# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

### **How to Find Rules and Regulations**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

#### § 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

(b) To the extent that adequate resources and technical capabilities exist, a request for bulk distribution of electronic case records not publicly accessible under § 213.73 of this Policy may be fulfilled where: the information released does not identify specific individuals; the release of the information will not present a risk to personal security or privacy; and the information is being requested for a scholarly, journalistic, governmental-related, research or case preparation purpose.

(1) Requests of this type will be reviewed on a case-by-case basis.

(2) In addition to the request form, the requestor shall submit in writing:

(5) Within 10 business days of receipt of a request, the clerk of courts, **clerk of the orphans' court division**, or Magisterial District Court shall respond in writing to the requestor, all parties to the case, and Administrative Office of Pennsylvania Courts, in one of the following manners:

(i) the request does not contain sufficient information and facts to adequately determine what information is alleged to be error; accordingly, the request form is being returned to the requestor; and no further action will be taken on this matter unless the requestor resubmits the request with additional information and facts.

(ii) the request does not concern an electronic case record that is covered by this policy; accordingly, the request form is being returned to the requestor; no further action will be taken on this matter.

(iii) it has been determined that an error does exist in the electronic case record and that the information in question has been corrected.

(6) A requestor has the right to seek review of a final decision under subsection 5(i)—(v) rendered by a clerk of courts, **clerk of the orphans' court division**, or [ a ] Magisterial District Court within 10 business days of notification of that decision.

(i) The request for review shall be submitted to the District Court Administrator on a form that is designed and published by the Administrative Office of Pennsylvania Courts.

(ii) If the request for review concerns a Magisterial District Court's decision, it shall be reviewed by the judge assigned by the President Judge.

(iii) If the request for review concerns a **decision of a clerk of [ courts' decision ] courts or a clerk of the orphans' court division**, it shall be reviewed by the judge who presided over the case from which the electronic case record alleged to be in error was derived.

**§ 213.79. Continuous Availability of Policy.**

A copy of this policy shall be continuously available for public access in every court or office that is using [ the ] PACMS, CPCMS, **GTS**, and/or MDJS.

**EXPLANATORY REPORT**

**Amendments to the Electronic Case Record Public Access Policy of The Unified Judicial System of Pennsylvania**

The Administrative Office of Pennsylvania Courts is proposing amendments to Sections 1.00, 3.00, 3.10, 6.00, and 7.00 of the *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania* (Policy) to incorporate electronic case record information residing in the Guardianship Tracking System (GTS). The amendments are detailed below.

Section 1.00 has been amended to include a definition for GTS that is the Guardianship Tracking System. GTS is a statewide application for courts to manage guardianship cases and track guardian compliance with annual reporting, and an online means of filing required reports by Pennsylvania guardians. The definitions for "electronic case records" and "office" were also amended to include GTS. In addition, the office of the clerk of the orphans' court division has been added to the list of entities that are not included in the definition of "public".

Section 3.00 has been amended to provide that information maintained in GTS is not accessible by the public, except for aggregate, statistical, and/or other data that does not identify an incapacitated person, as determined by AOPC. This amendment is consistent with the provisions in the *Case Records Public Access Policy of the Unified Judicial System of Pennsylvania (Case Records Policy)* regarding individual cases, and serves to enhance the public's trust and confidence in the courts. Given the extensive financial, medical, and related sensitive information provided to a court in guardianship matters, these records are generally inaccessible pursuant to the *Case Records Public Policy* and other relevant legal authority. See e.g., 20 Pa.C.S. § 5511(a) and *In re Estate of DuPont*, 2 A.3d 516 (Pa. 2010) (Proceedings related to the appointment of guardianship for incapacitated persons shall be closed to the public upon request of the alleged incapacitated person or his/her counsel). The amendments also include a reorganization of Section 3.00 for clarity.

The abbreviation of "IRB" appearing in Section 3.10(B)(2)(e) was replaced with "relevant Institutional Review Board".

Section 6.00(C) has been amended to clarify that requests to correct an alleged error in an electronic case record in GTS must be submitted to, and responded by, the clerk of the orphans' court division. The term "clerk of the orphans' court division" includes any office performing the duties of clerk of the orphans' court division (i.e., Office of Judicial Records).

In addition, Section 7.00 has been amended to include that a copy of the Policy shall be continuously available for public access in every court or office using GTS.

# PROPOSED RULEMAKING

## ENVIRONMENTAL HEARING BOARD

[ 25 PA. CODE CH. 1021 ]

### Practice and Procedure

The Environmental Hearing Board (Board) proposes to amend Chapter 1021 (relating to practice and procedure) by amending and adding new procedural rules to read as set forth in Annex A.

The proposed procedural rules have the following objectives:

(1) To provide the regulated community, the Department of Environmental Protection (Department) and persons challenging Department actions with more specific guidance on how to represent their interests before the Board.

(2) To improve the rules of practice and procedure before the Board.

The Board considered the recommendations of the Rules Committee at its meeting on December 4, 2019, and voted to adopt all but one recommendation as set forth in Section E of this preamble.

#### A. *Effective Date*

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

#### B. *Contact Persons*

For further information, contact Maryanne Wesdock, Senior Counsel, Environmental Hearing Board, Suite 310, 301 Fifth Avenue, Pittsburgh, PA 15222, (412) 565-5245, mwesdock@pa.gov.

#### C. *Statutory Authority*

The Board has the authority under section 5(c) of the Environmental Hearing Board Act (act) (35 P.S. § 7515(c)) to adopt regulations pertaining to practice and procedure before the Board.

#### D. *Background and Purpose*

The purpose of this proposed rulemaking is to improve practice and procedure before the Board. These proposed amendments are based on the recommendations of the Board's Rules Committee, a nine-member advisory committee created by section 5(a) and (c) of the act to make recommendations to the Board on its rules of practice and procedure. Under section 5(c), regulations "shall be promulgated by the Board upon a majority affirmative vote on the recommended regulations."

#### E. *Summary of Proposed Regulations*

##### § 1021.21. *Representation*

The existing rule explains the pro hac vice procedure for corporate parties. Proposed § 1021.21(b) explains that corporate parties may be represented by an attorney in good standing and admitted to practice before the highest court of another state on a motion pro hac vice filed by a Pennsylvania attorney. Because any party, not corporate parties, may be represented by an out-of-State attorney on a motion pro hac vice, the Rules Committee recommends deleting this language from subsection (b) and creating a new paragraph at subsection (d) to explain that any party may be represented by an out-of-state attorney with the filing of a motion pro hac vice.

The Rules Committee also recommends deleting the language "admitted to practice before the Supreme Court of Pennsylvania" from subsection (b) since, as noted, a party may be represented by an attorney admitted to practice before the highest court of another state on a motion pro hac vice.

Previous subsection (d) is proposed to be relettered to (e).

Former subsection (d), now (e), is proposed to be amended to reflect the addition of a new subsection. Instead of stating that subsections (a) through (c) supersede 1 Pa. Code §§ 31.21—31.23 (relating to appearance in person; appearance by attorney; and other representation prohibited at hearings), it states that subsections (a) through (d) supersede those sections.

##### § 1021.32. *Filing*

Proposed § 1021.32(c)(11), dealing with electronic filing, is being amended to delete the reference to WordPerfect since the Board's electronic filing system no longer supports WordPerfect. In addition, a comment is being added to this rule to notify attorneys and pro se appellants who register for electronic filing that they may not file electronically until their registration is approved by the Board; when registration occurs during non-business hours, approval of the registration will not occur until the next business day.

##### § 1021.34. *Service by a party*

Proposed § 1021.34(a) is being amended to correct an incorrect reference to § 1021.51(h) (relating to commencement, form and content). The correct reference should be § 1021.51.

##### § 1021.35. *Date of service*

Proposed § 1021.35(b)(3) is being amended to change the reference from "days" to "calendar days" to eliminate a potential inconsistency when read in conjunction with the Board's rule on computation of time, § 1021.13 (relating to computation of time). Under § 1021.13, periods of time are calculated to exclude Saturdays, Sundays and legal holidays when the final day in a period of time falls on one of those days. Subsection (b)(3) in its current form provides that documents served by mail are deemed served "3 days" after the document is mailed for purposes of calculating an applicable response time. The change in subsection (b)(3) to "3 calendar days" makes it clear that, if a motion is served by mail on a Wednesday, the 30-day response time begins to run from Saturday, and not the following Monday (or Tuesday if there is a Monday legal holiday). "Calendar days" resolves the ambiguity that could cause confusion over when a response is due to a motion served by mail, while honoring the intent of the rule to allow time for a document to travel by mail and ensuring that motion practice is not needlessly prolonged.

##### § 1021.51. *Commencement, form and content*

Proposed § 1021.51(c) is being amended to state that the notice of appeal must be signed by the appellant(s) when the appellant is not represented by an attorney. The existing rule states that it must be signed by a "party." However, since the only party that may sign a notice of appeal is an appellant, the Rules Committee recommends using the term "appellant" rather than "party."

The Rules Committee also recommends replacing the term "attorney of record" with "attorney." At the time a notice of appeal is filed there is no attorney "of record" since the notice of appeal is the document that initiates an appeal.

§ 1021.53a. *Nunc pro tunc* appeals

The current rule states as follows:

The Board upon written request and for good cause shown may grant leave for the filing of an appeal nunc pro tunc; the standards applicable to what constitutes good cause shall be the common law standards applicable in analogous cases in courts of common pleas in this Commonwealth.

Based on the recommendations of the Rules Committee, proposed § 1021.53a is being substantially amended to set forth the procedure for seeking leave to file an appeal nunc pro tunc and for responding to a request to appeal nunc pro tunc.

Discussions on this topic began at the Rules Committee meeting of November 9, 2017. At that meeting, a member of the Rules Committee raised a comment regarding § 1021.53a, noting that the existing version of the rule discusses what the Board considers in granting an appeal nunc pro tunc, but it provides no direction on what type of document should be filed to request leave to appeal nunc pro tunc. Nor does the rule state whether the Department may file a response in opposition. At the Rules Committee meeting of September 18, 2018, it was reported that since 2010 the Board had issued 21 opinions dealing with requests to appeal nunc pro tunc. The Rules Committee agreed that clearer, more comprehensive guidelines on the nunc pro tunc procedure would be helpful.

The drafter of the rule researched other courts' procedures for filing nunc pro tunc appeals, particularly courts of common pleas. The drafter's research indicated that not many courts have formal, written instructions. However, the drafter discovered that the Chester County Court of Common Pleas has a rule that provided a good model for the drafting of the Board's rule. In drafting the rule, the individual relied on the Chester County rule, the Board's rule on supersedeas petitions in § 1021.61 (relating to general) and the Board's general rule on motions in § 1021.91 (relating to general).

Discussions continued on this topic for several meetings until a final draft of the rule was approved by the Rules Committee at its meeting of March 14, 2019. To see the discussion and evolution of the proposed nunc pro tunc rule, one may view the minutes of Rules Committee meetings from November 9, 2017, to March 14, 2019, available on the Board's web site at <https://ehb.courtapps.com/public/rulesCommitteeMinutes.php>.

The proposed amendments to § 1021.53a would add subsections (b) through (i) containing the following requirements:

(b) A person seeking to appeal nunc pro tunc shall file a petition to appeal nunc pro tunc. If filed after a dispositive motion that seeks to dismiss an appeal as untimely, the filing of the petition stays the deadlines for filing a response or reply concerning the motion. The Board will issue deadlines for filing a response and reply if the Board grants the petition and the dispositive motion addresses issues in addition to untimeliness.

(c) The petition to appeal nunc pro tunc shall comply with the requirements set forth for "motions" in § 1021.91 (relating to general), and, in addition, shall include the following:

(1) The specific facts that the potential appellant would attempt to prove at hearing to show that nunc pro tunc relief is warranted.

(2) The specific facts that the potential appellant would attempt to prove showing that it acted promptly in seeking nunc pro tunc relief.

(3) Copies of all documents and a list of all witnesses that the potential appellant relies upon in support of the petition to appeal nunc pro tunc.

(4) Any legal authority and theories the potential appellant relies upon in seeking nunc pro tunc relief.

(5) A sworn affidavit of the person or persons having knowledge of the facts that the facts are verified as true and correct, or an unsworn written statement of such person or persons, that the facts are verified as true and correct subject to the penalties for unsworn falsification to authorities, under 18 Pa.C.S. § 4904 (relating to unsworn falsification to authorities).

(6) If the petition to appeal nunc pro tunc is not supported by an affidavit or verification as set forth in paragraph (5), an explanation of why the affidavit or verification was omitted.

(d) Responses to petitions to appeal nunc pro tunc shall comply with the requirements set forth for "responses" in § 1021.91. Unless otherwise ordered by the Board, the response shall be filed within 15 days of the date of service of the petition.

(e) A memorandum of law in support of the petition or response may be filed with the petition or response.

(f) The potential appellant may not file a reply unless the Board orders otherwise.

(g) The Board may schedule a hearing on whether nunc pro tunc relief is appropriate.

(h) If the petition to appeal nunc pro tunc is granted, the notice of appeal will be treated as though it were timely filed.

(i) If the petition to appeal nunc pro tunc is denied, the notice of appeal will be dismissed as untimely.

§ 1021.94a. *Summary judgment motions*

Proposed § 1021.94a(h) is being amended to require a table of contents for briefs longer than 30 pages.

§ 1021.106. *Voluntary Mediation*

Proposed § 1021.106(d) is being amended to require that the report of the mediator must set forth whether the mediation has been successful or has a likelihood of success if allowed to continue. The existing rule requires the mediator's report to set forth "the history of mediation activities." The Rules Committee felt that the existing language is vague. Based on feedback from the Board's Judges regarding what should be contained in a mediator's report, the Rules Committee recommended deleting "the history of mediation activities" and replacing it with "whether the mediation has been successful or has a likelihood of success if the mediation process continues to proceed."

§ 1021.131. *Post hearing briefs*

Proposed § 1021.131(a) is being amended to require a table of contents in post hearing briefs.

§ 1021.141. *Termination of proceedings*

A majority of the Rules Committee recommended adding the following language to § 1021.141(b), related to settlement agreements: "Findings contained in a settlement agreement shall supersede Findings set forth by the Department of Environmental Protection in the action

that is the subject of the appeal.” The vote of the Rules Committee was not unanimous, with one member voting against the proposed amendment. At its December 4, 2019 meeting, by a vote of 4-1, the Board voted not to approve the proposed amendment; rather, it remanded the matter to the Rules Committee for further review and discussion.

In summary, the Board concurred with the recommendations of the Rules Committee set forth in the previous paragraphs of this preamble. It did not concur with the recommendation of the Rules Committee as set forth in § 1021.141 and remanded the proposal to the Rules Committee for further review.

F. *Benefits, Costs, Compliance and Paperwork*

*Benefits*

The proposed amendments are likely to provide a benefit to parties appearing before the Board because they will further clarify the Board’s rules of practice and procedure.

*Costs*

STATE REGISTRATION BOARD OF PROFESSIONAL ENGINEERS, LAND SURVEYORS AND GEOLOGISTS

[ 49 PA. CODE CH. 37 ]

Licensure by Endorsement

The State Registration Board for Professional Engineers, Land Surveyors and Geologists (Board) proposes to amend Chapter 37 (relating to State Registration Board for Professional Engineers, Land Surveyors and Geologists) by amending § 37.1 (relating to definitions) and adding §§ 37.20 and 37.20a (relating to licensure by endorsement; and provisional endorsement licensure) to read as set forth in Annex A.

Effective Date

The amendments will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

Section 3111 of 63 Pa.C.S. (relating to licensure by endorsement) requires licensing boards and commissions to issue a license, certificate, registration or permit to an applicant to allow practice in this Commonwealth provided the applicant meets the following criteria: holds a current license, certificate, registration or permit from

another state, territory or country whose licensing requirements are substantially equivalent to or exceed the requirements in this Commonwealth; demonstrates competency; has not committed any act that constitutes grounds for refusal, suspension or revocation of a license, certificate, registration or permit to practice that profession or occupation in this Commonwealth, unless the board or commission determines such conduct is not an impediment to granting the license, certificate, registration or permit; is in good standing and has not been disciplined by the jurisdiction that issued the license, certificate, registration or permit, unless the board or commission determines such conduct is not an impediment to granting the license, certificate, registration or permit; and the applicant pays fees, as established by regulation. Additionally, 63 Pa.C.S. § 3111 authorizes boards and commissions to issue a provisional license, certificate, registration, or permit while an applicant is satisfying remaining requirements for licensure by endorsement, for which the Board must set by regulation the terms of expiration. Additionally, section 4(l) of the Engineer, Land Surveyor and Geologist Registration Law (act) (63 P.S. § 151(l)) authorizes the Board to adopt and promulgate administrative rules and regulations, not inconsistent with the act, as are deemed necessary and proper by the Board to carry into effect the powers conferred by the act.

The act of July 1, 2020, (P.L. 575, No. 53) added 63 Pa.C.S. § 3111 as part of the consolidation of the act of July 2, 1993 (P.L. 345, No. 48) (Act 48) into 63 Pa.C.S. Chapter 31 (relating to powers and duties). The text of 63 Pa.C.S. § 3111 was originally added to Act 48 by the act of July 1, 2019 (P.L. 292, No. 41).

Background and Need for the Amendments

This proposed rulemaking is needed to effectuate 63 Pa.C.S. § 3111, which requires the Board to issue a license to applicants who meet the requirements for licensure by endorsement as set forth in 63 Pa.C.S. § 3111. Under 63 Pa.C.S. § 3111, the Board must determine whether standards for licensure are substantially equivalent to or exceed those established by the Board. Additionally, 63 Pa.C.S. § 3111 requires the Board to determine the methods of competency, including completion of continuing education or experience in the profession or occupation for at least 2 of the 5 years preceding the date of the application, and must establish, by regulation, the expiration of provisional endorsement license. This proposed rulemaking sets forth the criteria for eligibility for licensure by endorsement, including the specific methods required for an applicant to demonstrate competency as well as requirements for granting a provisional endorsement license. The Board determined that its existing fee for certification, licensure or registration of \$50 as set forth under § 37.17 (relating to schedule of fees) is a fair and sufficient fee for a licensure by endorsement application; therefore, the Board is adopting this existing fee and not proposing a separate fee for licensure by endorsement.

Description of the Proposed Amendments

The Board proposes to amend § 37.1 by adding a definition of the term "jurisdiction" consistent with 63 Pa.C.S. § 3111.

The Board proposes to add § 37.20 which requires an applicant to satisfy six criteria required for licensure by endorsement. The first criterion, as set forth in proposed subsection (a)(1), requires an applicant to provide proof of

a current license, certification, registration or permit in good standing to practice in another jurisdiction whose standards are substantially equivalent to those established by the Board under sections 4.2—4.4 of the act (63 P.S. § 151.2—151.4) regarding procedures for licensing as a professional engineer, professional geologist and professional land surveyor and §§ 37.31—37.49. Proposed subsection (a)(1) further requires an applicant to submit a copy of the current applicable law, regulation or other rule governing licensure, certification, registration or permit requirements and scope of practice in the jurisdiction that issued the license, certificate, registration or permit. This proposed rulemaking would also require that the copy of the applicable law, regulation or other rule include the enactment date. Additionally, because 63 Pa.C.S. § 3111 is applicable to territories and other countries that use languages other than English, where the applicable law, regulation or other rule is in a language other than English, the Board would require, at the applicant's expense, translation of the applicable law, regulation or other rule by a professional translation service.

Proposed subsection (a)(2) requires demonstration of competency. Under this provision, an applicant must provide proof of competency by demonstrating either experience in the practice of the profession or completion of professional development hours. To demonstrate competency by experience, an applicant must demonstrate active engagement in the practice of engineering, geology or land surveying, as applicable, for at least 2 of the 5 years immediately preceding the date of the application in the jurisdiction that issued the license, certificate, registration or permit. To demonstrate competency through completion of continuing education (referred to as professional development hours under the act), an applicant must submit proof of completion of 24 hours professional development hours which meets the requirements of section 4.5 of the act (63 P.S. § 151.5) regarding continuing professional competency requirements. Professional development hours must be completed during the 24 months immediately preceding the date of the application. The Board proposes completion of the professional development hours within 24 months immediately preceding the date of the application because a 24-month limitation correlates with the Board's biennial renewal requirements.

Proposed subsection (a)(3) and (4) incorporates the statutory prohibitions in 63 Pa.C.S. § 3111 pertaining to conduct that would constitute grounds for refusal, suspension or revocation of a license, certificate, registration or permit to practice the profession or occupation, and prior discipline by the jurisdiction that issued the license. As authorized by 63 Pa.C.S. § 3111(a)(3) and (4), § 37.20(c) gives the Board the discretion to determine that an act prohibited by § 37.20(a)(3) or (4) are not impediments to the granting of a license, certification, registration or a permit.

Proposed subsection (a)(5) provides for payment of an application fee, as required by 63 Pa.C.S. § 3111(a)(5). The applicable fee for licensure by endorsement under 63 Pa.C.S. § 3111 is the initial application fee in § 37.17 of the Board's current fee schedule of \$50.

Finally, proposed subsection (a)(6) requires applicants to apply for licensure in accordance with Chapter 37 in the manner and format prescribed by the Board.

In proposed § 37.20(b), the Board may require a personal interview or additional information to assist the Board in determining eligibility and competency. When a personal interview is necessary, to the extent practicable,

the Board intends to offer flexibility in the manner in which an interview is conducted to include video teleconferencing.

In proposed § 37.20(c), the Board may in its discretion determine that an act prohibited under section 4(g) of the act or disciplinary action by a jurisdiction are not impediments to licensure. Also, consistent with 63 Pa.C.S. § 3111(a)(3) and (4), proposed § 37.20(c) authorizes the Board, in its discretion, to determine that an act prohibited under section 4(g) of the act or disciplinary action by a jurisdiction are not impediments to the granting of a license, certification, registration or a permit by endorsement under 63 Pa.C.S. § 3111.

Consistent with 63 Pa.C.S. § 3111(b), proposed § 37.20a(a) provides that the Board, in its discretion, may issue a provisional endorsement license while an applicant is satisfying remaining requirements under 63 Pa.C.S. § 3111 and proposed § 37.20.

Proposed § 37.20a(b) sets the expiration of a provisional endorsement license at 1 year, unless the Board determines that an expiration date of less than 1 year is appropriate. Additionally, upon a written request, the Board may extend the term of the license upon a showing of good cause.

Proposed § 37.20a(c) sets forth reasons for which a provisional endorsement license will be terminated by the Board, including when the Board denies a license or the provisional endorsement licensee fails to comply with the terms of a provisional endorsement license.

Finally, proposed § 37.20a(d) clarifies that while an individual may reapply for a license by endorsement under proposed § 37.20, the Board will not issue a subsequent provisional endorsement license to an applicant who previously held a provisional endorsement license that expired or was terminated.

Lastly, under proposed § 37.20a(e), the Board makes clear that holders of provisional endorsement licenses must follow the rules governing the proper use of a registrant's seal as set forth under section 7 of the act (63 P.S. § 154) and §§ 37.57—37.59 (relating to registration number; seal; and use of seal).

#### *Fiscal Impact and Paperwork Requirements*

This proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The costs to the Board related to processing applications for licensure by endorsement will be recouped through fees paid by applicants. Applicants who apply for licensure by endorsement will be impacted by the \$50 certificate, licensure or registration application fee in § 37.17 and may incur expenses relating to completing professional development hours if they choose to demonstrate competency in this manner. Applicants who demonstrate competency through experience will have to pay the \$50 initial application fee.

#### *Sunset Date*

The Board continuously monitors the cost effectiveness of the Board regulations. Therefore, no sunset date has been assigned.

#### *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on April 6, 2021, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee (HPLC) and

the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC). A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b) which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor.

#### *Public Comment*

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to the Board Counsel, State Registration Board for Professional Engineers, Land Surveyors and Geologists, P.O. Box 69523, Harrisburg, PA 17106-9523 or by e-mail at RA-STRegulatoryCounsel@pa.gov within 30 days of publication of this proposed rulemaking in the *Pennsylvania Bulletin*. This notice establishes the standards and requirements for the Program. It establishes the process by which grant applications will be solicited and reviewed, and by which grants will be awarded, drawing on up to \$1 million in funding made available by the Department in Fiscal Year (FY) 2020-2021.

For this year of the Program, the Department is soliciting applications that fulfill the general objectives of the act, as described as follows. ## DEPARTMENT OF BANKING AND SECURITIES

### Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May 2021

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of May 2021, is 4 1/2%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 2.06 to which was added 2.50 percentage points for a total of 4.56 that by law is rounded off to the nearest quarter at 4 1/2%.

## DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

### Manufactured Home Community Rights Act; Maximum Relocation Fees Payable in the Event of Community Closure

Section 11.2(c) of the Manufactured Home Community Rights Act (act) (68 P.S. § 398.11.2(c)) requires that the Department of Community and Economic Development annually adjust relocation fees that may be owed to manufactured home owners in the event that the community closes. The fees are adjusted based on an increase on the Consumer Price Index.

The base amount of this fee in effect for calendar year 2013 was \$4,000 for single section manufactured homes and \$6,000 for multisection manufactured homes. The Consumer Price Index Inflation Calculator as provided by the United States Department of Labor adjusts the fees for calendar year 2021 as follows:

- \$4,543.72 for single section manufactured homes
- \$6,815.58 for multisection manufactured homes

Inquiries regarding the act should be directed to the Office of the Attorney General.

#### THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

#### APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit [www.dep.pa.gov](http://www.dep.pa.gov) and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

<i>Section</i>	<i>Category</i>
I	Individual and General WQM Permit Applications/NOIs Received, General NPDES Permit NOIs Received, and All Transfer and Minor Amendment Applications/NOIs Received
II	Individual NPDES Permits—New, Renewal, and Major Amendment Applications and Draft Permits for Discharges Relating to Sewage, Industrial Waste, Industrial Stormwater, MS4s, Pesticides and CAFOs
III	Individual NPDES Permit Applications for Discharges of Stormwater Associated with Construction Activity

Section I identifies the following applications and NOIs that have been received by DEP:

- Individual and General WQM Permit Applications Received—DEP provides a 15-day public comment period for Individual WQM Permit Applications for new and reissued permits. There is no public comment period for General WQM Permit NOIs.
- General NPDES Permit NOIs Received—There is no public comment period for General NPDES NOIs received.
- All Transfer and Minor Amendment Applications/NOIs Received—Transfer and Minor Amendment Applications/NOIs received for Individual and General WQM Permits and Individual and General NPDES Permits are identified but do not have public comment periods. DEP provides a 15-day public comment period for Individual WQM Permit Applications for amendments.

Additional information on these applications and NOIs may be reviewed by generating the “Applications and NOIs without Comment Periods Report” or, for Individual WQM Permit Applications, the “Applications Received with Comment Periods Report” on DEP's website at [www.dep.pa.gov/CWPublicNotice](http://www.dep.pa.gov/CWPublicNotice).

Section II identifies individual NPDES permit applications received and draft permits issued by DEP relating to sewage, industrial waste, industrial stormwater, MS4s, pesticides and CAFOs. A 30-day public comment period applies to these applications, except when a site-specific water quality criterion is used to establish effluent limitations, in which case a 45-day public comment period applies. The period for comment may be extended at the discretion of the Department for one additional 15-day period. Additional information, including links to draft permits and fact sheets that explain the basis for DEP's tentative determinations may be reviewed by generating the “Applications Received with Comment Periods Report” on DEP's website at [www.dep.pa.gov/CWPublicNotice](http://www.dep.pa.gov/CWPublicNotice). Notification of 15-day extensions for comment will be provided in the “Applications Received with Comment Periods Report” (Comments column).

Section III provides notice of applications and draft individual permits for stormwater discharges associated with construction activities. Where indicated, DEP has made tentative determinations, based on preliminary review, to issue permits subject to proposed effluent limitations consisting of best management practices identified in the erosion and sediment control (E&S) plans and post-construction stormwater management (PCSM) plans submitted with the applications, as well as other terms and conditions based on the permit applications. A 30-day public comment period applies to these applications.

Applications and NOIs may be reviewed at the DEP office that received the application or NOI. Contact information for each DEP office for Sections I & II is listed as follows. Contact information for Section III is available within the table. Members of the public are encouraged to use DEP's website to obtain additional information as discussed previously.

Comments received within the appropriate comment periods for WQM and NPDES permit applications will be retained by DEP and considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform DEP of the exact basis of a comment and the relevant facts upon which it is based.

### LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

#### UNDER ACT 2, 1995 PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with

limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

**49-00063B: Renewal Processing, Inc.** (10705 State Route 44, Watsonstown, PA 17777) for the modification of the facility's bakery waste rotary dryer to reestablish emission limitations for nitrogen oxides, carbon monoxide and particulate matter, as well as for the installation of a cartridge collector and a regenerative thermal oxidizer, at their facility to be located in Lewis Township, **Northumberland County**. The Department of Environmental Protection's (Department) review of the information submitted by Renewal Processing, Inc. indicates that the air contamination source to be modified and control devices to be installed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed modification and installation. The emissions from the proposed source included in this project will not exceed the following limits: 45.50 tons of nitrogen oxides per year, 20.65 tons of carbon monoxide per year, 8.05 tons of volatile organic compounds per year, 3.50 tons of sulfur oxides per year and 13.30 tons of particulate matter (including PM<sub>10</sub>) per year. In addition to the emission limitation, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: The rotary dryer shall not be operated more than 7,000 hours per year and the regenerative thermal oxidizer shall be maintained at a minimum operating temperature of 1,600° F at all times bakery waste materials are being processed. The facility is a State Only facility. If the Department determines that the source is modified and control devices are installed, and all operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 49-00063B, the requirements established in the plan approval will be incorporated into a State Only Operating Permit pursuant to 25 Pa. #### *Noncoal Applications Received*

*Effluent Limits*—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Table 2

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

#### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

##### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity\*

\*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

##### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the

Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*

unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The study provides for the replacement of the 12-inch North Interceptor from manhole 251.1 to approximately 135 feet south of manhole 249 line with new 15-inch PVC pipe. The Department's review of the special study has not identified any significant impacts resulting from this proposal. *Plan Description:*

The approved 537 Plan calls for Lewis Township to replace the current sewage treatment plant, to construct three small extensions of public sewage, and to implement an on-lot sewage management program for those portions of the township not served by public sewage. The sewage treatment plant is to be replaced with a Virginia Initiative Wastewater Treatment Plant that will be sized

to accommodate 44,000 gallons per day of sewage flows and the three extensions of public sewage are labeled Libby Road, Stover Road East, and Stover Road West. The estimated total project cost for the selected structural alternative is estimated at \$1,701,000.00. Lewis Township, within the plan, has declared that it intends to utilize PENNVEST or RUS to finance the proposal. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts

Lewis Township Delaware	1428 Rovendale Drive Watsontown, PA 17777 P.O. Box 203 Watsontown, PA 17777	Northumberland

*Plan Description:*

The plan proposes to abandon the existing Lewis Township WWTP and regionalize with Milton Regional Sewer Authority (MRSA), and includes installation of a pump station and force main, which will travel along Susquehanna Trail, 8th Street Drive, and Vincent Avenue, before ultimately tying into an existing gravity collection and conveyance system owned and operated by MRSA and will serve: the existing Lewis Township wastewater treatment plant (WWTP) service area, which consists of seventy-two (72) residences and the Warrior Run School District campus; the Schell & Koch Road service area, which includes 19 residences; a portion of the Susquehanna Trail/Route 54 corridor containing 8 residences and commercial businesses; and twenty-five (25) to sixty-one (61) low-pressure grinder pump connections in Delaware Township. This proposal's projected cost is expected to be \$2,175,000 and the primary funding source identified is up-front revenue, which includes a maximum of \$770,000 from the Warrior Run School District, grant funding through the Commonwealth Financing Agency (CFA) Small Water & Sewer grant program and the H<sub>2</sub>O PA program, and funding through SEDA-COG. Additional financing may be obtained through PennVest in the form of a low interest loan. The submission is consistent with the planning requirements in Chapter 71 of DEP's regulations. No significant environmental or historical impacts were identified in the review of the plan.

**HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988**

**PUBLIC NOTICE OF PROPOSED CONSENT ORDER AND AGREEMENT**

**MAHANOY CITY MGP SITE, MAHANOY CITY BOROUGH, SCHUYLKILL COUNTY**

Pursuant to Section 1113 of the Pennsylvania Hazardous Sites Cleanup Act, Act of October 18, 1988, P.L. 756, No. 108, 35 P.S. §§ 6020.101—6020.1305 (HSCA), notice is hereby provided that the Pennsylvania Department of Environmental Protection (DEP) has entered into a Consent Order and Agreement (CO&A) with Clyde C. Holman and Christine A. Holman (Settlors) concerning the remedial response action to be implemented at the former Mahanoy City MGP Site (Site).

The Site includes a 0.22-acre tract of land located at 0 West Railroad Street, Mahanoy City, PA 17948 (Property). It is surrounded by residential dwellings and commercial establishments and is open and accessible to the public. The Site includes all areas where hazardous

substances or contaminants resulting from a release, or which threaten release, have come to be located. The DEP has determined that a response action is necessary, which will include an investigation of conditions at the Site, and the selection of a remedial response to be implemented at the Site.

The Settlers are each a "responsible party" as defined in Section 103 of HSCA, 35 P.S. § 6020.103. Under the terms of the CO&A, within 90 days of receipt of the DEP's accounting of its total Response costs (Cost Package), the Settlers shall allow the placement of a lien by the DEP, on the Property, in the amount set forth in the Cost Package, in settlement of its share of responsibility for the cleanup of the Site.

The specific terms of this settlement are set forth in the CO&A between the DEP and the Settlers. The DEP will receive and consider comments relating to the CO&A for sixty (60) days from the date of this Public Notice. The DEP has the right to withdraw its consent to the CO&A if the comments concerning the CO&A disclose facts or considerations which indicate that the CO&A is inappropriate, improper, or not in the public interest. After the public comment period, the DEP's settlement with Settlers shall be effective upon the date that the DEP notifies Settlers, in writing, that this Consent Order and Agreement is final and effective in its present form, and that the DEP has filed a response to significant written comments to the CO&A, or that no such comments were received.

Copies of the CO&A are available for inspection at the DEP's Northeast Regional Office. Comments may be submitted, in writing, to Scott J. Bene, Department of Environmental Protection, Hazardous Sites Cleanup, 2 Public Square, Wilkes-Barre, PA 18701. Further information may be obtained by contacting Scott J. Bene, at 570-826-2198. TDD users may contact the DEP through the Pennsylvania Hamilton Relay Services at 800-645-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site

investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

*Southeast Region: Environmental Cleanup & Brownfields Program Manager, 2 East Main Street, Norristown, PA 19401.*

**Rubinstein Properties**, 250 East Market Street, 308 East Market Street, 100 East Minor Street, and 126 South Franklin Street, West Chester, PA 19380, Borough of West Chester, **Chester County**. ## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a de-

scription of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

### PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. ### Application Period for Municipal Recycling Program Performance Grant Applications under Act 101, Section 904 of the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988; Calendar Year 2020

The Department of Environmental Protection (Department) announces a request for applications from municipalities for recycling performance grant assistance for recycling programs under section 904 of the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988 (Act 101) (53 P.S. § 4000.904). Municipalities include counties, cities, boroughs, incorporated towns, townships, home rule municipalities, their authorities, councils of governments, consortiums or similar entities established by two or more municipalities under 53 Pa.C.S. Chapter 23, Subchapter A (relating to intergovernmental cooperation). This application period is for eligible materials recycled and marketed in calendar year 2020.

Municipal Recycling Program Performance Grant (Performance Grant) funds will be awarded to municipalities based upon the weight of source-separated recyclable materials identified in section 1501(c)(1)(i) of Act 101 (53 P.S. § 4000.1501(c)(1)(i)) recovered by municipal recycling programs and the population of the municipality as determined by the most recent decennial census. Due to funding available for the Recycling Performance Grant program for calendar year 2020, the funding formula will remain the same as last year which increased individual grants by an extra 20%.

For residential tonnage, municipalities that market some or all of their own material are not subject to the 20% residue deduction for those materials. Marketed means that the materials were sold to a manufacturer for the purposes of converting the recyclables into new product. Compensation/rebates from a collector or processor do not count as the marketing of materials.

Materials that go to a second-hand processor are subject to the 20% residue deduction—weight receipts from that entity cannot be considered as market receipts for the municipality (the processor cannot prorate marketed materials to one or more municipalities).

For commercial tonnage, materials that go directly from the generator to a market can be exempt from the 20% rate. Documentation must include a statement from the commercial entity or home office of the commercial entity that the materials are directly marketed without further processing. Any commercial materials that are sorted/processed after leaving the generator are subject to the 20% residue rate.

If an application is claiming an overall residue rate of less than 20%, it must describe why and supply supporting documentation to justify the claim.

Multi-municipal applications under the Act 101, Section 904 Recycling Performance Grant Program will only be accepted by the Department from the following:

A. Council of governments, consortiums or other similar entities established by two or more municipalities under 53 Pa.C.S. Chapter 23, Subchapter A.

B. Two or more municipalities where the collection of recyclables has been accomplished either through a joint

bid for services or a joint municipally-operated collection system (curbside or drop-off) accompanied by a joint recycling education program.

Any application submitted jointly to the Department by two or more municipalities that does not meet one of the previously listed criteria will be held until the participating municipalities supply individual applications. Submittals from county governments are not considered multi-municipal applications and are therefore not subject to these criteria.

Applicants who have failed to comply with the conditions set forth in previously awarded grants, the recycling program performance requirements contained in the act of November 9, 2006 (P.L. 1347, No. 140), the grant requirements of Act 101 or the regulations of Act 101 may not be awarded funds under this grant program. Applicants must ensure that they are in compliance with 25 Pa. Code § 272.314(b)(2) (relating to limits on Department's authority to award grants).

Eligible materials include post-consumer: clear glass; colored glass; aluminum cans; steel and bimetallic cans; high-grade office paper; newsprint; corrugated paper; other marketable grades of paper; and plastics. Grants will be awarded only for properly documented, eligible materials that were actually marketed on or after January 1, 2020, to and including December 31, 2020. Applicants should only claim those tonnages for which they have documentation at the time they complete their application. Any residues, materials not listed as eligible or materials that cannot be documented as being generated within the municipality or marketed or recycled into new products or uses are not eligible for consideration toward the grant. In particular, recovered glass that is being stockpiled or used as daily cover at a landfill will not be considered as recycled. Applicants must be able to document the amount of residue attributable to their recycling program.

Documentation to support all claims that eligible recyclable materials were generated within the municipality and marketed must be made available for auditing by the Department, the Office of the Auditor General, the Office of the Treasurer or agents of those offices for 4 years. The Department will not require applicants to retain hauler customer lists; however, the lists may be required to be examined in the event of an audit. It will be the applicant's responsibility to arrange for hauler customer lists to be provided, or for haulers to be present with their customer lists, during a grant audit.

Supporting documentation is not required to be submitted with the application. Any tonnages not properly documented at the time of an audit will not be credited towards the applicant's Performance Grant award. No additional/supplemental documentation will be accepted after the audit is completed. Failure to submit a complete and accurate application may result in a denial of the application.

Grant applications must be submitted through the Commonwealth's Electronic Single Application web site, eGrants, at [www.esa.dced.state.pa.us](http://www.esa.dced.state.pa.us). Applications must be received by 5 p.m. on December 30, 2021, to be eligible for funding. Applications will not be accepted after the deadline. All grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101 (53 P.S. §§ 4000.701 and 4000.702) and the availability of monies in the Recycling Fund.

Inquiries concerning this notice can be directed to Mark Vottero, Bureau of Waste Management, Department of

Environmental Protection, Rachel Carson State Office Building, P.O. Box 8472, Harrisburg, PA 17105-8472 or mvottero@pa.gov.

### Watershed Planning and Restoration Grants through the Section 319 Nonpoint Source Management Program; Request for Applications

As part of the Department of Environmental Protection’s (Department) section 319 Nonpoint Source Management Grants Program, applications will soon be accepted for watershed planning and restoration grants. Funded in part by the United States Environmental Protection Agency under section 319(h) of the Federal Clean Water Act (33 U.S.C.A. § 1329(h)), the Department administers a grant program to fund watershed projects that are part of approved watershed implementation plans (WIP). The grants are designed to improve and protect waters in this Commonwealth from nonpoint source pollution associated with agricultural activities, abandoned mine drainage (AMD), stormwater runoff, energy resource extraction, and streambank and shoreline degradation.

Eligible applicants include incorporated watershed associations, counties or municipalities, county conservation districts, council of governments or other authorized organizations including nonprofit organizations, educational institutions and municipal authorities.

The Department is focusing these grants on projects that reduce nonpoint source pollution in targeted watersheds with WIPs, especially projects that reduce nitrogen, phosphorous and sediment pollution from agricultural and stormwater runoff, along with AMD-related pollution from iron, aluminum and acidity. The Department is particularly interested in projects that implement effective Best Management Practices (BMP) that reduce or eliminate stream impairments within WIP areas, leading to local water quality improvements.

Examples of eligible projects include design and construction of BMPs, including riparian forest buffers, streambank fencing, agricultural erosion and sediment control, and nutrient and manure management practices; animal waste storage systems, animal concentration area/animal heavy use area protection and barnyard runoff controls; design and construction of stormwater control measures; AMD treatment systems; and other projects that will reduce nonpoint source pollution in watersheds where streams are impaired.

## PHILADELPHIA PARKING AUTHORITY

### Taxicab Rate Review; Request for Public Comment; Doc. No. P-21-03-01

On March 31, 2021, the Philadelphia Parking Authority (Authority) approved, through Authority Order No. 21-003 (Order), the recommendation of the Taxicab and Limousine Division (TLD) to reopen a rate review investigation under a Petition for Rate Change (Petition) that was filed with the TLD on March 8, 2021. The Order and the Petition may be obtained on the Authority's web site at [www.philapark.org/tld](http://www.philapark.org/tld).

Now, based upon the Petition and the TLD's recommendation to the Authority, the TLD seeks written comment from the public at large and the industry concerning the reopening of a rate review, including but not limited to:

(1) To allow for an upfront pricing model, that is, a flexible fare, outside of the taxicab tariff and meter, through a smartphone application associated with an

Authority approved taxicab meter system, to provide to passengers with a binding upfront fare quote of the requested trip versus calculating a running fare during a trip.

(2) An upfront pricing model based upon an algorithm of live and historical trip data, including metered fares, traffic and wait times.

(3) Drivers will receive an upfront fare offer that will include, at minimum, the pickup location and the flat fare being offered.

(4) A driver's ability to refuse the requested trips using an upfront pricing model.

(5) Any other requests are outlined in the Petition.

Interested parties are invited to submit written comments no later than May 7, 2021, to the attention of Christine A. Kirlin, Esq., Director, Taxicab and Limousine Division, at [ckirlin@philapark.org](mailto:ckirlin@philapark.org) or by mail to Christine Kirlin, Philadelphia Parking Authority, Taxicab and Limousine Division, 2415 South Swanson Street, Philadelphia, PA 19148-4113.

During this comment period, the TLD will also begin to conduct its own investigation concerning the aforementioned items of this rate review.

The TLD appreciates input concerning this matter.
