READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Amendment of Section 4 of the Internal Operating Procedures of the Supreme Court; No. 505 Judicial Administration Doc.

Order

Per Curiam

And Now, this 4th day of October, 2018, it is Ordered that Section 4 of the Internal Operating Procedures of the Supreme Court is amended as set forth in the following form. The amendments shall be effective immediately.

TITLE 210. APPELLATE PROCEDURE

PART II. INTERNAL OPERATING PROCEDURES

CHAPTER 63. INTERNAL OPERATING PROCEDURES OF THE SUPREME COURT

§ 63.4. Opinions.

A. Circulation Schedule; Voting; Hold; Reassignment.

1. Preparation of Opinions.

* * * * *

b. *Concurrences and Dissents.* Justices who are aligned as to the result should collaborate as much as possible to achieve a unified position in responsive opinions. Concurrences and dissents shall be circulated to all members of the Court within forty (40) days of the date [**on which votes**] **of the first scheduled vote** on the proposed majority [**opinions were due**] **opinion** in single-issue cases and serial capital PCRA appeals, within sixty (60) days in multiple-issue cases, within seventy-five (75) days in capital direct appeals, and within ninety (90) days in first capital PCRA cases. Matters may also be held for additional review by a Justice during these time periods. In Children’s Fast Track appeals, concurrences and dissents shall be circulated to all members of the Court within twenty (20) days of the date [**on which votes**] **of the first scheduled vote** on the proposed majority opinion [**were due**].

Due dates for responsive opinions are calculated from the date of the first scheduled vote on the original proposed majority opinion, regardless of whether the case is moved to a subsequent vote list by the circulation of a responsive opinion. Generally, the first scheduled vote date will remain the threshold date in the calculation, unless the proposed majority opinion is withdrawn or the substantive analysis and/or resolution is substantially altered via a revised opinion. In such instances, the time period is calculated from the date of the first scheduled vote on the revised majority opinion. A majority author’s mere defense of an already-existing analysis through revisions in the nature of rejoinder does not alter the time period for response.

STATEMENTS OF POLICY

Title 55—HUMAN SERVICES

DEPARTMENT OF HUMAN SERVICES

[55 PA. CODE CHS. 2600 AND 2800]

Human Services Licensing: Definition of Personal Care Home and Assisted Living Residence

This statement of policy interprets the definitions of “personal care homes” and “assisted living residence” in section 1001 of the Human Services Code (62 P.S. § 1001) and 55 Pa. Code §§ 2600.4 (relating to definitions) and 2800.4 (relating to definitions).

Purpose

The purpose of this statement of policy is to clarify when a personal care home or assisted living residence is subject to inspection by the Department of Human Services (Department) under section 1016 of the Human Services Code (62 P.S. § 1016) and required to obtain a license from the Department under section 1002 of the Human Services Code (62 P.S. § 1002).

Background

The Human Services Code (code) (62 P.S. §§ 101—1503) provides that “[n]o person shall maintain, operate or conduct any *facility*, as defined herein, without having a license therefor[] issued by the [D]epartment.” 62 P.S. § 1002 (emphasis added). The code defines a “facility” to include, among other things, a “personal care home” and an “assisted living residence.” 62 P.S. § 1001. The Department has the right to “enter, visit and inspect any facility licensed or requiring a license.” 62 P.S. § 1016 (emphasis added).

As defined in the code and Departmental regulations, a “personal care home” means “any premises in which food, shelter and personal assistance or supervision are provided for a period exceeding twenty-four hours for four or more adults who are not relatives of the operator, who do not require the services in or of a licensed long-term care facility but who do require assistance or supervision in such matters as dressing, bathing, diet, financial management, evacuation of a residence in the event of an emergency or medication prescribed for self administration.” 62 P.S. § 1001; see also 55 Pa. Code § 2600.4

As defined in the code, an “assisted living residence” means “any premises in which food, shelter, personal care, assistance or supervision and supplemental health care services are provided for a period exceeding twenty-four hours for four or more adults who are not relatives of the operator and who require assistance or supervision in such matters as dressing, bathing, diet, financial management, evacuation from the residence in the event of an emergency or medication prescribed for self-administration.” 62 P.S. § 1001; see also 55 Pa. Code § 2800.4.

The General Assembly has authorized the Department to license personal care homes and assisted living residences. 62 P.S. §§ 211 and 1002. The General Assembly has also authorized the Department to establish standards and pay for personal care and assisted living services in a home-based or community-based (HCB) setting rather than in those institutional settings (referred to collectively as “HCB services”). 62 P.S. §§ 201(2), 403(b), 403.1 and 3052.

HCB services enable individuals with disabilities and seniors to live productive lives in the community and to

age in place. In addition to the General Assembly’s intent to promote these services, see 62 P.S. § 3052, Federal law requires the Department to administer its programs in the most integrated setting that is appropriate to the needs of individuals with a disability and to avoid unnecessary institutionalization. 28 CFR 35.130(d) (relating to general prohibitions against discrimination); see also *Olmstead v. L.C.*, 527 U.S. 581, 597 (1999). The homes in which providers of HCB services render the services are sometimes multiple-dwelling arrangements, such as apartment complexes or independent living units on the campuses of Continuing Care Retirement Communities (CCRC).

Discussion

Because the personal assistance services provided as HCB services to four or more adults in apartment complexes or in CCRC independent living units are similar to the services provided in personal care homes or assisted living residences, the question has arisen whether those locations constitute a “facility” that must be licensed either as a personal care home or as an assisted living residence. Clarification of the interplay between HCB services and the licensing of personal care homes and assisted living residences will assist providers and other stakeholders in understanding the Department’s role in regulating services in the various settings. The clarification is intended to underscore the Commonwealth’s dual objectives to enable individuals to live in a home-like setting and to rebalance the services between institutional and community-based locations.

In clarifying which facilities must be licensed, the Department seeks to balance two interests: to promote HCB services to enable individuals to live successful lives in the community and to age in place and avoid unnecessary institutionalization; and to prevent contrived arrangements designed to circumvent licensing requirements. The Department will not inspect a location at which HCB services are rendered to determine whether it is a facility that must be licensed, unless the Department receives a complaint or allegation providing evidence that suggests a location is operating as an unlicensed personal care home or an unlicensed assisted living residence.

Effective Date

This statement of policy is effective upon publication in the *Pennsylvania Bulletin*.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of November 2018

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of November 2018, is 5 1/2%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government

securities is 3.07 to which was added 2.50 percentage points for a total of 5.57 that by law is rounded off to the nearest quarter at 5 1/2%.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person

submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

10-027H: Calumet Penreco, LLC (138 Petrolia St., Karns City, PA 16041) for the installation of a refrigerated condenser at their facility in Karns City Borough, **Butler County**. This is a Title V facility.

Notice is hereby given pursuant to 25 Pa. Code §§ 127.44(b) and 127.424(b), that the Pennsylvania Department of Environmental Protection (DEP) intends to issue Plan Approval 10-027H to Calumet Penreco, LLC for the installation of a refrigerated condenser at the company's facility located at 138 Petrolia St., Karns City Borough, Butler County. The facility currently has a Title V permit No. 10-00027. The Plan Approval will subsequently be incorporated into the Title V Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

Plan Approval No. 10-027H is for the installation of a refrigerated condenser system as VOC control measures for the existing Hill Plant Alcohol Storage & Handling

operation (Source ID 105). The subject controls are being installed pursuant to an Alternative RACT II Compliance Proposal, as required by 25 Pa. Code § 129.99(c). Based on the information provided by the applicant and DEP's own analysis, emissions from the subject source(s) will not exceed 6.2 tons of volatile organic compounds (VOC) per year, which represents a decrease from previously permitted levels.

The permittee will be required to conduct initial stack testing for VOC emissions, and to monitor and maintain records of process and control device operating parameters. The Plan Approval will contain additional monitoring, recordkeeping and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

Additionally, the Plan Approval will contain new work practice requirements for existing Source ID's 101 (Retort Process) and 106 (Fugitive VOC Emissions), which are being established pursuant to the Alternative RACT II Compliance Proposal.

Copies of the application, DEP's analysis, and other documents used in the evaluation are available for public inspection between the hours of 8 a.m. and 4 p.m. weekdays at the address shown below. To make an appointment, contact Records Management at 814-332-6340.

Anyone wishing to provide DEP with additional information they believe should be considered may submit the information to the address shown below. Comments must be received by the Department within 30 days of the last day of publication. Written comments should include the name, address, and telephone number of the person submitting comments, identification of the proposed Plan Approval; No. 10-027H and concise statement regarding the relevancy of the information or any objections to issuance of the Plan Approval.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted on the comments received during the public comment period. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in a local newspaper of general circulation or the *Pennsylvania Bulletin* or by telephone, where the Department determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Eric Gustafson, Regional Air Quality Manager, Department of Environmental Protection, Northwest Regional Office, 230 Chestnut St., Meadville, PA 16335, 814-332-6940.

46-0296A: Woot Services Inc (325 9th Ave. N., Seattle, WA 98109) for a proposed expansion that will include the installation of twenty-four (24) additional digital printers (total: 72 digital printers), four (4) UV printers, ten (10) sublimation printers, twenty (20) sublimation heat printers and two (2) additional dryers at an existing facility located at 2445 Boulevard of the Generals, in Norristown Borough, **Montgomery County**.

As a result of potential emissions of VOCs, the facility is not a Title V facility. The operation of the existing presses will not exceed the following site-wide pollutant emission limits: 24.9 tpy volatile organic compounds (VOCs); 10 tpy single Hazardous Air Pollutants (single

HAP) and 25 tpy combined HAPs. The Plan Approval will contain recordkeeping requirements and operating restrictions designed to keep the facility operating within all applicable air quality requirements

Public Notification to Solicit Comments on Slate Belt Heat Recovery Center, LLC

Plan Approval Application No: 48-00111A

Notice is hereby given under 25 Pa. Code §§ 127.44(b)(5) and 127.424, that the Department of Environmental Protection (Department) is soliciting comments on the proposed Air Quality Plan Approval 48-00111A for Slate Belt Heat Recovery Center, LLC (the Permittee), 435 Williams Court, Baltimore, MD 21220-2888 to construct and operate a biosolids processing facility which will be sited on a parcel of land owned by Grand Central Sanitary Landfill (GCSL), in Plainfield Township, Northampton County, as described in the Permittee’s May 18, 2018 Plan Approval Application and any other subsequent supplemental submissions.

Plan Approval No. 48-00111A is for the construction and operation of a biosolids processing facility consisting of following equipment: Installation of a thermal oil heater, thermal drying equipment to facilitate processing biosolids into a Class A dried biosolids product, product conveyance and storage equipment, a two-stage odor control system and a baghouse.

The proposed thermal oil heater will be designed to utilize natural gas or excess/available landfill gas as a fuel. The total maximum heat demand of the supplemental thermal oil heater is currently estimated to be 50.0 MMBtu/hr to support the dryer system without the waste heat.

The thermal dryer process will consist of two (2) fully enclosed indirectly heated belt dryers in parallel, each with a biosolids input capacity of approximately 200 wet tons per day, for a facility total throughput of 400 wet tons containing an average of approximately 21% solids per day. Sludge will be pressed to a granular shape by a roller or swivel press and dropped down onto the top belt

of the drier in a uniform pile. Biosolids will be conveyed from a receiving/storage tank into an enclosed belt dryer system that circulates warm air to evaporate moisture from the biosolids.

The belt dryer system will be a potential odor source primarily of ammonia associated with the off-gassing from the heat treatment during the drying process. The belt dryers are fully enclosed and operate in a negative air pressure manner, such that all off-gassing during the thermal treatment of the biosolids is contained within the dryer system itself. The bulk of the airstream is recycled in the dryer system after moisture, containing ammonia, is condensed and transported to storage. There will be a small saturated airstream removed from each of the belt dryers, which will include the evaporated moisture and ammonia. This airstream is routed to a condenser that serves to knock out the majority of the moisture from the process, with the remaining air stream routed to the odor control system, which is designed to reduce ammonia.

The facility will include enclosed receiving units, covered aboveground process wastewater storage tank, covered product conveyance system, and covered product storage tanks. The biosolids receiving/storage process and waste water storage tank will be a potential odor source primarily of hydrogen sulfide (H₂S) and ammonia (NH₃) associated with biological activity during material storage. Potential odors from the receiving/storage process will be routed to the odor control system.

The product storage silo will have a dust collection system maintaining negative pressure on the headspace of the silo, which will be routed to the odor control system.

The wastewater storage tank has the potential to be a minor source of odor related to the ammonia (NH₃). Flow from the covered wastewater storage tank will routed to the odor control system.

The dust collector will remove dust from the enclosed product storage and conveyance operations. This control option is custom designed for this proposed dryer process and is expected to have a dust removal efficiency of at least 90%.

The company has proposed packed bed wet scrubbers to control odors associated with NH₃ and H₂S from the sludge drying operations. The system will be designed to remove 99 % of H₂S & NH₃.

Based on 8,760 hours of operation, as worst-case scenario the following potential emissions are expected from the facility.

Source	Pollutant lb/hr					Pollutant lb/hr						Total HAPS
	PM	PM ₁₀	PM _{2.5}	NO _x	SO _x	CO	VOC	H ₂ S	NH ₃	CH ₂ O	CO _{2e}	
Drying Operations	0.39	0.39	0.39	—	—	0.39	3.86	0.01	0.04	—	—	—
Thermal Oil Heater	0.82	0.82	0.82	3.67	7.14	2.67	0.55	—	—	0.02	8,596	0.78
Product Storage and Conveyance	1.16	1.16	1.16	—	—	—	—	—	—	—	—	—

The facility will be subject to 25 Pa. Code § 127.12(a)(5) Best Available Technology (BAT) requirements. The visible emission will be equal to or less than 10 % at any time. The company shall be subject to and comply with 25 Pa. Code § 123.31 for malodorous emissions.

The Plan Approval and subsequent Operating Permit will include testing, monitoring, record keeping and re-

porting requirements designed to keep the sources operating within all applicable air quality requirements and regulations.

Persons wishing to provide the Department with additional information, which they believe should be considered prior to the issuance of the Plan Approval, may submit the information to the address shown below. The

Department will consider any written comments received within 30 days of the publication of this notice. Each written comment must contain the following: name, address and telephone number of the person submitting the comments; identification of the proposed Plan Approval No. 48-00111A and a concise statement regarding the relevancy of the information or any objections to the issuance of the Plan Approval.

Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted Under the Pennsylvania Sewage Facilities Act, Act of January 24, 1966, P.L. 1535, as amended, 35 P.S. § 750.5.

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, Telephone: 717-705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Colerain Township	1803 Kirkwood Pike Kirkwood, PA 17536	Lancaster

Plan Description: The Component 1 Sewage Facilities Planning Module submitted for the Stephen Stoltzfus Subdivision, DEP Code No. A3-34918-307-1, APS Id 976431, is disapproved. The purpose of this plan is to create one new single family residential building lot to use an individual onlot sewage disposal system. The subdivision is located on the west side of Bartville Road, at the junction with Salem Road. The submission was denied because the "Site Investigation and Percolation Test Report for Onlot Disposal of Sewage" sheets state that percolation holes were 16—18 inches in diameter and Chapter 73, Section 73.15(3) requires that percolation holes have a diameter of 6 to 10 inches. Therefore, this percolation testing is not consistent with the regulatory requirements and does not constitute general site suitability under Section 71.62 as required by Section 71.55(a)(2).

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Derry Township	600 Clearwater Road Hershey, PA 17033	Dauphin

Plan Description: The sewage planning exemption request submitted for the Hersheypark 2020 Attraction project, DEP Code No. A3-22912-503-3E, APS Id 976748, is disapproved. This plan proposes renovations and improvements to existing facilities as well as a new attraction. As a result, sewage flows are expected to increase by 3,059 gallons per day tributary to Derry Township Municipal Authority's sewers and the Clearwater wastewater treatment plant. The project is located near Chocolate World Way. The submission does not qualify as an exemption from the requirement to revise the Official Plan because the proposed changes to the existing public sewer lines, including the replacement of an 8-inch line

with a 15-inch line for the sake of increasing capacity, will require a new or modified permit from DEP under the Pennsylvania Clean Streams Law (CSL) as per Chapter 71, Section 71.51(b)(5).

Hazardous Sites Clean-up Under the Act of October 18, 1988

Notice of Proposed Settlement Under HSCA/CERCLA

AIW Frank/Mid-County

West Whiteland Township, Chester County

The Department of Environmental Protection ("Department"), under the authority of the Hazardous Sites Cleanup Act ("HSCA"), 35 P.S. §§ 6020.101 et seq., and the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C.A. § 9601 et seq., has entered into a proposed Consent Order and Agreement with the 891 E. Lincoln Associates L.P. related to the AIW Frank/Mid-County Mustang Superfund Site ("Site") in West Whiteland Township, Chester County, Pennsylvania.

The AIW Frank/Mid-County Mustang National Priority List ("NPL") Site consists of 16 acres of multiple properties which had been used at various times for manufacturing styrofoam products, refrigerators, freezers, and warming cabinets for institutional and food service industries. Various wastes and contaminated soils were excavated from the Site as part of response actions conducted by the USEPA and the Department. In addition, the Site contains groundwater contamination for which the USEPA and the Department installed a public water line and groundwater monitoring wells, constructed an on-site groundwater pump and treat system, and will perform in-situ chemical and biological remediation at the Site.

The Department is proposing to enter into an Amendment to a Consent Order and Agreement, which will modify a Consent Order and Agreement, also known as a Prospective Purchaser Agreement ("PPA"), entered into between the E. Kahn Development Corporation and the Department on October 14, 2011. In 2012, 891 E. Lincoln Associates L.P. became the owner of 12 of the 16 acres of the Site. The Purchaser has represented to the Department that it has neither caused nor contributed to the releases of hazardous substances at the Site. Under the terms of the proposed PPA, 891 E. Lincoln Associates L.P. agrees not to exacerbate any of the conditions at the property, to provide access and right of entry to the Department and the USEPA for continued response actions, and to make a monetary contribution to the Department's response costs for the Site.

This notice is provided pursuant to Section 1113 of HSCA, 35 P.S. § 6020.1113. The proposed Amendment to a Consent Order and Agreement may be examined from 8 AM to 4 PM at the Department's offices at 2 East Main Street, Norristown, PA by contacting either Joshua Crooks at (484) 250-5784 or Adam Bram, Esquire at (484) 250-5930. Mr. Crooks and Mr. Bram may also be contacted electronically at jcrooks@pa.gov and abram@pa.gov, respectively. A public comment period on the proposed Amendment to a Consent Order and Agreement will extend for a period of 60 days from the date of this notice. Interested persons may submit written comments regarding these agreements to the Department by submitting them to Mr. Crooks in the Environmental Cleanup and Brownfields Program at the above address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and

cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Revision to the Registered ERCs in the Commonwealth's ERC Registry

The Department of Environmental Protection (Department) has approved the following Emission reduction credits (ERC) and entered into ERC registry system. ERCs are surplus, permanent, quantified and Federally enforceable emission reductions used to offset emission increases of criteria pollutants. The Department maintains an ERC registry in accordance with the requirements of 25 Pa. Code § 127.209. Prior to registration of the credits, ERC Registry Applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements.

The certified ERCs shown as follows, in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created from the curtailment or shutdown of a source or facility expires for use as offsets 10 years after the emission reduction occurs. ERCs generated by the over control of emissions by an existing facility do not expire for use as offsets. However, credits in the registry that are not used in a plan approval will be discounted if new air quality requirements are adopted by the Department or United States Environmental Protection Agency.

For additional information concerning this listing of certified ERCs, contact the Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P.O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325. Below are the listings of changes compared to the previous quarter.

Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen, Volatile Organic Compounds, Notice of Public Hearing, and Notice of Intent to Issue Revised Air Quality Operating Permit (10-00027).

Calumet Penreco, LLC—Karns City Refining (138 Petrolia St., Karns City, PA 16041) located in Karns City Borough, **Butler County**, for approval of a Reasonably Available Control Technology (RACT II) plan. The facility has potential emissions of volatile organic compounds (VOC) above major source thresholds and is subject to RACT II requirements. Plan approval No 10-027H is for the proposed installation of a refrigerated condenser system for control of VOC emissions from the existing Hill Plant Alcohol Storage & Handling operation (Source ID 105), and additional work practice standards for the Retort Process (Source ID 101) and Equipment Fugitive Leaks (Source ID 106) for RACT II compliance.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Department has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the facility owned and operated by Calumet Penreco, LLC.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997 National Ambient Air Quality Standard (NAAQS) and the 2008 NAAQS for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into the facility operating permit. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's SIP and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this facility that will be submitted to the EPA as a SIP revision:

Notice of Proposed Revision to the State Implementation Plan for Volatile Organic Compounds, Notice of Public Hearing, and Notice of Intent to Issue Revised Air Quality Operating Permit # 20-00194

In accordance with 25 Pa. Code §§ 129.96—129.100, the Department of Environmental Protection (Department) has made a preliminary determination to approve an alternate Reasonably Available Control Technology (RACT II) plan and seeks approval of an amendment to the State Implementation Plan (SIP) for Lord Corporation for the facility in Saegertown borough, Crawford County. And in accordance with 25 Pa. Code § 127.521, the Department of Environmental Protection intends to modify the Title V Operating Permit for the facility. The facility is located at 601 South Street, Saegertown, PA 16433. The facility's representative to contact concerning this application is Sharon Levkus, Environmental Health and Safety Manager, at (814) 763-2345, extension 426.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997 National Ambient Air Quality Standard (NAAQS) and the 2008 NAAQS for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into the revised operating permit (20-00194) for the facility. The relevant RACT II requirements will be submitted to the United States Environmental Protection Agency (EPA) as a revision to Pennsylvania's SIP and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal; this includes the provisions of the Department's presumptive RACT II requirements in accordance with 25 Pa. Code § 129.97, as they apply to existing sources at this facility.

The facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments due to its potential to emit VOCs and HAPs. The facility is therefore subject to the Title V Operating Permit requirements adopted in 25 Pa. Code Chapter 127, Subchapter G.

Adhesives and coatings are the primary products manufactured at this facility. The manufacturing consists of several operations including pre-assembly, premix and reactions, pigment grinding or milling, product finishing, product filling and equipment cleaning. The major emission source types at this facility are storage tanks, reactors, blend/mix tanks, grinders/mills, filters, scales, natural gas combustion sources and other miscellaneous sources. The facility is subject to the following NSPS of 40 CFR Part 60: Subpart JJJJ for Stationary SI ICE. The facility is also subject to the following NESHAPs of 40 CFR Part 63: Subpart G for Synthetic Organic Chemical Manufacturing Industry for Process Vents, Storage Vessels, Transfer Operations, and Wastewater, Subpart R for Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations), Subpart SS for Closed Vent Systems, Subpart TT and UU for Equipment Leaks, Control Devices, Recovery Devices and Routing to a Fuel Gas System or Process, Subpart GGG for Pharmaceuticals Production, Subpart FFFF for Miscellaneous Organic Chemical Manufacturing, Subpart HHHH for Miscellaneous Coating Manufacturing, Subpart ZZZZ for Stationary Reciprocating Internal Combustion Engines, and Subpart DDDDD for Major Source ICI Boilers and Process Heaters.

The following is a summary of the proposed amendments to the RACT II determination for this facility that will be submitted to the EPA as a SIP revision:

Lottery retailers who sell a winning ticket that entitles the ticket holder to a prize, either payable in a single installment or having a guaranteed minimum payout, of at least \$500,001 and not exceeding \$1,000,000 shall be paid a bonus of \$5,000. Lottery retailers who sell a winning ticket that entitles the ticket holder to a prize, either payable in a single installment or having a guaranteed minimum payout, of at least \$1,000,001 and not exceeding \$10,000,000 shall be paid a bonus of \$10,000. A Lottery retailer is entitled only to the largest bonus for which he qualifies on a winning ticket. A bonus will be initiated for payment after the instant ticket is claimed and validated. A bonus will not be awarded to a Lottery retailer that sells a non-winning Pennsylvania Lottery instant ticket used to enter a Pennsylvania Lottery second-chance drawing or promotion that is subsequently selected to win a prize.

13. *Unclaimed Prize Money:* For a period of 1 year from the announced close of Sleigh Bell\$, prize money from winning Sleigh Bell\$ instant lottery game tickets will be retained by the Secretary for payment to the persons entitled thereto. If no claim is made within 1 year of the announced close of the Sleigh Bell\$ instant lottery game, the right of a ticket holder to claim the prize represented by the ticket, if any, will expire and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

14. *Governing Law:* In purchasing a ticket, the customer agrees to comply with and abide by the State Lottery Law (72 P.S. §§ 3761-101—3761-314), 61 Pa. Code Part V (relating to State Lotteries) and the provisions contained in this notice.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Department of Human Services Regulation # 14-546 (IRRC # 3209)

Intensive Behavioral Health Services

October 4, 2018

We submit for your consideration the following comments on the proposed rulemaking published in the August 4, 2018 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Department of Human Services (Department) to respond to all comments received from us or any other source.

- 1. Determining whether the regulation is in the public interest; Economic or fiscal impacts; Direct and indirect costs to the Commonwealth, to its political subdivisions and to the private sector; Adverse effects on prices of goods and services, productivity or competition; Protection of the public health, safety and welfare; Need for the regulation; Reasonableness of requirements, implementation procedures and timetables for compliance.**

According to the Department, the purpose of this rulemaking is to codify minimum licensing standards and program requirements for participation in the Medical Assistance (MA) Program and MA payment for conditions for agencies that deliver intensive behavioral health services (IBHS) to children, youth and young adults with mental, emotional and behavioral health needs. The rulemaking will replace the requirements for behavioral health rehabilitation services (BHRS) set forth in bulletins issued by the Department. Sections of the rule-

making that address applied behavioral analysis (ABA) services are required by a settlement reached in *Sonny O. v. Dallas*, No. 1:14-CV-1110 (M.D. Pa 2016) (*Sonny O.*).

In developing this regulatory package, the Department convened a workgroup consisting of approximately 75 individuals representing an array of stakeholders to provide input. The workgroup held a total of 12 meetings and received additional opportunities to submit written comments. We acknowledge the amount of time and effort that the Department has put into this regulatory package thus far.

Comments on the proposed rulemaking have been submitted by two legislators, parents, providers of BHRS and IBHS, associations, attorneys, licensed mental health professionals and counties. As evidenced by the number and scope of comments received on this proposal, numerous concerns remain. Although the commentators have raised many concerns from various perspectives which will be discussed below, they agree with the intended goal of the rulemaking—improved access and care for children, youth and young adults with mental, emotional and behavioral health needs. To that end, we note that Section 2 of the RRA, pertaining to legislative intent, provides the following direction: “To the greatest extent possible, this act is intended to encourage the resolution of objections to a regulation and the reaching of a consensus among the commission, the standing committees, interested parties and the agency.” 71 P.S. § 745.2(a). In order to resolve concerns raised by commentators and achieve the goals of this proposal, we encourage the Department to continue to meet with the regulated community on this rulemaking to reach a consensus.

The following comments address general concerns related to the rulemaking as a whole and also recurring issues throughout the rulemaking. Beginning with Comment # 2, we address more specific issues pertaining to various sections of the regulation.

Need for the regulation; Reasonableness of requirements

The Preamble and Regulatory Analysis Form (RAF) explain that this rulemaking will replace BHRS bulletins used by the Department. It is unclear from the description of the rulemaking provided in the Preamble if any of the language from those bulletins was carried over to the rulemaking. In addition, while the Preamble provides a description of the regulatory language in Annex A, it does not explain the need for it. In order for this Commission to determine the need for the regulation and the reasonableness of the requirements, we ask the Department to provide an explanation of the rationale for each section and to explain if that language previously existed in bulletins issued by the Department. Also, we ask the Department to identify language in the ABA sections of the rulemaking that satisfy requirements of the settlement agreement reached in *Sonny O.*

Protection of the public health, safety and welfare

Senator Mike Regan and Representative Greg Rothman submitted a joint comment letter on the proposed rulemaking. They are concerned the regulation will be harmful to those in need of ABA therapy because it will reduce access to qualified providers while lowering standards. Specifically, they state, "It is imperative that individuals with disabilities have highly trained, capable persons treating them. Lowering the standard supervisor requirement to only require a bachelor's degree, four classes in ABA, six months of experience, and two hours a month of supervision by a [board-certified behavior analyst (BCBA)], will have a severe negative impact on those that it is aimed to help." Many parents that submitted comments also identified these issues as significant areas of concern.

We agree that children, youth and young adults in need of mental, emotional and behavioral health services deserve to be treated by highly trained and capable professionals. We ask the Department to explain how the supervisory standards included in the final rulemaking ensure the protection of children, youth and young adults receiving services.

Direct and indirect costs to the Commonwealth, to its political subdivisions and to the private sector

We have two concerns with the rulemaking pertaining to direct and indirect costs. The first relates to costs to the regulated community. Section 19 of the RAF indicates that there will be increased costs associated with the rulemaking for the regulated community, but the Department believes many of those costs will be offset by corresponding savings. The regulated community, particularly behavioral health agencies, disagree with this analysis. They believe there are many new mandates, such as additional training and certifications in Sections 5240.71 (relating to staff qualifications) and 5240.73 (relating to staff training requirements) that will not be offset by corresponding savings. We ask the Department to work with the regulated community to gain a better understanding of the fiscal impact the regulation will have on these agencies and to provide a more detailed fiscal analysis of those findings in the RAF submitted with the final regulatory package.

Our second concern relates to the potential impact the rulemaking could have on state government. The RAF

submitted with the rulemaking indicates that there will be no costs to state government. Some commentators believe costs to state government will increase because of new mandates such as those found in Section 5240.61 (relating to quality improvement requirements). Commentators assert that providers will seek additional reimbursement from the state because of the added duties and requirements imposed by the regulation. We ask the Department to explain how the final regulation will impact reimbursement rates to be paid by state government and to quantify those costs.

Adverse effects on prices of goods and services, productivity or competition

We have concerns that an unintended consequence of this rulemaking could be less access to behavioral health services for children, youth and young adults. Both parents and providers have expressed concern that the rulemaking, as written, will make it more difficult to find and retain qualified staff. While this is clearly not the intent of the Department, there is confusion in the regulated community about the effects that the rulemaking will have. Another unintended adverse effect of the rulemaking, as expressed by commentators, is that the mandates of the regulation will force providers to use fewer independent contractors and hire more employees. As an example, a commentator stated, "If the proposed regulations are approved, many agencies may be forced to convert from the independent contractor structure currently utilized to employee status, resulting in increased costs and administrative responsibilities that may jeopardize the financial stability of IBHS programs." We ask the Department to explain how the final rulemaking will ensure the availability of qualified staff rather than cause the adverse effects asserted by the regulated community.

Reasonableness of requirements, implementation procedures and timetables for compliance

In the Preamble, the Department explains that IBHS agencies that hold an outpatient psychiatric clinic, a psychiatric partial hospitalization program or family based mental health license and currently provide IBHS will be required to comply with the final-form rulemaking as of its effective date, and will be required to obtain a license under Chapter 5240 upon expiration of their current license. The Department states that IBHS agencies that are approved to provide ABA services as of the effective date of adoption of this rulemaking will be required to comply with the final-form regulation as of its effective date, and will be required to obtain a license under Chapter 5240 within 180 days of the effective date of Chapter 5240. We have three questions relating to the effective date. First, why are the timeframes to obtain a license under Chapter 5240 different for IBHS agencies depending on whether ABA services are provided? Second, assuming this regulatory package is ultimately published as a final rulemaking in the *Pennsylvania Bulletin*, how long after that will the rulemaking become effective? Third, what training plans does the Department have to ensure IBHS agencies are equipped to implement the new regulations? Given the number of new requirements, as well as the additional certifications and training that the rulemaking requires, we urge the Department to consult with the regulated community to determine how much time is needed to make the transition from the current regulatory environment to the new one. The Department should also address the above questions in the Preamble or separate comment and response document that accompanies the final-form regulation.

**CHAPTER 1155. INTENSIVE BEHAVIORAL
HEALTH SERVICES**

GENERAL PROVISIONS

2. Section 1155.2. Definitions.—Clarity and lack of ambiguity.

EBT—Evidence-based therapy

We have two concerns with this definition. First, under Subparagraph (i), a commentator has stated that the National Registry of Evidence-based Programs and Practices has been phased out and replaced with the Evidence-Based Practices Resource Center. We ask the Department to ensure this definition is citing the appropriate practice. Second, under Subparagraph (v), the Department should clarify how a therapy would become designated as a “model intervention.” The process and criteria the Department uses should be included in the body of the regulation. This language also appears in Section 1155.34 (relating to payment conditions for EBT) and Section 5240.2 (relating to definitions).

SCOPE OF BENEFITS

3. Section 1155.11. Scope of benefits.—Clarity and lack of ambiguity.

This section states the following: “Children, youth or young adults under 21 years of age with behavioral health diagnoses are eligible for the full range of covered IBHS.” What is meant by the term “behavioral health diagnoses?” We ask the Department to define this term. Also, since a young adult is defined as a person who is “under 21 years of age,” the Department should delete the phrase under 21 years of age from all subsequent references to young adults. This also applies to Section 5240.1 (relating to scope).

PROVIDER PARTICIPATION

4. Section 1155.22. Ongoing responsibilities of providers.—Clarity and lack of ambiguity.

This section addresses ongoing responsibilities of IBHS agencies. We have three concerns. First, Subsection (c) requires an IBHS agency to have a current license for each branch or satellite location. We ask the Department to clarify the basis for requiring each branch and satellite location to have a separate license. Second, Subsection (d) requires each branch or satellite location of a licensed IBHS agency to be *enrolled* by the Department. (Emphasis added.) What is the difference between being licensed and enrolled? This should be clarified in the final-form regulation. Third, Subsection (e) requires an IBHS agency to notify the Department of a change in name, address or services provided. Will any of these changes require Department approval, particularly if they differ from what was listed in the license or enrollment application? If so, that should be specified in the final-form regulation.

**PAYMENT FOR INTENSIVE BEHAVIORAL
HEALTH SERVICES**

5. Section 1155.32. Payment conditions for individual services.—Economic or fiscal impacts; Clarity and lack of ambiguity; Reasonableness of requirements; Implementation procedures.

This section, as well as Section 1155.36(1) (relating to covered services), restricts payment to “individual services.” A commentator asserts that behavior specialists and other treatment professionals should be paid when they consult with parents, teachers and other caregivers. We ask the Department to address the reasonableness of not including consultations as a condition of payment in this and other sections of Chapter 1155 relating to payment conditions.

Commentators seek clarification on terms of payment when an assessment or individual treatment plan (ITP) is not completed within indicated timeframes. How will this provision be implemented? This comment applies to each of the sections in Chapter 1155 relating to payment conditions.

The term “initiation,” which is found for the first time in Subparagraph 1(i) and used throughout the regulation, raises concerns for commentators related to the meaning of “initiation of IBHS” and variations thereof. Specifically, what constitutes the “initiation” of services? Is that date determined by the Department or the provider? Since variations of this phrase are used in both Chapter 1155 and 5240, we ask the Department to define the term in each chapter and use it consistently throughout the regulation.

Commentators raise two concerns related to Subparagraph (1)(ii). The first concern relates to “other licensed professional whose scope of practice includes the diagnosis and treatment of behavioral health disorders.” What other licensed professionals, besides those listed, qualify to diagnose and treat behavioral health disorders? Commentators are concerned that this other option could lead to a loss of clinical expertise, or in the alternative, could require additional oversight and review to ensure quality of work. We note this language is also found in Section 1155.33(1)(ii) (relating to payment conditions for ABA). The second concern relates to the requirement that a written order for services must include a behavioral health disorder diagnosis. The language “behavioral health disorders” could be read narrowly to exclude, for example, Intellectual Disability, a condition for which ABA might be medically necessary. We ask the Department to clarify the final form regulation related to both points.

Under Subparagraph (2)(vii), we ask the Department to clarify who would qualify as an “other professional” since this person has the authority to determine that an updated assessment is needed. This comment also applies to Sections 5240.85(e)(7) (relating to assessment) and 5240.86(f)(7) (relating to individual treatment plan).

Similar to our comment above related to the term “initiation,” we ask the Department to define the term “reinitiation,” which is found in Paragraph (7), as well as in each of the remaining sections of Chapter 1155 relating to payment conditions. Commentators raise concerns about the implementation of this concept. Is this an exemption from going through the initial procedures? Are there any limits on the number of times an individual can reinitiate services? We ask the Department to clarify this term here and in Chapter 5240.

6. Section 1155.33. Payment conditions for ABA.—Clarity and lack of ambiguity; Reasonableness of requirements.

Commentators note that Paragraph (2) does not include a timeframe for conducting the face-to-face assessment like the sections for payment conditions for individual services, EBT and group services. We ask the Department to explain why this section is not consistent with the others.

7. Section 1155.34. Payment conditions for EBT.—Clarity and lack of ambiguity; Implementation procedures.

As a condition of payment, Paragraph (7) requires an IBHS agency to have a current certification or licensure from the national certification organization or entity that developed or owns the EBT provided. A commentator

raises concerns that this differs from the standard found in Section 5240.93(a) (relating to EBT requirements) that specifies a certification or license is only necessary if it is “required to provide the EBT.” The commentator expresses concern that some EBTs do not have a national certification process. We ask the Department to clarify and explain how this requirement will be implemented.

8. Section 1155.35. Payment conditions for group services.—Clarity and lack of ambiguity.

In Paragraph (2) and elsewhere in the regulation, the Department uses the phrase “mental health professional.” We ask the Department to define this term in both Chapters 1155 and 5240.

CHAPTER 5240. INTENSIVE BEHAVIORAL HEALTH SERVICES

GENERAL PROVISIONS

9. Section 5240.2. Definitions.—Protection of the public health, safety and welfare; Clarity and lack of ambiguity.

We have several comments about the acronyms used within the regulation. In general, we have a concern about the number of acronyms, which a parent described as “overwhelming.” Also, many job titles are used throughout the regulation which are not defined, such as behavior specialist analyst, behavior specialist, mobile therapist, behavior health technician, mental health professional and mental health worker. And while the Department identifies many positions/professions, not all are defined so as to differentiate between them. For example, how does a behavioral health technician (BHT) differ from a behavioral health technician-applied behavioral analysis (BHT-ABA)? We ask the Department to define each position/profession and make clear how each differs from the others. Additionally, we note that qualifications for licensure as a behavior specialist are found under 49 Pa. Code Section 18.524 (relating to criteria for licensure as behavior specialist) and ask the Department to include that reference in the definition.

Also, based on commentator concerns, we ask the Department to define the terms “provider” and “skill deficits,” as well as the term “community” for ABA purposes.

ASD—Autism spectrum disorder

We note that the proposed definition of this term differs from the definition found in 49 Pa. Code Section 18.522 (relating to definitions). We ask the Department to explain why this definition differs from the State Board of Medicine regulations that license behavior specialists.

BHT—Behavioral health technician

Commentators assert that there is no current certification for BHT in Pennsylvania and the Department acknowledges in the Preamble that it will be engaging the Pennsylvania Certification Board (Board) to develop state-specific certifications as required by the regulation. We note that Sections 5240.73 (relating to staff training requirements) and 5240.81 (relating to staff qualifications) each rely on the Board for certifications required by the regulation. Commentators suggest reliance on an existing certification board as an alternative. We ask the Department to explain the process whereby it will engage the Board to ensure that those certified by the Board meet the Department’s standards for training and competency.

Group services

The last sentence of this definition states, “When included in a child’s, youth’s or young adult’s ITP, group

services may include individual interventions.” This sentence is substantive and should be moved to the body of the regulation.

Stimulus

This term is defined as, “An event, circumstance or condition that can be changed or does change based upon the behavior specialist analyst’s manipulation.” We ask the Department to explain why this definition is specific only to a behavior specialist analyst.

10. Section 5240.5. Service description.—Reasonableness of requirements, implementation procedures and timetables for compliance.

Subsection (a) states, “As part of the initial licensing application, the IBHS agency shall submit to the Department for review and approval a written description of services to be provided” We ask the Department to explain the process for reviewing and approving the written description of services.

Subsection (b) requires an IBHS agency to notify the Department prior to changing its services or if the information in the service description is no longer accurate. Since any change requires Department approval, we ask the Department to explain how this approval process works, what timeframes are involved, and how the Department will notify the IBHS agency of its decision. Also, we ask the Department to include this process in the final regulation.

11. Section 5240.6. Restrictive procedures.—Protection of public health, safety and welfare; Clarity and lack of ambiguity; Reasonableness of requirements.

This sections includes specific requirements related to the use of restrictive procedures. Commentators have expressed concerns with this section. First, in Subsections (e) and (f)(3), it has been suggested that the phrase “regain self-control” be replaced with “no longer an imminent danger to self or others” as this is a best practices guideline. Second, a commentator asks the Department to ensure that the final regulations are consistent with the Pennsylvania Department of Education regulations to reduce conflict for the BHT and BHT-ABA who deliver services in schools. We agree that these suggestions improve the clarity and assist with the implementation of the rulemaking. We ask the Department to revise these provisions.

Under Subsection (h), it is unclear how long an IBHS agency must keep a record of each person’s training in the use of manual restraint procedures. We ask the Department to clarify this requirement. Also, we ask the Department to include a cross-reference to recordkeeping requirements in Section 5240.42 (relating to agency records).

12. Section 5240.7. Coordination of services.—Clarity and lack of ambiguity.

Under Subsection (c)(3), an IBHS agency must make available information on community behavioral health resources, including the address and phone number of the program or organization. We ask the Department to expand this information to include a website, if available.

Subsection (f) states, “An IBHS agency that provides group services is not required to comply with subsections (a) and (b).” We ask the Department to explain the reasonableness of exempting IBHS agencies that provide group services from these subsections relating to written agreements. A commentator states that all IBHS agencies should have these and update them routinely.

STAFFING

13. Section 5240.11. Staff requirements.—Economic or fiscal impacts; Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements.

This section specifies the responsibilities of an IBHS agency's administrative director and clinical director. Commentators question the need and rationale for the detailed description of these responsibilities. For example, what is the rationale for mandating by regulation that an administrative director dedicates a minimum of 7.5 hours each week for each IBHS agency the director oversees? What is the need and rationale for mandating and documenting monthly meetings between the clinical director and staff? What is the need for this level of oversight by an administrative director? We ask the Department to explain the need for and reasonableness of staff requirements in this section.

Also, commentators raise concerns that the language in this section does not recognize the use of independent contractors and consultants. We ask the Department to clarify whether the requirements listed apply to contractors/consultants, and if they do, we ask the Department to amend the regulation accordingly. If the requirements do not apply to contractors/consultants, the Department should explain why they do not apply. This concern applies to each of the staffing sections, including Sections 5240.12 (relating to staff qualifications), 5240.13 (relating to staff training plan), 5240.71 (relating to staff qualifications), 5240.72 (relating to supervision), 5240.73 (relating to staff training requirements), 5240.81 (relating to staff qualifications), 5240.82 (relating to supervision) and 5240.101 (relating to staff requirements and qualifications).

14. Section 5240.12. Staff qualifications.—Economic or fiscal impacts; Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements.

Subsection (a) establishes the qualifications of an administrative director of an IBHS agency. Commentators question the rationale for requiring an administrative director to have a graduate degree, and ask if a bachelor's degree plus experience would be an acceptable alternative. We ask the Department to explain the need for and reasonableness of this requirement. This comment also applies to Section 5240.81 (relating to staff qualifications).

Paragraph (b)(1) provides a "minimum of 1 year of full-time postgraduate experience in the provision of mental health direct service to children, youth or young adults" as one of the criteria a clinical director of an IBHS agency must meet. We ask the Department to clarify what constitutes "experience" in the provision of mental health direct service to children, youth or young adults. A commentator states that working with children in a school, daycare or other Child and Adolescent Service System Program qualified previously toward experience. This comment applies to other similarly worded provisions including Sections 5240.71 (relating to staff qualifications), 5240.72 (relating to supervision), and 5240.81 (relating to staff qualifications).

15. Section 5240.13. Staff training plan.—Economic or fiscal impacts; Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements.

Commentators assert that the requirement of Subsection (a)(1)(i) to update training plans annually for each

individual based on date of hire and the requirement of Subsection (e)(6) to keep a copy of written material distributed to individuals is burdensome, costly and does not provide a benefit. A commentator suggests removing "date of hire" language to ease some of the burden. We ask the Department to explain the need for and reasonableness of the requirements in these subsections.

Subsection (e)(7) requires an IBHS agency to keep records regarding Department approval of training. We ask the Department to explain the process for obtaining approval of training, what time frames are involved, and how the Department will notify the IBHS agency of its decision. This comment also applies to Section 5240.73 (relating to staff training requirements). The process for obtaining approval of training should be set forth in the regulation.

SERVICE PLANNING AND DELIVERY

16. Section 5240.21. Assessment.—Economic or fiscal impacts; Protection of public health, safety and welfare; Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements.

Commentators raise several concerns and questions related to Subsection (a). First, a comprehensive face-to-face assessment must be completed by a behavior specialist or a mobile therapist within 15 days of the initiation of IBHS and prior to developing the ITP. As noted in Comment # 5, commentators ask for clarification as to when services are "initiated." Second, commentators assert that the 15-day time limit is too short in light of challenges with scheduling families. Third, commentators assert that it is inappropriate for this assessment, and the six-month assessment in Subsection (e), to be completed by a person without a professional license. Commentators ask that the assessment be done by a licensed professional or under the supervision of a licensed professional. Finally, a commentator questions whether the face-to-face assessment would be done in place of a psychological evaluation, or if both are required. We ask the Department to explain the need for and reasonableness of the timeframe for the assessment, and to explain how the health, safety and welfare of children, youth and young adults will be protected by the level of expertise and experience of the person assessing them. Additionally, we ask the Department to clarify in the final regulation requirements related to face-to-face assessments and psychological evaluations.

17. Section 5240.22. Individual treatment plan.—Clarity and lack of ambiguity; Reasonableness of requirements, implementation procedures and timetables for compliance.

This section addresses requirements of an ITP administered by an IBHS agency. We have three concerns. First, a commentator asks for clarification as to who is responsible for the development of the ITP. We ask the Department to clarify who is responsible for developing the ITP.

Second, Subsection (c) states that the ITP shall be "strength-based." What does this mean? We ask that this term be clarified in the final-form regulation. This language also appears in Sections 5240.86 (relating to individual treatment plan) and 5240.106 (relating to individual treatment plan).

Third, Subsection (d)(3) identifies a "safety plan to prevent a crisis, a crisis intervention plan and a transition plan." What is meant by the term "crisis?" What is a "crisis intervention plan" and a "transition plan?" We note

that the term “crisis event” is used in Chapter 1155. We ask the Department to clarify these terms, as well as the intent of a transition plan.

18. Section 5240.23. Service provision.—Clarity and lack of ambiguity; Reasonableness of requirements, implementation procedures and timetables for compliance.

Subsection (b) states that IBHS shall be delivered in community-based, clinically appropriate settings. A commentator asks for clarification as to what is meant by “community-based.” We ask the Department to clarify whether this includes a home, a school or other location.

DISCHARGE

19. Section 5240.31. Discharge.—Clarity and lack of ambiguity; Reasonableness of requirements, implementation procedures and timetables for compliance.

As noted in Comment # 5, commentators have concerns related to reinitiation under Subsection (c). They ask if a new written order will be required and if there will be additional paperwork associated with the reinitiation. A commentator points out that it may be difficult to assign the patient to the same caregiving team, and asks that the regulation provide for reassessment to ensure the need for reinitiation is valid, as well as to update the treatment plans and goals. We ask the Department to clarify the requirements and intentions related to reinitiation in the final-form regulation.

20. Section 5240.32. Discharge summary.—Reasonableness of requirements, implementation procedures and timetables for compliance; Economic or fiscal impact.

Subsection (a)(4) requires an IBHS agency to document at least two telephone contacts within the first 30 days after discharge to monitor the status of maintaining treatment progress. Commentators suggest the requirement should be changed to attempted contacts, and recommend other modes of communication such as secure emails be permissible. We ask the Department to consider these suggestions, and if the health, safety and welfare of children, youth and young adults would be adequately protected, to adopt the recommendations in order to lessen the fiscal impact of the rulemaking.

RECORDS

21. Section 5240.41. Individual records.—Need for the regulation; Reasonableness of requirements.

A commentator asserts that the requirement under Subsection (b)(3) to review records for quality at least every six months is excessive. Another commentator asks if all records must be reviewed or if a sample would be acceptable because reviewing all records is simply not feasible for a large agency. We ask the Department to explain the need for and the reasonableness of a quality review of all records at least every six months.

22. Section 5240.42. Agency records.—Need for the regulation; Reasonableness of requirements.

This sections identifies the different records that must be kept by an IBHS agency. We have three questions. First, how long must the records be kept? Second, can they be kept in electronic format? Third, what is the need for keeping records such as staff work schedules, daily schedules for group services? We ask the Department to explain the need for and reasonableness of the record-keeping requirements in the final regulation.

QUALITY IMPROVEMENT

23. Section 5240.61. Quality improvement requirements.—Economic or fiscal impacts; Clarity and lack of ambiguity.

This section establishes the requirements for quality improvement plans of an IBHS agency. We have two concerns. First, under Subsection (a), what is a “quality improvement plan?” We ask the Department to define this term.

Second, Subsection (c) requires an IBHS agency to make annual quality reports available to the public. We have two concerns. First, a commentator asks the Department to clarify the information that needs to be shared with the public related to annual quality reports. We ask the Department to work with the regulated community to ensure the final-form regulation is clear on what is to be published. Second, since this information would be useful to those in need of IBHS services, the Department should require these reports to be posted on each IBHS agency’s website and included in advertising literature.

INDIVIDUAL SERVICES

24. Section 5240.71. Staff qualifications.—Economic or fiscal impacts; Protection of public health, safety and welfare; Clarity and lack of ambiguity.

As noted in Comment # 1, we reiterate concerns raised by commentators related to increased costs for staff training and certifications in this section and in Sections 5240.81 (relating to staff qualifications) and 5240.101 (relating to staff requirements and qualifications).

Several commentators express concern that language in Subsection (b) states that a behavior specialist who provides treatment to children diagnosed with ASD shall meet the qualifications for a behavior specialist analyst under Section 5240.81(c) (relating to staff qualifications) under ABA. Does this language limit the treatment approaches available to children with ASD to ABA? Commentators assert that families should have the option of choosing individual services. We ask the Department to clarify the treatment services available to children diagnosed with ASD.

25. Section 5240.72. Supervision.—Economic or fiscal impacts; Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements.

This section establishes supervision requirements for IBHS agencies that provide individual services. We have four concerns. First, in general, commentators express concern regarding the “excessive” amount of supervision in this section, particularly as it relates to face-to-face sessions in Subparagraph (a)(2) and direct observation in Subparagraph (a)(3). Commentators note that current supervision standards allow for group supervision, and that the monthly face-to-face sessions for each IBHS staff person will require significant additional time and resources and are not cost-effective. In light of the fiscal concerns previously mentioned, we ask the Department to explain the need for and reasonableness of the level of supervision required in this section.

Second, we also have specific questions related to Subsection (a). What is an “IBHS supervisor?” Would behavior specialists and mobile therapists be included in the supervision requirements under Subparagraphs (a)(2)—(4)? What are the differences between supervision, face-to-face sessions and direct observations? We ask the Department to clarify these provisions in the final regulation.

Third, since Subsection (c) specifies the qualifications for an “IBHS supervisor,” we ask the Department to move this language to Section 5240.71 (relating to staff qualifications).

Fourth, Subsection (d) specifies that an IBHS supervisor may supervise a maximum of nine full-time equivalent BHT staff. What is the basis for setting the maximum number at nine, and do IBHS supervisors oversee other types of staff? If so, how many? Commentators assert that the number nine is too restrictive and will require the hiring of additional supervisors. We ask the Department to explain the reasonableness of the limit on the number of staff that can be supervised, and include an explanation for why the number of other staff that can be supervised is not specified.

26. Section 5240.73. Staff training requirements.—Economic or fiscal impacts; Need for the regulation; Reasonableness of requirements.

As noted in Comment # 1, commentators assert that training requirements are greatly increased from current requirements which will have a significant financial impact on providers as they are not reimbursed for training. We ask the Department to address the economic impact on the regulated community of increased training requirements in the final regulation.

27. 5240.75. Individual services provision.—Protection of public health, safety and welfare; Reasonableness of requirements.

Subparagraph (a)(5) states that a behavior specialist shall provide a consultation to mobile therapists or BHTs on behavioral management protocols. A commentator states that the consultation should be expanded to include all necessary treatment team members. We ask the Department to explain the reasonableness of not including all necessary treatment team members and how the final regulation protects the health, safety and welfare of children, youth and young adults.

Subparagraph (c)(9) states that a BHT may provide “referrals to other necessary services and supports.” A commentator states that the expertise needed for referrals is more appropriate for behavior specialists and mobile therapists rather than BHTs. Alternately, another commentator states that BHTs should be required to have adequate systems training and knowledge of the continuum of care in order to make referrals for service. We ask the Department to clarify the level of expertise and training necessary for referrals in order to protect the health, safety and welfare of children, youth and young adults.

APPLIED BEHAVIORAL ANALYSIS

28. Section 5240.81. Staff qualifications.—Protection of public health, safety and welfare; Need for the regulation; Reasonableness of requirements.

Subsection (b)(1) requires a clinical director of an IBHS agency that provides ABA services to be a licensed professional and to have a second license or credential in behavior analysis. A commentator opposes this, saying it would unfairly restrict access to services. We ask the Department to explain the need for and reasonableness of this requirement, as well as how it will protect the health, safety and welfare of children, youth and young adults.

Subparagraphs (b)(2) and (3) requires a clinical director to become board-certified within three years of taking on the position. Commentators have concerns that the intent of the regulations and *Sonny O.* could be thwarted by replacing the clinical director every three years. A com-

mentator suggests that the Department provide additional time before this provision takes effect to allow for individuals to become certified, but insists that by a date certain it is critical that all clinical directors be BCBA since they direct the clinical aspect of an ABA program. Another commentator notes that in order for a registered behavior technician (RBT) to maintain certification, the RBT must be supervised by a BCBA or a board-certified assistant behavior analyst so it is critical for every agency to have BCBA on staff. We agree that the role of a clinical director is vital and that an opportunity for lowering the qualification standards should not exist each time a position is vacant. We ask the Department to provide a reasonable amount of time for individuals to become certified, but to set a date certain for all clinical directors to meet the requirements of the final regulation.

29. Section 5240.82. Supervision.—Economic or fiscal impacts; Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements.

In addition to comments cited under Section 5240.72 (relating to supervision), commentators note that the level of supervision mandated is unnecessary, costly and restrictive. Commentators add that the regulations are so detailed, such as requirements for signatures of supervisors and staff, that it will cause oversight challenges for the Department. In light of the fiscal concerns previously mentioned, we ask the Department to explain the need for and reasonableness of the level of supervision required in this section.

30. Section 5240.83. Staff training requirements.—Reasonableness of requirements, implementation procedures and timetables for compliance.

This section includes several references to training approved by the Behavior Analyst Certification Board or the Department. We ask the Department to explain the process for evaluating and approving training, and how the regulated community is informed of approved training.

31. Section 5240.85. Assessment.—Clarity and lack of ambiguity.

This section specifies the requirements of IBHS agencies providing ABA services to children, youth and young adults. We have two concerns. First, under Subsection (a), we ask the Department to clarify how soon the face-to-face assessment must occur. Second, under Subsection (f), we ask the Department to clarify whether the assessment must also be signed by the parent or caregiver.

32. Section 5240.87. ABA services provision.—Clarity and lack of ambiguity.

Subsection (a)(1) states that a behavior specialist analyst provides certain services including “assessment of skill deficits and behavioral needs.” A commentator states that the history of coverage of ABA under MA in Pennsylvania has been plagued by disputes over which skills may be addressed through ABA. Therefore, we ask the Department to clarify the meaning of the term “skill deficits” as it relates to ABA services.

Also, a commentator has concerns regarding the language in Subsection (c) limiting the services a BHT-ABA can provide. The Department should explain the rationale for limitations specified in this subsection.

EVIDENCE-BASED THERAPY

33. Section 5240.91. EBT initiation requirements.—Clarity and lack of ambiguity; Reasonableness of requirements, implementation procedures and timetables for compliance.

We ask the Department to clarify whether EBT is to be considered a set of treatments that differ from individual, ABA and group services, or whether EBT represents a set of standards that should apply across all individual, ABA or group modalities of services.

Also, based on commentator concerns, we ask the Department to clarify which licensed professionals are permitted to modify EBTs to account for the needs of children.

34. Section 5240.93. EBT requirements.—Protection of public health, safety and welfare; Clarity and lack of ambiguity.

Commentators note that many of the standards/requirements appear to be transferred to other entities when EBT is used. The Department should clarify what standards providers must adhere to when the regulations are silent on issues such as supervision, minimum qualifications, admissions or discharge criteria.

GROUP SERVICES

35. Section 5240.101. Staff requirements and qualifications.—Economic or fiscal impacts; Need for the regulation; Reasonableness of requirements.

Similar to concerns included in Sections 5240.72 (relating to supervision) and 5240.73 (relating to staff training requirements), we ask the Department to address the economic impact on the regulated community of increased qualifications requirements in the final regulation.

36. Section 5240.102. Supervision.—Economic or fiscal impacts; Need for the regulation; Reasonableness of requirements.

This section establishes supervision requirements for IBHS agencies that provide group services. Under Subparagraph (a)(1), we ask the Department to explain the reasonableness of only clinical directors being permitted to supervise mental health professionals.

37. Section 5240.107. Group services provision.—Clarity and lack of ambiguity.

This section specifies the types of services mental health professionals, mental health workers and BHTs can provide. Is there a maximum number of people that can receive group service at a particular time? If so, this should be specified in the final-form regulation.

38. Section 5240.108. Requirements for group services in school settings.—Clarity and lack of ambiguity.

We ask the Department to clarify for the regulated community whether the services in this section include Community School Based Behavioral Health and other similar services currently occurring in the school setting.

Also, we ask the Department to revise Subparagraph (1)(iii) which uses the non-regulatory term “assurances.”

39. Miscellaneous clarity.

RAF

In response to # 29, the Department states the expected delivery date of the final-form regulation is the third quarter of 2018. We ask the Department to update the timeframe.

Section 1155.34. Payment conditions for EBT.

Under Paragraph (4), after the reference to Section 5240.92, the “(relating to . . .)” language is missing. Also, the subparagraphs are numbered incorrectly: (vii) should be (vi) and (viii) should be (vii).

Section 5240.72. Supervision.

Subsection (f) references “audio *and* video transmission.” Subsection (g)(2) references “audio *or* video medium.” (Emphasis added.) The Department should clarify how supervision can be conducted and make it consistent throughout the final-form regulation. Similar language appears in Section 5240.82(h) and (i)(2) and Section 5240.102(d) and (e)(2).
