The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years, subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an “integrated” plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials

are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, tele-

phone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act.

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup

plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk

assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro

bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Request for Comments and Notice of Public Meeting for the Proposed Total Maximum Daily Loads (TMDLs) Developed for the East Branch Fishing Creek Watershed

The Department of Environmental Protection (Department) and the Susquehanna River Basin Commission are holding a public meeting on June 24, 2010, at 6 p.m., at the Sugarloaf Township building at 90 Schoolhouse Road, Benton, PA 17814. The purpose of the meeting is to discuss and accept comments on the proposed TMDL developed for the East Branch Fishing Creek Watershed. In accordance with the requirements of section 303(d) of the Clean Water Act, stream segments in the East Branch Fishing Creek Watershed have been identified as impaired due to high levels of metals and low pH, as a result of atmospheric deposition.

The proposed TMDLs set allowable loadings to meet water quality standards at specified points in East Branch Fishing Creek for aluminum and acidity. Loads have been allocated to nonpoint sources. The TMDLs were established using field data collected in 2009.

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDL and information on the TMDL program can be viewed on the Department's web site www.dep.state.pa.us/watermanagement_apps/tmdl/. To request a copy of any of the TMDLs, contact Bill Brown, Department of Environmental Protection, Water Quality Assessment and Standards, 400 Market Street, P. O. Box 8467, Harrisburg, PA 17105, (717) 783-2951.

Written comments will be accepted at the previous address and must be postmarked no later than July 5, 2010. The Department will consider all comments in developing the final TMDL, which will be submitted to the United States Environmental Protection Agency for approval.

Request for Comments and Notice of Public Meeting for the Proposed Total Maximum Daily Loads (TMDLs) Developed for the Johnson Creek

The Department of Environmental Protection (Department) and the Susquehanna River Basin Commission are holding a public meeting on June 15, 2010, at 6 p.m., at the Wysox Volunteer Fire Company Auxillary building at

DEPARTMENT OF HEALTH

Emergency Medical Services Operating Fund Funding Priorities

Under 28 Pa. Code §§ 1001.22 and 1001.23 (relating to criteria for funding; and allocation of funds), the Department of Health (Department) gives notice of priorities for the distribution by the regional emergency medical services (EMS) councils of funding from the Emergency Medical Services Operating Fund (EMSOF) for the Fiscal Year (FY) beginning July 1, 2010, and ending June 30, 2011.

EMSOF moneys are to be used to provide funding to maintain, improve and develop the quality of the EMS system within this Commonwealth. The Department finds that EMSOF is not sufficient to fully fund the EMS system. Therefore, it gives notice, under 28 Pa. Code § 1001.22(d), that recipients of EMSOF funding from regional EMS councils may be required to contribute funds toward all purchases, acquisitions and projects for which the Department permits the use of EMSOF moneys.

Each regional EMS council shall prioritize the distribution of its EMSOF allocation based upon the Statewide EMS Development Plan and its regional EMS development plan, subject to the funding priorities set forth in this notice. By October 30, 2010, the regional EMS councils shall notify the providers and other appropriate entities of the established funding priorities, the application process, acquisition documentation requirements and processing deadlines. Each regional EMS council must complete all documents required for the distribution of EMSOF funding by June 30, 2011.

The Department may increase the amount of the initial payment or reimbursement from EMSOF based upon the EMS development plans (State and regional) or documented financial hardship of a provider of EMS. A provider of EMS that seeks additional funds due to financial hardship shall be required to submit a financial disclosure statement and other documentation deemed necessary by the Department.

A provider of EMS applying for EMSOF funding must be in full compliance with all regulations, policies and priorities of the State and regional EMS systems.

Funds for purchases, acquisitions and projects for the FY beginning July 1, 2010, and ending June 30, 2011, must be expended or encumbered by the regional EMS council by June 30, 2011.

Funding Priorities

These priorities are not ranked. The priorities must be considered before there is any regional distribution of EMSOF moneys for initiatives that are not listed. All funding must be distributed consistent with the regional

and Statewide EMS development plans. Consequently, if the priorities in this notice have been funded and additional funding is available, the request to use EMSOF money towards nonpriority items must still be supported by the Statewide and regional EMS development plans.

- Development or improvement of an organizational risk management program (safety measures, hazard recognition/mitigation and the necessary organizational structure and support processes) proposed by an ambulance service. Proposals for funding must be comprehensive and include safe vehicle operations. Approval by the Department is required prior to funding.

- Recruitment and retention programs, including scholarships/tuition reimbursement for first responder, emergency medical technician and paramedic training in areas with high prehospital personnel vacancy rates as determined by the regional EMS council and approved by the Department.

- Equipment required to meet basic life support (BLS) and advanced life support (ALS) ambulance service licensure.

- Capnography equipment (especially wave-form end-tidal CO₂ monitors).

- An ambulance for ambulance services that is older than 10 years or has more than 200,000 miles on it. Limit to one per FY.

- Software/computer equipment to enable services to collect and transmit EMS patient care reports electronically.

- Quality assurance/improvement program.

- EMS personnel protective respiratory equipment approved by the Department to protect the EMS practitioner from communicable diseases transmitted from person to person through airborne mechanisms.

- Costs associated with investigating a potential merger or consolidation of services. These costs include but are not limited to consulting fees, studies, legal fees and statistical analysis.

- Costs associated with the actual merger or consolidation of services.

- The additional cost of reflective chevron markings on back of a new ambulance purchased by an ambulance service.

When two or more ambulance companies have consolidated, for the first 5 years after the ambulance companies completed consolidation the entity may be deemed eligible

to receive funding not to exceed the amount of the combined total for which the individual companies would have been eligible had they not consolidated.

Emergency Preparedness and Response Funding Requests

Emergency preparedness and response funding requests must be based on local and response roles of services, regional needs and needs identified by threat vulnerability analysis. Purchases must be coordinated with county emergency, fire service, HAZMAT and hospital organizations in the applicant's service area to assure interoperability and to prevent duplication. Funding requests related to response to all hazard and emergency preparedness must have a clear connection to the regional EMS catastrophic plan and the regional EMS development plan. Priority will be given to fund the ambulance services in each region that have committed to participating in the EMS strike team capability project and respond to requests for EMS, both interstate and intrastate, as identified in the State and regional mass casualty plans.

Provider Equipment

Purchases by providers of EMS are not limited to equipment. If an EMS provider requests EMSOF moneys to purchase equipment, the Eligible Provider Equipment List identifies equipment for which EMSOF funds will be made available to purchase. This chart identifies the types of providers of EMS eligible for equipment purchases supported by EMSOF funding and the maximum allowable cost upon which the EMSOF contribution will be calculated.

EMSOF funds will fund 60% of the maximum allowable cost of an equipment item for rural providers and will fund 50% of the maximum allowable cost of an equipment item for nonrural providers. An eligible provider is responsible for the balance of the purchase price. The provider may purchase an item for an amount that exceeds the maximum allowable cost, but the provider will be responsible for any amount exceeding that figure. The last two columns of the chart identify the percentage of EMSOF contribution towards the purchase price, up to the maximum allowable cost of the item, based upon whether the provider operates in a rural or nonrural area.

Paramedic Examinations

Funding may be provided to services to cover the cost of the State written test for paramedic certification taken by their personnel at 100% of the cost of two examination attempts up to a maximum allowable cost of \$300 per person.

DEPARTMENT OF PUBLIC WELFARE

Nursing Facility Assessment Program for Fiscal Year 2010-2011

This notice announces the proposed assessment amount, the proposed assessment methodology and the

estimated aggregate impact on nursing facilities that will be subject to the assessment under the Nursing Facility Assessment Program (Assessment Program) in Fiscal Year (FY) 2010-2011.

Background

In 2003, the Pennsylvania General Assembly amended the Public Welfare Code to authorize the Department of Public Welfare (Department) to implement a monetary assessment on private nursing facilities in this Commonwealth over a 4-year period beginning July 1, 2003, and ending June 30, 2007. Act of September 30, 2003 (P. L. 169, No. 25) (Act 25), codified at 62 P. S. §§ 801-A—815-A. Since the implementation of the Assessment Program, the Department used the Assessment Program revenue to support payments to Pennsylvania's Medical Assistance (MA) nursing facility providers. Recognizing the substantial benefits realized through the Assessment Program, the General Assembly enacted Act 16 of 2007 to reauthorize the Assessment Program for an additional 5 years. Act of June 30, 2007 (P. L. 49, No. 16) (Act 16). In addition to reauthorizing the Assessment Program, Act 16 amended the Public Welfare Code to allow the Department to include county nursing facilities in the Assessment Program effective July 1, 2007. Id., 62 P. S. § 802-A. For FYs 2007-2008, 2008-2009 and 2009-2010, the Department exercised its discretion to include the county nursing facilities in the Assessment Program. The Department will continue this practice for FY 2010-2011.

For each FY that the Assessment Program is implemented, the Secretary of the Department (Secretary), in consultation with the Secretary of the Budget, must determine the aggregate amount of the assessment and the annual assessment rate. The aggregate amount and rate of assessment must be approved by the Governor's Office. The annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, subject to the maximum aggregate assessment amount that qualifies for Federal matching funds. See section 804-A of Act 25 (62 P. S. § 804-A).

Before implementing the Assessment Program in a FY, the Secretary must publish a notice in the *Pennsylvania Bulletin* that specifies the amount of the assessment being proposed, provides an explanation of the assessment methodology and assessment amount, and identifies the aggregate impact on nursing facilities subject to the assessment. See section 805-A of Act 25 (62 P. S. § 805-A).

Additionally, the Department must seek approval from the Federal Centers for Medicare and Medicaid Services (CMS) to implement the Assessment Program in conformity with Federal law and to guarantee that the assessment amounts qualify for matching Federal funds. See 62 P. S. § 812-A. To assure that revenues generated from the Assessment Program qualify for Federal matching funds, the Department submitted a request to CMS for an amendment to the Assessment Program for FY 2010-2011. The implementation of the changes to the Assessment Program is contingent on CMS's approval of the request.

This notice announces the assessment amounts, rates and methodology that the Department is proposing to implement in FY 2010-2011 and the estimated aggregate impact on nursing facilities that will be subject to the assessment in FY 2010-2011.

Proposed Assessment Methodology and Rates

During FY 2010-2011, the Department is proposing to maintain the same assessment methodology that was used in FY 2009-2010.

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2010-2011:

- (1) State owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.
- (3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.
- (4) Nursing facilities that provide nursing facility services free of charge to all residents.

Under the proposed rate structure, the Department will assess nonexempt nursing facilities at two rates. One rate will apply to three categories of nursing facilities: county nursing facilities; nursing facilities that have 50 or fewer licensed beds; and nursing facilities that participated in a Continuing Care Retirement Community (CCRC) before July 1, 2010, and that continue to participate within that CCRC. The other rate will apply to all other nonexempt facilities, including nursing facilities that begin participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate each non-exempt facility's quarterly assessment amount by multiplying its assessment rate by the facility's non-Medicare resident days during the calendar quarter that immediately preceded the assessment quarter.

Since the Nursing Facility Assessment Program began in 2003, the number of nursing facilities assessed at the lower CCRC rate has increased dramatically. Some facilities qualified for the lower CCRC assessment rate merely by adding a few residential units to create a continuum of care, but otherwise continued to operate as usual. Over the years, the Department adopted guidelines in an effort to confine the CCRC assessment category to those entities that operate as traditional CCRCs. Despite these efforts, the CCRC category has grown by 82%. Rather than reacting to each new scheme, the Department is proposing to eliminate the CCRC category prospectively to discourage nursing facilities from undertaking arrangements simply to qualify for a lower assessment rate. If this proposal is adopted, the Department will not approve any new requests for the CCRC rate made on or after July 1, 2010. The Department also intends to require nursing facilities that currently qualify for the CCRC rate to certify, upon written request, that they continue to qualify for the CCRC assessment rate pursuant to the guidelines under which they were approved. These changes will ensure that the assessment program continues to achieve its intended purpose of generating revenue to support medical assistance payments to nursing facilities while minimizing any potential financial harm to nursing facilities.

The Department will continue to accept requests to be assessed at the CCRC rate. To process approvals before July 1, 2010, the Department must receive new requests for the CCRC rate no later than June 23, 2010.

The Department also proposes to increase the assessment rates for nonexempt nursing facilities from the rates in FY 2009-2010. The proposed assessment rates for FY 2010-2011 are as follows:

- (1) For county nursing facilities, for nursing facilities that have 50 or fewer licensed beds, and for nursing facilities that participated in a CCRC before July 1, 2010, and that have certified continued participation within that CCRC, the assessment rate will be \$4.05 per non-Medicare resident day.

- (2) For all other non-exempt nursing facilities, the assessment rate will be \$25.50 per non-Medicare resident day.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that, if the proposed assessment rates are implemented, the annual aggregate assessment fees for nonexempt nursing facilities will total \$390.726 million. The Department will use the State revenue derived from the assessment fees and any associated Federal matching funds to support payments to qualified MA nursing facility providers in accordance with applicable law and regulations.

Public Comment

Interested persons are invited to submit written comments regarding the contents of this notice to Yvette Sanchez-Roberts, Department of Public Welfare/ Department of Aging, Office of Long-Term Living, 555 Walnut Street, Forum Place, 5th Floor, Harrisburg, PA 17101-1919. Comments must be submitted within 30 days of publication of the notice. See 62 P. S. § 805-A. After considering the comments, the Secretary will publish a second notice announcing the final assessment rates for FY 2010-2011. The Department will not begin collecting assessment fees until after the publication of the final assessment rate notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

FISH AND BOAT COMMISSION

Proposed Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) is considering changes to its list of Class A Wild Trout Streams. Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource to conserve that resource and the angling it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. The Commission manages these stream sections solely for the perpetuation of the wild trout fishery with no stocking.

The criteria developed for Class A Wild Trout fisheries are species specific. Wild Trout Abundance Class Criteria include provisions for:

- (i) *Wild Brook Trout Fisheries*

(A) Total brook trout biomass of at least 30 kg/ha (26.7 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Brook trout biomass must comprise at least 75% of the total trout biomass.

(ii) *Wild Brown Trout Fisheries*

(A) Total brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Brown trout biomass must comprise at least 75% of the total trout biomass.

(iii) *Mixed Wild Brook and Brown Trout Fisheries*

(A) Combined brook and brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brook trout biomass must comprise less than 75% of the total trout biomass.

(E) Brown trout biomass must comprise less than 75% of the total trout biomass.

(iv) *Wild Rainbow Trout Fisheries*

Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 2.0 kg/ha (1.78 lbs/acre).

For a water to be removed from the Class A Wild Trout Streams designation, total trout biomass must be documented below the set criteria for two consecutive stream examinations.

During recent surveys, Commission staff have documented the following stream sections to have Class A Wild Trout populations. The Commission intends to consider adding these waters to its list of Class A Wild Trout Streams at its meeting on July 12 and 13, 2010.

Removal of Certain Refuge Areas

Under 58 Pa. Code § 67.2 (relating to refuge areas), the Executive Director of the Fish and Boat Commission (Commission), with the approval of the Commission, may designate waters as refuge areas to which 30 Pa.C.S. § 2306 (relating to refuge areas), shall apply. Section 2306 of 30 Pa.C.S. provides that the Commission may set aside, in its discretion, areas as it may judge best as refuge areas in which fishing or entry shall be prohibited for periods of time as the Commission prescribes. According to the regulation, the designation of waters as refuge areas shall be effective upon posting of the waters after publication of a notice that the waters have been so designated in the *Pennsylvania Bulletin*. Refuge areas are closed to public fishing except during the period from June 15 until the last day of February of the following year. It is unlawful to disturb fish or other aquatic life in refuge areas by any means, including wading, throwing stones, rocks or other objects or otherwise agitating the waters. The regulation will not be construed to prohibit fishing in these areas during the extended trout season.

Based on current conditions, there are reasons to remove the refuge area designation from 18 streams. For example, some streams are no longer being maintained as marked refuge areas, some streams are no longer stocked with trout and some streams are simply not being well utilized by anglers. These conditions are inconsistent with the premise for the use of refuge areas. Therefore, the Commission, at its next meeting on July 12 and 13, 2010, will consider taking action to remove the refuge area designations from the sections of the following waters that have been so designated:

<i>County</i>	<i>Water Area</i>
Cambria/Clearfield	Chest Creek
Clearfield	Little Clearfield Creek
Clearfield	Gifford Run
Clearfield	Mosquito Creek

Snyder	Swift Run
Schuylkill	Little Schuylkill River

<i>County</i>	<i>Water Area</i>

Warren	West Branch Tionesta Creek

The sections of the following waters that have designated as refuge areas will remain in the program.

<i>County</i>	<i>Water Area</i>
Cameron	Hicks Run

At this time, the Commission is soliciting public input concerning the previously listed redesignations. Persons with comments, objections or suggestions concerning the redesignations are invited to submit comments in writing to Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted. Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. Under 58 Pa. Code § 71.7 (relating to triploid grass carp), the Fish and Boat Commission (Commission) may issue permits to stock triploid grass carp in Commonwealth waters. Triploid grass carp are sterile fish that may, in appropriate circumstances, help control aquatic vegetation. The Commission has determined consistent with 58 Pa. Code § 71.7(e)(3) to seek public input with respect to any proposed stockings of triploid grass carp in waters having a surface area of more than 5 acres.

Interested persons are invited to submit written comments, objections or suggestions about the notice to the

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Order

Public Meeting held
May 20, 2010

Commissioners Present: James H. Cawley, Chairperson;
Tyrone J. Christy, Vice Chairperson; Wayne E. Gardner;
Robert F. Powelson

*Recalculation of the Pennsylvania Telecommunications
Relay Service Surcharge; M-2010-2151504; M-00900239*

Order

By the Commission:

Pursuant to our May 29, 1990 Order at Docket No. M-00900239 establishing the Pennsylvania Telephone Relay Service (Relay)¹ and surcharge funding mechanism (TRS surcharge) and subsequent legislation,² we have

¹ Additional information on TRS may be found at http://www.puc.state.pa.us/telecom/telecom_relay_service.aspx

² See Act 34 of 1995, 35 P. S. §§ 6701.1—6701.4 (the statutory provisions were amended by Act 181 of 2002 to be more inclusive of persons with disabilities), establishing the Telephone Device Distribution Program (TDDP) to be funded by the TRS surcharge and which codified Relay and use of the TRS surcharge funding mechanism; and Act 174 of 2004, 35 P. S. § 6701.3a, which established the Print Media Access System Program (PMASP) to be funded in part by the TRS surcharge. PMASP is a reading service for persons with certain vision and physical disabilities. The law is now called the "Universal Telecommunications and Print Media Access Act."

completed the annual recalculation of the TRS surcharge as it will apply to residence and business wireline access lines for July 1, 2010, through June 30, 2011. The monthly residential and business monthly access line surcharge will remain set at \$0.08.

Background

The annual TRS recalculation is dependent on data from several sources. Local Exchange Carriers (LECs)³ submitted annual wireline access line counts per 52 Pa. Code § 63.37. The Relay Provider, AT&T Communications of Pennsylvania, LLC, submitted the estimated minutes of use and charges for July 1, 2010, through June 30, 2011. Hamilton Telecommunications submitted the estimated minutes of use report for the captioned telephone relay service (CTRS). The Executive Director of the Office of Vocational Rehabilitation (OVR) in the Department of Labor and Industry submitted the 2010-2011 TDDP budget and the 2010-2011 PMASP budget. The surcharge also funds the TRS Advisory Board activities and Fund administration costs. U.S. Bank,⁴ the Fund Administrator, provided a statement of the financial status of the Fund.⁵

Calculation for 2010—2011

Wireline access lines reported by LECs for 2009 and adjusted for Centrex lines are 6,818,611, (4,836,663 residence and 1,981,948 business). Based upon the number of access lines, projected program costs (Relay, CTRS, TDDP, and PMASP), anticipated Relay Advisory Board expenses, TRS Fund administration costs, and the financial status of the TRS Fund, the 2010-2011, the monthly TRS surcharge rate for both residence and business access lines will continue to be set at \$0.08 per month. All LECs shall continue to remit TRS surcharge revenues to the Fund Administrator.⁶ Since the 2010-2011 surcharge remains the same as the 2009-2010 rate \$0.08, tariff supplements are not required.

Effective July 1, 2010, the monthly surcharge allocation for each fund account is as follows:⁷

	<i>2010-2011 Monthly Surcharge Percentage</i>	
	<i>Residence %</i>	<i>Business %</i>
Relay	94.0	94.0
TDDP	4.0	2.0
PMASP	<u>2.0</u>	<u>2.0</u>
Total Percentage	100.0	100.0

³ LEC includes both incumbent and competitive local exchange carriers. Thirty-eight LECs had not submitted access line counts as of the date of preparation of this order; therefore, access line counts are estimated for surcharge calculation purposes. Noncompliant LECs are referred to the Commission's Law Bureau prosecutory staff.

⁴ As a result of mergers, acquisitions, and name changes, Fund administration has been handled by Hamilton Bank (1990), CoreStates Bank N.A. (1995), First Union National Bank (1999), Wachovia Bank, N.A. (2002), and U.S. Bank Institutional Trust & Custody (2006).

⁵ Separate accounts are maintained for the portions of the surcharge allocated to Relay, TDDP, and PMASP. Relay Advisory Board, CTRS, and outreach activities are funded from the Relay account; Fund administration draws from each respective account.

⁶ U.S. Bank Institutional Trust & Custody, Attn: Sue Massey, EX-PA-WBSP, 50 South 16th Street, 20th Floor, Philadelphia, PA 19102, payable to the "PA Relay Service Fund" and designated for Relay. Wire instructions effective September 11, 2006 can be found on the remittance form.

⁷ The TRS surcharge appears as a single line item on customers' bills but actually has three components (Relay TDDP and PMASP).

Operations for 2010—2011

We shall continue our active oversight of the operations of the Pennsylvania Relay, (traditional, speech-to-speech, and captioned telephone). Further, in accordance with 35 P. S. §§ 6701.3a and 4, we shall continue to collaborate with OVR and its TDDP administrator⁸ to ensure adequate funding for distribution of TDDP equipment to low-income households. Further, we shall continue to assist OVR in its mission to ensure adequate funding for PMASP.

Audits

On May 29, 2003, the Commission authorized an audit of the TRS fund. The scope of this audit has expanded to include additional fiscal periods. On August 7, 2003, a Commission Secretarial Letter required AT&T to file, on or before May 1st of each year, a Statement of Actual Underlying Costs of the PA TRS for the prior completed period of July 1 through June 30. The Bureau of Audits is currently auditing the PA TRS underlying costs for the three fiscal periods ending June 30, 2007, 2008, 2009. Regarding the TDDP the Bureau of Audits is currently conducting the audit of the two fiscal periods ending June 30, 2008 and 2009.

Conclusion

The Commission has completed the annual recalculation of the TRS Surcharge. The surcharge to be applied beginning July 1, 2010, through June 30, 2011, will remain at \$0.08 for residential and business access lines; *Therefore,*

It Is Ordered That:

1. For the period of July 1, 2010, through June 30, 2011, the monthly TRS surcharge rate shall be \$0.08 for residence and business, unless we take further action to revise the TRS surcharge prior to June 30, 2011.

2. All local exchange carriers are directed to use the attached form to remit the monthly TRS surcharge collections to U.S. Bank, Institutional Trust & Custody.

3. A copy of this Order be served upon all local exchange carriers, AT&T Communications Company of Pennsylvania, LLC, Hamilton Telecommunications, U.S. Bank Institutional Trust & Custody, the Office of Vocational Rehabilitation in the Department of Labor and Industry, the Office of Consumer Advocate, the Office of Small Business Advocate, and the Pennsylvania Telephone Association.

4. A copy of this Order be published in the *Pennsylvania Bulletin*.

5. A copy of this Order be posted to the Commission's web site.
