READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pacodeandbulletin.gov.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

A. The permittee shall conduct the required monitoring during the deicing season, which is defined for the purpose of Outfalls 001—013 as the period from October 1—March 31. One sample must be collected during the period October 1—December 31 (to be submitted on a DMR due January 28) and one sample must be collected during the period January 1—March 31 (to be submitted on a DMR due July 28). Additional monitoring outside of the deicing season is optional.

B. Storm water discharges associated with aircraft deicing activities shall be controlled to prevent, or minimize to the maximum extent feasible, deicing materials from flowing or being carried by storm water runoff into waters of the Commonwealth.

C. Owners or operators of storm water discharges from airport runways and taxiways subject to deicing operations shall develop and implement a program of BMPs designed to minimize the runoff of deicing and anti-icing materials from airport runways and taxiways to the waters of the Commonwealth.

D. *Airfield pavement deicing*. There shall be no discharge of airfield pavement deicers containing urea. To comply with this limitation, any existing point source must certify annually that it does not use airfield deicing products that contain urea or alternatively, airfield pavement discharges at every discharge point must achieve the numeric limitations for ammonia in Table I, prior to any dilution or commingling with any non-deicing discharge. (40 CFR 449.10)

Table I—BAT Limitations

<i>Wastestream</i> Airfield Pavement Deicing	<i>Pollutant</i> Ammonia as Nitrogen	<i>Daily Maximum</i> 14.7 mg/L.
---	---	------------------------------------

a. *Aircraft deicing fluid (ADF)* means a fluid (other than hot water) applied to aircraft to remove or prevent any accumulation of snow or ice on the aircraft. This includes deicing and anti-icing fluids. (40 CFR 449.2)

b. *Airfield pavement* means all paved surfaces on the airside of an airport. (40 CFR 449.2)

c. *Airside* means the part of an airport directly involved in the arrival and departure of aircraft, including runways, taxiways, aprons, and ramps. (40 CFR 449.2)

d. *Deicing* mean procedures and practices to remove or prevent any accumulation of snow or ice on:

- (1) An aircraft; or
- (2) Airfield pavement. (40 CFR 449.2)

E. The approval herein given is specifically made contingent upon the permittee acquiring all necessary property rights by easement or otherwise, providing for the satisfactory construction, operation, maintenance or replacement of all structures associated with the herein approved discharge in, along, or across private property, with full rights of ingress, egress and regress.

F. Collected screenings, slurries, sludges, and other solids shall be handled, recycled and/or disposed of in compliance with the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003), 25 Pa. Code Chapters 287—289, 291, 295, 297, and 299 (relating to requirements for landfilling, impoundments, land application, composting, processing, and storage of residual waste), Chapters 261a, 262a, 263a, and 270a (related to identification of hazardous waste, requirements for generators and transporters, and hazardous waste, requirements for generators and transporters, and hazardous waste permit programs), Federal regulation 40 CFR Part 257, The Clean Streams Law, and the Federal Clean Water Act and its amendments. Screenings collected at intake structures shall be collected and managed and not be returned to the receiving waters.

The permittee is responsible to obtain or assure that contracted agents have all necessary permits and approvals for the handling, storage, transport and disposal of solid waste materials generated as a result of wastewater and stormwater treatment.

G. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified individual, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the DEP's Regional Office. A 30-day comment period from the date of this publica-

tion will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

22-03102B: Derry Township Municipal Authority, 670 Clearwater Road, Hershey, PA 17033, Derry Township, Dauphin County. Application received: May 18, 2023. For the installation of an Ecoremedy gasifier and dryer system to produce syngas (that will be combusted for process heat) and Class A biosolids. The proposed process will treat solids downstream of the existing anaerobic digester. The gasification process will convert organic solids into syngas and ash residuals. The process will be controlled by a multiclone, venturi wet scrubber and packed bed scrubber at the municipal waste facility. The expected increases in facility potential emissions as a result of the changes proposed are: NO_x 41.65 tpy, CO

23.87 tpy, SO_x 9.55 tpy, PM 21.02 tpy, VOC 4.47 tpy and HAPs 2.14 tpy. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and 40 CFR Part 61 Subpart E—National Emission Standards for Mercury. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

EROSION AND SEDIMENT CONTROL

The following parties have applied for an Erosion and Sediment Control Permit (ESCP) for an earth disturbance activity associated with either a road maintenance or timber harvesting operation.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (DEP) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices (BMPs) which restrict the rate and quantity of sediment discharged.

Individuals wishing to comment on the proposed permit are invited to submit a statement to the appropriate DEP Regional Office listed above the application within 30-days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law).

The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law. For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board. Individuals who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at 717-787-3483. Important legal rights are at stake, however, so individuals should contact a lawyer at once.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

For actions taken on applications for pipelines that are regulated by the Federal Energy Regulatory Commission (FERC).

Any person aggrieved by this action may challenge it in an appropriate legal forum. The State and Federal courts are currently split on whether the proper forum to challenge a Department permit, authorization or approval for a facility or activity subject to the Federal Natural Gas Act, 15 U.S.C.A. §§ 717 et seq., is the United States Court of Appeals for the Third Circuit or the Pennsylvania Environmental Hearing Board. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of

concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation

standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Interstate Pollution Transport Reduction: Proposed 2024 Ozone Season Nitrogen Oxide Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice and an opportunity for public comment on the proposed Nonelectric Generating Unit (non-EGU) 2024 Ozone Season (OS) Nitrogen Oxide (NO_x) emission limitations established under 25 Pa. Code § 145.8(d) (relating to transition to CAIR NO_x trading programs). The 17-day public comment period will end on February 19, 2024.

Specifically, 25 Pa. Code § 145.8(d) establishes a non-EGU NO_x Trading Program budget of 3,619 tons of NO_x, less a specified adjustment amount, to serve as a Statewide OS NO_x emissions cap for new and existing non-EGUs. This NO_x emissions cap also applies to Clean Air Interstate Rule (CAIR) exempt EGUs that are subject to the NO_x Budget Trading Program. If the total emissions from all the units exceed the Statewide NO_x emissions cap of 3,438 tons, the owners and operators of non-EGUs must comply with the NO_x emission limitations established under 25 Pa. Code § 145.8(d). The proposed NO_x emissions limitations for individual units ensure that non-EGUs in this Commonwealth continue to meet the emission limits of the NO_x Budget Trading Program. The difference between the calculated total OS NO_x limit for all units in the following Table 1 and the total NO_x limit of 3,438 tons is due to rounding when calculating the NO_x limit for each individual unit.

The Statewide cap for 2023 was not exceeded. Therefore, the owners and operators of non-EGUs do not need to purchase allowances to meet their 2023 OS NO_x emission limitations established under 25 Pa. Code § 145.8(d). The NO_x emissions for the 2023 OS (May through September) reported to the United States Environmental Protection Agency (EPA) by the owners and operators of the affected non-EGUs are 656.5 tons. The Department’s permanent retirement of 3,438 NO_x allowances under 25 Pa. Code § 145.8(b) covers all the NO_x emissions from the affected non-EGUs in 2023.

In addition to the 3,438-ton non-EGU cap previously described, 25 Pa. Code § 145.8(d)(12) provides 181 tons of

NO_x emissions annually for non-EGUs and the other units that need to address their limits or emissions through accounting adjustments, including units that previously participated in the NO_x Budget Trading Program. The Department may use a portion of the 181 tons of the budgeted NO_x emissions, if necessary, to address rounding issues, mistakes or miscalculations. This year, the Department is proposing to use 2 of the 181 tons of NO_x emissions set aside from the non-EGU NO_x Trading Program budget for accounting adjustments. The accounting adjustment is needed due to the rounding errors in calculating individual unit limits to meet the 3,438-ton non-EGU NO_x cap. Rounding resulted in an allocation limit totaling 3,436 tons of NO_x.

The Vicinity Energy Philadelphia Facility’s Schuylkill Unit 24 listed in the non-EGU limits table during previous years was removed from the following Table 1. The EPA’s Clean Air Markets Division Business System reports Unit 24’s operating status as retired on November 14, 2016. Once a unit is confirmed to no longer be operating, it cannot be allocated a limit.

The following “Proposed Non-EGU 2024 OS NO_x Emission Limits” in Table 1 lists the following: ‘facility name,’ ‘ORIS code,’ ‘unit ID’ for each non-EGU unit, ‘2023 NO_x mass’ or the 2023 OS emissions, ‘2023 heat input’ for the 2023 OS, the ‘county’ location of the facility, the calculated ‘2024 rate,’ and the ‘2024 OS limit.’

Interested persons may submit written comments on the proposed non-EGU 2024 OS NO_x Emission Limits through February 19, 2024. Comments, including comments submitted by e-mail, must include the commentator’s name and address. Commentators are encouraged to submit comments using the Department’s online eComment tool at www.ahs.dep.pa.gov/eComment or by e-mail to ecomment@pa.gov. Written comments can be mailed to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063. Use “Proposed non-EGU 2024 Ozone Season NO_x emission limits” as the subject line in written communication.

Questions concerning this notice should be directed to Randy Bordner at (717) 772-3921 or ranbordner@pa.gov. TDD users may contact the Pennsylvania Hamilton Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Proposed Modifications to Residual Waste General Permit WMGR081 Base Permit

Under the authority of the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003) and the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P.S. §§ 4000.101—4000.1904), the Department of Environmental Protection (Department) is providing notice of proposed revisions to General Permit No. WMGR081. This General Permit authorizes the processing of waste electronics. The current permit term will expire on April 21, 2024. In addition to reformatting, updating standard conditions, clarifications and reorganization of the conditions, the following modifications are proposed to be incorporated upon renewal of WMGR081:

- Condition E.3. has been added to explicitly prohibit the double counting of covered devices for the purpose of satisfying Office of Emergency Management plans.
- Condition E.4. has been added, requiring use of the new Draft WMGR081 Recordkeeping Template (Template). Use of the Template will provide a clear framework for permittees, guiding them in their records management and helping them to understand which records should be kept. This will also provide a consistent format for the Department to use for tracking information and quantifying electronics recycled in this Commonwealth.
- Condition F.3. was added to require quarterly reporting for permittees authorized to operate under a determination of applicability, meaning that they are permitted to have more than 5 tons of waste electronics onsite.
- Condition F.2. maintains the annual reporting requirements for permittees operating under a registration. Those permittees are not authorized to have more than 5 tons of waste electronics onsite at any time.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Proposed Revision to the State Implementation Plan; Regional Haze Best Available Retrofit Technology; Public Hearings

The Department of Environmental Protection (Department) is seeking public comment on a proposed State Implementation Plan (SIP) revision updating the Commonwealth's best available retrofit technology (BART) determinations. This proposed SIP revision is being submitted to satisfy the visibility and regional haze provisions of sections 169A and 169B of the Federal Clean Air Act (CAA) (42 U.S.C. §§ 7491—7492) and the Federal Regional Haze Rule (RHR) in 40 CFR 51.308 (relating to regional haze program requirements).

The Federal CAA and RHR require the Commonwealth to address regional haze in each mandatory Class I Federal area located outside this Commonwealth which may be affected by emissions from within this Commonwealth with the goal of restoring natural visibility conditions in those areas by 2064. A state's regional haze implementation plan must demonstrate reasonable progress toward achieving natural visibility conditions to Class I Federal areas. The RHR further requires that SIPs address emission limitations and compliance schedules for BART-eligible sources to demonstrate emission reductions and visibility improvement. The EPA issued guidelines at 70 FR 39104 (July 6, 2005) for states to consult when conducting their regional haze BART analyses.

The Commonwealth's "Revision to the State Implementation Plan for Regional Haze" (2010 Regional Haze SIP revision) received limited approval by the EPA at 77 FR 41279 (July 13, 2012), which the agency amended on August 13, 2012 (77 FR 48061). The EPA then reissued limited approval on April 30, 2014 (79 FR 24340), which included approval of the Department's BART analyses. The EPA's limited approval was challenged in *National Parks Conservation Ass'n et al. v. United States Environmental Protection Agency*, 803 F.3d 151 (3d. Cir. 2015) (*National Parks*).

This proposed SIP revision addresses the United States Court of Appeals for the Third Circuit's September 29, 2015, opinion in that case. Specifically, the Third Circuit partially vacated the EPA's April 30, 2014, reissuance of its limited approval of the Commonwealth's 2010 Regional Haze SIP revision to the extent that the EPA approved the Commonwealth's source-specific BART analyses. *National Parks*, 803 F.3d at 167. The Court concluded that the EPA arbitrarily approved the Commonwealth's SIP given what it characterized as multiple flaws in the Commonwealth's BART analyses. The Third Circuit held that the EPA did not provide a sufficient explanation as to why it overlooked these problems and approved the Commonwealth's SIP revision. The Court remanded this matter to the EPA and required the agency to demonstrate its work.

Upon submittal of a final SIP revision, the Department will concurrently send a letter to the EPA requesting a withdrawal of the BART determinations in sections 8.5 and 8.6 of Pennsylvania's 2010 Regional Haze SIP revision, as well as the Department's BART review memos in Appendix J of Pennsylvania's 2010 Regional Haze SIP revision.

Although the Department is requesting the withdrawal of the BART determinations and the accompanying memos included in the Commonwealth's 2010 Regional Haze SIP revision, the permit conditions and consent decrees remain effective and enforceable and continue to yield the same emission reductions. Many sources within this Commonwealth have committed to install, and have installed, controls through several mechanisms, including Federally enforceable permits and Federal and State consent agreements. In addition to the control measures detailed in the Commonwealth's 2010 Regional Haze SIP revision, additional regulations have been adopted and actions have been taken by the Department that will reduce visibility impairing pollutants in Class I Federal areas. Also, several large electric generating units have announced plans to shut down, deactivate sources or curtail emissions by adding dual-fire capacity or converting to natural gas, which will lead to additional significant reductions in sulfur dioxide emissions. While these changes are not discussed in detail in this SIP revision, they are the focus of the Commonwealth's Regional Haze 5-Year Progress Report, which is being sent to the EPA as a separate SIP revision.

The RHR requires states to consult with the Federal Land Managers (FLM) at least 60 days prior to the scheduled public hearing on the proposed Regional Haze SIP revision. Section 169A(d) of the CAA (42 U.S.C. § 7491(d)), requires states to include a summary of the conclusions and recommendations of the FLMs in the notice to the public. The United States National Park Service and the United States Department of Agriculture's Forest Service provided comments to the Department. The United States Department of the Interior's Fish and Wildlife Service did not submit any comments. A summary of the comments submitted by the FLMs, and the Department's responses, is available in Appendix F of the proposed Regional Haze SIP revision.

This proposed SIP revision and appendices are available on the Department's web site at <http://www.ahs.dep.pa.gov/eComment>.

The Department will provide the opportunity for three public hearings to receive comments on this proposed SIP revision as follows:

- March 7, 2024, at 10 a.m. at the Department's Southeast Regional Office, Delaware River Conference Room, 2 East Main Street, Norristown, PA.
- March 7, 2024, at 1 p.m. at the Department's Southcentral Regional Office, Susquehanna Conference Room, 909 Elmerton Avenue, Harrisburg, PA.
- March 7, 2024, at 1 p.m. at the Department's Southwest Regional Office, Waterfront Conference Rooms, 400 Waterfront Drive, Pittsburgh, PA.

Persons wishing to present testimony should contact Amanda Rodriguez at P.O. Box 8468, Harrisburg, PA 17105, (717) 787-7677 or amarodrigu@pa.gov to reserve a time. Witnesses will be limited to 10 minutes and should provide two written copies of their comments.

If by noon on Monday, March 4, 2024, no person has expressed an interest in testifying at the hearing, the

DEPARTMENT OF HUMAN SERVICES

Payment for Nursing Facility Services Provided by Nonpublic Nursing Facilities; Medical Assistance Day One Incentive Payments to Nonpublic Nursing Facilities for Fiscal Year 2023-2024

This announcement provides advance notice that the Department of Human Services (Department) intends to continue to make Medical Assistance Day One Incentive (MDOI) payments to qualified nonpublic nursing facilities for Fiscal Year (FY) 2023-2024. The MDOI payments to nonpublic nursing facilities will provide incentives to nonpublic nursing facilities to provide services to indi-

viduals who are Medical Assistance (MA) eligible on the day of admission. The MDOI payments are intended to encourage nonpublic nursing facilities to increase access to care for the poor and indigent citizens of this Commonwealth.

Nonpublic Medical Assistance Day One Incentive Payments

The Department will use the Total Pennsylvania Medical Assistance (PA MA) days and Total Resident Days as reported by nonpublic nursing facilities under Article VIII-A of the Human Services Code (62 P.S. §§ 801-A—815-A¹), regarding nursing facility assessments, to determine eligibility and calculate payments.

To qualify for MDOI payments, the nursing facility must be a nonpublic nursing facility for the full Resident Day quarters ended December 31, 2019, and March 31, 2020, and have submitted the required resident day reports for those quarters.

In addition, the nonpublic nursing facility shall have an overall occupancy rate of at least 85% and an MA occupancy rate of at least 65% during the applicable Resident Day quarter. A nursing facility's overall occupancy rate for these payments will be determined as follows: Overall occupancy rate = (Total Resident Days ÷ (licensed bed capacity at the end of the quarter × the number of calendar days in the quarter)). A nursing facility's MA occupancy rate for these payments will be determined as follows: MA occupancy rate = Total PA MA days ÷ total Resident Days.

Each nursing facility may qualify for a maximum of two MDOI payments. For qualifying nursing facilities in the southwest Community HealthChoices (CHC) zone, the Department will use the nursing facility assessment quarterly resident day reporting forms available on October 31, 2023, for the July 1, 2017—September 30, 2017, Resident Day Quarter for the first payment and will use the nursing facility assessment quarterly resident day reporting forms available on January 31, 2024, for the October 1, 2017—December 31, 2017, Resident Day Quarter for the second payment. For qualifying nursing facilities in the southeast CHC zone, the Department will use the nursing facility assessment quarterly resident day reporting forms available on October 31, 2023, for the July 1, 2018—September 30, 2018, Resident Day Quarter for the first payment and will use the nursing facility assessment quarterly resident day reporting forms available on January 31, 2024, for the October 1, 2018—December 31, 2018, Resident Day Quarter for the second payment. For qualifying nursing facilities in the Lehigh/Capital, northwest and northeast CHC zone, the Department will use the nursing facility assessment quarterly resident day reporting forms available on October 31, 2023, for the July 1, 2019—September 30, 2019, Resident Day Quarter for the first payment and will use the nursing facility assessment quarterly resident day reporting forms available on January 31, 2024, for the October 1, 2019—December 31, 2019, Resident Day Quarter for the second payment. The Department will calculate each qualified nonpublic nursing facility's MDOI payments based on the following formula:

(i) A MDOI per diem for each of the two MDOI payments will be 1/2 of the total funds appropriated for the fiscal year divided by the Total PA MA days as reported by all qualifying nursing facilities for the applicable Resident Day Quarter.

¹Act 54 of 2022, § 16 amended the Commonwealth's Fiscal Code to reauthorize the assessment under Article VIII-A through June 30, 2026. See 72 P.S. § 1606-T.

(ii) Each MDOI per diem will then be multiplied by each qualified nursing facility's Total PA MA days, as reported, for the applicable Resident Day Quarter to determine its MDOI payment.

(iii) The State funds allocated for FY 2023-2024 are \$16 million.

The Department will not retroactively revise an MDOI payment amount based on a nursing facility's late submission or revision of its report related to the previously listed dates. The Department may recoup payments based on an audit of a nursing facility's report.

The Department will submit a Medicaid State Plan Amendment (SPA) to the Centers for Medicare & Medicaid Services (CMS), which is a condition for the availability of the payment. If CMS approves the SPA, the Department will have the authority to make MDOI payments to nonpublic nursing facilities for FY 2023-2024.

Fiscal Impact

The fiscal impact of this change is estimated at \$34.87 million (\$16.0 million in State funds) for FY 2023-2024.

Public Comment

Interested persons are invited to submit written comments regarding these payments to the Department of Human Services, Office of Long-Term Living, Bureau of Policy Development and Communications Management, Attention: Erica Justice, P.O. Box 8025, Harrisburg, PA 17105-8025 or RA-PWOLTLNFPUBLICCOM@pa.gov. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Environmental Quality Board Regulation # 7-571 (IRRC # 3384)

Water Quality Standards—Site-Specific Water Quality Criteria

January 18, 2024

We submit for your consideration the following comments on the proposed rulemaking published in the November 4, 2023 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. Clarity; Implementation Procedures; and Possible conflict with or duplication of statutes or existing regulations.

The United States Environmental Protection Agency (EPA) has submitted comments on the proposed rulemaking. The comments:

- State that the Department is proposing to revise 25 Pa. Code Section 93.8d(a)(1) in such a way as to limit the development of site-specific water quality criteria to just aquatic life criteria and asks the Department to indicate whether site-specific human health criteria can be developed under Section 93.8d(a)(1) or some other authority. It further notes that site-specific methylmer-

cury criteria for Ebaugh Creek is developed for the protection of human health;

- Ask the Department, regarding Section 93.8d(c)(3), to consider adding clarification that new or updated site-specific criteria for aluminum in freshwater systems may be developed using the multiple linear regression consistent with the EPA's Final Aquatic Life Ambient Water Quality Criteria for Aluminum 2018 (EPA-822-R18-001); and

- Ask the Department, regarding proposed Section 93.8d(c)(5)(c.3), to provide information on how it intends to meet the public participation requirements of federal regulation at 40 CFR Section 131.20(b) and 40 CFR Part 25.

In the Regulatory Analysis Form submitted with the proposed rulemaking, the EQB states the following: "These proposed amendments are critical to ensuring the Department receives the information necessary to determine if site-specific water quality criteria are applicable, to develop site-specific water quality criteria recommendations that are protective of surface water uses, and to incorporate the site-specific criteria into the Commonwealth's water quality standards." Since the site-specific criteria are not effective under the Clean Water Act until approved by the EPA, it is important that the EQB work with the EPA to ensure that the issues raised above are adequately addressed in the final-form rulemaking. We ask the EQB to review the concerns raised above and to amend the rulemaking or provide further explanation on implementation procedures to ensure compliance with EPA requirements.

2. Section 93.8d. Development of site-specific water quality criteria.—Clarity; Reasonableness of requirements; and Implementation procedures.

Subsection (a) provides that the Department will consider a request for site-specific criteria when certain conditions apply. Subsection (a) is being amended to clarify that the Department may develop site-specific criteria on its own initiative under those same conditions.

The Preamble states that the proposed amendments in § 93.8d(a) are intended to clarify when site-specific water quality criteria may be requested. It concludes that "no significant changes were made to this existing regulation." Subsection (a) is being amended to clarify that two paths are available in the development of site-specific water quality criteria. Those two paths are applicant requests and those developed by the Department on its own initiative. The responses to several RAF questions appear to address only the applicant requests for site-

specific criteria. Neither the Preamble nor the RAF discusses situations where the Department may develop site-specific criteria on its own initiative.

Additionally, the Preamble does not provide a description of or the need for proposed subsection (c.2). Subsection (c.2) states that the Department will incorporate approved site-specific criteria into this chapter and maintain a publicly available table of EPA-approved site-specific criteria. This language seemingly replaces § 93.8d(f)(4) which currently requires the Department, if it determines that site-specific criteria are appropriate, to prepare a recommendation to the EQB in the form of proposed rulemaking, incorporating that criterion for the water body segment. The Preamble states that:

"Once a site-specific water quality criterion is developed and publicly noticed for comment, the Department will prepare a rulemaking for the adoption of the new criterion into Chapter 93. All water quality criteria will be developed through rulemaking and the appropriate rulemaking processes, consistent with the Commonwealth's laws.

Site-specific water quality criteria are used to develop effluent limitations in permits. Given the need for timely permit development, the Department intends to explore all options available for expediting rule-making procedures to promulgate site-specific water quality criteria while maintaining robust public participation. Although 93.8d(f)(4) is proposed for deletion, the obligation remains to promulgate site-specific criteria as regulations." Emphasis added.

While we acknowledge the Department's efforts regarding permit development, it is unclear why § 93.8d(f)(4) is being deleted before any options to expedite the rule-making process have been explored. In the Preamble and RAF submitted with the final-form rulemaking, the Department should provide a more detailed description of the language proposed for each section of the regulation and why the language is required. It should also review responses to RAF questions and include, where appropriate, information pertaining to all key elements of the rulemaking such as Department-initiated development of site-specific criteria.

Surplus Lines Agents and Interested Parties; Export List of Insurance Coverages

In July 2023, the Insurance Commissioner (Commissioner) determined that certain insurance coverages were generally unavailable in the authorized market and declared those coverages as exportable. A list of exportable coverages was published at 53 Pa.B. 3805 (July 15, 2023). Accordingly, for those insurance coverages that are included on the export list, a diligent search among insurers admitted to do business in this Commonwealth is not required before placement of the coverages in the surplus lines market.

The Commissioner declared that the export list would remain in effect until revised or superseded by a subsequent list.

The Commissioner is soliciting comments regarding the current export list. Individuals may request in writing that a coverage be added or removed from the list.

Persons wishing to comment on the Commissioner's current export list are invited to submit a written statement within 30 days from the date of publication of this notice in the *Pennsylvania Bulletin*. Each written statement must include sufficient detail and relevant facts to inform the Insurance Department of the exact basis of the statement. Written statements must be

e-mailed to Lori Rumpf at lrumpf@pa.gov. After consideration of all comments received, the Commissioner will publish a notice in the *Pennsylvania Bulletin* providing a 15-day opportunity to comment on any proposed changes before formal publication of the revised list.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Cancellation of Certificates of Public Convenience for Motor Carriers; Failure to Maintain Evidence of Insurance

Public Meeting held
January 18, 2024

Commissioners Present: Stephen M. DeFrank, Chairperson; Kimberly Barrow, Vice Chairperson; Ralph V. Yanora; Kathryn L. Zerfuss; John F. Coleman, Jr.

Cancellation of Certificates of Public Convenience for Motor Carriers; Failure to Maintain Evidence of Insurance; M-2024-3045178

Tentative Order

By the Commission:

Pursuant to Section 512 of the Public Utility Code (Code), 66 Pa.C.S. § 512, the Pennsylvania Public Utility Commission (Commission) is authorized to prescribe appropriate insurance requirements for motor carriers. Section 512 of the Code provides, in relevant part:

The commission may, as to motor carriers, prescribe, by regulation or order, such requirements as it may deem necessary for the protection of persons or property of their patrons and the public, including the filing of surety bonds, the carrying of insurance, or the qualifications and conditions under which such carriers may act as self-insurers with respect to such

matters. All motor carriers of passengers . . . shall cover each and every vehicle, transporting such passengers, with a public liability insurance policy or a surety bond issued by an insurance carrier, or a bonding company authorized to do business in this Commonwealth, in such amounts as the commission may prescribe. . .

66 Pa.C.S. § 512.

Consistent with this broad statutory charge, the Commission has promulgated regulations governing motor carrier insurance requirements at Chapter 32 of title 52 Pa. Code.¹ Those regulations provide, inter alia, that a motor carrier may not operate, and a certificate of public convenience will not be issued or remain in force, until there has been filed with and approved by the Commission a certificate of insurance by an insurer authorized to do business in Pennsylvania for the payment of claims resulting from the operation, maintenance, or use of a motor vehicle in the carrier's authorized service. See 52 Pa. Code §§ 32.11, 32.12. The certificate of insurance, commonly known as a Form E, is in a form prescribed and approved by the Commission and provides protection for bodily injury, death, or property damage. 52 Pa. Code § 32.2(a). Additionally, the Commission regulations require that certain carriers maintain evidence of cargo insurance via a certificate of insurance commonly known as a Form H. Further, the Commission's regulations require that evidence of insurance be maintained at all times with the Commission to ensure the protection of the public:

(h) *Compliance.* Failure to maintain evidence of insurance on file with the Commission in accordance with this chapter shall cause the immediate suspension of the rights and privileges conferred by a certificate of public convenience or permit held by the motor carrier. The Commission may establish rules under which suspended rights and privileges may be temporarily reinstated pending compliance with this chapter.

52 Pa. Code § 32.2(h).

The Commission has been notified that the motor carriers listed in Appendix A, attached hereto, no longer have acceptable evidence of insurance on file with the Commission. As such, the Commission sent all carriers a letter notifying them that their operating authority was suspended. Since the date of the suspensions, these motor carriers have failed to cure the deficiency and maintain acceptable evidence of insurance with the Commission, notwithstanding notification by the Commission of the suspension and the necessity to provide acceptable evidence of insurance.

Under these circumstances, we tentatively conclude that the motor carriers listed in Appendix A are not in compliance with the insurance requirements of 66 Pa.C.S. § 512 and our regulations at 52 Pa. Code Chapter 32. As such, it is appropriate to initiate the process to cancel their certificates of public convenience as being in the public interest; *Therefore,*

¹ 52 Pa. Code §§ 32.11–32.16.

It Is Ordered That:

1. Cancellation of the Certificates of Public Convenience of each motor carrier listed in Appendix A is hereby tentatively approved as being in the public interest.

2. The Secretary's Bureau shall publish a copy of this Tentative Order in the *Pennsylvania Bulletin*.

3. The Secretary shall serve a copy of this Tentative Order upon all motor carriers listed in Appendix A.

4. The Secretary shall file this Tentative Order at each motor carrier's assigned docket number.

5. To the extent that any of the motor carriers listed on Appendix A challenge cancellation of their Certificates of Public Convenience, they must file comments within thirty (30) days after publication of this Tentative Order in the *Pennsylvania Bulletin*. Comments shall be sent to the Pennsylvania Public Utility Commission, Attn: Secretary Rosemary Chiavetta, Commonwealth Keystone Building, 400 North Street, 2nd Floor, Harrisburg, PA 17120.

6. Alternatively, acceptable evidence of insurance may be filed with the Commission on behalf of the motor carriers listed in Appendix A, within thirty (30) days after publication of this order in the *Pennsylvania Bulletin*.

Motor carriers listed in Appendix A who desire to continue operations should immediately contact their insurance agents to secure compliance with Commission insurance requirements. It is the motor carrier's responsibility to ensure compliance. Motor carriers can verify their insurance status at our Web Site at <https://www.puc.pa.gov/search/utility-authority-search/>.

Additionally, motor carriers may call our insurance hotline at (717)-787-1227 for more information.

7. Absent the timely filing of comments challenging the cancellation of the Certificate of Public Convenience or the timely filing of acceptable evidence of insurance, the Bureau of Technical Utility Services shall prepare a Secretarial Letter for issuance by the Secretary's Bureau canceling the carrier's applicable Certificate of Public Convenience. The Secretarial Letter shall direct the Department of Transportation to suspend the carrier's vehicle registration(s) consistent with 75 Pa.C.S. § 1375.

8. Upon issuance of the Secretarial Letter described in Ordering Paragraph No. 7 above, the applicable Certificate of Public Convenience of each non-compliant carrier shall be cancelled.

9. The Secretary serve a copy of the Secretarial Letter upon the Commission's Bureau of Investigation and Enforcement, Bureau of Technical Utility Services, Bureau of Administration, the Pennsylvania Department of Revenue—Bureau of Corporation Taxes, and the Pennsylvania Department of Transportation.

**PENNSYLVANIA PUBLIC
UTILITY COMMISSION**

**Electric Generation Supplier License Cancellation
of Companies with an Expired Financial Security,
Insufficient Financial Security Amount or
Language**

Public Meeting held
January 18, 2024

Commissioners Present: Stephen M. DeFrank, Chairperson; Kimberly Barrow, Vice Chairperson; Ralph V. Yanora; Kathryn L. Zerfuss; John F. Coleman, Jr.

*Electric Generation Supplier License Cancellation of
Companies with an Expired Financial Security,
Insufficient Financial Security Amount or Language;
M-2023-3037455*

Tentative Order

By the Commission:

The Commission’s regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a

bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA, 17120, prior to the EGS’s current security expiration date. Each financial instrument must be an original document that displays a “wet” signature or digital signature, preferably in blue ink, and displays a “raised seal” or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS’s license issued by the Commission.

Failure to file before the financial security’s expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company’s electric supplier license, removal of each company’s information from the Commission’s website, and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of January 9, 2024, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount or language directed by the Commission, to replace a bond which is expired, or which is non-compliant with Commission regulations.

Supplier Table—List of Electric Generation Suppliers

<i>Docket Number</i>	<i>Company Name</i>	<i>Financial Security Expiration Date</i>	<i>Commission Approved Amount or Language</i>
A-2010-2203946	ASPEN ENERGY CORPORATION	01/02/2024	Yes
A-2015-2497850*	MPOWER ENERGY NJ, LLC	12/31/2023	No
A-2021-3029728*	SPARTACUS ENERGY SERVICES, LLC	12/20/2023	No
A-2020-3016555	US ENERGY LINK, LLC	12/23/2023	Yes

As part of its EGS license validation procedures, the Commission’s Bureau of Technical Utility Services sent a 90-day Security Renewal Notice email to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security in the amount or language directed by the Commission, must be filed within 30-days prior to each entity’s security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for the EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest;

Therefore,

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier License of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary (i) serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, all electric generation distribution companies, and all of the Electric Generation Suppliers listed in the Supplier Table; (ii) publish a copy of this Tentative Order in the *Pennsylvania Bulletin* with a 30-day comment period; and (iii) file a copy of this Tentative Order at each Electric Generation Supplier’s assigned docket number.

3. To the extent any of the Electric Generation Suppliers listed in the Supplier Table challenge the cancellation of their license, they must file comments within thirty (30) days after publication of this Tentative Order in the *Pennsylvania Bulletin*. Written comments referencing Docket No. M-2023-3037455 must be eFiled to the Pennsylvania Public Utility Commission through the Commission’s eFiling System. You may set up a free eFiling account with the Commission at <https://efiling.puc.pa.gov/> if you do not have one. Filing instructions may be found on the Commission’s website at http://www.puc.pa.gov/filing_resources.aspx. Comments containing confidential information should be emailed to Commission Secretary Rosemary Chiavetta at rchiavetta@pa.gov rather than eFiled.

4. Alternatively, Electric Generation Suppliers listed in the Supplier Table may provide the Commission an approved security up to and within thirty (30) days after publication in the *Pennsylvania Bulletin*. The Electric Generation Supplier must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument displaying a “wet” signature or digital signature, preferably in blue ink, and displaying a “raised seal” or original notary stamp with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA, 17120.

5. Absent the timely (i) filing of comments challenging the cancellation of the Electric Generation Supplier’s license, or (ii) the filing of an approved security within 30-days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services, shall prepare a Final Order for entry by the Secretary revoking the license of each Electric Generation Supplier that fails to respond.

6. Upon entry of the Final Order, Electric Generation Suppliers that remain listed as not in compliance with 52 Pa. Code § 54.40(a) and (d) will be stricken from all active utility lists maintained by the Commission’s Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission’s website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

7. Upon entry of the Final Order, Electric Generation Suppliers that fail to respond will be prohibited from providing electric generation supply services to retail electric customers. That upon entry of the Final Order described in Ordering Paragraph No. 5, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.

ROSEMARY CHIAVETTA,
Secretary

PENNSYLVANIA PUBLIC UTILITY COMMISSION

**Pennsylvania Public Utility Commission, Bureau of
Investigation and Enforcement v. PPL Electric
Utilities Corporation**

Public Meeting held
January 18, 2024

Commissioners Present: Stephen M. DeFrank, Chairperson, statement follows; Kimberly Barrow, Vice Chairperson, statement follows; Ralph V. Yanora; Kathryn L. Zerfuss; John F. Coleman, Jr.

*Pennsylvania Public Utility Commission, Bureau of
Investigation and Enforcement v. PPL Electric Utilities
Corporation; M-2023-3038060*

Opinion and Order

By the Commission:

Before the Pennsylvania Public Utility Commission (Commission) for consideration and disposition is the proposed Joint Petition for Approval of Settlement (Settlement, Settlement Agreement, or Petition) filed on November 21, 2023, by the Commission’s Bureau of Investigation and Enforcement (I&E) and PPL Electric Utilities Corporation (PPL or the Company) (collectively, the Parties), with respect to an informal investigation conducted by I&E. The Parties each filed Statements in Support of the Settlement and submit the proposed Settlement is in the public interest and consistent with the standards delineated in the Commission’s Policy Statement at 52 Pa. Code § 69.1201, Factors and Standards for Evaluating Litigated and Settled Proceeding Involving Violations of the Public Utility Code and Commission Regulations. Petition at 17.

Prior to issuing a final decision on the merits of the proposed Settlement, and consistent with the requirement imposed in 52 Pa. Code § 3.113(b)(3), we shall publish the Settlement in the *Pennsylvania Bulletin* and provide an opportunity for interested parties to file comments regarding the proposed Settlement.

History of the Proceeding

This matter arises from billing system malfunctions caused by technical issues. Petition at 3. These issues temporarily rendered customer meter data unavailable in the Company’s system, resulting in the promulgation of unusually high or low estimated bills, or no bills at all. Id. The billing issues were exacerbated by the lack of adequate customer support available via phone to discuss billing concerns with customers. Id.

The matter was referred to I&E by the Commission’s Bureau of Consumer Services (BCS) on January 31, 2023. Petition at 2. I&E determined an investigation was necessary to determine whether the events and actions taken by PPL violated any regulations, laws, or orders the Commission has jurisdiction over. Id. at 3.

Thereafter, the Parties entered negotiations and agreed to resolve the matter in accordance with the Commission’s policy to promote settlements at 52 Pa. Code § 5.231(a). Id. at 11. As mentioned supra, the Parties filed the instant Settlement on November 21, 2023.

Background

On January 21, 2023, BCS referred this matter, regarding PPL’s system-wide billing issue, to I&E. Petition at 2-3. Thereafter, I&E sent correspondence and data requests to PPL concerning the billing issue.

On February 21, 2023, PPL submitted its responses to I&E Data Requests—Set I. In its responses, PPL revealed that on December 15, 2022, PPL discovered that customer meter data was not transferring from the Meter Data Management Software (MDMS) to the Customer Service System (CSS). Petition at 4. The inability to transfer the data impeded normal customer billing operations and resulted in PPL sending customers estimated December 2022 bills. Id. When PPL transitioned back to actual data, human error caused additional incorrect bills to be issued while some customers did not receive a bill. Id.

After additional data requests and responses were exchanged, on April 27, 2023, I&E and PPL personnel met in person to discuss the informal investigation. Petition at 5.

The Petition states that had the matter been fully litigated, I&E would have proffered evidence and legal arguments to demonstrate that PPL committed violations of the Code and the Commission's Regulations related to customer billing stemming from the failure of PPL's MDMS to transfer customer meter data to other software platforms, including PPL's CSS. Petition at 5. Specifically, the alleged violations relate to the following issues: (1) No Bills; (2) Estimated Billing; (3) Billing Group 12; and (4) Customer Service—Abandoned Calls. Id. at 5—11.

First, as a result of the MDMS failure, 48,168 PPL accounts did not receive a bill during one or more of their billing periods from December 2022 through April 2023. Petition at 5. As of May 5, 2023, 223 accounts had yet to receive their first bill since being first impacted by the MDMS failure over five (5) months earlier in December 2022. Id. From December 2022 to April 2023, 91,676 unique accounts received no bills. Id. The Petition draws a comparison between the December 2022—April 2023 matter and the January and November 2022 matter where the average number of accounts that received no bills was 568 per month or approximately 6,248 total accounts. Id.

The Petition makes clear that it is I&E's position that PPL violated 52 Pa. Code § 56.11 of the Commission's Regulations when residential customers did not receive at least one of their monthly bills between December 2022 and April 2023. Petition at 6. Furthermore, I&E contends that 66 Pa.C.S. § 1501, relating to character of service and facilities, does not dictate that a utility must provide perfect service to its customers, by PPL's failure to render bills to 48,168 accounts and to 91,676 unique accounts from December 2022 and April 2023, PPL violated Section 1501 by failing to provide the impacted customers with adequate, efficient, and reasonable service. Id. at 6-7.

Next, the Petition states that as a result of the MDMS failure, PPL issued estimated bills to 794,816 unique accounts from December 20, 2022, to January 9, 2023, and a total of 860,493 estimated bills from December 20, 2022, through May 5, 2023. Petition at 7. PPL indicated that many of these estimated bills were unusually high or low or contained missing or incomplete supplier charges. Id.

It is I&E's position that PPL violated 52 Pa. Code § 56.12 and 66 Pa.C.S. § 1501 by issuing the estimated bills. Petition at 7. The Petition states that it is I&E's position that when a utility resorts to sending estimated bills to customers, those estimates should be within an anticipated range of normalcy such that they are not wildly over or under-estimated. Id. at 8. The Petition explains that PPL analyzed 387,895 bills that were estimated in January 2023 as a result of the MDMS issue. Id. The analysis concluded that 67.31% (261,104 customers) of the bills had an estimate differing from the customers' actual usage of 10% or greater. Id. Of the 67.31%, 34.36% were shown to have an estimate that varied from actual usage by more than 25%. Id. Moreover, nearly 48,000 customer bills were based on an estimate differing from actual usage by more than 50%. Id. I&E submits that the billing difference exceeding 50% to 47,904 customers is unreasonable and therefore, PPL failed to provide these customers with reasonable service. Id.

In addition to the estimated billing issue, PPL discovered that 82,784 customer bills did not include any supplier charges or included, at most, only partial supplier charges resulting in severely inaccurate bills. Petition at 9. After the discovery, and in an attempt to correct

the bills, PPL began cancelling the estimated bills and rebilling the accounts in order to correct the supplier charges portion of the bill. Id. In some instances, customers were asked to or voluntarily paid the estimated bills at the same time PPL began cancelling and rebilling some customers. Id. The process took months to resolve. Id. It is I&E's position that by rendering estimated bills with missing or incomplete supplier charges to 82,784 customers PPL violated Section 1501 of the Code by failing to provide adequate, efficient, and reasonable service to those customers. Id.

In the Petition, it was explained that when PPL attempted to resume billing customers based on actual data, there was an issue processing Billing Group 12 which caused 3,805 customers to be sent incorrect bills. Petition at 9. I&E submits that by issuing the incorrect bills, PPL failed to provide these customers with reasonable service in violation of 66 Pa.C.S. § 1501. Id. at 10.

Finally, the Petition stated that due to the billing issues, PPL experienced an increase in call volume from customers seeking explanations for their higher-than-normal bills. Petition at 10. The unanticipated influx of inbound calls by affected customers overwhelmed PPL's customer service support which resulted in customers experiencing long wait times on hold or hanging up before reaching a representative. Id. To illustrate the matter, the Petition stated that in January 2023, PPL received 217,539 calls, 89,315 (or 41%) of which were abandoned compared to an abandoned rate of less than 20% on average in 2022. Id.

It is I&E's position that although Section 1501 of the Code does not dictate that a utility must provide perfect service to its customers, by abandoning 41% of the calls that it received in January 2023, and by not handling calls from its customers within a reasonable period of time, PPL failed to provide these customers with adequate, efficient, and reasonable service in violation of Section 1501. Petition at 10.

Terms and Conditions of the Settlement

The Parties submit that the Settlement Agreement is in the public interest because it effectively addresses I&E's allegations that are the subject of the I&E informal investigation and avoids the time and expense of litigation. Both Parties jointly acknowledge that approval of the Settlement Agreement is in the public interest and is fully consistent with the Commission's Policy Statement at 52 Pa. Code § 69.1201. Petition at 15.

The Settlement consists of the Joint Petition for Approval of Settlement containing the terms and conditions of the Settlement including three Attachments, the Statement in Support of the Settlement of I&E (Appendix A to the Petition), the Statement in Support of the Settlement of PPL (Appendix B to the Petition), and an Accompanying Document of Remedial Measures (Appendix C to the Petition), filed on November 21, 2023.

Pages 11—15 of the Settlement Agreement set forth the full Settlement Terms and Conditions.

The essential terms of the Joint Settlement are set forth in Paragraph Nos. 38—41 of the Petition, which is recited in full, below, as it appears in the Petition:

38. Pursuant to the Commission's policy of encouraging settlements that are reasonable and in the public interest, the Parties held an in-person meeting and multiple discussions that culminated in this Settlement. I&E and PPL desire to (1) terminate I&E's informal investigation; and (2) settle this matter

completely without litigation. The Parties recognize that this is a disputed matter and given the inherent unpredictability of the outcome of a contested proceeding, the Parties further recognize the benefits of amicably resolving the disputed issues. The terms of the Settlement, for which the Parties seek Commission approval, are set forth below:

1) PPL shall pay a civil penalty of One Million Dollars (\$1,000,000) to fully and finally resolve all possible claims of alleged violations of the Public Utility Code and the Commission's regulations in connection with the above alleged violations. Said payment shall be made within thirty (30) days of the date of the Commission's Final Order approving the Settlement Agreement and shall be made by certified check or money order payable to the "Commonwealth of Pennsylvania" and sent to:

Rosemary Chiavetta, Secretary
 Pennsylvania Public Utility Commission
 Commonwealth Keystone Building
 400 North Street
 Harrisburg, PA 17120

The civil penalty shall not be tax deductible pursuant to Section 162(f) of the Internal Revenue Code, 26 U.S.C.S. § 162(f) or passed through as an additional charge to PPL's customers in Pennsylvania.

2) PPL has voluntarily taken several notification and corrective actions in response to the billing issues:

(1) PPL provided information to BCS of the billing issues it was experiencing due to the MDMS-CSS meter data transfer failure;

(2) Additionally, PPL provided periodic updates to the Office of Consumer Advocate, Office of the Small Business Advocate, and the Pennsylvania Utility Law Project;

(3) After identifying the impacted accounts, PPL conducted outreach to all of the affected customers;

(4) These outreach efforts included the following:

(a) Starting December 18, 2022, PPL customer service representatives were provided with talking points to answer customer questions about the estimated bills;

(b) On January 31, 2023, PPL sent a letter via regular mail and e-mail to all customers from its then-President, Stephanie Raymond, explaining the estimated bills and higher energy prices. At this time, PPL also launched a dedicated landing page on its website to address bill questions, this messaging was updated regularly with content, including bill explainer videos, information on understanding higher energy costs, and direct access to assistance programs and bill support. The Company directed customers to this information from its social media channels, media relations, customer emails, and digital newsletters;

(c) Starting on February 10, 2023, the Company sent a letter to the first group of customers who would have their bills canceled and rebilled because the original bill did not include or only included partial supplier charges. This letter was sent to the subsequent groups of customers who would have their bills canceled and rebilled on February 16, 2023, March 18, 2023, and April 10, 2023;

(d) On February 23, 2023, the Company sent a letter to customers who had not received a bill since the beginning of the billing issue;

(e) Beginning in January 2023, PPL provided periodic updates to electric generation suppliers ("EGSSs") through the Company's Supplier Portal; and

(f) In March and April 2023, PPL held two customer outreach workshops in conjunction with local legislators to provide one on one support to senior citizens with bill questions.

(5) PPL provided BCS with regular updates and responded to inquiries on the billing issues and the Company's progress in resolving them;

(6) The Company instituted or is in the process of developing a series of practices and protocols to help prevent and insulate the technical issues with the MDMS-CSS data transfer that caused these issues, including:

(a) Revising back-office processes to reduce the number of no-bill and multi-primary bills;

(b) Evaluating the formula to calculate estimates to determine if improvements can be made to the estimation process;

(c) Creating internal daily control reports on estimated bills, multi-primary bills, and daily meter read rates and operational metrics;

(d) Developing work arounds to process meter data outside of MDMS when needed; and

(e) Enriching MDMS estimations for scenarios where meter data is missing to reduce the time period estimated.

(7) PPL on its own initiative did not terminate electric service for any customers for nonpayment from January 2023 through June 2023;

(8) PPL voluntarily waived all late payment fees for January and February 2023;

(9) PPL is owed but will not seek to collect approximately \$1.7 million from customers who received estimated bills and were underbilled due to the application of the incorrect rates in the bills that tried up the estimated billing periods;

(10) PPL refunded, through a one-time line-item credit, approximately \$1.0 million to customers who received estimated bills and were overbilled due to the application of the incorrect rates in the bills that tried up the estimated billing periods;

(11) PPL engaged external vendors, and incurred additional expense, to provide call center support, assist with customer complaints, help with back-office billing, and assist with customer communications in 2023; and

(12) PPL authorized significant overtime for employees to provide call center support in 2023.

3) PPL incurred significant costs when responding to the billing issues to help mitigate customer impacts, including, but not limited to: (1) experiencing approximately \$2.3 million loss of revenue from voluntarily waiving late fees; (2) incurring approximately \$7.8 million of additional bad debt expense arising out of the voluntary service termination moratorium; (3) forgoing collection of approximately \$1.7 million from customers who were underbilled in the estimation true-up process; (4) incurring an additional approximately \$3.7 million of unplanned costs in engaging external vendors; and (5) incurring approximately \$700,000 of unbudgeted employee overtime expense (totaling approximately \$16.2 million in miti-

gation costs). PPL agrees not to recover any of these mitigation costs from Pennsylvania consumers by any future proceeding, device, or manner whatsoever.

39. I&E expects that any make-up bills for previously unbilled utility service will be rendered in compliance with Section 56.14 of the Commission's regulations in order to provide the customer ratepayer a fair opportunity to pay the charges due. 52 Pa. Code § 56.14.

40. In consideration of the Company's payment of a monetary civil penalty of \$1,000,000, I&E agrees to forgo the filing of any formal complaint that relates to the Company's conduct as described in the Settlement Agreement. Nothing contained in this Settlement Agreement shall adversely affect the Commission's authority to receive and resolve any informal or formal complaints filed by any affected party with respect to the incident, except that no penalties beyond the civil penalty amount agreed to herein may be imposed by the Commission for any actions identified herein.

41. I&E and PPL jointly acknowledge that approval of this Settlement Agreement is in the public interest and is fully consistent with the Commission's Policy Statement for Litigated and Settled Proceedings Involving Violations of the Code and Commission Regulations, 52 Pa. Code § 69.1201. The Parties submit that the Settlement Agreement is in the public interest because it effectively addresses I&E's allegations of billing procedure violations that were the subject of the I&E's informal investigation and it avoids the time and expense of litigation, which entails hearings and the preparation and filing of briefs, exceptions, reply exceptions, as well as possible appeals. Attached as Appendices A and B are Statements in Support submitted by I&E and PPL, respectively, setting forth the bases upon which the Parties believe the Settlement Agreement is in the public interest.

Discussion

Pursuant to our Regulations at 52 Pa. Code § 5.231, it is the Commission's policy to promote settlements. The Commission must, however, review proposed settlements to determine whether the terms are in the public interest. *Pa. PUC v. Philadelphia Gas Works*, Docket No. M-00031768 (Opinion and Order entered January 7, 2004).

In reviewing settlements that resolve informal investigations, the Commission will provide other potentially affected parties with the opportunity to file comments regarding a proposed settlement prior to issuing a decision. The Commission's Regulations at 52 Pa. Code § 3.113(b) provide as follows:

§ 3.113. Resolution of informal investigations.

* * *

(b) Under 65 Pa.C.S. Chapter 7 (relating to Sunshine Act), the Commission's official actions resolving informal investigations will be as follows:

* * *

(3) When the utility, or other person subject to the Commission's jurisdiction, has committed to undertake action to address or remedy a violation or

potential violation of the act or to resolve another perceived deficiency at the utility, in the form of a settlement with the Commission staff or other resolution of the matter, the Commission's consideration of the settlement or approval of the utility's action will occur at public meeting. Except for staff reports and other documents covered by a specific legal privilege, documents relied upon by the Commission in reaching its determination shall be made part of the public record. *Before the Commission makes a final decision to adopt the settlement or to approve the utility's action, the Commission will provide other potentially affected persons with the opportunity to submit exceptions thereon or to take other action provided for under law.*

Conclusion

Before issuing a decision on the merits of the proposed Settlement, and consistent with the requirement of 52 Pa. Code § 3.113(b)(3), and for the reason(s) stated above, we believe it is appropriate to provide interested parties an opportunity to file comments on the proposed Settlement. Therefore, we will: (1) publish this Opinion and Order and a copy of the proposed Settlement (including Appendices) and Statements in Support, attached hereto, in the *Pennsylvania Bulletin*; and (2) provide an opportunity for interested parties to file comments regarding the proposed Settlement within twenty-five days of the date of publication in the *Pennsylvania Bulletin*; *Therefore,*

It Is Ordered That:

1. The Secretary's Bureau shall duly certify this Opinion and Order along with the attached Joint Petition for Approval of Settlement (including Appendices) and the Statements in Support thereof, at Docket No. M-2023-3038060, and deposit them with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

2. Within twenty-five (25) days of the date that this Opinion and Order and the attached Joint Petition for Approval of Settlement (including Appendices) and the Statements in Support thereof are published in the *Pennsylvania Bulletin*, interested parties may file comments concerning the proposed Settlement.

3. A copy of this Opinion and Order, together with the attached Joint Petition for Approval of Settlement (including Appendices) and the Statements in Support thereof, at Docket No. M-2023-3038060, shall be served on the Office of Consumer Advocate and the Office of Small Business Advocate.

4. Subsequent to the Commission's review of any comments filed in this proceeding, at Docket No. M-2023-3038060, a final Opinion and Order will be issued by the Commission.

Secretary

ORDER ADOPTED: January 18, 2024

ORDER ENTERED: January 18, 2024

BEFORE THE PENNSYLVANIA PUBLIC UTILITY COMMISSION

Pennsylvania Public Utility Commission, Bureau of Investigation and Enforcement's Investigation of PPL Electric Utilities Corporation for potential violations of 52 Pa. Code § 56.1, et seq., of the Commission's regulations and 66 Pa.C.S. § 1501 of the Public Utility Code

JOINT PETITION FOR APPROVAL OF SETTLEMENT

TO THE HONORABLE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

Pursuant to 52 Pa. Code §§ 3.113(b)(3), 5.41 and 5.232, the Pennsylvania Public Utility Commission's ("Commission" or "PUC") Bureau of Investigation and Enforcement ("I&E") and PPL Electric Utilities Corporation ("PPL" or "Company") (hereinafter referred to collectively as the "Parties" or "Joint Petitioners") hereby submit this Joint Petition for Approval of Settlement ("Joint Petition" or "Settlement Agreement") to resolve all issues related to an informal investigation conducted by I&E. I&E's investigation was initiated based upon information provided by the Commission's Bureau of Consumer Services ("BCS") regarding a system-wide billing issue discovered in December 2022. I&E and PPL respectfully request that the Commission enter an Opinion and Order approving the Settlement Agreement, without modification, for the compelling public interest reasons set forth, infra. Also attached are Statements in Support of the Settlement expressing the individual views of I&E (Appendix A) and PPL (Appendix B), respectively. Also attached is an accompanying document of remedial measures designated as Appendix C.

I. Introduction

1. The Parties to this Settlement Agreement are I&E, by its prosecuting attorneys, 400 North Street, Harrisburg, PA 17120, and PPL, an electric distribution company ("EDC") with a business address of Two North Ninth Street, Allentown, PA 18101.

2. The Commission is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within this Commonwealth, as well as other entities subject to its jurisdiction, pursuant to the Public Utility Code ("Code"), 66 Pa.C.S. §§ 101, et seq.

3. I&E is the bureau within the Commission established to prosecute complaints against public utilities and other entities subject to the Commission's jurisdiction. See Implementation of Act 129 of 2008; Organization of Bureaus and Offices, Docket No. M-2008-2071852 (Order entered August 11, 2011) (delegating authority to initiate proceedings that are prosecutory in nature to I&E); see also 66 Pa.C.S. § 308.2(a)(11).

4. Section 501(a) of the Code, 66 Pa.C.S. § 501(a), authorizes and obligates the Commission to execute and enforce the provisions of the Code.

5. PPL is a "public utility," as that term is defined at 66 Pa.C.S. § 102¹ and an "electric distribution company,"

¹ At 66 Pa.C.S. § 102, "Public utility" is defined under that term at subsection (1)(i) as:

(1) Any person or corporations now or hereafter owning or operating in this Commonwealth equipment or facilities for: (i) Producing, generating, transmitting, distributing or furnishing natural or artificial gas, electricity, or steam for the production of light, heat, or power to or for the public for compensation.

as that term is defined at 66 Pa.C.S. § 2803, as it is engaged in providing electric utility service to the public for compensation.

6. On January 31, 2023, BCS referred this matter to I&E outlining concerns regarding PPL's compliance with the Code and the Commission's regulations related to recent billing system malfunction caused by a technical issue that made customer meter data temporarily unavailable in the Company's system which generated bills and displayed customer usage data. These billing issues resulted in the rendering of unusually high or low estimated bills, the rendering of no monthly bills at all, and the lack of adequate customer service support such that concerned customers were unable to or unduly hampered in their attempts to contact a PPL Call Center representative by telephone to discuss their billing concerns.

7. I&E determined that an informal investigation was warranted to ascertain whether the actions of PPL violated any regulations, laws, or orders that the Commission has jurisdiction to administer.

8. As a result of successful negotiations between I&E and PPL, the Parties have reached an agreement on an appropriate outcome to the investigation as encouraged by the Commission's policy to promote settlements. See 52 Pa. Code § 5.231. The Settlement Agreement also is consistent with the Commission's Policy Statement for evaluating litigated and settled proceedings involving violations of the Code and Commission regulations, 52 Pa. Code § 69.1201. The Parties agree to the settlement terms set forth herein and urge the Commission to grant the Joint Petition and approve the Settlement Agreement in its entirety, without modification, as being in the public interest.

II. Background

9. On February 1, 2023, I&E submitted I&E Data Requests—Set I to PPL. This correspondence informed PPL that I&E had initiated an investigation concerning the billing issues raised by BCS and requested that the Company respond to I&E's eleven (11) data requests.

10. On February 21, 2023, PPL submitted Responses to I&E Data Requests—Set I. PPL's responses revealed that on December 15, 2022, PPL discovered that customer meter data was not transferring from the Meter Data Management Software ("MDMS") to the Customer Service System ("CSS"). The inability to transfer actual meter data backed up normal customer billing operations and resulted in sending estimated December 2022 bills. In the transition back to actual data, human error cause additional incorrect bills to be issued, while some customers received no bills. PPL further described the process for estimating a customer's bill and explained the inaccessibility of a portion of its website for a short period of time.

11. On March 28, 2023, I&E submitted I&E Data Requests—Set II to PPL, seeking responses to twenty (20) data requests.

12. On April 14, 2023, PPL submitted Responses to I&E Data Requests—Set II. PPL's responses provided further information regarding the root cause of the billing system failure, the human error resulting in incorrect bills in the work around process to return to billing residential accounts using actual meter data, the review of the Company's estimation algorithm, the process regarding bills with incomplete supplier charge data, the customers who did not receive bills and the Company's communications with those customers, and remedies initiated by the Company.

13. On April 14, 2023, PPL submitted Supplemental Responses to I&E Data Requests—Set I, updating the number of estimated bills issued, the customer impacts from issuing a large number of estimated bills from December 20, 2022, through January 24, 2023, the scenarios where it issued estimated bills and an expanded explanation of the process used to estimate usage for customers.

14. On April 27, 2023, I&E and PPL personnel met in person to discuss the informal investigation. At the in-person meeting, I&E submitted six data requests to PPL.

15. On May 5, 2023, I&E submitted I&E Data Requests—Set III to PPL, seeking responses to three additional data requests.

16. On May 19, 2023, PPL submitted Responses to I&E's Data Requests submitted to PPL personnel during the April 27, 2023, in-person meeting regarding estimated billing and call abandonment percentage comparisons, payment arrangement impacts, and supplier communications.

17. On May 25, 2023, PPL submitted Responses to I&E Data Requests—Set III. PPL's responses updated the number of "no bills," the status of billing customers who had yet to be billed.

III. *Alleged Violations*

18. Had this matter been fully litigated, I&E would have proffered evidence and legal arguments to demonstrate that PPL committed violations of the Code and the Commission's regulations related to customer billing stemming from the failure of PPL's MDMS to transfer customer meter data to other software platforms, including PPL's CSS. The alleged violations are more specifically set forth as follows:

(A) *No Bills*

19. As a result of the MDMS failure, 48,168 PPL accounts received no bill during one or more of their December, January, February, March, or April 2023 billing periods. As of May 5, 2023, 223 accounts had yet to receive their first bill since being first impacted by the MDMS failure over 5 months earlier in December 2022. From December 2022 to April 2023, 91,676 unique accounts received no bills. By comparison, the average number of accounts that received no bills between January and November 2022 per month was 568.²

20. If proven, this is a violation of 52 Pa. Code § 56.12 and 66 Pa.C.S. § 1501. Section 56.11 of the Commission's regulations, 52 Pa. Code § 56.11, states:

² To note, the numbers contained in this Paragraph consist of both residential and non-residential accounts.

§ 56.11. *Billing frequency.*

(a) A public utility shall render a bill once every billing period to every residential customer in accordance with approved rate schedules.

52 Pa. Code § 56.11.

Additionally, Section 1501 of the Code, 66 Pa.C.S. § 1501 states, in pertinent part:

§ 1501. *Character of service and facilities.*

Every public utility shall furnish and maintain adequate, efficient, safe, and reasonable service and facilities, and shall make all such repairs, changes, alterations, substitutions, extensions, and improvements in or to such service and facilities as shall be necessary or proper for the accommodation, convenience, and safety of its patrons, employees, and the public. Such service also shall be reasonably continuous and without unreasonable interruptions or delay. Such service and facilities shall be in conformity with the regulations and orders of the commission.

66 Pa.C.S. § 1501.

21. As noted above, Section 56.11 of the Commission's regulations requires a utility to render a bill once every billing period to its residential customers when it states that a public utility *shall* render a bill once every billing period. 52 Pa. Code § 56.11(a) (emphasis added). It is I&E's position that PPL violated Section 56.11 of the Commission's regulations, cited above, when residential customers did not receive at least one of their monthly bills between December 2022 and April 2023. Furthermore, although Section 1501 of the Code does not dictate that a utility must provide perfect service to its customers, by failing to render bills to 48,168 accounts, and to 91,676 unique accounts from December 2022 to April 2023, I&E alleges that PPL violated Section 1501 by failing to provide the impacted customers with adequate, efficient, and reasonable service.

22. It is noted that PPL subsequently made substantial progress in correcting the "No Bills" issues cited above and that the Company rendered the vast majority of impacted customers billed to current by August 31, 2023.

(B) *Estimated Billing*

23. As a result of the MDMS failure, PPL indicated that it issued estimated bills to 794,816 unique accounts from December 20, 2022, to January 9, 2023, and a total of 860,493 estimated bills from December 20, 2022, through May 5, 2023. Many of these estimated bills were unusually high or low or contained missing or incomplete supplier charges.

24. If proven, this is a violation of 52 Pa. Code § 56.12 and 66 Pa.C.S. § 1501. The Commission's regulations do permit a utility to estimate bills under exigent circumstances, such as when the utility experiences equipment failure that prevents the utility from obtaining actual meter readings. See 52 Pa. Code § 56.12(3). Specifically, Section 56.12(3) of the Commission's regulations, 52 Pa. Code § 56.12(3), states in pertinent part:

(3) *Estimates permitted under exigent circumstances.* A utility may estimate the bill of a ratepayer if extreme weather conditions, emergencies, equipment failure, work stoppages or other circumstances prevent actual meter reading.

52 Pa. Code § 56.12(3).

25. However, it is I&E's position that when a utility resorts to sending estimated bills to customers, those

estimates should be within an anticipated range of normalcy such that they are not wildly over or underestimated.

1) *Unreasonably Inaccurate Usage Estimates*

26. According to PPL, estimates are based on the customer's "historical" electric use from the same month of the prior year.

27. Understanding that energy supply costs can increase over time resulting in higher generation costs from the customer's supplier or a higher Price to Compare for customers who receive default supply through PPL, customers complained that some amounts had doubled or tripled. Based on discovery responses provided by PPL, the Company analyzed 387,895 bills that were estimated in January 2023 as a result of the MDMS issue to determine whether or not the estimates were accurate. PPL's analysis revealed that 67.31% (261,104 customers) of the bills had an estimate differing from the customers' actual usage of 10% or greater. Of these bills, 34.36% indicated an estimate that varied from actual by more than 25%. Nearly 48,000 customer bills were based on an estimate differing from actual usage by more than 50%. Inaccurate usage estimates combined with increased or inaccurate supply charges (as will be discussed below) resulted in customer bills that were far-removed from customers' bills from a historical perspective.

28. I&E posits that PPL unreasonably over and/or under-estimated the bills of 47,904 customers based on the Company's January 2023 analysis and, therefore, failed to provide these customers with reasonable service in violation of Section 1501 of the Code.

2) *Missing or Incomplete Supplier Charges*

29. In addition to problems with usage estimates, customers were left to deal with estimated bills with unreasonably inaccurate amounts due. After sending its first wave of estimated bills, PPL discovered that 82,784 of these estimated bills did not include any supplier charges or included, at most, only partial supplier charges, thereby resulting in severely inaccurate bills. As a result, in February 2023, PPL began the process of cancelling the estimated bills and rebilling these accounts in order to correct the supplier charges portion of the bill.

30. In some instances, customers were asked to pay the estimated bills or, on their own volition, paid the estimated bills anticipating that any difference between the estimated bills and actual usage would be reconciled when the next bill was issued. Concurrently, the Company began the process of cancelling and rebilling some customers. Some estimated bills paid by customers were cancelled and rebilled before the payment was processed resulting in further inaccurate rebills. The events that ensued took months to unravel.

31. Furthermore, although Section 1501 of the Code does not dictate that a utility must provide perfect service to its customers, by rendering estimated bills with missing or incomplete supplier charges to 82,784 customers and issuing some estimated bills that were unusually high or low compared to the customer's historic charges or anticipated monthly bill, PPL also violated Section 1501 of the Code by failing to provide these customers with adequate, efficient, and reasonable service.

(C) *Billing Group 12*

32. PPL indicated that when it attempted to resume billing customers based on actual data, there was an issue processing Billing Group 12 that caused 3,805 customers to be sent incorrect bills.

33. It is I&E's position that by issuing 3,805 incorrect bills, PPL violated Section 1501 of Code, cited above, by failing to provide these customers with reasonable service.

34. It is noted that PPL completed the cancel and rebill process for these 3,805 customers in January 2023.

(D) *Customer Service—Abandoned Calls*

35. Due to the aforementioned billing issues, PPL experienced an increase in call volume from customers seeking explanations for their higher-than-normal bills. The unanticipated influx of inbound customer calling overwhelmed PPL's customer service support, resulting in customers experiencing long wait times on hold before reaching a PPL representative or hanging up before reaching a representative. According to discovery responses provided by PPL regarding abandoned calls, between January 2023 and April 2023, PPL received an average of 193,529 calls per month.³ In January 2023 alone, PPL received 217,539 calls, 89,315 (or 41%) of which were abandoned, compared to an abandoned rate of less than 20% on average in 2022. Furthermore, customers who called in January and February 2023 whose calls were handled by PPL personnel complained of long wait times.

36. If proven, although Section 1501 of the Code does not dictate that a utility must provide perfect service to its customers, by abandoning 41% of the calls that it received in January 2023, and by not handling calls from its customers within a reasonable period of time, PPL violated Section 1501 of the Code by failing to provide these customers with adequate, efficient, and reasonable service.

37. It is noted that PPL subsequently added more agents to field the increase in calls that it was receiving due to the MDMS failure and to reduce wait times. This correction led to an improved handling of calls in subsequent months.

IV. *Settlement Terms*

38. Pursuant to the Commission's policy of encouraging settlements that are reasonable and in the public interest, the Parties held an in-person meeting and multiple discussions that culminated in this Settlement. I&E and PPL desire to (1) terminate I&E's informal investigation; and (2) settle this matter completely without litigation. The Parties recognize that this is a disputed matter and given the inherent unpredictability of the outcome of a contested proceeding, the Parties further recognize the benefits of amicably resolving the disputed issues. The terms of the Settlement, for which the Parties seek Commission approval, are set forth below:

- a) PPL shall pay a civil penalty of One Million Dollars (\$1,000,000) to fully and finally resolve all possible claims of alleged violations of the Public Utility Code and the Commission's regulations in connection with the above alleged violations. Said payment shall be made within thirty (30) days of the date of the Commission's Final Order approving the Settlement Agreement and shall be made by certified check or money order payable to the "Commonwealth of Pennsylvania" and sent to:

Rosemary Chiavetta, Secretary
 Pennsylvania Public Utility Commission
 Commonwealth Keystone Building
 400 North Street
 Harrisburg, PA 17120

³ PPL experienced an average of 165,153 calls per month in 2022.

The civil penalty shall not be tax deductible pursuant to Section 162(f) of the Internal Revenue Code, 26 U.S.C.S. § 162(f) or passed through as an additional charge to PPL's customers in Pennsylvania.

b) PPL has voluntarily taken several notification and corrective actions in response to the billing issues:

1) PPL provided information to BCS of the billing issues it was experiencing due to the MDMS-CSS meter data transfer failure;

2) Additionally, PPL provided periodic updates to the Office of Consumer Advocate, Office of the Small Business Advocate, and the Pennsylvania Utility Law Project;

3) After identifying the impacted accounts, PPL conducted outreach to all of the affected customers;

4) These outreach efforts included the following:

(a) Starting December 18, 2022, PPL customer service representatives were provided with talking points to answer customer questions about the estimated bills;

(b) On January 31, 2023, PPL sent a letter via regular mail and e-mail to all customers from its then-President, Stephanie Raymond, explaining the estimated bills and higher energy prices. At this time, PPL also launched a dedicated landing page on its website to address bill questions, this messaging was updated regularly with content, including bill explainer videos, information on understanding higher energy costs, and direct access to assistance programs and bill support. The Company directed customers to this information from its social media channels, media relations, customer emails, and digital newsletters;

(c) Starting on February 10, 2023, the Company sent a letter to the first group of customers who would have their bills canceled and rebilled because the original bill did not include or only included partial supplier charges. This letter was sent to the subsequent groups of customers who would have their bills canceled and rebilled on February 16, 2023, March 18, 2023, and April 10, 2023;

(d) On February 23, 2023, the Company sent a letter to customers who had not received a bill since the beginning of the billing issue;

(e) Beginning in January 2023, PPL provided periodic updates to electric generation suppliers ("EGSs") through the Company's Supplier Portal; and

(f) In March and April 2023, PPL held two customer outreach workshops in conjunction with local legislators to provide one on one support to senior citizens with bill questions.

5) PPL provided BCS with regular updates and responded to inquiries on the billing issues and the Company's progress in resolving them;

6) The Company instituted or is in the process of developing a series of practices and protocols to help prevent and insulate the technical issues with the MDMS-CSS data transfer that caused these issues, including:

(a) Revising back-office processes to reduce the number of no-bill and multi-primary bills⁴;

(b) Evaluating the formula to calculate estimates to determine if improvements can be made to the estimation process⁵;

(c) Creating internal daily control reports on estimated bills, multi-primary bills, and daily meter read rates and operational metrics⁶;

(d) Developing work arounds to process meter data outside of MDMS when needed⁷; and

(e) Enriching MDMS estimations for scenarios where meter data is missing to reduce the time period estimated⁸.

7) PPL on its own initiative did not terminate electric service for any customers for nonpayment from January 2023 through June 2023;

8) PPL voluntarily waived all late payment fees for January and February 2023;

9) PPL is owed but will not seek to collect approximately \$1.7 million from customers who received estimated bills and were underbilled due to the application of the incorrect rates in the bills that trued up the estimated billing periods;

10) PPL refunded, through a one-time line-item credit, approximately \$1.0 million to customers who received estimated bills and were overbilled due to the application of the incorrect rates in the bills that trued up the estimated billing periods;

11) PPL engaged external vendors, and incurred additional expense, to provide call center support, assist with customer complaints, help with back-office billing, and assist with customer communications in 2023; and

12) PPL authorized significant overtime for employees to provide call center support in 2023.

c) PPL incurred significant costs when responding to the billing issues to help mitigate customer impacts, including, but not limited to: (1) experiencing approximately \$2.3 million loss of revenue from voluntarily waiving late fees; (2) incurring approximately \$7.8 million of additional bad debt expense arising out of the voluntary service termination moratorium; (3) forgoing collection of approximately \$1.7 million from customers who were underbilled in the estimation true-up process; (4) incurring an additional approximately \$3.7 million of unplanned costs in engaging external vendors; and (5) incurring approximately \$700,000 of unbudgeted employee overtime expense (totaling approximately \$16.2 million in mitigation costs). PPL agrees not to recover any of these mitigation costs from Pennsylvania consumers by any future proceeding, device, or manner whatsoever.

39. I&E expects that any make-up bills for previously unbilled utility service will be rendered in compliance with Section 56.14 of the Commission's regulations in order to provide the customer ratepayer a fair opportunity to pay the charges due. 52 Pa. Code § 56.14.

⁴ A "multi-primary" bill is a bill that contains charges for more than one billing period. See Section 1 of Appendix C for additional information about the Company's revisions to its back-office processes to reduce the number of no-bill and multi-primary bills.

⁵ See Section 2 of Appendix C for additional information.

⁶ See Section 3 of Appendix C for additional information.

⁷ See Section 4 of Appendix C for additional information.

⁸ See Section 5 of Appendix C for additional information.

40. In consideration of the Company's payment of a monetary civil penalty of \$1,000,000, I&E agrees to forgo the filing of any formal complaint that relates to the Company's conduct as described in the Settlement Agreement. Nothing contained in this Settlement Agreement shall adversely affect the Commission's authority to receive and resolve any informal or formal complaints filed by any affected party with respect to the incident, except that no penalties beyond the civil penalty amount agreed to herein may be imposed by the Commission for any actions identified herein.

41. I&E and PPL jointly acknowledge that approval of this Settlement Agreement is in the public interest and is fully consistent with the Commission's Policy Statement for Litigated and Settled Proceedings Involving Violations of the Code and Commission Regulations, 52 Pa. Code § 69.1201. The Parties submit that the Settlement Agreement is in the public interest because it effectively addresses I&E's allegations of billing procedure violations that were the subject of the I&E's informal investigation and it avoids the time and expense of litigation, which entails hearings and the preparation and filing of briefs, exceptions, reply exceptions, as well as possible appeals. Attached as Appendices A and B are Statements in Support submitted by I&E and PPL, respectively, setting forth the bases upon which the Parties believe the Settlement Agreement is in the public interest.

V. Conditions of Settlement

42. This document represents the Settlement Agreement in its entirety. No changes to obligations set forth herein may be made unless they are in writing and are expressly accepted by the parties involved. This Settlement Agreement shall be construed and interpreted under Pennsylvania law, without regard to its conflicts of laws provisions.

43. The Settlement is conditioned upon the Commission's approval of the terms and conditions contained in this Joint Settlement Petition without modification. If the Commission rejects or modifies this Settlement Agreement, any party may elect to withdraw from this Settlement Agreement and may proceed with litigation or take other such action as deemed appropriate and, in such event, this Settlement Agreement shall be void and of no effect. Such election to withdraw must be made in writing, filed with the Secretary of the Commission and served upon all parties within twenty (20) business days after entry of an Order modifying the Settlement.

44. The benefits and obligations of this Settlement Agreement shall be binding upon the successors and assigns of the Parties to this Agreement.

45. The Parties agree that the underlying allegations were not the subject of any hearing or formal procedure and that there has been no order, findings of fact or conclusions of law rendered in this proceeding. It is further understood that, by entering into this Settlement Agreement, PPL has made no concession or admission of fact or law and may dispute all issues of fact and law for all purposes in all proceedings that may arise as a result of the circumstances described in this Settlement Agreement.

46. The Parties acknowledge that this Settlement Agreement reflects a compromise of competing positions and does not necessarily reflect any party's position with respect to any issues raised in this proceeding.

47. If either Party should file any pleading, including comments, in response to an order of the Commission, the other party shall have the right to file a reply.

48. This Settlement Agreement is being presented only in the context of this proceeding in an effort to resolve the proceeding in a manner that is fair and reasonable. This Settlement Agreement is presented without prejudice to any position that any of the Parties may have advanced and without prejudice to the position any of the Parties may advance in the future on the merits of the issues in future proceedings, except to the extent necessary to effectuate the terms and conditions of this Settlement Agreement. This Settlement Agreement does not preclude the Parties from taking other positions in any other proceeding.

49. The terms and conditions of this Settlement Agreement constitute a carefully crafted package representing reasonably negotiated compromises on the issues addressed herein. Thus, the Settlement Agreement is consistent with the Commission's rules and practices encouraging negotiated settlements set forth in 52 Pa. Code §§ 5.231 and 69.1201.

Wherefore, the Pennsylvania Public Utility Commission's Bureau of Investigation and Enforcement and PPL Electric Utilities Corporation respectfully request that the Commission enter an Order approving the terms of the Joint Petition for Approval of Settlement in their entirety as being in the public interest.

**THE BUREAU OF INVESTIGATION AND ENFORCEMENT'S
STATEMENT IN SUPPORT OF THE
JOINT PETITION FOR APPROVAL OF SETTLEMENT**

TO THE HONORABLE PENNSYLVANIA PUBLIC
UTILITY COMMISSION:

Pursuant to 52 Pa. Code §§ 5.231, 5.232 and 69.1201, the Pennsylvania Public Utility Commission's ("Commission" or "PUC") Bureau of Investigation and Enforcement ("I&E"), a signatory party to the Joint Petition for Approval of Settlement ("Settlement" or "Settlement Agreement") filed in the above-docketed matter, submits this Statement in Support of the Settlement Agreement between I&E and PPL Electric Utilities Corporation ("PPL" or "Company").⁹ I&E avers that the terms and conditions of the Settlement Agreement are just and reasonable and in the public interest for the reasons set forth in the Settlement Agreement and as set forth herein.

I. Background

I&E's investigation was initiated based upon information provided by the Commission's Bureau of Consumer Services ("BCS") regarding a system-wide billing issue discovered by the Company in December 2022. Specifically, the Company described the billing issue as the failure of PPL's Meter Data Management Software ("MDMS") to transfer customer meter data to other software platforms, including PPL's Customer Service System ("CSS"). This malfunction resulted in the rendering of unusually high or low estimated bills, the rendering of no monthly bills at all and the lack of adequate customer service support such that concerned customers were unable to or unduly hampered in their attempts to contact a PPL Call Center representative by telephone to discuss their billing concerns.

As a result of this billing issue, 48,168 PPL accounts received no bill during one or more of their December, January, February, March, or April 2023 billing periods, nearly 48,000 customer bills were based on an estimate differing from actual usage by more than 50%, nearly 83,000 customer bills were estimated with missing or incomplete supplier charges, 3,805 incorrect bills were issued when the Company attempted to resume billing with actual data and customer calls to PPL ballooned to an average of over 200,000 per month with long wait times and a call abandonment rate of over 40%. I&E alleged multiple violations of 52 Pa. Code § 56.1, et seq., of the Commission's regulations and 66 Pa.C.S. § 1501 of the Public Utility Code.

On November 21, 2023, the Parties filed a Joint Petition for Approval of Settlement resolving all issues between I&E and PPL in this matter. This Statement in Support is submitted in conjunction with the Settlement.

⁹ I&E and PPL are collectively referred to herein as the "Parties."

II. The Public Interest

Pursuant to the Commission's policy of encouraging settlements that are reasonable and in the public interest, the Parties held a series of settlement discussions. These discussions initially involved BCS and the Company and once referred to I&E, counsel for both Parties joined the dialogue. Formal negotiations ensued culminating in this Settlement Agreement, which, once approved, will resolve all issues related to I&E's informal investigation involving this matter. Whether an act or omission is in the public interest is related to whether it promotes "safe, efficient, and economical service," *Wiley v. Pennsylvania Public Utility Commission*, 142 A.2d 763 (Pa. Super 1958). See *City of York v. Pennsylvania Public Utility Commission*, 449 Pa. at 141 (1972) (public interest determined by whether a merger will "affirmatively promote the 'service, accommodation, convenience, or safety of the public' in some substantial way."). See also: *Pennsylvania Public Utility Commission, Bureau of Investigation and Enforcement v. Columbia Gas*, Docket No. M-2022-3012079, stating that the Commission's "assessment of the benefits of the terms and conditions meeting the criteria of what is in the public interest need not be quantifiable," and judgment of what is in the public interest requires exercise of informed judgment and consideration of the various interests and concerns of the stakeholders involved.

The enhanced procedural measures to be taken by PPL and as detailed in the terms of settlement exemplify the unparalleled effort put into this Settlement by the Parties to enhance the safe, efficient and economical service provided by the Company. These measures include PPL's obligation to revise its back-office processes, evaluate bill estimation formula, create additional internal daily control reports, develop meter data processing work arounds and enriching MDMS estimations where appropriate.

This Settlement Agreement provides a long-term solution with enhancements that go well beyond finding a violation and imposing a fine. The Parties to this Settlement identified the problem areas, analyzed the issues and agreed to solutions created by PPL to improve its billing processes going forward.

III. Terms of Settlement

I&E and PPL, intending to be legally bound thereby, desire to fully and finally conclude this investigation and agree that a Commission Order approving the Settlement without modification shall create the following rights and obligations:

PPL shall pay a civil penalty in the amount of One Million Dollars (\$1,000,000) pursuant to 66 Pa.C.S. § 3301. Said payment shall be made within thirty (30) days of the entry date of the Commission's Final Order approving the Joint Petition for Approval of Settlement in this matter and shall be made by certified check or money order payable to the "Commonwealth of Pennsylvania." The docket number of this proceeding shall be indicated on the certified check or money order and the payment shall be sent to:

Rosemary Chiavetta, Secretary
 Pennsylvania Public Utility Commission
 Commonwealth Keystone Building
 400 North Street
 Harrisburg, PA 17120

PPL agrees that the civil penalty shall not be tax deductible pursuant to Section 162(f) of the Internal Revenue Code, 26 U.S.C.S. § 162(f).

PPL has voluntarily taken several notification and corrective actions in response to the billing issues:

1) PPL provided information to BCS of the billing issues it was experiencing due to the MDMS-CSS meter data transfer failure;

2) Additionally, PPL provided periodic updates to the Office of Consumer Advocate, Office of the Small Business Advocate, and the Pennsylvania Utility Law Project;

3) After identifying the impacted accounts, PPL conducted outreach to all of the affected customers;

4) These outreach efforts included the following:

(a) Starting December 18, 2022, PPL customer service representatives were provided with talking points to answer customer questions about the estimated bills;

(b) On January 31, 2023, PPL sent a letter via regular mail and e-mail to all customers from its then-President, explaining the estimated bills and higher energy prices. At this time, PPL also launched a dedicated landing page on its website to address bill questions, this messaging was updated regularly with content, including bill explainer videos, information on understanding higher energy costs, and direct access to assistance programs and bill support. The Company directed customers to this information from its social media channels, media relations, customer emails, and digital newsletters;

(c) Starting on February 10, 2023, the Company sent a letter to the first group of customers who would have their bills canceled and rebilled because the original bill did not include or only included partial supplier charges. This letter was sent to the subsequent groups of customers who would have their bills canceled and rebilled on February 16, 2023, March 18, 2023, and April 10, 2023;

(d) On February 23, 2023, the Company sent a letter to customers who had not received a bill since the beginning of the billing issue;

(e) Beginning in January 2023, PPL provided periodic updates to electric generation suppliers ("EGSs") through the Company's Supplier Portal; and

(f) In March and April 2023, PPL held two customer outreach workshops in conjunction with local legislators to provide one on one support to senior citizens with bill questions.

5) PPL provided BCS with regular updates and responded to inquiries on the billing issues and the Company's progress in resolving them;

6) The Company instituted or is in the process of developing a series of practices and protocols to help prevent and insulate the technical issues with the MDMS-CSS data transfer that caused these issues, including:

(a) Revising back-office processes to reduce the number of no-bill and multi-primary bills¹⁰;

(b) Evaluating the formula to calculate estimates to determine if improvements can be made to the estimation process;

(c) Creating internal daily control reports on estimated bills, multi-primary bills, and daily meter read rates and operational metrics;

(d) Developing work arounds to process meter data outside of MDMS when needed; and

(e) Enriching MDMS estimations for scenarios where meter data is missing to reduce the time period estimated.

7) PPL on its own initiative did not terminate electric service for any customers for nonpayment from January 2023 through June 2023;

8) PPL voluntarily waived all late payment fees for January and February 2023;

9) PPL will not seek to collect approximately \$1.7 million from customers who received estimated bills and were underbilled due to the application of the incorrect rates in the bills that trued up the estimated billing periods;

10) PPL refunded, through a one-time line-item credit, approximately \$1.0 million to customers who received estimated bills and were overbilled due to the application of the incorrect rates in the bills that trued up the estimated billing periods;

11) PPL engaged external vendors, and incurred additional expense, to provide call center support, assist with customer complaints, help with back-office billing, and assist with customer communications in 2023; and

12) PPL authorized significant overtime for employees to provide call center support in 2023.

Upon Commission approval by Final Order of the Settlement, in its entirety without modification, I&E acknowledges and confirms that PPL is released from all past claims that were made or could have been made by the Commission for monetary and/or other relief based on allegations that the Company failed to comply with the allegations that are the subject of the instant I&E informal investigation.

The benefits and obligations of the Settlement Agreement noted therein and in conjunction with this Statement is in the public interest. The Parties have meticulously negotiated details regarding improvements in Company procedures. In entering this Settlement, it is I&E's position that the Company has taken extraordinary measures to respond with corrective actions to avert a similar billing issue in the future and is poised to implement or has implemented the necessary procedures for the betterment of the general public, its customers and employees.

I&E reiterates here that approval of the Settlement Agreement is in the public interest and is fully consistent with the Commission's Policy Statement for evaluating

¹⁰ A "multi-primary" bill is a bill that contains charges for more than one billing period.

litigated and settled proceedings involving violations of the Code and Commission regulations. 52 Pa. Code § 69.1201. The Commission will serve the public interest by approving this Joint Petition for Approval of Settlement without modification. It is the Commission's long-standing policy to promote settlements. See 52 Pa. Code § 5.231. Settlements lessen the time and expense that the parties must expend litigating a case and, at the same time, conserve precious administrative resources. Settlement results are often preferable to those achieved at the conclusion of a fully litigated proceeding. "The focus of inquiry for determining whether a proposed settlement should be recommended for approval is not a 'burden of proof' standard, as is utilized for contested matters." *Pa. Pub. Util. Comm'n, et al. v. City of Lancaster—Bureau of Water*, Docket Nos. R-2010-2179103, et al. (Order entered July 14, 2011). Instead, the benchmark for determining the acceptability of a settlement is whether the proposed terms and conditions are in the public interest. *Pa. Pub. Util. Comm'n v. Philadelphia Gas Works*, Docket No. M-00031768 (Order entered January 7, 2004).

I&E submits that approval of the Settlement Agreement in the above-captioned matter is consistent with the Commission's Policy Statement regarding Factors and Standards for Evaluating Litigated and Settled Proceedings Involving Violations of the Public Utility Code and Commission Regulations ("Policy Statement"), 52 Pa. Code § 69.1201; see also *Joseph A. Rosi v. Bell-Atlantic-Pennsylvania, Inc.*, Docket No. C-00992409 (Order entered March 16, 2000). The Commission's Policy Statement sets forth ten (10) factors ("Rosi factors") that the Commission may consider in evaluating whether a civil penalty for violating a Commission order, regulation, or statute is appropriate, as well as whether a proposed settlement for a violation is reasonable and in the public interest. 52 Pa. Code § 69.1201.

It is important to note that the Commission will not apply the Rosi factors as strictly in settled cases as in litigated cases. 52 Pa. Code § 69.1201(b). While many of the same factors may still be considered, *in settled cases, the parties "will be afforded flexibility in reaching amicable resolutions* to complaints and other matters as long as the settlement is in the public interest." *Id.* (emphasis added). By the filing of this Joint Petition for Approval of Settlement, I&E and PPL have declared that they have in good faith negotiated an amicable resolution that benefits the public, the Parties and this Commission. I&E asks that the Commission acknowledge and accept this flexibility when considering the terms and conditions painstakingly negotiated and entered into in this Settlement.

The first *Rosi* factor considers whether the conduct at issue was of a serious nature, such as fraud or misrepresentation, or if the conduct was less egregious, such as an administrative or technical error. Conduct of a more serious nature may warrant a higher civil penalty while conduct that is less egregious warrants a lower amount. 52 Pa. Code § 69.1201(c)(1). I&E acknowledges that the billing error in question may be deemed a software glitch which would seem to be a matter not, in and of itself, of a serious nature. However, the programming glitch here had a domino effect over the Company's entire billing system, which led to consequences that severely impacted the Company's customer billing process and thus its customers directly. These consequences will be addressed in the second *Rosi* factor, *infra*.

Despite the thought at first blush that a billing system malfunction would not rise to the level of a matter deemed to be of a serious nature, the resulting domino

effect impacted one Billing Group to the next combined with exigent errors that exacerbated the intensity and longevity of the problem. While acknowledging that no personal injury or property damage occurred as a result of this billing issue, I&E considers the conduct at issue to be of a serious nature, and this was taken into consideration in arriving at the agreed-to civil penalty and remedial measures set forth in the Settlement.

The second factor considers whether the resulting consequences of the PPL billing system malfunction were of a serious nature. When consequences of a serious nature are involved, such as personal injury or property damage, the consequences may warrant a higher penalty. 52 Pa. Code § 69.1201(c)(2). Here, while the issue at hand did not directly result in personal injury or property damage, the resulting impact of the billing issue to customers was widespread, the duration of which extended nearly a year until completely resolved. I&E considers the consequences of the conduct at issue to be of a serious nature, which are reflected in the terms and conditions of settlement.

The third factor to be considered under the Policy Statement is whether the alleged conduct was intentional or negligent. 52 Pa. Code § 69.1201(c)(3). "This factor may only be considered in evaluating litigated cases." *Id.* Whether PPL's alleged conduct was intentional or negligent does not apply here since this matter is being resolved by settlement of the Parties.

The fourth factor to be considered is whether PPL has made efforts to change its practices and procedures to prevent similar conduct in the future. 52 Pa. Code § 69.1201(c)(4). As noted in the Joint Petition, since the issue was first discovered by the Company, PPL has taken extraordinary strides in implementing new processes and improvements to existing procedures in order to safeguard a repeat occurrence of this billing system malfunction.

The fifth factor to be considered relates to the number of customers affected by the Company's actions and the duration of the violations. 52 Pa. Code § 69.1201(c)(5). The large number of customers impacted by this event combined with the extended number of months that passed before the Company was able to completely resolve the issue weighs in favor of the proposed civil penalty.

The sixth factor to be considered relates to the compliance history of PPL. 52 Pa. Code § 69.1201(c)(6). An isolated incident from an otherwise compliant company may result in a lower penalty whereas frequent, recurrent violations by a jurisdictional entity may warrant a higher penalty. Here, a review of PPL's compliance history with the Commission reveals that this billing matter is an isolated event. PPL's compliance history, especially as it relates to the lack of billing violations that are the subject of the instant Settlement, was considered in arriving at the agreed-upon civil penalty and remedial measures in this matter.

The seventh factor to be considered relates to whether the Company cooperated with the Commission's investigation. 52 Pa. Code § 69.1201(c)(7). PPL has cooperated with I&E's investigation in order to address the violations alleged as a result of the billing issue. Together, the Parties have agreed on procedural enhancements without the need for litigation. The Parties further determined that it was in their respective best interest, as well as in the public interest, to settle this matter and to reach an amicable agreement as to an appropriate civil penalty

amount that adequately balances all the relevant interests under the circumstances of this case and given the capital expenditures realized or anticipated to be realized as a result of the non-monetary remedial measures to be implemented by the Company. A fair and equitable civil penalty has been reached in this Settlement Agreement without the need to pursue formal enforcement action.

The eighth factor to be considered is the appropriate civil penalty necessary to address the instant matter and to deter future violations. 52 Pa. Code § 69.1201(c)(8). I&E submits that the negotiated civil penalty amount of \$1,000,000, which is not tax deductible, and which cannot be recouped from its ratepayers is a fair, substantial and sufficient result to find that this Settlement Agreement is in the public interest.

The ninth factor to be considered relates to past Commission decisions in similar situations. 52 Pa. Code § 69.1201(c)(9). I&E submits that the instant Settlement Agreement should be viewed on its own merits and is fair and reasonable. I&E is not aware of any other matter involving a billing issue of this magnitude, but the instant Settlement is consistent with past Commission actions in that a civil penalty will be paid and corrective actions will be performed to address the alleged violations.

The tenth factor considers “other relevant factors.” 52 Pa. Code § 69.1201(c)(10). In support of the \$1,000,000 civil penalty, I&E again notes the depth and detail to which the Company has agreed to implement procedural enhancements that address this matter and should improve service to all customers throughout the Company’s service territory. Given the fair civil penalty to be paid by PPL and the corrective measures agreed to by the

Company, there is simply no benefit to delaying the implementation of such procedural enhancements and proceeding to litigation or seeking a more significant monetary penalty.

In conclusion, I&E fully supports the terms and conditions of the Settlement Agreement. The terms of the Settlement Agreement reflect a carefully balanced compromise of the interests of the Parties in this proceeding. PPL has agreed to pay a fair civil penalty as part of this Settlement Agreement and, more importantly, has or will implement enhancements to its procedures that will benefit all customers in its service territory and the public in general. Accordingly, approval of this Settlement Agreement without modification is in the public interest.

Wherefore, I&E supports the Settlement Agreement as being in the public interest and respectfully requests that the Commission approve the terms of the Joint Petition in their entirety without modification.

BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION

Investigation of PPL Electric Utilities :
 Corporation for potential violations of :
 52 Pa. Code § 56.1, et seq., of the Commission’s : Docket No. M-2023-3038060
 regulations and 66 Pa.C.S. § 1501 of the :
 Public Utility Code :

PPL ELECTRIC UTILITIES CORPORATION’S
STATEMENT IN SUPPORT OF THE SETTLEMENT
TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

I. Introduction

PPL Electric Utilities Corporation (“PPL Electric” or the “Company”) hereby submits this Statement in Support of the Settlement (“Settlement”) entered into by PPL Electric and the Pennsylvania Public Utility Commission’s (“Commission”) Bureau of Investigation and Enforcement (“I&E”). The Settlement, if approved, resolves all issues in the above-captioned proceeding, which concerned I&E’s investigation into the alleged billing and customer service issues that stemmed from a failure of the customer meter data transferring from the Company’s meter data management system (“MDMS”) to its customer service system (“CSS”) for certain customers and resulted in many customers receiving estimated bills or no bills (hereinafter, “Billing Issues”).

PPL Electric provides electric distribution, transmission, and provider of last resort services to approximately

1.4 million customers in a certificated service territory that spans approximately 10,000 square miles in all or portions of 29 counties in eastern and central Pennsylvania. PPL Electric is a “public utility” and an “electric distribution company” as those terms are defined under the Pennsylvania Public Utility Code, 66 Pa.C.S. §§ 102 and 2803.

On or about February 1, 2023, I&E initiated an informal investigation into PPL Electric concerning the Company’s Billing Issues. The parties exchanged information throughout this informal investigation and engaged in settlement negotiations. As a result of those efforts, the parties were able to achieve a Settlement of all issues prior to any Formal Complaint being filed by I&E. Under this Settlement, PPL Electric has made commitments to resolve the Billing Issues and help prevent them from occurring in the future. Moreover, the Settlement obviates the need for I&E, PPL Electric, and the Commission to devote substantial time and resources to a litigated Formal Complaint proceeding. For these reasons and as set forth below, the Settlement is just and reasonable and should be approved without modification.

II. Commission Policy Favors Settlement

Commission policy promotes settlements. See 52 Pa. Code § 5.231(a). Settlements lessen the time and expense the parties must expend litigating a case and, at the same time, conserve administrative resources. The Commission has indicated that settlement results are often preferable to those achieved at the conclusion of a fully litigated proceeding. See 52 Pa. Code § 69.401. To approve a settlement, the Commission must determine that the proposed terms and conditions are in the public interest. *Pa. P.U.C. v. Peoples TWP LLC*, Docket Nos. R-2013-23355886, *et al.* (Order entered Dec. 19, 2013); *Warner v. GTE North, Inc.*, Docket No. C-00902815 (Order entered Apr. 1, 1996); *Pa. P.U.C. v. C.S. Water and Sewer Assocs.*, 74 Pa. P.U.C. 767, 771 (1991). For the reasons set forth in this Statement in Support, PPL Electric believes that the Settlement is just and reasonable and is in the public interest. Therefore, the Settlement should be approved without modification.

III. The Settlement is in the Public Interest

The Commission should approve the Settlement without modification because the Settlement's terms and conditions are just and reasonable and in the public interest. This Settlement was achieved by the parties after a thorough investigation by I&E into the Company's Billing Issues. The Settlement represents a fair and reasonable compromise and adequately reflects: (1) the Company's cooperation in I&E's informal investigation; and (2) PPL Electric's commitment to resolve the Billing Issues and take steps to prevent them from occurring in the future.

Further, as stated in Paragraph 41 of the Settlement, I&E has agreed that the Settlement is in the public interest, "effectively addresses I&E's allegations of billing procedure violations that were the subject of the I&E's informal investigation," and "avoids the time and expense of litigation, which entails hearings and the preparation and filing of briefs, exceptions, reply exceptions, as well as possible appeals." (Settlement ¶ 41.) In exchange for stipulating to these terms and conditions, I&E has agreed to conclude its informal investigation and not institute any Formal Complaint related to these issues. (See Settlement ¶ 40.)

A. Civil Penalty

Under Paragraph 38(a) of the Settlement, PPL Electric will pay a civil penalty of \$1.0 million to "fully and finally resolve all possible claims of alleged violations of the Public Utility Code and the Commission's regulations in connection with" the Billing Issues." (Settlement ¶ 38(a).) "The civil penalty shall not be tax deductible pursuant to Section 162(f) of the Internal Revenue Code, 26 U.S.C.S. § 162(f) or passed through as an additional charge to [the Company's] customers in Pennsylvania." (Settlement ¶ 38(a).) PPL Electric's payment of this civil penalty will "be made within thirty (30) days of the date of the Commission's Final Order approving the Settlement Agreement and shall be made by certified check or money order made payable to the 'Commonwealth of Pennsylvania' and sent to: Rosemary Chiavetta, Secretary Pennsylvania Public Utility Commission Commonwealth Keystone Building 400 North Street Harrisburg, PA 17120." (Settlement ¶ 38(a).)

PPL Electric fully acknowledges the impact that the Billing Issues had on the affected customers as well as the need to prevent those issues from arising in the future. The agreed-upon civil penalty amount reflects both the serious nature of the Billing Issues, balanced

against the Company's: (1) cooperation with I&E's informal investigation; and (2) the Company's steps to address these technical issues and other corrective actions.

In fact, as set forth in Paragraph 38(b) of the Settlement, PPL Electric has voluntarily taken several notification and corrective actions in response to the Billing Issues:

a) PPL Electric provided information to the Commission's Bureau of Consumer Services ("BCS") of the billing issues it was experiencing due to the MDMS—CSS meter data transfer failure;

b) Additionally, PPL Electric provided periodic updates to the Office of Consumer Advocate, Office of the Small Business Advocate, and the Pennsylvania Utility Law Project;

c) After identifying the impacted accounts, PPL Electric conducted outreach to all of the affected customers;

d) These outreach efforts included the following:

(i) Starting December 18, 2022, PPL Electric customer service representatives were provided with talking points to answer customer questions about the estimated bills;

(ii) On January 31, 2023, PPL Electric sent a letter via regular mail and e-mail to all customers from its then-President, Stephanie Raymond, explaining the estimated bills and higher energy prices. At this time, PPL Electric also launched a dedicated landing page on its website to address bill questions, this messaging was updated regularly with content, including bill explainer videos, information on understanding higher energy costs, and direct access to assistance programs and bill support. The Company directed customers to this information from its social media channels, media relations, customer emails, and digital newsletters;

(iii) Starting on February 10, 2023, the Company sent a letter to the first group of customers who would have their bills canceled and rebilled because the original bill did not include or only included partial supplier charges. This letter was sent to the subsequent groups of customers who would have their bills canceled and rebilled on February 16, 2023, March 18, 2023, and April 10, 2023;

(iv) On February 23, 2023, the Company sent a letter to customers who had not received a bill since the beginning of the billing issue;

(v) Beginning in January 2023, PPL Electric provided periodic updates to electric generation suppliers ("EGSs") through the Company's Supplier Portal; and

(vi) In March and April 2023, PPL Electric held two customer outreach workshops in conjunction with local legislators to provide one on one support to senior citizens with bill questions.

e) PPL Electric provided BCS with regular updates and responded to inquiries on the billing issues and the Company's progress in resolving them;

f) The Company instituted or is in the process of developing a series of practices and protocols to help prevent and insulate the technical issues with the MDMS-CSS data transfer that caused these issues, including:

(i) Revising back-office processes to reduce the number of no-bill and multi-primary bills¹¹;

¹¹ A "multi-primary" bill is a bill that contains charges for more than one billing period. See Section 1 of Appendix C for additional information about the Company's revisions to its back-office processes to reduce the number of no-bill and multi-primary bills.

(ii) Evaluating the formula to calculate estimates to determine if improvements can be made to the estimation process¹²;

(iii) Creating internal daily control reports on estimated bills, multi-primary bills, and daily meter read rates and operational metrics¹³;

(iv) Developing work arounds to process meter data outside of MDMS when needed¹⁴; and

(v) Enriching MDMS estimations for scenarios where meter data is missing to reduce the time period estimated.¹⁵

g) PPL Electric on its own initiative did not terminate electric service for any customers for nonpayment from January 2023 through June 2023;

h) PPL Electric voluntarily waived all late payment fees for January and February 2023;

i) PPL Electric is owed but will not seek to collect approximately \$1.7 million from customers who received estimated bills and were underbilled due to the application of the incorrect rates in the bills that trued up the estimated billing periods;

j) PPL Electric refunded, through a one-time line-item credit, approximately \$1.0 million to customers who received estimated bills and were overbilled due to the application of the incorrect rates in the bills that trued up the estimated billing periods;

k) PPL Electric engaged external vendors, and incurred additional expense, to provide call center support, assist with customer complaints, help with back-office billing, and assist with customer communications in 2023; and

l) PPL Electric authorized significant overtime for employees to provide call center support in 2023.

Moreover, PPL Electric incurred significant costs when responding to the Billing Issues to help mitigate customer impacts, including, but not limited to: (1) experiencing approximately \$2.3 million loss of revenue from voluntarily waiving late fees; (2) incurring approximately \$7.8 million of additional bad debt expense arising out of the voluntary service termination moratorium; (3) forgoing collection of approximately \$1.7 million from customers who were underbilled in the estimation true-up process; (4) incurring an additional approximately \$3.7 million of unplanned costs in engaging external vendors; and (5) incurring approximately \$700,000 of unbudgeted employee overtime expense (totaling approximately \$16.2 million in mitigation costs). (Settlement ¶ 38(c).) Critically, under the Settlement, PPL Electric has agreed not to recover any of these mitigation costs from Pennsylvania consumers by any future proceeding, device, or manner whatsoever. (Settlement ¶ 38(c).)

Furthermore, when evaluating litigated and settled proceedings involving alleged violations of the Public Utility Code and the Commission's regulations, the Commission considers a series of factors and standards to determine whether the civil penalty is adequate. Those factors and standards are the following:

(1) Whether the conduct at issue was of a serious nature. When conduct of a serious nature is involved, such as willful fraud or misrepresentation, the conduct may warrant a higher penalty. When the con-

duct is less egregious, such as administrative filing or technical errors, it may warrant a lower penalty.

(2) Whether the resulting consequences of the conduct at issue were of a serious nature. When consequences of a serious nature are involved, such as personal injury or property damage, the consequences may warrant a higher penalty.

(3) Whether the conduct at issue was deemed intentional or negligent. This factor may only be considered in evaluating litigated cases. When conduct has been deemed intentional, the conduct may result in a higher penalty.

(4) Whether the regulated entity made efforts to modify internal practices and procedures to address the conduct at issue and prevent similar conduct in the future. These modifications may include activities such as training and improving company techniques and supervision. The amount of time it took the utility to correct the conduct once it was discovered and the involvement of top-level management in correcting the conduct may be considered.

(5) The number of customers affected and the duration of the violation.

(6) The compliance history of the regulated entity which committed the violation. An isolated incident from an otherwise compliant utility may result in a lower penalty, whereas frequent, recurrent violations by a utility may result in a higher penalty.

(7) Whether the regulated entity cooperated with the Commission's investigation. Facts establishing bad faith, active concealment of violations, or attempts to interfere with Commission investigations may result in a higher penalty.

(8) The amount of the civil penalty or fine necessary to deter future violations. The size of the utility may be considered to determine an appropriate penalty amount.

(9) Past Commission decisions in similar situations.

(10) Other relevant factors. 52 Pa. Code § 69.1201(c)(1)—(10).

52 Pa. Code § 69.1201(c)(1)—(10).

Here, the Commission's factors and standards weigh in favor of the agreed-upon civil penalty. First, the Company did not engage in willful fraud or misrepresentation that may warrant a higher civil penalty. See *id.* § 69.1201(c)(1). Indeed, at their crux, the Billing Issues involved technical errors. (See Settlement ¶ 8.) As noted previously, the Billing Issues stemmed from a failure of the customer meter data transferring from the Company's MDMS to its CSS for certain customers and resulted in many customers receiving estimated bills or no bills.

Second, although PPL Electric fully acknowledges the Billing Issues' impact on the affected customers, PPL Electric's conduct did not result in personal injury, property damage, or any similar consequence of a similar nature that may warrant a higher civil penalty. See 52 Pa. Code § 69.1201(c)(2). The Company also took steps to address the Billing Issues' impact on the affected customers, including: (1) voluntarily waiving all late payment fees for January and February 2023; (2) voluntarily instituting a service termination moratorium for all customers from January 2023 to June 2023; (3) not seeking to collect approximately \$1.7 million from customers who received estimated bills and were underbilled due to the application of the incorrect rates in the bills that trued up

the estimated billing periods; and (4) refunding, through a one-time line-item credit, approximately \$1.0 million to customers who received estimated bills and were over-billed due to the application of the incorrect rates in the bills that trued up the estimated billing periods. (See Settlement ¶ 38(c).)

Third, PPL Electric made significant efforts to modify internal practices and procedures to address the conduct at issue and prevent similar conduct in the future. See 52 Pa. Code § 69.1201(c)(4). As explained previously, PPL Electric instituted or is in the process of developing a series of practices and protocols to help prevent and insulate the technical issues with the MDMS-CSS data transfer that caused these issues, including: (1) revising back-office processes to reduce the number of no-bill and multi-primary bills; (2) evaluating the formula to calculate estimates to determine if improvements can be made to the estimation process; (3) creating internal daily control reports on estimated bills, multi-primary bills, and daily meter read rates and operational metrics; (4) developing work arounds to process meter data outside of MDMS when needed; and (5) enriching MDMS estimations for scenarios where meter data is missing to reduce the time period estimated. (See Settlement ¶ 38(b)(6); Settlement, Appx. C.)

Fourth, PPL Electric believes that its compliance history weighs in favor of the agreed-upon civil penalty and that the incidents at issue are an isolated incident from an otherwise compliant utility. See 52 Pa. Code § 69.1201(c)(6). Also, PPL Electric's significant steps to prevent the Billing Issues from occurring in the future should help maintain or improve the Company's compliance history.

Fifth, PPL Electric fully cooperated with I&E's investigation and has been transparent with stakeholders and the affected customers. See *id.* § 69.1201(c)(7). The Company never engaged in bad faith, active concealment of violations, or attempts to interfere with I&E's investigation. Moreover, PPL Electric provided BCS with regular updates and responded to inquiries on the Billing Issues and the Company's progress in resolving them. (See Settlement ¶ 38(b)(5).) The Company also provided periodic updates to the Office of Consumer Advocate, Office of the Small Business Advocate, and the Pennsylvania Utility Law Project. (See Settlement ¶ 38(b)(2).) Further, PPL Electric conducted significant outreach to the affected customers. (See Settlement ¶ 38(b)(3)-(4).)

Sixth, the amount of the agreed-upon \$1.0 million civil penalty is more than sufficient to deter future violations. See 52 Pa. Code § 69.1201(c)(8). As noted above, PPL Electric incurred a total of approximately \$16.2 million when responding to the Billing Issues to help mitigate customer impacts, and the Company will not recover any of those costs from consumers. (See Settlement ¶ 38(c).) Even without the \$1.0 million civil penalty, PPL Electric has more than enough incentive to help prevent the Billing Issues from occurring in the future.

For these reasons, although the Billing Issues affected a large amount of PPL Electric's customers,¹⁶ the Commission's factors and standards for evaluating civil penalties, on balance, weigh in favor of the agreed-upon civil penalty of \$1.0 million. Thus, the Settlement's terms and conditions are just and reasonable and in the public interest, and the Commission should approve them without modification.

¹⁶ See 52 Pa. Code § 69.1201(c)(5).

IV. Conclusion

Wherefore, for the reasons explained above, and those set forth in the Settlement, the terms and conditions of the Settlement are just and reasonable and in the public interest, and the Pennsylvania Public Utility Commission should approve the Settlement without modification.

Appendix C

The Company instituted or is in the process of developing a series of practices and protocols to help prevent and insulate the technical issues with the MDMS-CSS data transfer that caused these issues, including:

1. *Revising back-office processes to reduce the number of no-bill and multi-primary bills.*

Preventing No Bills:

- PPL Electric created a report of accounts without meters on hold, adjusted bill review criteria to prevent unnecessary billing suspensions, and has been analyzing service orders that are preventing customer accounts from billing, such as:

- Stale meter report;
- Trouble calls;
- Field orders;
- Service work orders; and
- Meter changes.

Preventing Multi-Primary Bills:

- The Company updated the contact center practice to no longer allow back-office billers to bill aged no-bills as multi-primary. The updated process requires billing to be done month by month.

- The Company established a process that prevents inaccurate billing with multi-primary bills. These bills are automatically placed in "pull-bill" status and are not released to the customer until they are reviewed and approved.

- A report is generated daily showing all multi-primary bills that must be reviewed. If the multi-primary bill caused incorrect billing, the bill is canceled. The account can then be rebilled monthly.

2. *Evaluating the formula to calculate estimates to determine if improvements can be made to the estimation process.*

This evaluation is in progress, including prioritizing MDMS estimation over CSS estimation. The goal of this evaluation is to look for ways to minimize the use of estimated bills, but when it is necessary to estimate, to have a process that produces as accurate as possible estimates. This analysis will include consideration of how estimated bills impact budget billing customers. If and when the estimated billing formula is updated, PPL Electric can provide BCS with an explanation of how the new formula may affect budget billing customers.

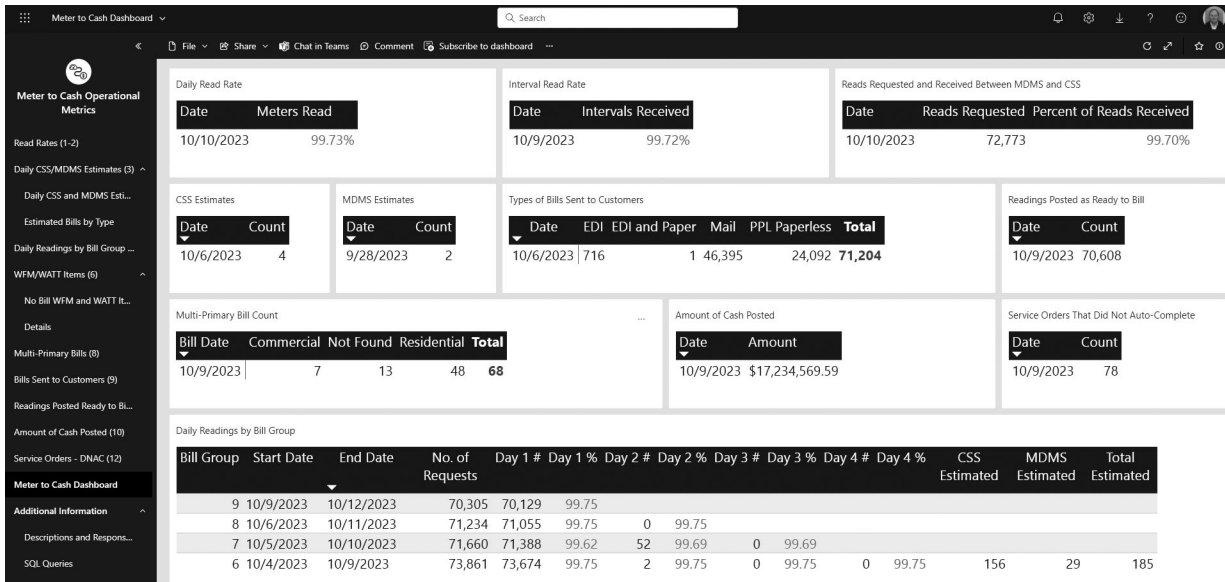

3. *Creating internal daily reports on estimated bills, multi-primary bills, and daily meter read rates and operational metrics.*

The Company has created a meter to cash controls dashboard that provides visibility and alerts for the meter to cash process and system health. In addition to the dashboard providing visibility, an action plan is being developed for each control in the event a value is out of

range, i.e., a playbook on how to respond to an event. The following data points are available via the dashboard and/or control reports:

- Meter Read Rates in Command Center—shows daily read rates and interval read rates;
- Number of daily CSS and MDMS estimates;
- Daily estimated bill count—shows estimated bills for current bill groups;
- Daily multi-primary bill count—shows number of multi-primary bills generated;
- Back-office billing work items;
- Reads Requested/Reads Received between MDMS and CSS;
- Collector reading report (P1:LP Snapshot)—shows read rates by AMI collector; and
- Estimated meters report—daily report showing all estimated meters.

A screenshot of the dashboard is provided below:

4. Developing work arounds to process meter data outside of MDMS when needed.

This process was established in response to the billing event earlier this year. The Company now has processes where meter data can circumvent MDMS and be uploaded directly to CSS so that customers can receive bills based on actual meter data. This process will allow the Company to respond more quickly to a similar event where meter data is unable to be ingested by MDMS under normal processes.

5. *Enriching MDMS estimations for scenarios where meter data is missing to reduce the time period estimated.*

This is being evaluated as part of the review of the estimation process. The technical team is assembling a plan that includes CSS updates as well as MDMS updates. Additional enhancements being considered:

- Making bill corrections if an actual read (“replacement read”) is received after an estimated bill is released.
- Postponing estimated bills from being released to allow additional time to collect actual meter reads.
- Implementing a dynamic pre-bill—create accurate multi-primary bills with varying charges across bill periods.
