Commonwealth pesticide registration can be checked at <https://www.paplants.pa.gov/ProductRegFSA/BrandSearch.aspx>.

The Department of Agriculture (Department) evaluates potential pesticide active ingredients for inclusion on this list on an annual basis. Candidates for addition to this list should be submitted to the Department by June 1st of each year. This list will be reviewed and updated September of each calendar year. Deletions of active ingredients will occur on an as-needed basis. APPLICATIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit www.dep.pa.gov and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the previously listed person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate

Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

18-00021D: Avery Dennison Performance Polymers (171 Draketown Road, Mill Hall, PA 17751) for the construction and operation of the R-900 emulsion reactor system at their facility located in Bald Eagle Township, **Clinton County**. This is a State Only “Synthetic Minor” facility. The Department’s review of the information contained in the application submitted by Avery Dennison Performance Polymers, indicates that the sources will comply with all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the fugitive air contaminant

emission requirement of 25 Pa. Code § 123.1, the particulate matter emission limitation of 25 Pa. Code § 123.13, the sulfur oxide emission limitation of 25 Pa. Code § 123.21 and the visible emission limitation of 25 Pa. Code § 123.41. The plan approval, if issued, will subsequently be incorporated into the State Only (Synthetic Minor) operating permit via an administrative amendment in accordance with 25 Pa. Code § 127.450 once the permittee has complied with all terms and conditions of the plan approval. Based upon this finding, the Department proposes to issue a plan approval for the construction and operation of the R-900 emulsion reactor system. The following is a summary of the types of conditions the Department intends to place in the plan approval to ensure compliance with all applicable regulatory requirements. All volatile organic compounds captured from the R-900 emulsion reactor system incorporated into Source ID P102 shall be ducted to Control Device C102C. The volatile organic compound destruction efficiency of Control Device C102C shall be equal to, or greater than 99% or a VOC concentration not to exceed 20 parts per million (as propane) by volume, dry basis (ppmdv) at 3% oxygen at all times. The combustion chamber temperature of Control Device C102C shall not be less than 1,600°F at any time while controlling air contaminant emissions from the R-900 emulsion reactor system incorporated in Source ID P102. Work practice requirements to operate the sources and control devices with good air pollution control practices. Recordkeeping and Reporting conditions to verify compliance with the emission limitations and all applicable requirements. A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at 570-327-3636. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Program Manager, Air Quality Program, Department of Environmental Protection, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market

Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description:

The exemption from the requirement to revise the Official Plan for the Glasgow Family Trust subdivision, DEP Code No. A3-44912-002-2E, APS Id 1045577, is disapproved. The proposed subdivision consists of one new single-family residential lot to utilize an individual on-lot sewage disposal system. The proposed subdivision is located off of Front Street and Old Barn Lane in Newton Hamilton Borough. This plan is disapproved because it does not qualify as an exemption from the requirement to revise the Official Plan. It does not qualify because the subdivision proposes the use of on-lot sewage disposal systems in an area of the municipality where the Official Plan designates that area as an existing or future public sewer service area as per Chapter 71, Section 71.51(b)(1)(i). It also does not qualify because the subdivision proposes the use of on-lot sewage disposal systems in an area within a high quality or exceptional value watershed as per Chapter 71, Section 71.51(b)(1)(iii).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report

provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. WATER PROGRAMS REQUEST FOR COMMENT

Proposed Total Maximum Daily Loads (TMDLs) for the UNT South Branch Conewago Creek Watershed in Adams County.

Central Office: Bureau of Clean Water, P.O. Box 8774, Harrisburg, PA 17105-8774.

The Department of Environmental Protection will accept comments on the proposed "TMDLs" developed for an Unnamed Tributary to (UNT) the South Branch Conewago Creek under Section 303(d) of the Clean Water Act. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included stream segments listed as impaired for aquatic life in the watershed. The impairments addressed by this document were caused by excessive siltation due to agriculture.

There currently are no state or Federal in-stream numerical water quality criteria for sediment. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. The proposed TMDL document sets allowable loading of sediment in the UNT South Branch Conewago Creek Watershed. The "TMDLs" included allocations for nonpoint sources, reserves for future point sources, as well as margin of safety factors. Nonpoint source load allocations were made for cropland, hay/pasture land and streambank

source sectors present in the watershed. Data used in establishing the TMDL were primarily generated using a water quality analysis model (Model My Watershed) made available through the Stroud Water Research Center.

The following table shows the estimated current sediment loadings within the watershed, the prescribed "TMDL" values, and % reductions needed under annual average conditions.

<i>Summary of "TMDL" -Based Load Reductions (expressed as annual averages) in the UNT South Branch Conewago Creek Watershed</i>				
<i>Watershed</i>	<i>Pollutant</i>	<i>Existing Load (lbs/yr)</i>	<i>"TMDL" (lbs/yr)</i>	<i>% Reduction</i>
UNT South Branch Conewago Creek	Sediment	1,835,010	543,517	70

The following table shows the estimated current sediment loading within the watershed, the prescribed "TMDL" values, and % reductions needed under 99th percentile daily loading conditions.

<i>Summary of "TMDL" -Based Load Reductions (expressed as 99th percentile daily loading) in the UNT South Branch Conewago Creek Watershed</i>				
<i>Watershed</i>	<i>Pollutant</i>	<i>Existing Load (lbs/d)</i>	<i>TMDL (lbs/d)</i>	<i>% Reduction</i>
UNT South Branch Conewago Creek	Sediment	99,336	33,321	66

The proposed TMDL document can be viewed at: <http://www.dep.state.pa.us/dep/deputate/watermgt/wqp/wqstandards/tmdl/UNTSouthBranchConewagoTMDL.pdf>

Otherwise, copies of the proposed TMDL document or supporting information may be requested by emailing Michael Morris at michamorri@pa.gov, (717) 772-5670.

Written/typed comments will be accepted at the above email address. While emailed comments are preferable, written comments may also be sent by mail to:

Michael Morris, Water Program Specialist
Bureau of Clean Water
Pennsylvania Department of Environmental Protection
Rachel Carson State Office Building
400 Market Street
Harrisburg, PA 17105

Comments must be submitted within 30 days after publication of this notice in the September 4, 2021, issue of the *Pennsylvania Bulletin*. The Department will consider all written/typed comments submitted within the deadline prior to submitting the final TMDL document to EPA for approval.

Draft TGD: New Guidance

DEP ID: 310-2100-002. **Title:** Chapter 105 Alternatives Analysis Technical Guidance Document. **Description:** This TGD provides guidance on the preparation of a Chapter 105 alternatives analysis. This TGD consolidates existing guidance and expands upon that guidance as follows:

- Clarifies the appropriate level of analysis required for evaluating alternatives for projects requiring an Individual Water Obstruction and Encroachment Permit under 25 Pa. Code Chapter 105 (relating to dam safety and waterway management).
- Provides guidelines for determining if an alternative should be considered practicable.
- Establishes a common, complete and consistent level of understanding of the information needed by the Department to adequately review alternatives analyses for Water Obstruction and Encroachment Permit applications proposing impacts to aquatic resources.

Written Comments: Interested persons may submit written comments on this draft TGD through Monday, October 4, 2021. Comments, including comments submitted by e-mail must include the commentator's name and address. Commentators are encouraged to submit comments using the Department's online eComment tool at www.ahs.dep.pa.gov/eComment or by e-mail to ecomment@pa.gov. Final TGD

DEP ID: 800-0810-001. *Title:* Guidelines for Implementing Area of Review Regulatory Requirement for Unconventional Wells. *Description:* This final TGD informs unconventional well operators engaged in hydraulic fracturing activities how to comply with the requirements of The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the 2012 Oil and Gas Act (58 Pa.C.S. §§ 2301—3504), 25 Pa. Code Chapter 78a (relating to unconventional wells) and other applicable laws. The Department developed this final guidance to facilitate appropriate risk mitigation for unconventional well operators. The final TGD includes a risk-based classification scheme for offset well locations and commensurate levels of monitoring;

communication incident management, reporting and resolution; and operational alternatives and technical considerations for different anticipated incident scenarios. This final guidance also provides an overview of the Department's well adoption permitting process.

The Department published the interim final guidance document in the *Pennsylvania Bulletin* at 46 Pa.B. 6392 (October 8, 2016). Based on the approximately 55 comments from 10 commenters received during the 60-day comment period, the Department made several editorial and substantive changes to the guidelines. These changes included clarifying the ability for operators to survey an area that extends beyond the prescriptive area of review regulatory language, removing language assigning responsibility for recently plugged offset wells to the operator who had completed the plugging, relocating language pertaining to briefing the hydraulic fracturing operations team about adjacent operator coordination, updating incident reporting language and modifying operator coordination with Department field inspection staff ahead of hydraulic fracturing.

Contact: Questions regarding this TGD can be directed to Seth Pelepkko at mipelepkko@pa.gov or (717) 772-2199.

C. Additional Class of Disproportionate Share Payments

Effective March 1, 1998, the Department established a new class of disproportionate share payments to hospitals which render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of MA Program revisions under the act of May 16, 1996 (P.L. 175, No. 35).

Effective January 15, 1999, the Department established a new class of disproportionate share payments to include a Charity Care component of the Community Access Fund. A disproportionate share payment will be made to qualifying hospitals based on each hospital's percentage of charity care cost to the total charity care costs of all qualifying hospitals. The Department also established a disproportionate share payment for those hospitals which the Department has determined advanced its goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth.

The following hospitals qualify for this payment:

ABINGTON MEMORIAL HOSPITAL
 ALBERT EINSTEIN MEDICAL CENTER
 ALFRED DUPONT HOSPITAL FOR CHILDREN

Updates to the Medical Assistance Program Fee Schedule: Procedure Codes for the Administration of SARS-CoV-2 Vaccines to Beneficiaries who are Homebound

In accordance with 55 Pa. Code § 1150.61(a) (relating to guidelines for fee schedule changes), the Department of Human Services (Department) announces the addition of a procedure code and updates to procedure codes on the Medical Assistance (MA) Program Fee Schedule for the administration of vaccines for the novel coronavirus (SARS-CoV-2).

The MA Program Fee Schedule is being revised to pay providers \$75 per dose to administer SARS-CoV-2 vaccines to MA beneficiaries who are homebound, effective April 1, 2021, through June 7, 2021, subject to the approval of the Centers for Medicare & Medicaid Services (CMS). This rate was developed to account for the additional costs associated with traveling and administering SARS-CoV-2 vaccines to MA beneficiaries who are homebound.

The Department added pricing modifier AT and place of service 12 (Home) to the following SARS-CoV-2 administration codes to indicate the vaccine was administered to a beneficiary who is homebound.

<i>Vaccine Manufacturer</i>	<i>Code</i>	<i>Code Description</i>	<i>MA Fee</i>
Pfizer, Inc.	0001A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease (COVID-19)) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; first dose	\$75
	0002A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease (COVID-19)) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; second dose	\$75

<i>Vaccine Manufacturer</i>	<i>Code</i>	<i>Code Description</i>	<i>MA Fee</i>
Moderna, Inc.	0011A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease (COVID-19)) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; first dose	\$75
	0012A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease (COVID-19)) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; second dose	\$75
Janssen Biotech, Inc.	0031A	Immunization administration by intramuscular injection of severe acute syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease (COVID-19)) vaccine, DNA, spike protein, adenovirus type 26 (Ad26) vector, preservative free, 5x1010 viral particles/0.5mL dosage, single dose	\$75

On June 8, 2021, CMS announced the Medicare program will provide an additional payment of \$35 for SARS-CoV-2 vaccines administered to individuals in their homes. This payment will be made in addition to the current \$40 SARS-CoV-2 administration fee when the vaccine is administered to an individual in their home. To facilitate this additional payment, CMS established a new procedure code, M0201, to utilize when SARS-CoV-2 vaccines are administered to individuals in their homes. This procedure code was added to the MA Program Fee Schedule, effective for dates of service on and after June 8, 2021.

The Department updated the MA Program Fee Schedule to include the procedure code for the administration of SARS-CoV-2 vaccines to beneficiaries who are homebound as set forth as follows:

<i>Code</i>	<i>Code Description</i>	<i>MA Fee</i>
M0201	COVID-19 Vaccine Administration at Home	\$35

The Department issued an MA Bulletin to providers enrolled in the MA Program advising of the addition and updates to these procedure codes on the MA Program Fee Schedule.

Fiscal Impact

The estimated cost for Fiscal Year 2021-2022 is \$1.024 million in Total funds for Fee-for-Service.

Public Comment

Interested persons are invited to submit written comments regarding the change to the MA Program Fee Schedule to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision to the MA Program Fee Schedule.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

(i) *Drawing restrictions:*

(1) To be eligible to participate in the Drawing, entrants must have complied with the requirements of these rules.

The Fish and Boat Commission (Commission) has approved guidelines with regard to encouraging public participation on possible changes to the designation of streams, stream sections or lakes for special regulation programs. Under 58 Pa. Code Chapter 65 (relating to special fishing regulations), the Commission designates or redesignates certain streams, stream sections and lakes as being subject to special fishing regulations. These designations and redesignations are effective after Commission approval when they are posted at the site and a notice is published in the *Pennsylvania Bulletin*. Under the Commission’s guidelines, a notice concerning the proposed designation or redesignation of a stream, stream section or lake under special regulations ordinarily will be published in the *Pennsylvania Bulletin* before the matter is reviewed by the Board of Commissioners.

At the next Commission meeting on October 25 and 26, 2021, the Commission will consider taking the following actions with respect to waters subject to special fishing regulations under 58 Pa. Code Chapter 65, effective upon publication in the *Pennsylvania Bulletin*.

58 Pa. Code § 65.9. Big bass waters program

The Commission will consider adding the following water to its list of “Big Bass Regulation” waters regulated and managed under 58 Pa. Code § 65.9 (relating to big bass):

County	Water
Lehigh	Leaser Lake

The Commission will consider removing the following water from its list of “Big Bass Regulation” waters regulated and managed under 58 Pa. Code § 65.9:

County	Water
Somerset	Somerset Lake

58 Pa. Code § 65.11. Panfish enhancement

The Commission will consider adding the following water to its list of "Panfish Enhancement" waters regulated and managed under 58 Pa. Code § 65.11 (relating to panfish enhancement):

County	Water	Species
Lehigh	Leaser Lake	Crappie and Yellow Perch

58 Pa. Code § 65.17. Catch and release lakes

The Commission will consider removing the following water from the catch and release lakes program:

County	Water
Beaver	Raccoon Creek State Park Upper Pond (Group Camping Area Lake)

58 Pa. Code § 65.19. Stocked trout waters open to year-round fishing

The Commission will consider adding the following waters to its list of "stocked trout waters open to year-round fishing" waters:

County	Water
Huntingdon	Lake Perez

County	Water
Lehigh	Leaser Lake
Cumberland	Opossum Lake

At this time, the Commission is soliciting public input concerning the previously listed designations. Persons with comments, objections or suggestions concerning the designations are invited to submit comments in writing to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

*Department of Drug and Alcohol Programs—
Standards for Drug and Alcohol Recovery House
Licensure Regulation No. 74-4 (# 3294)*

On June 14, 2021, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Drug and Alcohol Programs (Department). This rulemaking amends 28 Pa. Code §§ 701.1, 701.11, and 701.12 and adds 28 Pa. Code Chapter 717. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*, with the exception of 28 Pa. Code § 717.14 that shall take effect 180 days after publication in the *Pennsylvania Bulletin*.

Section 2313-A of the act of December 19, 2017 (P.L. 1187, No. 59) (Act 59) directs the Department to “promulgate final-omitted regulations for the licensure or certification of drug and alcohol recovery houses that receive funds or referrals from the department, or a Federal, State or other county agency, to ensure that a drug and alcohol recovery house provides a safe environment for residents.” 71 P.S. § 613.13. This final-omitted regulation adopts requirements for drug and alcohol recovery houses (DARH) in Chapter 717 (relating to standards for drug and alcohol recovery house licensure) as follows: General provisions; Exceptions; Licensure; Fines; Financial auditing; Staff and volunteers; Residents; Physical plant standards; Safety and emergency procedures; Unusual incident reporting; and Complaint management.

The final-omitted regulatory package was first submitted to this Commission on March 1, 2021, and withdrawn and resubmitted on March 15, 2021 to include additional forms. In response to public comments submitted on the earlier versions of the rulemaking, the Department withdrew the regulation on April 9, 2021 to review and address commentators’ concerns. The Department submitted a revised final-omitted regulatory package on June 14, 2021.

After a review of the final-omitted regulation, consideration of the comments from the regulated community, the public, and the discussion at our July 15, 2021 public meeting, we find that the rulemaking is not in the public interest because it does not meet the following criteria: statutory authority; possible conflict with statute; consistency with the intent of the General Assembly; economic and fiscal impacts of the regulation; protection of the public health, safety and welfare; clarity and lack of ambiguity; reasonableness; implementation procedures and timetable for compliance; and compliance with the provisions of the Regulatory Review Act. 71 P.S. § 745.5b(a) and (b)(1)—(3) and (6).

Implementation procedures and timetable for compliance; Protection of the public health, safety and welfare; Clarity and lack of ambiguity; Economic and fiscal impacts; Compliance with provisions of the Regulatory Review Act

Our main concern is that there are numerous provisions where the regulatory language in the regulation and/or the description in the Preamble do not provide the regulated community with sufficient information or direc-

tion to ensure compliance with the DARH standards. The rulemaking establishes two levels of licensure: full and provisional. The regulatory language for the provisional licensure process and its accompanying fee structure is less clear than those provisions for initial licensure and license renewal.

The Department notes that six commentators asked for a definition of “provisional license.” It responded that the provisional licensure process is described in the regulation under Section 717.8 (relating to provisional licensure). We concur with commentators that the regulation would be made clear if “provisional license” were defined. We also suggest that along with defining “provisional license,” the term “full licensure” and the definition of “license” be revised to include both levels.

Based on the nature of the comments received, the rulemaking should be rewritten so that the regulated community fully understands the fee structure for applying for licensure, including the issuance of a provisional license and extensions. The Preamble and the regulation should address the following questions: whether a provisional licensure fee is assessed each time it is extended under Section 717.8; and whether a fee is assessed when a “regular” (full) license is issued under Section 717.8(d)? A clearly stated fee schedule is essential information that every licensee and applicant should understand as they navigate the licensure process.

The Preamble explains that license renewal is on an annual basis, but Section 717.6 (relating to application) does not state the length of time of the initial license and it is also unspecified whether the renewal of a license is to occur on the date of issuance or calendar year (Section 717.6(b)).

Under Section 717.9 (relating to restriction on license), Subsection (a) states that licensure applies to the named DARH and the designated premises and is nontransferable. Subsection (b) provides for notification of change of ownership, name, location, maximum capacity, and the closing of the DARH. Failure to notify the Department leads to automatic expiration under Subsection (c). What is the purpose of Subsection (a) if the license is transferable with notification? If the license is specific and not transferable, how does the license not automatically expire if the DARH is moved to a different place? If saying that the license is transferable is a misstatement, what is the process to approve a transfer?

The final-omitted rulemaking does not address the visitation and inspection process. Section 717.10 (relating to right to enter and inspect) authorizes a representative of the Department to enter, visit, and inspect a DARH that is licensed or applying for a license. Section 717.11(a) (relating to notification of deficiencies) provides that a Department representative will leave forms with the applicant or licensee “to address areas of noncompliance with regulations.” This notification process is not explained in the Preamble.

Protection of the public health, safety and welfare; Clarity and lack of ambiguity; Reasonableness; Implementation procedures and timetable for compliance

The Department states that it neither wants to create confusion nor give the impression that DARHs are treatment facilities. Earlier versions of this regulation, which

were subsequently withdrawn, amended Chapter 709 (relating to standards for licensure of freestanding treatment facilities) to include the DARH regulation. To alleviate commentators' concerns that placement of these standards in Chapter 709 could lead to discriminatory zoning, the Department moved the DARH standards out of Chapter 709 and into their own Chapter 717.

The Department also includes DARHs in Sections 701.11 and 701.12 (relating to exceptions to this part; and revocation of exceptions) which adds them to the lists of entities that may seek regulatory exceptions and may have regulatory exceptions revoked. We asked the Department why these exceptions are necessary when exceptions are included in Chapter 717. Does this not add another layer of exceptions to already existing exceptions? To expect licensees and applicants to comprehend how these provisions intersect and are to be applied is not reasonable. According to the Department, these updates to Chapter 701 were necessary because the chapter applies to the entire part, including Chapter 717. We disagree and believe that this approach actually detracts from the Department's stated goal of eliminating confusion or creating the misperception that DARHs are treatment facilities.

The Department explains in the Preamble that in order to maintain consistency in its internal processes for the handling of licensure, inspections, and approvals of all the entities it regulates, it adopts a regulatory structure for DARH licensure that is akin to the structure for licensure of freestanding drug and alcohol treatment facilities. This approach, while it may provide uniformity in how the Department operates, has not entirely eliminated the regulated community's confusion or concerns. The regulated community acknowledges the Department's efforts to eliminate misperceptions. But certain terms and phrases that are typically affiliated with medical treatment facilities such as "discharge" (Section 717.20(c)), "intake and admission" (Section 717.22) and a reference to "maximum capacity" (Section 717.9(b)(4)) remain in Chapter 717.

The Department states that it has developed these regulations to ensure that DARHs provide individuals with substance abuse disorders with a safe environment that promotes recovery. However, the lack of clarity as it pertains to implementation procedures and timetables for compliance of key provisions is a concern to this Commission. A regulation is not in the public interest if members of the regulated community or public cannot discern, based upon their reading of the regulation, what a term means, how a procedure is to be implemented or the timeline for compliance.

Clarity and lack of ambiguity; Protection of the public health, safety and welfare

Section 717.28(2) (relating to resident requirements) includes the term "illicit drugs." We asked the Department at the public meeting what the term encompasses. The Department's response was that the term has, in the absence of a specific definition, its common understanding, which would be a drug that the person uses or possesses unlawfully. Regulations have the full force and effect of law and establish a binding norm that is applicable to all that fall under its jurisdiction. Therefore, regulations must be clear and unambiguous. If residents are being evicted for use of an illicit drug, could they make a claim that the term is too vague and did not realize that the provision had been violated? We believe so. The regulated community is entitled to guidance, as are residents who are not only paying rent, but are also

challenged by substance abuse disorders. The term "illicit drugs" is also used in Sections 717.17(b)(5) and 717.31(a)(2) (relating to personnel management; and unusual incidents). The Department should define this term and not rely on its common understanding to enforce residency and licensure requirements.

Protection of the public health, safety and welfare; Implementation procedures and timetable for compliance; Clarity and lack of ambiguity

Section 2315-A of Act 59 requires the Department to create and maintain a registry on its publicly accessible website of all licensed or certified DARHs within the Commonwealth, which must be updated annually by the Department. 71 P.S. § 613.15. In order to receive and maintain licensure or certification, a DARH must be in compliance with all Federal, State, and local laws, including, but not limited to, the Americans with Disabilities Act of 1990 (Public Law 101-336, 104 Stat. 327), as required under Section 2318-A of Act 59. 71 P.S. § 613.18. Further, failure to comply or remain in compliance shall result in loss of licensure or certification and *removal from the registry*. (Emphasis added.)

In the Preamble to final-omitted rulemaking, the Department addresses questions raised by commentators regarding whether the application fees would be assessed per house or per organization if the entity operates more than one DARH. Knowing that an organization may have multiple DARHs operating under a common name and that some premises may be licensed and others not, we asked the Department at the public meeting if there was any consideration given to requiring unique names for licensed and unlicensed houses. Our concern is that the public may be misled when it visits the Department's website registry. The Department indicated that no consideration was given to requiring different names because it would cause administrative burdens to DARHs, such as registering fictitious names. However, the Department explains that the registry on the website will include the address of the DARH and each location will have its own specific and unique license. The Preamble states that to avoid confusion about which houses may accept public funding and referrals, it will include street address locations in the registry. The rulemaking does not specifically address how the registry will be managed. Act 59 requires DARHs to be removed from the registry for failure to comply or remain in compliance. Will those DARHs that are operating with a provisional license have their own designation on the registry? We reiterate our concern that the public, upon visiting the Department's website, should be able to easily determine which DARHs are licensed from those that are not.

Implementation procedures and timetable for compliance; Reasonableness; Protection of the public health, safety and welfare

Section 717.31 requires licensees to develop and implement written policies and procedures to respond to unusual incidents. Subsection (a)(8) requires a licensee to respond to an outbreak of a contagious disease requiring Centers for Disease Control and Prevention notification. What diseases will be required to be reported? We asked at the public meeting whether the Department gave consideration to including the diseases reportable to the Pennsylvania Department of Health. It stated that even though the Pennsylvania Department of Health is not

listed, it does not excuse anyone who is required to report to the Department under the Disease Prevention and Control Law of 1955. 35 P.S. §§ 521.1—521.21. How would a licensee learn of this requirement if it is not part of the standards for licensure of DARHs? How is this approach reasonable?

Economic and fiscal impacts of the regulation; Protection of the public health, safety and welfare

The economic or fiscal impacts of the regulation, including the nature of the required reports, forms or other paperwork and the estimated cost of their preparation by the regulated community, have not been fully addressed in this rulemaking. The Department acknowledged in Regulatory Analysis Form (RAF) Question # 19 the costs associated with implementing the physical plant and equipment standards required by Section 717.29 (relating to physical plant standards) and fire safety requirements in Section 717.30 (relating to safety and emergency procedures). However, the Department did not provide cost estimates for a DARH to meet these provisions in order to obtain licensure. The response to RAF Question # 23 did not provide an accurate cost estimate for implementation of the regulation. The Department needs to accurately account for the fiscal impact of the regulation.

The Preamble states that the most frequent comment the Department received was the overall cost to comply with the standards. The Department explains in the RAF that it is likely costs associated with licensure will be passed on to residents, possibly resulting in a higher monthly fee than unlicensed recovery houses. As expressed by a public commentator, higher fees may lead to residents seeking less expensive housing that does not provide as stringent or structured environment. A regulation that places burdensome fiscal requirements on the regulated community is not protective of the public health, safety and welfare.

Statutory authority; Economic and fiscal impacts of the regulation

Section 717.16 (relating to fiscal management) requires a DARH to obtain the services of an independent certified public accountant for a financial audit of operations every two years, under generally accepted accounting principles. The Department estimates the biennial cost of this requirement to be \$10,000 per DARH. As addressed by public comments, this provision places significant direct costs upon the private sector. We note that this provision was revised from the first submission, which required a yearly audit, to extend the timeframe to every two years in an effort to lessen the fiscal impact. However, this may not lead to any significant savings, as the scope of review is not decreased.

Further, the Department does not appear to have the statutory authority to require a DARH to audit its operations. Section 2313-A(2) of Act 59 requires “[p]olicies and procedures for *management* of all funds received and expended by the drug and alcohol recovery house in accordance with *standard accounting practices*, including funds received from or managed on behalf of residents of the drug and alcohol recovery house.” (Emphasis added.) The statutory requirement addresses the practices a DARH utilizes to manage funds. It does not appear to go so far as to require a DARH to pay for an audit to determine if financial statements are in conformity with generally accepted accounting principles.

Possible conflict with statute; Consistency with the intent of the General Assembly

The act of June 30, 2021 (P.L. 186, No. 35), known as Justin’s Law, requires a DARH to develop policies and procedures regarding notification of a designated emergency contact at least once, as consented to by the resident, when the resident self-discharges, or leaves and fails to return as expected. This notification shall occur immediately and in no event later than 12 hours following either circumstance. An exception is provided for residents who have revoked consent to notify and does not apply when a DARH has knowledge of or reason to know of allegations of domestic abuse perpetrated upon the resident by the emergency contact. While recognizing that Justin’s Law was signed into law after the Department delivered the regulation, we ask if the regulation is sufficient to meet the new statutory requirements. For instance, Justin’s Law includes requirements for revocation of consent for making an emergency contact, which is not addressed in Sections 717.22 and 717.27 (relating to intake and admission; and notification to family member or emergency contact). Justin’s Law also refers to a resident self-discharging while the regulation appears to place the authority to end residency solely with a DARH. Lastly, Justin’s Law requires a DARH to notify an emergency contact when a resident fails to return as expected. The regulation does not include provisions addressing how a DARH will document a resident’s schedule and monitor when a resident leaves and returns.

Consistency with the intent of the General Assembly

We find that the delay in submitting the regulation did not meet the legislative intent of utilizing the final-omitted rulemaking process, which provides for an abbreviated procedure to implement a regulation. The General Assembly recognized the urgency and importance in licensing DARHs so that individuals who are working to maintain sobriety have access to facilities that will maximize their chances for success. These regulations do not provide licensees with sufficient guidance in establishing and maintaining DARHs in order to achieve the intent of Act 59.

We have determined this regulation is consistent with the statutory authority of the Department (71 P.S. § 613.13) and the intention of the General Assembly. However, after considering all other criteria of the Regulatory Review Act discussed above, we find promulgation of this regulation is not in the public interest.

By Order of the Commission:

This regulation is disapproved.
