READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Establishing Costs for Issuance of a Partial Payment Plan for Summary Cases in the Magisterial Courts of the 31st Judicial District; No. AD-3-2009

Administrative Order

And Now, this 4th day of March, 2009, *It Is Ordered*, pursuant to the provisions of 42 Pa.C.S. § 1725.1(c)(5), relating to unclassified costs, that a fee of fifteen dollars and fifty cents (\$15.50) for issuance of an installment payment plan shall be imposed in each summary case where a defendant requests and is permitted to make installment payments as provided in Pa.Rs.Crim.P. 409(C)(5), 414(C)(5), 424(C)(5), 454(F)(1), and 456(C)(3)(a).

This Administrative Order replaces an earlier Administrative Order issued on October 5, 2007, and published in 37 Pa.B. 5743 on October 27, 2007; it increases the installment payment plan issuance fee from ten (\$10.00) dollars to fifteen dollars and fifty cents (\$15.50), clarifies the intent of the prior Order that the fee is for the issuance of the payment plan itself, and further clarifies the intent of the previous Order that the fee be applicable to all forms of disposition of summary cases before an issuing authority.

This Order shall take effect thirty (30) days after its publication in the *Pennsylvania Bulletin* and shall apply to all such plans issued on or after the effective date. The previous fee of ten (\$10.00) dollars shall apply until this Order becomes effective.

It Is Further Ordered That one (1) certified copy of this Order shall be filed by the Court Administrator of Lehigh County with the Administrative Office of Pennsylvania Courts; that two (2) certified copies and a computer diskette or CD-ROM copy that complies with the requirement of 1 Pa. Finally, it is ordered that Court Administrator of Lehigh County publish a copy of this Order on the Unified Judicial System's web site at ujportal.pacourts.us/localrules/ruleselection.aspx.

RULES AND REGULATIONS

Title 58—RECREATION

GAME COMMISSION

[58 PA. CODE CHS. 143 AND 147]

Hunting and Furtaker Licenses and Special Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, adopted the following rulemaking:

Amend Chapter 143, Subchapters A, B, D, E, J and K, and Chapter 147, Subchapters R and S (relating to deer control; and bobcat hunting-trapping permit) to accommodate the implementation of the Commission's new Pennsylvania Automated License System (PALS) within this Commonwealth.

The final-form rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 38 Pa.B. 1477 (March 29, 2008).

1. Purpose and Authority

The Commission has been working in partnership with the Pennsylvania Fish and Boat Commission (PFBC) to create and implement the Commonwealth's first PALS for recreational licenses. The PALS has allowed the Commission and PFBC to replace their respective paper-based licensing systems with a common computer-based automated licensing system. Implementing this computerized PALS within this Commonwealth will significantly streamline the application and purchase process for customers, virtually eliminate manual auditing and reporting for agents, and provide tremendous new electronic functionality to assist the Commission and PFBC support staff in monitoring license administration. In addition, the data from the PALS will enable the Commission and PFBC to monitor license sales, create strategic business plans based on trend analysis and, most importantly, create marketing plans based on more accurate customer demographics. Therefore, in an effort to accommodate the implementation of the Commission's new PALS within this Commonwealth, the Commission has amended Chapter 143, Subchapters A, B, C, D, E, J and K, and Chapter 147, Subchapters R and S.

It is important to note that this rulemaking was tabled subsequent to its proposal due to the recurrent unavailability of an operational PALS during this time frame. In light of the progress made to the system during the past year, the Commission anticipates a full hard roll out of the system on June 15, 2009. As a consequence, the Commission has reactivated this proposal to make the necessary regulatory changes to effectuate use of the system.

Section 2722(g)(2) of the code (relating to authorized license-issuing agents) provides that the commission shall adopt regulations for "The administration, control and performance of activities conducted pursuant to the provisions of this chapter." Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game

or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to Chapter 143, Subchapters A, B, C, D, E, J and K, and Chapter 147, Subchapters R and S were adopted under this authority.

2. Regulatory Requirements

The final-form rulemaking will amend Chapter 143, Subchapters A, B, C, D, E, J and K, and Chapter 147, Subchapters R and S to accommodate the implementation of the Commission's new PALS within this Commonwealth.

3. Persons Affected

Persons wishing to hunt or trap game or wildlife within this Commonwealth will be affected by the final-form rulemaking.

4. Comment and Response Summary

The Commission received a total of three official written comments concerning this final-form rulemaking. The comments were generally in opposition of the implementation of the PALS within this Commonwealth.

5. Cost and Paperwork Requirements

The final-form rulemaking may result in some additional cost and paperwork associated with the implementation of the Commission's new PALS within this Commonwealth. However, the Commission has determined that if there is any additional expense associated with this effort, it will not be substantial and would be absorbed by the current budget. The final-form rulemaking should not result in any other additional cost or paperwork.

6. Effective Date

The final-form rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. Contact Person

For further information regarding the final-form rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of these amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. PROPOSED RULEMAKING

GAME COMMISSION

[58 PA. CODE CH. 141]
Hunting and Trapping

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, proposed to add § 141.28 (relating to wild pheasant recovery areas) to define the geographic locations of the wild pheasant recovery areas and prohibit the release of propagated pheasants and certain dog training activities within same.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 27, 2009, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until April 17, 2009.

1. Purpose and Authority

The Ring-necked Pheasant Management Plan calls for restoring self-sustaining and huntable ring-necked pheasant populations in suitable habitats by establishing Wild Pheasant Recovery Areas (WPRAs). Wild-trapped pheasants will be released in WPRAs in an effort to establish populations of at least 10 hens per mi² in the spring, while WPRAs remain closed to game farm pheasant stocking and pheasant hunting, and dog training is restricted during the population establishment period. The moratorium on game farm pheasant releases is aimed at minimizing the possibility of reducing genetic diversity and improving survivorship of wild pheasants. Pheasant hunting curtailment is important to eliminating the incidental taking of hen pheasants thus limiting population viability. Dog training restrictions are essential to maximizing survivorship and direct taking of hens, especially during the spring nesting and summer brood rearing periods. The Commission is proposing to add § 141.28 to define the geographic locations of the wild pheasant recovery areas and prohibit the release of propagated pheasants and certain dog training activities within same.

Section 322(c)(4) of the code (relating to powers and duties of the commission) specifically authorizes the Commission to "Define geographic limitations or restrictions." Section 2102(c) of the code (relating to regulations) directs that "The commission shall promulgate regulations concerning the transportation, introduction into the wild, importation, exportation, sale, offering for sale or purchase of game or wildlife or the disturbing of game or wildlife in their natural habitat." Section 2102(a) of the code provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or

may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The addition of § 141.28 was proposed under to this authority.

2. Regulatory Requirements

The proposed rulemaking will add § 141.28 to define the geographic locations of the wild pheasant recovery areas and prohibit the release of propagated pheasants and certain dog training activities within the defined locations.

3. Persons Affected

Persons wishing to hunt wild pheasants, release propagated pheasants or train dogs within this Commonwealth may be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in any additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

[58 PA. CODE CH. 141]
Hunting and Trapping

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, proposed to amend § 141.66 (relating to cable restraints) to permit properly licensed trappers to take and utilize nontarget furbearing species captured in a cable restraint device during an open season for the same.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 27, 2009, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until April 17, 2009.

1. *Purpose and Authority*

In January 2005, the Commission first defined and authorized the limited use of cable restraint devices to harvest red fox, gray fox and coyote. Since the inception of its lawful use by this Commonwealth's trappers, the Commission has identified a low but recognizable incidence of nontarget furbearing species (including raccoons, opossum, skunk and bobcat) being captured in legal sets of these devices. Due to the limited authorization on the species that can be lawfully harvested through the use of the cable restraint devices, the Commission has historically treated the capture of all other nontarget furbearing species as mistake catches despite the fact that there are typically open seasons on these species at the time of capture. In an effort to avoid this result, the Commission is proposing to amend § 141.66 to permit properly licensed trappers to take and utilize nontarget furbearing species captured in a cable restraint device during an open season for the same. The amendment will also allow an incidentally captured bobcat to be harvested if the trapper possesses a valid bobcat harvest permit. This modification does not in any manner change the legal definition of a legal cable restraint or the manner or location where these devices may be set.

Section 2102(d) of the code (relating to regulations) authorizes the Commission to "promulgate regulations stipulating the size and type of traps, the type of firearms and ammunition and other devices which may be used, the manner in which and the location where the devices may be used, the species the devices may be used for and the season when the devices may be used." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 141.66 were proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend § 141.66 to permit properly licensed trappers to take and utilize nontarget furbearing species captured in a cable restraint device during an open season for the same.

3. *Persons Affected*

Persons wishing to trap furbearing species with cable restraint devices within this Commonwealth may be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in any additional cost or paperwork. Rather, the proposed rulemaking will likely reduce costs and paperwork associated with the disposition of furbearing species mistakenly captured in cable restraint devices.

5. *Effective Date*

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its January 27, 2009, meeting, proposed to amend § 141.4, Appendix G (relating to hunting hours) for the 2009-2010 hunting year.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 27, 2009, meeting of the Commission. Comments can be sent to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, until April 17, 2009.

1. *Purpose and Authority*

Each year there is a shift in calendar days for each month. As a result of this occurrence, the tables of hunting hours found in § 141.4 must be amended and updated each year to reflect the current year's hunting dates and corresponding legal hunting hours. The Commission is proposing to amend § 141.4 to update the tables of hunting hours for the 2009-2010 hunting year to

reflect the annual change in days and subsequent hunting times.

Section 322(c)(1) of the code (relating to powers and duties of the Commission) specifically empowers the Commission to "fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 141.4 were proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend § 141.4 to update the tables of hunting hours for the 2009-2010 hunting year to reflect the annual change in days and subsequent hunting times.

3. *Persons Affected*

Persons wishing to hunt or trap within this Commonwealth during the 2009-2010 hunting year will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

The effective dates of the proposed rulemaking are July 1, 2009, to June 30, 2010.

6. *Contact Person*

DEPARTMENT OF BANKING

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of April

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of April, 2009, is 5 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 3.35 to which was added 2.50 percentage points for a total of 5.85 that by law is rounded off to the nearest quarter at 5 3/4%.

Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of

the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operat-

ing permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

a. Use, where possible, of water or chemicals for control of dust in the demolition of buildings or structures, construction operations, the grading of roads or the clearing of land.

b. Application of asphalt, oil, water or suitable chemicals on dirt roads, material stockpiles and other surfaces which may give rise to airborne dusts.

c. Paving and maintenance of roadways.

d. Prompt removal of earth or other material from paved streets onto which earth or other material has been transported by trucking or earth moving equipment, erosion by water, or other means.

26. Upon completion of the construction of the facility, company must request that the existing Operating Permit be updated to include the new equipment and the new requirements. Notify the Department when the installation is completed so that the facility can be inspected for issuance of an operating permit.

27. Words and terms that are not otherwise defined in this plan approval shall have the meanings set forth in section 3 of the Air Pollution Control Act (APCA) (35 P. S. § 4003) and 25 Pa. Code § 121.1. (25 Pa. Code § 121.1)

28. The issuance of this plan approval does not prevent the future adoption by the Department of any rules, regulations or standards, or the issuance of orders necessary to comply with the requirements of the Federal Clean Air Act (CAA) or the APCA, or to achieve or maintain ambient air quality standards. The issuance of this plan approval shall not be construed to limit the Department's enforcement authority. (25 Pa. Code § 127.12b (a) (b))

29. This plan approval authorizes temporary operation of the sources covered by this plan approval provided the following conditions are met.

a. When construction, installation, modification or reactivation is being conducted, the permittee should provide written notice to the Department of the completion of the activity approved by this plan approval and the permit-

tee's intent to commence operation at least 5 working days prior to the completion of said activity. The notice shall state when the activity will be completed and when the permittee expects to commence operation. When the activity involves multiple sources on different time schedules, notice is required for the commencement of operation of each source.

b. Under 25 Pa. Code § 127.12b(d), temporary operation of the sources to facilitate the shakedown of sources and air cleaning devices, to permit operations pending the issuance of a permit under 25 Pa. Code Chapter 127, Subchapter F or G (relating to operating permits; and Title V operating permits) or to permit the evaluation of the air contaminant aspects of the source.

c. This plan approval authorizes a temporary operation period not to exceed 180 days from the date of commencement of operation, provided the Department receives notice from the permittee under paragraph (a), previously.

d. The permittee may request an extension of the 180-day shakedown period if further evaluation of the air contamination aspects of the sources is necessary. The request for an extension should be submitted, in writing, to the Department at least 15 days prior to the end of the initial 180-day shakedown period and shall provide a description of the compliance status of the source, a detailed schedule for establishing compliance, and the reasons compliance has not been established. This temporary operation period will be valid for a limited time and may be extended for additional limited periods, each not to exceed 180 days.

30. If, at any time, the Department has cause to believe that air contaminant emissions from the sources listed in this plan approval may be in excess of the limitations specified in, or established under this plan approval or the permittee's operating permit, the permittee may be required to conduct test methods and procedures deemed necessary by the Department to determine the actual emissions rate. The testing shall be conducted in accordance with 25 Pa. Code Chapter 139, where applicable, and in accordance with any restrictions or limitations established by the Department at the time as it notifies the company that testing is required. (25 Pa. Code § 127.12b)

31. The permittee shall maintain and operate the sources and associated air cleaning devices in accordance with good engineering practice as described in the plan approval application submitted to the Department. (25 Pa. Code § 127.12(a)(10))

32. The records, reports or information obtained by the Department or referred to at public hearings shall be available to the public, except as provided in paragraph (a) of this condition.

a. Upon cause shown by the permittee that the records, reports or information or a particular portion thereof, but not emission data, to which the Department has access under the act, if made public, would divulge production or sales figures or methods, processes or production unique to that person or would otherwise tend to affect adversely the competitive position of that person by revealing trade secrets, including intellectual property rights, the Department will consider the record, report or information, or particular portion thereof confidential in the administration of the act. The Department will implement this section consistent with sections 112(d) and 114(c) of the CAA (42 U.S.C.A. §§ 7412(d) and 7414(c)). Nothing in this section prevents disclosure of the report, record or information to Federal, State or local representatives as

necessary for purposes of administration of Federal, State or local air pollution control laws, or when relevant in a proceeding under the act. (25 Pa. Code §§ 127.12(c) and (d) and 35 P. S. § 4013.2)

33. This plan approval will be valid for a limited time, as specified by the expiration date contained on page 1 of this plan approval.

a. Except as provided in §§ 127.11a and 127.215 (relating to reactivation of sources; and reactivation), at the end of the time, if the construction, modification, reactivation or installation has not been completed, a new plan approval application or an extension of the previous approval will be required.

b. If construction has commenced, but cannot be completed before the expiration of this plan approval, an extension of the plan approval must be obtained to continue construction. To allow adequate time for departmental action, a request for the extension should be postmarked at least 30 days prior to the expiration date. The Department will not issue an extension after the plan approval expires. The request for an extension should include the following:

- i. A justification for the extension,
- ii. A schedule for the completion of the construction.

c. If construction has not commenced before the expiration of this plan approval, then a new plan approval application must be submitted and approval obtained before construction can commence.

34. If the construction, modification or installation is not commenced within 18-months of the issuance of this plan approval or if there is more than an 18-month lapse in construction, modification or installation, a new plan approval application that meets the requirements of 25 Pa. Code Chapter 127, Subchapters B, D and E (relating to plan approval requirements; prevention of significant deterioration of air quality; and new source review) shall be submitted. (25 Pa. Code § 127.13)

35. This plan approval may not be transferred from one person to another except when a change of ownership is demonstrated to the satisfaction of the Department and the Department approves the transfer of the plan approval in writing.

a. Section 127.12a (relating to compliance review) applies to a request for transfer of a plan approval. A compliance review form shall accompany the request.

36. This plan approval is valid only for the specific source and the specific location of the source as described in the application. (25 Pa. Code § 127.32)

37. Under 35 P. S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the APCA.

38. The permittee shall also allow the Department to have access at reasonable times to said sources and associated air cleaning devices with such measuring and recording equipment, including equipment recording visual observations, as the Department deems necessary and proper for performing its duties and for the effective enforcement of the APCA and regulations adopted under the act.

39. Nothing in this plan approval condition shall limit the ability of the Environmental Protection Agency (EPA) to inspect or enter the premises of the permittee in

accordance with section 114 or other applicable provisions of the CAA. (25 Pa. Code § 127.12(4) and 35 P. S. § 4008 and 114 of the CAA)

40. This plan approval may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

a. The permittee constructs or operates the source subject to the plan approval in violation of the act, the CAA, the regulations promulgated under the act or the CAA, a plan approval or permit or in a manner that causes air pollution.

b. The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.

c. The permittee fails to submit a report required by this plan approval.

d. The EPA determines that this plan approval is not in compliance with the CAA or the regulations thereunder. (25 Pa. Code 127.13a)

41. The permittee, or any other person, may not circumvent the new source review requirements of 25 Pa. Code Chapter 127, Subchapter E by causing or allowing a pattern of ownership or development, including the phasing, staging, delaying or engaging in incremental construction, over a geographic area of a facility which, except for the pattern of ownership or development, would otherwise require a permit or submission of a plan approval application.

42. No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of this plan approval, the APCA or the regulations promulgated thereunder, except that with prior approval of the Department, the device or technique may be used for control of malodors. (25 Pa. Code §§ 121.9 and 127.216)

43. Reports, test data, monitoring data, notifications shall be submitted to the:

Regional Air Program Manager
Department of Environmental Protection
(At the address given on the plan approval transmittal letter or otherwise notified) (25 Pa. Code § 127.12c)

44. If required by section 112(r) of the CAA, the permittee shall develop and implement an accidental release program consistent with requirements of the CAA, 40 CFR Part 68 (relating to chemical accident prevention provisions) and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act (Pub. L. No. 106-40).

45. The permittee shall prepare and implement a Risk Management Plan (RMP) which meets the requirements of section 112(r) of the CAA, 40 CFR Part 68 and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act when a regulated substance listed in 40 CFR 68.130 is present in a process in more than the listed threshold quantity at the facility. The permittee shall submit the RMP to the EPA according to the following schedule and requirements:

a. The permittee shall submit the first RMP to a central point specified by the EPA no later than the latest of the following:

- i. Three years after the date on which a regulated substance is first listed under 40 CFR 68.130; or,

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and

a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Where a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91–96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program

Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial

investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

General Permit WMGM038; Processing and Beneficial Use of Gypsum Wallboard

Under the regulatory authority of 25 Pa. Code § 271.811 (relating to authorization for general permit) of the municipal waste regulations and the statutory authority of the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Department of Environmental Protection (Department) issued a General Permit for the processing and beneficial use of unpainted and untreated standard gypsum wallboard.

This final General Permit WMGM038 (General Permit) provides for the beneficial use of ground (that is, processed) gypsum wallboard as a component of mushroom growing media, as a soil additive material or soil amendment and allows for utilization of the backing paper as an animal bedding material. The final General Permit reduces the amount of gypsum wallboard being disposed in landfills by providing a mechanism to divert the waste to a more productive, beneficial use. This General Permit provides potential end uses under a streamlined set of operating conditions.

Persons interested in obtaining more information or a paper copy of the final General Permit should contact Peter Arnt of the Division of Municipal and Residual Waste at (717) 787-7381. TDD users may contact the Department through the Pennsylvania Relay Service at (800) 654-5984. The General Permit document is also accessible on the Department's web site at www.depweb.state.pa.us (DEP Keywords: "Public Participation"; then "Proposals Open for Comment," or DEP Keywords "Municipal Waste").

DEPARTMENT OF PUBLIC WELFARE

Changes to an Additional Class of Disproportionate Share Payments

The Department of Public Welfare (Department) is providing final notice of its revision to the criteria and an increase in the allocation for disproportionate share hospital (DSH) payments to certain qualifying Medical Assistance (MA) enrolled hospitals for Fiscal Year (FY) 2007-2008.

The Department published notice of its intent to revise the qualifying criteria for DSH payments to hospitals that advanced the Department's goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth and to increase its allocation for this payment at 38 Pa.B. 2741 (June 7, 2008). The Department received no public comments during the 30 day public comment period.

To address increases in MA eligibility and service costs and to ensure access to care for MA recipients, the Department will change the original qualifying criteria and will provide a one-time increase to its allocation.

The Department has adopted the criteria set forth in its notice of intent and will consider a hospital eligible, provided it is an acute care general hospital that meets all of the following criteria:

(a) The hospital provides in excess of 100,000 inpatient days to MA eligible individuals as reported on its FY 2004-2005 MA Hospital Cost Report (MA 336).

(b) The hospital has a Low-Income Utilization Rate in excess of the 95th percentile of the Low-Income Utilization Rate for all enrolled acute care general hospitals as reported on its FY 2004-2005 MA Hospital Cost Report (MA 336).

(c) The hospital's ratio of MA revenue to net patient revenue exceeds the 98th percentile for all Commonwealth acute care general hospitals as reported in the Pennsylvania Health Care Cost Containment Council's 2006 Financial Analysis, Volume One.

(d) The dollar value of the hospital's uncompensated care equals or exceeds the 94th percentile of the value to uncompensated care for all acute care general hospitals as reported in the Pennsylvania Health Care Cost Containment Council's 2006 Financial Analysis, Volume One.

(e) The hospital is located in a Census tract designated by the Bureau of Primary Health Care of the Health Resource and Services Administration as a Medically Underserved Area.

For FY 2007-2008 only, the Department will increase the amount allocated for this payment from \$5.862 million to \$11.348 million. The Department is not changing its methodology of calculating payment for qualifying hospitals. In making these payments, the Department continues to ensure that no acute care general hospital receives a DSH payment that is in excess of its hospital-specific DSH upper payment limit and the Commonwealth will not exceed its aggregate annual DSH allotment.

Fiscal Impact

For FY 2007-2008, the fiscal impact as a result of the revision to the criteria and the one-time payment increase

in DSH payment allotment is \$11.949 million in total funds (\$5.486 million in State General Funds and \$6.463 million in Federal funds).

DEPARTMENT OF TRANSPORTATION

Finding Lehigh County

Under section 2002(b) of The Administration Code of 1929 (71 P. S. § 575(b)), the Director of the Bureau of Design makes the following written finding:

The Department of Transportation (Department) plans to replace Spinnerstown Road Bridge, SR 2031, section 05B, over Hosensack Creek in Lower Milford Township, Lehigh County. Spinnerstown Road Bridge is a contributing element to the Dubbs-Reith Historic District. The project will also require right-of-way from the Dubbs-Reith Historic District.

The effect of the project on the bridge will be mitigated through aesthetic treatment options that will be incorpo-

rated into the design of the new bridge. Where feasible, the Department will ensure that historically sensitive landscaping will be planted to replace mature trees and shrubbery that will have been removed by construction of the new bridge.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize such effect.

No adverse environmental effect is likely to result from this project.
