READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

**SUBSCRIPTION INFORMATION: (717) 766-0211
GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 200. BUSINESS OF COURTS

Rule 220.1. Voir Dire.

(a) Voir dire shall be conducted to provide the opportunity to obtain at a minimum a full description of the following information, where relevant, concerning the prospective jurors and their households:

* * * * *

(16) Such other pertinent information as may be appropriate to the particular case to achieve a competent, fair and impartial jury.

Official Note: For example, in the context of *Capoferri v. Children's Hospital of Philadelphia*, 893 A.2d 133 (Pa. Super. 2006) (en banc), petition for allowance of appeal denied, 916 A.2d 630 (Pa. 2006), voir dire should have been allowed with respect to the effect of pre-trial publicity on prospective jurors' "attitudes regarding medical malpractice and tort reform."

* * * * *

Explanatory Comment

The Civil Procedural Rules Committee is proposing the addition of a note to Rule 220.1(a)(16) governing voir dire. Current subdivision (a) lists the information to which parties are entitled to obtain during voir dire. The list concludes with a catch-all provision in subparagraph (16).

The proposed note provides an example of the type of information that may be sought from potential jurors pursuant to subparagraph (16) to achieve a competent, fair and impartial jury in a particular case.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 200. BUSINESS OF COURTS

Rule 226. Points for Charge. Motion for Directed Verdict.

(a) Points upon which the trial judge is requested to charge the jury shall be so framed that each may be completely answered by a simple affirmation or negation. Attorneys shall hand copies of requested points for charge to the trial judge and to the opposing attorneys before the closing addresses to the jury are begun.

Official Note: As an appellate court cannot consider anything that is not part of the record in a case, an attorney submitting to the court a proposed point for charge must make certain that it

becomes part of the record by reading the point into the record, filing the point in the prothonotary's office, or attaching the point to a motion for post-trial relief.

A point for charge which may be filed with the prothonotary or attached to a motion for post-trial relief must have been presented to the trial court in accordance with the rule.

Explanatory Comment

The Civil Procedural Rules Committee is proposing to amend Rule 226 governing points for charge by adding a note that is intended to cure the problem of making points for charge part of the record for appellate review. The proposed amendment is in response to the case of *Bennyhof v. Pappert*, 790 A.2d 313 (Pa. Super. 2001), petition for allowance of appeal denied, 573 Pa. 682, 823 A.2d 143 (2003), in which the Superior Court concluded that although a point for charge had been raised by counsel and addressed by the trial court, the text of the point had not been made part of the certified record on appeal. The proposed note specifies the methods by which points for charge may be placed on the record. It is important to note that all points for charge must be presented to the court in accordance with the rule regardless of the method by which they are made part of the record.

[237 PA. CODE CH. 6]

Proposed Amendments to Rule 613 and Proposed New Rule 614

The Juvenile Court Procedural Rules Committee is planning to recommend to the Supreme Court of Pennsylvania that the modification of Rule 613 and the new rule 614 be adopted and prescribed. The proposed modified Rule 613 provides that the juvenile court loses jurisdiction when the juvenile attains the age of twenty-one. Rule 614 sets forth the procedures for early termination of court supervision by motion. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the intent of the rules. Please note that the Committee's Reports should not be confused with the official Committee Comments to the Rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Reports.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel,

Explanatory Report

Rule 613—Termination of Court Supervision

The Committee is proposing that a new paragraph (A) be added to Rule 613. Pursuant to 42 Pa.C.S. § 6302, the juvenile court loses jurisdiction over a juvenile when the juvenile attains the age of twenty-one regardless of whether the terms of the court's dispositional order have been completed. This proposed addition requires the court to enter a court order terminating court supervision of the juvenile so cases may be properly closed when the juvenile turns twenty-one.

The Comment was also changed to reflect that restitution may be collected under 42 Pa.C.S. § 9728 when court supervision is terminated.

Rule 614—Early Termination of Court Supervision by Motion

This new rule allows for early termination of court supervision if all the requirements of Rule 613 have not been met.

During the Committee's survey of all the judicial districts, some counties asked the Committee to look into several reasons why a court may want to terminate court supervision prior to the fulfillment of the court's dispositional order. Some examples of reasons for early termination could be that the juvenile is serving time in an adult prison and dual supervision is unnecessary; the juvenile would like to enroll in the military; or other compelling reasons for early termination.

The court has the power to continually change the terms of its court order at commitment review or dispositional review hearings. See Pa.Rs.J.C.P. 610(B) and 612(C), and 42 Pa.C.S. § 6353. If the court can change the terms of its dispositional order, it may decide to terminate court supervision prior to the completion of those terms.

Once court supervision has been terminated, restitution may be collected pursuant to 42 Pa.C.S. § 9728.

PROPOSED RULEMAKING

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Public Hearing Regarding Revised Proposed Amendments to the Comprehensive Plan and Water Code Relating to a Flexible Flow Management Plan for Operation of the New York City Delaware Basin Reservoirs

The Delaware River Basin Commission (Commission) will hold a public hearing and accept written comment on a revised proposal to amend the agency's Comprehensive Plan and Water Code to establish a Flexible Flow Management Program (FFMP) for the New York City Delaware Basin Reservoirs ("City Delaware Reservoirs") for multiple objectives, including, among others: (a) providing safe and reliable supplies of water; (b) managing discharges; (c) assisting in mitigating floods; (d) providing flows in the tailwaters to help sustain cold water fisheries; and (e) providing flows to help protect ecological health, support withdrawal and nonwithdrawal uses and repel salinity. The current reservoir releases program, established by Resolution No. 2004-3, and the current spill mitigation program, established by Resolution No. 2006-18, both were due to expire on May 31, 2007. By Resolution No. 2007-7 on May 10, 2007, the Commission extended these programs through September 30, 2007 in light of this ongoing rulemaking process. The Commission will also accept comment on alternative reservoir management strategies that may be adopted in the event that the decree parties do not unanimously consent to the proposed FFMP or the Commission does not promulgate regulations embodying the FFMP. The alternative reservoir releases options to be considered are: (1) extending the current reservoir releases program; or (2) reinstating a previous reservoir releases program. In evaluating these options, the Commission will also consider a seasonal spill mitigation program or an annual spill mitigation program for the three reservoirs and an amelioration program for the potential effects on the tailwaters fishery of the Lake Wallenpaupack drought operating plan adopted by Resolution No. 2002-33. The releases program adopted in the event that the proposed FFMP is not approved would continue in effect until any expiration date contained in the program adopted or unless and until replaced by another program that has been approved by the Commission. If approved by the Commission, the FFMP will supersede Docket D-77-20 CP (Revised) until the FFMP's expiration on May 31, 2010 or further renewal date, and all other versions of Docket D-77-20 CP shall be rescinded or expire. A comprehensive reassessment of safe yield and operations of selected basin reservoirs will be undertaken during the first three years that the FFMP is in effect.

Any alternative program addressing issues regarding which the public has not been provided notice through the present rulemaking may require a further notice and comment rulemaking process. In accordance with Section 3.3 of the Delaware River Basin Compact, any program affecting the diversions, compensating releases, rights, conditions, and obligations of the 1954 Supreme Court Decree in the matter of *New Jersey v. New York*, 347 U. S. 995, 74 S. Ct. 842 also requires the unanimous consent of

the decree parties, which include the states of Delaware, New Jersey and New York, the Commonwealth of Pennsylvania, and the City of New York.

Dates

Two public hearings on the revised FFMP proposal will be conducted at 2:30 p.m. and 6:30 p.m. respectively on Tuesday, August 14, 2007, at the office building of the Delaware River Basin Commission in West Trenton, NJ. Written comments will be accepted through Wednesday, August 15, 2007. To allow sufficient time for consideration of written comments, comments must be received, not merely postmarked, by that date. In addition, three informational meetings will be held on the revised proposal. The first informational meeting took place during a meeting of the Commission's Regulated Flow Advisory Committee, held at 10 a.m. on June 27, 2007 at the PPL Lake Wallenpaupack Environmental Learning Center in Hawley, PA. The second will take place during the morning conference session of the Commission's regularly scheduled meeting at 10:15 a.m. on Wednesday, July 18, 2007 at the DRBC office building in West Trenton, NJ. The third informational meeting will take place at 1 p.m. on Tuesday, August 14, 2007, immediately prior to the first public hearing on the proposal, scheduled for that date at the Delaware River Basin Commission office building in West Trenton, NJ. Directions to the Commission's office building, located at 25 State Police Drive in West Trenton, NJ, are available on the DRBC website at www.drbc.net. Do not rely upon MapQuest or other Internet mapping services for driving directions, as they may not provide accurate directions to the DRBC. Written comments must include the name, address and affiliation of the commenter. Comments may be submitted by email to paula.schmitt@drbc.state.nj.us; by U. S. Mail to: Commission Secretary, DRBC, P. O. Box 7360, West Trenton, NJ 08628-0360; and by fax to Attn: Commission Secretary at (609) 883-9522. In all cases, the subject line should include the phrase, "FFMP Comment."

Previously Submitted Comments

Written comments submitted to the Commission during the prior comment period, or presented orally or in writing to the Commission at its prior scheduled public hearings, with regard to the form of the FFMP posted on the Commission's website in February, 2007, will be included in the administrative record for this rulemaking and need not be resubmitted.

Supplementary Information

The flow management objectives considered by the Supreme Court Decree of 1954 were narrower than the diverse objectives that have emerged in the decades since. Today, the finite waters of the Delaware and the limited storage available in the basin are being managed for multiple purposes, including among others water supply and drought mitigation, flood mitigation, habitat protection in the tailwaters fishery, the mainstem and the estuary and salinity repulsion. In accordance with the Delaware River Basin Compact, a statute concurrently enacted in 1961 by the United States and the four basin states—Delaware, New Jersey, New York and Pennsylvania—the Delaware River Basin Commission may modify diversions, releases, rights, conditions and obligations established by the decree, provided that the decree parties unanimously consent to such modifications. The Commission and decree parties have made use of this

authority to provide flexibility to respond to fluctuating hydrologic conditions and evolving priorities throughout the Commission's history.

Unlike the experimental programs instituted by the Commission in the past, the FFMP is intended to provide a comprehensive framework for addressing multiple flow management objectives, including, in addition to water supply, drought mitigation and protection of the tailwaters fishery, a diverse array of habitat protection needs in the mainstem, estuary and bay, assistance in mitigating the impacts of flooding, recreational goals and salinity repulsion. Some of the flow needs identified by the parties have not yet been defined sufficiently for the development of detailed plans. These include protection of the dwarf wedgemussel, a Federal and state-listed endangered species present in the mainstem, oyster production in Delaware Bay, and protection of warm-water and migratory fisheries in the lower basin. Incremental and periodic adjustments are expected to be made to the FFMP for these purposes, based upon ongoing monitoring, scientific investigation and periodic reevaluation of program elements.

A central feature of the reservoir release programs implemented to date for management of the tailwaters fishery has been the use of reservoir storage "banks" employed for narrowly defined purposes under specific hydrologic and temperature conditions and at specified times of the year. These are applied in conjunction with a set of fixed seasonal flow targets. The system requires complex daily flow and temperature modeling as a component of determining the releases, and as a result, the program is difficult and costly to administer. The current approach also lacks the seasonal fluctuations characteristic of a natural flow regime. The FFMP would largely eliminate the use of banks and would base releases instead on reservoir storage levels, resulting in larger releases when water is abundant and smaller releases when storage is at or below normal. The result would more closely approximate a natural flow regime. In addition, the FFMP would provide for more gradual transitions (or "ramping") from higher to lower releases and vice versa than the current regime. The FFMP would include a discharge (spill) mitigation component similar to but enhancing the temporary programs implemented in the past. The storage represented by snowpack water content would continue to be considered.

The decree parties have considered the broad range of public comments that were received on the FFMP that was published in February and have proposed several revisions in response to those comments. The discharge mitigation provisions of the release program would be enhanced by increasing the rate of releases and modifying the release triggering curves by extending the period during which releases are triggered at the 75% storage

level and expanding the period of time during the year covered by the program. These releases would also serve to provide more water than did the previous FFMP proposal for fisheries protection during the spring and early summer. A Temporary Release Quantity would be established for a 3-year period, supported by the Excess Release Quantity specified in the decree, and making release water available to meet Montague and Trenton flow objectives under certain conditions. The maximum New Jersey diversion authorized in the decree, which was reduced during drought operations by the Good Faith Agreement of the decree parties and the Commission's Water Code would be partially restored by the revised FFMP, resulting in continuation of New Jersey's 100 mgd diversion during normal and drought watch operations; and diversions of 85 mgd during drought warning and drought emergency operations. The Montague flow objective would be detached from the Good Faith Agreement's salt front vernier during drought emergency operations.

Hydrologic modeling and habitat assessments are being undertaken to evaluate the sustainable benefits of the FFMP for the tailwaters fishery and for discharge mitigation. In addition, an evaluation is being made of the potential benefits and costs of increasing storage in one or more of the City Delaware Reservoirs that may improve the capacity of the system to meet the full range of flow objectives.

If a decision of DRBC commissioners on details of the FFMP with the unanimous consent of the decree parties cannot be reached at the Commission meeting on September 26, 2007, the parties intend to continue to work at refining and improving the FFMP. Under such circumstances, for an interim period, the parties will consider extending the current fisheries management program or reinstating a previous regime. In either case, a discharge mitigation plan and an amelioration program for the potential effects of the Lake Wallenpaupack drought operating plan will also be considered.

NOTICES

DELAWARE RIVER BASIN COMMISSION

Commission Meeting and Public Hearing

The Delaware River Basin Commission (Commission) will hold an informal conference followed by a public hearing on Wednesday, July 18, 2007. The hearing will be part of the Commission's regular business meeting. Both the conference session and business meeting are open to the public and will be held at the Commission's office building, located at 25 State Police Drive in West Trenton, NJ.

The conference among the commissioners and staff will begin at 10:15 a.m. Topics include a presentation on a revised proposal for a Flexible Flow Management Program (FFMP) for the New York City Delaware Basin Reservoirs; a presentation on proposed amendments to the Commission's Special Protection Waters regulations and a presentation on proposed amendments to the Water Code relating to water accountability and source metering, recording and reporting.

The subjects of the public hearing to be held during the 2 p.m. business meeting include the dockets listed as follows:

1. *South Coatesville Borough D-74-39 CP-2*. An application for approval of the rerate of the existing South Coatesville Borough Wastewater Treatment Plant (WWTP). The permitted discharge from the applicant's WWTP will increase from an annual average daily flow of 0.365 million gallons per day (mgd) to 0.381 mgd and will continue to be discharged to the West Branch Brandywine Creek. The facility is located in South Coatesville Borough, Chester County, PA.

2. *Kent County Levy Court D-77-87 CP-2*. An application for approval of the expansion of the existing Kent County Levy Court WWTP. The permitted discharge from the applicant's WWTP will increase from a daily flow of 15.0 mgd to 16.3 mgd and will continue to be discharged to The Gut, a tributary to the Murderkill River. The facility is located in the City of Milford, Kent County, DE.

3. *Hackettstown Municipal Utilities Authority D-91-30 CP-2*. An application to expand a 3.3 mgd wastewater treatment plant to process 3.39 mgd. The plant is located in Washington Township, Morris County, NJ. The plant will continue to treat wastewater from the Town of Hackettstown, Mansfield, Independence and Allamuchy Townships, all in Warren County; and Washington and Mount Olive Townships in Morris County, NJ. The additional capacity is needed to serve the service area previously served by the former Diamond Hill Sewer Company. Treatment plant effluent will continue to be discharged to the Musconetcong River in the Musconetcong River Watershed by means of the existing outfall. The defunct Diamond Hill treatment facility and discharge to Hence's Brook will be abandoned.

4. *Aqua New Jersey, Inc. D-93-13 CP-3*. An application for the renewal of a groundwater withdrawal project to increase withdrawal from 198.5 mg/30 days to 237 mg/30 days to supply the applicant's Blackwood District public water supply distribution system from existing Wells Nos. 3, 6, 7, 13, 15, 17 and 20 located within the Delaware River Basin and eight wells located outside of the basin

in the Cohansey, Mt. Laurel and Potomac-Raritan-Magothy Formations. The increased allocation is requested to meet projected increases in service area demand. The project is located in the Big Timber Creek Watershed in Gloucester Township, Camden County, NJ.

5. *Reading Area Water Authority D-2000-59 CP-2*. An application for approval to transfer up to 1.5 mgd and up to 45 mg/30 days of potable water from the Reading Area Water Authority (RAWA) system to the Pennsylvania American Water Company (PAWC) Glen Alsace District water distribution system. Some of the water supply is also needed to serve PAWC's customers in its Douglassville District by means of an existing interconnection. RAWA proposes no increase of existing allocation of 35 mgd (1,050 mg/30 days) of water from its Lake Ontelaunee Reservoir, which is located in Ontelaunee Township, Berks County, PA. The project also includes the revision of the RAWA Operating Plan to reflect the service area modification, conservation release improvements and fisheries protection measures. The reservoir is situated on Maiden Creek in the Schuylkill River Watershed.

6. *Borough of Portland D-2003-9 CP-2*. An application to modify the proposed WWTP that was approved by DRBC Docket No. D-2003-9 CP on January 19, 2005, but not constructed due to cost considerations. The WWTP design capacity will remain 0.105 mgd, but the modified design involves treatment processes that cost less to construct and maintain than those in the approved design. The proposed membrane ultra-filtration system will eliminate the need for clarifiers and a tertiary filter, while still meeting docket and NPDES permit limitations. The WWTP will provide tertiary treatment of flow from the proposed Portland Industrial Park and from local onlot septic systems located in Portland Borough, Northampton County, PA. The WWTP will be constructed in the southeast corner of Portland Borough and the project outfall diffuser will discharge to the Delaware River. The project is located within the drainage area to a section of the nontidal Delaware River known as the Lower Delaware, which is classified as Special Protection Waters.

7. *Pennsylvania American Water Company D-2006-33 CP-2*. An application for approval of a groundwater withdrawal project to supply up to 7.34 mg/30 days of water to the applicant's public supply distribution system from new Well PW3 and to increase the existing withdrawal from all wells from 15.12 mg/30 days to 18.57 mg/30 days. The increased allocation is requested to meet projected increases in service area demand. New Well PW3 is located in the Trimmers Rock Formation in the Brodhead Creek Watershed in Stroud Township, Monroe County, PA. The site is located within the drainage area to the section of nontidal Delaware River known as the Middle Delaware, which is classified as Special Protection Waters.

8. *Wissahickon Spring Water, Inc. D-2006-29-1*. An application for approval to discharge up to 0.1008 mgd to Kaercher Creek, a tributary of the Schuylkill River, from a bottled water filtration plant. The wastewater currently discharges into sanitary drains within the building. The applicant will install three reverse osmosis units and will discharge the rinse water through new Outfall No. 001. The facility is located in the Schuylkill River Watershed in Hamburg Borough, Berks County, PA.

9. *Pocono Manor Investors Pt. 1, L.P. D-2006-43-1*. An application for approval of a groundwater withdrawal

project to supply up to 30.24 mg/30 days of water to the applicant's resort from new Wells Nos. 1—3 and to limit the existing withdrawal from all wells to 30.24 mg/30 days. The project is located in the Catskill Formation in the Brodhead/Swiftwater Creek Watershed in Pocono Township, Monroe County, PA. This withdrawal project is located within the drainage area to the section of the nontidal Delaware River known as the Middle Delaware, which is classified as Special Protection Waters.

10. *Royersford Borough D-2006-45 CP-1.* An application for approval to expand the existing Royersford Borough WWTP from a design flow of 0.54 mgd to 0.70 mgd. WWTP effluent will continue to be discharged to the Schuylkill River. The facility is located directly outside of Royersford Borough, in Upper Providence Township, Montgomery County, PA.

11. *Jackson Township Authority D-2007-4 CP-1.* An application for the approval of a new 0.5 mgd WWTP. The applicant's new WWTP will discharge to an unnamed tributary of the Tulpehocken Creek, a tributary to the Schuylkill River, at a point upstream of Blue Marsh Reservoir. The facility will be located in Jackson Township, Lebanon County, PA.

12. *Cott Beverages, Inc. D-2007-6-1.* An application for approval to expand the applicant's existing IWTP from 0.023 mgd to 0.070 mgd to serve its beverage (soft drinks and carbonated water) production facility. The IWTP will continue to discharge to the West Branch Chester Creek in the Chester Creek Watershed. The facility is located in Concord Township, Delaware County, PA.

13. *Bath Borough Authority D-2007-16 CP-1.* An application for approval of a groundwater withdrawal project to supply up to 15 mg/30 days of water to the applicant's public supply distribution system from new Wells Smith Street, Allen Street and Holiday Hill. The project is located in the Ontelaunee and Martinsburg formations in the Monacacy Creek and East Monacacy Creek watersheds in Bath Borough, Northampton County, PA. The project site is located within the drainage area to the section of the nontidal Delaware River known as the Lower Delaware, which is classified as Special Protection Waters.

14. *Altivity Packaging LLC D-2007-20-1.* An application for approval of a surface water withdrawal project to supply up to 210 mg/30 days of water to the applicant's

industrial operations from existing Intake No. 1. The project is located in the Schuylkill River Watershed in the City of Philadelphia, PA.

In addition to the public hearing on the dockets listed, the Commission's 2 p.m. business meeting will include: a public hearing and consideration of a resolution for the minutes increasing the authorized value of a contract with Princeton Hydrologics, LLC for modifications to the site of the Commission's West Trenton office building to improve stormwater management; a resolution authorizing the Executive Director to enter into an agreement for analysis of emerging contaminants in ambient waters of the tidal Delaware River; a resolution authorizing the executive director to enter into an agreement with the Susquehanna River Basin Commission for the Commission to perform tasks in connection with water conservation aspects of Pennsylvania's State Water Planning Act; and a resolution for the minutes authorizing the executive director to enter into an agreement to provide support to the Commonwealth of Pennsylvania on water resources issues.

The meeting will also include: adoption of the minutes of the Commission's May 10, 2007, business meeting; announcements of upcoming advisory committee meetings and other events; a report by the Executive Director; a report by the Commission's General Counsel and an opportunity for public dialogue.

Draft dockets scheduled for public hearing on July 18, 2007, will be posted on the Commission's website, www.drbc.net, where they can be accessed through the Notice of Commission Meeting and Public Hearing. Additional documents relating to the dockets and other items may be examined at the Commission's offices. Please contact William Muszynski at (609) 883-9500, Ext. 221, with any docket-related questions.

Individuals in need of an accommodation as provided for in the Americans With Disabilities Act who wish to attend the informational meeting, conference session or hearings should contact the Commission Secretary directly at (609) 883-9500, Ext. 203 or through the Telecommunications Relay Services (TRS) at 711, to discuss how the Commission can accommodate their needs.

The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alter-

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

The initial permit was issued on January 7, 2001. The facility processes cocoa beans and cocoa nibs to create cocoa powder, cocoa butter and chocolate liquor for utilization in the food industry. As a result of potential emissions of VOCs, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Renewal does not adopt any new regulations and does not reflect any change in air emissions from the facility. The facility is not subject to Compliance Assurance Monitoring under 40 CFR Part 64. This addition of regulatory requirements does not reflect any change in air emissions from this facility.

S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable

permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition,

more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317)

and that the construction will not violate applicable Federal and State water quality standards.

Department of Labor and Industry—General Provisions; Regulation No. 12-67 (#2484)

On June 27, 2005, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Labor and Industry (Department). This rulemaking amends 34 Pa. This final-form rulemaking updates and clarifies administrative procedures followed by employees, employers and insurers in their transactions with the Bureau of Workers' Compensation.

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Environmental Quality Board Regulation #7-408 (IRRC #2598)

Permit Streamlining

June 25, 2007

We submit for your consideration the following comments on the proposed rulemaking published in the March 24, 2007 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. Adequate Public Notice—Reasonableness; Need.

The Preamble states that the Department of Environmental Protection (Department), as part of an effort to streamline the permitting process, investigated ways to “reduce the plan approval application time, reduce unnecessary costs to industry *and continue to ensure that citizens receive adequate notice of potential plan approval/permitting actions to enable timely comment on issues of public concern.*” (Emphasis added.) We received two public comments in support of the amendments. However, a joint comment from eight organizations, dated May 25, 2007, was sent to the EQB urging rejection of the amendments. Specifically, the joint commentators cite concerns with the amendments in Sections 127.44, 127.44(b)(6) and 127.45(5), as they relate to public notice in the *Pennsylvania Bulletin*.

We recognize that, as amended, Section 127.45(5) would require “a brief description of the conditions being placed in the plan approval with reference to applicable State and Federal requirements.” We also note that proposed Section 127.44(b)(5) is essentially the same as the existing requirement under Section 127.44(a)(6). Nonetheless, the EQB should explain further why these amendments are needed and how the amended regulation will provide adequate notice to the public.

2. Section 127.12d. Completeness Determination—Consistency with statute; Reasonableness; Clarity.

Adequate, Streamlined and Reasonable Procedures

In its Preamble, the EQB cites 35 P. S. § 4006.1(b.3) which states:

The board shall by regulation establish *adequate, streamlined and reasonable procedures for expeditiously determining when applications are complete* and for expeditious review of application. . . . (Emphasis added.)

The procedures in Subsections (a) and (c) of the regulation require the Department to evaluate applications for completeness, but do not address when the Department must take action. To be consistent with 35 P. S. § 4006.1(b.3), the EQB should consider adding time limits for Department action to Subsections (a) and (c).

Administratively Incomplete Applications

Under Subsection (c), if the Department finds that an application is incomplete, the Department will “return the application and fees to the applicant, along with a written statement of the specific information . . . required to make the application administratively complete.” We agree with a commentator that the procedure would be less burdensome by allowing the opportunity to rectify the deficiency rather than essentially restarting the process by returning the application and fees. Why is it necessary to return the application and fees?

Vague Language

Subsection (b) includes vague requirements for “necessary information” and “other documents.” These subjective phrases do not give the regulated community the specific information needed to file a complete application. For clarity, we recommend that the phrases “necessary information” and “other documents” be replaced with the specific information needed to file an administratively complete application.

3. Section 127.44. Public Notice—Reasonableness; Need; Clarity.

Subsection (b)

There are three concerns. First, the EQB should explain why it needs to delete existing Paragraph (5) which requires notice for “other sources required to obtain plan approval.” What sources would this amendment affect?

Second, as amended, new Paragraph (5) discusses “other sources, including synthetic minor permit applications.” In conjunction with the deletion of the requirement for notice of “other sources required to obtain plan approval,” the EQB should provide more detail on the “other sources” that would be included.

Finally, it is not clear what the phrase “including synthetic minor permit applications” encompasses. The EQB should define this phrase.

4. Section 127.45. Contents of Notice—Reasonableness; Need.

As amended, Paragraph (5) would no longer require a “description of the reasons” for including conditions. Why is the description of the reasons no longer needed?

5. Miscellaneous; Clarity.

• There is inconsistent language in the regulation. Paragraph 127.44(a)(2) refers to the plant or facility “at which the construction, modification, reactivation or installation is proposed” but, Paragraph (a)(3) only mentions equipment “to be installed or modified.” In addition, Paragraph 127.45(2) only refers to the plant or facility at which “construction, modification or installation is proposed.” Why do the words “reactivation” and “construction” appear in some provisions, but not others?

• Paragraph 127.44(a)(4) requires “a person” to contact for additional information. This provision should specify whether the person to contact would be a representative of the applicant or would be someone from the Department’s regional office.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Extension of the Fuel Cost Recovery Surcharge Special Permission 28209

Public Meeting held
June 21, 2007

Commissioners Present: Wendell F. Holland, Chairperson; James H. Cawley, Vice Chairperson; Kim Pizzingrilli; Terrance J. Fitzpatrick

Order

By the Commission:

The Pennsylvania Public Utility Commission (Commission) by its Fuel Cost Recovery Surcharge Order at Special Permission Number 28209, ratified June 1, 2006, authorized call or demand, paratransit, and airport transfer carriers under the jurisdiction of this Commission to adjust rates and fares to offset significant increases in the cost of fuel. The fuel surcharge became effective on July 1, 2006, and is scheduled to terminate on June 30, 2007.

In a letter dated May 29, 2007, the Pennsylvania Taxicab and Paratransit Association (PTPA), on behalf of its members, has requested that this Commission extend the fuel cost recovery surcharge for a period of one year. PTPA cites the ongoing instability of retail gasoline prices as the reason for this request.

Initially, all call or demand, paratransit, and airport transfer carriers were authorized to collect the surcharge found on the Fuel Surcharge page of the Commission's website. The average price of fuel was posted on the third Friday of each month, with the effective date of the surcharge being the first day of the subsequent month. The Commission determined the average cost of unleaded regular gasoline based upon gasoline prices in the index of the Energy Information Administration of the U.S. Department of Energy. The amount of the fuel surcharge was determined by locating the average price of gasoline

on a chart, also displayed on that page, and selecting the corresponding fuel surcharge in the column for the respective type of transportation.

Determination of the amounts to be charged was based on the cost of gasoline per trip. The constants used for calculations were those based upon statistics from the Taxicab, Limousine and Paratransit Association: The average trip length of 6.8 miles for call or demand carriers and 13.61 miles for paratransit and airport transfer carriers; the average miles per gallon per vehicle of 15.04 for call or demand carriers and 13.01 for paratransit and airport transfer carriers; and \$1.35 per gallon of unleaded regular gasoline (the average cost in 2002 according to Energy Information Administration of the Department of Energy). The cost per trip was calculated by multiplying the price of gasoline by the ratio of miles per trip to miles per gallon. The cost per trip at \$1.35 per gallon would serve as the base line. The results are tabulated in the chart below.

Passenger Carrier Fuel Surcharge Chart

* The amount is per trip.

** The amount is per paying passenger per trip.

The Commission's intention was to create flexibility for both the carriers and the Commission. By establishing gasoline prices which would "trigger" a change in the surcharge, it would no longer be necessary to monitor the surcharge at different intervals. This flexibility would also aid in eliminating the need for emergency petitions, as was the case following Hurricane Katrina in 2005.

In the process of considering this request, the Commission has analyzed current information available from the Energy Information Administration of the U.S. Department of Energy, the American Automobile Association,

and OPIS Energy Group. Data from these groups indicate that the retail price of gasoline will continue to increase throughout the summer months and even beyond, due to increased demand and the uncertainty of supply.

Many refineries have failed to return from unplanned outages and maintenance. Should more unplanned outages occur, there will be a significant impact on the future path of prices. Several analysts expect to see refinery maintenance remain relatively high even into June. High import volumes also play a part in keeping supplies adequate. Additionally, there remain many trouble spots across the globe that could affect the crude oil supply, prices, and gasoline prices (e.g., Venezuela, Nigeria, Iran, etc.). Projections such as this indicate that the cost of gasoline will remain a problem for the transportation industry.

Based on our review, it appears that an extension of the Fuel Cost Recovery is an appropriate way to address the high costs and instability of gasoline prices at the present time. However, the industry should not continue to rely on this measure as a means of relief. Members of the industry will have the responsibility of taking appropriate measures.

After due consideration, we have determined that fuel costs are not likely to decrease. Based upon the evidence available, we are of the opinion that the passenger motor carrier industry continues to have a need for the Fuel Cost Recovery Surcharge to permit the recovery of fuel expenditures; *Therefore,*

It Is Ordered That:

1. The Fuel Cost Recovery Surcharge established at Special Permission No. 28209 be and is hereby extended until June 30, 2008, unless changed, cancelled, or extended by the Commission.

2. Effective Wednesday, June 27, 2007, and thereafter on the third Friday of every month, the Commission shall post on its website at www.puc.state.pa.us/transport/motor/fuel_surcharge.aspx the average cost of unleaded regular gasoline upon which the surcharge will be determined.

3. Call or demand, paratransit, and airport transfer carriers rendering transportation service under the jurisdiction of the PA Public Utility Commission shall notify the public by placing a notice in all vehicles, which shall read: "The PA Public Utility Commission has authorized a fuel surcharge under Special Permission No. 28209. The surcharge has been extended and shall terminate on June 30, 2008. The current surcharge is (insert current charge here) per trip for each paying passenger"

4. The Fuel Cost Recovery Surcharge established at Special Permission No. 28209 be continued until midnight, June 30, 2008, at which time it will expire.

5. The Secretary of this Commission shall duly certify this order and deposit same with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

*Pennsylvania Public Utility Commission v.
Access Point, Inc.; Doc. No. R-00072358*

Order

By the Commission:

On May 1, 2007, Access Point, Inc. (API or the Company) filed the proposed tariff Supplement No. 7, to the Company's Tariff Telephone-Pa. P.U.C. No. 2, issued May 2, 2007, to become effective, June 2, 2007¹, for the purposes of establishing the Term Liability/Termination Charges, Account Maintenance Fee, Reconnection Charge, Carrier Cost Recovery Fee, and Credit Card Convenience Fee. Subsequently, the review period for this filing was extended for an additional thirty (30) days, or July 2, 2007.

On May 22, 2007, API was issued a data request seeking supporting information and cost justification, as required by our rules and regulations for this filing at 52 Pa. Code § 53.59, for the proposed Account Maintenance Fee and Carrier Cost Recovery Fee. API's proposed supplement contains the following descriptions and rates for these services:

Account Maintenance Fee

All Business Customers will be charged a monthly account maintenance fee on each monthly detailed invoice of \$3.95. If the customer has multiple invoices delivered to different service locations, a fee of \$1.95 will be charged for each detailed invoice. If the Customer elects to receive their monthly invoice electronically, the fee will be \$1.95 for both Single and Multi location Business Customers Invoiced. The fee for Residential Customers is \$0.95.

Carrier Cost Recovery Fee

Carrier Cost Recovery Fee will be assessed on Local Lines to Residential and Business Customers. This assessment will help recover increased network access costs due to regulatory changes.

Monthly Fee

Business, per line	\$1.00
Residential, per line	\$1.00

The Company failed to meet the data request deadline of June 6, 2007. API was advised to withdraw the filing while the Company contemplated its responses or revise the filing to avoid suspension. To date, the Company has done neither.

In other proceedings, the Commission determined that an Access Recovery Charge, a charge similar to the instant Carrier Cost Recovery Fee, imposed as a separate line item was not acceptable and thus has instructed the filing company that such cost recovery is more appropriately built into the explicit rate structure.² In addition, we find API's Reconnection Charge of \$25 should be further scrutinized as a protected service under 66 Pa.C.S. § 3012.

¹ Access Point, Inc. Tariff Telephone-Pa. P.U.C. No. 2, Section 7, pages 24 and 25.

² See *Pennsylvania Public Utility v. XO Communications Services, Inc.*, Docket No. R-00050342, Order entered January 27, 2006.

Therefore, we shall suspend the Company's filing, consistent with § 1308 and other applicable provisions of 66 Pa.C.S. We believe it is appropriate to initially refer this matter to the Office of Administrative Law Judge (OALJ) for timely mediation in accordance with our regulations at 52 Pa. Code § 69.392(e). The OALJ Mediator should provide the Commission with a final report on the outcome of the mediation as soon as possible.

In the event that such mediation fails, this matter should be expeditiously referred to an ALJ for a full evidentiary adjudication and the issuance of a recommended decision. In view of the Commission's Office of Trial Staff (OTS) duties under 66 Pa.C.S. § 306(b)(1), a copy of the related Commission Order should be formally served on OTS. In the alternative, we will allow the Company to withdraw its filing; *Therefore*,

It Is Ordered That:

1. The proposed tariff Supplement No. 7 to Access Point, Inc. Tariff Telephone-Pa. PUC No. 2 is suspended for a period not to exceed six (6) months, or until January 2, 2008, pursuant to § 1308 and other applicable provisions of 66 Pa.C.S.

2. Access Point, Inc. shall file, or cause to be filed, the appropriate tariff suspension supplement.

3. The Company be, and hereby is given, within fifteen (15) days after the date of entry of this Order, the alternative to withdraw the proposed tariff Supplement No. 7 above.

4. If the Company files to withdraw Supplement No. 7, then it is further ordered that the suspension shall be terminated and the case marked closed.

5. If the Company does not file, or cause to be filed, the withdrawal in accordance with the above ordering paragraphs, then it is further ordered:

- That the related tariff modifications be referred to the Office of Administrative Law Judge for a timely mediated resolution in accordance with our regulations at 52 Pa. Code § 69.392(e), and
- That the Office of Administrative Law Judge Mediator shall file a report with the Commission on the outcome of the mediation as soon as possible, and
- That in the event that mediation fails, this matter will be expeditiously referred to an Administrative Law Judge for formal evidentiary adjudication addressing the outstanding material issued, and for the issuance of a recommended decision.

6. A copy of this Order be published in the *Pennsylvania Bulletin*.

7. The Secretary of the Commission formally serve a copy of this Order to the Commission's Office of Trial Staff, the Office of Consumer Advocate, the Office of Small Business Advocate, and the Office of Administrative Law Judge.
