READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

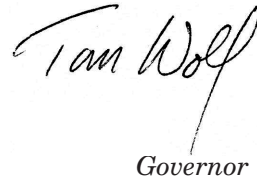

GOVERNOR'S OFFICE

Proclamation; House Bill No. 146, Printer's No. 3329

I, Tom Wolf, Governor of the Commonwealth of Pennsylvania, have caused this Proclamation to issue and, in compliance with the provisions of Section 15 of Article IV of the Constitution of Pennsylvania, do hereby give notice that I have filed in the Office of the Secretary of the Commonwealth, with my objections thereto, the following bill passed by both houses of the General Assembly at the Regular Session of 2021-2022:

House Bill No. 146, Printer's No. 3329, entitled "An act [a]mending Title 61 (Prisons and Parole) of the *Pennsylvania Consolidated Statutes*, in Pennsylvania Board of Probation and Parole, further providing for definitions and for parole power."

Given under my hand and the Great Seal of the Commonwealth, at the County of Dauphin, this thirtieth day of September, in the year of our Lord two thousand and twenty-two, and of the Commonwealth two hundred and forty-seven.

Tom Wolf
Governor

Attest:

JONATHAN MARKS,
Deputy Secretary for Elections and Commissions

GOVERNOR'S OFFICE

Notice of Veto; House Bill No. 146, Printer's No. 3329

September 30, 2022

To the Honorable House of Representatives
of the Commonwealth of Pennsylvania

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, House Bill 146, Printer's Number 3329.

This legislation, although attempting to address a tragic event, is misguided and would only set back the criminal justice system in Pennsylvania. The bill was prompted by the tragic death of an 8-year-old boy, and I sympathize with the family for their loss and for the desire of legislators to make Pennsylvania a safer place.

However, this legislation does not promote public safety, but instead proposes a mechanical and ineffective structure of mandatory parole denial, which is in effect a mandatory minimum by another name. This bill limits the Pennsylvania Parole Board's authority by prohibiting it from releasing a person convicted of an obstruction of justice or a violent offense while incarcerated on parole for an additional 12 or 24 months, respectively, after the original minimum term fixed by the courts or following the new conviction, whichever is longer. In many cases, it takes years for a conviction to occur. This bill would result in automatic parole denial for

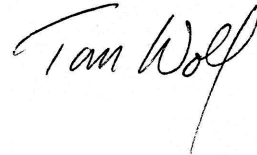

much longer than 12 or 24 months regardless of the circumstances of the individual case. This legislation also defines obstruction of justice broadly to include such non-violent offenses as possessing contraband even though there is no evidence that such offenses have any relationship to successful reintegration.

The Parole Board uses a number of evidence-based tools and principles to make informed, accurate decisions that ensure public safety. This legislation arbitrarily limits the nuances of that decision-making process. After a review of cases of parolees committing crimes, no evidence was found that misconduct of policy or rule violations would have reasonably affected the outcomes of the cases. Further, this legislation would undermine our legal system by increasing the minimum term of incarceration after a judge has imposed a final sentence and it would cause a person to be incarcerated longer for a conviction that did not even exist at the original time of sentencing.

This proposed institution of backdoor mandatory minimums would remove discretion from the Pennsylvania Parole Board, undermine the determination of the original sentencing judge and jury, and trample upon the protections of the criminal justice system in Pennsylvania.

For the reasons set forth above, I must withhold my signature from House Bill 146, Printer's Number 3329.

Sincerely,

A handwritten signature in black ink that reads "Tom Wolf". The signature is written in a cursive style with a long, sweeping tail on the letter "f".

Governor

The Department of Agriculture (Department) announces the program requirements and application period for grants under the Pennsylvania Agricultural Hemp Promotion, Education and Export Promotion Matching Grant Program (Program). The Program is authorized under Fiscal Years (FY) 2019-2020 and 2020-2021 budgetary appropriations to the Department for agricultural product promotion, education and exports for hemp. The Department intends to make up to \$200,000 available for grants under the Program.

1. Program objectives.

(a) *Purpose.* The Department will award grants to provide matching funds to nonprofit agricultural product promotion and marketing organizations to reimburse up to 50% of the cost of projects intended to:

(1) Increase consumer awareness of agricultural hemp products within this Commonwealth and thereby increase sales of these agricultural hemp products.

(2) Educate producers and consumers with respect to agricultural hemp products within this Commonwealth.

(3) Otherwise facilitate the growth and development of export markets for agricultural hemp products within this Commonwealth.

(b) *Applicants.* Grants will be awarded to Pennsylvania nonprofit agricultural product promotion and marketing organizations.

(c) FY 2022-2023 project funding priorities.

(1) The Department will prioritize eligible projects for promotion, education and export market development of agricultural hemp within this Commonwealth to receive grant funding.

(d) *Competitive program.* The Program is competitive. Grant requests and related documentation will be reviewed by the Secretary, who will approve or reject each grant request.

(e) *Funds available basis.* Grants will not be awarded unless funds are available for this purpose. The Department need not expend all the funds that are available for the Program.

2. *Definitions.* The following words and terms have the following meanings:

Applicant—A Pennsylvania nonprofit agricultural product promotion and marketing organization which applies for grant moneys under the Program.

Bureau—The Bureau of Market Development of the Department.

Eligible hemp products—An agricultural or industrial hemp product that is legal to grow, process and sell within this Commonwealth which has a major component/ingredient derived from the hemp plant.

Pennsylvania nonprofit agricultural product promotion and marketing organization—A nonprofit business organization having its principal business offices within this Commonwealth, or having 50% or more of its membership within this Commonwealth, or having 50% or more of the agricultural products which it promotes or markets pro-

duced within this Commonwealth, and having as its members groups, individuals or organizations that serve to distribute a Commonwealth produced agricultural product in commerce. These members may include wholesalers, distributors, brokers, retailers, processors, growers and producers.

Secretary—The Secretary of the Department.

3. *Limitations on grants.* The minimum amount of a matching grant is \$1,000. A matching grant is a reimbursement grant, meaning no payment of grant funds will be made by the Department until the subject project is completed and the applicant documents the completion of the project to the Department in accordance with this notice.

4. Uses of matching grant moneys.

(a) *Conformity to application.* Matching grant moneys awarded to an applicant shall be expended solely to reimburse up to 50% of the cost of the specific project described in the grant application.

(b) *Allowable expenditures of grant moneys.* Grant moneys shall be used for one or more of the following purposes described in the grant application:

(1) To pay the cost of the specific project described in the grant application.

(2) To pay the cost of a portion of a Pennsylvania nonprofit agricultural product promotion and marketing organization's contribution to a National or regional agricultural product promotion and marketing project.

(3) To pay the cost of programs conducted by an applicant to educate producers and consumers with respect to agricultural hemp products within this Commonwealth.

(4) To pay the cost of such other activities consistent with the Secretary of Agriculture's authority under section 1704 of The Administrative Code of 1929, as amended (71 P.S. § 444).

(c) *Prohibited expenditure of grant moneys.* Grant moneys may not be used to defray the costs of employing temporary or permanent personnel.

5. Applications.

(a) *Application required.* Interested Pennsylvania nonprofit agricultural product promotion and marketing organizations shall submit grant applications to the Department. An application shall include a detailed work plan and project budget.

(b) *Project commencement and completion dates.* An application shall designate July 1, 2022, or a later date, as the project start date and June 30, 2023, or earlier, as the project completion date. Program grant funds will not be awarded or paid for project activities that occur before the stated project start date or beyond the stated project completion date.

(c) *Electronic applications only.* Interested applicants must submit a complete electronic project proposal and grant application using the Department's Electronic Single Application web site at <https://www.esa.dced.state.pa.us/login.aspx?var=5>.

(d) *Application window.* Applications shall be submitted by 5 p.m. on Friday, December 2, 2022.

(e) *Additional documentation.* The Secretary may require that an applicant submit additional documentation

(1) Verifying that an applicant is a Pennsylvania non-profit agricultural product promotion and marketing organization.

(2) Verifying the activities and location of offices of an applicant.

(3) Confirming that the applicant for a matching grant has secured funds in an amount at least equal to the matching grant amount sought for the project.

6. *Review of application.*

(a) *Transmittal of application to Bureau.* When the Bureau receives a complete and accurate grant application, it will forward this application, together with supporting documentation submitted therewith, to the Secretary for review. The Bureau may also forward a recommendation as to whether the application should be approved or rejected, whether the grant should be in an amount less than requested and whether special restrictions or limitations should be placed on the grant.

(b) *Factors.* The Secretary will review and evaluate the application and supporting documentation and may consider the following factors, among others, in deciding whether to approve or reject the grant request:

(1) The relevance of the project to the promotion or marketing of agricultural hemp products within this Commonwealth.

(5) The availability of full funding for the project from the applicant or from any source other than the grant Program.

(6) The apparent ability of the applicant to complete the project as described in the application or, in the case of a grant to fund a National or regional agricultural product promotion or marketing project, the apparent ability of the entity with primary responsibility for the project to complete it.

(7) The overall performance of the project if the project had received funding through any other grant program administered by the Department in a previous fiscal year.

(8) Projects that are joint efforts between two or more Pennsylvania nonprofit agricultural product promotion and marketing organizations may be given preference over projects involving only one organization.

(9) Projects where reference to the Department as a source of funding can practicably be made in promotional materials or broadcasts, and that would make such a reference, may be given preference over projects that would not make such a reference.

(10) Whether the project has been assigned priority for funding in FY 2022-2023, as previously described in paragraph No. 1(c).

(c) *Decisions.* The Secretary may approve a grant in an amount less than that requested in the grant application. In addition, the Secretary may impose restrictions or special conditions upon the issuance of a grant. The

Secretary will review all recommendations of the Bureau but will have final authority to accept or reject these recommendations.

7. *Notice of disposition of application.*

The Department will e-mail notice of the acceptance or rejection of a grant application by Friday, December 30, 2022. This notice will be by e-mail to the address provided by the applicant in the grant application.

8. *Grant agreement.*

After the Secretary approves a grant application, and as a precondition to the Department's release of grant moneys to a successful applicant, the Department and the applicant will execute a written or electronic grant agreement which describes the terms and conditions subject to which the grant is made. The grant agreement shall contain and conform to the requirements of this notice and shall also contain special terms and conditions as required by the Secretary.

9. *Verification of project completion.*

(a) *General.* Within 30 days of completion of the subject project, the applicant shall provide the Department with proof of the completion of the project and eligibility to receive reimbursement grant funds from the Department.

(b) *Required documentation.* The proof described in subsection (a) shall consist of:

(1) Copies of invoices for goods or services directly related to the project, confirming that the total billed amount is at least twice the amount of the grant, along with the written certification of the president or treasurer of the applicant that the goods or services that are the subject of the invoices have been delivered or provided to the applicant.

(2) A certificate of completion, signed by its president or treasurer, verifying completion of the subject project and stating that the grant funds will reimburse the applicant for a portion of the costs incurred by the applicant in completing the subject project.

10. *Delivery of grant funds by the Department.* The Department will pay the grant amount to the applicant in a single payment within 45 days of receiving the proof of completion previously described in paragraph No. 9.

11. *Questions and additional information.* Questions on this Program, including the online application process, may be directed to Ruth Welliver, Bureau of Plant Industry, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 772-5222.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of November 2022

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of November 2022, is 6 1/4%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government

securities is 3.63 to which was added 2.50 percentage points for a total of 6.13 that by law is rounded off to the nearest quarter at 6 1/4%.

DEPARTMENT OF EDUCATION

Designation of School Districts to Receive Duquesne City School District's Senior High School Students

The Duquesne City School District (Duquesne) eliminated its senior high school program in 2007. Section 14 of the act of July 20, 2007 (P.L. 278, No. 45) (Act 45) governed the reassignment of Duquesne's senior high school students until Act 45 was declared unconstitutional by the Commonwealth Court in 2010. In part, Act 45 authorized the Secretary of Education to designate two or more school districts to accept Duquesne's high school students. Under Act 45, then-Secretary of Education Gerald Zaborchak designated the East Allegheny School District (East Allegheny) and the West Mifflin Area School District (West Mifflin) to accept Duquesne's senior high school students on a tuition basis.

Shortly after Act 45 was struck down, the act of November 23, 2010 (P.L. 1350, No. 123) (Act 123) was enacted. The enactment of Act 123 resulted in significant amendments to section 1607 of the Public School Code of 1949 (School Code) (24 P.S. § 16-1607). Section 1607 of the School Code authorizes the Secretary of Education to designate two or more school districts to accept Duquesne's high school students. When Act 123 was enacted, East Allegheny and West Mifflin were designated to continue to accept Duquesne's senior high school students.

In 2012, Duquesne sought and received the approval of the Department of Education (Department) to alter/curtail its junior high school program (grades 7 and 8). Accordingly, on July 9, 2012, East Allegheny and West

Mifflin were designated to also accept Duquesne's junior high school students under section 1607 of the School Code.

Beginning with the 2021-2022 school year, Duquesne began to again operate a 7th grade program. Beginning with the 2022-2023 school year, Duquesne will again operate an 8th grade program. The designation of East Allegheny and West Mifflin to accept Duquesne's 9–12 grade students for the 2022-2023 school year remains unchanged.

As required under section 1607(d) of the School Code, the Department provides the following information regarding the assignment of Duquesne's 9–12 grade students to East Allegheny and West Mifflin.

Assignment of Students

- Students entering grades 9, 10, 11 or 12 shall be assigned to the same district to which they were assigned during the previous school year.

- Private, religious or charter school students who are residents of Duquesne and who wish to enroll in Duquesne and attend East Allegheny or West Mifflin must register as Duquesne students at the Duquesne Education Center to be assigned to either East Allegheny or West Mifflin.

- Students transferring into Duquesne will be given a choice between East Allegheny and West Mifflin and will be assigned to the district they choose.

Per Pupil Tuition Rate

The per pupil tuition rate that the designated districts shall receive for the 2022-2023 school year is \$15,817.15.

Applications, Actions and Special Notices

APPLICATIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1–691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251–1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit www.dep.pa.gov and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

| III | Individual NPDES Permit Applications for Discharges of Stormwater Associated with Construction Activity |

Section I identifies the following applications and NOIs that have been received by DEP:

- Individual and General WQM Permit Applications Received—DEP provides a 15-day public comment period for Individual WQM Permit Applications for new and reissued permits. There is no public comment period for General WQM Permit NOIs.
- General Chapter 92a NPDES Permit NOIs Received—There is no public comment period for General NPDES NOIs received.
- All Transfer and Minor Amendment Applications/NOIs Received—Transfer and Minor Amendment Applications/NOIs received for Individual and General WQM Permits and Individual and General NPDES Permits, excluding PAG-01 and PAG-02, are identified but do not have public comment periods. DEP provides a 15-day public comment period for Individual WQM Permit Applications for amendments.

Additional information on these applications and NOIs may be reviewed by generating the “Applications and NOIs without Comment Periods Report” or, for Individual WQM Permit Applications, the “Applications Received with Comment Periods Report” on DEP's website at www.dep.pa.gov/CWPublicNotice.

Section II identifies individual NPDES permit applications received and draft permits indicating DEP's tentative determination relating to sewage, industrial waste, industrial stormwater, MS4s, pesticides and CAFOs. A 30-day public comment period applies to these applications and draft permits, except when a site-specific water quality criterion is used to establish effluent limitations, in which case a 45-day public comment period applies. The period for comment may be extended at the discretion of DEP for one additional 15-day period. Additional information, including links to draft permits and fact sheets that explain the basis for DEP's tentative determinations may be reviewed by generating the "Applications Received with Comment Periods Report" on DEP's website at www.dep.pa.gov/CWPublicNotice. Notification of 15-day extensions for comment will be provided in the "Applications Received with Comment Periods Report" (Comments column).

Section III provides notice of applications and draft individual permits for stormwater discharges associated with construction activities. Where indicated, DEP has made tentative determinations, based on preliminary review, to issue permits subject to proposed effluent limitations consisting of best management practices identified in the erosion and sediment control (E&S) plans and post-construction stormwater management (PCSM) plans submitted with the applications, as well as other terms and conditions based on the permit applications. A 30-day public comment period applies to these applications.

Applications, NOIs and draft permits, where applicable, may be reviewed at the DEP office that received the application or NOI. Members of the public are encouraged to use DEP's website to obtain additional information as discussed previously.

Comments received within the appropriate comment periods for WQM and NPDES permit applications will be retained by DEP and considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform DEP of the exact basis of a comment and the relevant facts upon which it is based.

In addition, the permit contains the following major special conditions: a schedule of compliance for new water quality-based effluent limits at Outfalls 007 and 023; requirements for chemical additives; and requirements for storm water discharges associated with industrial activities.

The permittee has the option of collecting additional samples of Outfall 007's discharges and analyzing those samples for hexavalent chromium, total cobalt, total lead, and 1,1,2-trichloroethane using analytical methods with reporting limits equivalent to DEP's target quantitation limits. If new sample analyses show that those pollutants are not detectable at the level of DEP's target quantitation limits, then the limits and monitoring requirements for hexavalent chromium, total cobalt, total lead, and 1,1,2-trichloroethane will be removed from Outfall 007 in the final permit.

STATE CONSERVATION COMMISSION PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed (National Pollutant Discharge Elimination System) NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at <http://www.nacdnet.org/about/districts/directory/pa.phtml> or can be obtained from the SCC at the office address listed or by calling 717-787-8821.

Individuals wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30-days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

Individuals in need of accommodations should contact the SCC through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified individual, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit,

may submit the information to the DEP's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

For the use of sealants and industrial clean-up solvents during the assembly of various window and door products at the Gratz facility. The facility-wide potential to emit of VOC and HAP as a result of this permit action are estimated to be as follows: VOC 25 tpy and HAPs 6.4 tpy. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will

comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, 129.77—Control of emissions from the use or application of adhesives, sealants, primers and solvents, and 129.63a Control of VOC emissions from industrial cleaning solvents. 35-00077B, Canpack US, LLC, 108 Plaza Drive, Suite 200, Blandon, PA 19510, Olyphant Borough, **Lackawanna County**. Application received: September 13, 2022.

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), that the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to Canpack US, LLC, for their facility.

Plan Approval No. 35-00077B is for the modification and operation of aluminum can manufacturing processes operating at the facility. The facility consists of 4 aluminum can manufacturing lines. Line 1 has a rated capacity of 950 million cans per year. Lines 2 and 3 will each have a rated capacity of 1,200 million cans per year. Line 4 originally had a capacity of 1,200 million cans per year, but Canpack is proposing to increase this capacity to 1,400 million cans per year with this plan approval modification. Each manufacturing line is equipped with a dust collector and a regenerative thermal oxidizer (RTO). Each line contains ovens for drying cans and coatings. Potential emissions from these processes include particulates, VOC and combustion by products oxides of nitrogen (NO_x), carbon monoxide (CO), etc. from the natural gas burners.

As part of this plan approval modification, Canpack is proposing to add the following additional sources at the facility:

- Three (3) Inside Bake Ovens each having a capacity of 4.17 MMBtu/hr, one on each Line 2, 3 and 4, with one Regenerative Thermal Oxidizer (RTO) to control VOC emissions.
- Install two additional inside spray stations on Line 2 (Source ID 102)
- Install two additional inside spray stations on Line 3 (Source ID 103) Install two additional inside spray stations on Line 4 (Source ID 104)

- Add a second body-maker station to Line 4 (Source ID 110)

The Department of Environmental Protection's (Department) review of the information submitted by the Canpack US, LLC, indicates that the air contamination sources to be constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including 40 CFR Part 60, Subpart WW and 25 Pa. Code § 129.52 requirements of emission limits from sheet basecoat, can exterior and interior body spray coatings & the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction.

The VOC emissions from the facility will not equal or exceed 50 TPY, based on a 12-month rolling sum. The NO_x, Total PM, SO_x, and CO emissions from the facility will not equal or exceed 100 TPY, based on a 12-month rolling sum. The HAPs from the facility must never equal or exceed 10 TPY of any single HAP and must never equal or exceed 25 TPY of all aggregated HAPs, based on a 12-month rolling sum.

The Plan approval and Operating Permit will include testing, monitoring, recordkeeping, and reporting requirements designed to keep the sources operating within all applicable air quality requirements.

The facility will be a minor facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and specification of the application for Plan Approval No. 35-00077B, the Department will issue a State Only Operating Permit No. 35-00077 to the facility pursuant to the provisions of 25 Pa. Code § 127.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern

industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

E5101222-013. Moran Towing Corporation, 1411 Admiral Peary Way, Philadelphia, PA 19112, City of Philadelphia, **Philadelphia County**. U.S. Army Corps of Engineers Philadelphia District. Application received: September 8, 2022. Latitude: 39.886789°, Longitude: -75.17544°.

To perform the following listed water obstruction and encroachment activities associated with Moran Towing of Philadelphia for the site Pier 1—Philadelphia Navy Yard.

The proposed activities include:

1. Remove remaining existing fender members around the perimeter of the pier.

2. Encapsulate and stabilize the existing structure inside a new steel sheet pile bulkhead (approximately 1,000 linear feet). The perimeter of the pier will be constructed as an anchored steel sheet pile. The upriver and downriver sides of the pier will be tied to each other using anchor rods. The offshore end will be anchored to an internal sheet pile wall constructed inshore and parallel to the offshore wall, or it will be cantilevered to eliminate the internal wall. The sheet pile will be located approximately 2.5 to 3 feet from the existing upriver and downriver pier and the sheet pile on the offshore end will be located approximately 4 to 5 feet from the existing offshore end.

3. Place stone fill between the existing timber sheeting and the proposed steel bulkhead to engage the bulkhead

to an elevation of mean low water. Then place concrete fill from mean low water to the top of the existing seawall.

4. Perform excavation, as required, to place flowable fill beneath the timber decking to fill voids present between the timber decking and the mudline below. The amount of flowable fill required is unknown but will only be required in an approximately 3,600 square foot portion of the pier. An engineer's estimate of flowable fill required is 7,800 cubic yards.

5. Place utilities for shore power.

6. New asphalt on the pier and within the floodway after utility and tie rod installation.

7. Apply coatings and other treatments to protect the new steel structural elements from corrosion and to enhance the pier's appearance.

8. The exterior appearance of the pier will be steel sheeting with a fender system installed where the vessels will be berthing.

9. Stormwater runoff will be captured by trench drains located along the perimeter that are routed to a water-quality, pollutant reducing device before discharging.

10. The redevelopment of the pier will necessitate the removal of an existing 12" stormwater line that outfalls at the southern edge of Pier 1. A new 12" stormwater line from an existing manhole in the sidewalk adjacent to Admiral Peary Way will discharge to a new 12-inch outfall (Stormwater Outfall No. 1) is proposed just east of Pier 1 along the Admiral Peary Way bulkhead.

11. Stormwater Outfall No. 2 is an existing outfall that will be in the same location as the existing PWD Stormwater Outfall S-007-42 (at the outshore, southern end of the pier). However, a new 12" line will extend (approximately 7.5 feet) through the new bulkhead and discharge directly to the river.

12. A new proposed maintenance building approximately 3,255 SF will be in the southern part of the pier.

The site is located at the Navy Yard, Pier 1, near the intersection of terminal Avenue and S. Broad Street (Philadelphia, PA USGS map) in the City and County of Philadelphia.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law).

The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law. For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board. Individuals who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at 717-787-3483. Important legal rights are at stake, however, so individuals should contact a lawyer at once.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

For actions taken on applications for pipelines that are regulated by the Federal Energy Regulatory Commission (FERC).

Any person aggrieved by this action may challenge it in an appropriate legal forum. The State and Federal courts are currently split on whether the proper forum to challenge a Department permit, authorization or approval for a facility or activity subject to the Federal Natural Gas Act, 15 U.S.C.A. §§ 717 et seq., is the United States Court of Appeals for the Third Circuit or the Pennsylvania Environmental Hearing Board. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of resi-

dential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

PREAMBLE 2

The Following Plan(s) and Report(s) Were Submitted Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

PREAMBLE 3

Action(s) Taken on the Following Plans and Reports Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports.

A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Whereas, The Pennsylvania Game Commission (Commission) has determined that eastern cottontails (*Sylvilagus floridanus*), Appalachian cottontails (*Sylvilagus obscurus*), and snowshoe hares (*Lepus americanus*), members of the family Leporidae, are native and familiar species to the public and important prey and game species with impacts on the vegetation structure of their ecosystems; and

Whereas, Rabbit Hemorrhagic Disease Virus Serotype 2 (RHDV2), a unique variant of RHD, has been detected in the United States in recent years and can infect all ages of a wide range of domestic and wild lagomorphs, including North American wild species of hares, jackrabbits, and cottontails; and

Whereas, The Commission desires to prevent the introduction and spread of RHDV2 within wild lagomorphs of the Commonwealth; and

Whereas, RHDV2 is of particular concern to the Commonwealth because of its potential to have a detrimental impacts on both wild and domestic lagomorph populations; and

Whereas, The Commission has determined that movement of any wild lagomorphs or their products (meat, pelts, hides, carcasses, etc.), associated equipment or other items and materials from locations where RHDV2 has been detected in wild or domestic lagomorph populations into the Commonwealth poses an unacceptable risk of introduction and spread of RHDV2 to the Commonwealth; and

Whereas, Section 137.34 of the *Pennsylvania Code* (58 Pa. Code § 137.34) provide specific emergency authority to the Executive Director of the Commission to mitigate risk factors and determine the prevalence and geographic distribution of transmissible wildlife diseases of wild birds and mammals, excluding those species under Federal jurisdiction, if the introduction or spread of such diseases poses a threat to human, domestic and wild animal, or environmental health and safety within or adjacent to this Commonwealth; and

Whereas, Previous executive orders concerning a RHD importation ban within this Commonwealth were issued by the Commission on July 9, 2021 and March 23, 2022; and

Whereas, The Commission has determined that the designation of an RHD Disease Management Area is required to implement necessary updates to the Commission’s RHD Management Plan.
