# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

### **How to Find Rules and Regulations**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

**Creating Opportunities by Prioritizing Work Experience for State Government Jobs**

January 18, 2023

*Whereas*, the Commonwealth is committed to increasing economic opportunity for all people of Pennsylvania by creating new pathways to public employment. This means that approximately 65,000 jobs can be filled by people that possess the relevant work experience and skills-based training, regardless of their educational attainment; and

*Whereas*, there is an unprecedented demand for labor throughout the Commonwealth, which requires the government to be flexible and innovative in hiring and retaining a talented workforce capable of serving the people of Pennsylvania; and

*Whereas*, recognizing professional backgrounds that are based on skill, competency, and practical experience over educational accomplishments can promote innovation and diverse perspectives in the workplace; and

*Whereas*, in the modern labor market, applicants gain knowledge, skills, and abilities through a variety of means, including apprenticeships, on-the-job training, military training, and trade schools; and

*Whereas*, modernizing the Commonwealth's hiring model to a model focused on skill, competency, and practical experience, rather than just educational background, will offer new opportunities for all Pennsylvanians to succeed professionally; and

*Whereas*, pursuant to Section 709(a) of The Administrative Code of 1929, Act of April 9, 1929, P.L. 177, art. VII, § 709, as amended, 71 P.S. § 249(a) the Executive Board is responsible for maintaining the Commonwealth's classification plan, including the development of standardized qualifications for employment within the various job classifications included within the plan.

*Now, Therefore*, I, Josh Shapiro, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws, do hereby order and direct the following:

Governor

**Fiscal Note:** GOV-2023-03. No fiscal impact; (8) recommends adoption.

7.952.	Job classifications review.
7.953.	Implementation.
7.954.	General provisions.
7.955.	Effective date.

**§ 7.951. Job postings.**

Effective immediately, 92% of all Commonwealth jobs do not require a 4-year college degree, roughly equivalent to 65,000 jobs. Consistent with this Administration's commitment to emphasizing skills and experience, job postings will begin with equivalent experience needed in lieu of a college degree whenever possible.

**§ 7.952. Job classifications review.**

The Secretary of Administration, for the remaining 8% of Commonwealth jobs, shall identify the job classifications within the Commonwealth's classification plan that require applicants to possess a college degree. Thereafter, the Secretary of Administration shall conduct a review to determine which job classifications are appropriate to include practical experience, in lieu of, or in addition to, a 4-year college degree requirement. In conducting the review, the Secretary of Administration shall work with subject matter experts from the affected Commonwealth agencies under the Governor's jurisdiction. Upon completion of the review, the Secretary of Administration shall recommend to the Executive Board revisions to the Commonwealth's classification plan.

Nothing in this subchapter shall be construed to impair or otherwise affect the authority granted by law to an executive agency, or the head thereof. This subchapter is not intended to and does not create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the Commonwealth, its departments, agencies or entities, its officers, employees or agents, or any other person.

**§ 7.955. Effective date.**

This subchapter shall take effect immediately and shall remain in effect unless amended or rescinded.

## SUPREME COURT OF PENNSYLVANIA

### Minor Court Rules Committee

#### RE-PUBLICATION REPORT

#### Proposed Amendment of Pa.R.Civ.P.M.D.J. 1206, 1208, 1209, 1210, and 1211

The Minor Court Rules Committee ("Committee") is considering proposing to the Supreme Court of Pennsylvania the amendment of Pa.R.Civ.P.M.D.J. 1206, 1208, 1209, 1210, and 1211. The proposal relates to orders denying petitions for emergency protection from abuse and petitions for emergency protection from sexual violence or intimidation. The proposal was first published for public comment at 49 Pa.B. 1772 (April 13, 2019) and later republished at 51 Pa.B. 3339 (June 19, 2021). The Committee modified the proposal in response to comments received following the 2019 and 2021 publications.

#### Background

The Committee received an inquiry from a magisterial district court questioning if a copy of an order denying a petition for emergency protection from abuse should be served on the defendant. The inquirer expressed concern that sending the denial order to the defendant could aggravate tensions between the parties and put the plaintiff in potential danger. The Committee determined that relevant statutes and rules are silent on the matter of service of an emergency denial order. This void resulted in divergent local practices in magisterial district courts for processing a denial order—some courts sent it to the defendant, while others placed it in the court's file or forwarded it to the court of common pleas without sending a copy to the defendant. The Committee believed it would be preferable to have a standardized statewide practice for these cases.

After reviewing relevant statutes and rules, as well as the *Case Records Public Access Policy of the Unified Judicial System of Pennsylvania* ("Public Access Policy"), the Committee considered the fairness of withholding a denial order from a defendant in an adversarial, albeit *ex parte*, proceeding when the denial order and underlying petition could be accessed by the public. The Committee further considered the potential harm to a plaintiff if the defendant is notified of the denial order. Notifying the defendant of the court's denial order would inform him or her of the plaintiff's attempt to seek emergency protective relief from the court, while leaving the plaintiff without any court-ordered protection. The Committee endeavored to develop a proposal that would balance the safety of plaintiffs seeking emergency protection with the due process rights of defendants.

In 2019, the Committee published for public comment proposed amendments to rules governing emergency protective actions. *See* 49 Pa.B. 1772 (April 13, 2019). The proposed amendments to Rule 1208 would have required hearing officers in emergency protection actions to issue an order denying the requested relief when the hearing officer did not find it necessary to protect the plaintiff or another individual. The proposed amendments to Rule 1209 would have required the hearing officer to send the denial order to the defendant by first class mail no sooner

than 48 hours after issuance of the denial order. The 48-hour delay in the mailing of the denial order to the defendant was intended to provide the plaintiff with time to implement a safety plan or seek a temporary protection order from a court of common pleas. Public comment to the proposal was largely negative and expressed concern for the safety of plaintiffs.

The Committee revisited the proposal and developed an alternative approach. It ultimately concluded there was no optimal period to serve the denial order on the defendant such that the plaintiff's safety not compromised. A defendant receiving a denial order 10, 30, or 60 days after its issuance may be as likely to be provoked as a defendant receiving the order 48 hours after issuance. Since the Committee was not satisfied that the denial order could be served on the defendant without risk of harm to the plaintiff, the Committee considered proposing to the Court that a denial order not be served on the defendant and that public access to the denial order and underlying petition is prohibited.

After concluding that the defendant should not be served the denial order, the Committee further agreed the public should also be precluded from accessing it. The *Policy* designates information that is not accessible by the public at a court facility, including "[i]nformation to which access is otherwise restricted by federal law, state law, or state court rule." *Id.* § 9.0F. Because the definition of "public" does not include a party to a case, a defendant would be able to obtain a copy of the petition and denial order in the case because he or she is a named party. *See id.* § 1.0N. The Committee could not predict the likelihood of a defendant in an emergency protective matter subsequently becoming aware of the existence of the petition and denial order and seeking access to them, but it believed the 2021 proposal provided a better balancing of plaintiff safety and defendant due process.

The Committee republished the proposal at 51 Pa.B. 3339 (June 19, 2021). While some favorable feedback was received, concerns were raised that not serving the denial order on the defendant offended notions of due process insofar as the record exits, *albeit* sealed. If the defendant is unaware of the existence of an emergency petition or denial order, he or she could be unfairly surprised during subsequent proceedings, such as a custody case, or if applying for required clearances. Alternatively, the defendant may need to establish a case of harassment and knowledge of unsuccessful emergency petitions could be of assistance. In other words, the 2021 proposal did not reliably protect defendants' interests.

#### Discussion

The amount of process that is due in any particular circumstance must be determined by application of the three-part balancing test first established in *Mathews v. Eldridge*, 424 U.S. 319, 96 S.Ct. 893, 47 L.Ed.2d 18 (1976). *See In re Fortieth Statewide Investigating Grand Jury*, 197 A.3d 712, 717 (Pa. 2018). This balancing test considers three factors: (1) the private interest affected by the governmental action; (2) the risk of an erroneous deprivation together with the value of additional or substitute safeguards; and (3) the state interest involved, including the administrative burden the additional or substitute procedural requirements would impose on the state. *Id.*

The Committee has identified competing interests of the parties relating to a denied petition. The petitioner has a personal safety interest, which could be threatened if the defendant learns of the petition and the plaintiff is

not covered by a protective order. The object of the Protection From Abuse (“PFA”) Act is self-evident—to protect PFA plaintiffs from abuse. *Commonwealth v. Stevenson*, 283 A.3d 196, 205 (Pa. 2022). A similar statutory scheme exists for victims of sexual violence and intimidation. See 42 Pa.C.S. §§ 62A01—62A20. A plaintiff commences proceedings by filing a petition in a trial court alleging abuse by the named defendant. 23 Pa.C.S. § 6106(a), 42 Pa.C.S. § 62A05(a). If a plaintiff seeks an emergency protective order, then the hearing officer conducts *ex parte* proceedings and may enter an order protecting the plaintiff from immediate and present danger of abuse. 23 Pa.C.S. § 6110(a), 42 Pa.C.S. § 62A09(a).

Superficially, a plaintiff’s interest would seem to end when an order denying emergency relief is entered. Yet, as mentioned, the basis for a denial may not be indicative of the absence of danger of abuse. A plaintiff may not be entitled to relief for reasons, including a lack of immediacy. A denial does not mean the plaintiff is safe and without the potential of threat. In the view of the Committee, the risk of retaliation for seeking protective relief gives the plaintiff a significant interest in the denial process.

The defendant has a reputational interest that could be adversely impacted if the existence of a petition and denied order is made public. The Court has acknowledged a defendant’s right to protect his or her reputation as it relates to expungement of protective orders. See *Carlacci v. Mazaleski*, 798 A.2d 186 (Pa. 2002). In *Carlacci*, a father sought the expungement of a dismissed PFA petition. The Court was persuaded by the Superior Court’s reasoning in a prior case and adopted its holding, noting that “there exists a right to petition for expungement of a [PFA] record where the petitioner seeks to protect his reputation. This right is an adjunct of due process and Article I, Section 1 of the Pennsylvania Constitution and is not dependent upon express statutory authority.” *Id.* at 190 (relying on *P.E.S. v. K.L.*, 720 A.2d 487 (Pa. Super. 1998)). In *P.E.S. v. K.L.*, the Superior Court recognized that even a dismissed PFA petition could have a negative impact on a defendant: “Although [defendant’s] record here is not an arrest record, it, nonetheless, carries with it the potential stigmas associated with such a record. The negative social connotations that attach to the [PFA] are too great to allow the [defendant’s] record to remain intact.” 720 A.2d 487, 492 (Pa. Super. 1998). While case law does not address the expungement of emergency protective orders, the Committee observes there is an opportunity for reputational harm if the public can access an emergency petition for protective relief that the defendant may not even know was filed against him or her. Relatedly, a defendant cannot avail himself or herself of these remedies without notice of the petition or denial order. For these reasons, the Committee believes the defendant has a substantial interest.

In considering alternative procedures or safeguards to accommodate both parties’ interest, it was suggested that the Committee look to Pa.R.Crim.P. 212 (Dissemination of Search Warrant Information) as a potential model for the handling of denied protective orders. That rule provides in part: “Unexecuted warrants and the associated affidavits of probable cause are not public records and upon return to the issuing authority the unexecuted warrants and affidavit(s) shall be destroyed by the issuing authority.” Pa.R.Crim.P. 212(B). The comment to the rule further provides:

The rule was amended in 2013 to clarify that unexecuted search warrants are not public records.

This change recognizes that often search warrants may be issued that are never executed. This non-execution may arise from many factors, including a discovery that the information that formed the basis of the search warrant was inaccurate. Given the potential harm to the subject of a search warrant as well as potential disruption to public safety and investigations, information related to such expired warrants must remain confidential. See *PG Publishing Co. v. Commonwealth*, 532 Pa. 1, 614 A.2d 1106 (1992) (“The *ex parte* application for the issuance of a search warrant and the issuing authority’s consideration of the application are not subject to public scrutiny. The need for secrecy will ordinarily expire once the search warrant has been executed.”).

Pa.R.Crim.P. 212, cmt. at ¶ 3.

The Committee discussed whether Pa.R.Crim.P. 212 would provide a workable framework for denied emergency protective relief. Developing a rule analogous to Pa.R.Crim.P. 212 would require modifications to standard magisterial district court practice. To prevent recording the defendant’s identifiable information, a denied petition for emergency protective relief would not be entered on the docket. Likewise, a denial order would not be issued to the plaintiff and the underlying petition destroyed. In this manner, both the plaintiff’s safety interest and the defendant’s reputational due process interests are secured.

The Committee acknowledges this approach may have ramifications involving other interests, including the public right of access, secondary uses, and data collection. First, the petition and order are part of the record of the case and relied upon in the court of judicial decision-making, thereby rendering those documents as a public judicial record. See *Commonwealth v. Fenstermaker*, 530 A.2d 414, 419 (Pa. 1987). Second, an emergency PFA proceeding is not closed to the public or required to be held *in camera* even though the public is rarely, if ever, present during these proceedings. The absence of these factors provided the basis for Criminal Procedural Rules Committee to recommend the destruction of unexecuted search warrants. See 43 Pa.B. 6649 (November 9, 2013) (Committee Final Report). Third, the documents are currently publicly available pursuant to the *Public Access Policy*. The contemplated approach would limit transparency of denied petitions for emergency relief. There would no longer be a record of a denied petition or the order denying relief, which impacts the public’s interest. The Committee specifically seeks comment on this aspect of the proposal.

The parties have a contingent or secondary interest if the record of a denied petition and order are destroyed. Those documents, including any verified statements, may have evidentiary weight in subsequent or future court proceedings, *e.g.*, custody. See also Pa.R.E. 803.1(3) (Recorded Recollection of Declarant-Witness); see also 23 Pa.C.S. § 6117(b) (Remedies for Bad Faith). Moreover, the documents may be relevant to the prosecution or defense of any criminal proceedings as a consequence, or related to, an allegation of abuse. The Committee specifically seeks comment on this aspect of the proposal.

Concerning data collection, this approach would impact the data retained in the Magisterial District Justice System (“MDJS”) relating to emergency protective relief. To the extent this data is considered a factor in the decennial reestablishment of the magisterial district courts, omitting denied emergency petitions from the MDJS will result in a lower reported case load, thus

creating an inaccurate picture of magisterial district court workload. *See* 42 Pa.C.S. § 1503 (pertaining to decennial reestablishment of magisterial district courts). Further, it may be in the public interest to know how many emergency petitions have been denied to identify outliers in deciding such petitions. The Committee also believes that funding for domestic violence programs may be tied, in part, to case numbers.

The Committee attempted to address this issue by including a requirement in the proposal that the hearing officer enter on the MDJS docket certain non-identifying information relating to the petition, including the date of filing, the municipality and zip code of the plaintiff, and the relief sought by the plaintiff using a “Jane Doe” docket. *See* proposed Pa.R.Civ.P.M.D.J. 1208(b)(3)(iv). This is an entirely new concept intended to address data integrity concerns that represents an administrative burden in the due process analysis.

#### *Proposed Rule Changes*

The Committee proposes adding provisions to Rule 1208 to explicitly provide for the denial of a petition for emergency protective relief. The rule provides: (1) a denied petition is not available to the public; (2) the denial is issued verbally and no written order is issued; (3) no identifying information relating to the case is retained in court files; (4) non-identifying information is entered on the docket; and (5) the denied petition is destroyed. *See* proposed Pa.R.Civ.P.M.D.J. 1208(b).

Modifications to proposed Rule 1209 are intended to clarify service and execution procedures when a petition has been granted in whole or in part. Additional stylistic, organizational, and grammatical changes have been made throughout proposed Rules 1206 and 1208—1211.

## DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

### Manufactured Home Community Rights Act; Maximum Relocation Fees Payable in the Event of Community Closure

Section 11.2(c) of the Manufactured Home Community Rights Act (act) (68 P.S. § 398.11.2(c)) requires that the Department of Community and Economic Development annually adjust relocation fees that may be owed to manufactured home owners in the event that the community closes. The fees are adjusted based on an increase on the Consumer Price Index.

The base amount of this fee in effect for calendar year 2013 was \$4,000 for single section manufactured homes and \$6,000 for multisection manufactured homes. The Consumer Price Index Inflation Calculator as provided by the United States Department of Labor adjusts the fees for calendar year 2023 as follows:

- \$5,155.41 for single section manufactured homes
- \$7,733.12 for multisection manufactured homes

Inquiries regarding the act should be directed to the Office of the Attorney General.

### THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

### APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit [www.dep.pa.gov](http://www.dep.pa.gov) and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

<i>Section</i>	<i>Category</i>
I	Individual and General WQM Permit Applications/NOIs Received, General NPDES Permit NOIs Received, and All Transfer and Minor Amendment Applications/NOIs Received
II	Individual NPDES Permits—New, Renewal, and Major Amendment Applications and Draft Permits for Discharges Relating to Sewage, Industrial Waste, Industrial Stormwater, MS4s, Pesticides and CAFOs
III	Individual NPDES Permit Applications for Discharges of Stormwater Associated with Construction Activity

Section I identifies the following applications and NOIs that have been received by DEP:

- Individual and General WQM Permit Applications Received—DEP provides a 15-day public comment period for Individual WQM Permit Applications for new and reissued permits. There is no public comment period for General WQM Permit NOIs.
- General Chapter 92a NPDES Permit NOIs Received—There is no public comment period for General NPDES NOIs received.
- All Transfer and Minor Amendment Applications/NOIs Received—Transfer and Minor Amendment Applications/NOIs received for Individual and General WQM Permits and Individual and General NPDES Permits, excluding PAG-01 and PAG-02, are identified but do not have public comment periods. DEP provides a 15-day public comment period for Individual WQM Permit Applications for amendments.

Additional information on these applications and NOIs may be reviewed by generating the “Applications and NOIs without Comment Periods Report” or, for Individual WQM Permit Applications, the “Applications Received with Comment Periods Report” on DEP’s website at [www.dep.pa.gov/CWPublicNotice](http://www.dep.pa.gov/CWPublicNotice).

Section II identifies individual NPDES permit applications received and draft permits indicating DEP’s tentative determination relating to sewage, industrial waste, industrial stormwater, MS4s, pesticides and CAFOs. A 30-day public comment period applies to these applications and draft permits, except when a site-specific water quality criterion is used to establish effluent limitations, in which case a 45-day public comment period applies. The period for comment may be extended at the discretion of DEP for one additional 15-day period. Additional information, including links to draft permits and fact sheets that explain the basis for DEP’s tentative determinations may be reviewed by generating the “Applications Received with Comment Periods Report” on DEP’s website at [www.dep.pa.gov/CWPublicNotice](http://www.dep.pa.gov/CWPublicNotice). Notification of 15-day extensions for comment will be provided in the “Applications Received with Comment Periods Report” (Comments column).

Section III provides notice of applications and draft individual permits for stormwater discharges associated with construction activities. Where indicated, DEP has made tentative determinations, based on preliminary review, to issue permits subject to proposed effluent limitations consisting of best management practices identified in the erosion and sediment control (E&S) plans and post-construction stormwater management (PCSM) plans submitted with the applications, as well as other terms and conditions based on the permit applications. A 30-day public comment period applies to these applications.

Applications, NOIs and draft permits, where applicable, may be reviewed at the DEP office that received the application or NOI. Members of the public are encouraged to use DEP’s website to obtain additional information as discussed previously.

Comments received within the appropriate comment periods for WQM and NPDES permit applications will be retained by DEP and considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform DEP of the exact basis of a comment and the relevant facts upon which it is based.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995  
 PREAMBLE 1

### Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. ### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This

integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the DEP's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

**18-00021E: Avery Dennison Performance Polymers**, 171 Draketown Road, Mill Hall, PA 17751, Bald Eagle Township, **Clinton County**. Application received: May 23, 2022. The Department intends to issue a plan approval for the construction and operation of three (3) reactor systems at their Mill Hall facility. This is a State Only "Synthetic Minor" facility. The Department's review of the information contained in the application submitted by the company indicates that the sources will comply with all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the fugitive air contaminant emission requirement of 25 Pa. Code § 123.1, the particulate matter emission limitation of 25 Pa. Code § 123.13, the sulfur oxide emission limitation of 25 Pa. Code § 123.21, the visible emission limitations of 25 Pa. Code § 123.41 and the Best Available Technology provisions of 25 Pa. Code §§ 127.1 and 127.11. The plan approval, if issued, will subsequently be incorporated into the State Only (Synthetic Minor) operating permit via an administrative amendment in accordance with 25 Pa. Code § 127.450 once the permittee has complied with all terms and conditions of the plan approval. Based upon this finding, the Department proposes to issue a plan approval for the construction and operation of the proposed systems. The following is a summary of the types of conditions the Department intends to place in the plan approval to ensure compliance with all applicable regulatory requirements. All volatile organic compounds captured from the systems incorporated into Source P107 shall be controlled by Control Device C107. The volatile organic compound destruction efficiency of Control Device C107 shall be equal to, or greater than 99% or a VOC concentration not to exceed 20 parts per million (as propane) by volume, dry basis at 3% oxygen at all times.

The combustion chamber temperature of Control Device C107 shall not be less than 1,600°F at any time while controlling air contaminant emissions from the systems incorporated in Source P107, or, if selected, the operational temperature of the multi-stage condenser shall not be higher than -284°F (-140°C). Control Device C107 shall be equipped with instrumentation to continuously monitor and record the combustion chamber temperature of the oxidizers or the operational temperature of the condenser and with audible and visual alarms to notify the operator that the combustion chamber temperature is less than 1,600°F or that the operational temperature of the multi-stage condenser is higher than -284°F (-140°C) when controlling air contaminant emissions from the systems incorporated in Source P107. Work practice requirements to operate the sources and control devices with good air pollution control practices along with recordkeeping and reporting conditions to verify compliance with the emission limitations and all applicable requirements are included in the proposed plan approval. A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at 570-327-3636. Written comments or requests for a public hearing should be directed to Muhammad Q. **MINING ACTIVITY NPDES DRAFT PERMITS**

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

This site also contains or is hydrologically connected to substandard discharges for which there is no responsible party. Pursuant to 25 Pa. Code Chapter 87, Subchapter F, effluent limits for those discharges will be based upon the existing baseline pollution load, or the standards found at 25 Pa. Code § 87.102(a) Group A, whichever is least stringent. Also, this permit establishes instream monitoring for a degraded stream in lieu of baseline pollution loadings from individual discharges to that stream.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law).

The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law. For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board. Individuals who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at 717-787-3483. Important legal rights are at stake, however, so individuals should contact a lawyer at once.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

For actions taken on applications for pipelines that are regulated by the Federal Energy Regulatory Commission (FERC).

Any person aggrieved by this action may challenge it in an appropriate legal forum. The State and Federal courts are currently split on whether the proper forum to challenge a Department permit, authorization or approval for a facility or activity subject to the Federal Natural Gas Act, 15 U.S.C.A. § 717 et seq., is the United States Court of Appeals for the Third Circuit or the Pennsylvania Environmental Hearing Board. ## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at 717-787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Individuals in need of accommodations should contact the Environmental Hearing Board through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information.

Center to Bellflower Way in Upper Macungie Township. The proposed sewer system will connect sixty-four existing, residential properties within the Georgetown Manor and Christian Springs Acres subdivisions to the Nazareth Borough Municipal Authority's (NBMA) conveyance system. The residential properties to be connected are currently being served by existing on-lot disposal systems. These on-lot systems have historically demonstrated repeated performance issues and the residents in these developments have requested the extension of public sewer service to these properties as a result. A Sewage Disposal Needs Identification Survey was conducted in the area and confirmed that the extension of public sewer facilities to the area would be required. The proposed sewer facilities within the service area would connect into the existing NBMA's collection and conveyance system along Christian Springs Road at Manholes N65, N64, and N62. Wastewater treatment will be provided at the NBMA's wastewater treatment plant in Nazareth, PA with ultimate discharge to Shoeneck Creek. The minor update revision is approved.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

---

**The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).**

---

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Stan-

dards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

## FISH AND BOAT COMMISSION

### Classification of Wild Trout Streams; Additions and Revisions; January 2023

The Fish and Boat Commission (Commission) approved the addition of five new waters to its list of wild trout streams and the revisions to the section limits of five waters, as set forth at 52 Pa.B. 7231 (November 19, 2022). Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Commission to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams. The Commission's Fisheries Management Division maintains the complete list of wild trout

streams, and it is available on the Commission's web site at [www.fishandboat.com/Fish/PennsylvaniaFishes/Trout/Pages/TroutWaterClassifications.aspx](http://www.fishandboat.com/Fish/PennsylvaniaFishes/Trout/Pages/TroutWaterClassifications.aspx).

This data call is required by section 711(d)(3) of the Medical Care Availability and Reduction of Error (MCARE) Act (40 P.S. § 1303.711(d)(3)).

Consistent with prior data calls promulgated under section 711(d)(3) of the MCARE Act, the cover letter, exhibits and templates are available on the Department's web site at [www.insurance.pa.gov](http://www.insurance.pa.gov) (select "Companies," then "Industry Activity," scroll to "Product and Rate Activity," then "Data Calls"). Additionally, an e-mail announcing the data call has been sent to all medical malpractice insurers with positive direct written premium in this Commonwealth in 2021.

Each insurer providing medical professional liability insurance in this Commonwealth is required to respond to the data call no later than March 6, 2023. Insurers with positive medical malpractice direct written premium

### Medical Professional Liability Insurance Study

The Insurance Department is conducting a medical professional liability insurance study to determine whether sufficient capacity exists to increase the basic coverage limits of insurance required by the Medical Care Availability and Reduction of Error (MCARE) Act (MCARE Act) (40 P.S. §§ 1303.101—1303.910).

Sections 711—716 of the MCARE Act (40 P.S. §§ 1303.711—1303.716) established, among other things, the MCARE Fund and the basic coverage limits for medical professional liability that each health care provider participating in the MCARE Fund must insure or self-insure. With certain exceptions, once the basic coverage limits are exhausted, the MCARE Fund provides excess insurance coverage.

Sections 711—716 of the MCARE Act also provide a schedule for the basic coverage limits to be increased with the MCARE Fund eventually being eliminated. However, the basic coverage limits are only to be increased after the Insurance Commissioner finds, under a study, that additional basic insurance capacity exists. A study is required at this time under the MCARE Act.

Interested parties that wish to comment on whether sufficient insurance capacity exists to increase the basic coverage limits of medical professional liability insurance are invited to submit written comments by means of e-mail to Shannon Kost, Actuarial Associate, [skost@pa.gov](mailto:skost@pa.gov) within 30 days after publication of this notice in the *Pennsylvania Bulletin*.
