READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

SUPREME COURT

WESTERN DISTRICT

General Statewide Judicial Emergency; No. 533 Judicial Administration Doc.

Order

Per Curiam

And Now, this 25th day of March, 2020, in light of the necessity for a statewide judicial emergency until at least April 14, 2020, as well as the Governor's proclamations imposing increasingly restrictive remedial efforts:

This Court *Directs* that the Supreme Court argument session scheduled for April 21st through the 23rd in Pittsburgh is *Cancelled*. The cases listed for this session will be decided on the briefs submitted by the parties.

Upon good cause shown, the Court, on motion of a party to an appeal, will reschedule oral argument instead of deciding the appeals on the briefs. Any such motion must be filed before April 9, 2020.

SUPREME COURT

General Statewide Judicial Emergency; Nos. 531 and 532 Judicial Administration Doc.

Supplemental Order

Per Curiam

And Now, this 24th day of March, 2020, this Court's *Order* of March 18, 2020, is *Supplemented* as set forth

herein. The non-exclusive list of essential functions provided as guidance to the Courts of Common Pleas shall include:

Commencement of a civil action, by *praecipe* for a writ of summons, for purposes of tolling a statute of limitations. However, all related procedural rules, including rules regarding service of original process, are suspended as set forth in this Court's Order of March 18, 2020.

In the event a court of common pleas is unable to accommodate the filing of a *praecipe* for a writ of summons, attorneys may file a *praecipe* for a writ of summons in the Superior Court district corresponding to the applicable court of common pleas, pursuant to the miscellaneous filing procedure set forth in the Superior Court's Order dated March 23, 2020, Superior Court Administrative Docket No. 3. The filing in the Superior Court must be accompanied by the filing attorney's certification that the attorney has been unable to file the *praecipe* in the appropriate court of common pleas due to the closure of that court to such filings in light of the ongoing public health emergency, and that in the attorney's opinion, filing of the *praecipe* for a writ of summons is necessary to toll a statute of limitations that would otherwise expire during the judicial emergency declared by this Court, or any extension of that judicial emergency.

This *Order* shall be posted on the Unified Judicial System website and shall be effective immediately.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

SUSQUEHANNA RIVER BASIN COMMISSION

[25 PA. CODE CH. 806]

Review and Approval of Projects

Summary: This document contains rules that amend the regulations of the Susquehanna River Basin Commission (Commission) dealing with the mitigation of consumptive uses.

Dates: This rule is effective on April 1, 2020.

Addresses: Susquehanna River Basin Commission, 4423 N. Front Street, Harrisburg, PA 17110-1788.

For Further Information Contact: Jason E. Oyler, Esq., General Counsel and Secretary, telephone: 717-238-0423, ext. 1312; fax: 717-238-2436; e-mail: joyler@srbc.net. Also, for further information, including the comment response document, visit the Commission's website at <http://www.srbc.net>.

Supplementary Information: Notice of proposed rule-making was published in the *Federal Register* on September 13, 2019 (84 FR 48312) *New York Register* on October 2, 2019; *Pennsylvania Bulletin* on September 21, 2019; and *Maryland Register* on October 11, 2019. The Commission convened a public hearing on October 31, 2019 in Harrisburg, Pennsylvania. A written comment period was held open through November 12, 2019. Concurrent with the proposed rule, the Commission also released a draft Consumptive Use Mitigation Policy for public review and comment.

The Commission received four comments on the proposed rule and policy. Two of the comments were fully supportive of the rule and policy and offered no suggested changes. The additional two comments were supportive but offered a few suggestions for revisions to the rule and/or the policy.

One commenter sought clarification of the term “present” low flow conditions in § 806.22(b)(1)(i) and offered alternative phrasing. The Commission believes the phrasing of the rule is not ambiguous and provided clarification in the comment response document. Two commenters asked for the Commission to further amend § 806.22(b)(1)(iii) related to discontinuance. One commenter wanted discontinuance to be limited to a 45-day period. This would be a new requirement and a change to the current practice that requires discontinuance to endure for the entire Commission declared low flow period, and the Commission declines to make this change. Another commenter suggested that 20,000 gallon per day threshold for discontinuance be on an average 30-day basis instead of a peak day basis established in the rulemaking. The Commission was purposeful in the discontinuance revision to be based on a peak day rate. The use of a 30-day average rate would be inappropriate given it would allow an exceedance of the Commission’s regulatory threshold that could introduce impacts during Commission-designated low flow periods, which do not have a set minimum or maximum duration.

Accordingly, after thorough review and analysis of the comments, the Commission has not made any changes to the rulemaking as proposed. To the degree the comments seek clarification of the rules or explanation how they will

be implemented, the Commission believes that can be addressed through explanation or clarifications in fact sheets, application instructions and other implementation documents. A more detailed comment response document has been prepared and is available upon request and also at the Commission’s website listed above.

List of Subjects in 18 CFR Part 806

Administrative practice and procedure, Water resources.

Accordingly, for the reasons set forth in the preamble, the Susquehanna River Basin Commission amends 18 CFR part 806 as follows:

PART 806—REVIEW AND APPROVAL OF PROJECTS

1. The authority citation for part 806 continues to read as follows:

Authority: Secs. 3.4, 3.5(5), 3.8, 3.10 and 15.2, Pub.L. 91-575, 84 Stat. 1509 et seq.

2. Amend § 806.22 by revising paragraphs (b)(1) and (e)(1) to read as follows:

§ 806.22. Standards for consumptive use of water.

* * * * *

(b) *Mitigation.* All project sponsors whose consumptive use of water is subject to review and approval under § 806.4, § 806.5, § 806.6, or § 806.17 shall mitigate such consumptive use. Except to the extent that the project involves the diversion of the waters out of the basin, public water supplies shall be exempt from the requirements of this section regarding consumptive use; provided, however, that nothing in this section shall be construed to exempt individual consumptive users connected to any such public water supply from the requirements of this section. Mitigation may be provided by one or a combination of the following:

(1) During low flow periods as may be designated by the Commission for consumptive use mitigation.

(i) Reduce withdrawal from the approved source(s), in an amount equal to the project’s consumptive use, and withdraw water from alternative surface water storage or aquifers or other underground storage chambers or facilities approved by the Commission, from which water can be withdrawn for a period of 45 continuous days such that impacts to nearby surface waters will not likely be at a magnitude or in a timeframe that would exacerbate present low flow conditions.

(ii) Release water for flow augmentation, in an amount equal to the project’s consumptive use, from surface water storage or aquifers, or other underground storage chambers or facilities approved by the Commission, from which water can be withdrawn for a period of 45 continuous days such that impacts to nearby surface waters will not likely be at a magnitude or in a timeframe that would exacerbate present low flow conditions.

(iii) Discontinue the project’s consumptive use, which may include reduction of the project sponsor’s consumptive use to less than 20,000 gpd during periods of low flow. In any case of failure to provide the specified discontinuance, such project shall provide mitigation in accordance with paragraph (b)(3) of this section, for the calendar year in which such failure occurs, after which the Commission will reevaluate the continued acceptability of the discontinuance.

* * * * *

(e) *Approval by rule for consumptive uses.*

(1) *General rule.* Except with respect to projects involving hydrocarbon development subject to the provisions of paragraph (f) of this section, any project that is solely supplied water for consumptive use by public water supply, stormwater, wastewater, or other reused or recycled water, or any combination thereof, may be approved by the Executive Director under this paragraph (e) in accordance with the following, unless the Executive Director determines that the project cannot be adequately regulated under this approval by rule.

Pennsylvania Housing Advisory Committee Meeting Cancellation

As the needs of residents of this Commonwealth are rapidly changing due to the spread of the novel Coronavirus (COVID-19), the Department of Community and Economic Development (Department) has decided to request an extension from the United States Department of Housing and Urban Development (HUD) on the submission of their 2020 Annual Action Plan (Plan). This action is being taken so that the Department may assess the immediate needs, due to the crisis, of the populations the Federal programs benefit under the Plan and realign any program to meet those needs or include additional funding, or both, that may come from the Federal government.

In light of this decision, the Pennsylvania Housing Advisory Committee meeting scheduled for April 8, 2020, at 1:30 p.m. will be canceled and rescheduled at a later date, when the Plan will be submitted to HUD.

Persons with questions or comments about this notice may call (717) 787-5327 or e-mail RA-DCEDcdbgghomequestions@pa.gov.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Substantial Amendments to the 2017—2019 and Proposed 2020 Annual Action Plans

The Commonwealth will amend the methods of distribution (MOD) for the United States Department of Housing and Urban Development (HUD)-approved 2017—2019 Annual Action Plans and proposed 2020 Annual Action Plan for the Emergency Solutions Grant (ESG) allowing for more flexibility in response to the novel Coronavirus (COVID-19). Details of the amendments are listed as follows. The changes to the MOD constitute major changes to the Annual Action Plans submitted or proposed to HUD thus requiring a substantial amendment to each year's Action Plan, an additional 30-day citizen comment period and a public hearing. This notice starts the citizen comment period which runs from Sunday, April 5, 2020, through Monday, May 4, 2020. There is no change in the allocations of any of the HUD grant contracts.

The proposed amendments for the 2017—2019 and proposed 2020 Annual Action Plans are as follows:

a. Remove the Department of Community and Economic Development's (Department) minimum allocation percentage for the rapid rehousing activity (40%) from each ESG grant MOD.

b. Add, in each program year, no more than 60% of the annual Federal allocation may be used for emergency shelter activities (including operations, essential services and street outreach).

c. Remove Department maximum of 20% of allocation for emergency shelter activities (operations, essential

services and street outreach) and remove cap of operational support as a percentage of overall operating budget.

d. Allow Balance of State (non-Federal entitlement) subgrantees to request modifications to their existing contracts for these years, based on specific and locally identified needs, to any allowable ESG activity. (Revisions may not exceed HUD threshold for emergency shelter activity at 60%.)

e. Allow Federal direct-entitlement ESG grantees to request modifications to their existing contracts or seek funding in these years for either rapid rehousing activities or homeless prevention activities. Rapid rehousing must still represent at least 40% of the overall use of ESG funds for direct entitlement communities only.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe

should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State

Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits Under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These Actions May Include the Administrative Amendments of an Associated Operating Permit.

32-445A: Indiana County Humane Society (191 Airport Road, Indiana, PA 15701). The Department of Environmental Protection intends to issue a plan approval to the Indiana County Humane Society to provide authorization for the construction and initial operation of an animal crematory at their existing facility located in the White Township, **Indiana County**.

No air emission sources are currently authorized at this facility. The proposed source is not eligible for authorization under the GP-14 due to its limited function door interlocks. The operator also intends to open the crematory's door during operation in order to reposition remains and to reduce cremation cycle times. This crematory was not eligible for authorization under General Plan Approval 14 per the Department's instruction that those facilities which open their primary chamber's door during operation, could no longer use the general permit. Special conditions will be included in this plan approval which address door opening and its impact on emissions and operation. The crematory will be required to meet all emission and temperature requirements while the door is opened and will have additional recordkeeping and monitoring requirements.

This application proposes the installation of a new source at a non-Title V facility. Public notice is obligatory for sources required to obtain a Plan Approval in accord-

ance with 25 Pa. Code § 127.44. The Plan Approval will contain testing, recordkeeping, emission restriction, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements. Potential emissions from the proposed source are estimated to be: less than 2.75 tons per year (tpy) of particulate matter and less than 1.0 tpy (each) of SO_x, NO_x, CO, VOC, and HAP.

In accordance with 25 Pa. Code § 127.44(f)(1), all the pertinent documents regarding this application (applications, review memos, and draft approvals) are also available for review from 8:00 a.m. to 4:00 p.m. at the Meadville Regional DEP Office (Air Quality). A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received.

All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. In accordance with 25 Pa. Code § 127.45, a person may oppose the proposed plan approval by filing a written protest with the Department's Northwest Region Office. Written comments or requests for a public hearing should be directed to Eric A. Gustafson, 230 Chestnut St., Meadville, PA 16335; Phone (814) 332-6819.

The Department of Environmental Protection intends to issue a plan approval to Sherman Funeral Home and Crematory to provide authorization for the construction and initial operation of a human crematory at their existing facility located in Sharpsville Borough, **Mercer County**.

No air emission sources are currently authorized at this facility. The proposed source is not eligible for authorization under the GP-14 due to its limited function door interlocks. The operator also intends to open the crematory's door during operation in order to reposition remains and to reduce cremation cycle times. This crematory was not eligible for authorization under General Plan Approval 14 per the Department's instruction that those facilities which open their primary chamber's door during operation, could no longer use the general permit. This application proposes the installation of a new source at a non-Title V facility. Public notice is obligatory for sources required to obtain a Plan Approval in accordance with 25 Pa. Code § 127.44. The Plan Approval will contain testing, recordkeeping, emission restriction, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements. Potential emissions from the proposed source are estimated to be: less than 2.75 tons per year (tpy) of particulate matter and less than 1.0 tpy (each) of SO_x, NO_x, CO, VOC, and HAP.

To construct and maintain 300 ft of streambank stabilization along Pine Creek in Shippen Township, Tioga County. The purpose of the project is to stabilize the roadway slope along Owassie Road, which is starting to fail. R-7 will be benched into the embankment. The road parallels Pine Creek, which is listed as a Keystone Select

Trout Stocked and Special Regulation trout stream. It is also designated as a National Wild and Scenic Rivers as part of the Commonwealths Scenic River System. The total disturbed area along the embankment is 0.41 acre. Traffic will be detoured during construction. A PNDI search determined several species of concern to be potentially present. Coordination for clearances is being performed. A wetland delineation determined no wetlands at the project site.

To remove the existing structure and to construct and maintain a 131.75-ft long single-cell precast concrete box culvert having a 12.0-ft wide by 10.0-ft high waterway opening on SR 0028, Section 554, Segment 0170, Offset 0000 over Clement Run (CWF) and to temporarily install and maintain a temporary roadway immediately upstream of the existing structure to maintain traffic during construction of the proposed structure. Adjustments to the proposed culvert length and alignment will result in the permanent loss of 39.0-ft of stream channel. Additionally, the project will result in the slight relocation of a 95-ft section of Clement Run downstream of the proposed structure, for which the applicant proposes stream mitigation and enhancements to offset the loss of stream length. The project will result in a total of 188-ft of permanent stream impacts and 450-ft of temporary stream impacts to Clement Run. No wetland impacts are proposed.

E1006120-021, PA Department of Transportation, District 10-0, 2550 Oakland Ave., Indiana, PA 15701. SR 0228-270 Balls Bend, in Middlesex Township, **Butler County**, ACOE Pittsburgh District (Valencia, PA Quadrangle N: 40.699353", W: 79.948779").

To conduct the following activities associated with the widening and realignment of approximately 1.6 mile of SR 0228-270 extending west from its intersection with SR 8:

1. Construct and maintain a 228-foot long, 18-foot wide by 8-foot high (7-foot effective w/ invert depression and baffles) single cell pre-cast concrete box stream enclosure in a tributary to Glade Run at Station 287+80 and to realign a total of 228 feet of the stream channel extending approximately 140 feet upstream and 88 feet downstream of the structure.

2. Construct and maintain an 88.7-foot wide steel plate girder bridge on integral abutments providing a normal span of 165.15 feet and minimum underclearance of 15.65 feet across Glade Run at station 294+40 and to realign approximately 130 feet of the channel of Glade Run at

approximately station 291+30 LT associated with the construction of the approach fill to the bridge.

3. Construct and maintain a 207-foot long, 14-foot wide by 10-foot high (9-foot effective w/ invert depression and baffles) single cell pre-cast concrete box stream enclosure in a tributary to Glade Run at station 326+10 and to realign a total of 906 feet of the channel extending approximately 125 feet upstream and 781 feet downstream of the structure.

4. To construct and maintain a 89-foot long, 24-foot wide by 10-foot high (9-foot effective w/ invert depression and baffles) single cell pre-cast concrete box culvert in a tributary to Glade Run on Park Road and to realign a total of approximately 544 feet of the channel of a tributary to Glade Run extending 419 downstream and 125 feet upstream from the structure.

5. To place fill within the floodplain of tributary to Glade Run to maintain private driveway access from Park Road starting at station 104+20.

6. To remove the existing structure and to construct and maintain a 120-foot long, 36-inch diameter reinforced concrete pipe carrying tributary to Glade Run (Stream 13) at Station 344+90, with an outfall and rock apron discharging to tributary to Glade Run (UNT 7) and to place fill within the floodplain of UNT 7 as part of the proposed roadway fill slope.

7. To permanently fill a 0.23-acre pond at station 203+50 along a relocated section of Harbison Road to accommodate the new roadway alignment.

8. To remove the existing concrete arch from a tributary to Glade Run at station 154+10 on the existing S.R. 228 alignment.

9. To remove the existing concrete slab bridge across Glade Run at station 184+50 on the existing S.R. 228 alignment.

10. To permanently impact a total of 1.216 acre of wetlands.

11. To temporarily impact a total of 0.137 acre of wetlands.

The project will result in a total of 3,311-feet of permanent impacts to existing stream channel, which includes 613-feet of proposed structure length. The applicant proposes 1,813-feet of stream relocation and 2,602-feet of stream improvements within the corridor as stream mitigation. A total of 721-feet of temporary stream impacts are proposed during construction. Existing structures will be removed, and areas of existing roadway not required for the new alignment will be restored to vegetated conditions. The applicant proposes to create a total of 2.35 acres of wetland onsite to mitigate the permanent wetland impacts.

E2006120-001, PA DOT District 1-0, 255 Elm St., Oil City, PA 16301. SR 1001 SEG 0090 OFFSET 2000, in Woodcock Township, **Crawford County**, ACOE Pittsburgh District (Meadville, PA Quadrangle N: 41°, 41', 3.50"; W: 80°, 8', 37.14").

To install a 63.0-inch, polyethylene pipe liner within the existing 72.0-inch corrugated metal pipe carrying a UNT to French Creek under SR 1001 in Woodcock Township, Crawford County. The project is located on Park Avenue (SR 1001) approximately 0.15 mile north of its intersection with Hogue Road. The project will permanently impact approximately 150 linear feet of the UNT to French Creek. No wetland impacts are proposed.

E4206220-001, Highland Field Services, LLC, 51 Zents Blvd, Brookville, PA 15825. Mt. Jewett Evaporator Site, in Hamlin and Sergeant Townships, **McKean County**, ACOE Pittsburgh District (Mount Jewett, PA Quadrangle N: 41°, 41', 8.9574"; W: 78°, 38', 8.736").

The Applicant proposes to permanently fill approximately 0.4 acre of wetlands as a result of grading the site for construction of an evaporator. The majority of the site has been previously disturbed for industrial purposes. The Applicant proposes to mitigate for the wetland impacts by constructing approximately 0.65 acre of onsite replacement wetlands.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential

public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

The emission limit for Source ID No. 250 was increased to reflect the full operation of the plant when performing Identification Marking. The language of the permit was revised for notification of additions and removal of insignificant sources natural gas using sources from the plant. Redundancies in permit conditions were removed.

The proposed pipeline project starts approximately 0.1 mile south of Liveasy Road, Cumberland Township, Greene County (Masontown, PA Quadrangle N: 39° 51' 41.67"; W: -79° 56' 31.97") and ends at the future Hill Top Energy Center Power Plant approximately 0.4 mile east of Thomas Road, Cumberland Township, Greene County (Carmichaels, PA Quadrangle N: 39° 53' 33.17"; W: -79° 55' 55.17").

The Applicant will report the project to Federal Energy Regulatory Commission (FERC) in its annual blanket activities report as authorized under blanket construction certificate (FERC Docket No. CP96-532-000 dated October 20, 1998).

On March 12, 2019, Applicant requested a State water quality certification from the Pennsylvania Department of Environmental Protection (PADEP), as required by Section 401 of the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

In addition, the Applicant submitted a General Permit Registration Package, seeking acknowledgement from

DEP, of the Applicant's use of General Permits No. 5 and 8 [GP053000219-006 and GP083000219-006], to construct and maintain several utility line stream crossings and temporary road crossings, respectively, in accordance with the Department's Chapter 105 rules and regulations.

The Project, as proposed, will require approximately 43.2 acres of earth disturbance and includes 518 linear feet of permanent impacts and 125 linear feet of temporary impacts to UNTs to Monongahela River (WWF), UNTs to Little Whiteley Creek (WWF), UNTs to Pegs Run (WWF) and a UNT to Glade Run (WWF), permanent impacts to 1.10 acre of floodway, 0.12 acre of permanent PEM wetland impacts, and 0.04 acre of temporary PEM wetland impacts. Mitigation will include restoring the disturbed area back to its original condition and elevation and stabilizing the disturbed area.

PADEP published notice of its proposed State Water Quality Certification in the *Pennsylvania Bulletin* on July 13, 2019 (Pa.B., Vol. 49, No. 28) and received no comments from the public.

PADEP certifies that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301—303, 306 and 307 of the Federal Clean Water Act (33 U.S.C.A. §§ 1311—1313, 1316 and 1317). The PADEP further certifies that the construction, operation and maintenance of the project complies with Pennsylvania water quality standards and that the construction, operation and maintenance of the project does not violate applicable Pennsylvania water quality standards provided that the construction, operation and maintenance of the Project complies with the following PADEP water quality permitting programs, criteria and conditions established pursuant to Pennsylvania law:

Code Chapter 105, 25 Pa. Code Chapter 106, and all other applicable regulations.

4. *Water Quality Monitoring*—PADEP retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Applicant.

5. *Operation*—Applicant shall properly operate and maintain at all times all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. PADEP may require additional measures to achieve compliance with any applicable law or regulation.

10. *Other Laws*—Nothing in this SWQC shall be construed to preclude the institution of any legal action or to relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable law or regulation.

Availability of Food Recovery Infrastructure Grant; Application Deadline Extended

The Department of Environmental Protection (Department) announces the continued availability of the Food Recovery Infrastructure Grant Program. This grant is an opportunity to apply for up to \$200,000 in grant funding offered through the new Food Recovery Infrastructure Grant Program. This funding is available for section 501(c)(3) nonprofit organizations in this Commonwealth (26 U.S.C.A. § 501(c)(3)) for grant assistance for the proper management and operation of food waste reduction under the Municipal Waste Planning, Recycling and Waste Reduction Act (Act 101) (53 P.S. §§ 4000.101—4000.1904). The grant application deadline has been extended to June 26, 2020.

Food recovery infrastructure grants will be awarded to nonprofit organizations for the procurement of equipment (refrigerators, freezers, refrigerant vehicles, hand fork lifts, and the like) to reduce food waste disposal from food retailers and wholesalers by repurposing and redistributing apparently safe and wholesome foods to nonprofits in this Commonwealth that provide food to segments of the public. The nonprofit must describe their current food recovery operation and explain how the food infrastructure equipment will enhance their current program. The organization must also provide a description of their proposed program and provide what food retailers or wholesalers (grocery stores, and the like) will be partners for the project. Additionally, the organization must provide a description of how the program will be operated by staff or volunteers, or both.

Grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101 (53 P.S. §§ 4000.701 and 4000.702) and the availability of moneys in the Recycling Fund.

The maximum grant to a nonprofit organization cannot exceed \$200,000 per calendar year for the procurement of food infrastructure equipment attributable exclusively to the grant project. Potential applicants are required to meet with their Department Regional Planning and Recycling Coordinator prior to submitting an application for funding consideration. A list of regional planning and recycling coordinators is provided at the end of this notice.

Grant applications must be submitted through the Department of Community and Economic Development's Electronic Single Application web site, eGrants, at www.esa.dced.state.pa.us. Applications must be received by June 26, 2020, to be eligible for funding.

Questions concerning this notice or for more information about this grant program, contact Mark Vottero, Recycling Grants Coordinator, Department of Environmental Protection, Rachel Carson State Office Building, Bureau of Waste Management, Division of Waste Minimization and Planning, P.O. Box 8472, Harrisburg, PA 17105-8472, at mvottero@pa.gov or (717) 772-5719.

(m) *Winning ticket:* A game ticket which has been validated and qualifies for a prize.

3. *Price:* The price of a Towering 10\$ ticket is \$10.

4. *Description of the Towering 10\$ Fast Play lottery game:*

(a) The Towering 10\$ lottery game is an instant win game printed from a Lottery Terminal. All prizes are predetermined, and the player does not have the ability

to select their own play symbols. Towering 10\$ tickets may be purchased from an authorized retailer or at a Lottery self-service terminal that sells terminal-based Lottery game tickets. Tickets purchased from an authorized retailer shall be printed on-demand at the time of purchase and may not be preprinted by the retailer.

(b) Towering 10\$ is played by matching all of the play symbols located in any "TOWER," to any of the play symbols in the "WINNING NUMBERS" area. A player who correctly matches all of the play symbols in the same "TOWER" wins the prize shown for that "TOWER." When a player correctly matches all of the play symbols in this manner, and a "10" (TEN) play symbol also appears in that same winning "TOWER," the player adds \$10 to the prize shown within that "TOWER." A bet slip is not used to play this game.

(c) Players can win the prize identified in section 6 (relating to prizes available to be won and determination of prize winners).

(d) A Towering 10\$ game ticket cannot be canceled or voided once printed by the Lottery Terminal, even if printed in error.

(e) To purchase a ticket at an authorized retailer, a player must remit the purchase price to the retailer and verbally request a Towering 10\$ game ticket. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize.

(f) To purchase a ticket at a Pennsylvania Lottery self-service terminal, the player must insert into the self-service terminal a dollar amount equal to the total purchase price of a Towering 10\$ game ticket and select the Towering 10\$ option on the Lottery self-service terminal. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize.

5. *Towering 10\$ ticket characteristics:*

(a) A Towering 10\$ ticket shall contain a play area, the cost of the play, the date of sale, and a bar code. Each ticket consists of ten "TOWER" areas. Each "TOWER" is played separately.

(b) *Play Symbols:* Each Towering 10\$ ticket will contain a "WINNING NUMBERS" area and ten "TOWER" areas. The play symbols and their captions, located in the "WINNING NUMBERS" area and the ten "TOWER" areas, are: 1 (ONE), 2 (TWO), 3 (THREE), 4 (FOUR), 5 (FIVE), 6 (SIX), 7 (SEVEN), 8 (EIGHT), 9 (NINE), 10 (TEN), 11 (ELEVN), 12 (TWLV), 13 (THRTN), 14 (FORTN), 15 (FIFTN), 16 (SIXTN), 17 (SVNTN), 18 (EGHTN), 19 (NINTN), 20 (TWENT), 21 (TWYONE), 22 (TWYTWO), 23 (TWYTHR), 24 (TWYFOR), 25 (TWYFIV), 26 (TWYSIX), 27 (TWYSVN), 28 (TWYEGT), 29 (TWYNIN), 30 (THIRT), 31 (THYONE), 32 (THYTWO), 33 (THYTHR), 34 (THYFOR) and 35 (THYFIV).
