HOUSING FINANCE AGENCY

[12 PA. CODE CH. 31]

Homeowner's Emergency Mortgage Assistance Program; Amendments

The Housing Finance Agency (Agency) amends Chapter 31, Subchapter B (relating to policy statement on Homeowner's Emergency Mortgage Assistance Program) to read as set forth in Annex A.

History

The Homeowner's Emergency Mortgage Assistance Program (HEMAP) was established by the act of December 23, 1983 (P.L. 385, No. 91) (Act 91). HEMAP is designed to provide emergency mortgage assistance to homeowners facing foreclosure because of circumstances beyond their control. Assistance is provided in the form of a loan. The amount of the loan will be sufficient to bring the homeowner's delinquent mortgages current and, in addition, the Agency may provide continuing monthly mortgage assistance, as needed by the homeowner, for a period of time as prescribed by Act 91. Act 91 contains notice requirements that lenders shall follow prior to foreclosure, prescribes procedures that a homeowner shall follow in applying to the Agency for mortgage assistance and prohibits a lender from conducting foreclosure proceedings during the HEMAP application process. Act 91 requires repayment of the HEMAP mortgage assistance loan based upon the financial ability of the homeowner.

On February 21, 1984, the members of the Board of the Agency adopted initial guidelines to implement HEMAP under the authority of section 401-C(b) of the Housing Finance Agency Law (act) (35 P.S. § 1680.401c(b)), which provides in part that the Agency shall adopt initial program guidelines and may revise the guidelines when appropriate. The initial guidelines were published at 14 Pa.B. 723 (March 3, 1984). The members of the Board of the Agency adopted the following amendments to the guidelines: October 18, 1985, published at 16 Pa.B. 2126 (June 14, 1986); May 12, 1994, published at 24 Pa.B. 3224 (July 2, 1994); 29 Pa.B. 2859 (June 5, 1999); and 38 Pa.B. 4859 (August 30, 2008), effective September 6, 2008; April 30, 2016, published at 46 Pa.B. 2171. Under the Agency's authority to revise the statement of policy, the Agency adopts further amendments to Chapter 31, Subchapter B and the uniform Act 91 Notice (Notice).

Summary of Public Comment and Responses to Proposed Amendments

The proposed statement of policy was published at 50 Pa.B. 7312 (December 26, 2020). The Agency accepted formal written comments during a 45-day public comment period.

The Agency received comments from several interested parties, including counsel, consumer advocates and counseling agencies.

Following is a summary of comments received and the Agency's response to the comments.

§ 31.201. *Definitions*

Face-to-face meeting

The Agency proposed the addition of a definition of the face-to-face meeting requirement to clarify its scope. The

comments received favored both the inclusion of the definition itself in addition to the breadth of its scope, which includes the option for an in-person meeting to complete the application process, as well as a remote application process. Several commentators, however, were concerned that the requirement to communicate simultaneously both audibly and visually was overly restrictive and, as a result, might impede the ability of certain Commonwealth residents, particularly senior citizens or those with limited or insufficient access to certain technology, to comply with the visual requirement. The fulfillment of the requirement to meet visually, a number of commentators suggested, has been further compounded by the novel coronavirus pandemic. Accordingly, these commentators suggested further expanding the scope of the definition such that meetings conducted exclusively by telephone satisfy the face-to-face meeting requirement. Another commentator proposed imposing a temporary halt to the face-to-face requirement for the duration of the novel coronavirus pandemic.

The act delegates authority to the Agency to promulgate guidance to administer HEMAP and to implement the provisions of the act. Thus, the authority granted permits the Agency to apply its interpretation of the language in the act, unless that interpretation is clearly erroneous. In its evaluation of the language of the act, the Agency relied on the plain meaning of the phrase "face-to-face." The Agency further considered the availability of certain technology during the drafting and subsequent passage of the act. While the Agency acknowledges that the legislation may not have contemplated certain methods of communication that are currently available, the legislation was able to assess the use of then-available technology, which included telephonic communication, at the time of its passage. Despite the availability of telephonic communication, the legislation requires that meetings between an applicant and a consumer credit counseling agency be conducted face-to-face and does not identify telephonic communication as a means to fulfill the requirement.

The objective of the amendment is to facilitate increased and more streamlined access to HEMAP. While the Agency recognizes the challenges that may be posed by inaccessibility to certain technology and is sympathetic to the heightened impact of these challenges resulting from the novel coronavirus pandemic, expanding the breadth of the amendment to include a telephonic application process appears to both surpass the original intent of the face-to-face meeting requirement and exceed the delegated authority of the Agency. Further, the Agency does not possess the authority to temporarily stay requirements imposed by the act.

Summary of Changes

This final statement of policy incorporates the proposed amendment which clarifies the scope of the face-to-face meeting requirement as well as the proposed amendments to the uniform Act 91 Notice.

Fiscal Impact

The Agency does not anticipate fiscal impact from the amendments to Chapter 31, Subchapter B.

Effective Date

The amendments to Chapter 31, Subchapter B will become effective upon publication.

Save Your Home From Foreclosure

This is an official Act 91 Notice. You are receiving this notice because Pennsylvania law requires mortgage lenders to send it to homeowners facing foreclosure. This notice contains important legal information about your rights and how you can save your home. **YOU MAY BE ELIGIBLE FOR STATE FUNDED ASSISTANCE** from the Homeowner's Emergency Mortgage Assistance Program (HEMAP), a program of the Pennsylvania Housing Finance Agency (PHFA).

**CALL A COUNSELING AGENCY FOR A MEETING.
APPLYING FOR HEMAP MAY TEMPORARILY STOP A FORECLOSURE ACTION.**

To apply, you must have a face-to-face meeting with a HEMAP-approved Consumer Credit Counseling Agency within 33 days of the date of this notice. This meeting is free and is the only way to apply for HEMAP. A list of approved Counseling Agencies is attached. A list is also available at <http://www.phfa.org/counseling/hemap.aspx>. If after speaking with a Counseling Agency you have further questions about HEMAP, please call 1 (800) 342-2397. Individuals with hearing impairment may call 711 (RELAY).

To make sure you meet the deadline, please call a Counseling Agency **immediately** to schedule a face-to-face meeting. Keep this entire Act 91 Notice, including the attached Account Summary, and have it available for your face-to-face meeting, whether done in person or remotely. A counselor can:

- Help you apply for HEMAP and explain how the program works.
- Talk with your lender about a loan modification or other repayment plan.
- Explain possible options to avoid foreclosure such as loss mitigation, refinancing your loan, selling or transferring your property to a third party or having a third party cure the delinquency on your behalf through a short sale or assumption of mortgage.
- Provide referrals for other assistance, programs or services.
- Explain other rights you may have, including your right to assert the non-existence of the debt and any other defenses you may have.

Even if you miss the deadline, you may still apply for HEMAP, but a late HEMAP application will not stop your lender from foreclosing. However, if your application is approved, a HEMAP assistance loan will bring your mortgage current and stop the foreclosure. HEMAP may also temporarily help you make future mortgage payments.

Alternatively, you may save your home from foreclosure by curing your default. That means paying your lender all amounts currently due, including reasonable late charges, attorney fees and other costs and by otherwise fulfilling your mortgage obligations. You may cure the default at any time up to one hour before a Sheriff's Sale, up to three times in any calendar year.

If you have filed a petition in bankruptcy, this notice is provided for informational purposes only and is not an attempt to collect a debt. If you are protected by a bankruptcy filing you may still apply for HEMAP assistance.

El HEMAP también puede ayudarlo, de manera temporal, a realizar los pagos de hipoteca futuros.

También puede optar por la alternativa de subsanar el incumplimiento para salvar a su hogar de la ejecución hipotecaria. Eso significa pagarle a su prestamista todos los montos adeudados a la actualidad, incluidos los cargos moratorios, los honorarios de abogados y otros costos razonables, y cumplir con sus obligaciones hipotecarias. Puede subsanar el incumplimiento en cualquier momento, hasta una hora antes de la subasta judicial, un máximo de tres veces por cada año calendario.

Si usted ha presentado una solicitud de quiebra, esta notificación se proporciona solo con fines informativos y no es un intento de cobrar una deuda. Usted puede solicitar la ayuda del HEMAP, incluso si está protegido por una declaración de quiebra.

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 57]

Class A Wild Trout Streams; Statements of Policy

The Fish and Boat Commission (Commission) amends Chapter 57 (relating to statements of policy). The Commission is publishing this statement of policy under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The amendment updates the internal policy for the Commission pertaining to the stocking of Class A wild trout streams throughout this Commonwealth.

A. *Effective Date*

This statement of policy will go into effect upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on this statement of policy, contact Wayne Melnick, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This statement of policy is available on the Commission's web site at www.fishandboat.com.

C. *Statutory Authority*

The amendment to § 57.8a (relating to Class A wild trout streams) is published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. *Purpose and Background*

The specific purpose and background of the amendment is described in more detail under the summary of changes.

E. *Summary of Changes*

Class A wild trout streams represent the best of this Commonwealth's wild trout resources and approximately 3% of all flowing waters in this Commonwealth qualify for this designation. As of November 28, 2020, there are 1,037 Class A stream sections that comprise 2,766 stream-miles in this Commonwealth. Following designation by the Board of Commissioners, Class A wild trout streams enter a process whereby the Department of Environmental Protection will ultimately designate these stream sections as high quality, coldwater Fishes under 25 Pa. Code Chapter 93 (relating to water quality standards). This designation provides additional water quality protection under the Commonwealth's environmental laws and regulations. As such, a Class A designation is an

important mechanism to properly protect, conserve, and enhance wild trout populations and the quality of their habitats.

On September 30, 2014 (effective January 1, 2015), the statement of policy at § 57.8a was amended to require the Executive Director to obtain approval from the Commission prior to granting permission to stock a Class A wild trout stream section. Following the update to § 57.8a, Commission staff developed internal decision-making criteria to allow continued Commission stocking of a limited number of Class A wild trout stream sections. Under these criteria, stream sections that the Commission designates as Class A wild trout streams after December 31, 2014, may remain eligible for stocking with adult and fingerling trout by the Commission to provide additional angling opportunities, provided that the following criteria conditions are met.

1. The stream section was stocked with adult trout during the year immediately prior to its designation as a Class A wild trout stream.

2. Angler use (anglers/mile of stream) in the stream section equals or exceeds the Statewide 50th percentile of angler use for the opening weekend of trout season as documented by Commission staff, or the stream section is a special regulation area under Chapter 65 (relating to special fishing regulations) that was stocked by the Commission the year immediately prior to its designation as a Class A wild trout stream.

3. The trout species to be stocked are not the same species as the primary component of the wild trout population.

4. The stocking numbers and frequency will not exceed those of the year prior to the Class A designation.

5. A stream section managed for wild Brook Trout will not be considered for stocking.

6. Prior to implementing a decision to stock a Class A wild trout stream, the Executive Director will obtain the approval of the Commission.

Subsequently, 13 stream sections suspected to support strong Class A wild brown trout populations were officially designated as Class A wild trout streams during the 2015—2017 time frame following updated wild trout surveys and stocking was continued. The Commission believes there are very few additional waters in this Commonwealth that would meet the current internal decision-making criteria used to consider continued stocking of Class A wild trout streams. The 13 Class A wild

trout stream sections where stocking continued are heavily fished streams in high density human population centers of a size and character that can support a fishery featuring both stocked and wild trout components. Common to these waters are robust wild brown trout populations, which continue to maintain strong Class A fisheries in the presence of stocking and high angler use. The management approach for these waters includes limiting species stocked to rainbow trout, which are easier to catch, rarely develop into a wild population in this Commonwealth, would not genetically impact the existing wild brown trout population and could serve to satisfy anglers that prefer to fish for stocked trout during the early part of trout season.

Historically, there have been very few streams where stocking of trout following Class A designation was considered and warranted. Occasionally, there may be pre-existing youth fishing derbies or clubs or private landowners, or both, that are not aware a stream section was designated as Class A and unknowingly continue to stock illicitly. Additionally, it is often unknown to Commission staff where private stockings have occurred. This information may become apparent only when the next private stocking is planned and the landowner discovers a Class A designation has occurred. Therefore, there may be rare cases where a stocking exemption should be considered.

As such, the Commission has developed additional internal decision-making criteria to account for these types of rare circumstances to consider internal and external requests for continued stocking of newly designated Class A wild trout streams. These criteria will provide the Commission direction to guide decisions when unusual situations arise but would not automatically result in continued stocking when criteria are met, as the vast majority of Class A stream sections are best managed solely for wild trout with no stocking. They will offer a mechanism for transparent, timely and consistent consideration of requests to continue the stocking of newly designated Class A wild trout streams. These criteria will be detailed in the *Operational Guidelines for the Management of Trout Fisheries in Pennsylvania Waters, 5th edition* anticipated to be released in early 2021 and available at www.fishandboat.com. Listed as follows are several scenarios that may be considered for an exemption.

1. Pre-existing youth fishing derbies and special use areas that were properly permitted by the Commission and have a history of more than one past occurrence.

2. Pre-existing private stockings on private property on recently designated (that is, within 1 year of posting in the *Pennsylvania Bulletin*) Class A stream sections that have been closed to public angling at the time of Class A designation and at least since 2010. Historic stockings need to be verifiable by documentation, stocking records and a history of more than one past occurrence.

3. Stream sections stocked by the Commission, a cooperative nursery, or a private group, or both, or individual the year prior to Class A designation and a history of more than one past occurrence, and which meet the Commission's Class A stocking criteria developed for the 13 Class A streams sections stocked by the Commission. These criteria currently guide staff consideration when making recommendations regarding the continuance of stocking a Class A wild trout stream section and were specifically developed for high use, urban and suburban stream sections that support robust Class A wild brown trout populations. Stocked species are limited to rainbow

trout and the number stocked will remain at or below the levels stocked at the time of Class A designation. Some stream sections may be better managed solely for wild trout in the future; therefore, trout stocking may not occur in perpetuity.

4. Stream sections which previously received an exemption or a Special Activities Permit from the Commission between 2010 and the present to allow for continued stocking of a Class A wild trout stream section. If the exemption was time-limited and not renewed before expiration, it will be considered a new request and a determination will be made according to current exemption criteria.

Exemptions to the prohibition of stocking hatchery trout into Class A wild trout stream sections would be granted only under rare circumstances. Consideration would only be given to requests for continued stocking in stream sections within 1 year of the section being designated as Class A and posted in the *Pennsylvania Bulletin*; however, entities that previously received an exemption or a Special Activities Permit from the Commission between 2010 and the present to allow for continued stocking would be eligible for consideration. Should an exemption be granted, the Commission would determine the species of trout, number of trout, and frequency of stocking consistent with stocking strategies and historical stocking rates of the stream section to minimize impacts to the Class A wild trout population. No exemptions will be granted for streams where a component of the wild trout fishery is comprised of wild brook trout.

The Commission proposes that § 57.8a be amended to read as set forth in the proposed rulemaking published at 50 Pa.B. 6903 (December 5, 2020).

This statement of policy will not increase paperwork and will not create new paperwork requirements.
