READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at www.pacodeandbulletin.gov.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

DEPARTMENT OF BANKING AND SECURITIES

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of November 2021

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of November 2021, is 4 1/4%.

The interest rate limitations under the Commonwealth's usury statute were pre-empted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further pre-emption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate

limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board or the United States Treasury, or both. The latest yield rate on long-term government securities is 1.72 to which was added 2.50 percentage points for a total of 4.22 that by law is rounded off to the nearest quarter at 4 1/4%.

Applications, Actions and Special Notices

APPLICATIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS UNDER THE CLEAN STREAMS LAW AND FEDERAL CLEAN WATER ACT

This notice provides information about persons who have applied to the Department of Environmental Protection (DEP) for a new, renewed, or amended NPDES or WQM permit, or a permit waiver for certain stormwater discharges, or have submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications and NOIs concern, but are not limited to, effluent discharges from sewage treatment facilities and industrial facilities to surface waters or groundwater; stormwater discharges associated with industrial activity (industrial stormwater), construction activity (construction stormwater), and municipal separate storm sewer systems (MS4s); the application of pesticides; the operation of

Concentrated Animal Feeding Operations (CAFOs); and the construction of sewage, industrial waste, and manure storage, collection and treatment facilities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376). More information on the types of NPDES and WQM permits that are available can be found on DEP's website (visit www.dep.pa.gov and select Businesses, Water, Bureau of Clean Water, Wastewater Management, and NPDES and WQM Permitting Programs).

<i>Section</i>	<i>Category</i>
I	Individual and General WQM Permit Applications/NOIs Received, General NPDES Permit NOIs Received, and All Transfer and Minor Amendment Applications/NOIs Received
II	Individual NPDES Permits—New, Renewal, and Major Amendment Applications and Draft Permits for Discharges Relating to Sewage, Industrial Waste, Industrial Stormwater, MS4s, Pesticides and CAFOs
III	Individual NPDES Permit Applications for Discharges of Stormwater Associated with Construction Activity

Section I identifies the following applications and NOIs that have been received by DEP:

- Individual and General WQM Permit Applications Received—DEP provides a 15-day public comment period for Individual WQM Permit Applications for new and reissued permits. There is no public comment period for General WQM Permit NOIs.
- General NPDES Permit NOIs Received—There is no public comment period for General NPDES NOIs received.
- All Transfer and Minor Amendment Applications/NOIs Received—Transfer and Minor Amendment Applications/NOIs received for Individual and General WQM Permits and Individual and General NPDES Permits are identified but do not have public comment periods. DEP provides a 15-day public comment period for Individual WQM Permit Applications for amendments.

Additional information on these applications and NOIs may be reviewed by generating the “Applications and NOIs without Comment Periods Report” or, for Individual WQM Permit Applications, the “Applications Received with Comment Periods Report” on DEP's website at www.dep.pa.gov/CWPublicNotice.

Section II identifies individual NPDES permit applications received and draft permits issued by DEP relating to sewage, industrial waste, industrial stormwater, MS4s, pesticides and CAFOs. A 30-day public comment period applies to these applications, except when a site-specific water quality criterion is used to establish effluent limitations, in which case a 45-day public comment period applies. The period for comment may be extended at the discretion of the Department for one additional 15-day period. Additional information, including links to draft permits and fact sheets that explain the basis for DEP's tentative determinations may be reviewed by generating the “Applications Received with Comment Periods Report” on DEP's website at www.dep.pa.gov/CWPublicNotice. Notification of 15-day extensions for comment will be provided in the “Applications Received with Comment Periods Report” (Comments column).

Section III provides notice of applications and draft individual permits for stormwater discharges associated with construction activities. Where indicated, DEP has made tentative determinations, based on preliminary review, to issue permits subject to proposed effluent limitations consisting of best management practices identified in the erosion and sediment control (E&S) plans and post-construction stormwater management (PCSM) plans submitted with the applications, as well as other terms and conditions based on the permit applications. A 30-day public comment period applies to these applications.

Applications and NOIs may be reviewed at the DEP office that received the application or NOI. Contact information for each DEP office for Sections I & II is listed as follows. Contact information for Section III is available within the table. Members of the public are encouraged to use DEP's website to obtain additional information as discussed previously.

Comments received within the appropriate comment periods for WQM and NPDES permit applications will be retained by DEP and considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform DEP of the exact basis of a comment and the relevant facts upon which it is based.

PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed (National Pollutant Discharge Elimination System) NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at <http://www.nacdnet.org/about/districts/directory/pa.phtml> or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30-days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995
PREAMBLE 1**

**Acknowledgment of Notices of Intent to Remediate
Submitted Under the Land Recycling and Environmental
Remediation Standards Act (35 P.S.
§§ 6026.101—6026.908).**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent (NOI) to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a (NOI) to Remediate with the Department. A NOI to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as

a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified person, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a NOI to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office listed before the application. TDD users may contact the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30-days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30-days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The landowner is proposing to replace a residential septic system which requires a utility crossing over a tributary to Rapid Run. The house was built in 1962 and the septic system needs replaced. The Sewage Enforcement Officer (SEO) approved the design which requires a new tank to be installed near the house for solids and a sand mound for effluent which is sited at the edge of the property near Buffalo Road. The connecting pipeline must cross Tributary 19005 to connect the tank and sand mound. The tributary and Rapid Run are listed in the 25 Pa. Code Chapter 93 designation as Exceptional Value (EV) and supporting Migratory Fish (MF). The project is planned for the Autumn of 2021.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated

substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. TDD users may telephone the Department through the Pennsylvania Hamilton Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101–6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Stan-

dards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office. Additional floodway and floodplain

activities include roadway construction, abutment and wingwall construction on opposite sides of watercourse, existing abutment removal, channel work, and grading resulting in 2,643 square feet (0.061 acre) of additional permanent floodway impact and 1,934 square feet (0.044 acre) of 100-year floodplain impact. This activity also includes the replacement of a 24-inch CMP floodplain culvert with a 14-inch by 23-inch outfall with the placement of riprap rock apron to facilitate roadside drainage located at the west bridge approach and the placement of riprap associated with an 18-inch outfall located east of the downstream wingwall.

2. To construct and maintain diversion dike system and temporary causeway to facilitate the removal of the existing piers, removal of existing bridge and construction of proposed bridge will result in a total of 74 linear feet (2,271 square feet, 0.052 acre) of temporary watercourse impact, 3,138 square feet (0.072 acre) of temporary floodway impact, and 5,294 square feet (0.121 acre) of temporary floodplain impact.

AIR QUALITY

Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen, Notice of Public Hearing, and Notice of Intent to Issue Modified Air Quality Operating Permit 32-00055.

32-00055: In accordance with 25 Pa. Code §§ 129.96—129.100, the Pennsylvania Department of Environmental Protection (DEP) has made a preliminary determination to approve an alternative Reasonably Available Control Technology (RACT II) plan and seeks an approval of an amendment to the State Implementation Plan (SIP) for **Homer City Generation L.P.**, Homer City Station located in Center Township, **Indiana County**. And in accordance with 25 Pa. Code § 127.521, the Department of Environmental Protection intends to modify the facility's Title V Operating Permit. The facility is located at 1750 Power Plant Road, Homer City, PA 15748-8009. The facility's representative to contact concerning this application is Mr. Gary Cline, Environmental Manager. His phone number is 724-479-6255. The facility's major emission sources include three coal-fired boilers. Boiler 1 and 2, each have a rated capacity of 6,792 MMBtu/hr. Boiler 3 has a rated capacity of 7,260 MMBtu/hr. The facility also has other sources including auxiliary boilers, oil-fired space heaters, emergency engines, storage and handling systems, storage tanks, coal preparation activities, and miscellaneous plant fugitives.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997, 2008 and 2015 National Ambient Air Quality Standard (NAAQS) for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised Operating Permit (32-00055) for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal; this includes the provisions of the Department's presumptive RACT II requirements in accordance with 25 Pa. Code § 129.97, as they apply to existing sources at this facility.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

- Emissions of NO_x expressed as NO₂ for Units 1 and 2 are individually limited to a maximum of 0.080 lb NO_x/MMBtu while Unit 3 is limited to a maximum of 0.07 lb NO_x/MMBtu on a daily average basis. These limits exclude, emissions during start-up, shut-down, and malfunction; operation pursuant to emergency generation required by PJM, including any necessary testing for such emergency operations; and during periods in which compliance with this emission limit would require operation of any equipment in a manner inconsistent with technological limitations, good engineering and maintenance practices, and/or good air pollution control practices for minimizing emissions.

- Emissions of NO_x expressed as NO₂ from Units 1 and 2 are individually limited to a maximum of 0.45 lb NO_x/MMBtu on a daily average basis under all operating conditions. Emissions of NO_x expressed as NO₂ from Unit

3 are limited to a maximum of 0.27 lb NO_x/MMBtu on a daily average basis under all operating conditions.

- Emissions of NO_x expressed as NO₂ from Units 1 and 2 are individually limited to a maximum 550 lbs NO_x/hr on a 30-operating day rolling average basis under all operating conditions. Emissions of NO_x expressed as NO₂ from Unit 3 are limited to a maximum 510 lbs NO_x/hr on a 30-operating day rolling average basis under all operating conditions.

- The owner or operator shall calibrate, operate, and maintain all elements of the SCR system and units in accordance with the manufacturer's specifications, in a manner consistent with good engineering and air pollution control practices when the SCR system is in use.

- The owner or operator shall maintain NO_x controls as effective as reasonably possible during startups and shutdowns.

- The owner or operator shall take steps to bring NO_x controls back into full service as quickly as practicable whenever the control equipment experiences a malfunction.

- The owner or operator shall document and report to the DEP, information regarding the cause of the malfunction and the steps for bringing the controls back.

- All operators of Boilers 1—3, SCR, and LNB shall be trained in the operation and maintenance of the unit(s) they are assigned to operate by qualified personnel

- The owner or operator shall develop, maintain, and implement an operation and maintenance plan (O&M Plan) for Boilers 1—3, Low NO_x Burner (LNB) and the SCR.

- During the first 60 days of each calendar year, the facility shall perform a catalyst activity test.

- Within 60 days of receiving the results of the catalyst activity test, the facility shall consult with the SCR catalyst vendor to monitor SCR performance in accordance with the catalyst management plans (CMPs) developed for the SCR systems. Reopening of Grant Round for Recycling Program Development and Implementation Grants under Section 902 of Act 101, Municipal Waste Plan- ning, Recycling and Waste Reduction Act of 1988

The Department of Environmental Protection (Department) has reopened the section 902 grant round to support the development of municipal recycling programs under section 902 of the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988 (Act 101) (53 P.S. § 4000.902). Applications are now being accepted. The application deadline is 5 p.m., Friday, October 29, 2021.

Municipalities eligible for recycling grants include counties, cities, boroughs, incorporated towns, townships, home rule municipalities, councils of governments, consortiums or similar entities established by two or more municipalities under 53 Pa.C.S. Chapter 23, Subchapter A (relating to intergovernmental cooperation).

Application Requirements

Municipalities who did not receive a section 902 grant award in 2020 will receive additional consideration for funding during this solicitation period. A municipality compliant with Act 101 who is eligible may apply. Applicants must be in compliance with the provisions of Act

101 and the implementing regulations, the Department's Guidelines for Proper Management of Recyclable Materials, and any previous grant contract provisions to be eligible to receive grant funding. County applicants should be in compliance with planning and other county-related provisions of Act 101. Applicants who are not in compliance with Act 101 and annual reporting requirements or the program performance recycling grant requirements of the Act of November 9, 2006 (P.L. 1347, No. 140) will not be considered. Programs must operate in compliance with their municipality's land use plan where applicable.

Municipalities are eligible for 90% funding of approved recycling program costs. Municipalities considered financially distressed by the Department of Community and Economic Development under the Municipalities Financial Recovery Act (53 P.S. §§ 11701.101—11701.712) are eligible for 100% of approved costs. Applications requesting more than \$350,000 in grant funding will not be accepted.

Applicants are required to complete the Sustainability Plan portion of the application that includes definitive actions and strategies for optimizing program self-sufficiency. The plan shall include, at a minimum, strategies for reducing costs and generating revenues, provisions for establishing incentives associated with waste reduction and recycling, mechanisms for public outreach and stakeholder input, and tracking mechanisms to document progress toward sustainability milestones until optimum sustainability is realized. The Department's technical report on Building Financially Sustainable Recycling Programs can provide assistance in developing such methods and strategies. The technical report can be found on the Department's web site at http://files.dep.state.pa.us/Waste/Recycling/RecyclingPortalFiles/Documents/fin_sust_rec.pdf. Applicants that fail to complete the Sustainability Plan portion of the application will not be considered for funding.

The following elements will receive priority for funding:

- Development and implementation of incentive-based pricing and collection programs designed to increase the quantities and types of recyclable materials and reduce the quantity of waste collected.
- Development and implementation of an organics collection or management program, or both.
- Development and implementation of multimunicipal collection, processing, or a materials marketing program, or both, where capital costs are reduced or recycling marketability is enhanced, or both, due to intergovernmental cooperation.
- Municipal recycling programs that will develop and implement methods of collection and processing of recyclable materials through source-separation, dual-stream or commingled practices. The applicant must demonstrate that these recyclable materials have value and greater marketability.

• New and innovative recycling educational programs that support the applicants' recycling collection efforts.

In addition, communities whose existing recycling programs contain the following components will receive additional consideration:

- Publicly provided or municipally contracted waste and recycling services.
- The collection of six or more of the following materials: newsprint, office paper, corrugated paper, other mar-

ketable grades of paper, aluminum cans, steel or bimetallic cans, colored glass containers, clear glass containers and plastics.

- Municipal recycling programs that are currently collecting and processing recyclable materials through source-separation, dual-stream, or commingled practices. The applicant must demonstrate that these recyclable materials have value and greater marketability.

- Incentive-based pricing and collection programs designed to increase the quantities and types of recyclable materials and reduce the quantity of waste collected.

Eligibility Requirements

Only those projects involving municipalities that have a mandatory trash collection program or projects seeking support for a residential recycling program that have a corresponding commercial recycling program will be considered for funding. Applicants seeking funds to replace curbside collection containers or collection vehicles, or both, will need to demonstrate that the new equipment will increase collection efficiencies and tonnage of materials.

Eligibility Costs

Eligible recycling program development costs include: recycling program design costs; recycling market investigations; development of recycling market commitments; development of recycling program ordinances; development of recycling public education programs; and the costs of developing contracts for procuring equipment or services necessary for the operation of the recycling program.

Eligible recycling program implementation costs include: purchasing or leasing vehicles used to collect recyclables, transporting recyclables to processing facilities or markets and vehicles used in the operation of a materials recovery facility; reusable containers for the collection or storage of recyclable materials; acquiring or renovating buildings, or both, for the processing or storage of recovered materials; equipment used to process or manufacture recyclable materials into usable products; improvements to land needed to operate a recycling facility or yard waste composting facility authorized under 25 Pa. Code § 271.103(h) (relating to permit-by-rule for municipal waste processing facilities other than for regulated medical or chemotherapeutic waste; qualifying facilities; general requirements); and the costs associated with educating the public on recycling program requirements.

Under this grant solicitation, the following will not be eligible for funding: promotional items; glass crushing equipment (unless specific marketing arrangements have been identified); vehicles equipped with compaction units (except for the sole collection of yard waste or paper fiber); and backyard composting units and public recycling containers for parks and streetscapes.

Other eligible and noneligible costs are listed in the grant application packet. Composting projects and programs will be considered to be recycling projects or programs accordingly.

A municipality must retain sole ownership of equipment or facilities funded by the grant. Funding for equipment or facilities purchased for the recycling program used for recycling and other purposes will be prorated according to its recycling use (no equipment

used for recycling less than 50% of the time will be eligible for funding). Funding for certain leaf and yard waste collection equipment may be limited according to its seasonal use. Funding for wood chipping equipment will be approved only when the equipment is part of an approved yard waste composting facility operating under the Department's guidelines and where the material is collected curbside from residents. Funding of street sweepers for the purpose of leaf collection will not be considered.

Funding may be restricted in situations where equipment or services requested through a grant application may be available from the public or private sector within the county of the applicant. Public notices may be required before the grant application may be submitted depending upon the nature of the funding request. When the municipality submits the recycling grant application to the Department, it must include proof of compliance with the notification requirements, a description of any responses received to the notice and an explanation of why the municipality has concluded that the mechanical processing equipment is not available to the program from the private sector.

Requirement for Preapplication Conference

Potential applicants must contact the appropriate Department regional planning and recycling coordinator to schedule a preapplication conference to discuss application requirements and program particulars. A list of these individuals is included at the end of this notice. Applications will be returned to municipalities that fail to schedule a preapplication conference. Grant preapplication forms are available on the Department's web site at www.dep.pa.gov (search term "Recycling Grants Financial Assistance").

Application Deadline

Grant applications must be submitted online through the Commonwealth's Electronic Single Application web site, eGrants, at www.esa.dced.state.pa.us. Applications must be received by 5 p.m., Friday, October 29, 2021, to be eligible for funding. Applications will not be accepted after the deadline. Grant awards are predicated on the receipt of recycling fees required by sections 701 and 702 of Act 101 (53 P.S. §§ 4000.701 and 4000.702) and the availability of moneys in the Recycling Fund.

DEPARTMENT OF HUMAN SERVICES

Availability of Amendments to the Office of Developmental Programs' Consolidated, Person/Family Directed Support, Community Living, and Adult Autism Waivers as Well as Rate Setting Methodology and Fee Schedule Rates for Services Impacted by Waiver Amendments

The Department of Human Services (Department) is making available for public review and comment the Office of Developmental Programs' proposed amendments to the Consolidated, Person/Family Directed Support (P/FDS), Community Living and Adult Autism waivers. The Department is also making available for public review and comment the rate setting methodology and proposed Fee Schedule Rates for services in the waivers that are impacted by the proposed amendments.

Background

Whenever substantive changes are made to an approved waiver, the Department must submit an amendment to the Centers for Medicare and Medicaid Services (CMS) for approval. The Department proposes the following substantive amendments to all four waivers effective January 1, 2022:

- Promote health, wellness and safety by allowing certain services to be provided in a hospital consistent with amendments to the Social Security Act (42 U.S.C.A. §§ 1396—1396w-6) by the Coronavirus Aid, Relief, and Economic Security Act (Pub.L. No. 116-136).

- o In the Consolidated, P/FDS and Community Living waivers, services that can be provided when a participant is hospitalized are: Supplemental Habilitation; In-Home and Community Support; Companion; Supports Broker; Supports Coordination; and Behavioral Support.

- o In the Adult Autism waiver, Specialized Skill Development Services can be provided when a participant is hospitalized.

- o Participants who receive services when hospitalized will not be disenrolled from the waiver and will not need to have waiver capacity reserved for them to allow them to reenroll in the waiver when discharged from the hospital.

- Promote self-direction, choice and control by allowing certain services to be provided directly to the participant using remote technology.

- o In the Consolidated, P/FDS and Community Living waivers, direct services that can be rendered using remote technology are: Community Participation Support; In-Home and Community Support; Companion; Behavioral Support; Supported Employment; Communication Specialist; Music Therapy; Art Therapy; Therapy Services; Consultative Nutritional Services; and Supports Broker.

- o In the Adult Autism waiver, direct services that can be rendered using remote technology are: Day Habilitation; Career Planning; Supported Employment; Specialized Skill Development; Therapies—Counseling; and Nutritional Consultation.

- Reduce duplication of services by clarifying that the waivers cannot be used to fund home accessibility durable medical equipment that is covered under the Medical Assistance State Plan.

The following proposed changes solely apply to the Consolidated, P/FDS and Community Living waivers:

- Support people with complex needs by expanding waiver eligibility for children under 22 years of age with a developmental disability due to a medically complex condition. This includes adding a new service, Family Medical Support Assistance service, and amending definitions and provider qualifications for Homemaker/Chore, Home Accessibility Adaptations, Life Sharing, Residential Habilitation and Respite services to meet the needs of these participants.

- Increase participants' access to needed vendor goods and services by allowing Supports Coordination Organizations to be Organized Health Care Delivery Systems.

- Promote independence and choice by implementing payments to providers that successfully transition participants from a licensed home where Residential Habilitation services are provided to four or fewer people to a home where Life Sharing or Supported Living services are provided.

Fee Schedule Rates

The revisions to the waivers resulted in the need for the following proposed changes to Fee Schedule Rates:

- Effective January 1, 2022, additional Fee Schedule Rates will be added for Life Sharing provided through the Consolidated waiver and for the new Family Medical Support Assistance service to support children under 22 years of age with a medically complex condition provided through the Consolidated, Community Living and P/FDS waivers.

- Effective January 1, 2022, two one-time per participant Transition to Independent Living fee schedule payments will be paid to Consolidated waiver providers that successfully transition participants from a licensed home where Residential Habilitation services are provided to four or fewer people to a home where Life Sharing or Supported Living services are provided. The first payment will be made after the new Life Sharing or Supported Living service is rendered to the participant. The second payment will be made after the participant has received 6 consecutive months of Life Sharing or Supported Living services from the provider if, the participant is still residing in the setting to which the participant transitioned and is expected to continue to reside in that location and receive the Life Sharing or Supported Living services.

- Effective 6 months after the expiration of the Federal public health emergency, two additional Fee Schedule Rates will be added for the provision of Community Participation Support using remote technology through the Consolidated, Community Living, P/FDS and Adult Autism waivers.

The proposed Fee Schedule Rates were developed using a market-based approach. The process for the development of the Fee Schedule Rates included a review of the applicable waivers service definitions and a determination

of allowable cost components which reflected costs that are reasonable, necessary and related to the service, as defined in the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (OMB Circular Uniform Guidance, December 26, 2014). The Department established the Fee Schedule Rates to fund services at a level sufficient to ensure access, encourage provider participation and promote provider choice, while at the same time ensuring cost effectiveness and fiscal accountability. The Fee Schedule Rates represent the maximum rates that the Department will pay for the service.

In developing the proposed Fee Schedule Rates, the Department evaluated and used various independent data sources, such as a Commonwealth-specific compensation study, to ensure the rates reflect the expected expenses for the delivery of the service under the waivers.

As required by 55 Pa. Code § 6100.571(b) (relating to fee schedule rates), to establish the Fee Schedule Rates the Department examined and used data relating to the following factors:

- The service needs of the individuals.
- Staff wages.
- Staff-related expenses.
- Productivity.
- Occupancy.
- Program and administration-related expenses.
- Geographic costs based on the location where the service is provided.
- Proposed service definitions in the waivers and determinations made about allowable cost components that reflect reasonable and necessary costs related to the delivery of each service.

Green Light—Go: Pennsylvania's Municipal Signal Partnership Program; Invitation to Submit Applications

Under 74 Pa.C.S. Chapter 92 (relating to traffic signals) and 75 Pa.C.S. § 9511(e.1) (relating to allocation of proceeds), the Department of Transportation (Department) established the Green Light—Go: Pennsylvania's Municipal Partnership Program, also known as the Green Light—Go Program. The Green Light—Go Program is a competitive application and reimbursement grant program whereby municipalities and metropolitan or rural planning organizations can request financial assistance for existing traffic signal maintenance and operations activities identified in 75 Pa.C.S. § 9511(e.1).

The act of July 20, 2016 (P.L. 861, No. 101) amended 74 Pa.C.S. Chapter 92 and 75 Pa.C.S. §§ 3112 and 3117 (relating to traffic-control signals; and automated red light enforcement systems in certain municipalities) and 75 Pa.C.S. § 9511 and made several changes impacting the Green Light—Go Program. Those amendments include, inter alia, changes to the definition of a "municipality" under 74 Pa.C.S. § 9201 (relating to definitions) and a change to the local match requirements. A 20% match from grantees is required under 75 Pa.C.S. § 9511(e.1)(4).

During Fiscal Year 2021-2022, it is anticipated approximately \$40 million will be available to municipalities and metropolitan or rural planning organizations for upgrading traffic signals to light-emitting diode technology and intelligent transportation applications, such as autonomous and connected vehicle-related technology, performing regional operations such as retiming, developing special event plans, monitoring traffic signals and for maintaining and operating traffic signals.

Additional information on eligible Green Light—Go Program projects and the program guidelines can be found on the Department's Traffic Signal web site at <http://www.dot.state.pa.us/signals/>, including a link to the online electronic application. Supporting documents may be attached to the online application. Only the application and supporting documents attached to the online application will be considered. Paper copies are not required.

The Department invites municipalities and metropolitan or rural planning organizations to submit electronic Green Light—Go Program applications between October 18, 2021, and January 14, 2022. Prior to application submission, applicants must complete and submit a Pre-Application Project Scoping Form to the appropriate Department Engineering District in accordance with the Green Light—Go Program Guidelines. In addition to the electronic application, applicants must update information in the Department's Traffic Signal Asset Manage-

ment System as indicated in the Green Light—Go Program guidelines posted on the Department's Traffic Signal web site.

If municipalities or metropolitan or rural planning organizations are awarded funding, all grant agreements and requests for reimbursement will be processed through the Commonwealth's eGrants system.

Questions should be directed to Michael Centi, Senior Traffic Control Specialist, Bureau of Maintenance and Operations, Department of Transportation, 400 North Street, 6th Floor, Harrisburg, PA 17120, (717) 787-5313, GLG@pa.gov.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Waiver of Regulations Regarding Service Requirements

Public Meeting held
September 15, 2021

Commissioners Present: Gladys Brown Dutrieuille, Chairperson; David W. Sweet, Vice Chairperson; John F. Coleman, Jr.; Ralph V. Yanora

Waiver of Regulations Regarding Service Requirements;
M-2021-3028321

Order

By the Commission:

On March 6, 2020, pursuant to subsection 7301(c) of the Emergency Management Services Code, 35 Pa.C.S.

§§ 7101, et seq., Governor Tom Wolf issued a Proclamation of Disaster Emergency (Proclamation) proclaiming the existence of a disaster emergency throughout the Commonwealth, which Proclamation was timely renewed throughout the last fifteen months. The Proclamation authorized and directed the suspension of “the provisions of any regulatory statute prescribing the procedures for conduct of Commonwealth business, or the orders, rules or regulations of any Commonwealth agency, if strict compliance with the provisions. . . would in any way prevent, hinder, or delay necessary action in coping with this emergency.”

In response to the COVID-19 pandemic, the Commission implemented telework for its entire staff. That meant that the physical locations of the Commission, the Keystone Building in Harrisburg as well as satellite state office buildings in Philadelphia, Pittsburgh, and elsewhere across Pennsylvania, were not in use until further direction from the Commission. This presented many challenges for the Commission, the regulated community, and the public.

Under these circumstances, it was necessary for the Commission to take additional measures to ensure continued operations. These measures were intended to prevent regulatory or statutory procedural rules from interfering with the overall conduct of Commission business during the emergency. Therefore, on March 20, 2020, Chairman Gladys Brown Dutrieuille issued an Emergency Order that provided for the suspension of regulatory and statutory deadlines under appropriate circumstances and modified filing and service requirements. The Commission unanimously ratified the March 20 Emergency Order at its March 26, 2020, Public Meeting.

Our March 26, 2020, Order provided, inter alia, that the Commission shall accept only e-filings of all documents. 52 Pa. Code § 1.4. Additionally, that Order provided that any filings containing confidential or proprietary information should be emailed to the Secretary of the Commission at rchivetta@pa.gov. Finally, and significant to our present Order, we directed that service by the Commission on parties will be exclusively electronic and service on Commission staff, as a party or otherwise, also shall be exclusively electronic.

On June 10, 2021, the Pennsylvania Legislature passed a Concurrent Resolution (HR 106) which terminated the Governor’s Proclamation originally declared on March 6, 2020, and as amended and renewed. In a related action, Governor Wolf signed into law HB 854 on June 11, 2021, which provides “temporary regulatory flexibility authority” to “Commonwealth agencies” which issued an Order suspending a regulatory statute prescribing the procedures for conduct of Commonwealth business, or an Order, rule or regulation of a Commonwealth agency which was suspended under 35 Pa.C.S § 7301(F)(1). Under HB 854, such Orders are extended until September 30, 2021, unless sooner terminated by the authority initially authorizing them.

In light of the termination of the Proclamation of Disaster Emergency and the “temporary regulatory flexibility authority” provided in HB 854, the Commission revised the March 26, 2020, Order by adopting an expiration date of September 30, 2021.

We recognize that some of the measures we implemented significantly benefitted the operational needs of the Commission, the public and the regulated community. Specifically, the electronic service requirements we adopted were essential to ensuring continued, uninterrupted

operations, providing needed flexibility. Therefore, in order to maintain that flexibility to respond to operational demands, we will waive certain regulatory service provisions, consistent with our previous actions.

Service Requirements

The Commission’s regulations governing service provide:

(C) Documents of 250 pages or less, including attachments, need not be followed by service of a hard copy to filing users who have agreed to receive electronic service. Filing users shall serve each other with a hard copy of documents that exceed 250 pages, including attachments, unless the parties otherwise agree.

(4) *Telefacsimile.* Service may be made by telefacsimile to those parties who have agreed to accept service in that manner. Documents served electronically need not be followed by service of a hard copy if the parties have so agreed.

(c) In a proceeding in which only some of the parties participate, the parties, with the authorization of the presiding officer, may limit the service of documents to parties and persons or individuals which state on the record or request in writing that they wish to be served.

(d) Subsections (a) and (b) supersede 1 Pa. Code § 33.32 (relating to service by a party).

Currently, while the Commission's physical facilities are open for business, some of the operational restraints occasioned by the pandemic remain. It is evident that the pandemic and its changing nature require certain procedural flexibility for the public, the regulated community, and the Commission. Toward this end, we will continue to permit electronic service by the Commission on all parties, regardless of whether a particular party has agreed to electronic service. An exception to this general waiver is where the Public Utility Code requires service by specified means, e.g., Section 702; or where our regulations require a specific service type, e.g., 52 Pa. Code § 3.391. Proof of electronic service shall be memorialized by the Commission on its electronic docketing system. Additionally, service on Commission staff in proceedings pending before it, whether staff is a party or otherwise, shall be exclusively electronic unless the parties agree otherwise.

Finally, we encourage all parties to use the Commission's e-filing system to the extent possible. Since the Commission now has increased access to mail delivery, any filings containing confidential or proprietary information should be sent to the Secretary by overnight delivery to ensure timely arrival. Filers should retain tracking

information as proof of submittal. Large filings containing confidential or proprietary material can also be electronically filed with the Secretary by using its Share Point File system employed during the pandemic emergency to expedite processing. Large filings should be followed by a hard copy with a flash drive or CD for the Commission's file. Filers should contact the Secretary's Bureau in advance to set up a Share Point File before submitting the filing.

The pandemic and its changing nature require certain procedural flexibility for the public, the regulated community, and the Commission. Specifically, the Commission's service requirements should be responsive to the changes necessitated by the pandemic. Our authority to waive our regulations is provided at Section 501 of the Public Utility Code.¹ Additionally, our regulations allow for waiver of procedural regulations at 52 Pa. Code §§ 1.2, 1.91, and 5.43. We reiterate that our action today is not based on the prior Proclamation of Disaster Emergency, but rather our general regulatory authority and the need for continued flexibility in response to the pandemic; *Therefore,*

It Is Ordered That:

1. The service requirements set forth in the Commission's regulations at 52 Pa. Code §§ 1.53 and 1.54 are hereby waived, consistent with this Order.

2. This waiver will expire on April 1, 2022, without further Commission action, unless renewed prior to that date.

3. The Law Bureau shall publish a copy of this Order in the *Pennsylvania Bulletin*.

ROSEMARY CHIAVETTA,
Secretary
