READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PART VII. ADMINISTRATIVE OFFICE OF PENNSYLVANIA COURTS [204 PA. CODE CH. 211] Judicial Salaries

Pursuant to Article V, Section 10(c) of the Pennsylvania Constitution and Section 1721 of the Judicial Code, 42 Pa.C.S. § 1721, the Supreme Court of Pennsylvania authorizes the Court Administrator to annually obtain and publish in the *Pennsylvania Bulletin* the percentage increase in the Consumer Price Index for the most recent 12-month period and the judicial salaries effective January 1 of the subsequent year, as required by Act 51 of 1995, amending the Public Official Compensation Law, Act of September 30, 1983 (P. L. 160, No. 39), 65 P. S. § 366.1 et seq.

Heretofore, the percentage increase was based upon the change in the September Philadelphia-Wilmington-Atlantic City, PA-NJ-DE-MD, Consumer Price Index for All Urban Consumers (CPI-U) as calculated by the U. S. Department of Labor, Bureau of Labor Statistics. However, the Bureau has determined that, beginning in 1998, this index will be calculated only bimonthly and will not include a calculation for September. Consequently, for 1998 and subsequent years, the percentage increase will be based upon the change in this index for the 12 month period ending in October.

Review and Approval of Projects

AGENCY: Susquehanna River Basin Commission (SRBC)

ACTION: Correcting Amendment

SUMMARY: This document contains a correction to the final regulations, which were published in the Federal Register on Thursday, June 15, 1995 (60 FR 31391). The regulations provided the procedural and substantive rules for SRBC review and approval of water resources projects.

DATES: Effective upon publication in the Federal Register and retroactive on May 11, 1995

SUPPLEMENTARY INFORMATION:

Background

The SRBC adopted a final rule on May 11, 1995 establishing: (1) the scope and procedures for review and approval of projects under Section 3.10 of the Susquehanna River Basin Compact, Pub. L. 91-575; 83 Stat. 1509 et seq. (the Compact); and (2) special standards under Section 3.4(2) of the Compact governing water withdrawals and consumptive use of water. The definitions included in that final rulemaking action were intended to match the definitions provided in the Compact. Because of a typographical transposition, the definition of "project" in the final rule does not match the definition of "project" in Article 1, Section 1.1(7) of the Compact.

Need for Correction

As published, the final regulations contain an error that may prove to be misleading to project applicants and needs to be corrected.

Title 67—TRANSPORTATION

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 105]

Mechanical, Electrical and Electronic Speed-Timing Devices

The Department of Transportation (Department), Bureau of Motor Vehicles (Bureau), by this order adopts an amendment to Chapter 105 (relating to mechanical, electrical and electronic speed-timing devices) to read as set forth in Annex A.

Notice of proposed rulemaking was published at 27 Pa.B. 1821 (April 12, 1997) with an invitation to submit written comments within 30 days of publication. No comments were received by the Department.

Purpose of this Chapter

The purpose of this chapter is to provide rules concerning the calibrating and testing of mechanical, electrical and electronic speed-timing devices by stations appointed by the Department.

Purpose of the Amendment

The purpose of the amendment is to prescribe the method for calibrating and testing electronic devices (radar) which operate in the Ka-Band frequency to assure their accuracy under 75 Pa.C.S. § 3368 (relating to speed timing devices). Historically, the Department does not identify electronic devices (radar) by name in the regulations, but only the method of calibration for particular frequencies and that once the calibration method is approved in the regulations, the Department will list specific electronic devices (radar), by name, in its annual publication in the *Pennsylvania Bulletin* of approved devices and speed-timing calibration stations.

The most significant amendment to this regulation is the inclusion of the test frequencies for calibrating and

testing Ka-Band electronic devices (radar) in § 105.15(a)(3)(iii), (5)(v) and (7)(iii) (relating to calibration).

Additional Modifications to the Proposed Rulemaking

The final-form text of the regulation contains modifications none of which enlarge the scope of this regulation as originally proposed, and thus may be published as final rulemaking. The following represents a summary of the modifications:

Sections 105.15(a)(3)(iii) and (7)(iii) both contain printing errors. In § 105.15(a)(3)(iii) (relating to calibration and the stability test), the last sentence of subparagraph (iii) directs the person doing the calibrating to adjust the frequency of function generator, while observing the frequency counter, to one of three possible bands. This sentence was incorrectly published at 27 Pa.B. 1822, to read as follows: "While observing the frequency counter, adjust frequency of function generator to 1726 Hz (X-Band) [or], § 3961 Hz (K-Band) or 5692 Hz (Ka-Band)." The section symbol before 3961 Hz must be eliminated and the sentence should have read as follows: "While observing the frequency counter, adjust the frequency of function generator to 1726 Hz (X-Band) or 3961 Hz (K-Band) or 5692 Hz (Ka-Band)." Further for clarity and consistency, the Department has deleted, from both the proposed § 105.15(a)(3)(iii) and (7)(iii), the commas within the series since the word "or" eliminates the need for the use of the commas. In § 105.15(a)(7)(iii) subparagraph (iii) directs the person doing the calibrating to activate the four watt signal source, modulated to 100% for one of three bands. This sentence was incorrectly published in 27 Pa.B. 1822, to read as follows: "Activate the 4 watt signal source, modulated at 100%, 1726 Hz (X-Band) or 3961 Hz (K-Band) [or], § 5692 Hz (Ka-Band)." The section symbol before 5692 Hz must be eliminated. Further for clarity, the Department desires that the subparagraph be printed as originally submitted, that is, with the word "or" appearing after each band. Accordingly, the sentence should have read as follows: "Activate the 4 watt signal source, modulated at 100%, 1796 Hz (X-Band) or 3961 Hz (K-Band) or 5692 Hz (Ka-Band)."

Persons and Entities Affected

This final-form regulation affects drivers of motor vehicles, stations which calibrate and test speed-timing devices and the State Police.

Fiscal Impact

This final-form regulation will not impose any increased cost on private persons, speed-timing device calibration and testing stations, or State or local governments. The State Police may incur cost if it elects to purchase an electronic device (radar) which operates in the Ka-Band frequency. There are a few manufacturers that make an electronic device (radar) which operates in the Ka-Band frequency. The cost of one device tested and approved for accuracy by the State Police is priced at approximately \$1,385.

This final-form regulation will not occasion the development of any additional reports or other paperwork requirements.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 31, 1997, the Department submitted a copy of the notice of proposed rulemaking, published at 27 Pa.B. 1821, to the Independent Regula-

tory Review Commission (IRRC) and the Chairpersons of the House and Senate Transportation Committees.

This final-form regulation was deemed approved by the Committees on July 6, 1998. The amendment was deemed approved by IRRC July 9, 1998, in accordance with section 5(g) of the Regulatory Review Act.

Sunset Provisions

The Department is not establishing a sunset date for this regulation, since this regulation is needed to administer provisions required under 75 Pa.C.S. §§ 3368 and 6103 (relating to speed timing devices; and promulgation of rules and regulations by department). This regulation will be continuously monitored for its effectiveness by the Department and the State Police.

Contact Person

The contact person is Barb Tomassini, Bureau of Motor Vehicles, Vehicle Inspection Division, Third Floor, Riverfront Office Center, 1101 South Front Street, Harrisburg, PA 17104, (717) 787-2895.

Authority

This final-form regulation is amended under the authority contained in 75 Pa.C.S. §§ 3368 and 6103.

Findings

The Department finds that:

(1) Public notice of intention to amend the administrative regulation amended by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The amendment of the regulation of the Department in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statutes.

Order

The Department, acting under the authorizing statutes, orders that:

(a) The regulations of the Department, 67 Pa. Code Chapter 105, are amended by amending § 105.15 to read as set forth in Annex A with ellipses referring to the existing text of the regulation.

(b) The Secretary of the Department shall submit this order, and Annex A to the Office of Attorney General and the Office of General Counsel for approval as to legality, as required by law.

(c) The Secretary of the Department shall certify this order, and Annex A, and deposit them with the Legislative Reference Bureau, as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

Secretary

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 61 AND 75]

Delaware River and River Estuary; Endangered, Threatened and Candidate Species

The Fish and Boat Commission (Commission) proposes to amend §§ 61.2 and 75.1—75.3. The Commission is publishing these amendments as a notice of proposed rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The proposed amendments deal with fishing.

A. Effective Date

These proposed amendments will, if approved on final rulemaking, go into effect upon publication of an order adopting the amendments.

B. Contact Person

For further information on the proposed changes, contact Laurie E. Shepler, Assistant Counsel, (717) 657-4546, P. O. Box 67000, Harrisburg, PA 17106-7000. This proposal is available electronically through the Commission's Web site (<http://www.fish.state.pa.us>).

C. Statutory Authority

These proposed amendments are published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. Purpose and Background

The proposed amendments are designed to update, modify and improve Commission regulations pertaining to fishing. The specific purpose of the various amendments is described in more detail under the summary of proposal.

E. Summary of Proposal

(1) *Section 61.2 (relating to Delaware River and River Estuary)*. There is a several hundred foot section of the Lehigh River between the Easton dam and the confluence with the Delaware River where a change in regulations is warranted. Differing seasons, sizes and creel limits on the Delaware River versus the Lehigh River have complicated enforcement of the regulations. The two major problems are with walleye and striped bass where the minimum sizes and creel limits differ. Individuals are catching fish in the Delaware River, which has larger minimum size requirements than the Lehigh River, and are claiming that they caught these fish in that short section of the Lehigh River. In order to provide uniformity for the enforcement officers as well as the angling public, the Commission proposes that the existing Delaware River sizes, seasons and creel limits for all species of fish apply also to this short section of the Lehigh River.

(2) *Sections 75.1—75.3 (relating to endangered species; threatened species; and candidate species)*. The Commission maintains a list of fishes, reptiles, amphibians and aquatic organisms that have declined in distribution and abundance to levels resulting in a determination that these species are endangered, threatened or candidate species in this Commonwealth. These lists have been

developed over the years with the help and judgment of recognized experts on Pennsylvania species, such as the informal fishes advisory committee. This committee is an official Commission committee that makes recommendations to the Commission regarding the species lists.

A multiyear cooperative study involving staff and faculty from the Pennsylvania State University and the Commission by means of funding from the Wild Resource Conservation Fund has resulted in a method of objectively classifying fish species as to their distribution and abundance within this Commonwealth. The number of locations where a species has been found is combined with the number of individuals of that species found at each location to develop a standardized method of ranking the level of endangerment for all species of fish known to occur in this Commonwealth. This cutting-edge work combines the more than 11,000 fish records from the Commission's fisheries management database with those of retired Penn State professor Dr. Edwin Cooper, the Penn State Fish Museum, University of Michigan Museum of Zoology, Cornell University, National Museum of Natural History, Environmental Protection Agency and the Academy of Natural Sciences in Philadelphia. All records were entered into a computer database and converted to Geographic Information System (GIS) data coverages. A ranking system was created to determine the relative rarity of each species of fish found in this Commonwealth.

The results indicate that changes to the current endangered, threatened and candidate lists are necessary. Presently, 46 fish species are listed. The Commission's proposed list includes 33 fish species as Endangered, 16 as Threatened and 12 as Candidate for a total of 61 fish species. This list represents approximately 40% of our native fishes. Four species were taken off the current list either because they were more common than previously believed or because they are now believed to be extirpated. The informal fishes advisory committee met, discussed and concurred with this proposal.

F. Paperwork

The proposed amendments will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The proposed amendments will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendments will impose no new direct costs on the private sector or the general public.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed amendments to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically at regulations@fish.state.pa.us. A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgment of electronic comments is not received by the sender within

2 working days, the comments should be retransmitted to ensure receipt.

Executive Director

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived his right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the Field Office indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Field Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the Field Office indicated above the application.

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management, and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address, telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

HAZARDOUS SITES CLEANUP

Under the Act of October 18, 1988

Interim Response under the Hazardous Sites Cleanup Act

Naginey Quarry Site Armagh Township, Mifflin County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.102—6020.1303) (HSCA) is initiating an interim response at the Naginey Quarry Site (Naginey Site) in Armagh Township, Mifflin County, PA.

The Naginey Site is a 55 acre site located in the Village of Naginey along the south side of Naginey Road approximately 3 miles east of Route 322. The site is located in a rural area bordered on the south and east by agricultural lands, on the west by residential homes, and on the north by a recycling facility and limestone quarry. The battery casings occupy approximately 3 acres of the Naginey Site.

The quarry was originally owned and operated by Johnstown Mining as a limestone quarry. Bethlehem Steel took over Johnstown Mining in 1917. In the 1930s the site was purchased by the Naginey family (Naginey), who continued to lease it to Bethlehem Steel. Although Naginey owned the property, Bethlehem Steel owned the building on the property. Bethlehem Steel sold the building to Krentzmans in 1972, and the 1.7 acre parcel of property was sold by Naginey to Krentzmans.

Krentzmans had leased their property to the Independent Trading Corporation (ITC). ITC operated on the property from 1978 to December 1980. The operational procedures of ITC at the site included breaking of battery casings and/or crushing battery tops, removing the lead, and then stockpiling the cases on the plant yard. ITC also began dumping battery casing on the adjoining part of

the site owned by Charles Naginey, during the late 1970s. Charles Naginey became aware of the dumping, and entered into a lease with ITC.

The Department inspected the Naginey Site in November 1996 and observed piles of discarded battery casings and 122 drums of discarded foundry waste. On December 12, 1996, the Department sampled these substances. Laboratory results of the December 12, 1996, sampling showed the composite sample of five drums to have a total lead level of 3,760 milligrams per kilogram (mg/kg). A soil sample in the battery casing disposal area had total lead levels of 8,150 mg/kg. These levels of lead exceed the regulatory direct contact standard.

The Department proposes a prompt interim response at this site to protect public health and safety or the environment. This determination is based upon the potential and actual exposure threat to soils, sediments, surface water and groundwater posed by the disposed battery casings and drummed waste, and the actual or potential exposure to hazardous substances via inhalation, and/or ingestion.

The Department considered two alternatives: 1.) No action, which would allow the battery casings and drummed waste to remain in place. 2.) Removal of battery casings and drummed waste and arranging for the treatment and/or disposal of these substances at a permitted facility. The Department determined that the no action alternative would not be protective of human health and the environment since the risk of contact with contaminants would remain.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)), and the publication of this notice starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports the Department's decision to perform this action at the site is available for public review and comment. The Administrative Record can be examined from 8 a.m. to 4 p.m. at the Department's Southcentral Regional Office located at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Barbara Faletti at (717) 705-4864. The Administrative Record can also be reviewed at the Armagh Township Municipal Building, 224 College Avenue, Milroy, PA 17063 between the hours of 9 a.m. and 5 p.m.

The Administrative record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* and will remain open for 90 days. Persons may submit written comments regarding this action to the Department before November 1, 1998, by mailing them to Barbara Faletti at the above address.

The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for September 10, 1998, at 7 p.m. at the Armagh Township Municipal Building, 224 College Avenue, Milroy, PA 17063. Persons wishing to present formal oral comment at the hearing should register before 4 p.m., September 4, 1998, by calling Sandra Roderick at (717) 705-4931.

If no person registers to present oral comments, by September 4, 1998, the hearing will not be held. Persons interested in finding out if anyone has registered, and if the hearing will be held, should also contact Sandra Roderick at the same number above. An informational meeting will be held following the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other

accommodation to participate in the proceedings, should call Sandra Roderick at the above number or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

**Mifflin County Recycling Center Site
Armagh Township, Mifflin County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.102—6020.1303) (HSCA) is initiating an interim response at the Mifflin County Recycling Center Site (MCRC Site) in Armagh Township, Mifflin County, PA.

The MCRC Site is approximately 3 miles east of Route 322 in the Village of Naginey, and measures approximately 2.5 acres. This site is bordered on the south by Naginey Road, on the east by agricultural lands and a tributary stream to Honey Creek, on the west by an active limestone quarry, and on the north by a bedrock highwall as a result of limestone quarrying activities.

The MCRC Site supports a masonry block building where recyclables and equipment for the operation of the Mifflin County Recycling Center are stored. Scrap metals and other recyclables are staged on this site. The waste pile is located at the north end of the MCRC Site.

The MCRC Site was originally part of an approximate 200 acre tract owned and operated by Johnstown Mining as a limestone quarry. The property was taken over by Bethlehem Steel in 1917. In the early 1930's the quarry was purchased by the Naginey family, who continued to lease it to Bethlehem Steel. The 2.5 acre tract was then purchased from Charles Naginey by Chris Swyers, owner and operator of Mifflin County Recycling Center, in March 1987. The MCRC Site is used for the operation of a recycling center.

Joe Krentzman and Sons Inc. (Krentzman) owns the 1.7 acre property on the south side of Naginey Road, adjacent to the site. Krentzman had leased the property to the Independent Trading Corporation (ITC). The ITC operated on the property from 1978 to December 1980. During this period ITC disposed of approximately 25 cubic yards of a blue-green foundry waste on the MCRC Site.

On December 12, 1996, the Department sampled the contents of the disposed pile of foundry waste. The foundry sand sample results showed concentrations of lead to be 7120 milligrams per kilogram (mg/kg), copper at 356,000 mg/kg, beryllium at 19.7 mg/kg and arsenic at 112 mg/kg. These inorganic compounds at the concentrations indicated are above regulatory direct contact standards.

The source of the threat at the MCRC Site is from the high inorganic compound levels in the waste pile. Concentrations found at the site pose an actual and potential threat to the public health through ingestion, and inhalation. A threat to the environment also exists through potential impact to the groundwater and migration of lead by wind and water erosion.

The Department proposes a prompt interim response at this site to protect public health and safety of the environment. This determination is based upon the potential and actual exposure threat to soils, sediments, surface water and groundwater posed by the disposed foundry waste and the actual or potential exposure to hazardous substances by inhalation, and/or ingestion.

The Department considered two alternatives: 1.) no action, which would allow the foundry waste to remain in

place. 2.) The removal of foundry waste pile and arranging for the treatment and/or disposal of these substances at a permitted facility. The Department determined that the no action alternative would not be protective of human health and the environment since the risk of contact with contaminants would remain.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)), and the publication of this notice starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports the Department's decision to perform this action at the site is available for public review and comment. The Administrative Record can be examined from 8 a.m. to 4 p.m. at the Department's Southcentral Regional Office located at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Barbara Faletti at (717) 705-4864. The Administrative Record can also be reviewed at the Armagh Township Municipal Building, 224 College Avenue, Milroy, PA 17063 between the hours of 9 a.m. and 5 p.m.

The Administrative record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* and will remain open for 90 days. Persons may submit written comments regarding this action to the Department before November 1, 1998, by mailing them to Barbara Faletti at the above address.

The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for September 10, 1998, at 7 p.m. at the Armagh Township Municipal Building, 224 College Avenue, Milroy, PA 17063. Persons wishing to present formal oral comment at the hearing should register before 4 p.m., September 4, 1998, by calling Sandra Roderick at (717) 705-4931.

of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. Under Act 2, 1995

Preamble 2

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified below, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, a municipality may request that the person identified below, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. AIR QUALITY

Plan Approval and Operating Permit Applications Nonmajor Sources and Modifications

The Pennsylvania Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that the Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121 through 143, the Federal Clean Air Act and regulations adopted under the act.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining

office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity, and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

**SEWAGE FACILITIES ACT
PLAN APPROVAL**

The Department of Environmental Protection has taken actions on municipal requests for Act 537 Plan Approval.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure are also available in Braille or on audio tape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Southeast Regional Office, Sewage Planning Specialist Supervisor, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

The Plan Approval is granted for a revision to the **Official Sewage Facilities Plan of Perkiomen Township, Montgomery County** to provide for:

1. Rerating of the Oaks Wastewater Treatment Facility from 9.06 mgd to 9.17 mgd to benefit Perkiomen Township by an additional 400 edus.
2. Onlot sewage disposal systems will only be allowed in the low-density residential areas, however, where feasible connections to public sewers will be allowed for current onlot users in the defined growth area.
3. Future projected needs of 1,065 edus.

Plan approval is conditioned on further planning to provide for implementation of #3, along with the other municipalities in the Lower Perkiomen Valley Sewer Authority.

The Plan Approval is granted for a revision to the **Official Sewage Facilities Plan of Buckingham Township, Bucks County** to provide for the expansion of the Central Buckingham Township sewage treatment facilities, from their current capacity of 304,000 gpd to 352,825 gpd.

This will be accomplished by:

1. Expansion of the Buckingham Forest lagoon to provide for the storage of 10.5 MG of treated effluent for 90 days. This is to be accomplished by deactivating a 3.5 acre portion of spray field #5 thereby increasing the treatment capacity of the lagoon from 68,000 gpd to 116,825 gpd.
2. The 3.5 acres will be replaced by adding onto spray zone #8 to retain the 47.5 acres of existing spray fields.
3. Installation of a pump and force main to send 200,000 gpd of treated effluent to a storage pond at the Lookaway Golf Course and amending the NPDES permit to allow for a stream discharge from the storage pond to the Lahaska Creek.

Regional Office: Water Management Program Manager, Southcentral Region, 909 Elmerton Ave., Harrisburg, PA 17110.

Windsor Township, Berks County, 730 Monument Rd., Hamburg, PA 19526. The approved plan provided for construction of a .0785 mgd sequencing batch reactor sewage treatment plant and a small diameter pressure sewage collection system. The facilities will serve the Christmas Lake area of the Township and will be privately owned and operated. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

The discussion will involve invited participants from the mining industry, utility industry and groups and agencies with interests in public safety issues. The session is an initial step in the development of technical guidance on identifying situations where DEP should intervene to prevent mining that would result in an imminent hazard to the safety of people in overlying areas.

Questions concerning the agenda or meeting location can be directed to Harold Miller at (717) 783-8845 or email to Miller.Harold@a1.dep.state.pa.us. The agenda for the discussion session will also be available through the Public Participation Center on DEP's World Wide Web site at <http://www.dep.state.pa.us>.

DEPARTMENT OF PUBLIC WELFARE

Notice of Rule Change—Emergency Medical Condition

The Department of Public Welfare (Department) announces that effective July 1, 1998, the Medical Assistance Program is:

1. revising its definition of "emergency admission";
2. adding new definitions of "emergency medical condition" and "emergency medical care";
3. deleting the definitions of "emergency situation" and "emergency accident care"; and
4. deleting Appendix A of Chapter 1221, relating to Clinic and Emergency Room Services.

This Rule Change will be adopted by final rulemaking to 55 Pa. Code Chapter 1101, Section 1101.21; Chapter 1141, Sections 1141.2, 1141.59; Chapter 1150, Section 1150.2; and Chapter 1221, Sections 1221.2, 1221.59.

The Department, in consultation with the Pennsylvania Chapter of the American College of Emergency Physicians and the Hospital and Healthservices Association of Pennsylvania (HAP), is deleting the current definition of an "emergency situation" and replacing it with the definition of "emergency medical condition". The new definition is consistent with the definition included in the Balanced Budget Act of 1997.

The Department is also replacing the definition of "emergency situation" in Section 1141.2 with a definition of "emergency medical care"; deleting the definition of "emergency accident care" and modifying the definition of "emergency medical care" in Section 1221.2; and revising the definition of "emergency admission" in Section 1150.2. In addition, the Department is revising the section on "Non-emergency use of the emergency room" under "Non-compensable services" in Sections 1141.59 and 1221.59.

Because of the unlimited numbers of medical conditions that could constitute an emergency situation, the list of symptoms and diagnoses in Appendix A to Chapter 1221 has become unintentionally restrictive. As a result, the Department is deleting Appendix A and all references to Appendix A throughout the regulations.

Failure to adopt these rule changes may result in recipients being denied emergency room services that are actual emergency situations.

This Rule Change has been reviewed by the Office of General Counsel and the Office of Attorney General.

This Rule Change is made under the Joint Committee on Documents Resolution 1998-1 (2), 28 Pa.B. 2629 (June 6, 1998), and will be in effect for 365 days pending adoption of final rulemaking by the Department.

A copy of this notice is available for review at local county assistance offices throughout the Commonwealth. Interested persons are invited to submit written comments to this notice within 30 days of this publication. Comments should be sent to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Deputy Secretary's Office, Attention: Suzanne Love, Room 515 Health and Welfare Building, Harrisburg, PA 17120.

Persons with a disability may use the AT&T Relay Service by calling 1 (800) 654-5984 (TDD users) or 1 (800)

654-5988 (Voice users). If you require another alternative, please contact Thomas Vracarich at (717) 783-2209.

FEATHER O. HOUSTOUN,
Secretary

Purpose

The purpose of this notice is to:

- 1. add a new definition of "emergency medical condition" and "emergency medical care";
- 2. revise the Medical Assistance definition of "emergency admission";
- 3. delete the definitions of "emergency situation" and "emergency accident care"; and
- 4. relate Appendix A of 55 Pa. Code, Chapter 1221, relating to Clinic and Emergency Room Services.

Scope

This notice applies to all providers enrolled in the Medical Assistance Program, as well as both voluntary and mandatory managed care organizations under contract with the Department.

Background

On August 5, 1997, President Clinton signed the Balanced Budget Act of 1997 (BBA), which included a revised definition of "emergency medical condition." To be consistent with BBA, the Department, in consultation with the Pennsylvania Chapter of the American College of Emergency Physicians and the Hospital and Healthservices Association of Pennsylvania, is deleting the current § 1101.21 definition of an "emergency situation" and replacing it with the definition of "emergency medical condition." Effective July 1, 1998, § 1101.21, relating to definitions, will include the following definition of "emergency medical condition":

Emergency Medical Condition—A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in—

- (i) placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy,
- (ii) serious impairment to bodily functions, or
- (iii) serious dysfunction of any bodily organ or part.

The Department is replacing the definition of "emergency situation" in § 1141.2 with a definition of "emergency medical care"; deleting the definition of "emergency accident care" and modifying the definition of "emergency medical care" in § 1221.2; and revising the definition of "emergency admission" in § 1150.2. In addition, the Department is revising the section on "Non-emergency use of the emergency room" under "Noncompensable services" in §§ 1141.59 and 1221.59.

Because of the unlimited numbers of medical conditions that could constitute an emergency situation, the list of symptoms and diagnoses in Appendix A to Chapter 1221 has become unintentionally restrictive. As a result, the Department is deleting Appendix A and all references to Appendix A throughout the regulations.

Policy

Effective July 1, 1998, Chapter 1101—General Provisions, Chapter 1141—Physicians' Services, Chapter

1150—Medical Assistance Program Payment Policies, and Chapter 1221—Clinic and Emergency Room Services are revised as follows:

[In order to determine whether a medical emergency existed and, therefore, whether benefits for outpatient services in connection with the treatment of the condition are payable on an emergency basis, the following criteria shall be applied:

(i) *Severe symptoms have to occur*—The symptoms must be sufficiently severe to cause a person to seek immediate medical aid. Some symptoms or conditions indicating medical emergency care are listed in Appendix A.

(ii) *Severe symptoms must occur suddenly and unexpectedly*—Subacute symptoms of a chronic condition would not qualify as a medical emergency. However, chronic symptoms that suddenly become severe enough to require immediate intervention would qualify.]

Notice of Rule Change—Increase in Income Limitations

The Department of Public Welfare (Department) announces that effective January 1, 1998, it is implementing the income limitation changes mandated by Section 4732 of the Balanced Budget Act of 1997, Public Law 105-33, enacted August 5, 1997, which amended the Social Security Act at Section 1902(a)(10)(E) (42 U.S.C.A. § 1396a(a)(10)(E)). These changes are implemented in conjunction with existing policy and expand the income limitations for individuals who can apply for full or partial payment of the Medicare Part B premium. Individuals who will qualify for full payment of the Medicare Part B premium are identified as Qualifying Individuals—1 (QI-1s). Individuals who will qualify for a partial payment are identified as QI-2s. This Rule Change will be adopted by final rulemaking omitting proposed to the 55 Pa. Code Chapter 140, Special MA Eligibility Provisions.

These changes affect those individuals who are elderly and/or disabled and are applying for Medical Assistance (MA) under the Healthy Horizons Categorically Needy eligibility requirements. The Department's existing policy provides for Medicare cost-sharing and/or payment of Medicare Part B premiums. Individuals with family income up to 100% of the current Federal Poverty Income Guideline (FPIG) and resources not exceeding twice the aged, blind or disabled (Supplemental Security Income (SSI)-related) resource standard for the appropriate family size qualify for payment of full Medicare deductibles and coinsurance and payment of Medicare Part B premiums. These individuals are identified as Qualified Medicare Beneficiaries (QMBs). Individuals with family income up to 100% of the current FPIG and resources not exceeding \$2,400 for an individual and \$3,200 for a couple qualify for payment of coinsurance and/or deductibles up to the Medicaid rate and payment of Medicare Part B premiums. These individuals are identified as Specified Low-Income Beneficiaries (SLMBs). Individuals with family income which is more than 100% of the FPIG but does not exceed 120% of the current FPIG and resources not

exceeding twice the SSI-related resource standard for the appropriate family size only qualify for payment of Medicare Part B premiums. These individuals are identified as SLMBs.

Individuals with income up to 120% but not exceeding 135% of the current FPIG can qualify for payment of the Medicare Part B premium. This group will be identified as QI-1s. Individuals whose income is at least 135% of the FPIG but not exceeding 175% of the current FPIG and resources not exceeding twice the SSI-related resource standard for the appropriate family size can qualify for partial payment of the Medicare Part B premium. This group will be identified as QI-2s.

The Department is required to implement the mandatory provisions of the Balanced Budget Act of 1997. If the Department does not implement these requirements, the Department risks Federal financial sanctions.

This Rule Change has been reviewed and approved by the Office of General Counsel and the Office of Attorney General.

This Rule Change is made under the Joint Committee on Documents Resolution 1998-1(2), 28 Pa.B. 2629 (June 6, 1998), and will be in effect for 365 days pending adoption of final rulemaking by the Department.

Public comments to this Rule Change may be made for 30 days from the date of publication in the *Pennsylvania Bulletin* by writing to Edward J. Zogby, Acting Director, Bureau of Policy, Office of Income Maintenance, Room 431, Health and Welfare Building, Harrisburg, PA 17120.

Persons with a disability may use the AT&T Relay Service by calling 1 (800) 654-5984 (TDD users) or 1 (800) 654-5988 (Voice users).

FEATHER O. HOUSTOUN,
Secretary

Purpose

To advise County Assistance Offices (CAOs) of changes in the income limitations for those persons who are elderly and/or disabled and applying for, or receiving, Medical Assistance (MA) as either Qualified Medicare Beneficiaries (QMBs) or Specified Low-Income Medicare Beneficiaries (SLMBs) and whose income does not exceed the increased amounts as specified in the Balanced Budget Act of 1997, Public Law 105-33, enacted August 5, 1997.

Background

The Department's existing policy provides for Medicare cost-sharing and/or payment of Medicare Part B premiums. Individuals with family income up to 100% of the current Federal Poverty Income Guidelines (FPIG) and resources not exceeding twice the aged, blind or disabled (Supplemental Security Income (SSI)-related) resource standard for the appropriate family size qualify for payment of full Medicare deductibles and coinsurance and payment of Medicare Part B premiums. These individuals are identified as Qualified Medicare Beneficiaries (QMBs). Individuals with family income up to 100% of the current FPIG and resources not exceeding \$2,400 for an individual and \$3,200 for a couple qualify for payment of coinsurance and/or deductibles up to the Medicaid rate and payment of Medicare Part B premiums. These individuals are identified as Specified Low-Income Medicare Beneficiaries (SLMBs). Individuals with family income which is more than 100% of the FPIG but does not exceed 120% of the current FPIG and resources not exceeding twice the SSI-related resource standard for the

appropriate family size only qualify for payment of Medicare Part B premiums. These individuals are also identified as SLMBs.

Discussion

The Balanced Budget Act of 1997 mandates that there is an expansion in income limitations to qualify for payment of the Medicare Part B premium. Individuals with income up to 120% but not exceeding 135% of the current FPIG can qualify for payment of the Medicare Part B premium. This group will be identified as a Qualifying Individual—1 Group (QI-1). Additionally, the Balanced Budget Act of 1997 provides for a partial payment of Part B Premiums for those individuals whose income is at least 135% of the FPIG but not exceeding 175% of the current FPIG and resources not exceeding twice the SSI-related resource standard for the appropriate family size. This group will be identified as Qualifying Individuals—2 Group (QI-2).

These changes affect those individuals who are elderly and/or disabled and applying for Medical Assistance under the Healthy Horizons Categorically Needy eligibility requirements.

Fiscal Note: 14-NRC-74. No fiscal impact; (8) recommends adoption.

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest are required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to: Mr. Charles W. Alwein, P.E., Chief, Consultant Selection Committee, 7th Floor, Forum Place, 555 Walnut Street, P. O. Box 3060, Harrisburg, Pennsylvania 17105-3060. Note: The Zip Code for express Mailing is 17101-1900.

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 P.M. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporate which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from

being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act, WBEs or combinations thereof).

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information must be packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organizational Chart (one page, one side, maximum size 11" x 17")

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team)

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project.

Under Item 4 of this form, Column A must specify only the number of subconsultant personnel and Column B must specify only the number of prime consultant personnel to be assigned to work on this project reference number. Do *not* include the total personnel for either the subconsultant or prime consultant under Item 4 unless the total personnel are necessary to provide the required work and services.

The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and *each* subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255 must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (For Construction Inspections Services, if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Ac-

quisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Accountant must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

ENVIRONMENTAL QUALITY BOARD

Hazardous Waste Facilities Plan Adoption

At its July 21, 1998, meeting, the Environmental Quality Board adopted an update to the Hazardous Waste Facilities Plan. The update is necessary to satisfy the requirements of the Solid Waste Management Act (act) to provide for the future planning and regulation of hazardous waste. Plan updates must be developed as necessary, but not less than every 5 years. This Plan is the second

update and replaces the last version dated 1992.

The Plan is required to address siting of hazardous waste treatment and disposal facilities, current hazardous waste practices, future hazardous waste facility needs, and source reduction. It also plays a role in the establishment of new hazardous waste management facilities if a Certificate of Public Necessity (CPN) is required. The EQB is empowered by the act to issue a CPN, which overrides zoning and other local restrictions.

The draft of the Plan was approved by the EQB for public comment on September 16, 1997. Notice of its availability was published November 1, 1997, with provisions for a 60-day public comment period, one public meeting and one public hearing. There were five commentators to the draft Plan. The Department of Environmental Protection (DEP) provided a response to each of the comments raised during the public comment period. A copy of DEP's comment and response document is available from the contact person listed at the end of this notice.

The final Plan encourages proper captive management of hazardous waste after all economically feasible source reduction and reclamation technologies are given proper consideration. It concludes that generators in Pennsylvania have adequate commercial treatment and disposal capacity available and that any recovery facility that meets the regulatory test for legitimate use, reclamation or recovery is necessary.

Copies of the Plan

Copies of the final Plan may be obtained from Thomas Hyatt, Division of Waste Minimization and Planning, Bureau of Land Recycling and Waste Management, P. O. Box 8472, Harrisburg, PA 17105-8472, at (717) 787-7382 (or email Hyatt.Thomas@dep.state.pa.us).

INSURANCE DEPARTMENT

Codification of Statutory Accounting Principles

The National Association of Insurance Commissioners (NAIC) adopted the Codification of Statutory Accounting Principles at its March 1998 National Meeting. The adoption of the codified principles successfully concludes an extensive effort begun in 1994 to produce a comprehensive guide to statutory accounting principles for use by insurance departments, insurers and auditors.

The codified principles are not intended to preempt state legislative and regulatory authority but to establish a comprehensive basis of accounting recognized and adhered to in the absence of conflict with, or silence of, state statutes and regulations. The American Institute of Certified Public Accountants determined that it will not be necessary to grant the codified principles status as an *Other Comprehensive Basis of Accounting* and that auditors will be permitted to continue to provide audit

opinions on practices prescribed or permitted by the insurance department of an insurer's state of domicile.

The codified principles will be effective January 1, 2001, and will apply to quarterly financial statements filed as of March 31, 2001. The following types of domestic insurers will be required to adhere to the codified principles in preparing financial statements to be filed with the Pennsylvania Insurance Department.

1. life, accident & health, property & casualty, title, financial guaranty, mortgage guaranty, surety and other insurance companies, associations or exchanges subject to section 320 of The Insurance Company Law (40 P. S. § 443)
2. Pennsylvania Fair Plan under section 206 of The Pennsylvania Fair Plan Act (40 P. S. § 1600.206)
3. State Workmen's Insurance Fund, employers mutual liability associations and other entities subject to section 2 of the act of May 9, 1949, P. L. 1025 (40 P. S. § 1262)
4. Coal and Clay Mine Subsidence Insurance Fund under section 14 of the act of August 23, 1961, P. L. 1068, as amended (52 P. S. § 3214)
5. Joint Underwriting Association under section 809 of the Health Care Services Malpractice Act (40 P. S. § 1301.809)
6. health maintenance organizations under section 11 of the Health Maintenance Organization Act (40 P. S. § 1561)
7. hospital plan corporations and professional health services plan corporations under 40 Pa.C.S. §§ 6125 and 6331
8. risk-assuming PPOs under 31 Pa. Code § 152.21

The NAIC is currently reviewing whether to apply the codified principles to fraternal benefit societies.

The codified principles were adopted as the NAIC's *Accounting Practices and Procedures Manual—version effective January 1, 2001*. The NAIC Accounting Practices and Procedures (EX4) Task Force is responsible for the maintenance of the codified manual. The 1998 version of the *Accounting Practices and Procedures Manual* will be maintained and published until December 31, 2000. The various NAIC task forces and working groups responsible

for changes to NAIC publications resulting from the codified principles (annual statement instructions, instructions for completing Risk Based Capital reports and the like) have been charged to complete their work by December 31, 1999.

The codification materials adopted at the March 1998 meeting are currently available on the NAIC's website at www.naic.org under the Financial Services icon. A hardcopy version of the material will be available in 1999. All NAIC publications will be consistent with the codified principles as of January 1, 2001.

Further information on the NAIC codification project may be obtained by contacting the following NAIC staff:

Jane Kipper, Senior Life Insurance Accountant

The Insurance Department will review Pennsylvania's laws and regulations that may be inconsistent with the codified manual and seek industry comments on whether those laws and regulations should be amended or repealed prior to the January 1, 2001 effective date. Insurers must receive the Department's written approval in order to implement any of the codified principles prior to the January 1, 2001 effective date.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.
