### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

#### UNDER ACT 2, 1995 PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of

the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### **MINING ACTIVITY NPDES DRAFT PERMITS**

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or

## Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. ### Availability of Grants through the Driving PA Forward Class 8 Truck and Transit Bus Grant Program

The Department of Environmental Protection (Department) announces an opportunity to apply for \$6.4 million in grants offered through the Class 8 Truck and Transit Bus Grant Program (Program), one of the new programs under the Driving PA Forward Initiative. This funding is available for eligible diesel emission reduction projects that will improve air quality and protect public health and the environment by reducing emissions from diesel-powered vehicles and engines.

The Department is seeking applications for projects that will replace or repower eligible diesel-powered Class 8 trucks or transit buses. The majority of the fleet's annual operation time must occur within this Commonwealth. Public and private entities that operate eligible

diesel-powered vehicles throughout this Commonwealth should apply. These entities may include school districts, municipal authorities, political subdivisions, State agencies, nonprofit entities, corporations, limited liability companies or partnerships incorporated or registered in this Commonwealth, air quality or transportation organizations, and metropolitan or rural planning organizations.

The Department will not reimburse grant recipients for project costs incurred prior to the grant performance period set forth in the applicable grant agreement. The Program guidelines and application instructions are available on the Department's Driving PA Forward webpage at [www.depgis.state.pa.us/DrivingPAForward/](http://www.depgis.state.pa.us/DrivingPAForward/) or by contacting the Bureau of Air Quality at [ra-epvwmitigation@pa.gov](mailto:ra-epvwmitigation@pa.gov) or (717) 787-9495.

A webinar on the Program will be held on Tuesday, December 4, 2018, from 10:30 a.m. to 12 p.m. See the Department's previously listed webpage for registration information.

Applications must be submitted through the Department of Community and Economic Development's Electronic Single Application web site, eGrants at <https://www.esa.dced.state.pa.us/Login.aspx>. The Program will remain open continuously through the end of 2019, or until allotted funds are exhausted. The Department will review and score applications after each submission period end date. Submission period end dates are 4 p.m. on January 11, 2019, May 10, 2019, and September 23, 2019.

### **Proposed State Implementation Plan Revision; Redesignation Request and Maintenance Plan for the Lebanon County Nonattainment Area for the 2012 Annual Fine Particulate Matter National Ambient Air Quality Standard; Public Hearing**

The Department of Environmental Protection (Department) is seeking public comment on a redesignation request and a proposed revision to the State Implementation Plan (SIP) concerning a maintenance plan demonstrating that the Lebanon County Area can maintain the 2012 annual fine particulate matter National Ambient Air Quality Standard (NAAQS) for the next 10 years as required under section 175A(a) of the Clean Air Act (42 U.S.C.A. § 7505a(a)). This maintenance plan SIP revision will also establish new motor vehicle emission budgets for transportation conformity purposes in the Lebanon County Area.

Particulate matter includes both solid and liquid particles suspended in the air. Fine particle pollution describes particulate matter that is less than or equal to 2.5 micrometers in diameter (PM<sub>2.5</sub>). PM<sub>2.5</sub> concentrations above the Federal health-based standard pose a serious human health threat. On January 15, 2015, the United States Environmental Protection Agency (EPA) designated Lebanon County as a moderate nonattainment area for the 2012 annual PM<sub>2.5</sub> NAAQS (80 FR 2205, 2264-2265). The Lebanon County Area has since come into attainment based on 2014–2016 air quality monitoring data, which the Department submitted to the EPA on May 17, 2017. The EPA determined that Lebanon County has attained the 2012 annual PM<sub>2.5</sub> NAAQS based on 2014–2016 complete, quality assured and certified ambient air monitoring data that shows that the area is monitoring attainment (83 FR 9435 (March 6, 2018)).

With significant improvements in air quality in Lebanon County, this nonattainment area now meets the 2012 annual PM<sub>2.5</sub> NAAQS. Therefore, the Department intends to submit this proposed maintenance plan SIP revision and redesignation request for the Lebanon County Area to the EPA for approval.

This proposed SIP revision and redesignation request are available on the Department's web site at <http://www.ahs.dep.pa.gov/eComment> or by contacting Amanda Rodriguez at [amarodrigu@pa.gov](mailto:amarodrigu@pa.gov) or (717) 787-9702.

The Department will provide the opportunity for a public hearing to receive comments on the proposed SIP revision on December 28, 2018, at 1 p.m. at the Department's Southcentral Regional Office, 909 Elmerton Avenue, Harrisburg, PA. Persons wishing to present testimony should contact Amanda Rodriguez, P.O. Box 8468, Harrisburg, PA 17105 at (717) 787-9702 or [amarodrigu@pa.gov](mailto:amarodrigu@pa.gov) to reserve a time. Speakers will be limited to 5 minutes and should provide two written copies of their comments.

The hearing will be cancelled if no person has requested to testify at the hearing by 12 p.m. on Wednesday, December 26, 2018. The Department will provide public notice on the Bureau of Air Quality webpage at <http://www.dep.pa.gov/Business/Air/BAQ/Pages/default.aspx> if the hearing is cancelled. Persons may also contact Amanda Rodriguez at [amarodrigu@pa.gov](mailto:amarodrigu@pa.gov) or (717) 787-9702.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Amanda Rodriguez at [amarodrigu@pa.gov](mailto:amarodrigu@pa.gov) or (717) 787-9702. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

The Department must receive comments no later than December 28, 2018. Commentators are encouraged to submit comments using the Department's eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail at [ecomment@pa.gov](mailto:ecomment@pa.gov). Written comments may be submitted to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063. Use "Lebanon County PM<sub>2.5</sub>" as the subject line in written communication.

Each year the Department of Labor and Industry (Department) is required by the following statutes to publish changes to the base amounts triggering the requirement for public bids, telephonic bids or separate bids, or both, for certain contracts. The Department is required to announce the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U): All Items for the United States City Average for the 12-month period ending September 30 of each year. The Department utilizes the most current nonseasonally adjusted series, as published by the United States Bureau of Labor Statistics (BLS), which at present uses 1982—1984 as the index base period (set equal to 100). The percentage change for the 12-month period ending September 30, 2018, is 2.3%.

The change to the base rate is determined as follows:

1) Calculate the percentage change in CPI-U (I) from September 2017 to September 2018. This is derived as  $I = (CPI_{18} - CPI_{17}) / CPI_{17}$ , where the subscripts refer to September 2018 and 2017 values of CPI-U. As reported by the BLS these values are  $(252.439 - 246.819) / 246.819 = +5.620 / 246.819 = +2.22770\%$ , which when rounded to 1 decimal place = 2.3%. (This was also reported as 2.3% in Table A of the BLS news release on the Consumer Price Index Summary for September 2018.)

2) The legislation puts a floor of 0 and a cap of 3% on the percentage change to be utilized in the calculations (technically these restrictions are on the Preliminary Adjusted Base (PAB), defined in step 4, however this is mathematically equivalent). The truncated value of the percentage change to be used in the adjustment formula is denoted as PC, resulting in:

- a)  $PC = I$ , for  $0 \leq I \leq 3\%$ ,
- b)  $PC = 0$ , for  $I < 0$  and
- c)  $PC = 3\%$ , for  $I > 3\%$ .

3) The base value (either original for new legislation or the prior year's PAB) is designated as B and the product of B and PC (determined above) is P. (There are different values of the base depending on the entity and the type of bid, so technically B could be designated with two subscripts. For illustration purposes, the subscripts are omitted.) Then  $P = B \cdot PC$ . A common value for the base

amount in 2018 for a public bid is \$20,146.07. (The other two prior PABs, which are this year's bases for a variety of bid types, were \$10,889.77 and \$27,224.42.) For example, using  $B = \$20,146.07$ , results in  $P = \$20,146.07 \cdot 2.3\% = \$463.36$ .

4) Then the Preliminary Adjusted Base,  $PAB = P + B$ , which reduces to  $\$463.36 + \$20,146.07 = \$20,609.43$ .

5) The Final Adjusted Base Amount, FAA (which is used as the limit for the next year that is 2019), is the PAB rounded to the nearest 100. Therefore, the  $FAA = \$20,600$ .

## DEPARTMENT OF TRANSPORTATION

### Bureau of Driver Licensing; School Buses, 15 or Less Passengers, May Not Be Used for Commercial Driver's License Skills Testing

The Department of Transportation, Bureau of Driver Licensing, to meet Federal Motor Carrier Safety Administration requirements, is clarifying testing standards for school bus driver skills tests, as follows:

Effective immediately, any driver who wishes to obtain a Class C Commercial Driver's License (CDL) with the passenger endorsement must successfully complete a commercial skills test in a passenger vehicle designed to transport 16 or more passengers including the driver.

A person who passed a commercial skills test in a school bus designed to transport 11 to 15 passengers including the driver would previously be issued a Class C CDL with a passenger endorsement. While the Commonwealth's definition of a commercial motor vehicle (CMV) includes 11 to 15 passenger school buses, Federal regulations would not define such a vehicle as a CMV. Thus, an 11 to 15 passenger school bus would not meet the Federal requirement of testing in a representative vehicle.

Therefore, a school bus designed to transport 11 to 15 passengers including the driver cannot be used for a commercial skills test in this Commonwealth. A commercial skills test administered in an 11 to 15 passenger school bus will not be considered a valid test nor will the applicant be licensed as a Class C commercial driver.

## INSURANCE DEPARTMENT

### Pennsylvania Compensation Rating Bureau; Workers' Compensation Loss Cost Filings

On November 13, 2018, the Insurance Department received from the Pennsylvania Compensation Rating Bureau (Bureau) two filings for loss cost level changes for workers' compensation insurance. The filings were made in accordance with section 705 of the Workers' Compensation Act (77 P.S. § 1035.5).

The first filing, Bureau's Filing No. C-372, proposes an overall 10.02% decrease in collectible loss costs effective January 1, 2019, for both new and renewal business. The Bureau states that this filing is being made in response to the Bureau's determination that financial data reported by a Bureau member and used in the development of Filing No. C-370 (which was approved effective April 1, 2018) were incorrect. The Bureau states that the member's reported losses were, mistakenly, materially overstated, necessitating the preparation of Bureau Filing No. C-372.

The second filing, Bureau's Filing No. C-373, proposes an overall 5.24% decrease in collectible loss costs effective January 1, 2019, for both new and renewal business. The Bureau states that the 5.24% decrease is based on the savings achieved through the enactment of HB 1840 which was signed into law as Act 111 of 2018 on October 24, 2018.

Combined, the two filings propose an overall 14.74% decrease in collectible loss costs effective January 1, 2019.

The filings are available for review on the Bureau's web site at [www.pcrb.com](http://www.pcrb.com) in the "Filings" section.

Interested parties are invited to submit written comments, suggestions or objections to Eric Zhou, Insurance Department, Office of Insurance Product Regulation, 1311 Strawberry Square, Harrisburg, PA 17120, [gzhou@pa.gov](mailto:gzhou@pa.gov), within 15 days after publication of this notice in the *Pennsylvania Bulletin*.

## PENNSYLVANIA PUBLIC UTILITY COMMISSION

### Cancellation of Certificates of Public Convenience for Common Carriers; Failure to Operate or Report Any Operating Revenue

Public Meeting held  
November 8, 2018

*Commissioners Present:* Gladys M. Brown, Chairperson; Andrew G. Place, Vice Chairperson; Norman J. Kennard; David W. Sweet; John F. Coleman, Jr.

*Cancellation of Certificates of Public Convenience for  
Common Carriers; Failure to Operate or Report Any  
Operating Revenue; M-2018-3003742*

#### Final Order

*By the Commission:*

On August 23, 2018, the Commission entered a Tentative Order in the above-captioned proceeding to initiate the process for cancelling the Certificates of Public Convenience (CPC) of common carriers that failed to file required annual assessment reports and/or failed to establish that they have operated continuously. The Tentative Order was mailed to each carrier and was published in the *Pennsylvania Bulletin* on September 8, 2018. 48 Pa.B. 5683. Carriers were given 20 days from publication to challenge the cancellation of their CPCs, file a conforming Assessment Report, or, alternatively, request cancellation of their CPCs.

The carriers that were served with the August 23 Tentative Order were those carriers that failed to respond to the Commission's earlier Secretarial Letter dated May 31, 2018, requesting that they either file an assessment report detailing their intrastate operating revenues, as required by Section 510 of the Public Utility Code, 66 Pa.C.S. § 510, or notify the Commission of their desire to abandon their CPCs. Moreover, the Secretarial Letter warned the carriers that failure to comply would result in the Commission taking appropriate action to cancel their CPCs.

By way of background, the Public Utility Code requires that by March 31 of each year, every public utility must file a report detailing its gross intrastate operating revenue for the preceding calendar year. 66 Pa.C.S. § 510(b). This report is essential for the Commission to fund its operations and to properly allocate assessment costs among the regulated utility community. *Id.* In addition, common carriers are required to operate continuously and without unreasonable interruptions of service. 66 Pa.C.S. § 1501, 52 Pa. Code §§ 29.61-62. A carrier with no intrastate operating revenues for several years indicates that it is no longer providing jurisdictional public utility service in Pennsylvania and, therefore, a CPC for that entity is no longer "necessary or proper for the service, accommodation, convenience, or safety of the public." 66 Pa.C.S. § 1103(a). In addition, Commission regulations authorize the cancellation of a common carrier's CPC for failure to comply with operating and reporting requirements, as well as other provisions of the Public Utility Code. 52 Pa. Code §§ 29.12 (Motor Carriers of Passengers) and 31.12 (Motor Carriers of Property).

In response to the August 23 Tentative Order, the common carriers listed in Table 1 filed a conforming Assessment Report with the Commission reporting their gross intrastate operating revenue for 2017; the common

carriers listed in Table 2 filed an Assessment Report with the Commission reporting no gross intrastate operating revenue for 2017; the common carriers listed in Table 3 requested cancellation of their CPCs; and the common carriers listed in Table 4 did not respond to the Tentative Order in any way. The carriers listed in Table 5 appeared on the August 23 Tentative Order. However, their CPCs have already been cancelled through Commission action taken either shortly before or since publication of the Tentative Order in the *Pennsylvania Bulletin*. No further action is required with respect to these carriers.

The carriers listed in Table 1 are in compliance with the reporting requirements of 66 Pa.C.S. § 510(b) and the operational requirements of 66 Pa.C.S. § 1501 and 52 Pa. Code §§ 29.61-62. Therefore, this matter is closed with respect to these carriers. The carriers listed in Table 2 are provisionally in compliance with our reporting requirements. Therefore, this matter is closed with respect to these carriers. However, since these carriers may not be operating continuously, as required by Section 1501 of the Public Utility Code, 66 Pa.C.S. § 1501, and Sections 29.61-62 of the Commission's regulations, 52 Pa. Code §§ 29.61-62, they are advised that they must operate and report revenues from their operations or appropriate action will be taken against them.

Finally, the carriers listed in Tables 3 and 4 have either requested cancellation of their CPCs or have failed to respond to the Tentative Order, remaining in non-compliance. Moreover, each of these carriers have failed to report any intrastate operating revenues for several years. A carrier with no intrastate operating revenues for several years indicates that it is no longer providing jurisdictional public utility service in Pennsylvania and, therefore, a CPC for that entity is no longer "necessary or proper for the service, accommodation, convenience, or safety of the public." 66 Pa.C.S. § 1103(a). Each of these carriers have had ample notice and an opportunity to be heard via the May 31, 2018 Secretarial Letter and the August 23, 2018 Tentative Order. The carriers listed in Table 3 requested that their CPCs be cancelled. None of the carrier listed in Table 4 responded. The CPCs of both groups will be cancelled; *Therefore,*

*It Is Ordered That:*

1. This matter is closed for motor carriers listed in Table 1.

2. Motor carriers listed in Table 2 will provisionally retain their Certificates of Public Convenience and this matter is closed with respect to these carriers. These carriers are advised that they must operate and report revenues from their operations or appropriate action will be taken against them.

3. The Certificate of Public Convenience for each motor carrier listed in Table 3 is cancelled at the carrier's request. These carriers shall be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Fiscal & Assessments Section of the Bureau of Administration.

4. The Certificate of Public Convenience for each motor carrier listed in Table 4 is cancelled for noncompliance with the reporting and operating requirements of the Public Utility Code and Commission regulations. These carriers shall be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Fiscal & Assessments Section of the Bureau of Administration.

5. The Secretary serve a copy of this Final Order upon the Bureau of Investigation & Enforcement, the Bureau

of Technical Utility Services, the Bureau of Administration, Department of Revenue—Bureau of Corporation Taxes, Department of Transportation, and all motor carriers listed in Tables 1—4. The Final Order shall be filed at each carrier's docket number.

6. The Secretary shall publish a copy of this Final Order in the *Pennsylvania Bulletin*.

## PENNSYLVANIA PUBLIC UTILITY COMMISSION

### Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security or Insufficient Financial Security Amount

Public Meeting held  
November 8, 2018

*Commissioners Present:* Gladys M. Brown, Chairperson;  
Andrew G. Place, Vice Chairperson; Norman J. Ken-  
nard; David W. Sweet; John F. Coleman, Jr.

*Electric Generation Supplier License Cancellations of  
Companies with an Expired Financial Security or  
Insufficient Financial Security Amount; M-2018-2640827*

#### Tentative Order

*By the Commission:*

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a

bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA 17120 prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferable in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of October 30, 2018, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount directed by the Commission, to replace its expired bond.

*Supplier Table—List of Electric Generation Suppliers*

<i>Docket Number</i>	<i>Company Name</i>	<i>Financial Security Expiration Date</i>	<i>Commission Approved Amount</i>

A-2009-2137539	REFLECTIVE ENERGY SOLUTIONS, LLC	10/16/2018	Yes
A-2012-2313495	URISH POPECK & CO, LLC	4/20/13	Yes

\*Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 90-day Security Renewal Notice Letter to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security, must be filed within 30 days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for each EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

*It Is Ordered That:*

1. Cancellation of the Electric Generation Supplier Licenses of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, the Department of Revenue—Bureau of Corporation Taxes, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and publish a copy of this Tentative Order in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment or the filing of an approved security within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary.

4. Upon entry of the Final Order described in Ordering Paragraph No. 3 above, each company listed in the Supplier Table will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

5. Upon entry of the Final Order described in Ordering Paragraph No. 3, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.
