Code § 641a.10 (relating to procedures for dealing the cards from an automated dealing shoe).

§ 641a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) After all wagers have been placed, if any player placed a Six Card Bonus Wager, the dealer shall deal one card, face down, to the area on the layout designated for the placement of the Six Card Bonus card. The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the

table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 641a.7 (relating to wagers) and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The dealer's sixth card shall be dealt face up. The dealer's fifth and sixth cards shall be dealt consecutively.

(e) After five cards have been dealt to each player and six cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If any player placed a Six Card Bonus Wager, the dealer shall deal one card, face down, to the area on the layout designated for the placement of the Six Card Bonus card. The dealer shall then, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 641a.7 (relating to wagers) and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The sixth card dealt to the dealer shall be dealt face up. The dealer’s fifth and sixth cards shall be dealt consecutively.

(c) After five cards have been dealt to each player and six cards have been dealt to the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all

wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 641a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed a wager in accordance with § 641a.7 (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 641a.7. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer’s cards.

(c) The dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and turn the bottom card of the stack face up on the dealer's hand. If any player placed a Six Card Bonus Wager, the dealer shall then deal the next card in the stack face down on the area of the layout designated for the placement of the Six Card Bonus card. The dealer shall then place the remaining cards of that stack in the discard rack without exposing the cards. After the cards have been dispensed and delivered, the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the remaining cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the dealer's six cards may be dispensed before the five cards are dispensed to each player.

§ 641a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 641a.8, § 641a.9 or § 641a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Four Card Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards and placed the cards face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount from one to three times the amount of the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player:

(1) Has placed an Ante Wager and an Aces Up or Six Card Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but may not forfeit the Aces Up or Six Card Bonus Wager.

(2) Has placed an Ante Wager and a Four or Five-Card Progressive Payout Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Progressive Payout Wager but may not forfeit the eligibility to receive an Envy Bonus under § 641a.12(d) or (e) (relating to payout odds; Envy Bonus; rate of progression).

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, if applicable, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and select the four cards that form the highest possible ranking Four Card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and select the four cards that form the highest possible ranking Poker hand for each player.

(3) If a player's highest ranking Four Card Poker hand is ranked:

(i) Lower than the dealer's Four Card Poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player.

(ii) Higher than or equal to the dealer's Four Card Poker hand, the dealer shall pay the Ante and Play Wagers and any Ante Bonus in accordance with the payout odds in § 641a.12(a) and (b).

(4) After settling a player's Ante and Play Wagers, the dealer shall settle any Aces Up Wagers by determining whether the player's Four Card Poker hand qualifies for a payout in accordance with § 641a.12(c). A winning Aces Up Wager shall be paid irrespective of whether the player's Four Card Poker hand outranks the dealer's hand.

(5) The dealer shall then settle the player's Four or Five-Card Progressive Payout Wager, if offered by the certificate holder. For the Five-Card Progressive Wager, the dealer shall form the highest ranking five-card Poker hand from the five cards dealt to each player. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Four-Card Progressive Payout Wager in accordance with the payout odds in § 641a.12(d) or the winning Five-Card Progressive Payout Wager in accordance with the payout odds in § 641a.12(e). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus as follows:

(A) A player making a Four-Card Progressive Payout Wager shall receive a Four-Card Envy Bonus when another player at the same Four Card Poker table is the holder of a Four-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Four-Card Envy Bonuses if more than one other player is the holder of a Four-Card Envy Bonus Qualifying Hand. A player is not entitled to a Four-Card Envy Bonus for his own hand or the hand of the dealer. Four-Card Envy Bonus payouts shall be made in accordance with the payouts in § 641a.12(d)(5).

(B) A player making a Five-Card Progressive Payout Wager shall receive a Five-Card Envy Bonus when another player at the same Four Card Poker table is the holder of a Five-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Five-Card Envy Bonuses if more than one other player is the holder of a Five-Card Envy Bonus Qualifying Hand. A player is not entitled to a Five-Card Envy Bonus for his own hand

or the hand of the dealer. Five-Card Envy Bonus payouts shall be made in accordance with the payouts in § 641a.12(e)(5).

(6) After settling any Aces Up Wagers, the dealer shall settle a player's Bad Beat Bonus Wager as follows:

(i) If the player's hand contains a two pair or better and the dealer's hand outranks the player's hand, as provided in § 641a.6(b) (relating to Four Card Poker rankings), the certificate holder shall pay the winning Bad Beat Bonus Wager in accordance with § 641a.12(f) based on the rank of the player's losing hand.

(ii) If the dealer's hand contains a two pair or better and the player's hand outranks the dealer's hand, as provided in § 641a.6(b), the certificate holder shall pay the winning Bad Beat Bonus Wager in accordance with § 641a.12(f) based on the rank of the dealer's losing hand.

(iii) If the player's hand and the dealer's hand tie, if the player's hand of two pair or better does not lose to the dealer's hand, or if the dealer's hand of two pair or better does not lose to the player's hand, the dealer shall collect the player's losing Bad Beat Bonus Wager.

(7) After settling a player's Aces Up Wagers, the dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. The dealer shall form the highest ranking five-card Poker hand of the player and the dealer. For the dealer's hand, the dealer shall form the highest ranking five-card Poker hand from the first five cards dealt to the dealer. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 641a.12(g). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(8) The dealer shall then settle a player's Six Card Bonus Wager by revealing the Six Card Bonus card and combining it with the player's five cards to form the highest ranking Poker hand as provided with § 641a.6(e). If the player's hand:

- (i) Does not contain a three-of-a-kind or better, the dealer shall collect the player's losing Six Card Bonus Wager.
- (ii) Contains a three-of-a-kind or better, the dealer shall pay the winning Six Card Bonus Wager in accordance with § 641a.12(h).
- (d) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.
