The provisions of this Chapter 209 adopted October 28, 1977, effective October 29, 1977, 7 Pa.B. 3207, unless otherwise noted.

Notes of Decisions

This chapter which governs requests for reasonable access to a designated highway network did not apply because the request by the trucking company was for permission to obtain wide-vehicle access to National network of highways and this chapter only applies to requests to operate a tractor trailer combination with two trailers or to exceed the length limitation for truck trailer combinations. *Pleasant Trucking Inc., v. Department of Transportation*, 636 A.2d 1284 (Pa. Cmwlth. 1994).

§ 209.1. Purpose and application.

Combinations authorized by 75 Pa.C.S. § 4904(e) (relating to limits on numbers of towed vehicles) to have two trailers, or by 75 Pa.C.S. § 4923(b)(6) (relating to length of vehicles) to exceed the length limitation for combinations may be granted reasonable access to utilize highways between the highway network designated under 75 Pa.C.S. § 4908(a)(1) (relating to operation of certain combinations on interstate and certain primary highways) and terminals or points of loading or unloading of household goods, as provided by 75 Pa.C.S. § 4908(a)(2)(ii) and (b)(2), if the terminals or points may be accessed safely and reasonably.

§ 209.2. Application for access.

An application for access to terminals or loading or unloading points shall be made in writing to either the Department of Transportation, or a city or municipal highway department under 75 Pa.C.S. § 4908(d) (relating to operation of certain combinations on interstate and certain primary highways). The application

§ 209.3. Approval of applications.

(a) A request for route approval under this chapter will be either approved as submitted, approved with additional listed restrictions upon operation, or disapproved in writing within 30 days of receipt of the request by the Department of Transportation, or the relevant city or municipal highway department. In the event the requested route requires the approval of the Department and one or more municipalities, the 30-day period for review by a municipality shall commence upon receipt of the request by the municipality. The 30-day period for review by the Department will commence upon receipt of approval or disapproval from all municipalities involved, or expiration of the municipalities' 30-day period for review, whichever comes first. In no event will this process take longer than 90 days without the consent of the applicant.

(b) The period of time provided for review of applications may be extended by written notice to the applicant for a period of time agreed upon by the applicant and the Department or the relevant city or municipal highway department, or for 15 days without agreement of the applicant for good cause stated in the notice to the applicant.

(c) An application not approved or disapproved within the time periods stated in this section will be deemed approved by the Department or the relevant city or municipal highway department.

(d) Disapprovals or restricted approvals of applications shall be in writing and explain the reasons for the disapproval or restricted approval of the application.
