READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

STATEMENTS OF POLICY

Title 10—BANKS AND BANKING

DEPARTMENT OF BANKING

[10 PA. CODE CH. 48]

Mortgage Loan Business Practices—Statement of Policy

The Department of Banking (Department) is amending this statement of policy under the authority 7 Pa.C.S. § 6138(a)(4) (relating to authority of department) (Mortgage Act).

Purpose

The statement of policy was originally promulgated to provide guidance to licensees under section 310(a) of the Mortgage Bankers and Brokers and Consumer Equity Protection Act (MBBCEPA) (63 P.S. § 456.310(a)). On November 5, 2008, Chapter 3 of the MBBCEPA was repealed and replaced by the enactment of the Mortgage Act. The Mortgage Act assumed the place of Chapter 3 of the MBBCEPA and contains the same statutory provisions upon which the original guidance was based. Additionally, the Mortgage Act regulates certain licensees that were not previously licensed under Chapter 3 of the MBBCEPA. Therefore, the Department has revised the statement of policy to comport with the Mortgage Act and to cover the additional licensees that were not previously required to be licensed.

Explanation of Requirements

There are no new requirements as a result of the issuance of the revised statement of policy.

Entities Affected

The statement of policy will affect existing and future licensees under the Mortgage Act as of the date of publication of the statement of policy in the *Pennsylvania Bulletin*.

Costs and Paperwork Requirements

No additional costs will be incurred by the Department or licensees as a result of this statement of policy.

Effectiveness/Sunset Date

The statement of policy is effective upon publication in the *Pennsylvania Bulletin*. There is no sunset date.

Contact Person

Persons with questions regarding the statement of policy should contact the Office of Chief Counsel of the Department of Banking, 17 North Second Street, Suite 1300, Harrisburg, PA 17101-2290, (717) 787-1471.

(Editor's Note: Title 10 of the Pennsylvania Code is amended by amending a statement of policy in §§ 48.1—48.3 to read as set forth in Annex A.)

Fiscal Note: 3-45. No fiscal impact; (8) recommends adoption.

TITLE 10. BANKS AND BANKING

PART IV. BUREAU OF CONSUMER CREDIT AGENCIES

CHAPTER 48. MORTGAGE LOAN BUSINESS PRACTICES—STATEMENT OF POLICY

Sec.	
48.1.	Definitions.
48.2.	Purpose.
48.3.	Dishonest, fraudulent, illegal, unfair or unethical, or negligent or incompetent practices or conduct in the mortgage loan business.

§ 48.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Act—7 Pa.C.S. Chapter 61 (relating to mortgage loan industry licensing and consumer protection).

Licensee—A licensee as defined in 7 Pa.C.S. § 6102 (relating to definitions).

Mortgage broker—A mortgage broker as defined in 7 Pa.C.S. § 6102.

Mortgage lender—A mortgage lender as defined in 7 Pa.C.S. § 6102.

Mortgage loan business—The mortgage loan business as defined in 7 Pa.C.S. § 6102.

Mortgage loan correspondent—A mortgage loan correspondent as defined in 7 Pa.C.S. § 6102.

Mortgage originator—A mortgage originator as defined in 7 Pa.C.S. § 6102.

§ 48.2. Purpose.

The purpose of this chapter is to provide guidance to licensees under the act regarding what constitutes dishonest, fraudulent or illegal practices or conduct in any business, unfair or unethical practices or conduct in connection with the mortgage loan business and negligence or incompetence in performing any act for which a licensee is required to hold a license under the act, as contemplated under 7 Pa.C.S. § 6139(a)(3) and (10) (relating to suspension revocation or refusal). Conduct or practices that the Department believes to be dishonest, fraudulent, illegal, unfair, unethical, negligent or incompetent under the act may result in an administrative action against the licensee by the Department under 7 Pa.C.S. § 6139(a)(3) and (10), as applicable. In reviewing licensee conduct and practices, the Department will consider the totality of circumstances in each case, including the actions of licensees, in determining whether licensee conduct and practices are inconsistent with the act.

§ 48.3. Dishonest, fraudulent, illegal, unfair or unethical, or negligent or incompetent practices or conduct in the mortgage loan business.

The following paragraphs provide guidance as to what the Department will consider when reviewing licensee conduct for dishonest, fraudulent or illegal practices or conduct in any business, unfair or unethical practices or conduct in connection with the mortgage loan business and negligence or incompetence in performing any act for which a licensee is required to hold a license under the act and examples of these kinds of activities within the context of the mortgage loan business. The examples

listed under each paragraph are for illustrative purposes only and do not limit or otherwise alter the Department's discretion or the applicability of the guidance contained in each paragraph to all licensees.

(1) A dishonest practice or conduct is characterized by a lack of truth, honesty or trustworthiness, or is deceptive or implies a willful perversion of the truth to deceive, cheat, or defraud.

Example A: In the process of obtaining a mortgage loan for a consumer, a mortgage originator employed by a mortgage broker discloses to the consumer in the Good Faith Estimate that the mortgage broker's fee for the transaction will be \$1,000, although the mortgage originator knows that the fee will be much higher. There are no material changes to the loan prior to closing. The consumer appears at the loan closing and discovers when reviewing the HUD-1 settlement sheet that the mortgage broker's fee is \$3,000.

Example B: A consumer tells a mortgage originator employed by a mortgage broker that she seeks a fixed-rate mortgage loan without a prepayment penalty that has an interest rate within a certain range. The mortgage originator knows that the consumer does not qualify for such a fixed-rate mortgage loan, but does not inform the consumer of that fact. Additionally, in all legally-required disclosures it is indicated that the consumer is getting a fixed-rate loan without a prepayment penalty. However, when the consumer arrives at the loan closing, the mortgage loan that is offered is a variable-rate loan with a prepayment penalty.

Example C: A mortgage loan correspondent designs and issues targeted loan solicitations that purposefully appear to come from Federal or State government agencies or consumers' existing lenders, or both.

(2) A fraudulent practice or conduct is characterized by deceit or trickery, an intentional perversion of the truth to induce another to part with something of value or to surrender a legal right, or an act of deceiving or misrepresenting. Fraud also includes any other definition of fraud under applicable law.

Example A: A mortgage originator employed by a mortgage broker has promised a certain low-rate mortgage loan to a consumer. However, the consumer does not have the minimum debt-to-income ratio set by the lender preferred by the mortgage originator's employer to qualify for the lowest-rate mortgage loan offered. Therefore, the mortgage originator changes the W-2 statement of the consumer to reflect a higher income for the consumer without the consumer's knowledge, and then submits the documentation to the lender.

Example B: An employee of a mortgage lender contacts a real estate appraiser with a request to perform an appraisal and informs the appraiser that the sale price of the property is \$150,000. The employee knows that the property will not appraise for that amount, but promises the appraiser future business if the appraiser "can make the deal work." The mortgage loan is closed by the mortgage lender based upon the appraisal report showing the value of the property as \$150,000.

Example C: A consumer seeks a particular mortgage loan from a mortgage broker but does not have sufficient income or assets to obtain the specified product offered by one of the mortgage broker's lenders. After the mortgage broker explains the problem to the consumer, the consumer tells the mortgage broker he forgot to mention previously that he makes double his previously-stated income based upon a side business. The consumer later

provides documentation to the mortgage broker regarding the additional income. The mortgage broker, although suspicious of the sudden change in the consumer's circumstances, does not question the consumer on the additional income and submits a loan application including the additional income to the lender. The mortgage loan is closed by the lender and the lender later discovers that the purported additional income never existed.

(3) An illegal practice or conduct is characterized as not according to or authorized by law.

Example A: A mortgage broker fails to provide a consumer with a good faith estimate within 3 business days of receiving the consumer's mortgage loan application as required by the Real Estate Settlement Procedures Act of 1974 (12 U.S.C.A. §§ 2601—2617) in a situation where the lender has not rejected the application within 3 days.

Example B: A mortgage loan correspondent fails to implement a plan to safeguard confidential consumer information as required by the Gramm-Leach-Bliley Act and the Federal Trade Commission's Privacy and Safeguards Rules.

Example C: A mortgage lender advertises an interest rate without conspicuously disclosing the annual percentage rate and identifying the qualification terms, as required by the Truth-in-Lending Act (15 U.S.C.A. §§ 1601—1667f).

(4) An unfair practice or conduct is characterized as being marked by injustice, partiality or deception or being inequitable in business dealings. An unethical practice or conduct is characterized as not conforming with the moral norms or standards followed in the mortgage loan business or profession.

Example A: A consumer tells a mortgage originator employed by a mortgage broker that he seeks a \$30,000 fixed-rate home equity loan on a house that the consumer has advised the mortgage originator he intends to remain in permanently. Although the mortgage originator's employer is able to provide the requested loan, the mortgage originator "steers" the consumer to variable-rate products with balloon payment features for which the mortgage originator's employer, and thus the mortgage originator, will receive higher compensation than with a traditional fixed-rate home equity loan.

Example B: A lender has an agreement with a mortgage broker to provide qualified consumers a certain interest rate. The mortgage broker then tells a consumer who qualifies for the certain interest rate that the interest rate is locked in with the lender; however, the consumer was not asked by the mortgage broker or lender to sign a lock-in agreement with the lender. The lender later informs the mortgage broker that the lender is not going to honor the agreement between the mortgage broker and the lender to provide certain interest rates. Therefore, the mortgage broker is unable to offer the consumer a mortgage loan with the promised interest rate and the consumer has no written lock-in agreement to enforce against the lender.

Example C: A mortgage lender enters into a lock-in agreement with a consumer. During the lock-in period, interest rates rise. The mortgage lender decides to delay closing until the lock-in agreement with the consumer expires, thus causing the consumer to lose his locked-in interest rate and forcing the consumer to accept a mortgage loan with a higher interest rate.

(5) Negligence in performing any act for which the licensee is required to hold a license under the act is

characterized by the definition of negligence as used by the courts of this Commonwealth. Incompetence in performing any act for which the licensee is required to hold a license under the act is characterized as inadequate or unsuitable for a particular purpose, or lacking the qualities needed for effective action.

Example A: A mortgage originator employed by a mortgage lender takes mortgage loan applications from consumers on behalf of the licensee, but then leaves the company. The mortgage lender fails to follow up on the former employee's application files. A consumer assumes that his mortgage loan is being processed by the mortgage lender until he contacts the mortgage lender as the closing date on his home purchase approaches. The mortgage lender realizes the error but is unable to provide the applied-for mortgage loan in time for the closing date.

Example B: A mortgage broker routinely fails to timely forward information received from consumers that was requested by the lenders and which is necessary to meet lenders' underwriting criteria. As closing approaches, the lenders receive the consumers' information and determine that the consumers do not qualify for the loans promised by the mortgage broker, thereby causing the consumers to delay closings or obtain different loans, or both.

Example C: A mortgage lender consistently fails to file mortgage satisfaction pieces, thereby repeatedly causing consumers to have to send notices to satisfy to the mortgage lender to get the mortgage lender to issue mortgage satisfaction pieces regarding the consumers' paid-off mortgage loan obligations.

Title 55—PUBLIC WELFARE

DEPARTMENT OF PUBLIC WELFARE
[55 PA. CODE CH. 6000]

Rescission of the Statement of Policy Clarifying County Fiscal Management for Waiver Services

Scope

This statement of policy applies to administrative entity (AE) directors and administrators.

Purpose

The purpose of this statement of policy is to rescind 55 Pa. Code Chapter 6000, Subchapter N regarding County Fiscal Management for the 2176 Waiver (§§ 6000.781—6000.785).

Background

As a condition of approving renewal of the Consolidated and P/FDS waivers, the Federal Centers for Medicare and Medicaid Services (CMS) directed that the Department of Public Welfare develop a Statewide rate-setting methodology for both waivers. The procedures for the standardized rate-setting methodology will include policies for funding reserved bed days.

Discussion

Because the standardized rate-setting methodology and AE Operating Agreement will include AE requirements related to rate setting for the waivers, the statements of policy are no longer needed.

Effective Date

This statement of policy is effective for rates for waiver-funded services that are effective as of July 1, 2009.

DEPARTMENT OF PUBLIC WELFARE
[55 PA. CODE CH. 6000]

Rescission of the Statements of Policy Clarifying Reserved Bed Days Under 2176 Waiver

Scope

This statement of policy applies to administrative entity (AE) directors and administrators and providers of Residential Habilitation services funded through the Consolidated and Person/Family Directed Support (P/FDS) Waivers.

Purpose

The purpose of this statement of policy is to rescind 55 Pa. Code Chapter 6000, Subchapter B regarding reserved bed day procedures for hospitalization and therapeutic leave under 2176 waiver (§§ 6000.201—6000.203); and Subchapter P regarding procedures for funding reserved hospital and leave days under 2176 waiver (§ 6000.841).

Background

As a condition of approving renewal of the Consolidated and P/FDS waivers, the Federal Centers for Medicare and Medicaid Services (CMS) directed that the Department of Public Welfare develop a Statewide rate-setting methodology for both waivers. The procedures for the standardized rate-setting methodology will include policies for funding reserved bed days.

Discussion

Because the standardized rate-setting methodology will include procedures for funding reserved bed days for the waivers, these statements of policy are no longer needed.

Effective Date

This statement of policy is effective for rates for waiver-funded residential habilitation services that are effective as of July 1, 2009.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION
UNDER ACT 2, 1995
PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator

at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001-4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Sachin Shankar, New Source Review Chief, (484) 250-5920.

46-0024E: McNeil Consumer Healthcare (7050 Camp Hill Road, Fort Washington, PA 19034-2210) for re-activation of a Glatt 60 Fluid Bed Processor in Whitmarsh Township, **Montgomery County**. This process has a potential to emit less than 1 tpy of VOC and less than 1 tpy of PM₁₀. The facility shall continue to remain a synthetic minor. The plan approval includes monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Ray Kempa, New Source Review Chief, (570) 826-2507.

58-329-008: Tennessee Gas Pipeline Co. (P. O. Box 2511, S1102A, Houston, TX 77252-2511) for construction of new gas turbines/generator at their facility in Clifford Township, **Susquehanna County**.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

53-00001D: Tennessee Gas Pipeline Co. (1001 Louisiana Street, P. O. Box 2511, Houston, TX 77252-2511) for installation of an oxidation catalyst on an existing reciprocating internal combustion engine at Station 313 in Hebron Township, **Potter County**. The respective facility is a major facility for which a Title V operating permit 53-000001 has been issued.

The Department of Environmental Protection's (Department) review of the information contained in the application indicates that the installation of the oxidation catalyst meets all applicable air quality regulatory requirements pertaining to air contamination sources and the emission of air contaminants. Based on these findings, the Department intends to issue a plan approval for the installation of an oxidation catalyst. Additionally, if the Department determines that the respective control device is operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into Title V operating permit 53-000001 by means of an administrative amendment under 25 Pa. Code § 127.450.

All applicable regulatory requirements relating to fugitive, visible and malodorous emissions standards and additional requirements regarding malfunctions, testing, monitoring, recordkeeping and reporting have been included in the proposed plan approval. In addition to the previous requirements, the following is a list of conditions that the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

Under 25 Pa. Code § 127.12b, the permittee shall perform NO_x and CO stack tests upon source ID P111 within 180 days from the commencement of operation of control device ID C111 to determine NO_x and CO emissions from control device ID C111 associated with source ID P111.

The performance test shall consist of three separate test runs and each run shall last at least in 1 hour in duration.

The testing of the inlet and outlet of control device ID C111 shall be running simultaneously.

The inlet gas temperature of control device ID C111 and pressure drop across control device ID C111 shall be recorded on a continuous basis during the test. The requirement for the inlet gas temperature range and pressure drop range will be established based upon the recorded data and stack test report.

If the pressure drop (1-hour average basis) across the catalyst (control device ID C111) increases above a value determined by an engineering assessment and the recorded pressure drop data taken during testing, the permittee shall produce and keep record of the investigation the permittee is required to conduct to determine if the catalyst (control device ID C111) requires maintenance, cleaning, replacement, and the like and other measures taken to address the pressure drop increase.

All testing is to be done using reference method test procedures acceptable to the Department and all testing is to be performed while source ID P111 is operating at +/- 10% of full load.

1. Under 25 Pa. Code § 127.12b, the permittee shall equip control device ID C111 with instrumentation to monitor pressure drop across control device ID C111 and the inlet gas temperature of control device ID C111 and shall monitor these parameters on a continuous basis.

2. Under 25 Pa. Code § 127.12b, the permittee shall keep records of the following information:

(1) The number of hours that source ID P111 is operated on a monthly basis.

(2) The test report and/or supporting calculations used to verify compliance with the NO_x, PM and SO_x emissions limitations for Source ID P111.

(3) Four-hour averages of the inlet temperature of control device ID C111.

(4) One-hour averages of the pressure drop across control device ID C111.

(5) The analysis reports of the investigations conducted when the pressure drop increased above the established limit based upon pressure drop data collected during testing.

(6) The date and the total hours of operation of source ID P111 at the time of the catalyst replacement and/or cleaning.

(7) The manufacturer's recommended time line and frequency of catalyst replacement and/or cleaning.

These records shall be kept for a minimum of 5 years and shall be made available to the Department upon request.

3. Under 25 Pa. Code § 127.12b, the permittee shall construct and operate control device ID C111 in accordance with the manufacturer's specifications and good air pollution control practices. The permittee shall follow the manufacturer's recommended timeline and frequency for catalyst replacement and cleaning.

4. Under 25 Pa. Code § 127.12b, the CO emissions from source ID P111 shall be controlled by an oxidation catalyst (control device ID C111). The permittee shall not operate source ID P111 without the simultaneous operation of control device ID C111.

A copy of the plan approval application is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at (570) 327-3693. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Manager, Facilities Permitting Section, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, (570) 327-0512.

18-00026A: First Quality Products, Inc. (Clinton County Industrial Park, 121 North Road, McElhatten, PA 17748-0270) for the construction of a Fameccanica FIU underpad machine (Line 33) in Wayne Township, **Clinton County**.

The Department of Environmental Protection's (Department) review of the information submitted by First Quality Products, Inc. indicates that the air contamination sources to be constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the PM emission limitation of 25 Pa. Code § 123.13, the visible emission limitation of 25 Pa. Code § 123.41 and the BAT requirement of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction.

The emissions from the Fameccanica FIU underpad machine will not exceed 0.01 ton of PM10 and 1.48 tons of VOCs per year. The total combined emission from all sources at this facility will not exceed the following limits in any 12-consecutive month period: NO_x-8.61 tons; CO-6.68 tons; VOCs-18.30 tons; PM10-0.72 ton; VHAPs-2.5 tons.

In addition to the emission limitations, the following includes the types of conditions the Department intends to place in the plan approval to ensure compliance with all applicable regulatory requirements including the BAT requirements of 25 Pa. Code §§ 127.1 and 127.12.

Emission and material usage restrictions to limit the emission of PM10 and VOCs.

Control of PM10 emissions from the underpad machine by installation of a three-stage filter system.

Work practice requirements to install and operate the source and control device with good air pollution control practices.

Recordkeeping and reporting requirements to verify compliance with the emission limitations and all permitting requirements.

A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. 61-191B: Seneca Printing & Label, Inc. (1642 Debence Drive, Franklin, PA 16323), for the installation of five flexographic printing presses at their facility in Sandy Creek Township, **Venango County**.

Notice is hereby given under 25 Pa. Code §§ 127.44(b) and 127.424(b), that the Department of Environmental Protection (Department) intends to issue Plan Approval 61-191B to Seneca Printing & Label, Inc. for the installation of five flexographic printing presses at their facility located at 1642 Debence Drive, Sandy Creek Township, Venango County. The Plan Approval will subsequently be incorporated into the facility's Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

Plan Approval No. 61-191B is for the installation of five flexographic printing presses. Based on the information provided by the applicant and the Department's own analysis, the proposed presses will have the potential to emit approximately 17 tons of VOCs per year. However, the Plan Approval will not increase the facility's current facility-wide limit of 49.5 tons of VOC emissions per year.

The Plan Approval will contain additional recordkeeping and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, the Department's analysis and other documents used in the evaluation are available for public inspection between 8 a.m. and 4 p.m. weekdays at the address shown. To make an appointment, contact Records Management at (814) 332-6340.

Anyone wishing to provide the Department with additional information they believe should be considered may submit the information to the address shown. Comments must be received by the Department within 30 days of the last day of publication. Written comments should include the following:

1. Name, address and telephone number of the person submitting comments.
2. Identification of the proposed Plan Approval; No. 61-191B.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—

1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality

standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water

Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The sewer mains required for upgrade within the next 20 years are shown in the Plan in Appendix P. It is anticipated that the upgrades will take place in the time

frames noted in the Plan, if future development proceeds as currently anticipated. Until such time as the City of Bethlehem's Act 537 plan for planned wastewater treatment improvements at the City's plant are approved by the Department of Environmental Protection (Department), wastewater flows from Bethlehem Township shall not exceed the current agreement between the Township and the City or a discharge of 3.0 mgd. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal.

DEP Code No. M6-08-073. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted under section 5 of the Pennsylvania Sewage Facilities Act (35 P.S. § 750.5)

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Jackson Township	439 Roth's Church Road Spring Grove, PA 17362	York

Plan Description: John Klingaman, Jr. A3-67931-245-2: The plan consists of a two lot single-family residential subdivision on 17.35 acres with total proposed sewage flows of 800 gpd to be treated by individual onlot disposal systems. The proposed development is located on the northeastern corner of Bentz and North Grant Roads in Jackson Township, York County. The plan was disapproved because the groundwater easement proposed to mitigate the impact of the nitrate-nitrogen plume from

the proposed sewage system is not down gradient from the absorption area of the onlot disposal system, as recommended by the Preliminary Hydrogeologic Study submitted with the planning information. Such a condition would be expected to cause pollution of the waters of this Commonwealth and is prohibited under The Clean Streams Law.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response

**Cross Keys HSCA Site
Doylestown, Buckingham and Plumstead Townships, Bucks County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1305) (USCA), is proposing a response action at the Cross Keys HSCA Site (Site) in Doylestown, Buckingham and Plumstead Townships, Bucks County, PA.

The Department, under the authority of HSCA, has been conducting an environmental investigation of the Site. This investigation includes the sampling of private drinking water supply wells located in the vicinity of the intersection of Swamp Road (Rt. 313) and North Easton Road. Approximately 100 wells are contaminated or may potentially become contaminated with detectable levels of Tetrachloroethene (PCE), 1,1-Dichloroethene (1,1-DCE) and 1,4-Dioxane.

To address the release and threat of release of hazardous substances at the Site, and corresponding threats to human health and the environment, the Department proposes to implement a response action at the Site under sections 501(a) of HSCA (35 P.S. § 6020.501(a)). The Department hereby proposes the installation of a waterline, including water mains and lateral connections to the public water supply. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements (ARARs) and is feasible and cost-effective. Other possible alternatives include no action or the installation and continued monitoring and maintenance of whole-house carbon filtration units and/or supplying bottled water.

An Administrative Record, which contains more detailed information concerning this proposed response action, is available for public inspection. The Administrative Record may be examined from 8 a.m. until 4 p.m. at the Department's office at 2 East Main Street, Norristown, PA 19401. Those interested in examining the Administrative Record should contact Sabrina Chrzanowski at (484) 250-5965 to arrange for an appointment. Additional copies of the Administrative Record are available for review at the Doylestown Township Municipal Building at 425 Wells Road, Doylestown, PA 18901; the Buckingham Township Municipal Building at 4613 Hughesian Drive, Buckingham, PA 18912; and the Plumstead Township Municipal Building at 5186 Stump Road, Plumsteadville, PA 18949.

Under section 506(d) of HSCA, the Department shall conduct a public hearing on July 30, 2009, at 7 p.m. at the Doylestown Township Municipal Building located at 425 Wells Road, Doylestown, PA 18901. Anyone who would like to present formal oral comments regarding this proposed response may do so by registering with the Department before the meeting. Individuals may register by calling the Department's Community Relations Coordinator, Lynda Rebarchak at (484) 250-5820.

Any person with a disability who wishes to attend the public hearing and will require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Lynda Rebarchak at the number listed previously or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs. The public may also submit written comments regarding the Department's proposed Interim Response action during the period of public comment. In accordance with section 506(c) of HSCA, the Department has established a period for public comment that is now open until close of business September 20, 2009. Written comments should be addressed to Sabrina Chrzanowski, Project Officer, Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401.

Anyone with questions regarding this notice should contact Sabrina Chrzanowski at (484) 250-5965.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of reuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and in-

clude a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Draft Technical Guidance—New Guidance

DEP ID: 563-2112-606. Title: Procedures for Establishing the Quantity of Water in Low-Yield Wells. Background: Technical Guidance Documents "Water Supply Replacement and Permitting" (563-2112-605) and "Water Supply Replacement and Compliance" (562-4000-101) describe the use of specific capacity and peak demand tests to evaluate the quantity of a water supply. Each guidance recommends that specific capacity tests be conducted for 1 to 3 hours at a pumping rate of 5 gpm, however many domestic wells in western Pennsylvania cannot produce at this level. To address this issue, the Department is proposing alternative methods for evaluating low-yield wells that can be used during premining and postmining, and replacement water supply pump tests.

The Department has also recognized the need for special testing procedures, which can be applied to low-yield wells that are inaccessible for water level measurements. Although these situations are rare, provisions must be made to establish the premining and postmining quantity of these water supplies. This guidance also describes appropriate procedures that may be used for testing wells under these circumstances. Written Comments: Interested persons may submit written comments on the procedures for establishing the quantity of water in low-yield wells for a period of 30 days from the publication date of this *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Gregory Shuler, P. G., Bureau of Mining and Reclamation, P. O. Box 8461, Harrisburg, PA 17105-8461, gshuler@state.pa.us. Contact: Questions regarding the draft technical guidance document should be directed to Gregory Shuler, P. G. at (717) 783-1199 or gshuler@state.pa.us. Effective Date: Upon publication as final in the *Pennsylvania Bulletin*.

Final Technical Guidance

DEP ID: 275-2101-007. Title: Best Available Technology and Other Permitting Criteria for Municipal Solid Waste landfills. Description: This final technical guidance document developed under the authority of section 6.6(c) of the Air Pollution Control Act and 25 Pa. Code §§ 127.1 and 127.12(a)(5) will apply to proposed new MSW landfills or expansions of existing landfills. This BAT determination will not be applied retroactively. The BAT requirements set forth in this document will replace the current BAT guidance document for MSW landfills. A Plan Approval is required for a new MSW landfill or for an expansion at an existing MSW landfill if the estimated VOC emissions from the new facility or from the proposed expansion are greater than or equal to 2.7 tpy before installation of an air cleaning device. A Plan Approval is also required when the MSW landfill design capacity is in excess of 1 million tons. Copies of this technical guidance document are available on the Department's public participation web site at www.depweb.state.pa.us (DEP Keyword: Participate) and on the Bureau of Air Quality's web site at <http://www.dep.state.pa.us/dep/deputate/airwaste/>

Notice of Listing on the Pennsylvania Priority List of Hazardous Sites for Remedial Response; Hazardous Sites Cleanup Act

Intercourse TCE Site, Leacock Township, Lancaster County
Tomstown TCE Site, Quincy Township, Franklin County

1. Background

The Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) was enacted to provide for the cleanup of Pennsylvania sites that are releasing or threatening the release of hazardous substances. Section 502(a) of HSCA (35 P. S. § 6020.502) requires that the Department of Environmental Protection (Department) publish in the *Pennsylvania Bulletin* a priority list of sites with releases or threatened releases for the purpose of taking remedial response. This list is called the Pennsylvania Priority List of Hazardous Sites for Remedial Response (PAPL). The Department places sites on the PAPL when the Department has determined through investigation that there are releases or threatened releases of hazardous substances, or releases or substantial threatened releases of contaminants, which present a substantial threat to the public health, safety and envi-

ronment. In accordance with the requirements of section 502(a) of HSCA, the Hazard Ranking System (HRS; 40 CFR Part 300, Appendix A) (HRS) established under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C.A. §§ 9601—9675, (CERCLA), is utilized to rank the sites for placement on the PAPL. The HRS uses mathematical formulas that reflect the relative importance and interrelationships of the various human health and environmental factors to arrive at a final score on a scale of 0 to 100. The values are assigned using information obtained from site investigations. Section 502(a) of HSCA also directs the Department to consider its administrative, enforcement, and financial capabilities when placing sites on the PAPL. HRS scores are finalized by the Department using the HRS in effect at the time the score is prepared and the proposed listing notice is issued pursuant to the statute.

The HRS was developed by the United States Environmental Protection Agency (EPA) as the method used to evaluate the relative potential of hazardous substance releases to cause health or safety problems, or ecological or environmental damage. It is the principal mechanism for placing a site on the National Priorities List (NPL), the list of priority releases for long-term remedial evaluation and response under CERCLA. The HRS is calculated by utilizing known information to establish the level of threat presented in four potential pathways of human or environmental exposure: groundwater, surface water, air and soil exposure. Within each pathway of exposure, the HRS considers three categories of factors:

- (1) Factors that indicate the presence or likelihood of a release to the environment;
- (2) Factors that indicate the nature and quantity of the substances presenting the potential threat;
- (3) Factors that indicate the human or environmental targets potentially at risk from the site.

The resultant HRS score represents an estimate of the relative probability and magnitude of harm to human populations or sensitive environments from potential exposure to hazardous substances by the groundwater, surface water, soil exposure or air pathways.

2. Summary and Purpose

Placement of a site on the PAPL is used to identify sites that need further study and/or remedial response decisions to address threats to the public health, safety or the environment. The Department will decide on a case-by-case basis whether to take enforcement or other actions under HSCA or other authorities, and/or to proceed directly with HSCA-funded remedial response actions and seek cost recovery after the cleanup.

Remedial response actions will not necessarily be taken in the same order as a site's ranking on the PAPL. The investigation conducted to place a site on the PAPL may not be sufficient to determine either the extent of contamination or the appropriate response actions for a site. The Department may undertake further site investigation and/or an analysis of remedial alternatives to determine appropriate response actions. The length of time needed to complete these studies will vary due to the complexity of a site. Response action decisions and implementation will proceed on individual sites regardless of the progress at other sites. Given the limited resources available in the

Hazardous Sites Cleanup Fund, the Department must carefully balance the relative needs for response at the sites it has studied. The Department may decide not to immediately proceed with a HSCA remedial action or that no remedial action is necessary.

3. Technical Evaluation Grants under Act 108

Under section 510 of HSCA (35 P.S. § 6020.510), the Department may make available a reasonable sum as a grant to the governing body of the host municipality of a site where the Department is considering a remedial response. The host municipality shall use this sum solely to conduct an independent technical evaluation of the proposed remedial response. The grant shall not exceed \$50,000. Information and a technical evaluation grant package may be obtained from the Department's regional office in which the site is located. Refer to the Additional Information section of this notice.

A municipality will be sent grant information by the Department after a listing announcement has been published in the *Pennsylvania Bulletin*. The grant will be signed; however, the grant will not be effective until the proposed remedial response is available for public review. At that time, the municipality may proceed with the review of the Department's proposed remedial response.

Pennsylvania Priority List of Hazardous Sites for Remedial Response

A. Effective Date

The sites listed are being placed on the PAPL effective upon publication of this announcement in the *Pennsylvania Bulletin*.

B. Contact Persons

Individual site information may be obtained by contacting the Department's regional office in which the site is located whose address can be found in the Additional Information section of this notice.

C. Statutory Authority

The PAPL is published under the authority of section 502(a) of the HSCA. Under section 502(b) of HSCA, a decision to place a site on the list or to remove a site from the list is not a final action subject to review under the 2 Pa.C.S. § 103 (relating to Administrative Agency Law) and section 4 of the Environmental Hearing Board Act (35 P.S. § 7514), nor shall it confer a right or duty upon the Department or any person.

D. Review and Public Comment

HSCA provides for a 30-day public comment period subsequent to publication of the PAPL. This *Pennsylvania Bulletin* announcement opens the 30-day comment period for the sites being added with this publication. Written comments should be mailed to: Arthur L. Dalla Piazza, Environmental Cleanup Program, Department of Environmental Protection, Southcentral Region, 909 Elmerton Avenue, Harrisburg, PA 17110.

The regional office site files contain all information considered by the Department in placing a site on the PAPL. Files are available for review in the appropriate regional Field Operations Office, by appointment only, from 8 a.m. to 4 p.m., Monday through Friday excluding State holidays. Contact the regional Environmental Cleanup Program Manager, whose address can be found in the Additional Information section of this notice. The Department considers all written comments received during the formal comment period. All written comments and

the Department's responses will be placed into the site file and will later be incorporated into the Administrative Record.

E. Contents of List

This notice places two sites on the PAPL. Table 1 lists the sites added to the PAPL by this notice. The names of the sites, HRS scores, municipalities, counties and the Department regions are included in this table. Table 2 lists nine sites currently on the PAPL. Included are the sites added by this notice. The names of the sites, HRS scores, municipalities, counties and the Department's regions are included in this table. The sites are listed in decreasing order of HRS scores.

F. Site Listing Summaries

Intercourse TCE Site

The Intercourse TCE Site is located in Leacock Township, Lancaster County, PA. Land use in the area is commercial and residential surrounded by agriculture. From 2005-2008, residential well sampling was completed at 360 properties. Of these 360 properties, trichloroethylene (TCE) has been detected in well water at 150 properties, with 74 properties returning TCE concentrations of 5 parts per billion (ppb) to 25 ppb. Twelve properties exceed 25 ppb for TCE. TCE is listed as a probable human carcinogen by the EPA. Chronic effects on the liver, kidneys and immune and endocrine systems have been documented in humans exposed to TCE occupationally or from contaminated drinking water. The Maximum Contaminant Level (MCL) for public water supplies and the Statewide Health Standard for groundwater cleanup for TCE is 5 ppb. Except for a development that has installed a treated community water supply, residents in the area rely on private wells for their water supplies. Minimal TCE degradation products have been detected in the groundwater samples indicating that the aquifer is not inherently conducive to natural attenuation.

The Department has completed a Prompt Interim Response at the site, offering bottled water to residences with water supply TCE contamination of 5 ppb to 25 ppb. Carbon treatment systems have been offered to those residents whose water supplies are impacted with TCE over 25 ppb. To date, the Department has installed carbon treatment systems on 11 residences and is supplying bottled water to 47 residences. Two carbon treatment systems were installed on commercial facilities and are maintained by these facilities. Twenty eight residences that were eligible for the Prompt Interim Response declined the response.

The Department and its contractor, Groundwater & Environmental Services, Inc., conducted a remedial investigation that found TCE in the groundwater at levels from nondetect to 398 ppb. Major fractures/solution features were found at approximately 70–90 feet and 150–200 feet below ground surface (bgs). An electrical resistivity survey mapped saturated fractures trending generally northwest/southeast and northeast/southwest. An east/west fracture was also identified. The groundwater plume within the fractures is restricted to the area south of Old Philadelphia Pike, east of Clearview and Belmont Roads, north of Pequea Lane and west of Carriage Drive. Membrane interface probe and soil boring investigations in potential source areas did not conclusively identify a source of the groundwater contamination. No responsible party has been found and no enforcement actions have been taken.

Tomstown TCE Site

The Tomstown TCE site is located in a rural area of Quincy Township, Franklin County. The site comprises approximately 460 acres and is primarily agricultural and rural residential. An area within the village of Tomstown was being evaluated for a proposed residential subdivision. Three test wells were installed for the proposed development, and samples were collected in July 2006. The sample results revealed the presence of trichloroethylene (TCE) in groundwater at the site. The Department conducted sampling from October 2006 through March 2008 of approximately 90 private wells and several surface water springs. Twenty-nine residences and one business had VOC contamination, with TCE concentrations ranging from less than 1 ppb to 34 ppb. The Maximum Contaminant Level for public water supplies and the groundwater Statewide Health Standard for TCE is 5 ppb. It appears there is widespread groundwater contamination impacting residential private wells.

The Department initiated a Prompt Interim Response at the site in January 2007, offering bottled water to residences with water supply TCE contamination of 5 ppb to 25 ppb and carbon treatment systems to those residences with water supplies impacted with TCE over 25 ppb. To date, the Department has installed carbon treatment systems on 5 residences and is supplying bottled water to 7 residences. Four residences that were eligible for the Prompt Interim Response either declined the response or are no longer occupied.

The Department began an initial site investigation in May 2007. Eleven monitoring wells were constructed throughout the site. These wells and the impacted residential wells were sampled in August 2007. TCE was found at very low levels in four of the monitoring wells (0.03 ppb to 1 ppb). TCE levels in the residential wells were comparable to the levels found during the initial sampling in 2006. Field work on a second phase of the investigation began in February 2008. This work included the re-sampling of existing monitoring wells, test wells installed for the proposed development, and select residential wells. A geophysical investigation was conducted to locate and identify potential subsurface bedrock features, such as joints, fractures, and voids. This subsurface information can be used to better define groundwater flow pathways at the Site and how they relate to the spread of impacted groundwater to residential wells. No responsible party has been found as yet; therefore, no enforcement actions have been taken.

PA Conservation Works! \$22.2 Million Funding Opportunity Available

On behalf of Governor Edward G. Rendell, Secretary Hanger announces that on June 29, 2009, the Department of Environmental Protection (Department) will open a \$22.2 million solicitation for energy efficiency and conservation and renewable energy projects for motivated local governments and nonprofit entities.

The program is administered by the Department, and funding is provided through the American Recovery and Reinvestment Act of 2009's (42 U.S.C.A. § 5301) Energy Efficiency and Conservation Block Grant Program (EECBG). At least 60% of this funding is reserved for units of local government in Pennsylvania that are not eligible for direct formula grants from the EECBG program. This includes Pennsylvania boroughs, townships and cities with fewer than 35,000 residents and counties with fewer than 200,000 residents.

For purposes of this financial assistance opportunity, eligible projects may include energy efficient lighting, including streetlight or outdoor lighting; energy efficiency retrofits of existing buildings, including high efficiency furnaces, boilers and air conditioners, combined heat and power, energy efficient ventilation systems, windows, sealing and insulation, and automated control systems; energy efficiency upgrades at wastewater treatment plants; installation of geothermal heat pump systems; premium efficiency motors and variable speed drives; and deployment of renewable energy technologies including

solar energy, wind energy, fuel cells, biomass, biogas and low-impact hydro. All projects must save or conserve a minimum of 25% of all energy used. Renewable energy projects will be eligible if the project replaces at least 25% of the building or entity's energy use.

Under this solicitation, the Department may award financial assistance in the form of grants of up to \$250,000. Multi-municipal projects (two or more units of local government sharing services and working together in the deployment of a project) may request up to \$500,000.

All projects must create jobs, be able to start work within 6 months, and be completed within 18 months and prior to September 30, 2011.

For grants under this solicitation, the following entities are eligible to apply: Pennsylvania local governments (a county, city, borough, incorporated town, township, or any other similar general purpose unit of government); bodies authorized to act on behalf of two or more local governments according to section 2316 of the Intergovernmental Cooperation Act; municipal authorities; incorporated 501(c)(3) nonprofit organizations that are also registered with the Pennsylvania Bureau of Charitable Organizations; county conservation districts; and colleges or universities.

Direct recipients of ARRA-EECBG funds are not eligible to apply.

This is a competitive solicitation. Guidelines may be viewed at www.recovery.pa.gov. Applications must be submitted by means of the Environmental eGrants system at www.grants.dcnr.state.pa.us. Applications will be accepted from July 17, 2009, through August 14, 2009.

Quehanna Wild Area Nuclear Site License Termination

On May 13, 2009, the Department of Environmental Protection (Department) terminated Radioactive Material License No. PA-1052 in accordance with 25 Pa. Code § 215.1(e) (relating to purpose and scope). The license encompassed residual radioactive material left behind from past operations at the facility. The facility was located in the Quehanna Wild Area of the Moshannon State Forest. The site had a long history of radioactive material use since the construction of the research reactor in 1955. Since then various tenants had been licensed to possess radioactive materials for uses including materials research, production of radio-thermal electric generators, and high activity gamma irradiation. The Department of Conservation and Natural Resources (DCNR) took final responsibility for the cleanup of the facility to allow for unrestricted future use. The Department performed a review of DCNR's Final Status Survey Results and its own confirmatory survey and concluded that the final status survey data adequately represented the final radiological conditions of the Quehanna site. The documented final conditions showed that the final conditions met the requirements for unrestricted release and provided justification to terminate the license. This termination comes following an extensive cleanup spanning more than 10 years of the affected structures and surrounding grounds. This included disposal of significant volumes of low-level radioactive waste at licensed out-of-state sites.

For additional information, concerning the Quehanna site, cleanup activities or the license termination, individuals may contact the Bureau of Radiation Protection at (717) 787-2480 or RA-EPDecommissioning@state.pa.us. Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact the Department directly at (717) 787-2480 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

DEPARTMENT OF PUBLIC WELFARE

Established Fees for Community Mental Retardation Base Program

Purpose

This notice is to announce that the Department of Public Welfare (Department) established fees, effective July 1, 2009, for base-funded services managed through county programs for individuals with mental retardation under the Mental Health and Mental Retardation Act of 1966 (50 P. S. §§ 4104—4704) and 55 Pa. Code Chapter 4300 (relating to county mental health and mental retardation fiscal manual).

Effective July 1, 2009, the Department intends to implement a Statewide payment methodology for community-based services provided under the Consolidated waiver and Person/Family Directed Support (P/FDS) waiver (waivers). To facilitate consistency and efficient planning for participants in both the waivers and the base-funded program, the Department determined to establish the same fee for the same service provided to both a waiver participant and a base-funded participant in the same provider service location. These fees will serve as the Department's established fees under 55 Pa. Code § 4300.115(a) (relating to Department established fees). The established fees do not apply to services provided to base-funded participants by providers that do not also provide the same service to a waiver participant at that same service location. The county programs/administrative entities remain responsible for negotiating fees for those services.

The established fees that apply to the corresponding base-funded services can be found on the Department's web site at <http://www.dpw.state.pa.us/PartnersProviders/MentalRetardation/003679539.htm>.

Fiscal Impact

There is no anticipated fiscal impact.

Medical Assistance Program Fee Schedule Revisions; 2008 HCPCS Updates; Prior Authorization Requirements

The Department of Public Welfare (Department) announces changes to the Medical Assistance (MA) Program Fee Schedule and prior authorization requirements. These changes are effective for dates of service on and after July 13, 2009.

Fee Schedule Revisions

The Department is adding and end-dating procedure codes as a result of implementing the 2008 updates made by the Centers for Medicare and Medicaid Services (CMS) to the Healthcare Common Procedure Coding System (HCPCS). The Department is also end-dating other procedure codes, including some codes previously end-dated by CMS. Additionally, the Department is adding procedure codes, and procedure code and modifier combinations, to the MA Program Fee Schedule as a result of significant program exception requests. Finally, as set forth as follows, some of the procedure codes being added to the MA Program Fee Schedule will require prior authorization.

Fees for the new procedure codes, and procedure code and modifier combinations, will be published in a *Medical Assistance Bulletin* that will be issued to all providers.

The following procedure codes are being added to the MA Program Fee Schedule as a result of the 2008 HCPCS:

Fiscal Impact

The estimated cost for Fiscal Year (FY) 2009-2010 is \$2.774 million (\$0.988 million in State funds). The annualized cost for FY 2010-2011 is \$3.170 million (\$1.295 million in State funds). These State fund estimates are based on the increased Federal Medical Assistance Percentages as determined under the American Recovery and Reinvestment Act (ARRA) of 2009 (42 U.S.C.A. § 5301).

Medical Assistance Program Fee Schedule for Select Services in the Consolidated and Person/Family Directed Support Waivers and Community Mental Retardation Base Program

Purpose

This notice is to announce the Department of Public Welfare's (Department) addition of payment rates for select services provided in the Consolidated waiver and Person/Family Directed Support (P/FDS) waiver to the Medical Assistance (MA) Program Fee Schedule. These fee schedule payment rates will also serve as the Department's established fees under 55 Pa. Code § 4300.115(a) (relating to Department established fees) for base-funded services managed through county programs for individu-

als with mental retardation under the Mental Health and Mental Retardation Act of 1966 (50 P. S. §§ 4104—4704) and 55 Pa. Code Chapter 4300 (relating to county mental health and mental retardation fiscal manual).

The Department is responsible for management of the Consolidated and P/FDS waivers (waivers). As a condition of approving renewal of the Consolidated and the P/FDS waivers, the Federal Centers for Medicare and Medicaid Services (CMS) directed that the Department develop a Statewide rate-setting methodology for both waivers. The Department established a Financial Implementation Advisory Team (FIAT), consisting of representatives from consumers, providers and county stakeholders, to provide input to the Department in establishing the payment methodology.

Based on input from the FIAT, the Department determined that payment rates for select services under the waivers would be placed on a fee schedule, while payment rates for other services would be established through submission of cost reports by providers. The services selected for inclusion on the fee schedule are listed as follows under the following categories: Select Community-Based Services; Unlicensed Out-of-Home Respite and Respite Camp "Ineligible" Services (Room and Board); Agency with Choice/Financial Management Services, Excluding Benefits; and Agency with Choice/Financial Management Services, Including Benefits.

To establish the fee schedule payment rates for these categories of services, the Department established rate ranges for each of the selected services based on allowable cost components. The Department reviewed the rate ranges, selected a rate within the range, and adjusted each rate by geographical area factors that consider differences in wages across this Commonwealth.

Specifically, the Department developed the rate ranges by evaluating independent data sources to reflect expected expenses for major cost categories, such as wages for direct care workers and other staff; staff benefits; employer taxes; staff productivity; staff ratios; and program-related expenses for transportation, supplies, staff training and occupancy. Administrative expenses were also considered, except for the Agency with Choice/Financial Management Services (AWC/FMS) rates. Administrative expenses for AWC/FMS providers were negotiated by the Department and the AWC/FMS providers, and will be paid as a separate administrative fee to these providers.

The resulting rate ranges were compared to rates for comparable services in other Department service delivery systems, and to rates and utilization data for comparable services in the waivers. For services with low Statewide

utilization data, the Department assigned the midpoint rate to that service. For other services, the Department assigned a rate based on the factors identified previously and the type of service, work performed and qualifications necessary to render the service.

As a final step in determining the fee schedule rates, the Department adjusted the payment rates based on wage differences for four geographic areas as identified as follows. These adjustments were not made to the rates for ineligible services for unlicensed out-of-home respite. Rates for those services were based on expected meal costs consistent with data published by the United States Department of Agriculture and do not vary by area.

Prospective Payment System for the Consolidated and Person/Family Directed Support Waivers and Targeted Services Management for Persons with Mental Retardation

Purpose

This notice is to announce that the Department of Public Welfare (Department) intends to implement a Statewide Prospective Payment System (PPS), effective July 1, 2009, for community-based services, including Supports Coordination, provided under the Consolidated and Person/Family Directed Support (P/FDS) waivers (waivers) and for Targeted Service Management (TSM) provided to persons with mental retardation who are eligible for Medical Assistance (MA) but not eligible to participate in the waivers. This notice also describes the rate-setting methodology used to develop payment rates in the PPS, excluding payment rates for the select waiver services added to the MA Program Fee Schedule.

Rate-Setting Methodology

As a condition of approving renewal of the waivers, the Centers for Medicare and Medicaid Services directed the Department to develop a Statewide rate-setting methodology for both waivers. After seeking input from consumer, provider and county stakeholders, the Department determined to use a PPS, a payment methodology in which provider rates are established on a prospective basis for a specified period and are not cost settled at the end of the specified period. Based on input from its stakeholders, the Department is including two payment approaches in the PPS: a fee schedule approach and a cost-based approach. Payment rates for select services would be placed on the fee schedule. Payment rates for the remaining services, specific to each provider and procedure code, would be developed using a cost-based approach based on allowable historical cost data submitted by providers in cost reports developed by the Department. The historical cost data would be trended forward to a prospective period.

Specifically, the Department developed the proposed payment rates for State Fiscal Year (SFY) 2009-2010 using SFY 2007-2008 cost data submitted by providers, adjusted to account for anticipated changes in provider responsibilities from SFY 2007-2008 to SFY 2009-2010. Cost data for Supports Coordination were also adjusted against productivity parameters calculated from the aver-

age productivity in approved cost reports submitted by providers and through rate modeling.

The Department analyzed the resulting adjusted unit costs to calculate the average unit cost and standard deviation for each procedure code, using standard statistical formulas. Unit cost outliers for each procedure code (defined as unit costs that deviated from the average unit cost for the procedure code by more than one standard deviation) were then adjusted to reduce but not eliminate the differences from average unit cost. After each provider's unit cost for each procedure code was so adjusted, a total cost of living increase of 1% (1% for SFY 2008-2009 and 0% for SFY 2009-2010) was applied to each provider's SFY 2007-2008 unit cost for each procedure code to establish the provider's proposed payment rates for SFY 2009-2010.

Finally, total SFY 2009-2010 waiver expenditures were projected using the proposed payment rates and projected utilization, and those expenditures were compared to the total estimated waiver appropriation. A rate adjustment factor of -3.17% was applied to the unit costs for all cost-based services except outcome-based, vendor, and Supports Coordination services, so that the estimated waiver expenditures would not exceed the SFY 2009-2010 waiver appropriation.

Payment rates for TSM for providers that also deliver Supports Coordination were established by assigning the same rates for TSM as were developed for Supports Coordination. Review of the cost data showed that unit costs for both types of service were similar. Payment rates for TSM for providers that do not deliver Supports Coordination were developed in accordance with the methodology described in this notice, without comparison to Supports Coordination costs.

For cases in which approved cost report data were not available for a procedure code at a specific service location, the Department assigned a payment rate based on guidelines established for that purpose.

A more detailed description of the methodology used to develop the payment rates in the PPS is available on the Department's web site at <http://www.dpw.state.pa.us/PartnersProviders/MentalRetardation/003679539.htm>. DEPARTMENT OF TRANSPORTATION

Finding Beaver County

Under section 2002(b) of The Administration Code of 1929 (71 P.S. § 575(b)), the Director of the Bureau of Design, makes the following written finding:

The Federal Highway Administration and the Department of Transportation (Department) are planning to construct a new Veterans Memorial Bridge over the Beaver River that will connect SR 0051 on the west in Bridgewater Borough with SR 18/65 on the east in Rochester Borough, Beaver County. The new bridge will be located approximately 1/2 mile downstream of the existing Fallston Bridge.

The project will require a De Minimis Use of property from land owned by the Fish and Boat Commission, which is considered a section 4(f) and section 2002 resource.

Therefore, a "Determination of Section 4(f) De minimis Use/Section 2002 No Adverse Use for Public Parks, Recreation Areas, Wildlife and/or Waterfowl Refuges, State Forest Land, and State Game Land" Programmatic section 4(f)/section 2002 Evaluation has been prepared and approved to evaluate the potential environmental impacts caused by the project.

Based upon studies, there is no feasible and prudent alternative to the proposed action. Mitigation measures will be taken to minimize harm as stipulated in the Categorical Exclusion Evaluation and the Programmatic section 4(f)/section 2002 Evaluation.

The environmental, economic, social and other effects of the proposed project, as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize such effects.

Control of Nitrogen Oxide (NOx) Emissions from Glass Furnaces Air Pollution Control Act, 25 Pa. Code Chapters 121 and 129	FY 09-10	The final-form rulemaking would establish nitrogen oxide (NOx) emission control requirements, emission standards and emission limitations for glass melting furnaces and related administrative requirements for glass melting furnaces. Adoption of NOx emission limits for glass melting furnaces is part of the Commonwealth's strategy, in concert with other jurisdictions in the Ozone Transport Region, to reduce transport of ozone to achieve and maintain the health-based 8-hour ozone National Ambient Air Quality Standard. In addition, the strategy will also provide NOx emission reductions necessary to reduce the formation of fine particulates and regional haze.	Jane Mahinske (717) 783-8949 jmahinske@state.pa.us
Control of Nitrogen Oxide (NOx) Emissions from Cement Kilns Air Pollution Control Act 25 Pa. Code Chapters 121, 129 and 145	FY 09-10	The final-form rulemaking would revise existing NOx emission limits for cement kilns by establishing allowable NOx emission limits for certain types of cement kilns. The rulemaking amendments to Chapter 129 have been deleted and in the final-form rulemaking are incorporated into Chapter 145, Subchapter C to amend the existing cement kilns regulation. The final-form rulemaking includes several compliance demonstration options including compliance on a kiln-by-kiln, facility-wide or system-wide basis among Portland cement kilns under the common control of the same owner or operator in this Commonwealth. Adoption of NOx emission limits for cement kilns is part of the Commonwealth's strategy, in concert with other jurisdictions in the Ozone Transport Region (OTR), to reduce the transport of ozone to achieve and maintain the health-based 8-hour ozone National Ambient Air Quality Standard (NAAQS). The Department will also make progress in achieving and maintaining the fine particulates NAAQS.	Jane Mahinske (717) 783-8949 jmahinske@tate.pa.us
Adhesives and Sealants Air Pollution Control Act 25 Pa. Code Chapters 129 and 130	FY 09-10	The final-form rulemaking would adopt volatile organic compound content limits for 37 categories of adhesives, adhesive primers, sealants, sealant primers, and adhesives applied to certain substrates. The proposed rulemaking would also add requirements for the control of emissions from the use or application of adhesives, sealants and primers by the owners or operators of stationary sources. This proposed rulemaking would be consistent with regulatory initiatives recommended by the Ozone Transport Commission to address regional transport of ozone precursor emissions. Air Quality Plan Approval and Operating Permit Fees Air Pollution Control Act 25 Pa. Code Chapters 127 and 139	FY 09-10	The proposed rulemaking will amend existing requirements and fees codified in 25 Pa. Code Chapter 127, Subchapter I (relating to plan approval and operating permit fees), and add new categories of fees to Chapter 127, Subchapter I, to address modifications of existing plan approvals and requests for determination of whether a plan approval is required. The proposed rulemaking also adds a new section to address fees for risk assessment applications. The proposed rulemaking will amend the existing emission fee paid by the owner or operator of a Title V facility. The proposed rulemaking will also add Subchapter D (relating to testing, auditing and monitoring fees) to Chapter 139 to add new categories of fees and to establish a fee schedule to address Department-performed source testing and auditing and monitoring activities for continuous emission monitoring systems (CEMS). Nonattainment New Source Review Particulate Matter 2.5 (NNSR PM2.5) Air Pollution Control Act 25 Pa. Code Chapters 121 and 127	FY 09-10	The proposed rulemaking would amend the existing nonattainment new source review (NSR) requirements in 25 Pa. Code Chapter 127, Subchapter E (relating to new source review), §§ 127.201—127.218, to incorporate recently promulgated Federal requirements for particulate matter equal to and less than 2.5 micrometers in diameter (PM2.5) and PM2.5 precursors. The proposed amendments would limit the emissions of PM2.5 and PM2.5 precursors for new major sources or major sources being modified in certain counties and portions of counties of this Commonwealth that are designated as nonattainment for the PM2.5 National Ambient Air Quality Standard. The Federal regulation requires a state with PM2.5 nonattainment areas to submit revised nonattainment NSR PM2.5 requirements to the U.S. Environmental Protection Agency (EPA) for State Implementation Plan (SIP) approval within three years of publication of the final rule. Therefore, the Commonwealth needs to amend its NSR regulations and submit a SIP revision to the EPA by May 16, 2011.	Virendra Trivedi (717) 772-3979 vtrivedi@state.pa.us
Large Appliance and Metal Furniture Coating Processes (LA/MF CTG) Air Pollution Control Act 25 Pa. Code Chapter 129	FY 09-10	The proposed rulemaking would amend the existing surface coating regulations under 25 Pa. Code Chapter 129 to further reduce the emissions of volatile organic compounds (VOCs) from large appliance and metal furniture coating processes to meet the Clean Air Act "reasonably available control measures" requirement for ozone nonattainment areas. The proposal would add 25 Pa. Code § 129.52a (relating to large appliance and metal furniture coating processes) to adopt emission limits and work practice standards for large appliance and metal furniture surface coating operations. The proposed rulemaking would also amend 25 Pa. Code § 129.52, which limits VOC emissions from surface coating processes, to terminate applicability of 25 Pa. Code § 129.52 to large appliance and metal furniture surface coating operations, including the current VOC content limits for large appliance and metal furniture coatings listed in Table 1, as of the date of applicability of the requirements of the proposed 25 Pa. Code § 129.52a.	Susan Hoyle (717) 772-2329 shoyle@state.pa.us

The proposal would add 25 Pa. Code § 129.52c (relating to control of VOC emissions from flat wood paneling coating processes) to adopt emission limits and work practice standards for flat wood paneling coating operations.	Susan Hoyle (717) 772-2329 shoyle@state.pa.us
Outdoor Wood-fired Boilers (OWB) Air Pollution Control Act 25 Pa. Code Chapter 123	FY 09-10	The proposed rulemaking would add 25 Pa. Code § 123.14 (relating to outdoor wood-fired boilers) to 25 Pa. Code Chapter 123 (relating to standards for contaminants). The proposed rulemaking would also add new and revise certain existing definitions in 25 Pa. Code § 121.1 (relating to definitions). Health Facility Licensure Home Care Agencies and Home Care Registries 28 Pa. Code Chapter 611	September 2009, as final.	These new regulations are being promulgated pursuant to Section 803(10) of the Health Care Facilities Act, Act of July 19, 1979 (P. L. 130, No. 48), <i>as amended</i> , 35 P. S. § 448.803(1), and Act 2006-69 at § 809.1. Act 69 of 2006 expressly authorized the Department to set licensure standards for home care agencies and home care registries. Outpatient Integrated Treatment for Persons with Co-Occurring Psychiatric and Substance Use Disorders 28 Pa. Code Chapter 719	October 2009, as proposed.	These new regulations would be promulgated, simultaneously with identical regulations from the Department of Public Welfare, to permit providers of drug & alcohol treatment services and mental health treatment services to obtain licenses from the Departments of Health and Public Welfare authorizing them to deliver integrated treatment on an outpatient basis to persons suffering from co-occurring psychiatric and substance use disorders. The proposed regulations would establish minimum requirements for licensure, including staffing, training, records, and other aspects required for appropriate treatment delivery. There are currently no regulations which provide for licensure of providers of integrated treatment for co-occurring disorders. Instead, facilities that wish to provide integrated treatment currently must meet all the requirements to obtain separate licenses for drug and alcohol and mental health treatment. The proposed regulations would simplify the survey and licensure process for providers. These regulations would be published pursuant to the Department's authority under Articles IX and X of the Public Welfare Code (62 P. S. §§ 901—922, 1001—1031 and 1051—1059), as transferred to the Department under Reorganization Plan No. 2 of 1977 (71 P. S. § 751-25) and Reorganization Plan No. 4 (71 P. S. § 751-31), and the Drug and Alcohol Abuse Control Act (71 P. S. §§ 1690.101—1690.114).	Robert T. Datorre (717) 783-2500

Nursing home regulations 28 Pa. Code §§ 201.3 and 211.6	October 2009, as proposed.	Recent amendments made by Act 68 of 2008 to the Social Workers, Marriage and Family Therapists and Professional Counselors Act (63 P. S. §§ 1901—1922) include a definition for the term “social worker” and prohibits individuals from holding themselves out as social workers, using the title of “social worker” or using the abbreviation of “S.W.” without meeting Act 68’s definition of “social worker.” Act 68 also prohibits “advertising as a social worker and adopting or using any title or description of services incorporating the term ‘social worker’ and their related abbreviations, which implies directly or indirectly that the individual is a social worker.” The new statutory definition of a “social worker” conflicts with the definition in the Department’s nursing home regulations. In order to resolve this conflict and allow facilities to continue to employ the individuals they currently employ in these positions (and who do not meet the new statutory definition of a social worker) the Department would propose to amend the term “social worker” in the regulations to “social services coordinator.” This will continue to allow nursing homes to hire individuals who meet the qualifications in the Department’s nursing home regulations and in federal nursing home regulations, thereby giving facilities a larger pool of potential employees and controlling health care costs. The amendments would be promulgated pursuant to the Health Care Facilities Act, 35 P. S. §§ 448.101—448.904b, and Act 68.	Robert T. Datorre (717) 783-2500

Further, it is more appropriate that technical requirements, such as these, appear in a regulation rather than in statutory form.	Peter J. Salvatore, Regulatory Coordinator (717) 787-4429

Integrated Treatment for Outpatient Clinics (formerly referred to as "Psychiatric Outpatient Clinics") 55 Pa. Code Chapter 5200	September 2009, as proposed.	These regulations would be promulgated, simultaneously with identical regulations from the Department of Health, to permit providers of drug and alcohol treatment services and mental health treatment services to obtain licenses from the Departments of Health and Public Welfare authorizing them to deliver integrated treatment on an outpatient basis to persons suffering from co-occurring psychiatric and substance use disorders. The proposed regulations would establish minimum requirements for licensure, including staffing, training, records, and other aspects required for appropriate treatment delivery. There are currently no regulations which provide for licensure of providers of integrated treatment for co-occurring disorders. Instead, facilities that wish to provide integrated treatment currently must meet all the requirements to obtain separate licenses for drug and alcohol and mental health treatment. The proposed regulations would simplify the survey and licensure process for providers. These regulations would be published pursuant to the Department's authority under Articles IX and X of the Public Welfare Code (62 P. S. §§ 901—922, 1001—1031 and 1051—1059). 4 Pa. Code § 250.2. Time to appeal. (This proposed regulation will supercede that portion of 1 Pa. Code § 35.35 pertaining to the 10-day period of time to appeal from delegated actions of subordinate officers and substitute a 30-day period of time to file an appeal.)	SERS has been notified of the approval of a final-form rulemaking package by the Governor's Policy Office (GPO). The final rulemaking will proceed consistent with the Commonwealth Documents Law (CDL).	Current hearing regulations are inconsistent with operational practice supporting member-friendly service. 4 Pa. Code §§ 250.1 and 250.15. Applicability of general rules. (These current regulations will be modified to permit the application of proposed 4 Pa. Code § 250.2.)	SERS has been notified of the approval of a final-form rulemaking package by the GPO. The final rulemaking will proceed consistent with the CDL.	Specific provisions in SERS' regulations should be exceptions to the general rules of administrative practice and procedure.	Paul Stahlnecker, Esq. 4 Pa. Code § 247.11 Priority of taxation, attachments and assignments of funds. (This proposed regulation will clarify the priority of payments to be made from the members' accounts by SERS pursuant to 71 Pa.C.S. § 5953.)	SERS is reviewing the Independent Regulatory Review Commission (IRRC) staff comments and SERS has been notified of the approval of the proposed rulemaking package by the GPO.	The statute does not set priorities among conflicting demands on members' accounts. A recent court decision has offered partial guidance in this area. A regulation would enable consistent application of the statute and would reduce litigation of priority issues. This is also being considered as a statutory amendment.	Brian McDonough, Esq. 4 Pa. Code § 247.7(a). Priority of death benefit payment. (This proposed regulation will clarify the priority of death benefit payments to be made by SERS pursuant to the second sentence of 71 Pa.C.S. § 5905(g).)	SERS has been notified of the approval of a final-form rulemaking package by the GPO. The final rulemaking will proceed consistent with the CDL.	The statute does not set priorities among conflicting demands on members' death benefits. 4 Pa. Code § 249.53. Exemption from execution; assignment of rights. (This proposed regulation amendment would delete State Employees' Credit Union payment language.)	SERS has been notified of the approval of a proposed rulemaking package by the GPO.	The language is obsolete. No credit union currently meets the statutory requirements and it is unlikely that any new ones will. A corresponding statutory amendment is also being considered.	Brian McDonough, Esq. 4 Pa. Code § 247.6. (a) Termination of Annuities. (This proposed regulation would delete the 30-day requirement to elect multiple service.)	SERS has been notified of the approval of a final-form rulemaking package by the GPO. The final rulemaking will proceed consistent with the CDL.	The 30 day requirement in the regulation has been rendered obsolete by changes to SERS' enabling legislation.	Jill Vecchio, Esq. 4 Pa. Code § 247.4. (c) Disability Annuities. (This proposed regulation will clarify: 1) the methodology used to determine the employer-funded offset credit; 2) the service-connected disability supplement and 3) the rights of terminated members to apply for a disability.)	2010	The statute does not expressly determine the methodology, the effects of these formulas and when terminated members can apply. Recent court and administrative decisions have offered partial guidance in this area. A regulation would enable consistent application of the statute and would reduce litigation of disability and supplement issues. This is also being considered as a statutory amendment.	M. 4 Pa. Code §§ 241.1 and; 247.7. Definitions. (The definition of "Beneficiary" would be amended to specify that the beneficiaries must be named rather than merely described.) Gender neutral terms would be substituted and an operational provision that is found elsewhere would be removed from this definitional section.	SERS has been notified of the approval of a final-form rulemaking package by the GPO. The final rulemaking will proceed consistent with the CDL.	The amendment would clarify and settle whether a proper name ("John Doe") or a general description ("my children," "my issue," "per stirpes") suffices. A lack of named beneficiaries can cause significant legal and administrative ambiguities that this amendment would avoid. This is also being considered as a statutory amendment.	Jill Vecchio, Esq. State Board of Osteopathic Medicine—Prescriptive Privileges for Physician Assistants; Regulation No. 16A-5318 (#2644) Osteopathic Medicine Prescriptive Privileges for Physician Assistants

On October 10, 2007, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Board of Osteopathic Medicine (Board). This rulemaking amends 49 Pa. Code Chapter 25. The proposed regulation was published in the October 20, 2007 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on February 26, 2009. At its April 2, 2009 public meeting, the Commission voted to disapprove the final-form regulation. On May 22, 2009, the Board submitted its report containing the revised final-form regulation to the Commission.

We have determined this regulation is consistent with the statutory authority of the Board (63 P. S. § 271.10(p)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Appeal of Jeffrey Weiss; file no. 09-302-70178; American International South Insurance Company; Doc. No. PI09-06-011; August 26, 2009, 2 p.m.

Parties may appear with or without counsel and offer relevant testimony or other relevant evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. Universal Service Coordination Working Group;
Doc. No. M-2009-2107153

Order

By the Commission:

By this order, we establish a Universal Service Coordination Working Group (Working Group). This is a vital step toward effectively coordinating the residential universal service programs under the Commission's jurisdiction and coordinating these programs with other state programs. The Working Group's assignment is to develop recommendations to achieve these goals.

Our action in initiating this Working Group is timely, given the likely introduction of Act 129 funds into the electric distribution companies' (EDCs') portfolio of energy efficiency measures for low-income customers, as well as the increase in available funding for the State's Weatherization Assistance Program (WAP) due to a recent three-year grant of \$252.8 million under the Federal American Recovery & Reinvestment Act (ARRA).¹ This additional money places even more of an impetus on the need for effective coordination between utility and non-utility programs.

By way of background, the Commission has been charged with overseeing critical universal service programs that provide residential customers with assistance in maintaining natural gas, electric and telecommunications services.² These programs include energy assistance programs—Customer Assistance Programs (CAPs),³ the Low Income Usage Reduction Program (LIURP),⁴ and Company Initiated Hardship Funds, and telephone assistance programs—Lifeline and Link Up.⁵

The EDCs and natural gas distribution companies (NGDCs) have implemented CAPs. These programs provide low income customers with the opportunity to maintain their utility service by providing a reduced bill that is based on income and usage. LIURP helps low-income residential customers reduce the amount of electricity or natural gas used each month by installing energy saving features in the customers' homes. Customers who are eligible for these energy programs are usually also eligible for the Lifeline and Link Up programs and other state and federal universal service programs.

In addition to the programs under the Commission's jurisdiction, there are federal assistance programs that are administered by the Department of Public Welfare (DPW) and the Department of Community and Economic Development (DCED). DPW administers the Low Income Home Energy Assistance Program (LIHEAP), which provides both cash and crisis benefits to low-income households. DPW is also responsible for the "automatic notification program,"⁶ which provides welfare program recipients with information about telephone assistance programs. DCED administers the state's federally funded WAP. DCED distributes these funds to local governments and nonprofit organizations, such as community action agencies, to provide low income households with weatherization services.

At present, there is little coordination among these universal service programs. While this lack of coordination may not have interfered with the management of individual programs, it may have resulted in eligible households missing opportunities to receive comprehensive services necessary to ensure the continuation of affordable utility service.

Most importantly, recent events and changes in the law and in funding have demonstrated the need for coordination of these programs. Act 129 of 2008 requires Pennsylvania's EDCs to reduce the electric consumption of their

¹ American Recovery & Reinvestment Act of 2009, Pub. L. No. 111-5, 123 Stat. 115 (2009).

² See 66 Pa.C.S. § 2203(7) and (8) (relating to standards for restructuring of the natural gas utility industry), § 2802(10) and (17) (relating to declaration of policy [electric restructuring]), and § 2804(9) (relating to standards for restructuring of electric industry), and § 3011(2) and (3) (relating to declaration of policy). See also 52 Pa. Code §§ 63.161–63.171 (relating to [telecommunications] universal service).

customers by 1% by May 31, 2011, and by 3% by May 31, 2013. The EDCs must also reduce peak demand by a minimum of 4.5% by May 31, 2013. If the EDCs adopt new energy efficiency and conservation plans targeting low-income households, we encourage coordination of these plans with existing programs. ARRA greatly expanded the funding for the State's WAP administered by DCED. ARRA funding will provide the WAP with \$252.8 million over the next three years. Given the current economic climate and expanded funding, there is a further impetus for more effective coordination of utility and nonutility programs.

Therefore,

It Is Ordered That:

1. The Universal Service Coordination Working Group shall be created to develop recommendations to coordinate residential universal service programs under the Commission's jurisdiction, and to coordinate these programs with other state programs. The Working Group shall also make recommendations on the feasibility of integrating these programs to establish a Statewide network of all utility assistance programs.

2. The Working Group shall be comprised of invited representatives from the natural gas, electric and telecommunications industries that have expertise in providing universal service to eligible customers. Representatives from the DCED and the DPW shall be invited to participate in the Working Group. The Office of Consumer Advocate, Community Legal Services, Inc., Pennsylvania Utility Law Project, United Way of Pennsylvania, AARP Pennsylvania and the Consumer Advisory Council shall also be invited to participate.

3. The initial meeting of the Working Group shall be held no later than 60 days after the publication date of this Order in the *Pennsylvania Bulletin*. The Bureau of Consumer Services with the assistance of Law Bureau will oversee the activities of the Working Group.

4. Interested parties may submit proposals or comments on the topics listed in the attached Annex and on other related matters or issues that should be considered by the Working Group. The proposals and comments will be used to develop an agenda for the Working Group's meetings. The proposals and comments shall be submitted consistent with the directions set forth in the Annex and shall be submitted no later than 45 days after the publication date of this Order in the *Pennsylvania Bulletin*.

5. The Working Group shall submit its final recommendations to the Commission no later than December 15, 2009.

6. A copy of this Order shall be served on all natural gas distribution companies, electric distribution companies, and local exchange telecommunications companies, the Office of Consumer Advocate, the Pennsylvania Utility Law Project, Community Legal Services, Inc., the Energy Association of Pennsylvania, the Pennsylvania Telephone Association, DPW, the DCED, the Consumer Advisory Council, Dollar Energy Fund, the United Way of Pennsylvania, AARP Pennsylvania, Aqua Pennsylvania Inc., Pennsylvania-American Water Company, United Water of Pennsylvania Inc. and York Water Company.

7. A copy of this Order and Annex shall be published in the *Pennsylvania Bulletin*.

Secretary

Annex

Re: *Universal Service Coordination Working Group*,
Docket No. M-2009-2107153; Solicitation of Proposals or
Comments

Pursuant to a Motion adopted at its Public Meeting on May 14, 2009, the Pennsylvania Public Utility Commission (Commission) is creating the Universal Service Coordination Working Group (Working Group). The purpose of the Working Group is to develop policy recommendations to coordinate jurisdictional universal service programs for low income households and to determine the feasibility of incorporating these programs into a Statewide network of all utility assistance programs.

The Working Group will include invited representatives from the Commission, the Office of Consumer Advocate, consumer groups, electric distribution companies, natural gas distribution companies, telephone companies and nonprofit associations. The Department of Community and Economic Development that administers the Weatherization Assistance Program and the Department of Public Welfare that administers the Low-income Home Energy Assistance Program have been invited to send representatives to participate in the Working Group.

The Working Group is tasked with making recommendations to achieve the following goals:

Universal Service Energy Program Coordination

- Low-Income Usage Reduction Programs (LIURP)—Coordination among electric and gas LIURP programs
- Customer Assistance Programs—Coordination among electric and gas CAP and LIURP programs
- American Recovery & Reinvestment Act (ARRA) Weatherization Assistance Program (WAP)—Coordination of ARRA WAP with LIURP and other utility programs

Coordination of all State Universal Service Programs

- Determine the feasibility of creating a platform for sharing electronic lists of participants after resolving confidentiality requirements
- Determine the feasibility of coordinating the outreach for state universal service programs (LIHEAP, LIURP, ARRA WAP, CAP Hardship Funds, Lifeline/Link Up)
- Determine the feasibility of centralizing the intake/application/referral networks (LIHEAP, LIURP, ARRA WAP, CAP Hardship Funds, Lifeline/Link Up)

The Commission has directed the Bureau of Consumer Services (BCS) to oversee the Working Group. The initial meeting of the Working Group will be held no later than 60 days after the publication date of the order in the *Pennsylvania Bulletin*.

To develop an agenda for the Working Group's meetings, BCS staff requests that interested parties submit proposals on the topics listed previously. Proposals or comments on other related matters/issues that should be considered by the Working Group may also be submitted.

An original and two copies of each proposal or comment shall be filed with the Commission's Secretary at P. O. Box 3265, Harrisburg, PA 17105-3265. Alternatively, e-filing users may file proposals electronically. All responses will be posted on the Commission's web site (<http://www.puc.state.pa.us>). To facilitate timely posting, each document should be submitted in WORD format and sent by electronic mail to Lenora Best (lebest@state.pa.us). Proposals and other documents shall reference the

previous-captioned docket and shall be submitted no later than 45 days after the publication date of the order in the *Pennsylvania Bulletin*.
