LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified individual, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the DEP's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State

Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval may be incorporated into an Operating Permit pursuant to the provisions of 25 Pa. 41-00084, Hamilton Patriot LLC, 50 Patriot Lane, Montgomery, PA 17752, Clinton Township, **Lycoming County**. Application received: November 7, 2022. The Department to issue a renewal Title V Operating Permit for the Hamilton Patriot Generation Plant. The facility is currently operating under Title V Operating Permit 41-00084. The facility's sources include two Siemens SGT6-8000H lean premix DLN natural-gas-fired combustion turbines and steam turbines configured in a single shaft alignment and drive one common electric generator rated approximately 3,096 MMBtu/hr (HHV) (P103) and 3,007 MMBtu/hr (HHV) (P104). Each unit will be equipped with approximately 164 MMBtu/hr (HHV) natural-gas-fired duct burners and heat-recovery-steam-generators. Additionally, there are also one 12.7 MMBtu/hr natural-gas-fired fuel heater, one 1,472 brake-horsepower diesel-fired emergency generator, one 460 brake-horsepower diesel-fired fire water pump, two diesel fuel storage tanks, two 15,000-gallon lube oil storage tanks, and one 15,000-gallon aqueous ammonia storage tank. The facility has potential annual emissions of 170.30 tons of carbon monoxide, 193.90 tons of nitrogen oxides, 25.20 tons of sulfur oxides, 101.70 tons of particulate matter including particulate matter less than 10 microns in size, 101.70 tons of particulate matter less than 2.5 microns in size, 51.60 tons of volatile organic compounds, 13.00 tons of hazardous air pollutants, and 2,803,217 tons of greenhouse gases. Revisions include incorporating applicable RACT III requirements of 25 Pa. Code §§ 129.111—129.115 and incorporating the terms and conditions of Plan Approval 41-00084C. Each turbine at the facility is subject to the presumptive RACT III emission limitations of ≤ 4 ppmvd at 15% O₂ for NO_x and ≤ 2 ppmvd at 15% O₂ for VOCs (as propane) (§ 129.112(g)(2)(iii)(A&B)). Each turbine at the facility is already subject to a NO_x emission limit of 2.0 ppmvd at 15% O₂ and a VOC limit of 0.7 (without duct burner) and 1.2 (with duct burner) ppmvd at 15% O₂ established through best available technology in Plan Approval 41-00084C. Compliance with these emission limitations assures compliance with the presumptive RACT III emission limitations. The emission limits, throughput limitations and work practice standards along with testing,

monitoring, recordkeeping and reporting requirements have been included in the operating permit to ensure the facility complies with all applicable Federal and State air quality regulations. These operating permit conditions have been derived from the applicable requirements of 40 CFR Part 60 Subparts IIII and KKKK; 40 CFR Part 63 Subpart ZZZZ; and 25 Pa. Code Article III, Chapters 121–145. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-3636.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l

pH must always be greater than 6.0; less than 9.0.
Alkalinity must always be greater than acidity.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law).

The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law. For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board. Individuals who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at 717-787-3483. Important legal rights are at stake, however, so individuals should contact a lawyer at once.

For actions taken on applications for pipelines that are regulated by the Federal Energy Regulatory Commission (FERC).

Any person aggrieved by this action may challenge it in an appropriate legal forum. The State and Federal courts are currently split on whether the proper forum to challenge a Department permit, authorization or approval for a facility or activity subject to the Federal Natural Gas Act, 15 U.S.C.A. § 717 et seq., is the United States Court of Appeals for the Third Circuit or the Pennsylvania Environmental Hearing Board. Hazardous Sites Clean-up Under the Act of October 18, 1988, Notice of Proposed Interim Response Venango County Park Site, City of Franklin/Sugarcreek Borough, Venango County.

Northwest Region: Environmental Cleanup & Brownfields Program, 230 Chestnut Street, Meadville, PA 16335-3481, 814-332-6945.

Contact: Colin Kosinski, 814-332-6837.

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P.S. §§ 6020.101—6020.1305), is proposing an interim response at the Venango County Park Site (Site). The Site is located between US Route 62 and railroad tracks near the western bank of the Allegheny River and its confluence with French Creek within the municipal boundaries of the City of Franklin and Sugarcreek Borough, **Venango County**, Pennsylvania.

The Site, which is approximately 2-acres and heavily vegetated, contains an inactive, unlined landfill with remnants of two building foundations. The landfill waste consists mostly of construction and demolition debris and various deteriorated drum carcasses. The hazards posed include an ongoing release of hazardous substances from waste improperly disposed at the Site, and direct contact and inhalation threats to human health from soils and wastes impacted with metals, polychlorinated biphenyls (PCBs), volatile organic compounds (VOCs), and pesticides.

The objectives and scope of the proposed response are: 1) protect the public and environmental receptors from direct contact exposure to soils containing metals, PCBs, VOCs, and pesticides; 2) remove and properly dispose of the exposed wastes on site; and 3) comply with Federal, State, and local regulations.

To achieve the objectives for the Site, the Department has chosen to excavate and remove the waste. This choice complies with Applicable, or Relevant and Appropriate Requirements, is feasible, and cost-effective. Other alternatives considered for the Site included taking no action and fencing off the Site from the public.

This notice is being provided pursuant to Section 506(b) of HSCA. The Administrative Record, which contains the information that forms the basis and documents the selection of this response action, is available for public review and comment. The Administrative Record is located at 230 Chestnut Street, Meadville, PA 16335 and is available for review Monday through Friday from 8:00 a.m. to 4:00 p.m.

The Administrative Record will be open for comment from June 26, 2023, until September 25, 2023. Any person may submit written comments into the record during this time, only, by sending them to Colin Kosinski at Department of Environmental Protection, 230 Chestnut Street, Meadville, PA 16335 or ckosinski@pa.gov, or by delivering them to this office in person.

In addition, any person may present oral comments, for inclusion in the Administrative Record, at a public hearing. The Department has scheduled a virtual hearing for July 27, 2023, at 6:00 p.m. Any person wishing to present comments must register with Tom Decker before July 14, 2023, by telephone at 814-332-6615, by electronic mail at thomadecke@pa.gov, or in writing at Department of Environmental Protection, 230 Chestnut Street, Meadville, PA 16335.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service, or other accommodations to participate in the proceedings, should call Tom Decker at 814-332-6615, or through the Pennsylvania Hamilton Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995

PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995

PREAMBLE 3

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final

report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Alternative Fuels Incentive Grant Program; Opportunity Notice

The Department of Environmental Protection (Department), Energy Programs Office announces an opportunity to apply for grants under the Alternative Fuels Incentive Grant (AFIG) Program to improve the Commonwealth's air quality and reduce consumption of imported oil through the use of homegrown alternative fuels that will help the Commonwealth's economy and environment. Programs, like AFIG, that incentivize the use of alternative fuels for transportation can help the Commonwealth reach the greenhouse gas emissions reduction goals outlined in the 2021 Pennsylvania Climate Action Plan. The Department is seeking applications for innovative, advanced fuel and vehicle technology projects resulting in cleaner advanced alternative transportation within this Commonwealth.

Approximately \$3 million in grants will be available for school districts, municipal authorities, political subdivisions, nonprofit entities, corporations and limited liability companies or partnerships incorporated or registered in the Commonwealth to support:

- Incremental cost expenses relative to retrofitting vehicles to operate on alternative fuels.
- Incremental cost expenses to purchase new alternative fuel vehicles.
- The cost to purchase and install refueling equipment servicing alternative fuel vehicles.
- The cost to perform research, training, development and demonstration of new applications or next-phase technology related to alternative fuel vehicles.

Priorities for funding for 2023 include:

- Zero emission vehicle projects.
- Renewable natural gas vehicle and infrastructure projects.
- Medium-duty and light-duty fleet refueling infrastructure projects.
- Projects located in or predominantly serving environmental justice areas. (<https://www.dep.pa.gov/PublicParticipation/OfficeofEnvironmentalJustice/Pages/PA-Environmental-Justice-Areas.aspx>).
- Applicants that are minority, veteran or woman-owned businesses.

The Department will endeavor to award a minimum 20% of available AFIG funding for the program year to the following entities, dependent upon applications received:

- Counties, townships, municipalities or municipal authorities.
- Public school districts including brick and mortar charter schools.
- Organizations registered as a 501(c)3 that provide services to seniors, low income individuals and families, individuals with disabilities, veterans or medical services of any type.
- Businesses either registered with the Commonwealth as a Small Diverse Business or who are registered with one of the Department of General Services

approved third-party certifications as identified on the web site at <https://www.dgs.pa.gov/Small%20Diverse%20Business%20Program/Small-Diverse-Business-Verification/Pages/default.aspx>.

- Organizations who are county/local government supported or contracted to provide services to seniors, low income individuals and families, individuals with disabilities, veterans or medical services of any type.

Changes to the program for 2023 for the Vehicle Retrofit and Purchase projects category include:

- For refueling infrastructure, AFIG will be focusing on projects that service medium-duty fleets of class 3—6 vehicles and light-duty fleets of class 1 and 2 vehicles. Funding for other types of refueling infrastructure projects may be available through the Driving PA Forward Level 2 Rebate programs and through Department programs funded through the National Electric Vehicle Infrastructure program and other Infrastructure Investment and Jobs Act funding.

The program guidelines and application instructions are available on the Department's AFIG web site at <http://www.dep.pa.gov/AFIG>. Applications will be accepted online through the Commonwealth's eGrants system. Visit <http://www.esa.dced.state.pa.us/> to apply.

The application period will open June 30, 2023. The Department will collect and review applications received by 11:59 p.m. on Friday, August 25, 2023, and by 4 p.m. on Friday, December 15, 2023. Hard copy applications will not be accepted.

DEPARTMENT OF HUMAN SERVICES

Nursing Facility Assessment Program for Fiscal Year 2023-2024

This notice announces the proposed assessment amount, the proposed assessment methodology and the estimated aggregate impact on nursing facilities that will be subject to the assessment under the Nursing Facility Assessment Program (Assessment Program) beginning in Fiscal Year (FY) 2023-2024.

Background

Article VIII-A of the Human Services Code (code) (62 P.S. §§ 801-A—815-A) authorizes the Department of Human Services (Department) to impose an annual monetary assessment on nonpublic and county nursing facilities in this Commonwealth. See 62 P.S. §§ 803-A and 815-A.¹

Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). To ensure receipt of FFP, Article VIII-A of the code requires the Department to seek a waiver from the Centers for Medicare & Medicaid Services (CMS), if necessary, to implement the Assessment Program. See 62 P.S. § 812-A. For FY 2023-2024, the Department will submit a waiver request to CMS to implement changes to the Assessment Program as described in this notice. The implementation of these changes is contingent on CMS's approval of the waiver request.

For each fiscal year that the Assessment Program is implemented, the Secretary of the Department (Secretary) determines the aggregate amount of the assessment and the annual assessment rates in consultation with the Secretary of the Budget. See 62 P.S. § 804-A. The annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for FFP. See 62 P.S. § 804-A.

Before imposing an annual assessment for a fiscal year, the Secretary must publish a notice in the *Pennsylvania Bulletin*. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P.S. § 805-A.

¹ Act 54 of 2022, § 16 amended the Commonwealth's Fiscal Code to reauthorize the assessment under Article VIII-A through June 30, 2026. See 72 P.S. § 1606-T.

This notice announces the assessment amounts, rates and methodology that the Department is proposing to implement in FY 2023-2024 and the estimated aggregate impact on nursing facilities that will be subject to the assessment in FY 2023-2024.

Proposed Assessment Methodology and Rates

Beginning with FY 2023-2024, the Department is proposing to revise the criterion for inclusion in the lower tier rate by reducing the previous MA days requirement from 90,000 MA days to 80,000 MA days and eliminating the overall occupancy rate requirement. Eligibility for meeting this criterion is based on Calendar Year (CY) 2021 resident days data. No other changes to the current assessment methodology have been made. For the period July 1, 2023, to June 30, 2024, the Department intends to calculate each nonexempt facility's quarterly assessment amount by multiplying its assessment rate by the facility's non-Medicare resident days during the calendar quarter that immediately preceded the assessment quarter.

With these modifications, the Assessment Program will be implemented as follows:

For FY 2023-2024, the assessment will be imposed on all licensed nursing facilities in this Commonwealth except the following nursing facilities, which will be exempt from the Assessment Program:

- (1) State-owned and operated nursing facilities.
- (2) Veterans Administration nursing facilities.
- (3) Nursing facilities that provide nursing facility services free of charge to all residents.
- (4) Nursing facilities that have not been licensed and operated by either the current or a previous owner for the full calendar quarter prior to the calendar quarter for which an assessment is collected. A nursing facility that changes ownership is not considered a newly licensed nursing facility for assessment purposes.

For FY 2023-2024, the Department is proposing to continue to assess nonexempt nursing facilities at two rates. The Department is proposing to continue to assess a rate of \$9.32 to the following five categories of nursing facilities:

- County nursing facilities.
- Nursing facilities that have 44 or fewer licensed beds.
- Certain continuing care retirement community (CCRC) nursing facilities (see 40 Pa.B. 7297 (December 18, 2010)).
- Nursing facilities with an MA occupancy rate of at least 94% based on CY 2021 resident days as of July 19, 2022. For the purpose of qualifying for the lower assessment rate, a nursing facility's MA occupancy rate will be calculated as follows: MA Occupancy Rate = Sum of Total PA MA Days from the CY 2021 resident days data ÷ Sum of Total Resident Days from the CY 2021 resident days data, rounded to two decimals (nearest whole percent).
- Nursing facilities with at least 80,000 MA days based on the CY 2021 resident days as of July 19, 2022.

For all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010, the Department is proposing to continue to assess these facilities at a rate of \$33.41.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that if the proposed assessment rates are implemented, the annual aggregate as-

essment fees for nonexempt nursing facilities will total \$458.694 million. The Department will use the State revenue derived from the assessment fees and any associated FFP to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

Public Comment

Interested persons are invited to submit written comments regarding this proposed assessment to the Department of Human Services, Office of Long-Term Living, Bureau of Policy and Regulatory Management, Attention: Erica Justice, P.O. Box 8025, Harrisburg, PA 17105-8025 or at RA-PWOLTLNFPUBLICCOM@pa.gov. Comments must be submitted within 30 days of publication of this notice. See 62 P.S. § 805-A. After considering the comments, the Secretary will publish a second notice announcing the final assessment rates for FY 2023-2024. The Department will not begin collecting assessment fees until after the publication of the final assessment rate notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Payments to Nonpublic and County Nursing Facilities; Proposed Rates for State Fiscal Year 2023-2024

This notice announces the Department of Human Services (Department) proposed annual case-mix per diem payment rates for State Fiscal Year (FY) 2023-2024 for nonpublic and county nursing facilities that participate in the Medical Assistance (MA) Program.

Nonpublic Nursing Facility Per Diem Rates

As required by the case-mix payment methodology in 55 Pa. Code Chapter 1187, Subchapter G (relating to rate setting), the Department intends to set an annual MA per diem rate for each nonpublic nursing facility provider. Each facility's annual per diem rate will have four components: resident care, other resident related, administrative and capital. For each quarter of FY 2023-2024, the Department will adjust the resident care component of each facility's rate by multiplying the resident care component by the facility's MA case-mix index for the appropriate picture date.

Additionally, the Fiscal Code amendments in Act 54 of 2022 (P.L. 540, No. 54) authorize a budget adjustment factor (BAF) until June 30, 2026.

A detailed description of the BAF formula is in the notice, Payment for Nursing Facility Services Provided by County and Nonpublic Nursing Facilities; Notice of Change in Methods and Standards of Setting Payment Rates; Budget Adjustment Factor published at 52 Pa.B. 3637 (June 25, 2022). Under the proposed formula, the BAF will limit the estimated Statewide day-weighted average payment rate for MA nursing facility services for nonpublic nursing facilities so that the average payment rate in effect for the fiscal year is limited to the amount permitted by the funds appropriated by the General Appropriation Act for the fiscal year. A BAF will be calculated each quarter for nonpublic nursing facilities.

Finally, in calculating the proposed rates, the Department assumed that the General Appropriation Act of 2023 will include the same level of funding that was in the General Appropriation Act of 2022.

County Nursing Facility Per Diem Rates

As required by the rate methodology in 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting), the Department intends to set an annual MA per diem rate for each county nursing facility provider. As specified in 55 Pa. Code § 1189.91(b) (relating to per diem rates for county nursing facilities), for each rate year beginning on or after July 1, 2007, the per diem rate paid to a county nursing facility for a rate year will be the facility's prior rate year per diem multiplied by a BAF determined in accordance with the formula in the Commonwealth's approved State Plan. Again, in calculating the proposed rates, the Department assumes that the General Appropriation Act of 2023 will include the same level of funding that was in the General Appropriation Act of 2022.

The proposed annual per diem rates for FY 2023-2024, the July Quarterly BAF that will be applied to nonpublic nursing facility rates and the annual BAF that will be applied to county nursing facilities are available on the Department's web site at <https://www.dhs.pa.gov/providers/Providers/Pages/Rates-Nursing%20Facilities.aspx> and at local county assistance offices throughout this Commonwealth or by contacting Erica Justice, Department of Human Services, Office of Long-Term Living, at (717) 857-3280.

Fiscal Impact

If the proposed payment rates are adopted as final, there will be no fiscal impact for per diem rate payments for nonpublic and county nursing facilities for FY 2023-2024. The amount of funding available for this program is dependent upon the funds appropriated by the General Assembly in the forthcoming fiscal year. Therefore, until a budget bill is passed and enacted, any estimated fiscal impact associated with this notice is based on the funding levels in the General Appropriation Act of 2022.

Public Comment

Interested persons are invited to submit written comments regarding the proposed annual rates for FY 2023-2024 to the Department of Human Services, Office of Long-Term Living, Bureau of Policy Development and Communications Management, Attention: Erica Justice, P.O. Box 8025, Harrisburg, PA 17105-8025 or at RA-PWOLTLNFPUBLICCOM@pa.gov. Comments received within 30 days will be reviewed and considered.
