MINIMUM STANDARDS OF PRACTICE

§ 42.21. Delegation of duties to aides and other unlicensed personnel.

(a) A licensee may delegate to aides and other unlicensed personnel duties associated with nontreatment aspects of occupational therapy services if the following conditions are met:

(1) The licensee who delegates a duty shall accept professional responsibility for the performance of that duty by the aide or other unlicensed person to whom it is delegated. Responsibility for the performance of a duty delegated by an occupational therapy assistant shall lie with both the assistant and with the occupational therapist who supervises that assistant.

(2) The aide or other unlicensed person does not perform an activity which requires licensure under the act.

(b) The following are examples of the lawful use of aides or other unlicensed personnel in the occupational therapy setting:

(1) Transporting patients.
(2) Preparing or setting up a work area or equipment.
(3) Attending to the personal needs of patients/clients during treatment.
(4) Assisting patients/clients with nontreatment aspects of occupational therapy services, such as monitoring and cuing patients/clients as they participate in activities.
(5) Performing clerical and housekeeping activities.

(c) The following are examples of the unlawful use of aides or other unlicensed personnel in the occupational therapy setting:

(1) Evaluating patients/clients.
(2) Treating patients/clients.
(3) Recording occupational therapy progress reports on the chart of a patient/client.

(d) Failure to comply with this section constitutes unprofessional conduct under section 16(a)(2) of the act (63 P. S. § 1516(a)(2)).

§ 42.22. Supervision of occupational therapy assistants.

(a) Section 3 of the act (63 P. S. § 1503) provides that licensed occupational therapy assistants may assist in the practice of occupational therapy only under the supervision of an occupational therapist. “Under the supervision of an occupational therapist” means that an occupational therapist currently licensed by the Board:

(1) Evaluates the patient/client.
(2) Prepares a written program plan.

(391999) No. 525 Aug. 18
(3) Assigns treatment duties based on that program plan to an occupational therapy assistant currently licensed by the Board who has been specifically trained to carry out those duties.

(4) Monitors the occupational therapy assistant’s performance.

(5) Accepts professional responsibility for the occupational therapy assistant’s performance.

(b) Supervision includes the following:

(1) Communicating to the occupational therapy assistant the results of patient/client evaluation and discussing the goals and program plan for the patient/client.

(2) Periodically reevaluating the patient/client and, if necessary, modifying the program plan.

(3) Case management.

(4) Determining program termination.

(5) Providing information, instruction and assistance as needed.

(6) Observing the occupational therapy assistant periodically.

(7) Preparing on a regular basis, but at least annually, a written appraisal of the occupational therapy assistant’s performance and discussing that appraisal with the assistant.

(c) Notwithstanding subsections (a)(1) and (b)(2), the supervisor may assign to a competent occupational therapy assistant the administration of standardized tests, the performance of activities of daily living evaluations and other elements of patient/client evaluation and reevaluation that do not require the professional judgment and skill of an occupational therapist.

(d) The supervisor shall have supervisory contact with the occupational therapy assistant at least 10% of the time worked by the assistant in direct patient care. “Supervisory contact” means face-to-face individual contact, telephone communication, contact through written reports or group conferences among a supervisor and two or more supervisees. Face-to-face individual contact shall occur onsite at least once a month and shall include observation of the assistant performing occupational therapy. The specific mode, frequency and duration of other types of supervisory contact depend on the treatment setting, the occupational therapy assistant’s caseload, the condition of patients/clients being treated by the assistant and the experience and competence of the assistant as determined by the supervisor. The supervisor shall ensure, however, that supervisory contact within each calendar month includes a combination of face-to-face, telephone and written communication.

(e) The supervisor shall maintain a supervisory plan and shall document the supervision of each occupational therapy assistant. Documentation shall include evidence of regular supervision and contact between the supervisor and the assistant.

(f) A supervisor who is temporarily unable to provide supervision shall arrange for substitute supervision by an occupational therapist currently licensed by the Board. The substitute shall provide supervision that is as rigorous and thorough as that provided by the permanent supervisor.
§ 42.23. Supervision of applicants with temporary licenses.

(a) Section 9(a)(3) of the act (63 P. S. § 1509(a)(3)) provides that an applicant for licensure who holds a temporary license shall practice occupational therapy or provide services “only as an assistant under the direct supervision of an occupational therapist licensed pursuant to this act.” With regard to a temporary licensee under section 9(a)(3), “direct supervision” means that:

1. The supervisor is onsite at least 25% of the time worked by the temporary licensee and at all other times is available for prompt consultation by telephone or otherwise.

2. The supervisor has face-to-face individual contact with the temporary licensee at least weekly in the case of a temporarily licensed occupational therapist and at least daily in the case of a temporarily licensed occupational therapy assistant. This contact shall include observation of the temporary licensee performing occupational therapy.

3. In addition to the contact described in paragraph (2), the supervisor has face-to-face, telephone or written supervisory contact with the temporary licensee at least daily in the case of a temporarily licensed occupational therapist and as needed in the case of a temporarily licensed occupational therapy assistant. For purposes of this paragraph, face-to-face contact may include group conferences among the supervisor and two or more supervisees.

(b) For purposes of subsection (a)(1), “onsite” means that the supervisor is physically present and available in the facility or other location where the temporary licensee is working. When the facility comprises more than one contiguous building, availability means that the supervisor is readily accessible for face-to-face consultation with the supervisee.

(c) Subsection (a) provides minimum supervisory requirements. Supervisors shall intensify supervision consistent with a temporary licensee’s experience, competence and performance or when other factors, such as failing the licensing examination, indicate that greater oversight is needed.

(d) In addition to the responsibilities set out in subsection (a), the supervision of a temporary licensee requires that the supervisor:

1. Evaluate the patient/client.

2. Prepare a written program plan.

3. Assign treatment duties based on that program plan to a temporary licensee who has been specifically trained to carry out those duties.

4. Monitor the temporary licensee’s performance.
(5) Accept professional responsibility for the temporary licensee’s performance.

(e) Supervision includes the following:
   (1) Communicating to the temporary licensee the results of patient/client evaluation and discussing the goals and program plan for the patient/client.
   (2) Periodically reevaluating the patient/client and, if necessary, modifying the program plan.
   (3) Case management.
   (4) Determining program termination.
   (5) Providing information, instruction and assistance as needed.
   (6) Preparing on a regular basis, but at least every 3 months, a written appraisal of the temporary licensee’s performance and discussing that appraisal with the temporary licensee.

(f) Notwithstanding subsections (d)(1) and (2) and (e)(2), the supervisor may assign to a temporarily licensed occupational therapist elements of patient/client evaluation and reevaluation and elements of preparing a written program plan. These assignments shall be consistent with the training, experience and competence of the temporary licensee.

(g) Notwithstanding subsections (d)(1) and (e)(2), the supervisor may assign to a competent temporarily licensed occupational therapy assistant the administration of standardized tests, the performance of activities of daily living evaluations and other elements of patient/client evaluation and reevaluation that do not require the professional judgment and skill of an occupational therapist.

(h) The supervisor shall maintain a supervisory plan and shall document the supervision of each temporary licensee. Documentation shall include evidence of regular supervision and contact between the supervisor and the temporary licensee.

(i) A supervisor who is temporarily unable to provide supervision shall arrange for substitute supervision by an occupational therapist currently licensed by the Board. The substitute shall provide supervision that is as rigorous and thorough as that provided by the permanent supervisor.

(j) Failure to comply with this section constitutes unprofessional conduct under section 16(a)(2) of the act (63 P.S. § 1516(a)(2)).
