DEPARTMENT OF AGRICULTURE

Standards and Requirements for the Bureau of Farmland Preservation Soil Health Education Grant

The Department of Agriculture (Department) hereby provides notice of the standards and requirements for the Bureau of Farmland Preservation's Soil Health Education Grant Program (Program).

The Program is established under authority of the act of July 1, 2019 (3 Pa.C.S. §§ 4801—4810), known as the Agricultural Business Development Center Act (act). The

act allows the Department to award matching grants to farmers, prospective farmers and others in furtherance of the objectives set forth in the act.

This notice establishes the standards and requirements for the Program. It establishes the process by which grant applications will be solicited and reviewed, and by which grants will be awarded, drawing on up to \$10,000 in funding made available by the Department in Fiscal Year (FY) 2021-2022.

The Department is soliciting applications that fulfill the general objective of the act, as described as follows.

1. *Program Objectives.* The Program's objective is to provide mini grants to eligible county farmland preservation boards to further the objectives of the act. These grants will fulfill the specific objective of providing resources to help maintain the long-term economic viability of farms and protect the investment of public funds in preserving farms that are subject to perpetual agricultural conservation easements acquired under the act of June 30, 1981 (P.L. 128, No. 43), known as the Agricultural Area Security Law (3 P.S. §§ 901—915.1), for agricultural production by providing funds for soil health education and outreach efforts.

2. *Eligibility.* County farmland preservation boards may apply to the Department for a grant under the Program.

3. *Available Funding.* The Department shall make up to \$10,000 available for Program grants in FY 2021-2022.

4. *Grant Caps, Limits and Restrictions.*

a. *Funds-Available Basis.* Grants shall be awarded on a funds-available basis.

b. *Eligible Projects.* Grants shall only be awarded with respect to projects that achieve the Program objective presented in Paragraph No. 1.

c. *Maximum Grant Amount:* An individual grant shall not exceed \$1,000.

d. *Matching Grants.* Grant amounts shall be limited to 75% of project costs.

e. *Reimbursement Grants.* Grants shall be reimbursement grants. The amount of reimbursement is based on actual eligible costs submitted by an approved applicant for an approved project during the fiscal year in which grants are offered.

f. *No In-Kind Support.* In-kind support shall not be counted toward an applicant's matching contribution.

g. *Other Funding.* Grant money may not be used to reimburse any portion of the project costs which are being paid or reimbursed under another Federal or State grant program.

5. *Application Process.*

a. *Submit application to Bureau of Farmland Preservation.* An application for a grant under the Program shall be submitted to the Bureau of Farmland Preservation by e-mailing a completed grant packet to RA-farmland@pa.gov.

b. *Application Window.* Applications must be submitted to the Bureau at RA-farmland@pa.gov between 8 a.m. January 3, 2022, and 4 p.m. February 28, 2022. Applications received outside of that application window, or after funding is exhausted, will not be considered or reviewed.

c. *Single Project.* An application shall only seek grant funds for a single project. Separate projects require separate applications.

d. *Rolling Review.* The Department will review complete grant applications in the order they are received, and will award grants on a continuous basis until available funds are exhausted.

6. *Application Requirements.* An application for a grant under the Program shall contain the following information:

a. The applicant's name, business address and contact information.

b. A detailed narrative describing how the funds will be used for soil health education and outreach efforts aimed at preserved farm landowners, including an estimate of how many preserved farm landowners will be reached through these efforts.

c. The details of the project for which reimbursement grant money is sought, including the following:

i. A project budget.

ii. A statement of the maximum amount of grant money sought for the project.

iii. A project implementation schedule, as appropriate for the project or purchase with respect to which the grant is sought.

d. An attestation signed by the applicant, verifying the accuracy of the information presented on the application.

7. *Disposition and Review of Grant Applications.*

a. The Department will review each application, and supporting documentation submitted therewith, for completeness and accuracy, and determine eligibility.

b. If an application is found to be incomplete or inaccurate, the Department may request additional documentation and may discontinue further processing of the application until the requested information is received.

8. *Notice of Disposition of Application.* The Department will provide the applicant written notice of the disposition (approval or disapproval) of the application.

9. *Agreement Required.* If the Department approves a grant application, and as a precondition to the Department's release of grant moneys to a successful applicant, the Department and the applicant shall execute a Grant Agreement which describes the terms and conditions subject to which the grant is made. The Grant Agreement follows hereto as Addendum 1 and incorporated by reference.

10. *Distribution of Grant Money.* As Program grants are reimbursement grants, the Department will not issue grant money until the successful applicant submits the following to the Department:

a. A verified statement that the eligible project has been completed or implemented.

b. A verified statement of the project completion date, with the project completion date being no later than July 31, 2022.

c. Bills and invoices demonstrating that expenses were incurred for which reimbursement grant funds are sought.

d. A final report including the number of preserved farm landowners reached through education and outreach efforts and the acres of preserved farmland owned by the landowners reached.

Attachment 1-B**NONDISCRIMINATION/SEXUAL HARASSMENT CLAUSE**

The Grantee agrees:

1. In the hiring of any employee(s) for the manufacture of supplies, performance of work, or any other activity required under the grant agreement or any subgrant agreement, contract, or subcontract, the Grantee, a subgrantee, a contractor, a subcontractor, or any person acting on behalf of the Grantee shall not discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the Pennsylvania Human Relations Act (PHRA) and applicable federal laws, against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.

2. The Grantee, any subgrantee, contractor or any subcontractor or any person on their behalf shall not in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, against or intimidate any of its employees.

3. Neither the Grantee nor any subgrantee nor any contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, in the provision of services under the grant agreement, subgrant agreement, contract or subcontract.

4. Neither the Grantee nor any subgrantee nor any contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate against employees by reason of participation in or decision to refrain from participating in labor activities protected under the Public Employee Relations Act, Pennsylvania Labor Relations Act or National Labor Relations Act, as applicable and to the extent determined by entities charged with such Acts' enforcement, and shall comply with any provision of law establishing organizations as employees' exclusive representatives.

5. The Grantee, any subgrantee, contractor or any subcontractor shall establish and maintain a written nondiscrimination and sexual harassment policy and shall inform their employees in writing of the policy. The policy must contain a provision that sexual harassment will not be tolerated and employees who practice it will be disciplined. Posting this Nondiscrimination/Sexual Harassment Clause conspicuously in easily-accessible and well-lighted places customarily frequented by employees and at or near where the grant services are performed shall satisfy this requirement for employees with an established work site.

6. The Grantee, any subgrantee, contractor or any subcontractor shall not discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, against any subgrantee, contractor, subcontractor or supplier who is qualified to perform the work to which the grant relates.

7. The Grantee and each subgrantee, contractor and subcontractor represents that it is presently in compliance with and will maintain compliance with all applicable federal, state, and local laws and regulations relating to nondiscrimination and sexual harassment. The Grantee and each subgrantee, contractor and subcontractor further represents that it has filed a Standard Form 100 Employer Information Report ("EEO-1") with the U.S. Equal Employment Opportunity Commission ("EEOC") and shall file an annual EEO-1 report with the EEOC as required for employers' subject to Title VII of the Civil Rights Act of 1964, as amended, that have 100 or more employees and employers that have federal government contracts or first-tier subcontracts and have 50 or more employees. The Grantee, any subgrantee, any contractor or any subcontractor shall, upon request and within the time periods requested by the Commonwealth, furnish all necessary employment documents and records, including EEO-1 reports, and permit access to their books, records, and accounts by the granting

8. The Grantee, any subgrantee, contractor or any subcontractor shall include the provisions of this Nondiscrimination/Sexual Harassment Clause in every subgrant agreement, contract or subcontract so that those provisions applicable to subgrantees, contractors or subcontractors will be binding upon each subgrantee, contractor or subcontractor.

9. The Granter's and each subgrantee's, contractor's and subcontractor's obligations pursuant to these provisions are ongoing from and after the effective date of the grant agreement through the termination date thereof. Accordingly, the Grantee and each subgrantee, contractor and subcontractor shall have an obligation to inform the Commonwealth if, at any time during the term of the grant agreement, it becomes aware of any actions or occurrences that would result in violation of these provisions.

10. The Commonwealth may cancel or terminate the grant agreement and all money due or to become due under the grant agreement may be forfeited for a violation of the terms and conditions of this Nondiscrimination/Sexual Harassment Clause. In addition, the granting agency may proceed with debarment or suspension and may place the Grantee, subgrantee, contractor, or subcontractor in the Contractor Responsibility File.

Attachment 1-C

CONTRACTOR INTEGRITY PROVISIONS

It is essential that those who seek to contract with the Commonwealth of Pennsylvania ("Commonwealth") observe high standards of honesty and integrity. They must conduct themselves in a manner that fosters public confidence in the integrity of the Commonwealth contracting and procurement process.

1. **DEFINITIONS.** For purposes of these Contractor Integrity Provisions, the following terms shall have the meanings found in this Section:

a. **"Affiliate"** means two or more entities where (a) a parent entity owns more than fifty percent of the voting stock of each of the entities; or (b) a common shareholder or group of shareholders owns more than fifty percent of the voting stock of each of the entities; or (c) the entities have a common proprietor or general partner.

b. **"Consent"** means written permission signed by a duly authorized officer or employee of the Commonwealth, provided that where the material facts have been disclosed, in writing, by prequalification, bid, proposal, or contractual terms, the Commonwealth shall be deemed to have consented by virtue of the execution of this contract.

c. **"Contractor"** means the individual or entity, that has entered into this contract with the Commonwealth.

d. **"Contractor Related Parties"** means any affiliates of the Contractor and the Contractor's executive officers, Pennsylvania officers and directors, or owners of 5 percent or more interest in the Contractor.

e. **"Financial Interest"** means either:

(1) Ownership of more than a five percent interest in any business; or

(2) Holding a position as an officer, director, trustee, partner, employee, or holding any position of management.

f. **"Gratuity"** means tendering, giving, or providing anything of more than nominal monetary value including, but not limited to, cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. The exceptions set forth in the Governor's Code of Conduct, Executive Order 1980-18, the 4 Pa. Code § 7.153(b), shall apply.

g. **"Non-bid Basis"** means a contract awarded or executed by the Commonwealth with Contractor without seeking bids or proposals from any other potential bidder or offeror.

2. In furtherance of this policy, Contractor agrees to the following: a. Contractor shall maintain the highest standards of honesty and integrity during the performance of this contract and shall take no action in violation of state or federal laws or regulations or any other applicable laws or regulations, or other requirements applicable to Contractor or that govern contracting or procurement with the Commonwealth.

b. Contractor shall establish and implement a written business integrity policy, which includes, at a minimum, the requirements of these provisions as they relate to the Contractor activity with the Commonwealth and Commonwealth employees and which is made known to all Contractor employees. Posting these Contractor Integrity Provisions conspicuously in easily-accessible and well-lighted places customarily frequented by employees and at or near where the contract services are performed shall satisfy this requirement.

c. Contractor, its affiliates, agents, employees and anyone in privity with Contractor shall not accept, agree to give, offer, confer, or agree to confer or promise to confer, directly or indirectly, any gratuity or pecuniary benefit to any person, or to influence or attempt to influence any person in violation of any federal or state law, regulation, executive order of the Governor of Pennsylvania, statement of policy, management directive or any other published standard of the Commonwealth in connection with performance of work under this contract, except as provided in this contract.

d. Contractor shall not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor, or material under this contract, unless the financial interest is disclosed to the Commonwealth in writing and the Commonwealth consents to Contractor's financial interest prior to Commonwealth execution of the contract. Contractor shall disclose the financial interest to the Commonwealth at the time of bid or proposal submission, or if no bids or proposals are solicited, no later than Contractor's submission of the contract signed by Contractor.

e. Contractor certifies to the best of its knowledge and belief that within the last five (5) years Contractor or Contractor Related Parties have not:

If Contractor cannot so certify to the above, then it must submit along with its bid, proposal or contract a written explanation of why such certification cannot be made and the Commonwealth will determine whether a contract may be entered into with the Contractor. The Contractor's obligation pursuant to this certification is ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to immediately notify the Commonwealth in writing if at any time during the term of the contract if becomes aware of any event which would cause the Contractor's certification or explanation to change. Contractor acknowledges that the Commonwealth may, in its sole discretion, terminate the contract for cause if it learns that any of the certifications made herein are currently false due to intervening factual circumstances or were false or should have been known to be false when entering into the contract.

f. Contractor shall comply with the requirements of the Lobbying Disclosure Act (65 Pa.C.S. § 13A01 et seq.) regardless of the method of award. If this contract was awarded on a Non-bid Basis, Contractor must also comply with the requirements of the Section 1641 of the Pennsylvania Election Code (25 P.S. § 3260a).

g. When Contractor has reason to believe that any breach of ethical standards as set forth in law, the Governor's Code of Conduct, or these Contractor Integrity Provisions has occurred or may occur, including but not limited to contact by a Commonwealth officer or employee which, if acted upon, would violate such ethical standards, Contractor shall immediately notify the Commonwealth contracting officer or the Office of the State Inspector General in writing.

h. Contractor, by submission of its bid or proposal and/or execution of this contract and by the submission of any bills, invoices or requests for payment pursuant to the contract, certifies and represents that it has not violated any of these Contractor Integrity Provisions in connection with the submission of the bid or proposal, during any contract negotiations or during the term of the contract, to include any extensions thereof. Contractor shall immediately notify the Commonwealth in writing of any actions for occurrences that would result in a violation of these Contractor Integrity Provisions. Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of the State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth that results in the suspension or debarment of the Contractor. Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

i. Contractor shall cooperate with the Office of the State Inspector General in its investigation of any alleged Commonwealth agency or employee breach of ethical standards and any alleged Contractor non-compliance with these Contractor Integrity Provisions. Contractor agrees to make identified Contractor employees available for interviews at reasonable times and places. Contractor, upon the inquiry or request of an Inspector General, shall provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form deemed relevant by the Office of the State Inspector General to Contractor's integrity and compliance with these provisions. Such information may include, but shall not be limited to, Contractor's business or financial records, documents or files of any type or form that refer to or concern this contract. Contractor shall incorporate this paragraph in any agreement, contract or subcontract it enters into in the course of the performance of this contract/agreement solely for the purpose of obtaining subcontractor compliance with this provision. The incorporation of this provision in a subcontract shall not create privity of contract between the Commonwealth and any such subcontractor, and no third party beneficiaries shall be created thereby.

j. For violation of any of these Contractor Integrity Provisions, the Commonwealth may terminate this and any other contract with Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these Provisions, claim damages for all additional costs and expenses incurred in obtaining another contractor to complete performance under this contract, and debar and suspend Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or non-use of any one shall not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation, or otherwise.

R. § 35.101 et seq., the contractor understands and agrees that it shall not cause any person with a disability to be excluded from participation in this Contract or from activities provided for under this Contract on the basis of the disability. As a condition of accepting this contract, the Contractor agrees to comply with the "General Prohibitions Against Discrimination," 28 C. F. R. § 35.130, and all other regulations promulgated under Title II of The Americans with Disabilities Act which are applicable to the benefits, services, programs, and activities provided by the Commonwealth of Pennsylvania through contracts with outside contractors.

b. The Contractor shall be responsible for and agrees to indemnify and hold harmless the Commonwealth of Pennsylvania from all losses, damages, expenses, claims, demands, suits, and actions brought by any party against the Commonwealth of Pennsylvania as a result of the Contractor's failure to comply with the provisions of subparagraph (a) above.

Attachment 1-E**RIGHT TO KNOW LAW—GRANT PROVISIONS—8-K-1580, 2/1/2010**

a. Grantee or Subgrantee understands that this Grant Agreement and records related to or arising out of the Grant Agreement are subject to requests made pursuant to the Pennsylvania Right-to-Know Law, 65 P.S. §§ 67.101-3104, (“RTKL”). For the purpose of these provisions, the term “the Commonwealth” shall refer to the granting Commonwealth agency.

b. If the Commonwealth needs the Grantee’s or Subgrantee’s assistance in any matter arising out of the RTKL related to this Grant Agreement, it shall notify the Grantee of Subgrantee using the legal contact information provided in the Grant Agreement. The Grantee or Subgrantee, at any time, may designate a different contact for such purpose upon reasonable prior written notice to the Commonwealth.

c. Upon written notification from the Commonwealth that it requires Grantee’s or Subgrantee’s assistance in responding to a request under the RTKL for information related to this Grant Agreement that may be in Grantee’s or Subgrantee’s possession, constituting, or alleged to constitute, a public record in accordance with the RTKL (“Requested Information”), Grantee or Subgrantee shall:

1. Provide the commonwealth, within ten (10) calendar days after receipt of written notification, access to, and copies of, any document or information in Grantee’s or Subgrantee’s possession arising out of this Grant Agreement that the Commonwealth reasonably believes is Requested Information and may be a public record under the RTKL; and
2. Provide such other assistance as the Commonwealth may reasonably request, in order to comply with the RTKL with respect to this Grant Agreement.

d. If Grantee or Subgrantee considers the Requested Information to include a request for a Trade Secret or Confidential Proprietary Information, as those terms are defined by the RTKL, or other information that Grantee or Subgrantee considers exempt from production under the RTKL, Grantee or Subgrantee must notify the Commonwealth and provide, within seven (7) calendar days of receiving the written notification, a written statement signed by a representative of Grantee or Subgrantee explaining why the requested material is exempt from public disclosure under the RTKL.

e. The Commonwealth will rely upon the written statement from Grantee or Subgrantee in denying a RTKL request for the Requested Information unless the Commonwealth determines that the Requested Information is clearly not protected from disclosure under the RTKL. Should the commonwealth determine that the Requested Information is clearly not exempt from disclosure, Grantee or Subgrantee shall provide the Requested Information within five (5) business days of receipt of written notice of the Commonwealth’s determination.

f. If Grantee or Subgrantee fails to provide the Requested Information within the time period required by these provisions, Grantee or Subgrantee shall indemnify and hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of Grantee’s or Subgrantee’s failure, including any statutory damages assessed against the Commonwealth.

g. The Commonwealth will reimburse Grantee or Subgrantee for any costs associated with complying with these provisions only to the extent allowed under the fee schedule established by the Office of Open Records or as otherwise provided by the RTKL if the fee schedule is inapplicable.

h. Grantee or Subgrantee may file a legal challenge to any Commonwealth decision to release a record to the public with the Office of Open Records, or in the Pennsylvania Courts, however, Grantee or Subgrantee shall indemnify the Commonwealth for any legal expenses incurred by the Commonwealth as a result of such a challenge and shall hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of Grantee’s or Subgrantee’s failure, including any statutory damages assessed against the Commonwealth, regardless of the outcome of such legal challenge. As between the parties, Grantee or Subgrantee agrees to waive all rights or remedies that may be available to it as a result of the Commonwealth’s disclosure of Requested Information pursuant to the RTKL.

i. The Grantee’s or Subgrantee’s duties relating to the RTKL are continuing duties that survive the expiration of this Grant Agreement and shall continue as long as the Grantee or Subgrantee has Requested Information in its possession.

Attachment 1-F**CONTRACTOR RESPONSIBILITY PROVISIONS**

For the purpose of these provisions, the term contractor is defined as any person, including, but not limited to, a bidder, offeror, loan recipient, grantee or lessor, who has furnished or performed or seeks to furnish or perform, goods, supplies, services, leased space, construction or other activity, under a contract, grant, lease, purchase order or reimbursement agreement with the Commonwealth of Pennsylvania (Commonwealth). The term contractor includes a permittee, licensee, or any agency, political subdivision, instrumentality, public authority, or other public entity in the Commonwealth.

1. The Contractor certifies, in writing, for itself and its subcontractors required to be disclosed or approved by the Commonwealth, that as of the date of its execution of this Bid/Contract, that neither the Contractor, nor any such subcontractors, are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot so certify, then it agrees to submit, along with its Bid/Contract, a written explanation of why such certification cannot be made.

2. The Contractor also certifies, in writing, that as of the date of its execution of this Bid/Contract it has no tax liabilities or other Commonwealth obligations, or has filed a timely administrative or judicial appeal if such liabilities or obligations exist, or is subject to a duly approved deferred payment plan if such liabilities exist.

3. The Contractor's obligations pursuant to these provisions are ongoing from and after the effective date of the Contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to inform the Commonwealth if, at any time during the term of the Contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or, to the best knowledge of the Contractor, any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. Such notification shall be made within 15 days of the date of suspension or debarment.

4. The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.

5. The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth that results in the suspension or debarment of the contractor. Such costs shall include, but shall not be limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

6. The Contractor may search the current list of suspended and debarred Commonwealth contractors by visiting the eMarketplace website at <http://www.emarketplace.state.pa.us> and clicking the Debarment List tab.

DEPARTMENT OF AGRICULTURE

Temporary Order Designating Dangerous Transmissible Diseases

The Department of Agriculture (Department) issues this temporary order designating Chronic Wasting Disease (CWD), Viral Hemorrhagic Septicemia (VHS), the neurologic form of Equine Rhinopneumonitis or Equine Herpes Virus (EHV-1), *Brucella canis*, Tilapia lake virus (TiLV), *Streptococcus equi ssp. zooepidemicus* (*S. zooepidemicus*) in swine, Rabbit Hemorrhagic Disease (RHD), and *Leishmaniasis* as “dangerous transmissible diseases.” These designations are made under the authority of the Domestic Animal Law (3 Pa.C.S. §§ 2301–2389).

This temporary order is the successor to a previous temporary order which was published in the January 16, 2021, *Pennsylvania Bulletin*, 51 Pa.B. 334 (January 16, 2021). This temporary order hereby rescinds and replaces the January 16, 2021, temporary order.

Under the Domestic Animal Law at 3 Pa.C.S. § 2327(a) (relating to disease surveillance and detection), the Department has authority to monitor the domestic animal population of this Commonwealth to determine the prevalence, incidence and location of transmissible diseases of animals. Under the Domestic Animal Law at, 3 Pa.C.S. § 2321(d) (relating to designation of additional dangerous transmissible diseases through temporary order), the Department has authority to declare a disease that has not been specifically identified in that statute as a “dangerous transmissible disease” to be a dangerous transmissible disease through issuance of a temporary order making that designation. Under the authority of the Domestic Animal Law, set forth above, the Department hereby establishes the following diseases as “Dangerous Transmissible Diseases.”

1. CWD

CWD is a disease of whitetail deer, elk and other cervids and is a member of the group of diseases known as transmissible spongiform encephalopathies (TSEs). Other more well-known TSEs are scrapie and bovine spongiform encephalopathy (BSE) or “mad cow” disease. All are thought to be caused by a protein that has converted to an abnormal infectious form known as a “prion.” There is some evidence, in the case of BSE, that humans may become infected through consumption of meat products containing central nervous system tissues, thus there is a significant public health interest concerning all TSEs.

CWD has been identified in both captive and wild deer in this Commonwealth. The designation of CWD as a “dangerous transmissible disease” allowed the Department to facilitate the development and oversight of a surveillance program and quarantine orders that allow for detection, tracing and containment of the CWD outbreak and allows the Department to react and take action necessary to carry out its statutory duty under the Domestic Animal Law.

2. VHS

VHS virus is a serious pathogen of fresh and saltwater fish that is causing a disease in the Great Lakes region of the United States and Canada. VHS virus is a rhabdovirus (rod shaped virus) that affects fish of all size and age ranges. It does not pose any threat to human health. VHS can cause hemorrhaging of fish tissue, including internal organs, and can cause the death of infected fish. Once a fish is infected with VHS, there is no

known cure. Not all infected fish develop the disease, but they can carry and spread the disease to other fish. The World Organization of Animal Health has categorized VHS as a transmissible disease with the potential for profound socio-economic consequences.

3. Neurologic Form of EHV-1

EHV-1 is a highly contagious virus that is ubiquitous in horse populations worldwide. The age, seasonal and geographic distributions vary and are likely determined by immune status and concentration of horses. Infection with EHV-1 most commonly causes respiratory illness, characterized by fever, rhinopharyngitis and tracheobronchitis. Infection may also cause abortions in pregnant mares, following clinical or subclinical infection, and can be fatal to newborn foals. A further, infrequent clinical resultant effect of EHV-1 infection is the development of neurologic disease. Depending upon the location and extent of the lesions, signs of neurologic disease may vary from mild incoordination and posterior paresis to severe posterior paralysis with recumbency, loss of bladder and tail function, and loss of sensation to the skin in the perineal and inguinal areas, and even the hindlimbs. In exceptional cases, the paralysis may be progressive and culminate in quadriplegia and death.

Transmission of EHV-1 occurs by direct or indirect contact with infective nasal discharges, aborted fetuses, placentas or placental fluids. Transmission can occur by means of coughing or sneezing over a distance of up to 35 feet, as well as by direct contact with infected horses, feed and equipment.

There is currently no known method to reliably prevent the neurologic form of EHV-1 infection. Sound management practices, including isolation, are important to reduce the risk of infection with EHV-1. Maintaining appropriate vaccination protocols may also be prudent in an attempt to reduce the incidence of the respiratory form of EHV-1 infection, which may reduce the incidence of the neurologic form.

4. Canine Brucellosis (*Brucella canis*)

Canine brucellosis is an infectious disease of dogs caused by the *Brucella canis* (*B. canis*) bacteria. *B. canis* infection in breeding dogs is an important cause of reproductive failure, particularly in kennels. *B. canis* infection can result in abortions, stillbirths, epididymitis, orchitis and sperm abnormalities in breeding dogs. Infected dogs that have been spayed or neutered may develop other conditions such as ocular disease and discospondylitis.

Transmission of *B. canis* occurs through exposure to secretions during estrus or mating or by contact with infected tissues during birth or following abortion. In addition, infected dogs may spread the bacteria in blood, milk, urine, saliva, nasal and ocular secretions, and feces. Puppies can become infected in utero, during birth, through nursing, and by contact with contaminated surfaces. The bacteria can also be transmitted by fomites.

B. canis is considered to be a zoonotic organism, although its importance as a cause of human illness is still unknown. People in very close contact with infected dogs are thought to be more at risk of infection, including those who work in a breeding kennel, and veterinarians. Laboratory personnel handling the organism are also considered to have a higher risk of infection. The symptoms of this disease in humans are nonspecific and cases may not be reported. The 2012 National Association of State Public Health Veterinarians (NASPHV) document “Public Health Implications of *B. canis* Infections in Humans” reports that there are documented cases of

infection with *B. canis* leading to serious health problem. Those with compromised immune systems may be at higher risk of serious illness. Treatment with antibiotics may be effective.

Although infection in dogs can be treated with antibiotics, *B. canis* can persist in an animal even after treatment. Prevention is key, and all dogs entering a breeding kennel or used for breeding should first be test-negative or come from a brucella-negative source. Ongoing and regular testing is recommended, even in closed breeding facilities, and this is an essential component of recognition and prevention. Proper biosecurity and sanitation of breeding facilities is also recommended to prevent disease transmission. Infected puppies or dogs should not be purchased or adopted.

5. *Tilapia lake virus (TiLV)*

TiLV is a serious viral pathogen of farmed and wild Tilapia which has caused large losses in farmed fish in other countries. This orthomyxo-like virus was detected in an aquaculture facility within the United States and spread to other fish farms before it was eradicated from the country. The entry of the virus was traced to the importation of infected fry (juvenile fish) from an endemic region.

Lesions associated with TiLV infection include discoloration, renal congestion, encephalitis, ocular degeneration and abdominal swelling. Mortality can range from 10 to 90%. Morbidity and mortality generally become apparent in farmed fish within 1 month of movement from the hatchery to grow-out cages—thus, the disease is commonly known as “tilapia one-month mortality syndrome.”

6. *Streptococcus equi subspecies zooepidemicus (S. zooepidemicus) in swine*

Streptococcus equi ssp. zooepidemicus (S. zooepidemicus) is an opportunistic bacteria that has recently caused major economic losses in the swine industry in China. Although *S. zooepidemicus* is most commonly known as the cause of severe respiratory or uterine infections in horses, it is able to infect many other species, including swine, cattle, rabbits, pigs, dogs, cats, and humans. In animals, symptoms can include fever, inflammation of lymph nodes, sepsis, mastitis, and bronchopneumonia.

To protect the swine industry in Pennsylvania, potential infections in swine should be investigated to determine how widespread this organism is in swine and to assist producers in reducing the risk of infection and spread of disease.

7. *Rabbit Hemorrhagic Disease (RHD)*

RHD is a fatal disease in rabbits and is considered a foreign animal disease in the United States. RHD is caused by a calicivirus and there are several strains which cause disease. Rabbit Hemorrhagic Disease Virus Serotype 2 (RHDV-2) has been detected in North America in recent years. RHDV-2 is highly contagious and affects both domestic and wild rabbits, including hares, jackrabbits and cottontails.

The virus causing RHD can be transmitted by direct contact with infected rabbits or indirectly through carcasses, food, water, and any contaminated materials, and it is very resistant to extreme temperatures. Infection may result in a peracute febrile disease which causes hepatic necrosis, enteritis, and lymphoid necrosis, followed by massive coagulopathy and hemorrhages in multiple organs. Rabbits often show few clinical signs and die within six to 24 hours after the onset of fever and may have blood visible around the nose from the internal

hemorrhaging. Morbidity rate is often 100%, and the mortality rate is often 60%–90%.

RHD has not been shown to affect people or other mammals.

8. *Leishmaniasis*

Leishmaniasis is a zoonotic disease caused by infection with *Leishmania* parasites, affecting humans, dogs, and other mammals.

Leishmaniasis is most commonly reported in tropical and subtropical regions, including Asia, the Middle East, Africa, southern Europe, South and Central America, and southern Mexico. The disease has also been identified in foxhound populations in the United States and Canada and sporadic cases in other dogs have been reported in the United States.

Infection with *Leishmania* parasites can result in disease ranging from mild cutaneous lesions, a mucocutaneous form, or severe and often fatal visceral leishmaniasis in which internal organs such as the bone marrow, spleen, and liver may be affected. Approximately one million human cases, most with the cutaneous presentation, are reported worldwide annually. The visceral form of leishmaniasis is most often caused by the *Leishmania infantum* parasite in the Americas. The parasite is spread by infected female phlebotomine sandflies which feed on blood. The existence of competent insect vectors for *Leishmania* parasites in the United States has been documented and changing environmental factors may expand the geographic range of vectors in North America. Disease in humans caused by *Leishmania infantum* is reportedly a serious public health problem in those areas where canine leishmaniasis is endemic, and dogs have been implicated as a reservoir of infection, transmitting the parasite to insect vectors when the insects take a blood meal. The importation of infected dogs to an area with competent vectors could lead to the spread of the parasite in animal and human populations.

Treatment may not clear the parasite, and recrudescence may occur. There is no vaccine available to prevent leishmaniasis in humans or other mammals.

Order

The Department hereby designates CWD, VHS, EHV-1, *Brucella canis*, Tilapia lake virus, *Streptococcus equi ssp. zooepidemicus (S. zooepidemicus)* in swine, Rabbit Hemorrhagic Disease (RHD), and Leishmaniasis as “dangerous transmissible diseases” under the Domestic Animal Law at 3 Pa.C.S. § 2321(d). This order supplants any previous temporary order making such a designation.

This order shall take effect as of January 1, 2022, and upon publication in the *Pennsylvania Bulletin* and shall remain in effect until no later than January 1, 2023. This Department may: (1) reissue this temporary order to extend the designation beyond January 1, 2023, (2) allow this temporary order to expire on January 1, 2023, (3) supplant this temporary order with a formal regulation; or (4) modify this temporary order.

Questions regarding this temporary order may be directed to Kevin Brightbill, DVM, Director, Bureau of Animal Health and Diagnostic Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 772-2852.

APPLICATIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit www.dep.pa.gov and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

| I | Individual and General WQM Permit Applications/NOIs Received, General NPDES Permit NOIs Received, and All Transfer and Minor Amendment Applications/NOIs Received |
| II | Individual NPDES Permits—New, Renewal, and Major Amendment Applications and Draft Permits for Discharges Relating to Sewage, Industrial Waste, Industrial Stormwater, MS4s, Pesticides and CAFOs |
| III | Individual NPDES Permit Applications for Discharges of Stormwater Associated with Construction Activity |

Section I identifies the following applications and NOIs that have been received by DEP:

- Individual and General WQM Permit Applications Received—DEP provides a 15-day public comment period for Individual WQM Permit Applications for new and reissued permits. There is no public comment period for General WQM Permit NOIs.

- General NPDES Permit NOIs Received—There is no public comment period for General NPDES NOIs received.
- All Transfer and Minor Amendment Applications/NOIs Received—Transfer and Minor Amendment Applications/NOIs received for Individual and General WQM Permits and Individual and General NPDES Permits are identified but do not have public comment periods. DEP provides a 15-day public comment period for Individual WQM Permit Applications for amendments.

Additional information on these applications and NOIs may be reviewed by generating the “Applications and NOIs without Comment Periods Report” or, for Individual WQM Permit Applications, the “Applications Received with Comment Periods Report” on DEP’s website at www.dep.pa.gov/CWPublicNotice.

Section II identifies individual NPDES permit applications received and draft permits issued by DEP relating to sewage, industrial waste, industrial stormwater, MS4s, pesticides and CAFOs. A 30-day public comment period applies to these applications, except when a site-specific water quality criterion is used to establish effluent limitations, in which case a 45-day public comment period applies. The period for comment may be extended at the discretion of the Department for one additional 15-day period. Additional information, including links to draft permits and fact sheets that explain the basis for DEP’s tentative determinations may be reviewed by generating the “Applications Received with Comment Periods Report” on DEP’s website at www.dep.pa.gov/CWPublicNotice. Notification of 15-day extensions for comment will be provided in the “Applications Received with Comment Periods Report” (Comments column).

Section III provides notice of applications and draft individual permits for stormwater discharges associated with construction activities. Where indicated, DEP has made tentative determinations, based on preliminary review, to issue permits subject to proposed effluent limitations consisting of best management practices identified in the erosion and sediment control (E&S) plans and post-construction stormwater management (PCSM) plans submitted with the applications, as well as other terms and conditions based on the permit applications. A 30-day public comment period applies to these applications.

Applications and NOIs may be reviewed at the DEP office that received the application or NOI. Contact information for each DEP office for Sections I & II is listed as follows. Contact information for Section III is available within the table. Members of the public are encouraged to use DEP’s website to obtain additional information as discussed previously.

Comments received within the appropriate comment periods for WQM and NPDES permit applications will be retained by DEP and considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform DEP of the exact basis of a comment and the relevant facts upon which it is based.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to

Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

OPERATING PERMITS

46-00041: Graphic Packaging International, Inc., 1035 Longford Road, Phoenixville, PA 19460, located in Upper Providence Township, **Montgomery County**. This action is a renewal of the Title V Operating Permit; the current permit will expire on March 14, 2021. The facility's major emission points include printing presses containing Volatile Organic Compounds (VOCs). The facility is an area source for Hazardous Air Pollutants (HAP). The facility responsible official and permit contact have been updated. Source ID 205 (Lithographic Printing Press No. 7) has been removed from the plant and the permit; the diesel emergency generator (Source ID 741) has been replaced with a natural gas emergency generator (Source ID 742). The requirements of 40 CFR Part 60 Subpart JJJJ (Standards of Performance for Stationary Spark Ignition Internal Combustion Engines) apply to the spark ignition engine. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting. The sources at this facility are not subject to Compliance Assurance Monitoring (CAM) pursuant to 40 CFR Part 64 because there are no control devices on sources at this facility. The source is not a major source for Greenhouse Gases (GHG).

Anyone wishing to request information regarding this action can do so by contacting the Southeast Regional Office through the contact person listed in the previously listed header. Comments on the draft permit can be submitted through the Air Quality resource account at RA-EPSEROPUBCOM@pa.gov.

46-00060: PA DHS—Norristown State Hospital, 1001 East Sterigere Street, Norristown, PA 19401, located in Norristown Borough, East Norriton Township, and West Norriton Township, **Montgomery County**, for a renewal of Title V Operating Permit (TVOP) No. 46-00060 for the long-term psychiatric facility. The facility's air emissions sources consist of three natural gas/No. 2 fuel oil-fired boilers and eight emergency generator sets (five permanent, three trailer-mounted; each equipped with a diesel fuel-fired, stationary, reciprocating internal combustion engine).

The facility is subject to a site-level nitrogen oxide (NO_x) emission rate restriction of less than 25 tons/yr (calculated monthly as a 12-month rolling sum). In addition, seven of the emergency generator sets are equipped with plan approval-exempt ICE that are subject to combined NO_x emission rate restrictions of less than 100 lbs/hr, 1,000 lbs/day, 2.75 tons/ozone season, and 6.6 tons/yr (calculated monthly as a 12-month rolling sum).

The boilers are subject to NO_x emission concentration restrictions of less than or equal to 30 ppmv, dry basis, corrected to 3% oxygen (O₂), when consuming natural gas, and 90 ppmv, dry basis, corrected to 3% O₂, when

consuming No. 2 fuel oil, as well as a carbon monoxide (CO) emission concentration restriction of less than or equal to 300 ppmv, dry basis, corrected to 3% O₂.

The only changes that have occurred at the facility since DEP last renewed the TVOP in June 2015 are the removal of six permanent emergency generator sets and the installation of the three trailer-mounted emergency generator sets.

The boilers are subject to the provisions of 40 CFR Part 60, Subpart Dc, for small industrial-commercial-institutional steam generating units. The boilers are not subject to the provisions of 40 CFR Part 63, Subpart JJJJJJ, for industrial, commercial, and institutional boilers (hazardous air pollutant [HAP]) area sources, based on meeting the definition of the term "gas-fired boiler" in 40 CFR 63.11237.

Six of the seven plan approval-exempt engines (four permanent, two trailer-mounted) are subject to the provisions of 40 CFR Part 60, Subpart IIII, for stationary compression ignition internal combustion engines. The other two engines (one permanent, one trailer-mounted) are not subject to the provisions of 40 CFR Part 63, Subpart ZZZZ, for stationary reciprocating internal combustion engines, based on meeting the criteria for institutional emergency engines in 40 CFR 63.6585(f)(3).

The TVOP renewal will contain monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

Anyone wishing to request information regarding this action can do so by contacting the Southeast Regional Office through the contact person listed in the previously listed header. Comments on the draft permit can be submitted through the Air Quality resource account at RA-EPSEROPUBCOM@pa.gov.

- Removing Consent Decree related requirements from the TVOP after its termination.
- Incorporating plan approvals and IPs into the PESRM TVOP.
- Updating Non-Applicable Requirements.

The facility's current air emission sources subject to the TVOP include the following:

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341), requires the State to certify that the involved projects will not violate the applicable provisions of Sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317), as well as relevant State requirements. Persons objecting to approval of a request for certification under Section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit, or the approval of an Environmental Assessment must submit any comments, suggestions or objections within 30-days of the date of this notice, as well as any questions to the office noted above the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed, and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between the hours of 8:00 AM and 4:00 PM on each working day at the office noted above the application.

If you are a person with a disability and wish to attend the hearing and you require an auxiliary aid, service or other accommodation to participate in the proceedings, please contact the specified program. TDD users may

contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

WATER OBSTRUCTIONS AND ENCROACHMENTS

DELCOA is proposing to construct an 8.5-mile-long (44,000 linear feet) subsurface tunnel at approximately 70 to 100 feet below surface associated with the DELCOA Wastewater Tunnel Project. Along with pump station upgrades, five (5) access/drop shaft with diameters ranging from 16 to 40 feet will also be constructed. The tunnel will provide an estimated 30 million gallons of storage capacity. DELCOA is proposing to construct and maintain a total of 12,690 square feet (0.291 acre) of subsurface tunnel under 18 different watercourses (UNT to Delaware River, Chester Creek, Ridley Creek, Crum Creek, UNT to Stony Creek, Darby Creek Tidal Cove, Stony Creek, UNT to Darby Creek, Muckinipates Creek, UNT to Hermesprota Creek, and Hermesprota Creek (WWF-MF) and 53,579 square feet (1.23 acres) of subsurface tunnel under 49 different wetland areas (PEM, PFO and PSS) with no direct impact or loss of regulated resource.

This Joint Permit Application is being submitted for various activities associated with the B15 Well Connect Pipeline. These impacts include repairs to slope movements partially located within wetlands at Stations 3+00 and 149+00 and authorization of five (5) after-the-fact aquatic resource crossings that were not identified during the original permitting.

The project will result in a total of 10,199 SF (0.234 acre) of permanent wetland impacts due to fill placed within wetlands and conversion of PFO and PSS wetlands. The original permit included 1,520 SF of wetland conversion that will be added to the total permanent wetland impacts. A total of 1.04 acres of wetland mitigation credits are to be purchased to off-set the impacts.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
 PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for se-

lecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environ-

mental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

DEPARTMENT OF HEALTH

Amendments to Charges for Medical Records

In the notice published at 50 Pa.B. 6963 (December 5, 2020), the Department of Health (Department) published the guidelines and fees that a health care provider or facility may charge in response to a request for production of medical charts or records. This notice updates the notice published on December 5, 2020.

Under 42 Pa.C.S. §§ 6152, 6152.1 and 6155 (relating to subpoena of records; limit on charges; and rights of patients), a health care provider or facility is allowed to charge a fee in response to a request for medical charts or records. The Secretary of Health (Secretary), under 42 Pa.C.S. §§ 6152 and 6152.1, is directed to adjust annually the amounts which may be charged by the health care provider or facility.

The Secretary is directed to base these adjustments on the most recent changes in the Consumer Price Index reported annually by the Bureau of Labor Statistics of the

United States Department of Labor. For the annual period of October 31, 2020, through October 31, 2021, the Consumer Price Index was 6.2%.

Accordingly, effective January 1, 2022, the following fees may be charged by a health care facility or health care provider in response to a request for production of medical charts or records:

<i>Amount charged per page for:</i>	<i>Not to Exceed</i>
Pages 1—20	\$1.70
Pages 21—60	\$1.26
Pages 61—end	\$0.44
Microfilm copies	\$2.51
* Search and retrieval of records (cannot be charged if requestor is requesting their own personal health record)	\$25.20
Flat fees (providers may not charge the above search and retrieval fee in addition to a flat fee)	
Production of records to support any claim under Social Security or any Federal or State financial needs-based program;	\$31.94
Supplying records requested by a district attorney	\$25.20

The previously listed fees shall apply for paper copies or reproductions on electronic media whether the records are stored on paper or in electronic format.

In addition to the amounts listed previously, charges may also be assessed for the actual cost of postage, shipping and delivery of the requested records.

The Department is not authorized to enforce these charges.

The previously listed charges, however, are subject to the following exceptions:

(1) An insurer shall not be required to pay for copies of medical records required to validate medical services for which reimbursement is sought under an insurance contract, except as provided in:

a. The Workers' Compensation Act (77 P.S. §§ 1—1041.4 and 2501—2506) and the regulations promulgated thereunder.

b. 75 Pa.C.S. Chapter 17 (relating to Motor Vehicle Financial Responsibility Law) and the regulations promulgated thereunder.

c. A contract between an insurer and any other party.

(2) The charges listed in this notice do not apply to an X-ray film or any other portion of a medical record which is not susceptible to photostatic reproduction.

(3) The charges for the production of medical records by a health care provider in response to a request made by either an individual who is the subject of the health information or the individual's personal representative is governed by the Health Insurance Portability and Accountability Act (Pub.L. No. 104-191) (HIPAA) and Federal regulations enacted under HIPAA, including (42 U.S.C. § 17935(e)) and 45 CFR 164.524 (relating to access of individuals to protect health information), as follows:

a. *Electronic health record.* Under section 13405 (42 U.S.C. § 17935), if a health care provider uses or maintains health records in an electronic format with respect to protected health information of an individual, the individual shall have a right to obtain from the health care provider a copy of the information in an electronic format. The individual also has a choice to direct the health care provider to transmit electronically a copy of the health record directly to an entity or person designated by the individual, provided that any choice is clear, conspicuous and specific. Any fee that the health care provider may impose for providing the information (or a summary or explanation of the information) in an electronic format shall not be greater than the labor costs in responding to the request. The Department of Health and Human Services has stated that the labor costs may not include costs associated with searching for and retrieving the requested information.

b. *Health record used or maintained in other types of format (for example, paper).* Under 45 CFR 164.524(c)(4), if the individual requests a copy of the protected health information or agrees to a summary or explanation of the information, the covered entity may impose a reasonable, cost-based fee, provided that the fee includes only the cost of:

(i) Labor for copying the protected health information requested by the individual, whether in paper or electronic form.

(ii) Supplies for creating the paper copy or electronic media if the individual requests that the electronic copy be provided on portable media.

(iii) Postage, when the individual has requested the copy, or the summary or explanation, be mailed.

HOUSING FINANCE AGENCY

Homeowner's Emergency Mortgage Assistance Program; No Longer in a Period of High Unemployment

On October 22, 2021, it was announced by the Department of Labor and Industry (Department) that the Commonwealth's seasonally adjusted unemployment rate for September 2021 was 6.2%. It was previously announced by the Department that the August 2021 unemployment rate was 6.4% and that the July 2021 rate was 6.5%. Thus the average unemployment rate for the 3-month period of July, August and September 2021 was 6.4%.

Section 405-C(f.1) of the Housing Finance Agency Law (35 P.S. § 1680.405c) provides as follows:

Section 405-C

* * * * *

(f.1) The twenty-four (24) month limit on assistance available under this act established in subsection (f) and referenced in sections 401-C(a)(5), 403-C(f) and 404-C(a)(5) and (12) shall increase to thirty-six (36) months if during the month the homeowner submits an application for assistance the average rate of total unemployment in the Commonwealth, as seasonally adjusted, for the period consisting of the most recent three (3) months for which such data for the Commonwealth is published before the close of such month equals or exceeds six and one-half (6.5) percent.

Similarly, Section 406-C(2.1) provides as follows:

Section 406-C

* * * * *

(2.1) The forty (40) percent ratio established under paragraphs (1) and (2) shall be reduced to thirty-five (35) percent if during the month the homeowner submits an application for assistance the average rate of total unem-

ployment in the Commonwealth, as seasonally adjusted, for the period consisting of the most recent three (3) months for which such data for the Commonwealth is published before the close of such month equals or exceeds six and one-half (6.5) percent.

* * * * *

In furtherance of the statutory provisions, the Housing Finance Agency's (Agency) published Guidelines for the Homeowner's Emergency Mortgage Assistance Program (Program) (12 Pa. Code §§ 31.201—31.211 (relating to policy statement of Homeowner's Emergency Assistance Program)) provide in 12 Pa. Code § 31.210 (relating to periods of high unemployment) as follows:

§ 31.210. Periods of high unemployment.

(a) *Months of assistance available.* The 24 month limit on mortgage assistance available under § 31.203(d), and the 24 month periods referred to in §§ 31.202(d)(1), 31.203(a)(3)(ii), 31.204(c)(2) and 31.206(a) and (d)(2) shall increase to 36 months if during the month the homeowner submits an application for assistance the Agency has determined that a period of high unemployment exists.

(b) *Housing expense formula.* The 40% ratio referred to in §§ 31.204(c) and (e) and 31.205(c)(3) (relating to agency review; and financial hardship due to circumstances beyond the homeowner's control) shall be reduced to 35% if during the month the homeowner submits an application for assistance the Agency has determined that a period of high unemployment exists.

(c) *Definition; declaration.* There shall be a "period of high unemployment" if the average rate of unemployment in this Commonwealth equals or exceeds 6.5%. This determination will be made by the Agency on a monthly basis based upon seasonally adjusted unemployment figures for the most recent 3 months for which the data for this Commonwealth is published. If the Agency determines that a period of high unemployment exists, the Agency will immediately publish a notice to that effect in the *Pennsylvania Bulletin* consistent with this section.

On June 27, 2020, the Agency published a notice at 50 Pa.B. 3187 (June 27, 2020) announcing that a Period of High Unemployment existed and that the 36-month and 35% figures would be applicable to applications received during the month of May 2020. The notice also indicated that the Agency would continue to monitor unemployment figures on a monthly basis and if the 3-month calculation would produce an average result of less than 6.5% the Agency would publish a new notice to inform the public that the Commonwealth is no longer in a period of high unemployment and that the 36-month and 35% figures are changed back to 24 months and 40%, respectively.

As indicated previously, the average unemployment rate for the 3-month period of July, August and September 2021 was 6.4%. Consequently, the 24 month and 40% provisions will be applicable to applications received on or after October 1, 2021.

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

State Board of Optometry Regulation # 16A-5218 (IRRC # 3314)

License by Endorsement

November 17, 2021

We submit for your consideration the following comments on the proposed rulemaking published in the September 18, 2021 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Optometry (Board) to respond to all comments received from us or any other source.

1. Comments, objections or recommendations of a committee.

The House Professional Licensure Committee (Committee) has submitted comments to this Commission and the Board identifying numerous issues related to the following provisions:

- Section 23.27a(a)(1)(i) requires an applicant to submit a copy of the current law and regulations along with the scope of practice requirements in the jurisdiction that issued a license, certificate, registration or permit. Act 41 of 2019 does not explicitly state this requirement and the committee recommends changes that remove this responsibility from the applicants and apply it to the Board.
- Section 23.27a(a)(4) states that an applicant must not have any discipline by the jurisdiction that issued the license, certificate, registration or permit. The Committee recommends clarifying this section to specify the types of discipline and time frame when such discipline occurred.

- Section 23.27b(b)(1) would give the Board the authority to issue a provisional license for less than a year. The Committee asserts that it is unclear under what circumstances the Board would need to exercise this authority. The Committee asks why the Board would issue a license for less than a year as it is not addressed in Act 41 of 2019.

- Section 23.27b(c) stipulates that a provisional license expires upon denial of full licensure or failure to comply with terms of the provisional license. The Committee suggests this section also include the expiration date of the provisional license upon issuance of the license.

- Section 23.27(b)(d) states that the Board will not issue subsequent provisional licenses after the provisional licenses expire. The Committee believes that this section is vague. Further Act 41 of 2019 does not specifically state that the Board shall only issue one provisional license. The Committee recommends that this section be amended to correct the “unintended harm” of limiting provisional licenses and further suggests incorporating a time frame to re-apply.

Under the RRA, the comments, objections or recommendations of a Committee is one of the criteria this Commission must consider when determining if a regulation is in the public interest. When this proposal is delivered as a final-form regulation to the Commission and the Committees for review, the issues raised by the Committee, and the Board’s response to those issues, will be one of the criteria used by this Commission to determine if the regulation is in the public interest.

2. Compliance with the RRA.

Section 5.2 of the RRA (71 P.S. § 745.5b) directs this Commission to determine whether a regulation is in the public interest. When making this determination, the Commission considers criteria such as economic or fiscal impact and reasonableness. To make that determination, the Commission must analyze the text of the proposed regulation and the reasons for the new or amended language. The Commission also considers the information a promulgating agency is required to provide under Section 5 of the RRA in the Regulatory Analysis Form (RAF) (71 P.S. § 745.5(a)). The information contained in the Regulatory Analysis Form (RAF) is not sufficient to allow this Commission to determine if the regulation is in the public interest.

Section 23.27a(a)(1)(ii) requires an applicable law, regulation or rule that is in a language other than English to be translated, at the applicant's expense, by a professional translation service and verified to be accurate. The Board's response to Regulatory Analysis Form # 19 does not provide a specific estimate of the costs to the regulated community for translation of an applicable law, regulation or rule.

RAF # 14 requires the promulgating agency to describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups in the development and drafting of the regulation. It also requires the agency to list the specific persons and/or groups that were involved. The Board's response states that it sent an exposure draft to "stakeholders and interested parties" in February 2020. We ask the Board, when it submits the final version of this rulemaking, to provide an updated RAF that includes an estimate of the costs associated with translation and a list of specific persons and/or groups involved in the development and drafting of the proposal.

3. Miscellaneous.—Clarity.

We recommend the title of Chapter 23 (relating to license by reciprocity and interstate certification) be amended to reflect the proposed content pertaining to licensure by endorsement.

Department of Education Regulation # 6-349 (IRRC # 3315)

Charter Schools and Cyber Charter Schools

November 17, 2021

We submit for your consideration the following comments on the proposed rulemaking published in the September 18, 2021 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Department of Education (Department) to respond to all comments received from us or any other source.

1. Statutory authority; Determining whether the regulation conforms to the intention of the General Assembly; Comments, objections, or recommendations of a committee.

The Department states in the Preamble that this proposed regulation will promote transparency, equity, quality, and accountability in the implementation of the Charter School Law (CSL) provisions relating to the establishment of new charter school entities and the governance and operation of existing charter school entities.

The proposal has generated significant interest from the regulated community and members of the General Assembly. We received comments from Rep. Curt Sonney, Chairman of the House Education Committee and Sen. Tim Kearney. The Senate Education Committee (Committee) voted to submit comments at their meeting and submitted the formal comment letter on November 8, 2021. We also received a separate letter from the Democratic Chair and members of the Committee dated November 16, 2021. Commenters and legislators have provided input both for and against this proposed regulation. Chairman Sonney comments that several provisions of the regulation are contrary to the intent of the law, lack clarity, and impose unreasonable requirements on charter schools and cyber charter schools. Sen. Kearney comments that the regulation is a step forward, but there are gaps in the regulation on how the standard application process for charters will compare to local charter school applicants, how renewals of applications will occur, what a random selection process should look like, and what criteria should be considered in the fiscal management and audit requirements, amongst other concerns. The Committee comments dated November 8 express concern with many aspects of the proposed regulation as follows:

- Despite the introduction of numerous bills and ongoing discussions related to charter and cyber charter school reform in the Legislature, the Department has circumvented the legislative process through proposed regulation # 6-349, which goes beyond the scope of providing clarifications to the [CSL] and instead institutes policy changes that have the effect of creating new law.

- During the October 20, 2021 [Committee] hearing, [the Department] testified that regulations are intended to "clarify and provide some more parameters around the current law," but this proposed regulation goes well beyond clarifying the law and in some cases makes policy decisions of such a substantial nature that they must be addressed through legislation. For example, [S]ection 1719-A of the [CSL] establishes the minimum requirements for charter school applications and [Section] 1717-A(e)(2) of the [CSL] permits an authorizing school district to consider additional criteria and information from the charter school applicant...It is not for [the Department] to expand those minimum requirements provided in statute and overstep the role of the authorizing local school board of directors and the legislature to establish new minimum standards as it attempts to do in [S]ection 713.2 of the proposed regulation.

- Section 17-1702-A of the [CSL] clearly lays out the intent of the General Assembly to improve pupil learning, increase learning opportunities, encourage innovative teaching methods, create professional opportunities for teachers, provide parents and pupils with expanded educational choices and hold these schools accountable. It is deeply concerning to this Committee to have received testimony that indicates these proposed regulations will have a net opposite effect to the Legislature's intent and may lead to additional closures of schools, many of whom are small, single site, minority[-]operated and [-]attended charter schools—thereby reducing, rather than expanding, school choice.

- Section 713.9, which requires charter [schools] and cyber charter schools to provide the same level of health care benefits as the benefits provided to teachers at the authorizing school district, is in dire need of clarification as this could have significant financial and practical impacts to charter schools and their employees.

- The need for [S]ection 713.9 is also unclear because, as was stated during the hearing, there is fierce competition amongst school entities for certified educators, so benefits packages need to be competitive. Moreover, complaints regarding the quality of health care plans being offered by charters are rare.

- . . . [S]ection 713.3 requires cyber charter schools to utilize a Department form for applications and it should be plainly stated that cyber charter applicants that have already submitted their applications to the Department prior to the effective date of the regulations will not need to submit a new application and the original application will be honored. It is unclear to the committee and stakeholders how changes to the application requirements will ultimately impact the renewal process.

- . . . , the economic and fiscal impact to the regulated community remains in question. While [the Department] reports “modest costs” to charter school entities in section 18 of the Regulatory Analysis Form (RAF), stakeholders have indicated these estimates are inaccurate.

- Due to the overwhelmingly negative impact the proposed regulations would have on charter schools, especially smaller and minority[-]operated charter schools, we strongly urge the Department to abandon further development of these proposed regulations and work with members of the legislature to achieve consensus on reform through the legislative process.

The letter from the Democratic Chair and members of the Committee dated November 16 supports the proposed regulation and offers the following comments:

Charter Applications (713.2-3)

- Districts that elect to create their own form with additional information should be permitted to require use of the local form.

- The application should include plans for culturally responsive and sustaining education.

- The application should require a letter of intent to provide property for the proposed charter school as proof that an adequate facility will be available.

- The application should require plans for facility cost payment, specifically the use of state moneys from the charter school facility lease reimbursement project and the charter school facility grant program.

- The application should include plans for induction programming to ensure that the applying charter is aware and prepared for this state requirement, which leads to higher retention rates of educators.

- The regulation should provide more clarity about what charter operators should include in their “[p]lans for meeting the needs of . . . students with disabilities[.]” Specifically, charter operators should have to indicate how they will: (1) comply with their Child Find obligations; (2) assess students’ growth and progress and need for new or changed services; and (3) handle student discipline when a child’s behavior is a manifestation of his/her disability.

Ensuring Equitable Enrollment (713.4-5)

- The charter’s random selection policies must describe how their admission practices will comply with federal and state nondiscrimination law.

- Public notice of the selection process should include the number of available slots and the number of applicants.

- Data required in the annual reports should be disaggregated in a way that is consistent with the disaggregation requirement under PA’s ESSA Consolidated State Plan.

- Further instruction should be provided on criteria for a random selection process to build greater trust in the process and to prevent abuse.

Accountability and Ethics Requirements for Board of Trustees (713.6)

- The board of trustees should include at least one parent of a student currently attending the school as a representative on the Board.

Fiscal and Auditing Standards (713.7)

- Requirements should align with generally accepted standards of fiscal management, which include but is limited to audits and preparation of financial statements.

Redirection (713.8)

- The proposed 10-day process for redirection is not enough time to review and verify residency and enrollment data, especially giving limited staffing resources of many districts and the number of students that may be attending different charters. A longer timeframe is needed.

Health Care Parity (713.9)

- The proposed regulations will allow a cyber or regional charter school to strategically move their administrative offices to an area where health care benefits are more advantageous to them. The regulations should be clarified so that these schools are administered in a single central office.

- Further clarity is also needed about complaint process, especially around the authority and remedies available to the authorizing entity when notified of a health care parity violation. An alternative may be to establish a complaint process at PDE, as is in place for other violations.

- The regulations need to be revised to ensure that they do not negatively impact the right of workers to organize and collectively bargain their benefits.

New Provisions on Renewals

- The regulations need new provisions on the renewal process, which should include assessment of how students have performed at charters operated by current applicant and composition of student population by race, ethnicity, economically disadvantaged, students with disabilities, and type of disability.

- The new renewal process should detail how the charter proposes to improve student outcomes if a charter is renewed, but its performance needs improvements.

The Committee letter dated November 8, like many commenters, asserts that the Department is seeking to change the CSL through the proposed regulation. That letter encourages the Department to withdraw the proposed regulation and engage the General Assembly in comprehensive charter school reform. Several commenters made similar requests.

Under the RRA, the comments, objections, or recommendations of a committee and written comments submitted by current members of the General Assembly are two of the criteria the Commission must consider when determining if a regulation is in the public interest. Our comments below address many of the issues raised by the Committee and legislators. When this proposal is deliv-

ered as a final-form regulation to this Commission and the standing committees for review, we will evaluate the Department's responses to the issues raised by the Committee and legislators in determining whether the regulation is in the public interest.

2. Compliance with the RRA.

Commenters assert that the Department did not seek input from all major stakeholders in drafting the proposed regulations. Section 2 of the RRA, pertaining to legislative intent, provides the following directive: "To the greatest extent possible, this act is intended to encourage the resolution of objections to a regulation and the reaching of a consensus among the commission, the standing committees, interested parties and the agency." 71 P.S. § 745.2(a). We strongly encourage the Department to organize additional stakeholder meetings with representatives from all segments of the commenters and the regulated community. This would allow the Department and the regulated community an opportunity to resolve as many remaining concerns as possible prior to the submittal of the final-form regulation.

3. Section 713.1. Definitions.—Statutory authority; Clarity; Reasonableness.

Authorizer

The Department includes as part of the definition of "authorizer" "[t]he Department, for a cyber charter school." Is the Department also the authorizer of a multiple charter school organization? If so, we ask the Department to clarify the definition of "authorizer" to identify the Department also as an authorizer of a multiple charter school organization.

Educational management service provider

The Department proposes to define "educational management service provider" as:

A nonprofit or for-profit charter management organization, education management organization, school design provider, business manager or any other entity or individual that enters into a contract or agreement with a charter school entity to provide educational design, business services, management or personnel functions or to implement the charter. The term may not include a charter school foundation.

We note that Section 5-501(b)(3) of the Public School Code defines "education management service provider" similarly but does not include the language encompassing any other individual who contracts with a charter school to implement the charter. 24 P.S. § 5-501(b)(3). Commenters raise various concerns related to the language encompassing any other entity or individual who contracts with a charter school to implement the charter. For example, are there services that an entity or individual can contract to provide to a charter school without being regarded as an educational management service provider? Would teachers, administrators, and administrative staff that enter into employment contracts with a charter school be regarded as an educational management service provider? What is the Department's statutory authority to expand on the definition in the Public School Code? Why is such an expansion necessary, and how is it enforceable?

English learner

The Department proposes to define "English learner" as a student with limited English language proficiency who meets certain criteria. Commenters assert that the proposed definition does not mirror the Federal definition and, therefore, likely would be preempted by Federal law.

We ask the Department to amend the definition at final to mirror Federal law for clarity and consistency or to explain the reasonableness of the proposed definition.

4. Section 713.2. Contents of charter school or regional charter school application.—Statutory authority; Clarity; Reasonableness; Implementation procedures.

The Department states in the Preamble that this section "seeks to promulgate regulations related to the content of a charter school or regional charter school application required under [S]ection 1719-A of the CSL (24 P.S. § 17-1719-A)." A commenter asserts that local boards of school directors have exclusive authority to accept, review, and approve charter school applications under Section 1717-A of the CSL, including under Paragraph (e)(2)(iii) with respect to whether "the application considers the information requested in [S]ection 1719-A and conforms to the legislative intent outlined in [S]ection 1702-A." 24 P.S. § 17-1717-A. As noted in our first comment, the Committee states, "It is not for [the Department] to expand those minimum requirements provided in statute and overstep the role of the authorizing local school board of directors and the legislature to establish new minimum standards." We ask the Department to explain its statutory authority regarding the contents of charter school applications.

Paragraph (a)(2) states, "The application form created and adopted by an authorizer of a charter school or regional charter school, which *at a minimum*, includes the information identified in [S]ubsection (c)." (Emphasis added.) The use of the phrase "at a minimum" puts no limits on the requirements that an authorizer may include on a charter school or regional charter school application. Under what statutory authority may an authorizer require information beyond that provided for in the CSL? We ask the Department to amend this provision to limit any application requirements to those established by the General Assembly in the CSL and identified in the final regulation.

A commenter states that many of the details required to be included in the application under Subsection (c) are more expansive than what is required under Section 1719-A of the CSL. 24 P.S. § 17-1719-A. Several commenters assert that many of the details required to be included in the application may be difficult or impossible to estimate or know at the time of the application, and some items have little or no bearing on the potential for the applicant to meet the requirements of the CSL. We agree that certain of the Department's proposed requirements seem to go beyond the CSL requirements and may be challenging to provide at the time of application. For example, Section 1719-A(3) of the CSL requires "[t]he grade or age levels served by the school." 24 P.S. § 17-1719-A. The Department's parallel requirements for an application under Paragraph (c)(3) include:

For each grade or age level proposed to be served by the charter school or regional charter school:

- (i) Projected overall enrollment.
- (ii) Projected number of students receiving special education services by primary disability. Students may only be counted in one disability category.
- (iii) Projected number of English learners.
- (iv) Projected composition of the student population by race, ethnicity and students who are economically disadvantaged.

This example clearly demonstrates a significant expansion by the Department upon the “grade or age level served” as required by the CSL. How would a charter school or regional charter school applicant which draws from the entire Commonwealth and from the entirety of the K-12 continuum meet such a standard? We ask the Department to explain the reasonableness of requirements such as in Subparagraphs (c)(3)(ii), (iii), and (iv), and to explain how the regulation is to be implemented by the regulated community related to items unknown at the time of application.

Subparagraph (c)(4)(v) requires a charter school or regional charter school applicant to include standards for board of trustees’ performance, including compliance with all applicable laws, regulations, and terms of the charter. What standards does the Department anticipate for performance compliance beyond simply complying with laws, regulations, and terms of the charter? We ask the Department to clarify what an applicant is required to include to satisfy this requirement.

Paragraph (c)(4)(vii) contemplates if a charter school or regional charter school has or intends to have any affiliated business entities. We ask the Department to clarify the type of entity that would be considered an affiliated business entity.

Under Subparagraph (c)(5)(i), how would an applicant include “demonstrated, sustainable support” for the charter school or regional charter school? We ask the Department to clarify how this provision is to be implemented.

Paragraph (c)(12) requires the application to include: “A description and address of the physical facility in which the charter school or regional charter school will be located, the ownership of the physical facility and any lease arrangements, including:

- (i) Whether the facility will be leased or owned.
- (ii) Anticipated monthly mortgage or lease payments, and any estimated additional monthly payments (for example, utilities, property taxes and common space custodial services).
- (iii) How the facility is suitable for the proposed school.
- (iv) Square footage for each space where instruction of students will occur and a description of how the space will be used (for example, kindergarten classroom, gymnasium for physical education and music instruction).
- (v) Safety protocols for the facility.

The parallel provision in Section 1719-A(11) of the CSL states that an application shall include: “A description of and address of the physical facility in which the charter school will be located and the ownership thereof and any lease arrangements.” 24 P.S. § 17-1719-A. We agree with a commenter that the items required by the Department in Subparagraphs (c)(12)(ii)—(v) are not required by the CSL and seem to go significantly beyond the description, address, ownership, and lease arrangements required in the CSL. We ask the Department to explain the statutory authority and reasonableness of these requirements if they are retained in the final regulation.

Finally, Subsection (c) is unclear as to how an applicant who has already submitted an application to the Department prior to the effective date of the regulation will be handled. We ask the Department to clarify how this provision will be implemented for applications already in process.

As Section 713.3 (relating to contents of cyber charter school application) requires an applicant seeking to oper-

ate a cyber charter school to submit an application which includes the items identified in Section 713.2(c), the comments above addressing Subsection (c) also apply to cyber charter school applications.

5. Section 713.4. Random selection policies for a charter school or regional charter school.—Protection of the public health, safety, and welfare; Clarity; Need; Implementation procedures.

Commenters raise a variety of issues related to random selection policies. While a legislator advocates for further instruction on criteria for a random selection process to build greater trust in the process and to prevent abuse, another commenter states that a lottery enrollment process is already in place as part of a new charter application and the Department’s standard application. Furthermore, one commenter states that the General Assembly has already codified that a charter school cannot discriminate in its admission practices (24 P.S. § 17-1723-A(b)(1)), while another states that the Department fails to address how enrollment limits will not have a disparate impact on minority and low-income families who seek these school choice opportunities for their children. We ask the Department to explain the need for random selection policies, and how the random selection policies in the final regulation protect the public welfare.

Paragraph (c)(2) includes a requirement that the random selection policies be included in any “renewal application” of a charter school or regional charter school. As this is the only reference to the renewal process in the proposed regulation, we ask the Department to clarify how renewals are to be implemented in the final regulation.

Paragraph (c)(4) requires that the random selection process the charter school or regional charter school be posted on the school’s website “in a language that students and parents can understand...” We ask the Department to clarify whether a charter school entity must post the policy in all languages believed to be the first language of their community or in English but available for translation.

These comments also pertain to Section 713.5 (relating to random selection policies for a cyber charter school).

6. Section 713.5. Random selection policies for a cyber charter school.—Feasibility; Reasonableness; Implementation procedures.

Commenters raise concerns regarding Subsection (a), which states, “A cyber charter school may not restrict enrollment based on availability of attendance slots unless the terms are agreed to by the Department and the cyber charter school as part of a written charter under [S]ections 1723-A(d) and 1745-A of the [CSL].” 24 P.S. §§ 17-1723-A and 17-1745-A. Commenters assert that this language prohibits a cyber charter school from recognizing its staffing and/or resource limitations and restricting the number of students it can serve. A legislator comments that cyber charter schools might not be limited by facilities, but there are other real factors limiting how many students they can optimally enroll and support, and the provisions of this section should reflect the need for enrollment limits for cyber charter schools. We ask the Department to explain the feasibility and reasonableness of unlimited enrollment for those cyber charter schools which did not include enrollment limitations in their charters. We also ask the Department to explain how this provision is to be implemented in situations where a cyber charter school’s enrollment exceeds its staffing and/or resource limitation.

7. Section 713.6. Requirements for Boards of Trustees.—Need.

Subsection (a) states, “Each member of a board of trustees of a charter school entity is a public official subject to 65 Pa.C.S. §§ 1101—1113 (relating to Public Official and Employee Ethics Act).” As the Department itself indicates, trustees of a charter school are considered already to be public officials under existing law. Additionally, we note that Section 1715-A(11) of the CSL states, “Trustees of a charter school shall be public officials.” 24 P.S. § 17-1715-A. We ask the Department to explain the need for this provision if it is retained in the final regulation.

8. Section 713.7. Fiscal management and audit requirements.—Statutory authority; Protection of the public health, safety, and welfare; Clarity; Implementation procedures.

The Department states in the Preamble that this section “seeks to promulgate regulations related to [S]ection 1729-A of the CSL (24 P.S. § 17-1729-A) (and applied to cyber charter schools in [S]ection 1749-A of the CSL), which requires a charter school entity to meet generally accepted standards of fiscal management and audit requirements or face nonrenewal or termination of its charter.” Commenters raise objections to this section. A commenter states that like all public schools in the Commonwealth, charter schools are currently required to have an independent audit done after each fiscal year. The commenter explains that Certified Public Accountants (CPA) are provided rules and regulations from a number of organizations such as the Governmental Accounting Standard Board and the Financial Accounting Standard Board. The commenter asserts that the Department is not granted the authority to set audit standards.

Other commenters raise concerns related to the need for stricter standards for audits to assess fiscal management and additional clarity in this section. For example, a commenter states that Subsection (b) does not address what happens if the two requirements listed are satisfied but auditors find other areas of significant deficiencies or material violations of those standards. Another commenter states that the list of items to be addressed in all audits provided in Subsection (c) does not address many other concerns nor provide much guidance or standards. For example, a charter school’s failure to pay bills in a timely manner or failure to make Public School Employees Retirement System payments in a timely manner are examples of fiscal mismanagement that would not necessarily be uncovered by an auditor or included by an auditor in a public report.

Given the numerous comments on this section highlighted above, we ask the Department to explain its statutory authority and to ensure that provisions related to fiscal management and audit requirements in the final regulation are clear and protective of the public welfare.

Subsection (c) provides a list of items that shall be addressed in all audits completed under this section. Among these items, Paragraph (c)(2) requires a “review of the fees charged” by any educational management service provider. What is the nature and extent of the “review” required in order for a charter school to comply with this section? We ask the Department to address this question in the Preamble to the final regulation and to clarify how this provision is to be implemented in the final regulation.

9. Section 713.8. Redirection process.—Clarity; Reasonableness; Implementation procedures.

Subsection (a) states, “Under [S]ection 1725-A(a)(5) of the [CSL], a charter school entity shall submit its payment request to the school district no later than 10 days before the 5th of each month to permit a school district time to make payment.” A commenter asserts that ten days is not long enough for larger school districts. Another commenter states that this does not allow for proper accounting of enrollment changes that may happen at the end of each month, and recommends that this timeline be adjusted to enable proper accounting of enrollments. We note that the proposed language fails to address the situation where the fifth day of the month falls on a weekend or holiday. We ask the Department to explain the reasonableness of this provision and to clarify in the final regulation that the days are to be counted as business days.

Paragraph (d)(2) requires the charter school entity to include “the source of the tuition rate” used by the charter school entity in its withholding request to the Department; however, the Department does not explain how the source is to be identified or whether documentation is required in addition to identifying the source. We ask the Department to clarify how this provision is to be implemented in the final regulation.

Subsection (e) states, “For the months from July through May, requests under this section must be submitted to the Department between the 15th and 25th of each month.” We ask the Department to clarify in the Preamble why the month of June is not included so that implementation of the final regulation is clear for the regulated community. A commenter questions if this provision could cause significant cash flow problems for charter schools and how charter schools can pay bills in a timely manner if they are not paid by school districts in a timely manner. The commenter notes that failure to pay bills in a timely manner could be a material violation of the generally accepted standards of fiscal management, which is grounds for termination or nonrenewal of a charter according to Sections 1729-A(3) and 1741-A(3) of the CSL. 24 P.S. §§ 17-1729-A and 17-1741-A.

10. Section 713.9. Health care benefits.—Economic or fiscal impacts; Clarity, feasibility, and reasonableness of the regulation; Clarity and lack of ambiguity; Need; Implementation procedures; Compliance with the RRA.

The Department states in the Preamble that this section “seeks to promulgate regulations related to [S]ection 1724-A of the CSL (24 P.S. § 17-1724-A) (as applied to cyber charter schools in [S]ection 1749-A of the CSL), which requires that every employee of a charter school be provided the same health care benefits the employee would receive if they worked for the chartering school district.” We reiterate what the Department has indicated, that every charter school, regional charter school, and cyber charter school has been required by the CSL to provide health care benefits since the CSL was enacted in 1997. We also note that the Department does not provide any basis for the need for this section in the RAF. Because the provisions within this section have raised such significant concerns among the regulated community which we address below, we ask the Department to explain the need for regulating health care benefits in the final regulation.

Comments on this section include many questions and significant concerns such as the following:

- Under the proposed regulations, coverage would be out of compliance in the example where a charter school entity employee pays more for a specific treatment than a school district employee; however, different health treatments will align with different plan design facets, such as deductibles, coinsurance, and copayments. Within just one benefit plan, it is not uncommon for specific services and procedures to have completely unique employee cost requirements.

- When the term “benefits” is properly construed according to its appropriate meaning, a charter school’s compliance with the “same health care benefits” requirement is dependent upon the nature of the items and services covered and not the costs associated with obtaining coverage for those items and services. The Department’s cost-sharing requirement is thus statutorily improper, as well as unnecessary and overly burdensome.

- The proposal that the charter school entity health plan would have to be designed to account for every single service and procedure is onerous and unreasonable. Conceptually, a charter school entity’s health plan could clearly be more valuable than a local school district plan when considered on the whole, but still require a higher payment for a specific service or procedure.

- The Department’s proposed requirement limiting charter schools to offering the same “plan type” as the school district’s most-selected plan is inconsistent with the statute and unnecessary.

- Beyond plan design elements like deductible, coinsurance, and copayments, benefits can vary significantly through different utilization management programs, such as a prescription drug plan with a more restrictive formulary or additional prior authorization protocols. It is unclear how the Department would consider these issues.

- If a charter school and school district are engaged in open enrollment at or around the same time, a school district’s most-selected plan would not be identifiable until at or near the end of the enrollment period, leaving no time for the charter school to negotiate and contract for a health plan that corresponds to the school district’s most-selected plan, and then complete enrollment for its own employees before the end of the enrollment period.

- If school districts competing for teacher candidates are not required to provide a comparison of benefits between the two districts, why should a charter school be required to do so. This is excessive and unnecessary, especially since the regulation already requires charter schools to provide comparable benefits.

- School districts may offer different benefit plans for different collective bargaining groups (e.g., educational staff, support staff, etc.). The Department fails to explain how this would be addressed under the regulations.

- The regulations fail to consider that charter school entities are not at the bargaining table when a school district and its collective bargaining units negotiate health care benefits, plan design, and costs.

- The type or categories of benefits under a charter school entity health care plan should not be tied to the benefit categories identified under the Patient Protection and Affordable Care Act, but rather the benefit categories offered by the applicable school district for comparison purposes as required by Section 1724-A(d) of the CSL, 24 P.S. § 17-1724-A.

- The Department seeks to substantially alter the manner in which charter schools procure, offer, and contribute financially to health insurance coverage for

employees without analyzing or even acknowledging in the RAF the financial and other potential impacts of its proposed regulation on charter schools and their employees.

- The CSL does not contemplate charter schools contributing to tax-advantaged accounts for the purchase of health care coverage.

If the Department retains this section in the final regulation, in light of the comments above, we ask the Department to address in the RAF and Preamble the economic impacts, feasibility, and reasonableness of requirements related to health care benefits as required by the RRA.

As proposed, this section would necessitate an authorizing school district to disclose information to the charter school, regional charter school, or cyber charter school entity about:

- The most-selected health care plan available to school district employees;

- The contribution provided by the school district for the most-selected health care plan; and

- Health care benefit plan enrollment options and comparison information.

The regulations do not indicate how school districts would provide complex health benefits information to charter schools, regional charter schools, or cyber charter schools, nor does the regulation address the timing or frequency of when such information must be provided. We ask the Department to clarify implementation of this provision. Specifically, we ask the Department to explain how and at what intervals this information is to be provided to charter schools, regional charter schools, and cyber charter schools.

Subsections (a) and (b) both use the phrases “meaningfully similar” and “substantially equivalent.” Who evaluates the meanings of these terms and makes the final determination as to what is meaningfully similar or substantially equivalent? A commenter states that it is unclear whether a “substantially equivalent cost-sharing structure” is referring to percentages or dollar amounts, and notes that there are several factors that come into play when analyzing a cost-sharing structure such as copays, deductibles, and premiums. We ask the Department to clarify the meanings of these phrases in the final regulation.

Subsection (b) identifies the location of the “administrative office” of the regional charter school or cyber charter school as the distinguishing identifier as to which school district an entity looks to regarding health care benefits. If a regional charter school or cyber charter school has several administrative offices, this provision becomes unclear and ambiguous. As such, we ask the Department to clarify the definitions of “regional charter school” and “cyber charter school” to indicate that each is administered from a single identified central office.

Under Subsection (d), employees of a charter school who believe that the health care benefits being offered by the charter school are not comparable to those of the authorizing school district may file a complaint with the authorizing school district. However, it is unclear what an authorizing school district could do about the situation as there are no process nor remedy procedures provided for in the regulations. Commenters note that this requirement places an administrative burden on authorizing school districts that could be significant. Another commenter notes that this statement is not required by the

CSL, and that it is not the duty of the authorizer to handle complaints made by employees of a charter school. We ask the Department to amend and clarify this provision in the final regulation.

Subsection (e) states, "The authorizer of the charter school, regional charter school or cyber charter school may review the health care benefits policies of the charter school, regional charter school or cyber charter school." Is there a need for this subsection since Section 1728-A of the CSL grants authorizing school districts ongoing access to charter school records? 24 P.S. § 17-1728-A.

Finally, the language in this section regarding health care benefits is unclear regarding multiple charter school organizations. Are each of the charters in a multiple charter school organization treated as separate charters for purposes of this provision, or are they to be treated as one charter with the location of a designated central administrative office being used for purposes of this health care comparison? We ask the Department to clarify how this section applies to multiple charter school organizations, and to clarify the definition of "multiple charter school organization" regarding a single identified central office if necessary.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security, Insufficient Financial Security Amount or Language

Public Meeting held
November 18, 2021

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; John F. Coleman, Jr., Vice Chairperson; Ralph V. Yanora

*Electric Generation Supplier License Cancellations of
Companies with an Expired Financial Security,
Insufficient Financial Security Amount or Language;
M-2021-3023559*

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a

bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA, 17120, prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferably in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website, and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of November 9, 2021, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount or language directed by the Commission, to replace a bond which is expired, or which is non-compliant with Commission regulations.

Supplier Table—List of Electric Generation Suppliers

<i>Docket Number</i>	<i>Company Name</i>	<i>Financial Security Expiration Date</i>	<i>Commission Approved Amount or Language</i>
A-2021-3024218	HERCULES ENERGY, LLC	10/26/2021	Yes
A-2010-2210786	INTELLIGEN RESOURCES, LP	10/26/2021	Yes
A-2020-3019881	SELECTED POWER, INC.	5/14/21	Yes
A-2012-2284040	VERDIGRIS ENERGY, LLC	11/2/2021	Yes

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 90-day Security Renewal Notice email to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security in the amount or language directed by the Commission, must be filed within 30-days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for the EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier License of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary (i) serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, all electric generation distribution companies, and all of the Electric Generation Suppliers listed in the Supplier Table; (ii) publish a copy of this Tentative Order in the *Pennsylvania Bulletin* with a 30-day comment period; and (iii) file a copy of this Tentative Order at each Electric Generation Supplier's assigned docket number.

3. To the extent any of the Electric Generation Suppliers listed in the Supplier Table challenge the cancellation of their license, they must file comments within thirty (30) days after publication of this Tentative Order in the *Pennsylvania Bulletin*. Written comments referencing Docket No. M-2021-3023559 must be eFiled to the Pennsylvania Public Utility Commission through the Commission's eFiling System. You may set up a free eFiling account with the Commission at <https://efiling.puc.pa.gov/> if you do not have one. Filing instructions may be found on the Commission's website at http://www.puc.pa.gov/filing_resources.aspx. Comments containing confidential information should be emailed to Commission Secretary Rosemary Chiavetta at rchiavetta@pa.gov rather than eFiled.

4. Alternatively, Electric Generation Suppliers listed in the Supplier Table may provide the Commission an approved security up to and within thirty (30) days after publication in the *Pennsylvania Bulletin*. The Electric Generation Supplier must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument displaying a "wet" signature or digital signature, preferably in blue ink, and displaying a "raised seal" or original notary stamp with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA, 17120.

5. Absent the timely (i) filing of comments challenging the cancellation of the Electric Generation Supplier's license, or (ii) the filing of an approved security within 30-days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services, shall prepare a Final Order for entry by the Secretary revoking the license of each Electric Generation Supplier that fails to respond.

6. Upon entry of the Final Order, Electric Generation Suppliers that remain listed as not in compliance with 52 Pa. Code § 54.40(a) and (d) will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

7. Upon entry of the Final Order, Electric Generation Suppliers that fail to respond will be prohibited from providing electric generation supply services to retail electric customers. That upon entry of the Final Order described in Ordering Paragraph No. 5, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.
