READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 234. RULES OF CRIMINAL PROCEDURE CHAPTER 6. TRIAL PROCEDURES IN COURT CASES

PART C(1). Impaneling Jury

(*Editor's Note:* Pa.R.Crim.P. 632 as printed in 234 Pa. Code reads "Official Note" rather than "Note.")

Rule 632. Juror Information Questionnaire.

[(A)] (a) Prior to *voir dire*:

(1) Each prospective juror shall complete and verify the standard, confidential juror information questionnaire required by [paragraph (H)] subdivision (i) of this rule, and any supplemental questionnaire provided by the court.

(2) The president judge shall designate the method for distributing and maintaining the juror information questionnaires.

(3) The trial judge and the attorneys shall receive copies of the completed questionnaires for use during *voir*

dire, and the attorneys shall be given a reasonable opportunity to examine the questionnaires.

[(B)] (b) The information provided by the jurors on the questionnaires shall be confidential and limited to use for the purpose [of jury selection only] or pursuant to subdivision (h). Except for disclosures made during *voir dire*, or unless the trial judge otherwise orders pursuant to [paragraph (F)] this] subdivision (f), non-aggregated, personally identifiable information shall only be made available to the trial judge, the defendant[(s)] and the attorney[(s)] for the defendant[(s)], and the attorney for the Commonwealth.

[(C)] (c) The original and any copies of the juror information questionnaires shall not constitute a public record.

[(D)] (d) Juror information questionnaires shall be used in conjunction with the examination of the prospective jurors conducted by the judge or counsel pursuant to Rule 631(E), or for the purposes of subdivision (h).

[(E)] (e) If the court adjourns before *voir dire* is completed, the trial judge may order that the attorneys be permitted to retain their copies of the questionnaires during the adjournment. When copies of the questionnaires are permitted to be taken from the courtroom, the copies:

(1) shall continue to be subject to the confidentiality requirements of this rule, and to the disclosure requirements of [paragraph (B)] subdivision (b); and

(2) shall not be duplicated, distributed, or published.

The trial judge may make such other order to protect the copies as is appropriate.

[(F)] (f) The original questionnaires of all impaneled jurors shall be retained in a sealed file and shall be destroyed upon completion of the jurors' service, unless otherwise ordered by the trial judge or retained for the purposes of subdivision (h). Upon completion of *voir dire*, all copies of the questionnaires shall be returned to the trial judge and destroyed, unless otherwise ordered by the trial judge at the request of the defendant[(s)], the attorney[(s)] for the defendant[(s)], or the attorney for the Commonwealth, or unless retained for the purposes of subdivision (h).

[(G)] (g) Subject to subdivision (h), [The] the original and any copies of questionnaires of all prospective jurors not impaneled or not selected for any trial shall be destroyed upon completion of the jurors' service.

(h) Nothing in this rule shall prevent judicial districts from individually electing to retain the information provided by prospective or impaneled jurors on their questionnaires for the purpose of assessing their district's juror demographics as it relates to the constitutional guarantee that juries be drawn from a representative cross-section of the community, provided that such information may only be retained or published by the districts in the aggregate and in a manner that does not contain or reveal any personally identifiable information of the prospective or impaneled jurors.

[(H)] (i) The form of the juror information questionnaire shall be as follows:

Comment

This rule requires that, prior to *voir dire* in any criminal case, the prospective jurors, including prospective alternate jurors, must complete the standard, confidential juror information questionnaire required in [paragraph (H)] subdivision (i), and that the trial judge and attorneys must automatically be given copies of the completed questionnaires in time to examine them before *voir dire* begins. Compare Rule 625, which provides that attorneys must request copies of juror qualification forms for the jurors summoned in their case.

Under [paragraph (A)(2)] subdivision (a)(2), it is intended that the president judge of each judicial district may designate procedures for submitting the questionnaire to the jurors and maintaining them upon completion. For example, some districts may choose to mail them along with their jury qualification form, while others may desire to have the questionnaire completed by the panel of prospective jurors when they report for jury service. This rule, however, mandates that the questionnaires be completed by each prospective juror to a criminal case.

Each judicial district must provide the jurors with instructions for completing the form[,] and inform them of the procedures for maintaining confidentiality of the questionnaires. It is expected that each judicial district will inform the jurors that the questionnaires will only be used for jury selection **or for the limited purposes provided in subdivision (h).**

Pursuant to [paragraph (C)] subdivision (c), the juror information questionnaire is not a public record and therefore may not be combined in one form with the qualification questionnaire required by Rule 625. However, nothing in this rule would prohibit the distribution of both questionnaires in the same mailing.

Under [paragraph (B)] subdivision (b), the **disaggregated** information provided by the jurors **that contains their individualized, personally identifiable information** is confidential and may be used only for the

purpose of jury selection. Except for disclosures made during *voir dire*, [**the**] **such** information in the completed questionnaires may not be disclosed to anyone except the trial judge, the attorneys and any persons assisting the attorneys in jury selection, such as a member of the trial team or a consultant hired to assist in jury selection, the defendant, and any court personnel designated by the judge. Even once disclosed to such persons, however, the information in the questionnaires remains confidential. **Nothing in this rule is intended to prohibit or discourage the collection and retention of aggregated juror demographic data pursuant to subdivision (h).**

Although the defendant may participate in *voir dire* and have access to information from the questionnaire, nothing in this rule is intended to allow a defendant to have a copy of the questionnaire.

[Paragraph (D)] Subdivision (d) makes it clear that juror information questionnaires are to be used in conjunction with the oral examination of the prospective jurors[,] and are not to be used as a substitute for the oral examination. Juror information questionnaires facilitate and expedite the *voir dire* examination by providing the trial judge and attorneys with basic background information about the jurors, thereby eliminating the need for many commonly asked questions. Although nothing in this rule is intended to preclude oral questioning during *voir dire*, the scope of *voir dire* is within the discretion of the trial judge. See, e.g., *Commonwealth v. McGrew*, 100 A.2d 467 (Pa. 1953) and Rule 631(E).

[Paragraph (E)] Subdivision (e) provides, upon order of the trial judge, that only attorneys in the case, subject to strict limitations imposed by the court, may retain their copies of the juror information questionnaires during adjournment.

[Paragraph (F)] Subdivision (f) provides the procedures for the collection and disposition of the original completed questionnaires and copies for impaneled jurors. Once *voir dire* is concluded, all copies of the completed questionnaires are returned to the official designated by

the president judge pursuant to [**paragraph (A)(2),] subdivision (a)(2) and destroyed promptly **or retained for the limited purposes of subdivision (h)**. The original completed questionnaires of the impaneled jury must be retained in a sealed file in the manner prescribed pursuant to [**paragraph (A)(2),] subdivision (a)(2) and destroyed upon the conclusion of the juror's service, unless the trial judge orders otherwise **or unless retained for the limited purposes of subdivision (h)**. Because the information in the questionnaires is confidential, the trial judge should only order retention of the original questionnaires under unusual circumstances. Such a circumstance would arise, for example, if the questionnaires were placed at issue for post-verdict review. In that event, the judge would order the preservation of the questionnaires in order to make them part of the appellate record. **Nothing in this rule is intended to prevent the trial or president judge, court administrator, or other relevant official from retaining the original questionnaires for the limited purposes of subdivision (h)**.****

Under [**paragraph (G)] subdivision (g), the original and any copies of the questionnaires of those jurors not impaneled and not selected for any jury must be destroyed [**without exception**] upon completion of their service **unless retained for the limited purposes of subdivision (h)**.**

There may be situations in which the attorneys and judge would want to prepare an individualized questionnaire for a particular case. In this situation, a supplemental questionnaire, **as permitted by subdivision (a)(1)**, would be used together with the standard juror information questionnaire, and the disclosure and retention provisions in [**paragraphs (B) and (F)] subdivisions (b) and (f) would apply. [*See paragraph (A)(1).*]**

**SUPREME COURT OF PENNSYLVANIA
CRIMINAL PROCEDURAL RULES COMMITTEE**

PUBLICATION REPORT

Proposed Amendment of Pa.R.Crim.P. 632

The Criminal Procedural Rules Committee is considering proposing to the Supreme Court the amendment of Pa.R.Crim.P. 632. The proposed amendment would revise the juror information questionnaire by increasing the number of categories of race and ethnicity from which a juror may choose and by including a query for gender. The rule would also be amended to explicitly permit judicial districts to retain information provided by prospective and impaneled jurors so long as such information is only retained in the aggregate.

Currently, Pa.R.Crim.P. 632(H) sets forth the juror information questionnaire. Among sections seeking biographical information, *e.g.*, name, city, and marital status, there is a section soliciting prospective jurors to identify their race. The form presents the juror with four choices: "white," "black," "Hispanic," and "other." Each choice is accompanied by a corresponding checkbox. The "other" checkbox, however, does not have an accompanying space for the juror to disclose a specific race. The questionnaire does not solicit prospective or impaneled jurors to identify their ethnicity or their gender. This current version of the juror information questionnaire containing a "race box" was first adopted in 1998. *See* 28 Pa.B. 4883 (October 3, 1998). The purpose of the questionnaire was to "reduce otherwise lengthy *voir dire* practices [] and ensure that basic information about the jurors is known to the parties." As governed by Pa.R.Crim.P. 632, the information contained in the questionnaires is made available only to the trial judge, the defendant, the defendant's attorney, and the attorney for the Commonwealth and only for the purpose of jury selection. Pa.R.Crim.P. 632(B). The questionnaires are to be returned to the judge at the completion of a juror's service and destroyed.

The Committee's review was prompted by an observation that the questionnaire's options for race and ethnicity were too limited. Additionally, the Pennsylvania Interbranch Commission for Gender, Racial and Ethnic Fairness requested that the rule be amended to permit judicial districts to retain aggregated, non-identifiable juror demographic information for the purpose of assessing that juries are drawn from a representative cross-section of the community.

With respect to increasing the number of categories of race and ethnicity from which a juror may choose, the proposed amendment was informed, in part, by the importance of gathering such information for *Batson* challenges. In *Batson v. Kentucky*, 476 U.S. 79 (1986), the Supreme Court of the United States held that "the Equal Protection Clause forbids the prosecutor to challenge potential jurors solely on account of their race or on the assumption that black jurors as a group will be unable impartially to consider the State's case against a black defendant." *Batson*, 476 U.S. at 89. *See Commonwealth v. Reid*, 99 A.3d 470, 484 (Pa. 2014). The Equal Protection Clause of the 14th Amendment to the United States Constitution forbids the exercise of peremptory challenges to potential jurors on the basis of gender or ethnicity as well. *See J.E.B. v. Alabama ex rel. T.B.*, 511 U.S. 127, 129

(1994) (“We hold that gender, like race, is an unconstitutional proxy for juror competence and impartiality.”); *Commonwealth v. Uderra*, 862 A.2d 74, 84 (Pa. 2004) (ethnicity). Beyond *Batson*, litigants have the right to be informed concerning the make-up of the jury and to be tried by a jury of their peers.

In crafting new categories, the Committee reviewed the 2020 U.S. Census questionnaire as well as the practices of other jurisdictions and courts. The Committee acknowledged that there are a variety of categories and subcategories in use based on the purpose of the data collection. Ultimately, the Committee concluded that the questionnaire should include sufficient categories of race and ethnicity for use in a *Batson* challenge and include gender to provide potentially relevant *Batson* information.

To permit the retention of data from the questionnaires, the Committee proposes subdivision (h), which would permit retention of juror data, provided the data is retained in the aggregate and in a manner that does not contain or reveal any personally identifiable information of the prospective or impaneled jurors. Please note, subdivision (h) is intended to permit the retention of this information; it is not intended to require retention. Whether that data is retained is an administrative, rather than procedural, matter.

The Committee invites all comments, concerns, and suggestions.

RULES AND REGULATIONS

Title 58—RECREATION

GAME COMMISSION

[58 PA. CODE CHS. 131 AND 135]

Preliminary Provisions; Definitions; Lands and Buildings; State Game Lands

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) at its January 28, 2023, meeting amends §§ 131.2 and 135.41 (relating to definitions; and State game lands) to restrict the operation of boats propelled by electric motors on waterways owned or controlled by the Commission to slow, no-wake speed.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 52 Pa.B. 6870 (November 5, 2022).

1. Purpose and Authority

With the advancements being made to electric marine motors and the batteries that they use, the Commission has revisited its regulations relating use of these devices on waterways owned or controlled by the Commission. Today's electric motors are more powerful than the electric motors that existed when the regulations were created. The Commission's applicable boating regulations were originally created to limit conflict with other users and the impact that gasoline motors have on the environment through pollution, gasoline spills, erosion and related issues. However, these regulations never contemplated the use of the newer high horsepower (HP) electric motors that are now available. Current costs of the newer electric motors are relatively high (Example: 50 HP electric outboard motor is currently around \$8,500, plus a matching deep cycle battery costs of around \$5,000). The Commission anticipates that, while costs of this newer technology remain high today, these costs will eventually come down and the use and availability of these devices will become more prolific. In an effort to be proactive, the Commission amends §§ 131.2 and 135.41 to restrict the operation of boats propelled by electric motors on waterways owned or controlled by the Commission to slow, no-wake speed. The Fish and Boat Commission has recently adopted similar changes to their regulations on electric motors by limiting the operation of electric motors to slow, no-wake speeds.

Section 721(a) of the code (relating to control of property) provides "The administration of all lands and waters owned, leased or otherwise controlled by the commission shall be under the sole control of the director, and the commission shall promulgate regulations consistent with the purpose of this title for its use and protection as necessary to properly manage these lands or waters." The amendments to §§ 131.2 and 135.41 are adopted under this authority.

2. Regulatory Requirements

This final-form rulemaking amends §§ 131.2 and 135.41 to restrict the operation of boats propelled by electric motors on waterways owned or controlled by the Commission to slow, no-wake speed.

3. Persons Affected

Persons wishing to use boats propelled by electric motors on waterways owned or controlled by the Commission will be affected by this final-form rulemaking.

4. Comment and Response Summary

There were no official comments received regarding this final-form rulemaking.

5. Cost and Paperwork Requirements

This final-form rulemaking should not result in any additional cost or paperwork.

6. Effective Date

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. Contact Person

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202), referred to as the Commonwealth Documents Law, and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2 (relating to notice of proposed rulemaking required; and adoption of regulations).

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 131 and 135, are amended by amending §§ 131.2 and 135.41 to read as set forth in Annex A, with ellipses referring to the text of the existing regulations.

(b) The Executive Director of the Commission shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

GAME COMMISSION
[58 PA. CODE CH. 141]
Hunting and Trapping; General

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) at its January 28, 2023, meeting amends § 141.6 (relating to illegal devices) to allow the use of body gripping traps with a spread larger than 6 1/2" × 6 1/2" for river otters.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 52 Pa.B. 6871 (November 5, 2022).

1. Purpose and Authority

Section 141.6 formerly stated that "It is unlawful to . . . [u]se body gripping traps with a spread larger than 6 1/2" × 6 1/2" for a furbearer except beaver." While the Commission has permitted the use of body gripping traps for otter trapping since the creation of the season, use was limited up to the 6 1/2" × 6 1/2" maximum size. The Commission amends § 141.6 to allow the use of body gripping traps with a spread larger than 6 1/2" × 6 1/2" for river otters as well. The Commission has determined that there are no significant biological concerns with this change.

Section 2102(d) of the code (relating to regulations) authorizes the Commission to "promulgate regulations stipulating the size and type of traps, the type of firearms and ammunition and other devices which may be used, the manner in which and the location where the devices may be used, the species the devices may be used for and the season when the devices may be used." The amendments to § 141.6 are adopted under this authority.

2. Regulatory Requirements

This final-form rulemaking amends § 141.6 to allow the use of body gripping traps with a spread larger than 6 1/2" × 6 1/2" for river otters.

3. Persons Affected

Persons wishing to use body gripping traps with a spread larger than 6 1/2" × 6 1/2" to harvest an otter will be affected by this final-form rulemaking.

4. Comment and Response Summary

There were no official comments received regarding this final-form rulemaking.

5. Cost and Paperwork Requirements

This final-form rulemaking should not result in any additional cost or paperwork.

Title 58—RECREATION

GAME COMMISSION

[58 PA. CODE CH. 147]

Special Permits; Furbearer Hunting-Trapping Permits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) at its January 28, 2023, meeting amends § 147.701 (relating to general) to create a universal reporting period of 48 hours for bobcat, fisher and otter harvests.

This final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 52 Pa.B. 6872 (November 5, 2022).

1. Purpose and Authority

Section 147.701 formerly provided a 48-hour reporting period for any person taking a bobcat or fisher and a 24-hour reporting period for any person taking an otter. In 2015, the Commission originally established the shorter reporting window for the otter season to allow game wardens to inspect the carcass to confirm it was taken during the open season. Today, after the seventh year of otter trapping, the season has increased from only two open wildlife management units (WMU) and a 3-day season to five open WMUs and an 8-day season. With these expanding opportunities, the Commission's concerns with furtakers harvesting early and reporting during the season have diminished. Furthermore, reporting otter harvests within 48 hours of harvest is now considered acceptable, especially in light of the confusion shared by many furtakers that was caused by the differing reporting periods. The Commission amends § 147.701 to create a universal reporting period of 48 hours for bobcat, fisher and otter harvests. The amendments to § 147.701 will not take effect until the 2023-2024 license year. For the 2022-2023 license year, otter reporting will be taken by HuntFishPA, the same method used for reporting bobcat and fisher harvests and CITES tags will be mailed in a similar manner to bobcat CITES tags.

Section 2901(b) of the code (relating to authority to issue permits) provides "the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued." Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 631b AND 635b]

Baccarat Side Wagers and Variations—Temporary Regulations; Spanish 21 Side Wagers and Variations—Temporary Regulations

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. § 13A02(1) and (2) (relating to regulatory authority) and § 13A03 (relating to temporary table game regulations), adopts the temporary regulations in Chapters 631b and 635b (relating to Baccarat side wagers and variations—temporary regulations; and Spanish 21 side wagers and variations—temporary regulations) to read as set forth in Annex A. The Board's temporary regulations will be added to Part VII (relating to Gaming Control Board) as part of Subpart K (relating to table games).

Purpose of this Temporary Rulemaking

This temporary rulemaking adds several new side wagers and variations to existing games available for play in this Commonwealth.

Explanation

The additions to Chapter 631b are Rising Phoenix Baccarat (a Baccarat variation), Golden Talons (a Baccarat side wager) and Harmony Progressive (a Baccarat side wager). Rising Phoenix Baccarat is a variation that can be offered either as commission or commission-free Baccarat and incorporates approximately 20 additional Bonus wagers that may be offered. Rising Phoenix is a Baccarat side wager offering, which shall win if the selected hand wins or ties with a natural, or wins by at least four points. The Harmony Progressive is a progressive side wager that wins based upon certain hands.

The addition to Chapter 635b is Player's Edge 21, a variation of Spanish 21. Player's Edge 21 increases favorability to players and offers additional side wager options. Player's Edge 21 is more favorable to players in that the Dealer must hit on a soft 17 and that a suited Dealer blackjack results in higher insurance wager payout odds. In terms of additional side wagers, Player's Edge 21 offers Match-Up and Match-Down wagers, which expand the Match-the-Dealer wager offered under Spanish 21. Additionally, Player's Edge 21 also offers the new Monster Match progressive side wager option, which win if the Player's and Dealer's initial two cards combine into certain four-card hands.

Fiscal Impact

Commonwealth. The Board does not expect that this temporary rulemaking will have a fiscal impact on the

Board or other Commonwealth agencies. Updates to Rules Submission forms and internal control procedures will be reviewed by existing Board staff.

Political subdivisions. This temporary rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. This temporary rulemaking will provide certificate holders with an additional table game option. If a certificate holder decides to offer any of the side wagers or variations—temporary regulations within the licensed facility, or both, the certificate holder will be required to train their dealers on the rules of play and purchase new equipment—specifically table layouts corresponding to the game and wagers offered. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

General public. This temporary rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

If a certificate holder seeks to offer any of the side wagers or variations contained in these temporary regulations the certificate holder will be required to submit a Rules Submission form reflecting the choices in how the game will be offered and with the selected side wagers and variations identified. These forms are available on the Board's public web site and submitted to Board staff electronically.

Effective Date

This temporary rulemaking will become effective upon publication in the *Pennsylvania Bulletin* and will expire 3 years from the date of publication.

Public Comments

While this temporary rulemaking will be effective upon publication, the Board is seeking comments from the public and affected parties as to how this temporary rulemaking might be improved. Interested persons are invited to submit written comments, suggestions or objections regarding this temporary rulemaking within 30 days after the date of publication in the *Pennsylvania Bulletin* to Robert Wood, Assistant Chief Counsel, Pennsylvania Gaming Control Board, 303 Walnut Street, 5th Floor, Harrisburg, PA 17106-9060, Attention: Public Comment on Regulation # 125-243.

The contact person for questions about this temporary rulemaking is Robert Wood, Assistant Chief Counsel, at (717) 346-8300.

Regulatory Review

Under 4 Pa.C.S. § 13A03, the Board is authorized to adopt temporary regulations which are not subject to the provisions of sections 201—205 of the act of July 31, 1968 (P.L. 769, No. 240), referred to as the Commonwealth Documents Law (CDL) (45 P.S. §§ 1201—1205); the Regulatory Review Act (RRA) (71 P.S. §§ 745.1—745.14); and sections 204(b) and 301(10) of the Commonwealth Attorneys Act (CAA) (71 P.S. §§ 732-204(b) and 732-301(10)). These temporary regulations expire 3 years after publication in the *Pennsylvania Bulletin*.

Findings

The Board finds that:

(1) Under 4 Pa.C.S. § 13A03, the temporary regulations are exempt from the requirements of the RRA,

sections 201—205 of the CDL and sections 204(b) and 301(10) of the CAA.

(2) The adoption of the temporary regulations is necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

(1) The regulations of the Board, 58 Pa. Code Chapters 631b and 635b, are amended by adding §§ 631b.8—631b.10 and 635b.2 to read as set forth in Annex A.

(2) The temporary regulations are effective March 25, 2023.

(3) The temporary regulations will be posted on the Board's web site and published in the *Pennsylvania Bulletin*.

(6) After the additional card required under paragraph (1) or (2) has been dealt to the hand, a player may "rescue" (take back) half of the hand's total wager and forfeit half of the hand's total wager, as long as the additional card does not result in the hand having a total point count in excess of 21.

(g) Winning hands shall be determined as follows:

(iii) The player has Blackjack, or the point count of the player's hand equals 21, regardless of the dealer's hand.

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 93]

Boating; Boat Registration and Numbering

The Fish and Boat Commission (Commission) proposes to amend Chapter 93 (relating to boat registration and numbering). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The proposed amendments update the Commission's regulations pertaining to registration and titling of boats.

A. Effective Date

This proposed rulemaking, if approved on final-form rulemaking, will go into effect upon publication in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on this proposed rulemaking, contact Robert Caccese, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fishandboat.com.

C. Statutory Authority

The proposed amendment to § 93.1 (relating to registration) is published under the statutory authority of section 5308 of the code (relating to period of registration). The proposed amendment to § 93.5 (relating to display of registration number and validation decal) is published under the statutory authority of section 5122 of the code (relating to registrations, licenses, permits, plates and statistics).

D. Purpose and Background

The specific purpose and background of the proposed amendments are described in more detail under the summary of proposal.

E. Summary of Proposal

The act of June 27, 2022 (P.L. 386, No. 28) (Act 28) amended section 5308 of the code regarding registration and titling of boats. Act 28 establishes a calendar-year boat registration cycle that is valid from January 1 through December 31.

Act 28 requires the Commission to promulgate final regulations to implement the amendments and publish them in the *Pennsylvania Bulletin* within 18 months of the effective date of section 2 of Act 28. The Commission has identified two relevant sections of 58 Pa. Code (relating to recreation) that require amendments to be consistent with Act 28.

Additionally, Commission staff have identified language in § 93.1(a) relating to "state owned" boat registrations which is inconsistent with the statutory registration period and Commission practices. State owned boats are issued 2-year registration certificates.

The Commission proposes that §§ 93.1 and 93.5 be amended to read as set forth in Annex A.

F. Paperwork

This proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

This proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about this proposed rulemaking to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically to RA-pfbcregulations@pa.gov. Electronic comments submitted in any other manner will not be accepted.

GAME COMMISSION

[58 PA. CODE CH. 133]

Wildlife Classification; Birds

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 28, 2023, meeting to amend § 133.21 (relating to classification of birds) to update the scientific names of the Yellow-crowned Night-Heron, Sedge Wren and Northern Harrier on the Commonwealth's lists of threatened and endangered birds with current accepted taxonomic nomenclature.

This proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

This proposed rulemaking was made public at the January 28, 2023, meeting of the Commission. Comments can be sent until April 12, 2023, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. *Purpose and Authority*

The Commission is proposing to amend § 133.21 to update the scientific names of the Yellow-crowned Night-Heron, Sedge Wren and Northern Harrier on the Commonwealth's lists of threatened and endangered birds with current accepted taxonomic nomenclature. The scientific name for the Yellow-crowned Night-heron was changed from *Nycticorax violaceus* to *Nyctanassa violacea* as part of a splitting of genera as published in the 37th Supplement to the American Ornithologists' Union Checklist of North American Birds. The Sedge Wren was split from Grass Wren, a non-migratory Mexican and South American population that retained the *Cistothorus platensis* scientific name. The new scientific name for the Sedge Wren migratory population and Pennsylvania endangered breeding species is now *Cistothorus stellaris*. The Northern Harrier has been split from its old world relative the Hen Harrier. The Hen Harrier retained the original scientific name (*Circus cyaneus*) as the older described species and the Northern Harrier received the new scientific name of *Circus hudsonius*. These changes do not affect the protection, management or common names of these species, but will keep the Commonwealth's lists consistent with current accepted taxonomic nomenclature.

Section 322(c)(8) of the code (relating to powers and duties of commission) specifically empowers the Commission to "Add to or change the classification of any wild bird or wild animal." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or

may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 133.21 are proposed under this authority.

2. *Regulatory Requirements*

This proposed rulemaking will amend § 133.21 to update the scientific names of the Yellow-crowned Night-Heron, Sedge Wren and Northern Harrier on the Commonwealth's lists of threatened and endangered birds with current accepted taxonomic nomenclature.

3. *Persons Affected*

Persons concerned with the scientific identification within this Commonwealth will be affected by this proposed rulemaking.

4. *Cost and Paperwork Requirements*

This proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

For further information regarding this proposed rulemaking, contact Jason L. DeCoskey, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

GAME COMMISSION

[58 PA. CODE CH. 139]

Seasons and Bag Limits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 28, 2023, meeting to amend § 139.4 (relating to seasons and bag limits for the license year) to provide updated seasons and bag limits for the 2023-2024 license year.

This proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

This proposed rulemaking was made public at the January 28, 2023, meeting of the Commission. Comments can be sent until April 12, 2023, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

To effectively manage the wildlife resources and provide hunting and trapping opportunities in this Commonwealth during the upcoming license year, the Commission is proposing to amend § 139.4 to provide updated seasons and bag limits for the 2023-2024 license year. The 2023-2024 seasons and bag limits have been amended to reflect current available scientific data, population and harvest records, field surveys and professional staff observations, as well as recommendations received from staff, organized sporting groups, members of the agricultural community and others interested in the management of the wildlife resources of this Commonwealth.

For small game, a significant expansion of opportunity for put-and-take hunting of captive-reared bobwhite quail in most of this Commonwealth is proposed by means of an earlier season opening date, later season closing date and removal of the daily bag limit. Also, adjustments to crow season dates and addition of Thursdays as hunting days are proposed to shift hunting opportunity from the peak breeding season to the fall and winter months. For black bear, 5 wildlife management units (WMUs) (1B, 2C, 4A, 4B and 4D) are proposed to be deleted from the extended firearms black bear season because of declining trends in nuisance complaints and hunter success rates. For furbearers, WMUs 3B and 4E are proposed to be opened to river otter trapping because habitat and population data indicate that these units can support sustainable otter harvest. Also, several furbearers are proposed for addition to the list of species that are legal for falconry harvest. For elk, the proposed archery season is a week later than in 2022-2023 to provide additional time

between the license drawing and the beginning of the season. For falconry, an expansion of falconry opportunities, to include the period of overlap with the regular firearms deer season, is proposed for those species for which falconry is a legal means of take. This expansion fully implements the intended effect of recent amendments to § 141.4 (relating to hunting hours) made by the Commission at its July 9, 2022, meeting. No substantive changes are proposed for white-tailed deer or wild turkey seasons, although the 2024 youth and regular spring turkey seasons are proposed to open 5 days later than in 2023. This is a normal fluctuation that occurs every several years for consistency with the wild turkey management plan guideline of opening the regular season the Saturday closest to May 1.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to “fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife.” Section 2102(b)(1) of the code (relating to regulations) authorizes the Commission to “promulgate regulations relating to seasons and bag limits for hunting or furtaking. . .” The amendments to § 139.4 are proposed under this authority.

2. Regulatory Requirements

This proposed rulemaking will amend § 139.4 to provide updated seasons and bag limits for the 2023-2024 hunting/furtaking license year.

3. Persons Affected

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2023-2024 hunting/furtaking license year will be affected by this proposed rulemaking.

4. Cost and Paperwork Requirements

This proposed rulemaking should not result in any additional cost or paperwork.

5. Effective Date

The effective dates of this proposed rulemaking are July 1, 2023, to June 30, 2024.

6. Contact Person

For further information regarding this proposed rulemaking, contact Jason L. DeCoskey, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

GAME COMMISSION

[58 PA. CODE CH. 139]

Seasons and Bag Limits; Wildlife Management Units

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 28, 2023, meeting to amend § 139.17 (relating to wildlife management units) to eliminate wildlife management unit (WMU) 2H and return WMU 2G to its original boundary.

This proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

This proposed rulemaking was made public at the January 28, 2023, meeting of the Commission. Comments can be sent until April 12, 2023, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

A uniform system of WMUs was implemented in 2003 to replace the system of multiple, species-specific management units. The primary objective of this new wildlife management unit system was to develop and implement wildlife management decisions on a system of more homogenous units based on physiography, land cover and use, human population density and land ownership. WMU boundaries were defined using readily recognizable features on the landscape rather than hard to identify political boundaries. Over the years, the WMUs have undergone periodic reviews and evaluations. Following a recent evaluation of WMU 2H, which was separated out of the footprint of WMU 2G in 2013, it was determined that WMU 2H is too small to effectively collect adequate wildlife and hunter data for big game species. Furthermore, WMU 2H remains similar to WMU 2G in deer harvests and forest habitat measures. As a result, the Commission is proposing to amend § 139.17 to eliminate WMU 2H and return WMU 2G to its original boundary.

Section 322(c)(4) of the code (relating to powers and duties of commission) specifically authorizes the Commission to "Define geographic limitations or restrictions." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this

Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 139.17 are proposed under this authority.

2. Regulatory Requirements

This proposed rulemaking will amend § 139.17 to eliminate WMU 2H and return WMU 2G to its original boundary.

3. Persons Affected

Persons wishing to hunt or trap game or wildlife within WMUs 2G or 2H may be affected by this proposed rulemaking.

4. Cost and Paperwork Requirements

This proposed rulemaking should not result in any additional cost or paperwork.

5. Effective Date

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

GAME COMMISSION

[58 PA. CODE CH. 141]

Hunting and Trapping; Furbearers

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 28, 2023, meeting to amend § 141.67 (relating to furbearer seasons) to expand the list of devices that are permitted to be used to hunt and take furbearers having an open falconry season to include falcons lawfully possessed under a falconry permit.

This proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

This proposed rulemaking was made public at the January 28, 2023, meeting of the Commission. Comments can be sent until April 12, 2023, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

Members of the falconry community have recently requested an expansion of the hunting seasons for falconry to include certain mink, muskrat, fox, opossum, raccoon, striped skunk and weasel. The Commission has reviewed this request and preliminarily included the addition of these species in the 2023-2024 seasons and bag limits proposal. If approved, this falconry season/species expansion will require the addition of falcons to the list of lawful devices that may be used to harvest any furbearer having an open falconry season. A similar provision was added to § 141.22(a)(7) (relating to small game seasons) to accommodate this similar purpose. The Commission is proposing to amend § 141.67 to expand the list of devices that are permitted to be used to hunt and take furbearers having an open falconry season to include falcons lawfully possessed under a falconry permit.

Section 2102(d) of the code (relating to regulations) authorizes the Commission to “promulgate regulations stipulating the size and type of traps, the type of firearms and ammunition and other devices which may be used, the manner in which and the location where the devices may be used, the species the devices may be used for and the season when the devices may be used.” The amendments to § 141.67 are proposed under this authority.

2. Regulatory Requirements

This proposed rulemaking will amend § 141.67 to expand the list of devices that are permitted to be used to hunt and take furbearers having an open falconry season to include falcons lawfully possessed under a falconry permit.

3. Persons Affected

Persons wishing to hunt furbearers with a falcon within this Commonwealth will be affected by this proposed rulemaking.

4. Cost and Paperwork Requirements

This proposed rulemaking should not result in any additional cost or paperwork.

5. Effective Date

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

GAME COMMISSION

[58 PA. CODE CH. 147]

Special Permits; Menageries

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 28, 2023, meeting to amend § 147.282 (relating to safety) to classify wildlife held by a menagerie into categories that match an associated level of exposure and public contact appropriate for that category of wildlife.

This proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for this proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

This proposed rulemaking was made public at the January 28, 2023, meeting of the Commission. Comments can be sent until April 12, 2023, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. *Purpose and Authority*

A menagerie has approached the Commission to request that its safety regulations concerning public exposure with certain wildlife held by a menagerie be relaxed. The Commission has reviewed the applicable regulations and determined that changes can be made to the regulation without exposing the public to unnecessary danger or harm. A menagerie is defined as “[a]ny place where one or more wild birds or wild animals, or one or more birds or animals which have similar characteristics and appearance to birds or animals wild by nature, are kept in captivity for the evident purpose of exhibition with or without charge.” The Commission is proposing to amend § 147.282 to classify wildlife held by a menagerie into categories that match an associated level of exposure and public contact appropriate for the given category of wildlife. These changes will authorize menageries to remove additional species of wildlife from caging and directly expose them to the public, including wallabies, nonhuman primates and all other wildlife outside of the families Ursidae, Felidae and Canidae.

Section 2901(b) of the code (relating to authority to issue permits) provides that “the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued.” The amendments to § 147.282 are proposed under this authority.

2. *Regulatory Requirements*

This proposed rulemaking will amend § 147.282 to classify wildlife held by a menagerie into categories that match an associated level of exposure and public contact appropriate for the given category of wildlife.

3. *Persons Affected*

Persons holding a menagerie permit or persons visiting a wildlife menagerie facility within this Commonwealth will be affected by this proposed rulemaking.

4. *Cost and Paperwork Requirements*

This proposed rulemaking should not result in any additional cost or paperwork.

5. *Effective Date*

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

For further information regarding this proposed rulemaking, contact Jason L. DeCoskey, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

NOTICES

DEPARTMENT OF AGRICULTURE

General Quarantine Order; Enhanced Live Bird Market Production Flock and Live Bird Market Supplier Flock Surveillance, Quarantine Area Requirements

Recitals

A. Under the authority established in the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389) and specifically the authority to establish quarantines and general quarantines as set forth at section 2329 of the Domestic Animal Law (3 Pa.C.S.A. §§ 2329(a) and 2329(d)), the Pennsylvania Department of Agriculture (Department) hereby establishes a General Quarantine Order related to Enhanced Live Bird Market Production Flock and Live Bird Market Supplier Flock Surveillance, Testing, Disease Reporting Obligations, Movement Controls, and Requirements within the Quarantine Area Encompassed by this General Quarantine Order.

B. The Domestic Animal Law allows, at 3 Pa.C.S.A. § 2329(d), for a General Quarantine Order to be established and enforced for any area or locality within this Commonwealth where a dangerous transmissible disease has been reported or exists, or whenever it is deemed advisable to test or treat any domestic animal upon the reasonable suspicion that it has contracted or been exposed to a dangerous transmissible disease or whenever the testing or treatment of a domestic animal indicates that the domestic animal has been exposed to a dangerous transmissible disease. In addition, a General Quarantine Order may apply to goods, products, facilities, containers, vehicles or materials that may carry a dangerous transmissible disease or be contaminated with a hazardous substance.

C. Avian influenza is an infectious disease of poultry.

D. Avian influenza is designated a “dangerous transmissible disease” of animals under the provisions of the Domestic Animal Law (3 Pa.C.S.A. §§ 2301—2389), at 3 Pa.C.S.A. § 2321(a)(6).

E. Influenza A viruses, including but not limited to H5 and H7 subtypes, are known to be zoonotic and are considered by the Centers for Disease Control (CDC) to be of public health concern.

F. The Department has broad authority under the Domestic Animal Law to regulate the keeping and handling of domestic animals, conveyances, containers, goods, products and materials, in interstate and intrastate commerce, in order to exclude, contain or eliminate dangerous transmissible diseases, including surveillance, testing, and prohibiting the shipment or movement of such products. (3 Pa.C.S.A. §§ 2327, 2329, 2341—2349 and 2351—2357)

G. Avian Influenza has caused very significant loss in the Pennsylvania poultry industry and the current pathogenic forms of the disease have caused severe wide-spread loss to the poultry industry in states in which it has been detected and confirmed.

H. Highly Pathogenic Avian Influenza H5N1 (HPAI) is of particular concern to the entire Pennsylvania poultry industry as it is expected to cause continued wide-spread loss of poultry, severely limit the market for Pennsylvania product, and cause severe economic damage to the poultry industry in Pennsylvania.

I. Avian Influenza, including the current pathogenic strains of HPAI, may be transferred and spread through the movement of poultry, and, their products, their litter, and the movement of unwashed or un-sanitized vehicles, conveyances, containers, goods, products, people, and materials onto and off of premises containing poultry that may have been infected with or exposed to HPAI.

J. HPAI has been found in Pennsylvania in 2022 and a “General Quarantine Order; Virus Control for Highly Pathogenic Avian Influenza Poultry, Poultry Litter, Conveyances, Feed, Refuse, Containers and Material Standards” was published in the *Pennsylvania Bulletin* (52 Pa.B. 2597) (Saturday, April 30, 2022). It became effective on April 30, 2022 and remains in effect. Pursuant to that Order, Infected Zones that extend 3 kilometers from Index Premises and Control Zones that extend 10 kilometers from Index Premises were established to: 1) Identify additional affected premises through diagnostic testing; 2) Enhance zone premises biosecurity requirements, and; 3) Institute movement restrictions in order to control the spread and limit exposure to protect the Commonwealth’s poultry industry from this dangerous transmissible disease, until it can be systematically, and carefully mitigated in each such Control Zone.

K. The Live Bird Market Production Flocks and Live Bird Market Supplier Flocks and the Live Bird Market Production Flock and Live Bird Market Supplier Flock Network in the Northeastern United States consists of a complex system of production flocks, supplier flocks, dealers and haulers, distributors, a distribution system, livestock auctions and Live Bird Markets. Commonwealth of Pennsylvania producers provide a large portion of the poultry which enters Live Bird Markets in the Northeastern states including the states of Connecticut, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island and Virginia.

L. The Quarantine Area created by this “General Quarantine Order; Enhanced Live Bird Market Production Flock and Live Bird Market Supplier Flock Surveillance, Quarantine Area Requirements” (herein after General Quarantine Order) is established to systematically identify poultry and premises that have been exposed to or infected with Avian Influenza and stop the spread of the dangerous transmissible disease, Highly Pathogenic Avian Influenza H5:N1 Gs/Gd clade 2.3.4.4 within the Live Bird Market Production and Supplier Flock Network.

M. The Quarantine Area created by this General Quarantine Order may be expanded, extended, or moved or a new Quarantine Area created in the future through the issuance of an Addendum hereto and as set forth in this General Quarantine Order.

N. This General Quarantine Order is established to address all highly pathogenic avian influenza strains and particularly identify and mitigate disease threat in the Live Bird Market Production Flock and Live Bird Market Supplier Flock Network, and surveille, identify and test Live Bird Market Production Flocks, Live Bird Market Supplier Flocks, individual production flocks, dealers and haulers, distributors, persons within the distribution system, livestock auctions and Live Bird Markets, including those at risk for not reporting or testing sick birds and erroneously assuming virus could be eliminated by selecting for non-clinical birds in affected flocks.

Order

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Availability of the Draft 2023 Annual Action Plan; 2nd Public Hearing and 2nd Pennsylvania Housing Advisory Committee Meeting

The Department of Community and Economic Development (Department) announces the availability of the Commonwealth's Draft Federal Fiscal Year (FFY) 2023 Annual Action Plan (Plan). The Plan is submitted to the United States Department of Housing and Urban Development (HUD) as the annual application for Federal community development and housing funds administered by the Commonwealth. The HUD funding programs covered by the Plan and administered by the Department are the Community Development Block Grant (CDBG), the HOME Investment Partnerships (HOME) and the Emergency Solutions Grant (ESG) programs. Also covered by the Plan is the Housing Opportunities for Persons with AIDS (HOPWA) program which the Department of Health administers and the National Housing Trust Fund (HTF) which is administered by the Pennsylvania Housing Finance Agency (PHFA).

These meetings are designed to provide an opportunity for citizens, local governmental officials and interested organizations of this Commonwealth to comment about the Plan prior to its submission to HUD.

Purpose

The Plan takes the strategy developed in the Consolidated Plan of 2019—2023 and applies it to the administration of the CDBG, HOME, ESG, HTF and HOPWA programs for the 2023 program year. HUD must approve the Plan for the Commonwealth to receive funding under the identified HUD programs.

Content

The 2023 Plan will include the Methods of Distribution for all Federal programs, as well as the goals and outcomes expected during the 2023 calendar year. In addition to the Department's web site at <https://dced.pa.gov/housing-and-development/consolidated-plan-annual-plans-reports/>, the approved Plan will be able to be viewed on HUD's web site at <https://www.hudexchange.info/consolidated-plan/con-plans-aaps-capers/>.

Allocations for 2023 by Program and Methods of Distribution

CDBG—\$41,120,349

Method of Distribution based on the requirements of Pennsylvania Act 179 of 1984. The 2023 Plan does not include any changes to this distribution.

Entitlement—85% of allocation distributed by the distribution outlined in the Act 179 formula.

Competitive—12% of allocation distributed competitively based on priorities outlined in the Plan with no maximum request or award.

In the Plan, the Department continues to reserve the right to divert any recaptured funds and all uncommitted competitive funds to respond to Federally or State declared natural disasters or emergency declarations.

HOME—\$22,435,460

1. Maximum funding availability varies by HOME eligible activity.

a. Applicants seeking Existing Owner-Occupied Housing Rehabilitation and Homebuyer activities funding will be limited to a maximum of \$500,000 as a town, borough or township. Cities and county applicants are limited to \$750,000.

b. Applicants seeking rental housing and homebuyer-new construction activities will be limited to a maximum funding request of the per unit subsidy limits for the Metropolitan Statistical Area for the proposed activity.

2. Rental housing applicants must demonstrate matching contributions equal to 25% or greater for all HOME rental projects. Eligible match contributions may include cash contributions from non-Federal sources, value of donated property, forbearance of fees, cost of onsite infrastructure improvements directly required for the HOME-assisted project and other eligible sources more specifically detailed in 24 CFR 92.220 (relating to form of matching contribution).

3. Rental housing developments funded by the Department competitive process will be limited to projects consisting of less than ten total units. Other rental housing activities, for ten units and above may be submitted to PHFA and following PHFA's competitive application process.

4. HOME Participating Jurisdictions (PJ), those municipalities which receive a direct allocation of HOME funds from HUD, are eligible to apply for the Department's HOME funds only in certain circumstances:

(1) For those PJs whose annual allocation of HOME funds from HUD was less than \$500,000 in the most recently published Community Planning and Development (CPD) Program Formula Allocations, they may apply for the Department's HOME funds in any eligible category, although they must contribute local HOME funds to the project. The local PJ HOME contribution must be equal to or greater than \$1,000 per HOME assisted unit.

(2) HOME PJs that were allocated more than \$500,000 in the most recently published CPD Formula Allocations are only eligible to apply for activities that qualify as a Community Housing Development Organization (CHDO) set-aside project and must contribute local HOME funds to the project. The local PJ HOME contribution must be equal to or greater than \$1,000 per HOME assisted unit. Lead entities of a HUD-designated HOME consortia are eligible to apply for CHDO Set-Aside projects. For purposes of determining if an entity qualifies as a HOME PJ or not, HOME consortia members communities are considered collectively with the consortia to be a PJ.

5. A CHDO can receive up to 50% of its annual operating budget or \$50,000 whichever is greater as CHDO operating funds.

ESG—\$5,768,872

1. *Rapid rehousing*—No less than 40% will be allocated to rapid rehousing, excluding administration and data collection activities for the Pennsylvania Homeless Management System.

2. *Emergency shelter*—No more than 60% of the annual Federal allocation may be used for emergency shelter activities (including operations, essential services and street outreach).

3. Federal direct-entitlement grantees, those that receive a direct allocation of ESG funds from HUD annually, are eligible to apply for all eligible ESG uses, however direct-entitlement communities will not receive priority over nonentitlement applicants.

4. Each applicant must demonstrate coordination of their efforts with the local Continuum of Care priorities.

5. Nonprofit entities are eligible to apply directly. Regional activities must benefit service areas greater than one county.

6. The Department will grant award amounts based on the evaluations until all grant funds are awarded.

7. ESG funds may become available for reallocation because of poor grantee performance, voluntary returns, funds returned at the end of the contract period, repayment of ineligible expenses or HUD approved reallocation of expired funds. The Department will utilize its Reallocation Policy to allocate available funds.

HOPWA—\$2,482,567

Each regional grantee prioritizes needs for its respective region through a formal process reflective of demographic and epidemiological profiles. The regional grantees conduct a competitive procurement process and receive plans to provide HOPWA services from large organizations and smaller, grassroots faith-based and other community organizations. The following services are provided in this Commonwealth: tenant based rental assistance; short term rent, mortgage and utility assistance; permanent housing placement; and supportive services—case management. In addition, each regional grantee has the capacity to distribute patient care funds directly if it is expedient or a more cost-effective method or both for delivery.

HTF—To Be Allocated (HUD has not released the 2023 allocation yet).

Recovery Housing Program (RHP)—\$1,288,739

The funding for the RHP will be distributed through a competitive process to all eligible applicants, based on scoring of established criteria of the submitted application. An eligible applicant should be a registered entity with the Department of State and be able to provide recovery housing for individuals in recovery from substance use disorder, in accordance with Act 59 of 2017 (Pennsylvania State Law) and any subsequent regulations thereafter. Additionally, an applicant should be licensed or certified by the Department of Drug and Alcohol Programs as a Drug and Alcohol Recovery House, as defined by PA Act 59 of 2017.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to

Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified individual, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Norfolk Southern Harmar Derailment, Primary Facility ID # **865027**, 150 Feet Southwest of 2405 Freeport Road, Pittsburgh, PA 15238, Harmar Township, **Allegheny County**. Arcadis U.S., Inc., 111-D Sanders Lane, Bluefield, VA 24605 on behalf of Norfolk Southern, 650 West Peachtree Street NW, Atlanta, GA 30308, submitted a Notice of Intent to Remediate. The Site is located in the area of confluence of Guys Run and the Allegheny River, between Freeport Road and the Allegheny River. On May 26, 2022, a truck unlawfully stopped on mainline tracks in Harmar Township leading to a derailment at MP LC-64.97. As a result of this derailment, rail cars and rail transportation equipment were damaged, one span of a rail bridge crossing Guys Run was destroyed, and a second rail bridge across Guys Run was damaged and compromised. Immediately following the derailment, NSRC initiated site cleanup, rail repair, and rail car recovery in coordination with the U.S. Environmental Protection Agency (EPA), Coast Guard, Pennsylvania Department of Environmental Protection (PADEP), U.S. Army Corps of Engineers (USACE) and Allegheny County. The incident resulted in release of petroleum distillate, diesel fuel, and polymer beads in the vicinity of the derailment. Two separate adjacent areas, divided by Guys Run, comprise the approximate site boundaries and areas of additional investigation and response. The area to the southwest of Guys Run (Area No. 1) is approximately 1.1 acres in size and consists of vacant land. The area to the northeast of Guys Run (Area No. 2) is approximately 1.4 acres in size and consists of a mixture of vacant and forested land. The release of petroleum distillate was limited to surface soils in portions of Area No. 1 and the surface water of Guys Run; the release of diesel fuel was limited to surface soils in Area No. 2; and polymer beads were released to surface soils in both Area No. 1 and Area No. 2, as well as the surface water of Guys Run. Emergency response operations were conducted immediately following the derailment and continued for several weeks. Response activities included the placement of absorbent and hard booms, removal of derailed railcars, and active recovery of released materials. Based on the compounds released during the May 2022 derailment, characterization sampling conducted to date has included the analysis of surface water and soil samples for Resource Conservation and Recovery Act (RCRA) 8 Total Metals, total petroleum hydrocarbons (TPH) diesel range organics (DRO) and gasoline range organics (GRO), polycyclic aromatic hydrocarbons (PAHs), and/or select petroleum-related volatile organic compounds (VOCs). TPH was present in soil samples. Based on the findings of additional pending assessments at the Site, remediation will be conducted as warranted to demonstrate attainment with applicable standards under PADEP oversight and authorization. The

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the DEP's Regional Office.

A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

67-03150A: Wetzlel Funeral Home & Crematory, Inc., Hanover Facility, 549 Carlisle Street, Hanover, PA 17331, Hanover Borough, **York County**. Application received: February 16, 2023. For the incorporation of a crematory, currently operating under general permit GP14-67-03150, into an operating permit with the addition of an alternative to the burn cycle interlock requirement at the facility. The crematory's PTE based on 8,760 hours of operation is 1.66 tpy CO, 1.99 tpy NO_x, 1.59 tpy PM₁₀, and < 1 tpy each of VOC, SO_x and HAP. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technol-

36-05158H: Perdue AgriBusiness, LLC, 1897 River Road, Marietta, PA 17547, Conoy Township, **Lancaster County**. Application received: December 28, 2022.

For approval of a Reasonably Available Control Technology (RACT) 3 plan as a plan approval permit.

In accordance with 25 Pa. Code §§ 129.111—129.115 (relating to additional RACT requirements for major sources of NO_x and VOCs for the 2015 ozone NAAQS), the Pennsylvania Department of Environmental Protection (Department, DEP) has made a preliminary determination to approve a RACT 3 plan for the Perdue AgriBusiness, LLC, Marietta. The RACT 3 plan approval, if approved by the Department, will be issued as a plan approval permit (36-05158H).

The RACT 3 plan approval incorporates provisions and requirements for the control of emissions of nitrogen oxides (NO_x) and/or volatile organic compounds (VOCs). These provisions and requirements are intended to address the Commonwealth's RACT obligations under section 184 of the Clean Air Act for the 1997, 2008 and 2015 8-hour ozone National Ambient Air Quality Standards. The RACT 3 plan approval does not adopt any new regulations. If approved by the Department, this RACT 3 plan approval will be submitted to the United States Environmental Protection Agency (EPA) for approval as a revision to the Commonwealth's State Implementation Plan (SIP). Requirements that are not part of the RACT 3 plan approval will be excluded from the SIP revision submittal.

The following is a summary of the RACT 3 plan approval requirements for this facility that are proposed to be submitted to the EPA as a revision to the Commonwealth's SIP:

RACT III Case-by-Case Requirements.

(a) The average plant-wide solvent loss ratio (SLR) shall not exceed 0.125 gallon of solvent per ton of oilseed processed based on any 12-month consecutive period. Solvent loss shall be determined in accordance with 40 CFR 63.2853 but not utilizing the exemption in (c)(3). The quantity of oilseed processed shall be determined in accordance with 40 CFR 63.2855 but not utilizing the exemption (c)(3).

(b) The permittee shall not cause to be discharged into the atmosphere from:

(1) Stack ID S204—any gases which contain volatile organic compounds (VOCs) exceeding 1.65 lbs VOC/hr, as hexane.

(2) Stack ID S205A—any gases which contain VOCs exceeding 11.51 lbs VOC/hr, as hexane.

(3) Stack ID S205B—any gases which contain VOCs exceeding 5.76 lbs VOC/hr, as hexane.

(4) Stack ID S206—any gases which contain VOCs exceeding 11.94 lbs VOC/hr, as hexane.

(c) Breathing and working losses from the hexane storage tanks (Source ID 212) shall always be captured and vented to the mineral oil scrubber (Control ID C204).

(d) Leak, Detection and Repair (LDAR) Requirements:

(1) The permittee shall maintain & implement a Leak Detection & Repair (LDAR) program to minimize fugitive VOC losses from equipment leaks. The written LDAR program shall be made available to the Department upon request.

(2) The LDAR program shall, at a minimum, employ the following:

(i) A list of equipment and respective identification numbers which will be monitored.

(ii) A list of equipment and respective identification numbers of equipment operating under negative pressure and equipment deemed dangerous to monitor.

(iii) The permittee shall check equipment that contains hexane on a daily basis for any signs of a leak, based on Audible, Visual, and Olfactory (AVO) inspections. Equipment to be checked shall include but not be limited to, storage tanks, pumps, piping, duct work, enclosed conveyors, valves, flanges, seals, sight glasses and process equipment, as well as the extractor, DT, dryer-cooler, distillation equipment, condensers, and heat exchangers. Should an inspection detect any signs of a leak, the permittee shall take those steps necessary to determine if a leak exists and take appropriate action as specified as follows in this condition.

(iv) The permittee shall maintain and operate four (4) fixed-location flammable gas monitors or other leak detection monitoring devices approved by the Department in the solvent extraction area. The fixed-location monitors shall be placed in low lying areas in close proximity to likely fugitive emission sources. The permittee shall maintain an inventory of spare parts for the monitors in order to ensure consistent operation. The flammable gas monitors shall be set to audible and visual alarm at 100 parts per million (ppm) as methane. A representative reading shall be taken and recorded from each monitor daily. Calibration checks shall be performed at a minimum of monthly intervals to ensure the monitors alarm at the 100 ppm level. Should a monitor alarm be triggered, the permittee shall determine the source of the emissions and take appropriate action as specified as follows in this condition, if a leak is then confirmed instrumentally.

(v) The permittee shall perform a leak check for equipment containing hexane as specified in (A)—(D), as follows, using an optical gas imaging camera such as a FLIR camera or a gas leak detector capable of reading hexane concentrations in air at the equivalent concentration of 0% to 5% methane with an accuracy of +/- 0.2%. The owner/operator may request, in writing, the use of other leak detection monitoring devices, approved, in writing, by the Department. A leak is defined as an instrument reading of 500 ppm as methane above the background concentration.

(A) Initial monthly monitoring, for a minimum of 12 consecutive months.

(B) After the initial 12 month period for non-leaking components, quarterly monitoring.

(C) After any leak is observed, the monitoring frequency will revert to monthly until no leaks are shown for 12 consecutive months, then may return to quarterly.

(D) The Department may alter the monitoring frequency if detections demonstrate a change is warranted.

(vi) The portable gas leak detectors used in (v) previously listed, shall be operated in accordance with manufacturer recommended procedures and:

(A) Optical gas imaging cameras shall be operated and calibrated according to 40 CFR 60.18(g) and be able to detect hexane at a minimum sensitivity of:

i. 100 grams/hour for the monthly monitoring frequency

ii. 60 grams/hour for quarterly or longer monitoring frequencies

(B) Portable gas leak detectors shall be operated and calibrated according to 40 CFR Part 60, Appendix A, Method 21 and be able to detect hexane at a minimum sensitivity of 100 ppm methane equivalent.

(vii) A release from any equipment or component designed by the manufacturer to protect the equipment, controller(s), safety of personnel, to prevent ground water contamination, or an emergency situation is not considered a leak.

(viii) Damaged or leaking components shall be tagged with weatherproof and readily visible tags bearing an identification number and the date the leak was detected. The tags must remain in place until the leaking component is repaired. Tagging of difficult-to-monitor leaking components may be done by reference tagging. The reference tag should be located as close as possible to the leaking component and should clearly identify the leaking component and its location.

(ix) The first attempt at repair shall be required for all leaking components within 5 days of detection and the repair shall be completed within 15 days for all components unless the repair would require a unit shutdown that would create more emissions than the repair would eliminate, and if so, the repair may be delayed until the next scheduled shutdown, except the first attempt at repair for:

(A) Any leak > 10,000 ppmv and < 25,000 ppmv—2 days;

(B) Atmospheric pressure relief device leak without a rupture disk > 500 and < 25,000 ppmv—2 days;

(C) Any leak > 25,000 ppmv—1 day;

(x) A leak is considered repaired if one of the following can be demonstrated:

(A) A VOC concentration of 500 ppm as methane or less using a gas leak detector;

(B) No visible leak image when using an optical gas imaging camera able to detect hexane at a minimum sensitivity of 60 grams/hour within the distance determined during the instrument check procedure;

(C) No bubbling at leak interface using a soap solution bubble test specified in EPA Method 21; or a procedure

based on the formation of bubbles in a soap solution that is sprayed on a potential leak source may be used for those sources that do not have continuously moving parts and that do not have a surface temperature greater than the boiling point or less than the freezing point of the soap solution; or

(D) Any other method approved, in writing, by the Department.

(3) Records

(i) The permittee shall record, at a minimum, the following:

(A) Each daily AVO inspection.

(B) Each daily representative fixed-location flammable gas monitor readings.

(C) The initial and periodic leak checks of equipment.

(ii) Each daily observation/reading shall be recorded and shall be signed and dated by the person that conducted the inspection/reading.

(iii) If leaks are observed, the nature, identification number and measured concentration (ppm) of the observed leak shall be recorded along with documentation regarding corrective actions.

(iv) The permittee shall retain these records for a minimum of five (5) years. The records shall be made available to the Department upon request.

(4) Reports

(i) The owner/operator must submit a written request to the Southcentral Regional Office for an extension of LDAR deadlines. This includes extensions required due to facility shutdowns and/or the ordering of replacement parts. The written request shall also include the reason(s) for the extension request and the schedule for completion of the repairs. The Department may grant an extension of the LDAR deadlines based upon the written request.

(e) In accordance with 25 Pa. Code § 129.115(k), all records shall be retained by the owner or operator for 5 years and made available to the Department or appropriate approved local air pollution control agency upon receipt of a written request from the Department or appropriate approved local air pollution control agency.

40-00153A, Modineer Pulverman, LLC, 1170 Lower Demunds Road, Dallas, PA 18612, Dallas Township, **Luzerne County.** Application received: March 2, 2023.

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), that the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to modify an existing Powder Paint Spray Booth that is controlled by a Farr cartridge-type dust collector at their existing manufacturing facility located in Dallas Township, Luzerne County.

The Department of Environmental Protection's (Department) review of the information submitted by Modineer Pulverman, LLC indicates that an existing Powder Paint Spray Booth that is controlled by a Farr cartridge-type dust collector operating presently with exhaust recirculates back to the plant 100% of the time. By this application the company has requested to modify the dust collector exhaust for discharge to the outside atmosphere during the summer season for heat relief. This 10,000 CFM cartridge-type dust collector was installed in 2016. The powder paint is 100% solids that is applied electrostatically to metal parts, and then cured by electric heaters. The small amount of overspray is fine PM that is controlled by cartridge filters, which are known to be Best Available Technology (BAT). There is no VOC-content in the paint; and, therefore, there are no potential VOC emissions. The process will comply with all regulatory requirements pertaining to air contamination source and the emission of air contaminants including 25 Pa. Code § 123.41 for visible emissions and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. The dust collector will collect 99% of particulate emissions generated from the overspray before discharging into atmosphere. The use of baghouse capable of removing 99% of emissions meets Department's BAT criteria for this type of process. The company will operate the source and maintain the system in accordance with the good engineering practices to assure proper operation of the system. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

The facility is a State Only facility. If the Department determines that the process is modified and operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 40-00153A, the requirements established in the plan approval will be incorporated into State Only Operating Permit 40-00153 pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northeast Regional Office, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915. Appointments for scheduling a review must be made by calling 570-826-2511.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No. 40-00153A and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Ray Kempa, Environmental Engineer Manager, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701-1915, Phone 570-826-2511 within 30 days after publication date.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

Individuals who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of

regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation

tion performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

The Department of Environmental Protection has issued a Chapter 105 water obstruction and encroachment permit to Aaron and Nicole Yohn to install and maintain a permanent bank-to-bank bridge over Pepper Run for permanent private access to their property on the west side of the stream. This project was initially authorized and installed under a GP-8 in September 2022. At that time, approximately 2,300 sq. ft. of earth disturbance occurred along the stream and within the floodway. An

additional 10,000 sq. ft. of earth disturbance occurred to construct the access roadway into the crossing site and on the far side of the stream. No new disturbance will occur as part of this permit action. The bridge is a single span 30-foot-long x 12-foot-wide steel beam with a timber deck on precast foundations. There are no anticipated adverse impacts to waters of the U.S. or aquatic resources from this crossing project. No wetlands will be impacted. The drainage area at the crossing site is 1.93 square miles. Pepper Run is listed in the Pa. Code chapter 93 designation as a High Quality, Cold Water Fishery (HQ-CWF) with Migratory Fish (MF). Latitude: 41° 2' 46.90", Longitude: -77° 19' 41.59". Application received: December 20, 2022. Issued: March 2, 2023.

PREAMBLE 2

The Following Plan(s) and Report(s) Were Submitted Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. WASTE, AIR, RADIATION AND REMEDIATION

Public Notice of Proposed Consent Order and Agreement; Hazardous Sites Cleanup Act, Vallimont Site, Erie County.

Northwest Region: Environmental Cleanup & Brownfields Program, 230 Chestnut Street, Meadville, PA 16335-3481, 814-332-6945.

Contact: Colin Kosinski, 814-332-6837.

The Department of Environmental Protection (DEP) under the authority of the Hazardous Sites Cleanup Act (HSCA), Act of October 18, 1988, P.L. 756, No. 108, 35 P.S. §§ 6020.101—6020.1305, has entered into a Consent Order and Agreement (CO&A) with American Tinning & Galvanizing Company (American Tinning) concerning a cleanup of a wheelabrator dust pile at the Vallimont Site (Site).

The Site is located on a 29.22-acre property located at 9266 Kuhl Road, Erie, PA 16510. The wheelabrator dust pile is an approximately 40 feet x 40 feet, exposed pile of reddish-brown colored solid material in the western area of the Site (Operable Unit 1). The wheelabrator dust, which was disposed in Operable Unit 1, was generated at American Tinning's facility in Erie, PA.

Since the 1980s, sampling events of various media have been completed by the U.S. Environmental Protection Agency and DEP. The wheelabrator dust disposed in Operable Unit 1 includes elements, chemical compounds or materials, including cadmium, chromium, vanadium, iron, arsenic, and lead, which are "hazardous substances" as defined in Section 103 of the HSCA, 35 P.S. § 6020.103. The presence of these hazardous substances in the Site waste and soil constitute a "release" and "threatened release" of hazardous substances at the Site pursuant to Section 103 of the HSCA, 35 P.S. § 6020.103.

American Tinning, as a generator of wheelabrator dust, is a "responsible person" as defined in Sections 103 and 701 of HSCA, 35 P.S. §§ 6020.103 and 6020.701. DEP has determined that it is practicable and in the public interest to enter into a CO&A with American Tinning, pursuant to Section 505(g) of HSCA, 35 P.S. § 6020.505(g). The terms of the CO&A require American Tinning, at Operable Unit 1, to perform a "response," as defined in Section 103 of the HSCA, 35 P.S. § 6020.103, to resolve its liability and to minimize or eliminate the release in order to protect the present or future public health, safety or welfare, or the environment. In exchange, DEP has agreed to provide American Tinning with protections against certain future liabilities, which are more fully described in the CO&A.

This notice is provided under Section 1113 of HSCA, 35 P.S. § 6020.1113, which states that, "settlement shall become final upon the filing of DEP's response to significant written comments." DEP has reserved the right to withdraw its consent to the CO&A if comments concerning the CO&A disclose facts or considerations which indicate that the CO&A is inappropriate, improper, or not in the public interest. A person adversely affected by the settlement may file an appeal with the Pennsylvania Environmental Hearing Board. A public comment period on the CO&A will extend for 60 days from the date of this notice. Persons may submit written comments regarding this CO&A, within 60 days from today's date, by submitting them to Colin Kosinski in the Environmental Cleanup and Brownfields Program by email at ckosinski@pa.gov or at 230 Chestnut Street Meadville PA 16335.

The CO&A is available for public review and comment from 8 a.m. to 4 p.m. at DEP's Meadville Regional Office, located at 230 Chestnut Street, Meadville PA 16335, by contacting either the Regional Project Officer, Colin Kosinski, at 814-332-6848, or Regional Program Attorney, David R. Hull, at 814-332-6695 or davhull@pa.gov.

Addition of Mucopolysaccharidosis Type II to the Supplemental Conditions Mandated for Screening in this Commonwealth

The Department of Health's (Department) Division of Newborn Screening and Genetics, with support of the Newborn Screening and Follow-up Technical Advisory Board (Board) and its lysosomal storage disorder subcommittee, is adding Mucopolysaccharidosis Type II Disorder (MPS II) screening effective July 1, 2023, to the supplemental conditions mandated for screening and follow-up by Commonwealth submitters and follow-up by the Commonwealth newborn screening program.

The United States Secretary of Health and Human Services approved the Advisory Committee on Heritable

Disorders in Newborns and Children recommendation to add MPS II to the Recommended Uniform Screening Panel on August 2, 2022.

MPS II, also referred to as Hunter Syndrome, is an X-linked lysosomal storage disorder caused by the deficiency of the enzyme iduronate 2- sulfatase, which is needed to break down complex sugars, glycosaminoglycans within the lysosomes. The severe form is characterized by progressive intellectual disability, the development of characteristic facial features, progressive joint stiffness that can limit mobility and progressive involvement of the liver, spleen and heart.

Under section 3 of the Newborn Child Testing Act (35 P.S. § 623(d)), the Department, with the approval of the Board, shall establish, by transmitting notice to the Legislative Reference Bureau (LRB) for periodic publication in the *Pennsylvania Bulletin*, changes to the lists under subsection (a)(1) and (2) of those diseases for which newborn children shall be screened and laboratory screening results reported. Prior to making any change, the Department and Board shall jointly transmit a notice to the LRB for publication in the *Pennsylvania Bulletin* that establishes a public comment period of at least 30 days. A notice was published at 53 Pa.B. 907 (February 11, 2023). The Department did not receive any comments.

The addition of MPS II to the Commonwealth's supplemental mandated screening panel will increase the cost of the supplemental mandated panel by an estimated \$6.52 per newborn and will be invoiced to submitters by PerkinElmer Genetics.

For additional information, contact Jordan Shover, Public Health Program Manager, Division of Newborn Screening and Genetics, at (717) 783-8143. Speech and/or hearing-impaired persons use V/TT (717) 783-6514 or the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TT).
