### Agricultural Product Promotion, Education and Export Promotion Matching Grant Program; 2019-2020 Application Period

The Department of Agriculture (Department) announces the program requirements and application period for grants under the Pennsylvania Agricultural Product Promotion, Education and Export Promotion Matching Grant Program (Program). The Program is authorized under a Fiscal Year (FY) 2019-2020 budgetary appropriation to the Department for agricultural product promotion, education and exports. The Department intends to make up to \$300,000 available for grants under the Program.

#### 1. Program objectives.

(a) *Purpose.* The Department will award grants to provide matching funds to nonprofit agricultural product promotion and marketing organizations to reimburse up to 50% of the cost of projects intended to:

(1) increase consumer awareness of Pennsylvania agricultural products and thereby increase sales of these agricultural products;

(2) educate producers and consumers with respect to Pennsylvania agricultural products; or

(3) otherwise facilitate the growth and development of export markets for Pennsylvania agricultural products.

(b) *Applicants.* Grants will be awarded to Pennsylvania nonprofit agricultural product promotion and marketing organizations.

#### (c) FY 2019-2020 project funding priorities.

(1) The Department will prioritize eligible projects for promotion, education and export market development of Pennsylvania agricultural products through exhibits, displays and vending operations at the 2020 State Farm Products Show to receive grant funding.

(2) The Department will also prioritize eligible projects that improve food security in this Commonwealth, including projects that improve access to nutritious food, decrease food waste in schools and other settings, and that leverage Federal, community and State resources through public-private partnerships.

(d) *Competitive program.* The Program is competitive. Grant requests and related documentation will be reviewed by the Secretary, who will approve or reject each grant request.

(e) *Funds available basis.* Grants will not be awarded unless funds are available for this purpose. The Department need not expend all the funds that are available for the Program.

2. *Definitions.* The following words and terms have the following meanings:

*Applicant*—A Pennsylvania nonprofit agricultural product promotion and marketing organization which applies for grant moneys under the Program.

*Bureau*—The Bureau of Market Development of the Department.

*Pennsylvania agricultural products*—Any of the following agricultural commodities grown, processed or manu-

factured within this Commonwealth: agricultural, horticultural, aquacultural, viticulture and dairy products, livestock and the products thereof, ranch raised fur-bearing animals and the products thereof, the products of poultry and bee raising, forestry and forestry products, and all products raised or produced on farms intended for human consumption, and the processed or manufactured products thereof intended for human consumption, transported or intended to be transported in commerce.

*Pennsylvania nonprofit agricultural product promotion and marketing organization*—A nonprofit business organization having its principal business offices within this Commonwealth, or having 50% or more of its membership within this Commonwealth, or having 50% or more of the agricultural products which it promotes or markets produced within this Commonwealth, and having as its members groups, individuals or organizations that serve to distribute a Pennsylvania agricultural product in commerce. These members may include wholesalers, distributors, brokers, retailers, processors, growers and producers.

*Secretary*—The Secretary of the Department.

3. *Limitations on grants.* The minimum amount of a matching grant is \$1,000. A matching grant is a reimbursement grant, meaning no payment of grant funds will be made by the Department until the subject project is completed and the applicant documents the completion of the project to the Department in accordance with this notice.

#### 4. Uses of matching grant moneys.

(a) *Conformity to application.* Matching grant moneys awarded to an applicant shall be expended solely to reimburse up to 50% of the cost of the specific project described in the grant application.

(b) *Allowable expenditures of grant moneys.* Grant moneys shall be used for one or more of the following purposes described in the grant application:

(1) To pay the cost of the specific project described in the grant application.

(2) To pay the cost of a portion of a Pennsylvania nonprofit agricultural product promotion and marketing organization's contribution to a National or regional agricultural product promotion and marketing project.

(3) To pay the cost of programs conducted by an applicant to educate producers and consumers with respect to Pennsylvania agricultural products.

(4) To pay the cost of trade shows conducted or attended by an applicant, or other projects to facilitate the growth and development of export markets for Pennsylvania-produced agricultural products.

(c) *Prohibited expenditure of grant moneys.* Grant moneys may not be used to defray the costs of employing temporary or permanent personnel.

#### 5. Applications.

(a) *Application required.* Interested Pennsylvania nonprofit agricultural product promotion and marketing organizations shall submit grant applications to the Department. An application shall include a detailed work plan and project budget.

(b) *Project commencement and completion dates.* An application shall designate November 1, 2019, or a later

date, as the project start date and June 30, 2020, or earlier, as the project completion date. Program grant funds will not be awarded or paid for project activities that occur before the stated project start date or beyond the stated project completion date.

(c) *Electronic applications only.* Interested applicants must submit a complete electronic project proposal and grant application using the Department's Electronic Single Application web site at <https://www.esa.dced.state.pa.us/login.aspx?var=5>.

(d) *Application window.* Applications shall be submitted by 4:59 p.m. on Friday, November 1, 2019.

(e) *Additional documentation.* The Secretary may require that an applicant submit additional documentation to complete or verify an application. The additional documentation may include a letter, affidavit or other documentation:

(1) Verifying that an applicant is a Pennsylvania nonprofit agricultural product promotion and marketing organization.

(2) Verifying the activities and location of offices of an applicant.

(3) Confirming that the applicant for a matching grant has secured funds in an amount at least equal to the matching grant amount sought for the project.

#### 6. *Review of application.*

(a) *Transmittal of application to Bureau.* When the Bureau receives a complete and accurate grant application, it will forward this application, together with supporting documentation submitted therewith, to the Secretary for review. The Bureau may also forward a recommendation as to whether the application should be approved or rejected, whether the grant should be in an amount less than requested and whether special restrictions or limitations should be placed on the grant.

(b) *Factors.* The Secretary will review and evaluate the application and supporting documentation and may consider the following factors, among others, in deciding whether to approve or reject the grant request:

(1) The relevance of the project to the promotion or marketing of Pennsylvania agricultural products.

(2) The innovativeness of the project described in the application.

(3) The scope of the project and the number of people who will be exposed to or affected by the project described in the application.

(4) The impact which the project will have upon the promotion and sales of the Pennsylvania agricultural products to which the project is targeted.

(5) The availability of full funding for the project from the applicant or from any source other than the Grant Program.

(6) The apparent ability of the applicant to complete the project as described in the application or, in the case of a grant to fund a National or regional agricultural product promotion or marketing project, the apparent ability of the entity with primary responsibility for the project to complete it.

(7) The overall performance of the project if the project had received funding through any other grant program administered by the Department in a previous fiscal year.

(8) Projects that are joint efforts between two or more Pennsylvania nonprofit agricultural product promotion and marketing organizations may be given preference over projects involving only one organization.

(9) Projects where reference to the Department as a source of funding can practicably be made in promotional materials or broadcasts, and that would make such a reference, may be given preference over projects that would not make such a reference.

(10) Whether the project has been assigned priority for funding in FY 2019-2020, as previously described in Paragraph No. 1(c).

(c) *Decisions.* The Secretary may approve a grant in an amount less than that requested in the grant application. In addition, the Secretary may impose restrictions or special conditions upon the issuance of a grant. The Secretary will review all recommendations of the Bureau, but will have final authority to accept or reject these recommendations.

#### 7. *Notice of disposition of application.*

The Department will mail written notice of the acceptance or rejection of a grant application by Monday, December 2, 2019. This notice will be by regular mail to the address provided by the applicant in the grant application.

#### 8. *Grant agreement.*

After the Secretary approves a grant application, and as a precondition to the Department's release of grant moneys to a successful applicant, the Department and the applicant will execute a written or electronic grant agreement which describes the terms and conditions subject to which the grant is made. The grant agreement shall contain and conform to the requirements of this notice, and shall also contain special terms and conditions as required by the Secretary.

#### 9. *Verification of project completion.*

(a) *General.* Within 30 days of completion of the subject project, the applicant shall provide the Department with proof of the completion of the project and eligibility to receive reimbursement grant funds from the Department.

(b) *Required documentation.* The proof described in subsection (a) shall consist of:

(1) copies of invoices for goods or services directly related to the project, confirming that the total billed amount is at least twice the amount of the grant, along with the written certification of the president or treasurer of the applicant that the goods or services that are the subject of the invoices have been delivered or provided to the applicant; and

(2) a certificate of completion, signed by its president or treasurer, verifying completion of the subject project and stating that the grant funds will reimburse the applicant for a portion of the costs incurred by the applicant in completing the subject project.

10. *Delivery of grant funds by the Department.* The Department will pay the grant amount to the applicant in a single payment within 45 days of receiving the proof of completion previously described in Paragraph No. 9.

11. *Questions and additional information.* Questions on this Program, including on the online application process, may be directed to Morgan Sheffield, Bureau of Market Development, Department of Agriculture, 2301 North Cameron Street, Room 310, Harrisburg, PA 17110-9408, (717) 787-3568.

**LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 1**

**Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup

standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department Regional Office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

#### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by

publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**Notice of Intent to Issue A Plan Approval for a Title V Facility and Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen, Volatile Organic Compounds, and Notice of Public Hearing**

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), that the Department of

Environmental Protection (DEP) intends to issue a **Plan Approval # 39-00006F to American Craft Brewery LLC**, 7880 Penn Drive, Breinigsville, PA 18031-1508, for their plant located in Upper Macungie Township, **Lehigh County**. The facility currently operates pursuant to a Title V Operating Permit No. 39-00006. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 39-00006F is to install a new can line as Source ID 164, ancillary equipment to provide packaging flexibility, and to increase annual throughput of total produced and total packaged product. The increase in the permitted limit on annual product throughput will allow for greater brewing, fermentation, blending, and packaging flexibility at the facility. The company also proposes to install an additional new two-deck pasteurizer in conjunction with the new can line. Although the pasteurizer is not a direct source of emissions, the additional steam required to operate the pasteurizer will result in an incremental increase in emissions from the boilers.

Following table represent emissions increases due to proposed project.

<i>Pollutant</i>	<i>NO<sub>x</sub></i>	<i>VOCs</i>	<i>SO<sub>2</sub></i>	<i>PM</i>	<i>PM<sub>10</sub></i>	<i>PM<sub>2.5</sub></i>	<i>CO</i>
Project Emissions Increase (tpy)	4.67	30.06	0.06	0.5	0.80	0.75	2.98

The total net VOC emissions increase for this project does not trigger a significant VOC emission increase as a major modification, but it does trigger a de minimis emissions increase of VOCs. When considering this project's VOC emission increases along with other de minimis VOC increases and decreases over the past 10-year period, those emission increases in aggregation total 68.69 tpy, which exceeds the 40 tpy VOC significance threshold which requires offsetting with 79 tons of VOC emission reduction credits in accordance with 25 Pa. Code Subchapter E requirements.

A review of the information submitted by the company indicates that the proposed project will meet all applicable State and Federal air quality requirements. Based upon these findings, DEP plans to approve the application and issue a permit for the facility.

In order to assure compliance with the applicable standards, DEP will place conditions in the plan approval.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701.

The proposal also includes Approval of a Reasonably Available Control Technology (RACT II) plan for the company.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for their beer, FMB and hard cider manufacturing and packaging facility located in Upper Macungie Township, Lehigh County.

The SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT approval for the facility, which are determined to satisfy the requirements for the 1997, 2008 and 2015 National Ambient Air Quality Standards (NAAQS) for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit (39-00006) for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

<i>Source</i>	<i>New RACT Limit Proposed for VOC emissions</i>
Fermentation, Source Id 121	Maintain and operates the source in accordance with the manufacturer's specification and with good operating practices.
Off Spec Product Destruction, Source Id 127	Maintain and operates the source in accordance with the manufacturer's specification and with good operating practices.

Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen, Volatile Organic Compounds, Notice of Public Hearing, and Notice of Intent to Issue Revised Air Quality Operating Permit 65-00860.

Approval of a Reasonably Available Control Technology (RACT II) plan for Hydro Carbide Inc located in Unity Township, Westmoreland County.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the cemented tungsten carbide facility owned and operated by Hydro Carbide Inc at 4439 State Route 982, Latrobe, PA 15650 in Unity Township, Westmoreland County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997, 2008, and 2015 National Ambient Air Quality Standard (NAAQS) for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into the synthetic minor operating permit (65-00860) for the facility.

The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania’s State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

**MINING ACTIVITY NPDES DRAFT PERMITS**

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91–96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document

cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. ## FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501–508 and 701–704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. ### Federal Consistency under the Coastal Zone Management Act; Development of AutoPort Facility at Philadelphia Navy Yard

This notice is published under section 306(d)(14) of the Federal Coastal Zone Management Act of 1972 (CZMA) (16 U.S.C.A. § 1455(d)(14)), regarding public participation during consistency determinations. The Department of Environmental Protection (Department), Coastal Resources Management Program has received notice that PhilaPort, The Port of Philadelphia, is proposing development of the AutoPort Facility at Site 2 of the Southport redevelopment at the Philadelphia Navy Yard.

The applicant is seeking authorization from the United States Army Corps of Engineers to place fill in 2.81 acres of jurisdictional wetlands and place approximately 3,850 cubic yards of fill within the default floodway of the Delaware River to provide required temporary automobile storage on Site 2 of the Southport redevelopment at the Philadelphia Navy Yard. The project will include raising the parking surface elevation above the regulatory 100-year floodplain and permanently filling the isolated wetlands. Four new stormwater outfalls with water quality filtration are proposed to drain the improved parking area and Vehicle Processing Center. Mitigation for permanent impacts to the jurisdictional wetlands is proposed to be accomplished by establishing a tidal marsh mitigation project in Neshaminy State Park, which will create 3.49 acres of tidal marsh wetlands fringed by 0.89 acre of forested wetlands.

This project is subject to Department review for Federal consistency because it is a Federal license and permit activity and will have reasonably foreseeable effects on the Commonwealth's coastal resources or uses.

In accordance with section 307 of the CZMA (16 U.S.C.A. § 1456) and the National Oceanic and Atmospheric Administration (NOAA) regulations in 15 CFR Part 930, Subpart D (relating to consistency for activities requiring a Federal license or permit), PhilaPort, The Port of Philadelphia, has determined that the proposed activity will be conducted in a manner consistent with the applicable enforceable policies of the Commonwealth's NOAA-approved Coastal Resources Management Program. Interested parties may request a copy of the Federal Consistency Certification from the Department contact listed as follows.

Questions regarding this review should be directed to Matthew Walderon, Federal Consistency Coordinator, RA-Fed\_Consistency@pa.gov or (717) 772-2196.

The Department will consider all comments received on or before Tuesday, October 15, 2019, before issuing a final Federal consistency concurrence or objection. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the originator's name and address. Commentators are encouraged to submit comments using the Department's online eComment tool at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov). Written comments may be submitted by mail to the Department of Environmental Protection, Policy Office, 400 Market Street, P.O. Box 2063, Harrisburg, PA 17105-2063.

### Public Notice of Draft NPDES General Permit for Stormwater Discharges Associated with Small Construction Activities (PAG-01)

The Department of Environmental Protection (Department) is announcing the availability of a draft National Pollutant Discharge Elimination System (NPDES) General Permit for Stormwater Discharges Associated with Small Construction Activities (PAG-01). To access the draft PAG-01 and related documents, visit the Department's eLibrary at [www.depgreenport.state.pa.us/elibrary/](http://www.depgreenport.state.pa.us/elibrary/) (select "Permit and Authorization Packages," then "Clean Water," then "PAG-01 NPDES General Permit (Draft)").

The PAG-01 General Permit, which is a proposed general permit, is intended to provide NPDES permit coverage to persons discharging stormwater associated with small construction activities to surface waters of this Commonwealth in satisfaction of State NPDES permit requirements in 25 Pa. Code §§ 92a.1(b) and 102.5 (relating to purpose and scope; and permit requirements) and Federal NPDES permit requirements in 40 CFR 122.26(b)(15) (relating to storm water discharges (applicable to State NPDES programs, see § 123.25)). The PAG-01 General Permit would apply to eligible projects that propose less than 5 acres of earth disturbance and will have impervious surface areas no greater than 30,000 square feet within the area of disturbance and impervious surface areas no greater than 12% of the project site area.

If a project is ineligible for PAG-01 and requires NPDES permit coverage, an applicant may, submit a Notice of Intent (NOI) for coverage under the PAG-02 General Permit, if eligible, or may submit an application for an individual NPDES permit. A project may be eligible for PAG-01 coverage if stormwater and non-stormwater discharges will conform to the requirements of the General Permit, if technical criteria are met, and if the prohibitions identified in the General Permit do not apply.

The NOI to use the PAG-01 General Permit for NPDES permit coverage would be submitted by applicants to county conservation districts (CCD) that are delegated by the Department to complete reviews of NPDES permit applications under 25 Pa. Code Chapter 102 (relating to erosion and sediment control), or in the absence of a delegated CCD, a regional office of the Department. A 30-calendar-day or 60-calendar-day review period would then apply depending on specific factors as explained in the NOI instructions. An eligible PAG-01 applicant may not begin a new discharge under the General Permit until the following conditions have been met:

1. A pre-application meeting or call has been held, unless waived in writing by the Department/CCD.
2. The applicant has submitted a complete NOI package—Department document 3800-PM-BCW0404b and its required attachments—in accordance with the requirements of the General Permit and the NOI instructions;
3. The applicant has received written approval of coverage under PAG-01 signed by the appropriate Department/CCD manager or supervisor;
4. All other permits and approvals relating to the earth disturbance activities reported in the NOI—including but not limited to sewage planning approval required by the Pennsylvania Sewage Facilities Act (35 P.S. §§ 750.1—750.20a), if applicable, have been obtained.

5. A pre-construction meeting has been held unless waived in writing by the Department/CCD.

The PAG-01 General Permit includes: technology-based and water quality-based effluent limitations in the form of erosion and sediment controls and post-construction stormwater management (PCSM) best management practices (BMP); and requirements established in Federal regulations at 40 CFR Part 450 (relating to construction and development point source category). Site inspections must occur on a routine weekly basis, following measurable storm events and in response to an identified deficiency in order to document corrective action. Except for sites enrolled in the Department's Land Recycling and Environmental Remediation Standards (Act 2) program, all fill material excavated and used onsite, imported to the site and exported from the site, must meet the definition of clean fill. The Department/CCD may require cessation of earth disturbance activities where required plans are not in place, where plans are significantly deficient and could result in environmental harm, or where potential or actual harm is identified during onsite inspections. Other permit conditions include but are not limited to long-term operation and maintenance of PCSM BMPs, minimization of soil compaction, requirements related to offsite construction support activities and construction dewatering requirements.

To be eligible for PAG-01, applicants must: control post-construction stormwater by utilizing specific PCSM BMPs that have been evaluated by the Department to protect and maintain water quality and that satisfy 25 Pa. Code Chapter 102 regulatory requirements; or restore the area of disturbance to approximate original condition. PAG-01 may not be used for project sites located within watersheds of High Quality Waters or Exceptional Value Waters (for example, special protection waters) under 25 Pa. Code Chapter 93 (relating to water quality standards).

Applicants must submit a \$500 administrative filing fee to the delegated CCD with the NOI package, as well as any additional fees the CCD requires. Applicants must also submit a fee in the amount of \$100 for each disturbed acre to the Department. If a project is located in a county without a delegated CCD, both the disturbed acre fee and the administrative filing fee will be submitted to the Department. In addition, an annual fee of \$250 is due each year to a delegated CCD, where applicable, by January 31 until a Notice of Termination is submitted by the permittee and is approved by the CCD.

#### *Written Comments*

Interested persons are invited to submit written comments regarding the draft PAG-01 General Permit and associated documents through Monday, October 28, 2019. Comments submitted by facsimile will not be accepted. All comments, including comments submitted by e-mail, must include the commentator's name and address. Commentators are encouraged to submit comments using the Department's online eComment tool at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov). Written comments can be mailed to the Department of Environmental Protection, Policy Office, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063.

Written comments submitted during the 30-day public comment period will be retained by the Department and considered before finalization of the General Permit. The Department will provide an opportunity for any interested person or group of persons, any affected State, any

affected interstate agency, the United States Environmental Protection Agency or any other interested agency, to request or petition for a public hearing with respect to the draft General Permit. The request or petition for public hearing, which must be filed within the 30-day period allowed for filing of written comments, must indicate the interest of the party filing the request and the reasons why a hearing is warranted. A hearing will be scheduled if there is significant public interest.

Questions regarding the draft PAG-01 can be directed to Sean Furjanic at sefurjanic@pa.gov or (717) 787-2137.

**Pennsylvania Liquor Control Board  
Regulation # 54-90 (IRRC # 3236)  
Responsible Alcohol Management Program  
September 18, 2019**

We submit for your consideration the following comments on the proposed rulemaking published in the July 20, 2019 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Pennsylvania Liquor Control Board (Board) to respond to all comments received from us or any other source.

#### GENERAL

**1. Section 5.202. Definitions.—Consistency with statute; Clarity; Reasonableness.**

*Material change*

The definition of “material change” includes changes to “the order of the curriculum” of Responsible Alcohol

Management Program (RAMP) server/seller training for alcohol service personnel. Why does reordering the curriculum, without a change to substance, constitute a material change? Since a sizeable fee is required, we ask the Board to explain the reasonableness of considering reordered curriculum a material change.

Additionally, the definition states that a material change “*may include* the addition of unapproved information or the deletion of approved information.” (Emphasis added.) We have two concerns. First, “may” indicates a discretionary action. We ask the Board to revise this definition to omit the discretionary language. Second, classroom instructors and online training providers are required to submit changes to the standard and approved alternative curriculums to the Board for approval. Are there additional modifications the Board considers to be material changes? To improve the clarity of the definition, we ask the Board to add additional examples to the definition.

### *Responsible server practices*

The definition of “responsible server practices” is proposed to be deleted. However, Section 471.1(a) of the Liquor Code (47 P.S. § 4-471.1(a)) requires that “newly hired alcohol service personnel [shall be oriented] to responsible server practices, *as the term is defined by the [B]oard, through regulation.*” (Emphasis added.) The Preamble to the proposed regulation does not address this proposed deletion. We ask the Board to explain in the Preamble to the final regulation the reasonableness of deleting this term which the Liquor Code directs the Board to define by regulation.

### **2. Section 5.203. Mandatory training for managers.—Clarity.**

Subsection (b) states that “licensees must ensure that the manager has successfully completed owner/manager training within the past [two] years.” We ask the Board to clarify in the Preamble to the final regulation that owner/manager training expires after two years and that a manager must renew owner/manager training every two years.

This comment also applies to Section 5.204(b) (relating to mandatory training for alcohol service personnel).

### **3. Section 5.204. Mandatory training for alcohol service personnel.—Clarity; Reasonableness.**

Subsection (c) states, “If a licensee obtains an off-premises catering permit for use at a catered function, every *employee whose primary responsibility at the catered function is to sell and/or serve alcoholic beverages or check identifications of those seeking to enter the catered function* must have successfully completed server/seller training within [two] years prior to the date of the catered function.” (Emphasis added.) The Board defines the term “alcohol service personnel” as “[a]ny employe. . . whose primary responsibility includes the resale, furnishing or serving of liquor or malt or brewed beverages. It shall also mean any employe. . . whose primary responsibility is to ascertain the age of individuals who are attempting to enter the licensed premises.” We ask the Board to use the defined term “alcohol service personnel” or to explain in the Preamble to the final regulation why it is reasonable not to use the defined term.

Similarly, we ask the Board to clarify the final regulation by replacing “employee” with the defined term “alcohol service personnel” in Section 5.205(b)(1)(iii) (relating to RAMP certification prerequisites) where the regulation states, “Instruction will be provided on techniques to ensure that employees are complying with house rules. . . .”

### **4. Section 5.205. RAMP certification prerequisites.—Protection of public health, safety and welfare; Clarity; Reasonableness; Implementation procedures.**

Subsection (b)(3) addresses new employee orientation. We have two concerns.

First, Subparagraph (i) requires a licensee to “review an orientation checklist with all alcohol service personnel” when the licensee is preparing to apply for RAMP certification or renewal. Is a licensee required to review the orientation checklist with new employees or all employees? Section 471.1(a) of the Liquor Code only requires orientation for new employees. Further, under Subparagraph (ii), a licensee shall conduct new employee orientation within 30 days of hire, which is separate from the licensee applying for RAMP certification or renewal.

We ask the Board to clarify in the final regulation the type of employee who receives orientation and the timeframe for completion of orientation.

Second, Subparagraph (ii) provides that a licensee shall ensure that new employee orientation—covering service to minors, service to visibly intoxicated patrons, acceptable forms of identification, carding practices and house policies—occurs “within 30 days of the employee’s hire.” Given that compliance with these standards is fundamental to an employee’s job duties and a licensee’s RAMP certification, is the Board ensuring public health, safety and welfare by providing this length of time for new employee orientation? We ask the Board to explain in the Preamble to the final regulation the reasonableness of this timeframe.

### **5. Section 5.206. RAMP certification.—Statutory authority.**

Subsection (c) appears to bind the Office of Administrative Law Judge to take official notice of the Board’s records with regard to licensee certification. We ask the Board to explain its statutory authority for this provision in the Preamble to the final regulation.

### **ONLINE TRAINING PROVIDERS AND PROGRAMS FOR SERVER/SELLER TRAINING**

### **6. Section 5.221. Online training provider application.—Economic or fiscal impacts; Reasonableness; Implementation procedures.**

This section addresses how an individual applies for authorization as an online training provider, including minimum qualifications related to age, education and experience. We have two questions. First, will the Board authorize a business as an online training provider? Second, if so, what are the minimum qualifications? We ask the Board to explain in the Preamble to the final regulation the implementation procedure for authorizing a business as an online training provider.

Subsection (a)(1) provides for an open enrollment period, as posted on the Board’s website, for applications from online training providers. The Board may “limit the number and frequency of open enrollment periods.” We have three concerns. First, is it reasonable for the Board to limit when applications may be submitted? Second, did the Board consider establishing a schedule for open enrollment and posting it on the Board’s website? Third, has the Board considered the economic impact upon prospective online training providers who will incur expenses developing an online training module without knowing when it may submit an application for authorization? We ask the Board to address these concerns in the Preamble to the final regulation. This comment also applies to Sections 5.213(c)(2)(ii), 5.222(e)(2), 5.225(c)(5), 5.227(d), 5.231(a)(1), 5.235(c)(4) and 5.236(d).

Subsection (b), regarding minimum qualifications, does not require an online training provider to attend owner/manager training, which is mandatory for classroom instructors under Section 5.234(7) (relating to classroom instructor responsibilities). Further, Section 5.234(6) requires classroom instructors to attend instructor meetings scheduled by the Board. Why is this Board-provided instruction not relevant for an online training provider? We ask the Board to explain in the Preamble to the final regulation the reasonableness of excluding online training providers from these requirements.

**7. Section 5.223. Minimum standards of the online training program.—Clarity.**

Subsection (e)(1) states, “The online training program must comply with the most current version of the [Board’s] Web Trainee Transfer Service requirements, as referenced in [Section] 5.222(a) (relating to online training program approval process).” Should this reference be to Section 5.213(a) (relating to alternative curriculum)?

**8. Section 5.224. Online training provider responsibilities.—Clarity; Need; Reasonableness; Implementation procedures.**

Paragraph (3) requires an online training provider to provide training to at least 225 students per year. We have three questions. First, how did the Board determine the number of students who must be trained? Second, what are the repercussions of not meeting this minimum? Third, why is there a need to set a minimum number of students per online training provider? We ask the Board to explain in the Preamble to the final regulation the need for and the reasonableness of this requirement.

Paragraph (4) requires an online training provider to send records regarding online training to the Board immediately following completion of online training. Subparagraph (i) provides that “records must be sent in real-time or in frequent batch submissions within 15 minutes after completion of the final examination.” Does the Board consider these requirements to be equal? Further, a commentator suggested that this requirement should be revised to allow online training providers to send records once per day to accommodate scheduled maintenance and downtime. We ask the Board to clarify in the final regulation the timeframe in which the online training provider is required to send final examination records.

Paragraph (7) requires an online training provider to resolve a technical support inquiry within one business day. A commentator expressed concern with implementing this requirement when correcting technical issues and communicating with students. The commentator suggested that two business days is a more reasonable timeframe. We note that Paragraph (8) does allow 48 hours for an online training provider to respond to e-mails, telephone calls or other contacts. We ask the Board to revise this paragraph as suggested by the commentator or to explain in the Preamble to the final regulation the reasonableness of the proposed timeframe.

Paragraph (10)(i) requires an online training provider to make changes to online training program content within 24 hours of being notified by the Board. Subparagraph (ii) requires the online training provider to limit public access to the online training program until the changes have been made and approved by the Board. A commentator stated that “[m]aking changes to a properly built and tested online course is nearly impossible to do in one day.” The commentator suggested that Subparagraphs (i) and (ii) be revised to allow the online training provider to submit a plan to the Board to implement changes, while allowing access to the previously-approved online training program. We ask the Board to explain in the Preamble to the final regulation the reasonableness of how this provision will be implemented.

Paragraph (10)(iii) directs an online training provider to “[r]efrain from making material changes to online training program content” without approval from the

Board or unless directed to by the Board. The online training provider is required to submit the material changes to the program for Board review and approval under Clause (A). Will the Board require the online training provider to follow the procedures for review and approval of an alternative curriculum in Section 5.213, including the \$250 fee in Subsection (b)? We ask the Board to explain in the Preamble to the final regulation how it will implement the provisions in this paragraph and Section 5.213.

Paragraph (11)(i) requires an online training provider to notify the Board not less than 30 days before an online training program is modified, enhanced or upgraded. We have three concerns. First, is a minimum 30-day notification period reasonable? Second, will the Board review and test the online training program following the completion of the system changes? Third, is the online training provider required to limit public access during this time? In the Preamble to the final regulation, we ask the Board to clarify how this provision will be implemented and to explain the reasonableness of this timeframe.

**9. Section 5.225. Renewal of authorization.—Economic or fiscal impacts; Clarity; Reasonableness; Implementation procedures.**

Subsection (b) states, “The online training provider shall submit, with the application for renewal of authorization, hard copy screen shots of the most recent [Board]-approved online training program with renewal. The online training provider shall submit no more than [two] screen shots per one side of an 8 1/2 by 11 inch piece of paper. The screen shots may be in color or black and white.” Since the online training program has already been approved by the Board, did the Board consider requiring the online training provider to certify that the same program will be used rather than submitting screen shots on paper?

We have several concerns related to Subsection (c) which addresses untimely applications for authorization renewal. Subsection (c) is proposed as follows:

(1) The [Board] may accept an application for renewal of authorization that is filed less than 30 days before the expiration of the current authorization, but not after expiration, if the applicant includes an additional filing fee of \$100.

(2) The [Board] may accept an application for renewal of authorization that is filed up to 30 days after the expiration of the current authorization if the applicant includes an additional filing fee of \$250.

(3) The [Board] will not accept applications for renewal of authorization that are filed more than 30 days after the expiration of the current authorization.

(4) As of the date of the expiration of an online training provider’s authorization, the following will no longer be valid:

(i) Training that is completed by a student after the date of expiration.

(ii) Any training vouchers issued by an online training provider that have not been redeemed and training completed.

(5) The [Board] will not accept, for a minimum of [one] year from the date of expiration, an application from an online training provider whose authorization has expired. Under such circumstances, a new application must be filed, not an application for renewal. Applications will only be accepted during a period of open enrollment, which shall be posted on the [Board's Bureau of Alcohol Education's] page on the [Board's] web site. See [Section] 5.221(a) (relating to online training provider application).

Paragraph (2) raises several concerns related to implementation. By allowing an online training provider to submit an application for renewal up to 30 days after expiration of the current authorization, the Board creates a gap of uncertainty related to Paragraph (4). Under Paragraph (4)(i), why would a student be able to take training from an online training provider whose authorization has expired? We ask the Board to prohibit the applicant from providing public access to the online training when the online training provider's authorization has expired. Also, under Paragraph (4)(ii), how will unredeemed training vouchers and incomplete training be handled if the online training provider submits an application after the expiration date but within 30 days? We ask the Board to explain in the Preamble to the final regulation the reasonableness and fiscal impact of how unredeemed training vouchers and incomplete training will be handled.

Also, Paragraph (5) states that an application will not be accepted for at least one year from the date of expiration of the current authorization. This contradicts Paragraph (2) which states that an application may be accepted for up to 30 days following the expiration of the current authorization. We ask the Board to carefully review Subsection (c) and clarify how it will be implemented in the final regulation.

**10. Section 5.226. Training vouchers.—Economic or fiscal impacts; Clarity; Need; Reasonableness; Implementation procedures.**

This section allows an online training provider to sell training vouchers to licensees for use by their alcohol service personnel within 60 days of purchase. Training vouchers may be purchased in bulk. Two commentators oppose the requirement to use training vouchers within 60 days, stating that this may deter bulk purchases, thereby limiting volume discounts and increasing the cost per employee. We have three questions. First, why is there a need to require a licensee to use training vouchers within a given time period? Second, is the 60-day timeframe reasonable? Third, did the Board consider limiting the sale of training vouchers within 30 days of the expiration of an online training provider's authorization? We ask the Board to answer these questions in the Preamble to the final regulation and to consider revising this regulation as suggested by the commentators.

Further, this section does not require an online training provider to refund the purchase price of training vouchers to licensees when the online training provider is deauthorized or authorization is not renewed. A commentator suggested that an online training provider should be required to obtain surety bonds so that licensees are able to obtain refunds. Has the Board considered a system to ensure refunds to licensees? We ask the Board to address in the Preamble to the final regulation the economic impact of training vouchers and to clarify the implementation procedures in the final regulation.

**11. Section 5.227. Deauthorization of online training providers.—Economic or fiscal impacts; Clarity; Reasonableness; Implementation procedures.**

Subsection (b) states that a notice of violation may advise the online training provider that its authorization is temporarily suspended, pending resolution of a violation. What is the impact on students and training vouchers if authorization is suspended? Will the online training provider be required to prohibit public access to the online training program if authorization is suspended? We ask the Board to clarify how this provision will be implemented when a notice of violation includes the temporary suspension of an online training provider's authorization.

Similar to our comment on Section 5.225(c)(4)(i) and (ii) (relating to renewal of authorization), we have concerns related to Paragraph (1) which addresses deauthorization of an online training provider. The proposed language is as follows:

(1) As of the date of the [Board's] notice of deauthorization to an online training provider, the following will no longer be valid:

(i) Training that is completed by a student after the date of the [Board's] notice of deauthorization.

(ii) Any training vouchers issued by an online training provider that have not been redeemed and training completed.

Under Paragraph (1)(i), why would a student be able to take training from an online training provider who has been deauthorized? We ask the Board to clarify implementation procedures for deauthorization and to prohibit the online training provider from providing public access to the online training program when the online training provider has been deauthorized.

Under Paragraph (1)(ii), how will unredeemed training vouchers and incomplete training be handled if the online training provider has been deauthorized? We ask the Board to explain in the Preamble to the final regulation the reasonableness and fiscal impact of how unredeemed training vouchers and incomplete training will be handled.

**CLASSROOM INSTRUCTORS OF SERVER/SELLER TRAINING**

**12. Section 5.231. Classroom instructor application.—Clarity.**

Subsection (b)(2) sets one qualification for a classroom instructor as "having a minimum of [two] years of experience, full-time, as a trainer or in giving presentations in the field of education, law, law enforcement, substance abuse prevention, hospitality related to hotel/restaurant management or alcohol service training or other equivalent combination of experience and training." We ask the Board to clarify in the Preamble to the final-form regulation how it will evaluate experience "giving presentations" compared to experience as a trainer.

Subsection (b)(5) requires a classroom instructor to attend owner/manager training. We ask the Board to consider changing the "attending" and "attend" terminology to "completing" and "complete" to clarify the training requirements.

**13. Section 5.233. Minimum standards of classroom training.—Clarity; Need; Reasonableness; Implementation procedures.**

Subsection (a)(1) requires a classroom session to be at least 2 1/2 hours long. Under Section 5.223(a)(5) (relating to minimum standards of the online training program), an online training program must include at least 1 1/2 hours of instructional time. How did the Board determine the need for a longer classroom session? We ask the Board to explain in the Preamble to the final regulation the reasonableness of this time requirement.

Subsection (d) requires a student to complete the final examination individually and without assistance from others. Has the Board considered allowing a student with a learning disability to request an accommodation to complete the final examination?

Subsection (e) requires a classroom instructor to notify a student of the grade on the final examination. However, the method of notification and a timeframe for doing so are not stated. We ask the Board to clarify implementation of this subsection in the final regulation.

**14. Section 5.234. Classroom instructor responsibilities.—Clarity; Need; Reasonableness; Implementation procedures.**

Paragraph (2)(i) states, “A classroom instructor shall refrain from making any *modifications or changes* to the standard curriculum without being required to do so by the [Board].” (Emphasis added.) Subparagraph (ii) states, “A classroom instructor shall refrain from making any *modifications or changes* to an alternative curriculum without first receiving approval from the [Board]. . . .” (Emphasis added.) Subparagraph (iii) requires a classroom instructor who opts to use an alternative curriculum to submit a \$250 fee for review and approval. We have two issues with these subparagraphs. First, we ask the Board to revise “modifications or changes” to the defined term “material changes.” Second, when a material change is made to the standard curriculum or an approved alternative curriculum, the classroom instructor is required to follow the procedure under Subparagraph (iii). Will the Board require the classroom instructor to follow the procedures for review and approval of an alternative curriculum in Section 5.213, including the \$250 fee in Subsection (b)? We ask the Board to clarify in the Preamble to the final regulation how it will implement the provisions in this paragraph and Section 5.213.

Paragraph (3) requires a classroom instructor to hold training sessions throughout this Commonwealth. We have three questions. First, how will the Board determine that a classroom instructor has met this standard? Second, how will the Board enforce this regulation? Third, what are the repercussions of not meeting this requirement? We ask the Board to explain in the Preamble to the final regulation the need for and the reasonableness of this requirement.

Paragraph (4) requires a classroom instructor to hold at least two training sessions per year for at least 225 students. We have three questions. First, how did the Board determine the number of sessions and the number of students who must be trained? Second, what are the repercussions of not meeting these minimums? Third, why is there a need to set a minimum number of sessions and students? We ask the Board to explain in the Preamble to the final regulation the need for and the reasonableness of these requirements.

**15. Regulatory Analysis Form (RAF).—Economic or fiscal impacts; Need; Reasonableness; Timetables for compliance.**

Related to Questions # 17, # 19, # 23 and # 24, we ask the Board to provide additional information related to fees. The Board currently charges the same fee for classroom instructors and online training providers for applications, renewals and changes to standard curriculum. The proposed regulation separates classroom instructors and online training providers and establishes different fees for each. For example, where both classroom instructors and online training providers each currently submit \$250 with an application, under the proposed regulation, applicants for authorization as a classroom instructor would pay \$500 while an applicant to provide online training would pay \$850. In the Preamble, the Board states that the fees are less than half of the costs incurred by the Board “to train and authorize classroom instructors or to review the content of an online training provider as well as test every link and every digital functionality.” We ask the Board to explain why and how it determined that this cost sharing percentage is appropriate. Further, since many of these fees are newly established or significantly increased, we ask the Board to provide additional information related to the need, fiscal impact and reasonableness of the fees in the final regulation.

We note that the Board states in several responses in the RAF that no costs for the regulated community are included because it is expected that the online training providers and classroom instructors will pass the cost along to individuals taking server/seller training. However, licensees and alcohol service personnel are a part of the regulated community as they are required to comply with the training and certification regulations. We ask the Board to provide specific cost estimates for licensees and alcohol service personnel.

Additionally, in response to Question # 24, the Board states that online training providers and classroom instructors “will [recoup increased fees] by passing along the cost to the attendees of the training, of which there are tens of thousands across the Commonwealth.” The Board acknowledges increased class fees and provides measurements for small businesses, but fails to adequately address licensees classified as small businesses. We ask the Board to provide an economic impact statement relative to licensees who meet the standards for small businesses.

Related to Question # 29, we ask the Board to update the timetable for the review of the regulation.

**16. Miscellaneous clarity.**

- In the RAF and Preamble, the statement regarding the calculation of fees relating to Section 5.225 is incorrect. These statements should be corrected in the final-form regulation.

- Section 5.233(a) (relating to minimum standards of classroom training) consists of two sentences which are essentially the same. We ask the Board to delete one sentence in the final regulation.

- The Board did not include Section 471.1 of the Liquor Code in the statutory authority statement in the Preamble to the proposed regulation. We ask the Board to include this provision in the Preamble to the final regulation.
