# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published weekly. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. It is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations, Statewide court rules, and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, rescission, repeal or emergency action, must be published in the *Pennsylvania Bulletin*.

The following documents are published in the *Pennsylvania Bulletin*: Governor's Executive Orders; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or rescind regulations must first publish in the *Pennsylvania Bulletin* a Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. A Final Rulemaking must be published in the *Pennsylvania Bulletin* before the changes can take effect. If the agency wishes to adopt changes to the Proposed Rulemaking to enlarge the scope, it must repropose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies, Statewide court rules and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes when they are adopted. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code* § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government.

### **How to Find Rules and Regulations**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

Source Notes give the history of regulations. To see if there have been recent changes not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

A quarterly List of *Pennsylvania Code* Sections Affected lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

The *Pennsylvania Bulletin* is available at [www.pacodeandbulletin.gov](http://www.pacodeandbulletin.gov).

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires the Governor's Budget Office to prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions and authorities receiving money from the State Treasury. The fiscal note states whether the action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions. The fiscal note is required to be published in the *Pennsylvania Bulletin* at the same time as the change is advertised.

A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; and (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years. In item (8) the recommendation, if any, made by the Secretary of the Budget is published with the fiscal note. "No fiscal impact" means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended. See 4 Pa. Code Chapter 7, Subchapter R (relating to fiscal notes).

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish information except as provided by 1 Pa. Code § 3.44:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the [Legislative Reference] Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 1

#### **Acknowledgment of Notice(s) of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent (NOI) to Remediate. An acknowledgment of the receipt of a NOI to Remediate is used to identify a site where an individual proposes to, or has been required to, respond to a release of a regulated substance at a site. Individuals intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a NOI to Remediate with DEP. A NOI to Remediate filed with DEP provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a de-

scription of the intended future use of the site. An individual who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by DEP. Furthermore, an individual shall not be subject to citizen suits or other contribution actions brought by responsible individuals not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the NOI to Remediate is published in a newspaper of general circulation in the area of the site. For the following identified site(s), proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30-days of the following specified date. During this comment period the municipality may request that the following identified individual, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

EnviroTrac, Ltd., 176 Thorn Hill Road, Warrendale, PA 15086 on behalf of Sheetz, Inc., 5700 6th Avenue, Altoona, PA 16602, submitted a Notice of Intent to Remediate. As part of the August 2022 due diligence of the parcel prior to its acquisition by Sheetz, suspected gasoline-impacted soil and groundwater were identified during the installation of soil borings and temporary monitor wells. Based on historical photos, the property appeared to serve as a gasoline station in the 1960s, with the area of identified impacts located adjacent to the suspected former underground storage tank and dispenser areas. Soil data identified adsorbed benzene at concentrations exceeding the Statewide health standard. Temporary monitor well data identified dissolved benzene above the Statewide health standard. Permanent monitor wells were installed on the property in November 2022. Initial groundwater sampling results confirmed the presence of dissolved phase benzene at concentrations exceeding the Statewide health standard. Soil impacts were identified in two locations at depths between 5 and 10 feet bgs. Impacted soils were delineated vertically and horizontally. Groundwater occurs at approximately 18 feet bgs. Following the initial occurrences of dissolved benzene in groundwater, the dissolved benzene concentrations decreased to below the Statewide health standard. The parcel is currently being redeveloped (as well as adjacent parcels # 31-02-07 and # 31-02-04A) for Sheetz store # 859. ## AIR QUALITY

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department of Environmental Protection (DEP) has developed an integrated plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The DEP received applications for Plan Approvals or Operating Permits from the following facilities. Copies of the application, DEP's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate DEP Regional Office. Appointments for scheduling a review must be made by calling the appropriate DEP Regional Office. The address and telephone number of the Regional Office is listed before the application notices.

Individuals wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the DEP's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

Any individual wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if DEP, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when DEP determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate DEP Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Mazza Iron and Steel will help control PM emissions by using a water/foam injection system at the shredder. The permit also addresses VOC emissions from the shredding of end of life vehicles (ELF). Mazza has a facility wide VOC emission limit of 24.9 tpy calculated on a 12 month-rolling sum. The permit contains monitoring, recordkeeping and operating restrictions designed to minimize emissions and keep the facility operating within all applicable air quality requirements. Monitoring, recordkeeping and reporting requirements are included in the permit to address applicable limitations. Anyone wishing to request information regarding this action can do so by contacting the Southeast Regional Office through the previously listed contact person in the header. **MINING ACTIVITY NPDES DRAFT PERMITS**

This notice provides information about applications for a new, amended or renewed National Pollutant Discharge Elimination System (NPDES) permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (DEP) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l

pH must always be greater than 6.0; less than 9.0.  
Alkalinity must always be greater than acidity.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

*Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code § 77.522 are pH 6 to 9 and other parameters DEP may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law).

The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Appeals must be filed with the Board within 30-days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law. For individuals who wish to challenge an action, the appeal must reach the Board within 30-days. A lawyer is not needed to file an appeal with the Board. Individuals who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at 717-787-3483 for more information. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at 717-787-3483. Important legal rights are at stake, however, so individuals should contact a lawyer at once.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

For actions taken on applications for pipelines that are regulated by the Federal Energy Regulatory Commission (FERC).

Any person aggrieved by this action may challenge it in an appropriate legal forum. The State and Federal courts are currently split on whether the proper forum to challenge a Department permit, authorization or approval for a facility or activity subject to the Federal Natural Gas Act, 15 U.S.C.A. §§ 717 et seq., is the United States Court of Appeals for the Third Circuit or the Pennsylvania Environmental Hearing Board. ## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995  
PREAMBLE 2

The Following Plans and Reports Were Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and

reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

---

**The Department Has Taken Action on the Following Plans and Reports Under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

---

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The DEP may approve or disapprove plans and reports submitted. This notice

provides DEP's decision and, if relevant, the basis for disapproval.

The applicant proposes in this amendment to:

1. Dredge an approximately 3.6 acres area within an approximately 249' long (perpendicular to the shore) x 710' wide (parallel to the shore) area (an approximately 4.2 acres total area) to the elevation depth of 712.7' in the Monongahela River (WWF) upstream of the existing barge docking facility at Mile Point 24.7 along the left bank,

2. Dredge and conduct periodic, perpetual maintenance dredging in an approximately 291' long (perpendicular to the shore) x 700' wide (parallel to the shore) area (4.0 acre) to the elevation depth of 712.7' in the Monongahela

River (WWF), at Mile Point 24.7, along the left bank, in front of the existing barge docking facility,

3. Dredge an approximately 0.6 acre area within an approximately 163' long (perpendicular to the shore) x 189' wide (parallel to the shore) area (an approximately 0.8 acre total area) to the elevation depth of 712.7' in the Monongahela River (WWF) downstream of the existing barge docking facility at Mile Point 24.7 along the left bank,

For the purpose of providing safe access and mooring of barges after the US Army Corps of Engineers removes the Monongahela River Locks and Dam 3 from the Monongahela River. With the three areas previously mentioned, the project will cumulatively dredge 23,350 cubic yards and permanently impact 1600 LF (7.87 acres) of water-course; however, perpetual maintenance dredging will only be conducted in the approximately 291' long (perpendicular to the shore) x 700' wide (parallel to the shore) area (4.0 acres) to the elevation depth of 712.7' in front of the permittee's existing barge docking facility.

The applicant has been given consent to:

1. Construct and maintain a stream restoration project, along approximately 442 linear feet of an Unnamed Tributary # 1 of Brady Run (TSF) by re-grading the streambanks to reconnect the stream with its floodplain, and planting vegetative riparian buffers on the streambanks extending 35-feet perpendicular in both directions along the 442 feet of stream, resulting in 442 linear feet of permanent impact to the stream, and 493 linear feet of temporary impacts, as well as 0.7 acre of permanent floodway impacts, and 0.2 acre of temporary impacts.

2. Construct and maintain a stream restoration project via the planting of vegetative riparian buffers, along approximately 100 linear feet of an Unnamed Tributary # 2 of Brady Run (TSF) for the purpose of stream bank plantings, resulting in 107 linear feet of permanent stream impacts, 117 linear feet of temporary impacts, and 0.2 acre of permanent floodway impacts, and 0.1 acre of temporary impacts.

For the purpose of reducing the impairment due to erosion within the waterway. The project site is located near the intersection of Constitution Boulevard and 8th Street, Beaver Falls, PA USGS topographic quadrangle; N: 40°, 45', 05"; W: -79°, 57', 36"; Sub-basin 20C; USACE Pittsburgh District, in Patterson Township, Beaver County.

### PREAMBLE 2

**The Following Plan(s) and Report(s) Were Submitted Under the Storage Tank and Spill Prevention Act (35 P.S. §§ 6021.101—6021.2104).**

Provisions of 25 Pa. Code Chapter 245, Subchapter D, Administration of the Storage Tank and Spill Prevention Program, require the Department of Environmental Protection (DEP) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A remedial action plan is submitted to summarize the site characterization, document the design and construction details for the remedial action, and describe how the remedial action will attain the selected remediation standard. The remedial action plan also provides results of studies performed and data collected to support the remedial action and a description of postremediation care requirements. A remedial action completion report is submitted to document cleanup of a release of a regulated substance at a site to the selected remediation standard. A remedial action completion report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure

factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning plans or reports, please contact the Regional Office Program Manager previously listed in the notice.

Individuals in need of accommodations should contact DEP through the Pennsylvania Hamilton Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

## DEPARTMENT OF ENVIRONMENTAL PROTECTION

### Availability of National Pollutant Discharge Elimination System (NPDES) General Permit for Discharges of Stormwater Associated with Construction Activities (PAG-02)

Under The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P.S. §§ 510-5, 510-17 and 510-20), the Department of Environmental Protection (Department), by this notice, informs the public of the availability of the final National Pollution Discharge Elimination System (NPDES) General Permit for Discharges of Stormwater Associated with Construction Activities (PAG-02) for a new 5-year term. The PAG-02 General Permit will become effective on December 8, 2024, and will expire on December 7, 2029.

The PAG-02 General Permit is intended to provide NPDES permit coverage to persons proposing an earth

disturbance activity (other than agricultural plowing or tilling activities, animal heavy use areas, timber harvesting activities, oil and gas activities and road maintenance activities) involving earth disturbance greater than or equal to one acre, or an earth disturbance on any portion, part or during any stage of, a larger common plan of development or sale that involves greater than or equal to 1 acre of disturbance, in satisfaction of State (25 Pa. Code §§ 92a.1(b) and 102.5(a) (relating to purpose and scope; and permit requirements)) and Federal (40 CFR 122.26(b)(14)(x) and (15) (relating to storm water discharges (applicable to State NPDES programs, see § 123.25)) regulations, if the eligibility requirements have been satisfied. The PAG-02 General Permit may also be used for NPDES permit coverage where the Department or the United States Environmental Protection Agency requires an NPDES permit based on the potential for contribution to a violation of a water quality standard or for significant contribution of pollutants to waters of the United States, in accordance with 40 CFR 122.26(b)(15)(ii). The PAG-02 General Permit may not be used for discharges to waters designated for special protection under 25 Pa. Code Chapter 93 (relating to water quality standards) or other discharges that do not meet eligibility requirements of the PAG-02 General Permit.

Notice of the availability of a draft PAG-02 General Permit was published in the *Pennsylvania Bulletin* at 54 Pa.B. 1263 (March 9, 2024). A 30-day comment period was provided and interested parties were directed to submit comments to the Department's eComment system. The comment period ended on April 8, 2024. The Department received comments from 20 individuals and organizations during the comment period. A comment and response document has been developed by the Department.

The notice of availability of the draft PAG-02 at 54 Pa.B. 1263 included a description of the significant changes in the draft PAG-02 compared with the PAG-02 that became effective on December 8, 2019. The following additional significant changes were made to the final PAG-02 General Permit documents in comparison to the draft General Permit published on March 9, 2024:

- *Submission to Municipalities*—The draft PAG-02 proposed a requirement to submit annual reports and Notices of Termination (NOT) to municipalities. In response to public comments, the Department has removed this requirement from the final PAG-02.

- *Landowner Acknowledgement*—The draft PAG-02 proposed a new “Landowner Acknowledgement” section of the PAG-02 Notice of Intent (NOI) that the landowners of a project site would sign to demonstrate the applicant has authority to conduct earth disturbance activities, if the applicant was not the sole owner of land comprising the project site. In response to public comments, the Department has removed this section from the final PAG-02 NOI.

- *Legal Instrument Recording*—Under 25 Pa. Code § 102.8(m)(2) (relating to PCSM requirements), permittees must record a legal instrument identifying post-construction stormwater management (PCSM) stormwater control measures (SCM) on properties. In the 2019 version of PAG-02, this instrument was required to be recorded within 45 days of permit issuance. The draft PAG-02 published March 9, 2024, proposed that the legal instrument recording occur and the recorded documentation be submitted to the Department or a delegated county conservation district (CCD) prior to the scheduling of the required pre-construction meeting to aid in ensur-

ing that this requirement will be satisfied and does not prevent the approval of an NOT. In response to comments received, the Department is, in the final PAG-02, making an exception to this requirement for utility projects and other projects that receive written approval from the Department or a CCD. If the exception applies, the permittee will be required to record the instrument and submit the recorded documentation to the Department or a CCD within 45 days of PAG-02 coverage approval.

- *Residential Impervious*—The Department has removed questions on the final PAG-02 NOI concerning whether the maximum impervious allowed on a lot or a factor of safety was used for planned impervious areas. PCSM Module 2 will be updated to include a table of lots and impervious areas for multilot development projects. If the stormwater analysis and design of SCMs considers either the maximum allowable impervious area under a local ordinance or the maximum impervious on a lot, as designed, is at least 10% greater than the planned impervious, the permittee would not be responsible for amending the approved PCSM Plan and PAG-02 coverage or documenting future changes on record drawings, assuming the changes are within the factor of safety.

- *Monthly Color Photographs*—The draft PAG-02 proposed that color photographs be taken at least monthly of best management practices and SCMs. In the final PAG-02, the Department has modified this requirement to allow for alternative approaches when approved by the Department or a CCD, generally for large projects.

- *Effective Date*—The Department has clarified in the final PAG-02 that the requirements for site inspectors to be qualified and for confirmation testing of infiltration SCMs go into effect on December 8, 2025, 1 year following the effective date of the final PAG-02, to provide adequate time to prepare for these new requirements.

- *Confirmation Testing for Infiltration Capacity*—The Department has decided to eliminate the 20% threshold on ponding or drawdown times when evaluating infiltration SCMs through confirmation testing for infiltration capacity and instead allow the licensed professional the discretion to determine if the SCM is infiltrating in a manner consistent with the design.

Changes to the new PAG-02 General Permit compared with the PAG-02 that became effective on December 8, 2019, are also detailed in the “PAG-02 Modifications” section of the fact sheet accompanying the new PAG-02.

Permittees with existing coverage under the PAG-02 General Permit will be required to submit a renewal NOI to maintain continued coverage under the reissued PAG-02 General Permit by December 7, 2024. Permittees must use the PAG-02 Renewal NOI form (3800-PM-BCW0405h). The Department or CCDs will transmit notification to all existing PAG-02 permittees explaining the changes to the terms and conditions of General Permit coverage.

The fees for the PAG-02 General Permit include: 1) a \$500 administrative filing fee that is payable to the appropriate CCD Clean Water Fund or, if earth disturbance will occur in Forest or Philadelphia counties, payable to the Commonwealth Clean Water Fund; 2) a disturbed acreage fee calculated by multiplying the number of disturbed acres (rounded to the nearest whole acre) by \$100, payable to the Commonwealth Clean Water Fund; and 3) any additional fees that the CCD has established for review of the NOI for PAG-02 coverage. The administrative filing fee and disturbed acreage fee do

not apply to entities satisfying the criteria for an exemption under 25 Pa. Code § 102.6(b)(4) (relating to permit applications and fees).

The General Permit package can be accessed online through the Department's eLibrary web site at [www.depgreenport.state.pa.us/elibrary/](http://www.depgreenport.state.pa.us/elibrary/) (select "Permit and Authorization Packages," then "Clean Water," then "PAG-02 NPDES General Permit for Discharges of Stormwater Associated with Construction Activities 3800-PM-BCW0405").

In accordance with 25 Pa. Code § 92a.84(c)(3) (relating to public notice of general permits), the Department will publish notice of every approval of coverage under the PAG-02 General Permit in the *Pennsylvania Bulletin*.

JESSICA SHIRLEY,  
Acting Secretary

### Draft Safe Drinking Water General Permit for Community Water System Finished Water Storage Tank Painting

The Department of Environmental Protection (Department) is announcing the availability of a draft General Permit—Safe Drinking Water General Permit 01 (SDWGP-01) for painting of the interior of finished water storage tanks by community water systems. To access the draft SDWGP-01 and related documents, visit the Department's eLibrary at [www.depgreenport.state.pa.us/elibrary/](http://www.depgreenport.state.pa.us/elibrary/) (select "Permit and Authorization Packages," then "Safe Drinking Water," then "SDWGP-01: Safe Drinking Water General Permit 01—Community Water System Finished Water Storage Tank Painting (3940-PM-BSDW0004) (Draft)"). The Department previously published notice of the availability of the draft SDWGP-01 at 54 Pa.B. 2327 (April 27, 2024), but experienced some technical difficulties with the Department's eComment system for that prior notice, so the Department is republishing this notice now to resolicit public comments on the draft SDWGP-01.

The Department is authorized under section 4 of the Pennsylvania Safe Drinking Water Act (35 P.S. § 721.4) and 25 Pa. Code Chapter 109, Subchapter E (relating to permit requirements) to issue general permits for a specific category of modifications if the Department determines that the modifications meet the requirements in 25 Pa. Code § 109.511(a)(1)—(3) (relating to general permits).

The proposed SDWGP-01 is intended to provide permit coverage to public water systems to repaint the interior of finished water storage tanks in compliance with 25 Pa. Code § 109.511.

If a storage tank painting project (project) is ineligible for SDWGP-01, the public water system will be required to obtain a Public Water System Minor Amendment Construction Permit that meets the requirements of 25 Pa. Code § 109.503 (relating to public water system construction permits).

To be eligible for SDWGP-01, the project must meet, at a minimum, the following conditions:

1. *SDWGP-01 Application*: The Permittee shall submit a complete Safe Drinking Water General Permit—01

(SDWGP-01): Community Water System Finished Water Storage Tank Painting Application (3940-PM-BSDW0004) to the Department.

2. *SDWGP-01 Authorization*: If the application is approved by the Department, the Permittee shall receive a signed copy of SDWGP-01 from the Department authorizing coverage under SDWGP-01.

3. *Eligibility*:

a. Finished water storage tanks used to provide the required 1.0-log Giardia or 4.0-log virus inactivation chlorine contact time for the entry point do not qualify for SDWGP-01. Instead, the public water system will be required to obtain a Public Water System Minor Amendment Construction Permit that meets the requirements of 25 Pa. Code § 109.503, with a detailed explanation of how the required chlorine contact time will be achieved while the storage tank is out of service.

b. The Department may require the Permittee to apply for and obtain a Public Water Supply Minor Amendment Construction Permit by notifying the Permittee based on review of the SDWGP-01 application.

4. *ANSI/NSF Standard 61*: The Permittee shall only utilize coatings that are certified to American National Standards Institute (ANSI)/NSF Standard 61 (see <https://www.nsf.org/knowledge-library/nsf-ansi-standard-61-drinking-water-system-components-health-effects>).

5. *Coating Application*: The Permittee shall mix and apply to the coatings in accordance with the ANSI/American Water Works Association (AWWA) Standard D102 Coating Steel Water Storage Tanks (see <https://engage.awwa.org/PersonifyEbusiness/Bookstore/Product-Details/productId/102200016>).

6. *Surface Preparation*: The Permittee shall prepare interior steel surfaces in accordance with the ANSI/AWWA Standard D102 Coating Steel Water Storage Tanks.

7. *Interior Preparation*: The Permittee shall follow the AWWA Standard D100 Welded Steel Tanks for Water Storage (see <https://engage.awwa.org/PersonifyEbusiness/Bookstore/Product-Details/productId/101843325>) while welding the interior of the tank.

8. *Pressure and Peak Demands*: The Permittee shall provide a detailed explanation on how pressure will be maintained and peak demands will be met while the storage tank is out of service.

9. *Pressure and Peak Demands Testing*: The method for maintaining pressure and meeting peak demands while the storage tank is out of service must be tested with the storage tank full and isolated from the system. This allows the storage tank to be returned to service if necessary (to maintain pressure or meet peak demands) and other options can be explored. While the storage tank is isolated from the system, a 0.2 mg/L disinfectant residual must be maintained within the storage tank.

10. *Fire Protection*: If the system provides fire protection, the Permittee shall verify the local fire department was notified of any potential fire flow deficiencies with the storage tank being out of service.

11. *Disinfection*: After the work is completed, the Permittee shall disinfect the interior of the tank utilizing one of the procedures set forth in the latest edition of AWWA Standard C652 Disinfection of Water Storage Facilities (see <https://engage.awwa.org/PersonifyEbusiness/Bookstore/Product-Details/productId/81912774>). Special conditions will be included in the permit for this requirement.

12. *Disinfectant Residual*: After disinfecting the storage tank, the Permittee shall maintain a disinfectant residual of at least 0.2 mg/L in the storage tank at all times until the tank is placed back into service. If the residual falls below 0.2 mg/L, the water supplier shall disinfect the tank again and obtain satisfactory bacteriological test results before placing the tank into service. Special conditions will be included in the permit for this requirement.

13. *Volatile Organic Chemical (VOC) Testing*: After the storage tank painting project is completed, the Permittee shall have the water from the storage tank sampled at least 24 hours after the tank is filled and have the samples analyzed by a Department-accredited laboratory for VOCs (EPA Methods 502.2, 524.2 or 524.3). A special condition will be included in the permit for this requirement.

14. *Expiration*: The base general permit, SDWGP-01, will expire 5 years from the date of its issuance. If the Department reissues SDWGP-01 upon expiration or modifies SDWGP-01 during its current term, a Permittee with approval under SDWGP-01 may perform the approved work with the terms and conditions of the modified or reissued SDWGP-01, unless the Department notifies the Permittee in writing that a new application is required.

15. *Other Requirements*: No condition of SDWGP-01 releases the Permittee from any responsibility or requirements under other Federal, State or local regulations, statutes or ordinances.

Applicants must submit to the Department a complete SDWGP-01 application, a \$500 permit fee, an engineer's report and the coating specifications. The complete application must be submitted, signed and sealed by a professional engineer licensed in this Commonwealth.

Special conditions for the authorization of SDWGP-01, at a minimum, will include:

1. The Permittee shall comply with the terms and conditions of the SDWGP-01.

2. The Permittee's failure to comply with the terms, conditions or limitations of the SDWGP-01 is grounds for the Department to take an enforcement action or to terminate or revoke coverage under SDWGP-01.

3. Authorization of SDWGP-01 does not authorize any activities other than the construction or modification as per the terms and conditions of SDWGP-01.

4. The Permittee's coverage under SDWGP-01 will expire 2 years from the date of its approved authorization.

5. The Permittee shall notify the Department at least 48 hours prior to isolating and draining the finished water storage tank.

6. Prior to returning the storage tank to operation, the storage tank and related appurtenances shall be properly disinfected in accordance with 25 Pa. Code § 109.711 (relating to disinfection of facilities prior to placing them into service) and the most recent procedures established by AWWA. Water from the storage tank shall be tested for total coliforms in accordance with AWWA standards. The samples shall be analyzed by a Department-accredited laboratory. Copies of all microbiological test results shall be submitted to the Department within 24 hours of receiving the results.

7. After disinfecting the storage tank, the Permittee shall maintain a disinfectant residual of at least 0.2 mg/L in the storage tank at all times until the tank is placed back into service. If the residual falls below 0.2 mg/L, the

system shall disinfect the tank again and again obtain satisfactory bacteriological test results before placing the storage tank into operation. The Permittee shall sample chlorine residual at least daily and take one sample that is within 4 hours of returning to operation.

8. Prior to returning the storage tank to operation, water from the storage tank shall be sampled and tested for VOCs utilizing EPA Method 524.2 or EPA Method 502.2. The storage tank shall be filled with water for at least 24 hours prior to the collection of the VOC sample. The sample shall be analyzed by a Department-accredited laboratory.

9. If any of the bacteriological results are positive, any regulated VOC concentration exceeds a maximum contaminant level or any nonregulated VOC is found to be present at a concentration that is greater than the method detection limit, the storage tank may not be returned to service until the Department first approves its use, in writing.

10. Upon completion of construction and testing, the Permittee shall submit to the Department a Certificate of Construction (3900-FM-BSDW0062) available on the Department's eLibrary web site at [www.depgreenport.state.pa.us/elibrary/](http://www.depgreenport.state.pa.us/elibrary/) (select "Forms," then "Safe Drinking Water," then "Certificate of Construction 3900-FM-BSDW0062") copies of the bacteriological test results, chlorine residual results and VOC test results. The Certificate of Construction form shall be provided to the Department within 24 hours of returning the storage tank to operation or the next business day.

The Permittee's authorization approval under SDWGP-01 will expire 2 years from the approval date. Failure to comply with the terms, conditions or effluent limitations of the SDWGP-01 will be grounds for the Department to take an enforcement action or terminate or revoke coverage under SDWGP-01.

## DEPARTMENT OF HUMAN SERVICES

### Fee Schedule Rates and Department-Established Fees for Services Funded Through the Office of Developmental Programs' Consolidated, Community Living, Person/Family Directed Support and Adult Autism Waivers, Targeted Support Management and the Community Intellectual Disability Base-Funded Program

The Department of Human Services (Department) is providing final notice of the Fee Schedule Rates for Targeted Support Management and services funded through the Consolidated, Community Living, Person/Family Directed Support (P/FDS), and Adult Autism Waivers and Department-established fees for residential ineligible services. The rates for community-based services and residential services are effective July 1, 2024. The rates for Agency With Choice Financial Management Services and Life Sharing with and without day will be effective October 1, 2024.

The Fee Schedule Rates also serve as the Department-established fees under 55 Pa. Code § 4300.115(a) (relating to Department established fees) for base-funded services managed through county programs for individuals with an intellectual disability under the Mental Health and Intellectual Disability Act of 1966 (50 P.S. §§ 4101—4704), 55 Pa. Code Chapter 4300 (relating to county mental health and intellectual disability fiscal manual) and 55 Pa. Code Chapter 6100 (relating to services for individuals with an intellectual disability or autism).

#### *Background*

The amount of funding available for Targeted Support Management and services funded through the Consolidated, Community Living, P/FDS and Adult Autism Waivers and Department-established fees for residential ineligible services is dependent upon the funds appropriated by the General Assembly. The General Appropriation Act of 2024, Act 1A of 2024, made available funding for rate increases for Targeted Support Management and home and community-based services funded through the Consolidated, Community Living, P/FDS and Adult Autism Waivers and Department-established fees for residential ineligible services. The Department is required to fund services within the amount of funds appropriated by the General Assembly.

#### *Rate-Setting Methodology for Fee Schedule Rates and Department-Established Fees:*

The Fee Schedule Rates and Department-established fees were established by applying an inflationary adjustment factor of 8% to the rates for nonresidential services and 6% to the rates for residential services.

#### *Payments for Residential Services*

Licensed Residential Habilitation, Unlicensed Residential Habilitation, Life Sharing and Supported Living providers whose services are funded through the Consolidated and Community Living Waivers and have been assigned to the primary, select or clinically enhanced tier as part of the Department's implementation of performance-based contracting are eligible to receive pay-

for-performance supplemental payments. To receive a supplemental payment, the provider must meet or exceed performance targets for staff credentialing, employment of individuals served, transition of individuals to Life Sharing or Supported Living services, rural provider capacity and reporting on use of technology.

Residential providers that meet or exceed performance standards for staff credentialing, employment of individuals served, rural provider capacity and reporting on the use of technology will receive one-time or combined payments up to 3% of Office of Developmental Program-eligible service revenue from the applicable review period or established payment amount per qualifying event.

Residential providers that support individuals to successfully transition from licensed Residential Habilitation services to Life Sharing or Supported Living services are eligible for 2 one-time per individual transition to Independent Living payments. To be eligible for the payment, an individual must transition from a licensed home in which Residential Habilitation is provided to four or fewer people to a Life Sharing or Supported Living service rendered by the same provider. The first payment of \$15,000 will be made after the new Life Sharing or Supported Living service is rendered. The second payment of \$15,000 will be made after the individual has

received 6 consecutive months of Life Sharing or Supported Living service if the individual continues to reside in the setting to which the individual transitioned and is expected to continue residing in that location and receive Life Sharing or Supported Living services.

Licensed Residential Habilitation, Unlicensed Residential Habilitation, Life Sharing and Supported Living providers that meet the requirements to qualify as a Select provider or a Clinically Enhanced residential provider will also receive a payment that is in addition to the Fee Schedule Rate for the services they provide. Select providers will receive a rate add-on of 3% per individual served and Clinically Enhanced providers will receive a rate add-on of 5% per individual served.

For all services but residential services, the final Fee Schedule Rates represent the maximum rates the Department will pay for each service. For residential services the maximum rate the Department will pay for each service is the Fee Schedule Rate and the Department-established fees and any add on per individual served. The final Fee Schedule Rates and Department-Established Fees for each service are included in the following tables and can also be found online at <https://www.dhs.pa.gov/providers/Providers/Pages/ODP-Rates.aspx>.

*C. Additional Class of Disproportionate Share Payments*

Effective March 1, 1998, the Department established a new class of disproportionate share payments to hospitals which render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of MA Program revisions under the act of May 16, 1996 (P.L. 175, No. 35).

Effective January 15, 1999, the Department established a new class of disproportionate share payments to include a Charity Care component of the Community Access Fund. A disproportionate share payment will be made to qualifying hospitals based on each hospital's percentage of charity care cost to the total charity care costs of all qualifying hospitals. The Department also established a disproportionate share payment for those hospitals which the Department has determined advanced its goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth.

The following hospitals qualify for this payment:

ABINGTON MEMORIAL HOSPITAL
ALBERT EINSTEIN MEDICAL CENTER
AVENUES RECOVERY MEDICAL CENTER AT VALLEY FORGE

(a) The 8-Legged Loot lottery game is an instant win game printed from a Lottery Terminal. All prizes are predetermined, and the player does not have the ability to select their own play symbols. 8-Legged Loot tickets may be purchased from an authorized retailer or at a Lottery self-service terminal that sells terminal-based Lottery game tickets. Tickets purchased from an authorized retailer shall be printed on-demand at the time of purchase and may not be preprinted by the retailer.

(b) 8-Legged Loot is played by matching any of the play symbols located in the "YOUR NUMBERS" area to any of the play symbols located in the "WINNING NUMBERS" area. A player matching play symbols in this manner will win the prize shown under the matching "YOUR NUMBERS" play symbol. When matching play symbols are 8 (EIGHT) symbols, the player wins all 8 prizes shown in the "YOUR NUMBERS" area. A bet slip is not used to play this game.

(c) 8-Legged Loot tickets contain an "\$8-LEGGED" feature that includes a "WINNING WEB" area. When the play symbol at the "START" matches the play symbol at the "FINISH" the player wins a prize of \$8. "\$8-LEGGED" is played separately.

(d) Players can win the prizes identified in section 7 (relating to prizes available to be won and determination of prize winners).

(e) 8-Legged Loot tickets cannot be canceled or voided once printed by the Lottery Terminal, even if printed in error.

(f) To purchase a ticket at an authorized retailer, a player must remit the purchase price to the retailer and verbally request an 8-Legged Loot ticket. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize.

(g) To purchase a ticket at a Pennsylvania Lottery self-service terminal, the player must insert into the self-service terminal a dollar amount equal to the total purchase price of an 8-Legged Loot ticket and select the 8-Legged Loot option on the Lottery self-service terminal. The ticket shall be the only valid proof of the bet placed and the only valid receipt for claiming a prize.

(16) If, after claiming the Trip Prize Package, the Trip Prize Winner fails to check in to the participating hotel when arriving in Napa Valley, California or San Francisco, California, SG will use reasonable efforts to hold the participating hotel reservation. It is the Trip Prize Winner's responsibility to communicate with SG in the event of a delay in hotel registration and/or required Event registration. If Trip Prize Winner has communicated any delay to SG, SG and the participating hotel will hold the hotel room on behalf of the Trip Prize Winner. If the Trip Prize Winner does not communicate any delays to SG, the participating hotel room reservation will be cancelled and the balance of the trip portion of the Trip Prize Package shall be forfeited, including but not limited to participating hotel room, airport ground transportation, Event participation and any and all other non-contracted portions of the prize provided to the winner on SG's behalf, with the exception of the \$1,000 spending money and return airfare, less any required tax withholdings. (18) In the event that the Trip Prize Winner does not designate a Proxy and a Proxy becomes necessary to participate in the Event, for any reason, SG or the Lottery will appoint a Proxy. The Trip Prize Winner acknowledges that the appointed Proxy will have to make decisions on behalf of the Trip Prize Winner and therefore that the Trip Prize Winner delegates the power, authority, or discretion to the appointed Proxy to make such decisions on the Trip Prize Winner's behalf. In such event, SG assumes all liability which, in any way, may be associated with the appointment. There shall be no charge for the appointment of a Proxy. The Trip Prize Winner will receive any prize won by the Proxy.

(20) The forfeiture of any Trip Prize Package includes forfeiture of attendance at any of the events or activities included in the Trip Prize as described in section 9(e), above. In the event that a Trip Prize Winner must forfeit a Trip Prize Package, an alternate winner will be selected according to Lottery procedure.

(21) Except as set forth above, no prize element substitution, cash substitution, assignment, or transfer of the Trip Prize Package or any elements thereof is permitted. Any unused elements of the Trip Prize Package will be forfeited, will not be redeemable for cash, and may not reduce the prize value awarded for tax purposes.

(22) The total amount of any cash prize won, less required income tax withholding, will be mailed to each Trip Prize Winner within 30 business days after the Trip Prize Winner's departure from California. SG shall withhold from such cash prizes the minimum required federal tax withholdings and any applicable state tax withholdings and shall deposit said withholdings on behalf of the Trip Prize Winner to the appropriate agencies. The Trip Prize Winner will receive an IRS Tax Form W-2G, and may be responsible for additional state or federal taxes.

(23) In the event that a Trip Prize Package is not claimed or is refused by the Trip Prize Winner, the Lottery will select an alternate winner according to Lottery procedure, provided that such prize is still available and time requirements have not elapsed.

(24) During Round #1, Match #1 and Match #3 of the Event, all House Members in a House shall be awarded an equal prize amount (a "Prize Split") if a shared prize is won. In the event that a House contains more than 16 House Members, each House Member shall receive one sixteenth of the prize won, regardless of the number of House Members in that House, if the number of House Members is greater than 16.

## DEPARTMENT OF TRANSPORTATION

### Finding

Under section 2002 of The Administrative Code of 1929 (71 P.S. § 512) establishing the Department of Transportation, the Director of the Bureau of Design and Delivery, as delegated by the Secretary of Transportation, makes the following written finding:

The selected alternative (Alternative 1) includes improvements to Exit 164 State Route (SR) 0029—Nanticoke) and Exits 165A and B (Mountain Top/Wilkes-Barre) as well as a partial realignment of I-81 northbound

and southbound. The selected alternative includes the addition of a third travel lane along both I-81 northbound and southbound to accommodate current and future traffic growth. This alternative also includes significant improvements to the I-81 northbound exit and entrance ramps with SR 0029. The SR 0029 southbound movement to I-81 northbound ramp will utilize an update to the existing ramp that passes SR 0029 under I-81. The existing I-81 northbound loop exit ramp to SR 0029 northbound will be eliminated and replaced with a proposed ramp that continues an exclusive exit loop ramp that traverses under I-81 northbound and southbound mainline using the same structures that cross over SR 0309.

A new diamond interchange between I-81 and SR 0309 is proposed in the middle-bifurcated area. I-81 northbound and southbound will be relocated to the middle of the bifurcated area to create alignments for both directions of traffic that will meet or exceed the current design requirements for a 70-mph design speed. SR 0309 will also be relocated farther to the west within the bifurcated area to better align with the proposed diamond interchange with I-81. The existing connection of Hazleton Street (SR 2003) with the existing SR 0309 will be eliminated with this alternative. Hazleton Street will be realigned to connect with the realigned SR 0309 to the west of the proposed diamond interchange.

The Environmental Assessment (EA) and EA comment responses have been evaluated by the Federal Highway Administration (FHWA) and were determined to discuss adequately and accurately the need, environmental issues and impacts of the proposed project and mitigation measures that will be taken to minimize harm as stipulated in the EA. Based on the EA, the FHWA has issued a Finding of No Significant Impact for the project. The Bureau of Design and Delivery has concluded that all State Environmental Evaluation Requirements, as published in section 2002 of The Administrative Code of 1929, have been satisfied.

Mitigation measures will be taken to minimize harm as stipulated in the EA. No significant environmental impact is likely to result from the proposed action.

## PENNSYLVANIA PUBLIC UTILITY COMMISSION

### Cancelation of Certificates of Public Convenience for Telecommunication Utilities; Failure to Oper- ate or Report Any Intrastate Operating Revenue

Public Meeting held  
July 11, 2024

*Commissioners Present:* Stephen M. DeFrank, Chairper-  
son; Kimberly Barrow, Vice Chairperson; Ralph V.  
Yanora; Kathryn L. Zerfuss; John F. Coleman, Jr.

*Cancelation of Certificates of Public Convenience for  
Telecommunication Utilities; Failure to Operate or Report  
Any Intrastate Operating Revenue; M-2024-3049348*

#### Tentative Order

*By the Commission:*

The Public Utility Code (Code) requires that by March 31st of each year, every public utility must file a report detailing its total gross intrastate operating revenue for the preceding calendar year. 66 Pa.C.S. § 510(b). This report is essential for the Commission to fund its operations and to properly allocate assessment costs among the regulated utility community. Id. Commission regulations authorize the cancelation of a telecommunication utility's Certificate of Public Convenience (CPC) for failure to comply with applicable reporting requirements such as the filing of annual financial reports. See 52 Pa. Code § 63.36.

The Commission has undertaken a review of its records which has revealed that a significant number of telecommunication utilities have repeatedly failed to file the required annual assessment report or have continually reported zero intrastate operating revenue in their filed annual assessment report. Specifically, each telecommunication utility listed in Appendix A, attached hereto, has failed to report any intrastate operating revenue to the Commission since calendar year 2020. The telecommunication utilities listed in Appendix B have either reported zero intrastate revenue since 2020 or reported zero intrastate revenue in any year since 2020 in combination with not reporting intrastate operating revenue.

The Commission's Bureau of Administration sent a final warning letter to each individual telecommunication utility listed in Appendix A and Appendix B, requesting that they either file an assessment report detailing their annual intrastate operating revenue for the applicable period or notify the Commission of their desire to abandon their CPCs. The telecommunication utilities were provided twenty (20) days to comply. The letter further warned the telecommunication utilities that their failure to comply with the filing directive would result in the Commission taking appropriate action to cancel their CPCs. None of the telecommunication utilities listed in Appendix A or Appendix B responded to the warning letter.

The Public Utility Code requires each telecommunication public utility to operate continuously and without unreasonable interruptions of service. 66 Pa.C.S. § 1501. Section 510(b) of the Code requires these public utilities to file a report detailing their total gross intrastate operating revenue for the preceding calendar year based on the intrastate revenues it generates from the jurisdictional telecommunication services it offers within the Commonwealth of Pennsylvania. 66 Pa.C.S. § 510(b).

Under the present circumstances, the failure of the telecommunication utilities listed in Appendix A to file an annual assessment report for various years has created a rebuttable presumption that they are not operating in the Commonwealth of Pennsylvania. Additionally, the continual filing of zero intrastate operating revenue in their annual assessment form by the telecommunication utilities listed in Appendix B has created a rebuttable presumption that they are not providing jurisdictional telecommunication services in the Commonwealth of Pennsylvania.

As such, we determine that the actions of failing to file an annual assessment report with the Commission or reporting zero intrastate operating revenue in each successive calendar year since 2020 indicates that there is no need for these non-reporting or zero reporting telecommunication utilities to possess a CPC in Pennsylvania. These carriers are not in compliance with the reporting requirements of 66 Pa.C.S. § 510(b) nor are they in compliance with the operational requirements of 66 Pa.C.S. § 1501. Based on their failure to cure these deficiencies in a timely manner, we tentatively conclude that it is in the public interest to initiate the process for canceling the telecommunication utilities' CPCs listed in Appendix A and Appendix B; *Therefore,*

*It Is Ordered:*

1. That cancelation of the Certificates of Public Convenience of each telecommunication utility listed in Appendix A and Appendix B is hereby tentatively approved as being in the public interest.

2. That all parties listed in Appendices A and B, to the extent they challenge the rebuttable presumption created by their actions and inactions which led to the conclusion that cancelation of their CPC remains appropriate and in the public interest, must file comments in support of their challenge no later than 20 days after publication of this Tentative Order in the *Pennsylvania Bulletin*. The comments shall be sent to the Pennsylvania Public Utility Commission, Attn: Secretary Rosemary Chiavetta, Commonwealth Keystone Building, 400 North Street, 2nd Floor, Harrisburg, PA 17120.

3. Alternatively, the telecommunication utilities listed in Appendices A and B may file an Assessment Report with the Commission's Fiscal Office reflecting their total gross intrastate operating revenues for calendar years 2020, 2021 and 2022, no later than 20 days after publication of this Tentative Order in the *Pennsylvania Bulletin*.

4. That absent the timely filing of any comment challenging cancelation of the CPC, or the timely reporting of a telecommunication utility's gross intrastate operating revenues from calendar years 2020, 2021 and 2022, the Law Bureau shall prepare a Final Order for entry by the Secretary canceling the telecommunication utility's CPC.

5. That upon entry of the Final Order described in Ordering Paragraph No. 4 above, the CPC of each non-compliant carrier shall be canceled, and each non-compliant carrier listed in Appendix A and Appendix B will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Fiscal & Assessments Section of the Bureau of Administration.

6. That the Secretary serve a copy of this Tentative Order upon the Bureau of Investigation & Enforcement, the Bureau of Technical Utility Services, the Bureau of Administration, Department of Revenue—Bureau of Cor-

poration Taxes, and all telecommunication utilities listed in Appendix A and Appendix B. The Tentative Order shall be filed at each carrier’s docket number.

ROSEMARY CHIAVETTA,  
*Secretary*

7. That the Law Bureau shall publish a copy of this Tentative Order in the *Pennsylvania Bulletin*.
