# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

### **How to Find Rules and Regulations**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

#### § 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

## Title 231—RULES OF CIVIL PROCEDURE

### PART I. GENERAL

#### [ 231 PA. CODE CH. 200 ]

#### Proposed Amendment of Pa.R.C.P. No. 237.3

The Civil Procedural Rules Committee is planning to propose to the Supreme Court of Pennsylvania the amendment of Pa.R.C.P. No. 237.3 governing relief from judgment of *non pros* for failure to file a complaint or by default for failure to plead, for the reasons set forth in the accompanying explanatory report. Pursuant to Pa.R.J.A. No. 103(a)(1), the proposal is being published in the *Pennsylvania Bulletin* for comments, suggestions, or objections prior to submission to the Supreme Court.

Any reports, notes, or comments in the proposal have been inserted by the Committee for the convenience of those using the rules. They will neither constitute a part of the rules nor will be officially adopted by the Supreme Court.

Additions to the text of the proposal are bolded and underlined; deletions to text are bolded and bracketed.

The Committee invites all interested persons to submit comments, suggestions, or objections in writing to:

Karla M. Shultz, Counsel  
Civil Procedural Rules Committee  
Supreme Court of Pennsylvania  
Pennsylvania Judicial Center  
PO Box 62635  
Harrisburg, PA 17106-2635  
FAX: 717-231-9526

All communications in reference to the proposal should be received by March 22, 2019. #### Annex A

### TITLE 231. RULES OF CIVIL PROCEDURE

#### PART I. GENERAL

#### CHAPTER 200. BUSINESS OF COURTS

#### Rule 237.3. Relief from Judgment of *Non Pros* or by Default.

(a) A petition for relief from a judgment of *non pros* or [ of ] by default entered pursuant to Rule 237.1 shall have attached thereto a copy of the complaint, preliminary objections, [ or ] and/or answer which the petitioner seeks leave to file. **All grounds for relief shall be raised in a single petition.**

(b)(1) If the petition is filed within ten days after the entry of a judgment of *non pros* on the docket, the court shall open the judgment if the proposed complaint states a meritorious cause of action.

(2) If the petition is filed within ten days after the entry of a default judgment on the docket, the court shall open the judgment if one or more of the proposed preliminary objections has merit or the proposed answer states a meritorious defense.

**Official Note:** Rule 236 requires the prothonotary to give notice of the entry of any judgment and to note in the docket the giving of the notice.

The petitioner must act with reasonable diligence to see that the petition is promptly presented to the court if required by local practice.

See *Schultz v. Erie Insurance Exchange*, 477 A.2d 471 (Pa. 1984) for the requirements for opening a judgment by default and Rule 3051 as to a judgment of *non pros*. Rule 237.3 does not change the law of opening judgments. Rather, the rule supplies two of the three requisites for opening such judgments by presupposing that a petition filed as provided by the rule is timely and with reasonable explanation or legitimate excuse for the inactivity or delay resulting in the entry of the judgment. The requirement of this rule for proceeding within ten days is not intended to set a standard for timeliness in circumstances outside this rule.

See Rules 206.1 through 206.7 governing petition practice.

#### EXPLANATORY COMMENT

The Civil Procedural Rules Committee is proposing the amendment of Rule 237.3 governing relief from judgment of *non pros* for failure to file a complaint or by default for failure to plead. In 2016, Rule 237.3 was amended by adding preliminary objections as a type of pleading that may be attached to a petition for relief from default judgment. It has been reported to the Committee that litigants have interpreted this provision to permit the filing of a petition for relief with proposed preliminary objections attached, and then, when that petition is denied, to permit the filing of an additional petition for relief by attaching the proposed answer, notwithstanding the requirement for filing within 10 days of the entry of default judgment. To promote procedural efficiency, the proposed amendment would require a litigant to raise all grounds for relief in a single petition.

Rules Committee*

## Title 255—LOCAL COURT RULES

### ADAMS COUNTY

#### Rules of Civil Procedure; Administrative Order Number 15A of 2018

#### Order of Court

And Now, this 31st day of December, 2018, after review of Administrative Order 15 of 2018, dated November 27, 2018, by the Administrative Office of Pennsylvania

Courts, that Order is vacated. It is further Ordered that Adams County Rules of Civil Procedure 1915.1 and 1916 are vacated in their entirety, and the following Rules adopted:

**Rule 1915.1. Actions in Child Custody. Scope. Definitions.**

(a) *General.* These rules shall govern all actions for child custody, including custody complaints, petitions to modify custody, petitions for contempt and petitions to intervene in child custody matters filed in the Adams County Court of Common Pleas. The rules shall be interpreted as supplementing the Pennsylvania Rules of Civil Procedure governing custody actions. See Pa.R.C.P. No. 1915.1 et seq.

(b) *Definitions.* As used in this chapter, unless the context of a rule indicates otherwise, the following terms shall have the following meanings:

“conciliator” shall be an active-status attorney duly licensed to practice law in the Commonwealth of Pennsylvania and appointed by the court. In accordance with Pa.R.C.P. No. 1915.4-3(a), the conciliator shall not be engaged in the practice of family law before a conference officer, hearing officer, permanent or standing master, or judge of the same judicial district.

“conciliation conference” shall be a prehearing, non-record proceeding conducted under the auspices of the court by the conciliator and in accordance with Pa.R.C.P. 1915.4-3.

“custody presentation” shall be a brief appearance before the presiding judge to ascertain the status of the dispute and determine the status quo custody schedule, if any, enter an interim order as appropriate, and refer the matter to a conciliation conference as appropriate.

“presiding judge” shall be the judge to whom the case is assigned.

(c) *General flow of a custody case.* Upon the filing of a complaint or petition, the pleading shall be scheduled for a presentation before the court on a custody presentation day designated on the official court calendar.

If an agreement is not able to be reached at custody presentation, the presiding judge will enter an interim order and directive for the parties to participate in a custody conciliation conference to attempt to resolve the matter.

If the parties are not able to reach an agreement at the conciliation conference, the presiding judge will list the matter for a pre-trial conference upon receiving the report of the conciliator.

After the pre-trial conference is held, the presiding judge will schedule a trial and an in camera interview of the child, as appropriate.

**Rule 1915.3. Commencement of Action. Complaint. Order.**

(a) *Commencement of an Action. Filing.*

(1) All custody complaints, petitions for modification of custody, petitions to intervene and petitions for contempt for disobedience of a custody order shall be filed with the Prothonotary.

(2) All custody complaints, petitions for modification of custody, and petitions to intervene shall include a scheduling order for presentation, sub-

stantially in the same form as Sample Form “A” annexed to these rules. All petitions for contempt for disobedience of a custody order shall include a scheduling order for presentation which conforms to Pa.R.C.P. No. 1915.12.

(3) If a custody claim is asserted in a divorce complaint, the moving party shall file a praecipe with the Adams County Prothonotary to list the matter for custody presentation, along with a scheduling order, substantially in the same form as Sample Form “A” annexed to these rules.

(4) The presiding judge’s chambers will schedule all custody related matters pending before the court. The dates available for custody presentation shall be designated on the official court calendar.

(5) The moving party shall pay the requisite filing fee and the conciliator’s fee upon the filing of a custody complaint or petition for modification of a custody order. A conciliator’s fee shall not be paid with the filing of a petition to intervene or a petition for contempt for disobedience of a court order, unless said petition is filed contemporaneously with a custody complaint or petition for modification of custody.

(b) *Contents of Complaint or Petition.* The complaint or petition shall specifically state the relief sought by the moving party and shall have a proper verification attached, pursuant to Pa.R.C.P. No. 1024. This includes the relief sought for legal custody (sole or shared) and physical custody (sole, primary, partial, shared, or supervised). Further, the moving party shall also state the factual basis for the relief sought. Petitions to intervene shall state the statutory authority relied upon. All complaints and petitions shall conform to the requirements of the Case Records Public Access Policy of the Unified Judicial System of Pennsylvania.

In addition to those averments required by the Pennsylvania Rules of Civil Procedure governing actions relating to custody, the complaint or petition shall also contain:

(1) Moving party’s Criminal Record/Abuse History Verification as required by Pa.R.C.P. No. 1915.3-2 as an exhibit;

(2) An averment as to the form, time, and manner of serving a copy of the complaint, Order of Court for custody presentation, and moving party’s criminal record/abuse history verification to the non-moving party or to legal counsel;

(3) The proposed custody arrangement shall be stated as a paragraph in the pleading; and

(4) A proposed scheduling order for custody presentation, in a form similar to Sample Form “A”, shall be appended to the front of the pleading.

**Rule 1915.4-3.1. Custody Presentation.**

(a) *General.*

(1) A custody presentation is the first time the parties will appear before the court. The goal of the custody presentation is to ascertain the status quo schedule or affirm the agreement of the parties. If there is no agreement, the presiding judge may enter an interim order that will govern the parties until final disposition of the matter by agreement or a trial. No testimony will be adduced or evidence presented during this proceeding. If there is no

agreement regarding a petition to intervene in a custody case, the presiding judge shall schedule the matter for a hearing to address that issue.

(2) Custody presentations will be heard on a set day and time every week as designated on the official court calendar.

(3) If the parties are unable to reach an agreement at presentation, the presiding judge will issue an order with a date and time for the parties to participate in conciliation, similar to Sample Form "B" annexed to these rules.

(4) The presiding judge's chambers will schedule presentations at least ten days from the date the complaint, petition for modification, petition to intervene or petition for contempt was filed. This is to ensure that the moving party has ample time to serve the non-moving party with the order scheduling the presentation. It is the moving party's responsibility to serve all documents upon the opposing party in accordance with the Pennsylvania Rules of Civil Procedure and file an appropriate certificate of service with the Prothonotary.

(b) Formal Presentation to the Court Not Necessary. If the parties have a stipulated agreement for custody, then the parties may file the stipulated agreement and a proposed order of court with the Prothonotary. All stipulated agreements shall contain language requesting the presiding judge to enter the agreement as an order of court. If the judge enters the stipulated agreement as an order, then the parties do not need to appear for custody presentation. All proposed orders shall comply with the checklist and form contained in Sample Form "D" annexed to these rules. See also Adams C.Civ.R. No. 1915.7-1. Custody Agreement and Consent Orders.

#### Rule 1915.4-3.2. Custody Conciliation Conference.

(a) Non-Record Proceeding. The custody conciliation conference is an opportunity for the parties to reach agreement early in the litigation process. To facilitate the conciliation process and to encourage frank, open and meaningful exchanges between the parties and their respective counsel, statements made by everyone involved in the conference shall not be admissible as evidence in the custody proceedings. The custody conciliator shall not be a witness in any custody proceedings. The custody conciliation conference shall not be recorded. No evidence or testimony shall be presented. One-half (1/2) hour shall be set aside for all custody conciliation conferences.

(b) Scheduling of Custody Conciliation Conference. If the parties are unable to reach an agreement at presentation, the presiding judge will refer the case to the custody conciliator. Custody conciliation conferences shall be scheduled not more than forty-five (45) days from the date of assignment by the presiding judge.

(c) Appointment and Authority of the Conciliator. The court, in its discretion, shall refer all actions for custody of minor children to a conciliator who shall have the authority to conciliate custody cases in an effort to resolve the matter.

(d) Participation in Custody Conciliation Process. Conduct of the Conciliator; Parties and Attorneys.

(1) Only the parties to the action and their legal counsel shall be present for the conciliation conference. Unless ordered by the court for good cause shown, children should not be brought to the conciliation conference and shall not be heard on the issues by the conciliator.

(2) The parties, counsel and the conciliator shall make a good-faith effort to resolve the issues and reach a partial or full agreement regarding the issues. The conciliator shall conduct the conference as an informational and conciliatory proceeding rather than confrontational or adversarial. All parties and counsel must participate in conferences in a cooperative manner and shall adhere to the directives of the conciliator. The conciliator shall attempt to mediate the differences between the parties, encourage amicable resolution of those differences. The conciliator shall attempt to negotiate a settlement by stipulation in writing, signed by the parties and counsel, for approval and entry as an order of court. Prior to agreeing to a custody order the conciliator shall permit the parties to consult with their counsel of record.

(3) Statements made by the parties or their attorneys at the conciliation conference shall not be admissible as evidence at a later custody proceeding. The custody conciliator shall not be a witness for or against any party.

(4) An attorney who attends a conciliation conference with a client shall participate in accordance with the following standards:

a. Attorneys shall fully cooperate with the efforts of the custody conciliator to facilitate the agreement of the parties;

b. Attorneys shall at all times behave in a manner consistent with the Rules of Professional Conduct and refrain from engaging in hostile or antagonistic conduct;

c. Attorneys shall advise their clients in a manner not disruptive of the conciliation process and shall be permitted to confer with the client privately outside of the conference room;

d. Attorneys shall not attempt to question the other party, present evidence or engage in conduct characteristic of any adversarial proceedings;

(5) At any time during the conciliation process the conciliator may terminate the proceedings and refer the case to the presiding judge for further action.

(e) Bypass Custody Conciliation Conference. A party may file a motion to bypass the custody conciliation conference. A motion to bypass the custody conciliation conference may be granted by the presiding judge in limited circumstances wherein:

## DEPARTMENT OF BANKING AND SECURITIES

### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of February 2019

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of February 2019, is 5 1/2%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 2.97 to which was added 2.50 percentage points for a total of 5.47 that by law is rounded off to the nearest quarter at 5 1/2%.

## DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

### Acquisition of Land to be Acquired by the Department of Conservation and Natural Resources for the Purpose of Resolving Multiple Land and Water Conservation Fund Conversions

#### Department of Conservation and Natural Resources (Department) Acquisition of Strawbridge Property

In partnership with the Conservation Fund, the Department is planning to acquire a 987-acre property, referred to as the Strawbridge Property (Property), situated in Elk, Franklin and New London Townships, Chester County. The Strawbridge Property is comprised of seven parcels (Chester County Tax Parcel Nos. 70-5-6, 70-5-7, 70-5-8, 71-4-32.3, 72-6-1, 72-6-4 and 72-6-10). A majority of the Property is currently utilized for farming with the remainder consisting of undeveloped woodland.

The Property is bounded by Lewisville/Strickersville Road to the south, Chesterville Road to the west, residential properties and a portion of Walker Road to the north, and agricultural land and residential properties to the east. The Property is adjacent to the Department's White Clay Creek Preserve and will provide passive recreation such as hiking, hunting and wildlife watching. The Property will be maintained by the Department's Bureau of State Parks. No recreational facilities are proposed to be developed at this time.

Goals in acquiring the Property include the conservation of extensive and diverse critical natural resources and the resolution of multiple Land and Water Conservation Fund (LWCF) conversions. The Property includes more than 7 miles of Big Elk Creek and its tributaries, important forested riparian buffers along them, over 353 acres of mature and young woodlands, over 145 acres of floodplain, 668 acres of prime farmland soils and soils of

Statewide importance, and moderate and steep slopes. The Property also contains habitat for various threatened and endangered plant and animal species. The Property represents a critical resource in a rapidly developing area of southeastern Pennsylvania.

The Department owns and oversees lands encumbered, in part, by the National Park Service LWCF program. In accordance with the restrictions and requirements set forth in section 200301 of the LWCF (54 U.S.C.A. § 200301(f)(3)), the Department is required to provide replacement lands for portions of formerly funded LWCF sites that are converted from recreational to nonrecreational use. The replacement land must meet or exceed both the acreage and appraised value of the land being converted.

The National Park Service has determined that the Property is eligible for acquisition and for the potential resolution of multiple LWCF conversions throughout this Commonwealth. The Department will work with the National Park Service after the Property is acquired to complete the conversion process for the individual property conversions identified in the Environmental Assessment document which is being published for public review.

The Department will acquire the Property from the Conservation Fund and place the LWCF restrictive covenant in the Property deed, to read as follows:

This property, or interest in property, was acquired by the Pennsylvania Department of Conservation and Natural Resources ("Department") to comply with the conversion provisions under the Land and Water Conservation Fund Act, 54 U.S.C. §§ 200301 et seq. ("Act"), provided through the National Park Service. This property, or any portion of it, may not be converted to purposes other than those authorized under the Act. No change of use and no transfer of ownership, control, or interest in this property may occur, and no encumbrance may be placed on this property, without the written consent of the Department or its successor. The restriction in this paragraph applies to both the surface and subsurface of the property. This restriction has the effect of a covenant running in perpetuity with the land and is binding upon the owner(s) of the property and upon all subsequent owners, successors, and assigns. This restriction is enforceable by the Department and its successors.

The DCNR will have five (5) consecutive years to resolve conversions with the excess value and recreational usefulness established as part of the Property acquisition.

*Review and Comment:*

As part of the National Park Service requirements, an Environmental Assessment of the Property has been completed and is available for review and comment.

The Environmental Assessment will be available for review from January 19, 2019, until March 4, 2019, at the Department's web site at [http://www.docs.dcnr.pa.gov/cs/groups/public/documents/document/DCNR\\_20033787.pdf](http://www.docs.dcnr.pa.gov/cs/groups/public/documents/document/DCNR_20033787.pdf).

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 1

---

#### **Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

---

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## AIR QUALITY

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**09-0210B: Waste Management of Fairless, LLC** (1000 New Ford Mill Road, Morrisville, PA 19067) for the installation of three (3) enclosed ZULE flares and two (2) emergency diesel-fired generator engines located in Falls Township, **Delaware County**. The three flares will be used to combust the landfill gas that is collected from three landfill areas—Fairless, GROWS, and the GROWS North landfill areas. The new flares and associated equipment are to be connected to the existing gas collection and control system (GCCS) and will serve as the primary control of landfill gases (VOC).

The project itself will result in a NO<sub>x</sub> emission increase of 65.35 tons per year and a VOC emission increase of 21.55 tons per year. The 5-year and 10-year contemporaneous emission increases make this project subject to the requirements of 25 Pa. Code Chapter 127, Subchapter E—New Source Review. The facility shall apply Best Available Control Technology (BACT) to this project and must acquire emission reduction credits (ERCs) to offset the contemporaneous net emission increases of NO<sub>x</sub> and VOC. The required ERCs are 107.0 tons NO<sub>x</sub> and 60.0 tons VOC, based on a ratio of 1.3:1.

Copies of the application, draft Plan Approval and other documents used in evaluation of the application are

available for public inspection during normal business hours at 2 E. Main St., Norristown, PA 19401.

**09-0024K: Waste Management of Pennsylvania, Inc.** (1000 New Ford Mill Rd, Morrisville, PA 19067) for two 6000 scfm ultra low emission flares (ULE) to combust the landfill gas collected from the Tullytown Resource Recovery Facility (TRRF), a landfill located in Tullytown Borough, **Bucks County**. TRRF is a major facility. The two flares will serve as primary control for the landfill gas, collected with an existing landfill gas collection system. Two existing 5,000 scfm Back-Up flares will continue to serve in the case the ULE flares are inoperative periodically for maintenance purposes. A portion of the landfill gas generated at TRRF will continue to be sent to an IC engine to create power for on-site activities. The proposed construction of the ULE flares was precipitated by loss of a contract to purchase the landfill gas for beneficial use. The company is seeking other beneficial use projects to consume the landfill gas. The ULE flares are anticipated to serve as interim primary control.

Emissions from both flares are estimated in tons per year as: volatile organic compounds (VOC)—14.28, nitrogen oxides (NO<sub>x</sub>)—39.8, carbon monoxide (CO)—95.52, sulfur dioxide (SO<sub>2</sub>)—159.6. A representative flare will be stack tested to assure emission limits are met. There is an existing facility wide restriction of 100 tons per year particulate matter (PM<sub>10</sub>). Each flare is further restricted to a 98 percent non-methane organic carbon (NMOC) destruction efficiency, or a NMOC outlet concentration of 20 parts per million dry volume as hexane at 3 percent oxygen.

The project is subject to the requirements of Non-Attainment New Source Review, codified at 25 Pa. Code § 127.203. In order to comply, the applicant will need to procure emission reduction credits (ERCs), in accordance with 25 Pa. Code § 127.210, prior to commencing construction. The total net increase of 41.1 tons NO<sub>x</sub> due to the project will be offset at a ratio of 1.3:1, for a total of 53.4 tons (1.3 × 41.1) NO<sub>x</sub> ERCs.

The ULE flares are subject to the New Source Performance Standard for Municipal Solid Waste Landfills, promulgated at 40 CFR Part 60, Subpart WWW. The facility is also subject to the requirements of National Emissions Standard for Hazardous Air Pollutants for Source Categories (Maximum Achievable Control Technology), Subpart AAAA: Municipal Solid Waste Landfills. The ULE flares with good combustion design, satisfy the requirements of Best Available Technology (BAT) at 25 Pa. Code § 127.12(a)(5). The flares are subject to limits in the 25 Pa. Code for particulate matter, sulfur compound concentration and visible emissions. The company will comply with all applicable requirements.

The Plan Approval contains conditions for monitoring and recordkeeping designed to keep the facility operating within all applicable air quality requirements.

#### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity\*

\*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

## PREAMBLE 2

The following plans and reports were submitted under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245 Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Environmental Cleanup Program Manager in the DEP Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the DEP through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**Final State Water Quality Certification  
Required by Section 401 of the Clean Water Act for  
the Line N to Monaca Pipeline**

*Southwest Region: Waterways & Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, Dana Drake, P.E., 412.442.4149.*

**WQ05-022, National Fuel Gas Supply Corporation** (Applicant), 1100 State Street, Erie, PA 16501. Line N to Monaca Pipeline Project (Project), in Center and Potter Townships, **Beaver County** and Buffalo Township, **Washington County**, Pittsburgh ACOE District. The proposed project starts at Applicant's existing Line N pipeline in Center Township (Aliquippa, PA Quadrangle N: 40° 36' 58.39"; W: 80° 18' 8.94") and ends at the Shell Chemical Appalachia, LLC (Shell) Pennsylvania Chemical

Project facility (Shell Facility) (Beaver, PA Quadrangle N: 40° 39' 45.88"; W: 80° 20' 20.23"). Additional work is located at Applicant's existing Buffalo Compressor Station in Buffalo Township, Washington County (Washington West, PA Quadrangle N: 40° 9' 25.47"; W: 80° 20' 38.92").

On March 23, 2018, Applicant filed an application with the Federal Energy Regulatory Commission (FERC) under the prior notice provisions set forth in 18 CFR 157.205, 157.208, 157.210, and 157.211 for authorization to construct and operate its Project (FERC Docket No. CP18-135-000). The Applicant's submission may be viewed on FERC's website at [www.ferc.gov](http://www.ferc.gov) (search eLibrary; Docket Search; Docket No. CP18-135-000).

On March 26, 2018, Applicant requested a State water quality certification from the Department of Environmental Protection (Department), as required by Section 401 of

the Clean Water Act (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in this Commonwealth through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

The Project includes an approximately 4.5 mile-long, 12-inch diameter pipeline for the purpose of transporting natural gas from Applicant's existing Line N transmission pipeline in Center Township at the proposed interconnect to a proposed metering and regulating (M&R) station located at the Shell Facility in Potter Township. The Project also includes installation of a new mainline valve adjacent to the interconnect in Center Township; and installation of a pipeline heater, pressure control worker monitor setup (single run with manual bypass), measurement, and a regulation building at Applicant's existing Buffalo Compressor Station in Buffalo Township. The Project will require approximately 80.5 acres of earth disturbance, and impacts to 770 linear feet of streams classified as Warm Water Fishes (WWF), including unnamed tributaries (UNTs) to Raccoon Creek, Shafers Run, UNTs to Shafers Run, and UNTs to Poorhouse Run; 1.65 acre of floodway; 0.03 acre of temporary palustrine emergent wetland impacts.

The Department published notice of its proposed State water quality certification in the *Pennsylvania Bulletin* on June 9, 2018 (Vol. 48 Pa.B. No. 23) and received 0 comments from the public.

The Department certifies to Applicant that the construction, operation and maintenance of the Project will not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93, provided Applicant complies with the permitting programs, criteria and conditions established pursuant to State law and specifically Permits No. GP050417242-53, GP080417246-60, GP070417201, ESG00-007-17-0004, ESG00-007-17-0005, and PAG10-9616 and all modifications and/or amendments thereto:

1. *Discharge Permit*—Applicant shall comply with the existing Department National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline and any modifications and/or amendments thereto under Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001), and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Applicant shall comply with the Department's existing Chapter 102 Erosion and Sediment Control General Permits for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment and any modifications and/or amendments thereto issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17), and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall comply with the Department's existing Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project and any modifications and/or amendments thereto pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601), and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Water Quality Monitoring*—The Department retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Applicant.

5. *Operation*—Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. *Final TGD: Substantive Revision*

**DEP ID:** 261-0300-101. **Title:** Land Recycling Program Technical Guidance Manual. **Description:** A substantive revision of the Land Recycling Program Technical Guidance Manual (TGM) is necessary because the current TGM is from 2002 and is out of date. Many of the procedures and processes used by the Land Recycling Program have been updated and multiple clarifications have been made. Revising the TGM will help to avoid confusion for remediators and regional office staff when assessing and remediating sites to satisfy the requirements of Act 2 and the regulations in 25 Pa. Code Chapter 250 (relating to administration of land recycling program).

**Contact:** Questions regarding the TGM should be directed to Troy Conrad, Bureau Director for Environmental Cleanup and Brownfields, at tconrad@pa.gov or (717) 783-9480.

**Effective Date:** January 19, 2019

*Rescission of Technical Guidance*

**DEP ID:** 383-3000-102. **Title:** Total Coliform Rule Guidance. **Description:** This document is obsolete due to revisions to 25 Pa. Code Chapter 109 (relating to safe drinking water). Rescinding it will have no impact on the program. Technical Guidance Document 393-2129-001 has been published to provide guidance on the revisions to 25 Pa. Code Chapter 109.

**Contact:** Questions regarding this TGD should be directed to Jeff Allgyer at jallgyer@pa.gov or (717) 772-4015.

**Effective Date:** February 4, 2019

**DEP ID:** 263-2320-001. **Title:** Policy for Existing Field-Constructed Hazardous Substance Underground Storage Tanks at Facilities Regulated Under the Safe Drinking Water Act. **Description:** This policy was intended to minimize duplicative regulatory requirements by excluding existing underground field-constructed hazardous substance tanks at facilities regulated under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) from the definition of underground storage tank in the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.110). These storage tank systems became regulated by the Environmental Protection Agency resulting from revisions to the Federal Underground Storage Tank regulations, in 40 CFR 280 (relating to technical standards and corrective action requirements for owners and operators of underground storage tanks (UST)). To maintain Commonwealth Program Approval, the Department's regulations must be no less stringent than the Federal requirements. This TGD will be inaccurate upon publication of the Department's final rule-making of 25 Pa. Code Chapter 245 (relating to administration of the Storage Tank and Spill Prevention Program).

**Contact:** Questions regarding this TGD should be directed to E. Alex Eckman at eckman@pa.gov or (717) 772-5827.

### Federal Consistency under the Coastal Zone Management Act; Adelphia Gateway Project

This notice is published under section 306(d)(14) of the Federal Coastal Zone Management Act of 1972 (16 U.S.C.A. § 1455(d)(14)), regarding public participation during consistency determinations. The Department of Environmental Protection (Department), Coastal Resources Management Program has received notice that Adelphia Gateway, LLC is proposing the Adelphia Gateway Project natural gas pipeline project, portions of which are located within Delaware Estuary Coastal Zone (DECZ) in Delaware County.

The applicant is seeking authorization from the Federal Energy Regulatory Commission for the Adelphia Gateway Project. The entire proposed project includes 4.4 miles of existing 20-inch mainline pipeline, 84 miles of existing 18-inch mainline pipeline, two new compressor stations, two new lateral pipelines, seven new blowdown assemblies, one new tap valve and two new mainline valves. Project components proposed within the DECZ include a new Marcus Hook Compressor Station, portions of the existing 18-inch mainline, a portion of the Parkway Lateral, and the Tilghman Lateral and its associated meter stations. The Marcus Hook Compressor Station includes expansion and improvements to ground facilities at the existing Marcus Hook Terminal. The site is located entirely on existing paved/graveled industrial-use land. The proposed Parkway Lateral consists of a 0.25-mile segment of new 16-inch pipeline beginning at the proposed Marcus Hook Compressor Station and ending at an existing meter station in Claymont, DE. The proposed Tilghman Lateral consists of a 4.4-mile segment of new 16-inch-diameter pipeline that would start at the proposed Marcus Hook Compressor Station and end at a new delivery point located within the boundaries of an existing meter station in Chester City. Adelphia Gateway, LLC also proposes to install five delivery points along the Tilghman Lateral, four of which would be installed entirely within existing industrial meter station sites. The remaining delivery point would be installed on a 2.1-acre site in Lower Chichester, Delaware County. No work is proposed to occur on the segment of existing 18-inch mainline located within the DECZ.

This project is subject to Department review for Federal consistency because it is a Federal license and permit activity and will have reasonably foreseeable effects on the Commonwealth's coastal resources or uses.

In accordance with National Oceanic and Atmospheric Administration (NOAA) regulations at 15 CFR Part 930, Subpart D (relating to consistency for activities requiring a Federal license or permit), Adelphia Gateway, LLC has certified that the proposed activity will be conducted in a manner consistent with the applicable enforceable policies of the Commonwealth's NOAA-approved Coastal Resources Management Program. Interested parties may request a copy of the Federal Consistency Certification from the Department contact listed as follows.

Questions regarding this review should be directed to Matthew Walderon, Federal Consistency Coordinator, at RA-Fed\_Consistency@pa.gov or (717) 772-2196.

The Department will consider all comments received on or before February 4, 2019, before issuing a final Federal consistency concurrence or objection. Comments, includ-

ing comments submitted by e-mail, must include the originator's name and address. Commentators are encouraged to submit comments using the Department's online eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail at [ecomment@pa.gov](mailto:ecomment@pa.gov). ### Federal Consistency under the Coastal Zone Management Act; Maintenance Dredging and Bank Stabilization along the Delaware River

This notice is published under section 306(d)(14) of the Federal Coastal Zone Management Act of 1972 (16 U.S.C.A. § 1455(d)(14)), regarding public participation during consistency determinations. The Department of Environmental Protection (Department), Coastal Resources Management Program has received notice that Hueber Launch Services is seeking authorization from the United States Army Corp of Engineers (USACE) for a 10-year maintenance dredging permit and to perform rip-rap bank stabilization along the Delaware River in Marcus Hook Borough, Delaware County.

The applicant is seeking USACE authorization to dredge approximately 93 cubic yards of material from a 315 square foot area between mean high water and 5 feet below mean low water (3 feet design depth plus 2 feet of overdredge) at 45 East Delaware Street in Marcus Hook Borough. The applicant proposes to conduct maintenance dredging every 2 years during the 10-year maintenance period to the same depth, as needed. Recovered materials will be stored upland at the site for dewatering and then disposed onsite. The applicant also proposes to place 49 cubic yards of rip-rap along 60 linear feet of bank within 663 square feet of open water below the high tide line. The applicant will deploy a turbidity curtain during all dredging and filling operations below the high tide line.

This project is subject to Department review for Federal consistency because it is a Federal license and permit activity and will have reasonably foreseeable effects on the Commonwealth's coastal resources or uses.

In accordance with National Oceanic and Atmospheric Administration (NOAA) regulations at 15 CFR Part 930, Subpart D (relating to consistency for activities requiring a Federal license or permit), Hueber Launch Services has certified that the proposed activity will be conducted in a manner consistent with the applicable enforceable policies of the Commonwealth's NOAA-approved Coastal Resources Management Program. Interested parties may request a copy of the Federal Consistency Certification from the Department contact listed as follows.

Questions regarding this review should be directed to Matthew Walderon, Federal Consistency Coordinator, at [RA-Fed\\_Consistency@pa.gov](mailto:RA-Fed_Consistency@pa.gov) or (717) 772-2196.

### Federal Consistency under the Coastal Zone Management Act; Maintenance Dredging at Hog Island Wharf

This notice is published under section 306(d)(14) of the Federal Coastal Zone Management Act of 1972 (16 U.S.C.A. § 1455(d)(14)), regarding public participation during consistency determinations. The Department of Environmental Protection (Department), Coastal Resources Management Program has received notice that Sunoco Partners Marketing and Terminals (Sunoco) is seeking authorization from the United States Army Corp of Engineers (USACE) for a 10-year maintenance dredging permit at Hog Island Wharf in Tincum Township, Delaware County.

Sunoco is seeking USACE authorization to conduct periodic maintenance dredging at Dock # 3 and Dock # 4 at Hog Island Wharf to a maximum depth of 37 feet below mean low water (35 feet plus 2 feet of overdredge). The applicant estimates the removal of approximately 123,000 cubic yards of material per dredging event and up to 370,000 cubic yards of material over the duration of the 10-year maintenance permit. Dredging will be conducted using a closed-clamshell environmental bucket. Recovered materials will be transferred to either White's Basin or Biles Island disposal facilities. The applicant proposes to adhere to dredging restrictions during the spawning and migrating periods of anadromous fish.

This project is subject to Department review for Federal consistency because it is a Federal license and permit activity and will have reasonably foreseeable effects on the Commonwealth's coastal resources or uses.

In accordance with National Oceanic and Atmospheric Administration (NOAA) regulations at 15 CFR Part 930, Subpart D (relating to consistency for activities requiring a Federal license or permit), Sunoco has certified that the proposed activity will be conducted in a manner consistent with the applicable enforceable policies of the Commonwealth's NOAA-approved Coastal Resources Management Program. ## INDEPENDENT REGULATORY REVIEW COMMISSION

### Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

**Environmental Quality Board Regulation # 7-532  
(IRRC # 3217)**

**Federal Office of Surface Mining Reclamation and  
Enforcement Program Consistency Rule  
December 24, 2018**

We submit for your consideration the following comments on the proposed rulemaking published in the October 27, 2018 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Environmental Quality Board (Board) to respond to all comments received from us or any other source.

**1. Section 86.31. Public notices of filing of permit applications.—Protection of the public health, safety and welfare; Reasonableness of the regulation.**

In the Preamble, the Board states that Paragraph (c)(1) “requires notification by registered mail to the municipality where mining is proposed.” In the Annex, we note that the Board is deleting the phrase “by registered mail, the city, borough, incorporated town or township” [Emphasis added.] and replacing that with “the municipality.” The Board states in the Preamble that it is making this change because notification by registered mail is not required by the federal rules and the amended regulation will be consistent with federal regulations. The Board also states that this proposal will allow for electronic notice “in cases where it is appropriate.” We have several concerns. First, existing Section 86.1 (relating to definitions) defines “municipality” as “a county, city, borough, town, township, school district, institution or an authority created by any one or more of the foregoing.” Is it the Board’s intent to expand the notification requirement to all of these entities? Second, the Pennsylvania State Association of Township Supervisors comments that this notification is too important not to be sent by registered mail. We note that Pennsylvania is permitted to be more stringent than the federal rules, and ask the Board to explain the reasonableness of not requiring notification by registered mail for proposed mining activities. Finally, in what circumstances is electronic notice appropriate? If electronic notification is kept in the final regulation, we ask the Board to set standards for when its use is appropriate. Also, we ask the Board to explain how the notification requirements in the final regulation adequately protect public health, safety and welfare.

**2. Regulatory Analysis Form (RAF)**

In response to RAF Question # 10 the Board states: “Tables in sections 87.103, 88.93, 88.188, 88.293, 89.53, and 90.103 currently use outdated climatological data from the early 1980s. The proposed regulation replaces

these tables with a general reference to data available from the National Oceanic and Atmospheric Administration (NOAA). NOAA’s data is currently available online through its precipitation and storm event tool, which provides a more accurate account of storm events and, generally, lower precipitation levels.” However, in response to RAF Question # 28, the Board states that data is not the basis for the proposed regulatory amendments. In the Preamble and RAF to the final regulation, the Board should amend its response to Question # 28 to note that data is the basis for the change to climatological data in the sections listed in response to RAF Question # 10. The Board should also restate the reason for the change and include a link to the information on the NOAA website.

Further, with reference to the sections listed in response to RAF Question # 10, the actual language of the change in each of those sections states “. . . shall be determined by reference to data provided by the National Oceanic Atmospheric Administration or equivalent resources.” What are “equivalent resources?”

# 57-323 (IRRC # 3214)**

**Assumption of Commission Jurisdiction Over  
Pole Attachments from the Federal  
Communications Commission**

**December 24, 2018**

We submit for your consideration the following comments on the proposed rulemaking published in the September 29, 2018 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Pennsylvania Public Utility Commission (PUC) to respond to all comments received from us or any other source.

**1. Whether the regulation is in the public interest; Fiscal impact; Need.**

This proposal adopts Federal Communications Commission (FCC) regulations regarding pole attachments as those regulations have been promulgated and as may be amended. The exercise of this reverse-preemption is permitted under Section 224(c) of the Telecommunications Act of 1996. 47 U.S.C. § 224(c). The PUC explains that the regulation of pole attachments at the state level instead of the federal level “will assist policymakers in efforts to expand access to both wireline and wireless broadband services” and will “dovetail with executive and legislative branch efforts to enhance high-speed internet access.”

In addition to seeking comment on the new language proposed as Chapter 77, relating to pole attachments, the

PUC is seeking comment from the regulated community on numerous, specific issues affecting pole attachments. As noted in the PUC's Executive Summary of this proposal, the issues include:

... the coordination of the FCC's development of its regulations with [PUC] enforcement, the character and potential number of pole attachment adjudications before the [PUC], the development of streamlined dispute resolution procedures, and the creation of a pole attachment registry with the [PUC].

Given the number of issues identified by the PUC and the diverse responses provided by the regulated community, we question the need for the rulemaking at this time. Commentators have provided valuable input on the pros and cons of incorporating the FCC regulations by reference as they currently stand and as they may be amended. A particular concern noted by commentators is the fact that the FCC has significantly amended its regulations twice since the PUC began this proceeding on June 14, 2018. If the PUC decides that major amendments to this rulemaking are needed to effectively expand broadband in the Commonwealth, we believe it would be in the public interest to start with a new proposed rulemaking. This would allow the regulated community an opportunity to provide input on their experiences working under the revised FCC regulations and the major amendments being considered by the PUC.

If the PUC decides to move forward with this proposal, we suggest that an Advance Notice of Final Rulemaking be issued before it delivers a final-form rulemaking. We also ask that it review and consider the recent changes to the FCC pole attachment regulations and provide a detailed explanation of why it believes the recent changes are appropriate for the Commonwealth and in the public interest.

**2. Section 77.1. Statement of purpose and preemption.—Possible conflict with or duplication of statutes or existing regulations; Clarity.**

This section includes a reference to 47 CFR 1.1401—1.1425. Since the publication of this proposal, it is our understanding the reference has changed to 47 CFR 1.1401—1.1415. We ask the PUC to ensure that the final-form rulemaking includes the correct reference to FCC regulations. We note that § 77.2, relating to applicability, § 77.4, relating to adoption of FCC regulations, and § 77.5, relating to resolution of disputes, also include that reference.

**3. Section 77.4. Adoption of Federal Communications Commission regulations.—Statutory authority; Implementation procedures; Reasonableness.**

This section adopts the federal regulations noted above and includes the phrase "... inclusive of future changes as those regulations may be amended." This provision has generated significant interest from the regulated community. Most commentators agree with the PUC that adoption of the federal rules would be beneficial to the Commonwealth, but disagree on how that adoption should take place. Some believe that automatic adoption of future amendments, as proposed, is appropriate. They cite to examples of other Commonwealth agency and PUC regulations that use a similar approach to incorporating federal regulations. Others believe that the automatic adoption is not consistent with the Pennsylvania statutes that govern the rulemaking process. Finally, some believe that automatic adoption of unknown amendments would not be in the public interest of the Commonwealth. These commentators believe Pennsylvania businesses and indi-

viduals affected by future amendments should have the opportunity to participate in the rulemaking process for regulations that directly and uniquely affect them. They would be in favor of the PUC initiating its own rulemaking proceeding to adopt future FCC amendments of its pole attachment regulations.

We have two concerns. First, while the PUC may impose requirements already mandated by the federal government, the automatic adoption of all future, and consequently unknown, requirements may be an improper delegation of the agency's statutory authority. Further, new obligations may be imposed without members of the regulated community and other parties having the opportunity for public comment as provided in the Commonwealth Documents Law (45 P.S. §§ 1102—1208) and the RRA.

Second, the Preamble to this rulemaking explains the rationale for its "turn-key" approach to adopting existing FCC pole attachment regulations, but does not explain the rationale associated with automatically adopting future amendments to FCC pole attachment regulations. In the Preamble to the final-form rulemaking, we ask the PUC to explain its rationale for including language that automatically adopts future changes to FCC pole attachment regulations without being vetted through the regulatory review process of the Commonwealth.

**4. Section 77.5. Resolution of disputes.—Implementation procedures; Need; Clarity.**

This section provides direction on how mediation and formal complaints will be adjudicated under Chapter 77. We have two concerns. First, Subsection (a) permits parties subject to this Chapter to utilize PUC complaint and adjudicative procedures found in its existing regulations to resolve disputes or terminate controversies. Subsection (b) states that parties before the PUC shall employ the procedural requirements of the FCC pole attachment regulations "except where silent or in cases of conflict" where the PUC regulations will control. A commentator has stated that it will be difficult for parties to determine the sections that are silent or do not control. We ask the PUC to explain how it will implement Subsection (b) in the Preamble to the final-form regulation.

Second, Subsection (c) reads as follows:

When exercising authority under this Chapter the [PUC] will consider Federal Communications Commission orders promulgating and interpreting Federal pole attachment rules and Federal court decisions reviewing those rules and interpretations as persuasive authority in construing the provisions of 47 U.S.C. § 224 and 47 CFR 1.1401—1.1425.

We do not have a particular concern with this subsection, but ask for clarification of the intent of it compared to the following sentence from the PUC's response to Question # 10 of the RAF. The sentence reads as follows: "If adopted, Chapter 77 will provide stakeholders with the opportunity to access the [PUC's] adjudicatory resources and to develop precedent relevant to the challenges of broadband development in Pennsylvania." (Emphasis added.) If the rulemaking is adopted and implemented, will the adjudicatory functions and processes of the PUC look to Federal decisions and precedent to resolve disputes as required by Subsection (c), or will the PUC look to precedent it develops over the years as it adjudicates these matters? We ask the PUC to explain its intent in the Preamble to the final-form regulation.

**5. Compliance with the provisions of the Regulatory Review Act or the regulations of the Commission in promulgating the regulation; Fiscal impact.**

When this Commission is reviewing a rulemaking to determine if it is in the public interest, we look at the proposed language in the Annex, the promulgating agency's description of the rulemaking in the Preamble, and the information provided by the promulgating agency in the RAF. The information requested in the RAF is required by the RRA and this Commission's regulations. We acknowledge that the PUC is seeking input on the potential number of pole attachment adjudications and potential workload increase for PUC staff. However, a quantification of the potential fiscal impact of a proposed rulemaking is required to be provided in RAF Questions # 19, 20, 21 and 23. If and when the PUC returns this rulemaking in final-form, we ask that the RAF identify the number of pole attachment adjudications it expects, the costs associated with adjudicating a dispute for both parties of a dispute, and the costs to adjudicate a dispute for the PUC.

In addition, we ask the PUC to provide additional information related to how this rulemaking compares to other states as required by Question # 12 of the RAF. What other states have exercised "reverse-preemption" under the Telecommunication Act of 1996? For states that have exercised this power, have they taken a "turn-key" approach or have they modified the federal rules in some manner? For the states that adopted the federal rules, how many of them automatically adopt future FCC rule changes automatically?

Finally, we ask the PUC to identify the type and number of small businesses that will be affected by the regulation as required by Question # 15 of the RAF.

**Bureau of Professional and Occupational Affairs  
Regulation # 16A-60  
(IRRC # 3220)**

**Expungement; Fees**

**January 9, 2019**

We submit for your consideration the following comments on the proposed rulemaking published in the November 10, 2018 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Bureau of Professional and Occupational Affairs (Bureau) to respond to all comments received from us or any other source.

**1. Section 43b.101. Definitions.—Statutory authority and whether the regulation conforms to the intention of the General Assembly and Clarity.**

"Expunge or expungement"

The Bureau defines "expunge or expungement" as the "Removal of a disciplinary record from a licensee's record accomplished by (1) permanently sealing the affected record from public access; (2) deeming the proceedings to which the affected record refers as not having occurred; and (3) except with respect to any subsequent application for expungement, affording the affected party the right to represent that *no disciplinary record exists regarding the matter.*" (Emphasis added)

Act 6 defines "expunge or expungement" as the "Removal of a disciplinary record, accomplished by:

(1) Permanently sealing the affected record from public access;

(2) Deeming the proceedings to which the affected record refers as not having occurred; and

(3) Except with respect to any subsequent application for expungement, affording the affected party the right to represent that *no record exists regarding the subject matter of the affected record.*" (Emphasis added)

The Bureau proposes to exclude the phrase "of the affected record" from the definition of "expunge or expungement." The Bureau should explain in the Preamble to the final-form regulation how the definition is consistent with the statute and why the phrase regarding the affected record is unnecessary.

**2. Section 43b.103. Application for expungement.—Statutory authority and whether the regulation conforms to the intention of the General Assembly.**

Under this section, a licensee may apply for expungement in accordance with the subchapter "*in the manner prescribed by the Commissioner.*" (Emphasis added) In the Preamble to the proposed rulemaking, the Bureau explains that it anticipates that licensees will apply for expungement through the Bureau's online PA Licensing System (PALS) which contains all records associated with a license, registration, certificate or permit, including all disciplinary records.

Act 6 of 2018 states that:

"The Commissioner of the Professional and Occupational Affairs shall expunge the disciplinary record of a licensee, registrant, certificate holder or permit holder if the imposition of discipline was for a violation involving failure to complete continuing education requirements or practicing for six months or less on a lapsed license, registration, certificate or permit, subject to the following:

- (i) The licensee, registrant, certificate holder or permit holder must *make written application* to the commissioner for expungement not earlier than four years from the final disposition of the disciplinary record . . . ." [Emphasis added]

The Bureau should explain how permitting licensees to apply through the Bureau's online licensing system and allowing the Commissioner to prescribe the manner in which a licensee may apply for expungement is consistent with the statute that explicitly requires a licensee, registrant or permit holder to make written application to the commissioner for expungement of certain disciplinary records.
