official Plan because the proposal is not for new land development as per Chapter 71, Section 71.51(b). In addition, the project proposes the connection to or an extension of public sewers where the existing collection, conveyance or treatment facilities have an existing or a 5-year projected hydraulic or organic overload under Chapter 94 and as per Chapter 71, Section 71.51(b)(2)(ii).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

RESIDUAL WASTE GENERAL PERMITS

Permit(s) Modified Under the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003); the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P.S. §§ 4000.101—4000.1904); and Residual Waste Regulations for a General Permit to Operate Residual Waste Processing Facilities and the Beneficial Use of Residual Waste other than Coal Ash.

Central Office: Division of Municipal and Residual Waste, Rachel Carson State Office Building, 14th Floor, 400 Market Street, Harrisburg, PA 17105-8472.

General Permit No. WMGR038. Edge Rubber Recycling, LLC (Edge Rubber), 811 Progress Rd, Chambersburg, PA 17201; **Franklin County.** Edge Rubber submitted an application to modify their existing coverage under WMGR038, which was determined to be administratively complete on March 31, 2020. WMGR038 authorizes the processing, reuse and beneficial use of waste tires, which include whole tires, tire chips, baled tires, tire shreds, and crumb rubber. The permitted processing activities are limited to collection, sorting, storage, recapping, cleaning, shredding, chipping, grinding, crumbing, cutting and baling of waste tires. The permitted beneficial uses of whole waste tires, tire chips, baled tires, tire shreds, and crumb rubber are limited to use in recapping, as fuel in boilers or other combustion units, in civil engineering practices, and as an ingredient in a commercial product or as a commercial product.

Edge Rubber's application coincided with a need to modify the WMGR038 base permit to add a de-wasting provision for the management of processed rubber material once certain specifications and conditions of the general permit are met. The de-wasting provision follows the procedures in 25 Pa. Code § 287.7 (relating to determination that a material is no longer a waste), which required Edge Rubber to demonstrate that the waste material does not harm or present a threat of harm to public health, safety, welfare or the environment. The de-wasting provision allows the rubber material to be managed as a product while being temporarily stored onsite. The product will be contained within specialized packaging conducive to transportation to end user sites for beneficial use. A component of the de-wasting provision requires that all de-wasted material be already sold to, or under contract with, an end user and stored in the aforementioned specialized packaging. The Department

modified WMGR038 to authorize the de-wasting provision and issued coverage to Edge Rubber on October 19, 2020.

Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) approved the addition of five stream sections to its list of Class A Wild Trout Streams as set forth at 50 Pa.B. 2611 (May 16, 2020). Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. FISH AND BOAT COMMISSION

Classification of Wild Trout Streams; Additions

The Fish and Boat Commission (Commission) approved the addition of 73 new waters to its list of wild trout streams as set forth at 50 Pa.B. 2607 (May 16, 2020). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout streams, and it is available on the Commission's web site at <http://www.fishandboat.com/Fish/PennsylvaniaFishes/Trout/Pages/TroutWaterClassifications.aspx>.
