# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

### **How to Find Rules and Regulations**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

## GOVERNOR'S OFFICE

## Notice of Veto; House Bill 1300, Printer's Number 1869

June 30, 2021

To the Honorable House of Representatives  
of the Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, House Bill 1300, Printer's Number 1869.

Pennsylvania had a free, fair, and secure election in November 2020 with record turnout, in which people embraced mail-in voting, and the results have been confirmed by two statewide audits. These results are a testament to the robustness of our existing election system, but also the many hard working local officials who conduct our elections in an earnest and transparent way. While the bill includes some potential areas of improvement—such as giving counties more time to pre-canvass, increasing poll worker pay, and expanding the use of electronic poll books—the legislation is incurably riddled with unacceptable barriers to voting, including:

- Imposing additional voter identification restrictions similar to those already found unconstitutional by Pennsylvania courts;
- Limiting mail-in voting by creating excessive and burdensome requirements;
- Requiring an arbitrary signature match for mail-in ballots without a thorough system to cure; and
- Eliminating the use of ballot drop boxes by creating onerous requirements on ballot delivery locations with which counties will be unable to comply.

The legislation also rolls back significant bipartisan improvements made in Act 77 of 2019, the landmark election reform enacted last session, by:

- Reducing the number of days to register to vote by moving the deadline back to 30 days before an election, which would be among the most restrictive deadlines in the nation;
- Eliminating the convenient annual option to be sent a mail-in ballot for each election; and
- Eliminating the option to go to a county election office and apply for and receive a mail-in ballot in the same visit.

This bill is ultimately not about improving access to voting or election security, but about restricting the freedom to vote. If adopted, it would threaten to disrupt election administration, undermine faith in government, and invite costly, time-consuming, and destabilizing litigation. Instead of trying to silence the voices of some Pennsylvanians, we should build on the bipartisan achievements of Act 77 of 2019. To that end, I am willing to engage in good faith to refine our shared priorities, and work to find common ground in areas where we do not currently have agreement. I am committed to working sincerely towards legislation that supports voter access and can be passed on a bipartisan basis in the fall.

Until that time, for the reasons set forth above, I must withhold my signature from House Bill 1300, Printer's Number 1869.

Sincerely,

Governor

[Pa.B. Doc. No. 21-1113. Filed for public inspection July 16, 2021, 9:00 a.m.]

**GOVERNOR'S OFFICE****Notice of Veto; Senate Bill No. 255, Printer's No. 971**

June 30, 2021

To The Honorable Senate of the  
Commonwealth of Pennsylvania

Pursuant to Article IV, Section 16 of the Pennsylvania Constitution, I am returning this appropriation bill, Senate Bill 255, Printer's Number 971, to your chamber.

In a separate action today, I informed the House of Representatives that I am withholding my signature from House Bill 1300, Printers Number 1869. Accordingly, I am also compelled to withhold my approval from a corresponding allocation of funding to the Office of the Auditor General intended to facilitate the establishment and operation of a Bureau of Election Audits.

For these reasons, I return the bill to your chamber partially approved and signed. The bill is approved with the exception of the item listed below:

SECTION 205. Auditor General.

\*\*\*

For the Department of the Auditor General for postauditing annually, periodically or specially, the affairs of any department, board, or commission which is supported out of the General Fund, district justices, other fining offices, volunteer firemen's relief association funds and the offices of statewide elected officials and for the proper auditing of appropriations for or relating to public assistance, including any federal sums supplementing such appropriations.

State Appropriation..... 41,441,000

This item is approved in the sum of \$38,341,000.

Sincerely,

Governor

**GOVERNOR'S OFFICE****Notice of Veto; Senate Bill No. 516, Printer's No. 802**

July 1, 2021

To the Honorable Senate of the  
Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, Senate Bill 516, Printer's Number 802.

This legislation seeks to solve the real issue of collecting court costs from those who have the ability to pay, but unfortunately could result in disproportionately harming indigent defendants. This bill allows a court to turn over debt owed from court costs, fines, and restitution to a private collection agency, who may add up to a 25% surcharge, when the defendant does not appear at a financial determination hearing. The purpose of a

financial determination hearing is for the court to review a defendant's financial situation and determine whether the payments should be made in installments. The court will account for the defendant's ability to make restitution and reparations and weigh the burden the payment will impose on the defendant. This bill would remove that safeguard if the defendant fails to appear at the financial determination hearing, regardless of whether that failure to appear is willful or non-willful. In many instances, the financial determination hearings will occur long after a person has completed probation or parole, moved, relocated, or otherwise fulfilled their obligations to the court, and the notice to appear is often sent to out-of-date addresses.

This bill attempts to solve the problem of financially able defendants willfully skipping the determination hearing to evade collection of their debt. However, without a financial determination hearing, defendants who do not have the ability to pay will be treated the same as those who do. This would result in indigent defendants being disproportionately affected in other aspects of their lives. While I strongly recognize that victims should have every effort made to collect restitution on their behalf, this bill does not delineate between those defendants with an ability to pay versus those that do not. Court-ordered debt can linger for years and impact credit scores, limit access to housing, employment, and other benefits, including the ability to secure a pardon.

A more holistic approach is needed to both increase a court's ability to collect fees from those who have the ability to pay while also protecting indigent defendants. Pennsylvania is one of two states that require local government to fund and administer indigent services. The creation of an Office of Indigent Defense is one proposal that I have put forth that would protect these vulnerable defendants. Unfortunately, this proposal did not receive funding in this year's budget. I appreciate that this bill is attempting to solve a legitimate problem faced by the counties; however, I believe it warrants more thorough consideration to protect indigent defendants.

For the reasons set forth above, I must withhold my signature from Senate Bill 516, Printer's Number 802.

Sincerely,

Governor

## GOVERNOR'S OFFICE

### Notice of Veto; Senate Bill 618, Printer's Number 945

July 1, 2021

To the Honorable Senate of the  
Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, Senate Bill 618, Printer's Number 945.

This legislation is contradictory, misguided and irresponsible. This bill prohibits basic public health measures, which are necessary to curb infectious disease transmission and save lives. Specifically, the bill elimi-

nates the Department of Health's ability to take disease control measures for any future contagious disease, resulting in the inability to contain the spread of infectious diseases in the Commonwealth or long after the current pandemic is over.

While the provisions of this legislation put all commonwealth residents at risk, individuals who are vulnerable to infectious diseases, such as residents of long-term care facilities, are at an even greater risk if the authority to mitigate transmission of infectious diseases is eliminated. In addition, persons of all ages with medical conditions and immunosuppressed systems are put at greater risk under this bill. As we have seen with COVID-19 and other disease outbreaks, public health response measures are critical in saving lives of vulnerable residents. Health orders are needed to provide direction to health care providers, medical facilities, patients, and those likely exposed to a disease during a pandemic.

Alongside Pennsylvania's nation-leading vaccine rollout, universal masking, distancing, and worker safety orders have been instrumental in fighting COVID-19 in Pennsylvania. Short-sighted legislation to tie the hands of people dedicated to public health will only make infectious diseases more difficult to fight.

Finally, this bill limits the Department of Health's ability to collect vaccine and immunization information for the Commonwealth's Statewide Immunization Information System. This would prevent medical providers and the public from having access to vital information on vaccination rates and vaccine efficacy.

For the reasons set forth above, I must withhold my signature from Senate Bill 618, Printer's Number 945.

Sincerely,

A handwritten signature in black ink that reads "Tom Wolf". The signature is written in a cursive, flowing style.

## Title 255—LOCAL COURT RULES

### WASHINGTON COUNTY

#### Collection of Restitution, Reparation, Fees, Costs, Fines, and Penalties; No. 2021-1

##### Administrative Order

And Now, this 1st day of July, 2021, the Court having issued Administrative Orders at the previously-numbered docket on May 7, 2021, and June 10, 2021, and an Administrative Order regulating filing procedures for the Clerk of Courts dated January 15, 2021, it is hereby *Ordered, Adjudged, and Decreed* that the Clerk of Courts shall follow the procedures set forth as follows:

1. The Clerk of Courts shall complete and process Pennsylvania Department of Transportation DL-21CF Forms, including submission of the report to the appropriate agency of the Commonwealth, upon receipt of an order of court issued pursuant to 75 Pa.C.S.A. § 1541 (commonly referred to as “Act 122s”).

2. The Clerk of Courts shall complete and process Pennsylvania Department of Transportation DL-21CF Forms, including submission of the report to the appropriate agency of the Commonwealth, upon receipt of verification from the Adult Probation Office of the completion of a term of house arrest with electronic surveillance, partial confinement program, or incarceration (commonly referred to as “Act 151s”). The verification shall be provided in a format as prescribed by the Adult Probation Office.

3. The Clerk of Courts shall complete and process Pennsylvania Department of Transportation DL-38 forms for notification to the Pennsylvania Department of Transportation, upon request of the Chief Adult Probation Officer, or his designee, until further order of court.

4. The Clerk of Courts shall enter sentences and assess restitution, reparation, fees, costs, fines, and/or penalties on adult criminal or juvenile delinquency cases, including assessments for summary appeals, miscellaneous dockets, and underlying filing types, such as inter-county transfer cases, whether offense or non-offense related, until such time that the Chief Adult Probation Officer informs the Clerk of Courts that the this function will be assumed by the Collections Unit of the Adult Probation Office. In completing these required entries, the Clerk of Courts must comply with this Court’s Administrative Order of May 7, 2021, which established a status quo for the entry of assessments of fines, costs, fees, and restitution, in anticipation of the transfer of collection functions. Assessments for Alcohol Highway Safety School tuition, Court Reporting Network evaluations, and Community Service Administration fees are to be completed in the same manner as prior to May 7, 2021, Administrative Order until further order of court.

5. The Court reiterates from its Administrative Order of May 28, 2021, that the Chief Adult Probation Officer, or his designee, shall direct the master accounting process in CPCMS, to include the coordination of monthly master account disbursements, including running all necessary reports and notifying and working with the Clerk of Courts regarding the printing of each offices’ respective

Thomas*, No. 2271-2020), that were accepted or deposited into the account(s) of the Clerk of Courts that have been affected by the transition of collection functions. The Clerk of Courts shall undertake all necessary actions immediately to facilitate the transfer and/or disbursement of funds as requested by the Chief Adult Probation Officer, or his designee.

7. The Clerk of Courts shall make personnel available to review bookkeeping and financial functions related to collections and disbursement functions that were previously handled by her office to ensure a productive transition of collections to the Adult Probation Office.

In the Administrative Order dated May 28, 2021, the Court stated that it expected the Clerk of Court to cooperate fully and in good faith to ensure a successful transition of collection functions. The Clerk of Courts shall cooperate fully and in good faith with the Court, and its designees, including the Chief Adult Probation Officer, to facilitate the administration of justice and the collection of fines, fees, costs, and restitution. It is further *Ordered* that the provisions of this Order are incorporated into, and shall be read in conjunction with the Administrative Orders dated January 15, 2021, May 7, 2021, and May 28, 2021.

## DEPARTMENT OF AGRICULTURE

### General Quarantine Order; Swine Exhibition Requirements

#### *Recitals*

A. African Swine Fever is a highly contagious hemorrhagic viral disease affecting domestic and wild swine.

B. There is no vaccine to protect swine against African Swine Fever, nor is there a known cure or treatment for this dangerous transmissible disease.

C. African Swine Fever has a high environmental resistance and can be spread by domestic or wild swine, whether alive or dead, and through raw and processed pork products. African Swine Fever does not cause disease in humans and is not a public health threat.

D. African Swine Fever is known to be transmissible from infected to uninfected swine through contact and via contaminated feed and fomites (non-living objects) such as shoes, clothes, vehicles, equipment and any other goods, products, facilities, specific insect vectors (soft ticks), containers and other objects with which infected swine—alive or dead—may come into contact.

E. Section 2321 of the Domestic Animal Law (Law) establishes a list of “dangerous transmissible diseases” and provides for the designation of additional dangerous transmissible diseases through regulation or temporary order (3 Pa.C.S.A. § 2321).

F. African Swine Fever (ASF) is specifically designated as a dangerous transmissible disease at section 2321(a)(3) of the Law (3 Pa.C.S.A. § 2321(a)(3)).

G. The Domestic Animal Law (Law) (3 Pa.C.S.A. §§ 2301–2389) and section 1702 of the Administrative Code of 1929 (71 P.S. § 442), provides the Pennsylvania Department of Agriculture (PDA) broad authority to regulate the keeping and handling of domestic animals to exclude, contain or eliminate dangerous transmissible diseases, such as ASF.

H. This includes authority, set forth at section 2329 of the Law, to establish and enforce quarantine orders “Whenever a dangerous transmissible disease...exists anywhere within or outside of this Commonwealth...the department shall have the power to establish and enforce quarantines of any such infected, exposed, contaminated, suspected or susceptible domestic animal. In addition, a quarantine may apply to any goods, products, facilities, containers, vehicles or materials that may carry dangerous transmissible disease...and may be applied on or in or against any premises, area or locality...” (3 Pa.C.S.A. § 2329(a)).

I. Section 2329(d) of the Law provides specific authority to establish and enforce a general quarantine order “...against any area or locality within this Commonwealth for any of the reasons set forth in subsection (a) to prevent a dangerous transmissible disease...from being carried into, within, from or out of the area or locality that is subject to the quarantine. A general quarantine order may include any domestic animals, conveyances, containers, goods, products or materials that may carry dangerous transmissible disease...and may include any area or locality, including all buildings, structures, premises and equipment located therein.” (3 Pa.C.S.A. § 2329(d))

J. ASF is found in countries around the world, particularly in sub-Saharan Africa. To date, 11 Asian countries have reported outbreaks since August 2018, including Indonesia, Mongolia, North Korea, South Korea, China, the Philippines, Vietnam, Laos, Cambodia, Myanmar and Timor-Leste. China has confirmed more than 163 cases of ASF and has lost an estimated 200 million swine which amounts to thirty-three percent of all the pigs in the world. The disease is also spreading within the European Union (EU), and the virus has reached 10 member states of the EU.

K. Although ASF has not been detected in North America, Central America or South America, it is important to note ASF is rapidly spreading and has reached South Korea and the Philippines. Currently, there are only 6,000 miles separating the continental United States from this devastating disease.

L. Pennsylvania is ranked 12th nationally for pork production and 5th nationally for number of swine processed. ASF presents serious threats to animal health and the economic vitality of the Commonwealth’s swine production industry. Introduction of ASF into the commercial swine herds of this Commonwealth would result in severe economic losses to the infected herd owners as well as loss of valuable National and International trade opportunities for all of Pennsylvania’s pork producers.

M. The PDA through this Quarantine Order establishes reasonable requirements to allow for movement of swine and products within this Commonwealth for exhibition purposes, while protecting against the introduction of ASF into this Commonwealth’s commercial production swine population.

#### *Order of Quarantine:*

With the foregoing recitals incorporated into this Order of Quarantine by reference, the Pennsylvania Department of Agriculture (PDA) under authority of the Domestic Animal Law, at 3 Pa.C.S.A. § 2329(d) and section 1702 of the Administrative Code of 1929 (71 P.S. § 442), hereby establishes a General Order of Quarantine related to the dangerous transmissible disease African Swine Fever (ASF) and the shipment and holding of swine, alive or dead, and any conveyances, containers, goods, products or materials capable of harboring ASF, within and through the Commonwealth of Pennsylvania. The following are the conditions, restrictions and requirements of this Order:

1. *Quarantine Area.* The area covered by this General Quarantine Order is the entire Commonwealth of Pennsylvania.

2. *Applicability and Time Period of Order.* The terms, provisions and requirements of this Order are applicable to all live and dead swine, swine manure, swine offal and swine germplasm, and any conveyances, containers, goods, products or materials capable of harboring ASF located within or to be shipped through or in the Commonwealth of Pennsylvania (Quarantine Area), from the effective date of this Order until the time this Order is rescinded in writing by the PDA.

3. *Definitions.* The following terms when used in this Order have the following meanings:

*Certificate of Veterinary Inspection (ICVI).* An official document issued by a federal, state, tribal, or accredited veterinarian certifying that the animals identified on the document have been inspected and were found to satisfy the regulations pertaining to their intended movement—within the same state, between states, or internationally.

*Direct movement to slaughter.* Transported to a facility for slaughter, without stops or unloading except for feeding and watering, during which the animals are not commingled with any other animals unless all are destined for slaughter.

*Market swine.* A swine that is registered and entered in a PDA-sponsored market swine class, weighing at least 210 pounds and approximately 6 months old.

*Pennsylvania health certificate.* A legible official document, made on a form (AAI-13) provided by the Department, prepared by an accredited Pennsylvania veterinarian or a representative of the Department certifying the health of animals described therein according to the health requirements established by this chapter.

*Recognized slaughter establishment.* A slaughter establishment operated under the Federal Meat Inspection Act (21 U.S.C.A. §§ 601—623, 641—645, 661, 671—680 and 691) or a State inspected slaughter establishment.

*Slaughter market.* An animal market approved by the Department for the sale of slaughter animals in accordance with Chapter 5 (relating to animal markets) and the act of June 22, 1931 (P.L. 650, No. 225) (3 P.S. §§ 431—439), known as the Farm Animal Dealer or Broker License Law.

*Swine Health Monitor.* A Swine Health Monitor (SHM) is a person who is familiar with swine and can recognize when swine are sick, has met the training and standards set forth in this quarantine order, and has been appointed by a fair board or livestock show committee to assess swine health.

*Veterinarian-Client-Patient Relationship.* A veterinarian-client-patient-relationship (VCPR) is defined by the American Veterinary Medical Association as the basis for interaction among veterinarians, their clients, and their patients and is critical to the health of an animal. A VCPR means that all of the following are required:

a. The veterinarian has assumed the responsibility for making clinical judgments regarding the health of the patient and the client has agreed to follow the veterinarians' instructions.

b. The veterinarian has sufficient knowledge of the patient to initiate at least a general or preliminary diagnosis of the medical condition of the patient. This means that the veterinarian is personally acquainted

with the keeping and care of the patient by virtue of a timely examination of the patient by the veterinarian, or medically appropriate and timely visits by the veterinarian to the operation where the patient is managed.

c. The veterinarian is readily available for follow-up evaluation or has arranged for the following: veterinary emergency coverage, and continuing care and treatment.

d. The veterinarian provides oversight of treatment, compliance, and outcome.

e. Patient records are maintained.

4. *Swine health monitor requirements.* A Swine Health Monitor (SHM) shall meet the following standards, demonstrate the following skills and perform the following duties.

a. A SHM shall undergo annual web-based training provided by the Pennsylvania Department of Agriculture.

b. At the conclusion of such training, the SHM applicant shall be required to pass an examination, meaning the applicant shall obtain a score of 75% or better, and upon successful completion, will be granted a certificate of completion allowing them to seek appointment, as set forth in this Order, to perform swine health monitoring duties for one year.

c. A SHM shall maintain a current working knowledge base, to be able to recognize animal health parameters, and identify clinical signs suggestive of foot and mouth disease (FMD), Classical Swine fever (CSF), and African Swine Fever (ASF), and other diseases that may become of consequence.

d. As part of their duties, a SHM shall monitor and assess the health of exhibition animals prior to unloading upon arrival, and on a daily basis during the totality of the animal exhibition.

e. Upon arrival of any swine at an animal exhibition, a SHM shall assess the health of each animal prior to the swine being allowed to unload from the conveyance.

f. A SHM shall not permit any animal showing any form of sickness or illness or any clinical signs suggestive of ASF, CSF or FMD, or any other animal on the same conveyance, to unload from the conveyance and shall notify the Veterinarian holding the VCPR with the fair board or livestock show committee (VCPR veterinarian) for examination and final health assessment of all animals on the conveyance prior to unloading.

g. Where the SHM finds it necessary to notify the VCPR veterinarian, no swine or animal on the conveyance shall be unloaded until the VCPR veterinarian has completed a final examination and health assessment of all animals on the conveyance and provided written documentation to the SHM that each animal is free from ASF, CSF, FMD, and any other suspected or identified disease of consequence.

h. During the exhibition, the SHM shall daily observe all swine at the exhibition and keep daily records of those observations to be reviewed with the VCPR veterinarian.

i. The SHM shall immediately report, and document such report in writing, providing the identification of the animal, date of report and suspicious disease signs, any clinical signs suggestive of FMD, CSF, ASF, or any other suspected or identified disease of consequence, to the VCPR veterinarian.

j. The VCPR veterinarian shall follow up on the SHM report by examining the animal and notify the State Animal Health Official (SAHO) when appropriate. All

such examinations shall be documented by the VCPR veterinarian in writing and provide the identification of the animal examined, the date of the examination, what disease assessment or testing was done and the final health assessment of the VCPR veterinarian.

5. *Exhibition Requirements.* Fair boards and livestock show committees shall establish a VCPR veterinarian and appoint a SHM for all animal exhibitions. No swine species shall be unloaded at an animal exhibition or exhibited in this Commonwealth unless each animal meets all the following criteria:

a. Is accompanied by a Pennsylvania health certificate or ICVI that was issued by a licensed and accredited veterinarian not more than 14 days before the date of the animal exhibition.

b. Shall be permanently identified by an official 840 series radio frequency identification (RFID) ear tag and the ear tag number recorded on the Pennsylvania health certificate or ICVI.

c. Any swine that does not have an 840 RFID tag at the time of arrival at the animal exhibition, shall not be unloaded and shall be returned to the premises from which it originated.

d. Where the swine does not have an 840 RFID tag at the time of purchase by an exhibitor, a tag may be acquired by one of the following methods:

i. Apply for premises ID through PDA and purchase 840 RFID tags through a distributor.

ii. Request an 840 RFID tag from an accredited veterinarian whom you hold with a veterinarian-client-patient-relationship.

e. Has been visually inspected for signs of disease prior to unloading at the exhibition by an accredited veterinarian, VCPR veterinarian or a SHM appointed by the fair board or livestock show committee or both, as required by Section 4. of this Order.

f. The SHM shall immediately report, in the manner required by Section 4 of this Order, any clinical signs of disease to the VCPR veterinarian holding the veterinarian-client-patient-relationship with the fair board or livestock show committee.

g. The VCPR veterinarian shall immediately follow up by examining the animal and notify the SAHO when appropriate and shall issue such written reports as are required in Section 4 of this Order.

h. Any swine showing signs of illness upon arrival at the animal exhibition shall not be permitted to unload and shall be reported to the accredited veterinarian holding the veterinarian-client-patient-relationship with the show or fair board.

6. *Exhibition Timing and Order.* All breeding swine animal exhibitions are to occur prior to the arrival of any market swine. Breeding swine shall be removed from the animal exhibition premises prior to any market swine arriving. Breeding swine animal exhibitions, excluding birthing or educational displays which are not competing, shall arrive, exhibit, and depart in a period no greater than 72 hours.

7. *Birthing Exhibitions.* Swine birthing exhibitions and educational displays which are not competing may occur concurrently with market swine animal exhibition as long as reasonable precaution is taken to ensure separation of the birthing swine and market swine, no cross-contamination between the two separate exhibition areas and the biosecurity of the swine birthing exhibition or educational display.

8. *PDA sponsored animal exhibitions.* All market swine exhibited in PDA sponsored animal exhibitions, fairs and market shows, along with meeting all other requirements of this Order, shall move directly to a PDA or USDA licensed slaughter facility following the animal exhibition and may not be diverted to premises other than a recognized slaughter establishment or a slaughter market in which the sales are designated slaughter only sales.

9. *Non-PDA sponsored animal exhibitions.* Non-PDA Sponsored animal exhibitions and shows including jackpot shows and 4-H roundups not occurring during a PDA sponsored animal exhibition, fair or show, where arrival, exhibition and departure of the swine occur within a 72 hour window and there is no public access to the animals other than observation during competitions, while being required to meet all other requirements of this Order, shall be exempt from the terminal slaughter requirement listed in paragraph 8.

10. *Conveyance, goods and other materials.* All conveyances, containers, goods, products or materials in contact with swine being shipped within or through the Commonwealth of Pennsylvania for animal exhibition shall be cleaned and disinfected in accordance with the following:

a. A conveyance used for the transportation of swine to animal exhibitions, fairs and shows shall be cleaned and disinfected by an exhibitor prior to each use and shall be free of visible accumulations of manure, bedding and other organic materials.

b. At the conclusion of swine animal exhibitions, fairs and shows and after all swine have left the premises, the fair board or livestock show committee shall ensure all holding pens and animal exhibition areas have had all bedding and other organic material removed and all areas, including fences, gates, stalls, holding pens, containers, housing, coming in contact with or through which swine were moved shall be put through the fair board or livestock show committee's cleaning and disinfection process.

11. *Violations/Penalties.* Any person violating the requirements of this Order shall be subject to enforcement and penalties as are allowed under the provisions of the Domestic Animal Law (3 Pa.C.S.A. § 2301 et seq.), which include, revocation of license, criminal prosecution, civil penalties of up to \$10,000 per violation, injunctive relief or any combination of these penalties.

12. *No Restriction on Further Action by PDA.* This Order shall not be construed as limiting PDA's authority to establish additional quarantine or testing requirements or take any actions otherwise permitted under applicable statute or regulation.

13. *Contact information.* Questions regarding this General Quarantine Order is to the Commonwealth of Pennsylvania, Department of Agriculture, Bureau of Animal Health, 2301 North Cameron Street, Harrisburg, PA 17110 or by telephone at 717-772-2852, or email at RA-ahds@pa.gov.

14. *Effective Date.* This Order replaces any previous order related to swine exhibition requirements and is

immediately effective upon the date of publication in the *Pennsylvania Bulletin*, and shall remain in effect unless rescinded or modified by subsequent order.

J. ASF is found in countries around the world, particularly in sub-Saharan Africa. To date, 11 Asian countries have reported outbreaks since August 2018, including Indonesia, Mongolia, North Korea, South Korea, China, the Philippines, Vietnam, Laos, Cambodia, Myanmar and Timor-Leste. China has confirmed more than 163 cases of ASF and has lost an estimated 200 million swine which amounts to thirty-three percent of all the pigs in the world. The disease is also spreading within the European Union (EU), and the virus has reached 10 member states of the EU.

K. Although ASF has not been detected in North America, Central America or South America, it is important to note ASF is rapidly spreading and has reached South Korea and the Philippines. Currently, there are only 6,000 miles separating the continental United States from this devastating disease.

L. Pennsylvania is ranked 12th nationally for pork production and 5th nationally for number of swine processed. ASF presents serious threats to animal health and the economic vitality of the Commonwealth’s swine production industry. Introduction of ASF into the commercial swine herds of this Commonwealth would result in severe economic losses to the infected herd owners as well as loss of valuable National and International trade opportunities for all of Pennsylvania’s pork producers.

M. The PDA through this Quarantine Order establishes reasonable requirements to allow for movement of swine and products into and within this Commonwealth for exhibition purposes, while protecting against the introduction of ASF into this Commonwealth’s commercial swine population.

#### *Order of Quarantine:*

With the foregoing recitals incorporated into this Order of Quarantine by reference, the Pennsylvania Department of Agriculture (PDA) under authority of the Domestic Animal Law, at 3 Pa.C.S.A. § 2329(c) and section 1702 of the Administrative Code of 1929 (71 P.S. § 442), hereby establishes an Interstate and International Order of Quarantine related to the dangerous transmissible disease African Swine Fever (ASF) and the importation or shipment of swine, alive or dead, and any conveyances, containers, goods, products or materials capable of harboring ASF, into and through the Commonwealth of Pennsylvania. The following are the conditions, restrictions and requirements of this Order:

1. *Quarantine Area.* This Interstate and International Quarantine Order is applicable to all states and territories of the United States and foreign countries and territories and the entire Commonwealth of Pennsylvania.

2. *Applicability and Time Period of Order.* The terms, provisions and requirements of this Order are applicable to all live and dead swine, swine manure, swine offal and swine germplasm, and any conveyances, containers, goods, products or materials capable of harboring ASF to be shipped through, in or into the Commonwealth of

Pennsylvania, from the effective date of this Order until the time this Order is rescinded in writing by the PDA.

3. *Definitions.* The following terms when used in this Order have the following meanings:

*Accredited veterinarian.* A licensed veterinarian jointly accredited by APHIS-USDA and the Department in the state the veterinarian is licensed to perform official duties on behalf of APHIS-USDA or the Department in the state the veterinarian is licensed to practice veterinary medicine. See accreditation standards established by 9 CFR Parts 160 and 161 (relating to definition of terms; and requirements and standards for accredited veterinarians and suspension or revocation of such accreditation).

*Animal Exhibition.* Any temporary spectacle, display, event, exhibition or act featuring performing animals including, but not limited to, circuses, pony rides, animal exhibits, weight pull events, and petting zoos. This definition shall exclude zoologic exhibits and Pennsylvania Game Commission menagerie permit holders.

*Breeding swine.* A sexually intact swine 6 months of age or older or a sexually intact swine 5 months of age or younger selected for producing offspring.

*Direct movement to slaughter.* Transported to a facility for slaughter, without stops or unloading except for feeding and watering, during which the animals are not commingled with any other animals unless all are destined for slaughter.

*Interstate Certificate of Veterinary Inspection (ICVI).* An official document issued by a federal, state, tribal, or accredited veterinarian certifying that the animals identified on the document have been inspected and were found to satisfy the regulations pertaining to their intended movement—within the same state, between states, or internationally.

*Market swine.* A swine that is registered and entered in a PDA-sponsored market swine class, weighing at least 210 pounds and approximately 6 months old.

*Recognized slaughter establishment.* A slaughter establishment operated under the Federal Meat Inspection Act (21 U.S.C.A. §§ 601–623, 641–645, 661, 671–680 and 691) or a State inspected slaughter establishment.

*Slaughter market.* An animal market approved by the Department for the sale of slaughter animals in accordance with Chapter 5 (relating to animal markets) and the act of June 22, 1931 (P.L. 650, No. 225) (3 P.S. §§ 431–439), known as the Farm Animal Dealer or Broker License Law.

*Swine Health Monitor.* A Swine Health Monitor (SHM) is a person who is familiar with swine and can recognize when swine are sick, has met the training and standards set forth in this quarantine order, and has been appointed by a fair board or livestock show committee to assess swine health.

*Veterinarian-Client-Patient Relationship.* A veterinarian-client-patient-relationship (VCPR) is defined by the American Veterinary Medical Association as the basis for interaction among veterinarians, their clients, and their patients and is critical to the health of an animal. A VCPR means that all of the following are required:

a. The veterinarian has assumed the responsibility for making clinical judgments regarding the health of the patient and the client has agreed to follow the veterinarians' instructions.

b. The veterinarian has sufficient knowledge of the patient to initiate at least a general or preliminary

diagnosis of the medical condition of the patient. This means that the veterinarian is personally acquainted with the keeping and care of the patient by virtue of a timely examination of the patient by the veterinarian, or medically appropriate and timely visits by the veterinarian to the operation where the patient is managed.

c. The veterinarian is readily available for follow-up evaluation or has arranged for the following: veterinary emergency coverage, and continuing care and treatment.

d. The veterinarian provides oversight of treatment, compliance, and outcome.

e. Patient records are maintained.

4. *Swine health monitor requirements.* A Swine Health Monitor (SHM) shall meet the following standards, demonstrate the following skills and perform the following duties.

a. A SHM shall undergo annual web-based training provided by the Pennsylvania Department of Agriculture.

b. At the conclusion of such training, the SHM applicant shall be required to pass an examination, meaning the applicant shall obtain a score of 75% or better, and upon successful completion, will be granted a certificate of completion allowing them to seek appointment, as set forth in this Order, to perform swine health monitoring duties for one year.

c. A SHM shall maintain a current working knowledge base, to be able to recognize animal health parameters, and identify clinical signs suggestive of foot and mouth disease (FMD), Classical Swine Fever (CSF), and African Swine Fever (ASF), and other diseases that may become of consequence.

d. As part of their duties, a SHM shall monitor and assess the health of exhibition animals prior to unloading upon arrival, and on a daily basis during the totality of the animal exhibition.

e. Upon arrival of any swine at an animal exhibition, a SHM shall assess the health of each animal prior to the swine being allowed to unload from the conveyance.

f. A SHM shall not permit any animal showing any form of sickness or illness or any clinical signs suggestive of ASF, CSF or FMD, or any other animal on the same conveyance, to unload from the conveyance and shall notify the Veterinarian holding the VCPR with the fair board or livestock show committee (VCPR veterinarian) for examination and final health assessment of all animals on the conveyance prior to unloading.

g. Where the SHM finds it necessary to notify the VCPR veterinarian, no swine or animal on the conveyance shall be unloaded until the VCPR veterinarian has completed a final examination and health assessment of all animals on the conveyance and provided written documentation to the SHM that each animal is free from ASF, CSF, FMD, and any other suspected or identified disease of consequence.

h. During the exhibition, the SHM shall daily observe all swine at the exhibition and keep daily records of those observations to be reviewed with the VCPR veterinarian.

i. The SHM shall immediately report, and document such report in writing, providing the identification of the animal, date of report and suspicious disease signs, any clinical signs suggestive of FMD, CSF, ASF, or any other suspected or identified disease of consequence, to the VCPR veterinarian.

j. The VCPV veterinarian shall follow up on the SHM report by examining the animal and notify the State Animal Health Official (SAHO) when appropriate. All such examinations shall be documented by the VCPV veterinarian in writing and provide the identification of the animal examined, the date of the examination, what disease assessment or testing was done and the final health assessment of the VCPV veterinarian.

5. *Exhibition Requirements.* Fair boards and livestock show committees shall establish a VCPV veterinarian and appoint a SHM for all animal exhibitions. No swine species shall be unloaded at an animal exhibition or exhibited in this Commonwealth unless each animal meets all the following criteria:

a. Is accompanied by a ICVI that was issued by a licensed and accredited veterinarian not more than 14 days before the date of the animal exhibition.

b. Shall be permanently identified by an official 840 series radio frequency identification (RFID) ear tag and the ear tag number recorded on the ICVI.

c. Any swine that does not have an 840 RFID tag at the time of arrival at a Commonwealth animal exhibition, shall not be unloaded at the exhibition or any place within the Commonwealth and shall be returned to the premises from which it originated.

d. Has been visually inspected for signs of disease prior to unloading at the exhibition by an accredited veterinarian, VCPV veterinarian or a SHM appointed by the fair board or livestock show committee or both, as required by Section 4. of this Order.

e. The SHM shall immediately report, in the manner required by Section 4 of this Order, any clinical signs of disease to the VCPV veterinarian holding the veterinarian-client-patient-relationship with the fair board or livestock show committee.

f. The VCPV veterinarian shall immediately follow up by examining the animal and notify the SAHO when appropriate and shall issue such written reports as are required in Section 4 of this Order.

g. Any swine showing signs of illness upon arrival at the animal exhibition shall not be permitted to unload and shall be reported to the VCPV accredited veterinarian holding the veterinarian-client-patient-relationship with the show or fair board.

6. *Exhibition Timing and Order.* All breeding swine animal exhibitions are to occur prior to the arrival of any market swine. Breeding swine shall be removed from the animal exhibition premises prior to any market swine arriving. Breeding swine animal exhibitions, excluding birthing or educational displays which are not competing, shall arrive, exhibit, and depart in a period no greater than 72 hours.

7. *Birthing Exhibitions.* Swine birthing exhibitions and educational displays which are not competing may occur concurrently with market swine animal exhibition as long as reasonable precaution is taken to ensure separation of the birthing swine and market swine, no cross-contamination between the two separate exhibition areas and the biosecurity of the swine birthing exhibition or educational display.

8. *PDA sponsored animal exhibitions.* All market swine exhibited in PDA sponsored animal exhibitions, fairs and market shows, along with meeting all other requirements of this Order, shall move directly to a PDA or USDA licensed slaughter facility following the animal exhibition

and may not be diverted to premises other than a recognized slaughter establishment or a slaughter market in which the sales are designated slaughter only sales.

10. All swine imported into the Commonwealth for animal exhibition shall meet interstate health requirements established at section 3.131 of PDA's regulations (7 Pa. Code § 3.131).

11. *Conveyance, goods and other materials.* All conveyances, containers, goods, products or materials in contact with swine being shipped within or through the Commonwealth of Pennsylvania for animal exhibition shall be cleaned and disinfected in accordance with the following:

a. A conveyance used for the transportation of swine to animal exhibitions, fairs and shows shall be cleaned and disinfected by an exhibitor prior to each use and shall be free of visible accumulations of manure, bedding and other organic materials.

b. At the conclusion of swine animal exhibitions, fairs and shows and after all swine have left the premises, the fair board or livestock show committee shall ensure all holding pens and animal exhibition areas have had all bedding and other organic material removed and all areas, including fences, gates, stalls, holding pens, containers, housing, coming in contact with or through which swine were moved shall be put through the fair board or livestock show committee's cleaning and disinfection process.

12. *Violations/Penalties.* Any person violating the requirements of this Order shall be subject to enforcement and penalties as are allowed under the provisions of the Domestic Animal Law (3 Pa.C.S.A. § 2301 et seq.), which include, revocation of license, criminal prosecution, civil penalties of up to \$10,000 per violation, injunctive relief or any combination of these penalties.

13. *No Restriction on Further Action by PDA.* This Order shall not be construed as limiting the PDA's authority to establish additional quarantine or testing requirements or take any actions otherwise permitted under applicable statute or regulation.

14. *Contact information.* Questions regarding this Interstate and International Quarantine Order is to the Commonwealth of Pennsylvania, Department of Agriculture, Bureau of Animal Health, 2301 North Cameron Street, Harrisburg, PA 17110 or by telephone at 717-772-2852, or email at RA-ahds@pa.gov.

### APPLICATIONS

#### THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

#### APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit [www.dep.pa.gov](http://www.dep.pa.gov) and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

Section I identifies the following applications and NOIs that have been received by DEP:

- Individual and General WQM Permit Applications Received—DEP provides a 15-day public comment period for Individual WQM Permit Applications for new and reissued permits. There is no public comment period for General WQM Permit NOIs.
- General NPDES Permit NOIs Received—There is no public comment period for General NPDES NOIs received.
- All Transfer and Minor Amendment Applications/NOIs Received—Transfer and Minor Amendment Applications/NOIs received for Individual and General WQM Permits and Individual and General NPDES Permits are identified but do not have public comment periods. DEP provides a 15-day public comment period for Individual WQM Permit Applications for amendments.

Additional information on these applications and NOIs may be reviewed by generating the “Applications and NOIs without Comment Periods Report” or, for Individual WQM Permit Applications, the “Applications Received with Comment Periods Report” on DEP's website at [www.dep.pa.gov/CWPublicNotice](http://www.dep.pa.gov/CWPublicNotice).

Section II identifies individual NPDES permit applications received and draft permits issued by DEP relating to sewage, industrial waste, industrial stormwater, MS4s, pesticides and CAFOs. A 30-day public comment period applies to these applications, except when a site-specific water quality criterion is used to establish effluent limitations, in which case a 45-day public comment period applies. The period for comment may be extended at the discretion of the Department for one additional 15-day period. Additional information, including links to draft permits and fact sheets that explain the basis for DEP's tentative determinations may be reviewed by generating the “Applications Received with Comment Periods Report” on DEP's website at [www.dep.pa.gov/CWPublicNotice](http://www.dep.pa.gov/CWPublicNotice). ## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

### **AIR QUALITY PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS**

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E,

or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

**49-00033F: Watsontown Brick Co.** (P.O. Box 68, Watsontown, PA 17777) for the modification of Source ID P301, a 5.5 TPH, 31 MMBtu/hr, natural gas-fired molded brick kiln (Kiln # 3), said modification consisting of a 9 TPY increase in SO<sub>x</sub> emissions and a 0.43 TPY increase in PM<sub>10</sub>/PM<sub>2.5</sub> emissions. This modification is the result of the production of up to 5,400 TPY of molded buff bricks containing up to 60% by weight clay and the balance consisting of shale. The air contaminant emissions from Kiln # 3 are controlled by a dry sorbent injection system (ID C301A) and two fabric collectors (ID C301B and ID C301C), in parallel. This kiln is located at the Watsontown Plant located in Delaware Township, **Northumberland County**.

The Department of Environmental Protection's (Department's) review of the information submitted by the company indicates that the air contamination source will comply with all regulatory requirements, including monitoring, recordkeeping, and reporting requirements, and pertaining to air contamination source and the emission of air contaminants including 25 Pa. Code Chapter 123, the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12 and 40 CFR 64, Compliance Assurance Monitoring. Based on this finding, the Department proposes to issue a plan approval for the proposed modification.

The emissions from Kiln # 3 will not exceed the following limits:

Particulate Matter (PM): 1.15 lbs/hr, 3.40 tons in any 12 CMP and 0.005 gr/dscf;

VOCs: 0.14 lbs/hr & 0.61 ton in any 12 CMP;

Hydrogen Fluoride (HF): 0.46 lbs/hr & 2.03 tons in any 12 CMP;

Hydrogen Chloride (HCl): 0.09 lbs/hr & 0.37 ton in any 12 CMP;

Total HAPs: 0.57 lbs/hr & 2.62 tons in any 12 CMP;

SO<sub>x</sub>: 11.59 lbs/hr & 16.10 tons in any 12 CMP;

NO<sub>x</sub>: 3.26 lbs/hr & 14.3 tons in any 12 CMP;

CO: 6.71 lbs/hr & 29.4 tons in any 12 CMP.

In addition to the emission limitations, the following is a brief description of the conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements:

1. The only clay/shale that may be processed by Source ID P301 shall be (a) mixtures of clay and Watsontown shale with a clay content not to exceed 60% by weight; or (b) 100% Watsontown shale. Additionally, the permittee shall not process more than 3 tons per hour and 5,400 tons per year of the clay/shale mixture identified previously in (a).

2. Within a 180 days from the date of buff brick firing in Source ID P301, the permittee shall source test P301 for hydrogen fluoride (HF), hydrogen chloride (HCl) and sulfur oxides (SO<sub>x</sub>). In addition, the permittee shall conduct particulate matter, nitrogen oxides and carbon monoxide stack testing at the outlet of the dry lime injection system's fabric collector to determine the mass emission rate (pounds per hour) of the respective air contaminants. The testing shall be performed while the kiln is firing 60% clay buff bricks at the maximum production rate of 3 tons per hour. The permittee shall follow the testing requirements specified in Section C, Site Level Requirements, of this plan approval for this testing. This emissions testing shall also include the initial performance evaluation of the required bag leak detection systems for fabric collectors C301B and C301C in order to satisfy the requirements of 40 CFR 64.4(e).

3. Control device IDs C301B and C301C shall be equipped with bag leak detection systems by the time source testing is conducted on Source ID P301.

4. (a) The permittee shall adhere to a range of 1"—5" of water column for pressure drop across ID C301B and C301C so that operation within that range shall provide a reasonable assurance of compliance. A departure from the specified range at any time shall be defined as an excursion. The permittee shall continue to comply with this condition until such time as the bag leak detection systems are installed, calibrated and put into operation. Thereafter, the data collected from the bag leak detection systems during the initial performance test shall be used to provide a reasonable assurance of compliance. (b) The permittee shall adhere to a range of 0%—5% opacity from the exhaust of ID C301B and C301C so that operation within that range shall provide a reasonable assurance of compliance. A departure from the specified range at any time shall be defined as an excursion. (c) The permittee shall adhere to having a chemical feed rate of no less than 50 pounds (40 pounds hydrated lime and 10 pounds sodium bicarbonate) per hour to ID C301A when processing 100% Watsontown shale, and no less than 72 pounds per hour of sodium bicarbonate to ID C301A when processing a mixture of 60% clay (maximum) and the balance being Watsontown shale, so that operation at that rate shall provide a reasonable assurance of compliance. A departure from the specified range at any time shall be defined as an excursion. (d) The permittee shall utilize approved QA/QC practices that are adequate to ensure continuing validity of data and proper performance of the pressure drop gauge installed on ID C301B and C301C. Once the bag leak detection systems have been installed, calibrated and put into operation, the permittee shall

utilize approved QA/QC practices that are adequate to ensure continuing validity of data and proper performance of the bag leak detection systems installed on ID C301B and C301C. (e) The permittee shall calibrate and check the accuracy of the pressure drop gauge taking into account manufacturer's specifications at least annually. Once the bag leak detection systems have been installed, calibrated and put into operation, the permittee shall calibrate and check the accuracy of the bag leak detection systems taking into account manufacturer's specifications at least annually. (f) The permittee shall maintain all monitoring equipment and stock parts necessary for routine repairs onsite. (g) The permittee shall ensure at least 90% of the monitoring data has been properly and accurately collected.

5. The injection rate for the ENCERTEC, Inc. model C-5138-DIFF-07 sorbent (ID C301A) shall be at least 40 pounds per hour of hydrated lime and 10 pounds per hour of sodium bicarbonate, when processing 100% Watsontown shale and at least 72 pounds per hour of sodium bicarbonate, when processing a mixture of 60% clay (maximum) and the balance being Watsontown shale.

6. With respect to the bag leak detection systems required for fabric collector C301B and C301C, the permittee shall submit a monitoring plan to the Department's Northcentral Regional Office at least 90 days prior to the scheduled source testing of Source ID P301 required by this plan approval. This monitoring plan shall identify how the bag leak detection systems will comply with the provisions of Condition # 007 of this plan approval for Source ID P301. Additionally, the monitoring plan shall also include the manufacturer's recommended procedures and specifications and good engineering practices for installing, testing and operating the bag leak detection systems.

The facility is a major (Title V) facility. If the Department determines that the source is modified in compliance with the plan approval conditions and the specifications of the application for Plan Approval 49-00033F, the requirements established in the plan approval will be incorporated into Title V Operating Permit 49-00033 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-3636.

To construct and maintain the following water obstructions and encroachments associated with the Waverly Site Development project proposing single family homes and a senior center:

1. To relocate approximately 812 linear feet of a UNT to Ackerly Creek (CWF, MF). The work consists of creating approximately 1,200 linear feet of a new watercourse channel.

2. A 2-inch diameter sewer force main crossing 1 linear foot of a UNT to Ackerly Creek (CWF, MF) and 156 linear feet of floodway.

3. To construct and maintain a roadway crossing of a UNT to Ackerly Creek (CWF, MF) consisting of a 55-foot long, 34" x 22" RCP culvert depressed 6-inches below the existing streambed elevation with upstream and downstream wingwalls.

4. To construct and maintain a roadway crossing of a UNT to Ackerly Creek (CWF, MF) consisting of a 82-foot long, 30" x 19" RCP culvert depressed 6-inches below the existing streambed elevation with upstream and downstream wingwalls.

The project is located to the left of PA-407 while traveling north approximately 0.8 mile after the intersection with Fairview Road (PA-4028) (Scranton, PA Quadrangle Latitude: 41° 30' 37" Longitude: -75° 42' 11") in Waverly Township, Northampton County.

**E0205221-006, O'Hara Township**, 325 Fox Chapel Road, Pittsburgh, PA 15238, O'Hara Township, **Allegheny County**; Pittsburgh ACOE District.

The applicant proposes to:

Remove 400 linear feet of existing 48-inch culvert, and to construct and maintain, in its place, approximately 450 linear feet of a restored section of Powers Run (WWF).

For the purpose of removing an undersized culvert and re-establishing the existing stream channel to its more natural condition. Construction will consist of approximately 0.97 acre of earth disturbance for the removal of the existing culvert, re-establishment of the stream channel, and streambank stabilization.

Emergency Permit (EP0205220-001) was previously authorized for the temporary stabilization of an existing 10-inch sanitary sewer line crossing. Failure of this stabilization effort promoted the authorization of a second Emergency Permit (EP0205220-012) for the temporary installation of an additional 40 linear feet to the existing 48-inch culvert, to support the sanitary line. A General Permit 5 registration (GP050200220-034) was acknowledged by the Allegheny County Conservation District, to replace and relocated the existing 10-inch sanitary sewer line under the restored stream channel. The temporary 40 feet of additional culvert extension was removed as part of authorization of the General Permit 5.

The project site is located north of Freeport Road and west of Powers Run Road (Fox Chapel, PA USGS topographic quadrangle; N: 40°, 30', 25.43"; W: -79°, 51', 11.72"; Sub-basin 18A; USACE Pittsburgh District), in O'Hara Township, Allegheny County.

enue, 5th Floor, Suite 520, Greensburg, PA 15601, Greensburg City, **Westmoreland County**; Pittsburgh ACOE District.

The applicant proposes to:

1. Place and maintain fill within 5 separate wetlands as follows: Wetland 2—0.04 acre (PEM), Wetland 3—0.10 acre (PEM/PSS), Wetland 4—0.03 acre (PEM), Wetland 5—0.66 acre (PEM/PSS); Wetland 7—0.02 acre (PEM/PSS). Wetland impacts total 0.85 acre.

2. Mitigation is proposed through the purchase of wetland mitigation bank credits from the Schrader Hollow Road Mitigation Bank.

For the purpose of site development to construct an industrial park building and associated infrastructure.

The project site is located Waltz Mill Flats Road, Ruffs Dale, PA 15679 Smithton, PA USGS topographic quad-

range; N: 40°, 12', 51"; W: -79°, 40', 22"; Sub-basin 19D; USACE Pittsburgh District), in Sewickley Township, Westmoreland County.

**PUBLIC WATER SUPPLY PERMITS**

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

**HAZARDOUS SITES CLEAN-UP  
UNDER THE ACT OF  
OCTOBER 18, 1988**

**PUBLIC NOTICE OF PROPOSED CONSENT  
ORDER AND AGREEMENT**

Perkasie TCE HSCA Site, 7th and Spruce Streets,  
Perkasie, PA 18944, Perkasie Borough, Bucks County.

The Department of Environmental Protection ("Department"), under the authority of the Pennsylvania Hazardous Sites Cleanup Act ("HSCA"), 35 P.S. § 6020.1113, has entered a Consent Order and Agreement ("CO&A") with 601 Perkasie Owner, LLC ("601 Perkasie") to resolve this party's liability for the Department's response costs incurred to abate the release of hazardous substances at the property located at 7th and Spruce Streets in Perkasie, PA ("the Site"), which is located within the larger Perkasie TCE HSCA Site. 601 Perkasie is a new company which was created by the present owner, 601 Spruce St Investment Partners, LLC for the purpose of financing the redevelopment of the Site. On or about June 21, 2021, 601 Perkasie purchased the Site from the present owner.

The larger Perkasie TCE HSCA Site is an area of commercial and residential properties which have been impacted by groundwater contamination from multiple sources including the Site. From 1946 until approximately 2008, the Site was used by another party which used hazardous substances including trichlorethylene ("TCE") as a degreasing solvent for onsite operations. In 2013, the Department investigated the Site and found TCE and its breakdown products in groundwater on and in the vicinity of the Site.

The Department has determined that hazardous substances within the meaning of Section 103 of the Hazardous Sites Cleanup Act, 35 P.S. § 6020.103, were released and threatened to be released on the Site. Pursuant to Section 501(a) of HSCA, 35 P.S. § 6020.501(a), the Department has incurred response costs associated with its investigation and other response actions at the Site. As an owner of the Site where hazardous substances were released and threatened to be released, 601 Perkasie is a responsible party which, pursuant to Section 701 of the Hazardous Sites Cleanup Act, ("HSCA") 35 P.S. § 6020.70, is potentially liable for the Department's response costs.

The Department and 601 Perkasie have signed a CO&A to resolve this company's proportionate liability in the amount of Ten Thousand Dollars (\$10,000) for response costs incurred at the Site. In consideration for this payment, 601 Perkasie will receive contribution protection as well as a Covenant Not to Sue regarding hazardous substances released and threatened to be released at the Site.

This notice is provided under Section 1113 of HSCA, 35 P.S. § 6020.1113, which states that, "settlement shall become final upon the filing of the Department's response to significant written comments". The CO&A is available for public review and comment. A public comment period on the CO&A will extend for 60 days from today's date. Persons may submit written comments regarding the agreement by mail to Dustin Armstrong, Environmental Protection Specialist, Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401 or by email to darmstrong@pa.gov. Further information or a copy of the Settlement Agreement can be obtained by contacting Mr. Armstrong at darmstrong@pa.gov or (484)

250-5723 or Gina M. Thomas, Esquire, Office of Chief Counsel at githomas@pa.gov or (484) 250-5930.

The Department has reserved the right to withdraw its consent to the CO&A if comments submitted during the public comment period disclose facts or considerations which indicate, in the Department's discretion, that the CO&A is inappropriate or not in the public interest.

**LAND RECYCLING AND  
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995  
PREAMBLE 2**

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

Fort Indiantown Gap National Guard Training Center, Fort Indiantown Gap Post (FIG) is providing the enclosed Joint Permit Application for a Pennsylvania Water Ob-

struction and Encroachment Permit for the Perimeter Security Fence Project (Project). The Project is in East Hanover and Union Townships, Lebanon County, Pennsylvania. The Project proposes to construct a perimeter security fence around the west, south, and eastern perimeter of Fort Indiantown Gap Training Facility. The fence will not be installed in one continuous fence, but rather sections of fencing that ultimately connects to existing fence and encloses the facilities. The fence will limit public accessibility and improve the safety of the facility. The proposed fence will be a 12-foot tall chain-link fence. A barbed wire apron on extension arms will be placed on top of the fence. The fence posts will be supported by concrete bases spaced at 10-foot intervals. Approximately 4.1 miles of fence will be installed as a part of this Project. The project area is not continuous and is comprised of multiple fence segments. For the most part, the fence is located adjacent to roadways or existing infrastructure and connects with existing sections of fence. The proposed design is the same as the existing fence.

To construct, operate and maintenance cart path resurfacing and shoulder widening of 2.6 miles of roadway (Stamm Road & Muddy Run Road) within Turbot Township. A total of twenty-five (25) floodway and or floodplain impacts are proposed along the 2.6 miles of roadway. These impacts include temporary and permanent disturbances to two (2) unnamed tributaries to Limestone Run; Warm Water Fisheries (Watercourses 1 and 2), to Muddy Run; Warm Water Fishery (Watercourse 3) and an un-

named tributary to Muddy Run; Warm Water Fishery (Watercourse 4). The southern portion of the roadway improvements project is located within the watershed of an unnamed tributary to Limestone Run (Watercourses 1 and 2). The northern portion of the project is located within the watershed of Muddy Run (Watercourses 3, 4). Twelve (12) wetland areas (Wetlands 1—12) were observed within or along the study area for the proposed roadway improvements project, but no temporary or permanent wetland impacts are proposed as part of this project. Most of the work will occur within the cart path and along the shoulders of the existing roadways. This project is located 0.2 mile east on Broadway Street from the Township Office.

ETC Northeast Pipeline, LLC ("ETC") proposes the installation of a permanent access road for the Mainline Valve Site # 1 ("MLV # 1") located in Jackson Township, Butler County. The permanent access road was installed without prior authorization from the Pennsylvania Department of Environmental Protection. The permanent access road was installed across three streams and one wetland. The culvert pipes for the access road were inadequately sized. As part of this project, ETC plans to reconstruct the stream crossings with appropriately sized culverts. The purpose of the MLV # 1 project is to provide safe and reliable access to the valve site for operational and maintenance activities. The MLV # 1 is along the Revolution Pipeline.

### PREAMBLE 2

**The following plans and reports were submitted under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).**

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Environmental Cleanup Program Manager in the DEP Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. #### **Notice of Projects under the Environmental Good Samaritan Act**

The Environmental Good Samaritan Act (27 Pa.C.S.A. §§ 8001—8114) provides certain protections and immunities from civil liability for landowners and persons who voluntarily undertake reclamation and abatement projects to address land and water adversely affected by mining or oil or gas extraction or exploration for natural resources and left in an unreclaimed condition or left discharging water pollution. In order for landowners and persons to qualify for immunity, the projects must be approved by the Department.

The following project proposals have been received by the Department of Environmental Protection. A copy of the proposals is available for inspection at the DEP Northwest (Meadville) Regional Office at 230 Chestnut Street, Meadville, PA 16335 between the hours of 9 a.m. and 4 p.m. Written comments or objections may be submitted by any person or any office or head of any Federal, State, or local government agency or authority to the Department at the same address within 30 days of this publication.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the proposal identification number; and a statement of sufficient detail to inform the Department of the basis of the comment or objection and the relevant facts upon which it is based.

#### **PROJECT PROPOSALS RECEIVED**

**EGSOG16-0001. Charles Wagner 01 Abandoned Well Plugging. Z Train Corp**, P.O. Box 571, 119 Bauer Road, Clarion, PA 16214. Z Train Corp is planning to plug an abandoned oil and gas well (API No. 031-01789) located in Paint Township, **Clarion County**. The well is in close proximity of several potentially sensitive environmental receptors. It is located approximately 25 feet from cold water fishes unnamed tributary within the Toby Creek watershed. Additionally, the well is situated among

settling ponds associated with surface mining. Due to the presence of this pooled surface water, there is concern that the well could experience accelerated corrosion as a result of exposure to continuous, near-surface moisture. The well plugging project will affect an area of less than 1 acre. Complete project proposal received June 7, 2020.

**EGSOG16-0002. Zion Baptist Church Lot 01 Abandoned Well Plugging. Z Train Corp**, P.O. Box 571, 119 Bauer Road, Clarion, PA 16214. Z Train Corp is planning to plug an abandoned oil and gas well (API No. 031-01786) located in Monroe Township, **Clarion County**. An unsafe scenario resulted after the church proceeded with its expansion due to the well emitting gas below roof height, the unknown subsurface condition of the well, and its proximity to the church's water source. The well plugging project will affect an area of less than 1 acre. Complete project proposal received June 7, 2020.

**EGSOG16-0003. W Scott and John W Port 01 Abandoned Well Plugging. Z Train Corp**, P.O. Box 571, 119 Bauer Road, Clarion, PA 16214. Z Train Corp is planning to plug an abandoned oil and gas well (API No. 031-01891) located in Clarion Township, **Clarion County**. Most of the original production equipment remains attached to the well and each equipment connection represents a potential leak. The structural integrity of the well and equipment is in fair condition and there was no sign of surface pollution noted at the time of inspection. However, this does not suggest that the well is mechanically sound below the surface. Due to the presence of gas measure by the PADEP, there is an elevated possibility of potential surface leaks and subsurface gas migration. The well plugging project will affect an area of less than 1 acre. Complete project proposal received June 7, 2020.

**EGSOG16-0004. Joh F Kuhn 01 Abandoned Well Plugging. Z Train Corp**, P.O. Box 571, 119 Bauer Road, Clarion, PA 16214. Z Train Corp is planning to plug an abandoned oil and gas well (API No. 031-01526) located in Clarion Borough, **Clarion County**. Due to the presence of gas, there is an elevated possibility of dangerous surface leaks and subsurface gas migration. The well plugging project will affect an area of less than 1 acre. Complete project proposal received June 7, 2020.

**EGSOG16-0005. Clarion University Foundation 01 Abandoned Well Plugging. Z Train Corp**, P.O. Box 571, 119 Bauer Road, Clarion, PA 16214. Z Train Corp is planning to plug an abandoned oil and gas well (API No. 031-01954) located in Clarion Township, **Clarion County**. Due to the lack of evidence suggesting that measures were taken to plug the well upon the conclusion of drilling and production it is imperative that action is taken to properly plug the well. There does not appear to be any indication of past surface pollution associated with the well, but it is unknown if any pollution is occurring at the subsurface. The well plugging project will affect an area of less than 1 acre. Complete project proposal received June 7, 2020.

### Availability of Technical Guidance

Technical guidance documents (TGD) are available on the Department of Environmental Protection's (Depart-

ment) web site at [www.dep.greenport.state.pa.us/elibrary/](http://www.dep.greenport.state.pa.us/elibrary/). The “Technical Guidance Final Documents” heading is the link to a menu of the various Department bureaus where each bureau’s final TGDs are posted. The “Technical Guidance Draft Documents” heading is the link to the Department’s draft TGDs.

#### *Ordering Paper Copies of Department Technical Guidance*

The Department encourages the use of the Internet to view and download TGDs. When this option is not available, persons can order a paper copy of any of the Department’s draft or final TGDs by contacting the Department at (717) 783-8727.

In addition, bound copies of some of the Department’s documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

#### *Changes to TGDs*

Following is the current list of recent changes. Persons who have questions or comments about a particular document should contact the person whose name and phone number are listed with each document.

#### *Final TGD: Minor Revision*

**DEP ID:** 563-2112-656. **Title:** Liners—Impoundments, Stockpiles, and Coal Refuse Disposal Areas. **Description:** This minor revision will change the name of this policy from Liners—Impoundments, Stockpiles, and Coal Refuse Disposal Areas, to Liners and Caps for Coal Refuse Disposal Areas.

This guidance document is used in the design of groundwater and surface water protection systems for coal refuse disposal areas and coal processing areas to prevent groundwater contamination. The TGD applies to impoundments and storage areas at coal refuse disposal or coal processing sites, or both, used for the storage or treatment of mine drainage, runoff contaminated by metals or sulfate, leachate from coal refuse disposal areas and water from coal processing operations.

Coal refuse disposal areas are regulated under 25 Pa. Code Chapters 88 and 90 (relating to anthracite coal; and coal refuse disposal), which is currently undergoing a proposed rulemaking in response to statutory changes. Concurrently, the Department will revise this TGD to incorporate caps used at coal refuse disposal sites in the future. A title change is part of that revision. Because the title of this document appears in the existing 25 Pa. Code Chapter 90, the Department is changing the title in this minor revision to allow the corrected title to be applied within the 25 Pa. Code Chapter 90 proposed rulemaking.

**Written Comments:** This revision reflects a minor administrative change with no substantive changes. Because this is a minor revision, no public comment period is warranted.

**Contact:** Questions regarding this TGD can be directed to Sharon Hill at [shill@pa.gov](mailto:shill@pa.gov) or (717) 787-6842.

**Effective Date:** July 17, 2021

**Draft TGD:** New Guidance

**DEP ID:** 563-2112-613. **Title:** Implementation of Remaining Regulations. **Description:** This guidance reflects the current Subchapter F/G regulations that were published October 22, 2016. The purpose of this guidance is to identify and explain conditions that must be met to qualify for and obtain a Subchapter F/G permit authoriza-

tion (remining of areas of pre-existing pollutional discharges) and the obligations of a mine operator under that permit. This guidance will also address procedures to be followed to modify these permit types and the standards to be met to qualify for bond release.

**Written Comments:** Interested persons may submit written comments on this draft TGD through Monday, August 16, 2021. Comments submitted by facsimile will not be accepted. All comments, including comments submitted by e-mail must include the commentator’s name and address. Commentators must submit comments using the Department’s online eComment tool at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or [ecomment@pa.gov](mailto:ecomment@pa.gov). Written comments can be mailed to the Technical Guidance Coordinator, Department of Environmental Protection, Policy Office, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063.

**Contact:** Questions regarding this TGD can be directed to Sharon Hill at [shill@pa.gov](mailto:shill@pa.gov) or (717) 787-6842.

**Effective Date:** Upon publication of notice as final in the *Pennsylvania Bulletin*.

## DEPARTMENT OF HUMAN SERVICES

### Nursing Facility Assessment Program for Fiscal Year 2021-2022

This notice announces the proposed assessment amount, the proposed assessment methodology and the estimated aggregate impact on nursing facilities that will be subject to the assessment under the Nursing Facility Assessment Program (Assessment Program) beginning in Fiscal Year (FY) 2021-2022.

#### *Background*

Article VIII-A of the Human Services Code (code) (62 P.S. §§ 801-A—815-A) authorizes the Department of Human Services (Department) to impose an annual monetary assessment on nonpublic and county nursing facilities in this Commonwealth each fiscal year until June 30, 2022. See 62 P.S. §§ 803-A and 815-A.

Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). To ensure receipt of FFP, Article VIII-A of the code requires the Department

to seek a waiver from the Centers for Medicare & Medicaid Services (CMS), if necessary, to implement the Assessment Program. See 62 P.S. § 812-A. For FY 2021-2022, the Department will submit a waiver request to CMS to implement changes to the Assessment Program as described in this notice. The implementation of these changes is contingent on CMS's approval of the waiver request.

For each fiscal year that the Assessment Program is implemented, the Secretary of the Department (Secretary) determines the aggregate amount of the assessment and the annual assessment rates in consultation with the Secretary of the Budget. See 62 P.S. § 804-A. The annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for FFP. See 62 P.S. § 804-A.

Before imposing an annual assessment for a fiscal year, the Secretary must publish a notice in the *Pennsylvania Bulletin*. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P.S. § 805-A.

This notice announces the assessment amounts, rates and methodology that the Department is proposing to implement in FY 2021-2022 and the estimated aggregate impact on nursing facilities that will be subject to the assessment in FY 2021-2022.

#### *Proposed Assessment Methodology and Rates*

During FY 2021-2022, the Department is proposing to modify the assessment methodology by now including in the lower rate tier nursing facilities with at least 115,000 MA days and with an overall occupancy rate of 90% or higher based on FY 2019-2020 resident days data. No other changes to the current assessment methodology have been made. For FY 2021-2022 the Department is also proposing a uniform \$0.95 increase to the FY 2020-2021 assessment rates for both tiers. The Department is proposing to calculate the annual assessment amount for each nonexempt nursing facility by multiplying its assessment rate by the facility's historical non-Medicare resident days for FY 2019-2020. The Department intends to continue its policy of annually updating the basis of the assessment to the most current year for which complete data is available. The Department will continue to collect the annual assessment amount in four equal quarterly installments. With these modifications, the Assessment Program will be implemented as follows:

For FY 2021-2022, the assessment will be imposed on all licensed nursing facilities in this Commonwealth except the following nursing facilities, which will be exempt from the Assessment Program:

- (1) State-owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.
- (3) Nursing facilities that provide nursing facility services free of charge to all residents.
- (4) Newly licensed nursing facilities that have not been licensed and operated by the current or previous owner until the nursing facility's days are included in the data used as the basis of the assessment. A nursing facility that changes ownership is not considered a newly licensed nursing facility for assessment purposes.

For FY 2021-2022, the Department is proposing to continue to assess nonexempt nursing facilities at two

rates. The Department is proposing to assess a rate of \$5.56 to the following five categories of nursing facilities:

- County nursing facilities.
- Nursing facilities that have 44 or fewer licensed beds.
- Certain continuing care retirement community (CCRC) nursing facilities (see 40 Pa.B. 7297 (December 18, 2010)).
- Nursing facilities with an MA occupancy rate of at least 94% based on FY 2019-2020 resident days as of March 17, 2021. For the purpose of qualifying for the lower assessment rate, a nursing facility's MA occupancy rate will be calculated as follows: MA Occupancy Rate = Sum of Total PA MA Days from the FY 2019-2020 resident days data ÷ Sum of Total Resident Days from the FY 2019-2020 resident days data, rounded to two decimals.
- Nursing facilities with at least 115,000 MA days and with an overall occupancy rate of 90% or higher based on the FY 2019-2020 resident days as of March 17, 2021. For the purpose of qualifying for the lower assessment rate, a nursing facility's overall occupancy rate will be calculated as follows: Overall Occupancy Rate = Sum of Total Resident Days from FY 2019-2020 resident days as of March 17, 2021 ÷ (number of licensed beds as of March 23, 2021 × 365), rounded to two decimals.

For all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010, the Department is proposing to assess these facilities at a rate of \$29.65.

#### *Aggregate Assessment Amounts and Fiscal Impact*

The Department estimates that if the proposed assessment rates are implemented the annual aggregate assessment fees for nonexempt nursing facilities will total \$436.313 million. The Department will use the State revenue derived from the assessment fees and any associated FFP to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

#### *Public Comment*

Interested persons are invited to submit written comments regarding this proposed assessment to the Department of Human Services, Office of Long-Term Living, Bureau of Policy and Regulatory Management, Attention: Montrell Fletcher, P.O. Box 8025, Harrisburg, PA 17105-8025 or at RA-PWOLTLNFPUBLICCOM@pa.gov. Comments must be submitted within 30 days of publication of this notice. See 62 P.S. § 805-A. After considering the comments, the Secretary will publish a second notice announcing the final assessment rates for FY 2021-2022. The Department will not begin collecting assessment fees until after the publication of the final assessment rate notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

MEG SNEAD,  
*Acting Secretary*

**Fiscal Note:** 14-NOT-1454. (1) General Fund; (2) Implementing Year 2021-2022 is \$436,313,000; (3) 1st Succeeding Year 2022-23 through 5th Succeeding Year 2026-27 are \$0; (4) 2020-21 Program—\$2,328,000,000; 2019-20 Program—\$662,269,000,000; 2018-19 Program—

## DEPARTMENT OF HUMAN SERVICES

### Supplemental Payments to Qualifying Hospitals

The Department of Human Services (Department) is announcing its intent to discontinue the Medical Assistance (MA) stability payments beginning with Fiscal Year (FY) 2021-2022. In addition, the Department intends to revise the payment reconciliation process to account for the discontinuation of these payments.

#### Background

The Department imposes a monetary assessment on the net inpatient revenue and net outpatient revenue of licensed hospitals in this Commonwealth, other than exempt hospitals under Article VIII-G of the Human Services Code (code) (62 P.S. §§ 801-G—816-G). The funds generated by the hospital assessment are used to make MA payments to hospitals and managed care organizations for inpatient and outpatient services, described in section 805-G(a)(1) and (2) of the code (62 P.S. § 805-G(a)(1) and (2)), as well as other purposes as approved by the Secretary for inpatient hospital, outpatient hospital and hospital-related services. The Department has used a portion of these funds for fee-for-service (FFS) MA Stability Payments annually beginning in FY 2010-2011 and continuing through FY 2020-2021. This payment is in the approved State Plan.

#### Discontinuation of MA Stability Payments

Previously, the Commonwealth's budget included appropriated funds for the MA Stability payments. The Commonwealth's budget for FY 2021-2022 does not include appropriated funding for the MA Stability payments. For this reason, the Department intends to submit a State Plan Amendment to provide for the discontinuation of MA Stability Payments for all hospitals, including what is referred to in the State Plan as new hospitals (new hospitals), beginning with FY 2021-2022. The Department is not otherwise changing its approved State Plan provisions addressing the qualifying criteria or payment methodology for other payments to new hospitals.

#### Payment Reconciliation

The Department also intends to amend the State Plan to modify the payment reconciliation process used to determine the available funding for certain MA payments funded with assessment revenues. Specifically, effective with the reconciliation of payments for FY 2021-2022 and continuing for subsequent years the Department is proposing to:

- a) Specify the periods for which the MA Stability Payment is subject to reconciliation; and,
- b) Change the amount of available funding for payments to be reconciled to \$201.847 million (and of this amount, specify that the portion attributable to the inpatient disproportionate share payments and direct medical education payments is \$40.959 million).

The Department is not otherwise changing its approved State Plan provisions addressing the payment reconciliation process.

#### Fiscal Impact

Effective FY 2021-2022, and subject to approval by the Centers for Medicare & Medicaid Service, the Department will no longer fund \$150.335 million in total funds for this supplemental payment. The Department has increased the available funding for outpatient hospital services made available through the Physical Health HealthChoices managed care program by \$150.000 million in total funds effective January 1, 2021.

#### Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. The Department will review and consider comments received within 30 days.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

## STATE TAX EQUALIZATION BOARD

### 2020 Common Level Ratio

The State Tax Equalization Board (Board) has established a Common Level Ratio (CLR) for each county in this Commonwealth for the calendar year 2020. The Board is governed by sections 1500—1521 of the Community and Economic Development Enhancement Act (act) (71 P.S. §§ 1709.1500—1709.1521).

The act requires the Board to use statistically acceptable techniques, to make the methodology for computing ratios public and to certify, prior to July 1, the ratio to the Chief Assessor of each county annually.

The statistically acceptable technique which the Board used for the 2020 CLR is to determine the arithmetic median of the individual sales ratios for every valid sale received from the county for the calendar year 2020.

The methodology used is to include every valid sale as verified by the county assessor. The Board has defined high and low limits by computing outliers based on an interquartile range (IQR-factor of 3) to establish an upper and lower boundary. This outlier trimming is based on standards recommended by the International Association of Assessing Officers. After the boundary limits are defined, the Board has utilized the remaining valid sales, rejecting those sales which exceed the limits. The resulting arithmetic median ratio is the ratio which the Board is certifying as the CLR for each county for 2020.

The CLRs for 2020 are listed as follows.
