DEPARTMENT OF AGRICULTURE

Agricultural Research Project Contractors

The Department of Agriculture (Department) is soliciting names of research institutions which have an interest in conducting agricultural research from July 1, 2001 to June 30, 2002, and continuing. Institutions which respond will be provided with a preproposal format and a list of research topic areas. Institutions which responded for fiscal year 2000-01 will automatically receive a solicitation and do not need to respond this year. The Department, through a selection process, will decide which projects are to be placed under contract. Interested parties should submit their name, address and telephone number to Fred Wertz, PA Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110, (717) 783-3577.

Pennsylvania Rivers Conservation Registry

The Department of Conservation and Natural Resources (DCNR), Bureau of Recreation and Conservation has approved the "Juniata Watershed Management Plan" and is placing the Juniata River, the river basin and all tributaries covered in the Plan, on the Pennsylvania Rivers Conservation Registry (Registry).

After review of the Plan and other information, the DCNR has determined that the Keystone Rivers Conservation Program requirements have been satisfied and places the following on the Registry:

1. The river basin area of the Juniata River (Bedford, Blair, Cambria, Centre, Franklin, Fulton, Huntingdon, Juniata, Mifflin, Perry, Snyder and Somerset Counties), from the headwaters to its confluence with the Susquehanna River—3,405 square miles.

2. All subwatersheds and tributary streams within the Juniata River Basin.

This action becomes effective February 17, 2001. Projects identified in the Juniata Watershed Management Plan become eligible for implementation, development or acquisition grant funding through the Keystone Rivers Conservation Program.

A copy of the Final Plan is available for review at The Juniata Clean Water Partnership, R.D. 1, P. O. Box 7E, Huntingdon, PA 16652, (814) 627-5082, www.jcwp.org and Department of Conservation and Natural Resources, Rachel Carson State Office Building, 400 Market Street, 6th Floor, Harrisburg, PA 17101, (717) 787-2316.

Maps and supporting data are on file at the Wildlands Conservancy.

Pennsylvania Rivers Conservation Registry

The Department of Conservation and Natural Resources (DCNR), Bureau of Recreation and Conservation has approved the "Tinicum Creek Watershed Conservation Plan" and is placing the Tinicum Creek, the watershed and all tributaries covered in the Plan in Bucks County, on the Pennsylvania Rivers Conservation Registry (Registry).

Tinicum Township, Bucks County, submitted the Tinicum Creek Watershed Conservation Plan and other required information to gain Registry status.

After review of the Plan and other information, the DCNR has determined that the Keystone Rivers Conservation Program requirements have been satisfied and places the following on the Registry:

1. The watershed area of Tinicum Creek (Bucks County), including Rapp Creek, Beaver Creek and Little Tinicum Creek, from the headwaters to its confluence with the Delaware River—17 square miles.

2. All tributary streams within the Tinicum Creek Watershed.

This action becomes effective today, February 17, 2001. Projects identified in the Tinicum Creek Watershed Conservation Plan become eligible for implementation, development or acquisition grant funding through the Keystone Rivers Conservation Program.

A copy of the Final Plan is available for review at Tinicum Township, 163 Municipal Road, Pipersville, PA 18942, (610) 294-9154 and Department of Conservation and Natural Resources, Rachel Carson State Office Building, 400 Market Street, 6th Floor, Harrisburg, PA 17101, (717) 787-2316.

Maps and supporting data are on file at the Tinicum Township Municipal Building.

name, address, and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the Pennsylvania Bulletin at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability, who require an auxiliary aid service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay service at (800) 654-5984.

WATER QUALITY MANAGEMENT PERMITS

CONTROLLED INDUSTRIAL WASTE AND SEWAGE WASTEWATER

APPLICATIONS UNDER THE PENNSYLVANIA CLEAN STREAMS LAW

PART II PERMITS

The following permit applications or requests for plan approval have been received by the Department of Environmental Protection (Department).

Persons wishing to comment on any of the applications are invited to submit a statement to the office noted above the application within 15 days from the date of this public notice. Comments received within this 15-day comment period will be considered in making the final decision regarding the application. The comments should include the name, address, and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department reserves the right to hold a public hearing if the responsible office considers the public response significant. If a hearing is scheduled, a notice of hearing if the responsible office considers the public response significant. If a hearing is scheduled, a notice of hearing will be published in the Pennsylvania Bulletin and a newspaper of general circulation of the area. If no hearing is held, the Department’s Water Management Program Manager will make a final determination regarding the applications after a complete review.

A copy of the permit application or proposed plan is on file in the office indicated and is open to public inspection. Appointments to review the application may be made by contacting Records Management at the indicated telephone number.

WQM Permit No. 5701401. Sewage, Davidson Township Municipal Authority, RR #1 Box 7112, Sonestown, PA 17758.

This proposed facility is located in Davidson Township, Sullivan County.

Description of Proposed Action/Activity: This project involves the installation of a new wastewater collection system and a packaged wastewater treatment plant. The proposed system will include 7,300 feet of 2 and 2 inch gravity collectors, 1,000 feet of laterals, 2,300 feet of 4 and 2 inch force main, three duplex submersible pump stations, two single residence pump stations, and a 24,001 pd WWTP. This application was received in the Northcentral Regional Office on January 17, 2001.

WQM Permit No 6001401. Sewerage, Mifflinburg Borough Municipal Authority, 333 Chestnut Street, Mifflinburg, PA 17844.

This proposed facility is located in Mifflinburg Borough, Union County.

Description of Proposed Action/Activity: In response to new NPDES requirements, Mifflinburg has decided to revert back to chlorine disinfections and add dechlorination between the chlorine contact tank and the aeration tank. The dechlorination system includes a mechanical mixer, mixing tank, diaphragm-metering pumps, piping from the UV building to the mixing tank and wiring as required. It is proposed that a 38% solution of Sodium Bisulfate be used to consume the residual chlorine. The design flow for this facility is 1.40 mgd while it is currently operating at a 5-year average flow of 0.70 mgd. This application was received in the Northcentral Regional Office on January 11, 2001.

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, Pa 15222-4745.

Application No. 0200417. Sewerage, Lisa Pattock, 2029 Old Leechburg Road, New Kensington PA 15068. Application for the construction and operation of a small flow sewage treatment plant to serve the Pattock residence located in Plum Borough, Allegheny County.

Application No. 0299415. Sewerage, West Mifflin Sanitary Sewer Municipal Authority, 1302 Lower Bull Run Road, West Mifflin PA 15122-2902. Application for the construction and operation of a pump station to serve SR 885 located in West Mifflin Borough, Allegheny County.

Application No. 6300405. Sewerage, Matthew Haas, 1344 Mt Morris Road, Waynesburg PA 15370. Application for the construction and operation of a small flow sewage treatment plant to serve the Haas residence located in East Bethlehem Township, Washington County.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

This proposed facility is located in Cambridge Township, Crawford County.

Description of Proposed Action/Activity: This project is for the construction of a single residence sewage treatment plant.

WQM Permit No. 4301404. Sewerage, James L. Powell, 29 Hughey Road, Greenville, PA 16125.

This proposed facility is located in Otter Creek Township, Mercer County.

Description of Proposed Action/Activity: This project is for the construction of a single residence sewage treatment plant.

NPDES Stormwater Individual Permit

The following parties have applied for an NPDES permit to discharge stormwater associated with a construction activity into waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices (BMPs) which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the appropriate Department Regional Office noted above the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address, and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate DEP Regional Office during the 30-day public comment period.

Following the 30-day comment period, the appropriate Regional Office Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the Pennsylvania Bulletin at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the office identified in this notice.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified Regional Office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988
Forge PCE Site, Schuylkill Township, Chester County.

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305), is proposing an interim response at the Forge PCE Site, Schuylkill Township, Chester County, Pennsylvania.

The Department, under the authority of HSCA, has conducted further investigations at the Forge PCE Site (Site), located in Schuylkill Township, Chester County. These investigations have included soil and groundwater sampling at a site formerly occupied by the Forge Cleaning Center located in Phoenixville Borough, Chester County and monitoring of numerous private drinking water supply wells located in Schuylkill Township, Chester County. This monitoring included regular sampling and limited maintenance of six full-house carbon filter units previously installed by Phoenixville Borough. The filters were installed by Phoenixville Borough as a result of investigations of a former Borough Landfill located near the affected residential wells. Studies conducted by the Borough revealed that the Tetrachloroethylene (PCE) contamination in the residential wells was not attributed to the landfill site. Subsequently the Department began its investigation of the Site under HSCA. The Department has identified a plume of contaminated groundwater affecting a number of private wells that supply water for domestic use at several residences along Second Avenue in Schuylkill Township. The contaminant of concern at this site, PCE, is a volatile organic compounds (VOCs) used in the dry cleaning industry. A former dry cleaning business named Forge Cleaning Center, located near the intersection of Starr Street and Nutt Road in Phoenixville Borough is the suspected source of the groundwater contamination. PCE has been detected at concentrations above the Commonwealth of Pennsylvania’s applicable or relevant and appropriate standards in home wells, surface water and sediment. Standards exceeded by PCE included Maximum Contaminant Levels (MCLs) of 5 micrograms per liter (ug/l) for drinking water, adopted by the United States Environmental Protection Agency (EPA) pursuant to the Safe Drinking Water Act (42 U.S.C.A. § 300f) et seq. and by the Pennsylvania Environmental Quality Board pursuant to the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721—721.17). Approximately ten wells are currently known to be affected or threatened by the contamination.

To address the release and threat of release of hazardous substances at the Site, and corresponding threats to human health and the environment, the Department proposes an interim response action at the Site under Sections 501(a) and 505(b) of HSCA. The Department is considering three alternative response actions to provide a long-term source of potable water to residents.

Alternative 1) No Action: The “No Action” alternative provides a baseline against which all other alternatives can be compared. Under Alternative 1 the Department would discontinue monitoring and maintenance of the existing filtration units. If the Department selects the “No Action” alternative, the actual and potential health and environmental risk posed by the Site may worsen over time as the filters become ineffective at removing the contaminant.

Alternative 2) Continued Maintenance of Carbon Filtration Units: Carbon Filtrations is effective for removing PCE from well water. However, Alternative 2 is not a permanent solution because carbon filter units would require many years of ongoing operations and maintenance.

Alternative 3) Connection to a Water Supply System Utility: This alternative involves extension of the existing water supply main and connection of affected and threatened residences to the supply. This remedy would be implemented through a grant to the municipality (Schuylkill Township). This alternative would be a permanent solution, which would address all threats posed by the contaminants of concern to water supply wells in the vicinity of the Site.

In evaluating this alternative to date, the Department has considered the criteria of permanence protection of human health and environment, and the alternative’s ability to meet applicable, or relevant and appropriate state and federal requirements (ARARs). The Department has also considered cost-effectiveness in analyzing the alternatives. The Department finds that the “No Action” alternative would not be protective of the public health. The Department proposes Alternative 3, connection to a public water supply, based on its preference for a permanent solution. In respect of the permanence of the alternative, a public water connection is preferable to carbon filtration of individual wells.

The Department’s proposed alternative, connection to a public water supply, is protective of public health and the environment, complies with ARARs, and is feasible and cost-effective.

An Administrative Record, which contains more detailed information concerning this proposed interim response action, is available for public inspection. The Administrative Record may be examined from 8 a.m. to 4 p.m. at the Department’s office at Lee Park, Suite 6010, 555 North Lane, Conshohocken PA 19428, (610) 832-6000. Those interested in examining the Administrative Record should contact Dustin Armstrong at (610) 832-6206 to arrange for an appointment. An additional copy of the Administrative Record is available for review at the Schuylkill Township Municipal Building, 111 Valley Park Road, Schuylkill Township, Chester County.

A public hearing is scheduled under Section 506(d) of HSCA for March 29, 2001, at 7 p.m. at the Schuylkill Township Municipal Building, 111 Valley Park Road. Persons who wish to present oral comments regarding this interim response may do so by registering with the Department before the meeting. Individuals may register by calling the Department’s Community Relations Coordinator, John Gerdelmann, at (610) 832-6228.
Persons with a disability who wish to attend the March 29, 2001, meeting and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact John Gerdelmann at (610) 832-6228 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs. The public may submit written comments regarding the Department’s proposed interim response action during the period of public comment. In accordance with Section 506(c) of HSCA, the Department has established a period for public comment that is now open and will close on Friday, May 18, 2001. Written comments should be addressed to Dustin A. Armstrong, Project Officer, Pennsylvania Department of Environmental Protection, Lee Park, Suite 6010, 555 North Lane, Conshohocken PA 19428.

Individuals with questions concerning this notice should contact Dustin Armstrong at (610) 832-6206.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995

PREAMBLE

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (53 P.S. §§ 6026.101—6026.908)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the Pennsylvania Bulletin an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(3)(i) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified as proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified below. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NONMAJOR SOURCES AND MODIFICATIONS

The Pennsylvania Department of Environmental Protection (DEP) has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that DEP has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice, and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed document to that person or within 30 days of its publication in the Pennsylvania Bulletin, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the Pennsylvania Bulletin at least 30 days prior to the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the following Regional Office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the Act.

Applications Received and Intent to Issue Operating Permits Under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F (relating to operating permit requirements).

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110.

67-05079: York Building Products Co, Inc. (P. O. Box 1708, York, PA 17405) for a Synthetic Minor Operating Permit for the Thomasville Asphalt Plant in Jackson Township, York County.

28-03029: Cumberland Valley Animal Shelter (2325 County Road, Chambersburg, PA 17201) for a Natural Minor Operating Permit for its animal crematory in Guilford Township, Franklin County.

07-05034: Department of Military & Veterans Affairs (P. O. Box 319 Hollidaysburg, PA 16648) for a Synthetic Minor Operating Permit for the Hollidaysburg Veterans Home in Allegheny Township, Blair County.

PLAN APPROVALS

Applications Received and Intent to Issue Plan Approvals Under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B (relating to plan approval requirements).

Southcentral Region: Air Quality Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

09-00089: American Cremation Services, Inc. (1859 Stout Drive, Warminster, PA 18974) for installation of a crematory in Warwick Township, Bucks County.

46-0035: SmithKline Beecham Pharmaceuticals (709 Swedeland Road, King of Prussia, PA 19406) for a minor operating permit modification to eight tanks in Upper Merion Township, Montgomery County.

46-0210: Cellico Partnership, dba Verizon (5175 Campus Drive, Plymouth Meeting, PA 19462) for construction of a 600 Kilowatt Diesel Generator in Plymouth Township, Montgomery County.

46-0005N: Merck and Co., Inc. (770 Sumneytown Pike, West Point, PA 19486) for installation of a 500-kW Emergency Generator in Upper Gwynedd Township, Montgomery County.

15-0064: QVC, Inc. (1200 Wilson Drive, West Chester, PA 19380) for construction of three emergency generators in West Chester Borough, Chester County.

09-0009C: Webcraft, Inc. (4371 County Line Road, Chalfont, PA 18914) for modification of a web offset press and catalytic oxidizer in New Britain Township, Bucks County.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes Barre, PA 18711-0790.

35-308-025: Bardane Manufacturing Co. (Delaware Street, P. O. Box 70, Jermyn, PA 18433) for construction of an aluminum furnace, a zinc furnace, and an evaporator and associated air cleaning devices in Jermyn Borough, Lackawanna County.

35-318-083: Wells Cargo, Inc. (50 Enterprise Drive, P. O. Box 547, Carbondale, PA 18407) for construction of a paint spray booth and associated air cleaning device in Carbondale, Lackawanna County.

39-309-046D: Lafarge Corp. (5160 Main Street, Whitehall, PA 18052-1827) for replacement of a baghouse on the Kiln #8 Line in Whitehall Township, Lehigh County.

13-399-010: Silberline Manufacturing Co., Inc. (130 Lincoln Drive, P. O. Box B, Tamaqua, PA 18252-0420) for modification of an aluminum pigment manufacturing
process by adding one filter press and two screening units in Lansford Borough, Carbon County. Silberline Manufacturing Co., Inc. is a major facility subject to Title V permitting requirements. The modification will allow the company to expand its production. The volatile organic compound emissions from the addition of the equipment shall not exceed 6 tons per year. The Plan Approval will contain conditions requiring the source to show compliance with the emission rates. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Plan Approval No. 66-315-036 is for the installation and operation of tissue/towel converting operations with coaters for printing. This installation will result in increase in VOC emissions by 32.0 tons per year from the facility. The plan approval limits VOC emissions from this source to 32.0 tons per year on a 12-month rolling sum. Although the sources covered by this plan approval are located at a major facility, the construction does not trigger major new source review or prevention of significant deterioration requirements.

Equipment installed under Plan Approval Nos. 66-315-037—66-315-040 will emit particulate emission no more than 0.02 grain/dscf. The plan approvals limits the particulate emission from these sources to less than 0.02 grain/dscf, under the Best Available Technology provision of 25 Pa. Code, Chapter 127 (relating to construction modification, reactivation and operation of sources).

The plan will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP’s analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any persons wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following: Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No. 66-00001.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if DEP, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the Pennsylvania Bulletin or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to James D. Parette, Acting Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2531 within 30 days after publication date.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110.

06-03045A: Eastern Industries, Inc. (4401 Camp Meeting Road, Center Valley, PA 18034) for modification of a batch asphalt plant to fire waste derived liquid fuels controlled by a fabric collector in Maxatamny Township, Berks County. This source is subject to 40 CFR Part 60, Subpart I-Standard of Performance for Hot Mix Asphalt Facilities.

06-03112A: Birdboro Alloying, Inc. (200 C Furnace Street, Birdboro, PA 19508) for construction of a secondary aluminum rotary furnace controlled by a fabric collector in Birdboro, Berks County.

06-05082A: Dietrich’s Milk Products, LLC (100 McKinley Avenue, Reading, PA 19605) for the construction of a spray dryer controlled by a cyclone and wet scrubber in Muhlenberg Township, Berks County.

38-05017A: Greater Lebanon Refuse Authority (1610 Russel Road, Lebanon, PA 17046) for installation of Ground Flare to control the landfill gas emissions at North Lebanon Township, Lebanon County.

38-05016A: Ouaker Alloy, Inc. (200 East Richland Avenue, Myerstown, PA 17067) for construction of a replicast mold system controlled by a fabric collector in Myerstown Borough, Lebanon County.

67-03030: Bickel’s Snack Foods, Inc. (1120 Zinn’s Quarry Road, West Manchester, PA 17405) for construction of two potato chip fryers controlled by mist eliminators in West Manchester Township, York County.
NOTICES

67-05005B: PPL Brunner Island, LLC (2 North Ninth Street, Allentown, PA 18101) for construction of a rotary coal car dumper at the coal yard in East Manchester Township, York County. The construction of the rotary coal car dumper will replace an existing unit at the facility. Particulate matter emissions from the coal dumping operation will be controlled by wet suppression. The plan approval will include requirements to ensure compliance with applicable air quality requirements. The plan approval will be incorporated into the facility's Title V operating permit at a later date in accordance with 25 Pa. Code § 127.450 (relating to administrative operating permit amendments).

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701.

03-0027A: Keystone Owners Group (1001 Broad Street, Johnstown, PA 15907) for operation of Unit 1 and Unit 2 Coal Fired Boilers at Keystone Station in Plumcreek Township, Armstrong County.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481.

10-300D: Spang and Co.—Magnetics Division (796 East Butler Road, Butler, PA 16001) for modification of the VOC destruction efficiency of the existing regenerative thermal oxidizer on the automated paint line, from 98% to 93%, in East Butler, Butler County.

NOTICE OF INTENT TO ISSUE A PLAN APPROVAL AND AMEND A TITLE V OPERATING PERMIT

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), that the Department of Environmental Protection intends to issue a plan approval to Carbone of America Graphite Materials Division, 215 Stackpole Street, St. Marys, PA 15857, for their plant in the city of St. Marys, Elk County. The facility currently has a Title V permit No. TV 24-00083. This plan approval will, in accordance with 25 Pa. Code § 127.450 (relating to administrative operating permit amendments), be incorporated into the Title V operating permit through an administrative amendment at a later date.

Plan Approval No PA-24-083D is for the construction of CBH Kiln Nos. 33 and 34, and for the installation of a packed-bed scrubber to control SO2 emissions from CBH kiln Nos. 27, 33, & 34. This construction will result in an increase in PM10 emissions of less than 1 ton/yr, a decrease in SO2 emissions of approximately 18 tons/yr, a NOx increase of 5.9 tons/yr, and a CO increase of 1.48 tons/yr.

Bureau of Air Quality: Division of Permits, P. O. Box 8468, 400 Market Street, Harrisburg, PA 17105.

09-124C: S.W.E.C., LLC, a limited liability company owned by Dominion Energy, Inc., (5000 Dominion Boulevard, Glen Allen, VA 23060) to authorize the transfer and use of certified nitrogen oxides (NOx) and volatile organic compounds (VOCs) emission reduction credits (ERCs) as emission offsets from the following facilities under 25 Pa. Code § 127.208(2). S.W.E.C., LLC is a major facility subject to the emission offset requirements of 25 Pa. Code, Chapter 127, Subchapter E (relating to new source review). The NOx and VOC ERCs are being transferred from the following ERC-generating facilities to S.W.E.C., Inc. for use as offsets at its proposed combined cycle electric generating plant in Falls Township, Bucks County. Plan Approval No. 09-124C does not authorize the construction, modification, reactivation or installation of a source.

Public Notification to Colic Comments on Lower Mount Bethel Energy, LLC

Plan Approval Application No. 48-328-004

Notice is hereby given under 25 Pa. Code § 127.44 and 40 CFR 72.65, that the Department of Environmental Protection (Department) is soliciting comments on the proposed Air Quality Plan Approval for Lower Mount Bethel Energy, LLC (the Permittee), Depues Ferry Road, Lower Mount Bethel Township, Northampton County for construction of two combustion turbines with duct burners and a cooling tower as described in the Permittee's May 4, 1999, Plan Approval Application and subsequent supplemental submissions.

Copies of the application, the Department's technical review and other supporting documents used in the evaluation are available for public inspection between the hours of 8 a.m. and 4 p.m. at the Department's Bethlehem District Office, 4530 Bath Pike, Bethlehem. Appointments for scheduling a review may be made by calling (610) 861-2070.

The following table summarizes the potential emissions from maximum operation of the facility according to the application submitted and the Department's own analysis:

<table>

PENNYSYLVANIA BULLETIN, VOL. 31, NO. 7, FEBRUARY 17, 2001
In order to show compliance with the applicable standards, the Department has placed the following conditions in the Plan Approval:

(1) The sources are to be constructed in accordance with the plans submitted with the application (as approved herein).

(2) This Plan Approval is issued for the construction of a combined cycle turbine electric generating plant including the following:

(a) Two natural gas-fired combustion turbines (Siemens-Westinghouse Model 501F) each rated at 185 MW (gross) and controlled by dry, low NOx lean burn combustion, selective catalytic reduction (SCR) and oxidation catalyst.

(b) Ten cell cooling tower with drift eliminators.

(c) Two supplementary fired heat recovery steam generators with duct burners.

(3) This approval to construct shall become invalid if:

(a) Construction as defined in 40 CFR 52.21(b)(8) has not commenced within 18 months of the issue date of this approval; or

(b) Construction is discontinued for a period of 18 months or more.

(4) The combustion turbines and duct burners shall be fired solely by natural gas.

(5) The permittee shall construct, operate and maintain both combustion turbines, duct burners, cooling tower and air pollution control equipment in accordance with manufacturers' specifications as well as good air pollution control practices.

(6) The permittee shall limit the total amount of natural gas combusted in the duct burners to 899 million cubic feet, or less, in a 12-month rolling period.

(7) The duct burners are subject to Subpart Db of the Standards of Performance for New Stationary Sources and shall comply with all applicable requirements of this Subpart. 40 CFR 60.4 requires submission of copies of all requests, reports, applications, submittals and other communications to both EPA and the Department. The EPA copies shall be forwarded to Director, Air, Toxics and Radiation Division, US EPA, Region III, 1650 Arch Street, Philadelphia, PA 19103-2029.

(8) The combustion turbines are subject to Subpart GG of the Standards of Performance for New Stationary Sources and shall comply with all applicable requirements of this Subpart. 40 CFR 60.4 requires submission of copies of all requests, reports, applications, submittals and other communications to both EPA and the Department. The EPA copies shall be forwarded to Director, Air, Toxics and Radiation Division, US EPA, Region III, 1650 Arch Street, Philadelphia, PA 19103-2029.

(9) The combustion turbines are subject to the Title IV Acid Rain Program of the Clean Air Act Amendments of 1990 and shall comply with all applicable provisions of that Title, to include the following:

- Ambient Air Quality Impact

(10) The combustion turbines are subject to the NOx Budget Program established in 25 Pa. Code Sections 123.102—123.120 and shall comply with all applicable requirements.

§ 123.112. Source operating permit provisions requirements.

The permittee shall comply with the requirements 25 Pa. Code §§ 123.101—123.120 (relating to NOx allowance requirements).

§ 123.102. Source NOx allowance requirements and NOx control period.

(a) For each NOx affected source identified in this permit, the permittee shall hold a quantity of NOx allowances meeting the requirements of § 123.110(a) (relating to source compliance requirements) in the source's current year NATS account by December 31 of each calendar year. The NOx allowances shall be equal to or greater than the total NOx emitted from the source during that year's NOx allowance control period.

(b) The initial NOx allowance control period begins on May 1, 2000.

Monitoring Requirements

§ 123.108. Source emissions monitoring requirements.

(a) The NOx emissions from each NOx affected source at this facility shall be monitored as specified in 25 Pa. Code § 123.108 and in accordance with the procedures contained in the document titled, "Guidance for Implementation of Emission Monitoring Requirements for the NOx Budget Program."

(b) As referenced in § 123.108(2), the permittee shall submit to the Department and the NOx Budget Administrator a monitoring plan in accordance with the procedures outlined in the document titled, "Guidance for Implementation of Emission Monitoring Requirements for the NOx Budget Program."

(c) New and existing unit emission monitoring systems, as required and specified by 25 Pa. Code § 123.108(4) and the NOx affected source's monitoring plan approved by the Department, shall be installed and operational. The installed emissions monitoring systems shall have met all of the certification testing requirements in accordance with the procedures and deadlines specified in the document titled, "Guidance for Implementation of Emission Monitoring Requirements for the NOx Budget Program."

(d) Sources subject to 40 CFR Part 75 shall demonstrate compliance with § 123.108 by using a certified Part 75 monitoring system.

(e) During a period when valid data is not being recorded by devices approved for use to demonstrate compliance with the NOx Allowance Requirement subchapter, the permittee shall replace missing or invalid data with representative default data in accordance with 40 CFR Part 75 (relating to continuous emission monitoring) and the document titled, "Guidance for Implementation of Emission Monitoring Requirements for the NOx Budget Program. For non-Part 75 sources that have Department approved NOx CEMS reporting of NOx emissions in pounds of NOx per hour as required under 25
to the NOx Budget Administrator, electronically, emis-

s
ticable, the audit shall be conducted between April 1 and

months following the previous periodic self-audit. If prac-

References) at least annually and no sooner than 6

quality assurance section of

ments) shall complete the periodic self-audits listed in the

requirements. Source recordkeeping requirements.

"Guidance for Implementation of Emission Monitoring

Requirements for the NOx Budget Program."

Notwithstanding this permit condition, non-Part 75
Sources which have Department approved NOx CEMS

reporting in units of pounds of NOx per hour as required

under 25 Pa. Code § 139.101 (relating to general require-

ments) shall complete the periodic self-audits listed in the

quality assurance section of § 139.102(3) (relating to

references) at least annually and no sooner than 6

months following the previous periodic self-audit. If prac-

ticable, the audit shall be conducted between April 1 and

May 31.

Reporting Requirements

§ 123.109. Source emissions reporting requirements.

(a) The authorized account representative shall submit

to the NOx Budget Administrator, electronically, emis-

sions and operations information for each calendar quar-

ter of each year in accordance with the document titled

"Guidance for Implementation of Emission Monitoring

Requirements for the NOx Budget Program. The emis-

sions and operations information shall be submitted in a

format which meets the requirements of EPA’s Electronic

Data Reporting convention.

Compliance Requirements

§ 123.110. Source compliance requirements.

(a) Each year from November 1 through December 31,

inclusive, the authorized account representative shall request the NOx Budget Administrator to deduct, consist-

ent with § 123.107 (relating to NOx allowance transfer

procedures) a designated amount of NOx allowances by

serial number, from the NOx affected source’s compliance

account in an amount equivalent to the NOx emitted from

the NOx affected source during that year’s NOx allowance

control period. The designated NOx allowances shall be

used in accordance with the requirements specified in 25

(b) For each NOx allowance control period, the autho-

rized account representative for the NOx affected source

shall submit an annual compliance certification to the

Department no later than the NOx allowance transfer

deadline (December 31) of each year.

(c) At a minimum, the compliance certification shall

contain the information and statements required under

Recordkeeping Requirements

§ 123.113. Source recordkeeping requirements.

The owner or operator shall maintain for each NOx

affected source at this facility, the measurements, data,

reports and other information required by 25 Pa. Code

§§ 123.101—120. The records shall be maintained for 5

years or any other period consistent with the terms of the

NOx affected source’s operating permit.

§ 123.121. NOx Allowance Program Transition.

The emission limitations and monitoring requirements established in §§ 123.101—123.120 (relating to NOx al-

lowance requirements) are replaced by the requirements

in Chapter 145 beginning with the May 1, 2003, control

period. If a source has failed to demonstrate compliance

with § 123.111 (relating to failure to meet source compli-

ance requirements), the provisions in § 145.54(d) (relat-

ing to compliance) shall be used to withhold NOx allow-

ances in calendar year 2003 and beyond. If no NOx allowances are provided to the source under § 145.52

(relating to NOx allowance allocations), the source will be

obligated to acquire and retire a number of NOx allow-

ances as specified in § 145.54.

§§ 145.1—145.90 NOx Budget Trading Program Incor-

poration.

The emission limitations, monitoring and all other

requirements of the NOx Budget Trading Program estab-

lished in 25 Pa. Code §§ 145.1—145.90 are hereby incor-

porated by reference.

§ 145.10. Authorization and responsibilities of the NOx

authorized account representative.

(a) [§ 145.10(a)] Except as provided under § 145.11

(relating to alternate NOx authorized account representa-

tive), each NOx budget source, including all NOx budget

units at the source, shall have one, and only one, NOx

authorized account representative, with regard to all

matters under the NOx Budget Trading Program concern-

ing the source or any NOx budget unit at the source.

(b) [§ 145.10(e)] Each submission under the NOx

Budget Trading Program shall be submitted, signed and
certified by the NOx authorized account representative

for each NOx budget source on behalf of which the submis-

sion is made.

§ 145.6(a). Standard requirements—Monitoring require-

ments.

(a) The owners and operators of each NOx budget

account representative of each NOx budget source and

NOx budget unit at the source shall comply with the

monitoring requirements of §§ 145.70—145.76 (relating

to recordkeeping and recording requirements) by May 1,

2002.

(b) The emissions measurements recorded and reported

in accordance with §§ 145.70—145.76 shall be used to
determine compliance by the unit with the NOx budget

emissions limitation under Subsection 145.6(c).

§ 145.6(b). Standard requirements—NOx Requirements.

(a) The owners and operators of each NOx budget

source and each NOx budget unit at the source shall hold

NOx allowances available for compliance deductions un-
der § 145.54 (relating to compliance), as of the NOx

allowance transfer deadline, in the unit’s compliance

account and the source’s overdraft account in an amount

not less than the total NOx emissions for the control

period from the unit, as determined in accordance with

§§ 145.70—145.76 (relating to recordkeeping and report-
ing requirements) plus an amount necessary to account

for actual heat input under § 145.42(e) (relating to NOx

allowance allocation) for the control period or to account

for excess emissions for a prior control period under

§ 145.54(d) or to account for withdrawal from the NOx

budget trading program, or a change in regulatory status,
of a NOx budget opt-in unit under §§ 145.86 and 145.87

(relating to withdrawal from NOx Budget Trading Pro-

gram; and opt-in source change in regulatory status).

(b) An NOx budget unit shall be subject to the require-

ments under Paragraph (a) starting on May 1, 2003, or

the date on which the unit commences operation, which-

ever is later.
§ 145.30 Compliance certification report.

The owners and operators of a NOx budget unit that has excess emissions in any control period shall do the following: Surrender the NOx allowances required for deduction under § 145.54(d)(1) (relating to compliance).

§ 145.6(d) Standard requirements—Recordkeeping and reporting requirements.

Unless otherwise provided, the owners and operators of the NOx budget source and each NOx budget unit at the source shall maintain at a central location and provided upon request by the Department or the NOx budget administrator all documents required under § 145.6(d) for a period of 5 years from the date the document is created. This period may be extended for cause, at any time prior to the end of the 5 years, in writing by the Department or the Administrator.

§ 145.74(b) Standard requirements—Monitoring plans.

(a) The owner or operator of a unit subject to an acid rain emissions limitation shall comply with requirements of 40 CFR 75.62 (relating to monitoring plan), except that the monitoring plan shall also include all of the information required by 40 CFR Part 75, Subpart H.

(b) The owner or operator of a unit that is not subject to an acid rain emissions limitation shall comply with requirements of 40 CFR 75.62, except that the monitoring plan is only required to include the information required by 40 CFR Part 75, Subpart H.

§ 145.74(c) Certification applications.

The NOx authorized account representative shall submit an application to the Department within 45 days after completing all initial certification or recertification tests required under § 145.71 (relating to initial certification and recertification procedures) including the information required under 40 CFR Part 75, Subpart H.

§ 145.74 Source emissions reporting requirements.

(a) The authorized account representative shall submit to the Department and to the NOx Budget Administrator a quarterly emissions report in accordance with the requirements of § 145.74(d).

(b) The NOx authorized account representative shall submit to the Department and the NOx Budget Administrator a compliance certification in support of each quarterly report required under § 145.74(d) based on reasonable inquiry of those persons with primary responsibility for ensuring that all of the units' emissions are correctly and fully monitored.

§ 145.30 Compliance certification report.

For each control period in which one or more NOx budget units at a source are subject to the NOx budget emissions limitation, the NOx authorized account representative of the source shall submit to the Department and the NOx Budget Administrator by November 30 of that year, a compliance certification report for the source covering all of the units.

§ 145.90 Emission reduction credit provisions.

NOx budget units may create, transfer and use emission reduction credits (ERCs) in accordance with Chapter 127 and § 145.90. ERCs may not be used to satisfy NOx allowance requirements.

(12) Under the provisions of 25 Pa Code Chapter 127, Subchapter E, New Source Review, the permittee shall secure Department-approved nitrogen oxides (NOx) Emission Reduction Credits (ERCs) in the amount of 262 tons per year and volatile organic compounds (VOCs) ERCs in the amount of 64 tons per year prior to the commencement of operation of the combustion turbines and duct burners.

(13) The permittee shall limit facility emissions of NOx to 227.8 tons during any consecutive 12-month period.

(14) The permittee shall limit facility emissions of carbon monoxide (CO) to 525.6 tons during any consecutive 12-month period.

(15) The permittee shall limit facility emissions of VOCs to 55.5 tons during any consecutive 12-month period.

(16) Under the Lowest Achievable Emission Rate (LAER) provisions of 25 Pa. Code § 127.205, the permittee shall limit the emissions from each combustion turbine with duct burner to the following (measured 1-hour average on a dry volume basis corrected to 15% oxygen):

(a) NOx—3.5 ppmv (0.0131 pounds per million BTU)

(b) VOCs (as methane)—3.0 ppmv (0.0046 pounds per million BTU)

(17) Under the Best Available Control Technology (BACT) provisions of 25 Pa. Code § 127.83, the permittee shall limit the emissions from each combustion turbine with duct burner to the following:

(a) Carbon monoxide (at more than 70% load)—6 ppmv (0.0131 pounds per million BTU), measured 1-hour average on a dry volume basis corrected to 15% oxygen.

(b) Carbon monoxide (at less than 70% load)—19 ppmv (0.0439 pounds per million BTU), measured 1-hour average on a dry volume basis corrected to 15% oxygen.

(c) Sulfur dioxide—0.0027 pounds per million BTU

(d) Particulate matter (TSP/PM10)—0.0135 pounds per million BTU

(e) Sulfuric acid mist (H2SO4)—0.0008 pounds per million BTU

(18) Under the Best Available Technology (BAT) provisions of 25 Pa. Code § 127.1, the permittee shall limit the emission of ammonia for each selective catalytic reduction (SCR) system exhaust to 10 ppmv, measured dry volume corrected to 15% oxygen, under normal operation.

(19) The emissions in Conditions 16–18 apply at all times except during periods of start-up and shutdown as defined as follows:

(a) Cold start-up: Refers to restarts made more than 48 hours after shutdown; cold start-up periods shall not exceed 4 hours per occurrence.

(b) Warm Start-up: Refers to restarts made more than 8 hours but less than 48 hours after shutdown; warm start-up periods shall not exceed 3 hours per occurrence.

(c) Hot Start-up: Refers to restarts made 8 hours or less after shutdown; hot start-up periods shall not exceed 2 hours per occurrence.

(d) Shutdown: Commences with the termination of fuel (natural gas) fired into the combustion chambers.

(20) Under the provisions of 25 Pa. Code § 123.31, there shall be no malodorous emissions from any operation related to any source covered under this Plan Approval.
(21) Under the provisions of 25 Pa. Code § 123.41, the visible air contaminants from each combustion turbine exhaust stack shall not be emitted in such a manner that the opacity of the emissions is equal to or greater than 20% for a period or periods aggregating more than 3 minutes in any one hour; or equal to or greater than 60% at any time.

(22) Within 60 days after achieving the maximum firing rate, but not later than 180 days after start-up, the permittee shall demonstrate compliance with each emission limit established in Conditions 16, 17, and 18 and opacity as per Section 60.8 and 40 CFR Part 60 Subparts Db and GG and Chapter 139 of the Rules and Regulations of the Department of Environmental Protection.

(23) At least 60 days prior to the test, the permittee shall submit to the Department for approval the procedures for the test and a sketch with dimensions indicating the location of sampling ports and other data to ensure the collection of representative samples.

(24) At least 30 days prior to the test, the Regional Air Quality Program Manager shall be informed of the date and time of the test.

(25) Within 30 days after the source tests, two copies of the complete test report, including all operating conditions, shall be submitted to the Regional Air Quality Program Manager for approval.

(26) Continuous emission monitoring system for nitrogen oxides (as NOx), carbon monoxide (CO) and diluent gas (I₂ or C₂) must be approved by the Department and installed, operated and maintained in accordance with the requirements of Chapter 139 of the Rules and Regulations of the Department of Environmental Protection. Proposals containing information as listed in the Phase I section of the Department's Continuous Source Monitoring Manual for the CEMs must be submitted at least 3 months prior to the start-up of the combustion turbines.

(27) Phase I Department approval must be obtained for the monitors described in Condition 26 prior to initial start-up of the combustion turbines. Phase III Department approval must be obtained within 60 days of achieving the maximum production rate at which the turbines will be operated, but not later than 180 days after initial start-up of the turbines. Department review time for the Phase III report (time between postmark of the permittee's Phase III report and the postmark of the Department's response letter) will not be charged against the permittee's Phase III report and the postmark of the Department's response letter) will not be charged against the turbines in determining compliance with this condition. Information in obtaining Department approval is included in the Department's Continuous Source Monitoring Manual.

(28) The permittee shall install and maintain fuel flow monitors that meet the requirements of 40 CFR Part 75.

(29) The permittee shall monitor the sulfur and nitrogen content of the fuel being fired in the combustion turbines as per 40 CFR 60.334(b), unless the permittee receives approval from the United States EPA to use an alternative method as per 40 CFR 60.13.

(30) The permittee shall monitor and record the following parameters for each SCR system:

(a) Catalyst bed inlet gas temperature
(b) Ammonia solution injection rate
(c) Ammonia solution concentration
(d) Ammonia slip

(31) The permittee shall record each start-up and shutdown, including the date and times of each event, for the combustion turbines with duct burners.

(32) The permittee shall, at the minimum, record the following:

(a) Monthly fuel consumption for each combustion turbine with duct burners
(b) 12-month rolling total fuel consumption of the sources identified in Condition (32)(a)
(c) Monthly emissions of TSP/PM₁₀, SO₂, NOx, CO and VOC
(d) 12-month rolling total of the emissions identified in Condition (32)(c)
(e) Results of fuel sampling
(f) SCR monitoring results

(33) All emissions shall be determined by the methods found in 40 CFR Part 60 Subparts Db and GG, the Plan Approval Application and supplemental materials and Continuous Emission Monitoring Manual.

(34) The permittee shall limit the total dissolved/suspended solids in the cooling tower blowdown water to 1250 ppmw, or less.

(35) The permittee shall, on a weekly basis, test the cooling tower water for total dissolved and suspended solids. A schedule of less frequent testing may be approved by the Department upon demonstration that the results of the required testing are below the limitation contained in Condition (34).

(36) Records required under this Plan Approval, 40 CFR Part 60 Subparts Db and GG and 40 CFR Parts 72, 73, 75 and 77 shall be kept for a period of 5 years and shall be made available to the Department upon request.

(a) The permittee shall maintain records on all air pollution control system performance evaluations and records of calibration checks, adjustments and maintenance performed on all equipment which is subject to this Plan Approval.

(b) The permittee shall maintain a copy of the manufacturer's specifications for the two combustion turbines, two duct burners, cooling tower and air pollution control equipment on-site.

(c) The permittee shall maintain a copy of the manufacturer's specifications for all CEMs that are required by this Plan Approval.

(d) The permittee shall keep a record of the date of malfunction, the time of the malfunction, the cause of the malfunction and the action taken to correct the malfunction.

(e) The permittee shall keep a record of the results of the testing for cooling tower blowdown water total dissolved and suspended solids.

(37) The Department reserves the right to use the CEMs data, stack test results, and the operating parameters determined during optimization of the turbines and their associated air cleaning devices to verify emission rates, to establish emission factors, and to develop compliance assurance measures in the Operating Permit.

(38) The permittee shall submit an application for plan approval to convert four existing combustion turbines at the Martins Creek Steam Electric Station from oil-fired to natural gas-fired. The PM₁₀ emissions from each combustion turbine shall not exceed 2.62 tons per year based on
a 12-month rolling total when fired by natural gas. The application shall be submitted and approved by the Department prior to commencement of the operation of the combustion turbines covered by this Plan Approval.

(39) Hazardous Air Pollutants (HAPs) for the entire facility shall not exceed 10 tons per year for a single HAP and 25 tons per year for all the HAPs.

(40) Nothing in this permit shall be construed to supersede, amend or authorize violation of the provisions of any valid and applicable local law, ordinance or regulation, provided that said local law, ordinance or regulation is not preempted by the Air Pollution Control Act (35 P. S. §§ 4001—4015).

(41) The permittee shall comply with the Air Pollution Control Act (35 P. S. §§ 4001—4015), and Title 25, Rules and Regulations, Article III, Air Resources promulgated thereunder.

(42) This Plan Approval comprises temporary operation of source(s) covered by this Plan Approval provided the following conditions are met.

(a) The Department must receive written notice from the Owner/Operator of the completion of construction and the Operator's intent to commence operation at least 5 working days prior to the completion of construction. The notice should state when construction will be completed and when Operator expects to commence operation.

(b) Operation is authorized only to facilitate the startup and shakedown of sources and air cleaning devices, to permit operations pending the issuance of an Operating Permit or to permit the evaluation of the source(s) for compliance with all applicable regulations and requirements.

(c) This condition authorizes temporary operation of the source(s) for a period of 180 days from the date of commencement of operation, provided the Department receives notice from the Owner/Operator pursuant to subpart (a), above.

(d) The Owner/Operator may request an extension if compliance with all applicable regulations and Plan Approval requirements has not been established. The extension request shall be submitted in writing at least 15 days prior to the end of this period of temporary operation and shall provide a description of the compliance status of the source and the reasons compliance has not been established.

(e) The notice submitted by the Owner/Operator pursuant to subpart (a), above, prior to the expiration of this Plan Approval, shall modify the plan approval expiration date. The new plan approval expiration date shall be 180 days from the date of commencement of operation.

Persons wishing to provide the Department with additional information which they believe should be considered prior to the issuance of the Plan Approval may submit the information to the address shown below. The Department will consider any written comments received within 30 days of the publication of this notice. Each written comment must contain the following: name, address and telephone number of the person submitting the comments; identification of the proposed Plan Approval No. 48-328-004; a concise statement regarding the relevancy of the information or any objections to the issuance of the Plan Approval.

A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the Pennsylvania Bulletin, or by telephone, where the Department determines such notification by telephone is sufficient.

Written comments from the public will be addressed by the Department during the review process before a final action is taken on the proposal. A summary report addressing the concerns raised by the public will be reviewed and if the Department determines that a Plan Approval is warranted, send written comments or requests for a public hearing to Thomas A. DiLazaro, Regional Air Quality Program Manager, Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2435.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact the Department at the address shown above, or the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may address their needs.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Control Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidie and Land Conservation Act (52 P. S. §§ 1406.1—1406.21); Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—123 and 86.31—34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52, and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity, and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when neces-

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications and requests for Environmental Assessment approval and requests for Water Quality Certification have been received by the Department of Environmental Protection. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)), requires the state to certify that the involved projects will not violate the applicable provisions of Sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Initial requests for 401 Water Quality Certification will be published concurrently with the permit application. Persons objecting to approval...
of a request for certification under Section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit, or the approval of an Environmental Assessment must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted above the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed, and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between the hours of 8 a.m. and 4 p.m. on each working day at the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received Under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and Section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification Under Section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

APPROVALS TO USE NPDES AND/OR OTHER GENERAL PERMITS

The following parties have submitted: (1) Notices of Intent (NOIs) for Coverage Under (1) General NPDES Permit(s) to Discharge Wastewater into the Waters of the Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations. Monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permit(s) for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in the Commonwealth; (3) General NPDES Permit Authorizing the Discharge of Stormwater Associated with Construction Activities to Waters of the Commonwealth.

The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. The Department approves the following coverage under the specific General Permit.

The EPA Region III Administrator has waived the right to review or object to this permit action under the waiver provision 40 CFR 123.24.

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the Pennsylvania Bulletin a notice of submission of final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site where one of the act’s remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the...
remediation performed, and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Southeast Region: Environmental Cleanup Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

Former Sunoco Station #0004-7985, Radnor Township, Delaware County. Jennifer L. O’Reilly, P.G., Groundwater & Environmental Services, Inc., 410 Eagleview Blvd., Suite 110, Exton PA 19341, (on behalf of Wayne PA Business Trust, c/o U.S. Realty Advisors, 1370 Avenue of the Americas, New York, NY 10019) has submitted a Final Report concerning remediation of site soil and groundwater contaminated with BTEX and petroleum hydrocarbons. The report is intended to document remediation of the site to meet the Statewide health standard.

Congreso de Latino Unidos, Inc., City of Philadelphia, Philadelphia County. Gloria G. Hunsberger, P.G., Powell-Harpstead, Inc., 800 E. Washington St., West Chester PA 19380 (on behalf of Congreso de Latinos Unidos, Inc., 719 W. Girard Ave., Philadelphia PA 19123) has submitted a Final Report concerning remediation of site soil contaminated with lead, heavy metals and polycyclic aromatic hydrocarbons. The report is intended to document remediation of the site to meet the Statewide health standard.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Adele M. Keech Estate, Berwick Township, Adams County. The report is intended to document remediation of the site to meet the Statewide health standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (act) requires the Department to publish in the Pennsylvania Bulletin a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature of contaminants in the environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of remedial investigation, concentration of regulated substances and remedial alternative.
may approve or disapprove plans and reports submitted. This notice provides the Department’s decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, please contact the Environmental Cleanup Program Manager in the Department’s Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

RESIDUAL WASTE GENERAL PERMITS

Actions on applications under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003); the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904); and Residual Waste Regulations for a General Permit to Operate Residual Waste Processing Facilities and the Beneficial Use of Residual Waste other than Coal Ash.

Central Office Division of Municipal and Residual Waste, Rachel Carson State Office Building, Floor 14, 400 Market Street, Harrisburg, PA 17101-2301.

General Permit No. WMGR040. Safety-Kleen Systems, Inc., 1140 Greenhill Road, West Chester, PA 19380. General Permit Number WMGR040 for processing prior to beneficial use of waste oil (including waste oil mixed with hazardous waste regulated under 40 CFR § 261.5 incorporated by reference at 25 Pa. Code § 261a.1 and modified at § 261a.5), spent antifreeze, and waste oil/water mixtures. The approved processing is limited to the transfer of waste oil, waste oil/water mixtures and spent antifreeze from motor vehicles to rail cars for transport (rail transloading) at the Safety-Kleen facility on Baumer Street in Johnstown, PA. The general permit was issued by Central Office on October 1, 1999, and revised on January 30, 2001, as part of settlement of an appeal of the permit by Safety-Kleen Systems, Inc. The major revision to General Permit Number WMGR040 concerned modified screening requirements at the rail transloading facility for incoming wastes for shipments originating at transfer or processing facilities.

Persons interested in reviewing the permit may contact the office noted above.

SOLID & HAZARDOUS WASTE OPERATE WASTE PROCESSING OR DISPOSAL AREA OR SITE

Permits revoked under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), and Regulations to Operate Solid Waste Processing or Disposal Area or Site.

Southcentral Region: Regional Solid Waste Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Permit No. 602867. Fredericksburg Sewer & Water Authority, Swatara and Bethel Townships, Lebanon County, revoked on November 20, 2000.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval, and requests for Water Quality Certification under Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)).

Except as otherwise noted, the Department certifies that the construction and operation herein described will comply with the applicable provisions of Sections 301—303, 306 and 307 of the FWPCA 33 U.S.C.A. §§ 1311—1313, 1316 and 1317, and that the construction will not violate applicable Federal and State Water Quality Standards.

Persons aggrieved by this action may appeal, under Section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board (Board) within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law (33 U.S.C.A. § 1341(a)) and Notice of Final Action for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Water Obstruction and Encroachment Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.)

To: 1) construct and maintain a 814-foot relocated fluvial geomorphological designed reach of Laurel Run, 2) to divert Laurel Run into the 814-foot reach, 3) to fill and maintain a 1,025-foot reach of Laurel Run, 4) to relocate and maintain a 845-foot reach of an unnamed tributary to Laurel Run; the upstream limit of the Laurel Run’s relocated reach and the downstream limit of the unnamed tributary’s relocated reach are located 1,225 feet upstream of the Laurel Run and Oliver Run confluence; to construct and maintain; 5) Temporary Stream Crossing #1 over the existing Laurel Run channel with one 36-inch diameter, five 24-inch diameter corrugated metal pipes and the associated R-4 riprap protected clean fill, 6) Temporary Stream Crossing #2 over relocated Laurel Run channel with three 48-inch diameter corrugated metal pipes and the associated R-6 riprap protected clean fill, both of which are located 375 feet upstream of the Laurel Run and Oliver Run confluence; 7) Temporary Stream Crossing #3 over Oliver Run with five 48-inch diameter corrugated metal pipes and the associated R-6 riprap protected clean fill, 8) Structure 202—an 8-foot by 8-foot by 672-foot long single-cell precast concrete box culvert with fish baffles in Powerline Tributary, 9) a 60-inch diameter 510-foot long reinforced concrete pipe culvert and its 16-foot by 12-foot outlet energy dissipator in an unnamed tributary to Powerline Tributary, 10) two parallel pre-stressed concrete I-beam bridge structures over Oliver Run and Laurel Run: Structure 205 a five-span and Structure 206 a six-span, both have underclearances of 75 feet, 11) place fill in 12.28 acres of jurisdictional wetlands. This proposed project location is near the northwestern political boundary of Port Matilda with a project centroid at latitude 40° 47’ 50” and longitude 78° 05’ 00” in Worth Township, Centre County.

**E14-371. Pennsylvania Department of Transportation, 1924-30 Daisy Street, Clearfield, PA 16830. SR 220, Sect. C12, in Huston, Worth and Patton Townships, Centre County, ACOE Baltimore District (Port Matilda, PA Quadrangle, starting at N: 10.9 inches; W: 11.5 inches; and ending at 15.2 inches; W: 4.2 inches).**

This project, called C12, proposes to construct and maintain three permitted encroachments: 1) a temporary stream crossing in North Bald Eagle Creek involving six 72-inch diameter CMP culverts with one 84-inch diameter CMP culvert, 2) (called Structure 312) a 922-foot long, 60 inch diameter reinforced concrete pipe to carry Buffalo Run beneath and parallel to the proposed alignment of S. R. 6220 that connects to a Y-junction pipe in Structure 313, 3) (called Structure 313) a 726-foot long enclosure comprised of a 52-foot long, 60-inch plastic culvert pipe, in an unnamed tributary to Buffalo Run, with an inlet 312-feet upstream of the inlet of an existing 196-foot-long, 4-foot by 6-foot reinforced concrete arch culvert, extending through the existing culvert and out letting 17 feet downstream of the existing culvert’s outlet that connects to a 10-foot long, 7-foot diameter concrete Y-junction pipe that in turn is connected to a 191-foot-long, 5-foot by 7-foot reinforced concrete box culvert in Buffalo Run. This project includes construction of a new four lane, divided, limited access highway (S. R. 6220) west of State College in Huston, Worth and Patton Townships, Centre County. This project proposes to temporarily impact 100 linear feet of North Bald Eagle Creek, permanently impacts 1,721 linear feet of Buffalo Run and 535 linear feet of an unnamed tributary to Buffalo Run. A total of 7.6000 areas of jurisdictional wetlands will be impacted. 2,818 acres will result in a direct impact from construction activities. 1,008 acres will be indirectly impacted, and 0.353 acres will be temporarily impacted. There are also 28 drainage channels that will be impacted by the construction of this proposed project. These 28 drainage channels all have watersheds that are less than 100 acres and, therefore, the requirements for a permit are waived.
This permit was issued under section 105.13(e) (relating to small projects). This permit also includes 401 Water Quality Certification.

To remove the existing single span steel beam timber deck bridge with a hydraulic opening of 80 ft², a minimum underdearance varying between 3.08 ft and 7.75 ft, on a 90 degree skew right ahead and to construct and maintain a single barrel cast in place reinforced concrete box culvert with concrete wingwalls with a clear span of 20.20 ft, and an inlet underdearance of 5.58 ft, a curb-to-curb width of 18 ft, depressed 12 in. below the streambed on a 77 degree skew and to construct and maintain a temporary diversion dike/stream crossing over the left Asaph Run in Shippen Township, Tioga County. This permit was issued under Section 105.13(e) "Small Projects." This permit also includes 401 Water Quality Certification.

**ALTERNATIVE FUELS INCENTIVE GRANT (AFIG) PROGRAM; PROGRAM OPPORTUNITY**

The Department of Environmental Protection (DEP) Bureau of Air Quality announces the second opportunity to apply under Cycle 8 of a program to promote and expand the use of alternative transportation fuels and fuel systems such as compressed natural gas (CNG), liquefied natural gas (LNG), liquid propane gas (LPG), ethanol (E85), methanol (M85), hydrogen, hythane, electricity, coal-derived liquid fuels and fuels derived from biological materials. Grant funds can be used to pay for the difference between an alternative fuel vehicle and a conventional gasoline or diesel vehicle, to convert an existing gasoline vehicle to operate on an alternative fuel, to purchase a new energy efficient hybrid electric vehicle, to purchase and install a refueling or recharging facility, or to evaluate new alternative fuel technologies. Eligible applicants for incentive grants are schools and vocational school districts, municipal authorities, counties, cities, boroughs, incorporated towns, townships, county institution districts, nonprofit entities and corporations or partnerships incorporated or registered in the Commonwealth and Commonwealth residents. Grants awarded for hybrid electric vehicles will be in the amount of $1500. Other grants awarded in this funding cycle will cover up to 30% of the applicant's eligible costs. An application package, which provides more details on the program, can be obtained from the Department of Environmental Protection, Bureau of Air Quality, P.O. Box 8468, Harrisburg, PA 17105-8468, by contacting the office at (717) 787-2688 or by email at karemiller@state.pa.us. Fax requests to (717) 772-2303, Attn: AFIG. The application package is electronically available on DEP's website at www.dep.state.pa.us (directLINK “Alternative Fuels”). The deadline for submitting a Cycle 8 application to the DEP is April 23, 2001.

**Notice of Permit Transfers for Facilities**

The Department of Environmental Protection (Department) proposes to transfer all permits, licenses and approvals and recognize the succession to water rights at the following facilities. All permits, licenses and approvals previously issued to Citizens Utilities Water Company of Pennsylvania, or its predecessors in interest, are proposed to be transferred to Pennsylvania-American Water Company. In the case of the water allocation permits, there will be a succession to water rights. A complete listing of the permits, licenses and approvals proposed for transfer and the water rights subject to succession is listed below. Questions should be directed to Karen Bassett, Assistant Regional Director, South Central Region, (717) 705-4703. The listing includes pending applications for permits, licenses and approvals.

Persons wishing to comment on the proposed permit transfers or water rights subject to succession are invited to submit their comments to Karen Bassett, Assistant Regional Director, South Central Regional Office, 909 Elmerton Avenue, Harrisburg, PA 17110-8202, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determination regarding the proposed transfers. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Department considers the public response significant.

Following the 30-day comment period, the Department will make a final decision concerning the permit, license and approval transfers. Notice of this determination will be published in the Pennsylvania Bulletin at which time the determination may be appealed to the Environmental Hearing Board.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact Karen Bassett at the above number. TDD users may contact the department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Availability of Technical Guidance

Technical guidance documents are on DEP’s world wide web site (www.dep.state.pa.us) at the public participation center. The “December 2000 Inventory” heading is the governor’s list of nonregulatory guidance documents. The “Final Documents” heading is the link to a menu of the various DEP bureaus and from there to each bureau’s final technical guidance documents. The “Draft Technical Guidance” heading is the link to DEP’s draft technical guidance documents.

DEP will continue to revise its non-regulatory documents, as necessary, throughout 2001.

Ordering paper copies of DEP Technical Guidance

DEP encourages the use of the Internet to view guidance documents. When this option is not available, persons can order a bound paper copy of the latest inventory or an unbound paper copy of any of the final documents listed on the inventory by calling DEP at (717) 783-8727.

In addition, bound copies of some of DEP’s documents are available as DEP publications. Please check with the appropriate bureau for more information about the availability of a particular document as a publication.

DEPARTMENT OF LABOR AND INDUSTRY

Office of Vocational Rehabilitation; Public Comment on Amendments to State Plan

The Department of Labor and Industry, Office of Vocational Rehabilitation (OVR), including the Bureau of Blindness and Visual Services (BBVS), under the Rehabilitation Act of 1973 as amended in the Workforce Investment Act of 1998, announces a period of public comment throughout the Commonwealth. The purpose of this period of comment is to provide individuals, advocates, and other interested parties and/or organizations the opportunity to present their views and recommendations regarding vocational rehabilitation (VR) services for persons with disabilities. In this Commonwealth, those services are provided by OVR through a network of 21
local offices including the OVR and the BBVS District Offices and the Hiram G. Andrews Center.

OVR, including BBVS, is required under law to develop and implement a Combined Agency State Plan which must be reviewed and, as necessary, revised annually when there are changes to the State's VR program. The Combined Agency State Plan, currently in effect for the period 2000-2004, is a compliance document filed with the Commissioner, Rehabilitation Services Administration, United States Department of Education. It is the blueprint for the provision of VR services to persons with disabilities in this Commonwealth.

This period of public comment gives interested parties an opportunity to provide input regarding this Commonwealth's public VR program. Specifically, comment is being solicited regarding the following State Plan components: summary of input and recommendations of the State Rehabilitation Council, response of the designated State unit, and explanations for rejection of input or recommendations; comprehensive system of personnel development; annual estimate of individuals to be served and costs of services; State's goals and priorities; order of selection; innovation and expansion activities; and supported employment services.

All meeting sites are accessible and interpreters for people who are deaf or hard of hearing will be present at each public forum. For additional information, reasonable accommodation requests, or alternative format requests please call the OVR District Office or BBVS District Office conducting the public forum you wish to attend.

If an individual or organization is unable to attend the public forums, but wishes to give testimony, written comments should be submitted to that District Office by March 30, 2001.

A listing of OVR District Offices, the Hiram G. Andrews Center and BBVS District Offices and their addresses and telephone numbers (Voice & TTY) follows. The OVR and BBVS public forums are planned for March 19, 2001, through March 30, 2001. Persons/organizations wishing to obtain information regarding the specific time and location of the meetings in their area, a copy of the State Plan Attachments, or other information regarding OVR or BBVS services should contact the appropriate District Office in their area.

Copies of the current Combined Agency State Plan and revised Attachments will be available on the OVR website: http://www.dli.state.pa.us/ovr.

II. Schedule for Completion

Class 1 transit entities shall initiate the next management performance review following the publication of this guidance, not later than 5 years after completion of the SEPTA Business Audit performed by Phoenix Management Services, Inc. and dated May 1998. Thereafter, Class 1 transit entities shall initiate and complete a management performance review at least once every five years.

Class 2 transit entities shall initiate the next management performance review following the publication of this guidance, not later than 5 years after completion of the Business and Organizational Review of Port Authority of Allegheny County performed by Booz-Allen & Hamilton, Inc. and dated July 1998. Thereafter, Class 2 transit entities shall initiate and complete a management performance review at least once every 5 years. The management performance reviews described herein may be conducted as part of audits/reviews completed by Class 2 transit entities pursuant to the Second Class Port Authorities Act, 55 P. S. § 551 et seq, as amended. To the extent that the audit/review is substantially in conformance with the requirements specified in this guidance, the department will accept the combined audit/review as satisfying the requirements of Section 1315 of Act 3 of 1997.

Class 3 transit entities shall begin the initial management performance review based on the following schedule:

1. Class 3 entities in urbanized areas with a population of more than 200,000, shall begin their first management performance review no later than July 1, 2001.
2. Class 3 entities in urbanized areas with a population of under 200,000, shall begin their first performance review not later than July 1, 2002.

Thereafter, all Class 3 transit entities shall initiate and complete a management performance review at least once every seven (7) years.

Class 3 transit systems which operate in the Philadelphia and Pittsburgh urbanized areas (at the time of publication of this guidance these systems are the Beaver County Transit Authority, Westmoreland County Transit Authority, and the City of Washington) will be defined as urbanized areas with a population of under 200,000 for purposes of scheduling reviews, and therefore are required to begin their initial in accordance with the schedule in item 2 above.

All Class 1, 2 and 3 transit entities are required to complete their respective management performance reviews within ten months of the scheduled date of initiation of the review. Class 1, 2 and 3 transit entities shall bear all costs of performing the management performance reviews. The management performance reviews shall be conducted by a qualified independent auditor, and/or an independent firm or agency with appropriate experience and qualifications to conduct management performance reviews of public transportation entities. The services of the party contracted to perform the review (hereafter referred to as the "consultant") must be obtained through a competitive procurement process. Procurement documents must specify the required scope for the review, which shall be in compliance with this guidance, and must be submitted to the Department for written approval prior to advertisement. Transit entities that provide both urban transit service (as a Class 1, 2 or 3 transit entity), and rural service (as a class 4 transit entity) may elect to conduct one management perfor-
mance review, in accordance with this guidance, encompassing both urban service and rural services.

III. Organization Functional Review

The selected consultant shall conduct a system performance review to determine the operating efficiency and service effectiveness for both the transit system as a whole, and for selected organization functions and activities of the agency. The analysis of the efficiency and effectiveness of the forenamed organization shall, at a minimum, include the functions and activities listed below. The transit entity is encouraged to include additional functions and activities in their evaluation as it finds appropriate.

Organization Functions to be Reviewed:
1. Board of Directors
2. Management/Administration
3. Finance
4. Human Resources
5. Transit Operations
6. Vehicle/Facility Maintenance
7. Marketing/Promotion
8. Planning/Government Relations
9. Capital Planning

IV. Systemwide Performance Evaluation

The analysis of systemwide performance shall, at a minimum, include the following transit industry performance measures:

Transit Performance Measures to be Included:
1. Operating cost per vehicle mile and/or per vehicle hour
2. Operating cost per originating passenger
3. Originating passengers per vehicle mile and/or per vehicle hour
4. Total employees per vehicle mile and/or per vehicle hour
5. Total vehicle miles and/or total vehicle hours per peak vehicle
6. Average age of the active vehicle fleet
7. Ratio of operating revenue to operating expenses (required for fixed route services only)
8. Average trip length (required for demand response services only)

Transit entities are encouraged to supplement these measures with additional performance factors which would be helpful in determining the agency’s overall operating efficiency and service effectiveness.

The review shall include a time-series trend analysis of the above performance measures for the agency for the five most recently completed fiscal years. Based on this trend analysis, the consultant shall identify the areas of relative improvement and relative decline. To the maximum extent possible, the consultant shall identify the probable causes of these relative changes and make recommendations intended to strengthen the performance of the transit system.

In addition to this systemwide trend analysis, the review shall include a comparison of the above performance measures for the agency, for the most recently available fiscal year, with the same measures for approximately five “peer” transit systems. The peer transit systems, to the maximum extent possible, should have similar operating characteristics including service area, number of vehicles, types of services offered, etc. The selected peer transit systems may be either systems within, or outside of Pennsylvania.

Based on this peer-group analysis, the review shall identify the transit entity’s areas of relative strength and relative weakness when compared to the peer group. To the maximum extent possible, the consultant shall identify the probable causes of these comparative strengths and weaknesses, and make recommendations intended to strengthen the performance of the transit system.

Finally, the review must include an evaluation of the results of the customer satisfaction surveys completed by the transit agency in accordance with Section 1315(c) of Act 3 of 1997. At a minimum this analysis must address the following six state-mandated subject areas:

1. On-Time Arrival & Departure
2. Vehicle Cleanliness
3. Fares
4. Driver Courtesy
5. Safety
6. Overall Customer Satisfaction

The transit entity is encouraged to evaluate additional areas of customer satisfaction that were included in the agency’s customer satisfaction survey. This analysis shall include a time-series trend analysis of this information for the five most recently completed fiscal years. Based on this trend analysis, the consultant shall identify the areas of relative improvement and relative decline. To the maximum extent possible, the consultant shall identify the probable causes of these relative changes and make recommendations intended to improve customer satisfaction.

V. Transit System Response and Submission of Independent Review

Upon receipt of the final report, each transit entity shall prepare an action plan addressing the findings and the recommendations contained in the independent review. The action plan must be approved by the transit entity’s governing body within two months of receipt of the final report. Upon approval of the action plan by the transit entity’s governing body, a copy of the independent review report and the agency’s action plan must be submitted to the Department. In addition, Class 1 and Class 2 transit entities must submit a copy of the independent review report and the agency’s action plan to the Legislative Budget and Finance Committee, the chairman and minority chairman of the Transportation Committee of the Senate, and the chairman and minority chairman of the Transportation Committee of the House of Representatives.

The transit entity shall implement its action plan in accordance with the time frames specified in the plan.

Vehicles Which Must Comply With Stopping Requirements

The Department of Transportation (Department), acting through the Bureau of Highway Safety and Traffic Engineering, by publishing this notice in compliance with Section 3342(d) of the Vehicle Code, 75 Pa.C.S. § 3342(d), designates the vehicles which must comply with the stopping requirements in Section 3342(b)(1) of the Vehicle Code, 75 Pa.C.S. § 3342(b)(1). The vehicles subject to this requirement are listed at the end of this notice.

In the course of determining the types of vehicles to be included in this list, the Department considered a number of factors, including the hazardous nature of substances carried by particular types of vehicles and the number of passengers carried by particular types of vehicles engaged in the transportation business. The Department also submitted its proposed list of vehicles to the Motor Carrier Enforcement Division of the Bureau of Maintenance of Operations, and to the Bureau of Driver Licensing, Motor Vehicles, and Public Transportation. The Department also provided the proposed list to the Pennsylvania State Police, Bureau of Patrol, and the Pennsylvania Public Utility Commission, Bureau of Transportation and Safety.

Under the provisions of Section 3342(a) of the Vehicle Code, 75 Pa.C.S. § 3342(a), the driver of any vehicle designated in this list, before crossing at grade any track or tracks of a railroad, shall stop the vehicle within 50 feet but not less than 15 feet from the nearest rail of the railroad crossing. While so stopped, the driver shall listen and look in both directions along the track for any approaching train, and for signals indicating the approach of a train. When it is safe to do so, the driver of the vehicle shall drive the vehicle across the tracks only in such gear of the vehicle that there will be no necessity for manually changing gears while traversing the crossing. The driver shall not manually shift gears while crossing the track or tracks.

The vehicles described in the list are not required to stop at any railroad grade crossing, abandoned railroad grade crossing, or industrial or spur line railroad grade crossing marked or controlled in accordance with the provisions Section 3324(c) of the Vehicle Code, 75 Pa.C.S. § 3324(c) (relating to exceptions).

The following types of vehicles shall stop at railroad grade crossings as required in 75 Pa.C.S., The Vehicle Code, § 3342(b)(1):

1. Every bus transporting passengers.
2. Vehicles engaged in the carriage of persons as passengers of a transportation service, owned or operated by private nonprofit corporations, associations, municipalities, counties, or by the Commonwealth or its departments, agencies, or boards.
3. Every commercial motor vehicle that, in accordance with the regulations of the US Department of Transportation, is required to be marked or placarded with one of the following classifications:
   i. Division 1.1, 1.2, 1.3, or 1.4
   ii. Division 2.3 Poison Gas
   iii. Division 4.1
   iv. Division 5.1
   v. Division 2.2
   vi. Class 8
   vii. Division 2.1
   viii. Class 7
   ix. Division 4.3
   x. Division 2.3 Chlorine
   xi. Class 3 Flammable Liquid
   xii. Division 6.1 Poison
   xiii. Division 2.2 Oxygen
   xiv. Class 3 Combustible Liquid
   xv. Division 5.2

4. Every commercial motor vehicle transporting any quantity of a Division 2.3 chlorine.
5. Every cargo tank motor vehicle, whether loaded or empty, used for the transportation of any hazardous materials as defined in 49 CFR Parts 107 through 180, the Hazardous Materials Regulations of the US Department of Transportation.
6. Every cargo tank motor vehicle transporting a commodity that, at the time of loading, has a temperature above its flash point as determined in 49 CFR 173.120 of the US Department of Transportation's Hazardous Materials Regulations.
7. Every cargo tank motor vehicle, whether loaded or empty, transporting any commodity under exemption in accordance with the provisions in 49 CFR, Subpart B, Part 107 of the Hazardous Materials Regulations of the US Department of Transportation.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insured has requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68) in connection with the termination of the insured’s automobile policy. The hearing will be held in accordance with the requirements of the act; 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). This administrative hearing will be held in the Insurance Department’s Regional Offices in Harrisburg, PA. Failure by the appellant to appear at the scheduled hearing may result in dismissal with prejudice.

The hearing will be held in the Administrative Hearings Office, Capitol Associates Building, Room 200, 901 North Seventh Street, Harrisburg, PA 17102.

Appeal of Robert T. Supon; file no. 00-181-08177; Hartford Insurance Company; doc. no. P01-02-001; March 22, 2001, at 10 a.m.

Each party may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses and the like necessary to support the party’s case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Commissioner may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance coverage obtained while the appeal is pending, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Insurance Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner’s Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

TREASURY DEPARTMENT

Notice of Names of Persons Appearing to be Owners of Abandoned and Unclaimed Property

Listed as follows are the names and last known addresses of local residents who are the rightful owners of property recently received by Treasury. We are advertising their names here because they have not responded to letters sent to their last known address. Please take a few minutes to look for your name, or the names of people you may know.

If you find your name on this list, call Unclaimed Property customer service representatives at (800) 222-2046. Or you can fill out an inquiry form on Treasury's Web site, www.treasury.state.pa.us, to begin the claims process.

If someone other than Treasury's Unclaimed Property staff contacts you offering to help you claim property, call us first. Our services are free. Others may legally charge a fee of up to fifteen percent of the total value of any property recovered on your behalf.

If a number appears after your name, please refer to the cross-reference list titled "Unclaimed Property Holders" and contact that company directly to claim your property. (If you choose not to contact the company within the next 3 months, contact Treasury's Unclaimed Property to file your claim.)

If you find the name of someone you know, please encourage him or her to contact us.

If your name is not on the list, don't give up! The names listed here represent only a tiny fraction of our database. We have more than a million names and over $500 million worth of property on record. One in every 14 Pennsylvanians is entitled to unclaimed property and the average claim is $1,000. Call the toll-free number and well check the complete database for you. Or you can search for a name yourself, day or night, by visiting Treasury's web site and using our new, easy, interactive search program.

The Turnpike Commission (Commission) is seeking interested firms to submit Letters of Interest for Architectural/Engineering design services for the construction of a new Service Plaza in the far Western portion of the Turnpike system. This project will include all design work for buildings necessary to meet the various programmatic needs for the full service plaza, which will include restaurant/dining operations, convenience store, restrooms, vehicle fueling, traveler information center, farmers’ market, and the like. Also included is design for all plaza site work for parking, lighting, pedestrian walkways, canopies, picnic areas, landscaping, security features, and the like, and design of all civil engineering for the site and the interchange—including a bridge over the Turnpike, ramps, ramp lighting, and the like.

Questions and inquiries concerning this Project should be directed to Don Santostefano at (717) 986-9627 or by e-mail at dsantost@paturnpike.com.

The following factors will be considered by the Commission during the evaluation of the firms submitting Letters of Interest for these projects:

a. Specialized experience and technical competence of prime consultant and subconsultants. The Team must clearly demonstrate an ability to analyze available data to make decisions and develop documents to complete the project in a timely and cost effective manner.

b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on similar projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project, and the client.

c. The specific experience and number of individuals who constitute the firm.

d. Location of consultant’s office where the work will be performed.

e. Workload of the prime consultant and subconsultants for all Pennsylvania Department of Transportation and Pennsylvania Turnpike Commission projects.

f. Other factors, if any, specific to the project.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit a Letter of Interest with the required information. The Letters of Interest must include the following:

1. One page transmittal letter clearly identifying the firm.
2. A three page expression of interest on the advertised project reference number, the firm’s federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified.)
3. A two page list of resumes of key personnel expected to be involved in the project. Each firm should demonstrate their ability to perform the specific requirements indicated for the project and provide explanation that the firm has successfully completed similar type projects of the same magnitude.
4. An organization chart for the Project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultant’s list in the letter of interest will require written approval from the Commission.
5. Tabulation of workload for the prime consultant and all subconsultants for all Pennsylvania Department of Transportation and Pennsylvania Turnpike Commission projects.
6. The package must include the following:
   • Standard Form (SF) 254—Architect-Engineer and Related Services Questionnaire in its entirety, not more than 1 year old as of the date of the advertisement.
   • Resumes of key personnel expected to be involved in the project. (Limit to one 8 1/2 x 11 page, one side, per person). Only resumes of key personnel should be included.
   • Copy of the firm’s registration to do business in the Commonwealth as provided by the Department of State for firms with out-of-state headquarters or corporations not incorporated in Pennsylvania.
   • A copy of the Department’s DBE/WBE Certification, if applicable.
If a Joint Venture responds to a project advertisement, the Commission will not accept separate letters of interest from joint venture constituents. A firm will not be permitted to submit a letter of interest on more than one joint venture for the same project reference number. Also, a firm that responds to a project as a prime may not be included as a designated subconsultant to another firm that responds to the same project advertisement. This does not preclude a firm from being set forth as a designated subconsultant to more than one prime consultant responding to the project advertisement.

The Turnpike Commission is committed to the inclusion of disadvantaged, minority, and woman firms in contracting opportunities. The minimum participation level for DBE/MBE/WBE in this contract will be 10%. Responding firms shall clearly identify DBE/MBE/WBE firms, expected to participate in these contracts, in their letter of interest. If the selected firm does not meet the minimum requirement for DBE/MBE/WBE participation, they will be required to demonstrate good faith efforts to achieve the required level. Proposed DBE/MBE/WBE firms must be certified by the Pennsylvania Department of Transportation at the time of the submission of the letter of interest. If further information is desired concerning DBE/MBE/WBE participation, direct inquiries to the Contracts Administration Department, Pennsylvania Turnpike Commission by calling (717) 939-9551 Ext. 4241.

Firms interested in performing the above services are invited to submit a letter of interest and required information to Don Santostefano, Facilities Manager, at the PA Turnpike Commission Administration Building located at 176 Kost Road, Carlisle, PA 17013-0779. (FedEx address: 176 Kost Road, Carlisle, PA 17013-0779) (Mailing Address: P.O. Box 67676, Harrisburg, PA 17106-7676).

The Letter of Interest and required information must be received by 12 noon, Friday, March 2, 2001. Any letters of interest received after this date and time will be time-stamped and returned.

Based on an evaluation of acceptable letters of interest received in response to these solicitations, one firm will be selected for this project. The order of preference will be established for the purpose of negotiating an agreement with the highest ranked firm established by the Technical Review Committee and approved by the Selection Committee. Technical Proposals or Requests for Proposals will not be requested prior to selection.

The Commission reserves the right to reject all letters of interest, to cancel solicitation requested under this notice, and/or to re-advertise solicitation for the work and services.

**Reference No. 1-124**

The Turnpike Commission (Commission) will retain an engineering firm for the design of the Full Depth Roadway Reconstruction Project between approximate Mileposts 99.00 and 109.00 in Westmoreland and Somerset Counties. The selected firm will be responsible for the preliminary and final design of this project.

The engineering services required would include supplemental field surveys, cross sections, evaluation of utility conflicts and potential relocations, development of erosion and sedimentation control plans and specifications, preparation of hydraulic reports for waterway approvals, preliminary and final traffic control plans, structural foundation reports, preparation of Type Size and Location and final bridge plans, preparation of preliminary and final right-of-way plans, geotechnical investigations, preparation of preliminary and final construction plans and specifications in order for the Commission to bid the total reconstruction of the roadway generally between Milepost 99.00 and 109.00. The intent is to rebuild the roadway and widen the median to a width that will be based on preliminary evaluations. It is anticipated that all of the mainline structures will require widening and that all overhead structures within the project area will be evaluated for rehabilitation, replacement, or elimination. An entirely new drainage system will be installed.

In addition, low-level photography will be available in this area to an accuracy of ± .05 feet. Hard copies of the mapping and a disk will be provided to the consultant for their use. A digital terrain model in AutoCAD DWG or Microstation DGN format will also be provided. The consultant will be required to perform supplemental surveys and reestablish the existing centerline of the Turnpike. Also, cross sections will be cut and plotted from the available information. The design for this project will be performed in English Units. All plans (drawings), including cross-sections, profiles, etc. will be prepared utilizing AutoCAD DWG or Microstation DGN format. Translation of the plans from one format to the other is not acceptable.

Direct project inquiries to Michael D. Shaak, P.E., at (717) 939-9551, extension 5380; or by e-mail at mshaak@paturnpike.com. Direct contractual questions to George M. Hatalowich at (717) 986-8737; or by e-mail at ghatalow@paturnpike.com.

**Full Depth Roadway Reconstruction**

**Chester County**

**Reference No. 4-059**

The Turnpike Commission (Commission) will retain an Engineering firm for the design of the Full Depth Roadway Reconstruction Project between approximate Mileposts 312.00 and 326.00 in Chester County. The selected firm will be responsible for the preliminary and final design of this project.

The engineering services required would include supplemental field surveys, cross sections, evaluation of utility conflicts and potential relocations, development of erosion and sedimentation control plans and specifications, preparation of hydraulic reports for waterway approvals, preliminary and final traffic control plans, structural foundation reports, preparation of Type Size and Location and final bridge plans, preparation of preliminary and final right-of-way plans, geotechnical investigations, preparation of preliminary and final construction plans and specifications in order for the Commission to bid the total reconstruction of the roadway generally between Milepost 312.00 and 326.00. The intent is to rebuild the roadway and widen the existing 10-foot median to a width that will be based on preliminary evaluations. It is anticipated that all of the mainline structures will require widening and that all overhead structures within the project area will be evaluated for rehabilitation, replacement, or elimination. An entirely new drainage system will be installed.
structures within the project area will be evaluated for rehabilitation, replacement, or elimination. Based on a traffic analysis, consideration will be given to widening the mainline by an additional lane in each direction. An entirely new drainage system will also be installed.

In addition, low-level photography will be available in this area to an accuracy of ± .05 feet. Hard copies of the mapping and a disk will be provided to the consultant for their use. A digital terrain model in AutoCAD DWG or Microstation DGN format will also be provided. Direct project inquiries to Michael D. Shaak, P.E., at (717) 939-9551, extension 5380; or by e-mail at mshaak@peturnpike.com. Direct contractual questions to George M. Hatalowich at (717) 986-8737; or by e-mail at ghatalow@peturnpike.com.

The following factors will be considered by the Commission during the evaluation of the firms submitting Letters of Interest for these projects:

a. Specialized experience and technical competence of prime consultant and subconsultants. The Team must clearly demonstrate an ability to analyze available data to make decisions and develop plans to complete the project in a timely and cost effective manner.

b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on similar projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project, and the client.

c. The specific experience and number of individuals who constitute the firm.

d. Workload of the prime consultant and subconsultants for all Pennsylvania Department of Transportation and Pennsylvania Turnpike Commission projects.

e. Other factors, if any, specific to the project.

**General Requirements and Information**

Firms interested in providing the above work and services are invited to submit a Letter of Interest with the required information. The Letters of Interest must include the following:

1. One page transmittal letter clearly identifying the project reference number, brief description of the project from the advertisement, the firm's federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified). In addition, identify the CADD format to be used on the Project.

2. A three page expression of interest on the advertised project. Each firm should demonstrate their ability to perform the specific requirements indicated for each project and provide explanation that the firm has successfully completed similar type projects of the same magnitude.

3. An organization chart for the Project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultant's listed in the letter of interest will require written approval from the Commission.

4. Tabulation or listing of workload for the prime consultant and all subconsultants for all Pennsylvania Department of Transportation and Pennsylvania Turnpike Commission projects. Do not submit the firms workload represented graphically.

5. An Annual Qualification Package similar to the one submitted to the Pennsylvania Department of Transportation for the current year that is in the same District as this project or one that is best suited for this project.

The Annual Qualification Package copy should contain at a minimum the following information for the prime consultant and all subconsultants and attached to the back of the letter of interest (subs to follow primes):

- Standard Form (SF) 254—Architect-Engineer and Related Services Questionnaire in its entirety, not more than 1 year old as of the date of the advertisement.

- Resumes of key personnel expected to be involved in the project. (limit to one 8 1/2 × 11 page, one side, per person). Only resumes of key personnel should be included.

- Copy of the firm's registration to do business in the Commonwealth as provided by the Department of State for firms with out-of-state headquarters or corporations not incorporated in Pennsylvania.

- A copy of the Department's DBE/WBE Certification, if applicable.

If a joint venture responds to a project advertisement, the Commission will not accept separate letters of interest from joint venture constituents. A firm will not be permitted to submit a letter of interest on more than one joint venture for the same project reference number. Also, a firm that responds to a project as a prime may not be included as a designated subconsultant to another firm that responds to the same project advertisement. This does not preclude a firm from being set forth as a designated subconsultant to more than one prime consultant responding to the project advertisement.

The Turnpike Commission is committed to the inclusion of disadvantaged, minority, and woman firms in contracting opportunities. The minimum participation level for DBE/MBE/WBEs in these contracts will be 10% each. Responding firms shall clearly identify DBE/MBE/WBE firms, expected to participate in these contracts, in their letter of interest. If the selected firm does not meet the minimum requirement for DBE/MBE/WBE participation, they will be required to demonstrate good faith efforts to achieve the required level. Proposed DBE/MBE/WBE firms must be certified by the Pennsylvania Department of Transportation at the time of the submission of the letter of interest. If further information is desired concerning DBE/MBE/WBE participation, direct inquiries to the Contracts Administration Department, Pennsylvania Turnpike Commission by calling (717) 939-9551 Ext. 4241.

Firms interested in performing the above services are invited to submit a letter of interest and required information to Barry L. Troup, P.E., Assistant Chief Engineer for Design, at the PA Turnpike Commission Administration Building located at 176 Kost Road, Carlisle, PA 17013-0779. (FedEx address: 176 Kost Road, Carlisle, PA 17013-0779) (Mailing Address: P. O. Box 67676, Harrisburg, PA 17106-6766).
The letter of interest and required information must be received by 12 noon, Friday, March 9, 2001. Any letters of interest received after this date and time will be time-stamped and returned.

Based on an evaluation of acceptable letters of interest received in response to these solicitations, one firm will be selected for each project. The order of preference will be established for the purpose of negotiating an agreement with the highest ranked firm established by the Technical Review Committee and approved by the Selection Committee. Technical Proposals or Requests for Proposals will not be requested prior to selection.

The Commission reserves the right to reject all letters of interest, to cancel solicitation requested under this notice, and/or to re-advertise solicitation for the work and services.
