VOLUNTEER LICENSE**§ 23.26. Volunteer license.****(a) Purpose and definitions.**

(1) The following subsections implement the Volunteer Health Services Act (35 P.S. §§ 449.41—449.50) and provide for the issuance of a volunteer license to a qualified individual who retires from active practice and seeks to provide professional services as a volunteer. A volunteer license authorizes the holder to practice only in an organized community-based clinic without remuneration.

(2) The following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Approved clinic—An organized community-based clinic offering primary health care services to individuals and families who cannot pay for their care, to Medical Assistance clients or to residents of medically underserved areas or health professionals shortage areas. The term includes a State health center, nonprofit community-based clinic and Federally qualified health center, as designated by Federal rulemaking or as approved by the Department of Health or the Department of Public Welfare.

Unrestricted license—A license which is not restricted or limited by order of the Board under its disciplinary power.

(b) *License*. A volunteer license may be issued to a licensee of the Board who documents to the satisfaction of the Board that the applicant will practice without personal remuneration in approved clinics and meets one of the following conditions:

(1) Holds a currently renewed, active, unrestricted license as an optometrist in this Commonwealth and retires from active practice at the time the applicant applies for a volunteer license.

(2) Retires from the active practice of optometry in this Commonwealth in possession of an unrestricted license which was allowed to lapse by not renewing it. A retired licensee shall meet the requirements of the act or the regulations pertaining to continued education or continued competency to be eligible for renewal.

(c) *Applications*. An applicant for a volunteer license shall complete an application obtained from the Board. In addition to providing information requested by the Board, the applicant shall provide, or cause to be provided:

(1) An executed verification on forms provided by the Board certifying that the applicant intends to practice optometry exclusively:

- (i) Without personal remuneration for professional services.
- (ii) In an approved clinic.

(2) A letter signed by the director or chief operating officer of an approved clinic that the applicant has been authorized to provide volunteer services in the named clinic by the governing body or responsible officer of the clinic.

(3) Evidence of completion of at least 3 hours of approved training in child abuse recognition and reporting in accordance with § 23.117(a) (relating to child abuse recognition and reporting—mandatory training requirement).

(d) *Validity of license.* A volunteer license shall be valid for the biennial period for which it is issued, subject to biennial renewal. During each biennial renewal period, the licensee shall notify the Board of any change in clinic or volunteer status within 30 days of the date of a change, or at the time of renewal, whichever occurs first.

(e) *Biennial renewal.* A volunteer license shall be renewed biennially on forms provided by the Board.

(1) As a condition of biennial renewal, the applicant shall satisfy the same continuing education requirements as the holder of an active, unrestricted license, including at least 2 hours of approved courses in child abuse recognition and reporting in accordance with § 23.117(b).

(2) The applicant shall be exempt from payment of the biennial renewal fee of § 23.91 (relating to fees).

(f) *Return to active practice.* A volunteer license holder who desires to return to active practice shall notify the Board and apply for biennial registration on forms provided by the Board.

(a) This section and §§ 23.82—23.89 apply to all optometrists who are required to be licensed under the act; however, an applicant, upon successful completion of the optometric examination for licensure, shall be exempt from the requirements of continuing education for only the biennial period during which the applicant successfully completed the examination if the applicant takes the examination within 2 years from the applicant's graduation from an accredited college or school of optometry.

(b) An individual who is in an inactive status or is a retired practitioner is not required to meet the continuing education requirements as outlined in this section and §§ 23.82—23.89 except to the extent that, upon application for reactivation, the individual shall be required to show proof of continuing education for the biennial period immediately preceding the request for reactivation, including at least 2 hours of approved courses in child abuse recognition and reporting as required under § 23.117(b) (relating to child abuse recognition and reporting—mandatory training requirement).

A licensee whose license is not renewed by the

expiration of the biennial renewal period may not engage in the practice of optometry until the continuing education requirements are satisfied and the license has been renewed or reactivated.

(1) For licensees certified in accordance with 4.1 of the act (63 P.S. § 244.4a), regarding certification to prescribe and administer pharmaceutical agents for therapeutic purposes, at least 6 of the required 30 hours shall concern the prescription and administration of pharmaceutical agents for therapeutic purposes.

(2) For licensees certified in accordance with section 4.2 of the act (63 P.S. § 244.4b), regarding additional requirements to prescribe and administer pharmaceutical agents for the treatment of certain types of glaucoma, at least 4 of the 30 hours shall concern the prescription and administration of pharmaceutical agents for the treatment of glaucoma. No more than 4 hours taken in the treatment of glaucoma may be applied toward the 6 hours required to maintain therapeutic certification; however, all licensees shall complete at least 30 total hours.

(3) Completion of a Board-approved course described in section 4.1(a)(2) of the act or continuing education described in section 4.2 of the act shall satisfy the continuing education requirement for the biennial renewal period in which it is completed including the 6-hour requirement in therapeutics and the 4-hour requirement in glaucoma.

(b) Licensees shall certify completion of the required continuing education on the biennial renewal application as a condition of renewal. False certifications will be ground for disciplinary action under section 7(a)(3) of the act (64 P.S. § 244.7(a)(3)).

(c) The Board may randomly audit licensees to ensure compliance with the continuing education requirements. A licensee selected for audit shall provide information to document the licensee's completion of required continuing education, which shall include the information at § 23.87(a) (relating to reporting of continuing education credit hours).

(d) A licensee who, as a result of an audit, is determined to be deficient in continuing education hours will be subject to formal disciplinary action under section 7(a)(8) of the act (63 P.S. § 244.7(a)(8)), or will be subject to the issuance of a citation under 63 Pa.C.S. § 3108 (relating to civil penalties) in accordance with § 43b.25 (relating to schedule of civil penalties—optometrists).

(e) Notwithstanding other disciplinary action taken as set forth in subsection (d), a licensee who is determined to be deficient in continuing education hours is required to make up all deficient hours of continuing education and submit documentation containing the information set forth in subsection (c) to the Board within 6 months from the issuance of a citation or the imposition of formal discipline. Hours of continuing education submitted to the Board to make up for a deficiency may not be used to satisfy the continuing education requirement for the current biennium.

(f) Failure to make up all deficiencies as set forth in subsection (e) will subject the licensee to further disciplinary action under section 7(a)(8) of the act.

(g) The Board may waive the requirements of continuing education in cases of certified illness or undue hardship. It is the duty of each licensee seeking waiver to notify the Board in writing and request the waiver prior to the end of

the biennial renewal period for which the waiver is sought. The waiver will be granted, denied or granted in part.

(1) Under 23 Pa.C.S. § 6311 (relating to persons required to report suspected child abuse), optometrists are considered mandated reporters. A mandated reporter shall make a report of suspected child abuse in accordance with this section if the mandated reporter has reasonable cause to suspect that a child is a victim of child abuse under any of the following circumstances:

(i) The mandated reporter comes into contact with the child in the course of employment, occupation and practice of the profession or through a regularly scheduled program, activity or service.

(ii) The mandated reporter is directly responsible for the care, supervision, guidance or training of the child, or is affiliated with an agency, institution, organization, school, regularly established church or religious organization or other entity that is directly responsible for the care, supervision, guidance or training of the child.

(iii) A person makes a specific disclosure to the mandated reporter that an identifiable child is the victim of child abuse.

(iv) An individual 14 years of age or older makes a specific disclosure to the mandated reporter that the individual has committed child abuse.

(2) Nothing in this subsection shall require a child to come before the mandated reporter in order for the mandated reporter to make a report of suspected child abuse.

(a) Under 23 Pa.C.S. § 6318 (relating to immunity from liability) an optometrist who participates in good faith in the making of a report of suspected child abuse, making a referral for general protective services, cooperating or consulting with an investigation including providing information to a child fatality or near fatality review team, testifying in a proceeding arising out of an instance of suspected child abuse or general protective services or engaging in any action authorized under 23 Pa.C.S. §§ 6314—6317, shall have immunity from civil and criminal liability that might otherwise result by reason of the optometrist's actions. For the purpose of any civil or criminal proceeding, the good faith of the optometrist shall be presumed.

In accordance with 23 Pa.C.S. § 6311.1 (relating to privileged communications), privileged communications between a mandated reporter and a patient do not apply to a situation involving child abuse and do not relieve the mandated reporter of the duty to make a report of suspected child abuse.

(b) *Criminal penalties.* Under 23 Pa.C.S. § 6319 (relating to penalties), a mandated reporter who is required to report a case of suspected child abuse or to make a referral to the appropriate authorities, and who willfully fails to do so commits a criminal offense, as follows:

(i) The mandated reporter willfully fails to report.

(ii) The child abuse constitutes a felony of the first degree or higher.

(iii) The mandated reporter has direct knowledge of the nature of the abuse.

(3) If the willful failure to report continues while the mandated reporter knows or has reasonable cause to suspect a child is being subjected to child abuse by the same individual, or while the mandated reporter knows or has reasonable cause to suspect that the same individual continues to have direct contact with children through the individual's employment, program activity or service, the mandated reporter commits a felony of the third degree, except that if the child abuse constitutes a felony of the first degree or higher, the mandated reporter commits a felony of the second degree.

§ 23.117. Child abuse recognition and reporting—mandatory training requirement.

(a) Except as provided in subsection (c), individuals applying to the Board for an initial license shall have completed at least 3 hours of training in child abuse recognition and reporting requirements which has been approved by the Department of Human Services and the Bureau, as set forth in § 23.118 (relating to child abuse recognition and reporting course approval process). The applicant shall certify on the application that the applicant has either completed the required training or has been granted an exemption under subsection (c). The Board will not issue a license unless the Bureau has received an electronic report from an approved course provider documenting the attendance or participation by the applicant or the applicant has obtained an exemption under subsection (c).

(b) Except as provided in subsection (c), licensees seeking renewal of a license issued by the Board shall complete, as a condition of biennial renewal of the license, at least 2 hours of approved continuing education in child abuse recognition and reporting, as a portion of the total continuing education required for biennial license renewal or reactivation set forth in § 23.82 (relating to continuing education hour requirements; continuing education reporting; audit and enforcement). For credit to be granted, the continuing education course or program must be approved by the Bureau, in consultation with the Department of Human Services, as set forth in § 23.118. The Board will not renew a license unless the Bureau has received an electronic report from an approved course provider documenting the attendance or participation by the licensee in an approved course within the applicable biennial renewal period or the licensee has obtained an exemption under subsection (c). If a licensee also holds a license issued by another licensing board within the Bureau that requires mandatory training in child abuse recognition and reporting, credit for completion of an approved course will be applied to both licenses.

(c) An applicant or licensee may apply in writing for an exemption from the training/continuing education requirements set forth in subsections (a) and (b) provided the applicant or licensee meets one of the following:

- (1) The applicant or licensee submits documentation demonstrating that:
 - (i) The applicant or licensee has already completed child abuse recognition training as required by section 1205.6 of the Public School Code of 1949 (24 P.S. § 12-1205.6).
 - (ii) The training was approved by the Department of Education in consultation with the Department of Human Services.
 - (iii) The amount of training received equals or exceeds the amount of training or continuing education required under subsection (a) or subsection (b), as applicable.
 - (iv) For purposes of licensure renewal, the training must have been completed during the relevant biennial renewal period.

(2) The applicant or licensee submits documentation demonstrating that:

(i) The applicant or licensee has already completed child abuse recognition training required by 23 Pa.C.S. § 6383(c) (relating to education and training).

(ii) The training was approved by the Department of Human Services.

(iii) The amount of training received equals or exceeds the amount of training or continuing education required under subsection (a) or subsection (b), as applicable.

(iv) For purposes of licensure renewal, the training must have been completed during the relevant biennial renewal period.

(3) The applicant or licensee submits documentation acceptable to the Board demonstrating why the applicant or licensee should not be subject to the training or continuing education requirement. The Board will not grant an exemption based solely upon proof that children are not a part of the applicant's or licensee's practice. Each request for an exemption under this paragraph will be considered on a case-by-case basis. The Board may grant an exemption if it finds that completion of the training or continuing education requirement is duplicative or unnecessary under the circumstances.

(d) Exemptions granted under subsection (c) are applicable only for the biennial renewal period for which the exemption is requested. If an exemption is granted, the Board will issue or renew the license, as applicable. If an exemption is denied, the Board will e-mail the applicant or licensee a discrepancy notice notifying them of the need to either complete an approved course or, if warranted, to submit additional documentation in support of their request for exemption.

INTERPRETATIONS

§ 23.301. Interpretation relating to sources of continuing education hours—statement of policy.

(a) *Purpose.* This statement of policy is intended to clarify to the regulated community the Board's current interpretation of "individual study" contained in § 23.86 (relating to sources of continuing education hours).

(b) *Background.* As a requirement for optometry license renewal, under § 23.82 (relating to continuing education hour requirements; continuing education reporting; audit and enforcement), licensees must complete at least 30 hours of Board approved continuing education in each biennial renewal period. This continuing education must be taken from a Board-approved optometry continuing education provider listed in § 23.86(a). Section 23.86(g) allows for up to 15 hours of the required 30 hours to be individualized study programs. Taped study programs, online or webinar programs and journal courses are considered individual study programs. At a minimum, 50% of continuing education credits must be obtained from attendance at live, in person courses and programs. The Board has received inquiries regarding whether § 23.86(g) applies to "live virtual" courses and programs that are conducted through synchronous (real-time) audio and video communications where the instructor and participant can interact in real-time.

(c) *Interpretation.* For purposes of § 23.86(g), the Board interprets § 23.86(g) to exclude live virtual courses and programs that are conducted through synchronous (real-time) audio and video communications where the instructor and participant can interact in real-time. Stated differently, the Board considers live virtual courses and programs with real-time (synchronous) video and audio communication as live, in person, continuing education.
