Order of Quarantine and Treatment: Spotted Lanternfly

Recitals

A. This order rescinds and replaces all previous orders and addendums thereto.

B. Spotted lanternfly, *Lycorma delicatula*, is a new pest to the United States and has been detected in the Commonwealth. This is a dangerous insect to forests, ornamental trees, orchards and grapes and is not native to the Commonwealth or the United States. It is not yet widely prevalent or distributed within or throughout the Commonwealth, but it has been found in numerous counties since its first appearance in the Commonwealth.

C. The plant pest *Lycorma delicatula* (Spotted lanternfly) has been determined by the Department to be dangerous and destructive to the agriculture, horticulture and forests of this Commonwealth and is hereby declared a "public nuisance."

D. The Plant Pest Act (Act) (act of December 16, 1992, P.L. 1228, No. 162) (3 P.S. §§ 258.1—258.27) empowers The Department of Agriculture (Department) to take various measures to detect, contain and eradicate plant pests. These powers include the authority to establish quarantines to prevent the spread of plant pests within this Commonwealth, to make surveys to determine the existence, distribution and damage caused by the plant pest, to collect samples and to prescribe treatment for control of the plant pest (act of December 16, 1992, P.L. 1228, No. 162, §§ 18, 19 and 21) (3 P.S. §§ 258.18, 258.19 and 258.21).

E. Under the authority of section 258.20 of the Act (related to pests declared public nuisance) (act of December 16, 1992, P.L. 1228, No. 162, § 20) (3 P.S. § 258.20) the Department may declare a plant pest to be a public nuisance when the Department determines a plant pest to be dangerous or destructive to the agriculture, horticulture or forests of this Commonwealth. For the reasons set forth in Paragraphs B and C above, the Department declared and continues to declare *Lycorma delicatula* (Spotted lanternfly) to be a public nuisance.

F. Once a plant pest is declared a nuisance, "It shall be unlawful for any person knowingly to permit any plant pest so declared to exist on his premises or to sell, offer for sale, give away or move any plants, plant products or other material capable of harboring the pest." (act of December 16, 1992, P.L. 1228, No. 162, § 20) (3 P.S. § 258.20).

G. When a pest or pests that have the potential to cause serious damage to agriculture are found in any geographic area, the area and any adjacent areas as the Department deems necessary shall be quarantined. (act of December 16, 1992, P.L. 1228, No. 162, § 20) (3 P.S. § 258.21(a)).

H. The areas or zone of the Commonwealth in which the plant pest, *Lycorma delicatula* (Spotted lanternfly), has been detected or confirmed and adjacent areas that are quarantined are set forth in paragraph 1 (related to Establishment of Quarantine) of this Order of Quarantine. Any new place or area of the Commonwealth in which the plant pest, *Lycorma delicatula* (Spotted

lanternfly), is later detected or confirmed and adjacent areas shall be added to this Order of Quarantine through an addendum delineating the areas or zone to be added to this Order of Quarantine. Such addendum shall be published in the *Pennsylvania Bulletin* and enforcement of this Order of Quarantine with regard to that area or zone shall become effective immediately upon such publication in the *Pennsylvania Bulletin*.

**DEPARTMENT OF
BANKING AND SECURITIES**

**Maximum Lawful Rate of Interest for Residential
Mortgages for the Month of April 2021**

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of April 2021, is 4 1/4%.

The interest rate limitations under the Commonwealth’s usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government

securities is 1.72 to which was added 2.50 percentage points for a total of 4.22 that by law is rounded off to the nearest quarter at 4 1/4%.

**Availability of Draft 2020 Consolidated Plan Annual
Performance and Evaluation Report**

The Department of Community and Economic Development (Department) is preparing its 2020 Consolidated Annual Performance and Evaluation Report (CAPER) on the progress and accomplishments made during the 2020 program year in implementing the Commonwealth’s Consolidated Plan for Federal Fiscal Years 2019—2023. This document must be submitted to, and approved by, the United States Department of Housing and Urban Development (HUD) for the Commonwealth and organizations within this Commonwealth to receive funding under most HUD housing and community development programs. The Consolidated Plan creates a unified strategy for housing, homelessness and community development programs, as well as the necessary linkages for building successful neighborhoods and communities.

The Commonwealth has allocated funds under several programs, namely Community Development Block Grant, HOME Investment Partnerships Program, Emergency Solutions Grant Program, Housing Opportunities for People with AIDS Program, Housing Trust Fund. Additionally, this CAPER will detail accomplishments from supplemental funding from HUD appropriations under the Neighborhood Stabilization Program, Community Development Block Grant—Disaster Recovery Program, Community Development Block Grant—Coronavirus Aid Relief and Economic Security (CARES) Act and the Emergency Solutions Grant—CARES Act. The CAPER discusses accomplishments in relation to goals and objectives identified in the 2020 Action Plan of the Consolidated Plan.

The CAPER assesses the goals and objectives of this strategic plan, discusses how the Commonwealth is affirmatively furthering fair and affordable housing, reviews the activities of the Continuums of Care, and appraises how well resources in community development, homelessness and housing are being leveraged.

Individuals or organizations may provide written comments regarding this draft version of the CAPER. This report will be available on March 14, 2021, at <https://dced.pa.gov/> or by calling (717) 720-7404. Written comments

will be accepted about the CAPER content, and the process by which public input is gathered. The Commonwealth encourages public participation in this process.

Written comments will be accepted until 4 p.m. on March 29, 2021, and should be sent to Megan L. Snyder, Department of Community and Economic Development, Center for Community and Housing Development, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225 or e-mailed to RA-DCEDcdbghomequestions@pa.gov. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public

hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

The facility is subject to 40 CFR Part 60, Subpart I—Standards of Performance for Hot Mix Asphalt Facilities. PM emissions (after control) are not expected to exceed 2.8 tons per year. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed modification. If, after the project has been implemented, the Department determines that the source has been modified in compliance with the plan approval conditions and the specifications in the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code §§ 127.441, 127.425, and 127.521, the Department is providing notice that they intend to issue a renewed Title V Operating Permit for the continued operation of a waste coal-fired electrical power plant, known as the Ebensburg Cogeneration Plant, located in Cambria Township, **Cambria County**.

The Ebensburg Cogeneration Plant produces electrical power for the PJM grid. The main source at Ebensburg is one (1) circulating fluidized bed (CFB) waste coal-fired boiler (Source ID 031), with a maximum fuel heat input of 705 MMBtu/hour, which powers a single electrical generator. Net electrical output from the system is 55-MW. The waste coal was abandoned in the past and reprocessed. Emissions from the CFB boiler are controlled by limestone fed into the fluidized bed to control sulfur dioxide (SO₂) emissions, low combustion temperatures to control NO_x emissions, coarse particulate cyclone separa-

tion with reinjection into the bed, followed by fabric filters to control PM emissions and further control SO₂ emissions. Supporting equipment at this site includes one (1), 61.2 MMBtu, auxiliary NG-fired boiler, two (2), 600-bhp and 1,592-bhp, emergency diesel generator engines, one (1), 244-bhp, emergency diesel firepump engine, coal and limestone processing, handling and conveying equipment, an ash handling system, and plant roads.

Annual facility-wide potential emissions are 3,090 tons of SO₂, 777 tons of CO, 580 tons of NO_x, 107 tons of PM₁₀, 75 tons of PM_{2.5}, and 32 tons of VOC. The plant also has annual emissions of 87 tons of hydrogen chloride, 3 tons of methylene chloride, and 3 tons of benzidine. The annual sum of all HAP emissions is 102 tons. Annual emission of greenhouse gases is 643,218 tons per year. Sources at the Ebensburg Cogeneration Plant are subject to 40 CFR Part 60, Subpart A—General Provisions, 40 CFR Part 60, Subpart Da—Standards of Performance for Electric Utility Steam Generating Units, 40 CFR Part 60, Subpart Y—Standards of Performance for Coal Preparation and Processing Plants, 40 CFR Part 63, Subpart A—General Provisions, 40 CFR Part 63, Subpart ZZZZ—National Emission Standards for Hazardous Pollutants for Stationary Reciprocating Internal Combustion Engines, 40 CFR Part 63, Subpart DDDDD—National Emission Standards for Hazardous Pollutants for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters, Subpart UUUUU—National Emission Standards for Hazardous Pollutants for Coal- and Oil-fired Electric Steam Utility Steam Generating Units, and 25 Pa. Code Chapters 121—145. Air Resources. No equipment changes are being approved by this action. The permit includes emission limitations and operational, monitoring, testing, recordkeeping, work practice, and reporting requirements for the plant.

The application, DEP's Review Memorandum, and the proposed permit are available for public review during normal business hours at DEP's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. A file review can be scheduled through the DEP's website at: <https://www.dep.pa.gov/Citizens/PublicRecords/Pages/Informal-File-Review.aspx> or by contacting Tom Joseph, Facilities Permitting Chief, directly at 412.442.4336.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the State-Only Operat-

ing Permit may submit the information to Tom Joseph, Facilities Permit Chief, Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Operating Permit (65-00856) and concise statements regarding the relevancy of the information or objections to issuance of the Operating Permit.

All comments must be received prior to the close of business 30 days after the date of this publication. A public hearing may be held in accordance with 25 Pa. Code § 127.429, if the Department, in its discretion, decides that such a hearing is warranted based on the information received. If a public hearing is held, all persons who have properly filed a protest under 25 Pa. Code § 127.426 may appear and give testimony. The Department is not required to hold a conference or hearing. The applicant, the protestant, and other participants will be notified of the decision to hold a hearing (and the time, place and purpose of such hearing) by publication in the newspaper or by the *Pennsylvania Bulletin*, or by telephone, where the Department determines such notification by telephone is sufficient. Written comments or requests for a public hearing should be directed to Tom Joseph, Facilities Permit Chief, at the previously listed address.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

| Parameter | 30-Day Average | Daily Maximum | Instantaneous Maximum |
|----------------------------------|-------------------|---------------------------------|--------------------------|
| Iron (Total) | 3.0 mg/l | 6.0 mg/l | 7.0 mg/l |
| Manganese (Total) | 2.0 mg/l | 4.0 mg/l | 5.0 mg/l |
| Suspended solids | 35 mg/l | 70 mg/l | 90 mg/l |
| pH* | | greater than 6.0; less than 9.0 | |
| Alkalinity greater than acidity* | | | |

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a de-

scription of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. PUBLIC NOTICE OF APPLICATION AND DRAFT STATE WATER QUALITY CERTIFICATION FOR A FERC REGULATED PIPELINE PROJECT

Proposed State Water Quality Certification Required by the Commonwealth of Pennsylvania, Department of Environmental Protection Pursuant to Section 401 of the Clean Water Act for the East 300 Upgrade Project-Compressor Station 321.

Regional Permit Coordination Office: 400 Market Street, Harrisburg, PA 17101, Email: RA-EPREGIONALPERMIT@pa.gov.

The proposed project is located at 124 Tennessee Gas Road (Latitude: 41.7119°; Longitude: -75.5996°).

On June 30, 2020, Applicant filed an application with the Federal Energy Regulatory Commission (FERC) under Section 7 of the Natural Gas Act (15 U.S.C.A. § 717f) seeking a certificate of public convenience and necessity to construct and operate its Project (FERC Docket No. CP20-493-000). The FERC Environmental Assessment for the Project, which was issued on February 2, 2021, may be viewed on FERC’s website at www.ferc.gov (search eLibrary; Docket Search; CP20-493-000).

September 30, 2020, Applicant requested a state water quality certification (SWQC) from the Pennsylvania Department of Environmental Protection (PADEP), as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania consistent with the requirements of State law and the Clean Water Act.

Project activities in Pennsylvania consist of the modification to existing Compressor Station 321 in Susquehanna County. An existing building will be expanded to accommodate a new compressor unit and auxiliary facilities. The proposed modifications require installation of underground piping and modifications to the existing stormwater management system. The Project will require approximately 27 acres of earth disturbance and impacts to approximately 0.047 acre of an isolated PEM wetland.

PADEP, by this notice, is proposing to issue a SWQC to Tennessee Gas Pipeline Company, LLC for the East 300 Upgrade Project. PADEP is proposing to certify that construction, operation and maintenance of the East 300 Upgrade Project complies with the applicable provisions of sections 301–303, 306 and 307 of the Federal Clean Water Act (33 U.S.C.A. §§ 1311–1313, 1316 and 1317). The PADEP is proposing to further certify that the construction, operation and maintenance of the East 300 Upgrade Project complies with Pennsylvania water quality standards and will maintain and protect applicable Commonwealth water quality standards provided that the construction, operation and maintenance of the project complies with the following PADEP water quality permitting programs, criteria and conditions established pursuant to Pennsylvania law:

Code Chapter 102 (relating to erosion and sediment control), and all other applicable regulations. Applicant shall obtain and comply with an Erosion and Sediment Control Permit(s) for earth disturbance associated with the Project as provided in 25 Pa. Code § 102.5.

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a Water Obstruction and Encroachment Permit(s) for the construction, operation and maintenance of all stream and wetland crossings associated with the Project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601), 25 Pa. Code Chapter 105 (relating to dam safety and waterway management), 25 Pa. Code Chapter 106 (relating to floodplain management), and all other applicable regulations.

4. *Other Water Quality Requirements*—Applicant shall obtain any other permits, authorizations or approvals required to construct, operate, and maintain the Project from any interstate or international agency as required by an interstate compact or international agreement that has established water quality standards applicable to surface waters of this Commonwealth, including wetlands.

6. *Operation*—At all times, Applicant shall properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) installed to achieve compliance with the terms and conditions of this SWQC and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by Applicant.

7. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of PADEP or the delegated County Conservation District to determine compliance with this SWQC, including all permits, authorizations or approvals issued to ensure the project shall maintain and protect state water quality standards as required by this SWQC. Applicant shall provide a copy of this SWQC to an authorized representative conducting an inspection of the Project.

8. *Transfer of Projects*—If Applicant intends to transfer any legal or equitable interest in the Project or any portion(s) thereof, Applicant shall provide a copy of this SWQC and copies of any permits, authorizations or approvals obtained to comply with the SWQC upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the appropriate

PADEP Office of such intent. Notice to PADEP shall include a transfer agreement signed by the existing and new owners containing a specific date for transfer of responsibility, coverage, and liability under the SWQC and any permits, authorizations and approvals obtained to comply with the SWQC. The new owner shall submit to PADEP a new application form for the SWQC and any permits, authorizations and approvals required to comply with the SWQC signed by the new owner.

10. *Reservation of Rights*—PADEP may modify, suspend or revoke this SWQC if (i) PADEP becomes aware of new facts about the Project that warrant such action; or (ii) PADEP determines that Applicant has not complied with the terms and conditions of this SWQC. PADEP may require additional measures to achieve compliance with any applicable law or regulation.

11. *Other Laws*—Nothing in this SWQC shall be construed to preclude the institution of any legal action or to relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable law or regulation.

12. *Severability*—The provisions of this SWQC are severable and should any provision of this SWQC be declared invalid or unenforceable, the remainder of the SWQC shall not be affected thereby.

Revisions to the following sites are included in this Amendment: Quakertown Compressor Station, Skippack Meter Station, Cromby Blowdown, Mainline Valve 2, Chester Creek Blowdown, Transco Meter Station, and Marcus Hook Compressor Station. Site revisions are highlighted as follows:

Quakertown Compressor Station: Proposed impervious coverage increased from 0.326 AC to 0.390 AC (+0.064 AC) due to addition of several equipment buildings and concrete pads. The footprint of the PCSM BMP was revised due to conflict with proposed equipment buildings. The limit of disturbance (LOD) increased from 4.15 AC to 6.93 AC (+2.78 AC) due to additional and revised temporary workspaces adjacent to the Quakertown Compressor Station.

**TMDL
REQUEST FOR COMMENT**

Proposed Total Maximum Daily Loads (TMDLs) for the Plum Creek Subwatershed in Blair County.

Central Office: Bureau of Clean Water, P.O. Box 8774, Harrisburg, PA 17105-8774.

The Department of Environmental Protection will accept comments on the proposed "TMDLs" developed for the Plum Creek Subwatershed in Blair County under Section 303(d) of the Clean Water Act. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included stream segments impaired for aquatic life in the watershed. The impairments addressed by this document were caused by excessive siltation due to agriculture.

There currently are no State or Federal in-stream numerical water quality criteria for sediment. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. The proposed TMDL document sets allowable loading of sediment in the Plum Creek Subwatershed. The "TMDLs" included allocations for nonpoint sources, reserves for future point sources, as well as margin of safety factors. Nonpoint source load allocations were made for cropland, hay/pasture land, and streambank source sectors present in the watershed. Data used in establishing the TMDL were primarily generated using a water quality analysis model (Model My Watershed) made available through the Stroud Water Research Center.

The following table shows the estimated current sediment loadings within the watershed, the prescribed "TMDL" values, and % reductions needed under annual average conditions.

| <i>Summary of "TMDL"—Based Load Reductions (expressed as annual averages) in the Plum Creek Subwatershed</i> | | | | |
|--|------------------|-------------------------------|------------------------|--------------------|
| <i>Watershed</i> | <i>Pollutant</i> | <i>Existing Load (lbs/yr)</i> | <i>"TMDL" (lbs/yr)</i> | <i>% Reduction</i> |
| Plum Creek | Sediment | 4,376,856 | 1,397,496 | 68 |

The following table shows the estimated current sediment loading within the watershed, the prescribed "TMDL" values, and % reductions needed under 99th percentile daily loading conditions.

| <i>Summary of "TMDL"—Based Load Reductions (expressed as 99th percentile daily loading) in the Plum Creek Subwatershed</i> | | | | |

| <i>Watershed</i> | <i>Pollutant</i> | <i>Existing Load (lbs/d)</i> | <i>TMDL (lbs/d)</i> | <i>% Reduction</i> |
| Plum Creek | Sediment | 183,371 | 49,336 | 73 |

The proposed TMDL document can be viewed at <http://www.dep.state.pa.us/dep/deputate/watermgt/wqp/wqstandards/tmdl/PlumCreekSedimentTMDL.pdf>.

Otherwise, copies of the proposed TMDL document or supporting information may be requested by emailing Michael Morris at michamorri@pa.gov.

Written/typed comments will be accepted at the above email address. Comment submissions must be submitted within 30 days after publication of this notice in the March 13, 2021 issue of the *Pennsylvania Bulletin*. The Department will consider all written/typed comments submitted within the deadline prior to submitting the final TMDL to EPA for approval. To ensure timely receipt of comments given the office closure and work from home order, please do not mail hard copies of comments. Rather please submit them by email at michamorri@pa.gov. If comments cannot be emailed, please call Michael Morris at 717.772.5670 to request another method of comment submission.

Bond Schedule for the Calculation of Bond Amounts on Noncoal Mining Operations

The Department of Environmental Protection (Department) announces the bond schedule for noncoal mining operations. The authority for bonding noncoal mining operations is found under The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Noncoal Surface Mining Conservation and Reclamation Act (52 P.S. §§ 3301—3326) and the regulations promulgated thereunder at 25 Pa. Code Chapter 77, Subchapter D (relating to bond-

ing and insurance requirements). The rates listed in this schedule will be used in calculating the bonds for surface noncoal mining operations including surface mines and facilities and the surface facilities of underground mining operations. Other activities, including special revegetation plans, wetland mitigation or stream channel restoration, will be estimated on a case-by-case basis.

Under 25 Pa. Code § 77.202 (relating to determination of bond amount), the Department is providing notice of the bond schedule for bonding noncoal surface mine sites.

The bond schedule reflects the requirement that the amount of bond shall be the estimated cost to the Department if it had to complete the reclamation, restoration and abatement work under the Noncoal Surface Mining Conservation and Reclamation Act. The rates will become effective March 13, 2021, and will remain in effect until they are revised through a subsequent notice.

The bond rate schedules are available at www.dep.pa.gov/Business/Land/Mining/BureauofMiningPrograms/Bonding/Pages/default.aspx. For background information and supporting documentation regarding bonding rate schedules, contact the Bureau of Mining Programs, Division of Permitting and Compliance, P.O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103.

General Methodology

The basic approach to bonding large noncoal sites is to apply a flat per acre rate (to cover minor grading and revegetation) and supplement that with bond to account for spoil storage, backfilling, highwall blasting, demolition or other site-specific costs. For mine sites where consolidated material is mined below the water table, the reclamation bond calculation must account for reclamation slopes to a depth of 50 feet below the anticipated post-mining water level.

For sites that can be mined in lateral phases, the operator can choose to bond the permit area by phase. The operator must identify the portion of the permit area on which mining and reclamation activities will occur within the phase. The Department will calculate the bond liability based on the maximum portion of the permitted area that the permittee is authorized to disturb at any specific time. This area is described in the permittee's mining and reclamation plans and must include all the land affected by mining activities that is not planted, growing and stabilized.

Per Acre Rates Applicable to Disturbed (Not Reclaimed Area

\$3,500 per acre for mining area (This rate includes select grading and revegetation.)

\$1,830 per acre for support areas (This rate includes revegetation.)

Spoil Storage/Earthmoving

The rate of \$1.05 (cost per cubic yard) for grading applies to spoil stored or other additional earthmoving (for example, backfilling for contour mines, subsoil replacement where more than 12 inches of soil is needed to meet post-mining land use or topsoil placement).

Blasting to Achieve the Reclamation Slope

The following rates apply to highwalls where blasting is necessary to achieve the final slope. Blaster's estimates may be used instead of these rates.

Table 1

| <i>Highwall/Bench Height (feet)</i> | <i>Cost per Linear Foot of Highwall/Bench</i> |
|-------------------------------------|---|
| Up to 20 | \$10.00 |
| 21 up to 30 | \$20.00 |
| 31 up to 40 | \$40.00 |
| 41 up to 50 | \$55.00 |
| >50 | \$75.00 |

Mine Sealing

Mine sealing costs should be calculated using the Bond Rate Schedule in Table 2.

Table 2**Mine Sealing Bond Rate Schedule¹***Sealing Underground Mine Drift and Slope Openings*

| <i>Unit Operation</i> | <i>Unit Measure</i> | <i>Unit Costs (\$)</i> |
|-----------------------------|---------------------|------------------------|
| Concrete Work | Cubic Yard | 114.00 |
| Masonry Work | Square Foot | 16.50 |
| Fill Material and Earthwork | Cubic Yard | 19.00 |
| Security Fencing | Lineal Foot | 32.50 |
| Mobilization Cost | Job | 4% of Total Amount |

Sealing Underground Mine Shaft Openings

| <i>Unit Operation</i> | <i>Unit Measure</i> | <i>Unit Costs (\$)</i> |
|-----------------------------|---------------------|------------------------|
| Concrete Material | Cubic Yard | 110.00 |
| Aggregate Material | Cubic Yard | 32.50 |
| Fill Material and Earthwork | Cubic Yard | 8.50 |
| Security Fencing | Lineal Foot | 32.50 |
| Mobilization Cost | Job | 4% of Total Amount |

Sealing Boreholes at Underground Mines

| <i>Dimension</i> | <i>Minimum Cost Per Hole (\$)</i> | <i>Unit Cost (\$) Per Lineal Foot</i> |
|------------------------------|-----------------------------------|---------------------------------------|
| 12-Inch or Less Diameter | 1,850 | 6.50 |
| Larger Than 12-Inch Diameter | 2,450 | 9.00 |
| Mobilization Cost | Job | 4% of Total Amount |

¹ Mine sealing costs are minimum costs. Additional costs per mine seal will be assessed based on specific design criteria, such as the thickness of the seal and the volume of backfill material required, using appropriate material, equipment and labor costs from BAMR bid abstracts or from an industry-standard cost estimation publication, for example, *Means Estimating Handbook* or *Walker's Building Estimator's Reference Book*.

Other Items

A flat rate of \$3,800 will be used for each pond requiring reclamation. This rate includes dewatering, grading, topsoil replacement and revegetation.

Large equipment tires remaining at a site will be bonded at \$300 per tire.

Available cost information will be used in the event that a unit operation necessary to calculate a reclamation bond is not listed in the schedule. If enough data is not available, the rate will be set from a standard reference like *Means Building Construction Cost Data* or *Walker's Building Estimator's Reference Book*.

Structure demolition costs for structures that are not compatible with the post-mining land use will be calculated using these references. Structures that have reasonable post-mining uses do not require bonding.

Mobilization

Add 4% of the amount, up to \$40,000, for mobilization costs.

Large Noncoal—Unconsolidated material

Mining of unconsolidated material includes sites where the mining is above and below groundwater. The cost of reclamation for these two types of mining include selective grading to achieve the reclamation slopes and the safety bench around the water impoundment to meet the requirements of 25 Pa. Code § 77.594 (relating to final slopes).

The cost to grade the highwall to the approved reclamation slope above the groundwater table will be calculated based on the area of the highwall (determined by the length of highwall to be reclaimed multiplied by the horizontal width of the reclamation slope) to be reclaimed and the height of the highwall. The Department will use the following rates for bonding permits mining unconsolidated material:

- \$1,700 per acre for mining up to 35 feet
- \$2,400 per acre for 36 to 65 feet
- \$5,000 per acre over 65 feet

The cost to establish the safety bench on water impoundments will be calculated based on the area around the perimeter of the impoundment multiplied by the width of the safety bench. The Department will use \$1,700 per acre for bonding the safety bench.

The Department will use the Bond Rate Schedule for spoil, storage and earthmoving (cost per cubic yard) for sites that will use unmarketable material to achieve the reclamation contours on unconsolidated material mine sites.

*Small Noncoal Sites**Category 1: Small Noncoal Permits—affected area is 1 acre or less*

For all small noncoal permits with 1 acre or less affected at any time, the bond amount is \$1,500 (one acre affected) and an additional \$2,500 for mobilization/demobilization, for a total of \$4,000. These permits meet the 25 Pa. Code § 77.108(e)(4) (relating to permit for small noncoal operations) standard for concurrent reclamation with no more than 1 acre affected at any time.

Category 2: Small Noncoal Permits with greater than 1 acre affected—consolidated material

For small noncoal permits with greater than 1 acre affected at any time, the following rates* apply:

- \$1,830 per acre for support
- \$3,000 per acre for mining up to 35 feet total depth
- \$4,000 per acre for 36 to 65 feet total depth
- \$5,000 per acre over 65 feet total depth

An additional \$2,500 for mobilization/demobilization must be included.

* These rates assume the highwalls will be blasted for reclamation. Costs for backfilling may be applicable to some sites for which the “Spoil Storage/Earthmoving” rate for noncoal operations will apply.

Category 3: Small Noncoal Permits with greater than 1 acre affected—unconsolidated material

For sand and gravel pits and topsoil mines where the operator has received Department approval for mineral extraction over 1 acre, as specified in 25 Pa. Code § 77.108(e)(4), a flat rate of \$3,500 per acre should be used.

Category 1 and 2 rates apply to the General Permit for Bluestone (GP-105).

Acreage to be rounded up to the nearest whole acre for all calculations.

Effective Date: March 13, 2021

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Rates to be Used for Calculating Long-Term Operation and Maintenance Cost Bonds for Water Supply Replacement—Mining Operations

The Department of Environmental Protection (Department) announces the rates to be used to calculate bond amounts for water supply replacement operation and maintenance costs for anthracite and bituminous coal and industrial mineral mining operations. The authority for bonding mining operations is found under The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Surface Mining Conservation and Reclamation Act (52 P.S. §§ 1396.1—1396.19b), the Coal Refuse Disposal Control Act (52 P.S. §§ 30.51—30.66), The Bituminous Mine Subsidence and Land Conservation Act (52 P.S.

§§ 1406.1—1406.21), the Noncoal Surface Mining Conservation and Reclamation Act (52 P.S. §§ 3301—3326) and the regulations promulgated thereunder at 25 Pa. Code Chapters 77 and 86 (relating to noncoal mining; and surface and underground coal mining; general).

The rates are used in calculating the water supply operation and maintenance bond amounts for replacement water supplies affected by activities at mining operations including surface mines, coal refuse disposal sites, coal refuse reprocessing sites, coal processing facilities, underground coal mining operations and industrial mineral surface mines. The procedures for calculating water supply operation and maintenance bonds are described in Technical Guidance (DEP ID: 562-4000-102), “Increased Operation and Maintenance Costs of Replacement Water Supplies,” which is available online at <http://www.depgreenport.state.pa.us/elibrary/>.

The Department may review the adequacy of bonds on existing permits at any time. The Department will conduct these reviews before issuing permit renewals. The Department may conduct similar reviews at the midterm of a permit and before approving a permit revision.

Rates

The Department calculated the rate of inflation and rate of return using 5-year averages. For the rate of inflation, the Consumer Price Index (Northeast Urban) from the United States Department of Labor, Bureau of Labor Statistics, was averaged for the calendar years 2016—2020, resulting in a rate of 1.58%. For the rate of return, the interest rate for the 20-year Treasury bill as reported by the Federal Reserve was averaged for the calendar years 2016—2020 resulting in a rate of 2.33%.

For background information and supporting documentation regarding the rates, contact the Bureau of Mining Programs, Division of Permitting and Compliance, P.O. Box 8461, Harrisburg, PA 17105-8461, (717) 787-5103.

Effective Date

The rates in this notice will become effective April 1, 2021. They will remain in effect until new rates are published. It is anticipated new rates will be published in February 2022, to be effective April 1, 2022.

The Section 4(f) documents also serve as the Section 2002 Evaluation. The approved documents are available in the CE/EA Expert System at <http://www.dotdom2.state.pa.us/ceea/ceeamain.nsf>. The environmental, economic, social and other effects of the proposed projects have been considered. **State Board of Education Regulation
6-346 (IRRC # 3283)**

Certification of Professional Personnel

February 17, 2021

We submit for your consideration the following comments on the proposed rulemaking published in the December 19, 2020 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Education (Board) to respond to all comments received from us or any other source.

1. Section 49.1. Definitions.—Clarity and lack of ambiguity.

Culturally relevant and sustaining education (CR-SE)

The definition of “culturally relevant and sustaining education (CR-SE)” includes two terms that are vague. A commentator identifies “cultural awareness” as unclear and asks that it be “stated in an actionable, [observable], and measurable manner.” In addition, “trauma-informed approaches” is unclear. We ask the Board to define these identified terms to improve the clarity of this definition and the regulations.

Professional ethics

The definition of “professional ethics” references “applicable laws and regulations.” This term is vague. We recommend that the definition include the specific laws and regulations to improve clarity.

2. Section 49.14. Approval of institutions and alternative program providers.—Possible conflict with or duplication of statutes or existing regulations; Reasonableness of requirements, implementation procedures and timetables for compliance by the public and private sectors; Fiscal impact; Clarity and lack of ambiguity.

Paragraph (4)(i) requires the development of program goals and purposes that address cognitive competencies, among other topics. The term “cognitive competencies” is neither explained in the Preamble nor defined in the regulations. A commentator states that this term is “too vague and redundant with existing competencies to add value to current program frameworks.” We ask the Board to clarify the regulations by defining this term.

This term is also found in Section 49.16(c) (relating to approval of induction plans).

Paragraph (4)(v) requires demonstration of “recruitment and participation of students from historically underrepresented groups” and annual reporting of admission, retention and graduation rates. Commentators

suggest that the annual reporting requirements be limited to people of color, as “universities do not have good data on which students are first generation” and financial aid offices typically do not disclose the social economic status of students. We ask the Board to explain the reasonableness of these reporting requirements and implementation procedures for institutions and alternative program providers to report on economically disadvantaged and first-generation college-goers. Further, the Board should consider revising the reporting requirements to establish a standard that is achievable for the regulated community.

Under paragraph (4)(vii), institutions and alternative program providers “shall develop corrective action steps if identified as at-risk or low performing program providers as defined by the Department” of Education (Department). Where does the Department define these terms? We ask the Board to explain these standards and revise this paragraph to improve clarity by adding a citation or explanation.

As explained in the Preamble, paragraph (4)(viii) addresses the minimum number of hours of field experiences and requirements for supervising teachers “to grant more discretion over clinical experiences to the Secretary [of Education] in consultation with the Board.” While this approach provides flexibility to the Department and the Board, it circumvents the regulatory review process because it does not adequately revise Section 354.25 (relating to preparation program curriculum), which sets standards for the student teaching experience and cooperating teachers. Changes to Section 354.25 should be done through the regulatory review process. We suggest this provision be deleted and addressed in a separate proposed rulemaking.

Further, in response to Regulatory Analysis Form (RAF) Question # 19, the Board states that it anticipates the new competencies “will be implemented through the existing practice of updating the content of required coursework for relevancy and, as such, will not impose a new cost on educator preparation programs.” However, a commentator states that to “add education in professional ethics, structured literacy, and CR-SE—higher education instructors will need to be trained to teach relevant content. That training will come at an additional cost.” We ask the Board to address the fiscal impact on institutions and alternative program providers by providing an estimated cost in RAF Questions # 19 and 23.

3. Section 49.16. Approval of induction plans.—Need; Reasonableness.

Subsection (a) requires a school entity to provide a two-year induction experience for first-year teachers, long-term substitutes who are hired for a position for

45 days or more and educational specialists. What is the rationale for requiring long-term substitutes to participate in a two-year program? We ask the Board explain the reasonableness of and need for training long-term substitutes in the Preamble to the final-form regulation.

Further, commentators recommend adding structured literacy to topics covered by induction plans. We ask the Board to consider adding structured literacy for newly-employed educators as it prepares the final-form regulation.

4. Section 49.17. Continuing professional education.—Reasonableness.

Subsection (a)(6) lists the components of continuing professional development “including the provision of training in structured literacy for professional employees at the *elementary level*.” (Emphasis added.) Commentators express concern with requiring structured literacy only for those educators at the elementary level, many stating that structured literacy should be inclusive of all grades. We ask the Board to explain the rationale for requiring structured literacy only for elementary teachers. Similar to Comment # 3, we ask the Board to consider adding structured literacy for all educators as it prepares the final-form regulation.

Further, this paragraph does not include cognitive competencies. This training is required for preservice educators under Section 49.14(4)(i) (relating to approval of institutions and alternative program providers) and newly-employed teachers under Section 49.16(c). We ask the Board to explain why cognitive competencies are not included in continuing education development. If appropriate, the Board should consider adding training in this area in the final-form regulation.

5. Section 49.31. Criteria for eligibility.—Need; Statutory authority.

Under this section, the Department may issue an emergency, Long-Term or Day-to-Day Substitute Permit for service in an approved private school. The Preamble states that this is a statutory change. However, a citation is not provided. Further, this chapter establishes requirements for the certification and permitting of persons serving in public school entities. We ask the Board to explain the statutory authority for this amendment and why it is needed in this chapter.

6. Section 49.85. Limitations.—Clarity and lack of ambiguity.

Subsection (c) states the validity dates of instructional certificates issued under subsection (b) and details grade level limitations for instructional certificates issued beginning January 1, 2022. To improve the clarity of this regulation, we suggest the Board revise subsection (b) to include validity dates and subsection (c)(1) to list grade level limitations.

7. Section 49.111. Supervisory Certificate.—Reasonableness; Statutory authority.

Subsection (e) provides for the issuance of a Special Education Supervisory Certificate to an individual who has “completed 5 years of satisfactory certified experience as a school psychologist.” The Board explains in the Preamble that this will “help increase the availability of qualified special education supervisors in this Commonwealth.” Commentators have numerous concerns regarding this Supervisory Certificate, including the following:

- School psychologists do not have the knowledge, experience and skills to support, guide and evaluate special education teachers;

- School psychologists do not have the knowledge, experience and skills to design, assess and implement instructional programs;

- Allowing school psychologists to move into supervisory roles will not enhance the delivery of services to special education students;

- Lowering the qualifications of this certificate will have serious implications for the equity and quality of special education services;

- This may exacerbate the shortage of school psychologists.

We ask the Board to explain why it believes school psychologists are properly trained and capable of carrying out special education supervisory duties and why this role is appropriate and reasonable. Further, we ask the Board to state the specific statutory authority for this provision.

8. Miscellaneous clarity.

- We ask the Board to review the regulations to ensure the consistent and proper use of “shall” and “will” and revise these words as directed by Section 6.7(a) and (c) of the *Pennsylvania Code & Bulletin (Style Manual)*.

- We identified the following clarity issues in Section 49.1 (relating to definitions):

- o The definition of “alternative program provider” should be revised to cross-reference section 1207.1(a) of the act. (Emphasis added.)

- o The terms “approved educator certification program” and “completer” are not used in the regulations. These definitions should be deleted under Section 2.11(c) of the *Style Manual*.

- o The definition of “baccalaureate degree” contains a substantive provision relating to graduate degrees. Section 2.11(e) of the *Style Manual* states that substantive provisions may not be contained in a definition section. We recommend moving the requirements for graduate degrees to the body of the regulations.

- The Board should review cross-references to Section 49.12 (relating to eligibility) to ensure citations reflect renumbering.

- The citation to the Federal Higher Education Act in Section 49.14(6) should be revised to encompass the entire statute.

- Section 49.17(c) (relating to continuing professional education) should be revised to cross-reference section 1205.5(g) of the act. (Emphasis added.)

**State Board of Physical Therapy Regulation
16A-6518 (IRRC # 3285)**

Child Abuse Reporting Requirements

February 17, 2021

We submit for your consideration the following comments on the proposed rulemaking published in the December 19, 2020 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Physical Therapy (Board) to respond to all comments received from us or any other source.

1. Section 40.16. Licensure by endorsement.—Need.

Subsection (b)(1) and (2) requires applicants for licensure by endorsement to submit documentary evidence of authorization to practice and to hold a valid license by examination. These proposed paragraphs are

not explained in the Preamble. Further, these provisions are included in Sections 40.4(5) and 40.17(3) (relating to admission to practice of physical therapy; and foreign-educated physical therapists applying to take the licensure examination and pursue a clinical experience). Paragraph (3) is duplicative of subsection (a)(3), which is cross-referenced in the opening statement of subsection (b). We ask the Board to explain in the Preamble to the final-form regulation why paragraphs (1)—(3) are needed.

2. Section 40.208. Child abuse recognition and reporting—mandatory training requirement.—Implementation procedures.

Subsection (a) requires individuals applying for an initial license or certificate to complete at least three hours of training in child abuse recognition and reporting

requirements. This subsection does not address documentation and reporting of completion of training as required under 23 Pa.C.S. § 6383(b)(3)(i) (relating to education and training). We ask the Board to revise this subsection to include the implementation procedures for applicants submitting proof of training.

3. Miscellaneous clarity.

The reference to “subparagraph” in Section 40.202(c)(1) (relating to suspected child abuse—mandated reporting requirements) should be corrected to “paragraph.”

The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

**State Board of Social Workers, Marriage and Family Therapists and Professional Counselors
Regulation # 16A-6919 (IRRC # 3281)
Child Abuse Reporting Requirements
March 3, 2021**

We submit for your consideration the following comments on the proposed rulemaking published in the January 2, 2021 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Social Workers, Marriage and Family Therapists and Professional Counselors (Board) to respond to all comments received from us or any other source.

1. Section 47.58. Child abuse recognition and reporting—mandatory training requirement.—Implementation procedures.

Subsection (a)

Subsection (a) requires an individual applying for licensure as a bachelor social worker, social worker or clinical social worker to complete at least three hours of training in child abuse recognition and reporting requirements. This subsection does not address documentation and reporting of completion of training as required under 23 Pa.C.S. § 6383(b)(3)(i) (relating to education and training). We ask the Board to revise this subsection to include the implementation procedures for submitting proof of training.

This comment also applies to Sections 48.58(a) and 49.58(a), regarding training requirements for applicants for marriage and family therapist licenses, and professional counselor licenses, respectively.

Subsection (c)

Under subsection (c)(3), an applicant or licensee may apply for an exemption from subsection (a) or (b) by submitting documentation demonstrating that the individual “should not be subject to the training or continuing education requirement.” A request for exemption is “considered on a case-by-case basis.” The standards for documentation and evaluation are vague. We ask the Board to explain the standards for sufficient documentation and the evaluation process for reviewing a request for exemption.

This comment also applies to Sections 48.58(c)(3) and 49.58(c)(3), regarding exemption requests from marriage and family therapist applicants and licenses, and professional counselor applicants licenses, respectively.

2. Section 48.58. Child abuse recognition and reporting—mandatory training requirement.—Implementation procedures.

Subsection (b) requires a licensed marriage and family therapist to complete at least two hours of continuing education in child abuse recognition and reporting as a condition of biennial renewal. The Preamble of the proposed regulation explains that these hours are “a portion

of the total continuing education required for biennial renewal, and not an additional requirement, as provided in” 23 Pa.C.S. § 6383(b)(3)(ii). This language is not in the regulation. We ask the Board to specify in the final-form regulation that two hours of continuing education in child abuse recognition and reporting are a portion of the total hours of continuing education.

3. Section 49.51. Definitions relating to child abuse reporting requirements.—Clarity and lack of ambiguity.

The definition of “mandated reporter” cross-references Section 49.52 (relating to suspected child abuse—mandated reporting requirements). However, the definition of this term in Sections 47.51 and 48.51 cross-references 23 Pa.C.S. § 6311 (relating to persons required to report suspected child abuse). For clarity and consistency, we ask the Board to revise this definition to cross-reference the statute.

4. Implementation procedures.

Under 23 Pa.C.S. § 6311(a)(12), an individual supervised or managed by a Board licensee who has direct contact with children in the course of employment is a mandated reporter. In the Preamble of the proposed regulation, the Board “reminds its licensees that individuals they supervise or manage. . .should be aware of the reporting requirements under” 23 Pa.C.S. Chapter 63 (relating to Child Protective Services Law). We ask the Board to explain if it will use additional methods to communicate with its licensees that supervised and managed employees are mandated reporters. If appropriate, the Board should consider requiring licensees to advise unlicensed employees of their mandated reporter status.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security, Insufficient Financial Security Amount or Language

Public Meeting held
February 25, 2021

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; David W. Sweet, Vice Chairperson; John F. Coleman, Jr.; Ralph V. Yanora

*Electric Generation Supplier License Cancellations of
Companies with an Expired Financial Security,
Insufficient Financial Security Amount or Language;
M-2021-3023559*

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA, 17120, prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferably in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

While we recognize that the COVID-19 pandemic has provided some challenges related to the continuance of normal business operations, it is imperative that the Commission have an approved financial security in place with each EGS to ensure compliance with 52 Pa. Code § 54.40(d). On March 25, 2020, Commission staff issued an EGS Financial Security Filing Guidance Memo (Guidance Memo) that stated the following:

- Where practical, EGSs should file an original bond, letter of credit, continuation certificate, amendment, or other financial instrument. These original financial instruments should display "wet" signatures or digital signatures, preferably in blue ink, and display a "raised seal" or original notary stamp.

- EGSs should email a copy of the original financial instrument directly to Secretary Chiavetta at rchiavetta@pa.gov. Secretary Chiavetta has waived the restriction on emailed filings that contain confidential and proprietary material. As such, financial security instruments will be permitted to be filed by email for the duration of the Commission's work from home order.

- If an EGS is unable to acquire a "raised seal" or original notary stamp on the financial security during the pendency of the COVID-19 emergency, the Secretary's Bureau will not reject the financial security.

- If an EGS has been granted a reduction in its financial security, and it is time to renew the annual reduction, please file an original annual compliance filing with the Secretary's Bureau and a copy via email at rchiavetta@pa.gov.

Please note that the requirement that EGSs maintain a valid financial security on file with the Commission, remains in effect.

Be advised that emailed financial security instruments—after review and acceptance of the Secretary's Bureau and the Bureau of Technical Utility Services—will be provisionally approved by the Commission until Commission staff resume working in the Keystone Building. EGSs must still mail the original bond with original signatures and notary stamp as per the Commission's normal practice.

On July 27, 2020, the Commission issued a Secretarial Letter which modified certain filing and service requirements.¹ Specifically, this Secretarial Letter amended the Emergency Order issued on March 20, 2020, at Docket No. M-2020-3019262 regarding the filing of certain confidential documents. At the time the Emergency Order was issued, the Commission did not have access to its physical location. However, since that time the Commission has secured limited access to its place of business. Under these circumstances and consistent with the authority provided to the Secretary by the Emergency Order, the Secretarial Letter requires that confidential filings made pursuant to 52 Pa. Code § 54.40(a) (EGS financial securities), must be filed with the Secretary by overnight delivery and are not to be filed electronically with the Secretary.

As of February 12, 2021, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount or language directed by the Commission, to replace a bond which is expired or which is non-compliant with Commission regulations.

*Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 90-day Security Renewal Notice email to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security in the amount or language directed by the Commission, must be filed within 30-days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for the EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier License of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and publish a copy of this Tentative Order in the *Pennsylvania Bulletin* with a 30-day comment period.

3. The Secretary serve a copy of this Tentative Order upon the Pennsylvania Department of Revenue—Bureau of Compliance, Business License Clearance Division.

4. Absent the filing of adverse public comment or the filing of an approved security within 30-days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary.

5. Upon entry of the Final Order, EGSs that remain listed as not in compliance with 52 Pa. Code § 54.40(a) and (d) will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

6. Upon entry of the Final Order described in Ordering Paragraph No. 4, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Revocation of Natural Gas Supplier Licenses of Companies that Did Not File a Natural Gas Supplier Annual Report or Pay Past Due Annual or Supplemental Fees

Public Meeting held
February 25, 2021

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; David W. Sweet, Vice Chairperson; John F. Coleman, Jr.; Ralph V. Yanora

*Revocation of Natural Gas Supplier Licenses of
Companies that Did Not File a Natural Gas Supplier
Annual Report or Pay Past Due Annual or
Supplemental Fees; M-2021-3023833*

Tentative Order

By the Commission:

The Public Utility Code authorizes the Pennsylvania Public Utility Commission (Commission) to establish, by order or rule, on a reasonable cost basis, fees to be charged for annual activities related to the oversight of natural gas suppliers (NGS). 66 Pa.C.S. § 2208(h). NGSs are required to pay these fees. In addition, NGSs are required to file annual reports with the Commission by April 30 of each year identifying their gross Pennsylvania intrastate operating revenues from the prior calendar year. 52 Pa. Code § 62.110(a)(1).

Both the Code, 66 Pa.C.S. § 2208(c)(2), and Commission regulations, 52 Pa. Code § 62.113(a)(5), state that the failure of an NGS to comply with applicable provisions of the Code or the rules, regulations, orders, or directives of the Commission shall be cause for the Commission to revoke the license of the NGS. Through this Order, the Commission tentatively finds that the NGSs identified in Table 1 (failure to pay fees) and Table 2 (failure to report revenue) are not in compliance with their obligations under the Code and Commission regulations and initiates this proceeding to revoke their NGS licenses.

Annual and Supplemental Fees

Act 155 of 2014 authorized the Commission to establish annual fees to fund the Commission's oversight of NGSs. 66 Pa.C.S. § 2208(h). These fees were established by order of the Commission¹ as (1) a flat annual fee of \$350 to be paid by all licensed suppliers and brokers regardless of reported gross intrastate operating revenues and (2) a supplemental fee—to be paid only by suppliers—based on each NGS's gross intrastate operating revenues.

¹ Final Implementation Order on Implementation of Act 155 of 2014, at pgs. 3—8, Docket No. M-2014-2448825 (Order entered April 24, 2015) (Final Implementation Order).

NGSs are required to pay the \$350 flat annual fee to the Commission's Bureau of Administration by July 1 of each year. Suppliers with reported gross intrastate operating revenues are also required to pay the supplemental fee to the Commission within thirty days of receiving the Commission issued supplemental fee invoice.

Although an NGS is not a "public utility," see 66 Pa.C.S. §§ 102, 2202 and 52 Pa. Code § 62.141 (relating to the definitions of "public utility" and "natural gas supplier"), it is a licensed entity subject to the power and authority of the Commission, and it must comply with applicable provisions of the Code, Commission regulations, and Commission orders. 66 Pa.C.S. §§ 501 and 2208(e). The Commission has the authority, consistent with due process, to suspend or revoke an NGS's license for the NGS's failure to comply with applicable provisions of the Code, Commission regulations, and Commission orders. 66 Pa.C.S. § 2208(c)(2) and 52 Pa. Code. § 62.113(a)(5). An NGS that fails to pay either or both of its annual or supplemental fee violates both the Code, 66 Pa.C.S. § 2208(h), and the Commission's directives

contained in the Final Implementation Order. Therefore, such an NGS is subject to fines and having its license revoked by the Commission.

On May 27, 2020, the Commission sent all NGS brokers and suppliers an Annual Fee Invoice with payment due by July 1, 2020. On August 12, 2020, a past due balance letter was sent to delinquent NGS brokers and suppliers requesting that the past due annual fee be paid within 20 days of the date of the letter.

On September 10, 2020, the Commission sent NGS suppliers a Supplemental Fee invoice and an explanation of the Supplemental Fee with payment due within 30 days of receipt of the invoice. On November 12, 2020, the Commission sent past due balance letters to delinquent NGS suppliers stating that the past due supplemental fee must be paid within 20 days of the date of the letter.

As of February 12, 2021, the NGS brokers and suppliers listed in Table 1 below have not paid either or both of their annual or supplemental fees for 2020.

*Taking title to natural gas.

Annual Report

All NGS suppliers must also file an Annual Report with the Commission by April 30 each year. 52 Pa. Code § 62.110(a). The Annual Report must include, among other things, the NGS's total gross receipts from the sale of natural gas supply services in the preceding calendar year. 52 Pa. Code § 62.110(a)(1). This information is used by the Commission to calculate the supplemental fee in accordance with the terms of the Final Implementation Order.

As previously noted, the Commission has the authority, consistent with due process, to suspend or revoke an NGS's license for the NGS's failure to comply with applicable provisions of the Code, Commission regulations, and Commission orders. 66 Pa.C.S. § 2208(c)(2) and 52 Pa. Code. § 62.113(a)(5). An NGS that fails to file an annual report violates the Commission's regulations at 52 Pa. Code § 62.110(a). Therefore, such an NGS is subject to fines and having its license revoked by the Commission.

The Commission sent an NGS Requirements Letter to all NGS suppliers in February 2020 advising them of their annual filing requirements and the due dates. In October 2020, the Commission sent a Failure to Submit Annual Report Notice (Notice) to NGS suppliers that failed to file a 2019 Annual Report with the Commission. The Notice stated that the past due Annual Report must be filed within 30 days of the Notice.

As of February 12, 2021, the NGS suppliers listed in Table 2 below have not filed a 2020 Annual Report, reporting their 2019 gross receipts, with the Commission.

Checks shall be made payable to "Commonwealth of Pennsylvania."

5. That, alternatively, Natural Gas Suppliers listed in Table 2 may file their outstanding 2020 annual revenue report within thirty (30) days after publication in the *Pennsylvania Bulletin*. Any completed 2020 annual revenue reports shall be sent to the Pennsylvania Public Utility Commission, Attn: Secretary's Bureau, Commonwealth Keystone Building, 400 North Street, Harrisburg, PA 17120.

6. That, absent the timely (i) filing of comments challenging the revocation of the Natural Gas Supplier's license; (ii) payment of the Natural Gas Supplier's outstanding fee balance; or (iii) filing of the Natural Gas Supplier's 2020 annual revenue report, the Bureau of Technical Utility Services, in conjunction with the Bureau of Administration, shall prepare a Final Order revoking the license of each Natural Gas Supplier that fails to respond.
