READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 234—RULES OF CRIMINAL PROCEDURE

[234 PA. CODE CHS. 2 AND 5]

Order Amending Rules 203 and 513 of the Rules of Criminal Procedure; No. 496 Criminal Procedural Rules Doc.

Order

Per Curiam

And Now, this 9th day of November, 2017, upon the recommendation of the Criminal Procedural Rules Committee; the proposal having been published before adoption at 47 Pa.B. 182 (January 14, 2017), and a Final Report to be published with this *Order*:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the amendment to Pennsylvania Rules of Criminal Procedure 203 and 513 are adopted, in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective January 1, 2018.

Annex A

TITLE 234. RULES OF CRIMINAL PROCEDURE

CHAPTER 2. INVESTIGATIONS

PART A. Search Warrant

Rule 203. Requirements for Issuance.

(A) In the discretion of the issuing authority, advanced communication technology may be used to submit a search warrant application and affidavit(s) and to issue a search warrant.

(B) No search warrant shall issue but upon probable cause supported by one or more affidavits sworn to before the issuing authority in person or using advanced communication technology. The issuing authority, in determining whether probable cause has been established, may not consider any evidence outside the affidavits.

(C) Immediately prior to submitting a search warrant application and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority **in person, by telephone, or by any device which [, at a minimum,]** allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant. **In any telephonic communication, if the issuing authority has a concern regarding the identity of the affiant, the issuing authority may require the affiant to communicate by a device allowing for two-way simultaneous audio-visual communication or may require the affiant to appear in person.**

(D) At any hearing on a motion for the return or suppression of evidence, or for suppression of the fruits of evidence, obtained pursuant to a search warrant, no evidence shall be admissible to establish probable cause other than the affidavits provided for in paragraph (B).

(E) No search warrant shall authorize a nighttime search unless the affidavits show reasonable cause for such nighttime search.

(F) A search warrant may be issued in anticipation of a prospective event as long as the warrant is based upon an affidavit showing probable cause that at some future time, but not currently, certain evidence of a crime will be located at a specified place.

(G) When a search warrant is issued, the issuing authority shall provide the original search warrant to the affiant and the issuing authority shall retain a contemporaneously prepared copy.

Comment

Paragraph (A) recognizes that an issuing authority either may issue a search warrant using advanced communication technology or order that the law enforcement officer appear in person to apply for a search warrant.

Paragraph (B) does not preclude oral testimony before the issuing authority, but it requires that such testimony be reduced to an affidavit prior to issuance of a warrant. All affidavits in support of an application for a search warrant must be sworn to before the issuing authority prior to the issuance of the warrant. “Sworn” includes “affirmed.” See Rule 103. The language “sworn to before the issuing authority” contemplates, when advanced communication technology is used, that the affiant would not be in the physical presence of the issuing authority. See paragraph (C).

Paragraph (D) changes the procedure discussed in *Commonwealth v. Crawley*, [209 Pa. Super. 70,] 223 A.2d 885 (Pa. Super. 1966), aff’d *per curiam*, [432 Pa. 627,] 247 A.2d 226 (Pa. 1968). See *Commonwealth v. Milliken*, [450 Pa. 310,] 300 A.2d 78 (Pa. 1973).

The requirement in paragraph (E) of a showing of reasonable cause for a nighttime search highlights the traditional doctrine that nighttime intrusion into a citizen’s privacy requires greater justification than an intrusion during normal business hours.

An affiant seeking the issuance of a search warrant, when permitted by the issuing authority, may use advanced communication technology as defined in Rule 103.

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

[The “visual” requirement in paragraph (C) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.]

Verification methods include, but are not limited to, a “call back” system, in which the issuing authority would call the law enforcement agency or police department that the affiant indicates is the entity seeking the warrant; a “signature comparison” system whereby the issuing authority would keep a list of the signatures of the law enforcement officers whose departments have advanced communication technology systems in place, and compare the signature on the transmitted information with the signature on the list; or an established password system.

Paragraph (F) was added to the rule in 2005 to provide for anticipatory search warrants. The rule incorporates the definition of anticipatory search warrants set forth in *Commonwealth v. Glass*, [562 Pa. 187,] 754 A.2d 655 (Pa. 2000).

Paragraph (G) was added to clarify who must retain possession of the original of the search warrant. When the search warrant is issued using advanced communication technology, the version delivered to the police officer is considered the original for purposes of this rule.

CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART B(3). Arrest Procedures in Court Cases

(a) Arrest Warrants

Rule 513. Requirements for Issuance; Dissemination of Arrest Warrant Information.

(A) For purposes of this rule, "arrest warrant information" is defined as the criminal complaint in cases in which an arrest warrant is issued, the arrest warrant, any affidavit(s) of probable cause, and documents or information related to the case.

(B) ISSUANCE OF ARREST WARRANT

(1) In the discretion of the issuing authority, advanced communication technology may be used to submit a complaint and affidavit(s) for an arrest warrant and to issue an arrest warrant.

(2) No arrest warrant shall issue but upon probable cause supported by one or more affidavits sworn to before the issuing authority in person or using advanced communication technology. The issuing authority, in determining whether probable cause has been established, may not consider any evidence outside the affidavits.

(3) Immediately prior to submitting a complaint and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority **in person, by tele-**

phone, or by any device which[, at a minimum,] allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant. **In any telephonic communication, if the issuing authority has a concern regarding the identity of the affiant, the issuing authority may require the affiant to communicate by a device allowing for two-way simultaneous audio-visual communication or may require the affiant to appear in person.**

(4) At any hearing on a motion challenging an arrest warrant, no evidence shall be admissible to establish probable cause for the arrest warrant other than the affidavits provided for in paragraph (B)(2).

(C) DELAY IN DISSEMINATION OF ARREST WARRANT INFORMATION

The affiant or the attorney for the Commonwealth may request that the availability of the arrest warrant information for inspection and dissemination be delayed. The arrest warrant affidavit shall include the facts and circumstances that are alleged to establish good cause for delay in inspection and dissemination.

(1) Upon a finding of good cause, the issuing authority shall grant the request and order that the availability of the arrest warrant information for inspection and dissemination be delayed for a period of 72 hours or until receipt of notice by the issuing authority that the warrant has been executed, whichever occurs first. The 72-hour period of delay may be preceded by an initial delay period of not more than 24 hours, when additional time is required to complete the administrative processing of the arrest warrant information before the arrest warrant is issued. The issuing authority shall complete the administrative processing of the arrest warrant information prior to the expiration of the initial 24-hour period.

(2) Upon the issuance of the warrant, the 72-hour period of delay provided in paragraph (C)(1) begins.

(3) In those counties in which the attorney for the Commonwealth requires that complaints and arrest warrant affidavits be approved prior to filing as provided in Rule 507, only the attorney for the Commonwealth may request a delay in the inspection and dissemination of the arrest warrant information.

Comment

This rule was amended in 2013 to add provisions concerning the delay in inspection and dissemination of arrest warrant information. Paragraph (A) provides a definition of the term "arrest warrant information" that is used throughout the rule. Paragraph (B) retains the existing requirements for the issuance of arrest warrants. Paragraph (C) establishes the procedures for a temporary delay in the inspection and dissemination of arrest warrant information prior to the execution of the warrant.

ISSUANCE OF ARREST WARRANTS

Paragraph (B)(1) recognizes that an issuing authority either may issue an arrest warrant using advanced communication technology or order that the law enforcement officer appear in person to apply for an arrest warrant.

This rule does not preclude oral testimony before the issuing authority, but it requires that such testimony be reduced to an affidavit prior to issuance of a warrant. All affidavits in support of an application for an arrest warrant must be sworn to before the issuing authority

prior to the issuance of the warrant. The language “sworn to before the issuing authority” contemplates, when advanced communication technology is used, that the affiant would not be in the physical presence of the issuing authority. *See* paragraph (B)(3).

This rule carries over to the arrest warrant the requirement that the evidence presented to the issuing authority be reduced to writing and sworn to, and that only the writing is subsequently admissible to establish that there was probable cause. In these respects, the procedure is similar to that applicable to search warrants. *See* Rule 203. For a discussion of the requirement of probable cause for the issuance of an arrest warrant, see *Commonwealth v. Flowers*, [24 Pa. Super. 198,] 369 A.2d 362 (Pa. Super. 1976).

The affidavit requirements of this rule are not intended to apply when an arrest warrant is to be issued for noncompliance with a citation, with a summons, or with a court order.

An affiant seeking the issuance of an arrest warrant, when permitted by the issuing authority, may use advanced communication technology as defined in Rule 103.

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

[The “visual” requirement in paragraph (B)(3) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.]

Verification methods include, but are not limited to, a “call back” system, in which the issuing authority would call the law enforcement agency or police department that the affiant indicates is the entity seeking the warrant; a “signature comparison” system whereby the issuing authority would keep a list of the signatures of the law enforcement officers whose departments have advanced communication technology systems in place, and compare the signature on the transmitted information with the signature on the list; or an established password system.

Under Rule 540, the defendant receives a copy of the warrant and supporting affidavit at the time of the preliminary arraignment.

DELAY IN DISSEMINATION OF ARREST WARRANT INFORMATION

Paragraph (C) was added in 2013 to address the potential dangers to law enforcement and the general public and the risk of flight when arrest warrant information is disseminated prior to the execution of the arrest warrant. The paragraph provides that the affiant or the attorney for the Commonwealth may request, for good cause shown, the delay in the inspection and dissemination of the arrest warrant information for 72 hours or until receipt of notice by the issuing authority that the warrant has been executed, whichever occurs first. Upon a finding of good cause, the issuing authority must delay the inspection and dissemination.

The request for delay in inspection and dissemination is intended to provide a very limited delay in public access to arrest warrant information in those cases in which there is concern that pre-execution disclosure of the existence of the arrest warrant will endanger those serving the warrant or will impel the subject of the

warrant to flee. This request is intended to be an expedited procedure with the request submitted to an issuing authority.

A request for the delay in dissemination of arrest warrant information made in accordance with this rule is not subject to the requirements of Rule 576.

Once the issuing authority receives notice that the arrest warrant is executed, or when 72 hours have elapsed from the issuance of the warrant and the warrant has not been executed, whichever occurs first, the information must be available for inspection or dissemination unless the information is sealed pursuant to Rule 513.1.

The provision in paragraph (C)(2) that provides up to 24 hours in the delay of dissemination and inspection prior to the issuance of the arrest warrant recognizes that, in some cases, there may be administrative processing of the arrest warrant request that results in a delay between when the request for the 72-hour period of delay permitted in paragraph (C)(1) is approved and when the warrant is issued. In no case may this additional period of delay exceed 24 hours and the issuing authority must issue the arrest warrant within the 24-hour period.

When determining whether good cause exists to delay inspection and dissemination of the arrest warrant information, the issuing authority must consider whether the presumption of openness is rebutted by other interests that include, but are not limited to, whether revealing the information would allow or enable flight or resistance, the need to protect the safety of police officers executing the warrant, the necessity of preserving the integrity of ongoing criminal investigations, and the availability of reasonable alternative means to protect the interest threatened by disclosure.

Nothing in this rule is intended to limit the dissemination of arrest warrant information to court personnel as needed to perform their duties. Nothing in this rule is intended to limit the dissemination of arrest warrant information to or by law enforcement as needed to perform their duties.

Pursuant to paragraph (C)(3), in those counties in which the district attorney’s approval is required only for certain, specified offenses or grades of offenses, the approval of the district attorney is required for a request to delay inspection and dissemination only for cases involving those specified offenses.

Official Note: Rule 119 adopted April 26, 1979, effective as to arrest warrants issued on or after July 1, 1979; Comment revised August 9, 1994, effective January 1, 1995; renumbered Rule 513 and amended March 1, 2000, effective April 1, 2001; amended May 10, 2002, effective September 1, 2002; amended December 23, 2013, effective March 1, 2014; **amended November 9, 2017, effective January 1, 2018.**

FINAL REPORT¹

Amendments of Pa.R.Crim.P. 203 and 513

Face-to-Face Requirement for Verification of Affidavits

On November 9, 2017, effective January 1, 2018, upon the recommendation of the Criminal Procedural Rules Committee, the Court amended Rules 203 (Requirements for Issuance) and 513 (Requirements for Issuance; Dissemination of Arrest Warrant Information) that would permit telephonic verification for the swearing of an affidavit in support of a search or arrest warrant application.

The Committee studied a suggestion to amend the provisions of Rule 203 concerning the use of advanced communications technology for submitting search warrant affidavits. The suggestion was to eliminate the "face-to-face" requirement for the swearing of an affidavit in support of a search warrant application and permit the swearing to be done telephonically. Rule 203(C) provides:

(C) Immediately prior to submitting a search warrant application and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by any device which, at a minimum, allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant.

Additionally, the Comment states that "[t]he 'visual' requirement in paragraph (C) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received."

It was suggested that the face-to-face requirement of the rule can present significant impediments to using advance communication technology to obtain search warrants. This is especially critical when time is of the essence, such as in DUI cases, where ethanol or other intoxicants dissipate quickly. Officers who seek to obtain search warrants face significant obstacles if they must travel to a site with audio-visual conferencing equipment or to an issuing authority's office to have a face-to-face appearance. These obstacles are more onerous at nighttime and in the more remote parts of the Commonwealth. Furthermore, it was noted that the federal courts have permitted telephonic submissions for many years. See Federal Rules of Criminal Procedure 4.1 and 41.

The current "face-to-face" requirement was added as part of the 2002 rule changes that first permitted the use of advanced communications technology (ACT) in the application process for search and arrest warrants. At that time, the Committee explained this change as follows:

In devising the new ACT procedures, the Committee agreed that the rules should continue to require the

'written' affidavits, yet allow for the writing to be submitted using ACT equipment. In addition, we agreed that an important concept for the new procedure would be to require the issuing authority to verify the identity of the affiant, and to maintain the requirement that the issuing authority administer an oath to the affiant. Under the new procedure, the issuing authority and the affiant may communicate from separate locations, and the issuing authority will be able to use ACT to verify the identity of the affiant and administer the oath before the required documentation is transmitted. . . . Unlike the provisions in Federal Rule 41 that permit oral requests for warrants without the requirement of a "face-to-face" encounter, Rules 203 (Requirements for Issuance) and 513 (Requirements for Issuance) do not permit a warrant to issue based on oral testimony alone, and require that the issuing authority using ACT must be able to see the affiant when the oath is administered. 32 Pa.B. 2591 (May 25, 2002).

The Committee noted that when the original proposal was developed, the Committee had published a version of this proposal that included telephonic administration of the oath. See 29 Pa.B. 4426 (August 21, 1999). At that time, the Committee did not distinguish between telephonic and two-way simultaneous audio-visual communication for warrant affidavit verification but rather discussed the issue in terms of advance communications technology that includes both. The Committee was satisfied that any form of ACT was sufficient for the constitutional requirements of warrant issuance. Subsequently, the face-to-face requirement was incorporated into the amendments approved in 2002. The face-to-face requirement appears to have been added as a means of guaranteeing the identity of the affiant. Since this provision was added at the time that ACT first was going to be permitted, there may have been unease with the new technology without this additional guarantee of the affiant's identity.

In examining this issue, the Committee studied federal practice in this area at some length. As noted above, the federal system has permitted the use of "reliable electronic means" for search applications for some time. Originally formulated as part of Fed.R.Crim.P. 4.1, the procedures for the use of this type of technology currently are contained in Fed.R.Crim.P. 41. The Notes to Fed.R.Crim.P. 41 from the time when these provisions were added discuss the concept of "reliable electronic means":

The term "electronic" is used to provide some flexibility to the rule and make allowance for further technological advances in transmitting data. Although facsimile transmissions are not specifically identified, the Committee envisions that facsimile transmissions would fall within the meaning of "electronic means."

While the rule does not impose any special requirements on use of facsimile transmissions, neither does it presume that those transmissions are reliable. The rule treats all electronic transmissions in a similar fashion. Whatever the mode, the means used must be "reliable." While the rule does not further define that term, the Committee envisions that a court or magistrate judge would make that determination as a local matter. In deciding whether a particular electronic means, or media, would be reliable, the court might consider first, the expected quality and clarity of the transmission. For example, is it possible to read the

contents of the warrant in its entirety, as though it were the original or a clean photocopy? Second, the court may consider whether security measures are available to insure that the transmission is not compromised. In this regard, most courts are now equipped to require that certain documents contain a digital signature, or some other similar system for restricting access. Third, the court may consider whether there are reliable means of preserving the document for later use.

Pennsylvania has had over a decade of experience with remote submission of warrant applications with little problem, easing some of the apprehension that may have existed when use of this technology was first introduced in 2002. The Committee also noted that telephonic verification appears to have worked with little problem in the federal system. While there is potential for telephonic submissions to be abused, the Committee concluded that this potential problem could be addressed by means other than requiring video-conferencing in every case. Therefore, Rule 203 has been amended in a manner similar to that proposed in 1999. This permits telephonic verification, in addition to in-person and two-way audio-visual communications currently permitted in the rule.

Although the rule already provides for issuing authority discretion in using ACT at all, the Committee concluded that a direct statement regarding telephonic verification would be helpful. Therefore, an additional provision has been added to paragraph (C) that permits an issuing authority to refuse a telephonic application if there is a question regarding the applicant's identity. This is consistent with the federal system that permits such assurance as a "local matter."

Although the original suggestion related only to search warrant applications, the Committee's 1999 proposal included arrest warrant submissions and would have permitted telephonic submission there as well. As with Rule 203, Rule 513 (Requirements for Issuance; Dissemination of Arrest Warrant Information) contains similar language regarding face-to-face verification of the affidavit of probable cause. The Committee concluded that the same concerns and rationale applied to arrest warrant applications as well. Therefore, similar amendments have been made to Rule 513.

FINAL REPORT¹

Amendments to Pa.R.Crim.P. 1005, 1006, and 1007

Writs of *Certiorari* and Appeals in the Philadelphia Municipal Court

On November 9, 2017, effective January 1, 2018, upon the recommendation of the Criminal Procedural Rules Committee, the Court amended Rules 1005 (Pretrial Applications for Relief), 1006 (Notice of Right to Appeal or to Petition for *Certiorari*; Guilty Plea Challenge Procedure), and 1007 (Challenge to Guilty Plea) to provide that once a petition for writ of *certiorari* or notice of appeal has been filed in a Philadelphia Municipal Court case, the Municipal Court cannot take further action in the case.

The Committee recently considered the opinion of the Pennsylvania Superior Court in the case of *Commonwealth v. Richards*, 128 A.3d 786 (Pa. Super. 2015), *appeal denied*, 145 A.3d 164 (Pa. 2016). *Richards* involved a defendant charged with DUI of a controlled substance. The Philadelphia Municipal Court granted defendant's motion to suppress and the Commonwealth petitioned for

writ of *certiorari* to the Philadelphia Court of Common Pleas. After the petition had been filed, the Commonwealth withdrew the charges at a status hearing in the Municipal Court, apparently by mistake. The Court of Common Pleas subsequently dismissed the appeal as moot. The Commonwealth appealed to the Superior Court on the basis that the Municipal Court should not have approved the withdrawal since Pennsylvania Rule of Appellate Procedure 1701 bars a lower court from conducting proceedings when a case is on appeal. The Superior Court held that the Rules of Appellate Procedure do not apply to a court of common pleas acting in its role as an appellate court deciding a petition for writ of *certiorari* unless that court expressly adopted such rules. This finding was based on a plain reading of Rule of Appellate Procedure 103 that limits the applicability of those rules to the Supreme, Superior, and Commonwealth Courts.

Rule 1006 provides two options for taking an appeal from a Municipal Court judgment: (1) to request a trial *de novo* before the Common Pleas Court; or (2) to file a petition for writ of *certiorari*, asking the Philadelphia Court of Common Pleas, sitting as an appellate court, to review the record made in the Municipal Court. See *Commonwealth v. Williams*, 125 A.3d 425 (Pa. Super. 2015). A trial *de novo* gives the defendant a new trial without reference to the Municipal Court record while a petition for writ of *certiorari* asks the Common Pleas Court to review the record made in the Municipal Court. Generally, a defendant is required to raise all claims in a writ of *certiorari* pertaining to the proceedings in the Municipal Court, or they will be considered waived on appeal. *Commonwealth v. Coleman*, 19 A.3d 1111 (Pa. Super. 2011).

The specific provision in Rule 1006 related to the filing of a writ of *certiorari* as an option for appeals from the Municipal Court was added in 1996. The Committee provided the rationale for this addition in the Final Report from that amendment:

Several members noted that, although the Philadelphia Public Defender's office utilized petitions for writs of *certiorari* fairly frequently, many members of the private bar apparently were not aware of the continued availability of *certiorari* as an alternative to an appeal for a trial *de novo* in the court of common pleas. We therefore agreed that the rules should expressly provide for this procedure. Final Report, 26 Pa.B. 989 (March 9, 1996).

This provision had codified the right contained in Article V, Section 26 of the Pennsylvania Constitution, and the Judicial Code, 42 Pa.C.S. § 934.²

Pa.R.A.P. 1701 describes the effects on a case when an appeal has been filed. The general rule contained in Pa.R.A.P. 1701(A) states, "Except as otherwise prescribed by these rules, after an appeal is taken or review of a quasi-judicial order is sought, the trial court or other

government unit may no longer proceed further in the matter." As the *Richards* case holds, the Rules of Appellate Procedure do not apply to appeals to the court of common pleas.

The Committee concluded that the principle that the Municipal Court cannot act in a matter once a petition for writ of *certiorari* has been filed with the Court of Common Pleas would have to be specifically added to the rules to be effective. The Committee concluded that such a provision prohibiting action by the Municipal Court once an appeal was filed would be advisable to prevent confusion such as occurred in *Richards* where two courts were acting at the same time on the case at cross-purposes.

This provision also is consistent with other rules that prevent cases from moving back and forth between courts of common pleas and the minor judiciary. See *e.g.* Rule 541 (if the right to preliminary hearing is reinstated after defendant waived preliminary hearing, the preliminary hearing must be in common pleas court, unless the parties and judge agree that the issuing authority conduct the preliminary hearing) and Rule 543(G) (once a case is bound over to the court of common pleas, the case shall not be remanded to the issuing authority.) It also is consistent with the general principle that an appeal moves the case from one court to another.

In a case in which an appeal for trial *de novo* has been filed, it is much clearer that any action must be taken by the Court of Common Pleas. The Committee concluded that these appeals should also be included in the new provision for consistency. A new paragraph (B) has been added to Rule 1006 stating that once a case has been appealed from the Municipal Court to the Philadelphia Court of Common Pleas, the Municipal Court may no longer take action on that case.

The Committee noted that Pa.R.A.P. 1701(b) contains a list of actions that a trial court may take after an appeal has been filed as exceptions. The Committee considered whether to incorporate this list into the amendment to Rule 1006. However, the Committee concluded that few of these exceptions were applicable to the types of cases, *i.e.* summaries and misdemeanors, that would be subject to Rule 1006. Instead, the phrase "unless otherwise provided in these rules" has been included in the new text to permit procedures likely to be undertaken in Municipal Court case appeals, such as bail modification.

Following an inquiry from the Court subsequent to the publication of the original proposed rule changes, the Committee agreed that the proposed amendment to Rule 1006 should be included in other Municipal Court Rules that provide for appeals. In particular, this principle was deemed appropriate for Rule 1007, regarding an appeal from the denial of a motion challenging a guilty plea, and for Rule 1005, regarding appeals from pretrial applications for relief. Therefore, similar language has been added to those two rules. However, new paragraph (D) of Rule 1005 contains the additional requirement that the Commonwealth has certified in the notice of appeal that the order will terminate or substantially handicap the prosecution. This language was added to mirror the restriction governing certain Commonwealth appeals under the appellate rules, such as Pa.R.A.P. 311(d), which requires the Commonwealth to certify that a non-final order will terminate or substantially handicap the prosecution.

(1) Unless the Court finds good cause for delay, the initial scheduling conference shall be held within the earlier of ninety (90) days after service of the complaint or sixty (60) days after any defendant has appeared. The Court may defer the initial scheduling conference if a motion that would dispose of all of the claims within the complaint is pending.

(3) In the order issued after the case management conference, the Court may address any other topic it deems necessary to the serve the purposes of this rule, including the designation, if appropriate, of the case for arbitration, mediation, appointment of a special master, or other special procedure.

(4) Prior to filing a motion to modify any case management order, all counsel, or a party if unrepresented, shall confer in an effort to reach agreement on the proposed modification.

(5) Nothing in this rule shall be read to expand or otherwise enlarge the time for filing a pleading as set forth in Pa.R.C.P. 1026 or 1042.4.

(d) *Status Conference.* A represented party must authorize at least one of its attorneys to make stipulations and admissions about all matters that can reasonably be anticipated for discussion at a status conference. If appropriate, the Court may require attendance by a party or its representative or any other individual deemed necessary to the litigation, or the reasonable availability by other means to consider possible settlement. For the purposes of this rule, the term "representative" shall include an insurance or similar representative with full authority to negotiate or settle the case as in accordance with Pa.R.C.P. 212.5(b)(2).

(1) At the conclusion of discovery, the Court shall hold a conference to review the status of the case, including:

(E) setting forth a date for the scheduling of a pre-trial conference.

(e) *Pre-trial Conference.*

(1) All trial counsel shall attend the pre-trial conference. If counsel is not present for the pre-trial conference, the Court may bar their participation at trial.

(2) A party and its representative, or any other person deemed necessary to the litigation by the Court, shall be present in person at the pre-trial conference; telephonic or remote participation shall not be permitted absent prior approval by the Court for good cause. For the purposes of this rule, the term "representative" shall include an insurance or similar representative with full authority to negotiate or settle the case as in accordance with Pa.R.C.P. 212.5(b)(2).

(3) At any pre-trial conference, the Court may consider and take appropriate action on the following matters:

(A) formulating and simplifying the issues, and eliminating frivolous claims or defenses;

(B) obtaining admissions and stipulations from the parties, and ruling in advance on the admissibility of evidence;

(C) settling the case and using special procedures to assist in resolving the dispute when authorized by statute or rule of court;

(D) disposing of pending motions;

(E) setting forth deadlines for the filing of pre-trial statements and/or briefs by the parties;

(F) setting forth deadlines for the filing of motions in limine, proposed voir dire questions and interrogatories, and proposed jury instructions;

(G) setting a date for trial; and

(H) determining the form and content of the pre-trial order.

(4) The Court may hold a final pre-trial conference to develop a trial plan, including a plan to limit testimony or facilitate the admission of evidence. The conference shall be held as close to the start of trial as is reasonable, and shall be attended by trial counsel and any unrepresented party.

(f) *Sanctions.* Upon motion of a party, or sua sponte, the Court may issue any just orders or sanctions, including the imposition of reasonable expenses, including attorney's fees, if a party or its attorney:

(1) fails to appear at an initial case management conference, a status conference, or a pre-trial conference;

(2) is substantially unprepared to participate, or does not participate in good faith; or

(3) fails to obey an order issued pursuant to this rule.

Note: Unrepresented parties are subject to the same obligations as those imposed upon attorneys representing a party. This includes sufficient knowledge of the claim(s) asserted, potential defenses, damages and/or other relief sought, and legal issues raised in the pleadings.

(g) *Continuances.* When a case is scheduled for a conference pursuant to this rule, it shall not be continued except for good cause shown.

Rule 212.2. Pre-trial Statements.

(a) Unless otherwise ordered by the Court, the deadline for the filing of a pre-trial statement by a party shall be governed by Pa.R.C.P. 212.2. All pre-trial statements shall be filed with the Prothonotary.

(b) In addition to the requirements of Pa.R.C.P. 212.2, a pre-trial statement shall contain the following:

(1) a brief narrative statement of the facts and contentions as to liability;

(2) a listing of all exhibits available at the time of pre-trial which the party intends to introduce at trial;

(3) a specific description of damages;

(4) any presently known motions in limine and any legal research, memorandum, or brief in support thereof. Failure to include any motion in limine in the pre-trial statement will not bar a future filing of the motion if it could not have been anticipated at the time of filing the pre-trial statement or if, in the interest of justice, the Court permits late filing;

(5) a summary of legal issues involved and applicable legal authorities relied upon;

(6) the settlement status of the case to include settlement offers and demands; and

(7) the reasons supporting the settlement posture set forth by the party.

(c) There shall be attached to the pre-trial statement:

(1) a copy of all reports containing findings or conclusions of any healthcare provider who has treated or examined a party or has been consulted in connection with any injuries complained of and whom a party expects to call as a witness at the trial of the case. If timely production of any report is not made, the testimony of such healthcare provider shall be excluded at the trial except upon consent of the party or parties or upon express order of the Court;

(2) a copy of all reports containing findings and conclusions of any expert who has been consulted in connection with the matters involved in the case and whom the party expects to call at trial. If timely production of any such report is not made, the testimony of such expert shall be excluded at the trial, except upon consent of the party or parties or upon express order of Court; and

(3) the names and addresses of all witnesses the party expects to call at trial. The witnesses shall be classified as liability or damage witnesses.

(d) Upon failure of any party to file a pre-trial statement within the time required, the Court may impose the sanctions provided in Pa.R.C.P. 4019(c). The Court may order other appropriate relief, including, but not limited to, the barring of testimony, assessment and award of attorney fees, and expenses and costs to opposing counsel.

(e) Counsel shall file supplemental pre-trial statements up to the time of trial. Supplemental statements shall include, but not be limited to, additional claims for damages, additional liability witnesses, damage witnesses, expert witnesses, and/or exhibits intended to be used at trial.

Rule 212.3. Pre-trial Conference.

The requirements of Wash.L.R.C.P. 212.1 shall supplement the rule concerning pre-trial conferences as set forth in Pa.R.C.P. 212.3.

Rule 212.7. Washington County Civil Litigation Mediation Program.

(a) In the discretion of the assigned Judge, cases listed for trial shall be submitted to the Washington County Civil Litigation Mediation Program. This rule shall not apply to asbestos cases, cases ordered to private mediation under this rule, or professional liability cases. The

selection of a case for mediation shall not delay any scheduled trial of the matter.

(b) The mediators shall be practicing attorneys that are members of the Washington County Bar Association, with an emphasis in their practice on civil litigation. A list of mediators shall be maintained by the District Court Administrator, and be selected by the Court in consultation with the Washington County Bar Association. The parties may agree to a particular mediator from the list.

(c) Upon appointment, the mediator shall schedule the mediation within sixty (60) days of the order of court. The attendance, in person, is mandatory of trial counsel, the parties, and the representative of the defendant's insurance carrier, with authority to enter into a full and complete compromise and settlement. If trial counsel, the parties, or a representative fail to appear, absent good cause, the mediation will not be held and sanctions, upon request of the mediator, shall be entered against the non-appearing individual(s) by the Court. Sanctions may include an award of reasonable mediator and attorney's fees and other costs associated with the failure to appear.

(d) At least seven (7) days prior to the mediation, each party shall file, with the mediator, a mediation statement which must include the following: (1) a succinct explanation of liability and damages; (2) significant legal issues that remain unresolved; (3) a summary of medical and expert reports (if applicable); (4) an itemized list of damages; and (5) settlement posture and rationale.

(1) This requirement shall be deemed satisfied if a party has previously filed a pre-trial statement pursuant to rule of court, in which case the mediation statement shall only provide updated or additional information.

(2) Failure to file a mediation statement may result in sanctions, if requested by the mediator.

(f) Each party to a case selected for mediation shall pay a mediation fee to be made payable to the County of Washington and submitted, for processing, to the Office of the Court Administrator. The mediation fee shall be set by administrative order, and information regarding the fee shall be available in the Office of the Court Administrator.

(g) If the case has not been resolved, within ten (10) days from the date of the mediation, the mediator shall send the Court a report setting forth the following information: (1) the mediator's assessment of liability; (2) the mediator's assessment of damages; (3) the mediator's opinion regarding the potential range of a verdict and the settlement value of the case; (4) Plaintiff's final settlement demand; (5) Defendant's final settlement offer; and (6) the mediator's recommendation regarding settlement of the case. A copy of the report shall be provided to and maintained by the Court Administrator until the case is closed.

(h) If the case is resolved and a settlement agreed upon, the mediator shall send a letter to the Judge, with copies to counsel and the Court Administrator.

(i) The mediator shall not be subpoenaed or requested to testify or produce documents by any party in any pending or subsequent litigation arising out of the same or similar matter. Any party, person, or entity that attempts to compel such testimony or production shall be liable to and indemnify the mediator and other protected participants for all reasonable costs, fees and expenses. The mediator shall have the same limited immunity as judges pursuant to the applicable law as it relates to common pleas judges.

Comment: Confidentiality of mediation communications and mediation documents are subject to the protections and exceptions prescribed in 42 Pa. Con. Stat. § 5949.

(j) Notwithstanding the preceding subsections and Wash.L.R.C.P. 1042.1–1042.20, the Court may in its discretion submit a civil case for an alternative dispute resolution (“ADR”) before a private mediator/arbitrator. The method of selection of the private mediator shall be in the discretion of the Court. All parties shall bear equally the costs of any Court-ordered ADR, unless otherwise agreed upon; provided, however, that the Court will take appropriate steps to assure that no referral to ADR results in an unfair or unreasonable economic burden on any party.

(1) The method of ADR shall be in the discretion of the private mediator/arbitrator.

(2) The fact that a case is selected for ADR shall not delay the scheduled trial of a case.

(3) Nothing in this rule shall prevent the parties from voluntarily engaging in ADR before a private mediator/arbitrator on their own initiative.

Note: When selecting a case for ADR before a private mediator, the Court shall consider various criteria, including the nature of the claims involved and their complexity, whether any of the litigants is pro se, the potential for a successful resolution, and the interests of justice.

Rule 212.8. Mini-Jury Trials.

(a) *Purposes.* The purpose of mini-jury trials is to establish a less formal procedure for the resolution of civil actions for money damages while preserving the right to a jury trial de novo. As a part of the Court’s pre-trial procedure, the Court may refer cases for a mini-jury trial upon motion of a party or sua sponte.

(b) *Preliminary considerations.* The following shall be considered, but shall not be controlling, in determining if civil cases are amenable for a mini-jury trial.

(1) *Time necessary for regular trial.* The Court will determine if the regular trial time would be three (3) days or more.

(2) *Consent of attorneys.* While the Court will attempt to obtain the consent of the attorneys to a mini-jury trial, the Court shall have the authority to direct a mini-jury trial as an extension of the settlement conference.

(3) *Existing offer and demand.* The Court will attempt to obtain the agreement of counsel to keep any current offer or demand open for forty-eight hours after the mini-jury trial verdict.

(4) *Credibility.* The Court will determine if the major issues will be resolved on the basis of credibility.

(5) *Appeals from arbitration.* Cases appealed from arbitration will be presumptive candidates for mini-jury trials.

(c) The following procedures shall apply to all mini-jury trials:

(1) *Attendance of parties.* Individual parties shall attend the mini-jury trial in person. An officer or other responsible lay representative of a corporate party or a claims adjuster for an insurance carrier shall attend the mini-jury trial.

(2) *Non-binding effect.* Mini-jury trials are for settlement purposes only and are non-binding. Nothing done by

counsel with reference to the mini-jury trial shall be binding on counsel, the parties, nor shall anything constitute a waiver, unless specifically stipulated to or agreed upon by the parties.

(3) *Special verdict questions.* Cases will be submitted to the jurors by way of special verdict questions. Counsel shall submit to the Special Master, forty-eight (48) hours prior to the selection of the jury, a joint statement or proposed special verdict questions, for use at trial. If counsel cannot agree on a joint statement, the Special Master will select the special verdict questions to be used. Special verdict questions for the mini-jury trial need not be the same as those for a regular jury trial. The jury will determine the amount of damages in all cases, regardless of whether a defendant is found to be liable or not liable. The Special Master will determine the format to be used and make rulings on disputed questions.

(4) *Size of Jury.* The number of jurors shall be six (6) and the agreement of five-sixths of the jury shall be necessary to reach a verdict. There shall be no preemptory challenges to jurors but jurors may be excused for cause.

(5) *Presentation of the case by counsel.* Each side shall be entitled to one hour for presentation of its case unless counsel presents a compelling reason at a pre-trial conference why more time for each side should be allocated. Presentation of the case by counsel may involve a combination of argument, summarization of evidence to be presented at the regular trial and a statement of the applicable law but only to the extent it is needed to be known by the jury in answering the special verdict questions. Counsel may call witnesses but cross-examination shall only be done as part of a party’s presentation of its case. Counsel may quote from depositions and/or reports to the extent that such evidence can reasonably be anticipated to be admissible at the time of trial. Counsel should not refer to evidence which would not be admissible at trial. The Plaintiff shall proceed first and shall have a five (5) minute rebuttal following the presentation of the defendant’s case.

(6) *Applicable law.* The Special Master will charge the jury on the applicable law to the extent it is appropriate and needed to be known by the jury in answering the special verdict questions. The points for charge shall be submitted jointly by the parties to the Special Master forty-eight (48) hours prior to the selection of the mini-jury. The Special Master shall rule on any disputes on a point for charge.

(7) *Jury verdict.* The jury will be asked to return a verdict if five-sixth of them agree to it. (The same five-sixth majority need not answer each special verdict question.)

(8) *Length of deliberations.* If the jury does not reach a five-sixth majority verdict within a reasonable time, the Special Master will consider polling the jurors individually.

(9) *Oral questions to mini-jury.* After the verdict, counsel may address questions in open court to the foreperson of the jury. Only questions that can be answered “yes” or “no” or by a dollar figure may be asked. The attorneys shall be limited to ten questions each unless a greater number is allowed by the Special Master for cause shown. No questions shall be asked the answers to which will disclose the personal view of any particular member of the jury.

(10) *Scheduling regular trial.* Should the mini-jury trial not result in a settlement, the regular trial shall not be held the same calendar week unless the jury is dismissed and will not come into contact with the balance of the venire.

(11) *Release of verdict.* The mini-jury trial is an extension of the settlement conference and the verdict shall not be made public.

(d) *Selection of Special Masters.* The Court Administrator shall maintain a roster of Special Masters who shall be designated from time to time from applications submitted by or on behalf of attorneys eligible for selection by the Court. An attorney must have been admitted to practice for not less than ten (10) years, be recommended by the Committee on Alternative Dispute Resolution or be a member of the Academy of Trial Lawyers of Southwestern Pennsylvania and determined by the President Judge to be competent to perform the duties of a Special Master. The parties may agree upon a Special Master who is not on the roster maintained by the Court Administrator, provided that the name of such person is submitted to, and approved by, the President Judge, or the judge to whom the case is assigned.

(e) Each party to a case selected for mini-jury trial shall pay a fee made payable to the County of Washington and submitted to the Office of the Court Administrator for processing. The mini-jury trial fee shall be set by administrative order, and information regarding the fee shall be available in the Office of the Court Administrator. The special master shall be compensated at a commensurate rate to their service, which shall be established by the Court Administrator and approved by the Court.

(1) *Application Process.* Any lawyer possessing the qualifications set forth for Special Master, who desires to serve as a Special Master, may submit an application on the form which is available in the Office of the Court Administrator. The Committee on Alternate Dispute Resolution shall submit a list of qualified persons to the Court Administrator. The President Judge shall certify as many Special Masters as determined to be necessary for the program.

(2) *Withdrawal by Special Master.* Any person whose name appears on the roster maintained by the Court Administrator may ask, at any time, to have his/her name removed or, if selected to serve, decline to serve but remain on the roster.

(3) *Disqualification.* Persons selected to be Special Masters shall be disqualified for bias or prejudice and shall disqualify themselves in any action in which they would be required to disqualify themselves if they were a judge. Each person serving as a Special Master shall take the prescribed oath or affirmation.

(f) *Sanctions.* If a party, or counsel, fails to comply with this rule, the Special Master may continue the mini-jury trial to another date as selected by the Court Administrator. If the mini-jury trial is continued, the Court may enter sanctions against the offending party or counsel, including the imposition of counsel fees, juror costs, and any other appropriate relief.

Rule 220A. Jury Size in Civil Trials.

The petit jury in civil cases may, in the discretion of the Court and with consent of all the parties, consist of as few as eight (8) members. If the number of jurors falls below eight (8), a mistrial shall be declared upon prompt application thereof by any party.

Rule 220.3. Examination of Jurors.

(1) After the jury panel for a particular case is drawn, a list of the persons on such panel and their completed juror questionnaire shall be handed to each attorney, or the party if unrepresented, involved in the case, and the Court shall inform the jurors of the names and addresses of each of the parties, the nature of the suit, the names of the intended witnesses, and the names of the attorneys and their associates.

(2) Examination of potential jurors shall be conducted by the Court, or its designee. The Court may permit counsel to supplement the Court's examination by such further inquiry as it deems appropriate.

(3) The Court may direct, or permit, the use of a written questionnaire to supplement oral examination of the jury panel by the Court or counsel. If a written questionnaire is used, it shall be considered confidential, and the original questionnaires and all copies shall be destroyed at the conclusion of the trial or service by a juror. Counsel, or a party if unrepresented, shall not have possession, or otherwise maintain a copy in any form, of the written questionnaire after the conclusion of voir dire.

(4) The voir dire examination of jurors shall be recorded but not transcribed, unless otherwise ordered by the Court.

Rule 221. Peremptory Challenges.

After the examination of jurors is completed, counsel, or a party if unrepresented, shall report to the Court those jurors whom they agree may be stricken for cause. If counsel are unable to agree that a juror should be stricken for cause, the Court shall make the just cause determination and may question the prospective juror to resolve the challenge for cause. Thereafter, counsel, or a party if unrepresented, shall proceed to exercise their respective peremptory challenges, and the remaining jurors shall be sworn in as the petit jury.

Rule 223. Conduct of Jury Trial.

(1) The entire examination or cross-examination of a witness shall be conducted, and objections made and argued, by the attorney commencing the same.

(2) Offers of proof shall be made at side bar, out of the hearing of the jury and out of the hearing of the witness.

Rule 223A. Exhibits.

(1) *Exhibits admitted at trial or other record proceeding.*

(a) At the conclusion of a trial or other record proceeding, all exhibits larger than 8-1/2 × 11 inches which are part of the record shall be reduced to that size, and all tangible objects which are part of the record, shall be photographed in color by the party originally proffering the evidence. The 8-1/2 × 11 inch reductions and color photographs shall be substituted in the record for the original exhibits and tangible objects unless the Court, upon motion or sua sponte, or an appellate court, shall direct otherwise. It shall be the responsibility of the judicial staff to maintain exhibits which have been admitted during the course of the trial or other record proceeding.

(b) Whenever a video deposition of a witness is presented at a trial or hearing, the video shall be marked as an exhibit as required by Pa.R.C.P. 4017.1. At the conclusion of the trial or hearing, the video shall be returned for safekeeping to the party who presented it and that party

shall maintain custody of the video until conclusion of all appellate proceedings in the case, unless the Court upon motion or sua sponte shall direct otherwise.

(c) Whenever a video deposition of a witness is presented at trial or hearing, it shall be accompanied by a transcript of the deposition as required by Pa.R.C.P. 4017.1(a)(2). The accompanying transcript shall be marked as an exhibit and retained in the record of the proceedings. In the event the record of the trial or hearing is transcribed for the appellate court or other purposes, the exhibit of the transcript accompanying the deposition shall be considered the official transcript of the testimony of the deponent. It shall not be necessary for the court reporter to also transcribe the audio portion of the video which was presented at trial or other record proceeding, so long as the record clearly reflects which part of the audio portion of the videotape deposition was offered into evidence and admitted.

(2) Disposition of exhibits after trial or other record proceeding.

(a) After trial or other record proceeding, exhibits admitted into evidence shall be retained by the Prothonotary until it is determined whether an appeal has been taken from a final judgment. If an appeal has been taken, the exhibits shall be retained by the Prothonotary until disposition of the appeal.

(b) Within sixty (60) days of the final disposition of all appeals or the date when no further appeal may be taken under the Pennsylvania Rules of Appellate Procedure, the party who offered the exhibits may reclaim them from the Prothonotary. Any exhibits not so reclaimed may be destroyed or otherwise disposed of by the Prothonotary, after obtaining an order of court allowing for the destruction of the exhibits.

(c) Notwithstanding the above, any person who has a possessory or legal interest in any exhibit which has been introduced into evidence may file a claim for such exhibit within thirty (30) days after trial or other record proceeding. The Court shall determine the validity of such claim and determine the manner and timing of disposition.

Rule 225. Opening and Closing Statements.

Except as otherwise directed by the Court, one attorney for each party or group of parties having the burden of proof shall address the jury at the conclusion of the evidence, after which the attorney for each adverse party or group of parties shall sum up. Rebuttal statements shall be permitted in the discretion of the Court.

Rule 226. Points for Charge.

(a) Unless otherwise permitted by the Court for cause shown, requested points for charge shall be limited to those relevant points set forth in the Pennsylvania Suggested Standard Civil Jury Instructions plus ten (10) additional points for charge.

(b) The points for charge requested from the Pennsylvania Suggested Standard Civil Jury Instructions shall be listed only by section number and not set forth verbatim.

Rule 227.1. Motion for Post-Trial Relief.

(a) Any post-trial motions shall be filed with the Prothonotary in accordance with Pa.R.C.P. 227.1, together with a request designating that portion of the record to be transcribed. A copy of the items filed, along with a proposed order for transcription, shall also be delivered to the trial judge, the court administrator, the court re-

porter, and every other party to the action and a certificate of such service shall be filed of record.

(b) All post-trial motions must specify the grounds relied upon as provided by Pa.R.C.P. 227.1(b)(2).

(c) Unless otherwise ordered by the Court, a brief in support of post-trial motions shall be filed within thirty (30) days following receipt of the transcript or, if no request for transcript has been made by either party, within thirty (30) days of the date of the filing of the post-trial motion.

(d) Unless otherwise provided by the Court, briefs in opposition to post-trial motions shall be filed within twenty (20) days from the date of the filing of the brief of the moving party.

(e) A copy of a brief filed in support of, or in opposition to, post-trial motions shall be served upon the trial judge and every other party to the action. A certificate of service shall accompany all briefs filed hereunder.

Rule 227.3. Transcript of Testimony.

(a) Any objections to the request designating the portion of the record to be transcribed, filed pursuant to Pa.R.C.P. 227.3, shall likewise be served upon the trial judge, the court administrator, the court reporter, and every other party to the action, and a certificate of service shall be filed of record.

(b) The party requesting a transcript of the record or any portion thereof in a motion for post-trial relief shall pay the cost thereof. Where any other party files an objection requesting that an additional portion of the record be transcribed, the trial judge, in the absence of agreement by the parties, shall in his/her discretion and to the extent this matter is not covered in the Pennsylvania Rule of Judicial Administration 4000, et. seq., assign the cost of such additional transcribing to any or all parties or to the county.

Rule 229. Discontinuance. Payment of Record Court Costs on Settlement.

(a) Unless all parties agree in writing to the contrary, the settling defendant or defendants in any filed civil action shall pay to the plaintiff record court costs which are specifically defined to be:

- (1) Initial filing fees;
- (2) Service of process fees; and
- (3) Costs to settle and discontinue the docket.

(b) Upon the filing of a praecipe to settle, discontinue, and end an action, the filing party shall deliver a copy of same to the Court Administrator for transmittal to the assigned judge.

Rule 230.2. Termination of Inactive Cases.

The proceedings to terminate inactive cases pursuant to Pa.R.C.P. 230.2 shall include cases that are appeals from local or administrative agencies, or actions that exist because of a cause of action created by rule of court or statute.

Rule 237.1. Entry of Default Judgment. Military Service.

In all cases in which a party to an action has appeared but subsequently defaults, before any decree or judgment shall be entered, the opposing party shall file an affidavit stating that the defaulting party is not in the military

service of the United States, or if the information is not available, the affidavit shall state what efforts have been made to obtain the facts.

Note: The purpose of this rule is to satisfy the requirement of the Servicemembers Civil Relief Act, Title 50 App.U.S.C. § 501, et seq.

Rule 240. In Forma Pauperis.

(a) A party seeking leave to proceed in forma pauperis shall apply to the Court for such status. The application shall include as an attachment the affidavit of the party demonstrating an inability to pay the costs of litigation.

Note: The affidavit form is set forth in Pa.R.C.P. 240; application forms are available in the County Law Library. Presentation of the application to the Court must comply with the requirements of Local Rule 208.3(a).

(b) Legal counsel employed by or affiliated with Southwestern Pennsylvania Legal Services are authorized to file a praecipe for in forma pauperis status on behalf of their client.

(c) The Prothonotary shall accept for filing by a party a praecipe as provided by Pa.R.C.P. 240(d), or an application under this rule, without charge to the party.

(1) Except as provided in Wash.L.R.C.P. 1915.37, upon withdraw of an attorney who has filed a praecipe on behalf of a client pursuant to Pa.R.C.P. 240(d), the party must file a petition to for leave to proceed in forma pauperis to continue to have the costs of litigation waived as set forth in Pa.R.C.P. 240(f).

(d) If there is an improvement in the financial circumstances of a party which will enable the party to pay costs, the party must immediately file a praecipe to decertify in forma pauperis status.

(1) The Prothonotary shall not be permitted to retroactively charge previously waived costs to a party because of a change in economic status or if a party is no longer receiving free legal service from an attorney.

(e) If the action or proceeding is commenced or appeal is taken with the simultaneous filing of the petition, the petitioner shall present the request to proceed in forma pauperis to the general civil motions judge, or in a custody, divorce, or support action, to the judge assigned to hear those actions.

(1) *Unavailability of judge.* In the event that the appropriate judge is not available to hear an in forma pauperis request, the petitioner shall file the petition with the Prothonotary in accordance with Pa.R.C.P. 240(c). Upon the filing of an unsigned petition for leave to proceed in forma pauperis with the Prothonotary, the Prothonotary shall provide a copy of the petition to the assigned judge for the case for action on the petition pursuant to Pa.R.C.P. 240(c)(3).

(a) Where it is appropriate that money be paid into court, the Court on petition of any party or on its own motion may direct the same to be done. Notice of the presentation of such a petition shall be given in the manner set forth in these rules.

(c) Money paid into court may not be withdrawn or paid out except upon written order of Court.

Note: Dispositive motions shall be argued in Argument Court; non-dispositive motions should be presented and heard in Motions Court, or be specially set for argument at the discretion of the presiding judge. There is no requirement to present a scheduling motion for argument on a dispositive motion (e.g., preliminary objections, a motion for judgment on the pleadings, or a motion for summary judgment).

(2) The Court Administrator shall annually set sessions for Argument Court in the court calendar.

(a) The Court Administrator shall assign an action for Argument Court upon receipt of a copy of an appropriate motion. An action may not be scheduled for Argument Court sooner than thirty (30) days before a session.

Rule 1042.1. Professional Liability Actions. Mediation.

(a) *Scope.* These rules shall govern mediation in all professional liability cases before the Court.

(1) This rule shall not pertain to any case involving a pro se litigant.

(b) *Selection of cases for mediation.* Either party, or the Court sua sponte, may file a motion to refer a case to mediation.

(1) The Court may also at its discretion refer a case to mediation once it is placed on the trial list.

(2) The Court shall consider the objection of any party to mediation that has not consented to settlement provided that such lack of consent shall not prevent the referral of the case to mediation.

(c) *Selection of mediator.* The Court shall select the mediator, or in the alternative, the parties may agree to the appointment of a mediator.

(1) Unless otherwise agreed to by the parties, the mediator shall be disqualified if:

(i) the mediator has personal knowledge of disputed evidentiary facts related to the mediation;

(ii) the mediator or any attorney with whom the mediator practiced law served as an attorney for the matter in controversy; or

(iii) the mediator, or anyone with whom the mediator has a close business or familial relationship, has an economic interest in the matter in controversy.

(2) The mediator shall disclose any past or present affiliations with any and all parties, including the insurance carriers and/or the M-Care Fund.

(d) *Compensation.* The fee of the mediator shall be determined by the Court. The costs shall be apportioned equally among the parties, unless otherwise agreed to by the parties or ordered by the Court. The mediator shall submit an itemized bill to the parties for costs, expenses, and time. Failure to remit payment within twenty (20) days after receipt of the bill may result in a rule to show cause why sanctions shall not be imposed.

(e) *Submissions to mediator.* Before the first mediation session, the mediator may require the parties to provide to the mediator confidential and/or pertinent information including, but not limited to, pleadings, discovery responses/production, transcripts, expert reports, and/or any other litigation related documents.

(f) *Time frame for conducting the mediation.* Unless otherwise agreed to by the parties and the mediator, or ordered by the Court, the first mediation session shall be conducted not later than sixty (60) days from the agreement to mediate or order to mediate.

(g) *Attendance and authority; sanctions.* The parties, a representative of the defendant's insurance carrier with authority to enter into a full and complete settlement of the case on behalf of the parties, and trial counsel shall personally attend the mediation. A representative of the M(Care) Fund, with full decision making authority, shall attend in person, the mediation. If any of the above individuals or representatives fails to appear at the

mediation session without good cause, or appears without full authority, the Court sua sponte, or upon motion, may impose sanctions, including an award of reasonable mediator and attorney's fees and other costs, against the responsible party.

(h) *Settlement agreement; enforcement.* Each settlement is to be confirmed in a written settlement agreement, signed by a party or a party representative with authority to sign. A party representative who signs is presumed to have full authority to bind the party. The settlement agreement is enforceable in the same manner as any other written contract and/or by a motion to enforce the settlement agreement.

(i) *Confidentiality and immunity.* The mediation shall be confidential and no record shall be made, except as provided in this rule or as ordered by the Court. The mediator shall not be subpoenaed or requested to testify or produce documents by any party in any pending or subsequent litigation arising out of the same or similar matter. Any party, person, or entity that attempts to compel such testimony or production shall indemnify the mediator and other protected participants for all reasonable costs, fees, and expenses. The mediator shall have the same limited immunity as judges pursuant to the applicable law as it relates to common pleas judges.

Comment: Confidentiality of mediation communications and mediation documents are subject to the protections and exceptions prescribed in 42 Pa. Con. Stat. § 5949.

(j) *Report.* If the case is not settled, the mediator shall provide the Court with a detailed report outlining: (1) the mediator's assessment of liability; (2) the mediator's assessment of damages; (3) the mediator's opinion regarding the potential range of a verdict and the settlement value of the case; (4) Plaintiff's final settlement demand; (5) Defendant's final settlement offer; and (6) the mediator's recommendation regarding settlement of the case. A copy of the report shall be provided to and maintained by the Court Administrator until the case is closed.

COMPULSORY ARBITRATION

Rule 1301. Compulsory Arbitration. Scope.

(a) All civil actions which are subject to compulsory arbitration pursuant to 42 Pa. Con. Stat. § 7361, in which the amount in controversy, exclusive of interest and costs, is fifty-thousand (\$50,000.00) dollars or less, shall be submitted to compulsory arbitration.

(b) The amount in controversy shall be the largest amount claimed in any single count of the pleadings by any party.

(c) The court, upon the written motion of any party or sua sponte, may require that a case for which a trial is demanded be first submitted to compulsory arbitration pursuant to these rules.

Comment: Actions involving real property are not subject to compulsory arbitration.

Rule 1302. Compulsory Arbitration—Arbitrators.

(a) A list of available arbitrators shall be maintained by the Court Administrator. The list shall consist of a sufficient number of members of the Bar of Washington County who express a willingness to serve and who are actively engaged in the practice of law primarily in Washington County in accordance with Pa.R.C.P. 1302(a).

(b) Each attorney who satisfies the requirements of Rule 1302(a) may submit his or her name to the Court Administrator, who shall assign said attorneys to arbitration panels. The composition of the panels may be changed as deemed appropriate by the Court Administrator.

(c) Each panel so comprised shall consist of three (3) attorneys, the most senior of whom shall be the chairperson of the panel, unless otherwise agreed by the members of the panel.

(d) The Court may from time to time establish a special panel of arbitrators who by virtue of seniority and experience, in specific fields of the law, are uniquely qualified to serve as arbitrators in particular types of cases, and whose special service will advance the interests of justice.

(e) Each arbitrator shall be compensated at a commensurate rate to their service, which shall be established by the Court Administrator and approved by the Court.

(f) If an appointed arbitrator cannot serve at the time and place designated, the attorney shall, unless otherwise prevented by matters beyond his or her control, notify the Court Administrator at least five (5) days in advance of the date upon which the hearing has been scheduled. That attorney shall then be appointed an arbitrator at the first opportunity thereafter. If any arbitrator fails to give notice as aforesaid or simply fails to appear at a scheduled arbitration, his or her name shall be passed over and that attorney shall not receive another appointment until his or her name reappears for appointment in due course. If any arbitrator is guilty of such a failing a second time, the attorney's name shall be removed from the appropriate list or lists, and he or she shall not thereafter serve as an arbitrator until reinstated upon application to the court. An attorney who fails to appear for a second time may, in the discretion of the Court, be responsible for the payment of costs if such absence causes the arbitration to be continued.

Rule 1303. Hearing.

(a) Arbitrations shall be held on the date and at the time and place prescribed by the Court Administrator.

(b) The Court Administrator shall notify all attorneys of record of the date, time, and place of the hearing by mail. If a party is not represented by counsel, that party shall be given notice of the arbitration in accordance with Pa.R.C.P. 440. The Court Administrator shall file of record proof of notice as aforesaid. Notice shall be given to the parties or their attorneys of record at least thirty (30) days prior to the scheduled hearing.

(1) The Court Administrator shall notify all arbitrators assigned to an arbitration panel of the dates on which the arbitration panel is assigned to hear arbitration cases and the location of the arbitration hearings.

(2) Prior to the scheduled arbitration date, the Court Administrator shall send all of the arbitrators assigned to the arbitration panel a list containing the names of the cases to be heard, the names of the parties, and the names of all counsel for the parties. In the event any of the arbitrators believes that he/she has a conflict of interest in connection with hearing any particular case, the arbitrator shall immediately notify the Court Administrator in writing that the arbitrator believes that there is a conflict of interest and the reason for the conflict. The Court Administrator shall assign a substitute arbitrator to the case.

(c) On the date of the arbitration hearing, all counsel should check in with the representative of the Court Administrator located at the site of the arbitration. Cases in which all parties have checked in and have indicated they are ready to proceed will be assigned to a panel for hearing by the representative of the Court Administrator after consultation with the panel chairperson. All cases on the list are intended to be reached, and all counsel should be prepared to commence their case at the time they are directed to report for the arbitration.

(d) In the event that the panels of arbitrators are unable to reach all of the cases scheduled for arbitration on a particular day, the arbitration hearing for those cases that are not reached shall be continued by the Court Administrator to the next available date. In the event that an arbitration hearing has been commenced but is not concluded on the day scheduled for the arbitration hearing, the arbitration hearing shall be continued to a date convenient to the arbitration panel and parties.

(e) The written notice provided for in subsection (b) above shall include the following statement:

“This matter will be heard by a board of arbitrators at the time, date, and place specified but, if one or more of the parties is not present at the hearing, the matter may be heard at the same time and date before a judge of the court without the absent party or parties. There is no right to a trial de novo on appeal from a decision entered by a judge.”

(f) The representative of the Court Administrator shall administer the oath required by Pa.R.C.P. 1302(f) to each arbitrator.

Rule 1303.1. Scheduling of Arbitration Hearing. Discovery Time Limits.

(a) A matter subject to compulsory arbitration shall be scheduled for a hearing as set forth below.

(1) An appeal of a decision of a magisterial district judge pursuant to Pa.R.M.D.J. 1002 shall be scheduled

for arbitration within ninety (90) days of the filing of the appeal in the Court of Common Pleas.

(2) All other matters subject to compulsory arbitration shall be scheduled after one hundred fifty (150) days from the commencement of the action.

(3) The parties may seek to schedule an arbitration hearing earlier than the limits listed above in subsection (b) upon the filing of a joint praecipe with the Prothonotary. A copy of the praecipe must be provided contemporaneously to the Court Administrator.

(i) There shall be no discovery permitted after the filing of a joint praecipe.

(b) Discovery in all matters subject to compulsory arbitration other than appeals pursuant to Pa.M.D.J. 1002 shall be limited to one hundred fifty (150) days from the commencement of the action, unless otherwise ordered by the Court for good cause shown. In no case shall discovery be permitted to exceed two hundred forty (240) days.

(c) If a party fails to appear for a scheduled arbitration hearing, the Court may act as follows:

(1) immediately hear the matter as an ex parte, non-jury trial and enter a verdict; or

(2) order the matter to proceed to arbitration for a hearing and the entry of an award by the arbitration panel.

(d) A non-jury verdict entered by the Court shall not exceed \$50,000.00 to any party, exclusive of costs and interest.

Comment: When the Court “hears the matter,” it is accelerating the time for conducting a de novo trial. However, the proceeding is still a “trial” and the rules otherwise applicable to a trial in the Court of Common Pleas are not suspended. Therefore, counsel, or a party if unrepresented, should be prepared to present testimony and introduce evidence at the trial, and the Court should make findings of fact and conclusions of law. See *Hayes v. Donohue Designer Kitchen, Inc.*, 818 A.2d 1287 (Pa. Super. Ct. 2003).

Rule 1303.2. Continuances.

(a) A party may continue a scheduled arbitration hearing one (1) time upon filing of a praecipe for continuance with the Prothonotary and payment of a fee of \$50.00. The praecipe shall be filed at least five (5) days before the scheduled arbitration; the Prothonotary shall refuse a praecipe if filed later than five (5) days before the scheduled arbitration.

(1) A copy of the praecipe must be provided contemporaneously to the Court Administrator. The filing party shall be responsible for immediately notifying opposing counsel, or a party if unrepresented, of the continuance.

(b) For any request for a continuance that is either less than five (5) days before the scheduled arbitration or not the first request for continuance by a party, the requesting party shall file a motion and seek leave of court.

(1) The Court shall grant the continuance only for good cause shown.

(2) The requesting party shall pay a continuance fee of \$100.00.

(c) A pre-trial motion, whether filed prior to or after the scheduling of the arbitration, shall not be cause for continuance of the arbitration hearing.

Rule 1304. Conduct of Hearing. Generally.

(a) The board of arbitrators shall have no power to permit the amendment of pleadings, allow the addition or substitution of parties, or rule on preliminary objections, motions for judgment on the pleadings, or motions for summary judgment.

(b) The procedural rules, set forth in Pa.R.C.P. 1304, shall apply to the conduct of arbitration hearings.

(c) The parties may present agreements on awards to be entered by the arbitrators on the date of hearing.

(d) If it appears at the arbitration hearing that any defendant has not been properly served, judgment shall be entered for that defendant.

(e) If it appears at the arbitration hearing that a defendant has appealed a district justice judgment and has not served a rule to file a complaint upon the plaintiff, an award shall be entered in favor of the plaintiff.

(f) If it appears at the arbitration hearing that a complaint has not been filed, judgment shall be entered for the defendant.

Rule 1305. Conduct of Hearing. Evidence.

(a) Initially, all rulings on objections to evidence or on other issues which arise during the hearing shall be made by the chairperson of the board of arbitrators, and such rulings shall be final unless one of the other arbitrators disagrees with the same. In the latter instance, the arbitrators shall consult and vote and the final ruling shall be that of the majority.

(b) Following the hearing, the chairperson of the board of arbitration shall release to the respective parties the exhibits introduced and admitted. In no instance shall the Court maintain or keep the exhibits after the completion of the arbitration proceedings.

(c) The evidentiary rules described in Pa.R.C.P. 1305 shall apply to the conduct of arbitration hearings.

Rule 1305.1. Pleadings and Discovery.

(a) *Small Claims.* In all cases in which the amount in controversy is \$12,000.00 or less, a simplified complaint shall be encouraged and a simplified answer shall be permitted. A standard form simplified complaint and simplified answer shall be approved by the Court and provided in sufficient quantities by the Prothonotary.

(1) Discovery in cases in which the amount in controversy is \$12,000.00 or less shall be permitted only by order of court. In the event that it is necessary to continue the arbitration pending discovery, the order permitting discovery shall provide for such continuance, and the Court Administrator shall reschedule the arbitration.

(2) The Court Administrator shall design any necessary forms to facilitate appeals pursuant to Pa.M.D.J. 1002, and shall make the forms available in the magisterial districts and the Prothonotary.

(b) *Discovery in Personal Injury Cases.* For any personal injury claim subject to compulsory arbitration, the plaintiff may serve arbitration discovery requests as set forth below. The requests may be served simultaneously with the complaint.

(1) The defendant shall furnish the information sought in the discovery requests within thirty (30) days of receipt of the discovery requests.

(2) Any defendant may serve arbitration discovery requests as set forth below either together with a copy of the answer served on the plaintiff or thereafter within the time limits for discovery.

(3) The plaintiff shall furnish the information sought in the discovery requests within thirty (30) days of receipt of the discovery requests.

(4) A party may not seek additional discovery through interrogatories or requests for production of documents until that party has sought discovery through the arbitration discovery requests described herein.

(5) A party may not include any additional interrogatories or requests for production of documents in the arbitration discovery requests provided for in this local rule, absent leave of court.

(6) This local rule applies to additional defendants.

(7) The local rule does not apply to claims that do not exceed the sum of \$12,000.00 (exclusive of interest and costs) wherein the parties may only seek discovery when permitted by the Court.

DEPOSITIONS AND DISCOVERY

Rule 4007.1. Deposition by Oral Examination. Notice. Place of Depositions.

(a) *Notice.* As a general rule, fourteen (14) days in advance of the contemplated taking of a deposition shall constitute reasonable notice of the taking of a deposition of a party, but this will vary according to the complexity of the contemplated testimony and the urgency of taking the deposition of a party at a particular time and place.

(1) An application by a party to shorten the time limit for notice or to seek a protective order for a properly advanced notice must be made by motion before the Court.

(b) *Place of Depositions.* Unless otherwise agreed to by the parties or ordered by the Court, all depositions in a civil action filed in the Court of Common Pleas of Washington County, shall be held in Washington County.

(c) Whenever depositions are expected to be introduced into evidence, counsel shall, before the pre-trial conference or if same are not then available before the day of trial, review such depositions and (1) extract therefrom a short statement of the qualifications of any expert witness to read to the jury, (2) eliminate unnecessary and/or irrelevant matters, and (3) eliminate all objections and statements of counsel to avoid reading same to a jury. In the event counsel, or a party if unrepresented, are unable to agree on what shall be eliminated, they shall submit to the Court for a ruling thereon before the date of trial. Failure to do so will constitute a waiver of objections.

(d) In all non-jury trials, counsel, or a party if unrepresented, shall attach to any deposition a summary of the examination of the testimony of each witness, thereby pointing out the salient points to be noted by the Court.

(e) *Conduct of Depositions.* This rule shall govern certain conduct in depositions taken in a civil action filed in the judicial district. Prior to the commencement of any deposition, this rule shall be provided to every witness so that he or she understands the parameters of permissible testimony and may have the opportunity to question his or her counsel regarding same.

(1) At the commencement of the deposition, the witness shall be instructed to ask deposing counsel, rather than counsel for the witness, for clarifications, definitions, or the explanations of any words, questions, or documents presented during the course of the deposition.

(2) All objections, except those that would be waived at trial if not made, those necessary to assert a privilege, or to present a motion pursuant to Pa.R.C.P. 4011, shall not be waived. Counsel, or a party if unrepresented, may assert non-waivable objections before the Court in the form of an appropriate motion prior to trial.

(3) An objection shall be stated concisely in a non-argumentative and non-suggestive manner.

(4) Counsel shall not direct or request that a witness not answer a question, unless that counsel has objected to the question on the ground that the answer is protected by a privilege or a limitation on evidence as already set forth by statute, rule of court, or order of court.

(5) Counsel and the deponent shall not engage in private, off-the-record conferences, except for the purpose of deciding whether to assert a privilege. Any conference shall be a proper subject for inquiry by deposing counsel to ascertain the subject of the conference and if the witness has been coached.

(i) Counsel for the deponent shall note the occurrence and duration of any conference on the record, and must describe the purpose and outcome of the conference.

(f) Any party, or counsel for a party, who fails to adhere to this rule may on motion of a party, or the Court sua sponte, be subject to sanctions as set forth in Pa.R.C.P. 4019, including, but not limited to, an award of reasonable costs, expenses, and attorney fees.

Rule 4017.1. Objections at Video Depositions.

The following shall govern the procedure for making objections during video depositions.

(a) When counsel makes an objection, counsel shall merely state the word "objection" and request that the video operator stop the video. Any arguments on objections shall be made on the written transcript but off-camera.

(b) Once the video is stopped, counsel should first summarize the reasons for the objection in a word or phrase. Counsel may then proceed with argument on the transcript and off the camera or may merely state the summary grounds for the objection. Arguments should be brief, and should consist of no more than the reason for the objection, an answer to the reason for the objection, and brief rebuttal.

(c) Counsel shall meet and review the transcript before presentation to the trial judge who will resolve whatever objections can be resolved. Counsel should present to the judge a list setting forth by page and line numbers the objections that need rulings.

(d) Prior to the playing of the video, the Court shall advise the jurors of the procedure dealing with objections and instruct them to disregard the word "objection" when it is made. The video may then be played without interruption, except for segments stricken by the judge.

Rule 4019. Sanctions. Requirement to Confer.

Any motion for sanctions shall be governed by Wash.L.R.C.P. 208.2(e) and 208.3(a), and the motion shall contain a certification that counsel has conferred or attempted to confer with all interested parties in order to resolve the matter or narrow the issues to be reviewed by the Court.

ADMINISTRATIVE APPEALS

Rule 6000. Zoning Appeals.

(a) Appeals from the decision of a Zoning Hearing Board shall be captioned in accordance with Wash.L.R.C.P. 205.

(b) Within ten (10) days of issuance of a Writ of Certiorari by this Court, the appellant shall serve a copy of both the notice of appeal and writ upon the solicitor for the zoning hearing board, the solicitor for the municipality within which the zoning hearing board is located, and all persons and/or entities who have entered their written appearance in the proceedings before the zoning hearing board.

(c) The record submitted to the Court, in compliance with the writ of certiorari, shall include a certified copy of the zoning ordinance in effect at the time the decision was rendered.

(d) Whenever an appeal is taken from a decision of a zoning hearing board and the record is returned by the Court to the zoning hearing board for further proceedings, and a subsequent appeal from a decision of the zoning hearing board is taken in the same case, the docketing number of the original appeal shall identify the subsequent appeal filed with the Prothonotary who shall docket and file such subsequent appeal at the docketing number of the original appeal.

Rule 7000. Board of Viewers. Membership. Compensation.

(a) The Board of Viewers for the County shall consist of nine members, not less than three of whom shall be members of the Bar of this County. An appointed Board for a case shall consist of three viewers, and the chairperson shall be an attorney. The compensation of the members of the Board shall be fixed as provided by the Court.

(b) Each member of said Board shall, before assuming the duties of their office, take and subscribe to an oath or affirmation to perform faithfully all the duties imposed upon him/her by law, which shall be filed with the Prothonotary.

(c) The petition for appointment of viewers in all eminent domain proceedings shall specify the applicable Act of Assembly, if any, under which the condemnation was made. The order appointing the viewers shall contain the tax parcel identification number of the property subject to condemnation. Notice that the petition has been presented, together with a conformed copy thereof, as well as a conformed copy of the order appointing the viewers, shall be forthwith mailed by the petitioner to the owners, or condemning body, or their attorney of record, whichever is applicable. An additional confirmed copy of such petition shall be filed with the Prothonotary for use in certifying the record to the appointed viewers. The attorney for the petitioner shall file a certification of service as aforesaid with the Prothonotary within twenty (20) days after the appointment of viewers. After receipt of the certification of service, the Prothonotary shall certify the record to the chairperson of the Board of Viewers.

Rule 7001. Hearings. Records.

(a) All hearings of the Board of Viewers shall be held publicly in the Courthouse as designated by the chairperson of the Board in consultation with the Court Administrator.

(b) Whenever it shall be desirable that a verbatim record of the hearings before the respective boards of view be taken, the Court, for cause shown, may direct an official court stenographer to take notes thereof, and copies of said record shall be furnished to counsel for the parties, who shall apportion the costs equally.

Rule 7002. Reports. Confirmation. Exceptions.

In any case in which a report of viewers shall be filed and presented to the Court for confirmation, the same shall be marked "Confirmed Nisi," which confirmation shall become absolute, and shall be so marked by the Prothonotary unless exceptions are filed thereto within thirty (30) days thereafter, or such other time as required by Act of Assembly; provided that for good cause shown, the Court may, by special order, extend the time for filing exceptions.

Rule 7003. Request for View.

Any request for a view of the premises by a jury shall be made by motion to the Court at least twenty (20) days prior to trial. The Court may assess the costs for a view upon the requesting party, or in its discretion, require the parties to share the costs equally.

PROPOSED RULEMAKING

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

[17 PA. CODE CH. 45]

Conservation of Pennsylvania Native Wild Plants

The Department of Conservation and Natural Resources (Department) proposes to amend Chapter 45 (relating to conservation of Pennsylvania native wild plants) to read as set forth in Annex A.

A. *Effective Date*

This proposed rulemaking will go into effect upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Persons*

The primary contact for questions regarding this proposed rulemaking is Rebecca H. Bowen, Chief, Ecological Services, Bureau of Forestry, Department of Conservation and Natural Resources, P.O. Box 8552, Harrisburg, PA 17105-8552, (717) 787-3444, rebbowen@pa.gov. The secondary contact for questions regarding this proposed rulemaking is Stephen Ekema-Agbaw, Assistant Counsel, Office of Chief Counsel, Department of Conservation and Natural Resources, P.O. Box 8767, Harrisburg, PA 17105, (717) 772-4171, sekema@pa.gov.

C. *Statutory Authority*

This rulemaking is proposed under section 7 of the Wild Resource Conservation Act (WRCA) (32 P.S. § 5307) and sections 305(a)(9) and 313(g) of the Conservation and Natural Resources Act (CRNA) (71 P.S. §§ 1340.305(a)(9) and 1340.313(g)).

Section 7(a) of the WRCA provides that “the [former] Department of Environmental Resources shall. . .conduct investigations on wild plants in order to ascertain information relating to. . .other biological and ecological data to classify plants and to determine management measures necessary for their continued ability to sustain themselves successfully.” Under section 7(c) of the WRCA, “[o]n the basis of such determinations, the Environmental Quality Board shall issue regulations not later than two years from the effective date of” the WRCA. Under section 7(c) of the WRCA, “[t]he Environmental Quality Board may add or delete species as conditions change and may modify regulations to reflect the changing environment.”

Section 305(a)(9) of the CRNA transferred to the Department “the powers and duties vested in the Department of Environmental Resources by the. . .Wild Resource Conservation Act.” The former Department of Environmental Resources was the Department’s predecessor in this interest. Section 313(g) of the CRNA transferred to the Department “the powers and duties previously vested in the Environmental Quality Board by. . .[s]ections 7, 8 and 9” of the WRCA.

D. *Purpose and Background*

Purpose

This rulemaking proposes to amend Chapter 45 by updating: 1) the classification lists of native wild plants; 2) the scientific and common names of certain native wild

plants; and 3) the reference source that the Department uses for the names of native wild plants.

Regarding updates to the classification lists of native wild plants, this rulemaking proposes to amend the following classification lists: Pennsylvania Extirpated (§ 45.11); Pennsylvania Endangered (§ 45.12); Pennsylvania Threatened (§ 45.13); Pennsylvania Rare (§ 45.14); and Tentatively Undetermined (§ 45.21).

This rulemaking proposes to amend the classification lists by: 1) adding plants that are currently unclassified to a classification list; 2) reclassifying plants already on a classification list to a new classification; and 3) removing plants from the classification lists altogether (declassifying them).

Process of classifying native wild plants in Pennsylvania

Native wild plant species are those plant species that existed in this Commonwealth prior to European settlement. There are approximately 2,800 native wild plant species that currently exist or formerly existed in this Commonwealth. The Department classifies approximately 1/5 of these species because they are a conservation concern; the other 4/5 are considered secure and thus not classified.

The Department begins the process of classifying native wild plants by collecting and analyzing data on native wild plant species in this Commonwealth. The Department uses the following data to make its classification decisions: numbers of populations known in this Commonwealth; number of individuals within populations; the plant’s range (amount of ground that it covers); threats such as pests, invasive species and habitat loss; decrease or increase in population numbers; and taxonomic information. The previous list is not exhaustive. The Department analyzes this data to determine the population, distribution, habitat needs, limiting factors, and other biological and ecological information about each plant species.

An important piece of data that the Department uses to make classification decisions are referred to as “State ranks.” In this Commonwealth, each plant species receives a State rank from the Pennsylvania Natural Heritage Program (PNHP). The PNHP assigns these ranks based on a methodology created by Nature Serve, an international network of natural heritage programs. The purpose of Nature Serve’s methodology is to bring consistency to the biodiversity conservation efforts of individuals and organizations throughout the Western Hemisphere. This methodology is used across North America, Central America and South America. By using this standard tool, the Department ensures its evaluation methods are, at a minimum, equivalent to that of other states and countries in the Western Hemisphere and that its classification decisions are based on sound science.

Throughout this process the Department also receives data, information and recommendations from the Pennsylvania Biological Survey’s Vascular Plant Technical Committee (Committee). The Committee is composed of professional botanists working throughout this Commonwealth in academic, consulting, governmental and conservation organizations. Each year, the Committee makes classification recommendations for native wild plants based on the research and expertise of its professional botanists.

The Department assimilates and reviews all data and recommendations it collects and receives, and determines

the appropriate classifications for each native wild plant species under the definitions in Chapter 45.

Native wild plant classifications

Under section 7(a) of the WRCA, how plants are classified determines the “management measures necessary for their continued ability to sustain themselves successfully.” Native wild plant species that are at risk of extinction in this Commonwealth need greater protection than those less susceptible to this risk. Chapter 45 designates the level of risk facing native wild plant species in this Commonwealth by classifying them as follows:

Pennsylvania Extirpated (§ 45.11)—A classification of plant species believed to be extinct in this Commonwealth. If a plant species classified as Pennsylvania Extirpated is later found to exist in this Commonwealth it will automatically be considered classified as Pennsylvania Endangered.

Pennsylvania Endangered (§ 45.12)—A classification of plant species that are in danger of extinction throughout most or all of their natural range in this Commonwealth if critical habitat is not maintained or if the species is greatly exploited by man. This classification also includes populations of plant species that have been classified as Pennsylvania Extirpated but are subsequently found to exist in this Commonwealth.

Pennsylvania Threatened (§ 45.13)—A classification of plant species that may become endangered throughout most or all of their natural range in this Commonwealth if critical habitat is not maintained to prevent their further decline, or if the species is greatly exploited by man.

Pennsylvania Rare (§ 45.14)—A classification of plant species that are uncommon in this Commonwealth because they have low population numbers or are only found in restricted geographic areas.

Pennsylvania Vulnerable (§ 45.15)—A classification of plant species that are in danger of population decline in this Commonwealth because of their beauty, economic value, use as a cultivar or other factors which indicate that persons may seek to remove these species from their native habitats.

Special Concern Population (§ 45.20)—A classification of plant species that the Department has determined to be a unique occurrence deserving protection. Among the factors used to classify a plant species as a Special Concern Population are the existence of unusual geographic locations, unisexual populations or extraordinarily diverse plant populations.

Tentatively Undetermined (§ 45.21)—A classification of plant species that are in danger of population decline but do not meet the criteria for any other classification due to taxonomic uncertainties, limited historical records or insufficient data.

Updating species nomenclature

This proposed rulemaking updates the scientific and common names of certain native wild plant species to conform to the Department’s new taxonomic source material.

The current nomenclature used to identify species taxonomy in Chapter 45 comes from John T. Kartesz’s 1980 publication, *A Synonymized Checklist of the Vascular Flora of the United States, Canada and Greenland, Volume 2: The Biota of North America*. The Department now uses *The Plants of Pennsylvania Second Edition*

(2007) by Ann Fowler Rhoads and Timothy A. Block as a reference. This proposed rulemaking updates the reference to reflect the most up-to-date information on native wild plants in this Commonwealth. This necessitates an update to the scientific and common names in Chapter 45 to remain consistent with the new source material. Additionally, this proposed rulemaking corrects minor grammatical errors and misspellings of species names.

Pennsylvania Natural Diversity Inventory

The proposed amendments will be incorporated into the Pennsylvania Natural Diversity Inventory (PNDI).

The PNDI is a database that maintains the Department’s list of native wild plant classifications, as well as native rare wildlife classifications from the Game Commission, the Fish and Boat Commission and the United States Fish and Wildlife Service. The PNDI provides the most current, reliable and objective scientific information about ecological resources in this Commonwealth and it is used to help inform environmental decisions in the Commonwealth. Most notably, the Department of Environmental Protection (DEP) uses the PNDI to inform its environmental permitting decisions.

The overwhelming majority of users use the PNDI as part of the process of obtaining a DEP permit. The DEP requires permit applicants to screen their land use projects through the PNDI for potential impacts to threatened or endangered species to receive a DEP permit; threatened and endangered plant species are thereby protected by the DEP’s permitting process.

Although this proposed rulemaking will result in updates to the plant data in the PNDI, this proposed rulemaking will not affect the DEP’s permitting process. The process of obtaining a DEP permit is beyond the scope of this proposed rulemaking. Instead, the PNDI’s connection to this proposed rulemaking is limited to its use of the plant data that will result from the proposed amendments. No person, business, small business or organization will be required to invest in additional administrative procedures as a direct result of this proposed rulemaking.

Finally, because this proposed rulemaking will remove more species from classifications than it adds, there may be fewer classified plant species for prospective DEP permit applicants to account for when applying to obtain DEP permits. Depending on the project type, location and classified plant species in question, prospective DEP permit applicants may see no change in the amount of mitigation required to address impacts to threatened and endangered species and fulfil permit requirements.

E. Summary of this Proposed Rulemaking

Subchapter A. General provisions

The definition of “unlisted” is proposed to be deleted from § 45.2 (relating to definitions) because it is not used in Chapter 45.

Proposed amendments to § 45.3 (relating to classified plant taxonomy) update the taxonomic source material that the Department uses for the nomenclature of native wild plants from John T. Kartesz and Rosemarie Kartesz, *A Synonymized Checklist of the Vascular Flora of the United States, Canada and Greenland, Volume 2: The Biota of North America* (1980), to Ann Fowler Rhoads and Timothy A. Block, *The Plants of Pennsylvania An Illustrated Manual Second Edition* (2007), Philadelphia, Pennsylvania: University of Pennsylvania Press.

Subchapter B. Classified plants

There are 130 substantive proposed amendments to Subchapter B (relating to classified plants), with 79 proposed name changes and 51 classification changes. The substantive proposed amendments include: 9 currently unclassified plant species proposed to be newly classified; 11 currently classified plant species proposed to be reclassified; 31 currently classified plant species that are proposed to be unclassified; and 79 currently classi-

fied plant species with proposed name changes.

For the purposes of this proposed rulemaking, a substantive name change is one that changes the meaning of the plant name (see the following “plant name changes” section). This proposed rulemaking makes minor grammatical corrections to plant names (that is, adding periods, deleting commas and fixing spelling errors) that do not change the meaning of the plant name and are therefore not substantive.

F. Benefits, Costs and Compliance

Benefits

This proposed rulemaking will benefit State, county and municipal conservation planning officials, conservation groups and other organizations concerned with the welfare of the environment because it more accurately represents the plants in this Commonwealth in need of the most protection. Additionally, this proposed rulemaking benefits the citizens of this Commonwealth by protecting this Commonwealth's natural resources, which is a constitutional right. See Pa.Const. Art. I, § 27.

Keeping up-to-date classifications of native wild plants, ensures that the Department and other public and private conservation organizations are targeting the appropriate species in their conservation efforts. This will help maintain the biodiversity of ecological systems in this Commonwealth.

Compliance costs

This proposed rulemaking does not prescribe anything for a group or entity to comply with. This proposed rulemaking updates the Commonwealth's classified lists of native wild plants, updates the scientific and common names of certain native wild plant species, and updates the reference source of the nomenclature that the Department uses for native wild plant species taxonomy. There are no compliance costs associated with this proposed rulemaking.

Paperwork requirements

There will be no increase in the amount of required paperwork associated with this proposed rulemaking.

G. Sunset Review

The regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on November 6, 2017, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate and House Environmental Resources and Energy Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b) which have not been met. The Regulatory Review Act specifies detailed procedures for review prior to final publication of the rulemaking by the Department, the General Assembly and the Governor.

I. Public Comments

Interested persons are invited to submit comments regarding this proposed rulemaking to Rebecca H. Bowen, Ecological Services Section, Bureau of Forestry, Department of Conservation and Natural Resources, P.O. Box 8552, Harrisburg, PA 17105-8552 (hand delivery, express mail or first class mail to Rachel Carson State Office Building, 6th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments must be received by the Department 30 days from the date this proposed rulemaking is published in the *Pennsylvania Bulletin*.

Comments may also be submitted to the Department at RA-Ch45WildPlant@pa.gov and must also be received by the Department 30 days from the date this proposed rulemaking is published in the *Pennsylvania Bulletin*. Use "Chapter 45 proposed rulemaking" as the subject line. A return name and United States Postal Service mailing address must be included in each transmission.

TITLE 17. CONSERVATION AND NATURAL RESOURCES

PART I. DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Subpart D. RESOURCE CONSERVATION

CHAPTER 45. CONSERVATION OF PENNSYLVANIA NATIVE WILD PLANTS

Subchapter A. GENERAL PROVISIONS

§ 45.2. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

Tentatively Undetermined—A classification of plant species which are believed to be in danger of population decline, but which cannot presently be included within another classification due to taxonomic uncertainties, limited evidence within historical records or insufficient data.

[*Unlisted*—Plant species which are native to this Commonwealth, presently capable of sustaining their populations successfully, not in need of protection currently and currently not included in classifications under this chapter.]

Wild plants—Naturally occurring native flora, except those commonly considered an agricultural commodity, including green and nongreen species or subspecies, variety or a part, product, seed or progeny thereof.

§ 45.3. Classified plant taxonomy.

Nomenclature used to identify species taxonomy [contained within Subchapter B is according to Kartesz, J. T. and Rosemarie Kartesz, 1980 *A Synonymized Checklist of the Flora of the U. S., Canada, and Greenland*] in Subchapter B (relating to classified plants) is according to Rhoads, A. F. and Block, T. A. (2007), *The Plants of Pennsylvania An Illustrated Manual Second Edition*, Philadelphia, Pennsylvania: University of Pennsylvania Press, unless a different taxonomic source is indicated immediately following the scientific name.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

[52 PA. CODE CH. 29]

[L-2017-2600599]

Motor Carrier Age Requirement

The Pennsylvania Public Utility Commission, on July 12, 2017, adopted a proposed rulemaking order to amend § 29.503 (relating to age restrictions) for consistency with Department of Health regulations by reducing the minimum age requirement for paratransit drivers from 21 years of age to 18 years of age in limited circumstances.

Executive Summary

The Pennsylvania Public Utility Commission's current regulations require that drivers of paratransit vehicles be at least 21 years old. The Department of Health oversees emergency medical transportation and allows drivers 18 years and older to operate ambulances, if the drivers have proper training and certification. Many ambulance companies also operate paratransit service and cannot utilize the under 21 year-old ambulance driver in their paratransit service. This has caused operation and hiring problems for these companies. The Pennsylvania Public Utility Commission has granted several waivers with

respect to the 21 year age requirement to paratransit operators so that ambulance drivers under 21 may also operate paratransit vehicles. 66 Pa.C.S. § 501. This proposed rulemaking reduces the minimum age requirement for paratransit drivers to 18 years of age under limited circumstances.

Motor Carrier Age Requirement, 52 Pa. Code Chapter 29; L-2017-2600599

Proposed Rulemaking Order

By the Commission:

The Pennsylvania Public Utility Commission (Commission) proposes to amend its regulation governing the minimum driver-age requirement. See 52 Pa. Code § 29.503 Specifically, the Commission proposes to update Section 29.503, consistent with Department of Health (DOH) regulations, by reducing the minimum age requirement for paratransit drivers in limited circumstances. The Commission seeks comments from all interested parties on this proposed regulation, following as Annex A to this Order.

The Commission's regulations currently require, *inter alia*, that paratransit drivers meet a minimum age requirement. Specifically, the relevant Commission regulation provides:

52 Pa. Code § 29.503. Age restrictions.

A common or contract carrier may not permit a person to operate a vehicle in its authorized service unless that person is at least 21 years of age.

In its Order promulgating this regulation, the Commission opined that the age requirement would help to ensure the quality and safety of public utility service in Pennsylvania. 36 Pa.B. 4181 (August 5, 2006). Although the Commission recognizes that age alone may not be the sole determinant of a driver's ability, the age requirement addressed a statistically documented increase in accidents involving drivers under the age of 21.

Many organizations that provide non-emergency paratransit service also provide emergency medical transportation. The Commission has certificated 506 paratransit carriers, of which at least 155 are ambulance companies. Pursuant to DOH regulations, a driver of an ambulance must only be 18 years of age or older and must successfully complete an emergency vehicle operator's course of instruction approved by the DOH. See 28 Pa. Code § 1023.22.

Notwithstanding that drivers ages 18 and over, properly trained and vetted, are permitted to operate ambulances under the DOH's regulations, Section 29.503 effectively prevents those ambulance drivers under 21 from operating non-emergency paratransit vehicles.¹ This creates a conflict within those organizations, since the Commission's existing age requirement is causing dual-service companies to lose qualified potential employees who are under 21-years old. The inconsistency between the Commission's age requirements for paratransit drivers and the DOH's age requirements for ambulance drivers puts the dual-service companies in a cumbersome position in terms of hiring. These companies generally prefer to have younger, less experienced drivers start in paratransit service before they move up to the more demanding work of driving an ambulance. However, under the current regulatory scenario, drivers under 21 years of age are prohibited from providing paratransit service and are limited to providing ambulance service. While dual-service companies can petition the Commission for a waiver of the driver-age requirement, that process requires a significant investment of time and money on the part of the company and the Commission.²

In order to alleviate the negative impact of the Commission's paratransit driver age restrictions on dual-service companies and the need for the companies to petition for waiver of those restrictions, the Commission believes that its regulations should be modified to be consistent with the DOH regulations. As such, the Commission proposes adding a limited exception to the age requirement for paratransit drivers. If a driver is under 21 years of age, the driver will be eligible to operate a non-emergency paratransit vehicle if the DOH has certified the driver to operate an emergency medical services vehicle (EMSV) pursuant to the DOH's regulations at 28 Pa. Code Chapter 1023, Subchapter B. Drivers under the age of 21 will be required to carry their EMSV operator's

certificate issued by the DOH on board. In addition to complying with the DOH's EMSV operator's certification requirements, a paratransit vehicle driver will have to comply with all other Commission regulations for paratransit drivers. Finally, the carriers themselves will be required to (1) maintain records to prove driver certification, and (2) notify the Commission of any accident involving a paratransit vehicle driver under the age of 21.

This proposal will benefit the public by increasing the pool of potential paratransit drivers while at the same time ensuring that common and contract carriers provide safe and reliable paratransit service throughout the Commonwealth.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on November 8, 2017, the Commission submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Consumer Affairs Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b) which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Commission, the General Assembly and the Governor of comments, recommendations or objections raised.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Depart-

ment Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

09-0196L: Abington Reldan Metals, LLC (ARM) (550 Old Bordentown Rd, Fairless Hills, PA 19330) for the installation and temporary operation of a replacement Baghouse in Falls Township, **Bucks County**. ARM is a precious metal refining facility. ARM is an existing facility, and operates under Synthetic Minor operating permit No. 09-00196. The proposed Baghouse will replace an existing Baghouse approaching the end of its operating life. The Baghouse will capture particulate matter emissions with at least 99% efficiency. The plan approval contains monitoring, recordkeeping, reporting, and work practice standards designed to keep the facility operating within all applicable air quality requirements.

09-0004A: Oliver Healthcare Packaging (905 Pennsylvania Boulevard, Feasterville, PA 19053) for the installation of a new flexographic, two-color printing press with rotary screen at an existing facility located in Southampton Township, **Bucks County**. The primary pollutant of concern from the new printing press will be volatile organic compounds (VOC) as a result of the inks, coatings, and clean-up solvents from the printing process. The project has a potential to emit 1.25 ton per year of VOC. The plant will maintain a synthetic minor status by limiting its facility-wide VOC emissions to 24.9 tons per year. The plan approval will include monitoring, recordkeeping, and reporting requirements designed to address all applicable air quality requirements.

39-00006E: American Craft Brewery LLC (7880 Penn Drive, Breinigsville, PA 18031-1508) Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), that the Department of Environmental Protection (DEP) intends to issue a Plan Approval # 39-00006E to American Craft Brewery LLC, 7880 Penn Drive, Breinigsville, PA 18031-1508, for their plant located in Upper Macungie Township, **Lehigh County**. The facility currently has Title V Operating Permit No. 39-00006. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 39-00006E is to increase the overall production capacity and to provide additional brewing, blending, and packaging flexibility at the facility. Specifically, the Project includes physical modification to existing Can Line-Two (2) Can Fillers (Source ID 154), addition of a new can crusher and replacement of existing Hot Wort Settling (2 Units) (Source ID 120) operations. ACB is also proposing several changes to simplify

recordkeeping at the Facility to provide additional operational and/or recordkeeping flexibility.

The company currently operates one can line (Source ID 158), which consists of two can fillers. Due to current physical conveying restrictions, the company can only operate one can filler at a time. The company has propose to separate the two can fillers on the existing single line to create two can filling lines which can operate simultaneously. The capacity of the individual fillers will not change. This separation will provide flexibility for the company to react to the increasingly high demand of canned products relative to products sold in other containers (i.e., bottles, kegs, and Bag-in-Box). The company is also proposing to install an additional pasteurizer in conjunction with the split can line. Although the pasteurizer is not a direct source of emissions, the emissions associated with the additional steam required to operate the pasteurizer have been accounted for within the fuel increase to the boilers.

The company currently has two hot wort settling units (i.e., Coolship) (Source ID 120) at the Facility. The company is proposing to replace the existing hot wort settling units with a new state of the art Coolship unit.

The company currently operates a can crusher and a bottle crusher as part of off spec product destruction (Source ID 127) at the Facility. The company is proposing to remove the existing can crusher and replace it with a new, functionally equivalent can crusher.

Only VOC & Particulate emissions are expected to increase due to this expansion project. This expansion project will result in an increase of 31.2 tpy of VOC & 0.01 tpy of particulate emissions from the facility. The emissions of these pollutants are within all applicable emissions limitations. No other pollutants are affected due to this project.

A review of the information submitted by the company indicates that the proposed project will meet all applicable State and Federal air quality requirements. Based upon these findings, DEP plans to approve the application and issue a permit for the facility.

In order to assure compliance with the applicable standards, DEP will place conditions in the plan approval.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701.

Any person(s) wishing to provide DEP with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No.: 39-00006E and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting

a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P.E., Environmental Group Manager, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701, Phone 570-826-2511 within 30 days after publication date.

58-00001A: Tennessee Gas Pipeline Company (1001 Louisiana St., Suite 1000, Houston, TX 77002) Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), that the Department of Environmental Protection (DEP) intends to issue a Plan Approval No. 58-00001A to Tennessee Gas Pipeline Company, (1001 Louisiana St., Suite 1000, Houston, TX 77002), for their facility located in Clifford Township, **Susquehanna County**. The facility currently operates under Title V Operating Permit No. 58-00001. This plan approval will be incorporated into the Title V Operating Permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 58-00001A is to increase in the sub-zero operating hours and start-up/shut-down event associated with three existing Solar Centaur 40 turbines. The company has proposed to increase sub-zero operating hours for Source IDs 113, 114 & 115 from 50 hrs to 300 hrs and start-up/shut-down events from 250 to 300. The company will continue to use Solar's lean-premixed dry low emissions system (SoLoNO_x) to provide the lowest emissions possible during normal operating conditions. The combustion and fuel systems are designed to reduce NO_x, CO and unburned hydrocarbons to attain NO_x emission level of 25 PPM and CO emission level of 50 PPM, corrected to 15% oxygen, and hydrocarbon at 25 PPM when burning natural gas. The company will operate each turbine for 8,760 hours annually.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating in compliance with all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at DEP, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701.

Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No. 58-00001A and a concise statement regarding the relevancy of the information or objections to the issuance of the permit is required.

A public hearing may be held, if the DEP, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P.E., Environmental Group Manager, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701, Phone 570-826-2511 within 30 days after publication date.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401.

Contact: Janine Tulloch-Reid, Facilities Permitting Chief—Telephone: 484-250-5920.

09-00028: Neenah Northeast, LLC (45 N. 4th Street, Quakertown, PA 18951) located in Quakertown Borough, **Bucks County**, for a renewal of Title V Operating Permit (TVOP) No. 09-00028. The facility's main sources consist of a saturator (with natural gas-fired drying ovens), two coaters (each with natural gas-fired drying ovens), and two graphic arts lines (each with natural gas-fired dryers), a solvent cleaning operation, and a strip-coating operation. In addition, the facility operates and maintains two natural gas/No. 2 fuel oil-fired boilers, two natural gas-fired emergency generator sets, four natural gas-fired make-up air units, and a parts washer to support the facility. The two graphic arts lines and one of the coaters are subject to volatile organic compound (VOC) emission rate restrictions of 12.0, 12.3, and 10 tons/yr (calculated monthly as a 12-month rolling sum), respectively. The facility is subject to individual and total hazardous air pollutant (HAP) emission rate restrictions of less than 10 and 25 tons/yr (calculated monthly as a 12-month rolling sum), respectively. Since the TVOP was renewed in 2012, another saturator and a splice glue operation were removed from the facility.

The saturator and coaters are subject to the provisions of 40 CFR Part 63, Subpart JJJJ. The graphic arts lines are subject to the provisions of 40 CFR Part 63, Subparts KK and OOOO. The engines of the emergency generator sets are subject to the provisions of 40 CFR Part 63, Subpart ZZZZ. The TVOP will continue to include all applicable monitoring, recordkeeping, reporting, and work practice requirements from these regulations.

In addition, Neenah Northeast, LLC, has conducted a review of the facility to determine whether it is subject to any of the additional Reasonably Available Control Technology requirements for major sources of nitrogen oxides (NO_x) and VOCs, as codified in 25 Pa. Code §§ 129.96—129.100 (RACT II). The potentials to emit NO_x and VOCs from the facility are less than 100 tons/yr and 50 tons/yr, respectively. As such, the facility is not considered a major NO_x emitting facility or major VOC emitting facility for RACT II purposes and, therefore, not subject to RACT II requirements.

The facility is not subject to the Compliance Assurance Monitoring (CAM) requirements of 40 CFR Part 64.

The TVOP will continue to include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

This renewal will (1) incorporate the provisions of Pennsylvania's Reasonably Achievable Control Technology (RACT Phase II) regulations for the presumptive RACT requirements as per 25 Pa. Code § 129.97 and the alternate RACT proposal as per 25 Pa. Code § 129.99; (2) amend the responsible official; (3) incorporate Plan Approvals—46-0020H, 46-0020J and 46-0020K; and (4) applicability of 40 CFR Part 63, Subpart ZZZZ for emergency generators. Superior Tube Company, Inc. is a major emitting facility for VOC but not a major facility for NO_x pollutants. Sources at the site include: two flush/blowout booths, two lubrication spray booth, one general source of fugitive emissions and three solvent cleaner tanks. The modification of this operating permit does not authorize any increase in air emissions of any regulated pollutants above previously approved levels. These RACT II revisions will be submitted to EPA for review and approval to be added to the State implementation plan. The permit includes monitoring, recordkeeping, and reporting requirements designed to address all applicable air quality requirements.

The facility's air emissions sources consist of a stone crushing plant, a batch hot mix asphalt (HMA) plant, and a reclaimed asphalt pavement (RAP) plant. The potential to emit nitrogen oxides (NO_x) and volatile organic compounds (VOCs) from the batch HMA plant/facility each exceed 25 tons per year; however, Naceville Materials JV has elected to restrict the HMA production for the batch HMA plant such that the NO_x and VOC emissions from the facility each will not exceed 24.9 tons per year.

No changes have occurred at the facility since the SOOP was last amended in 2016. The SOOP will continue to include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area

remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

DEPARTMENT OF TRANSPORTATION**Findings**

Under section 2002(b) of The Administrative Code of 1929 (71 P.S. § 512(b)) establishing the Department of Transportation (Department), the Director of the Bureau of Project Delivery, as delegated by the Secretary of Transportation, makes the following written findings:

The Department is planning the following listed projects. Environmental and Section 4(f) Documentation have been developed for the following identified projects to

evaluate the potential environmental impacts caused by these projects. The Section 4(f) documents also serve as the Section 2002 Evaluation. The approved documents are available in the CE/EA Expert System at <http://www.dotdom2.state.pa.us/ceea/ceeamain.nsf>. The environmental, economic, social and other effects of the proposed projects have been considered. Based upon studies, there is no feasible and prudent alternative to the use of the Section 2002 resources for the proposed identified projects, and all reasonable steps have been taken to minimize the effects.

• **SR 0000, Section SSB—Philadelphia City, Philadelphia County.**

Project Description: The project proposes to connect the east bank of the Grays Ferry Crescent Trail to the Bartram's Mile Trail located on the west bank of the Schuylkill River at the location of the Schuylkill River Swing Bridge. The project will replace the existing steel truss and will reuse the existing piers, abutments and side spans.

Environmental Documents: CE 2 Evaluation approved on June 9, 2017, and a Nationwide/Programmatic Section 4(f) Evaluation for Projects that Necessitate the Use of Historic Bridges approved on June 8, 2017.

Proposed Use of Section 4(f)/2002 Resource: The Schuylkill River Swing Bridge was determined eligible for listing on the National Register of Historic Places (NRHP). The removal of the Schuylkill River Swing Bridge will have an adverse effect on the NRHP-eligible Schuylkill River Swing Bridge. As the Schuylkill River Swing Bridge is a contributing element to the PW&B Railroad Historic District, the project will therefore also have an adverse effect to the historic district. The Schuylkill River Swing Bridge is discontinuous from the historic district and no other impacts to the historic district will occur.

• **SR 0006, Section 530—Kane Borough, McKean County.**

Project Description: The proposed work will consist of pavement reconstruction, drainage improvements, bituminous overlay, traffic signal upgrades, and possible water, sewer and gas line relocations. Minor curb and sidewalk work may be required around drainage/inlet replacement.

Environmental Documents: CE BRPA Evaluation approved on May 24, 2017, and a Determination of Section 4(f) De Minimis Use Section 2002 No Adverse Use Historic Properties approved on May 24, 2017.

Proposed Use of Section 4(f)/2002 Resource: The Kane Historic District was determined to be eligible for listing on the NRHP. The proposed project will have an effect on the eligible historic district, because it will have a direct impact on property associated with a contributing resource, but it is not considered an adverse effect because it is a very minimal property take of approximately 0.011 acre of the 45.6-acre historic district.

• **SR 0006, Section 620—Coudersport Borough, Potter County.**

Project Description: The proposed work will consist of full depth reconstruction in specific areas, base replacements, drainage improvements, bituminous overlay, bridge superstructure replacement, traffic signal upgrades, and possible water, sewer and gas line relocations. Minor curb and sidewalk work may be required around drainage/inlet replacement.

Environmental Documents: CE BRPA Reevaluation approved on June 1, 2017, and a Determination of Section 4(f) De Minimis Use Section 2002 No Adverse Use Historic Properties approved on August 18, 2015.

Proposed Use of Section 4(f)/2002 Resource: The Coudersport Historic District is listed on the NRHP. Approximately of 0.023-acre of right-of-way (ROW) will be required from Mary C. Freysinger property, a contributing property to the Coudersport Historic District.

• **SR 0035, Section A11—Fayette Township, Juniata County.**

Project Description: The Department, through the P3 Rapid Bridge Replacement Project (RBRP), proposes to replace the SR 0035, Section A11 (Main Street) bridge over Little Lost Creek. The project also includes updating guiderail, improving drainage, and milling and overlaying the approaches. Minor profile adjustments along the roadway approaches are also anticipated.

CWSRF Projects Being Considered

Applicant: Doylestown Township
County: Bucks
Applicant Address: 425 Wells Road, Doylestown, PA 18901

Project Description: The project will provide public sewers serving 252 existing properties in Pebble Ridge/Woodridge and vicinity.

Problem Description: Throughout the project area there are failed onlot septic systems. Through laboratory analysis, it was determined that the stormwater is contaminated with human fecal coliform and the failed onlot systems are believed to be the source of the pollution.

Applicant: Mercer Township
County: Butler
Applicant Address: P.O. Box 380, 152 Boomerang Road, Harrisville, PA 16038

Project Description: The proposed project includes the construction of the following: to serve the properties along SR 58 west of Harrisville, low pressure sewer mains will be installed along with 29 individual grinder pumps; to serve the 15 properties along SR 58 east of Harrisville, a combination of gravity and low pressure sewer mains will be installed along with 7 individual grinder pumps; for the Village of Forestville, approximately 1,555 linear feet

of 2-inch, low-pressure sewer main line and 18 individual grinder pumps will be installed along with approximately 8,233 linear feet of 8-inch gravity sewer main to serve 77 properties. The wastewater from the SR 58 extensions will be treated at the Grove City Borough Sewage Treatment Plant. The Village of Forestville will be served by a new recirculating sand filter treatment plant.

Problem Description: This project consists of serving three different service areas. They include properties along SR 58 west of Harrisville, properties along SR 58 east of Harrisville and properties located in the Village of Forestville. A sanitary survey of these project areas revealed a 62% confirmed onlot malfunction rate. These systems leach untreated and partially treated wastewater onto the ground surface and into the waters of the Commonwealth. This project will eliminate the malfunctioning sewage systems thereby improving the areas water quality.

Applicant: Keystone Protein Company
County: Lebanon
Applicant Address: 154 West Main Street, Fredericksburg, PA 17026

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security or Insufficient Financial Security Amount

Public Meeting held
November 8, 2017

Commissioners Present: Gladys M. Brown, Chairperson;
Andrew G. Place, Vice Chairperson; David W. Sweet;
John F. Coleman, Jr.

*Electric Generation Supplier License Cancellations of
Companies with an Expired Financial Security or
Insufficient Financial Security Amount; M-2017-2584781*

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a

bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA 17120 prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferable in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of October 30, 2017, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount directed by the Commission, to replace its expired bond as noted in the table below.

Supplier Table—List of Electric Generation Suppliers

<i>Docket Number</i>	<i>Company Name</i>	<i>Expired Financial Security Date</i>	<i>Commission Approved Amount</i>
A-2016-2576938	NAUP BROKERAGE, LLC	October 17, 2017	Yes
A-2015-2512351	ENERGY SPECTRUM, INC.	October 20, 2017	Yes
A-2015-2516890*	ASPIRITY ENERGY MIDSTATES, LLC	October 20, 2017	Yes

*Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 90-day Security Renewal Notice Letter to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security, must be filed within 30 days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for each EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier Licenses of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, Department of Revenue—Bureau of Corporation Taxes, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and

also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment or the filing of an approved security within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary.

4. Upon entry of the Final Order described in Ordering Paragraph No. 3 above, each company listed in the Supplier Table will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

5. Upon entry of the Final Order described in Ordering Paragraph No. 3, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.
