READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1915. ACTIONS FOR CUSTODY OF MINOR CHILDREN

Rule 1915.11-1. [Elimination of Parenting Coordination.] Parenting Coordination.

[Only judges may make decisions in child custody cases. Masters and hearing officers may make recommendations to the court. Courts shall not appoint any other individual to make decisions or recommendations or alter a custody order in child custody cases. Any order appointing a parenting coordinator shall be deemed vacated on the date this rule becomes effective. Local rules and administrative orders authorizing the appointment of parenting coordinators also shall be deemed vacated on the date this rule becomes effective.]

If a judicial district implements a parenting coordination program, the court shall maintain a roster of qualified individuals to serve as parenting coordinators and establish the hourly rate at which parenting coordinators shall be compensated. The parenting coordinator shall attempt to resolve issues arising out of the custody order by facilitating an agreement between the parties and, if unable to reach an agreement, recommend a resolution to the court.

(a) Appointment of a Parenting Coordinator.

(1) After a final custody order has been entered, a judge may appoint a parenting coordinator to resolve parenting issues in cases involving repeated or intractable conflict between the parties affecting implementation of the final custody order. A parenting coordinator should not be appointed in every case. The appointment may be made on the motion of a party or the court's motion.

(2) Unless the parties consent and appropriate safety measures are in place to protect the participants, including the parenting coordinator and other third parties, a parenting coordinator shall not be appointed if:

(i) the parties to the custody action have a protection from abuse order in effect;

(ii) the court makes a finding that a party has been the victim of domestic violence perpetrated by a party to the custody action, either during the pendency of the custody action or within 36 months preceding the filing of the custody action; or

(iii) the court makes a finding that a party to the custody action has been the victim of a personal injury crime, as defined in 23 Pa.C.S. § 3103, which was perpetrated by a party to the custody action.

(iv) If a party objects to the appointment of a parenting coordinator based on an allegation that

the party has been the victim of domestic violence perpetrated by a party to the custody action, the court shall have a hearing on the issue and may consider abuse occurring beyond the 36 months provided in subdivision (a)(2)(ii).

(3) The appointment of a parenting coordinator shall be for a specified period, which shall not exceed 12 months. A party may petition the court for an extension of the appointment or the court in its discretion may extend the appointment for an additional period.

(4) If the parenting coordinator seeks to withdraw from service in a case, the parenting coordinator shall petition the court and provide a copy of the petition to the parties or the parties' attorneys.

(5) The parenting coordinator shall set forth in a separate written agreement with the parties:

- (i) the amount of any retainer;
- (ii) the hourly rate to be charged;
- (iii) the process for invoices and payment for services;
- (iv) information on the parenting coordination process; and
- (v) provide a signed copy of the agreement to the parties before initiating any services.

Official Note: The parenting coordinator shall include in the parties' written agreement the hourly rate established by the judicial district.

(i) shall sign an affidavit attesting that he or she has met the qualifications outlined in (b)(1);

(ii) shall submit the affidavit to the president judge or administrative judge of the judicial district where the parenting coordinator is seeking appointment; and

(iii) after submission of the initial affidavit, a parenting coordinator shall submit a new affidavit every two years attesting that he or she continues to meet the qualifications for a parenting coordinator outlined in (b)(1).

(c) *Appointment Order:* The parenting coordinator's authority as delineated in subdivision (d) shall be included in the order appointing the parenting coordinator, which shall be substantially in the form set forth in Pa.R.C.P. No. 1915.22.

(d) *Scope of Authority of the Parenting Coordinator:* The parenting coordinator shall have the authority to recommend resolutions to the court on issues related to the custody order if the parties are unable to reach an agreement.

(v) determination of financial issues, other than allocation of the parenting coordinator's fees as set forth in subdivision (g)(1);

(vi) major decisions affecting the health, education, or religion of the child(ren); and

(vii) other issues limited by the appointing judge.

(3) Unless the parties consent, the parenting coordinator shall not contact collateral sources or speak with the child(ren) and to effectuate this provision, the parties shall execute releases, as necessary, authorizing the parenting coordinator to communicate with the appropriate individuals. RULES AND REGULATIONS

Title 37—LAW

STATE POLICE

[37 PA. CODE CH. 33]

Procedures and Specifications for Firearm Record Forms under the Uniform Firearms Act

The State Police amends § 33.103 (relating to confidentiality) to read as set forth in Annex A.

Effective Date

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin*.

Statutory Authority

This final-form rulemaking is authorized under 18 Pa.C.S. § 6111.5 (relating to rules and regulations), which authorizes the State Police to promulgate regulations as necessary to carry out the provisions and intent of 18 Pa.C.S. §§ 6101—6127 (relating to Pennsylvania Uniform Firearms Act of 1995). Section 111(b) of the Mental Health Procedures Act (MHPA) (50 P.S. § 7111(b)) authorizes disclosure of mental health records information by the State Police.

Background and Summary

Under 18 Pa.C.S. § 6111.1(a) (relating to Pennsylvania State Police), the State Police is charged with the responsibility to administer 18 Pa.C.S. §§ 6101—6127. This charge has been described as “broad authority” for the purpose of “ensur[ing] public safety and welfare by keeping firearms out of the hands of dangerous individuals.” *In re Expungements*, 938 A.2d 1075, 1080—82 (Pa. Super. Ct. 2007). Section 6105(a)(1) and (c)(4) of 18 Pa.C.S. (relating to persons not to possess, use, manufacture, control, sell or transfer firearms) prohibits an individual who has been adjudicated as an incompetent or who has been involuntarily committed to a mental health institution for inpatient care and treatment under the MHPA from possessing, using, controlling, selling or manufacturing a firearm or obtaining a license to possess, use, control, sell, transfer or maintain a firearm in this Commonwealth. Furthermore, the possession of a firearm by the mentally ill is regulated by section 902(g)(4) of the Gun Control Act of 1968 (18 U.S.C.A. § 922(g)(4)), and essentially every state in the country.

Records regarding mental health commitments under the MHPA are confidential and are generally not subject to disclosure except as provided by law. Section 111(a) of the MHPA provides that all documents regarding persons in treatment shall be kept confidential and may not be released or their contents disclosed without that individual’s written consent. Section 111(b) of the MHPA provides an exception to this general rule that enables the State Police to obtain mental health records information, and disclose this information to any person, to administer 18 Pa.C.S. § 6105(c)(4), which prohibits an individual who has been adjudicated as an incompetent or who has been involuntarily committed under the MHPA from, among other things, possessing a firearm. See *Commonwealth v. Emmil*, 866 A.2d 420, 422 (Pa. Super. Ct. 2005) (“[t]he MHPA permits the State Police to obtain specific mental health records in order to ensure that Section 6105 is not violated.”). This exception allows the State Police to keep firearms out of the hands of individuals who have been adjudicated incompetent or involuntarily committed un-

der the MHPA by allowing direct access to the mental health records information that evidence the prohibiting event.

The State Police obtains mental health records information because section 109(d) of the MHPA (50 P.S. § 7109(d)) and 18 Pa.C.S. § 6111.1(f) require judges and certain mental health officers and administrators to notify the State Police regarding an individual’s involuntary commitment or incompetency adjudication within 7 days of its occurrence. This notice is a one-page form consisting of biographic information (not a copy of actual record of commitment or adjudication) and is used to create the State Police Mental Health Database for purposes of administering the firearm prohibition in 18 Pa.C.S. § 6105(c)(4).

The State Police’s regulations did not clearly provide for the permitted use of the confidential information consistent with the authorized use in section 111(b) of the MHPA. Section 33.103(e), which concerns the confidentiality of mental health records information, formerly only authorized the mental health records information to be used by the State Police for the purpose of determining whether a person applying to obtain a firearm or license to carry a firearm is prohibited from possessing, using, controlling, selling, transferring or manufacturing a firearm. Section 111(b) of the MHPA, however, provides for a broader permissible use of this information and authorizes the State Police to disclose the information to any person to ensure compliance with 18 Pa.C.S. § 6105(c)(4). The lack of symmetry between former § 33.103(e) and section 111(b) of the MHPA may have been interpreted to prevent the State Police from using mental health record information for other purposes that are consistent with the 18 Pa.C.S. §§ 6101—6127 and the MHPA, but which are not seeking to obtain a firearm from a dealer or the issuance of a license to carry through the county sheriff.

The following are two examples for which the State Police would be using the information in the State Police Mental Health Database consistent with the authorization in section 111(b) of the MHPA, but which were not within the permitted use of this information under former § 33.103(e). First, it is consistent with section 111(b) of the MHPA for the State Police to query the State Police Mental Health Database in conducting a background check to determine whether local law enforcement officers, or candidates for those positions, are prohibited from possessing a firearm under 18 Pa.C.S. § 6105(c)(4). This is particularly important for a department prior to hiring an officer and issuing the officer a department-owned firearm. Allowing a police officer to possess a firearm when the officer has been adjudicated as incompetent, or involuntarily committed to a mental institution, has the potential to place residents in this Commonwealth at risk, not to mention allowing an individual to violate State or Federal firearms laws, or both.

Additionally, it is consistent with section 111(b) of the MHPA for the State Police to query the State Police Mental Health Database to assist police officers who identify a specific investigative need, in the course of an investigation under 18 Pa.C.S. §§ 6101—6127, to determine if a person is prohibited from possessing a firearm due to being adjudicated as an incompetent or

having been involuntarily committed under the MHPA. In many cases, officers are unable to conclusively determine if a person has been subject to a disqualifying adjudication or commitment, without checking the person against the State Police Mental Health Database, to determine if a mental health prohibition exists. Over the past two decades, there have been many highly publicized incidents when individuals possessed firearms, even though they had a mental health history that would have otherwise prohibited possession. Without information confirming that a person is prohibited under 18 Pa.C.S. §§ 6101—6127 from possessing firearms for mental health reasons, officers may be unable to take the necessary steps to seize firearms or make an arrest, or both.

The amendment to § 33.103(e) provides clarity and allows the State Police to clearly and fully utilize its lawful authority under the MHPA to protect the public from individuals who are prohibited from possessing a firearm due to an adjudication of incompetency or an involuntary commitment to a mental health institution.

Description of this Final-Form Rulemaking

This final-form rulemaking amends § 33.103(e) to bring it in line with the permitted use of mental health record information by the State Police under section 111(b) of the MHPA. As previously discussed, § 33.103(e) formerly authorized the mental health records information to be used by the State Police “only” for the purpose of determining whether a person applying to obtain a firearm or license to carry a firearm is prohibited from possessing, using, controlling, selling, transferring or manufacturing a firearm. Section 111(b) of the MHPA provides for a broader permissible use of this information and authorizes the State Police to disclose the information to any person to ensure compliance with 18 Pa.C.S. § 6105(c)(4).

Accordingly, the State Police amends § 33.103(e) to provide for the permitted exceptions to the general rule of confidentiality for mental health records information maintained by the State Police under the MHPA and 18 Pa.C.S. §§ 6101—6127. Section 33.103(e)(1) contains the regulatory language concerning the permitted use for a person applying to obtain a firearm or license to carry a firearm; “only” is deleted because these two uses are not the only exceptions provided by law. Section 33.103(e)(2), which provides that the State Police may disclose the information in accordance with section 111(b) of the MHPA, creates consistency and aligns the regulation with the permitted use of mental health record information by the State Police under the MHPA. By directly tying the regulation to the MHPA, prior ambiguity caused by the interplay of the regulation and the MHPA as to the State Police’s ability to use the State Police Mental Health Database consistent with the MHPA is removed.

Response to Comments

Notice of proposed rulemaking was published at 48 Pa.B. 297 (January 13, 2018), with a 30-day public comment period. No comments were received from the public, the Independent Regulatory Review Commission (IRRC) or the General Assembly.

Fiscal Impact and Paperwork Requirements

This final-form rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. This final-form rulemaking will not have additional paperwork requirements upon the Commonwealth, political subdivisions or the private sector.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on January 3, 2018, the State Policy submitted a copy of the notice of proposed rulemaking, published at 48 Pa.B. 297, to IRRC and the Chairpersons of the Senate Law and Justice Committee and the House Judiciary Committee for review and comment.

Under section 5(c) of the Regulatory Review Act, the Department is required to submit to IRRC and the House and Senate Committees copies of comments received during the public comment period, as well as other documents when requested.

Under section 5.1(j.2) of the Regulatory Review Act (71 P.S. § 745.5a(j.2)), on June 27, 2018, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5(g) of the Regulatory Review Act, the final-form rulemaking was deemed approved by IRRC effective June 27, 2018.

NOTICES

DEPARTMENT OF AGRICULTURE

Agricultural Research Project Contractors

The Department of Agriculture (Department) is soliciting applications to conduct agricultural research on one or more of the following research topic areas, with the research to be conducted from July 1, 2018, to June 30, 2019, with the possibility, but not the assurance, of extending that research into subsequent years.

This notice establishes the procedures by which grant applications will be solicited and reviewed, and by which grants will be awarded.

1. *Grant Solicitation.* The Department will accept grant applications for the purposes, in the form and according to the schedule set forth as follows. Additional publication and dissemination of this notice shall be made to applicants who have previously submitted grant applications to or received grants from the Department, as well as any individuals or entities who have requested notification from the Department of grant availability.

2. *Research Topic Areas.* The research topics the Department is interested in funding are as follows:

a. *Ongoing multiyear research projects.* The Department has, in previous years, provided funding for various multiyear research projects that might be continued or extended to complete research the Department identifies as addressing continued priorities of the agricultural industry. The Department will consider proposals to continue supporting previously funded research.

b. *Spotted lanternfly.* Spotted lanternfly, *Lycorma delicatula*, was detected in this Commonwealth 3 years ago, and quickly established itself as a damaging pest in neighborhoods, forests and agricultural settings. As with any new invasive species, significant knowledge gaps exist in understanding of the pest and its potential effects on this Commonwealth. The Department will consider research proposals that address basic and applied research on spotted lanternfly, with priority given to proposals that analyze the pest's economic impacts on agriculture, general commerce and communities, on integrated pest management strategies for agricultural commodities of importance to this Commonwealth and on basic biological research that will allow us to develop more sophisticated, cost-effective and environmentally-low-impact control strategies.

c. *Powdery mildew in hops.* With the increasing popularity and scale of this Commonwealth's craft beer industry, there is greater demand for hops produced within this Commonwealth. Although hops production is relatively small in this Commonwealth, a number of potential growers are considering the opportunity as a way of capitalizing on increased demand, while diversifying their operation. A growing threat to hops, however, is powdery mildew, a fungal disease that can significantly reduce yields, distort and cause defects in hop cones, and contribute to premature ripening. The Department is seeking research proposals on how to prevent powdery mildew in hops, as well as research on treatment methods.

d. *Alternative uses for fluid milk.* Increasing production combined with declining consumption has led to an oversupply of fluid milk. To build demand, some have proposed non-nutritional uses of milk, including for cos-

metic purposes, as a cleansing agent or as a plant fertilizer. The Department will accept research proposals in support of the development of alternative milk-based products that are intended for nonhuman-consumption purposes.

e. *Support for dairy product research and development.* Product innovation often is key to maintaining relevance in the eyes of consumers and protecting market share. Given the alternatives available to customers in the marketplace, there is a need for innovation in the dairy sector. The Department will consider proposals for research and development projects specific to dairy. Projects can include, but are not limited to: new types or classes of dairy products; new ways to incorporate dairy into other types of value-added products; or new ways of packaging different classes of dairy products to boost sales. Proposals submitted under this category should demonstrate a strong partnership between food or dairy, or both, processors and manufacturers and research institutions, including private operations and those affiliated with institutions of higher education.

f. *Use of blockchain technology in agricultural food systems.* Blockchain technology provides a comprehensive ledger of transactions along a supply chain. Blockchain promises to improve the traceability and transparency of agriculture value chains, enabling consumers to know more confidently the origin of their food products. The Department will accept research proposals aimed at studying ways in which this technology can be deployed within agriculture, barriers to implementation, and the technology's potential to streamline business processes, produce new cost savings and protect the integrity of food systems.

g. *Identifying gaps in agricultural infrastructure systems.* The Department's 2018 economic impact assessment and strategic recommendations report noted that gaps in production, processing and manufacturing of agricultural products limit the productivity and growth potential of this Commonwealth's agriculture. Additionally, deficiencies in this Commonwealth's other infrastructure systems—specifically, roads, bridges and broadband—restrict the ability of producers and agribusinesses to move raw materials and goods to market. The Department will accept research proposals that seek to identify these gaps in this Commonwealth's transportation and agriculture infrastructure systems, as well as recommendations for targeted investment that will yield the greatest return on investment for this Commonwealth's economy. This research is intended to supplement ongoing research focused on broadband access already in progress through the Governor's Office of Broadband Initiatives and the Center for Rural Pennsylvania.

h. *Economic impact and estimated costs of compliance with Chesapeake Bay Total Maximum Daily Load.* This Commonwealth has made considerable progress to reduce nutrient loads into waterways, particularly within the Chesapeake Bay watershed. Despite these reductions, considerable work remains for the agriculture and urban stormwater sectors to reduce nutrient runoff further within the bay watershed. Estimates of potential costs associated with this necessary work are outdated. The most recent reliable estimate of the amount of resources required to implement nonpoint source best management practices (BMP) fully for the agriculture sector is an August 2013 report from the Pennsylvania State Univer-

sity's Environmental and Natural Resources Institute that showed a need of \$3.6 billion in capital costs or, on an annualized basis and including operation and maintenance costs, \$378.3 million per year through 2025. The Department will accept research proposals to update estimated costs of nonpoint source BMP installation as the Commonwealth works to prepare the third phase of its Watershed Implementation Plan.

i. *Inventory of noncost-shared conservation BMP in agriculture.* In 2016, the Commonwealth partnered with agricultural organizations and academia to survey and inventory farmers' voluntary efforts to implement conservation BMP without the assistance of public investment. This noncost share survey and the results are part of the Commonwealth's Chesapeake Bay restoration goal in that results are used to generate credit for previously unacknowledged water quality improvements on the part of the agriculture sector. The Department will accept research proposals to replicate the survey using the 2016 design, including onfarm verification of reported improvements by a sample of the survey's total population.

j. *Market potential of industrial hemp.* Now in its second year, Pennsylvania's Industrial Hemp Pilot Research Program has grown in terms of number of permitted projects and the number of acres planted. This growth demonstrates enthusiasm on the part of growers about the market and economic potential of industrial hemp, however little research exists as to the potential market for hemp products, including seeds, oils and fiber. The Department will accept research proposals that seek to quantify the market potential for industrial hemp-derived products, including the most promising products for generating positive returns on investment and barriers to realizing this industry's fullest potential (for example, processing capacity, access to financial services, technology to harvest crops economically and efficiently, and the like).

k. *Workforce development.* Developing a workforce development plan specific to agriculture is a priority of the Department. Initial research suggests nearly 75,000 employment vacancies will occur over the next decade within this Commonwealth's agriculture and food industries. The Department is interested in finding ways to increase the education and training opportunities for people who are high school graduates in the industry who do not wish to participate in post-secondary education. It encourages proposals from entities from within or that support the agriculture and food industry to design and implement micro-credentials or badges that teach specific skills that are not a part of the formal education systems. Interested parties will use a specific format for credential development provided by the Department. Mini-grants not to exceed \$2,500 will be used to support development efforts and the process that will be used to evaluate the efficacy of the credential.

l. *Hydroponics and aquaponics.* Within this Commonwealth, hydroponics and aquaponics systems have been recognized as both an excellent way to teach STEM (science, technology, engineering and math) knowledge and skills and as cluster of technology which can support additional economic development in the food sector. The Department is interested in supporting action research where a hydroponics and aquaponics practitioner and an academic researcher get together to do research on a problem area that can solve a practical problem. These will be mini-grants of no more than \$5,000 which may address issues such as, but not limited to, bringing production to a larger scale, lighting, nutrient solutions,

integrated pest management and integration into broader market structures. The practitioner needs to apply the research-based solution and report their results for inclusion on a public database as a part of the project.

m. *Urban agriculture.* Urban agriculture and intensive agriculture practices have grown exponentially across this Commonwealth in recent years, with hundreds of projects operating in urban centers. The Department will accept proposals for research projects supported by mini-grants of no more than \$5,000 where an urban agriculture practitioner and an academic researcher collaborate to solve a problem related to urban agriculture practice. Topics may include, but are not limited to, season extension, soil testing and remediation, intensive farming, production of new crops, adding value through canning and other forms of preservation, new distribution and marketing processes, and ensuring more reliable access to safe water. The practitioner needs to apply the research-based solution and report their results for inclusion on a public database as a part of the project.

n. *Pollinator Protection Plan.* The Commonwealth released the Pennsylvania Pollinator Protection Plan in January 2018 following an extensive process of engagement with stakeholders. The report, as found on the Department's web site at www.agriculture.pa.gov under the "Hot Topics" heading, provides a series of recommendations to provide a broad framework in which to consider and improve pollinator health in this Commonwealth. The report is designed to be used by a variety of communities and stakeholder groups at multiple levels, from local to Statewide. The Department will accept proposals that align with the eight recommendations for research found in Chapter 5 of the report.

3. *Grant Agreement.* The terms and conditions of the grant will be governed by a grant agreement between the Department and the applicant which shall be tendered to the applicant for execution, returnable in no more than 30 days.

4. *Application Delivery and Deadline.* Interested applicants must deliver a complete research project proposal and grant application to the Department by 4 p.m. on Friday, September 28, 2018, if hand-delivered, or by mail postmarked on or before that same date. Applications should be addressed and delivered to the Department of Agriculture, Attn: Research Solicitation Review Committee, Room 211, 2301 North Cameron Street, Harrisburg, PA 17110.

5. *Format of the Project Proposal and Grant Application.* The project proposal and grant application shall be formatted as follows:

a. A cover page, titled Agricultural Research Project Proposal and Grant Application, providing: i) the title of the proposed project; ii) the name and address of the applicant; iii) the name, address, telephone number and e-mail address of the applicant's principal contact person for matters relating to the application; and iv) the total maximum grant amount sought for the proposed project.

b. Section 1, titled Statement of Purpose, explaining or presenting: i) the purpose for which the grant funds would be utilized; ii) how the project aligns with one or more of the research topics presented in Paragraph No. 2; and iii) details of the proposed project, including a statement of expected impact of outcomes, staffing for the project, and objectives and methodologies.

c. Section 2, titled Statement of Need, explaining the need for the grant funds sought, and identifying the presence of any additional funding partners and the extent of that funding.

d. Section 3, titled Budget, presenting a detailed budget for the proposed project.

e. Section 4, titled Criteria for Measuring Outcomes, identifying methods for measuring outcomes.

f. Section 5, titled Industry Involvement, describing the extent of any support, participation and funding from agricultural industry, including any written confirmation of that support, participation or funding.

6. *Scoring of Applications.* The Department will evaluate each complete and timely-filed project proposal and grant application it receives, using a 100-point scale assessing:

a. Up to 10 points for the research project needs statement.

b. Up to 15 points for the impact of research outcomes.

c. Up to 5 points for the presence of additional funding partners or matching funds.

d. Up to 30 points for the research methodology.

e. Up to 20 points for project evaluation and replicability.

f. Up to 20 points for support and participation from industry.

7. *Scores.* Upon completion of evaluations, the Department will prepare a record identifying each complete and timely-filed project proposal and grant application received and the numerical score assigned to each. The Department shall award grants based upon its evaluation and scoring.

8. *Multiyear Projects or Extensions.* The Department may award grant funding for multiyear projects or extensions of an ongoing project, if the Department identifies that a multiyear term or an extension advances the grant's objectives. Requests for extensions of ongoing projects shall be made, evaluated and processed in accordance with all the requirements of this notice.

9. *Notice of Award.* Applicants shall be notified by mail of the decision on their grant applications by the Department. Best efforts will be made to do so within 15 days of the application deadline.

10. *Grant Agreement.* With the mailed grant award notice, the Department will provide applicants with a grant agreement for execution and return within 30 days. The Department will obtain the required Commonwealth signatures on the grant agreements and return a copy of the fully-executed grant agreement to the applicant. No grant agreement is effective and work should not commence until all required signatures have been applied to the grant agreement. Among the terms of the grant agreement shall be a requirement that the grant recipient provide the Department full and complete access to all records relating to the performance of the project and submit such information as the Department may require.

11. *Nonmatching Cost-Reimbursable Grant.* Grants made hereunder do not require the applicant secure or devote a matching sum to the project, but outside funding may be considered as an evaluation criteria under section 6(c) of this solicitation. Payment of grant funds will occur on a reimbursement basis, with the possibility upon the written submission of justification and subsequent approval of the Department of an advance payment option.

12. *Allowable Indirect Cost Reimbursement.* Grants made hereunder are subject to an indirect cost cap of 15% of total project costs. For the purpose of this research grant funding solicitation, indirect costs shall include administrative salaries and benefits, office supplies and equipment, facility related cost including maintenance and repairs, telephones, memberships/dues, freight/postage cost and any consultant related costs associated with the administration of this research grant.

13. *Reporting Requirements.* Upon completion of research projects funded through this program, grant recipients will submit to the Department within 60 days a final report detailing the nature of the questions under study, an explanation of the research design and methods, findings of the research and recommendations for future study.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of

further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

23-00038: Delaware County Regional Water Quality Control Authority (DELCORA) (PO Box 999 Chester, PA 19016) for renewal of the Title V Operating Permit for its Western Regional Treatment Plant (WRTP), a wastewater treatment facility located in the City of Chester, **Delaware County**. The Western Regional Treatment Plant is a Title V facility for nitrogen oxides (NO_x), volatile organic compounds (VOC), hazardous air pollutants (HAP) and carbon monoxide (CO). With this operating permit renewal, the facility is taking restrictions to limit VOC emissions to under 50 tons per year (on a 12-month rolling basis) thereby becoming a synthetic minor facility for Reasonably Available Control Technology (RACT II). The facility will maintain its

current Plantwide Applicability Limit (PAL) of 82.56 tons per year of NO_x (12-month rolling basis). Current estimates indicate a potential to emit in tons per year of CO of 104.2, SO_x of 65.8 and particulate matter of 23.1, all on a 12-month rolling basis.

The WRTP comprises 2 sewage sludge incinerators, 4 boilers of about 5.7 MMBtu/hr total capacity, natural gas or No. 2 fuel oil fired, waste water treatment processes and fuel storage tanks. The incinerators are controlled by multi-venturi scrubbers, electrostatic precipitators and regenerative thermal oxidizers, installed over the term of the last operating permit. Odors from waste water treatment processes are controlled by a packed bed scrubber and a biofilter.

The facility is subject to the following Federal regulations: Federal Plan Requirements for Sewage Sludge Incineration Units Constructed on or Before October 14, 2010 promulgated as 40 CFR Part 62, Subpart LLL; two Subparts from National Emission Standards for Hazardous Air Pollutants (NESHAPs), codified at 40 CFR Part 61: National Emission Standard for Mercury (Subpart E) and the National Emission Standard for Beryllium (Subpart C); the National Emission Standard for Hazardous Air Pollutants for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters, codified at 40 CFR Part 63, Subpart DDDDD; and Standards of Performance for New Stationary Sources: Standards of Performance for Sewage Treatment Plants, codified at 40 CFR Part 60, Subpart O. Sources at the facility are also subject to Commonwealth regulations on fugitive emissions, opacity, restrictions on particulate matter and sulfur dioxide emissions.

Upon final approval, the permit will be renewed for a period of five (5) years.

The renewal does not authorize any increase in air emissions of regulated pollutants above previously approved levels. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

33-00055: Glen-Gery Corporation, Hanley Plant (12637 Harrison St., Summerville, PA 15864), the Department intends to issue the renewal of the Title V Operating Permit of a brick manufacturing facility located in Summerville Borough, **Jefferson County**. Permitted sources at the facility are the tunnel kiln, two dryers, two crushers, miscellaneous natural gas usage, raw material stockpiles, access roadways, and grinding, screening and storage operations. Meeting the criteria pursuant to 40 CFR 64.2(a)(1) to (3), the tunnel kiln and the grinding, screening and storage operations have been subject to Compliance Assurance Monitoring (CAM) requirements. The tunnel kiln is also required to perform emission stack test every 5 years or upon permit renewal to demonstrate compliance with emission limits established through previous plan approvals. In this renewal, facility-wide HAP restrictions are added to clearly state that the facility is an area HAP source for MACT purposes and therefore exempt from 40 CFR 63 Subpart JJJJJ, referred to as Brick MACT, promulgated in 2015. Considering the new limitations added, the facility has potential-to-emit of 245 TPY SO_x, 194 TPY CO, 185 TPY PM₁₀, 34 TPY NO_x, 28 TPY VOC, 25 TPY multiple HAPs, and 10 TPY any single HAP.

46-00094: Highway Materials, Inc. (5100 Joshua Road, Plymouth Meeting, PA 19462) for a renewal/modification of State Only (Synthetic Minor) Operating Permit No. 46-00094 for the combination batch/drum hot mix asphalt (HMA) plant at its facility located in Whitmarsh Township, **Montgomery County**.

Since DEP amended the State Only Operating Permit (SOOP) in 2016, no changes to the combination batch/drum HMA plant have occurred. In this renewal, DEP has consented to (1) the increase of the HMA production restriction in the SOOP to 700,000 tons/yr, (2) the removal the pound/ton and pound/gal emission restrictions, and (3) the inclusion of a requirement that emissions from the combination batch/drum HMA plant be calculated using emission factors obtained from the most recent stack testing for both natural gas and fuel oil (or other Department-approved emission factors). These revisions are the result of an exceedance that occurred on or around October 2017, where the HMA production restriction of 499,500 tons/yr was exceeded, calculated monthly as a 12-month rolling sum. However, the facility did not exceed any emission restrictions in the SOOP, using the emission factors obtained from 2016 stack testing of the combination batch/drum HMA plant.

In addition, for the following reasons, DEP intends to remove the fuel oil throughput restrictions for the combination batch/drum HMA plant from the SOOP:

- Natural gas is the primary fuel consumed by the combination batch/drum HMA plant, while fuel oil is rarely consumed.
- The fuel oil throughput restrictions correlate to a level of HMA production that is greater than the HMA production restriction, and which would result in an exceedance of the nitrogen oxides (NO_x) emission restriction and major facility threshold of 25 tons/yr.
- The fuel oil throughput that correlates to the HMA production restriction does not result in an exceedance of any emission restrictions.

The renewal SOOP will continue to include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

The modification is issued under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code § 127.461(1).

The activities include preparation of rough wood and plastic parts, wood impregnation and lamination, filament winding, cast resin molding and surface coating. The company is proposing federally-enforceable limits on phenolic resin usage in the Wood Impregnation/Lamination operation and on hours of operation for the Spray Booth, to result in a maximum VOC emission level below 50 tpy. The proposed SOOP contains emission restriction, testing, monitoring, recordkeeping, reporting and work practice standards derived from the applicable requirements of 25 Pa. Code Chapters 121—145.

A person may oppose the proposed State Only Operating Permit by filing a written protest with the Department through Noor Nahar via mail to Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222. Each protest or set of written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed State Only Operating Permit (65-00932) and a concise statement of the objections to the Operating Permit issuance and the relevant facts upon which the objections are based.

C-K Composites State Only Operating Permit application, the Department's Air Quality Review Memorandum, and the Proposed Air Quality Operating Permit for this facility are available for review by any interested party at the Pennsylvania Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. With four (4) natural gas-fired boilers, which also run on No. 2 fuel oil, and two (2) diesel-fueled emergency generators, the healthcare institution has PTEs of 10.69 TPY for NO_x, 4.55 TPY for CO, 0.44 TPY for PM, 0.50 TPY for SO_x, and 0.77 TPY for VOC and therefore is Natural Minor for permitting purposes. In this renewal, provisions of 25 Pa. Code § 123.22 applicable to the boilers are updated to reflect the amendments made in 2013. Operating hours restrictions and a recordkeeping requirement are also added to ensure the boilers' exemption from 40 CFR 63 Subpart JJJJJJ pertaining to NESHAP for Industrial, Commercial and Institutional Boilers Area Sources. For the emergency generators, implementation of 40 CFR 63 Subpart ZZZZ, which pertains to NESHAP for Stationary Reciprocating Internal Combustion Engines, is revised and a recordkeeping requirement is added to ensure the units' status as emergency stationary engines under this subpart.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act (35 P.S. § 750.5).

Northwest Region: Clean Water Program, 230 Chestnut Street, Meadville, PA 16335-3481.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Connoquenessing Borough	228 Constitution Avenue P.O. Box 471 Connoquenessing, PA 16027	Butler

Plan Description: The approved plan provides for the expansion of Connoquenessing Borough's existing wastewater treatment plant (WWTP) from a design flow of 0.08 MGD to a design flow of 0.14 MGD while employing the extended aeration treatment technology. In addition, it concludes with maintaining existing onlot systems for the unsewered areas of the Borough. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Upper Saucon Township	5500 Camp Meeting Road Center Valley, PA 18034	Lehigh

Plan Description:

The Act 537 Plan Special Study, Reallocation of Sewage Capacity in Upper Saucon Township's Collection System to service Brinley Court and Traditions of America Land Development Projects (Special Study), dated November 2, 2017 with subsequent revisions, was approved by the Department on August 07, 2018. The Study Areas associated with this Special Study have been designated Existing Service Areas 11 and 12 (ESA-11 and ESA-12).

The Special Study reallocates Sewage Capacity in Upper Saucon Township's Sewage Collection System for the Brinley Court and Traditions of America Locust Valley Subdivisions. These are Residential Land Developments, consisting of 217 townhouse units for Brinley Court (49,042 GPD at 226 GPD/EDU) and 125 residential units for Traditions of America (28,250 GPD at 226 GPD/EDU). Prior to the Special Study, sewage from the Subdivisions would have entered the Borough of Coopersburg's Sewer System and reentered the Township's Sewer System. The Projects propose the construction and use of public sewer facilities, including two sewage pumping stations and associated force mains.

A gravity sewage collection system, consisting of about 3,777 LF of eight (8) inch sewer line, will be installed at Brinley Court until the system connects with the Brinley Court Pump Station. From the Pump Station, wastewater will be pumped into a four (4) inch force main (~ 3,400 LF in length) that proceeds in a westerly direction to Main Street, and then overlaid in a westerly direction to the proposed Traditions of America Locust Valley Pump Station, located at the intersection of Locust Valley Road and Gun Club Road.

A gravity sewage collection system, consisting of about 5,087 LF of eight (8) inch sewer line, will be installed at the Traditions of America Locust Valley Subdivisions until the system connects with the Traditions of America Pump Station, located at the intersection of Locust Valley Road and Gun Club Road. The Traditions of America Pump Station pumps wastewater into a four (4) and/or six (6) inch force main (~ 1,750 LF in length) that proceeds in a northerly direction along Gun Club Road until its intersection with White Oak Drive. The sewage enters Upper Saucon Township Municipal Authority's existing sewer system at Manhole 1. Wastewater will be treated at the Upper Saucon Sewage Treatment Authority's (USSTA's) Facility, which discharges to Saucon Creek.

With respect to the Traditions of America Locust Valley Subdivision, the Sewage Facilities Planning Module/Component 3 gave a Brief Project Description in Part A. Project Information.

The eleven (11) single family homes located in Springfield Township, Bucks County are not being approved from a Planning perspective. Wastewater from these homes will be disposed of via on-lot sewage disposal facilities. Much of the information included in the Special Study can be used during completion of the Sewage Facilities Planning Module/Component 2.

The Department's review of the Special Study has not identified any significant environmental impacts resulting from the proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the Upper Saucon Township Municipal Authority (USTMA) or the developer (for earthmoving activities).

PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate

that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. SPECIAL NOTICES

102/NPDES Stormwater and 105/Water Obstruction & Encroachment Public Hearing; Erosion and Sediment Control Permit Modification

The Department of Environmental Protection (Department) provides notice of approval for a permit modification for the following listed Chapter 102, Erosion and Sediment Control Permit, issued for the Pennsylvania Pipeline Project (PPP)/Mariner East II.

NPDES

<i>Permit No.</i>	<i>Applicant Name & Address</i>	<i>Counties</i>	<i>DEP Regional Office</i>
ESG0500015001	Sunoco Pipeline, LP (SPLP) 535 Fritztown Road Sinking Spring, PA 19608	Delaware and Chester	Southeast Region

This request, received October 11, 2017, is entitled Major Modification 1—East Swedesford Road—HDD S3-381. It involves a change in installation methodology for a portion of the project as a result of concerns raised by Aqua America (Aqua), the local water authority, regarding their Hillside Drive production well along East Swedesford Road.

Specifically, the proposed changes include an open trench installation with five conventional bore sections and one short HDD. The HDD will be conducted from Stream S-B79 and Lincoln Highway which is over 2,300 feet from Swedesford Road. Conventional bores will be added at Stations 15111+00 to 15112+25 (Exton Lane), Stations 15113+75 to 15117+00 (utilities avoidance), Stations 15121+00 to 15122+25 (E. Swedesford Road), and Stations 15135+00 to 15137+00 (sensitive area by stream S-B81) and 15137+00 to 15141+00 (stream S-B81 and wetland WL-B71).

Through the utilization of these alternative installation methods, SPLP proposes to avoid impacts to an Aqua water supply well, regulated resources, and sensitive areas.

For more detailed information regarding the Southeast (ESG0500015001) Chapter 102 permit related to this project, which is available in the Department's regional office and available online at dep.pa.gov/pipelines, contact the Southeast Regional Office, (484) 250-5160 to request a file review. This request, received October 18, 2017, is entitled Major Modification 2—North Pottstown Pike—HDD S3-370. This modification is a change in installation methodology for a portion of the project following more in-depth hydrogeology analysis and seismic testing.

Specifically, the proposed changes include an open trench installation with four conventional bore sections. Conventional bores will be added at Stations 15083+50 to 15085+50 (CH-0209 Parking Lot), Stations 15088+50 to 15089+50 (Stream S-C61), Stations 15092+00 to 15093+00 (Stream S-C59) and Stations 15093+50 to 15096+00 (Pottstown Pike/PA HWY 100).

Emergency Medical Services Operating Fund Funding Priorities for Fiscal Year 2018-2019

Under 28 Pa. Code §§ 1021.24 and 1021.25 (relating to use of EMSOF funding by a regional EMS council; and allocation of EMSOF funds to regional EMS councils), the Department of Health (Department) gives notice of priorities for the distribution by the regional emergency medical services (EMS) councils of funding from the Emergency Medical Services Operating Fund (EMSOF) for the fiscal year beginning July 1, 2018, and ending June 30, 2019.

EMSOF moneys are to be used to provide funding to maintain, improve and develop the quality of the EMS system within this Commonwealth. The Department finds that EMSOF is not sufficient to fully fund the EMS system. Therefore, it gives notice, under 28 Pa. Code § 1021.24(e), that recipients of EMSOF funding from regional EMS councils may be required to provide matching funds toward all purchases, acquisitions and projects for which the Department permits the use of EMSOF moneys.

Each regional EMS council shall prioritize the distribution of its EMSOF allocation based upon the Statewide EMS Development Plan and its regional EMS development plan, subject to the funding priorities set forth in this notice. By October 30, 2018, the regional EMS councils shall notify the providers and other appropriate entities of the established funding priorities, the application process, acquisition documentation requirements and processing deadlines. Each regional EMS council must complete all documents required for the distribution of EMSOF funding by June 30, 2019.

The Department may increase the amount of the initial payment or reimbursement from EMSOF based upon the EMS development plans (State and regional) or documented financial hardship of a provider of EMS. A provider of EMS that seeks additional funds due to financial hardship shall be required to submit a financial disclosure statement and other documentation deemed necessary by the Department.

A provider of EMS applying for EMSOF funding must be in full compliance with all regulations, policies and priorities of the State and regional EMS systems.

Funds for purchases, acquisitions and projects for the fiscal year beginning July 1, 2018, and ending June 30, 2019, must have been expended or encumbered by the regional EMS council by June 30, 2019.

Funding Priorities

The following funding priorities are listed in order of current State priority. These priorities must be considered before there is any regional distribution of EMSOF moneys for initiatives that are not listed. All funding must be distributed in a manner consistent with the regional and Statewide EMS development plans. Consequently, if the priorities in this notice have been met and additional funding is available, the request to use EMSOF money towards lower priority items must still be supported by the Statewide and regional EMS development plans.

1. Recruitment and retention programs, including scholarships or tuition reimbursement for emergency medical responder (EMR), emergency medical technician (EMT), advanced emergency medical technician (AEMT) and paramedic (P) education in areas with higher than average prehospital personnel vacancy rates or other challenges associated with the provision of EMS primary education, or both, as determined by the regional EMS council and approved by the Department.

2. Costs associated with investigating a potential merger or consolidation of services. These costs include, but are not limited to, consulting fees, studies, legal fees and statistical analysis.

3. Costs associated with the actual merger or consolidation of services.

4. Development or improvement of an organizational risk management program (safety measures, hazard recognition or mitigation and the necessary organizational structure and support processes) proposed by an ambulance service. Proposals for funding must be comprehensive and include safe vehicle operations. Approval by the Department is required prior to funding. Equipment that is required to meet basic life support (BLS), intermediate advanced life support (IALS) and advanced life support (ALS) ambulance service licensure.

5. Capnography equipment (especially wave-form end-tidal CO₂ monitors).

6. Software or computer equipment to enable services to collect and transmit EMS patient care reports electronically.

7. Bariatric equipment to equip ambulances.

8. Replacement of an ambulance, for ambulance services, that is older than 10 years or has more than 200,000 miles on it. This allowance is limited to one per fiscal year.

When two or more ambulance companies have consolidated to create one entity, for the first 5 years after the ambulance companies completed consolidation, the entity may be deemed eligible to receive funding not to exceed

the amount of the combined total for which the individual companies would have been eligible had they not consolidated.

Emergency Preparedness and Response Funding Requests

Emergency preparedness and response funding requests must be based on local and response roles of services, regional needs and needs identified by threat vulnerability analysis. Purchases must be coordinated with county emergency, fire service, hazmat and hospital organizations in the applicant's service area to assure interoperability and to prevent duplication. Funding requests related to responding to all hazard and emergency preparedness must have a clear connection to the regional EMS catastrophic plan and the regional EMS development plan. Priority will be given to fund the ambulance services in each region that have committed to participating in the EMS strike team capability project and respond to requests for EMS, both interstate and intrastate, as identified in the State and regional mass casualty plans.

Provider Equipment

Purchases by providers of EMS are not limited to equipment. If a provider of EMS requests EMSOF moneys to purchase equipment, the Eligible Provider Equipment List included with this announcement identifies equipment for which EMSOF funds will be made available to purchase. This list provides the types of providers of EMS eligible for equipment purchases supported by EMSOF funding and the maximum allowable cost upon which the EMSOF contribution will be calculated.

EMSOF funds will fund 60% of the maximum allowable cost of an equipment item for rural providers and will fund 50% of the maximum allowable cost of an equipment item for nonrural providers. Providers of EMS that receive funding are responsible for the balance of the purchase price. The provider may purchase an item for an amount that exceeds the maximum allowable cost, but the provider will be responsible for any amount exceeding that figure. The last two columns of the Eligible Provider Equipment List identify the percentage of EMSOF contribution towards the purchase price, up to the maximum allowable cost of the item, based upon whether the provider operates in a rural or nonrural area.

Examinations

Funding may be provided to EMS agencies to cover the cost to their personnel of the State written test for certification as a P, prehospital physician extender (PHPE), prehospital registered nurse (PHRN), AEMT, EMT and EMR at 100% of the cost as established by the National Registry of EMTs (NREMT). Funding for examinations is limited to two testing attempts per individual seeking certification.

Medical Director

The maximum allowable cost for an EMS agency to contract for medical director oversight is \$12,000 for Fiscal Year 2018-2019.

DEPARTMENT OF LABOR AND INDUSTRY

Unemployment Compensation; Work Registration Requirement

Section 401(b)(1)(i) of the Pennsylvania Unemployment Compensation Law (act) (43 P.S. § 801(b)(1)(i)), requires that as a condition to receiving unemployment compensation (UC) benefits, a claimant must register for employment search services offered by the Pennsylvania CareerLink® system or its successor agency within 30 days after the claimant's initial application for benefits (work registration requirement).

The Department of Labor and Industry (Department) promulgated 34 Pa. Code § 65.11(c) (relating to active search for work), which implements the work registration requirement and provides for disqualification from UC benefits if a claimant fails to comply with this requirement.

Section 65.11(f)(4) of 34 Pa. Code specifies that to satisfy the work registration requirement, a claimant in a labor market located outside this Commonwealth is required to register for employment search services with the employment service that serves the claimant's labor market in addition to registering with the Pennsylvania CareerLink® system.

Section 401(b)(6) of the act and 34 Pa. Code § 65.11(f)(6) provide that the Department may waive or alter the requirements of section 401(b) of the act or 34 Pa. Code § 65.11, including the work registration requirement, in cases or situations with respect to which the Secretary of the Department (Secretary) finds that compliance with these requirements would be oppressive or inconsistent with the purposes of the act.

Because the employment search services provided by the Pennsylvania CareerLink® system primarily provide job listings in this Commonwealth and immediately surrounding areas, the Department recognizes that those services may be of limited value to a claimant in a labor market located outside of this Commonwealth.

Because the employment search services provided by the Pennsylvania CareerLink® system may be of limited value to a claimant in a labor market located outside this Commonwealth and failure to register disqualifies a claimant from UC benefits, the Secretary finds that the requirement in 34 Pa. Code § 65.11(f)(4) for a claimant in a labor market located outside this Commonwealth to register with the Pennsylvania CareerLink® system is oppressive or inconsistent with the purposes of the act.

Accordingly, under to section 401(b)(6) of the act and 34 Pa. Code § 65.11(f)(6), the Secretary does hereby order and direct that the requirement in 34 Pa. Code § 65.11(f)(4) for claimants in labor markets located outside this Commonwealth to register with the Pennsylvania CareerLink® system is waived. This waiver shall apply to applications for UC benefits filed on or after the date of publication of this notice in the *Pennsylvania Bulletin*. The requirement in 34 Pa. Code § 65.11(f)(4) for the claimants to register with the employment service that serves the claimant's labor market remains in effect.
