(7) The extent to which the full proposal meets the requirements for an "eligible project" presented in section 2(b).

(8) Whether the subject specialty crop is not currently eligible for grant payments under the Program.

#### 8. *Notice of disposition of application.*

The Department will e-mail written notice of the acceptance or rejection of a full proposal. This notice will be by e-mail to the e-mail address provided by the applicant in the application. Applicants of successful full proposals will be invited to submit an application containing a final proposal for the Program. This application will be provided by the Department with instructions for submittal. Only those applicants notified by the Department will be eligible to submit a final proposal. The

Department will evaluate all final proposals by applying the evaluation factors presented in section 7.

#### 9. *Grant agreement.*

After the Secretary approves a grant application, and as a precondition to the Department's release of grant moneys to a successful applicant, the Department and the applicant will execute a written or electronic Grant Agreement which describes the terms and conditions subject to which the grant is made. The Grant Agreement shall contain and conform to the requirements of this notice and shall also contain special terms and conditions as required by the Secretary.

#### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public re-

view during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

**49-00068A: ColorCoat, Inc.**, 294 North Industrial Park Road, Milton, PA 17847, has submitted an application (49-00068A) to the Pennsylvania Department of Environmental Protection for plan approval to construct and operate a surface coating operation with an integral spray booth at their facility located in Milton Borough, **Northumberland County**.

The Department's review of the information submitted by ColorCoat, Inc. indicates that the proposed source will meet all applicable air quality regulatory requirements, including the Best Available Technology requirements of 25 Pa. Code §§ 127.1 and 127.12 pertaining to air contamination sources and the emission of air contaminants. Based on these findings, the Department intends to issue plan approval for the construction of the proposed project.

The following is a brief description of the conditions that the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

1. Pursuant to the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall not permit the following air contaminant emissions from the exhaust of each spray booth in excess of the limitations listed as follows: (a) nitrogen oxides (NO<sub>x</sub>, expressed as NO<sub>2</sub>)—0.28 ton in any 12 consecutive month period, (b) carbon monoxide (CO)—0.12 ton in any 12 consecutive month period, (c) sulfur oxides (SO<sub>x</sub>, expressed as SO<sub>2</sub>)—0.002 ton in any 12 consecutive month period, (d) particulate matter (PM/PM<sub>10</sub>/PM<sub>2.5</sub>)—0.001 grain per dry standard cubic foot of exhaust gas and 0.04 ton in any 12 consecutive month period, (e) total combined volatile organic compounds (VOC)—2.70 tons in any 12 consecutive month period, (f) total combined volatile hazardous air pollutants (VHAPs)—1.32 tons in any 12 consecutive month period;

2. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall only use natural gas as fuel for the dryer units incorporated in each spray booth. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall surface coat no more than 300 window frames per day in each spray booth.

3. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall only use high-volume, low-pressure (HVLP) spray guns to apply any coating in each spray booth.

4. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, overspray from the surface coating operation in each spray booth shall be kept to a minimum.

5. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, each spray booth shall be equipped with a full set of filter panels during any surface coating operation.

6. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall keep on hand spare filter panels for the immediate replacement of any filter panel in each spray booth due to deterioration.

7. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, the permittee shall equip each spray booth with instrumentation to monitor the differential pressure across the filter panels on a continuous basis. The permittee shall record the differential pressure at least once per shift.

8. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, all containers of volatile organic compound-containing, volatile hazardous air pollutant-containing and acetone-containing materials shall be kept closed except when material is being added or removed from the containers.

9. Pursuant to the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12, the doors of

each spray booth shall remain closed any time that spraying operations are occurring in the spray booth. The plan approval will include all regulatory requirements, including monitoring, recordkeeping, and reporting requirements. The facility is a State Only facility.

If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 49-00068A, the requirements established in the plan approval will be incorporated into State Only Operating Permit 49-00068 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

All documentation used in the evaluation of the application is available for public review during normal business hours at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-3636.

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

#### *Additional criteria*

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan, and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters of this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

#### *Submittal of comments*

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit notice within 30-days of this notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and phone number of the writer and a concise statement to inform the Department of the basis of a comment and the relevant facts upon which it is based.

Requests or petitions for a public hearing on any NPDES permit applications will be accepted as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, phone number and the interest of the party filing the request and state the reasons why a hearing is warranted. The Department may hold a public hearing if the public interest is significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will consider comments from the public hearing in the final determination on the NPDES permit application.

### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

#### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site

investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

### FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval, and requests for Water Quality Certification under Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of Sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317), and that the construction will not violate applicable Federal and State Water Quality Standards.

Any person aggrieved by these actions may appeal, pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A, to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30-days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. ## **CORRECTIVE ACTION UNDER ACT 32, 1989**

### **PREAMBLE 2**

**The Following Plans and Reports Were Submitted Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).**

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the

environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Environmental Cleanup Program Manager in the DEP Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

*Interim Final TGD: New Guidance*

**DEP ID:** 258-2182-774. **Title:** Utilizing Published Data in Performing a Background Demonstration and Equivalent Site Evaluation for Naturally Occurring Vanadium. **Description:** The current clean fill concentration limit for vanadium established by the Department's Management of Fill Policy, Document # 258-2182-773, is below what is typically found in naturally occurring soils in this Commonwealth and surrounding states. The purpose of this interim final technical guidance document is to identify data that represents background vanadium concentrations in soil and use the statistical method suggested by the Management of Fill Policy to develop regional background concentrations to be used in making fill determinations. Use of the established regional background concentration can satisfy the procedures for collecting additional samples and data in performing a background determination and equivalent site evaluation outlined in the Management of Fill Policy.

**Written Comments:** Interested persons may submit written comments on this interim final TGD through Wednesday, April 27, 2022. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the commentator's name and address. **DEPARTMENT OF ENVIRONMENTAL PROTECTION****Proposed Medium and Heavy-Duty Zero Emission Vehicle Pilot Grant Program; Request for Information**

The Department of Environmental Protection (Department) issues this Request for Information (RFI) on the development of a new competitive grant solicitation to support a Medium and Heavy-Duty (MHD) Zero Emission Vehicle (ZEV) Pilot Program (Program). Funding for the Program may be offered as part of the Driving PA Forward Program as an eligible mitigation action of the onroad fleet project type as described in the Commonwealth's Beneficiary Mitigation Plan under the Environmental Mitigation Trust Agreement for State Beneficiaries in the case *In re: Volkswagen "Clean Diesel" Marketing, Sales Practices, and Products Liability Litigation*.

The publication of this RFI does not constitute or necessitate a change to the Commonwealth's Beneficiary Mitigation Plan. This RFI is intended for respondents to provide comment on the information specified in this notice. This RFI is also intended to communicate the Department's general goals and objectives for Program development. This RFI does not constitute a grant solicitation, nor does it represent a commitment to issue a grant solicitation in the future. This RFI does not commit the Department to any specific form of grant solicitation. Responding to this RFI is not a pre-requisite for participation in a future grant solicitation process. Persons and organizations who choose to not respond to this RFI may still participate in any subsequent grant solicitation process for the Program. Respondents choosing to respond to this RFI will not, merely by submitting such a response, be deemed to be applicants to any Driving PA Forward grant program, and no such respondent will have any preference, special designation, advantage or disadvantage whatsoever in any subsequent grantmaking process for the Program or other Driving PA Forward programs. Respondents should not anticipate a response from the Department regarding submitted materials.

The proposed outcomes of the Program include: improving air quality as a result of lowered vehicle emissions; improving air quality in one or more environmental justice areas; benefitting the electric vehicle supply chain in this Commonwealth; providing fleet managers with ZEV performance data; and increasing MHD ZEV purchases in this Commonwealth.

The Department requests information on the following topics to inform the development of program solicitation guidelines for the Program:

1. What additional goals or priorities should the Program seek to accomplish?

2. What data generated from MHD ZEV pilot projects funded by this Program would be useful to fleet managers and other stakeholders to encourage MHD ZEV adoption, and what methods should be used to disseminate information?

3. What amount of project funding for new vehicle and charging infrastructure would be necessary to incentivize near term MHD ZEV pilot projects to be deployed in the Commonwealth? Furthermore, should maximum Program funding award amounts be based on one or more of the following factors? Indicate why.

a. The percentage of incremental vehicle purchase costs.

b. A fixed amount per vehicle based on vehicle type, fuel type and class size.

c. A percentage of the infrastructure installation cost.

d. Vehicle miles traveled, annual operating hours or some other metric that accounts for usage.

e. Another factor not listed in this RFI.

4. The Driving PA Forward program requires that a pre-2010 diesel vehicle of the same class be scrapped for each new vehicle purchased. What methods could the Department allow for applicants to satisfy the scrappage requirement established in Appendix D-2 of the Volkswagen Settlement (available at <https://www.vwcourtsettlement.com/en/docs/DOJ/Approved%20Appendix%20D-2.pdf>)? Provide examples of solutions implemented in other states, if possible.

5. Should the Program focus on specific vehicle classes and types or should the pilot program include all class 4—8 ZEVs without preference?

6. Should the Program provide preference to one or more specific vehicle usage types (such as delivery, utility or refuse vehicles)?

7. Should the Department establish a minimum number of zero emission fleet vehicles for a pilot project to be eligible for the Program or require the applicant to transition a minimum percentage of the applicant's fleet, or both? If so, what minimum vehicle count or fleet percentage should be considered?

8. Should the Program give preference to or require that ZEVs or vehicle charging equipment be partially or wholly produced in the United States or in this Commonwealth? If yes, how should this be documented and confirmed?

9. How should the Program encourage or give preference to projects that provide significant benefits to Environmental Justice Areas? What metrics should be used to measure project benefits to Environmental Justice Areas?

10. Should the Program incorporate preferences based on applicant type (for example: municipal, for-profit or nonprofit)?

11. Should applicants for a MHD ZEV pilot project include a plan to use operational savings from pilot vehicle project to invest in additional ZEV purchases? If yes, what components and commitments should the plan contain?

12. Should applicants for a MHD ZEV pilot project include a plan to share project performance data with stakeholders such as fleet managers in this Commonwealth? If yes, what outreach methods should the plan contain?

13. What specific reporting should the Department require from Program funding recipients?

14. What other program details, requirements or flexibilities should the Department incorporate into the Program?

Interested persons may submit information by e-mail at [ra-epvwmitigation@pa.gov](mailto:ra-epvwmitigation@pa.gov). Information must be received no later than Monday, March 28, 2022. Use "Request for Information: Proposed Medium and Heavy-Duty Zero Emissions Vehicle Pilot Grant Program" as the subject line in written communication.

Questions concerning this RFI should be directed to David Althoff at [dalthoff@pa.gov](mailto:dalthoff@pa.gov) or (717) 783-0542.

**DEPARTMENT OF  
HUMAN SERVICES**

**Fee Schedule Rates and Department-Established Fees for Services Funded Through the Office of Developmental Programs' Adult Autism Waiver**

The Department of Human Services (Department) is providing final notice of the Fee Schedule Rates and Department-Established Fees for services funded through the Adult Autism Waiver. The rates are effective July 1, 2021.

*Background*

Under 55 Pa. Code § 6100.571 (relating to fee schedule rates), which was effective October 5, 2019, the Department

is required to update the data used in establishing the fee schedule rates at least every 3 years. The Department has reviewed and revised its rates for Adult Autism Waiver services to comply with this requirement as well as to comply with the requirement in the Home and Community-Based Waiver Instructions, Technical Guide and Review Criteria to ensure at a minimum of every 5 years that rates are adequate to maintain an ample provider base and ensure quality of services.

*Fee Schedule Rates and Department-Established Fees*

The proposed Fee Schedule Rates and Department-Established Fees for Adult Autism Waiver services were published at 52 Pa.B. 98 (January 1, 2022). The Department received comments from ten stakeholders regarding the proposed changes to the Fee Schedule Rates and Department-Established Fees. A summary of the comments received and the Department's responses are available at <https://www.dhs.pa.gov/providers/Providers/Documents/ODP/Public%20Notices%20Related%20to%20Rates/AAW%20Rate%20Comment%20and%20Response%20Summary%20Placeholder.pdf>. After reviewing the comments on the proposed rates, the Department determined that no changes were necessary to the Fee Schedule Rates or Department-Established Fees for services funded through the Adult Autism Waiver.

The final Fee Schedule Rates and the Department-Established Fees represent the maximum rates the Department will pay for each service. The final Fee Schedule Rates and the Department-Established Fees are included in the following tables and can also be found online at <https://www.dhs.pa.gov/providers/Providers/Pages/ODP-Rates.aspx>.

**DEPARTMENT OF  
HUMAN SERVICES**

**Fee Schedule Rates and Department-Established Fees for Services Funded Through the Office of Developmental Programs' Consolidated, Community Living and Person/Family Directed Support Waivers and the Community Intellectual Disability Base-Funded Program**

The Department of Human Services (Department) is providing final notice of the Fee Schedule Rates and Department-Established Fees for services funded through the Consolidated, Community Living and Person/Family Directed Support (P/FDS) Waivers and the Community Intellectual Disability Base-Funded Program.

The Fee Schedule Rates are effective January 1, 2022, with the exception of the rates for Agency With Choice Financial Management Services (AWC FMS) and direct Community Participation Support services. The Fee Schedule Rates for AWC-FMS will be effective on March 1, 2022. The Fee Schedule Rates for direct Community Participation Support services will be effective 6 months after the expiration of the Federal novel coronavirus (COVID-19) public health emergency and the temporary increases to the Fee Schedule Rates that are currently in place will end. The Department-Established Fees are effective July 1, 2022.

*Background*

Under 55 Pa. Code § 6100.571 (relating to fee schedule rates), which was effective October 5, 2019, the Department is required to update the data used in establishing the fee schedule rates at least every 3 years. The Department has reviewed and revised its rates for services funded through the Consolidated, Community Living and P/FDS Waivers, as well as the Community Intellectual Disability Base-Funded Program to comply with this requirement and the requirement in the Home and Community-Based Waiver Instructions, Technical Guide and Review Criteria to ensure at a minimum of every 5 years that rates are adequate to maintain an ample provider base and ensure quality of services.

*Fee Schedule Rates and Department-Established Fees:*

The proposed Fee Schedule Rates and Department-Established Fees for Consolidated, Community Living and P/FDS Waiver services, as well as the Community Intellectual Disability Base-Funded Program were published at 52 Pa.B. 102 (January 1, 2022). The Department received comments from 134 stakeholders regarding the proposed changes to the Fee Schedule Rates and Department-Established Fees. A summary of the comments received and the Department's responses is available at <https://www.dhs.pa.gov/providers/Providers/Documents/ODP/Public%20Notices%20Related%20to%20Rates/IDA%202022%20Rate%20Comment%20and%20Response%20Summary.pdf>. After reviewing the comments on the proposed rates, the Department determined that an increase to the Fee Schedule Rates for the AWC FMS monthly administrative fee from \$285.28 to \$311.68 was necessary to cover staff wages and the costs of implementing participant directed services in accordance with requirements in the approved waivers.

One Fee Schedule Rate was developed for each service. The Fee Schedule Rates are identified under the following categories: Community-Based Services, Agency with Choice Financial Management Services, including benefit allowance and excluding benefit allowance, Community Participation Support Services and Residential Services. The benefit allowance under the Agency with Choice Financial Management Services is provided as an option to include consideration for benefits such as disability insurance, life insurance, retirement savings and paid time off. Two Department-Established Fees were developed for each Residential Habilitation Ineligible service based on geographic costs based on the location where the service is provided.

The final Fee Schedule Rates and the Department-Established Fees represent the maximum rates the Department will pay for each service. The final Fee Schedule Rates and the Department-Established Fees are included in the following tables and can also be found online at <https://www.dhs.pa.gov/providers/Providers/Pages/ODP-Rates.aspx>.

(a) The Wow lottery game is an instant win game printed from a Lottery Terminal. With the exception of the “PROGRESSIVE TOP PRIZE,” all prizes are predetermined, and the player does not have the ability to select their own play symbols. Wow tickets may be purchased from an authorized retailer or at a Lottery self-service terminal that sells terminal-based Lottery game tickets. Tickets purchased from an authorized retailer shall be printed on-demand at the time of purchase and may not be preprinted by the retailer.

(b) Wow is played by matching any of the play symbols located in the “YOUR NUMBERS” area to any of the play symbols located in the “WINNING NUMBERS” area. A player matching play symbols in this manner will win the prize shown under the matching “YOUR NUMBERS” play symbol. Whenever “WOW” appears with one or more winning matches in the “YOUR NUMBERS” area, the player increases any prize won by \$10. A bet slip is not used to play this game.

(c) Wow tickets contain a “WOW NUMBER” area and a “PROGRESSIVE NUMBERS” area. (d) Players can win the prizes identified in section 6 (relating to prizes available to be won and determination of prize winners).

(e) Wow tickets cannot be canceled or voided once printed by the Lottery Terminal, even if printed in error.

(f) To purchase a ticket at an authorized retailer, a player must remit the purchase price to the retailer and verbally request a Wow ticket. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize.

(g) To purchase a ticket at a Pennsylvania Lottery self-service terminal, the player must insert into the self-service terminal a dollar amount equal to the total purchase price of a Wow ticket and select the Wow option on the Lottery self-service terminal. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize.
