READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pacodeandbulletin.gov.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Whereas, On August 31, 2021, the Governor issued a proclamation declaring a disaster emergency in response to the aftereffects of Hurricane Ida; and

Whereas, In the proclamation declaring a disaster emergency, the Governor declared that Hurricane Ida had the potential to cause widespread and heavy rain throughout this Commonwealth, which in turn posed a serious threat of severe flash flooding and other adverse impacts throughout this Commonwealth; and

Whereas, The remnants of Hurricane Ida brought historic rainfall to Pennsylvania, causing record flooding in many places around this Commonwealth; and

Whereas, Flooding was particularly present in the southeastern region of this Commonwealth, some of which surpassed record flood levels, including reports ranging from five to eight inches of rain, which caused significant damage to homes, businesses and public infrastructure, while significantly threatening and disrupting lives and displacing families; and

Whereas, Scranton saw its second wettest day on record and Harrisburg and Altoona recorded their third wettest day on record; and

Whereas, As a result of flooding and damaging winds, a total of 389 roads were closed across this Commonwealth, while downed trees and limbs disrupted utilities, leaving more than 15 major interstates, roadways and expressways closed; and

Whereas, Recovery efforts in response to the damage caused by Hurricane Ida remain ongoing and will continue for the foreseeable future; therefore be it

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Proposed Exchange of Property

The Department of Conservation and Natural Resources (Department), acting through the Bureau of Forestry (Bureau), and Tracey A. Peters are proposing to negotiate an exchange of property interests in Greene Township, Clinton County and Spring Township, Centre County.

The proposed exchange involves approximately 2-acres of State forest land, which surrounds the site of a State forest camp lease, located in Spring Township, Centre County in exchange to the Commonwealth of a 4-acre tract located in Greene Township, Clinton County (the Bull Run Tract). There is no infrastructure on the 4-acre Bull Run Tract. It is bound on the west by State Route 477 and the east by mostly existing State forest land. The property shares a joint boundary with State forest land for approximately 3/10-mile and provides improved protection of water quality in the Fishing Creek watershed and protection of habitat for species of concern. The

acreage balance is strongly in favor of the Commonwealth and therefore makes this proposed transaction justified as equal or greater value for the Commonwealth. The proposed exchange will further consolidate public ownership of this forested landscape and is consistent with the Bureau's land acquisition goals.

As is the policy of the Department, the public is hereby notified of this proposed exchange. A 30-day period for public inquiry or comment will be in effect beginning October 2, 2021, and ending October 31, 2021. Oral or written comments or questions concerning this proposed exchange may be addressed to Tom Stahl, Planning Section, Bureau of Forestry, P.O. Box 8552, Harrisburg, PA 17105-8552, thstahl@pa.gov, (717) 772-0268. Oral or written comments will become part of the official document used in the final decision process. Written documents are also available regarding the proposed land exchange by request.

If, in the duration of the 30-day comment period, a significant amount of public concern develops, the Secretary of the Department may schedule a public informational meeting.

DEPARTMENT OF EDUCATION

Designation of School Districts to Receive Duquesne City School District's Junior and Senior High School Students

The Duquesne City School District (Duquesne) eliminated its senior high school program in 2007. Section 14 of the act of July 20, 2007 (P.L. 278, No. 45) (Act 45) governed the reassignment of Duquesne's senior high school students until Act 45 was declared unconstitutional by the Commonwealth Court in 2010. In part, Act 45 authorized the Secretary of Education to designate two or more school districts to accept Duquesne's high school students. Under Act 45, then-Secretary of Education Gerald Zahorchak designated the East Allegheny School District (East Allegheny) and the West Mifflin Area School District (West Mifflin) to accept Duquesne's senior high school students on a tuition basis.

Shortly after Act 45 was struck down, the act of November 23, 2010 (P.L. 1350, No. 123) (Act 123) was enacted. The enactment of Act 123 resulted in significant amendments to section 1607 of the Public School Code of 1949 (School Code) (24 P.S. § 16-1607). Section 1607 of

the School Code authorizes the Secretary of Education to designate two or more school districts to accept Duquesne's high school students. When Act 123 was enacted, East Allegheny and West Mifflin were designated to continue to accept Duquesne's senior high school students.

In 2012, Duquesne sought and received the approval of the Department of Education (Department) to alter/curtail its junior high school program (grades 7 and 8). Accordingly, on July 9, 2012, East Allegheny and West Mifflin were designated to also accept Duquesne's junior high school students under section 1607 of the School Code. Beginning with the 2021-2022 school year, Duquesne has reconfigured and will again operate a 7th grade program.

For the 2021-2022 school year, the designation of East Allegheny and West Mifflin to accept Duquesne's 8—12 grade students remained unchanged.

As required under section 1607(d) of the School Code, the Department provides the following information regarding the assignment of Duquesne's 8—12 grade students to East Allegheny and West Mifflin.

Assignment of Students

- Students entering grades 8, 9, 10, 11 or 12 shall be assigned to the same district to which they were assigned during the previous school year.
- Private, religious or charter school students who are residents of Duquesne and who wish to enroll in Duquesne and attend East Allegheny or West Mifflin must register as Duquesne students at the Duquesne Education Center to be assigned to either East Allegheny or West Mifflin.
- Students transferring into Duquesne will be given a choice between East Allegheny and West Mifflin and will be assigned to the district they choose.

Per Pupil Tuition Rate

The per pupil tuition rate that the designated districts shall receive for the 2021-2022 school year is \$14,978.36.

RESIDUAL WASTE GENERAL PERMITS

Application(s) Determined to be Administratively Complete Under the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003); the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P.S. § 4000.101—4000.1904); and Residual Waste Regulations for a General Permit to Operate Residual Waste Processing Facilities and the Beneficial Use of Residual Waste other than Coal Ash.

Central Office: Division of Municipal and Residual Waste, Rachel Carson State Office Building, 14th Floor, 400 Market Street, Harrisburg, PA 17105-8472.

General Permit No. WMGR159. Boral Resource, LLC (Boral), 10701 South River Front Parkway, South Jordan, UT 84095. This application is for a modification to the Statewide general permit, WMGR159.

The current project is located at Boral Montour Plant, 18 McMichael Road, Washingtonville, PA 17884, Derry Township, **Montour County**. General Permit No. WMGR159 is for the processing of waste coal ash that has been disposed of in a residual waste landfill and the beneficial use of the disposed coal ash as an ingredient in the manufacturing of concrete. The disposed coal ash will be processed by drying, screening, and crushing.

Three similar applications for modifications to WMGR159 have been submitted by the following companies: Boral, Separation Technologies LLC (101 Hampton Ave, Needham, MA), and the Commonwealth of Pennsyl-

vania's Department of Corrections (2500 Lisburn Road, Camp Hill, PA). The proposed modifications to the base general permit are to:

- Add "manufacturing of concrete masonry units" as a new authorized beneficial use of coal ash;
- Revise the sampling and analysis requirements for the processed ash; and
- Add additional processing technologies, such as electrostatic separation, and fly ash mechanical sizing and drying.

A de-wasting provision will be considered as part of the final modifications to WMGR159. The de-wasting provision would follow the procedures in 25 Pa. Code § 287.7 (relating to determination that a material is no longer a waste), which requires a demonstration that the waste material does not harm or present a threat of harm to public health, safety, welfare, or the environment. The de-wasting provision would be contingent upon the ash material being properly stored onsite, either indoors or in a silo, and the ash material being sold to, distributed to, or under contract with, an end user. AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating

Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Philadelphia: Air Management Services, 321 University Avenue, Philadelphia, PA 19104-4543.

Contact: Edward Wiener, Chief, Source Registration at 215-685-9426.

The City of Philadelphia, Air Management Services (AMS) intends to issue a Plan Approval for installation of air pollution sources at the following facility:

IP20-000143: Northeast Water Pollution Control Plant (3899 Richmond Street, Philadelphia, PA 19137-1415) for the installation of new air emission sources at a water pollution control plant, in the City of Philadelphia, **Philadelphia County**, and modification of AMS Plan Approval No. IP17-000101 issued April 5, 2017 for a Gravity Thickener Facility (GTF) and Odor Control Facility at the same plant. The new air emission sources that are part of the Plan Approval are one (1) Preliminary Treatment Facility (PTF) for the Frankford High Level Interceptor System with the capacity to process up to 300 million gallons per day of influent flow and two (2) odor control systems each with a biotrickling scrubber (BTS) and a carbon adsorber. The potential emission from the installation are as follows: 2.20 tons per year (tpy) of Volatile Organic Compound (VOC) from the new PTF & Odor Control Systems and 1.51 tpy of VOC from the existing GTF and Odor Control Facility.

The modifications to AMS Plan Approval No. IP17-000101 include the following:

1. In Table 2, updated the information regarding source description, rated capacity, and the type of material processed.
2. In Condition B.2, updated the requirement of 25 Pa. Code § 123.31(b).
3. Added Condition B.3 to add the VOC emissions limit from the GTF of 1.51 tons per rolling 12-month period.
4. Updated Conditions B.5 and B.5.(a) to specify the requirement to treat the odorous air from the gravity thickener tanks and the thickened sludge wet wells tanks using the biofilter systems before releasing into the atmosphere, except during periods of shutdown for system maintenance and troubleshooting. However, the facility must continue to comply with the odor requirements in Condition B.2 and VOC emission limit in Condition B.3.
5. Replaced the conditions with the monitoring and recordkeeping requirement for the pH range of the filter media in the biofilter system with monitoring and recordkeeping requirement for maintaining proper humidification in the biofilter system in Conditions B.7, B.8.(c), and B.9.(d).
6. Replaced the requirement to monitor and record the weekly H₂S emission using a handheld H₂S analyzer with the requirement to monitor and record the H₂S emission using weekly olfactory observations around the system to detect H₂S emission as recommended by the manufacturer in Conditions B.8.(d) and B.9.(e).
7. Removed Condition 8 of the Plan Approval No. IP17-000101 since the project is completed.
8. Added Conditions B.8.(a) and B.9.(b) to require monitoring and recording monthly verification of compli-

ance with the combined VOC emission limit in Condition B.3 using Toxchem modeling software.

9. Added Condition B.9.(a) to require record of maintenance conducted on the GTF and the biofilter systems.

10. Added Condition B.9.(f) to require records of the periods of shutdown for maintenance and troubleshooting of the biofilter systems.

The plan approval will contain operating, monitoring, and recordkeeping requirements to ensure operation within all applicable requirements.

The plan approval will be issued 25 Pa. Code, Philadelphia Code Title 3, and Air Management Regulation XIII. Permit copies and other supporting information are available for public inspection at AMS, 321 University Avenue, Philadelphia, PA 19104. For further information, contact Edward Wiener at (215) 685-9426.

Persons wishing to file protest, comments, or request a public hearing on the previously listed plan approval must submit the protest, comments, or request for a public hearing within 30 days from the date of this notice. Any protests or comments filed with AMS must include a concise statement of the objections to the permit issuance and the relevant facts upon which the objections are based. Based upon the information received during the public comment period, AMS may modify the plan approval or schedule a public hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a local newspaper at least thirty days before the hearing.

36-03121F: Intellicor LLC (3575 Hempland Road, Lancaster, PA 17601) for the operation of an existing heatset web lithographic printing press with a natural gas dryer in West Hempfield Township, **Lancaster County**. The dryers are rated at 2.2 mmBtu/hr and the press is controlled by a regenerative thermal oxidizer (RTO). Potential emissions from the press are estimated to be 0.54 tpy CO, 0.65 tpy NO_x, 0.05 tpy PM₁₀, 0.05 tpy PM_{2.5}, 0.00 tpy SO_x, and 3.83 tpy VOC. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1, 127.12, 123.13, 123.21 and 129.67b. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an operating permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

11-00536A: CPV Fairview, LLC (50 Braintree Hill Office Park, Suite 300, Braintree, MA 02184) pursuant to

25 Pa. Code §§ 127.44—127.46 for intent to issue a modification to the Air Quality plan approval for the CPV Fairview Energy Center (facility), a combined-cycle electric generating station located at 2862 William Penn Avenue, Johnstown, PA 15909, a Title V facility in Jackson Township, **Cambria County**. The proposed modification includes an increase in the hours of operation of the duct burners associated with the two (2) combined-cycle generating units at the facility. Additional changes to the plan approval include a reduction in the frequency of natural gas sulfur content sampling from weekly to monthly; a reduction in the combustion turbine short-term VOC emissions limit from 1.9 ppmvd to 1.75 ppmvd; removal of conditions and sources related to the use of ultra-low sulfur diesel (ULSD) fuel as back-up in the combustion turbines; and corrections to the units of measure and averaging period for the greenhouse gas (GHG) emissions rate limits applicable to the generating units.

The net increases in potential to emit (PTE) associated with the proposed modification will not exceed 17.0 tons of carbon monoxide (CO) and 98,000 tons of greenhouse gases (GHGs) as carbon dioxide equivalents (CO_{2e}), per year. The proposed modification will also result in net decreases in PTE of 15.9 tons of nitrogen oxides (NO_x), 1.4 tons of volatile organic compounds (VOCs), 1.9 tons of sulfur dioxide (SO₂), 16.0 tons of total particulate matter (PM), 16.0 tons of particulate matter with an aerodynamic diameter less than 10 microns (PM₁₀), 15.9 tons of particulate matter with an aerodynamic diameter less than 2.5 microns (PM_{2.5}), and 1.0 ton of total hazardous air pollutants (HAPs), per year.

The change in emissions at the facility is such that it does not trigger the requirements of 40 CFR 52.21 related to Prevention of Significant Deterioration (PSD), or those of 25 Pa. Code Chapter 127, Subchapter E related to Nonattainment New Source Review (NSR).

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES)

Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

To install 27,000 LF of a 12" natural gas pipeline and a 16" waterline to connect the proposed Wildcat Well Pad to an existing riser on the Beacon Pipeline. The project is in Greene and Whiteley Township, **Greene County**, Pittsburgh USACE district, (Garards Ford Quadrangle). The pipelines will cross seven streams and five wetlands. Greylock is also proposing to cross seven streams and ten wetlands with temporary road crossings. General Permit 5's, General Permit 8's and Chapter 105 Waiver 2's will be registered for all crossings, besides the crossing of Wetland 3. A Joint Permit Application (JPA) was submitted for the crossing of Wetland 3, due to Wetland 3 being part of a wetland system that is greater than 10 acres and a temporary road crossing that exceeds 200 feet in length. Wetland 3 was delineated as a Palustrine Emergent wetland and is located at Latitude: 39.8205 Longitude: -80.0667. The installation of the pipelines will permanently impact 0.25 acre of Wetland 3 and the temporary road crossing will temporarily impact 0.08 acre of Wetland 3.

The repair will remove a total of 131 LF of stream channel and temporarily impact an additional 14 LF of stream channel and 0.3 acre of floodway. The stream is designated as a UNT to Enlow Fork and is a Warm Water Fishery (WWF). The repair is located in Morris Township, **Greene County**, Pittsburgh USACE District at Latitude: 39.971334, Longitude: -80.380060 (Wind Ridge Quadrangle).

The streams are both UNTs to Middle Wheeling Creek and are designated as Warm Water Fisheries (WWF). The wetland that will be impacted during the monitoring is designated as a Palustrine Emergent (PEM). The proposed project will permanently impact 101 LF (426 sq. ft.) of stream channel with the installation of flume pipes and temporarily impact approximately 164 LF (848 sq. ft.) of stream channel throughout the monitoring process. The project will also temporarily impact 0.03 acre of the PEM wetland and 0.30 acre of floodway. The pipeline will be exposed for approximately five months. Once the monitoring is completed the resources will be restored to original contours. The monitoring is located in Donegal Township, **Washington County**, Pittsburgh USACE District, at Latitude: 40.076379 Longitude: -80.510523 (Claysville and Valley Grove Quadrangle).

DEP Bureau of Clean Water (BCW)—400 Market Street, Harrisburg, PA 17105. File Review Coordinator: 717.787.5017. Email: RA-EPNPDES_Permits@pa.gov.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Hamilton Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description:

Approval of a revision to the official plan of the City of Lancaster, Lancaster County has been issued. This action is a result of the review of a planning module for the Queen & Frederick Streets Mixed Use Development (DEP Code No. A3-36001-252-3; APS ID No. 1044073). The proposed development—to be located at 572 North Queen Street in Lancaster—consists of mixed-use buildings including 244 apartment units, a restaurant, a clubhouse, commercial retail space, and a medical office building, with combined sewage flows totaling 74,277 gallons per day. The Department's review of the plan revision has not identified any significant impacts resulting from this proposal.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted Under the Pennsylvania Sewage Facilities Act, Act of January 24, 1966, P.L. 1535, as amended, 35 P.S. § 750.5.

Plan Location:

Township	Township Address	County
Walker Township	9698 William Penn Highway Thompsontown, PA 17094	Juniata

Plan Description:

The exemption from the requirement to revise the Official Plan for the Daniel Allen Subdivision, DEP Code No. A3-34917-225-2E, APS Id 1047482, is disapproved. The proposed subdivision consists of three new single-family residential lots to utilize individual on-lot sewage disposal systems. The proposed subdivision is located on William Penn Highway in Walker Township. This plan is disapproved because it does not qualify as an exemption from the requirement to revise the Official Plan. It does

not qualify because the subdivision proposes the use of on-lot sewage disposal systems in an area within 1/4 mile of water supplies documented to exceed 5 PPM nitrate-nitrogen as per Chapter 71 § 71.51(b)(1)(ii). It also does not qualify because the subdivision proposes the use of on-lot sewage disposal systems in an area underlain by carbonate geology as per Chapter 71 § 71.51(b)(1)(ii).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program man-

ager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

REQUEST FOR COMMENT

Proposed Alternative Restoration Plan for the Baken Creek Watershed in Perry County.

Central Office: Bureau of Clean Water, P.O. Box 8774, Harrisburg, PA 17105-8774.

The Department of Environmental Protection (DEP) will accept comments on the proposed Alternative Restoration Plan (ARP) developed for the **Baken Creek Watershed in Perry County**. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included stream segments listed as impaired for aquatic life in the watershed. The impairments addressed by this document were listed as being caused by excessive siltation due to removal of riparian vegetation. By restoring this watershed, it is hoped to not only improve water quality locally, but also to improve conditions within the downstream areas of Shermans Creek. Shermans Creek is noted for its "exceptional value" and "high quality" existing uses as well hosting a historic, and perhaps extant, hellbender (*Cryptobranchus alleganiensis alleganiensis*) population.

The ARP approach was chosen as a temporary alternative to the development of a Total Maximum Daily Load (TMDL). An ARP is currently a better option for this watershed because it not only sets a pollution reduction goal, but it also lays out a comprehensive plan for restoration. DEP plans on partnering with the Perry County Conservation District as primary stakeholders to implement the plan. Funding is proposed to be sought under Section 319 of the Clean Water Act among other sources. If the restoration plan fails to result in delisting of the siltation impairments, a TMDL per section 303(d) of the Clean Water Act would be needed in the future.

Currently, there are no State or Federal in-stream numerical water quality criteria for sediment. Therefore, the Department utilized a reference watershed approach to propose an allowable load per the narrative criteria. The allowable load included allocations for natural sources, nonpoint pollution sources, as well as an uncertainty factor. Nonpoint source load allocations were made for cropland, hay/pasture land, and streambank source sectors present in the watershed. Data used in establishing the allowable load were primarily generated using a water quality analysis model (Model My Watershed) made available through the Stroud Water Research Center.

The following table shows the estimated current sediment loading within the watershed, the prescribed allowable load value and % reductions needed under annual average conditions.

<i>Summary of Prescribed Load Reductions (expressed as annual averages) in the Baken Creek Watershed</i>				
<i>Watershed</i>	<i>Pollutant</i>	<i>Existing Load (lbs/yr)</i>	<i>Allowable Load (lbs/yr)</i>	<i>% Reduction</i>
Baken Creek	Sediment	1,187,527	594,788	50

An analysis of Best Management Practice (BMP) opportunities indicated that sediment loading in the watershed could be reduced beyond the reduction goal. Key BMPs included agricultural erosion and sedimentation plan implementation, use of precision grass filter strips along drainageways, streambank stabilization/restoration, the use of conservation tillage and the use of riparian buffers.

The proposed ARP document can be viewed at: <http://www.dep.state.pa.us/dep/deputate/watermgt/wqp/wqstandards/tmdl/BakenCreekARP.pdf>.

Otherwise, copies of the proposed ARP document or supporting information may be requested by emailing Michael Morris at michamorri@pa.gov or calling him at 717-772-5670.

Written/typed comments will be accepted at the above email address. While emailed comments are preferable, written comments may also be sent by mail to:

Stream Redesignation Evaluation of Chester Creek and Reynolds Run; Water Quality Standards Review

Under 25 Pa. Code § 93.4d (relating to processing of petitions, evaluations and assessments to change a designated use) the Department of Environmental Protection (Department) gives notice that evaluations will be conducted on the stream sections listed to determine the proper protected use designation in this Commonwealth's Water Quality Standards (WQS).

<i>Stream Name</i>	<i>County</i>	<i>Tributary to</i>
Chester Creek	Chester	Delaware River
Reynolds Run	Lancaster	Octoraro Creek

On July 11, 2020, the Commonwealth adopted revisions to its WQS regulations at 25 Pa. Code Chapter 93 (relating to water quality standards), and its toxics management strategy—statement of policy at 25 Pa. Code Chapter 16 (relating to water quality toxics management strategy—statement of policy), published at 50 Pa.B. 3426 (July 11, 2020). Under section 303 of the Federal Clean Water Act (act) (33 U.S.C.A. § 1313) and Federal regulations at 40 CFR Part 131 (relating to water quality standards), these revisions were submitted to the United States Environmental Protection Agency (EPA), Region 3, for review. The EPA approved the WQS revisions with exceptions that include:

- The revision to the designated use for Chester Creek (locally known as Goose Creek) in 25 Pa. Code § 93.9g (relating to Drainage List G).
- The revision to the designated use for Reynolds Run in 25 Pa. Code § 93.9o (relating to Drainage List O).

The adopted revisions to these waterbodies changed the designated use of Chester Creek in Chester County from

Trout Stocking (TS), Migratory Fish to Warm Water Fishes and the designated use for Reynolds Run in Lancaster County from High Quality Waters (HQ), Cold Water Fishes to HQ, TS.

In accordance with 40 CFR 131.10(j)(2) (relating to designation of uses), a state must conduct a use attainability analysis (UAA) whenever the state “wishes to remove a designated use that is specified in section 101(a)(2) of the act, to remove a sub-category of such a use, or to designate a sub-category of such a use that requires criteria less stringent than previously applicable.” The revisions to Chester Creek and Reynolds Run would require some criteria that are less stringent than those previously applicable.

To initiate the UAA, the Department is requesting that persons who have technical data concerning the water quality, instream habitat or biological condition of these stream sections make the data available to the Department for consideration in these evaluations. Following the review of data and the application of the UAA, notice of draft reports which present the results of these evaluations will be provided with an opportunity for public review and comment. Public comments on the draft report will be addressed in a final report. The final report will be submitted to the EPA for review.

Data can be submitted by e-mail to mbrickner@pa.gov or by mail to Mark Brickner, Water Quality Division, Bureau of Clean Water, P.O. Box 8774, Harrisburg, PA 17105-8774. Data should be submitted by Monday, November 1, 2021. Questions concerning this evaluation can be directed to Mark Brickner at mbrickner@pa.gov or (717) 787-9637.

Persons in need of accommodations as provided for in the Americans with Disabilities Act of 1990 should contact Mark Brickner directly at (717) 787-9637, or through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users) to discuss how the Department may accommodate their needs.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Cancellation of Certificates of Public Convenience for Motor Carriers; Failure to Maintain Evidence of Insurance

Public Meeting held
September 15, 2021

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; David W. Sweet, Vice Chairperson; John F. Coleman, Jr.; Ralph V. Yanora

*Cancellation of Certificates of Public Convenience for
Motor Carriers; Failure to Maintain Evidence of
Insurance; M-2021-3028299*

Tentative Order

By the Commission:

Pursuant to Section 512 of the Public Utility Code, 66 Pa.C.S. § 512, the Commission is authorized to prescribe appropriate insurance requirements for motor carriers. Section 512 provides, in relevant part:

The commission may, as to motor carriers, prescribe, by regulation or order, such requirements as it may deem necessary for the protection of persons or property of their patrons and the public, including the filing of surety bonds, the carrying of insurance, or the qualifications and conditions under which such carriers may act as self-insurers with respect to such matters. All motor carriers of passengers... shall cover each and every vehicle, transporting such passengers, with a public liability insurance policy or a surety bond issued by an insurance carrier, or a bonding company authorized to do business in this Commonwealth, in such amounts as the commission may prescribe. . . .

Consistent with this broad statutory charge, the Commission promulgated regulations governing motor carrier insurance requirements. 52 Pa. Code Chapter 32. Those regulations provide, inter alia, that a motor carrier may not operate, and a certificate of public convenience will not be issued or remain in force, until there has been filed with and approved by the Commission a certificate of insurance by an insurer authorized to do business in Pennsylvania for the payment of claims resulting from the operation, maintenance, or use of a motor vehicle in the carrier's authorized service. 52 Pa. Code §§ 32.11,

32.12. The certificate of insurance, commonly known as a Form E, is in a form prescribed and approved by the Commission and provides protection for bodily injury, death, or property damage. 52 Pa. Code § 32.2(a). Additionally, the Commission regulations require that certain carriers maintain evidence of cargo insurance via a certificate of insurance commonly known as a Form H. The Commission's regulations require that evidence of insurance be maintained at all times with the Commission to ensure the protection of the public:

(h) *Compliance.* Failure to maintain evidence of insurance on file with the Commission in accordance with this chapter shall cause the immediate suspension of the rights and privileges conferred by a certificate of public convenience or permit held by the motor carrier. The Commission may establish rules under which suspended rights and privileges may be temporarily reinstated pending compliance with this chapter.

52 Pa. Code § 32.2(h).

The Commission has been notified that the motor carriers listed in Appendix A, attached hereto, no longer have acceptable evidence of insurance on file with the Commission. The Commission sent all carriers a letter notifying them that their operating authority was suspended. Since the date of the suspensions, these motor carriers have failed to provide acceptable evidence of insurance, notwithstanding notification by the Commission of the suspension and the necessity to provide acceptable evidence of insurance.

Under these circumstances, we tentatively conclude that the motor carriers listed in Appendix A are not in compliance with the insurance requirements of 66 Pa.C.S. § 512 and our regulations at 52 Pa. Code Chapter 32. As such, it is appropriate to initiate the process to cancel their certificates of public convenience as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Certificates of Public Convenience of each motor carrier listed in Appendix A is hereby tentatively approved as being in the public interest.

2. That the Law Bureau shall publish a copy of this Tentative Order in the *Pennsylvania Bulletin*.

3. To the extent they challenge cancellation of the Certificates of Public Convenience, all parties listed in Appendix A, must file comments within thirty (30) days after publication in the *Pennsylvania Bulletin*. To file comments, you must either efile them by opening and using an efile account through the Commission's website at www.puc.pa.gov. In the alternative, you may file comments by sending them by overnight delivery to the Pennsylvania Public Utility Commission, Attn: Secretary Rosemary Chiavetta, Commonwealth Keystone Building, 400 North Street, 2nd Floor, Harrisburg, PA 17120. Retain the tracking information as proof of submission. Filings made by fax or email are not acceptable and will be rejected.

4. Alternatively, acceptable evidence of insurance may be filed with the Commission on behalf of the motor carriers listed in Appendix A, within thirty (30) days after publication of this order in the *Pennsylvania Bulletin*.

Motor carriers listed in Appendix A who desire to continue operations should immediately contact their insurance agents to secure compliance with Commission insurance requirements. It is the motor carrier's responsi-

bility to ensure compliance. Motor carriers can verify their insurance status at our web site at <https://www.puc.pa.gov/search/utility-authority-search/>.

Additionally, motor carriers may call our insurance hotline at (717) 787-1227 for more information.

5. Absent the timely filing of comments challenging the cancellation of the Certificate of Public Convenience or the timely filing of acceptable evidence of insurance, the Bureau of Technical Utility Services shall prepare a Secretarial Letter for issuance by the Secretary's Bureau canceling the carrier's applicable Certificate of Public Convenience. The Secretarial Letter shall direct the Department of Transportation to suspend the carrier's vehicle registration(s) consistent with 75 Pa.C.S. § 1375.

6. Upon issuance of the Secretarial Letter described in Ordering Paragraph No. 5 above, the applicable Certificate of Public Convenience of each non-compliant carrier shall be cancelled.

7. The Secretary serve a copy of the Secretarial Letter upon the Commission's Bureau of Investigation and Enforcement, Bureau of Technical Utility Services, Bureau of Administration, the Department of Revenue—Bureau of Corporation Taxes and the Department of Transportation.

ROSEMARY CHIAVETTA,
Secretary
