# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

*Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

### **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

### ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

### **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

## Title 210—APPELLATE PROCEDURE

### PART I. RULES OF APPELLATE PROCEDURE

[ 210 PA. CODE CH. 3 ]

#### Amendment of Rules 311 and 342 of the Rules of Appellate Procedure; No. 217 Appellate Procedural Rules Doc.

##### Order

*Per Curiam*

And Now, this 29th day of December, 2011, upon the recommendation of the Appellate Court Procedural Rules Committee; the proposal having been published before adoption at 40 Pa.B. 3659 (July 3, 2010):

*It Is Ordered*, pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rules 311 and 342 of the Pennsylvania Rules of Appellate Procedure are amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective and applicable to all Orphans' Court orders entered forty-five days after adoption.

##### Annex A

#### TITLE 210. APPELLATE PROCEDURE

#### PART I. RULES OF APPELLATE PROCEDURE

#### ARTICLE I. PRELIMINARY PROVISIONS

#### CHAPTER 3. ORDERS FROM WHICH APPEALS MAY BE TAKEN

#### INTERLOCUTORY APPEALS

#### Rule 311. Interlocutory Appeals as of Right.

(a) *General rule.* An appeal may be taken as of right and without reference to Pa.R.A.P. 341(c) from:

\* \* \* \* \*

(8) [ *Estate and trust matters.* An order determining the validity of a will or trust.

(9) ] *Other cases.* An order which is made appealable by statute or general rule.

\* \* \* \* \*

**Official Note:** Authority—This rule implements 42 Pa.C.S. § 5105(c) (interlocutory appeals), which provides:

\* \* \* \* \*

The appeal rights under this rule, and under Rule 312 ([ **interlocutory appeals by permission** ] **Interlocutory Appeals by Permission**), Rule 313 ([ **collateral orders** ] **Collateral Orders**), Rule 341 ([ **final orders generally** ] **Final Orders; Generally**), and Rule 342 ([ **final distribution orders** ] **Appealable Orphans' Court Orders**), are cumulative; and no inference shall be drawn from the fact that two or more rules may be applicable to an appeal from a given order.

\* \* \* \* \*

Following a 2005 amendment to Rule 311, orders determining the validity of a will or trust were

appealable as of right under former subdivision (a)(8). Pursuant to the 2011 amendments to Rule 342 (Appealable Orphans' Court Orders), such orders are now immediately appealable under subdivision (a)(2) of Rule 342.

Paragraph [ (a)(9) ] (a)(8) (Other cases)—Paragraph [ (a)(9) ] (a)(8) is directed primarily to statutes and general rules hereafter enacted or promulgated. The current text of the Pennsylvania Rules of Civil Procedure, the Pennsylvania Rules of Criminal Procedure, etc., should be consulted to identify any interlocutory appeal rights provided for therein. See also, e.g., 42 Pa.C.S. § 7320 (appeals from court orders), concerning appeals from certain orders in nonjudicial arbitration proceedings, which section is not suspended by these rules. See Rule 5102(a) (Judicial Code unaffected).

\* \* \* \* \*

#### [ Explanatory Comment—2005

Orders determining the validity of a will or trust including, but not limited to, orders of the Orphans' Court following the grant or denial of probate by the Register of Wills are immediately appealable pursuant to the 2005 amendment of this rule. Prior to the 2005 amendment, the Superior Court often permitted an immediate appeal from such orders without determining the basis for an immediate appeal under the Rules of Appellate Procedure. See *Estate of Janosky*, 2003 Pa. Super. 230, 827 A.2d 512 (2003), and *Estate of Luongo*, 2003. 171, 823 A.2d 942 (2003). However, in *Estate of Schmitt*, 2004. 43, 846 A.2d 127 (2004), a panel of the Superior Court held that an order sustaining the Register's striking of a caveat was not immediately appealable as a final order under Pa.R.A.P. 341(b). In response to the *Schmitt* decision, the Appellate Court Procedural Rules Committee decided that while orders determining the validity of a will or trust are not strict final orders under Subdivision (b) of Rule 341, it is not practical to administer an estate or trust while there is a pending challenge to the validity of the instrument. Accordingly, a party seeking to probate an instrument, or to challenge the validity of an instrument, will be allowed to take an immediate interlocutory appeal as of right under Rule 311, and shall be bound by the waiver doctrine if such party does not file an immediate appeal. See the 2005 amendment to Subdivision (g) of this rule. ]

#### FINAL ORDERS

Rule 342. [ **Orphans' Court Orders Appealable. Orders Determining Realty, Personalty and Status of Individuals or Entities. Orders Making Distribution** ] (Rescinded).

[ An order of the Orphans' Court Division making a distribution, or determining an interest in realty or personalty or the status of individuals or entities shall be immediately appealable:

(1) upon a determination of finality by the Orphans' Court Division, or

(2) as otherwise provided by Chapter 3 of these rules.

**Official Note:** This rule was amended in 2001 to allow appeals from orders determining an interest in realty, personalty or status of individuals or entities, upon certification of the Orphans' Court judge. Prior to the 2001 amendment, this rule only permitted appeals from an order of distribution not final under Rule 341(b). The amendment to the rule was not intended to preclude immediate appeals in Orphans' Court matters as heretofore permitted under Rule 311 (Interlocutory Appeals as of Right) and Rule 313 (Collateral Orders).

However, Rule 342 may have been ambiguous in that regard because in *Estate of Sorber*, 2002 Pa. Super. 226, 803 A.2d 767 (2002), a panel of the Superior Court interpreted the 2001 amendment of Rule 342 to preclude immediate appeals from collateral orders unless determined to be final by the Orphans' Court judge. The holding in *Estate of Sorber*, to wit, that Rule 342 precludes collateral order appeals under Rule 313, is now superseded by the 2005 amendment to Rule 342.

The 2005 amendment provides that Rule 342 is not the exclusive means for appealing orders: (a) determining an interest in realty or personalty or the status of individuals or entities, or (b) making a distribution. An aggrieved party may appeal such orders under any other Rule in Chapter 3 of the Rules of Appellate Procedure to the extent that the order meets the requirements for appealability under any such rule. ]

#### Rule 342. Appealable Orphans' Court Orders.

(a) **General rule.** An appeal may be taken as of right from the following orders of the Orphans' Court Division:

(1) An order confirming an account, or authorizing or directing a distribution from an estate or trust;

(2) An order determining the validity of a will or trust;

(3) An order interpreting a will or a document that forms the basis of a claim against an estate or trust;

(4) An order interpreting, modifying, reforming or terminating a trust;

(5) An order determining the status of fiduciaries, beneficiaries, or creditors in an estate, trust, or guardianship;

(6) An order determining an interest in real or personal property;

(7) An order issued after an inheritance tax appeal has been taken to the Orphans' Court pursuant to either 72 Pa.C.S. § 9186(a)(3) or 72 Pa.C.S. § 9188, or after the Orphans' Court has made a determination of the issue protested after the record has been removed from the Department of Revenue pursuant to 72 Pa.C.S. § 9188(a); or

(8) An order otherwise appealable as provided by Chapter 3 of these rules.

(b) **Definitions.** As used in this rule:

(1) "estate" includes the estate of a decedent, minor, incapacitated person, or principal under Chapters 33, 35, 51, 55 and 56 of Title 20 of the Pennsylvania Consolidated Statutes ("Probate, Estates and Fiduciaries Code") ("PEF Code");

(2) "trust" includes inter vivos and testamentary trusts and the "custodial property" under Chapters 53 and 77 of the PEF Code; and

(3) "guardianship" includes guardians of the person for both minors and incapacitated persons under Chapters 51 and 55 of the PEF Code.

(c) **Waiver of objections.** Failure to appeal an order that is immediately appealable under paragraphs (a)(1)—(7) of this rule shall constitute a waiver of all objections to such order and such objections may not be raised in any subsequent appeal.

**Official Note:** In 1992, the Supreme Court amended Rule 341 to make clear that, as a general rule, a final order is an order that ends a case as to all claims and all parties. Because of this amendment, many Orphans' Court orders that may have been considered constructive final orders prior to 1992 became unappealable interlocutory orders. Although some Orphans' Court orders were construed by case law to be appealable as collateral orders, *see Estate of Petro*, 694 A.2d 627 (Pa. Super. 1997), the collateral order doctrine was neither consistently applied nor was it applicable to other Orphans' Court orders that previously had been considered final under the "final aspect" doctrine. *See, e.g. Estate of Habazin*, 679 A.2d 1293 (Pa. Super. 1996).

In response, the Supreme Court revised Rule 342 that initially permitted appeals from Orphans' Court orders concerning distribution even if the order was not considered final under the definition of Rule 341(b). In 2001, Rule 342 was amended to also allow appeals from orders determining an interest in realty or personalty or the status of individuals or entities, in addition to orders of distribution, if the Orphans' Court judge made a determination that the particular order should be treated as final. In 2005, the Supreme Court amended Rule 342 again, adding subdivision (2) to clarify that Rule 342 was not the exclusive method of appealing Orphans' Court orders.

Also, in 2005, the Supreme Court amended Rule 311 to provide for an interlocutory appeal as of right from an order determining the validity of a will or trust. *See former Rule 311(a)(8)*. Such an order needed to be immediately appealable and given finality so that the orderly administration of the estate or trust could proceed appropriately.

Since 2005, it has become apparent that other adversarial disputes arise during the administration of an estate, trust or guardianship, and that orders adjudicating these disputes also must be resolved with finality so that the ordinary and routine administration of the estate, trust or guard-

ianship can continue. See *Estate of Stricker*, 602 Pa. 54, 63-64, 977 A.2d 1115, 1120 (2009) (Saylor, J., concurring). Experience has proven that the determination of finality procedure in subdivision (1) of Rule 342 is not workable and has been applied inconsistently around the Commonwealth. See *id.* (citing *Commonwealth v. Castillo*, 585 Pa. 395, 401, 888 A.2d 775, 779 (2005) (rejecting the exercise of discretion in permitting appeals to proceed)).

Experience has also proven that it is difficult to analogize civil litigation to litigation arising in estate, trust and guardianship administration. The civil proceeding defines the scope of the dispute, but the administration of a trust or estate does not define the scope of the litigation in Orphans' Court. Administration of a trust or an estate continues over a period of time. Litigation in Orphans' Court may arise at some point during the administration, and when it does arise, the dispute needs to be determined promptly and with finality so that the guardianship or the estate or trust administration can then continue properly and orderly. Thus, the traditional notions of finality that are applicable in the context of ongoing civil adversarial proceedings do not correspond to litigation in Orphans' Court.

In order to facilitate orderly administration of estates, trusts and guardianships, the 2011 amendments list certain orders that will be immediately appealable without any requirement that the Orphans' Court make a determination of finality. Orders falling within subdivisions (a)(1)—(7) no longer require the lower court to make a determination of finality.

Subdivisions (a)(1)—(7) list orders that are unique to Orphans' Court practice, but closely resemble final orders as defined in Rule 341(b). Subdivision (a)(1) provides that the adjudication of any account, even an interim or partial account, is appealable. Previously, only the adjudication of the final account would have been appealable as a final order under Rule 341. The prior limitation has proven unworkable for estate administration taking years and trusts established for generations during which interim and partial accounts may be adjudicated and confirmed. The remainder of subdivision (a)(1) permits appeals from orders of distribution as Rule 342 always has permitted since its initial adoption. Subdivision (a)(2) is a new placement for orders determining the validity of a will or trust that previously were appealable as interlocutory appeals as of right following the 2005 amendment to Rule 311. See prior Rule 311(a)(8). Subdivision (a)(3) is a new provision that allows an immediate appeal from an order interpreting a will or other relevant document that forms the basis of a claim asserted against an estate or trust. Such orders can include, among other things, an order determining that a particular individual is or is not a beneficiary or determining if an underlying agreement executed by the decedent during life creates rights against the estate. Subdivision (a)(4) addresses trusts and is similar to subdivision (a)(3), but also permits immediate appeals from orders modifying, reforming or terminating a trust since such judicial actions are now permitted under 20 Pa.C.S. § 7740 et seq. Subdivision (a)(5) is intended to clarify prior Rule 342 in several respects: First, an appealable Orphans' Court order concerning the status of individuals or entities means an order

determining if an individual or entity is a fiduciary, beneficiary or creditor, such as an order determining if the alleged creditor has a valid claim against the estate. Second, such orders include orders pertaining to trusts and guardianships as well as estates. Finally, this subdivision resolves a conflict in prior appellate court decisions by stating definitively that an order removing or refusing to remove a fiduciary is an immediately appealable order. Subdivision (a)(6) retains the same language from prior Rule 342. Subdivision (a)(7) permits appeals of an Orphans' Court order concerning an inheritance tax appraisal, assessment, allowance or disallowance when such order is issued separately and not in conjunction with the adjudication of an account. Sections 9186 and 9188 of Chapter 72 provide three procedures, outside the context of an accounting, whereby either the personal representative or the Department of Revenue may bring before the Orphans' Court a dispute over inheritance taxes imposed. See also *Estate of Gail B. Jones*, 796 A.2d 1003 (Pa. Super. 2002) (analogizing a petition regarding the apportionment of inheritance taxes to a declaratory judgment petition given that an estate account had not yet been filed). A decision concerning inheritance taxes issued in conjunction with the adjudication of an account would be appealable under subdivision (a)(1).

In keeping with the 2005 amendment that added subdivision (2) to prior Rule 342, subdivision (a)(8) tracks subdivision (2) of former Rule 342. Subdivision (2) was adopted in response to *Estate of Sorber*, 2002 Pa. Super. 226, 803 A.2d 767 (2002), a panel decision holding that Rule 342 precluded immediate appeals from orders that would have otherwise been appealable as collateral orders under Rule 313 unless the Orphans' Court judge made a determination of finality under Rule 342. Subdivision (a)(8) makes clear that Rule 342, as amended, is still not the sole method of appealing an Orphans' Court order and an order not otherwise immediately appealable under Rule 342 may still be immediately appealable if it meets the criteria under another rule in Chapter 3 of these rules. Examples would include injunctions appealable under Rule 311(a)(4), Interlocutory Orders Appealable by Permission under Rules 312 and 1311, Collateral Orders appealable under Rule 313, and an order approving a final accounting which is a true final order under Rule 341. Whether or not such orders require certification or a further determination of finality by the trial court depends on the applicable rule in Chapter 3. Compare Rules 311(a)(4), 313 and 341(c) with Rules 312 and 1311.

Failure to appeal an order that is immediately appealable under subdivisions (a)(1)—(7) of this rule shall constitute a waiver of all objections to such order and may not be raised in any subsequent appeal. See Subdivision (c) of this Rule. The consequences of failing to appeal an Orphans' Court order under (a)(8) will depend on whether such order falls within Rules 311, 312, 313, 1311 or 341.

#### Explanatory Comment

Current Rule 223.1 governing the conduct of a jury trial does not contain a provision for the trial court to give the jury a written copy of the oral charge or instructions. With the recent adoption of amendments to Pa.R.Crim.P. 646, which permits a trial judge to allow the jury to have written copies of the judge's charge during deliberations, the Supreme Court has adopted a similar amendment to Rule 223.1. The amendment to subdivision (c)(4) will permit the trial court to provide the jury with a written

copy of the oral charge or instructions at the conclusion of evidence.

## TITLE 231. RULES OF CIVIL PROCEDURE

### PART I. GENERAL

#### CHAPTER 200. BUSINESS OF COURTS

(*Editor's Note:* Rules 220.1 and 220.2 are new and printed in regular type to enhance readability.)

#### Rule 220.1. Preliminary Instructions to Potential Jurors.

(a) For purposes of this rule, "prospective jurors" means those persons who have been chosen to be part of the panel from which the trial jurors and alternate jurors will be selected. "Selected jurors" means those members of the panel who have been selected to serve as trial jurors or alternate jurors.

(b) Persons selected for jury service, upon their arrival for this service, shall be instructed in their duties while serving as prospective jurors and selected jurors.

(c) At a minimum, the persons selected for jury service shall be instructed that until their service as prospective or selected jurors is concluded, they shall not:

(1) discuss any case in which they have been chosen as prospective jurors or selected jurors with others, including other jurors, except as otherwise authorized by the court;

(2) read or listen to any news reports about any such case;

(3) use a computer, cellular telephone, or other electronic device with communication capabilities while in attendance at trial or during deliberation. These devices may be used during breaks or recesses but may not be used to obtain or disclose information prohibited in subdivision (c)(4);

(4) use a computer, cellular telephone, or other electronic device with communication capabilities, or any other method, to obtain or disclose information about any case in which they have been chosen as prospective or selected jurors. Information about the case includes, but is not limited to, the following:

(i) information about a party, witness, attorney, judge, or court officer;

(ii) news accounts of the case;

(iii) information collected through juror research on any topics raised or testimony offered by any witness;

(iv) information collected through juror research on any other topic the juror might think would be helpful in deciding the case.

(d) These instructions shall be repeated:

(1) to the prospective jurors at the beginning of voir dire;

(2) to the selected jurors at the commencement of the trial;

(3) to the selected jurors prior to deliberations; and

(4) to the selected jurors during trial as the trial judge deems appropriate.

**Official Note:** For comprehensive jury instructions on the use of electronic devices by jurors in civil cases, see Section 1.180 of the Pennsylvania Suggested Civil Jury Instructions, Pa. SSJI (Civ), § 1.180.

For guidance regarding the use of electronic devices in the courtroom by persons other than jurors, see Canon 3A(7) of the Code of Judicial Conduct.

#### Rule 220.2. Sanctions for Use of Prohibited Communication Devices.

Any individual who violates the provisions of Rule 220.1 regarding the use of electronic devices by jurors or who violates any reasonable limitation imposed by local rule or by the trial judge regarding the prohibited use of electronic devices during court proceedings:

(a) may be found in contempt of court and sanctioned in accordance with 42 Pa.C.S. § 4132 et seq., and

(b) may be subject to sanctions deemed appropriate by the trial judge, including, but not limited to, the confiscation of the electronic device that is used in violation of this rule.

#### Rule [ 220.1 ] 220.3. Voir Dire.

(a) **Prospective jurors shall be instructed on their duties and restrictions while serving as jurors, including those provided in Rule 220.1.**

(b) Voir dire shall be conducted to provide the opportunity to obtain at a minimum a full description of the following information, where relevant, concerning the prospective jurors and their households:

\* \* \* \* \*

(16) **Ability to refrain from using a computer, cellular telephone or other electronic device with communication capabilities in violation of the provisions of Rule 220.1; and**

(17) Such other pertinent information as may be appropriate to the particular case to achieve a competent, fair and impartial jury.

**Official Note:** For example, under presently prevailing law as established by the Superior Court, *voir dire* should have been allowed with respect to the effect of pre-trial publicity on prospective jurors' "attitudes regarding medical malpractice and tort reform." *Capoferri v. Children's Hosp. of Phila.*, 893 A.2d 133 (Pa. Super. 2006) (en banc).

[ (b) ] (c) The court may provide for voir dire to include the use of a written questionnaire. However, the use of a written questionnaire without the opportunity for oral examination by the court or counsel is not a sufficient voir dire.

**Official Note:** The parties or their attorneys may conduct the examination of the prospective jurors unless the court itself conducts the examination or otherwise directs that the examination be conducted by a court employee. Any dispute shall be resolved by the court.

A written questionnaire may be used to facilitate and expedite the voir dire examination by providing the trial judge and attorneys with basic background information about the jurors, thereby eliminating the need for many commonly asked questions.

**[(c)] (d)** The court may permit all or part of the examination of a juror out of the presence of other jurors.

**Rule 223.1. Conduct of the Trial. Trial by Jury.**

**(a) The trial judge shall give instructions to the jury before the taking of evidence as provided in Rule 220.1.**

**(b)** In conducting a trial by jury, the court may use one or more of the procedures provided in subdivisions **[(b) and ] (c) and (d)** as may be appropriate in the particular case.

**Official Note:** This rule catalogs certain procedures which may be utilized in the conduct of a jury trial. Since the court has broad power and discretion in the manner in which it conducts a jury trial, it is not intended that this rule be construed as enlarging, restricting or in any way affecting that power and discretion.

See Rule 223.2 for juror note taking in civil cases.

**[(b)] (c)** The court may permit jurors to view a premises or a thing in or on a premises.

**Official Note:** See Rule 219 governing view of premises.

**[(c)] (d)** The court may

**Explanatory Comment**

The Civil Procedural Rules Committee is proposing new Rules 220.1 and 220.2 and the amendment of current Rules 220.1 and 223.1. The proposed changes are intended to provide guidance to the bench and bar regarding the use of electronic devices by jurors in civil cases.

The proposed rules and amendments provide for jurors to be instructed that the use of electronic devices is restricted during their tenure as a prospective juror, *i.e.* a member of the jury pool, and as a selected juror. The proposal would require the trial court to instruct jurors that they may not conduct independent research on the Internet about the case, communicate about the case electronically, *e.g.* “tweeting” or “blogging,” or use such devices during juror deliberations. The proposal provides for the trial court to instruct jurors at the earliest opportunity of interaction between the juror and the trial court, and then be repeated as often as practicable. The proposal also provides for sanctions against any person who violates the provisions of these rules. It should also be noted that a note to new Rule 220.1 cross-references Section 1.180 of the Pennsylvania Suggested Civil Jury Instructions, Pa. SSJI (Civ), § 1.180. These instructions specifically address the use of electronic devices by juror.

While the proposal focuses on the use of electronic devices by jurors, it remains silent as to their use in the courtroom by the public and media. Canon 3A(7) of the Code of Judicial Conduct outlines the responsibility of a trial court regarding the broadcasting, televising, or

taking of photographs in the courtroom in civil proceedings.

(2) If an agreement for support is reached at the conference, the officer shall prepare a written order substantially in the form set forth in Rule 1910.27(e) and in conformity with the agreement for signature by the parties and submission to the court together with the officer’s recommendation for approval or disapproval. The court may enter the order in accordance with the agreement without hearing the parties.

(3) **In all cases in which one or both parties are unrepresented, the parties must provide income information to the domestic relations section so that a guidelines calculation can be performed.**

(4) **In cases in which both parties are represented by counsel, the parties shall not be obligated to provide income information and the domestic relations section shall not be required to perform a guidelines calculation if the parties have reached an agreement about the amount of support and the amount of contribution to additional expenses.**

\* \* \* \* \*

### Explanatory Comment—2011

The rule has been amended to require that income information be provided in all cases, unless both parties are represented in reaching an agreement, so that a guidelines calculation can be performed. The guidelines create a rebuttable presumption that the amount calculated pursuant to them is the correct amount, so there should be a calculation in every case. If parties agree to receive or to pay an order other than the guideline amount, they should know what that amount is so that they can enter an agreement knowingly. If both parties are represented by counsel, it is assumed that their entry into the agreement for an amount other than a guidelines amount is knowing as it is counsel's responsibility to advise the parties. In addition, part of the mandatory quadrennial review of the support guidelines mandates a study of the number of cases in which the support amount ordered varies from the amount that would result from a guidelines calculation. Federal regulations presume that if a large percentage of cases vary from the guideline amount, then the guidelines are not uniform statewide.

**Rule 626. Preliminary Instructions to Prospective Jurors.**

(A) For purposes of this rule, the term “prospective jurors” means those persons who have been chosen to be part of the panel from which the trial jurors and alternate jurors will be selected. The term “selected jurors” means those members of the panel who have been selected to serve as trial jurors or alternate jurors.

(B) Persons selected for jury service, upon their arrival for this service, shall be instructed in their duties while serving as prospective jurors and selected jurors.

(C) At a minimum, the persons selected for jury service shall be instructed that until their service as prospective or selected jurors is concluded, they shall not:

(1) discuss any case in which they have been chosen as prospective jurors or selected jurors with others, including other jurors, except as instructed by the court;

(2) read or listen to any news reports about any such case;

(3) use a computer, cellular phone, or other electronic device with communication capabilities while in attendance at trial or during deliberation. These devices may be used during breaks or recesses but may never be used to obtain or disclose information prohibited in paragraph (C)(4);

(4) use a computer, cellular phone, or other electronic device with communication capabilities, or any other method, to obtain or disclose any information about any case in which they have been chosen as prospective or selected jurors. Information about the case includes, but is not limited to, the following:

(i) information about a party, witness, attorney, judge, or court officer;

(ii) news accounts of the case;

(iii) information on any topics raised or testimony offered by any witness;

(iv) information on any other topic the juror might think would be helpful in deciding the case.

(D) These instructions shall be repeated:

(1) to the prospective jurors at the beginning of *voir dire*;

(2) to the selected jurors at the commencement of the trial;

(3) to the selected jurors prior to deliberations; and

(4) to the selected jurors during trial as the trial judge deems appropriate.

#### Comment

This rule was adopted in 2011 in recognition of the fact that the proliferation of personal communications devices has provided individuals with an unprecedented level of access to information. This access has the potential for abuse by prospective jurors who might be tempted to perform research about a case for which they may be selected. Therefore, the rule requires that prospective jurors be instructed at the earliest possible stage as to their duty to rely solely on information presented in a case and to refrain from discussion about the case, either in person or electronically.

It is recommended that the juror summons also contain the language.

It also is recommended, as an additional means of ensuring adherence, that the judge explain to the prospective jurors the reason for these restrictions. This explanation should include a statement that, in order for the jury system to work as intended, absolute impartiality on the part of the jurors is necessary. Such impartiality is achieved by restricting the information upon which the jurors will base their decision to that which is presented in court.

#### Rule 627. Sanctions for Use of Prohibited Communications Devices.

Any individual who violates the provisions of Rule 112(A) prohibiting recording or broadcasting during a judicial proceeding or who violates the provisions of Rule 626 regarding the use of electronic devices by jurors or who violates any reasonable limitation imposed by a local rule or by the trial judge regarding the prohibited use of electronic devices during court proceedings:

(1) may be found in contempt of court and sanctioned in accordance with 42 Pa.C.S. § 4132 *et seq.*; and

(2) may be subject to sanctions deemed appropriate by the trial judge, including, but not limited to, the confiscation of the electronic device that is used in violation of these rules.

#### Comment

This rule was adopted in 2011 to make clear that in addition to the penalties for contempt that may be

imposed upon an individual who violates these rules or a court-imposed restriction on the use of electronic devices during court proceedings, such devices may be temporarily or permanently confiscated by the court.

#### PART C(1). Impaneling Jury

#### Rule 631. Examination and Challenges of Trial Jurors.

(A) *Voir dire* of prospective trial jurors and prospective alternate jurors shall be conducted, and the jurors shall be selected, in the presence of a judge, unless the judge's presence is waived by the attorney for the Commonwealth, the defense attorney, and the defendant, with the judge's consent.

(B) This oath shall be administered **by the judge** individually or collectively to the prospective jurors:

"You do solemnly swear by Almighty God (or do declare and affirm) that you will answer truthfully all questions that may be put to you concerning your qualifications for service as a juror."

(C) **Upon completion of the oath, the judge shall instruct the prospective jurors upon their duties and restrictions while serving as jurors, including those provided in Rule 626(C).**

(D) *Voir dire*, including the judge's ruling on all proposed questions, shall be recorded in full unless the recording is waived. The record will be transcribed only upon written request of either party or order of the judge.

[ (D) ] (E) Prior to *voir dire*, each prospective juror shall complete the standard, confidential juror information questionnaire as provided in Rule 632. The judge may require the parties to submit in writing a list of proposed questions to be asked of the jurors regarding their qualifications. The judge may permit the defense and the prosecution to conduct the examination of prospective jurors or the judge may conduct the examination. In the latter event, the judge shall permit the defense and the prosecution to supplement the examination by such further inquiry as the judge deems proper.

[ (E) ] (F) In capital cases, the individual *voir dire* method must be used, unless the defendant waives that alternative. In non-capital cases, the trial judge shall select one of the following alternative methods of *voir dire*, which shall apply to the selection of both jurors and alternates:

(1) INDIVIDUAL *VOIR DIRE* AND CHALLENGE SYSTEM.

(a) *Voir dire* of prospective jurors shall be conducted individually and may be conducted beyond the hearing and presence of other jurors.

(b) Challenges, both peremptory and for cause, shall be exercised alternately, beginning with the attorney for the Commonwealth, until all jurors are chosen. Challenges shall be exercised immediately after the prospective juror is examined. Once accepted by all parties, a prospective juror shall not be removed by peremptory challenge. Without declaring a mistrial, a judge may allow a challenge for cause at any time before the jury begins to deliberate, provided sufficient alternates have been se-

lected, or the defendant consents to be tried by a jury of fewer than 12, pursuant to Rule 641.

(2) LIST SYSTEM OF CHALLENGES.

(a) A list of prospective jurors shall be prepared. The list shall contain a sufficient number of prospective jurors to total at least 12, plus the number of alternates to be selected, plus the total number of peremptory challenges (including alternates).

(b) Prospective jurors may be examined collectively or individually regarding their qualifications. If the jurors are examined individually, the examination may be conducted beyond the hearing and presence of other jurors.

(c) Challenges for cause shall be exercised orally as soon as the cause is determined.

(d) When a challenge for cause has been sustained, which brings the total number on the list below the number of 12 plus alternates, plus peremptory challenges (including alternates), additional prospective jurors shall be added to the list.

(e) Each prospective juror subsequently added to the list may be examined as set forth in paragraph [ (E)(2)(b) ] (F)(2)(b).

(f) When the examination has been completed and all challenges for cause have been exercised, peremptory challenges shall then be exercised by passing the list between prosecution and defense, with the prosecution first striking the name of a prospective juror, followed by the defense, and alternating thereafter until all peremptory challenges have been exhausted. If either party fails to exhaust all peremptory challenges, the jurors last listed shall be stricken. The remaining jurors and alternates shall be seated. No one shall disclose which party peremptorily struck any juror.

**Comment**

This rule applies to all cases, regardless of potential sentence. Formerly there were separate rules for capital and non-capital cases.

If Alternative [ (E)(1) ] (F)(1) is used, examination continues until all peremptory challenges are exhausted or until 12 jurors and 2 alternates are accepted. Challenges must be exercised immediately after the prospective juror is questioned. In capital cases, only Alternative [ (E)(1) ] (F)(1) may be used unless affirmatively waived by all defendants and the Commonwealth, with the approval of the trial judge.

If Alternative [ (E)(2) ] (F)(2) is used, sufficient jurors are assembled to total 12, plus the number of alternates, plus at least the permitted number of peremptory challenges (including alternates). It may be advisable to assemble additional jurors to encompass challenges for cause. Prospective jurors may be questioned individually, out of the presence of other prospective jurors, as in Alternative [ (E)(1) ] (F)(1); or prospective jurors may be questioned in the presence of each other. Jurors may be challenged only for cause, as the cause arises. If the challenges for cause reduce the number of prospective jurors below 12, plus alternates, plus peremptory challenges (including alternates), new prospective jurors are called and they are similarly examined. When the examination is completed, the list is reduced, leaving only 12 jurors to be selected, plus the number of peremptories to be exercised; and sufficient additional names to total the number of alternates, plus the peremptories to be exercised in selecting alternates. The parties then exercise the

peremptory challenges by passing the list back and forth and by striking names from the list alternately, beginning with counsel for the prosecution. Under this system, all peremptory challenges must be utilized. Alternates are selected from the remaining names in the same manner. Jurors are not advised by whom each peremptory challenge was exercised. Also, under Alternative [ (E)(2) ] (F)(2), prospective jurors will not know whether they have been chosen until the challenging process is complete and the roll is called.

This rule requires that prospective jurors be sworn before questioning under either Alternative.

The words in parentheses in the oath shall be inserted when any of the prospective jurors chooses to affirm rather than swear to the oath.

Unless the judge's presence during *voir dire* and the jury selection process is waived pursuant to paragraph (A), the judge must be present in the jury selection room during *voir dire* and the jury selection process.

Pursuant to paragraph [ (D) ] (E), which was amended in 1998, and Rule 632, prospective jurors are required to complete the standard, confidential juror information questionnaire prior to *voir dire*. This questionnaire, which facilitates and expedites *voir dire*, provides the judge and attorneys with basic background information about the jurors, and is intended to be used as an aid in the oral examination of the jurors.

The point in time prior to *voir dire* that the questionnaires are to be completed is left to the discretion of the local officials. Nothing in this rule is intended to require that the information questionnaires be mailed to jurors before they appear in court pursuant to a jury summons.

See Rule 103 for definitions of "capital case" and "*voir dire*."

**PART C(2). Conduct of Jury Trial**

**Rule 647. Request for Instructions, Charge to the Jury, and Preliminary Instructions.**

(A) Any party may submit to the trial judge written requests for instructions to the jury. Such requests shall be submitted within a reasonable time before the closing arguments, and at the same time copies thereof shall be furnished to the other parties. Before closing arguments, the trial judge shall inform the parties on the record of the judge's rulings on all written requests and which instructions shall be submitted to the jury in writing. The trial judge shall charge the jury after the arguments are completed.

(B) No portions of the charge nor omissions from the charge may be assigned as error, unless specific objections are made thereto before the jury retires to deliberate. All such objections shall be made beyond the hearing of the jury.

(C) After the jury has retired to consider its verdict, additional or correctional instructions may be given by the trial judge in the presence of all parties, except that the defendant's absence without cause shall not preclude proceeding, as provided in Rule 602.

**(D) The trial judge shall give instructions to the jurors as provided in Rule 626 before the taking of evidence.**

(E) The trial judge may give **any other** instructions to the jury before the taking of evidence or at anytime during the trial as the judge deems necessary and appropriate for the jury's guidance in hearing the case.

**Comment**

Paragraph (A), amended in 1985, parallels the procedures in many other jurisdictions which require that the trial judge rule on the parties' written requests for instructions before closing arguments, that the rulings are on the record, and that the judge charge the jury after the closing arguments. *See, e.g.*, Fed.R.Crim.P. 30; ABA Standards on Trial by Jury, Standard 15-3.6(a); Uniform Rule of Criminal Procedure 523(b).

Pursuant to Rule 646 (Material Permitted in Possession of the Jury), the judge must determine whether to provide the members of the jury with written copies of the portion of the judge's charge on the elements of the offenses, lesser included offenses, and any defense upon which the jury has been instructed for use during deliberations.

**Paragraph (D) was added in 2011 to require trial judges to instruct jurors that they are prohibited from using computers or cell phones at trial or during deliberation, and are prohibited from using a computer or other electronic device or any other method to obtain or disclose information about the case when they are not in the courtroom. The amendment prohibits jurors from reading about or listening to news reports about the case and prohibits discussion among jurors until deliberation.**

Paragraph [ (D) ] (E), added in 1985, recognizes the value of jury instructions to juror comprehension of the trial process. It is intended that the trial judge determine on a case by case basis whether instructions before the taking of evidence or at anytime during trial are appro-

priate or necessary to assist the jury in hearing the case. The judge should determine what instructions to give based on the particular case, but at a minimum the preliminary instructions should orient the jurors to the trial procedures and to their duties and function as jurors. In addition, it is suggested that the instructions may include such points as note taking, the elements of the crime charged, presumption of innocence, burden of proof, and credibility. Furthermore, if a specific defense is raised by evidence presented during trial, the judge may want to instruct on the elements of the defense immediately after it is presented to enable the jury to properly evaluate the specific defense. *See also* Pennsylvania Suggested Standard Criminal Jury Instructions, Chapter II.

**It is also strongly recommended that the trial judge include general instructions on the appropriate procedures to be followed during deliberations.**

**Personal Communications Devices in the Courtroom**

*I. Introduction*

The Committee, in conjunction with the Civil Procedural Rules Committee, is planning to recommend that the Supreme Court of Pennsylvania adopt new Rules 626 (Preliminary Instructions to Prospective Jurors) and 627 (Sanctions for Use of Prohibited Communications Devices), amend Rules 631 (Examination and Challenges of Trial Jurors), and 647 (Request for Instructions, Charge to the Jury, and Preliminary Instructions), and renumber Rule 630 (Juror Qualification Form, Lists of Trial Jurors, and Challenge to the Array) to provide for instructions to

prospective and selected jurors concerning the use of personal communications devices during their service. The proposal also amends Rule 112 (Publicity, Broadcasting, and Recording of Proceedings) to clarify that the prohibition against broadcasting from the courtroom includes the use of cellphones and other similar electronic communications devices.<sup>1</sup>

## II. Background

The increased use of personal communications devices, often with internet access, such as the iPhone and iPad, has raised new issues regarding their use in the courtroom. In July 2010, the Chief Justice wrote to the chairs of the Civil Procedural Rules Committee and the Criminal Procedural Rules Committee, noting a complaint received from a common pleas court judge of the problems arising from jurors' inappropriate use of electronic devices during their service as jurors. The Chief Justice requested both Committees consider whether any rule changes are warranted to address these problems.

Additionally, the Committees received reports of other problems arising from the use of these devices during trial. The most challenging of these arose from the proliferation in the use of the devices accessing social media, such as microblogs like Twitter, that encourage the posting of "real-time" commentary, by audience members including members of the press and even trial participants.

Finally, recent cases have raised issues of the use of these devices by audience members for purposes of witness intimidation, such as the taking of witness photographs or posting of witness information on the internet to encourage fear of retaliation.

As a result, a Joint Subcommittee of the Civil and Criminal Rules Committees was formed to examine the issues that have arisen and determine if any procedural rules changes are needed to address these issues.<sup>2</sup> The Joint Subcommittee examined two aspects of this issue: (1) use of this technology by jurors; and (2) use by others. As described in more detail below, the Subcommittee recommended certain rules changes to address both of these areas. Both Committees approved the recommendations of the Joint Subcommittee for this joint publication.

## III. Use of Personal Communications Devices by Jurors

The problems that arise with juror use of these devices are two-fold. The first danger is that a juror will use the device to conduct independent research during a trial. The second problem is the use of these devices to communicate with parties outside the courtroom, either by revealing the nature of the deliberations or other information that a juror should not divulge.

The Committees concluded that the best way to approach to this problem is through specially tailored jury instructions. Specific warnings should be provided to the prospective and selected jurors at the earliest possible stage of their interaction with the court with frequent repetitions. These warnings would prohibit conducting independent research and discussion of the case outside the deliberation room generally but also would contain specific warnings against the use of the Internet by means of cell phone or other electronic device for these prohibited activities.

<sup>1</sup> The Civil Procedural Rules Committee proposal would create new Civil Rules 220.1 and 220.2, amend and renumber current Civil Rule 220.1, and amend current Civil Rule 223.1.

<sup>2</sup> The Joint Subcommittee was comprised of representatives from both Committees and included a common pleas judge, two prosecutors, and several private practitioners.

Originally, the Subcommittee considered a simple elaboration in the juror instruction rules. However, given the ease of access to information that these devices provide, waiting until a juror is actually seated may be too late in the process. This conclusion was coupled with anecdotal reports that some jurors found to have misused these devices, when confronted, expressed surprise that a ban on outside information included "looking things up on the Internet." The Subcommittee therefore concluded that intervention, in the form of clear instructions, should be at the earliest stage possible.

The Committees agreed with this approach and are proposing rules to provide that prospective jurors be advised upon their first interaction with the courts with frequent repetition concerning the prohibited activity. This would include initial instructions when they first arrive as prospective jurors together with instructions on the juror summons itself. These instructions would be reiterated when they are selected as part of a jury "pool" and finally when they are impaneled jurors. There would also be encouragement to the trial judge to issue warnings at recesses to reinforce the restrictions.

The restriction on jurors would include a ban on the use of communications devices during court proceedings and in the deliberation room as well as specific instructions not to conduct research on the Internet.

Under this proposal, the most logical placement for new criminal rules would be in Chapter 6, Part C, Jury Procedures. In order to provide for sufficient room for the new rules, existing Rule 630 would be renumbered as Rule 625 and the new rules placed after it.

The major substantive provisions of this proposal would be included in a new criminal rule, Rule 626, that would describe the type of initial instructions to be given upon a prospective juror's first interaction with the courts and thereafter. Correlative amendments to Criminal Rule 631 would require that these warning would be repeated at the beginning of *voir dire* and amendments to Criminal Rule 647 would require the warnings to be repeated at the start of trial.<sup>3</sup>

## IV. Use of Personal Communications Devices by Others

The other aspect of this proposal is intended to address the use of personal communications devices by other participants in the trial or by members of the audience including members of the press.

As noted above, the Committees have received reports of the use of personal communications devices to broadcast messages from the courtroom during proceedings. The press has increasingly sought to use these new technologies, especially for microblogs such as "Twitter," to provide continuous, simultaneous reports while a court proceeding is in progress.

Even though this type of activity would seem to fall within the Rule 112 prohibition on broadcasting, there has been considered confusion and a divergence among several counties. For example, Westmoreland County forbids "tweeting" from the courtroom in criminal cases as a violation of Criminal Rule 112's prohibition of broadcasting during judicial proceedings while a Dauphin County trial judge permitted reporters' "tweeting" during

<sup>3</sup> As described in more detail in the companion publication report from the Civil Rules Committee, there would also be changes to the Civil Rules that require similar instructions to be provided civil jurors and are meant to mirror the proposed Criminal Rules.

a public corruption trial. Most recently, two orders from Centre and Dauphin County permitted texting and “tweeting” from the preliminary hearings arising a child sexual abuse case.

There have been cases in other jurisdictions in which judges had “tweeted” during certain proceedings that resulted in challenges being raised because of the alleged prejudice demonstrated by the “tweets.” There also are reports of parties to cases “tweeting” during the trial.

Far less benign is the use of these devices by audience members for the purpose of intimidating witnesses. Reported use of cameras on cell phones to record a witness as well as the posting of other identifying information has become a problem. While this occurs most frequently in criminal cases, there is a potential for it to occur in the civil context such as in a domestic relations case.

The Criminal Rules Committee understands, appreciates, and is supportive of the constitutional imperative of having court proceedings open to the public. However, a balance must be struck between the public’s right to observe and be informed of court proceedings and the equally important rights of the participants in the proceedings as well as the orderly administration of justice.

The original ban on broadcasting from court proceedings, presently contained in Rule 112, was established in then-Rules 27 and 328 as part of the original promulgation of the Rules of Criminal Procedure. Among the concerns that prompted the development of this restriction were the disruptive effect that broadcasting would have on the proceedings, the potential for biasing jurors, the potential to influence witness testimony, the possibility of “grandstanding” by the trial judge and/or other participants, and the threat to dignity and decorum of the process of justice in which individuals’ liberty and even life are in the balance.<sup>4</sup>

The Committee is aware that the trend in the United States has been to allow a wide scope of broadcasting of court proceedings. Observation of recent experiences from jurisdictions where broadcasting, in a variety of forms, was permitted has not diminished the concerns that led to Rule 112 and its predecessors.

The Committee examined with particularity whether the use of the new technology falls within the existing language of Rule 112. Rule 112 currently prohibits “the transmission of communications by telephone, radio, tele-

<sup>4</sup> This is consistent with Canon 3.7 of the *Pennsylvania Code of Judicial Conduct* that states:

(7) Unless otherwise provided by the Supreme Court of Pennsylvania, judges should prohibit broadcasting, televising, recording or taking photographs in the courtroom and areas immediately adjacent thereto during sessions of court or recesses between sessions, except that a judge may authorize:

(a) the use of electronic or photographic means for the presentation of evidence, for the perpetuation of a record or for other purposes of judicial administration;

(b) the broadcasting, televising, recording, or photographing of investitive, ceremonial, or naturalization proceedings;

(c) the photographic or electronic recording and reproduction of appropriate court proceedings under the following conditions:

(i) the means of recording will not distract participants or impair the dignity of the proceedings; and

(ii) the parties have consented; and the consent to being depicted or recorded has been obtained from each witness appearing in the recording and reproductions; and

(iii) the reproduction will not be exhibited until after the proceeding has been concluded and all direct appeals have been exhausted; and

(iv) the reproduction will be exhibited only for instructional purposes in educational institutions.

(d) the use of electronic broadcasting, televising, recording and taking photographs in the courtroom and areas immediately adjacent thereto during sessions of court or recesses between sessions of any trial court nonjury civil proceeding, however, for the purposes of this subsection ‘civil proceedings’ shall not be construed to mean a support, custody or divorce proceeding. Subsection (iii) and (iv) shall not apply to nonjury civil proceedings as heretofore defined. No witness or party who expresses any prior objection to the judge shall be photographed nor shall the testimony of such witness or party be broadcast or telecast. Permission for the broadcasting, televising, recording and photographing of any civil nonjury proceeding shall have first been expressly granted by the judge, and under such conditions as the judge may prescribe in accordance with the guidelines contained in this Order.

vision, or advanced communications technology.” The term “advance communications technology”<sup>5</sup> was added to Rule 112 in 2002 in an attempt to anticipate new developments in technology and is defined in Rule 103 as:

... any communication equipment that is used as a link between parties in physically separate locations, and includes, but is not limited to: systems providing for two-way simultaneous communication of image and sound; closed-circuit television; telephone and facsimile equipment; and electronic mail.

The Committee concluded that there is no other interpretation than that the use of personal communications devices during court proceedings falls within the existing language of Rule 112. The Committee believes that any interpretation that excludes technology such as “tweeting” or other microblogging or other similar technology from Rule 112’s prohibition of broadcasting is a misinterpretation.

The Joint Subcommittee and the Criminal Rules Committee also examined the arguments that have been raised in favor of the allowing the use of this new form of technology as an exception to the general ban on broadcasting. It has been argued that this technology is qualitatively different from traditional broadcasting, being less disruptive or intrusive in effect.

The Committee rejected this argument, noting that there are other reasons for the ban on broadcasting, including fair trial and privacy concerns. Furthermore, an exception for this particular form of technology would undermine the clear delineation currently existing in Rule 112 while being difficult to police against abuse.

Therefore, the Committee is proposing that an amendment should be added to Criminal Rule 112 clarifying that “broadcasting” includes the use of personal communications devices and activities such as texting and “tweeting” would fall within its prohibition.<sup>6</sup>

As stated in the Comment, Rule 112 is not intended to prohibit the use of advanced communications technology for purposes of conducting court proceedings. The Committee did not want to restrict the use of this technology by attorneys who were trying cases in courtrooms that accommodated these technologies, for example to obtain information while examining witnesses or during the *voir dire* of jurors. This concept would be added as new paragraph (B) to Rule 112.

Finally, included in the Rule 112 Comment would be a clarification that the prohibition on broadcasting would not include the use of cameras or other devices for security purposes.

## V. Sanctions

Another area that the Committees considered was what types of sanctions would be available against those who violate this rule, both jurors and others. It was concluded that the most likely enforcement mechanism would be the contempt of court process with the associated sanctions. However, the Committees wanted to make it clear that

<sup>5</sup> It should be noted that the Criminal Rules make a distinction between “advanced communication technology” and “two-way audio-visual communication.” The first term is a much broader in scope while the latter term is used more specifically and usually in the context of a defendant’s participation in court proceedings from a remote location.

<sup>6</sup> In the companion publication report from the Civil Rules Committee, there is no equivalent to the proposed amendments to Criminal Rule 112. That is because the Civil Rules were amended in 1975 to remove the civil equivalent of Rule 112. The reason for its removal at that time was the conclusion that the prohibition was already covered in the Judicial Canon 3.7 and the Civil Rule unnecessary.

the judge has power to confiscate a device that was used to violate the restrictions. Accordingly, the Criminal Rules Committee is proposing new Criminal Rule 627 to authorize the judge to hold someone in contempt for violation of the rules and to confiscate a device that is used to violate the rules.<sup>7</sup>

#### [ 40 PA. CODE CH. 3 ]

#### Casino Exception

The Liquor Control Board (Board), under the authority of section 207(i) of the Liquor Code (code) (47 P.S. § 2-207(i)), amends Chapter 3 (relating to license applications).

#### Summary

While there is currently not a liquor license specifically designed for casinos or racetrack entities, 4 Pa.C.S. Part II (relating to Pennsylvania Race Horse Development and Gaming Act) (Gaming Act) and the code both contemplate the sale of alcohol at locations licensed by both the Board and the Pennsylvania Gaming Control Board (Gaming). For example, section 493(24)(ii) of the code (47 P.S. § 4-493(24)(ii)) allows the holder of both a license issued by the Board and a license issued by Gaming to provide free alcohol to individuals actively engaged in playing a slot machine. Similarly, 4 Pa.C.S. § 1521(b.1) (relating to liquor licenses at licensed facilities) modifies the code's penalty provisions for entities that hold both casino and liquor licenses.

Certain businesses which are licensed by both the Board and Gaming intend to maintain their liquor license and their gaming license in different subsidiaries of a parent company for various business reasons. Currently, § 3.52(c) (relating to connection with other business) allows both businesses to be conducted by the same entity, subject to the Board's review and approval. Section 3.52(b) also allows a licensed business to have an interior connection to another business, even if the other business is conducted by an unrelated party. However, § 3.52 does not allow separate businesses to be conducted on the licensed premises by separate legal entities, even if the two separate entities are under the common ownership of a parent company. Section 3.52 is being amended to reflect this business practice among entities that hold licenses issued by both the Board and Gaming.

#### Resubmission

The Board submitted an amendment to § 3.52. The regulation was disapproved at the October 20, 2011, meeting of the Independent Regulatory Review Commission (IRRC). In disapproving the final-omitted rulemaking, IRRC found that certain terms used in § 3.52(a) were ambiguous and lacked clarity. Specifically, IRRC was concerned regarding the use of the term "person," which is defined differently in the code and 4 Pa.C.S. § 1103 (relating to definitions), and the use of the phrase "under common control," which is not defined in the code or the Board's existing regulations.

Under 1 Pa. Code § 311.2(a)(2) (relating to response by an agency to Commission disapproval), the Board revised the regulation to respond to IRRC's objections. Specifically, the Board deleted the originally submitted new language in its entirety, which included the ambiguous terms. In its place, the Board added a sentence which provides that, if a premises is, in whole or in part, licensed by Gaming, a Board licensee may allow the holder of a slot machine license to operate on its licensed premises.

#### Affected Parties

There are currently ten casinos licensed by Gaming that would benefit from this final-omitted rulemaking. The Board has informed Gaming of the final-omitted rulemaking.

#### Paperwork Requirements

This final-omitted rulemaking is not expected to affect legal, accounting or consulting procedures and should not require additional reporting, recordkeeping or other paperwork.

#### Fiscal Impact

This final-omitted rulemaking is not expected to have fiscal impact on the regulated community or State and local governments.

#### Effective Date

This final-omitted rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

#### Contact Person

Further information is available by contacting Rodrigo Diaz, Executive Deputy Chief Counsel, or Christopher L. Herrington, Deputy Chief Counsel, Office of Chief Counsel, Liquor Control Board, Room 401, Northwest Office Building, Harrisburg, PA 17124.

#### Regulatory Review

Under section 7(c) of the Regulatory Review Act (71 P.S. § 745.7(c)), on November 28, 2011, the Board submitted a copy of this revised final-omitted rulemaking and a copy of a Regulatory Analysis Form to IRRC and to the Chairpersons of the House and Senate Liquor Control Committees. On the same date, the final-omitted rulemaking was submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P.S. §§ 732-101—732-506). A copy of this material is available to the public upon request.

Under section 7(d) of the Regulatory Review Act, on December 14, 2011, this final-form rulemaking was deemed approved by the House and Senate Committees. Under section 7(c.1) of the Regulatory Review Act, IRRC met on December 15, 2011, and approved the final-omitted rulemaking.

#### Order

The Board, acting under authorizing statute, orders that:

(a) The regulations of the Board, 40 Pa. Code Chapter 3, are amended by amending § 3.52 to read as set forth in Annex A.

(b) The Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(c) This order shall become effective upon publication in the *Pennsylvania Bulletin*.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

### PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

## **AIR QUALITY**

### **PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS**

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

**18-00005D: Dominion Transmission, Inc.** (445 West Main St., Clarksburg, WV 26301) has submitted an application (No. 18-00005D) to the Pennsylvania Department of Environmental Protection for plan approval to construct and operate a 16,000 brake-horsepower (bhp) natural gas-fired turbine/compressor engine, a 690 bhp natural gas-fired emergency generator, a 4.2 million Btu per hour boiler and a 2.5 million Btu per hour boiler at their Finnefrock Compressor Station located in Leidy Township, **Clinton County**. The respective facility is a major facility for which a Title V operating permit 18-00005 has been issued.

The Department's review of the information submitted by Dominion Transmission, Inc. indicates that the engines and boilers will meet all applicable air quality regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including the Best Available Technology requirements of 25 Pa. Code §§ 127.1 and 127.12. The turbine/compressor engine will meet the requirements of Subpart KKKK of the New Source Performance Standards for Stationary Combustion Turbine Engines, 40 CFR Sections 60.4300 through 60.4420. The emergency generator engine will meet the requirements of Subpart ZZZZ of the National Emission Standards for Hazardous Air Pollutants for Source Categories, 40 CFR Sections 63.6580—63.6675 and Subpart JJJJ of the New Source Performance Standards for Stationary Spark ignition Internal Combustion Engines, 40 CFR Sections 60.4230 through 60.4248. The Based on these findings, the Department intends to approve the application and issue plan approval for the construction of a natural gas-fired salt bath heater and a natural gas-fired boiler. Additionally, if the Department determines that all equipment constructed are operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into Title V operating permit #18-00005 via an administrative amendment pursuant to 25 Pa. In accordance with 25 Pa. Code §§ 127.424 and 127.425, the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit for the abovementioned facility.

The subject facility's actual emissions of NO<sub>x</sub>, SO<sub>x</sub> and VOCs were recently estimated to be around 1.51, 0.01 and 3.45 tons per year, respectively. The facility's potential to emit, after operating permit restrictions, are estimated at 6 tons per year-particulate matter (PM), 59.9 tons per year-SO<sub>x</sub>, 6.6 tons per year-CO, 74.5 tons per year-NO<sub>x</sub>, 11.9 tons per year-VOCs, and less than 10 tons per year-hazardous air pollutants (HAPs).

The Operating Permit will include emission limits and work practice standards along with monitoring, recordkeeping and reporting requirements to ensure the

facility complies with the applicable air quality regulations. Among other items, the conditions include provisions derived from the Boiler Area Source MACT Subpart JJJJJ and NSPS Subpart Dc, "Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units."

The permit is for the operation of two 12.9 mmbtu/hr #2 fuel oil-fired boilers, a 0.67 mmbtu/hr #2 fuel oil-fired boiler, an emergency generator, and several small miscellaneous combustion sources. Potential emissions from the sources at this facility are based on operating 8,760 hours per year and burning No. 2 fuel oil in the boilers and are estimated to be 16.4 tons NO<sub>x</sub>, 0.3 tons VOCs, 3.7 tons CO, 1.7 tons particulate matter and 52.3 tons SO<sub>2</sub>. Actual emissions from the facility are much lower considering the boilers only run during the heating season. The facility is subject to the applicable requirements of 25 Pa. Code Chapters 121—145. The proposed Operating Permit contains applicable emission limits, as well as testing, monitoring, recordkeeping, reporting and work practice requirements.

**MINING ACTIVITY NPDES DRAFT PERMITS**

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipita-

tion event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year

24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

\* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period

will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483.

TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

**LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995**

**PREAMBLE 2**

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to

document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995

#### PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection

of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

## FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this

notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

## **Modification to General Permit BWQP-GP-15: Private Residential Construction in Wetlands and 401 Water Quality Certification for Consistency with the Pennsylvania State Programmatic General Permit 4 (PASPGP-4)**

The Department of Environmental Protection (Department), under the authority of section 7 of the Dam Safety and Encroachments Act (32 P.S. § 693.7) and 25 Pa. Code Chapter 105, Subchapter L (relating to general permits), modified General Permit BWQP-GP-15 which allows the placement and maintenance of fill in, or the excavation of, wetlands for the construction of a private residence, driveway, storage shed and utilities, on residential lots within established subdivisions where these activities do not impact greater than 0.50 acre of wetland. The General Permit BDWW-GP-15 was initially published in final-form at 26 Pa.B. 526 (February 3, 1996) and the Department issued a modified BDWW-GP-15, renamed BWQP-GP-15, at 27 Pa.B. 1195 (March 8, 1997).

The modifications are minor and are meant to provide consistency with the Pennsylvania State Programmatic General Permit 4 (PASPGP-4). On June 3, 2011, the Army Corps of Engineers (Corps) published Special Public Notice-11-44, issuing the PASPGP-4 for a 5-year period with an effective date of July 1, 2011. The Department published Water Quality Certification under section 401 of the Federal Clean Water Act (33 U.S.C.A. § 1341) and a determination of Coastal Zone Management Consistency under section 307 of the Coastal Zone Management Act of 1972 (33 U.S.C.A. § 1456) for PASPGP-4 at 41 Pa.B. 3938 (July 16, 2011).

Prior to the development and issuance of PASPGP-4, applicants seeking to perform activities authorized under BWQP-GP-15 would register use of BWQP-GP-15 with the Department regional office and then seek Corps authorization separately. BWQP-GP-15 is eligible for PASPGP-4 and therefore continues a streamlined process for permit applicants without compromising comprehensive environmental protection. The modifications are limited to the registration process which removes reference to separate Corps authorization and a separate registration form and incorporates BWQP-GP-15 into the same registration process as the other Chapter 105 General Permits.

The Department published the draft BWQP-GP-15 for public comment at 41 Pa.B. 4257 (August 6, 2011). No comments were submitted to the Department during the 60-day public comment period, which concluded on October 7, 2011, therefore, the Department made no additional changes and provides public notice that a modified BWQP-GP-15, renamed BWM-GP-15, is effective upon February 21, 2012.

### *401 Water Quality Certification*

The projects covered by the modified BWM-GP-15 may also require a Federal license or permit. Section 401(a) of

the Federal Clean Water Act requires that any applicant for a Federal license or permit to conduct any activity which may result in any discharge into the waters of the United States provide the Federal licensing or result in any discharge into the waters of the United States provide the Federal licensing or permitting agency a certificate from the state in which the discharge will originate that the discharge will comply with applicable provisions of The Clean Water Act as well as applicable state law related to water quality protection.

The Department, by this notice, certifies that the construction, operation, maintenance and removal of any encroachment or water obstruction as proposed in the modified BWM-GP-15 complies with the applicable provisions of sections 301—303, 306 and 307 of the Federal Clean Water Act (33 U.S.C.A. §§ 1311—1313, 1316 and 1317). The Department further certifies that the construction, operation, maintenance and removal of the projects comply with applicable state laws related to water quality protection and standards provided that the construction, operation and maintenance complies with the criteria and conditions of the permit.

This certification is further subject to the following conditions:

1. Prior to beginning any activity covered by the General Permit, the applicant must obtain all other necessary permits or approvals from the Department, including, but not limited to, those required by The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Dam Safety and Encroachments Act (32 P.S. §§ 6018.101—6018.1003) and the regulation promulgated thereunder including 25 Pa. Code Chapters 91, 92a, 93, 96, 102 and 105.

2. Fill material cannot contain wastes as defined in the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003).

A copy of the modified BWM-GP-15 may be obtained by contacting the Department of Environmental Protection, Bureau of Waterways Engineering and Wetlands, Division of Wetlands, Encroachments and Training, P. O. Box 8460, Harrisburg, PA 17105-8460. Persons with a disability may obtain these documents by contacting the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). A copy of the modified BWM-GP-15 is also available on the Department's web site: [www.depweb.state.pa.us](http://www.depweb.state.pa.us), Select: Licensing, Permits and Certification; then Select: Program-Specific Permit/Authorization Packages; then Select: Water Management; then Select: Water Obstruction and Encroachment and Wetlands; and then Select: General Permits, then navigate to the folder for the GP-15 General Permit.

### Nutrient Credit Trading Program; Actions

The Department of Environmental Protection (Department) provides notice of the following action under the Nutrient Credit Trading Program (Trading Program). This action was taken under 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution

reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient trading is a market-based program that provides incentives for entities to create nutrient reduction credits (credits) by going beyond statutory, regulatory or voluntary obligations and goals to remove nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System permittees to meet their effluent limits for nutrients.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

**Mercuria Energy America, Inc. on behalf of Granville Township Permit Number PA0032051** (100 Helen Street Lewistown, PA 17044). This approval is applicable to nitrogen and phosphorus reduction credits to be generated from the pollutant reduction activity of the Granville Township Wastewater Treatment Facility's installed treatment process. This approval includes a verification plan and authorizes the generation of 7,300 nitrogen reduction credits and 600 phosphorus credits. This certification of annual credits is valid until September 30, 2016, as long as the pollution reduction activity is implemented, maintained and verified under the terms and conditions contained in the certification. After September 30, 2016, credits for the pollution reduction activity may only be generated if recertification, which will be based on the program requirements in place on the date of the recertification submission, is obtained.

### Nutrient Credit Trading Program; Notice of Certification Request

The Department of Environmental Protection (Department) provides notice of the following certification request that has been submitted under the Nutrient Credit Trading Program (Trading Program). See 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient trading is a market-based program that provides incentives for entities to create nutrient reduction credits (credits) by going beyond statutory, regulatory or voluntary obligations and goals to remove nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients.

The information described in this notice relates to a certification request submitted from December 6, 2011, through January 3, 2012.

#### *Background*

Before a credit can be used by an NPDES permittee, a three-step process is followed: (1) the certification request

must be approved; (2) generation of the credits must be verified; and (3) the credits must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of a pollutant reduction activity to generate credits. Certifications are based on at least: (1) a written request describing the qualifying pollutant reduction activity that will reduce the pollutant loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying pollutant reduction activity has taken place.

Once the credits are certified, they must be verified to be applied toward an NPDES permit for compliance with effluent limits. Verification means implementation of the verification plan contained in the certification. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying pollutant reduction activity has taken place for the applicable compliance year.

The credits also need to be registered by the Department before they can be applied toward an NPDES permit for compliance with effluent limits. Registration occurs only after credits have been certified, verified and a contract has been submitted. The Department registers credits for use during the compliance year in which the qualifying pollutant reduction activity has taken place. The Department provides registered credits with an annual registry number for reporting and tracking purposes.

#### *Certification Request*

The following request is being reviewed by the Department. The Department will accept written comments on this proposed pollutant reduction activity for 30 days.

#### *Applicant*

TeamAg, Inc. on behalf of Joe Esh and in coordination with Lancaster Farmland Trust

#### *Pollution Reduction Activity Description*

This certification request is for nutrient reduction credits to be generated from the pollutant reduction activity of no-till planted corn and conservation till cover crop plantings.

#### *Written Comments*

Interested persons may submit written comment on this proposed pollutant reduction activity by February 20, 2012. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Karen Price, Interstate Waters Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 772-4785, kprice@pa.gov.

a. ESCGP-2 applies to oil and gas activities that involve 5 acres (2 hectares) or more of earth disturbance over the life of the project. ESCGP-2 applies only to activities within the Commonwealth of Pennsylvania. ESCGP-2 does not obviate the need to obtain other Federal, State, or local authorizations required by law. Persons subject to and operating under ESCGP-2 may not commence the earth disturbance activities until receipt of written acknowledgement of coverage under ESCGP-2 from the Department, after Department review and authorization of the NOI and associated E&S and PCSM Plans.

b. ESCGP-2 does not apply to the following activities:

(1) Discharges which contain hazardous pollutants, toxics, or any other substance which—because of its quantity, concentration, or physical, chemical, or infectious characteristics—may cause or contribute to an increase in mortality or morbidity in either an individual or the total

population, or pose a substantial present or future hazard to human health or the environment when discharged into surface waters of this Commonwealth;

(2) Discharges or earthmoving activities which are not, or will not be, in compliance with any of the terms or conditions of this general permit;

(3) Discharges or earthmoving activities for which the responsible party (person) has failed and continues to fail to comply or has shown a lack of ability or intention to comply with a regulation, permit, and schedule of compliance or order issued by the Department or conservation district;

(4) Discharges which do not, or will not, result in compliance with applicable effluent limitations or water quality standards;

(5) Discharges or earthmoving activities which are likely to directly or indirectly adversely affect a State or Federal threatened or endangered species or a species proposed for such designation, or which is likely to destroy or adversely modify the critical habitat of such a species, as identified under the Federal Endangered Species Act of 1973; Title 30, Chapter 75 of the Pa. Fish and Boat Code; Title 17, Chapter 25, Conservation of Wild Plants; and Title 31 Chapter 133 Game Wildlife code.

(6) Discharges which individually or cumulatively have the potential to cause significant adverse environmental impact.

### 4. PERMIT RENEWAL MODIFICATION, TERMINATION, OR REVOCATION AND REISSUANCE

a. The Department will publish a notice of any draft, renewed, or reissued general permit or of any amendments to this general permit in the *Pennsylvania Bulletin*. After a comment period notice, the final, renewed, reissued or amended general permit will be published in the *Pennsylvania Bulletin*. Any person with an unexpired authorization of coverage under the general permit shall be responsible for complying with the final renewed, reissued or amended general permit. Such persons shall be covered by the general permit even if the permittee has not submitted a separate NOI to be covered by such final renewed, reissued or amended general permit.

b. This permit may be modified, suspended, revoked, reissued, or terminated during its term for any of the causes specified in 25 Pa. Code Chapter 102, or to require compliance with updated water quality standards or impaired water listings.

c. The filing of a request by the permittee or co-permittee for a permit or coverage modification, revocation, reissuance, or termination, or a notification of planned changes or anticipated noncompliance, does not eliminate any existing permit conditions.

d. Permit modification or revocation will be conducted according to 25 Pa. Code Chapter 102.

### 5. AUTHORITY AND RESPONSIBILITIES OF THE DEPARTMENT OR CONSERVATION DISTRICTS

a. The Department or Conservation District may notify the permittee at any time that the permit terms and conditions are not being met. Upon plan review or site inspection, the Department or Conservation District may require E&S Plan revisions or other appropriate action to ensure compliance with the conditions of this permit.

b. The Department or Conservation District has the right to enter onto the site to conduct inspections, conduct monitoring or require monitoring where necessary in appropriate circumstances such as where a danger of

water pollution or degradation is present, or water pollution or degradation is suspected to be occurring from a construction activity subject to this permit. The permittee and co-permittee shall commence such monitoring upon notification from the Department or Conservation District. Samples and measurements taken as required herein shall be representative of the volume and nature of the monitored discharge.

c. The Department or Conservation District may request copies of records required to be kept by this permit.

d. The Department reserves the rights to modify, suspend, revoke or terminate previous coverage under this permit if the permittee(s) shows a lack of ability or intent to comply with the provisions of the permit, or has exhibited a history of non-compliance with the permit conditions.

e. The Department will review NOIs, including erosion and sediment control plans and post-construction stormwater management/site restoration plans, to ensure that applicants have submitted complete and acceptable applications.

#### 6. NOTICE OF INTENT (NOI) SUBMITTAL

a. Persons proposing to conduct oil and gas activities that disturb equal to or greater than 5 acres, or an earth disturbance on any portion, part, or during any stage of, a larger common plan of development or sale that involves equal to or greater than 5 acres of earth disturbance, who wish to be covered by this general permit, must submit an administratively complete and acceptable Notice of Intent (NOI) to the Department or Conservation District.

b. The NOI for coverage under this this permit must include E&S and PCSM Plans developed in accordance with the requirements of 25 Pa. Code Chapter 102.

c. The Department offers an optional expedited permit process to person seeking an ESCGP-2. NOIs for coverage under ESCGP-2 submitted through the expedited permit process which qualify for permit coverage will be provided with an acknowledgement of coverage under the ESCGP-2 within 14 business days from the submission of a complete and accurate NOI. With respect to review of NOIs for ESCGP-2 for oil and gas activities that are not under the expedited process, the Department will establish as its objective to complete its review of complete submissions within 60 calendar days. A person proposing oil and gas activities under ESCGP-2 must obtain written authorization from the Department prior to commencing the earth disturbance activity.

d. The Department offers an optional phased permit process to persons seeking coverage under ESCGP-2. Before initiating any earth disturbance activities on each subsequent phase, the permittee must submit to the Department the information listed on "NOI Administrative Completeness Checklist Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing, or Treatment Operations or Transmission Facilities," Document Number 5500-PM-OG005, for that phase, for review and authorization. The Department will publish a notice in the *Pennsylvania Bulletin* for each subsequent phase.

e. Major modifications to the authorized E&S Plan involving new or additional earth disturbance activity and/or the addition of a point source discharge will require prior authorization by the Department or Conservation District and may require the submittal of a new NOI. All minor modifications to the E&S Plan and PCSM Plan shall be noted on the plan that is available at the

site and initialed by the Department or Conservation District staff. Minor changes to the E&S Plan or the PCSM Plan may include adjustments to BMPs and locations within the permitted boundary to improve environmental performance within the scope of the authorized E&S Plan, change in ownership or address, typographical errors and field adjustments on-site such as the addition or deletion of BMPs to address unforeseen circumstances.

f. Operators conducting oil and gas activities must implement and maintain E&S BMPs and PCSM BMPs and other pollution prevention measures required by this permit to minimize accelerated erosion and sedimentation before, during, and after construction activities.

g. The NOI must be filed in accordance with the detailed instructions specified in the NOI package.

h. NOIs shall include proof of consultation with the Pennsylvania Natural Heritage (PNHP) regarding the presence of a State or Federal threatened or endangered species on the project site. If the Department or Conservation District determines, based on PNHP data or other sources, that the proposed earth disturbance activity may adversely impact the species or critical habitat, it must be resolved with the appropriate agency prior to submitting the NOI. Information on PNHP searches is available through the PA Department of Conservation and Natural Resources, Bureau of Forestry, Ecological Services Section, P. O. Box 8552, Harrisburg, PA 17105-8852, telephone (717) 787-3444 and at [www.naturalheritage.state.pa.us](http://www.naturalheritage.state.pa.us).

i. If hydric soils including soil map units with hydric inclusions of hydric components or other wetland features are present, a wetland determination must be conducted in accordance with Department procedures. A copy of the wetland determination should be provided to the Department or Conservation District as part of the NOI/application. All wetlands identified must be included on the E&S Plan and PCSM\Site Restoration Plan. Special precautions must be taken to protect wetlands and other water resources identified in the NOI, plans, and other supporting documents.

j. Persons requesting a renewal of coverage under this general permit must submit to the Department or Conservation District an administratively complete and acceptable NOI, at least 60 days prior to the expiration date of the coverage, unless permission has been granted by the Department or Conservation District for submission at a later date. In the event that a timely, administratively complete, and acceptable application for renewal of coverage has been submitted and the Department or Conservation District is unable, through no fault of the permittee, to reissue the authorization for coverage before the expiration date of the authorized coverage, the terms and conditions of the authorized coverage will be automatically continued and will remain fully effective and enforceable pending the issuance or denial of the renewal of coverage, provided the permittee is, and has been, operating in compliance with the terms and conditions of the permit. The permittee shall be responsible for complying with the final renewed, reissued or amended General Permit.

k. No condition of this permit shall release any person from any responsibility or requirements under other Federal or Pennsylvania environmental statutes or regulations or applicable local ordinances.

body of water as identified on the most current 7 1/2 minute topographic quadrangle map of the United States Geologic Survey or within 100 feet of any wetlands greater than one acre in size. Persons proposing to prepare a well site or drill a well that meets the criteria listed above must request a waiver to the Department in accordance with Section 601.206 of the Oil and Gas Act.

m. The authorization of coverage is granted based, in part, on information provided by the applicant in the NOI. The information provided by the applicant, including all appendices, attachments, plans and supporting documentation, are incorporated by reference as a part of the authorization and are enforceable as a condition of the authorization. If there is any conflict between the permit and the NOI, including any appendices, attachments, plans and other supporting documentation, the more environmentally protective provision applies.

n. The expedited permit process will not be available to person seeking an ESCGP-2 for the following activities:

(1) Projects located in or with the potential to discharge to waters that have a designated or existing use of High Quality or Exceptional Value pursuant at Chapter 93 (relating to water quality standards).

(2) Projects in which the Well Pad will be constructed in or on a floodplain.

(3) Earth disturbance activities on lands that are known to be currently contaminated by the release of regulated substances as defined in Section 103 of The Pennsylvania Land Recycling and Remediation Standards Act (Act 2) (35 P. S. § 6026.103).

o. NOIs for coverage under an this permit which are submitted through the expedited permit process shall be prepared and certified by a licensed professional who has attended up-to-date training provided by the Department's Office of Oil and Gas Management on erosion and sediment control and post construction stormwater management for oil and gas activities. All accompanying erosion and sediment control plans and post-construction stormwater management/site restoration plans shall be sealed by the licensed professional that prepared or supervised the preparation of the application and plans. For such projects, the seal must be placed on each plan drawing and on the cover of the narrative.

p. NOIs for coverage under this permit for projects described in (n) above, shall be prepared and certified by a licensed professional and all accompanying erosion and sediment control plans and post-construction stormwater management/site restoration plans must be sealed by the licensed professional that prepared or supervised the preparation of the application and plans. For such projects, the seal must be placed on each plan drawing and on the cover of the narrative.

## 7. EFFLUENT LIMITATIONS

a. This permit establishes narrative performance based effluent limitations in the form of BMPs identified in E&S Plans, PCSM Plans, and PPC Plans which control the volume, rate and quality of stormwater runoff and associated pollutants from being discharged into surface waters and which replicate preconstruction infiltration and runoff conditions to the maximum extent practicable.

b. Activities covered under this permit must comply with applicable effluent limitations established in 25 Pa. Code Chapters 92a, 93, 96, 102, and 105 and any applicable federal law or regulation.

## 8. MONITORING, INSPECTION, AND REPORTING REQUIREMENTS

a. The permittee and co-permittee(s) must ensure that visual site inspections are conducted weekly, and after each measurable stormwater event throughout the duration of construction and until the receipt and acknowledgement of the NOT by the Department or Conservation District. Inspections should occur within 24 hours of measurable stormwater events. The visual site inspections and reports shall be completed by qualified personnel, trained and experienced in erosion and sediment control, to ascertain that E&S BMPs are properly constructed and maintained to effectively minimize pollution to the waters of this Commonwealth. If the earth disturbance activities authorized by this permit at any time are found to create conditions that cause or threaten to cause pollution to waters of the Commonwealth, the permittee(s) shall immediately implement remedial measures to correct the conditions.

b. The permittee and co-permittee(s) shall prepare a long-term operation and maintenance schedule which provides for inspection of PCSM BMPs, including repair, replacement, or other routine maintenance of the PCSM BMPs to ensure proper function and operation. The program must provide for completion of a written report documenting each inspection and all BMP repair and maintenance activities and how access to the PCSM BMPs will be provided.

c. A licensed professional or a designee shall be present onsite and responsible for the inspection of critical stages of implementation of the authorized PCSM plan. The critical stages may include the installation of underground treatment BMPs, structurally engineered BMPs, or other BMPs as deemed appropriate by the Department or the Conservation District.

d. The Department or Conservation District may require additional monitoring where an increased risk of potential water pollution is present, or water pollution is suspected of occurring from an earth disturbance activity subject to this permit. The permittee(s) shall commence such monitoring upon notification from the Department or the Conservation District.

e. Where E&S, PCSM or PPC BMPs are found to be inoperative or ineffective during an inspection, the permittee and co-permittee(s) shall contact the Department or Conservation District by phone or in person within 24 hours, followed by the submission to the Department for approval of a written report within 5 days of the initial contact. These noncompliance reports shall include the following information:

(1) Any condition on the project site which may endanger public health, safety, or the environment, or involve incidents which cause or threaten pollution;

(2) The period of noncompliance, including exact dates and times and/or anticipated time when the activity will return to compliance;

(3) Steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance;

(4) Purposed measures to correct the noncompliant conditions; and

(5) The date or schedule of dates to implement those purposed measures.

Additionally, when BMPs are found to be inoperative or ineffective, the licensed professional shall be consulted to ensure BMP adequacy, as designed.

## 9. RECORD KEEPING

d. Upon authorization of a change in ownership or control, the existing permittee shall provide a copy of the permit and authorized plans to the new owner and/or co-permittee.

#### 14. OPERATING CONDITIONS

a. Solids, sediments, and other pollutants removed in the course of treatment or control of stormwater shall be disposed in accordance with Federal and State law and regulations in order to prevent any pollutant in such materials from adversely affecting the environment.

b. The permittee and co-permittee(s) are responsible for the design, installation, operation and maintenance of the BMPs identified in the E&S Plan, PCSM\Site Restoration Plan, and PPC Plan.

d. Upon reduction, loss, or failure of any BMP, the permittee and co-permittee shall take immediate action to restore, repair or replace the BMP or provide an alternative BMP(s). These actions should be undertaken to protect, maintain, reclaim and restore waters of the Commonwealth. This requirement is applicable in situations where the BMP is rendered ineffective, whether the cause of source of the reduction, loss or failure is within or beyond the control of the permittee or co-permittee.

e. All building materials and wastes must be removed from the site and recycled or disposed in accordance with the Department's Regulations at 25 Pa. Code Chapters 78, 260, 271, and 287. Procedures which ensure that the proper disposal or recycling of materials associated with or from the project site will be undertaken in an environmentally safe manner and in accordance with Federal and State law and regulations shall be implemented. No waste or material shall be disposed, buried, dumped, or discharged at the site unless it is in accordance with Federal and State law and regulations.

f. The permittee(s) and co-permittee(s) shall contact the plan preparer for clarification of any requirements contained in the Erosion and Sediment Control Plan, Post Construction Stormwater Management Plan, Pollution Prevention and Contingency Plan, or other documents related to this permit. If additional clarification is necessary the permittee or co-permittee shall contact the Department or Conservation District.

Discharge of sewage or industrial waste (other than sediment under this permit) to an E&S BMP is not permitted. The permittee/co permittee may not discharge floating materials, oil grease, scum, foam, sheen, and substances which: produce odor, taste, or turbidity or settle to form deposits in concentrations or amounts sufficient to be, or create a danger of being, inimical to the water uses to be protected or human, animal, plant or aquatic life.

h. Where infiltration BMPs are being utilized, the permittee and co permittee must ensure that soil compaction is avoided or minimized in those areas. If the areas planned for infiltration BMPs are compromised, additional soil testing must be performed to verify that the BMP will perform as planned.

i. Upon final completion of an earth disturbance activity or any stage or phase of an activity the project site shall be immediately stabilized in accordance with the requirements of 25 Pa. Code § 102.22(a). E&S BMPs shall be implemented and maintained until permanent stabilization is completed. Once permanent stabilization has been established the temporary E&S BMPs shall be removed. Any areas disturbed in the act of removing temporary E&S BMPs shall be permanently stabilized upon completion of the temporary E&S BMP removal activity.

j. Upon temporary cessation of the earth disturbance activity, or completion of any stage or phase of an activity where the cessation of earth disturbance will exceed 4 days the project site shall be immediately stabilized in accordance with the requirements of § 102.22(a). E&S BMPs shall be implemented and maintained until permanent stabilization is completed. Once permanent stabilization has been established the temporary E&S BMPs shall be removed. Any areas disturbed in the act of removing temporary E&S BMPs shall be permanently stabilized upon completion of the temporary E&S BMP removal activity.

#### 15. COMPLIANCE RESPONSIBILITIES

a. The permittee and co-permittee must comply with all terms and conditions of this permit. Any permit noncompliance constitutes a violation of the Pennsylvania Clean Streams Law and is grounds for enforcement action; for permit termination, revocation, reissuance, or modification; or for denial of a permit or permit renewal.

b. Any person who violates a permit condition, fails to take corrective action to abate violations or falsifies report or other documents may be subject to criminal and/or civil penalties or other appropriate action for violations of the terms and conditions of this general permit under the Clean Streams Law, 35 P. S. §§ 691.602 and 691.605.

In addition, criminal sanctions are set forth for false swearing and unsworn falsification at 18 Pa.C.S. §§ 4903—4904.

#### 16. EROSION AND SEDIMENT CONTROL PLANS

a. An E&S Plan shall be prepared by a person trained and experienced in erosion and sediment control methods and techniques applicable to the size and scope of the project being designed. Each E&S Plan, including any major modifications, must be submitted to the Department or Conservation District for review and authorization. The BMPs shall be designed and implemented to minimize the potential for accelerated erosion and sedimentation in order to protect, maintain, reclaim, and restore water quality and existing and designated uses, in accordance with 25 Pa. Code § 102.4(b). Best Management Practices for oil and gas activities are listed in the Department's *Erosion and Sediment Pollution Control Manual*, (No. 363-2134-008), the *Water Quality Antidegradation Guidance* (No. 391-0300-002) and the *Stormwater Best Management Practices Manual* (No. 363-0300-002). These documents are available from the Department or Conservation District or can be downloaded from the Department's Web site at [www.depweb.state.pa.us](http://www.depweb.state.pa.us). The permittee(s) may use BMPs that are not identified in the foregoing manuals if the permittee(s) demonstrates to the Department or Conservation District's satisfaction that the proposed BMPs achieve equivalent or superior environmental protection standards. E&S Plans and BMPs, and revisions thereto, which meet the requirements of 25 Pa. Code Chapters 78, 93, 96, and 102, are conditions of this permit and are incorporated by reference.

b. The staging of earth disturbance activities and maintenance requirements contained in the authorized E&S Plan must be followed.

c. Upon the installation or stabilization of all perimeter sediment control BMPs and at least 3 days prior to proceeding with the bulk earth disturbance activities, the permittee or co-permittee shall provide notification to the Department or conservation district.

In accordance with 25 PA Code § 78.55, operators of oil and gas wells are required to prepare and implement a control and disposal plan. Operators may meet this regulatory requirement by developing and implementing a site specific PPC Plan. The PPC Plan shall be developed in accordance with Department regulations. The PPC Plan should identify areas which may include, but are not limited to, waste management areas, raw material storage areas, fuel storage areas, temporary and permanent spoils storage areas, maintenance areas, and any other areas that may have the potential to cause noncompliance with the terms and conditions of this permit due to the storage, handling, or disposal of any toxic or hazardous substances such as oil, gasoline, pesticides, herbicides, solvents, etc. BMPs shall be developed and implemented for each identified area. The PPC Plan shall be made available upon the Department's or Conservation Districts' request.

#### 18. POSTCONSTRUCTION STORMWATER MANAGEMENT PLANS/SITE RESTORATION PLANS

a. A PCSM Plan shall be prepared by a person trained and experienced in PCSM design methods and techniques applicable to the size and scope of the project being designed. The management of post construction stormwater shall be planned and conducted in accordance with 25 Pa. Code § 102.8. Various BMPs and their design standards are listed in the *Pennsylvania Stormwater Best Management Practices Manual*, (No. 363-0300-002), as amended and updated. The manual is available from the Department or Conservation District or can be downloaded from the Department's Web site at [www.depweb.state.pa.us](http://www.depweb.state.pa.us). Each PCSM Plan, including any major modifications, must be submitted to the Department or Conservation District for review and authorization. The PCSM plan must employ stormwater management BMPs to control the volume, rate, and water quality of the post construction stormwater runoff so as to protect and maintain the chemical, physical, biological properties and existing and designated uses of the waters of this Commonwealth.

b. PCSM Plans shall be consistent with any Department authorized Act 167 Stormwater Management Plan which covers the area where the project is proposed.

c. A licensed professional or a designee shall be present onsite and be responsible for oversight of critical stages of implementation of the authorized PCSM plan. The licensed professional will be responsible to provide a final certification, pursuant to 102.8(l) along with the required NOT and record drawings, indicating that the project site was constructed in accordance with the authorized or modified PCSM plan.

d. The portion of a site reclamation or restoration plan that identifies PCSM BMPs to manage stormwater from oil and gas activities permitted in accordance with Chapter 78, pipelines; or other similar utility infrastructure may be used to satisfy the PCSM requirements if the PCSM, reclamation or restoration plan meets the requirements of §§ 102.8(b), (c), (e), (f), (h), (i) and (l), and when applicable, (m).

#### 19. PRECONSTRUCTION CONFERENCES

For earth disturbance activities authorized by this permit, a preconstruction meeting is required, unless the permittee has been notified otherwise in writing by the

Department or Conservation District. The permittee shall invite the Department or Conservation District to attend the preconstruction meeting and provide at least 7 days notice of the preconstruction meeting to all invited attendees. Permittees, co-permittees, operators, and licensed professionals or designees responsible for earth disturbance activity, including implementation of E&S and PCSM plans and critical stages of implementation of the authorized PCSM plan, shall attend the preconstruction meeting. Where notice of a preconstruction meeting has been provided to the Department and the preconstruction meeting is held pursuant to § 102.5(e), but the Department's representations do not attend the scheduled pre-construction meeting, the earth disturbance activities authorized under the permit may proceed.

## 20. LONG-TERM OPERATION AND MAINTENANCE

a. The permittee and co-permittee shall be responsible for long-term operation and maintenance of PCSM BMPs unless a different person is identified in the NOT and has agreed to long-term operation and maintenance of PCSM BMPs.

b. For any property containing a PCSM BMP, the permittee or co-permittee shall record an instrument with the recorder of deeds which will assure disclosure of the PCSM BMP and the related obligations in the ordinary course of a title search of the subject property. The recorded instrument must identify the PCSM BMP, provide for necessary access related to long-term operation and maintenance for PCSM BMPs and provide notice that the responsibility for long-term operation and maintenance of the PCSM BMP is a covenant that runs with the lands that is binding upon and enforceable by subsequent grantees, and provide proof of filing with the NOT under § 102.7(b)(5).

c. For Commonwealth owned property, a covenant that runs with the land is not required until the transfer of the land containing a PCSM BMP occurs. Upon transfer of the Commonwealth-owned property containing the PCSM BMP, the deed must comply with § 102.8(m)(3).

d. The person responsible for performing long-term operation and maintenance may enter into an agreement with another person, including a Conservation District, nonprofit organization, municipality, authority, private corporation or other person, to transfer the responsibility for PCSM BMPs or to perform long-term operation and maintenance and provide notice thereof to the Department.

e. A permittee or co-permittee that fails to transfer long-term operation and maintenance of the PCSM BMPs or otherwise fails to comply with this requirement shall remain jointly and severally responsible with the landowner for long-term operation and maintenance of the PCSM BMPs located on the property.

## 21. VOLUNTARY RIPARIAN FOREST BUFFERS

Persons that protect, convert or establish a new riparian forest buffer that meets the requirements of 102.14(b) may qualify for benefits under §§ 102.14(e)(1) and (2) relating to the antidegradation presumption and trading or offsetting of credits.

## 22. MANDATORY RIPARIAN BUFFERS

Permittees or co-permittees must protect, convert or establish a new riparian forest buffer that meets the requirements of 25 Pa. Code § 102.14 unless otherwise exempted or waived under §§ 102.14(a) or 102.14(d).

## 23. TERMINATION OF COVERAGE

a. Upon permanent stabilization of earth disturbance activity under § 102.22(a)(2) (relating to permanent stabilization) and installation of BMPs in accordance with the authorized plan prepared and implemented in accordance with §§ 102.4 and 102.8 (related to erosion and sediment control requirements; and PCSM requirements), the permittee and/or co-permittee shall submit a NOT to the Department or Conservation District. The NOT must include:

- (1) The facility name, address and location,
- (2) The operator name and address,
- (3) The permit number,
- (4) The reason for the permit termination,
- (5) Identification of the persons who have agreed to and will be responsible for the long term operation and maintenance of PCSM BMPs.

Until the permittee or co-permittee has received written authorization of the NOT, the permittee and co-permittee will remain responsible for compliance with the permit terms and conditions, including long term operation and maintenance of all PCSM BMPs on the project site. The Department or Conservation District will conduct a follow up inspection and approve or deny the NOT within 30 days of receipt unless field conditions such as snow cover prevent inspection.

b. The permittee shall enclose with the NOT "Record Drawings" with a final certification statement from a licensed professional, which reads as follows:

"I (name) do hereby certify pursuant to the penalties of 18 Pa.C.S.A. § 4904 to the best of my knowledge, information, and belief, that the accompanying record drawings accurately reflect the as built conditions, are true and correct, and are in conformance with Chapter 102 of the rules and regulations of the Department of Environmental Protection and that the project site was constructed in accordance with the authorized PCSM plan, all authorized plan changes, and accepted construction practices."

The permittee shall retain a copy of the record drawings as part of the authorized PCSM plan. The permittee shall also provide a copy of the record drawings as part of the authorized PCSM plan to the persons identified as responsible for the long term operation and maintenance of PCSM BMPs. Permittees shall also provide copies of both the record drawings and the long term operation and maintenance plan to the Department, Conservation District and municipality.

# DEPARTMENT OF HEALTH

## Amendments to Charges for Medical Records; Correction

Because of an inadvertent typographical error in the notice published at 41 Pa.B. 6453 (December 3, 2011), the Department of Health (Department) is reprinting the document in its entirety to ensure accuracy of the information contained in this document.

Under 42 Pa.C.S. §§ 6152 and 6155 (relating to subpoena of records; and rights of patients), the Secretary of Health (Secretary) is directed to adjust annually the amounts which may be charged by a health care facility or health care provider upon receipt of a request or subpoena for production of medical charts or records. These charges apply to any request for a copy of a medical chart or record except as follows:

(1) Flat fees (as listed in this notice) apply to amounts that may be charged by a health care facility or health care provider when copying medical charts or records either: (a) for the purpose of supporting any claim or appeal under the Social Security Act or any Federal or State financial needs based program; or (b) for a district attorney.

(2) An insurer shall not be required to pay for copies of medical records required to validate medical services for which reimbursement is sought under an insurance contract, except as provided in: (a) the Worker's Compensation Act (77 P.S. § 1 et seq.) and the regulations promulgated thereunder; (b) 75 Pa.C.S. Chapter 17 (relating to financial responsibility) and the regulations promulgated thereunder; or (c) a contract between an insurer and any other party.

The charges listed in this notice do not apply to an X-ray film or any other portion of a medical record which is not susceptible to photostatic reproduction.

Under 42 Pa.C.S. § 6152.1 (relating to limit on charges), the Secretary is directed to make a similar adjustment to the flat fee which may be charged by a health care facility or health care provider for the expense of reproducing medical charts or records where the request is: (1) for the purpose of supporting a claim or appeal under the Social Security Act or any Federal or State financial needs based benefit program; or (2) made by a district attorney.

The Secretary is directed to base these adjustments on the most recent changes in the Consumer Price Index reported annually by the Bureau of Labor Statistics of the United States Department of Labor. For the annual period of October 31, 2010, through October 31, 2011, the consumer price index was 3.5%.

Accordingly, the Secretary provides notice that, effective January 1, 2012, the following fees may be charged by a health care facility or health care provider for production of records in response to subpoena or request:

	<i>Not to Exceed</i>
Amount charged per page for pages 1—20	\$1.39
