READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Effective Dates of Statutes

The effective dates specified previously for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the *Pennsylvania Consolidated Statutes* provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania."

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT [204 PA. CODE CH. 89]

Amendments to Rules of Organization and Procedure of the Disciplinary Board of the Supreme Court of Pennsylvania; Order No. 57; Doc. No. R-132

The current Rules of Organization and Procedure of the Board provide for the holding of optional conferences either before or during a hearing, but do not require a prehearing conference in all cases. 204 Pa. Code § 89.71. The Board has concluded that the hearing process would be improved if a prehearing conference were always required. This Order accordingly amends the rules of the Board to require the scheduling in all cases of a prehearing conference to be held not less than 30 days before a hearing. A Notice of Proposed Rulemaking regarding the amendments adopted by this Order was published in the *Pennsylvania Bulletin*. No comments were received in response.

The Disciplinary Board of the Supreme Court of Pennsylvania hereby finds that the amendments to the Rules of Organization and Procedure of the Board adopted hereby are not inconsistent with the Pennsylvania Rules of Disciplinary Enforcement and are necessary and appropriate for the administration of the affairs of the Board.

The Board, acting pursuant to Pa.R.D.E. 205(c)(10), orders:

(1) Title 204 of the *Pennsylvania Code* is hereby amended as set forth in Annex A hereto.

(2) The Secretary of the Board shall duly certify this Order, and deposit the same with the Administrative Office of Pennsylvania Courts as required by Pa.R.J.A. 103(c).

(3) The amendments adopted hereby shall take effect upon publication in the *Pennsylvania Bulletin* and shall govern all matters thereafter commenced and, insofar as just and practical, matters then pending.

(4) This Order shall take effect immediately.

CHAPTER 89. FORMAL PROCEEDINGS

Subchapter B. INSTITUTION OF PROCEEDINGS

§ 89.57. Scheduling of hearing **and prehearing conference**.

The date, time and place of hearing on a petition for discipline shall be scheduled by the Office of the Secre-

tary after consultation with and consideration of any recommendation by the members of the hearing committee or special master, the Office of Disciplinary Counsel, and, if available, the respondent-attorney. The date fixed for the hearing shall not be later than [60] 90 days after the file is transmitted to a hearing committee or special master under § 89.56 (relating to assignment for hearing), unless an extension has been granted by the Board Chairman at the request of any party. **At the time that the hearing is scheduled, the Office of the Secretary shall also schedule a prehearing conference for a date not less than 30 days before the scheduled date of the hearing.**

§ 89.58. Notice of hearing **and prehearing conference**.

The Office of the Secretary shall serve or cause to be served notice of **the hearing and prehearing conference required by § 89.57 (relating to scheduling of hearing and prehearing conference)** by means of Form DB-34 (Notice of Hearing and Prehearing Conference) upon the respondent-attorney, at least seven days in advance of the date fixed for the [**hearing**] **prehearing conference**. The notice shall indicate the [**date, time and place**] **dates, times and places of the prehearing conference and the hearing** and shall state that the respondent-attorney is entitled to be represented by counsel, to cross-examine witnesses and to present evidence in the respondent-attorney's own behalf. A copy of the notice [**of hearing**] shall at the same time be transmitted to staff counsel. See § 89.7(b) (relating to notice to other tribunals).

Title 231—RULES OF CIVIL PROCEDURE

PART I. GENERAL

[231 PA. CODE CH. 200]

Amendment of Rule 230 Governing Voluntary Nonsuit; No. 375 Civil Procedural Rules; Doc. No. 5

Order

Per Curiam:

And Now, this 3rd day of October, 2002, Rule 230 of the Pennsylvania Rules of Civil Procedure is amended to read as follows.

This Order shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective January 1, 2003.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 200. BUSINESS OF COURTS

Rule 230. Voluntary Nonsuit.

(a) A voluntary nonsuit shall be the exclusive method of voluntary termination of an action [,] in whole or in part by the plaintiff during the trial.

Official Note: A plaintiff who asserts a cause of action ex contractu and joins as defendants persons liable to the plaintiff in different capacities may not [**suffer**] **obtain** a voluntary nonsuit as to a defendant primarily liable without [**suffering**] **obtaining** a voluntary nonsuit as to all defendants secondarily liable. Rule 2231(e).

(b) A plaintiff [**who has rested the case in chief**] may not [**suffer**] **obtain** a voluntary nonsuit without leave of court **upon good cause shown** and cannot do so after the close of all the evidence.

Explanatory Comment

Prior to the present amendment, Rule 230 permitted a plaintiff to "suffer" a nonsuit at his or her whim. The exercise of that right for no good reason, e.g., simply because the plaintiff is not satisfied with the progress of the trial, was unfair to other parties to the action and a waste of judicial time and resources. The rule has now been amended to make the right of a plaintiff to "obtain" a voluntary nonsuit subject to the approval of the court "upon good cause shown."

PROPOSED RULEMAKING

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CHS. 121, 129 AND 145]

Small Sources of NO_x, Cement Kilns and Large Internal Combustion Engines

The Environmental Quality Board (Board) proposes to amend Chapters 121, 129 and 145 (relating to general provisions; standards for sources; and interstate pollution transport reduction). This proposed rulemaking establishes additional ozone season nitrogen oxide (NO_x) control requirements for certain boilers, turbines and stationary internal combustion units that are small sources of NO_x in the Counties of Bucks, Chester, Delaware, Montgomery and Philadelphia. The proposed rulemaking also establishes ozone season NO_x emission limits for large stationary internal combustion engines and Portland cement kilns across this Commonwealth.

This proposal was adopted by the Board at its meeting of September 17, 2002.

A. *Effective Date*

The proposed rulemaking will go into effect upon publication in the *Pennsylvania Bulletin* as a final-form rulemaking.

B. *Contact Persons*

For further information contact Dean E. Van Orden, Chief, Stationary Sources Section, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Rachel Carson State Office Building, Harrisburg, PA 17105-8468, (717) 787-9495; or Kristen M. Campfield, Assistant Counsel, Bureau of Regulatory Counsel, P. O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA 17105-8464, (717) 787-7060. Information regarding submitting comments on this proposal appears in Section I of this Preamble. Persons with a disability may use the AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This proposed rulemaking is available electronically through the Department of Environmental Protection's (Department) website (<http://www.dep.state.pa.us>), choose "participate."

C. *Statutory Authority*

This proposed rulemaking is being made under the authority of section 5 of the Air Pollution Control Act (35 P. S. § 4005), which grants the Board the authority to adopt regulations for the prevention, control, reduction and abatement of air pollution.

D. *Background and Purpose*

When ground-level ozone is present in concentrations in excess of the Federal health-based standard, public health is adversely affected. The Environmental Protection Agency (EPA) has concluded that there is an association between ambient ozone concentrations and increased hospital admissions for respiratory ailments, such as asthma. Further, although children, the elderly and those with respiratory problems are most at risk, even healthy individuals may experience increased respiratory ailments and other symptoms when they are exposed to ambient ozone while engaged in activity that involves physical exertion. Though these symptoms are often temporary, repeated exposure could result in permanent

lung damage. The implementation of additional measures to address ozone air quality nonattainment in this Commonwealth is necessary to protect the public health.

The purpose of this proposed rulemaking is to reduce emissions of NO_x, so as to reduce levels of ground-level ozone. Ground-level ozone is not directly emitted by pollution sources, but is created as a result of the chemical reaction of NO_x and volatile organic compounds (VOC), in the presence of light and heat. The reduction of NO_x will also protect the public health from high levels of fine particulates, of which NO_x is a precursor component. Fine particulates, as well as ozone, are health hazards. The reduction of NO_x also reduces visibility impairment and acid deposition. This proposed rulemaking is part of the Commonwealth's specific action plan and is necessary to achieve and maintain the ozone National Ambient Air Quality Standard in this Commonwealth and is part of a regional effort among the states in the Ozone Transport Region (OTR) to reduce transported ozone.

The proposed amendments to Chapters 121 and 129 establish ozone season (May 1 through September 30) emission limits for NO_x from certain boilers, turbines and stationary internal combustion engines located at industrial, utility and commercial sites in the Counties of Bucks, Chester, Delaware, Montgomery and Philadelphia. These counties are in a severe nonattainment area for ozone. Surrounding states in the same nonattainment area (Maryland, Delaware and New Jersey) are taking similar actions. The Board's proposed rulemaking requires the emission limits to be implemented by May 1, 2005. The proposed amendments to Chapters 121 and 129 do not affect large sources that are regulated under Chapter 145. The proposed rulemaking is based on model rules developed by the Ozone Transport Commission (OTC), which was created to address ozone problems in the OTR. The Commonwealth is a member of the OTC. The proposed rulemaking is also consistent with the recommendations of the Southeast Pennsylvania Ozone Stakeholders Working Group.

In 1998, the EPA published its requirement that 22 eastern states and the District of Columbia submit revised State Implementation Plans (SIP) (NO_x SIP Call) prohibiting those amounts of NO_x emissions that significantly contribute to ozone attainment problems in downwind states. In 2000, the Commonwealth promulgated Chapter 145, Subchapter A (relating to NO_x budget trading program), which contains the NO_x cap and trade program for fossil fuel-fired combustion units and electric generating units, to satisfy the first phase of the NO_x SIP Call. Subchapter A was published and adopted at 30 Pa.B. 4899 (September 30, 2000) and was approved by the EPA as a SIP revision on August 21, 2001 (66 FR 43795). In this proposed rulemaking, Chapter 145, Subchapters B and C (relating to emission of NO_x from stationary internal combustion engines; and emissions of NO_x from cement manufacturing) are needed to satisfy the Commonwealth's remaining obligation under the NO_x SIP Call.

Proposed Subchapters B and C establish ozone season emission limits for NO_x from large stationary internal combustion engines that emitted more than 153 tons of NO_x per ozone season in 1995 or any ozone season thereafter and from Portland cement kilns. Revisions pertaining to large stationary internal combustion engines and cement kilns were originally part of the 2000

proposal, but final action was deferred on them. The current proposed rulemaking reflects further revisions made in response to comments received on the previous proposal and is based on EPA proposed emission limits and control technologies published February 22, 2002 (67 FR 8396), and October 21, 1998 (63 FR 56394). The cement kiln provisions in the current proposal are similar to rules adopted by other states including West Virginia, Maryland and Illinois. Most states are expected to adopt similar provisions for cement kilns and large stationary internal combustion engines.

Subchapter B will impact owners and operators of an estimated 14 large stationary internal combustion engines owned by 4 companies and institutions. Subchapter C will impact the owners and operators of 21 cement kilns and will require 8 of them to install continuous emission monitors and report the data in accordance with existing monitoring regulations. Two cement kilns have shutdown or have announced a shutdown date. The remaining cement kilns currently operate Continuous Emission Monitoring Systems (CEMS).

The Board's proposed rulemaking also represents the Commonwealth's continuing commitment to do its fair share in reducing ozone transport both within this Commonwealth and throughout the northeast.

The Department worked with the Air Quality Technical Advisory Committee (AQTAC) in the development of this proposed rulemaking. The Department presented an earlier draft of the Chapter 129 amendments to AQTAC at its January 17, 2002, meeting. In response to AQTAC's comments at the January meeting, the Department revised the proposal, which it presented to AQTAC at its May 2, 2002, meeting. At that meeting, AQTAC concurred with the Department's recommendation that the Board publish the proposed rulemaking. However, AQTAC specifically requested that the Board seek public comment on three issues concerning scope and flexibility. Those three issues are identified more fully in Section I of this Preamble.

E. Summary of Regulatory Requirements

The proposed amendments to Chapter 121 consist of definitions of four terms that will be used in the substantive provisions of this proposed rulemaking. The terms are "emergency stationary internal combustion engine," "fire-fighting stationary internal combustion engine," "ppmvd" and "stationary internal combustion engine."

The proposed amendments to Chapter 129 apply during the ozone season (May 1 to September 30) to small sources of NO_x located in Bucks, Chester, Delaware, Montgomery or Philadelphia County (the five county Philadelphia area). The proposed rulemaking establishes NO_x emission limits for boilers, stationary combustion turbines and stationary internal combustion engines in §§ 129.201—129.203 (relating to standards for boilers; standards for stationary combustion turbines; and standards for stationary internal combustion engines). These sections allow averaging of emissions to demonstrate compliance in certain circumstances. Some boilers and turbines may demonstrate compliance through the opt-in provisions of §§ 145.80—145.88 (relating to opt-in process). Emergency gas turbines and fire-fighting turbines, fire-fighting stationary internal combustion engines and emergency stationary internal combustion engines are exempt.

Proposed Chapter 145, Subchapter B establishes emission rates for four categories of large stationary internal combustion engines listed in § 145.111 (relating to appli-

cability). Section 145.112 (relating to definitions) defines terms that are used in Subchapter B: "CEMS—Continuous Emission Monitoring System," "diesel stationary internal combustion engine," "dual-fuel stationary internal combustion engine," "engine rating," "lean-burn stationary internal combustion engine," "rich-burn stationary internal combustion engine," "stoichiometric air/fuel ratio" and "unit." Section 145.113 (relating to standard requirements) establishes the emission rates.

This subchapter also establishes compliance reporting, monitoring and recordkeeping requirements in §§ 145.114 and 145.115 (relating to compliance determination; and reporting, monitoring and recordkeeping). Section 145.114 allows averaging of emissions to demonstrate compliance in certain circumstances.

Proposed Subchapter C applies to Portland cement kilns. See § 145.141 (relating to applicability). Section 145.142 (relating to definitions) defines the following terms for the purposes of this subchapter: "CEMS—Continuous Emission Monitoring System," "clinker," "low NO_x burner," "mid-kiln firing," "Portland cement" and "Portland cement kiln." Section 145.143 (relating to standard requirements) establishes acceptable control technologies and emission limitations. Section 145.144 (relating to reporting, monitoring and recordkeeping) establishes reporting, monitoring and recordkeeping requirements for these units.

This proposed rulemaking, if adopted as a final-form rulemaking, will be submitted to the EPA as an amendment to the SIP.

F. Benefits, Costs and Compliance

Executive Order 1996-1, "Regulatory Review and Promulgation," requires a cost/benefit analysis of the proposed rulemaking.

Benefits

Overall, the citizens of this Commonwealth will benefit from this proposed rulemaking because the changes will result in improved air quality by reducing ozone and fine particulate precursor emissions and encourage new technologies and practices, which will reduce emissions. The proposed rulemaking will also reduce visibility impairment and acid deposition. Financial savings resulting from the proposed rulemaking in terms of effects on mortality, hospital admissions, acute bronchitis, acute respiratory systems, worker productivity, crops and forests could exceed \$16 million per year, based on EPA estimates.

Compliance Costs

The boilers, turbines and stationary internal combustion engines subject to the proposed Chapter 129 amendments are expected to reduce NO_x emissions by approximately 3 tons per day in the Philadelphia area. The emission reduction can be achieved through installation of control equipment, combustion unit modification or fuel switching. Cost to reduce emissions for these sources has been estimated to be \$1,500 to \$3,500 per ton for boilers, \$3,000 per ton of NO_x for turbines and \$1,700 to \$4,400 per ton for stationary internal combustion engines. Under Chapter 145, large stationary internal combustion engines are expected to install control equipment to meet the emission reduction requirements. These controls are estimated to cost \$1,500 to \$2,000 per ton of NO_x reduced. Cement kilns are expected to achieve some emission reductions through improved fuel efficiency resulting in a potential cost savings. Eight kilns will need

to install continuous emission monitors at a cost of approximately \$60,000 to \$100,000 each.

Compliance Assistance Plan

The Department plans to educate and assist the regulated community and the public with understanding these new regulatory requirements through various means, including field inspector contacts, mailings and the Small Business Compliance Assistance Program.

Paperwork Requirements

Aside from electronic CEMS reports that will be required of the cement kiln owners or operators, the regulatory revisions will not increase the paperwork that is already generated during the normal course of business operations.

G. Sunset Review

The proposed rulemaking will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 8, 2002, the Department submitted a copy of the proposed rulemaking to the Independent Regulatory Review Commission (IRRC), and the Chairpersons of the Senate and House Environmental Resources and Energy Committees. In addition to submitting the proposed rulemaking, the Department has provided IRRC and the Committees with a copy of a detailed regulatory analysis form prepared by the Department. A copy of this material is available to the public upon request.

If IRRC has objections to any portion of the proposed rulemaking, it will notify the Department within 10 days following the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review by the Department, the Governor, and the General Assembly before final-form publication of the rulemaking.

I. Public Comments

Written Comments—Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477 (express mail: Rachel Carson State Office Building, 15th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by December 26, 2002. Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by December 26, 2002. The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final regulation will be considered.

At the request of AQTAC, the Board is specifically requesting comments in three areas:

1. Section 129.201 allows an owner or operator of two or more affected boilers to demonstrate compliance with the emission levels required in that section by averaging emissions from the boilers, with written Department approval. Sections 129.202 and 129.203 allow the same for an owner or operator of two or more stationary combustion turbines or stationary internal combustion engines. The Board is requesting comment on whether

these sections should remain the same, allow more flexibility or allow less flexibility. Examples of flexibility include allowing owners and operators to average their NO_x emissions among other sources within the five county Philadelphia ozone nonattainment area or allowing sources to purchase and retire NO_x allowances issued under Chapter 145, Subchapter A of contemporaneous vintage from the five county area.

2. Affected sources are requested to submit detailed information concerning the technical feasibility of the proposed control requirements and potential cost to comply for the affected units in this Commonwealth.

3. The proposed revisions to Chapter 129 apply only within the five county Philadelphia area. The entire proposed rulemaking applies only during each year's ozone season (May 1 through September 30). The Board is requesting comment on whether the proposal should apply Statewide and for the entire year.

Electronic Comments—Comments may be submitted electronically to the Board at regcomments@state.pa.us and must also be received by the Board by December 26, 2002. A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgement of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

J. Public Hearings

The Board will hold three public hearings for the purpose of accepting comments on the proposed rulemaking. The hearings will be held at 1 p.m. on the following dates:

November 18, 2002	Department of Environmental Protection Southcentral Regional Office Susquehanna River Conference Room A 909 Elmerton Avenue Harrisburg, PA
November 20, 2002	Department of Environmental Protection Southwest Regional Office Waterfront A Conference Room 500 Waterfront Drive Pittsburgh, PA
November 25, 2002	Department of Environmental Protection Southeast Regional Park Main Conference Room, Lee Park 555 North Lane Conshohocken, PA

Persons wishing to present testimony at a hearing are requested to contact Heather Dwilet, Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477, (717) 787-4526, at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony is limited to 10 minutes for each witness. Witnesses are requested to submit three written copies of their oral testimony to the hearing chairperson at the hearing. Organizations are limited to designating one witness to present testimony on their behalf at each hearing.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact Heather Dwilet at (717) 787-4526 or through the

Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

TITLE 25. ENVIRONMENTAL PROTECTION

PART I. DEPARTMENT OF ENVIRONMENTAL PROTECTION

Subpart C. PROTECTION OF NATURAL RESOURCES

ARTICLE III. AIR RESOURCES

CHAPTER 121. GENERAL PROVISIONS

§ 121.1. Definitions.

The definitions in section 3 of the act (35 P. S. § 4003) apply to this article. In addition, the following words and terms, when used in this article, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

Emergency stationary internal combustion engine—

(i) A stationary internal combustion engine that operates as a mechanical or electrical power source only when the primary power source for a facility has been rendered inoperable by events beyond the control of the owner or operator.

(ii) A stationary reciprocating engine that provides power during instances of voltage reduction or curtailment from the electrical grid is not an emergency stationary internal combustion engine.

* * * * *

Fire-fighting stationary internal combustion engine—A stationary internal combustion engine that is used solely to pump water for extinguishing fires.

* * * * *

ppmvd—Parts per million dry volume.

* * * * *

Stationary internal combustion engine—

(i) An internal combustion engine of the reciprocating type that is either attached to a foundation at a facility or is designed to be capable of being carried or moved from one location to another and remains at a single site at a building, structure, facility, or installation for more than 30 days.

(ii) An engine that replaces an engine at a site that is intended to perform the same or similar function as the engine replaced is included in calculating the consecutive time period.

CHAPTER 129. STANDARDS FOR SOURCES

ADDITIONAL NO_x REQUIREMENTS

§ 129.201. Standards for boilers.

(a) By May 1, 2005, the owner or operator of a boiler that meets the definition of a boiler in § 145.2 (relating

to definitions) located in Bucks, Chester, Delaware, Montgomery or Philadelphia County shall ensure that the boiler meets the lower of any NO_x emission limitation established in a permit issued under Chapter 127 (relating to permits) or the following NO_x emission limits:

(1) Boilers with a nameplate rated capacity of greater than 100 million Btu/hour but less than or equal to 250 million Btu/hour shall meet the following NO_x emission standards from May 1 through September 30 of each year:

(i) Natural gas-fired boilers or boilers firing a noncommercial gaseous fuel may not emit NO_x in excess of 0.10 pounds NO_x per million Btu or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 60% from the actual 1990 NO_x emission rate as determined in § 129.91(b) (relating to control of major sources of NO_x and VOCs). The NO_x emissions from the boiler after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(ii) Boilers firing solid or liquid fuel may not emit NO_x in excess of 0.20 pounds of NO_x per million Btu or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 60% from the actual 1990 NO_x emission rate as determined in § 129.91(b). The NO_x emissions from the boiler after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(2) Boilers with a nameplate rated capacity of greater than 250 million Btu/hour that are not subject to §§ 145.1—145.7, 145.10—145.14, 145.30, 145.31, 145.40—145.43, 145.50—145.57, 145.60—145.62 and 145.70—145.76 shall meet the lower of any NO_x emission limitation established in a permit issued under Chapter 127 or 0.17 pounds NO_x per million Btu heat input from May 1 through September 30 of each year. A boiler may demonstrate compliance with this paragraph through the provisions of §§ 145.80—145.88 (relating to opt-in process).

(b) The owner or operator of two or more boilers identified in subsection (a) may propose in writing to the Department to demonstrate compliance with this section by averaging emissions from the affected sources. Averaging may not eliminate or modify an otherwise applicable regulatory or permit-based emission limitation. The owner or operator shall propose monitoring and averaging provisions sufficient to demonstrate compliance on a daily basis. The Department will approve the averaging proposal in writing.

§ 129.202. Standards for stationary combustion turbines.

(a) By May 1, 2005, the owner or operator of a stationary combustion turbine located in Bucks, Chester, Delaware, Montgomery or Philadelphia County shall ensure that the stationary combustion turbine meets the lower of any NO_x emission limitation established in a permit issued under Chapter 127 (relating to permits) or the following NO_x emission limits:

(1) Stationary combustion turbines with a nameplate rated capacity of greater than 100 million Btu/hour but less than or equal to 250 million Btu/hour shall meet the following NO_x emission standards from May 1 through September 30 of each year:

(i) Combined cycle or regenerative cycle stationary combustion turbines shall emit no more than:

(A) 42 ppmvd of NO_x, corrected to 15% O₂, when firing natural gas or a noncommercial gaseous fuel or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 60% from the actual 1990 NO_x emission rate as determined in § 129.91(b) (relating to control of major sources of NO_x and VOCs). The NO_x emissions from the turbine after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(B) 65 ppmvd of NO_x, corrected to 15% O₂, when firing oil or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 60% from the actual 1990 NO_x emission rate as determined in § 129.91(b). The NO_x emissions from the turbine after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(ii) Simple cycle stationary combustion turbines shall emit no more than:

(A) 55 ppmvd of NO_x, corrected to 15% O₂, when firing natural gas or a noncommercial gaseous fuel or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 60% from the actual 1990 NO_x emission rate as determined in § 129.91(b). The NO_x emissions from the turbine after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(B) 75 ppmvd of NO_x, corrected to 15% O₂, when firing oil or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 60% from the actual 1990 NO_x emission rate as determined in § 129.91(b). The NO_x emissions from the turbine after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(2) Stationary combustion turbines with a nameplate rated capacity of greater than 250 million Btu/hour that are not subject to §§ 145.1—145.7, 145.10—145.14, 145.30, 145.31, 145.40—145.43, 145.50—145.57, 145.60—145.62 and 145.70—145.76 shall meet the lower of any NO_x emission limit established in a permit issued under Chapter 127 or 0.17 lb NO_x per million Btu heat input from May 1 through September 30 of each year. A stationary combustion turbine may demonstrate compliance with this paragraph through the provisions of §§ 145.80—145.88 (relating to opt-in process).

(b) Emergency gas turbines and fire-fighting turbines, as those terms are defined in 40 CFR 60.331 (relating to definitions), are exempt from this section.

(c) The owner or operator of two or more stationary combustion turbines identified in subsection (a) may propose in writing to the Department to demonstrate compliance with this section by averaging emissions from the affected sources. Averaging may not eliminate or modify an otherwise applicable regulatory or permit-based emission limitation. The owner or operator shall propose monitoring and averaging provisions sufficient to demonstrate compliance on a daily basis. The Department will approve the averaging proposal in writing.

§ 129.203. Standards for stationary internal combustion engines.

(a) This section applies to stationary internal combustion engines rated at greater than 1,000 horsepower and

located in Bucks, Chester, Delaware, Montgomery or Philadelphia County, except for the following:

(1) Fire-fighting stationary internal combustion engines and emergency stationary internal combustion engines.

(2) Stationary internal combustion engines regulated under Chapter 145, Subchapter B (relating to emissions of NO_x from stationary internal combustion engines).

(b) By May 1, 2005, the owner or operator shall ensure that, during the period May 1 through September 30 of each year, the affected stationary internal combustion engines identified in subsection (a) meet the lower of any NO_x emission limitation established in a permit issued under Chapter 127 (relating to permits) or the following NO_x emission limits:

(1) For a spark-ignited engine, 1.5 grams of NO_x per brake horsepower-hour or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 80% from the actual 1990 NO_x emission rate as determined in § 129.91(b) (relating to control of major sources of NO_x and VOCs). The NO_x emissions from the stationary internal combustion engine after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(2) For a compression ignition stationary internal combustion engine firing diesel fuel or a combination of diesel fuel and natural gas, 2.3 grams of NO_x per brake horsepower-hour or an alternate emission rate approved by the Department that achieves a NO_x emission reduction of 80% from the actual 1990 NO_x emission rate as determined in § 129.91(b). The NO_x emissions from the stationary internal combustion engine after implementation of the alternate standard may not exceed any NO_x emission limit contained in a permit issued under Chapter 127.

(c) The owner or operator of two or more stationary internal combustion engines identified in subsection (a) may propose in writing to the Department to demonstrate compliance with this section by averaging emissions from the affected sources. Averaging may not eliminate or modify any otherwise applicable regulatory or permit-based emission limitation. The owner or operator shall propose monitoring and averaging provisions sufficient to demonstrate compliance on a daily basis. The Department will approve the averaging proposal in writing.

CHAPTER 145. INTERSTATE POLLUTION TRANSPORT REDUCTION

Subchapter B. EMISSIONS OF NO_x FROM STATIONARY INTERNAL COMBUSTION ENGINES

Sec.

145.111. Applicability.

145.112. Definitions.

145.113. Standard requirements.

145.114. Compliance determination.

145.115. Reporting, monitoring and recordkeeping.

§ 145.111. Applicability.

(a) An owner or operator of a rich-burn stationary internal combustion engine with an engine rating equal to or greater than 2,400 brake horsepower that emitted greater than or equal to 153 tons of NO_x from May 1 through September 30 in 1995 or from May 1 through September 30 of any year thereafter shall comply with the applicable requirements of this subchapter.

(b) An owner or operator of a lean-burn stationary internal combustion engine with an engine rating equal to or greater than 2,400 brake horsepower that emitted

greater than or equal to 153 tons of NO_x from May 1 through September 30 in 1995 or from May 1 through September 30 of any year thereafter shall comply with the applicable requirements of this subchapter.

(c) An owner or operator of a diesel stationary internal combustion engine with an engine rating equal to or greater than 3,000 brake horsepower that emitted greater than or equal to 153 tons of NO_x from May 1 through September 30 in 1995 or from May 1 through September 30 of any year thereafter shall comply with the applicable requirements of this subchapter.

(d) An owner or operator of a dual-fuel stationary internal combustion engine with an engine rating equal to or greater than 4,400 brake horsepower that emitted greater than or equal to 153 tons of NO_x from May 1 through September 30 in 1995 or from May 1 through September 30 of any year thereafter shall comply with the applicable requirements of this subchapter.

§ 145.112. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

CEMS—Continuous Emission Monitoring System—The equipment required under this subchapter and Chapter 139 (relating to sampling and testing) to sample, analyze, measure and provide, by readings taken at least every 15 minutes of the measured parameters, a permanent record of NO_x emissions.

Diesel stationary internal combustion engine—A compression-ignited two- or four-stroke engine in which liquid fuel injected into the combustion chamber ignites when the air charge has been compressed to a temperature sufficiently high for auto-ignition.

Dual-fuel stationary internal combustion engine—A compression-ignited stationary internal combustion engine that is burning liquid fuel and gaseous fuel simultaneously.

Engine rating—The output of an engine as determined by the engine manufacturer and listed on the nameplate of the unit, regardless of any derating.

Lean-burn stationary internal combustion engine—Any two- or four-stroke spark-ignited engine that is not a rich-burn stationary internal combustion engine.

Rich-burn stationary internal combustion engine—A two- or four-stroke spark-ignited engine where the manufacturer's original recommended operating air/fuel ratio divided by the stoichiometric air/fuel ratio is less than or equal to 1.1.

Stoichiometric air/fuel ratio—The air/fuel ratio where all fuel and all oxygen in the air/fuel mixture will be consumed.

Unit—An engine subject to this subchapter.

§ 145.113. Standard requirements.

Beginning May 1, 2005, an owner or operator of a unit described in § 145.111 (relating to applicability) may not operate the unit from May 1 through September 30 of any year unless the owner or operator complies with the following requirements:

(1) An owner or operator of a unit identified in § 145.111(a), (c) or (d) shall demonstrate that emissions from the unit have been reduced by 90% from the 1990 emission rate as determined in § 129.91(b) (relating to control of major sources of NO_x and VOCs).

(2) An owner or operator of a unit identified in § 145.111(b) shall demonstrate that emissions from the unit have been reduced by 91% from the 1990 emission rate as determined in § 129.91(b).

§ 145.114. Compliance determination.

(a) An owner or operator of a unit subject to this subchapter shall determine compliance using a CEMS that meets the applicable requirements of Chapter 139 (relating to sampling and testing) unless an alternate monitoring technique is approved by the Department under § 145.115(b)(1)(ii) (relating to reporting, monitoring and recordkeeping).

(b) An owner or operator of two or more units subject to this subchapter may demonstrate compliance with this subchapter through an averaging demonstration approved in writing by the Department. Averaging may not eliminate or modify an otherwise applicable regulatory or permit-based emission limitation. The units demonstrating compliance through an averaging provision shall be monitored using a CEMS.

§ 145.115. Reporting, monitoring and recordkeeping.

(a) *Reporting requirements.* An owner or operator of a unit subject to this subchapter shall:

(1) By May 1, 2004, submit to the Department the identification number and type of each unit, the name and address of the plant where the unit is located, and the name and telephone number of the person responsible for demonstrating compliance.

(2) Submit a report documenting for that unit the total NO_x emissions from May 1 through September 30 of each year to the Department by October 31 of each year, beginning in 2005.

(b) *Monitoring requirements.*

(1) An owner or operator of a unit subject to this subchapter may not operate the unit unless it is equipped with one of the following:

(i) A CEMS that meets the applicable requirements of Chapter 139 (relating to sampling and testing).

(ii) An alternate calculation and recordkeeping procedure based upon actual annual emissions testing and correlations with operating parameters. The installation, implementation and use of the alternate calculation and recordkeeping procedure shall be approved by the Department in writing prior to implementation.

(2) The CEMS or approved alternate calculation and recordkeeping procedure shall be operated and maintained in accordance with an onsite CEMS operating plan approved by the Department.

(c) *Recordkeeping requirements.* An owner or operator of a unit subject to this subchapter shall maintain records necessary to demonstrate compliance for 5 consecutive calendar years at the facility at which the unit is located. The records shall be made available to the Department upon request.

Subchapter C. EMISSIONS OF NO_x FROM CEMENT MANUFACTURING

Sec.	
145.141.	Applicability.
145.142.	Definitions.
145.143.	Standard requirements.
145.144.	Reporting, monitoring and recordkeeping.

§ 145.141. Applicability.

This subchapter applies to Portland cement kilns located in this Commonwealth.

§ 145.142. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

CEMS—Continuous Emission Monitoring System—The equipment required under this subchapter and Chapter 139 (relating to sampling and testing) to sample, analyze, measure and provide, by readings taken at least every 15 minutes of the measured parameters, a permanent record of NO_x emissions.

Clinker—The product of a Portland cement kiln from which finished cement is manufactured by milling and grinding.

Low NO_x burner—Combustion equipment designed to reduce flame turbulence, delay fuel/air mixing and establish fuel-rich zones for initial combustion.

Mid-kiln firing—The secondary firing in kilns by injecting solid fuel at an intermediate point in the kiln using a specially designed feed injection mechanism for the purpose of decreasing NO_x emissions through burning part of the fuel at a lower temperature and creating reducing conditions at the solid waste injection point that may destroy some of the NO_x formed upstream in the kiln burning zone.

Portland cement—A hydraulic cement produced by pulverizing clinker consisting essentially of hydraulic calcium silicates, usually containing one or more of the forms of calcium sulfate as an interground addition.

Portland cement kiln—A system, including any solid, gaseous or liquid fuel combustion equipment, used to calcine and fuse raw materials, including limestone and clay, to produce Portland cement clinker.

§ 145.143. Standard requirements.

Beginning May 1, 2005, an owner or operator of a Portland cement kiln subject to this subchapter may not operate the kiln during May 1 through September 30 unless one of the following has been installed and operates during May 1 to September 30:

- (1) Low NO_x burner.

- (2) Mid-kiln firing.

(3) An alternative control approved in writing by the Department that achieves at least a 30% reduction of NO_x from the actual 1990 emission rate as determined in § 129.91(b) (relating to control of major sources of NO_x and VOCs). The NO_x emissions from the Portland cement kiln after installation and operation of the alternate control may not exceed any NO_x emission limit contained in a permit issued under Chapter 127 (relating to construction, modification, reactivation and operation of sources).

§ 145.144. Reporting, monitoring and recordkeeping.

(a) *Reporting requirements.* An owner or operator subject to § 145.143 (relating to standard requirements) shall:

- (1) By May 1, 2005, submit to the Department the identification number and type of each unit subject to this section, the name and address of the plant where the unit is located and the name and telephone number of the person responsible for demonstrating compliance with this subchapter.

- (2) Submit a report documenting for that unit the total NO_x emissions from May 1 through September 30 of each year to the Department by October 31 of each year, beginning in 2005.

- (3) Submit a report, by May 1, 2005, documenting the control equipment or NO_x reduction technique installed to demonstrate compliance with § 145.143.

(b) *Monitoring requirements.* A Portland cement kiln subject to this section shall install and operate a CEMS to demonstrate the continual effectiveness of the compliance option selected under § 145.143. The CEMS shall be installed, operated and certified in accordance with Chapter 139 (relating to sampling and testing) by May 1, 2005.

(c) *Recordkeeping requirements.* The owner or operator of the Portland cement kiln shall maintain the records and reports required by this subchapter for a minimum of 5 years. The records and reports shall be made available to the Department upon request.

Applications, Actions and Special Notices

APPLICATIONS

NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS

NPDES APPLICATIONS

PART I PERMITS

Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For all new permit applications, renewal application with major changes or applications for permits not waived by EPA, the Department,

based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Monitoring Point 201

<i>Parameter</i>	<i>Monthly Average (mg/l)</i>	<i>Daily Maximum (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Total Cyanide	Monitor and Report		

Outfall 002: The proposed effluent limits based on a design flow of .7 MGD are:

<i>Parameter</i>	<i>Monthly Average (mg/l)</i>	<i>Daily Maximum (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Temperature			110°F
pH	6.0 to 9.0 Outfall 002 at all times		

Other conditions: Chemical additives requirements and total toxics organic conditions.

The EPA waiver is not in effect.

PA0061468, Sewage, **Liberty Mobile Home Park**, R. R. 3, Box 205, Montrose, PA 18801-8809. This proposed facility is located in Liberty Township, **Susquehanna County**.

The receiving stream, unnamed tributary to Snake Creek, is in the State Water Plan watershed #4E and is classified for CWF, aquatic life, water supply and recreation. The nearest downstream public water supply intake for Pennsylvania/New York State Line is located on Snake Creek, approximately 4 miles below the point of discharge.

The proposed effluent limits for Outfall 001 based on a design flow of .03 MGD.

WATER QUALITY MANAGEMENT PERMITS

CONTROLLED INDUSTRIAL WASTE AND SEWAGE WASTEWATER

APPLICATIONS UNDER THE CLEAN STREAMS LAW

PART II PERMITS

The following permit applications or requests for plan approval have been received by the Department of Environmental Protection (Department)

Persons wishing to comment on any of the applications are invited to submit a statement to the office noted before the application within 15 days from the date of this public notice. Comments received within this 15-day comment period will be considered in making the final decision regarding the application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department reserves the right to hold a public hearing if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation of the area. If no hearing is held, the Department's Water Management Program Manager will make a final determination regarding the applications after a complete review. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

A copy of the permit application or proposed plan is on file in the office indicated and is open to public inspection. Appointments to review the application may be made by contacting Records Management at the indicated telephone number.

I. Industrial Waste and Sewerage Applications under The Clean Streams Law (35 P. S. §§ 691.1—691.1001).

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701.

WQM Permit No. 1702405, Sewerage SIC 4915, **City of DuBois**, P. O. Box 408, DuBois, PA 15801. This proposed facility is located in Sandy Township, **Clearfield County**.

Description of Proposed Action/Activity: Construction of flow equalization facilities at the City of DuBois wastewater treatment plant and improvements to the collection system.

WQM Permit No. 5902410, Sewerage, SIC 4952, **Richmond Township Municipal Authority**, 563 Valley Road, Mansfield, PA 16933. This proposed facility is located in Richmond Township, **Tioga County**.

Description of Proposed Action/Activity: Construction and operation of Pickle Hill and Route 6 West sewer extension.

NPDES Stormwater Individual Permit

The following parties have applied for an NPDES permit to discharge stormwater associated with a construction activity into waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the appropriate Department Regional Office noted before the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department Regional Office during the 30-day public comment period.

Following the 30-day comment period, the appropriate Regional Office Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the office identified in this notice.

Persons with a disability who require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified

Regional Office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

Butler Conservation District: 122 McCune Drive, Butler, PA 16001-6501, (724) 284-5270.

NPDES Permit PAS10E077, Stormwater, **David Augustine, Palm Investments, LLC**, 108 Scott Avenue, Glenshaw, PA 15116 has applied to discharge stormwater associated with a construction activity located in Buffalo Township, **Butler County** to UNT to Little Buffalo Creek (HQ-TSF).

NOTICE OF INTENT (NOI) FOR COVERAGE UNDER CONCENTRATED ANIMAL FEEDING OPERATION (CAFO) NPDES GENERAL PERMITS

The following parties have submitted: (1) NOIs for Coverage under the Department of Environmental Protection's (Department) CAFO General NPDES Permit—PAG 12 to develop and operate a facility that may discharge wastewater into the surface waters of the Commonwealth.

The EPA Region III Administrator has not waived the right to review or object to this permit action under the waiver provision 40 CFR 123.24(d).

The notice of intent and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the Regional Office noted. Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The new or renewal notice of intent, including other information submitted with the applications, is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aid, service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

CAFO Notices of Intent Received

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701.

PAG124815, CAFO, **Doug W. Beachel**, 1894 Continental Boulevard, Danville, PA 17821. This proposed facility is located in Derry Township, **Montour County**.

Description of Size and Scope of Proposed Operation/Activity: The operation will consist of two barns. Each barn will measure 82 feet by 226 feet, house 2,180 head of swine and have a 693,010 gallon concrete manure storage beneath. Total swine at the facility will be 4,360 and total AEU's will be 606.3.

The receiving stream, Chillisquaque Creek, is in the SWP 10D watershed and classified for WWF.

The proposed effluent limits for the operation/activity include: Except for the chronic or catastrophic rainfall events defined as over the 25 year/24 hour rain storms, the CAFO general permit is a nondischarge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. The general permit requires no other numeric effluent limitations and compliance with Pennsylvania Nutrient Management Act and The Clean Stream Law constitutes compliance the State narrative water quality standards.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act, the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on the permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. Comment responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act and regulations adopted under the Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001-4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southeast Region: Air Quality Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428; Contact: Edward Brown, Facilities Permitting Chief, (610) 832-6242.

09-0087B: Air Products and Chemicals, Inc. (351 West Philadelphia Avenue, Morrisville, PA 19067) for modification of an existing source at their Morrisville Plant (previously known as Solkatronic Chemicals), Falls Township, **Bucks County**. This is a minor facility. The modifications include: an increase in hourly production rate of silicon tetrafluoride (SiF_4) to 28 pounds per hour, an increase in annual production rate to 123,000 pounds per year, an increase in hours of operation to 8,760 hours per year, the construction of a secondary air emission containment system and the upgrading of an existing scrubber. As a requirement of the Plan Approval, the production of silicon tetrachloride and trichlorosilane will cease at the Morrisville Plant and the trichlorosilane lines exhausting to the current scrubber will be disconnected before any SiF_4 production increase under this Plan Approval is allowed. Emissions will be limited to 1.0 ppmv of SiF_4 and 4.0 ppmv of hydrogen fluoride. The Plan Approval will require stack tests to be performed. Appropriate monitoring and recordkeeping requirements will be included.

46-0014B (originally issued as 46-0115): Knoll, Inc. (1235 Water Street, East Greenville, PA 18041) for installation of a cyclone to control particulate matter (PM) emissions from a metal and plastic cutting saw in Upper Hanover Township, **Montgomery County**. This facility is a Title V facility. This installation will result in PM emissions reduced to less than 0.02 grain per dry standard cubic feet.

09-0015E: Rohm and Haas Co. (Route 413 and State Road, Bristol, PA 19007) for modification of operations to a No. 2 diesel fuel-fired emergency generator rated at 1.7 MW, originally approved for installation under Plan Approval No. 09-0015A. The facility, located in Bristol Township, **Bucks County**, is a Title V facility for NOx and VOCs. The modification being made to the emergency generator is a reduction in hours of operation to avoid triggering New Source Review. The emergency generator is used as a backup power source for facility operations. The emergency generator is equipped with turbocharger and aftercooler, which will help reduce emissions of NOx. Along with the reduction in annual emissions of NOx, emissions of all other criteria pollutants will also be reduced due to the new limitations in hours of operation. This Plan Approval and the amended Title V Operating Permit will contain recordkeeping and operating restric-

tions designed to keep the facility operating within all applicable air quality requirements.

46-00081: Markel Corp. (416 School Lane, Norristown, PA 19404) located in Plymouth Township, **Montgomery County**. The following changes have been incorporated into this Title V Operating Permit:

1) Incorporation of Source ID: 105 (two horizontal extruders: I and J), including applicable requirements for emission limitations, monitoring, recordkeeping and work practice standards.

2) The total VOC emissions from all ten horizontal extruders through the oxidizer stack has been revised to 2.97 lbs/hr.

3) The total annual VOC emission from the horizontal extruders has been revised to 26.8 tons/year on a 12-month rolling basis.

09-00015: Rohm and Haas Co. (Route 413 and 13, P. O. Box 219, Bristol, PA 19021) for an administrative amendment to the Title V Operating Permit at their facility in Bristol Township, **Bucks County**. The facility is a diverse chemical manufacturing plant with a variety of continuous and batch type processes. The amended Title V operating permit will contain additional monitoring, recordkeeping, reporting and work practice standards to keep the facility operating within all applicable air quality requirements.

46-00012: Philadelphia Newspapers, Inc. (800 River Road, West Conshohocken, PA 19428) in Upper Merion Township, **Montgomery County**. To resolve the appeal of the Title V Operating Permit issued November 7, 2001, the Title V Permit is proposed to be amended.

The following conditions have been addressed in the revised Title V permit:

1) Section D, Source ID: 001—004—the frequency of the required monitoring and recordkeeping has been changed to monthly.

2) Section D—the term “good air pollution control practices” has been removed from conditions pertaining to combustion sources.

3) Section C—the 355 mmscf/year natural gas throughput limit as been moved to this section as a site level requirement.

4) Section C—the 24.9 tons/year NOx emission limit has been moved to this section as a site level requirement.

5) Section D, Source ID: 127, Condition No. 004—the condition was modified to omit any references to the supplier and to allow annual EPA Method 24 testing of the inks used at the printing presses.

6) Section D, Source ID: 127, Conditions No. 005 and 007—monitoring and recordkeeping conditions were added to verify compliance from the use of fountain solution and blanket wash for the presses, using the worst case estimations.

7) Section D, Source ID: 127, Condition No. 011—the condition was revised to include the term “. . . or other Department approved methods.”

8) Section D, Source ID: 125, Conditions No. 003 and 004—monitoring and recordkeeping conditions were revised to include the estimated amount of platemaking developer used daily, based on the number of plates processed and the previously established (worst case) average coverage rate.

9) Section D, Source ID: 101—source has been removed from Section D and placed in Section G (Miscellaneous) as a de minimis source.

10) Section D, Source ID: C01, Conditions No. 002 and 003—the frequency of the required monitoring and recordkeeping for these conditions were revised to weekly.

11) Section D, Source ID: C01, Condition No. 005—the condition was included to document the maximum capacity of this source as 8,400 cfm (air flow).

12) Section D, Source 126—the condition pertaining to the regulatory requirements of 25 Pa. Code § 129.62 was determined to be not applicable for this facility and has been omitted.

13) Section C, VIII. Compliance Certification—the condition was revised to include the initial date (October 30, 2002) of the annual compliance certification and semiannual monitoring/deviation reports.

14) Section C, Condition No. 007—the condition was revised to document that the Back-up Generator (Source ID: 031) and the Pump House Fire Pump (Source ID: 032) are not restricted to natural gas use.

23-0014C: Kimberly-Clark Corp. (Front and Avenue of the States, Chester, PA 19013) for installation of a Venturi scrubber to control emissions of particulate matter from Paper Machine No. 17 in the City of Chester, **Delaware County**. The facility is a Title V facility. The scrubber will have an hourly emission limit of 0.66 lb/hr and an annual emission limit of 2.89 tons per year. The emission of particulate matter from the scrubber shall not exceed 0.02 grain per dry standard cubic feet. The company shall keep records of pressure drop and flow rate of recirculation water in the scrubber.

46-0031B: SmithKline Beecham Research Co. (1250 South Collegeville Road, Collegeville, PA 19426) for the installation of a 2 MW diesel fuel-fired emergency generator. The facility, located in Upper Providence Township, **Montgomery County**, is a Title V facility for NOx and SOx. The emergency generator is equipped with turbocharger and aftercooler, which will help reduce emissions of NOx. Emissions of NOx will be less than 13 tons per year. Emissions of SOx and carbon monoxide will be less than 2 tons per year each and emissions of particulate matter and VOCs will each be less than 1 ton per year. This Plan Approval and the amended Title V Operating Permit will contain recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

67-03115: Garrod Hydraulics, Inc. (3466 Board Road, York, PA 17402) for construction of a hydraulic cylinder manufacture/repair and industrial hard chrome plating facility in East Manchester Township, **York County**. The chrome plating equipment is subject to 40 CFR Part 63, Subpart N—National Emission Standards for Chromium Emissions from Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks. The plan approval for the non-Title V facility will include provisions for stack testing, work practices, monitoring, recordkeeping and reporting designed to ensure the facility complies with the applicable air quality requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701; Contact: Muhammad Zaman, Facilities Permitting Chief, (570) 327-3637.

49-303-006: Collier Materials, Inc. (R. R. 2, Box 672, Shamokin, PA 17872) for construction of a 300 tons per hour batch mix asphalt concrete plant at the Bear Gap Quarry in Ralpho Township, **Northumberland County**. The 96.8 million Btu per hour burner associated with the plant's aggregate dryer will be fired with natural gas, propane, #2 fuel oil, #5 fuel oil and reprocessed fuel oil. The particulate matter emissions from the plant will be controlled by a cyclone collector and a fabric collector operating in series.

The asphalt plant will have the potential to emit up to 12.0 tons of NOx, 40.0 tons of carbon monoxides, 0.98 ton of particulate matter, 3.6 tons of VOCs and 36.2 tons of sulfur oxides per 12 consecutive month period. The plant will also have the potential to emit up to 0.77 ton of hazardous air pollutants per 12 consecutive month period.

The Department has determined that the proposed asphalt plant will comply with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12. The Department consequently intends to issue plan approval for the construction of the respective asphalt plant.

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable air quality regulatory requirements:

1. The plant shall not be used to produce more than 200,000 tons of asphalt per 12 consecutive month period.
2. The particulate matter in the exhaust of the fabric collector shall not exceed 0.02 grain per dry standard cubic foot.
3. The air contaminant emissions shall not exceed the following:

When burning reprocessed fuel oil or #5 fuel oil:

Pollutant	Emissions		
	Pounds per ton product	Pounds per hour	Tons per 12 months
NOx	0.12	36.0	12.0
VOCs	0.036	10.8	3.6
CO	0.4	120.0	40.0

When burning #2 fuel oil:

Pollutant	Emissions		
	Pounds per ton product	Pounds per hour	Tons per 12 months
NOx	0.12	36.0	12.0
VOCs	.0082	2.46	0.82
CO	0.4	120.0	40.0

When burning natural gas or propane:

Pollutant	Emissions		
	Pounds per ton product	Pounds per hour	Tons per 12 months
NOx	.025	7.5	2.5
VOCs	0.0082	2.46	0.82
CO	0.4	120.0	40.0

4. The total combined hazardous air pollutants emissions from the plant shall not exceed 0.77 ton during any 12 consecutive month period.
5. The applicant shall perform NOx, carbon monoxide and VOCs (expressed as propane) stack testing when

firing each of the proposed fuels. Additionally, the applicant shall perform particulate matter and opacity testing while firing one of the proposed fuels. Testing shall be performed while the plant is being operated at its maximum production rate using test methods and procedures acceptable to the Department.

6. The plant shall not burn #2 fuel oil with a sulfur content in excess of 0.3% by weight or reprocessed fuel oil and #5 fuel oil with a sulfur content in excess of 1% by weight.

7. Recycled asphalt pavement shall not be introduced to the plant at a rate in excess of 20 tons per hour.

8. The plant shall not be used to dry stone other than when the plant is simultaneously producing asphalt concrete nor shall it be used to produce asbestos-containing asphalt material nor shall it be used to decontaminate or otherwise treat soil or any other material which has been contaminated with gasoline, fuel oil or any other substance.

9. The reprocessed fuel oil fired in this plant shall not exceed the following limitations:

<i>Contaminant</i>	<i>Limitation</i>
Arsenic	5 ppm
Cadmium	2 ppm
Chromium	10 ppm
Lead	100 ppm
Total halogens	1,000 ppm
PCBs	Nondetectable (detection limit no higher than 2 parts per million, volume basis)

Additionally, the flash point of the reprocessed oil shall not be less than 100°F.

10. The permittee shall not accept any shipment of reprocessed oil for use in the plant for which the arsenic, cadmium, chromium, lead, total halides and PCB contents and/or flash point are unknown or which fail to meet the aforementioned limitations.

11. A sample of each load of reprocessed oil delivered to the plant shall be taken at the time of delivery to the plant using a sampling technique capable of achieving a representative composite sample of the entire load and shall be retained on site for at least 2 years for random selection and analysis by the Department.

12. The permittee shall submit an annual report to the Department listing the delivery date, quantity delivered, source of origin and delivery invoice number of each load of reprocessed oil delivered to the plant during the previous calendar year, as well as identifying the arsenic, cadmium, chromium, lead, total halides, PCB, sulfur contents and the flash point of each load.

13. Dust collected in the cyclone and fabric collector shall be screw conveyed to the plant's pugmill. At no time shall any of this dust be discharged to a truck, front end loader and the like or handled in another fashion which would generate fugitive particulate matter emissions.

55-00001B: Sunbury Generation, LLC (P. O. Box 517, Shamokin Dam, PA 17876) for construction of a trailer-mounted ash storage silo and associated tank truck and railcar loading operations in Shamokin Dam Borough, **Snyder County**. The facility is a major facility for which a Title V Operating Permit (#55-00001) has been issued.

The particulate matter emissions from the ash silo and associated loading operations will be controlled by a

fabric collector. The resultant particulate matter emissions will be a maximum of 0.13 ton in any 12 consecutive month period.

The Department's review of the information contained in the application indicates that the proposed trailer-mounted ash storage silo and associated tank truck and railcar loading operations will meet all applicable air quality regulatory requirements including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department intends to approve the application and issue a plan approval for the construction of the silo and associated loading operations.

The Department intends to place conditions in the plan approval to be issued to assure compliance with all applicable air quality regulatory requirements. The following is a summary of these conditions:

1. The particulate matter concentration in the exhaust of the fabric collector shall not be in excess of 0.01 grain per dry standard cubic foot.

2. Fly ash loading or transfer shall not occur if the fabric collector is inoperable.

3. A sufficient quantity of spare fabric collector bags for the fabric collector shall be kept on hand at all times to immediately replace any worn or damaged bags.

4. Operators shall monitor all ash transfer line connections for fugitive emissions during all ash transfers between the tank trucks, railcars and the silo.

5. The air compressor supplying the air to the fabric collector shall be equipped with an air dryer and oil trap.

6. The only trucks to be loaded with ash shall be tank trucks.

The Montgomery County SPCA operates and maintains an animal crematory, from which the main pollutants emitted are particulate matter and nitrogen oxides. Particulate matter and nitrogen oxides emissions from this facility are each less than 1 ton per year. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Contact: Yasmin Neidlinger, Facilities Permitting Chief, (717) 705-4702.

38-05023: Pennsy Supply, Inc. (P. O. Box 3331, Harrisburg, PA 17105) for operation of an asphalt batch plant controlled by a knockout box and a fabric collector at the Prescott Quarry in South Lebanon Township, **Lebanon County**. Actual emissions for criteria pollutants will be below Title V thresholds. This will be accomplished by limiting the annual production of hot mix asphalt. The operating permit will contain appropriate conditions designed to keep the facility operating within all applicable air quality requirements. This source is subject to 40 CFR Part 60, Subparts I—Standards of Performance for Hot

Mix Asphalt Facilities and 40 CFR Part 60, Subpart Kb—Standards of Performance for Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced After July 23, 1984.

(132 South 55th Street, Philadelphia, PA 19139) September 30, 2002, for operation of a printing facility for high quality financial documents in the City of Philadelphia, **Philadelphia County**. The synthetic minor facility's air emission sources include 4 nonheatset intaglio presses, 11 nonheatset sheetfed lithographic printing presses and 2 chrome plating tanks with a composite mesh-pad system control device.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES

permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Hawk Run District Mining Office: Empire Road, P. O. Box 209, Hawk Run, PA 16840-0209, (814) 342-8200.

17000109 and NPDES Permit No. PA0242985. Kenneth K. Rishel & Sons, Inc., 1229 Turnpike Avenue, Clearfield, PA 16830. Revision to an existing bituminous surface mine permit to change the acreage from 20.0 acres to 29.3 acres and to add auger mining. The permit is located in Lawrence Township, **Clearfield County**. Receiving streams: Orr's Run and unnamed stream to Orr's Run, classified for CWF. Application received September 24, 2002.

17020113 and NPDES Permit No. PA0243353. Junior Coal Contracting, Inc., R. R. 3, Box 225A, Philipsburg, PA 16866. Commencement, operation and restoration of a bituminous surface mine-auger permit in Decatur Township, **Clearfield County** affecting 114 acres. Receiving streams: unnamed tributaries to Laurel Run, Laurel Run classified for CWF. Application received September 24, 2002.

17860140 and NPDES Permit No. PA0115673. Waroquier Coal Company, P. O. Box 128, Clearfield, PA 16830. Renewal of an existing bituminous surface mine permit located in Beccarria Township, **Clearfield County** affecting 323 acres. Receiving streams: unnamed tributary to Cofinan Run and unnamed tributary to Muddy Run. Application received July 22, 2002.

PROJECTS UNDER THE ENVIRONMENTAL GOOD SAMARITAN ACT

The Environmental Good Samaritan Act (27 Pa.C.S. §§ 8001—8114) provides certain protections and immunities from civil liability for landowners and persons who voluntarily undertake reclamation and abatement projects to address land and water adversely affected by mining or oil or gas extraction or exploration for natural resources and left in an unreclaimed condition or left discharging water pollution. For landowners and persons

to qualify for immunity, the projects must be approved by the Department of Environmental Protection (Department).

The following project proposals have been received by the Department. A copy of the proposals is available for inspection at the office indicated before each proposal.

Written comments or objections may be submitted by any person or any office or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the proposal identification number; and a statement of sufficient detail to inform the Department of the basis of the comment or objection and the relevant facts upon which it is based.

Project Proposals Received

Hawk Run District Mining Office: Empire Road, P. O. Box 209, Hawk Run, PA 16840-0209, (814) 342-8200.

17-01-05. RAMM Coal Company, R. R. 1, Box 16, Rockton, PA 15856. The Hawk Run District Mining Office for the Department awarded a Government Financed Construction Contract to RAMM Coal Company on September 12, 2002, that will result in incidental coal removal necessary to accomplish reclamation of an abandoned mine land site affecting 5.8 acres. The site is located in Brady Township, **Clearfield County**. Under the terms of the contract no reprocessing of the coal refuse may take place and no coal refuse materials may be returned to the site once removed. The contract requires total reclamation and revegetation of the project area. This project was made possible under a program developed by the Department which allows for expedited removal and reclamation of old coal refuse piles which are generally eyesores as well as major sources of siltation and pollution to the streams of this Commonwealth. Application received October 25, 2001. Permit issued September 12, 2002.

17-01-01. A. W. Long Coal Company, 1203 Presque Isle Street, Philipsburg, PA 16866. The Hawk Run District Mining Office for the Department awarded a Government Financed Construction Contract to A. W. Long Coal Company on October 2, 2002, that will result in incidental coal removal necessary to accomplish reclamation of an abandoned mine land site affecting 14.4 acres. The site is located in Morris Township, **Clearfield County**. Under the terms of the contract no reprocessing of the coal refuse may take place and no coal refuse materials may be returned to the site once removed. The contract requires total reclamation and renegotiation of the project area. This project was made possible under a program developed by the Department which allows for expedited removal and reclamation of old coal refuse piles which are generally eyesores as well as major sources of siltation and pollution to the streams of this Commonwealth. Application received January 23, 2001. Permit issued October 2, 2002.

Project Proposals Issued

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900.

EGS 07001, Blair County Conservation District, 1407 Blair Street, Hollidaysburg, PA 16648. A water pollution abatement project to construct passive treatment systems (spaghetti hole, Clearwater and coke ovens) for three abandoned acid mine discharges on 13 acres of the Altoona City Authority and Angels Coal Trust (previ-

ously Cooney Brothers Coal Company) properties located approximately 2 miles west of the Horseshoe Curve on the north side of SR 4008 in Logan Township, **Blair County**. The receiving stream is Glen White Run. Project was received November 30, 2001. Project issued October 2, 2002.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications and requests for Environmental Assessment approval and requests for Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)), requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Initial requests for 401 Water Quality Certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit, or the approval of an Environmental Assessment must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between the hours of 8 a.m. and 4 p.m. on each working day at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E23-428. Belmont 17 LLC, 100 Baltimore Pike, P. O. Box 100, Chadds Ford, PA 19317, Bethel Township, **Delaware County**, ACOE Philadelphia District.

To perform the following water obstruction and encroachment activities associated with the proposed Belmont Subdivision situated in and along 0.21 acre of wetland (PFO/PEM) within the watersheds of unnamed

tributaries to the South Branch of Naamans Creek (WWF), unnamed tributaries to Webb Creek (TSF, MF) and unnamed tributaries to Beaver Creek (WWF-MF).

1. To extend an existing stormwater cross drain and place and maintain fill within approximately 0.01 acre of wetland adjacent to a tributary to the South Branch of Naamans Creek associated with the construction of the Belmont Lane road crossing. The crossing will serve as an access off of Ebright Road.

2. To construct an 8-inch PVC sanitary sewer utility line crossing of a wetland adjacent to a tributary of Webb Creek temporarily disturbing 0.04 acre.

3. To construct 134 linear feet of 18-inch RCP cross drain and associated fill in 0.04 acre of wetland adjacent to a tributary of Beaver Creek associated with the construction of Belmont Lane.

4. To place fill within 0.04 acre of wetland adjacent to a tributary of Beaver Creek associated with the construction of Sarasota Lane.

5. To place fill within 0.01 acre of wetland adjacent to a tributary of Beaver Creek associated with the construction of Sarasota Lane.

6. To install an 8-inch PVC sanitary sewer utility line crossing of a wetland adjacent to a tributary of Beaver Creek temporarily disturbing 0.09 acre.

The applicant also seeks an environmental assessment approval for impacts associated with proposed work to construct, modify and maintain three nonjurisdictional dams which shall include the following:

1. To modify the outlet works of an existing nonjurisdictional dam and impact approximately 0.01 acre of wetland adjacent to a tributary of Beaver Creek associated with the construction of a stormwater management facility.

2. To modify the outlet works of an existing nonjurisdictional dam and impact approximately 0.01 acre of wetland adjacent to a tributary of Webb Creek associated with the construction of Half Mile Post North Road, which will serve as a stormwater management facility.

The applicant has proposed to construct replacement wetlands to compensate for impacts associated with the proposed work.

The proposed subdivision is located on a 95.5-acre parcel along the southwest corner of Ebright Road and Naamans Creek Road (Wilmington North, PA Quadrangle N: 16.1 inches; W: 3.3 inches).

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E53-379. Pennsylvania Department of Transportation District 2-0, 1924-30 Daisy Street, Clearfield, PA 16830, in Stewardson Township, **Potter County**, ACOE Baltimore District (Tamarack, PA Quadrangle N: 22 inches; W: 6.5 inches).

The applicant proposed to create a 1-acre wetland mitigation site along SR 144 and Kettle Creek on property owned by the Department of Conservation and Natural Resources. There will be 0.048 acre of palustrine wetland impacts resulting from this project.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E20-524, The Home Depot USA, Inc., 15 Dan Road, Canton, MA 02021. Home Depot Meadville Retail Center in Vernon Township, **Crawford County**, ACOE Pittsburgh District (Geneva, PA Quadrangle N: 22.6 inches; W: 17.0 inches).

To fill a total of 0.91 acre of wetland for the construction of a Home Depot retail center south of SR 6/19/322 east of Kennedy Hill Road. Project includes creation of 0.91 acre of replacement wetland onsite and installation of a stream bank enhancement/protection structure along the left bank of Van Horne Creek.

E62-386, Pennsylvania Department of Transportation, District 1-0, 255 Elm Street, P. O. Box 398, Oil City, PA 16301-1412. SR 3010, Section BOO, Segment 0120, Offset 1390 Across Brokenstraw Creek, in Spring Creek Township, **Warren County**, ACOE Pittsburgh District (Columbus, PA Quadrangle N: 0.1 inch; W: 3.7 inches).

To remove the existing structure and to construct and maintain a P/S spread concrete box beam bridge having a clear span of 102.5 feet and an underclearance of 12.2 feet on a 90 degree skew across Brokenstraw Creek (CWF) on SR 3010, Section BOO, Segment 0120, Offset 1390 approximately 600 feet SW of the intersection of SR 3010 and SR 426.

ACTIONS

FINAL ACTIONS TAKEN UNDER THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT—NPDES AND WQM PART II PERMITS

INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once.

Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

APPROVALS TO USE NPDES AND/OR OTHER GENERAL PERMITS

The following parties have submitted: (1) Notices of Intent for Coverage under (1) General NPDES Permits to Discharge Wastewater into the Waters of this Commonwealth. The approval for coverage under these general NPDES permits is subject to applicable effluent limitations. Monitoring, reporting requirements and other conditions set forth in the general permit; (2) General Permits for Beneficial Use of Sewage Sludge or Residential Septage by Land Application in this Commonwealth; (3) General NPDES Permit Authorizing the Discharge of Stormwater Associated with Construction Activities to Waters of the Commonwealth; (4) Notification for First Use Application of Sewage Sludge.

The approval of coverage for land application of sewage sludge or residential septage under these general permits is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. The Department approves the following coverage under the specific General Permit.

The EPA Region III Administrator has waived the right to review or object to this permit action under the waiver provision 40 CFR 123.23(d).

The application and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted.

PUBLIC WATER SUPPLY PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Safe Drinking Water Act for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20a).

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Jefferson Township	487 Cortez Road Lake Ariel, PA 18436	Lackawanna

Plan Description: On September 27, 2002, the Department approved a Plan Revision to Jefferson Township's Official Plan. The Plan Revision provides for collected wastewater from Jefferson Township to be treated at the Lackawanna River Basin Sewer Authority's Throop treatment plant, instead of at the Scranton Sewer Authority's treatment plant as called for in the Township's previous Sewage Plan, approved by the Department on July 3, 2000. The Plan Revision entails construction of a gravity sanitary sewer from a point on Marshwood Road to a connection with an existing sanitary sewer located at Mid-Valley Drive and East Lackawanna Avenue, in the Borough of Olyphant. The selected alternative is identified as Alternative 5 and the route of the proposed sewer is shown on Figure III-5 in the Plan Revision. The Department's review of the Plan Revision has not identified any significant environmental impacts associated with the changes to the Township's Official Plan. Any required WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Borough of Olyphant	113 Willow Avenue Olyphant, PA 18447	Lackawanna

Plan Description: On September 27, 2002, the Department approved a Plan Revision to the Borough of Olyphant's Official Plan. The Plan Revision provides for gravity sanitary sewer through the Borough of Olyphant as depicted on Figure III-5 in the Plan Revision. The new sewer will connect to the existing Borough of Olyphant sewer system at Mid-Valley Drive and East Lackawanna Avenue. From the point of connection, Jefferson Township's wastewater will be conveyed through the Borough of Olyphant's existing sewer system to the Lackawanna River Basin Sewer Authority's Throop interceptor and treatment plant. The Plan Revision has been adopted by the Borough of Olyphant. The Department's review of the Plan Revision has not identified any significant environmental impacts associated with the proposal.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Meshoppen Borough	P. O. Box 237 Meshoppen, PA 18630	Wyoming

Plan Description: The approved Base Plan addresses sewage facilities needs of Meshoppen Borough through 2022 and states that collection and treatment facilities are required to meet the projected needs of the planning area. Major recommendations of the Base Plan include the construction of a 50,000 gpd wastewater treatment plant and low-pressure collection system for Meshoppen Borough. The planning area of Meshoppen Borough consists of approximately 175 dwelling units located within the Borough. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Act. Plans and reports required by provisions of the Act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances

in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Northeast Region: Joseph A. Brogna, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

Former Penn Fuel Gas Manufactured Gas Plant—Slatington Site, Borough of Slatington, **Lehigh County**. RETEC Group, Inc., 3040 William Pitt Way, Pittsburgh, PA 15238 submitted a Remedial Investigation Report (on behalf of PPL Services Corp., Two North Ninth Street, Allentown, PA 18101) concerning the characterization of soils, groundwater and adjacent surface water found or suspected to have been contaminated with metals, polycyclic aromatic hydrocarbons, phenolics, cyanides and BTEX compounds related to historic manufactured gas plant operations. The report was submitted in partial fulfillment of a combination of both the Statewide health and the site-specific standards and was approved on September 27, 2002.

Nallo Property, 4445 Shimerville Road), Upper Milford Township, **Lehigh County**. Vincent M. Carbone, P. G., Lawler, Matusky & Skelly Engineers, LLP, The Sovereign Building, 609 Hamilton Mall, Allentown, PA 18101 submitted a Final Report (on behalf of James D. Nallo and Margaret Brady-Nallo, Newgate Drive, Allentown, PA) concerning the remediation of soils found to have been contaminated with lead, arsenic and benzo(a)pyrene. The report was documented attainment of the Statewide health standard and was approved on September 26, 2002.

SPECIAL NOTICES

**Public Hearing for NPDES Permit No. PAS10Q246
Weisenberg Township, Lehigh County**

The Department of Environmental Protection (Department) will hold a public hearing to accept comment on an individual NPDES Permit No. PAS10Q246 for the discharge of stormwater from construction activities at the proposed concrete mixing plant site in Weisenberg Township, Lehigh County.

The hearing is in response to an application submitted by Dale R. and Carolyn L. Koller, 1870 Waldheim Road, Bethlehem, PA 18015 and was published at 32 Pa.B. 4176 (August 24, 2002). The NPDES permit application proposes the discharge of stormwater from construction activities to tributaries to the Jordan Creek.

The hearing will be held on November 21, 2002, at 7 p.m. in the meeting room of the Seipstown Grange Hall in Fogelsville, PA by the Department's Water Management Program, Soils and Waterways Section.

The Department requests that individuals wishing to testify at the hearing submit a written notice of intent to Dale R. and Carolyn L. Koller Hearing, Department of Environmental Protection, Water Management Program, 2 Public Square, Wilkes-Barre, PA 18711. The Department will accept notices up to the day of the hearing. The Department requests that individuals limit their testimony to 10 minutes so that all individuals have the opportunity to testify. The Department can only review comments made with regard to the NPDES Permit No. PAS107421. Written copies of oral testimony are requested. Relinquishing time to others will not be allowed. Individuals attending the hearing will have the opportunity to testify if they so desire. However, individuals who preregister to testify will be given priority on the agenda.

Persons with a disability who wish to testify and require an auxiliary aid, service or other accommodation should contact Richard Shudak at (570) 826-2511 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department can meet their needs.

The NPDES permit application is available for review at the Lehigh County Conservation District Office, 4184 Dorney Park Road, Allentown, PA, 18104, (610) 391-9583. For further information, contact Mark Carmon of the Department's Northeast Regional Office at (570) 826-2511.

Draft General Permits for Beneficial Use of Biosolids or Residential Septage by Land Application (PAG-7, PAG-8, PAG-9) Published for Additional Comment

In accordance with the provisions of the Federal Clean Water Act, The Clean Streams Law (35 P. S. §§ 691.1—691.1001), sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P. S. §§ 510-5, 510-17 and 510-20), the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003) and the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904), the Department of Environmental Protection (Department) issues these general permits for use by eligible persons for the beneficial use of exceptional quality biosolids, biosolids or residential septage that will be land applied, who are required in 25 Pa. Code Chapters 91, 92 or 271 (relating to general provisions; National Pollutant Discharge Elimination System permitting, monitoring and compliance; and municipal waste management—general provisions), as applicable, to obtain a permit for the beneficial use of biosolids in this Commonwealth.

Notice of proposed revisions to PAG-7, PAG-8 and PAG-9 were originally published at 32 Pa.B. 376 and 377

(January 19, 2002), with a 30-day public comment period that closed on February 19, 2002. The Department then extended the public comment period until March 25, 2002. The Department has considered the comments received on the proposed revisions, prepared a draft comment/response document and made corresponding changes to the proposed revisions.

The Department is concerned with public anxiety and odor complaints associated with the land application of biosolids. To address this concern, the Department is proposing a comprehensive approach to odor management, which includes the requirement for an odor control plan.

The Department is proposing to further amend PAG-7, PAG-8 and PAG-9 to incorporate a requirement for the person who prepares biosolids (permittee) to develop and implement a Biosolids Odor Control Plan (Plan). The Department has also prepared a draft Plan guidance document that is available for review and comment. The Department proposes that persons applying for general permit coverage submit the Plan with the Notice of Intent and that current biosolids permittees submit their Plan within 90 days of the effective date of the revised general permits.

At 32 Pa.B. 2039 (April 20, 2002), a notice was published extending the terms of the current general permits until December 23, 2002. The existing general permit document packages will continue to be available from the Department's regional and central offices until they are replaced or updated. Existing permit coverage will be valid until December 23, 2002, or until notice of the expiration of the current permit and notice of availability of the new PAG-7, PAG-8 and PAG-9 is published subsequent to this public comment period. The Plan guidance will be finalized at the same time.

Copies of the new draft revised general permits, draft comment response document and draft Plan guidance are available from the Department's Bureau of Water Supply and Wastewater Management, P. O. Box 8467, Harrisburg, PA 17105-8467, (717) 783-3795, e-mail trutrutma@state.pa.us and on the Department's website at www.dep.state.pa.us. To access the document, type in directLINK "participate"; scroll down to "Proposals Open for Comment"; then choose "Regulations and Other Proposals."

The Department invites public comments on the proposed revisions. Comments must be received by November 18, 2002. If there is significant public interest in the proposed revisions to the general permits, or if formally requested, the comment period may be extended at the discretion of the Department for an additional 15-day period. Only comments received within the specified period will be considered in the formulation of the final general permits. Persons wishing to comment should submit their name, address, telephone number and a concise comment and the relevant facts upon which it is based. A public meeting or hearing may be held if the Department considers the public interest and/or comments significant. Written comments should be submitted to the previous address. Comments will not be accepted by facsimile or on voice mail. Comments will also be accepted by e-mail to jafrika@state.pa.us by November 18, 2002.

Persons with a disability may use the AT&T Relay Service (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). Following the specified comment period, the Department will review all submitted comments, prepare a written comment and response document and prepare

final document packages for these permits. An availability of the final permit documents will be announced in the *Pennsylvania Bulletin*.

Surcharge for Establishment of the Patient Safety Trust Fund Under the Medical Care Accountability and Reduction of Error Act

On March 20, 2002, Governor Schweiker signed the Medical Care Accountability and Reduction of Error (MCARE) Act (40 P. S. §§ 1303.101—1303.5108). Among other provisions, the MCARE Act established the Patient Safety Authority (Authority) to collect, analyze and evaluate data regarding reports of serious events and incidents occurring in certain medical facilities and to make recommendations to those facilities regarding changes, trends and improvements in health care practices and procedures for the purpose of reducing the number and severity of serious events and incidents.

Section 305(a) of the MCARE Act (40 P. S. § 1303.305(a)) authorizes the establishment of a Patient Safety Trust Fund (Fund) for the operations of the Authority. Section 305(c) of the MCARE Act states that commencing July 1, 2002, and for every fiscal year thereafter, each medical facility covered by the MCARE Act shall pay the Department of Health (Department) a surcharge on its licensing fee as necessary to provide sufficient revenues to operate the Authority. Section 305(c) of the MCARE Act also states that the total

assessment amount for Fiscal Year 2002-2003 may not exceed \$5 million and that the Department will transfer the total assessment amount to the Fund within 30 days of receipt. Section 305(d) of the MCARE Act provides that for each succeeding calendar year, the Department will determine and assess each medical facility the proportionate share of the Authority's budget. The base amount of \$5 million provided for in Fiscal Year 2002-2003 shall be increased no more than the Consumer Price Index in each succeeding fiscal year.

This notice sets forth the procedure that the Department will follow in assessing and collecting the surcharge. The MCARE Act states that the surcharge shall be collected from medical facilities, which are defined as ambulatory surgical facilities (ASFs), birth centers and hospitals licensed under either the Health Care Facilities Act (35 P. S. §§ 448.101—448.904) or Article X of the Public Welfare Code (62 P. S. §§ 1001—1087).

To assess the surcharge in an equitable manner, the Department decided to choose a common denominator in these facilities. For ASFs and birth centers, the Department has chosen the number of operating and procedure rooms; for hospitals, the Department has chosen the number of beds contained on the license of each hospital, whether by the Department (general and special acute care hospitals) or the Department of Public Welfare (privately owned psychiatric hospitals). It was also necessary to pick a point in time to make this assessment; the Department has chosen January 1, 2002.

The amount of operating/procedure rooms (for ASFs and birth centers) and the amount of licensed beds (for hospitals) was totaled and that amount was divided into \$5 million to arrive at a charge per unit. The total number of units (operating rooms, procedure rooms and licensed beds) is 47,226. Dividing this number into \$5 million results in a per unit assessment of approximately \$105.87.

In future years, the Department will continue to use the total number of operating rooms, procedure rooms and licensed beds as of January 1 of that year. This number will then be divided into the total assessment amount, as adjusted according to the Consumer Price Index. The surcharge will be due by June 30.

Since this first surcharge is occurring in October, the Department will permit medical facilities to make payments on or before December 31, 2002. Each facility will receive notification from the Department of the surcharge amount due.

To expedite this process, the Department is listing the name of each medical facility and the number of operating rooms, procedure rooms or licensed beds at each of these facilities as of January 1, 2002. The list also includes the amount of the surcharge due from each medical facility. These facilities will also be sent individual notices by the Department setting forth the amount due, date due and the name and address to which the payment should be sent.

If a medical facility has any questions concerning this notice or the information contained in the list, a representative from that facility should contact Sandra Knoble, Director, Department of Health, Division of Acute and Ambulatory Care, P. O. Box 90, Harrisburg, PA 17108-0090, (717) 783-8980.

DEPARTMENT OF REVENUE

Pennsylvania Blizzard Bingo Instant Lottery Game

Under the State Lottery Law (72 P. S. §§ 3761-101—3761-314) and 61 Pa. Code § 819.203 (relating to notice of instant game rules), the Secretary of Revenue hereby provides public notice of the rules for the following instant lottery game:

1. *Name:* The name of the game is Pennsylvania Blizzard Bingo.

2. *Price:* The price of a Pennsylvania Blizzard Bingo instant lottery game ticket is \$3.00.

3. *Play Symbols:* Each Pennsylvania Blizzard Bingo instant lottery game ticket will contain six play areas designated as "Card 1," "Card 2," "Card 3," "Card 4," "Card 5" and "Card 6." The 77 play symbols located in the six play areas are: The numbers 1 through 75, FREE and a Snowflake Symbol. Each ticket will also contain a "Caller's Card" area. The "Caller's Card" area will consist of 30 squares in a 3 x 10 grid. The play symbols that may be located in each square are: The letter B with a number 1 through 15; the letter I with a number 16 through 30; the letter N with a number 31 through 45; the letter G with a number 46 through 60; and the letter O with a number 61 through 75.

4. *Prizes:* The prizes that can be won in this game are \$3, \$5, \$9, \$15, \$30, \$45, \$60, \$90, \$120, \$150, \$300, \$1,000, \$3,000 and \$30,000. The player can win up to six times on a ticket.

5. *Approximate Number of Tickets Printed for the Game:* Approximately 2,400,000 tickets will be printed for the Pennsylvania Blizzard Bingo instant lottery game.

6. *Determination of Prize Winners:*

(a) Holders of tickets matching the "Caller's Card" play symbols in an "X" extending through the "FREE" space and through to each of the four corners on "Card 6," shall be entitled to a prize of \$30,000.

(b) Holders of tickets matching the "Caller's Card" play symbols in an "X" extending through the "FREE" space and through to each of the four corners with one of the spaces in the "X" pattern containing a "Snowflake Symbol," on "Card 4" or "Card 5," shall be entitled to a prize of \$3,000.

(c) Holders of tickets matching the "Caller's Card" play symbols in an "X" extending through the "FREE" space and through to each of the four corners on "Card 4" or "Card 5," shall be entitled to a prize of \$1,000.

(d) Holders of tickets matching the "Caller's Card" play symbols in a diamond pattern, matching one square in the midpoint in each of the four outside rows and columns, on "Card 6," shall be entitled to a prize of \$300.

(e) Holders of tickets matching the "Caller's Card" play symbols in an "X" extending through the "FREE" space and through to each of the four corners on "Card 2" or "Card 3," shall be entitled to a prize of \$300.

(f) Holders of tickets matching the "Caller's Card" play symbols in an "X" extending through the "FREE" space and through to each of the four corners on "Card 1," shall be entitled to a prize of \$150.

(g) Holders of tickets matching the "Caller's Card" play symbols in a diamond pattern, matching one square in the midpoint in each of the four outside rows and columns, on "Card 4" or "Card 5," shall be entitled to a prize of \$120.

(h) Holders of tickets matching the "Caller's Card" play symbols in the four corners with one of the four corners

containing a "Snowflake Symbol," on "Card 2," "Card 3" or "Card 4," shall be entitled to a prize of \$90.

9. *Retailer Incentive Awards:* The Lottery may conduct a separate Retailer Incentive Game for retailers who sell Pennsylvania Treasures Under the Tree instant lottery game tickets. The conduct of the game will be governed by 61 Pa. Code § 819.222 (relating to retailer bonuses and incentives).

10. *Unclaimed Prize Money:* For a period of 1 year from the announced close of Pennsylvania Treasures Under the Tree, prize money from winning Pennsylvania Treasures Under the Tree instant lottery game tickets will be retained by the Secretary for payment to the persons entitled thereto. If no claim is made within 1 year of the announced close of the Pennsylvania Treasures Under the Tree instant lottery game, the right of a ticket holder to claim the prize represented by the ticket, if any, will expire and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

11. *Governing Law:* In purchasing a ticket, the customer agrees to comply with and abide by the State Lottery Law (72 P. S. §§ 3761-101—3761-314), the regulations contained in 61 Pa. Code Part V (relating to State Lotteries) and the provisions contained in this notice.

12. *Termination of the Game:* The Secretary may announce a termination date, after which no further tickets from this game may be sold. The announcement will be disseminated through media used to advertise or promote Pennsylvania Treasures Under the Tree or through normal communications methods.

DEPARTMENT OF TRANSPORTATION

Finding Bucks County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Secretary of Transportation makes the following written finding:

The Department of Transportation (Department) plans to reconstruct the intersection of Woodbourne Road (SR 2033) and Langhorne-Yardley Road (SR 2049) in the Village of Maple Point, Middletown Township, Bucks County, PA.

The intersection consists of east-west route, Langhorne-Yardley Road, and north-south route, Woodbourne Road. This project is an upgrading of the currently signalized intersection and widening of all four approaches to accommodate new left-turn lanes in each of the approaches.

This project will use portions of three Section 4(f) resources located within the limits of work of the project. They are: 1) Maple Point School, using a crescent-shaped sliver parcel at the northeast quadrant of the intersection and containing approximately 0.08 ha (0.196 acre); 2) Hammock Villa, known historically as the James Wildman House, occupying a lot at 1780 Langhorne-Yardley Road, approximately 300 feet southwest of the intersection, using a sliver parcel parallel to Langhorne-Yardley Road and containing approximately 0.01 ha (0.020 acre); and 3) Core Creek County Park located in the northwest quadrant of the intersection, using a sliver parcel parallel to Woodbourne Road from the intersection to approximately 300 feet north of the intersection containing approximately 0.09 ha (0.220 acre).

The Pennsylvania Historical and Museum Commission has stated in a letter dated November 3, 1995, that this project will have an adverse effect on the Maple Point School and that this project will have no adverse effect on Hammock Villa, known historically as the James Wildman House.

Impacts to the resources will be mitigated by protecting the Maple Point School frontage and the intact foundation walls of the octagonal school by placing a 32 inch high concrete barrier at the corner radius of the property. Hammock Villa will receive concrete curbing along Langhorne-Yardley Road to preclude intrusion of motorists. Areas of disturbance on Hammock Villa will be graded, and grass will be planted after construction. Core Creek County Park, located parallel to Woodbourne Road, will involve three mitigation measures.

- Heavy equipment and construction staging will be restricted from the site.
- Landscaping will be used to minimize visual impacts.
- The Department, the National Park Service and the Bucks County Department of Parks and Recreation will coordinate the replacement of park property.

The project is being designed to be aesthetically compatible with the surrounding Maple Point Historic District, and it will not substantially impair protected attributes or contributing elements of these adjacent cultural resources.

The Secretary has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize the effect. No adverse environmental effect is likely to result from the construction of this project.

BRADLEY L. MALLORY,
Secretary

GOVERNOR'S OFFICE

Governor's Commission on Abandoned Mine Voids and Mine Safety Public Hearing

The Governor's Commission on Abandoned Mine Voids and Mine Safety (Commission) has scheduled two public hearings to assist the Commission in gathering information to develop recommendations on improvements to underground mining practices and miner safety within this Commonwealth. The Commission's mission, as established by Executive Order No. 2002-10, is "to investigate and document the hazards posed by abandoned mine voids, in particular the flooding of adjacent operating mines, and to make recommendations regarding the accurate location of voids and avoidance of other hazards associated with mining."

The hearings will be held at the Ramada Inn, 215 Ramada Dr., Somerset, PA. The first hearing will be held Tuesday, October 22, 2002, from 7 p.m. to 9 p.m. and the second hearing will be held Wednesday, October 23, 2002, at 9 a.m. Members of the public may present relevant testimony at either hearing. To guarantee a place on the agenda, interested parties are requested to preregister by

submitting their names and affiliation, if applicable, to Thomas Callaghan by fax at (717) 783-4675 or e-mail tcallaghan@state.pa.us. Interested parties may also register at the hearing. However, persons who pre-register will be permitted to testify first. The time allotted for testimony will be limited based on the number of persons registering to testify.

The agenda and meeting materials will be available through the Department of Environmental Protection's (Department) Public Participation Center on the Department's website at <http://www.dep.state.pa.us>.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact Heather Dwilet at (717) 783-8727 or through the Pennsylvania AT&T Relay Service (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Disclosure of Departures from Statutory Accounting Principles; Notice No. 2002-11

This document supersedes the notice published at 31 Pa.B. 6588 (December 1, 2001) and shall remain in effect until a subsequent notice is published in the *Pennsylvania Bulletin*.

The National Association of Insurance Commissioners (NAIC) adopted codified statutory accounting principles in March 1998. By Insurance Department Notice Nos. 1998-04 and 2000-02, all types of domestic insurers were advised of the requirement to adhere to the NAIC's codified *Accounting Practices and Procedures Manual* (Manual) in preparing financial statements to be filed with the Insurance Department (Department) beginning with quarterly financial statements filed as of March 31, 2001. The Manual is not intended to preempt the legislative and regulatory authority of the states. It is intended to establish a comprehensive basis of accounting to be recognized and adhered to if not in conflict with the statutes or regulations of an insurer's domiciliary state (for example, state laws relating to permissible investments) or when the domiciliary state's statutes and regulations are silent.

This notice is to advise all domestic insurers that the Department has identified the following Commonwealth laws and regulations relating to statutory financial statement presentation that may require disclosure as a departure from the Manual in the notes to financial statements and certified public accountant (CPA) audit reports¹:

Commonwealth Laws and Regulations

31 Pa. Code Chapter 116 (relating to discounting of workers' compensation loss reserves)

31 Pa. Code Chapter 118 (relating to discounting of medical malpractice loss reserves)

Proper Reporting of Uncovered Medical Liabilities and Expenses (Uncovered Claims); Notice No. 2002-10

The Insurance Department (Department) has reviewed how Commonwealth health maintenance organizations (HMO) report covered versus uncovered claims in financial statements filed with the Department. This notice is being issued to emphasize the importance of proper reporting of liabilities and expenses for uncovered claims and to highlight certain reporting and regulatory requirements relating to those liabilities and expenses.

Generally, covered claims are liabilities and expenses associated with services provided within an HMO's provider network and uncovered claims are liabilities and expenses for care provided by nonparticipating or out-of-network providers. For example, an uncovered claim can occur when a subscriber requires emergency care for an injury suffered when on vacation outside of this Common-

wealth. Proper reporting of covered versus uncovered claims is particularly significant for the following reasons:

1. Amounts reported as uncovered claims are used to determine whether an HMO is in compliance with minimum net worth requirements. Specifically, HMOs are required to have minimum net worth equal to the greater of \$1 million¹ or 3 months uncovered health care expenditures for Commonwealth enrollees as reported in the HMO's most recent financial statement filed with the Department. See 31 Pa. Code §§ 301.121 and 301.202 (relating to protections against insolvency; and financial requirements—point-of-service products).

2. Subscribers may be held responsible for payment of services provided by nonparticipating or out-of-network providers (uncovered claims) if an HMO becomes insolvent. Only participating or network providers are required to enter into "hold harmless" agreements whereby the providers agree not to bill or hold subscribers responsible if the HMO does not pay for contracted services. See 31 Pa. Code § 301.122 (relating to hold harmless).

Additionally, section 11 of the Health Maintenance Organization Act (40 P. S. § 1561) requires HMOs to prepare and file financial statements as prescribed by the Department. The Department requires HMOs to adhere to the financial statement instructions and accounting practices and procedures adopted by the National Association of Insurance Commissioners (NAIC). The NAIC's *Health Annual Statement Instructions* define liabilities for uncovered claims as follows:

Include: The liabilities for the costs to the reporting entity for health care services that are the obligation of the reporting entity, for which an enrollee may also be liable in the event of the reporting entity's insolvency and for which no alternative arrangements have been made that are acceptable to the commissioner (director). These costs will vary in type and amount, depending on the arrangements of the reporting entity. They may include out-of-area services, referral services and hospital services.

Exclude: Services when a provider has agreed not to bill the enrollee even though the provider is not paid by the reporting entity. Services that are guaranteed, insured or assumed by a person or organization other than the reported entity.

Therefore, chief financial officers and other persons determining how to calculate and report uncovered claims in compliance with financial statement reporting and regulatory requirements should note the following:

1. Claims for which the HMO is liable for payment of services under the terms of a subscriber's "policy" must be further identified as covered or uncovered based on the provider used, not the service performed.

2. The method of calculating uncovered claims should be based on the insurer's own paid claims files, which should be segregated or identified as covered or uncovered.

3. Guarantees used to exclude claims from being reported as uncovered are subject to specific financial statement reporting requirements. In addition, HMOs that are members of insurance holding company systems are required to comply with statutory reporting and prior approval requirements in the use of guarantees. See 40 P. S. §§ 991.1404 and 991.1405.

¹ HMOs offering point-of-service products are subject to higher minimum dollar amount net worth requirements.

Once a determination has been made regarding the reporting of uncovered claims, this information should be communicated to the Department in two ways:

1. The uncovered columns in the balance sheet and income statement should reflect the liability and expense for uncovered claims using management's best estimate in accordance with Statement of Statutory Accounting Principles No. 55 in the NAIC's *Accounting Practices and Procedures Manual*.

2. The narrative response to the annual statement general interrogatory relating to arrangements to protect subscribers and their dependents against the risk of insolvency (Part 2, No. 5) should state whether or not the HMO has reported liabilities and expenses as uncovered claims and then go on to explain the basis for reporting or not reporting uncovered claims.

Questions concerning this notice and the proper reporting of uncovered claims should be directed to Kaushik K. Patel, Chief, Financial Analysis Division, Bureau of Company Licensing and Financial Analysis, Office of Regulation of Companies, Insurance Department, 1345 Strawberry Square, Harrisburg, PA 17120, (717) 787-5890, fax: (717) 787-8557, e-mail: ra-in-analysis@state.pa.us.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insureds have requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68), in connection with the termination of the insured's automobile policy. The hearings will be held in accordance with the requirements of the act; 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). The administrative hearings will be held in the Insurance Department's regional offices in Philadelphia and Harrisburg, PA. Failure by an appellant to appear at a scheduled hearing may result in dismissal with prejudice.

The following hearings will be held in the Philadelphia Regional Office, Room 1701 State Office Building, 1400 Spring Garden Street, Philadelphia, PA 19130.

Appeal of Alvin and Ruth Freiberg; file no. 02-210-04454; Vigilant Insurance Company (Chubb Insurance Company); doc no. PH02-10-001; November 6, 2002, at 1:30 p.m.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Review Procedure Hearings under the Unfair Insurance Practices Act

The following insurer has requested a hearing as authorized by section 8 of the Unfair Insurance Practices Act (40 P. S. § 1171.8) in connection with their company's termination of the insureds' policies. The administrative hearing will be held in the Insurance Department's regional offices in Harrisburg, PA. Failure by an appellant to appear at a scheduled hearing may result in dismissal with prejudice.

The following hearings will be held in the Administrative Hearings Office, Capitol Associates Building, Room 200, 901 North Seventh Street, Harrisburg, PA 17102.

Appeal of Balboa Insurance Company; file no. 02-182-07261; Maritza and Herbert Dolich; doc. no. P02-10-004; November 14, 2002, at 10:30 a.m.

Each party may appear with or without counsel and offer relevant testimony and/or other relevant evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

Following the hearing and receipt of the stenographic transcript, the Insurance Commissioner (Commissioner) will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend an administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Tracey Pontius, Agency Coordinator, (717) 787-4298.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Generic Investigation Regarding Virtual NXX Codes

Public Meeting held
August 8, 2002

Commissioners Present: Glen R. Thomas, Chairperson;
Robert K. Bloom, Vice Chairperson; Aaron Wilson, Jr.;
Terrance J. Fitzpatrick; Kim Pizzingrilli

Generic Investigation Regarding Virtual NXX Codes;
Doc. No. I-00020093

Investigation Order

By the Commission:

The proceeding of *Level 3 Communications, LLC v. Marianna Scenery Hill Telephone Co.* at Docket No. C-20028114 has raised the broader issue of Virtual NXX codes¹ and the impact that this numbering assignment practice may have on numbering conservation measures across this Commonwealth. Virtual NXX code arrangements are a relatively recent phenomena that have impacted many states across the country.

Traditionally, customers are assigned telephone numbers based on their physical location. When a telephone company receives a group of telephone numbers (NXX codes) to operate, those numbers are associated to a particular switch residing in a rate center². Consequently, when the telephone company assigns a telephone number to its customer, it assigns the customer a telephone number associated with the particular switch serving the rate center where the customer is physically located. This assignment procedure ensures the integrity of the rating structure so that calls between customers located in different rate centers may be properly billed by the telephone company as local flat rate, local measured rate or toll.

On the contrary, Virtual NXX codes allow a customer to obtain a telephone number in a local calling area in which the customer is not physically located. As far as the person calling the number is concerned, the call is a local call, but the party answering the call is actually located somewhere else within the local access and transport area (LATA)³, usually outside of the local calling area of the caller. This type of arrangement is referred to as "virtual" because the customer assigned to the telephone number has a virtual presence in the associated local calling area, not a physical one.

Virtual NXX codes are primarily used by competitive local exchange carriers (CLECs) to give their customers a wider local calling area. Nevertheless, some telecommunications carriers, mostly incumbent local exchange carriers (ILECs), have asserted that use of Virtual NXX codes amounts to the improper use of finite numbering resources. We note that the Maine Public Utility Commission recently addressed the issue of Virtual NXX codes

¹ A NXX code represents the second set of three digits following the area code in a ten-digit telephone, that is NPA-NXX-XXXX. A NXX code contains 10,000 individual telephone numbers. Traditionally, telecommunication carriers received full NXX codes (or 10,000 individual numbers) to provide telecommunications service. In those areas in which thousand-block number pooling has been implemented, carriers receive telephone numbers in blocks of a thousand (or 1K portions of the full NXX code).

² A rate center is a telephone-company designated geographic area which is assigned a vertical and horizontal coordinate within an area code for the determination of toll rates.

³ A LATA is the service area within which a local telephone company offers telecommunications services—local or long distance.

when it directed the North American Numbering Plan Administrator (NANPA)⁴ to reclaim the codes that Brooks Fiber used to provide "unauthorized interexchange service" as opposed to "facilities-based local exchange service."⁵ We also note that the Federal Communications Commission initiated a Notice of Proposed Rulemaking proceeding which requested comments on the use of Virtual NXX codes by telecommunications carriers. See *In the Matter of Developing a Unified Intercarrier Compensation Regime*, CC Docket 01-92, Notice of Proposed Rulemaking, 16 FCC Rcd 9610 (2001). In light of these developments, we will open an on-the-record proceeding to further investigate this relatively new numbering assignment practice.

Also, as part of this Commission's on-going initiative to ensure the efficient use of numbering resources, we believe that it is appropriate to open an on-the-record proceeding to further investigate the Virtual NXX code numbering assignment practice. We direct the Office of Administrative Law Judge (OALJ) to conduct this investigation. We expect this investigation to culminate with an Investigative Report regarding the use of Virtual NXX codes and direct the OALJ to allow interested parties to provide written comments so as to fully address this matter. We direct all interested parties to file comments which address the following issues related to Virtual NXX codes:

1. How many carriers in this Commonwealth are actively utilizing Virtual NXX arrangements?
2. In what exchanges in Pennsylvania are Virtual NXX codes being utilized?
3. What are the benefits of these arrangements to customers and the telephone companies using them?
4. Are there any detriments to customers and telephone companies in using Virtual NXX code arrangements?
5. What is the impact, if any, that Virtual NXX code arrangements have on number conservation?
6. How many customers utilize this service to provide in-coming local calling from exchanges outside of the customers' local calling areas?
7. What is the impact that Virtual NXX code arrangements have on the deployment of local number portability in Pennsylvania?
8. What are the compensation arrangements among carriers for the use of Virtual NXX codes?
9. What are the billing and technical issues that are present when attempting to rate calls by their geographical starting and ending points?
10. Any other issues that are deemed necessary and relevant to the investigation.

After the submission of the parties' substantive comments on the issues listed, the OALJ may conduct hearings as it may deem appropriate to further develop the record to ensure that the Commission receives a comprehensive report on Virtual NXX codes; *Therefore, It Is Ordered That:*

1. The Commission hereby commences a generic investigation regarding the use of virtual NXX code arrangements in this Commonwealth.

⁴ The NANPA is the entity responsible for allocating numbering resources to telecommunications carriers and monitoring the life span of area codes. The NANPA works under contract with the Federal Communications Commission.

⁵ *Maine Public Utilities Commission, Investigation into Use of Central Office Codes (NXXs) by New England Fiber Communications LLC d/b/a Brooks Fiber Communications*. Docket No. 98-758, Order entered June 30, 2000.

2. The OALJ shall conduct the generic investigation.

3. A copy of this Order, which gives notice of this generic investigation, shall be published in the *Pennsylvania Bulletin* and interested parties shall file comments within 30 days of publication of this notice. Interested parties shall file substantive comments to the nine issues listed in the Commission's Order instituting this investigation, as well as any other additional issues the Commission or the parties consider relevant to this investigation.

4. The parties shall file their substantive comments at the I-00020093 Docket Number and their comments should be addressed to James J. McNulty, Secretary, Pennsylvania Public Utility Commission, P. O. Box 3265, Harrisburg, PA 17105-3265.

5. After the submission of the substantive comments, the OALJ shall institute the hearings as may be necessary to further develop the record to ensure that the investigation fully addresses all relevant and material issues regarding Virtual NXX codes.

6. The presiding Administrative Law Judge assigned to this investigation may subsequently limit, or otherwise restrict or eliminate, any additional issues submitted by interested parties if those issues are deemed not to be relevant to this investigation.

7. Upon conclusion of hearings, the presiding Administrative Law Judge shall issue an Investigative Report which shall be served on all parties and submitted to the Commission for its consideration at public meeting.

8. A copy of this Order shall be served on all jurisdictional telecommunications carriers and the Pennsylvania Telephone Association, Office of Consumer Advocate, OSBA and OTS.

JAMES J. MCNULTY,
Secretary

October 8, 2002

To All Parties of Record:

Pursuant to Procedural Rule 402(G), and Ordering paragraph number 3 of the Order, Commissioner Terrance J. Fitzpatrick would like to have the following additional questions addressed in the investigation proceeding:

1. Is the current use of virtual NXX codes contrary to, or authorized by existing statutes, or regulations?

2. If the current use of virtual NXX codes is not contrary to, or authorized by existing statutes or regulations, what policy should the Commission establish?

3. How does the current utilization of virtual NXX codes compare—legally and from a policy standpoint—to the utilization of foreign exchange service offered by the Incumbent Local Exchange Carriers?

Very truly yours,
James J. McNulty
Secretary

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:

The payment date specified in the contract.

30 days after the later of the receipt of a proper invoice or receipt of goods or services.

The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.
