DEPARTMENT OF AGRICULTURE

General Quarantine Order; Cancellation of Exhibitions of Poultry and Their Hatching Eggs Due to Highly Pathogenic Avian Influenza

Recitals

A. Avian influenza is an infectious and contagious disease of poultry.

B. Avian influenza is designated a "dangerous transmissible disease" of animals under the provisions of the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389), at 3 Pa.C.S.A. § 2321(a)(6).

C. Avian Influenza can be transmitted between poultry and may be transferred and spread through the move-

ment of poultry, eggs, and products of poultry; by people, vehicles, equipment, and other fomites, as well as by aerosol.

D. Avian Influenza has caused substantial loss in the past to the Pennsylvania poultry industry and the virulent form of the disease has caused widespread losses to the poultry industry in states in which poultry have been infected.

E. Avian influenza is of particular concern to the entire Pennsylvania poultry industry as Highly Pathogenic Avian Influenza (HPAI) will result in the death or destruction of infected poultry, thus causing severe economic loss, and may severely limit the market for Pennsylvania poultry products.

F. The Highly Pathogenic (HPAI) Eurasian lineage goose/Guangdong H5 clade 2.3.4.4 virus has been confirmed in wild birds and in poultry flocks across the United States in 2022. It has been identified in all four migration flyways and has been confirmed in wild birds in multiple Pennsylvania counties.

G. The Department, under the provisions set forth at section 2329 (related to quarantine) of the Domestic Animal Law (3 Pa.C.S.A. § 2329) has the authority to establish three different types of quarantine orders—Interstate and International (3 Pa.C.S.A. § 2329(c)), General (3 Pa.C.S.A. § 2329(d)) and Special (3 Pa.C.S.A. § 2329(e)).

H. As set forth at section 2329(a) (relating to power to establish and enforce), the Department may establish a Quarantine Order, "Whenever a dangerous transmissible disease. . .exists anywhere within or outside of this Commonwealth, or whenever it is deemed advisable to test or treat any domestic animal upon the reasonable suspicion that it has contracted or been exposed to a dangerous transmissible disease. . .or whenever the testing or treatment of a domestic animal indicates that the domestic animal has been exposed to a dangerous transmissible disease. . .so as to render future accurate testing for recent exposure of that domestic animal to that dangerous transmissible disease. . .impractical or impossible, the department shall have the power to establish and enforce quarantines of any such infected, exposed, contaminated, suspected or susceptible domestic animal. In addition to the aforescribed domestic animals, a quarantine may apply to any goods, products, facilities, containers, vehicles or materials that may carry dangerous transmissible disease. . .and may be applied on or in or against any premises, area or locality as defined in this chapter." (3 Pa.C.S.A. § 2329(a)).

I. An exhibition is defined as a show or display of animals.

J. Under the authority established in the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389) and specifically the authority to establish general quarantine orders as set forth at section 2329 of the Domestic Animal Law (3 Pa.C.S.A. §§ 2329(a) and 2329(d)), the Pennsylvania Department of Agriculture (Department) hereby establishes a General Quarantine Order related to poultry and poultry products, including eggs, at exhibitions within the Commonwealth of Pennsylvania which receive funding pursuant to the Pennsylvania Agricultural Fair Act, 3 P.S. § 1501 et seq.

K. This General Quarantine Order is established to reduce the risk of infection of backyard and commercial poultry in Pennsylvania with Avian Influenza. The transportation of poultry and eggs, materials contacting poultry, containers, conveyances and goods, in addition to the

congregation of poultry at exhibitions within the Commonwealth has the potential to transfer and spread Highly Pathogenic Avian Influenza.

Order

The Department hereby enters a General Quarantine Order, incorporating the foregoing recitals as if fully set forth hereunder and establishing a temporary prohibition against the display, exhibit or presence of poultry, poultry products, including eggs, poultry parts or any goods or items containing or made up of poultry products, such as feathers, or poultry parts at any exhibitions or other such venues within the Commonwealth of Pennsylvania which receive funding pursuant to the Pennsylvania Agricultural Fair Act, 3 P.S. § 1501 et seq.

This Order is entered under authority of the Domestic Animal Law (at 3 Pa.C.S.A. § 2329) and § 1702 of the Administrative Code of 1929 (71 P.S. § 442), and establishes the following quarantine restrictions with respect to poultry exhibitions within the Commonwealth of Pennsylvania which receive funding pursuant to the Pennsylvania Agricultural Fair Act, 3 P.S. § 1501 et seq.

1. *General.* For purposes of this Order, the term “poultry” includes all domesticated fowl, including chickens, turkeys, ostriches, emus, rheas, cassowaries, waterfowl, and game birds (pheasants, partridge, quail, grouse, and guineas); but excludes doves, pigeons, psittacine and passerine birds.

2. *Purpose.* This Order allows for a proactive and preventative approach to prevention of the spread of Highly Pathogenic Avian Influenza affecting poultry related to Pennsylvania exhibitions.

3. Notwithstanding and in abrogation of the provisions relating to avian influenza of the General Quarantine Order: Poultry Exhibition Requirements (49 Pa.B. 3093, Saturday, June 15, 2019), during the time period of this General Quarantine Order, no poultry, poultry products, including eggs, poultry parts or any goods or items containing or made up of poultry products, such as feathers, or poultry parts shall be transported to, brought onto the premises of or displayed or exhibited or present at any exhibitions or other such venues within the Commonwealth of Pennsylvania which receive funding pursuant to the Pennsylvania Agricultural Fair Act, 3 P.S. § 1501 et seq.

4. *Quarantine Area and Term.* The area covered by this General Quarantine Order is the entire Commonwealth of Pennsylvania and shall be in effect upon publication in the *Pennsylvania Bulletin* and for a duration of not less than sixty (60) days after publication or until rescinded by the Department, whichever is longer.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May 2022

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of May 2022, is 4 3/4%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government

securities is 2.35 to which was added 2.50 percentage points for a total of 4.85 that by law is rounded off to the nearest quarter at 4 3/4%.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a

proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. 48-00027C: Bethlehem Landfill Company, 2335 Applebutter Road, Bethlehem, PA 18015, for the construction and operation of one (1) new enclosed flare and one (1) new utility flare utilizing the existing landfill gas (LFG) collection system, which includes one (1) landfill gas enclosed flare currently installed at their facility in Lower Saucon Township, **Northampton County**.

This change does not represent an increase in allowable tonnage per day and no other current emission limits in the facility Title V permit will change as a result of this modification. The primary air emissions from the flares will be volatile organic compounds (VOCs) and hazardous air pollutants (HAPs). The proposed LFG flares will serve as an additional control device to reduce the emission of VOCs and HAPs present in raw LFG will and provide for the ability to control LFG flows to as low as approximately 50 scfm. The Plan Approval will contain additional recordkeeping, testing, and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The facility currently has a Title V Operating Permit No. 48-00027. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V Operating Permit through an administrative amendment at a later date.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No. 48-000027C and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Ray Kempa, Environmental Group Manager, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, Phone 570-826-2511 within 30 days after publication date.

NOTICE OF PROJECTS UNDER THE ENVIRONMENTAL GOOD SAMARITAN ACT

The Environmental Good Samaritan Act (27 Pa.C.S.A. §§ 8101—8114) provides certain protections and immunities from civil liability for landowners and persons who voluntarily undertake reclamation and abatement projects to address land and water adversely affected by mining or oil or gas extraction or exploration for natural resources and left in an unreclaimed condition or left discharging water pollution. In order for landowners and persons to qualify for immunity, the projects must be approved by the Department.

The following project proposals have been received by the Department of Environmental Protection. A copy of the proposals is available for inspection at the office indicated for each proposal. Written comments or objections may be submitted by any person or any office or head of any Federal, State, or local government agency or authority to the Department at the same address within 30-days of this publication. Written comments or objections should contain the name, address and phone number of the person submitting comments or objections; the proposal identification number; and a statement of sufficient detail to inform the Department of the basis of the comment or objection and the relevant facts upon which it is based.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

Additional criteria

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan, and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters of this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Submittal of comments

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit notice within 30-days of this notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and phone number of the writer and a concise statement to inform the Department of the basis of a comment and the relevant facts upon which it is based.

Requests or petitions for a public hearing on any NPDES permit applications will be accepted as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, phone number and the interest of the party filing the request and state the reasons why a hearing is warranted. The Department may hold a public hearing if the public interest is significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The applicant proposes to:

Amend Permit No. E02051-1805, which authorized the Pennsylvania Department of Transportation, to replace the existing 27.5' wide two-lane reinforced concrete T-beam bridge with a minimum underclearance of 6.9' carrying SR 3034 (Lesnett Road) over McLaughlin Run (WWF).

This amendment proposes to place an additional 50 linear feet of scour protection along the right bank of the McLaughlin Run (WWF), having an additional permanent impact of 50 LF to McLaughlin Run (WWF).

The project is a reconfiguration of the intersection of SR 3034 and SR 3004 (Bridgeville, PA USGS topographic quadrangle; N: 40°, 20', 42.5"; W: -80°, 4', 55.3"; Sub-basin 20F; USACE Pittsburgh District), in Upper St. Clair Township, Allegheny County.

E5605221-003, Somerset Conservation District, 6024 Glades Pike, Somerset, PA 15501, Stoneycreek Township, Somerset County; Pittsburgh ACOE District.

The applicant proposes to:

Construct, operate and maintain an Acid Mine Drainage (AMD) Passive Treatment System, consisting of two settling ponds, a vertical flow pond, and a constructed wetland with three baffles. The project will permanently impact 1.80 acres of wetlands, onsite, and collectively, 0.79 acre of floodplain to both Lamberts Run (CWF) and UNT 1 to Lamberts Run (CWF), for the purpose of treating artesian flows of acidic water, contaminated with high concentrations of iron; thereby, improving the water quality of downstream channels and wetlands.

The project site is located approximately 0.3 mile south of the intersection of Lambertsville Road (SR 1007) and Pompey Hill Road (Stoystown, PA USGS topographic quadrangle; N: 40°, 04', 10.0"; W: -78°, 54', 53.0"; Sub-basin 18E; USACE Pittsburgh District), in Stoneycreek Township, Somerset County.

E5605222-002, Stone Creek Watershed Association, 1314 Central Avenue, Suite 205, Central City, PA 15926, Shade Township, **Somerset County**; Pittsburgh ACOE District.

The applicant proposes to:

Amend previously authorized permit number E56-391, which authorized the permittee to:

1. Construct and maintain two rock cross vane fish habitat structures within Coal Run (CWF).

2. Construct and maintain a 15" diameter intake structure within Coal Run.

3. Construct and maintain two outfall structures within Coal Run.

For the purpose of constructing a passive acid mine drainage (AMD) treatment system to improve the water quality in Coal Run, a tributary to Dark Shade Creek.

This amendment is to forego the construction of the two rock cross vanes fish habitat structures and revise the originally proposed intake structure to include the constructing, maintaining, and operating of a reinforced concrete grade control structure with a stainless steel Coanda Screen. Additional permanent impacts that will result from this amend will consist of 1,000 SF of watercourse impacts for the installation of the revised intake structure. Compensatory mitigation is not proposed due to the nature of the project.

The project site is located within the Pennsylvania Game Commission's State Game Lands 228 (Central City, PA USGS topographic quadrangle; N: 40°, 03', 45"; W: -78°, 47', 54"; Sub-basin 18-E; USACE Pittsburgh District), in Shade Township, Somerset County.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717)

787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site

investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and

cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

PREAMBLE 2

The following plans and reports were submitted under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action

completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Environmental Cleanup Program Manager in the DEP Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. On March 26, 2021, Applicant filed an application with the Federal Energy Regulatory Commission (FERC) under Section 7 of the Natural Gas Act (15 U.S.C.A. § 717f)

seeking a certificate of public convenience and necessity to construct and operate its Project (FERC Docket No. CP21-94-000. FERC provided a Draft Environmental Impact Statement for the Project on March 2, 2022, which may be viewed on FERC's website at www.ferc.gov (search eLibrary; Docket Search; CP21-94-000).

On March 31, 2021, Applicant requested a state water quality certification (SWQC) from the Pennsylvania Department of Environmental Protection (DEP), as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania consistent with the requirements of State law and the Clean Water Act.

The Project, as proposed, includes approximately 22.3 mile long 30-inch pipeline and 13.8 mile long 42-inch pipeline to transport natural gas from a Marcellus Shale production area in northeastern Pennsylvania to multiple delivery points along Transco's Leidy Line in PA, Transco's mainline at the Station 210 Zone 6 Pooling Point in Mercer County, New Jersey and multiple delivery points in Transco's Zone 6 in NJ, PA, and MD. The Project, as proposed, will require approximately 672 acres of earth disturbance, and impacts 2,623 linear feet of temporary impacts and 3,029 linear feet of permanent impacts to tributaries to McMichael Creek (HQ-CWF, MF), tributary to Pohopoco Creek (HQ-CWF, MF), Sugar Hollow Creek (HQ-CWF, MF), tributary to Poplar Creek (EV, MF), tributary to Mud Run (HQ-CWF, MF), tributaries to Tunkhannock Creek (HQ-CWF, MF), tributaries to Shades Creek (HQ-CWF, MF), Shades Creek (HQ-CWF, MF), Little Shades Creek (HQ-CWF, MF), tributary to Meadow Run (HQ-CWF, MF), Meadow Run (HQ-CWF, MF), tributaries to Bear Creek (HQ-CWF, MF), Bear Creek (HQ-CWF, MF), tributaries to Little Bear Creek (HQ-CWF, MF), tributaries to Mill Creek (HQ-CWF, MF), Mill Creek (HQ-CWF, MF), tributary to Gardner Creek (CWF, MF), Gardner Creek (CWF, MF), tributaries to Susquehanna River (WWF, MF), Susquehanna River (WWF, MF), Abrahams Creek (CWF, MF), tributaries to Abrahams Creek (CWF, MF), tributaries to Toby Creek (CWF, MF), tributaries to Trout Brook (CWF, MF), Trout Brook (CWF, MF); 14.01 acre(s) of temporary floodway impacts; 7.21 acre(s) of permanent floodway impacts; 6.46 acre(s) of temporary PFO, PSS, and PEM wetland impacts; and 9.69 acre(s) of PFO, PSS, and PEM permanent impacts.

DEP published notice of its receipt of Applicant's SWQC application and of its proposed SWQC in the *Pennsylvania Bulletin* on September 18, 2021 (51 Pa.B. 6108) for a 30-day public comment period. On October 30, 2021, DEP extended the public comment period to December 6, 2021 (51 Pa.B. 6842). DEP received 996 comments from the public. Both *Pennsylvania Bulletin* notices contained an incorrect application number, WQ0083221-001. The proper application number is WQ0083221-002.

On March 30, 2022, after evaluation and consideration of the comments, DEP issued a conditional State Water Quality Certification (SWQC) to Transcontinental Gas Pipe Line Company, LLC (Transco) for the Regional Energy Access Expansion Project. This SWQC is conditioned on Transco obtaining all necessary state permits, approvals and authorizations for the Project, including those required under 25 Pa. Code Chapter 92a (relating to National Pollutant Discharge Elimination System Permitting, Monitoring and Compliance), 25 Pa. Code Chapter 102 (relating to Erosion and Sediment Control) and

25 Pa. Code Chapter 105 (relating to Dam Safety and Waterway Management), and complying with all conditions set forth in the SWQC.

Pennsylvania possesses a water quality standards program that is integrated into the Pennsylvania water permitting programs to ensure protection of waters of the Commonwealth in accordance with Pennsylvania law and the Federal Clean Water Act. The water quality certification ensures that Transco will comply with water quality standards through the established permitting processes. Transco must obtain the applicable permits before it can begin construction. Applicable permits include permits issued under 25 Pa. Code Chapters 92a, 102 and 105.

All written comments received by DEP during the public comment period, from September 18, 2021 to December 6, 2021, have been reviewed and considered. DEP will continue to evaluate and consider these comments during the review of the Chapter 92a, Chapter 102, and Chapter 105 permit applications. Additionally, DEP will schedule a formal public hearing prior to taking action on the Chapter 102 and Chapter 105 permit applications to provide opportunity for verbal testimony and additional written comment.

DEP certifies that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301–303, 306 and 307 of the Federal Clean Water Act (33 U.S.C.A. §§ 1311–1313, 1316 and 1317). The DEP further certifies that the construction, operation and maintenance of the Project complies with Pennsylvania water quality standards and that the construction, operation and maintenance of the Project will maintain and protect applicable Commonwealth water quality standards provided that the construction, operation and maintenance of the project complies with the following DEP water quality permitting programs, criteria and conditions established pursuant to Pennsylvania law:

Growing Greener Plus Grants; Notice of Availability

As part of the Department of Environmental Protection's (Department) Growing Greener Plus Grants Program, applications will soon be accepted for Growing Greener (Watershed Restoration and Protection) grants under 27 Pa.C.S. §§ 6101—6113 (relating to Environmental Stewardship and Watershed Protection Act) and Bond Forfeiture and Acid Mine Drainage (AMD) Set-Aside grants under section 18(j) of the Surface Mining Conservation and Reclamation Act (SMCRA) (52 P.S. § 1396.18(j)). Growing Greener grants are designed to improve or protect this Commonwealth's waters from nonpoint source pollution associated with agricultural activities, AMD, stormwater runoff, energy resource extraction, and streambank and shoreline degradation, while Bond Forfeiture and AMD Set-Aside grants are designed to address legacy mining impacts.

Eligible applicants include counties, municipalities, municipal authorities, county conservation districts, watershed organizations, councils of governments, educational institutions and other authorized organizations involved in water resource restoration and protection.

The Department has identified multiple priority areas for this grant solicitation. Priority areas for Growing Greener grants include projects that reduce nonpoint source pollution—especially nitrogen, phosphorus and sediment pollution from agricultural and stormwater runoff—as well as AMD-related iron, aluminum, acidity and sediment pollution. The Department is particularly interested in design and construction projects that implement effective Best Management Practices (BMP) that reduce or eliminate pollutant loadings and lead to local water quality improvements. One new priority area for Growing Greener grants include projects that implement BMPs, stream restoration, bank stabilization to reduce runoff volumes, increase infiltration, improve water quality and assist in future flood prevention and climate resiliency in support of the Pennsylvania 2021 Climate Action Plan. This includes no-till farming, riparian forest buffers, green infrastructure, and other agricultural and stormwater BMPs. Another new priority area is the Growing Greener Watershed Renaissance Initiative (GGWRI) project category focusing on the complete implementation of existing watershed restoration or implementation plans on small catchment areas of approximately 25 or fewer land parcels. These GGWRI-eligible catch-

ments have agriculturally-impaired waterways as listed in the Department’s 2022 Integrated Water Quality Report and located in Centre, Huntingdon, Lancaster, Snyder and Union Counties.

Through the same application process, applicants can also apply for funding through the Department’s SMCRA Grant Programs to address legacy mining impacts. SMCRA grants are available to various entities including municipalities, municipal authorities and nonprofit organizations for projects meeting AMD Set-Aside or Bond Forfeiture grant requirements.

Applications and all supporting documents must be submitted online through the Commonwealth’s Electronic Single Application web site, eGrants, at www.esa.dced.state.pa.us. Applications will be accepted beginning at 8 a.m. on Friday, April 22, 2022. Applications must be received by 5 p.m. on Friday, June 24, 2022. Late submissions will not be considered.

To obtain more information about the Growing Greener Plus Grants Program, visit the Department’s web site at www.dep.pa.gov (select “Residents,” then “Grants, Loans and Rebates,” then scroll down to “Schools” and select “Growing Greener—for reducing nonpoint source (runoff) water pollution”).

Watershed Planning and Restoration Grants through the Section 319 Nonpoint Source Management Program; Notice of Availability

As part of the Department of Environmental Protection’s (Department) section 319 Nonpoint Source Management Grants Program, applications will soon be accepted for watershed planning and restoration grants. Funded in part by the United States Environmental Protection Agency under section 319(h) of the Federal Clean Water Act (33 U.S.C.A. § 1329(h)), the Department administers a grants program to fund watershed projects that are part of approved watershed implementation plans (WIP). The grants are designed to improve and protect waters in this Commonwealth from nonpoint source pollution associated with agricultural activities, abandoned mine drain-

age (AMD), stormwater runoff, energy resource extraction, and streambank and shoreline degradation.

Eligible applicants include incorporated watershed associations, counties or municipalities, county conservation districts, council of governments or other authorized organizations including nonprofit organizations, educational institutions and municipal authorities.

The Department is focusing these grants on projects that reduce nonpoint source pollution in targeted watersheds with WIPs, especially projects that reduce nitrogen, phosphorous and sediment pollution from agricultural and stormwater runoff, along with AMD-related pollution from iron, aluminum and acidity. The Department is particularly interested in projects that implement effective Best Management Practices (BMP) that reduce or eliminate stream impairments within WIP areas, leading to local water quality improvements.

The Department also is offering grants to develop new WIPs in Pennsylvania’s Environmental Justice (EJ) areas for 12-digit Hydrologic Unit Code scale watersheds, based upon watershed plan elements for threatened or impaired waters.

Examples of eligible projects include new WIP development in EJ areas and design and construction of BMPs, including riparian forest buffers, streambank fencing, agricultural erosion and sediment control, and nutrient and manure management practices; animal waste storage systems, animal concentration area/animal heavy use area protection and barnyard runoff controls; design and construction of stormwater control measures; AMD treatment systems; and other projects that will reduce nonpoint source pollution in watersheds where streams are impaired.

Applications and all supporting documents must be submitted online through the Commonwealth’s Electronic Single Application web site, eGrants, at www.esa.dced.state.pa.us. Applications will be accepted beginning at 8 a.m. on Friday, April 22, 2022. Applications must be received by 5 p.m. on Friday, June 24, 2022. Late submissions will not be considered.

Interested applicants with questions may e-mail RA-EP319grantFunding@pa.gov. For more information regarding the section 319 Nonpoint Source Management Grants Program, visit the Department’s web site at www.dep.pa.gov (Search “Nonpoint Source”).

DEPARTMENT OF HUMAN SERVICES

Medical Assistance Program Fee Schedule Additions

In accordance with 55 Pa. Code § 1150.61(a) (relating to guidelines for fee schedule changes), the Department of Human Services (Department) announces the addition of the following procedure codes to the Medical Assistance (MA) Program Fee Schedule for the provision of personal care services (PCS), which are provided through Home Health Agencies (HHAs) rendered to MA beneficiaries under 21 years of age, effective with dates of service on and after May 1, 2022.

<i>Procedure Code</i>	<i>Code Description</i>	<i>Fee</i>	<i>Unit Limit</i>	<i>Age Limit</i>
T1019	Personal Care Services, per 15 minutes, not for an inpatient or resident of a hospital, nursing facility, ICF/MR or IMD, part of the individualized plan of treatment	\$6.84 per unit	96 per day	Age 0—20
S9122	Home health aide or certified nurse assistant, providing care in the home; per hour	\$27.36 per unit	24 per day	Age 0—20

Background

The MA Program pays HHAs to provide PCS to beneficiaries under 21 years of age. These services are provided in the beneficiary's home and community settings, in accordance with a plan of treatment and provided by a home health aide under the supervision of a registered nurse. PCS consist of services that support activities of daily living such as ambulation, bathing, toileting, beneficiary transfers (for example, transfer from bed to chair/chair to bed) and personal hygiene.

Although the Department has used procedure code S9122 for home health aide services, the procedure code is not on the MA Program Fee Schedule and has been available only through the program exception process. It is now being added to the MA Program Fee Schedule. In addition, the Department is adding procedure code T1019 to allow providers to seek authorization of, and bill for, PCS for MA beneficiaries under 21 years of age in 15-minute increments.

These procedure codes are available for Provider Type/Specialty combination 05/050 (Home Health/Home Health Services) in Place of Service 12 (Home) with no modifiers.

Prior Authorization Requirements

Procedure codes T1019 and S9122 will require prior authorization, as authorized by section 443.6(b)(7) (62 P.S. § 443.6(b)(7)) regarding reimbursement of certain medical assistance items and services, of the act of June 13, 1967, (P.L. 31, No. 21), known as the Human Services Code.

Fiscal Impact

The Department does not anticipate any fiscal impact related to the addition of procedure codes T1019 and S9122 to the MA Program Fee Schedule, as PCS are already rendered to MA beneficiaries under 21 years of age.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received will be reviewed and considered for any subsequent revisions to the MA Program Fee Schedule.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania Hamilton Relay Service (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

MEG SNEAD,
Acting Secretary

Fiscal Note: 14-NOT-1504. No fiscal impact; (8) recommends adoption.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>

State Board of Occupational Therapy Education and Licensure Regulation # 16A-6713 (IRRC # 3331)

Licensure by Endorsement

April 6, 2022

We submit for your consideration the following comments on the proposed rulemaking published in the February 5, 2022 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the Act (71 P.S. § 745.5a(a)) directs the State Board of Occupational Therapy Education and Licensure (Board) to respond to all comments received from us or any other source.

1. Clarity.

We note that Section 42.9(a)(1) (regarding licensure by endorsement) addresses only “license or certification,” whereas Subsections (a)(1)(i), (a)(2)(i), (a)(3), and (a)(4) address “license, certification, registration or permit.” We ask the Board to amend this Section to ensure that the provisions are clear and consistent.

2. Clarity; Compliance with the RRA.

We ask the Board to amend the citation for its statutory authority in Regulatory Analysis Form Question # 8. The cited 63 Pa.C.S. § 3111 does discuss the Board’s obligation in issuing these licenses, but only mentions regulations “established by the licensing board.” We ask the Board to include 63 P.S. § 1505(b) of the Occupational Therapy Practice Act which provides for the Board’s actual authority to promulgate these regulations.

Also, in response to Questions # 17, 19, and 23 regarding the financial impact on or cost to the applicant, we ask the Board to address the cost of a Criminal History Records Check.

3. Comments, objections or recommendations of a committee.

The House Professional Licensure Committee (Committee) submitted the following comments on the proposed regulation:

1. *Section 42.9(a)(1)(i)*—This section requires an applicant to submit a copy of the current law and regulations along with scope of practice requirements in the jurisdiction that issued a license, certificate, registration, or permit. The Committee notes that Act 41 of 2019 does not explicitly state this requirement and the Committee recommends that the Board removes this responsibility from applicants and applies it to Board counsel.

2. *Section 42.9(a)(4)*—This section states that an applicant must not have any discipline by the jurisdiction that issued the license, certificate, registration, or permit. The Committee recommends clarifying this section to specify the types of discipline (i.e., formal discipline or complaint) and the timeframe when such discipline occurred.

3. *Section 42.10(b)(1)*—This section would give the Board authority to issue a provisional license for less than a year. The Committee states that it is unclear under what circumstances the Board would need to exercise this authority. The Committee asks for clarification.

4. *Section 42.10*—This section states that the Board will not issue subsequent provisional licenses after a provisional license expires. The Committee believes this section is unintentionally vague. Further, the Committee notes that Act 41 of 2019 does not specifically state that the Board shall only issue one provisional license. The Committee believes that this section should be amended to correct the unintended harm of limiting provisional licenses and the Committee further suggests incorporating a timeframe to reapply.

Under the RRA, the comments, objections, or recommendations of a Committee is one of the criteria the Commission must consider when determining if a regulation is in the public interest. When this proposed regulation is delivered as a final-form regulation to this Commission and the Committees for review, the issues raised by the Committee, and the Board’s response to those issues, will be one of the criteria used by this Commission to determine if the regulation is in the public interest.

April 6, 2022

We submit for your consideration the following comments on the proposed rulemaking published in the February 5, 2022 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Insurance Department to respond to all comments received from us or any other source.

Clarity.

- We identified the following clarity issues in Section 90j.1 (relating to definitions):

- In the definition of “covered policies,” the cross-reference to Section 90j.4 (relating to applicability) should be corrected to Section 90j.5 (relating to exemptions).

- The definition of “RBC—risk-based capital” cites the definition in Section 501-A of The Insurance Department Act of 1921. 40 P.S. § 221.1-A. The statutory definition states the acronym in full but does not define the term. This definition should be revised to either define the term or delete the statutory citation.

- We identified the following clarity issues in Section 90j.6 (relating to actuarial method):

- The cross-reference in Subsection (a)(5) should be corrected to “paragraph (4).”

- The last sentence of Subsection (a)(8)(ii) should be corrected to reference “the requirements of this *subparagraph*.” (Emphasis added.)
