READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the Pennsylvania Bulletin

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

How to Find Rules and Regulations

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacodeandbulletin.gov.

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

The Pennsylvania Peach and Nectarine Research Program Board (Board) annually, or more frequently as the availability of fund permits, solicits applications for grants to conduct research projects to increase the quality, profitability, production and sale of peaches and nectarines, enhance the peach and nectarine industry and benefit peach or nectarine producers of this Commonwealth.

The Board was established by the Department of Agriculture (Department) under 3 Pa.C.S. Chapter 45 (relating to Agricultural Commodities Marketing Act) (ACMA). Its composition, funding and duties were subsequently described by a program notice published at 44 Pa.B. 6559 (October 11, 2014).

The Board makes awards of grants from its own funds generated by the methods set forth in the ACMA.

This notice establishes the procedures by which grant applications will be solicited, reviewed and grants awarded.

1. *Grant solicitation.* The Board will be accepting grant applications for the purposes, in the form and according to the schedule set forth herein, for a period of not less than 30 days beginning on the date of publication of this notice in the *Pennsylvania Bulletin*. Additional publication and dissemination of this notice shall be made to applicants who have previously submitted grant applications to, or received grants from, the Board, State universities and State-supported universities located in this Commonwealth, universities with colleges of agricultural science located in this Commonwealth and individuals or entities who have requested notification from the Department or the Board of grant availability.

2. *Process overview.* The Board will employ the review process described as follows to select projects to fund by making a grant from its ACMA funds. In the event of an ACMA-funded grant, the terms and conditions of the grant will be governed by a grant agreement between the Board and the applicant which shall be tendered to the applicant for signature, returnable in no more than 30 days.

3. *Application deadlines.* Applicants should submit a project proposal and grant application, in the form set forth in paragraph 4 of this notice, to the Board by 4 p.m. on Friday, January 5, 2024. Proposals should be sent electronically to RA-AGCOMMODITIES@pa.gov and 14 hard copies must be hand-delivered or sent by United States Mail and postmarked on or before the same date. Applications should be addressed and delivered to the Department of Agriculture, Bureau of Market Development, Attn: Agricultural Commodity Board Grant Program, 2301 North Cameron Street, Harrisburg, PA 17110-9408.

4. *Format of the project proposal and grant application.* The project proposal and grant application shall be formatted as follows:

a. A cover page, titled Pennsylvania Peach and Nectarine Research Program—Project Proposal and Grant Application, providing: the title of the proposed project; the name and address of the applicant; the name, address, telephone number and e-mail address of the applicant's

principal contact person for matters relating to the application; and the total maximum grant amount sought for the proposed project or program.

b. Section 1, titled Statement of Purpose, explaining or presenting: the purpose for which the grant funds would be utilized; details of the proposed project, including a statement of expected impact of outcomes, staffing for the project, and objectives and methodologies; and whether, how and to what anticipated extent the proposed research project increases the quality, profitability or production and sale of peaches and nectarines, enhances the peach and nectarine industry and benefits peach or nectarine producers of this Commonwealth.

c. Section 2, titled Statement of Need, explaining the need for the grant funds sought and identifying the presence of any additional funding partners and the extent of that funding.

d. Section 3, titled Budget, presenting a detailed budget for the proposed project or program, including an itemized breakdown of: all personnel by name devoted to the project, their professional qualifications, the amount of time calculated by hours and the tasks to be performed by each of the named personnel; each and every item of direct expense to be incurred in the project separately set forth, including all purchases of consumable or nonconsumable goods or equipment, listing the disposition of all nonconsumable goods or equipment upon completion of the project; all travel by dates, purpose, destination, mode of transportation and rate; a full breakdown of other costs, if any, and the method used to calculate those costs. See also paragraph 8.

e. Section 4, titled Criteria for Measuring Outcomes, shall identify expected measurable outcomes and the outcome measures. Include a narrative describing data collection to inform the outcome measures. This section must be clear and unambiguous as it will inform expectations of progress reports and final reports.

f. Section 5, titled Industry Involvement, describing the extent of any support, participation and funding from this Commonwealth's peach and nectarine industry, including any written confirmation of that support, participation or funding.

5. *Term of grants.* Applications should be submitted for projects to begin on or after April 1, 2024. Anticipated completion dates will be dictated by the project scope and parameters and may exceed 12 months from commencement if the project so warrants. The Board may award grant funding for multiyear projects or extensions of an ongoing project, if the Board identifies that a multiyear term or an extension advances the grant's objectives. Requests for extensions of ongoing projects shall be made, evaluated and processed in accordance with all the requirements of this notice. Progress reports are to be delivered by e-mail to RA-AGCOMMODITIES@pa.gov no later than October 1, and April 1, every year for the duration of the project, or as requested by the Board. Final reports and invoices should be submitted within 90 days of contract end date. Failure to meet these deadlines constitutes a breach of the grant agreement, may result in nonpayment of invoices and could jeopardize future grant awards.

6. *Notice of award.* Applicants shall be notified by e-mail of the decision on their grant applications by the Board. Best efforts will be made to do so within 60 days of the application deadline.

7. *Grant agreement.* With the e-mailed grant award notice, the Board will provide applicants with a grant agreement for execution and return within 30 days. The Board will obtain the required signatures on the grant agreement and return a copy to the applicant. Work may be reimbursed for services performed before the date the final signature is applied to the grant agreement as long as the activity is documented in the original proposal set forth in the contract as an attachment. However, the Board is under no obligation to reimburse for services unless a proposed grant has been approved. Among the terms of the grant agreement shall be a requirement that the grant recipient provide the Board full and complete access to all records relating to the performance of the project and submit information as the Board may require.

8. *Grant agreement available.* The Board grant agreement is available by contacting the Department instead of attachment to this notice. This grant agreement is the contract that will govern all grants awarded under this grant solicitation. The essential terms are non-negotiable; therefore, applicants may wish to carefully review the grant agreement to ensure that proposed projects are compliant with agreement requirements. Applicants who are unable to agree to the terms and conditions should not submit an application. For questions regarding the grant agreement, contact Patrick Andrews at (717) 772-1429.

9. *Nonmatching cost-reimbursement grant and indirect costs cap.* Grants made hereunder do not require the applicant to secure or devote a matching sum to the project. Payment of grant funds will occur on a reimbursement basis only. Grant awards will not include an allowance for indirect costs, if any, in excess of 10%.

10. *Evaluation and awards.* The Board reserves the right to request modifications or clarifications, or both, of grant applications, including, but not limited to, additional detail of purpose, reduced or modified budgets and the like. Following the deadline for submission of grant applications, the Board will evaluate each complete and timely filed grant application received and the Board will determine in its sole discretion which projects to fund. The Board will vote on these recommendations at a public meeting and the Department grant administration staff will directly contact those applicants whose applications are approved. The Department will notify applicants whose projects were not funded as well and may provide additional information regarding how to improve future proposals.

PA0294161, Concentrated Animal Feeding Operation (CAFO), **Delbert Burkholder (Delbert's Ag Operation)**, 413 Oak Haven Road, Kutztown, PA 19530-8330.

Delbert Burkholder has submitted an application for an Individual NPDES permit for a new CAFO known as Delbert's Ag Operation, located in Albany Township, **Berks County**.

The CAFO is situated near Pine Creek (CWF, MF) in Watershed 3-B, which is classified for Cold Water Fishes and Migratory Fishes. The CAFO will be designed to maintain an animal population of approximately 80.87 animal equivalent units (AEUs) consisting of 19,600 Duck Starters and 19,600 Duck Finishers. Liquid duck manure will be stored onsite in a proposed HDPE-Lined Lagoon. Prior to operation of the manure storage facilities, the design engineer will be required to submit certification that the facilities were constructed in accordance with appropriate PA Technical Guide Standards. A release or discharge to waters of the Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 100-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

You may make an appointment to review the DEP files on this case by calling the File Review Coordinator at 717-705-4732.

The Environmental Protection Agency (EPA) permit waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site.

For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified individual, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the DEP's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

16-131A: Allegheny Wood Products International Inc., 17761 Route 208, Marble, PA 16334, Washington Township, **Clarion County**. Application received: February 1, 2022.

This plan approval is for the proposed reactivation of a number of existing sources at the Marble, PA sawmill. This includes a wood fired boiler and multiclone, sawdust handling system, hogged wastewood handling, lumber wax end seal and painting operations, and other various cyclones. This is a State Only facility. The public notice is required for sources required to obtain a Plan Approval in accordance with 25 Pa. Code § 127.44. This plan approval will, in accordance with 25 Pa. Code § 127.450 or § 127.505, be incorporated into a State Only operating permit at a later date.

Plan Approval No 16-131A is for the reactivation of the previously listed sources, as the facility failed to submit a timely deactivation/maintenance plan in the past, and needed a plan approval to reactivate per 25 Pa. Code § 127.11a. This Plan Approval will contain emission restrictions, testing, recordkeeping, work practice standards, and additional requirement conditions, which will satisfy the requirements of 25 Pa. Code § 127.12b (pertaining to plan approval terms and conditions) and will demonstrate Best Available Technology (BAT) for the sources including, but not limited to, the following:

The wood fired boiler, as the facility is currently unpermitted, was treated as a new source under 25 Pa. Code § 121. BAT was determined to be the existing multi-clone separator, with emission limits established as a combination of Federal New Source Performance Standards for wood fired boilers for filterable PM, and emission limits derived from a BAT analysis in the permit application for NO_x and CO emissions. For the sawdust handling system, hogged wastewood handling, lumber drying kilns, and lumber wax end seal and paint operation sources, BAT was determined to be operating the sources in accordance with the manufacturer's specifications and consistent with good air pollution control practices. In accordance with 25 Pa. Code § 127.44(f)(1), all the pertinent documents regarding this application (applications, review memos, and draft approvals) are also available for review from 8:00 a.m. to 4:00 p.m. at the Meadville Regional DEP office (Air Quality). Appointments for scheduling a review must be made by calling the DEP at (814) 332-6340.

In accordance with 25 Pa. Code § 127.44(f)(2), a 30-day comment period, from the date of publication, will exist for the submission of comments. Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to Regional Air Quality Program Manager, Pennsylvania Department of Environmental Protection, 230 Chestnut Street, Meadville, PA 16335-3494 and must contain the name, address and telephone number of the person submitting the comments, identification of the proposed plan approval [16-131A] and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments

received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Regional Air Quality Program Manager, 230 Chestnut St., Meadville, PA 16335; Phone (814) 332-6940.

In accordance with 25 Pa. Code § 127.45, a person may oppose the proposed plan approval by filing a written protest with the Department's Northwest Region Air Quality Program Manager.

PA-04-00445E: VEKA, Inc., 100 Veka Drive, Fombell, PA 16123, Marion Township, **Beaver County**. Application received: June 15, 2023.

Pursuant to 25 Pa. Code §§ 127.44–127.46, the Department intends to issue Air Quality plan approval to authorize construction and temporary operation of three (3) additional vinyl extrusion lamination lines (Lines 4, 5, and 6) at the VEKA, Inc. (VEKA) Fombell Plant in Marion Township, Beaver County.

The three (3) proposed vinyl extrusion lamination lines will incorporate felt pad wipe application of primer and slot die application of hot melt adhesive with transfer efficiencies of nearly 100% which constitutes best available technology (BAT) for the proposed surface coating operations. Emissions of methylene chloride (MeCl) (HAP), ethanol (VOC), and methylene diphenyl di-

isocyanate (MDI) (VOC and HAP) are collected by local exhaust ventilation (LEV) (hoods) at the application sites and are routed via common duct to atmosphere. Due to space constraints, in conjunction with the project, VEKA will relocate the lamination operations to the adjoining building, reconfigure the LEV system, relocate and install a larger exhaust duct, and install a higher capacity roof-mounted exhaust fan.

Total potential to emit (PTE) for lamination operations will not increase as a result of the project and will remain limited to 0.20 ton per year (tpy) VOC, 9.90 tpy of a single HAP (methylene chloride), and 9.90 tpy of total HAPs combined. The proposed plan approval has been conditioned to ensure compliance with all applicable requirements specified in 25 Pa. Code, and includes emissions limitations and work practice, monitoring, record-keeping, and reporting requirements.

At the request of the Department given the revised exhaust parameters and increased maximum short-term emissions rates for the compounds of potential concern (COPC), VEKA conducted an inhalation risk assessment for the proposed project to evaluate potential cancer and noncancer inhalation risks associated with potential air emissions from the lamination lines. Emissions rates of COPC from the two (2) proposed stack locations were modeled to derive exposure concentrations. The highest modeled exposure concentrations were then multiplied or divided by compound-specific unit risk factors or reference concentrations, respectively. Chronic risks for each COPC were then summed and compared against the Department's benchmark excess lifetime cancer risk and health index (HI) values. Acute risks for each COPC were compared against the Department's benchmark hazard quotient (HQ) value.

Inhalation Risk Assessment Results Summary

<i>Inhalation Risk</i>	<i>Department Benchmark</i>	<i>Modeled Risk</i>	<i>Less Than Benchmark?</i>
Excess Lifetime Cancer Risk	1 in 100,000	2.18 in 1,000,000	Yes
Chronic Noncancer Risk	HI < 0.25	HI = 0.23	Yes
Acute Noncancer Risk	HQ < 1 (MeCl)	HQ = 0.731	Yes
	HQ < 1 (MDI)	HQ = 0.00231	Yes

The Department's technical review concluded that VEKA's inhalation risk assessment was conducted according to the Department-approved protocol and is acceptable. Furthermore, the Department's independent inhalation risk assessment concludes that chronic cancer and noncancer risks as well as acute noncancer risks do not exceed the Department's benchmarks.

The plan approval application, the Department's Air Quality review memorandum, and the proposed Air Quality plan approval for the proposed project are available for review by any interested party at the Pennsylvania Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. To schedule an appointment to review the Air Quality plan approval application or proposed Air Quality plan approval, or to receive an electronic copy of the Department's Air Quality review memorandum or the proposed Air Quality plan approval for the proposed project, a person may contact the Department's Southwest Regional Office File Review Coordinator at 412.442.4000. A file review can be can scheduled through the Department's

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH must always be greater than 6.0; less than 9.0.			
Alkalinity must always be greater than acidity.			

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREMABLE 2

The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of

regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final

report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice provides DEP's decision and, if relevant, the basis for disapproval.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
16A-4335	State Board of Chiropractic Fees 53 Pa.B. 4420 (August 5, 2023)	09/05/23	10/05/23

State Board of Chiropractic Regulation # 16A-4335 (IRRC # 3378)

Fees

October 5, 2023

We submit for your consideration the following comments on the proposed rulemaking published in the August 5, 2023 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the State Board of Chiropractic (Board) to respond to all comments received from us or any other source.

1. Compliance with the provisions of the RRA and the regulations of IRRC.

Section 5.2 of the RRA (71 P.S. § 745.5b) directs IRRC to determine whether a regulation is in the public interest. When making this determination, IRRC considers criteria such as economic or fiscal impact and reasonableness. To make that determination, IRRC must analyze the text of the proposed regulation and the reasons for the new or amended language. IRRC also considers the information a promulgating agency is required to provide under Section 5 of the RRA in the Regulatory Analysis Form (RAF) (71 P.S. § 745.5(a)).

RAF question # 21 asks the agency to provide a specific estimate of the costs and/or savings to state government associated with the implementation of the regulation and to explain how the dollar estimates were derived. The Board states in its response that it will incur a minimal cost to revise its online application forms and online biennial registration platform to indicate the increased fees. However, the Board does not provide a dollar estimate for this cost to implement the regulation. We ask the Board to provide with the final regulation an updated RAF that includes a specific cost estimate to state government associated with implementation of the regulation.

2. Section 5.6. Fees.—Reasonableness.

In this section, the Board proposes to increase application fees to reflect the updated costs of processing applications and to increase the Board's biennial registration fees to ensure that its revenue meets or exceeds its current and projected expenses, as required under Section 1101(b) of the Chiropractic Practice Act (63 P.S. § 625.1101(b)).

The Pennsylvania Chiropractic Association (PCA) and the American Chiropractic Association (ACA) each commented on the proposed fees relating to continuing education course approval, asking the Board to consider alternative means of addressing the budgetary gap. PCA suggests that “the fee increase be reflected in a tiered manner specific to ‘per credit’ ranges as opposed to per course,” and offers suggested fees that it asserts are “proportional to cost absorption.” The ACA asserts that the proposed fee increases make delivery of affordable, quality, and approved continuing education credits “a cost-prohibitive undertaking without enhancing the standards of quality” and asks the Board to consider the successful models delivered by several other state licensing boards.

ACA also notes that several states “take one step further in defining the [continuing education] providers who are pre-approved” and asserts that “this model has the potential to minimize the number of applications that must be processed” by the Board, thereby decreasing both direct and indirect costs.

We ask the Board to address these alternatives to the proposed fee schedules in the Preamble and RAF of the final regulation, and to explain why the fees in the final regulation are reasonable.
