READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Motions will be heard by the Court in the order of their submission to the Court Administrator.

5. The moving party shall file and serve an affidavit of service of the motion and notice prior to, or at the time of presentation. The motion will not be heard unless the notice requirements of this rule have been satisfied and an affidavit of service filed.

4. In all cases where prior notice of presentation is required under statute or rule of court, the motion shall state that the requisite prior notice was given; the date, time and manner of giving notice; and the substance thereof. If the right to ex parte relief is based on the existence of special or compelling circumstances, the motion shall state such circumstances.

Distribution:

G. Preparation and Form of Orders. Copies for Distribution.

1. Unless otherwise directed by the court, orders requested by a party shall be drafted by the attorney at whose instance they are to be made, and shall be submitted to the court for approval.

2. All proposed orders presented to the court, whether by an attorney, court staff or department, or other person, shall list thereon the names of all counsel in the case (of record and known, including counsel for applicant), and shall indicate the party represented by each.

Official Note: Nothing herein is intended to alter the present practice of the court reporters in preparing court orders.

3. Counsel preparing the order shall be responsible for copying, and shall provide sufficient copies to the Clerk of Courts for distribution to all other counsel and parties. If the order continues a case or fixes a date for hearing or argument, counsel shall ensure that the order and its accompanying documents are transmitted to the Court Administrator for notation of the matter for scheduling purposes. The order and documents shall then be filed in the proper office.

4. All documents prepared in and issued from chambers shall be transmitted to the Court Administrator for copying and distribution sec reg., and for scheduling if necessary, then filed in the proper office.

Adopted November 21, 2006, effective 30 days after publication in the Pennsylvania Bulletin.

Som.R.Crim.P. 600.1. Criminal Trial Scheduling

A. The call of the criminal trial list shall be held on the [second] third Monday and third Tuesday preceding the beginning of the trial session, or at such other time established by the court.

B. At the call of the criminal trial list, all trial counsel must, unless excused by the court for cause, be present to report readiness for trial, and all defendants who have not previously pleaded to all charges shall be present for that purpose, unless excused by the court for cause or unless the court grants, or has granted, leave to plead on another date.

C. At the call of the list, the report of readiness for trial means that: All parties, witnesses, and counsel will (barring unexpected subsequent causes) be available, prepared and present for trial on the scheduled trial date and throughout the trial session until the case is called and trial completed. The readiness report is a professional commitment to the court and to all others in the case as above defined. Therefore, the readiness report certifies that reporting counsel has made the necessary recent inquiries of parties and witnesses in advance so that the readiness report will be informed and dependable.

Accordingly, if readiness is qualified in any way for any reason, the court must be informed thereof at the time of the call of the list, and facts which existed and should have been discovered before the readiness report are not cause for later continuance.

Adopted July 19, 2001, effective September 10, 2001. Amended December 10, 2001, effective 30 days after publication in the *Pennsylvania Bulletin*.

Som.R.Crim.P. 600.2. Criminal Trial Scheduling Conference.

A scheduling conference shall be held on the **second** Wednesday preceding the beginning of the trial session. All trial counsel must, unless excused by the court for cause, be present to report on scheduling. If readiness is qualified in any way for any reason, the court must be informed thereof, and facts which existed and should have been discovered before the scheduling conference are not cause for later continuance.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 600.3. Criminal Trial Schedule.

A. Not later than **[Friday] Monday** of the week preceding the beginning of the trial session, the Court Administrator shall issue a criminal trial schedule for the session.

B. All juries will be selected on the first day of the trial session. Further trial proceedings, however, shall be conducted on the dates and times shown on the trial schedule, or as soon thereafter as the preceding case is concluded.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 604. Trial Procedure and Order of Proof.

A. The order in which evidence is presented by a party within the party's case-in-chief, or within rebuttal or surrebuttal, rests primarily with trial counsel; but no evidence shall be presented otherwise out of order without prior notice to the opponent and consent of the Trial Judge.

B. Trial counsel shall have all witnesses and other evidence present and available in court when needed **and exhibits shall be identified and marked in advance** without delaying the trial, unless other arrangements are specially made in advance with the Trial Judge after notice to the opponent. If witnesses are excused from attendance at trial without prior approval of the Trial Judge, sanctions may be imposed, which may include exclusion of the witness' testimony.

C. Trial sessions shall begin at the date and time shown on the court schedule, unless otherwise ordered by the Trial Judge. Duration of trial sessions will be determined by the Trial Judge as the trial progresses. Counsel shall not rely on any particular time of day for recess or adjournment unless and until announced by the Trial Judge.

D. Counsel are encouraged to consult with the Trial Judge and other counsel concerning trial logistical problems as soon as the problem arises or becomes probable.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 708. Revocation Petition.

A. Whenever a probation officer or the District Attorney has reason to believe that a probationer or parolee of this court has violated any condition of his **or her**

probation or parole which warrants revocation, he **or she** shall prepare a petition for revocation setting forth:

1. The name of the sentencing Judge;
2. The date of the order of probation or parole and the term thereof;
3. The offense or offenses in which probation or parole was granted;
4. The specific condition or conditions violated and the facts of violation;
5. The name of defense counsel of record.

B. If the District Attorney is not the petitioner, the petition shall (except in juvenile cases) bear approval of the District Attorney or his designated assistant unless the court approves the filing without such approval.

C. The probation officer shall consult with the District Attorney or his **or her** designated assistant and seek **[his]** advice and counsel concerning the propriety of, and grounds for, revocation of probation or parole. Such consultation shall be arranged according to procedures mutually agreeable to said officers, preferably before preparation of the petition when time permits.

Official Note: See Som.R.Crim.P. 708.7 for suggested form of revocation petition.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 708.1. Revocation Procedure. Detention.

If in the opinion of petitioner the violation warrants detention of defendant pending revocation hearing on the merits of the petition, the following procedures shall be followed:

A. Petitioner shall present to the court the petition and a motion for process. Following the court's action on the motion, the petition and motion and order thereon shall be delivered to the Court Administrator for filing and distribution *sec reg.*, provided that the copies for defendant and his **or her** counsel shall be delivered promptly to petitioner for service as hereinafter provided.

Official Note: For suggested form of motion and order for process, see Som.R.Crim.P. 708.8.

B. If process is denied, the case shall proceed without pre-hearing detention as prescribed in Som.R.Crim.P. 708.2.

C. If process is awarded, defendant shall be arrested and detained, provided, however, that:

1. Defendant shall not be detained for more than ten (10) days (72 hours for a juvenile) after incarceration in the Somerset County Jail on such process, without a detention hearing to determine whether there is reasonable cause to believe that defendant has violated a condition or conditions of probation or parole and that continued detention pending revocation hearing is warranted; and

2. Defendant shall not continue to be detained for revocation hearing for more than thirty (30) days (10 days for a juvenile) after the detention hearing; and

3. Defendant may at any time make application to the court for release on bail.

D. When defendant is placed in custody on the process, petitioner shall promptly present to the Court Administrator a motion to schedule a detention hearing which the Administrator shall promptly grant by making a scheduling order in behalf of the court, scheduling detention

hearing within ten (10) days (72 hours if a juvenile) after defendant was placed in custody in the Somerset County Jail on the process.

Official Note: For suggested form of motion and order for scheduling, see Som.R.Crim.P. 708.9.

E. Upon making the scheduling order, the Administrator shall file the motion and order in the clerk's office, and shall make distribution of copies thereof sec reg. provided that copies for defendant and his counsel shall be promptly delivered to petitioner for service.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 708.2. Revocation Procedure if Detention not Warranted.

If in the opinion of petitioner the violation does not warrant detention of defendant pending revocation hearing, or if a motion for process is denied, the following procedure shall be followed:

A. Petitioner shall present to the Court Administrator the petition accompanied by a motion to schedule a revocation hearing which the Administrator shall promptly grant by making a scheduling order in behalf of the court, scheduling such hearing sec reg. unless prompt hearing is requested by petitioner. The Administrator shall file and distribute the petition, motion and order sec reg. provided that copies for defendant and his or her counsel shall be delivered promptly to petitioner for service on defendant and his or her counsel as hereinafter provided.

B. Petitioner shall serve or cause to be served upon defendant personally a copy of the revocation petition and hearing order and furnish a copy thereof to his or her counsel, at least ten (10) days prior to the hearing date.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 708.4. Temporary Detainer.

In case of a clear emergency when no Judge of the court is available to make an order awarding process, a probation officer may without court order issue a temporary detainer as process for detention of defendant pending further proceedings, provided that the officer shall, if possible, obtain oral approval of a Judge or, if the Judge is unavailable, of his or her immediate supervisor. Such temporary detainer shall be valid only until a Judge of the court is available when the petition and motion for process shall be presented as herein provided.

In case of a probation violation when no Judge of the court is available to make an order awarding process, the petitioning officer may without court order issue a temporary detainer not to exceed 48 hours as process for incarceration of defendant. A written report will be submitted to the sentencing Judge within 24 hours or the next working day. If possible, the officer will obtain oral approval from either Judge to incarcerate the defendant under a detainer.

Adopted July 19, 2001, effective September 10, 2001.

Som.R.Crim.P. 708.7. Form. Petition for Revocation.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of December 2008

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of December, 2008, is 6 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.13 to which was added 2.50 percentage points for a total of 6.63 that by law is rounded off to the nearest quarter at 6 3/4%.

Retention of Professional Interpretive Planning and Exhibit Design Firms; Project Reference No. FDC-500-914

The Department of Conservation and Natural Resources (Department) is seeking proposals from interested and qualified professional interpretive planning and exhibit design firms for various exhibit design and interpretation projects for visitor centers, parks and forestry offices and nature inns across the State. The contract will be an open-end type with projects assigned on an as-

needed basis to meet operational needs and requirements. The Department may select up to four proposals that meet its objectives.

Letters of Interest for this project will only be accepted from individuals, firms or corporations duly authorized to engage in the practice of interpretive planning and exhibit design. If an individual, firm or corporation not authorized to engage in the practice of interpretive planning and exhibit design desires to submit a letter of interest, said individual, firm or corporation may do so as part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of interpretive planning and exhibit design.

Scope of Services

The purpose of these contracts is to satisfy the need for a range of services for all aspects of visitor contact environments. These services include, but are not limited to researching and writing exhibit interpretive plans, developing schematic and concept plans, developing budgets, preparing reports, attending planning meetings, researching text and storyline writing and editing, graphic design and production, web site development, exhibit design, lighting design, audio-visual and other interactive media design, production and installation of media, exhibit specification and engineering drawing, development of specifications and drawings for bid, exhibit fabrication and installation, exhibit maintenance plan writing, artifact conservation and preparation for exhibits, training for Department staff, planning to support the activities listed previously, fixture/furniture design, fixture/furniture fabrication and installation, and interpretive and directional signage (indoor and outdoor). Sustainability should be incorporated into the earliest design decisions. Work may occur in, but is not limited to exhibit areas, visitor lobbies, sales areas, other public areas such as hallways and any other point of public contact in each visitor center, office building or nature inn.

At the time this Request for Proposal (RFP) is issued, there are three State Park visitor centers, one State Forest Resource Management Center and two nature inns in the design or initial construction stages. The visitor centers are located at Sinnemahoning State Park, Cameron County; S.B. Elliott State Park, Clearfield County; and Kinzua Bridge State Park, McKean County. The Tiadaghton State Forest Resource Management Center is located in Lycoming County. The nature inns are located at Bald Eagle State Park in Center County and Parker Dam State Park in Clearfield County. Each visitor center and State forest office building will include between 500—4,000 square feet of indoor exhibit space to orient the visitor to the park, state forest, tourism region and Department, and provide interpretive information about the natural and cultural resources of that area. The nature inns have their own individual theme and will need interpretive features designed for each building utilizing wall space, display cabinets, registration areas, foyers, overnight rooms and outside space.

The selected firms will be expected to provide a full range of professional interpretive exhibit planning, design/build services and web site development services for the stated individual facilities and future facilities on an *as needed basis* throughout the contract period. Projects will be developed and assigned to potentially four successful consultants on an annual basis or as required. Each visitor center/office building or nature inn project

will be individually developed and assigned to the successful consultant using separate project Work Orders.

It is expected that the firms will assemble a team of professionals who are recognized specialists in their individual fields of expertise and/or may subcontract or joint venture with other professionals to assemble the most capable team to address the needs and objectives of this RFP. Selected firms will be required to work closely with the assigned Department Project Coordinator to develop each project utilizing current Department staff onsite to the fullest extent feasible in the creative processes involved. Department Project Coordinators will be responsible for signing off on project development milestones. The Department Project Coordinator may change from project to project. Travel to the project sites will be required.

Qualifications

The firm shall have staff available to facilitate rapid services associated with assigned projects. The firm may be called upon to provide services on multiple projects at the same time. The firm and its staff shall have demonstrated knowledge of interpretive planning, web site development and exhibit design/build/fabrication/installation methods. The interpretive designer should have knowledge and experience in interpretive planning, with preference given to staff who are Certified Interpretive Planners as defined by the National Association of Interpretation. Experience shall include the completion of an Interpretive Plan for the exhibits in and around a visitor center, state park or forestry office and/or nature inn/lodge.

Special Provisions Concerning Disadvantaged Businesses and Enterprise Zone Businesses for Requests for Proposals

“Disadvantaged Business Information”

The Commonwealth encourages participation by Small Disadvantaged Businesses as prime contractors, joint ventures, and subcontractors/suppliers, and by Socially Disadvantaged Businesses as prime contractors.

Small Disadvantaged Businesses are small businesses that are owned or controlled by a majority of persons, not limited to members of minority groups, who have been deprived of the opportunity to develop and maintain a competitive position in the economy because of social disadvantages. The term includes: 1) Department of General Services Bureau of Minority and Women Business Opportunities (BMWBO)—certified Minority Business Enterprises (MBEs) and Women Business Enterprises (WBEs) that qualify as small businesses, and 2) United States Small Business Administration (SBA)—certified Small Disadvantaged Businesses (SDBs) or 8(a) small disadvantaged business concerns.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons, and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

Socially disadvantaged businesses are businesses in the United States that BMWBO determines are owned or controlled by a majority of persons, not limited to members or minority groups, who are subject to racial or ethnic prejudice or cultural bias, but which do not qualify as small businesses. For a business to qualify as “socially

disadvantaged,” the offeror must include in its proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the business person’s color, ethnic origin or gender.

Questions regarding this Program can be directed to Department of General Services, Bureau of Minority and Women Business Opportunities, Room 611, North Office Building, Harrisburg, PA 17125, gs-bmwbo@state.pa.us (717) 787-6708, fax (717) 772-0021.

Program information and a database of BMWBO-certified minority- and women-owned businesses can be accessed at www.dgs.state.pa.us, Keyword: BMWBO. The Federal vendor database can be accessed at www.ccr.gov by clicking on Dynamic Small Business Search (certified companies are so indicated).

“Information Concerning Small Businesses in Enterprise Zones”

The Commonwealth of Pennsylvania encourages participation by small businesses whose primary headquarters facility is physically located in areas designated by the Commonwealth as Designated Enterprise Zones, as prime contractors, joint ventures and subcontractors/suppliers.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

There is no database or directory of small business located in Designated Enterprise Zones. Information on the location of *Designated Enterprise Zones* can be obtained by contacting Aldona M. Kartorie, Center for Community Building, Department of Community and Economic Development, 4th Floor Keystone Building, 400 North Street, Harrisburg, PA 17120-0225, (717) 720-7409, fax (717) 787-4088, akartorie@state.pa.us

The dollar value of the commitment to each Small Disadvantaged Business must be sealed in the same envelope with the Disadvantaged Business submittal of the proposal. The selected contractor's Disadvantaged Business commitment amount, name of the Disadvantaged Business, services to be provided including time frame for performing services will be included as a contractual obligation when the contract is executed.

Offerors may submit, within the same proposal envelope, alternate proposals for differing utilization of Small Disadvantaged Businesses or Socially Disadvantaged Businesses. For example, a proposal may be submitted by prime contractor with a Small Disadvantaged Business as a subcontractor while an alternate proposal may be submitted by the Small Disadvantaged Business as the prime contractor. If an alternate proposal is offered, it must include separately sealed Technical, Price and Disadvantaged Business submittals for the alternate. The alternate proposal will be scored separately. Only the higher-scored proposal (prime proposal or alternate proposal) will be eligible for participation for Best and Final Offers.

The dollar value of the commitment to each Enterprise Zone Small Business must be sealed in the same envelope with the Disadvantaged Business Submittal of the proposal. The selected contractor's Enterprise Zone Small Business commitment amount, name of Enterprise Zone Small Business, and services to be provided including timeframe for performing services will be included as a contractual obligation when the contract is executed.

"Disadvantaged Business Participation"

The following options will be considered as part of the final criteria for selection:

Priority Rank 1. Proposals submitted by Small Disadvantaged Businesses.

Priority Rank 2. Proposals submitted from a joint venture with a Small Disadvantaged Business as a joint venture partner.

Priority Rank 3. Proposals submitted with subcontracting commitments to Small Disadvantaged Businesses.

Priority Rank 4. Proposals submitted by Socially Disadvantaged Businesses.

Each proposal will be rated for its approach to enhancing the utilization of Small Disadvantaged Businesses and/or Socially Disadvantaged Businesses. Each approach will be evaluated with Priority Rank 1 receiving the highest score and the succeeding options receiving scores in accordance with the previously-listed priority ranking.

To the extent that a proposal is submitted by a Small Disadvantaged Business or a Socially Disadvantaged Business, the Small Disadvantaged Business or Socially Disadvantaged Business cannot enter into subcontract arrangements for more than 40% of the total estimated dollar amount of the contract. If a Small Disadvantaged Business or a Socially Disadvantaged Business subcontracts more than 40% of the total estimated dollar amount of the contract to other contractors, the Disadvantaged Business Participation scoring shall be proportionally lower for that proposal.

"Enterprise Zone Small Business Participation"

The following options will be considered as part of the final criteria for selection:

Priority Rank 1. Proposals submitted by an Enterprise Zone Small Business will receive the highest score.

Priority Rank 2. Proposals submitted by a joint venture with an Enterprise Zone Small Business as a joint venture partner will receive the next highest score for this criterion.

Priority Rank 3. Proposals submitted with a subcontracting commitment to an Enterprise Zone Small Business will receive the lowest score for this criterion.

Priority Rank 4. Proposals with no Enterprise Zone Small Business Utilization shall receive no points under this criterion.

To the extent that a proposal is submitted as a prime contractor by an Enterprise Zone Small Business, the Enterprise Zone Small Business cannot enter into contract or subcontract arrangements for more than 40% of the total estimated dollar amount of the contract.

“Contract Requirements—Disadvantaged Business Participation and Enterprise Zone Small Business Participation”

Contracts containing Disadvantaged Business participation must also include a provision requiring the contractor to meet and maintain those commitments made to Disadvantaged Businesses and/or Enterprise Zone Small Businesses at the time of proposal submittal or contract negotiation, unless a change in the commitment is approved by the BMWBO. Contracts containing Disadvantaged Business participation and/or Enterprise Zone Small Business participation must include a provision requiring Small Disadvantaged Business subcontractors, Enterprise Zone Small Business subcontractors, and Small Disadvantaged Businesses or Enterprise Zone Small Businesses in a joint venture to perform at least 50% of the subcontract or Small Disadvantaged Business/Enterprise Zone Small Business portion of the joint venture.

Commitments to Disadvantaged Businesses and/or Enterprise Zone Small Businesses made at the time of proposal submittal or contract negotiation must be maintained throughout the term of the contract. Any proposed change must be submitted to BMWBO which will make a recommendation as to a course of action to the contracting officer.

If a contract is assigned to another contractor, the new contractor must maintain the Disadvantaged Businesses participation and/or Enterprise Zone Small Business participation of the original contract.

The contractor shall complete the Prime Contractor's Quarterly Utilization Report (or similar type document containing the same information) and submit it to the contracting officer of the agency that awarded the contract and BMWBO within 10 workdays at the end of each quarter the contract is in force. If there was no activity, the form must also be completed, stating "No activity in this quarter." This information will be used to determine the actual dollar amount paid to Small Disadvantaged Business and/or Enterprise Zone Small Business subcontractors and suppliers, and Small Disadvantaged Businesses and/or Enterprise Zone Small Businesses involved in Joint Ventures. Also, it is a record of fulfillment of the commitment your firm made and for which it received Disadvantaged Business and Enterprise Zone Small Business points.

Note: Equal employment opportunity and contract compliance statements referring to company equal employment opportunity policies or past con-

tract compliance practices do not constitute proof of disadvantaged business status or entitle a proposer to receive credit for disadvantaged business utilization.

Under 24 Pa.C.S. § 6503(e) (relating to certification of institutions), the Department of Education (Department) will consider the application of the Art Institute of York, LLC (AiY, LLC) for approval of its Certificate of Organization and to have a Certificate of Authority from the Department approving its change from a private licensed school to 4-year college status. Additionally, approval is requested for authority to offer programs in Graphic Design and Kitchen & Bath Design leading to the Associate in Science (AS) degree and programs in Fashion & Retail Management, Graphic Design, Interior Design,

AiY, LLC is wholly owned by Art Institutes International, LLC and Aii, LLC is allowed to operate as a college in the form of a limited liability company rather than as an incorporated entity. AiY, LLC would be obligated to operate in all regards as appropriate for a college, such as to maintain its own minimum protective endowment as required by State statute and to have its own Board of Trustees as required by State Board of Education regulations. Thus, action by the Secretary in this instance would be to approve a Certificate of Authority for the change of status of AiY, LLC to operate as a 4-year college, to grant approval of the specific degrees and programs that may be offered under that status and to approve the Certificate of Organization for AiY, LLC.

In accordance with 24 Pa.C.S. § 6503(e), the Department will act upon these items without hearing, unless within 30 days after the publication of this notice in the *Pennsylvania Bulletin* a written request for public hearing is filed with the Department, along with a notice of intervention, a petition to intervene or protest in accordance with 1 Pa. Code §§ 35.23 and 35.24 (relating to protests) or 1 Pa. Code §§ 35.27—35.32 (relating to intervention).

Gisselquist, Higher Education Specialist (717) 787-4448, 333 Market Street, Harrisburg, PA 17126-0333 on or before 4 p.m. on the due date prescribed by this notice. Persons wishing to review the application should phone or write to the aforementioned office to schedule a time for an in-office review. Duplicate copies of the application are not available.

Persons with a disability who wish to attend the hearing, if held, and require an auxiliary aid, service or other accommodation to participate should contact Carol Gisselquist at (717) 787-4448 to discuss how the Department may best accommodate their needs.

The nearest downstream public water supply intake for Phoenixville (Intake No. 1) is located on the Schuylkill River and is 0.65 mile below the point of discharge.

The proposed changes to the effluent limits in the existing permit are based on negotiations between the Department of Environmental Protection and the permittee as a result of an appeal filed by the permittee.

- (i) The limits for Spectrus CT 1300 at Outfalls 004—006 and 010 are changed from Nondetectable to 0.05 mg/l.
- (ii) The limits for Spectrus OX 1200 at Outfall 006 are removed.

The following new special conditions are added to the permit:

1. Capacity Emergency.
2. Contingency Plan for Continuous Monitoring Equipment.
3. Monitoring During Shut Down.
4. Rerouting of Outfalls 004 and 006.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for

the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001–4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

19-00025A: Ciba Specialty Chemicals Corp. (920 Seventh Avenue, Berwick, PA 18603) for installation of air cleaning devices on a starch dryer, a screen and reject bagger and a dump screen in Berwick Borough, **Columbia County**.

The first proposed air cleaning device, a fabric collector, will be installed on a potato starch flash dryer and will replace the fabric collector currently being used to control the PM/PM10 emissions from the respective dryer. The second proposed air cleaning device, a cartridge collector, will be installed on a screen and reject bagger and will replace the cyclone collector currently being used to control the PM/PM10 emissions from the respective screen and reject bagger. The third proposed air cleaning device, a cartridge collector, will be installed on a dump screen and will replace the fabric collector or cartridge collector currently being used to control the PM/PM10 emissions from the respective dump screen.

No increase in the emission of PM/PM10, or any other air contaminant, is expected to occur as a result of the air cleaning device installations.

The facility in which the flash dryer, screen, reject bagger and dump screen are located is not a major (Title V) facility for any air contaminant.

The Department of Environmental Protection's (Department) review of the information submitted by Ciba Specialty Chemicals Corporation indicates that the flash dryer, screen, reject bagger and dump screen will comply with all applicable conditions of State-only Operating Permit 19-00025 and all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants following the installation of the three proposed air cleaning devices. Based on this finding, the Department proposes to issue plan approval for the installation of the three proposed air cleaning devices. Additionally, if the Department confirms that the flash dryer, screen, reject bagger and dump screen are operating in compliance with all applicable conditions of State-only Operating Permit 19-00025 and all applicable regulatory requirements following the installation of the three proposed air cleaning devices, the Department intends to incorporate the plan approval conditions into State-only Operating Permit 19-00025 in accordance with the administrative amendment requirements of 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable requirements:

1. All conditions contained in State-only Operating Permit 19-00025 remain in effect unless amended or superseded by a condition contained herein. If there is a conflict between a condition or requirement contained in the plan approval and a condition or requirement contained in State-only Operating Permit 19-00025, the permittee shall comply with the condition or requirement contained in this plan approval rather than with the conflicting condition or requirement contained in State-only Operating Permit 19-00025.

2. The concentration of PM/PM10 in the exhaust of the fabric collector controlling the PM/PM10 emissions from the flash dryer shall not exceed .02 grain per dry cubic foot of effluent gas volume and the concentration of PM/PM10 in the exhaust of the cartridge collector controlling the PM/PM10 emissions from the screen and reject bagger shall not exceed .04 grain per dry standard cubic foot of effluent gas volume.

3. The cartridge collector controlling the PM/PM10 emissions from the dump screen shall not be exhausted to the outdoor atmosphere at any time.

4. The fabric collector used to control the PM/PM10 emissions from the flash dryer and the cartridge collector used to control the PM/PM10 emissions from the screen and reject bagger shall each be equipped with instrumentation to monitor the differential pressure across the collector on a continuous basis.

5. The air compressor used to supply compressed air to the fabric collector used to control the PM/PM10 emissions from the flash dryer and the cartridge collector used to control the PM/PM10 emissions from the screen and reject bagger shall be equipped with an air dryer and oil trap.

6. Spare filter bags and cartridges shall be kept onsite for the fabric collector used to control the PM/PM10

emissions from the flash dryer and the cartridge collector used to control the PM/PM10 emissions from the screen and reject bagger.

14-00003D: The Pennsylvania State University (101P Office of Physical Plant, University Park, PA 16802-1118) for the construction of a dual-fired, combined heat and power combustion turbine and a heat recovery steam generation unit with duct burner (HRSG) located at the University Park Campus facility in College Township, **Centre County**. The respective facility is a major facility for which a Title V operating permit 14-00003 has been issued.

The Department of Environmental Protection's (Department) review of the information contained in the application indicates that the construction of the respective combustion turbine and HRSG meets all applicable air quality regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including BAT Requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department intends to issue a plan approval for the construction of the combustion turbine and HRSG. Additionally, if the Department determines that the respective sources are operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into Title V operating permit 14-00003 by means of an administrative amendment under 25 Pa. Code § 127.450.

The following is a summary of the conditions that the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

General Conditions

1. Words and terms that are not otherwise defined in this plan approval shall have the meanings set forth in section 3 of the Air Pollution Control Act (APCA).

2. The issuance of this plan approval does not prevent the future adoption by the Department of any rules, regulations or standards, or the issuance of orders necessary to comply with the requirements of the Federal Clean Air Act (CAA) or the APCA, or to achieve or maintain ambient air quality standards. The issuance of this plan approval shall not be construed to limit the Department's enforcement authority.

3. This plan approval authorizes temporary operation of the sources covered by this plan approval provided the following conditions are met.

a. When construction, installation, modification or reactivation is being conducted, the permittee should provide written notice to the Department of the completion of the activity approved by this plan approval and the permittee's intent to commence operation at least 5 working days prior to the completion of said activity. The notice shall state when the activity will be completed and when the permittee expects to commence operation. When the activity involves multiple sources on different time schedules, notice is required for the commencement of operation of each source.

b. Under 25 Pa. Code § 127.12b(d), temporary operation of the sources to facilitate the shakedown of sources and air cleaning devices, to permit operations pending the issuance of a permit under 25 Pa. Code Chapter 127, Subchapter F or G (relating to operating permits; and Title V operating permits) or to permit the evaluation of the air contaminant aspects of the source.

c. This plan approval authorizes a temporary operation period not to exceed 180 days from the date of commencement of operation, provided the Department receives notice from the permittee under paragraph (a), previously.

d. The permittee may request an extension of the 180-day shakedown period if further evaluation of the air contamination aspects of the sources is necessary. The request for an extension should be submitted, in writing, to the Department at least 15 days prior to the end of the initial 180-day shakedown period and shall provide a description of the compliance status of the source, a detailed schedule for establishing compliance, and the reasons compliance has not been established. This temporary operation period will be valid for a limited time and may be extended for additional limited periods, each not to exceed 180 days.

e. The notice submitted by the permittee under subpart a previously, prior to the expiration date of the plan approval, shall modify the plan approval expiration date on page 1 of this plan approval. The new plan approval expiration date shall be 180 days from the date of commencement of operation.

4. The permittee shall maintain and operate the sources and associated air cleaning devices in accordance with good engineering practice as described in the plan approval application submitted to the Department.

5. The records, reports or information obtained by the Department or referred to at public hearings shall be available to the public, except as provided in paragraph a of this condition.

a. Upon cause shown by the permittee that the records, reports or information or a particular portion thereof, but not emission data, to which the Department has access under the act, if made public, would divulge production or sales figures or methods, processes or production unique to that person or would otherwise tend to affect adversely the competitive position of that person by revealing trade secrets, including intellectual property rights, the Department will consider the record, report or information, or particular portion thereof confidential in the administration of the act. The Department will implement this section consistent with sections 112(d) and 114(c) of the CAA (42 U.S.C.A. §§ 7412(d) and 7414(c)). Nothing in this section prevents disclosure of the report, record or information to Federal, State or local representatives as necessary for purposes of administration of Federal, State or local air pollution control laws, or when relevant in a proceeding under the act.

6. This plan approval will be valid for a limited time, as specified by the expiration date contained on page 1 of this plan approval. Except as provided in §§ 127.11a and 127.215 (relating to reactivation of sources; and reactivation), at the end of the time, if the construction, modification, reactivation or installation has not been completed, a new plan approval application or an extension of the previous approval will be required.

a. If construction has commenced, but cannot be completed before the expiration of this plan approval, an extension of the plan approval must be obtained to continue construction. To allow adequate time for Departmental action, a request for the extension should be postmarked at least 30 days prior to the expiration date. The Department will not issue an extension after the plan approval expires. The request for an extension should include the following:

1. A justification for the extension,
2. A schedule for the completion of the construction.

If construction has not commenced before the expiration of this plan approval, then a new plan approval application must be submitted and approval obtained before construction can commence.

b. If the construction, modification or installation is not commenced within 18-months of the issuance of this plan approval or if there is more than an 18-month lapse in construction, modification or installation, a new plan approval application that meets the requirements of 25 Pa. Code Chapter 127, Subchapters B, D and E (relating to plan approval requirements; prevention of significant deterioration of air quality; and new source review) shall be submitted.

7. This plan approval may not be transferred from one person to another except when a change of ownership is

demonstrated to the satisfaction of the Department and the Department approves the transfer of the plan approval in writing.

a. Section 127.12a (relating to compliance review) applies to a request for transfer of a plan approval. A compliance review form shall accompany the request.

b. This plan approval is valid only for the specific source and the specific location of the source as described in the application.

8. Under 35 P.S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the APCA.

a. The permittee shall also allow the Department to have access at reasonable times to said sources and associated air cleaning devices with such measuring and recording equipment, including equipment recording visual observations, as the Department deems necessary and proper for performing its duties and for the effective enforcement of the APCA and regulations adopted under the act.

b. Nothing in this plan approval condition shall limit the ability of the EPA to inspect or enter the premises of the permittee in accordance with section 114 or other applicable provisions of the CAA.

9. This plan approval may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

a. The permittee constructs or operates the source subject to the plan approval in violation of the act, the CAA, the regulations promulgated under the act or the CAA, a plan approval or permit or in a manner that causes air pollution.

b. The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.

c. The permittee fails to submit a report required by this plan approval.

d. The EPA determines that this plan approval is not in compliance with the CAA or the regulations thereunder.

10. The permittee, or any other person, may not circumvent the new source review requirements of 25 Pa. Code Chapter 127, Subchapter E by causing or allowing a pattern of ownership or development, including the phasing, staging, delaying or engaging in incremental construction, over a geographic area of a facility which, except for the pattern of ownership or development, would otherwise require a permit or submission of a plan approval application.

11. No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of this plan approval, the APCA or the regulations promulgated thereunder, except that with prior approval of the Department, the device or technique may be used for control of malodors.

12. Reports, test data, monitoring data, notifications shall be submitted to the:

Regional Air Program Manager
Department of Environmental Protection
400 Waterfront Drive
Pittsburgh, PA 15222

13. If required by section 112(r) of the CAA, the permittee shall develop and implement an accidental release program consistent with requirements of the CAA, 40 CFR Part 68 (relating to chemical accident prevention provisions) and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act.

14. A person may not cause or permit the operation of a source subject to § 127.11 (relating to plan approval requirements), unless the source and air cleaning devices identified in the application for the plan approval and the plan approval issued to the source, are operated and maintained in accordance with specifications in the application and conditions in the plan approval issued by the Department. A person may not cause or permit the operation of an air contamination source subject to this chapter in a manner inconsistent with good operating practices.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Plan Approval may submit the information to Alan Binder, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. 10-267C: Three Rivers Aluminum Co.—TRACO (71 Progress Avenue, Cranberry Township, PA 16066) for replacement of a thermal oxidizer at their facility in Cranberry Township, **Butler County**. This is a Title V facility.

Under 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue Plan Approval 10-267C to Three Rivers Aluminum Co. (TRACO) for the replacement of a thermal oxidizer at the company's facility located at 71 Progress Avenue, Cranberry Township, Butler County. The facility currently has a Title V permit No. 10-00267. The Plan Approval will subsequently be incorporated into the Title V Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

Plan Approval No. 10-267C is for the replacement of the existing thermal oxidizer associated with two surface coating operations with a new regenerative thermal oxidizer. Based on the information provided by the applicant and Department's own analysis, the source and associated control device will emit a total of 171 tons of VOC's, 4.29 tons of NO_x, 3.6 tons of CO, 0.33 ton of PM, 0.25 ton of which will be PM₁₀ and 0.03 ton of SO_x per year. This proposed installation will not increase the facility's current VOC emissions limit for this source.

PLAN APPROVAL

PUBLIC HEARINGS

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, William R. Weaver, New Source Review Chief, (717) 705-4702.

06-05002: Lehigh Cement Co. (537 Evansville Road, Fleetwood, PA 19522-8541) The Department of Environmental Protection will hold a public hearing for the approval of a change to the Reasonably Available Control Technology (RACT) Plan for the two cement kilns at Lehigh's Portland cement manufacturing facility in Maiden Creek Township, **Berks County**. The change to the plan involves the short term NOx limit and the method of monitoring used. The NOx limit will be changed from 8.83 pounds per ton of clinker to 367.7 pounds per hour (30-day rolling average). This is an actual reduction in the emission limit for NOx. The second change involves the type of system used to monitor these emissions. Lehigh will be permitted to use a continuous emission monitor in place of the "Linkman" system currently required by the RACT Plan.

The pertinent documents concerning this change to the plan is available at the Reading District Office. Reviews may be scheduled by contacting the office by telephone at (610) 916-0100.

The public hear will be held on December 16, 2008, from 9 a.m. until all scheduled comments on the proposal are received in the Reading District Office, 1005 Cross Roads Boulevard, Reading, PA 19605. Persons interested in submitting comments should notify Roger A. Fitterling by telephone at (610) 916-0100 to reserve time. Two written copies of the comments to be presented shall be send to office no later than December 15, 2008.

The Department will continue to receive written comments for 2 weeks following the hearing.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a

particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit descrip-

tion below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEANUP UNDER THE ACT OF OCTOBER 18, 1988

Proposed Consent Decree Vandor/Furlong HSCA Site Doylestown and Buckingham Townships Bucks County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites

Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305), is proposing an Interim Response at the Vandor/Furlong HSCA Site (Site) in Doylestown and Buckingham Townships, Bucks County, PA.

The Department, under the authority of HSCA, is conducting an investigation of the Site. This investigation includes the sampling of private drinking water supply wells located in the vicinity of the Vandor/Furlong Site at the intersection of Route 263 and Edison Furlong Road in Bucks County, PA. Approximately 38 wells are contaminated or may potentially become contaminated with detectable levels of Trichloroethene (TCE). Tetrachloroethene (PCE) and breakdown products of TCE were also detected in some of the wells, but TCE is the primary contaminant of concern.

To address the release and threat of release of hazardous substances at the Site and corresponding threats to human health and the environment, the Department proposes a response action at the Site under section 501(a) of HSCA, (35 P. S. § 6020.501(a)). The Department hereby proposes the installation of a waterline, including water mains and lateral connections to the public water supply. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements and is feasible and cost-effective. Other possible alternatives include no action or the maintenance of existing/installation and continued monitoring and maintenance of whole-house carbon filtration units and/or supplying bottled water.

An Administrative Record, which contains more detailed information concerning this proposed response action, is available for public inspection. The Administrative Record may be examined from 8 a.m. until 4 p.m. at the Department's office at 2 East Main Street, Norristown, PA 19401. Those interested in examining the Administrative Record should contact Charles Clark at (484) 250-5731 to arrange for an appointment. An additional copy of the Administrative Record is available for review at the Doylestown Township Municipal Building at 425 Wells Road, Doylestown, PA 18901.

Under section 506(d) of HSCA (35 P. S. § 6020.506(d)), the Department shall conduct a public hearing on January 7, 2009, with an inclement weather date of January 15, 2009, at 7 p.m. in the conference room at the Doylestown Township Building at 425 Wells Road, Doylestown, PA 18901. Anyone who would like to present formal oral comments regarding this Interim Response may do so by registering with the Department before the meeting. Individuals may register by calling the Department's Community Relations Coordinator, Lynda Rebarchak, at (484) 250-5820.

Any person with a disability who wishes to attend the public hearing and will require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Lynda Rebarchak at the telephone number listed previously or through the Pennsylvania AT&T Relay Services at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs. The public may also submit written comments regarding the Department's proposed Interim Response action during the period of public comment. In accordance with section 506(c) of HSCA, the Department has established a period for public comment that is now open until close of business February 20, 2009. Written comments should be addressed to Charles Clark, Project Officer, Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401.

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. Notice of Proposed General Permit and/or General Operating Permit for Hot Mix Asphalt Plants (BAQ-GPA/GP-13)

The Department of Environmental Protection (Department) proposes to issue General Plan Approval and/or Operating Permit (BAQ-GPA/GP-13 or General Permit) for Hot Mix Asphalt Plants (hereinafter referred to as HMA plants) which contains a Best Available Technology (BAT) determination and other applicable requirements.

The proposed General Permit, BAQ-GPA/GP-13, developed under the authority of section 6.1(f) of the Air Pollution Control Act (35 P.S. § 4006.1(f)) and 25 Pa. Code § 127.611 (relating to general plan approval and general operating permits), will apply to the construction, operation and modification of both new and existing HMA plants.

This proposed General Permit is limited to the construction, operation and modification of HMA plants that are located at facilities for which a valid mining permit or an air quality operating permit exists for the operation of the facility.

The proposed General Permit contains conditions that prescribe applicability, emission limitations, compliance, notification, monitoring, recordkeeping, reporting and administrative requirements. The proposed General Permit establishes restrictions and BAT requirements for HMA plants that are consistent with current industrial practices.

Prior to initiating construction or modification and operation using BAQ-GPA/GP-13, the owner or operator of a HMA plant must submit an application form provided by the Department to the appropriate regional office. At least 15 working days prior to submitting the BAQ-GPA/GP-13 application to the Department, a copy of the application must be submitted to the municipality where the source will be located. Proof of the municipal notice must accompany the application subsequently submitted to the Department.

A permittee using this General Permit shall comply with the terms and conditions of the general plan approval and/or general operating permit.

This General Permit has been established in accordance with the provisions described in 25 Pa. Code Chapter 127, Subchapter H (relating to general plan approvals and operating permits) and is not applicable to a HMA plant regulated by the requirements of 25 Pa. Code Chapter 127, Subchapters D, E and G (relating to prevention of significant deterioration of air quality; new source review; and Title V operating permits).

Along with conventional fuels like propane, natural gas, No. 2 fuel oil and No. 4 fuel oil, the General Permit allows the use of biodiesel, on-specification waste derived liquid fuel and other alternative fuels in the HMA plant's rotary dryer. The permittee shall, upon the request of the Department, provide fuel analyses or fuel samples of the fuel used in any of the units authorized to operate under this general permit.

Within 180 days of the commencement of operation of any HMA plant at the respective site, the permittee shall perform a source test to establish the baseline emissions of filterable particulates, NOx, and CO, VOCs, PM10 and PM2.5 (total PM10 and PM2.5 for new plants). The permittee shall conduct a burner tuning procedure in accordance with the manufacturer's specifications to mini-

mize NOx and CO emissions each year after the initial stack test mentioned previously.

The authorization to construct and/or operate a HMA plant under this proposed General Permit will be granted for a fixed period of 5 years.

The proposed General Permit establishes the following fees:

- a. General Plan Approval application fee: \$1,000

A new application and fee must be submitted to Department each time the permittee installs or modifies a HMA plant. The installation or modification of a HMA plant must be conducted according to the terms and conditions of this General Permit.

- b. General Operating Permit fees shall be submitted along with the BAQ-GPA/GP-13 application: \$375
 c. The General Operating Permit renewal fee shall be payable every 5 years: \$375
 d. Annual operating permit administration fees shall be payable on an annual basis: \$375

Interested parties are encouraged to obtain and review a complete copy of this proposed General Permit by contacting Jeanette Van Skike, Division of Permits, Bureau of Air Quality, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325. TDD users may telephone the Department through the Pennsylvania AT&T Relay Services, (800) 654-5984. Internet users can access a copy of the General Permit at www.depweb.state.pa.us (DEP Keyword: Air Quality Home).

The Department invites written comments on the proposed General Permit. Notice and opportunity for comment will also be provided to the United States Environmental Protection Agency and the States of Delaware, Maryland, New Jersey, New York, Ohio, Virginia and West Virginia. Interested persons may submit written comments, suggestions or objections to Virendra Trivedi, Environmental Engineer Manager, New Source Review Section, Division of Permits, Bureau of Air Quality, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468. The Department will also consider written requests that a public hearing be held concerning this proposed General Permit. Written public comments must be submitted to the Department by January 9, 2009. Comments received by facsimile will not be accepted.

Processing and Conversion of Municipal Waste into a Fuel Product; Proposed General Permit WMGM037

Under the regulatory authority of 25 Pa. Code § 271.811 (relating to authorization for general permit) of the municipal waste regulations and the statutory authority of the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Department of Environmental Protection (Department) is proposing a General Permit for the processing and conversion of municipal waste to produce a fuel product.

This proposed General Permit authorizes permittees to process municipal waste to produce a fuel. Fuel manufactured under the authority of the permit is not considered a waste when marketed as a commodity in trade for use in an air contamination source approved through an Air Quality authorization issued by the Department under 25 Pa. Code Chapter 127 (relating to construction, modification, reactivation and operation of sources). General Permit WMGM037 will reduce the amount of waste disposed in landfills by providing a mechanism to divert waste suitable for use under this permit to a more productive, beneficial use.

*Department of Agriculture—Amusement Rides and Attractions Erected Permanently or Temporarily at Carnivals, Fairs and Amusement Parks;
Regulation No. 2-102 (#2616)*

On June 13, 2007, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Agriculture (Department). This rulemaking amends 7 Pa. Code Chapter 139. The proposed regulation was published in the June 23, 2007 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on September 25, 2008.

This rulemaking is a comprehensive update and revision of the Department's existing regulations on amusement rides and attractions. There are three basic reasons for this rulemaking. First, the provisions of Chapter 139 are out-of-date and have not been amended since 1987. Second, revisions are necessary to incorporate the standards of the ASTM International (formerly known as the American Society for Testing Materials). Third, the rulemaking brings this chapter into greater consistency with its enabling legislation, the Amusement Ride Inspection Act which was amended in the 1990.

We have determined this regulation is consistent with the statutory authority of the Department (4 P. S. § 404) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Code Chapter 46. The proposed regulation was published in the July 21, 2007 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on September 25, 2008.

This final-form regulation seeks to alleviate some of the issues in the mortgage loan industry by establishing a set of rules governing persons or entities operating in the loan business in the Commonwealth.

We have determined this regulation is consistent with the statutory authority of the Department (7 Pa.C.S. § 6138(a)(4) and 7 P. S. § 6212) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

Implementation of the Alternative Energy Portfolio
Standards Act of 2004;
Regulation No. 57-252 (#2569)*

On September 27, 2006, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking amends 52 Pa. Code Chapter 75. The proposed regulation was published in the October 14, 2006 *Pennsylvania Bulletin* with a 60-day public comment period. The final-form regulation was submitted to the Commission on October 3, 2008.

This final-form regulation implements portions of the Alternative Energy Portfolio Standards Act of 2004. Code Chapters 435a, 441a and 465a. The proposed regulation was published in the June 28, 2008 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on September 30, 2008.

This regulation amends three existing chapters of the Board's regulations. These amendments expand the list of

offenses that licensees must report to the Board, establish time periods for the submission of additional documents required when applying via the SLOTS Link system, clarify that temporary credentials for non-gaming employees will be issued by the Bureau of Licensing to reflect current Board practice, and further restrict the employment of off-duty law enforcement officers as security personnel anywhere in the licensed facility.

We have determined this regulation is consistent with the statutory authority of the Board (4 Pa.C.S. §§ 1202(b)(30), 1308, 1318 and 1331) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

12-84	Department of Labor and Industry Special Rules of Administrative Practice and Procedure Before the Workers' Compensation Appeals Board; Special Rules of Administrative Practice and Procedure Before the Workers' Compensation Judges 38 Pa.B. 4902 (November 5, 2008)	10/6/08	11/5/08

Department of Labor and Industry Regulation #12-84 (IRRC #2721)

Special Rules of Administrative Practice and Procedure Before the Workers' Compensation Appeals Board; Special Rules of Administrative Practice and Procedure Before the Workers' Compensation Judges

November 5, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the September 6, 2008 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Department of Labor and Industry to respond to all comments received from us or any other source.

Section 111.3. Definitions.—Implementation procedures; Clarity.

The definition of "filing" references the electronic filing of documents, but the regulation does not define that phrase. Additionally, it is our understanding that the Department lacks the technological capability to accept electronic filings, and that it is uncertain when it will be able to do so. While we agree with the Department's assessment that electronic filing will likely result in time and cost savings for all parties, we must also conclude that referencing electronic filing in regulations before such a thing exists will likely result in unnecessary confusion for the regulated community.

The final-form regulation should omit specific references to electronic filing. This concern also applies to sections 111.11, 111.12 and 131.11.

Should the Department retain the phrase "electronic filing," the final-form regulation should further explain what is meant by the term and explicitly state when the Department expects to implement it.

Section 111.11. Content and form.—Clarity.

This section references "paper forms or an electronic format prescribed by the Board." As noted in our comments pertaining to section 111.3, we recommend that all references to electronic filing be omitted. The final-form regulation should provide specific instruction as to where the prescribed paper forms (and the electronic format, should the Department choose to retain the reference) may be accessed.

Section 111.12. Filing, service and proof of service.—Clarity.

Subsection (b) requires that "[w]hen filing electronically, an original of each appeal and cross-appeal shall be filed." For purposes of electronic filing, what is an "original"? As noted in our comments pertaining to section 111.3, we recommend that all references to electronic filing be omitted. Should the Department elect to retain them, the final-form regulation should clarify what is required of a document to be filed in this manner.

Additionally, subsection (f) states that it supersedes multiple sections of the General Rules of Administrative Practice and Procedure (GRAPP). Some of the GRAPP sections mentioned appear to be entirely unrelated to this section. Pursuant to existing regulations of the Joint Committee on Documents, "a superseding special rule shall be limited in scope of subject matter to the scope of the general rule which it is intended to supersede." 1 Pa. Code § 13.38(b). In the final-form regulation, the

Department should only list the GRAPP provisions that are actually superseded by the specific regulatory language in that section.

The same concern applies to sections 131.50a, 131.52, 131.53b, 131.56, 131.59a, 131.59b, 131.60, 131.111.

Section 131.5. Definitions.—Clarity.

The proposed regulation defines “mediation” in part as “a conference conducted by a judge, as authorized by sections 401 and 401.1 of the act” The terms “judge” and “mediating judge” are separately defined. The final-form regulation should clarify how a mediation could be conducted by a judge other than a “mediating judge.”

Section 131.11. Filing, service and proof of service.—Clarity.

Subsections (a)(2) and (b)(2) reference “a format prescribed by the Department and published in the *Pennsylvania Bulletin*,” and subsection (e) references “a format as prescribed by the Bureau and published in the *Pennsylvania Bulletin*.” Because the *Bulletin* may be an unfamiliar resource for many, we recommend that the Department make the required format readily available on the Department’s web site. The final-form regulation should provide specific instruction as to where the prescribed format may be accessed.

Section 131.50a. Employee request for special supersedeas hearing under sections 413(c) and 413(d) of the act.—Clarity.

Subsection (c) limits issues to be determined in a challenge hearing to two: 1) whether the claimant has stopped working; and 2) whether the claimant is earning the wages stated in the Notice of Suspension or Modification. With regard to the first decidable issue, by when must the claimant have stopped working? May the claimant have returned to work at any point? The final-form regulation should include additional detail to fully inform the regulated community of decidable issues at this kind of hearing.

Also, 131.50a(c) refers to a “challenge hearing.” The existing regulation defines the term “challenge proceeding.” The final-form regulation should use consistent terminology.

Section 131.53. Procedures subsequent to the first hearing.—Clarity; Reasonableness.

This proposal deletes subsection (f), which requires medical examinations to be scheduled within 45 days after the first hearing is actually held. The preamble states that proposed section 131.52 will now govern the scheduling of such examinations; however, that provision does not provide a specific time frame during which the examinations must occur. The final-form regulation should explain why omission of a specific timeframe better serves public welfare.

Section 131.59. Alternative dispute resolution.—Clarity.

Although this regulation defines the related terms “mediation” and “voluntary settlement conference,” it does not define “alternative dispute resolution.” To improve clarity, the final-form regulation should define this term or include a cross-reference to an appropriate statutory definition.

Section 131.59b. Mandatory mediation.—Clarity; Statutory authority.

This section creates new rules governing mandatory mediations. We raise three concerns.

First, the undefined term “mandatory mediation,” which appears throughout the regulation and is spotlighted in this provision, is ambiguous. It is unclear when a mediation becomes “mandatory” for purposes of this regulation: is it mandatory pursuant to statute, mandatory pursuant to court order, or both? The final-form regulation should clarify in the definitions section whether a mediation is “mandatory” pursuant to Act 147, or whether another event could make it so for purposes of this regulation.

Second, we note a possible conflict between subsection (a) and the enabling statute. Subsection (a), which may not be waived, prohibits a mandatory mediation from being assigned to the adjudicating judge. Act 147 defines “mediation” as a “conference conducted by a worker’s compensation judge, but not necessarily the judge assigned to the actual case involving the parties.” From this, it appears that the General Assembly intended to permit adjudicating judges to handle mediations in some circumstances. What is the Department’s authority for creating a blanket prohibition against assigning a mandatory mediation to an adjudicating judge?

Third, subsection (b) poses a question of statutory authority. Without this provision, would 42 Pa.C.S. § 5949 (relating to confidential mediation communications and documents) apply to proceedings governed by this section? If so, what is the Department’s authority for limiting confidentiality in paragraph (b)(2)?

Section 131.60. Resolution hearings.—Clarity.

Subsection (g) states that the judge “will require proof that a petition has been filed with the Bureau, and will make the proof a part of the record.” The final form regulation should clarify what would satisfy the proof requirement. Additionally, it should define “resolution hearing” or include a cross-reference to an appropriate statutory definition.
